## ATTORNEYS RETAINED IN SCHOOL TROUBLE

### SUPERINTENDENT OF NORTHVILLE SCHOOLS SERVED WITH WARRANT.

### DISOBEDIENT PUPIL'S PARENTS OBJECT TO CORPORAL PUNISHMENT.

Charles Grey, twelve year old son of Mr. and Mrs. Frank Grey of the D. G. R. restaurant, was punished by Supt. O. M. Misenar Tuesday afternoon for extreme disobedience of rules in the Seventh grade of our schools. Mrs. Grey at once applied to Justice Noble for a warrant of arrest but was refused. Going to the prosecuting attorney in Detroit she secured orders for the issuing of a warrant by Mr. Noble which was done Thursday morning.

The school board believe the welfare of the school demands that the superintendent be protected in his efforts for discipline and to that end have hired C. C. Yerkes as attorney to defend him till the case can be fought out.

People are criticising the charge in that the boy was not injured.

The case will probably come up next week.

### TOM THUMB WEDDING.

The children of this village under 8 years of age, will present a "Tom Thumb Wedding" in the Methodist church this Friday evening.

The affair is given under the auspices of the Aid Society of that church, an out-of-town management conducting rehearsal and furnishing the costumes which are full dress suits for the boys and evening gowns for the girls, as elaborate as the grown-ups' clothes.

The wedding is open to all Northville people and will begin with the bridal procession promptly at 8 o'clock.

### BODY BROUGHT HERE.

The body of John Lee who died at Flint Monday was brought here the first of this week and taken to Eighth Street for burial. Mr. Lee was the father of Mrs. J. J. Gault of this place.

There will be a meeting of the Mother's Club in the Kindergarten room next Wednesday, Oct. 20 at 3:00 p. m. Will all the mothers please be present. Important.

It might be said that "Ham" is rather peeved this year that Bleamster has no two hundred pound guards and center like Misenar, Beachler and Ole Anderson. Taken from the "Aimaman" by a local foot ball enthusiast.

The N. H. S. High foot ball team suffered a defeat last Friday in a loose, tho' hard-fought game with Wayne E. S. Tho' the score stood 28 to 0 at the beginning of the second half our boys stuck stubbornly and only allowed their opponents to make two points in its last half. Stark; left guard, Wendell Miller; left tackle, Floyd Lanning, Peter Perkins; left end, Howard Fuller; quarterback, Truman Garfield, (captain); right half-back, Asa Whipple; full-back, Eural Clark, left half-back, Gerald Taft.

## GARRICK THEATRE, DETROIT.

The management of the Garrick Theatre, Detroit, has promised a big treat to its patrons for the week beginning next Monday evening, when The Andrus Dippel Comic Opera company who present "The Lala Demino," the elaborate musical production which made such a tremendous hit in New York and Boston all last season.

Miss Helene Merrill gives a most excellent interpretation of the mischievous school girl of the title role, who had one glorious time at a ball masque after she escapes from her governess, and plays lavie with men.

Her little black dress, and the all enveloping folds of her blue kimono. Beyond the second and third acts in the piece a display of Lum movie-making pictures are interspersed in order to create automatically the atmosphere and spirit necessary for the full appreciation of the last act which is supposed to be continuation of the pictured carnival, the pictures being a "Bath of Flowers" and carnival scenes at Nice. Some of the floats shown are wonderful in their monstrous proportions and produce unrestrained laughter at their burlesques. A fortune has been lavishly expended upon the scenic effects of the play, which are beyond doubt the most beautiful ever presented outside of the most expensive metropolitan operas.

### MINERAL WATER DISCOVERY AT WAYNE HOTEL, SUII LHOVING GREAT ATTRACTION.

In addition to all the other attractions and advantages for which "By-Name Detroit" has become so widely noted, the big city agency, destined to gain fame as a health resort as well as a pleasure city, is well equipped and equipped so consistently from all over the country. It is well known that some of the most valuable deposits in the world underlie this part of Michigan, but the extensive distribution of the valuable mineral water is not accompanied by the usual deposits of comparative recent Detroit. A couple of years ago it was discovered that such medicinal waters existed abundantly beneath the ground near the Wayne Hotel at the foot of Third avenue. Three wells were sunk, with the result that many different kinds of mineral water were obtained at different levels. Chemical analysis of which showed medicinal properties of the highest order. Today a magnificent bath house representing an outlay of many thousands of dollars and containing every possible necessary for the efficient application of the healing waters drawn from far down beneath the earth's surface, stands as an extension of the Wayne Hotel and Wayne gardens on Detroit's beautiful river front. The institution is one of the most complete of its kind in the United States if not in the world and is surely destined to add one more important feature to Detroit's popularity and fame.

### CARD OF THANKS.

For the many tokens of kindness and sympathy extended to me during my long illness by the various friends and societies I offer my most sincere thanks. MRS. D. B. HENRY.

Our Lines are Guaranteed Ones. Why Look Elsewhere?

