VOL. XLV. NO. 21.

THE RECORD: NORTHVILLE, MICH., FRIDAY, DECEMBER 18, 1914.

\$1.00 PER YEAR IN ADVANCE.

ARRESTED AS A SPOSED GERMAN SPY

JOS. TABINSKI FORMER NORTHVILLE HELD BY ENGLISH AS A SUSPECT.

HAD BEEN IN WAR ZONE WITH CANADIAN TROOPS, IN THE MEDICAL DEPARTMENT.

The effects of the war in Europe came very close to Northville's interest this week, when the following letter was received by Charles Bloom from Joseph Tabinski, a recent graduate of our schools. The letter explains itself:

Halifax, Dec. 11, 1914

Dear Mr. Bloom:—
Instead of being in France and fighting now, I am back in Canada, imprisoned as a suspected German spy. Because I told the Canadian government that I was born in Austria, and told them the truth, I'm here now confined to a certain space beyond which I can't get out on the penalty of being shot.

You know me, and my ideas, because I have lived with you people while going to high school, and know how I hate Germans and Austrians and how much do I long for Poland's freedom. Therefore I'm downhearted, because I'm here while others have a chance of fighting our oppressors (Germans and Austrians).

I asked in my letter to Rev. Kozilek to write to the S. government to intercede for me. I asked him also to call upon you and ask you to sign the petition. You have quite a number of acquaintances in Detroit. Kindly do all in your power to have this petition signed by as many prominent citizens as possible. Maybe you know Mayor Marx or Congressman Doremus, or maybe Mr. Booth knows them. If so, Mr. Doremus could push my case forward. This is a very important question for me, question of being confined for the war time without any pay, loss of time, my education, career and everything. And thanking you in advance for your kindness, I remain

Respectfully yours

JOS. P. TABINSKI

P. S.—Tell Mrs. Bloom everything about me and my case, and ask her to write me. Remember me to Mrs. Bloom and Harold. My address in care Capt. McDevitt, Intelligence Office, Citadel Barracks, Halifax, N. S., Canada.

Young Tabinski won many friends here by his intelligence, industry and upright character, and every effort is being made to get into effective communication with the proper authorities at Washington that the best local influence may be recognized in his behalf. He has had several correspondents here, and when last heard from was in England with the Canadian troops with whom he enlisted in the surgical department, and was full of enthusiasm at the opportunity for service and experience in his chosen profession. It is certainly to be regretted that so unjust a charge should have been brought against the young man.

PLYMOUTH HAS A NEW DOCTOR.

We learn that Dr. W. H. Bettors of Houghton, Mich., has located in the North Village of Plymouth, Mich. Dr. Bettors is a man of experience and highly spoken of by the people whom he served at Houghton. He is located, for the present, in the home of Mrs. Stoneburner, opposite the Byers' pharmacy, but expects to move as soon as he can make arrangements to move his household goods to a permanent location. The doctor is also a member of the A. A. P. M. Ass'n of physicians.

NORTHVILLE LADY HAS OLD CLOCK

HAS DONE THE TICK TACK STUNT FOR 80 LONG YEARS

MRS. CHARLES DUBUAR ALSO HAS A VERY ANCIENT ARMY GUN.

A recent article in the Detroit Times, told at some length, of a clock owned in Kansas that has been doing its time-honored duty unrelentingly for 70 years. Northville can show a timepiece that can go the above eight years better. Mrs. C. L. Dubuar has a "Seth Thomas" clock, bought by her paternal grandfather, Johnathan Smith, in Lockport, N. Y., 30 years ago, which is ticking away the seconds as regularly and faithfully as when purchased in the days when Andrew Jackson was president of the United States. Daniel Webster in his prime, the first locomotive ever built in this country just demonstrating that it would really locomote and perform—still in its swaddling clothes of experimentation. Not only so, but the clock has been in constant use for the more than four score years since its initial tick, except for a very few necessary pauses in the interest of cleaning and slight repairs.

And speaking of relics Mrs. Dubuar is also the owner of a gun that her maternal great, great grandfather, David Dean, carried all through the Revolutionary war, and which was again used by her grandfather, Gabriel Dean, who, in his turn carried it during the conflict of 1812, thus converting it into a "repeater." The weapon is five feet long and weighs eight pounds.

Both grooms are well known here, having lived here most of their lives. Mr. Hayes is the son of Mr. and Mrs. Zebina Hayes and Mr. Hills is one of the owners of the Hill fruit farm north of town. Mrs. Hayes has frequently visited her aunt, Mrs. Cork, and has made many friends among the young people here.

The young couples have the best wishes of a host of friends for a happy and prosperous future.

BEACH NORTHROP'S SISTER DIED AT LANSING.

