Northville School Notes.

(By a Pupil.)

Elsie Hemple spelled down grade Six, last Friday.

James Christensen is a new pupil in the Eighth grade.

The Eighth grade reading class is enjoying the study of "Evangeline."

The Eighth grade History class is hard at work on the study of the civil war.

Arthur Scotten has been absent from the Third grade for the past week.

The new dictionary in the Seventh grade room is a very welcome possession.

Mary Fuller figured down and Ruth Cattermole spelled down the Eighth grade last Friday.

Everybody was present in the High school last week Thursday for the first time this year.

The Fourth grade enjoyed a party Monday afternoon honoring the eleventh birthday of Miss Merritt.

The History class of the Second grade is studying about the landing of the Pilgrims and our first Thanksgiving day.

The Senior class entertained the High school last Tuesday morning with a recitation by Elizabeth Olin and a song by the boys of the Senior class.

The first game of the N. H. S. foot ball season will be played at Audubon park Thanksgiving day at 2 o'clock. The cheer will be for the opposition.

The Eighth grade program last Thursday morning consisted of a song, solo by Robert Taylor, recitation by Elizabeth Olin, a play by the boys of the Senior class, and a song by the boys of the Senior class.

The final result of last Saturday's foot ball game with Dearborn was a tie. All of the Thanksgiving and the following day, Dearborn's attack upon the result of the game was a very interesting one. The game was a very interesting one.

Who are courteous, obedient and intelligent. I want a family who will treat them as their own. Can furnish best of food and Detroit references. Write to D. Care Record office 17w1p

MR. AND MRS. OSCAR HARGER

MARRIED FIFTY YEARS
Sunday, November 21, 1915, Mr. and Mrs. Oscar Seeley Harger of 667 Lothrop avenue, Detroit, celebrate the fiftieth anniversary of their marriage.

They were married in Philadelphia, that city being the home of the bride, Anna J. Dallas. Mr. Harger was born in Niagara county, New York, in 1835, but when one year of age his parents moved to Farmington, Mich. After their marriage, they settled upon a farm near Farmington, but moved to Detroit in the year 1891 and then to Northville in 1900, and back to Detroit in 1914.

Three children were born to them, two surviving, John D. Harger, an attorney of Detroit, and Lizzie-Marie Harger, who resides with them. Mr. Harger has followed farming as his chosen vocation, although years ago he was admitted to practice as an attorney.

Their many Northville friends are glad to know that they are both enjoying remarkable good health for their ages, and both are able to carry on the usual daily duties of life, enjoying a good time, and especially the celebration of their fiftieth wedding anniversary.

FOURTH NORTHVILLE TEACHER

WFDs.

Miss Marene Ramsey, a teacher in the Plymouth schools was united in marriage to J. T. Frederick at the home of the bride's parents, Mr. and Mrs. C. E. Ramsey, of Yellford, Saturday. Mr. Frederick is a machinist employed at the Daimler factory and is a very popular teacher. He has been an instructor in our public schools for a short time. He is very popular with his pupils and has made many friends in the community during that time. The young couple will make their home in Detroit and have the best of wishes of their many friends.

Miss Ramsey was one of our most successful Northville teachers for several years. She not only was the best teacher, but her scientific method of teaching and her personality made her a model teacher. As well as her good teaching, she was a very popular person. Her many friends and her many friends.

"PEACE WITH VICTORY." BRIAND'S SLOGAN

Aristide Briand.

"Peace with victory," is the slogan of the new French cabinet, headed by Aristide Briand. The new premier has given France and the world to understand that he has not the slightest idea of peace until Germany is conquered; also that France will continue united to her allies by the strongest bonds.

STATE NEWS

MICHIGAN HARVEST POOREST IN YEARS.

The final estimated yield of wheat in Michigan is 19.91 bushels an acre, according to the crop report issued by Secretary of State Vaughan.

The estimated total yield for the state is 15,494,517 bushels and the condition of growing wheat as compared with an average per cent, is 83 for the state. During the past three months, it is estimated that 3,000,000 bushels of wheat have been marketed.

