XLIV. NO. 18.

THE RECORD: NORTHVILLE, MICH., FRIDAY, NOVEMBER 28, 1913.

\$1.00 PER YEAR IN ADVANCE.

## FARMERS ANXIOUS FOR CO-OPERATION

HAD VISIONS OF BIG ELEVATORS AND BIG PROFITS FOR PRODUCE.

paid \$10 for a Membership but for What They Don't Yet Quite Understand.

Last summer a fine looking, gentlemanly appearing and smooth talking man drove through the country hereabouts in the interest of the Michigan Farmers' Co-operative association, principal office Detroit.

E. P. Anderson was the name he gave and his idea was to organize the farmers into an association for mutual benefit and profit, especially so the farmer thought and was just what they had been looking for.

Seventy-five farmers in this vicinity took a \$10 membership and had visions of a big elevator being built at the P. M. station here, where they could draw all their produce and dispose of it direct to the consumer at greatly advanced prices. The farmer understood that the elevator was to be running inside of 60 days and in consideration of the big profits they were sure to get, they commenced to accumulate automobile catalogs, railway guides and hotel accommodation information in Florida and California.

As nothing further has been heard of the elevator or the "co-operation" excepting notices from the banks that their \$10 notes were due, the farmers are beginning to wonder if they have once more been flim-farned, or whether the elevator will still be built.

Mr. Anderson is now said to be co-operating the farmers down in the southern part of Wayne where they are apparently just as anxious for the big profits as in the northern part of the county.

Anyhow, Northville farmers' dreams of automobiles, sunny south and golden west seem to have gone a glimmering.

Some people who have invested in the matter a little claim that these farmers, in consideration of being allowed to part with their \$10, agreed to perfect a local organization to gather in the produce, feed, etc., in a preparatory shape for the city consumer.

## STILL GETTING WHITE FISH EGGS

The U. S. fish station at Detroit, under the direction of Foreman B. G. Pike has secured 70,000,000 white fish eggs and expects to get upwards of eighty to one hundred million more before the season ends. The effort hatched can accommodate over three hundred million eggs, but the loss by the storm up around Saginaw bay will make at least a hundred million shortage this year.

## THE TACTFUL SEASON IS HERE

## CITY PEOPLE LIKE DUSTY VELVET SEATS

HAVEN'T SENSE ENOUGH TO GET IN A NEAT, ATTRACTIVE CITY CAR.

Crowded into a Big Interurban, Laden with Smoke, Dust and Whiskers

There is a loud complaint coming from all country directions, over the crowding of the interurban cars by city people who fill up the cars to the discomfort of the passengers going long distances. As an illustration, one evening last week the Northville Farmington, Redford limited, leaving Detroit at 5 p. m. had 102 passengers after crossing Washington Boulevard. Many passengers for the country points were unable to get aboard the car, at all when it got out as far as Trumbull avenue. When the car left the city limits it had 26 passengers, the majority of whom had been 'straphangers' as far as Grand Boulevard west.

Country people cannot understand why city people continue to crowd on the interurban cars when the city cars are right close behind (or ahead) roomy and much better ventilated and just as comfortable to ride in. As a remarkable contrast the people from the country never board a suburban car while riding in the city, and the only thing that the country people can think of as their attraction for the city people is that the dusty, velvet upholstered cushions put them so much in mind of their furniture at home.

If the people of the city had half the sense the people from the farms have they would stick to their own neat, commodious and well-ventilated pay-as-you-enter cars.

## STARKWEATHER—TURNER.

Mr. Edward N. Starkweather, Northville's well known stock breeder raiser of live stock and hustling business man was united in marriage with Miss Ruth D. Turner of South Lyon, today. The marriage ceremony was performed by Rev. J. E. Webber of the Presbyterian church at the Starkweather stock farm residence west of this village. Mr. and Mrs. Starkweather leave this evening for Chicago, where they will attend the International Live Stock exhibition for a week before returning home.

The bride is the daughter of Mr. and Mrs. Wm. Turner, well known residents of South Lyon, and is a graduate of the King Edward school of London, England. Their many friends both here and at South Lyon will wish them a joyful and prosperous wedded life.

## McLAREN—BABBITT.

Miss Marion Lea Babbitt, only daughter of Mr. and Mrs. Louis A. Babbitt of this place was united in marriage with Mr. John Jay McLaren, son of Mr. and Mrs. J. D. McLaren of Plymouth, at the bride's home on Cady street on Thursday evening of last week. Rev. J. E. Webber of the Presbyterian church performed the ceremony in the presence of the immediate families of the bride and groom.

Immediately after the ceremony they left for a fortnight's trip through the southern states, after which they will go to housekeeping at Plymouth.

The bride is a very popular young lady and her many friends here will unite in wishing her much future happiness.