The body of Mrs. Sarah L. Brisbin, a sister of B. A. Northrop of this place and Burr D. Northrop of Lansing, was brought here from that city Tuesday for burial in Oakwood cemetery. Mrs. Brisbin was born in Caledonia, N. Y., in 1833, but had lived most of her life in this vicinity and at Lansing. She had many friends in Northville, having kept house for her brother, B. A. Northrop, during recent years, and often visiting here previously, after going to Lansing to reside. The funeral was held in Lansing, and a short prayer service, conducted by Rev. J. E. Webber was held at the grave.

BASKET BALL NEWS.

The Maroons will play the Y. M. C. basket ball team of Detroit in the rink this Friday evening. Game called at 8 o'clock. The boys hope for a goodly sized crowd of rooters.

and food. At impending much the same conditions prevail. All the iron mines forces and poverty and the intense cold are causing great misery.

And even right in Northville we are informed that there are children who have not sufficient clothing to keep them warm. What about a Michigan Relief Commission, also?

F. & A. M. ELECT NEW OFFICERS.

The officers of Northville lodge No. 186 F. & A. M. for the coming year are:

W. M. Theo. H. Carrington
S. W. Carl H. Schaubert
J. W. Jas. A. Venturing
Treas.—B. A. Wheeler
Secy.—Chas. A. Dolph
S. D.—Ward Cook
J. D.—Dr. Paul Alexander
Tyler—D. L. Griswold

Installation of officers will be held Monday evening, Dec. 21, at which time the M. M. degree will be worked and lunch served.

AUCTION SALE.

Mrs. Frank Brown will sell at auction on the Vowles' premises, 1 mile north-east of New Hudson, 1 o'clock or 2:30 at 12:20 o'clock, a big good Holstein cow and calves and a Dutchman with new harness or suit of clothes. Also a full line of art goods, hats, coat and sludge.

EXTRA! EXTRA! RUSSIA ATTACKS NORTHVILLE HARBOR

During the European war Northville has presented a neutrality in keeping with ideas and suggestions of Secretary of State William Jennings Bryan, and yet we are attacked. A Russian battleship fired a broadside of 42 shots in the starboard side of Hauspark der deutschen cruiser here Tuesday forenoon as it lay quietly at anchor just off the municipal water fountain harbor. The shots all took effect and ripped a huge hole in the starboard cruiser's side but too far above the water line to do the sinking act or to cause loss of life. Reinforcements were quickly radodded in and the Russian war vessel was conveyed outside the 3 mile limit by one of the D. U. R. Dreadnaughts. To prevent any further attacks the Northville harbor has been mined and a fleet of submarines ordered sent direct from Washington. Russia has also been informed that Northville is not Mexico and that our neutrality must and shall be preserved, by gum. The shots fired were of the 16-oz. Goebel pattern.

The Assistant Attorney General Yerkezee, who rescues our war corner and who is authority on international law, states that if the attacked German vessel was a schooner and only in a floating harbor then the 3 mile limit would not apply.

Do you want to buy something? A line or two in the Record will do the trick.

OAKLAND BURGLARIES ARE NOW SOLVED

FOUR BAD MEN NOW IN PONTIAC
JAIL AWAITING TRIAL.

SHERIFF GREEN'S DRAG NET
COPPERED IN THE BUNCH SAT-
URDAY.

Five men have been arrested by Under Sheriff Green and Deputy McDonald of Pontiac, in connection with the recent robberies which have taken place in different parts of Oakland county, and now await trial in the county jail. A week or so ago the depot at Novi was broken into and the gum machine, robbed and several articles taken. The men doing the job then rode on to a farm house, one mile east of Novi, entered a barn and took robes amounting to \$25. Later Charabers Bros' store was entered at Wixom by the same men and goods taken to the value of \$50.

The men arrested are L. C. Campbell of Highland, charged with accepting stolen goods. It was in his barn that most of the goods were found. Helmer Campbell, Morris Teeples, Homer Starry and Frank Dityoung, alias Frank Jones. The Campbells, who are brothers, and Starry, have confessed to doing the jobs. Teeples was the owner of the machine and was hired to drive the men Dityoung, alias Jones, is a bad one and word was received from Mahoney City, Pa., to the effect that he is wanted there.

Much credit is due Under Sheriff Green in running down this gang and it is hoped that these men will solve several other robberies that have recently taken place in that county. The men were arraigned Monday before Justice Stockwell at Pontiac.

Tuesday afternoon L. C. Campbell pleaded guilty and drew a fine of \$25 or 30 days and was given a few days to get the mon. The others waived examination and their cases went over till Friday. Teeples who drove the auto pleaded not guilty and was released on \$500 bail.

We are not so awfully far from the
woods after all. A man was ar-

the charge of shooting a deer, and it
wasn't a domesticated or privately
owned deer, either.

burst the dog went dodging about

WEALTH FROM CALAMITY.