The estimated average yield of corn is 26.32 bushels an acre. Clover seed averages 1.41 bushels; beans, 3.66 bushels; and potatoes 54.11 bushels.

Following is the estimated acreage and total yield of the principal crops:

Wheat 778,273 acres and 15,494,517 bushels; corn, 1,907,747 acres and 50,208,723 bu.; oats, 1,685,520 acres and 67,781,263 bu.; barley, 79,095 acres and 2,236,178 bu.; rye, 393,817 acres and 5,717,480 bu.; buckwheat, 55,964 acres and 804,781 bu.; potatoes, 563,754 acres and 19,681,369 bu.; beans, 442,574 acres and 1,633,170 bu.; peas 64,163 acres and 1,193,170 bu.; clover seed, 110,000 acres and 155,100 bu.; apples, 227,835 acres and 10,202,601 bu.; peaches, 23,254 acres and 2,506,216 bu.; pears, 9,092 acres and 583,979 bu.; plums, 3,720 acres and 324,912 bu.; cherries, 7,001 acres and 1,091,960 bu.; strawberries, 8,434 acres and 448,071 bu.; raspberries and blackberries, 9,056 acres and 543,979 bu.

The yield of corn was 19 per cent, potatoes 40 per cent, and beans 32 per cent is less than the 10 year average from 1905 to 1914," said Secretary Vaughan. "and the quality the poorest in that period. Corn did not ripen, potatoes rotted badly and beans were seriously affected by anthracnose and excessive moisture."

RECEIVER ASKED FOR GRAND RAPIDS FIRM

Proctor among stockholders is given as the contributory cause for the appointment of a receiver in district court recently for the Carnation Food Chemical company, of this city.

The petition filed by creditors, alleges an indebtedness of \$96,000 and if that amount \$100,000 is said to be in primary notes. The petitioners are the General Chemical company of Chicago, the Edward Hall Sons company and the Commercial Acid company.

It is alleged that the company has valuable contracts recently obtained in New York, including a war contract for \$500,000 for acids. The Michigan Trust company was named receiver.

EAST LANSING—A poultry plant devoted to the study of diseases of chickens will be established at the Michigan Agricultural college. "As it is now, the losses are so serious that one can never count on eating turkey until he sees it on the table," says Professor C. H. Burgess of the M. A. C. poultry department.

Avian tuberculosis has been found to affect chickens, according to Professor C. H. Burgess, of M. A. C. poultry department. "The disease is communicable to man and chickens suffering from it are unfit for food," said Burgess. "We have been trying to get owners of the diseased flocks to kill them, but as the disease has only recently been discovered, there is no law by which we can compel them to do so. The disease should be stamped out before it obtains a foothold."

EAST LANSING, Mich., The turkey, most popular American bird, will be scarce in Michigan on or around Thanksgiving day, according to Prof. Charles H. Burgess, head of the poultry department at M. A. C. Michigan flocks, the college man says, were unusually hard hit by the damp and backward weather of the last spring, making it unlikely that turkey will be obtainable this fall at anything like popular prices.

As a move towards appeasing the appetites of citizens in this district who have a "turkey tooth" the college itself proposes to put a few birds on the market. The move, how-

ever, will not be altogether altruistic, for turkeys brought to the college and fattened will serve to furnish the poultry department with certain desired statistics relative to the possibilities of profit in fattening turkey for the holiday markets.

OWOSSO, Mich., The hamlet of Bonnington, eight miles southwest of Owosso, was swept by fire. J. D. Jago's general store and the postoffice were destroyed, as were also Wilbur Howard's hardware store and two buildings used as offices. The loss is \$1,400.

A call for aid was responded to by the Owosso firemen with chemical wagons, the Jago store was threatened by a fire several weeks ago.

Bonnington is a hamlet of about 200 population.