The groom is a son of John D. McLaren the well known elevator man at Plymouth and is engaged in that business with his father.

## CLAWSON—GUNSOLLY.

A quiet wedding took place at the home of Mrs. E. J. Tremper Tuesday evening when Miss Emma Gunsolly and Mr. Hugh Clawson were united in marriage by Rev. R. M. Pierce.

The bride was attired in a very pretty dress of white voile trimmed with lace, and was attended by Miss Laura Bristol. Orsca Taylor acted as best man.

The bride is well known here, where for several years she was operator in the telephone office and later was bookkeeper and chief operator both here and at Plymouth. Since last February she has been employed at the Northville State Savings bank which position she will continue to hold.

The groom has been connected with the Latsenberger blacksmith shop for more than a year past and is held in high esteem by both his employer and the general public.

Following the serving of a dainty luncheon, the happy couple left for Allegan to spend Thanksgiving with the groom's parents. On their return they will go to housekeeping in the flat corner Main and Rogers streets, now occupied by Mr. and Mrs. R. C. Cameron.

Their numerous friends join in wishing them many years of happy life and prosperity.

## POULTRY ITEMS.

Did you ever remember Thanksgiving by furnishing eggs for the cake?

There is a lady living on Butler street who possesses a large brood of chickens. A few days ago she was overjoyed to find what she thought to be a large egg in the barn. Upon close examination, however, it proved to be an ivory ball from the pool table which had been lost by some one.

Chickens who were sad on account of the closing of the dancing at the rink on Saturday evenings, now threaten to get a skate on.

## PLAN TO SWELL PIPE ORGAN FUND

PRESBYTERIAN LADIES TO CONDUCT DEPARTMENT STORE IN THE CHURCH PARLORS.

The money making possibilities of the Presbyterian Aid society is to express itself in the form of a Department Store, to be conducted at the Church parlors, beginning Thursday noon, Dec. 4, and closing Friday night of the 7th. This store will have, in miniature, many of the features found in the big department stores, everything from a floor walker to a cash girl. The shop later will however be dispensed with.

The store will be formally opened with a business men's luncheon, on Thursday at 11:30. Mrs. W. E. Amble, an experienced cateress, will be in charge. A grocery department presided over by Mrs. C. B. Bristol, and a drug shop, managed by Mrs. Harry Noble will furnish the customer with everything from potatoes to perfumery. A "Jap" shop conducted by Mrs. Lizzie Harger will be a feature of the institution. She will sell Japanese novelties, handkerchiefs and light lunches. A manicuring parlor conducted by "Madame Shafer" will be another interesting feature. Mrs. E. C. Hinkley will have charge of the shop where domestic will be sold. The confectionery shop will be under the charge of Miss Althea Yerkes, where candies, both appetizing and attractive, will be on sale. Mrs. T. B. Henry will conduct the art department and will have on sale a rare assortment of hand painted and hand-embroidered articles.

As was announced by a recent dispatch Seigneur Possfordino, late of Paris, will be the high functionary Mrs. Charles Blackburn will be head cashier.

## MAUDE STEVENS CO. HERE.

The entertainment to be given by the Maude Stevens company this Friday, evening, will be held in the Presbyterian church, beginning at 8 o'clock.

The program promises to be very entertaining and will include impersonations of child characters by Miss Stevens, whistling solos by Miss Chamberlain and vocal selections by Miss Welsh. Their appearance here last year is a splendid recommendation and one cannot afford to miss this, the second number of the lecture course.

## GERMANS DESERT, JOIN FRENCH ARMY

Forty Per Cent of Famed Corps Found to Consist of Kaiser's Former Soldiers

### EMPEROR'S OFFICIALS PUZZLED

Berlin Papers Call Republic's Foreign Regiments Immoral and Charge Brutality and Are Doing Their Utmost to Stop Recruiting.

Paris—Germans have the reputation of being a thoroughgoing people and nothing could be more thorough than the way in which their press, conservative and radical with rare unanimity is trying to prove to the world that the French Foreign Legion is an immoral institution which ought to be abolished immediately.

The crime of the famous corps is that it has helped France to found a colonial empire in North Africa practically without shedding of French blood a fact which is made even more bitter to Germany because over 40 per cent of the soldiers in the Legion are said to have been German soldiers who deserting from abuse and torture in the German army have found a welcome refuge in the French army.

The fact is, so many German soldiers are deserting and taking engagements with the Foreign Legion that the German papers are doing their utmost to stop recruiting. They think this can be checked by publishing stories of the ill treatment which the men are alleged to receive.

Recently the War Minister found it necessary to take steps to counteract a maneuver put into operation for the purpose of obtaining information concerning the Foreign Legion. The commanders of army corps have been warned against attending to any foreign subjects to get their correspondence with the French military authorities under protest, if demanding information and money to enable a soldier to desert.