Yes, just that—wealth from calam-
ity.

The war in Europe is a calamity—
a world calamity—but from it will
come great wealth for the American
farmer.

He will reap the greatest benefit of
all.

When the war is over Europe will
be awoken to the fact that it is destitute
of foodstuffs.

Fields will be untilled except by
aged men, women and young boys,
and the little produced by them will
supply but a fraction of the demand.

It is then the American farmer will
step into the breach with his hundreds
of millions of dollars worth of farm
products.

The demand will be great and prices
will be correspondingly high, and the
farmer will reap a golden harvest
such as he has never known before.

And the farmer will spend liberally
in turn, and the merchant, and the
professional men, and the mechanic,
and all of the people, even unto the
humblest editor, will share in the new
accumulated wealth that is to come
from across the seas.

Tremendous crops are reported, the
government estimating corn at 2,676,
000,000 bushels, wheat at 92,000,000,
oats at 1,187,000,000, barley at 187,
000,000 bushels, and other crops in
proportion.

When the great surplus of this crop
is marketed in Europe at war prices it
will pour so much wealth into the
pockets of the farmer that our coun-
try will be flooded with gold, and the
liberality of the farmer in his own
prosperity will radiate to all branches
of trade.

Patience is the watchword today,
but tomorrow a different story will
be told.

And with patience we should com-
bine enough common sense to keep us
free from all entanglement in the
present conflict.

"At a bench."

"Oh, Lord!" groaned the lawyer
"where do you work at a bench?"

"In a factory."

"What kind of a factory?"

"Brick."

"You make bricks?"

"No, de factory is made up bricks."

"Now, Muller, listen," said the law-
yer, "what do you make in that
factory?"

"Eight dollars a week."

"No, no! What does the factory
make?"

"I dunno; a lot uv money, I tink."

"Now, listen! What kinds of
goods does the factory produce?"

"Oh," said the German, "good
goods."

"I know, but what kind of good

FRESH AIR VERSUS FUEL.

The value of fresh air as a preventive of many kinds of sickness is almost universally recognized these days by the intelligent classes. One of the most important factors in modern building is the provision for proper ventilation. The question of ventilation without undue exposure for pupils in schools has brought out many ideas, among them a system which has been installed in some eastern buildings for warming the fresh air to the proper temperature before turning it loose in closely populated rooms.

This idea suggests a question as to how ordinary folks who are not able to temper their fresh air to a comfortable degree are going to follow out such directions, for instance, as are so insistently given out by Detroit's board of health. People are told that they must sleep with wide open windows whatever the temperature, and that they must always have some windows open somewhere all day. But what of the fuel wasted? What of the hundreds of people who haven't the means of keeping warm with open windows? Wear sufficient night clothing and use sufficient bed clothing to keep comfortable with the windows open? says the board of health man. But how about the thousands who haven't the warm clothing and piles of warm bedding? Every householder knows how difficult it is to keep even the ordinary house comfortable in some kinds of weather with the windows open; and ordinary folks know, also, how much difference it makes in the fuel bill whether they live in a well-built, snug dwelling or a flimsy, ill-constructed one. Every open window, in cold weather means a loss of needed heat, with a corresponding increase in the cost. We are all aware that in the hundreds like ours the winter fuel question is one of the hardest that confronts the working man so how can we be expected to favor such a waste of heat? In earlier days folks were moderately healthy without such extreme measures. It would seem as if a thorough airing of our dwellings in the morning, a part of each day spent in the open air, and proper education and practice as to diaphragm breathing when making the fresh, life-giving out door air might be just as healthful as to sit or sleep as so many people would have it they followed out all the directions given in a perpetual chill. There should be a common sense medium to attain even in the use of the air we breathe.

WORDS OF PRAISE.

Did you ever think what kind of a world this would be for a person to live in who should always tell the absolute truth about everything? Not only would he lose all his friends by telling them the truth concerning themselves, but he would also lose their good opinion—provided he had it—were he to be entirely frank in regard to his own thoughts, motives and even his actions at all times unless he were an individual entirely too good for this world. The saying that "The truth should be spoken at all times" is not, after all, half so bad as it sounds. We are only commanded not to lie, but are not commanded to tell truths that are better untold. However, there are always certain kinds of personal truths that we are prone to refrain from voicing, that might, if told bring a ray of comfort into some discouraged heart, or make life seem far more worth living to those who have come to the point where the whole of existence seems to be summed up in "What's the use?" This kind of truth is expressed in the word of praise or commendation that is all too often withheld when it would do a world of good. Let us "get the habit" of telling our friends when they have done something well, when they have demonstrated that they possess some

admirable trait of character, when their presence has cheered us, when some word they have spoken has helped us, when we have heard a word of praise for them from others—in short, tell all the good, wholesome truths but don't tell the other kind—unless absolute necessity demands it.