EAST LANSING, Mich., Five additional Michigan counties will join the progressive agricultural movement after Jan. 1 it has been announced by the extension department of M. A. C. These are Mason, Ottawa, Schoolcraft, Van Buren and Cheboygan, each of which will employ a county agricultural agent the first of the year. "As in other counties, these agents will act as advisers to the farmers,"

ADRIAN, Mich., According to reports from various townships a demand for state reward roads is sweeping over the county. Petitions are being circulated for not less than eight different stretches of highway. Public opinion favorable to the restoration of the old Monroe turnpike across the entire northern portion of the county has already reached a point where petitions are actually being signed for the construction of portions of it. If plans are properly carried out on this proposition it will mean a stone road nearly 21 miles in length reaching from Monroe through Lenawee to the Jackson county line.

ANN ARBOR, Mich., University of Michigan regents are requested to introduce compulsory military training for students in literary, engineering, architectural, dental and pharmacy departments, beginning with the academic year 1916-17 in a proposal passed by the university senate. Certain exemptions are provided.

The regents will meet December 1.

ROADBUILDING IN HAWAII

The biggest road building and land project ever undertaken upon the island of Hawaii, will come before the next session of the legislature. The road, which would be 132 miles in length, would run across the island from Hilo on the east coast to Kilauea on the west and would open up to settlement some 50,000 acres of open

land, situated on high ground above the rain belt, and especially suitable for the raising of the crops of the temperate zone. Corn, potatoes and fruit could be successfully raised by settlers, and the land will afford an opening for more homestead farmers than could be found in all the other islands put together.

TUETONS FORCED TO BUILD THEIR OWN BRIDGES

During the recent drives to reach Dvinsk the Germans found all progress across the river Salwinka blocked, due to the destruction by the retreating Russians of the bridges spanning the stream. The engineering division of the Teuton forces hastily constructed footbridges of logs across the river, permitting the infantry to cross.

JAPAN MAKING WAR SHOES

An agreement is reported to have been concluded between the Russian government and the U. S. G. M. T. Co. for the supply of shoes from November next to the end of the war at the rate of between 10,000 pairs and 100,000 pairs a month with a special stipulation that the Russian government will give two months' notice when the agreement is desired to be suspended or stopped. The maximum quantity can easily be supplied by the Tokio firm, according to a report emanating from a reliable quarter. There is no movement to take over Germany's lost trade in shoes.

HE KNOWS ALL ABOUT PEANUTS

In New York there is a man that talks cats, sheep and around peanuts. The grocer trade says that he knows more about peanuts than any other living American. He has seen the industry grow through half a century, and he is never so happy as when he can find a listener. "Oklahoma is becoming the peanut state," he said. "Oklahoma with Texas a close second. You wouldn't believe that, would you? No-o that isn't exactly true! Virginia really continues in the lead. Virginia is the original peanut state. Oklahoma and Texas have been coming up tremendously. 'Peanuts never amounted to much in this country until the civil war. During the war the Northern soldiers who were campaigning in Virginia got to eating them and found the dainty they had never heard of before very stomach-filling and digestible. When they got back to the North they told of the nut and created a demand. Peanuts commenced to be sold then and a nice trade was built up. But the peanut never got

ABOUT MACHINE GUNS

Against machine guns the tireless, tireless, tireless expert remarked, "one he was right. Actual tests of machine guns have shown them to be superior to perfect marksmen. A test in the country some time ago for twelve feet shot were put against one Maxim, each side firing for one minute in a target representing infantry in line, at a distance which was not given, but which was actually 1,000 yards. There were the results: forty-two men, 104 rounds, 62 hits, machine gun, 228 rounds, 10 hits, although the Maxim spent some time in getting the range.

ELECTRICAL LOG DISPLAYER

Solution of the problem of displaying heavy logs lying over rivers, harbors and in the paths of ocean liners is believed to be nearer than ever before by scientists of national repute, who are working on a grand electrical display, which will be used in the exposition.

The largest electrical transformer ever built, capable of transforming a million volts, hitherto considered impossible, will be used in the experiment.

Scientists of the bureau of mines and the Smithsonian Institute believe this high power will create an electrical disturbance accompanied by the thunder and will cause fog to rise from the surface of the water.