Some of the papers in Germany suggest that recruitment for the Foreign Legion is a source of all sorts of money. The commanders of the army corps are said to obtain from entering into contracts for this subject, and to report of profits to obtain information that goes to their knowledge.

The question as to whether the campaign presented in Germany to have any effect on the recruiting for the Foreign Legion is discussed by M. Jean Lemaire in the "Paris-Mercure." He desires to give in the Legion has been for a number of years a source of profit to a number of men who have been paid to recruit. He says that in 1911 and 1912, 1913 and 1914, 1915 and 1916, 1917 and 1918, 1919 and 1920, 1921 and 1922, 1923 and 1924, 1925 and 1926, 1927 and 1928, 1929 and 1930, 1931 and 1932, 1933 and 1934, 1935 and 1936, 1937 and 1938, 1939 and 1940, 1941 and 1942, 1943 and 1944, 1945 and 1946, 1947 and 1948, 1949 and 1950, 1951 and 1952, 1953 and 1954, 1955 and 1956, 1957 and 1958, 1959 and 1960, 1961 and ### WEEK'S CALENDAR

#### PRESBYTERIAN CHURCH NOTES.

(By the Pastor.)  
Morning service at 10 o'clock. Subject, "The Greatest of Sins, The Sin of Unbelief."

Sunday school at 11:20. A place for the old as well as the young.

Christian Endeavour at 6 o'clock. A training place for the young people.

Evening service at 7 o'clock. Subject, "The Rewards of Leadership." The last of the series on the subject of Christian Leadership.

The prayer meeting of next week will be held on Wednesday night instead of the usual time. This change is made because of the Poinsetta Department Store which is to be held Thursday and Friday of that week.

Every indication points to a most successful opening of the Department Store. The various Committees are working with the utmost vim. The people are responding most generously. A fine line of most everything will be had at this institution. Look to the "Poinsetta" before buying your Christmas presents.

The second number of the Lecture course will be held in the Presbyterian church. If you have not yet purchased your ticket see the pastor, he has several and is very desirous of disposing of them. He still possesses nine and two are all his family can use. Don't crowd, please.

The young people have collected a prodigious amount of old newspapers but are still hungry for more. If anyone has any more to dispose of please inform Miss Nola Rosa.

#### BAPTIST CHURCH NOTES.

Avoid Sedative Cough Medicines. If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia, use cough medicines that contain codeine, morphine, heroin and other sedatives when you have a cold or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. It cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative. ## RUNNING A NEWSPAPER.

"Many people fancy that a newspaper falls together without work, or concerted action or plan. A Presbyterian minister of Pasadena, Cal., was of this opinion, and asked to be allowed to edit an edition of the Star. The editor gladly accepted the opportunity to go fishing, and the minister took up the duties in the newspaper office. This is how he felt when he found himself at the end of the task, which it must be said, had been done quite creditably. 'My time is almost up as I pen this last line. My hand is almost paralyzed; my brain is bewildered and I am free to confess that I am right glad to vacate the holy spot. Such a rush and riot and disarray; such a jumble of potpourri; it strikes me as an effort to bring order out of chaos, and to do it lightning quick. 'I am reminded of the memorable words. The earth was without form, void, and darkness was upon the waters. Never again shall I criticize newspaper men. I shall pray for them. They will have my heart's forbearance henceforth and forever. They are the hardest worked, poorest paid, least appreciated, shortest lived brain-workers on this weary old world of ours.'"

Don't turn a business man and refuse to trade with him when you have cash simply because you owe him for past accommodations. The way to get even with him for his kindness is to patronize him when you have money and pay for what you want.

## SCHOOL NOTES.

Many written lessons were given in the High school subjects during last week.

Some excellent maps of Australia and the islands of the Pacific were handed in in grade Eight.

Lydia Clark spelled down grade Eight Friday. Contest now stands 4 to 3 in favor of the boys.

There is a great improvement in spelling in grade Eight. This is the first month that there were no failures.

The following Eighth grade pupils received 100 in spelling for November: Ida McKay, Vera James, and Uld Green.

Mr. J. W. Curfiss of Toledo, agent for the Baugh & Lamb stereopticon and the Keystone View Co. visited school Wednesday.

Mr. W. D. Stark had a piano tuner from Detroit tune the Hardman piano in the school house Tuesday. The Hardman is giving excellent satisfaction.

The absence marks for the boys and girls for October and November, in grade Eight, were the same. Each declare they are going to be the winners this month.

The children and the teachers of the Third, Fourth, Fifth and Sixth grades have raised one-fourth enough money to purchase a victrola machine. The outfit has been purchased and was first used at a union session of those grades Wednesday morning. Several of the High school teachers were present and gave pleasing talks.