Stoves from \$1.50 to \$50.00.

## Just a Word About Gas Stoves.

All Gas Stoves are not a good stove or a good purchase for the consumer.

During the last few months I have made a careful study and witnessed demonstrations of practically all makes of so-called manufactured Gas Stoves and Ranges. This I have done, not with the view of selling every Northville family a Gas Burning Stove, but to insure every purchaser of a Gas Stove from Our Store that they will have in their possession when purchased from us, a Gas Stove that will not only be a Satisfactory Cooker and Baker, but one that will be economical in the use of gas as a fuel to the consumer.

I find that the first cost of a Gas Stove does not require as much attention as how much will it save on the monthly gas bill.

We Stock Only Guaranteed Lines, Double Action, Garland, Peninsular. Use for your motto when purchasing a Gas Stove, "Is it economical in the Use of Manufactured Gas, and how much will it Save."

Call in and talk it over—we do not urge you to purchase. We make no distinction whether a \$1.00 Stove or a \$50.00 Range. The Stoves are ours until you are satisfied.

HE WASN'T STRINGY—HE WAS CAREFUL. HE KNEW THAT ALL THOSE LITTLE THINGS HE DIDN'T REALLY NEED WOULD AMOUNT TO A LARGE SUM SOME DAY. HE BOUGHT A BUSINESS WITH THE MONEY HE PUT IN THE BANK AND SAVED. YOU CAN DO THE SAME. BANK YOUR MONEY AND DO IT.

**RLSH FOR HUNTERS' LICENSES INCREASES**

Lansing—Deputy State Game Warden Charles estimates that 60,000 hunters' licenses have been issued in Michigan since the opening of the hunting season, and it is believed that the number will exceed 100,000 for the year.

With the opening of the partridge season Oct. 1, county clerks have been deluged with requests for licenses and they in turn have made frantic appeals to the state game warden. Resident licenses cost \$1. The county clerk or person authorized to issue the license receives ten per cent, while the remainder goes into a state fund for the propagation of game.

MICH., FRIDAY, OCTOBER 15, 1915.

THE WOLVERINE HIGHWAY PARADE.

A number of our local good roads enthusiasts and automobile owners, are to join the big Wolverine Paved Highway motor procession this, Friday, afternoon, as it lums and buzzes and honks and orates along the famous old Grand River road which connects our state capital with our state metropolis. The parade, a hundred cars strong, was scheduled to start from Lansing this morning, halting at various towns along the route for the making of speeches and the stirring up of local sentiment for the project of a paved highway across the state, the western division of which was gone over in like manner last week. It is estimated that at least half a thousand "mobiles" will be in line by the time Detroit is reached at the close of the day and the trip.

And how comes the McMullan exploring party with an opinion indicating that the land up around the north pole supposed to have been located by Peary should be classed with T. R.'s River of Doubt by geographers? Dear dear? Who would be an explorer? Probably Doc Cook feels better, anyway.

Before starting work on that new and revolutionary submarine, Mr Ford should remember that conditions don't favor getting out in the middle of a tour and cranking the blamed thing. —South Lyon Herald.

That's all right too. But Henry says it ain't good to be no such contrivance.

The reaction has set in. The automobile must go. A man over in Oakland county swapper has into for a horse and buggy. We just knew these fellows would over to the horse business sooner or later.

The meanest burglars yet heard of were the ones who broke into the house of the Methodist preacher in Farmington the other night and stole his Sunday vest and coat and pairs of trousers and carried all the rest of his clothes.

Judging from the apparently unincorporated appearance of our fair and the fact that it asked who put the sense in it, it would very probably be a trustworthy reply.

In Detroit it has been found that the fine soup served at some of the saloons was made from garbage can meat. Well, do Detroit people expect tree soup to be made from 46¢ sirloin steak?

Mr Coolings is a dry goods dealer at Durand who is advertising appropriate winter duds. He ought certainly to have a different name for cold weather salesmanship.

Talk about politeness. The Northville telephone girls when they cannot give you the number you want will offer you the choice of several other just as nice numbers.

A mere man wants to know why "Their birthdays to say," department in the Detroit News never includes any names of women. "Echo answers, why?"

There may be other villages in the United States that have as punk a road as the Main street of Farmington. We said, "There may be."

Public enthusiasm over base ball slides is now beginning to gradually give way to interest in the big ones of the Panama canal game.

An optimist may also be the fellow who tells other people not to worry when everything is coming his way.

"All the (newspaper) world loves a (pr. identical) lover"—except the Detroit Saturday Night.

And again the real proper food for kids ought to be goat's milk.

Burglars have been at work at Walled Lake this week. A strange man asked for a night's lodging at the home of John Porter and in the morning his absence and the loss of 2 trunks and \$15 in cash was the result. A few nights later the Homer Chapman house was entered and food stolen from the pantry.

Farmington Flashes.

The clothing store from Rev. R. R. Stevenson last week was found in the hands of the "Mafia" party, Friday morning.