Dr. F. G. Cottrell of the United States Bureau of Mines, is in charge of the experiment, and is installing the transformer at the exposition.

FEDERAL OFFICIAL POINTS OUT AMERICA HAS OLDEST SIGHTS IN WORLD

Says \$500,000,000 is Spent Annually For Travel Abroad.

There are in the United States the oldest living things on earth, the deepest canyons in the world, the highest waterfalls, the finest glaciers within easy reach of tourist travel, the finest mountain climate, ruined cities of a lost race, the greatest trees on earth; all of this in a country with a population in excess of 100,000,000, a large proportion of which spends its time abroad in search of mountain scenery.

Think of it, canyons over a mile deep, waterfalls a half mile high, peaks from the summit of which can be seen land three miles below and giant trees that were 5,000 years old when Christ was born, all in a country the people of which spend annually \$250,000,000 in foreign lands to view similar but inferior scenery.

Many people have asked, "Why does not our government do more work in the national parks?" Others and always those who have not seen them, ask, "Why should the government be asked to spend money on the national parks when there are so many other important things needed?"

Between these two factions with opposite views, the government has most successfully sailed a "neutral" course. Congress has appropriated a comparatively small sum each year which has sufficed to oil the troubled waters that were constantly agitated by the storms of protest on the part of those who know and love our national parks, which sums were at the same time not of sufficient magnitude to seriously antagonize those who with more money appropriated for rivers and harbors.

There were several contributing factors which have served to make the continuation of this condition possible, some of which are lack of appreciation of the importance of scenery as a factor in the country's economic development, the tremendous volume of work in the charge of a limited staff, the lack of the security of the land, and the fact that the public has not paid much attention to the administration of the parks, and has not on the part of the public as to the magnificent and glory of our scenic reservations. Perhaps the most potent of these is the first one, ignorance.

Over \$500,000,000 leave this country annually in the form of tourist money spent abroad. Switzerland alone secures a revenue of \$250,000,000 annually from the sale of her scenery, a large portion of which comes from the United States.

It is true that not all of the \$500,000,000 spent abroad by Americans is for scenery alone, but a very considerable portion toward the possibility of retaining some of this has aroused the interest of many in the question of the advisability of systematically developing our national parks with an eye to diverting at least some of the European travel to home channels.

Primarily the national parks are maintained for all the people and it was found that if even a small fraction of them were ever to see the parks, three things were essential, namely, accommodations, transportation and publicity.

It was obvious that people would not travel to the parks unless they were informed of the attractions to be found in them.

Up to the present time the concessions for the operation of hotels, camps, stage lines, etc., in the parks have, with a few exceptions, been granted under yearly permits.

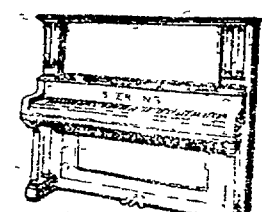

As the secretary was not in a position to carefully investigate the qualifications of an applicant to operate a particular concession, it was not deemed safe to grant a permit for more than one year; nor has there been any officer in the department qualified to design the structures or to select a location that, in the light of future growth and needs, would be assured of any degree of permanency.

Before a long-term lease for a hotel, for instance, could be granted, it was necessary that a thorough study of conditions be made and a plan rendered to which all improvements should adhere. This fact had been appreciated by former secretaries, which had resulted in short term leases, thus enabling the department to make changes when necessary.

So it became necessary to devise a plan by which long term leases could be granted to the right man and to plan the work and improvements in the parks as that permanence would be assured.

There are in our national parks innumerable details that are crying for immediate attention, but any attempt to rectify every mismanaged minor detail, would result in an indefinite postponement of establishing and putting into operation a general policy and would put off for an indefinite period the eventual accomplishment of the main object, which is the development of adequate accommodations for the traveling public throughout our national parks.