Mr. G. L. Wilbur of Detroit gave the different rooms some valuable lessons in physical culture Monday. Free advice was given any who applied for it on means of correcting round shoulders, weak lungs, etc. At the close of the afternoon session a fine audience of school children gathered in the High school assembly room and listened to a program presented by Mr. Wilbur, consisting of recitations, impersonations, ventriloquism, etc. A neat sum was realized by the Athletic association which received 50 per cent of the receipts of the afternoon entertainment.

## Look Here for It.

Many a Northville Reader Will be Interested.

When people read about the cures made by a medicine endorsed from far away, is it surprising that they wonder if the statements are true? But when they read of cases right here at home, positive proof is within their reach for close investigation is easy matter. Read Northville endorsement of Doan's Kidney Pills.

H. Priest, mason, Mill St., Northville, Mich., says: "Heavy lifting was what rought on my kidney trouble. The kidney secretions passed too frequently and were painful. I had pains through my back. I had rheumatic twinges and mornings I was stiff and lame. I saw Doan's Kidney Pills advertised and got a supply at Murdock Bros. Drug store. After using them a short time I was cured. This was some years ago and I am glad to confirm the testimonial I then gave recommending Doan's Kidney Pills."

## SOUR STOMACH MAKES A SOUR MAN.

This is the day of the optimist. The "don't worry" man is a genial, smiling chap who looks forward to a bright future of health and happiness—and wealth too, of course.

The pessimist is scorned. He is blamed for a surly and gloomy disposition and receives no sympathy for his morbid forebodings.

Many a man gets the reputation for having a sour disposition, when the truth of the matter is that he has a sour stomach.

NYAL'S DYSPEPSIA TABLETS will help that man.

They contain pepsin & diastase in scientific proportions. He can eat what he likes and what the pepsin fails to digest the diastase will take care of.

A good disposition is a blessing. Nyal's Dyspepsia Tablets bring a blessing. Two sizes, 25c and 50c.

After the battle of Gettysburg in 1863, President Lincoln recommended the people to set apart the 6th day of August "to be observed as a day of national thanksgiving, praise and prayer to Almighty God." In the following year the president issued another proclamation, and the presidential proclamation has been an annual fixture ever since.

If there are to be any amateur theatrical entertainments gotten up here this winter, it is to be hoped that local talent will take charge of the affair including the coaching and drilling. There is plenty of talent here in Northville for the work, thus obviating the necessity of employing non-resident help and giving up half or more of the proceeds.

## SAILOR REFORMS, PAYS HIS BILLS

Old Sailor Could Not Be Happy While He Owed Saloon Men and Arranged Payment

### HE HAD BEEN A HUMAN DERELICT

Norwegian Pastor Uplifts Submerged Countryman and He Now Looks Forward to Sailing for Norway and Paying His Debt to His Family.

New York—Some 17 years ago Jan Petersen landed in New York from a Norwegian freighter. He was then old in experience before the mast. The records show that Petersen liked New York so well that he gave up the sea and became a derelict in the resorts along the shore in South Brooklyn, South street, Manhattan, and State Island, acquiring a reputation second to none for his ability to stow away "third rail" whiskey.

The years passed, and Jan Petersen's family in Norway wondered what had become of him. They searched the shipping records in the Norwegian seaports, but could not find any trace of him.

After the lapse of years his wife and children in Norway concluded that he was dead, and it was not until a few months ago that they found out that he was still living and had turned over a new leaf. He no longer imbibes "third rail" whiskey, and the water front resorts know him no more. He is going back to Norway soon to start life over again with his family.

In Columbia street, West, New Brighton, S. I., there is a little wooden church. It is called the Norwegian Free Evangelical Church and the pastor is the Rev. Olaf Thompson. Mr. Thompson heard about Petersen and his habits some six or seven months ago. He was told that the man had a family in Norway and that for years that family had no word of any sort from him.

It did not take the pastor long to find his submerged countryman. The old sailor's eyes were red and dim from years of dissipation. His hands shook and his manner and clothes showed how far he had fallen. Mr. Thompson gained the derelict's confidence and then followed heart-to-heart talks. Soon the effect was apparent. Petersen told Mr. Thompson that he wanted to "reform," but doubted if he could master his craving for whiskey. But the pastor persisted, and one Sunday morning the little church in Columbia street had a new member. This was Jan Petersen.

Several months have passed and Petersen in that time has not touched a drop of liquor. He has a steady job as a warehouseman. But there was something that worried the old sailor for weeks after his conversion and Mr. Thompson could not find out what it was. A few weeks ago Petersen told him: "I have a lot of shortcomings for which I am sorry, but I want to pay them off. I want to pay them off and live on what I am making. I know without pay where I was, but I want to pay the saloon men that the price, and I won't be happy until I do."