ORGANIZED RELIEF FOR BELGIANS.

A recent dispatch from Ypsilanti shows that city, like many others, has a Belgian relief commission which has just collected and sent a large consignment of clothing and provisions to the stricken country mentioned. Some organizations in Northville—the Woman's Club and the King's Daughters—have already sent contributions through other cities, but some of our prominent people are of the opinion that a commission should be formed here, and the general public given a chance to share in the relief work, so that Northville, as a municipality, may line up with other towns in the nation-wide movement.

The longer the war continues the more neutral-minded observers must feel the need of some great investigating tribunal to ascertain what it is all about. Who started the rumpus, and on what terms can it now be made to stop.

As we understand the rules laid down by the Hague tribunal, Russia was under every obligation to serve five days' notice before attacking. The occurrence was a flagrant violation of international ethics.

Probably no man is as good as he ought to be—and few are as bad as they seem.

WEEK'S CALENDAR

GERMAN CHURCH NOTES.
German services and preaching next Sunday afternoon at 2 o'clock, sun time. All German Lutherans are invited to attend.

On Sunday, Dec. 20, our church services will be given in the German language.

Christmas services, half in the English and half in the German tongue, will be held in the evening of

Dec. 25, at 7:30 o'clock. Everybody welcome.

PRESBYTERIAN CHURCH NOTES.

(By the Pastor.)
Morning subject—Bethlehem's Star's Far Shining. This Christmas service should be well attended. It is hoped that all will make a special effort to be present. We will provide room for all; if necessary a second service will be held.

The evening service will be largely devoted to Christmas music. There will be a brief talk by the pastor on Christmas cheer and Christmas music. A good way to begin the Christmas season is by attending the services of next Sunday.

Remember the Sunday school and Christian Endeavor. The Sunday school will hold their Christmas entertainment next Tuesday evening. The program will begin at 7:15. Let everyone be on time. The admission will be the same as usual. One big potato or some other kind of vegetable with the donations and offerings will be given to the needy poor.

BAPTIST CHURCH NOTES.

(By the Pastor.)

Sunday morning, a Christmas subject.

In the evening the pastor will spiritualize the marriage of Isaac and Rebecca. This will be a very interesting subject.

Remember the Baptist Young People's Union at 8 o'clock Sunday evening. We invite all young people.

Christmas exercises will be held in our church next Thursday evening. A good program is being prepared and a good time is expected.

METHODIST CHURCH NOTES.

(By the Pastor.)

Sunday morning sermon topic: "The Cost of Sinning."

Evening subject: "The Shadow of the Cross."

The Christmas exercises of the Sunday school will take place next Tuesday night. A Christmas Cantata will be given. The program is in charge of the Misses Johnson, Wartman, Perkins and Kenyon.

Our Sunday school attendance has averaged over 200 each Sunday since the tabernacle meetings. The month's class has averaged 40 since that time, 22½ is the high mark in attendance.

The Every Member canvass was most heartily received by all our local members. Nearly every member of the church has made a substantial contribution.

Many Lives Saved.

Out of 2500 persons who accepted the free annual medical examination offered by one of the large insurance companies 50 per cent were found to be more or less out of order, most the derangements being in the heart, blood vessels and kidneys. Of these, 14 per cent did not suspect it. In every case the family physician was informed of the result. At the end of last year, one death in this group of 2500 was noted by the doctors.

GEORGE NEWBOUND,
Treasurer Novi Twp.

His Appeal to Papa
"Little Webster had entered into an agreement with his father whereby he was to receive a penny every time he came when called providing he covered the distance before his father counted to five. One day he was out on the lawn when called and did not start until he heard 'three.' Running as hard as he could he shouted 'Say three all the time. Say three all the time papa.'"

River Runs Under Ground.
The River Platte during the summer is dry along the greater portion of its course. The water runs underground, only an occasional pool appearing on the surface. By digging almost anywhere in its course a supply of fresh, cool water may be obtained.

STATE OF MICHIGAN, County of Wayne, ss. At a session of the Probate Court for said county of Wayne, held at the Probate Court Room in the city of Detroit, on the thirtieth day of November in the year one thousand nine hundred and fourteen.

Present, Stewart Hanley, Judge of Probate.
In the matter of the estate of WILLIAM SLATER, deceased.
William H. Ambler, administrator of said estate, having rendered to this court his final administration account and filed therewith his petition praying that the residue of said estate be assigned to the persons entitled thereto.

It is ordered, that the twenty-ninth day of December next, at ten o'clock in the forenoon, at said court room, be appointed for examining and allowing said account and hearing said petition.

And it is further ordered, that a copy of this order be published three successive weeks previous to said time of hearing, in the Northville Record, a newspaper printed and circulating in said county of Wayne.

STEWART HANLEY,
Judge of Probate.