ROUMANIA DEMANDS MUCH AS PRICE FOR ENTERING THE WAR

It has been reported that Russia has agreed to grant all the demands of Rumania as the latter's price for entering the European conflict on the side of the allies. The accompanying map shows what Rumania's demands are. The map shows the Danube River flowing through the region, and the cities of Bucharest, Belgrade, and Odessa. The map also shows the borders of Rumania, Bulgaria, Serbia, and parts of Austria-Hungary and Russia.

NORTHVILLE, MICH., NOV. 19, 1915

POSSIBLY MICHIGAN IS THE JOKE.

As a friend of Senator Smith, Governor Ferris was protesting the other day against people "coddling" William Alden about the presidency. But on the same day that the governor was thus lambasting the senator's lack of humor, the senator was giving an interview to the New York Times in which he showed quite clearly to Governor Ferris and all his other friends that he knows, as usual, just what he is doing:

"I have never thought of making a presidential candidate of myself; and the compliment my own state seems desirous of paying me is purely a voluntary expression. I think it is only a means of holding our strength together until somebody is found who can be appropriately nominated. I am not fooled by it and I don't want anybody to think that after twenty years of service in the house and senate I would violate the proprieties of politics. It is my opinion that the presidency seeks the man."

And yet the Record believes the people of the United States "might," as the old expression goes, "go farther and fare worse." Wm. Alden Smith would make a mighty good president. A man who starts in life as a newsboy and by pluck, honesty, perseverance, and industry becomes a senator of the United States, has something in him besides a joke. It takes something besides "coddling" and joking to get into that office and it takes something besides joking and "coddling" to hold the job after one gets it.

Wm. Alden served a number of terms in congress, before being elected senator, and he also held down that job in a most satisfactory manner. He takes quite a man to be come a U. S. senator. We judge a part of that reaction from the fact that Michigan has only had 27 of them in its eighty years' history. While the Republicans are looking around for a good solid timber they will find a mighty lot of it in a man greater quality than Michigan has ever had. Wm. Alden Smith is the people of Michigan would trust their candidate for office with a better more solidness than any other state has a president. Look at Ohio for instance!

Does anybody suppose that state has a monopoly on brains or statesmen? No! Well why does that state always have a candidate and why so many presidents? Because the people rally unambiguously around one man there every time. They believe he is as great a man as any other Ohio man and as great as any other state can produce. Well, what's the matter of Michigan? Wm. Alden Smith is as great as any other man in Michigan and no other state in the Union is greater than Michigan. Why go to some other state to trade when you can get just as good goods right here at home?

Every candidate for office in Michigan isn't a joke. It's the people of Michigan who are being made jokes of by the people of other states. It's Michigan that is being made the joke and the other states gets the answer. Isn't it about time Michigan woke up to her possibilities? Just as great men grow here as do in Ohio, Indiana, New York or New Jersey. Let Michigan rally to Wm. Alden Smith for president in real earnestness. Cut out this joke business and for once show the other states we mean business.

Now for the "signs" of a "hard winter" or "mild winter." As usual, there are probably signs of both. We've heard that the corn husks are unusually thick this year which is a sure sign of a severe winter. Also that the waterfowl haven't commenced going north yet, which is a sure indication of a "late fall."

The freaks of fashion are many, and past comprehending. Last winter women faced the elements in the coldest weather with perfectly obvious breast bones, and this summer and fall, they are wearing collars that permit only their eyes and cheek bones to be visible.

Fifteen months of war and not all of Europe dead yet.

VISITORS HERE AND ELSEWHERE

WEEK'S CALENDAR

PRESBYTERIAN CHURCH NOTES.

(By the Pastor.)
Morning topic: "The Modern Puritan." This will be a consideration of the question as to whether modern conditions do not make necessary a return to the stern morality and austere religion of the Puritan fathers. The laxity in morality and the indifference towards religion that is so evident should make this subject of some interest. This topic is appropriate at this time in view of the universal observance of Thanksgiving day which was first observed by our Puritan ancestors. The subject and the season makes attendance upon this service very desirable.

The Sunday school last Sunday showed an increase in attendance over that of two previous Sabbaths. The attendance is not yet up to the highest standards, due to the absence of some who are just now reading this notice. May it not be the case when they read their notice next week.