Mr. Thompson got a list of all the saloonkeepers who had trusted Petersen and putting some of his own and some of his parishioners' money with the little that Petersen had saved he started out to pay the old man's drinking debts. In every case he found that Petersen owed the money, as he had said. Most of the saloonkeepers refused to take full payment and a few refused to take anything when they heard the story.

Petersen attends church regularly. He wears good clothes. His eyes were clear and bright and there was a look of contentment on his face, for he was looking forward to the day when he could sail for Norway to pay his debt to his family.

### Historical Castle.

Paris France—The castle of Pin is now to be recognized as one of the historical castles of France. The keep dates from the fifteenth century, its walls are over eight feet thick and it has had a stormy history.

The castle has withstood many sieges and is among the few historical keeps that were not destroyed during the conquest of France. Come. It is however still in fairly good preservation and is of great interest to visitors.

### Confiscate All Aggravates.

Washington—Aggravates or other bird puns forbidden at the new tariff law to be imposed must be removed from the lists of incoming travelers and turned over to customs authorities before the travelers leave the wharf is ruling of Secretary McAdoo. The secretary said every creature will be shown women who bring such aggravates in their hats.

### Gives Steers to College.

St. Worth, Tex.—Asked for a subscription toward the Women's College of Texas and finding that he could not give a cash contribution because his beef steers were not ready for market, App Wooten, a stockman who lives in Tarrant county, gave three fat steers toward the campaign.

## AEROPLANES FOR ARMY'S CAMP

General Allen Would Train at Least Twenty Officers as Pilots.

Washington, D. C.—Twenty aeroplanes at least are needed for the United States Government service, says General James Allen, chief signal officer of the Army, in his annual report.

"These aeroplanes should be on regular practice at different points in the country throughout the year," continues General Allen. "They should be present in camps of instruction for the regular troops and organized militia. Twenty aeroplanes would provide but two for each camp of instruction. To run this number would require at least twenty specially trained officers as pilots. In addition to this each machine must carry at least one observer, which experience has shown will require much training and actual practice before the usefulness of the heavier-than-air machine is attained."

General Allen deprecates the fact that although the United States was the first nation officially to recognize the aeroplane for military purposes this Government has not kept pace with the world in the development of military aeronautics. Such has been the rapid development of aerial navigation since the Government carried out tests in 1908 that it has been left far behind.

Summed up, the aero equipment of the United States Army consists of one small practice dirigible balloon, one Wright aeroplane and three small captive balloons, says the General.

The Signal Corps has only one lieutenant and nine enlisted men on duty in connection with aeronautics, and the chief signal officer says, until the corps is increased by legislation it will be impossible to furnish more officers and men for the absolutely necessary training demanded in aeronautics.

General Allen combats the oft-repeated assertion that the United States, owing to its isolated position, is not likely to become involved in war, and that therefore the most economical procedure in aerial navigation is to wait until other nations have determined upon the types best suited to military purposes, thus shifting the expense of experiment and development to other nations.

"It must be remembered that in 1917," he says, "no one believed that this country had any prospect of a war, yet within a year from that date we were actually involved in a war with Spain without any adequate military preparation, which resulted in great confusion, expense and unnecessary loss of life. Furthermore, experienced military men cannot be created after war is declared, and the demands of this new service undoubtedly will require higher quality of training, judgment and courage than any other branch of the military service."

### Land Birds in Mid Ocean

Boston, Mass.—Far out in mid-ocean a flock of more than a dozen birds looking like one owl and covered with feathers, thrushes and such things alighted on the steamer Caladonia while on her way from Manhattan and Liverpool. The birds were exhausted after their long flight from shore and all but two chaffinches died in a short time. No one on board could explain how the birds happened to be so far out over the ocean.

### AGED NEGRO IN NIGHT SCHOOL

He Has Educated His Boys; Now His Turn.

Kansas City, Kan.—Declaring it to be his lifelong ambition to learn to read and write, John W. Smith, sixty-eight years old, a negro and a former slave appeared at the Night School for Negro Children in Kansas City, Kan., and asked to be admitted. He was enrolled, but will have to pay \$1 a month tuition. The old negro, who followed his owner, Col. Polk, in the civil war, when the master taught the Union troops explained his ignorance by saying: "My old master was mighty good to me but nobody used to think of teaching a slave to read and write. I have given all my boys a good education, and now I am going to have my turn. Almost everybody can read and write, and when I want to know what is in a paper I have to get some one to read it to me."

### AMAZING YALE SPELLING.

Freshmen at New Haven Turn In Some Wonderful Work.

New Haven Conn.—Yale freshmen who are taking English have been warned that just because they have left their "prep" schools behind they need not get careless about spelling. Instructors say that recent test papers have shown pretty general weakness in this line.