James Hoyle of this place was elected chairman of the board of Oakland county supervisors at the time of their reorganization in this week.

Howard Warner has been selected by vote as one of the members of the 1st of M foot ball team. At present he is on the second team but in a week promises to soon put him on the first. He was called back to Ann Arbor two weeks before opening time, in order to work out on the squad.

Christian Schmidt, one of the oldest citizens in this place, dropped dead Tuesday afternoon in his home. He was one of the founders of the Lutheran church here. Surviving him are the wife and Minnie and Carl and Mrs. Wm. Borghart of Northville and Mrs. Don Coving of River Rouge. Funeral services were held yesterday afternoon.

A premium of \$75 was realized, beside interest, from the sale of \$12,000 worth of school bonds, which were sold last week Thursday. This saves the district \$100 as the bonds do not have to be delivered until the money is needed. Plans for the new building will be completed next week and the board will advertise at once for bids. Bumpus & Co. of Detroit bought the bonds.

**HIGHEST DAM IN  
WORLD DEDICATED**  
Arrowrock dam, just completed  
near Boise, Idaho, by the United States  
reclamation service and dedicated  
there last week, is 348.5 feet high,  
measured from the low points of the  
foundation to the top of its surmount-  
ing crest and is said to be the highest  
dam in the world.  
To anchor this structure it was  
necessary to blast through 915 feet  
of the volcanic rock, down to solid  
granite. Approximately 600,000 yards  
of concrete, besides a large quantity  
of steel and rock, were used in the  
dam's construction, the cost being  
\$5,500,000 or \$2,000,000 under the or-  
iginal estimate. Work was begun  
five years ago.  
Back of the dam the channel of  
the Boise river is converted into a  
reservoir extending 13 miles into the  
mountains, with a storage capacity of  
80,000,000 gallons, enough to water  
243,000 acres, adjacent to Boise and  
other towns, in what is known as the  
Boise Brigation project. The in-  
stallation of the system cost the gov-  
ernment \$12,000,000, which is to be  
paid by settlers in 20 years. The  
water storage this year has saved the  
crops of 100,000 acres, the value of  
which is estimated to be about equal  
to the cost of the dam

A feature of the dam is a device at  
one end for lifting lost from the  
reservoir into a concrete chute, land-  
ing them in the river below for the  
convenience of saw mills. Loggers  
estimate that there are 3,000,000 900  
feet of timber to be lifted over the  
dam  
A standard gauge railway, 17 miles  
long, operated by the government, and  
an electric plant generating 2,600  
horse power, are other features of the  
big system. Detroit Journal

Chas. H. Paul, who married Miss  
Candida Wheeler, daughter of Mr. and  
Mrs. H. A. Wheeler of this place, was  
construction engineer on this day  
and they have been making their  
home in Arrowrock  
**THERE'S A "COUP" IN THIS, TOO.**  
The following from the automobile  
Tough Department of the latest is-  
sue of that very handsome number of  
the newspaper family of our late  
metropolis, Detroit Saturday night,  
contains, besides its interest for  
automotists, its intimation of a possible  
visit from Saturday Night's auto editor  
and the interstitial tribute to our  
great city every reader's compliment—  
whether intended or not—to us as a  
community that discounts a whole lot  
of pessimistic opinions and encourages  
those who have a lot of faith that we  
are a pretty good town after all  
We often read of difficult hills  
climbed in New England or some-  
where on the Pacific coast. This in  
spite of the fact that we have some  
hills in this vicinity which make up  
for their lack of height by their steep-  
ness and the cussedness of the road  
One of these is the hill south of  
Northville, in the direction of the old  
reservoir, which a Hudson driver  
claims to have surmounted for the  
record of being the first motorist to  
climb it. The hill climb is made  
harder by a winding gully crossing  
the road and the motorist made two  
gear shifts in going up, from high to  
second and from second to low.  
The feat was sufficiently thrilling  
to delay a number of church-goers, a  
very significant fact considering that  
the locale was Northville. The ma-  
chine was a Hudson "Big Six" with  
seven passengers. Let us hope that  
the recording of the climb will start  
a sturdy emulation to conquer hills  
that are near enough to Detroit so  
that we can look 'em over."

**A REAL SURPRISE PARTY.**  
A jolly "bee party" took place  
Monday evening when a "swarm" of  
L. O. T. M. "girls" completely  
surprised Mrs. Frank Leadley with a  
farewell visit, bringing with them  
delicious hot coffee and many other  
good things. A practically dis-  
mantled house and a quilt in process  
of "ying off" only added to the mer-  
ment of the occasion. Some re-  
markable costumes were displayed,  
with "gating" to match. With the  
commander of the Hive, Mrs. Cole, as  
spokeswoman, the hostess was pre-  
sented with a beautiful emblematic pin  
of the order. Although Mrs. Leadley's  
residence in Northville has been com-  
paratively short, she has made many  
friends here, and goes away accompa-  
nied by all sorts of good wishes.