The best attendance of the season was had at the Christian Endeavor meeting last Sunday. However, this is only a prophecy of what is still to come. Let all the young people be present next Sunday evening.

Evening service at 7 o'clock. Topic: "Things Ornamental and Fundamental."

Illness and weariness kept several from our services last Sunday. It is hoped that all who thus suffered will be recovered by next Sunday.

Remember the Thanksgiving service next Thursday in the Baptist church. Rev. Mr. Walker will deliver the address. An offering will be taken which will go to the King's Daughters to help the poor in our community. All those who believe in giving thanks; those who have anything to be thankful for and those who believe in the work of the King's Daughters are urged to attend this Union service on Thanksgiving evening.

BAPTIST CHURCH NOTES.

(By the Pastor.)
The subject for Sunday morning will be: The Power of An Endless Life.

The evening service will be an evangelistic talk. If you are not in the kingdom you need this sermon and if you are a church graduate you need it in preparation for your life's work.

Thanksgiving services will be held in the Baptist church next Thursday evening. Think it to be a Union service in which all of the churches are to unite. We hope to see a large attendance. Rev. Walker will deliver the sermon.

Sunday school and B. Y. P. U. at the usual hours, Sunday.

LYNOUTH EPISCOPAL CHURCH.

Sun. Day, November 21, Divine service at 10:30 a. m., Holy communion. Rev. Dr. McCarroll of St. Paul's cathedral, Detroit, will be the celebrant and will also preach. Service concluded in time for Northville visitors to return by the 12:10 car.

METHODIST CHURCH NOTES.

(By the Pastor.)

Next Sunday morning at the Methodist church the services will be under the auspices of the Woman's Home Missionary society, the occasion being the observance of their annual thanksgiving service. Special music will be furnished and the pastor will give the address. A large attendance is anticipated.

The Sunday school is doing very efficient work and the interest is increasing. The session opens at 11:30.

The Epworth League service at 6 o'clock will be in charge of Mrs. E. W. Bogart, and the subject will be, "How Can We Show Our Gratitude?" The spirit of the meeting is designed to be in harmony with the coming Thanksgiving time.

The topic for the evening service of worship and praise at 7 o'clock, will be "The Dominion of Sin."

All who have articles of clothing and especially children's clothing, that they may wish to contribute for the box which is to be sent to the William Avenue Mission, in Detroit, by our Woman's Home Missionary society, are requested to deliver the same at the home of Mrs. Buckley before next Wednesday.

Our people will join with the people of the other churches in a Union Thanksgiving service, which will be held in the Baptist church next Thursday evening at 7 o'clock.

The Woman's Home Missionary society will give a hash supper and miscellaneous bazaar in the Ladies' Library December 15.

CHRISTIAN SCIENCE SOCIETY.
Christian Science service in the Ladies' Library Sunday morning at 10:45 o'clock.

LIBRARY DECEMBER 15.

GARRICK THEATRE, DETROIT.

"Life," that sensational, picturesque, human drama about America which Thompson Buchanan wrote, will be presented at the Garrick theatre, Detroit, next Monday evening, for a week's engagement, including the regular matinees on Wednesday and Saturday and a special Thanksgiving day matinee. It comes to Detroit direct from a triumphant run at the Manhattan opera house, New York. The play tells of the perils of a young college man, the stroke of his "varsity eight" to whom circumstances point as the murderer of a New York banker - unjustly convicted, he remains in bondage until the very eve of execution, when he is extricated by a device which is both ingenious and surprising. The play contains among its pictorial feature a college boat race, a coaching scene with a crowded four-horse rally-ho, a ball on Fifth avenue, the front of St. Patrick's cathedral, a mobilization of Mexican revolutionists in El Paso, a pitched battle on horse back in the Mexican desert, and the storming and demolition of a stoutly built mine stockade.

CARD OF THANKS.

We extend sincere thanks, to our neighbors for kindness during our bereavement and to all who remembered us with flowers.