Governments, one freshman's version of "gossamer" takes the prize, but there are other efforts such as "sauce," "morse," "assisit," "speech," "squill" and "spoks." "The house of the Catapults," referred to in a paper on "Romeo and Juliet," was found located as that of the "Cap's" Scholarships stands with a sign, instructors say, the student's test in using this kind of reformation spelling.

## MELON CROPS BIG PROFITS

Arkansas Farmer Clears \$152.95 From Two Acres of Sandy Soil.

Paragould, Ark.—Watermelons, with a town of less than 10,000 inhabitants to market them to, produced a profit of \$152.95 for Robert Hays of this vicinity, on two and a half acres of sandy land this year.

Had Hays grown a sufficient quantity to ship the melons to a better market, and one not so easily supplied, he would have doubled his profit.

In nearly all farms of the St. Francis basin are sand blows, of from a quarter to two and a half acres in area, which do not produce much cotton or corn and are thus permitted to lie idle. Hays this year decided to plant the largest sand blow on his farm in melons.

Hays kept a close account of the expense in growing the melons, allowing \$3 per load for the use of his team in hauling them to town. He hauled 26 loads which brought \$284.45, which netted an expense of \$78 for the hauling. He charged \$6 for the breaking and harrowing of the ground \$3.50 for planting, \$3 for twelve plowing, \$4 for four harrowings, \$1.50 for twice going over the vines with lime, \$1 for the purchase of the lime and \$25 for the rent of the land, making a total of \$131.50.

This left the grower a net profit of \$152.95, and in addition to this he gave all melons of less than 30 pounds in weight to his hogs, thus fattening the porkers. His family of eight also partook freely of the fruit.

Many other Arkansas farmers did even better than Hays this year, because they were closer to cities, where the demand was not so easily supplied and the prices were better.

### SELLS MATCHES: GETS RICH

Niece Claims \$50,000 Left by Miser in New York.

Bloomington Ill.—Mrs R. B. Cochran of Rock Island County left recently for Rochester, N. Y., to claim an estate of \$50,000 left by her uncle, known as "Matches Lewis," an eccentric miser of that place. The police found the body of the miser, whose real name is Louis Caston, in a box which he called home. He had been dead a week when found. The dead man had a unique history. Born in France, he came to this country with his mother settling in Rochester. The boy peddled matches on the streets and laid the foundation of his fortune. By judicious investments and living cheaply amassed the fortune now claimed by his niece. It is said that there are no other relatives.

### DEER RUNS THROUGH KITCHEN

Dogs in Hunt Lose Trail and Fail to Pick It Up.

Michigan. La. Captain William Hooks of the Michigan game and his guests on a deer chase lost their quarry because the finely antlered stag ran through the Captain's kitchen.

The stag had been raised in the Michigan forest and circled before the dogs with the riders hastening to cut-off points. Suddenly, as the Hooks home the dogs lost the trail and the riders came back.

There the cooks told Capt. Hooks that while they were busy about dinner the stag jumped through an open window, landed for a moment on the hardwood floor and then dashed out through the door, heading for the swamp. When the dogs came a moment later they lost the trail at the window and were too excited to pick it up on the other side of the house.

### Funeral Car Ads Cause Protest.

Altoona, Pa.—A formal protest against the display of advertisements in trolley cars used for funeral parties has been lodged with General Manager S. S. Crane of the local traction lines by the Altoona Ministerium. While Mr. Crane has not replied it is his purpose to call the attention to the fact that the companies' handles funerals only as an accommodation that the advertising is under contract that it should cost \$10,000 to equip a regular funeral car, and only one complaint has been filed.

### Retired Admiral Runs Bird Farm.

New York—From directing the movements of a great fleet of battle ships to conducting a canary-bird farm is the step taken by Rear Admiral Hugo Osterhaus retired. Arriving here from Duesburg, Germany, Admiral Osterhaus brought with him 16 valuable canary birds. They came from the bird farm owned by his father in Germany.

"I am going to start a bird farm," said the admiral. "I will breed canaries principally but will also raise doves."

### Sympathy for Dog Fatal.

Newark, N. J.—Sympathy for a dog which was being abused cost Walter Pearson his life. The dog bit him while he cared for it and he died of rabies.

### "Chicken" Knocks Out Five Men.

## Market Report

Dairy Products Quoted Strong—Plenty of Poultry—Fruit Market Quiet.

The general feeling in farm stuff is steady and prices rule with narrow limits. Apples are easy and active. Poultry is in good supply and moderate demand, and dealers believe the Thanksgiving offerings will be sufficient. Eggs are scarce and firm. Offerings of strictly fresh are small and dealers have trouble in filling the demand. Butter is firm at an advance of 1c in the creamery grade. Cheese is steady.

### SEE AMERICA FIRST.

WASHINGTON—Come and see America's natural scenic beauties. The invitation which Secretary Lane is making ready to extend to tourists in Europe. He says the United States can offer them view as fine as any to be found in Europe.

## Even France Has a Limit.

Individualism in diet; sometimes has to be repressed even among the French, who do not usually object to costumes that strike the American tourist as somewhat extreme. The mayor of a popular seaside resort in Normandy has issued a proclamation declaring that "unusual or eccentric bathing costumes are forbidden. Ladies who do not wish to wet their ears of aserect design" then to strike the balance even, he says, "Men who appear on the beach only to pose as athletes will not be tolerated."

## AWAY WITH OBSTACLES.

The Canadian Northern Railway, in making a terminal at Montreal, has adopted the bold plan of tunneling under Mount Royal to locate its passenger station in the heart of the city, thus avoiding the necessity of purchasing a costly right of way. The cost of the terminal will probably reach \$20,000,000, and the company is developing a suburban district near its terminus to defray a part of the expense.

## ALFALFA

One of the most notable recent developments in agriculture is the spread of alfalfa.

Alfalfa has been the basis of irrigated farming in the Rocky Mountain region for years. It yields the richest hay known, and yields more of it than almost any other plant. It can be cut three times per year, and four or five tons to the acre is a fair average crop. Like all other clovers, it enriches the soil; but alfalfa roots go much deeper than those of common clover; and the fertility they store lasts longer.

All these good qualities have been known for a long time, but until recently there has been a persistent superstition that alfalfa would not grow in this, that or the other locality. Recent experiments seem to show that alfalfa can be grown in any part of the United States, provided the soil is "sweetened" with lime, and in some cases inoculated with bacteria. Restorer of "wornout" farms it has. This is troublesome, to be sure, but alfalfa is worth a little trouble. As a rival.

Some famous German vineyards on the Rhine practice a fifty year rotation of crops. The old vines are grubbed out of a piece of tired land, and alfalfa is planted. This is left for five years, when it is turned under, and new vines set out on the carefully cultivated soil. In five years more the vines are bearing, and continue to produce for four years, when they give place to alfalfa again.

## New Oklahoma Oil Field Attracts Many

Big Producers Found in Territory West of Ardmore First Tapped by Santa Fe.

ARDMORE, OK.—The newly discovered oil fields west of Ardmore, in Love and Carter counties, are attracting hundreds of oil men.

All the land in the surrounding country is being leased. Men who were early on the ground and got leases at normal prices are being offered a bonus of from \$30 to \$50 an acre. The opinion prevails that the present development is at the edge of what may prove to be a big pool. The line of production runs from northwest to southeast, from Cornish toward Oil City. The "experts" incline to the belief that the pool is south and west of this line, and that north of this line it would not pay to drill.

## Cost of Civilization.

No more forcible illustration of a burden which the advancement of a people activities of a modern nation, on force upon a people is to be found than in the changes taking place in Japan as that nation gradually effects its transition into a modern industrial world power. It is said that the cost of living has been lowered about 200 per cent in the last ten or fifteen years, due to the importation of goods which were wholly unknown fifty years ago. The life of the people was primitive and simple. It may be that the condition of the poor under the old regime was a better one than is under the present conditions.

## Tramp Saves Many Lives.

Scores Grasp His Hand After War—Editor Prevents Wreck.

TESUP, GA.—Scores of war-engaged left the coaches of a day way, train 16 miles north of here to save the hand of a tramp who saved their lives.

The train carrying four crowded sleepers and several day coaches was rushing toward a broken rail at a speed of 40 miles an hour, when the tramp appeared in front of the locomotive waving his arms.

## DON'T DOPE A PUNY CHILD.

Parents do not realize how much their children are affected by the use of "dope" or "drugs," such as opium, morphine, cocaine, etc., which are so easily obtained. These drugs are not only harmful to the child's health, but they also make the child a danger to society. It is the duty of parents to protect their children from these harmful influences.

Give that child something that will really build up—strengthen the weak tissues—feed the stunted, dwarfed, puny muscles—make it live, strong, vigorous—this is the annual spring children's treatment by nature's own medicine—Revall's Olive Oil Emulsion.

Revall's Olive Oil Emulsion is a whole-some, nourishing, free from alcohol and dangerous drugs. It is the ideal nerve, blood and body builder. It does the work it is planned to do, better than any other medicine we know of, and our faith in it is so great that we not only urge you to use it and give it to your children—but we guarantee that it will do all we say, it will, or cost you nothing.

Revall's Olive Oil Emulsion should be given to children who catch cold easily. Begin right away, and use it to build up the child's system to such strong health that it can resist colds, croup, grippe, bronchitis, catarrh, pneumonia, and other cold, weak, or diseased. You who are weak and run down and who are well now, but are liable to suffer from various cold weather ailments, use Revall's Olive Oil Emulsion to get and keep well and strong. For the tired, run-down, nervous, emaciated or debilitated—the convalescing—growing children—aged people—it is a tonic and to renewed strength, better spirits, glowing health.

Revall's Olive Oil Emulsion—king of the celebrated Revall's Remedies—is for freedom from sickness of you and your family. You'll be as enthusiastic about it as we are when you have noted its pleasant taste, its strengthening, invigorating, building up, disease-preventing, effects. It does not help you, your money will be given back to you without argument. Sold in this community only at our store—The Rexall Store—one of more than 7,000 leading drug stores in the United States, Canada and Great Britain.—A. E. Revall, Northville, Mich.—Advt.

The following unsolicited testimonial should certainly be sufficient to give hope and courage to persons afflicted with chronic dyspepsia. ## Sampling Mother's Doughnuts

HUNGRY kids are sampling them today just as they did in your doughnut days.

Our artist has taken the old familiar story and brought it up to date. He has given Mother a modern up to date Acetylene cooking range.

It may surprise you to learn that such ranges are actually being used by the women folks in over two hundred thousand country homes.

As you will note from the picture, they are duplicates of city gas ranges used throughout the world. They furnish heat on tap—and have the high ovens with glass doors and all other modern features.

If you feel that your folks would appreciate the convenience of gas for lighting and cooking—if you feel that they have battled long enough with kerosene, oil, coal, ashes and soot, you should without delay look into my home made Acetylene proposition.

I am the representative for this district, of the largest manufacturers of country home Acetylene plants in the world—namely, the Oxweld Acetylene Co.—manufacturers of the famous Pilot Acetylene Light Plants.

Pilot plants are different from any of the other hundreds of American Acetylene machines. They work on a different principle. They are not storage systems—they are automatic—they make gas a little at a time, while the stove or the lights are in use. At other times the plant stands idle.

Pilot lighting plants are built upon honor to last a lifetime. They are permanent features of the home in which they are installed.

In fifteen years only two accidents have been charged to the misuse and abuse of Pilot plants. While during the same period over one hundred thousand fires and accidents have been charged to other illuminants.

For these reasons you should not judge Acetylene until you have seen it made by a Pilot plant. The Pilot is the one plant that is mechanically perfect. This is proven by the fact that there are over sixty thousand of them in actual use today.

At your convenience I can call at your home with a portable demonstrating plant and show you how the Pilot works—how it generates home made Acetylene—how it automatically mixes the Union Carbide and water to make this gas.

I can show you also how this home made Acetylene is used to produce the most brilliant and beautiful light, known—how it is used in cooking ranges which do away with the work and bother of handling fuel and ashes.

If you wish, I can send you also the Oxweld Acetylene Company's advertising books. These books tell how Acetylene is used for over a hundred different purposes—how the government uses Acetylene machines, on account of their reliability, to light the coast of Alaska and the whole Panama canal.

With these books I will gladly furnish you free estimate of the cost of a Pilot lighting plant with capacity to fit your requirements. Just write me how many rooms you have and also how many barns and outbuildings you would light. Just address—

Alex. Brown, Attorney, Detroit.

STATE OF MICHIGAN, Circuit Court for the County of Wayne, In Chancery.

Emma Roeser, Mary E. Brown and William Hart, Complainants, vs.

Jesse Morgan, the heirs and legal representatives of Joseph Cline also spelled Cissna, his or their unknown heirs, devisees, legatees and assigns, or any person holding under them or any of them, Defendants.

A session of said court, held at the Court House, in the City of Detroit, October 25th, 1913.

Present, Hon. Henry A. Mandell, Circuit Judge.

On reading the Bill of Complaint filed in this cause from which it satisfactorily appears to the court that the above named defendants and their unknown heirs, devisees, legatees and assigns are necessary parties in this cause—and that said defendants cannot by reason of their residence, if alive, being unknown and cannot be ascertained after diligent search and inquiry—and their unknown heirs, devisees, legatees, and assigns being unnamed, be personally served with process in this cause.

On motion of Alexander Brown, solicitor for Complainants, it is ordered that said Defendants enter their appearance in said cause on or before five months from the date of this order, or in default thereof the Bill of Complaint in this cause be taken as confessed by said Defendants. It is further ordered that this order be published within twenty days after the date hereof in the Northville Record, a newspaper printed and circulating in Wayne County, Michigan, once in each week for six weeks in succession and that each publication of this order shall be followed by a description of the lands described in the Bill of Complaint.

HENRY A. MANDELL, Circuit Judge.

A true copy THOMAS E. FRASER, Deputy Register.

TAKE NOTICE—that this suit in which the foregoing order of publication has been duly entered concerns lands and the title thereof, and that said lands are described as follows:
