

THE NORTHVILLE RECORD.

VOL. XLVII. NO. 5.

THE RECORD: NORTHVILLE, MICH., FRIDAY, AUGUST 25, 1916.

\$1.00 PER YEAR, IN ADVANCE.

THREE GOOD MEN TO REMEMBER.

SENATOR CHAS. E. TOWNSEND.

The above are three Republicans of National repute who will be voted on for nomination at the primaries next Tuesday, August 23.

Senator Chas. E. Townsend of Jackson is up for renomination and has opposition. He has made great reputation in the U. S. senate and stands the peer of any man at the national capitol.

REGENT FRANK B. LELEND.

Regent Frank B. Leland of Detroit famed for his philanthropic work and a leader in the fight against tuberculosis, is a candidate for governor. A former boy who has made good.

CONGRESSMAN P. H. KELLEY

nomination but has no opposition. Congressman Kelley is another Michigan man who has made good at Washington and in his second term has won an enviable reputation. These three men for state and national offices are certainly entitled to the support of every Republican voter.

VILLAGE TO HAVE CEMENT ROAD

COMMISSIONER HAGGERTY SAYS NORTHVILLE WILL BE TAKEN CARE OF.

PLYMOUTH-NORTHVILLE ROAD ALSO TO BE CEMENTED ALL OVER.

County Commissioner of Roads John S. Haggerty, of Detroit visited Northville and a number of other towns in Wayne county last week in the interest of Frank Leland's candidacy for governor. Mr. Haggerty having charge of Mr. Leland's campaign.

While here Mr. Haggerty stated that next year the making of the Plymouth road over into a cement road will be commenced. He also stated that when this is worked out that the cement road will be carried up through the village and that Northville will receive the same treatment as other villages, or better, and that no one need be worried at the outcome. Mr. Haggerty says that Northville will also have the finest cement road in the United States in the one leading to Grand River avenue from Wiley's corners, now under construction.

TO THE PUBLIC:

Detroit, August 21, 1916. I have this day authorized the Election Commission for the County of Wayne to withdraw my name from the Primary Election ballot as a candidate for County Auditor.

After due consideration of the matter I believe that the office as now represented by Auditor William Gutman is in excellent hands, and I further believe that the important work of completing the new Tract Index System which is now under his direction should be left in his hands for completion.

Mr. Gutman has made an admirable record as a public official, and I am heartily in favor of his renomination. Respectfully, RICHARD FORATH.

LEONARD CHARTER.

Who reaches his ninetieth birthday anniversary Monday, August 28. Mr. Charter is still wonderfully active for so advanced an age, and receives kindly greetings from all sides when he appears on the streets. He was a brave soldier of the civil war and is respected as a worthy citizen by all who know him.

FORTY-NINTH ANNUAL REUNION.

Among the functions at Pontiac this week was the 49 annual reunion of the 22nd Michigan Volunteer Infantry, of which a number of the members of our local post, G. A. R. are survivors. The meetings were held Monday and Tuesday, August 21 and 22 with an enrollment of less than 80, including the wives of the veterans and honorary members. Sixteen of the veterans of the regiment have answered the final roll call since the reunion last year, among them were Comrades Parks and Barber of the Northville Post and Capt. J. H. Woodman, a former resident here. The historic cow bell which the regiment carried through the war was in evidence as usual. Geo. M. Goodell and L. C. Mead of this village were elected president and treasurer, respectively, of the reunion association for the ensuing year. The regiment was a thousand strong when it left Pontiac for the front 54 years ago.

GREEN-GRAHAM.

Mr. Frank A. Green of Detroit and Mrs. Laura Graham of Farmington were quietly married at the Baptist parsonage Saturday August 19th. The couple were formerly members of Mr. Brass' congregation at Walled Lake. They will make their home in Detroit as Mr. Green is a city mail carrier.

BAPTIST CHURCH NOTES.

(By the Pastor.) The morning topic will be given from the pulpit. The pastor does not always get his message in time for the Press. He is often under sealed orders. The pulpit hour will furnish the message. We are glad you were with us last Sunday. Come again.

If you can remain to Sunday School do so. You are needed there. Don't graduate from the Sunday school too soon. You can learn something yet.

The Union service Sunday evening will be at the Methodist church. This will be the last Union service, unless we shall have become so blended together in Christian fellowship that some other plan should be formulated. Behold how good, and how pleasant it is for Brethren to dwell together in unity.

METHODIST CHURCH NOTES.

(By the Pastor.) For the morning service, next Sunday, the sermon topic will be, "Endurance". The choir will furnish special music and the singing of the old standard hymns of the church will help to make the service full of interest to all.

Sunday school at 11.30.

The final service of the series of union service for the Sunday evenings of July and August will be next Sunday evening. The service will be in the Methodist church and Rev. F. A. Brass, of the Baptist church, will be the preacher. We urge a large congregation that this service may be the best of the entire series.

ST. PAUL'S LUTHERAN CHURCH.

(By the Pastor.) No services next Sunday. Everybody is invited to attend the mission festival at Clarencerville. Services begin there at 9:30 A. M. and 1:30 P. M. Northville time.

"COZY NOOK" POULTRY COMPANY

NEW ORGANIZATION RECENTLY ESTABLISHED IN NORTHVILLE.

A. G. Griffin, of this place and J. Allen Wray of Detroit are organizing a company under the firm name of "Cozy Nook Poultry Farm" which will be located on the Fishery road. They expect to operate extensively in all phases of the business containing themselves entirely, however, to the White Leghorn chickens.

The foundation stock for the new firm was secured from the Cyphers Incubator Co. of Lima Center, N. Y. and is directly descended from the famous 283 egg hen whose record still stands unchallenged among White Leghorn breeders.

The Cozy Nook Poultry Farm is this year raising 7000 chicks and expects to keep over 3000 layers in the process of construction is a laying house 318 x 14 feet which will accommodate about 1000 layers. The foundation and floor of this building are almost completed and a finished building is looked for by Oct. first. Mr. Griffin recently attended the annual convention of the American Poultry Association at Cleveland, O. Mr. Wray caring for the business during his absence.

ORPHEUM THEATRE, DETROIT.

The Hugoletto Brothers, two men in a varied act of such merit that for many years they have been seen in only the best vaudeville theatres of America and Europe, will be the leading attraction at the Orpheum theatre next week. The added attraction for week will be "The Belling Betties", a musical comedy offered by a dozen comedians, singers and dancers and including a lively chorus. There will be four other acts and six features. Films while on Friday night some patrons will be permitted to purchase a new automobile for \$100.

CARD OF THANKS.

We wish to thank our friends and neighbors for the kindness and sympathy shown us during the illness and death of our beloved husband and father.

MRS. GEO. BROWN AND FAMILY.

Spokane, Wash.—Robert and Grace Rice, 5 year old twins of E. I. Rice, are shorthand writers for whom their father claims a speed of 100 words a minute.

The children are speedy typists and are able to better the performances of many business college graduates. They

are home taught and for the last three months have had regularly two lessons a day, the practice periods being at first of very short duration, but increasing in length until now each lesson lasts 15 minutes.

Their typing has made them excellent spellers, and shorthand has led to fair proficiency in drafting.

Go See the Half-Million Dollar Motor

The Briscoe Four Twenty-four—the car with the Half Million Dollar Motor is here. Go today and see it. Inspect the motor that Benjamin Briscoe, with the help of fourteen noted engineers, perfected in Europe.

Benjamin Briscoe dreamed a car of finest design with every modern convenience within the reach of families of moderate circumstances. Here it is.

BRISCOE \$625

FULLY EQUIPPED

THE CAR WITH THE HALF MILLION DOLLAR MOTOR

designed and perfected where gasoline cost more than 50 cents per gallon—hence of necessity it was built for economy. It is the longest long-stroke motor in America.

The beauty of this Briscoe Four Twenty-Four, with its extreme streamline body, tilted eye-saving wind-shield will mean joy to your wife and family. It is so roomy that a six-foot man can ride with outstretched legs in either front seat or tonneau. The sides are high and the upholstery is the kind you will find in other cars of \$1000 and \$1200.

Take the wheel yourself or let your wife or daughter drive. Let them see how easy it is to operate clutch or brake which in the Briscoe Four Twenty-Four operate much easier than ever before. Note the quick pick-up, the quietness and smoothness of the Half Million Dollar Motor.

SPECIFICATIONS:

Half Million Dollar Motor—Bore 3 1/8 in. stroke 5 1/8 in. air-cooled motor head. Thermosiphon system; simple removable plate above valves. L-head.
Wheelbase—105 inches.
Bodies—Latest 1917 straight streamline design; comfortable room for five passengers in touring car; four passengers in the roadster.
Carburetor—Automatic.
Drive—Left Control—Center.
Front Axle—I-beam section drop forged with special Briscoe fixed king bolts. Rear Axle—Floating type.
Tires—30x3 1/2 in. all around; anti-skid tires in rear.

REFUSES \$5,000 FOR VIOLIN

Illinois Man Recently Bought Instrument for \$75 and Declines to Sell
Lawrenceville, Ill.—A violin thought to be the most valuable in the country is owned by Prof. E. A. Nelson of this town. It was made in 1732 by Otto Bergonzi, at Cremona, Italy. Nelson recently bought it from the Bierhaus family at Vincennes, Ind., for \$75.

The violin is supposed to have been used by Jason, who is mentioned in "Alice of Old Vincennes," as "Jason" is carried in it. Nelson has refused several offers of \$5000 cash for the instrument.

SUNDAY SCHOOL LESSON

Comments By
Rev. Ernest Bonaner Allen, D. D.
Pastor of the Washington Street
Congregational Church and the
Marion Lawrance Sunday School,
Toledo, Ohio.

LESSON FOR AUGUST 27th

Lesson Title: "Journeying Toward Jerusalem."

Lesson Text: Acts 20:16-38 vs. 24.

Golden Text: "I commend you to God, and to the word of His grace." Acts 20:32.

I. The Value of a Big Objective.

Paul is on his journey to Jerusalem. The Record says that he "had determined to sail past Ephesus, that he might not have to spend time in Asia." He was hastening toward the larger goal of his journey and work. Whenever a man feels that there is some big goal ahead of him he makes all other things give way. What moral compulsions make you hasten on your way to service? How far does the sense of a great life objective help you to limit non-essentials? What is your life goal anyway? How far have you learned to do the things which are worth while and to let go the things which are not worth while?

II. Saying Good-Bye.

In the midst of his journey Paul sends to Ephesus asking the elders of the church to meet him for farewell. He declares how faithfully he tried to preach the word of God among them. He affirms his purpose to go "bound in the spirit unto Jerusalem, not knowing the things that shall befall him there. It was not easy for his friends to part with him. They well understood the dangers of the journey.

All of us are called upon at some time to say farewell to those we love. The consciousness that we have tried to do our best, and to fulfill our duty to all our friends, gives us comfort in such an hour of sadness. I often think it would be well for us to revive the Christian meaning of the word good-bye. In its full form it was originally written thus: "God be with you." This was later contracted into our word good-bye. Let Christians look one another in the eye calmly and courageously when they are called upon to part and say the old Christian form of farewell. "God be with you." Then when we ourselves go "bound in the spirit" to meet hard tasks and certain dangers we shall not be afraid.

III. Comparative Values.

Paul told his friends that Ephesus, that he did not hold his life as dear unto himself in comparison with the accompanying of his course and the ministry which he had received from the Lord Jesus, to testify the gospel of the grace of God. This is a clear statement of values. There were some things dearer to him than his life. The Christian is to reach the world this difference in values. It is far better for a man to be poor and honest than to be rich and tricky. It is far nobler to fail and keep one's conscience clean than to succeed and forever live with a blackened conscience.

IV. A Minister's Friendships.

Our lesson gives an interesting picture of the minister's friendship with officials and members of his church. Many a man owes a great deal to the friendship of his pastor. The close relations between church officials and the pastor afford rare opportunities for developing friendship. There are also some peculiar limitations upon the minister's life at this point. He cannot be a friend of a few, he must be the friend of all. He must unselfishly relate himself to all the people of his church so far as they will permit him to do so. Those who are especially congenial, with whom he might prefer to associate most, must also be generously unselfish in allowing and helping him to be the friend of others who may not be quite so congenial.

The difference between a compliment and flattery depends on whether it is handed to you or some other person.

As a matter of fact the sins of a large city haven't anything on a country village—if the truth were known.

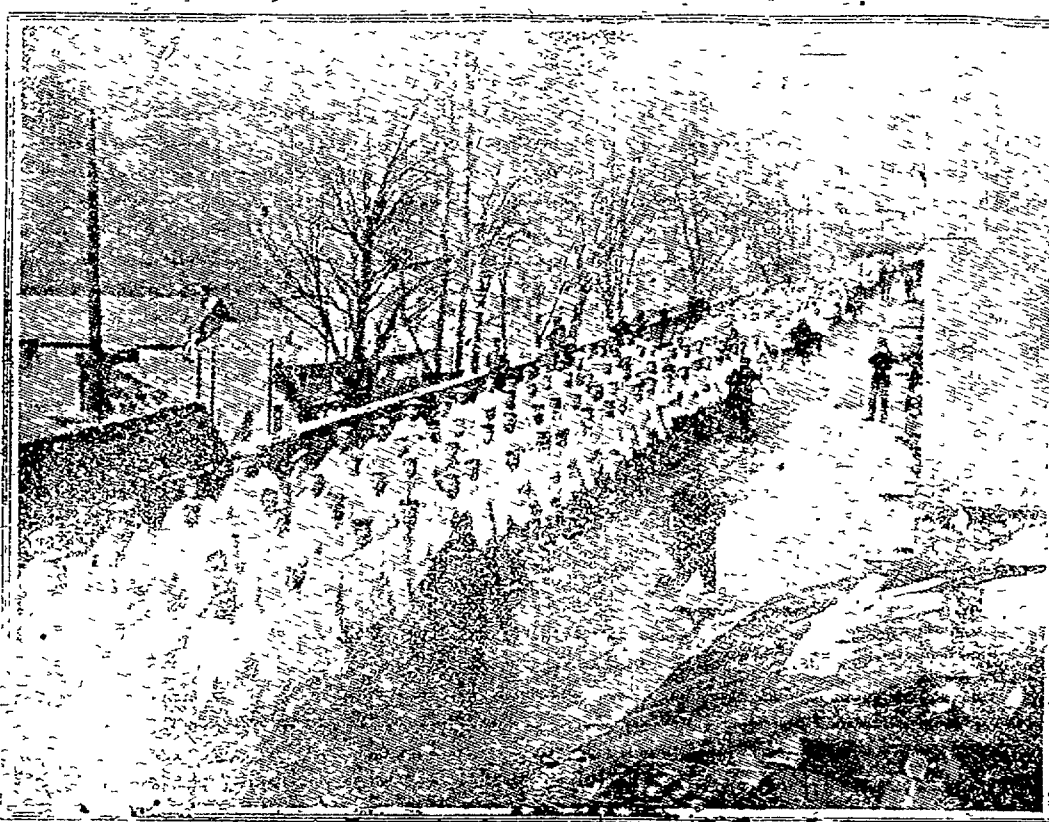

When a woman's dress is described as a dream the cost is apt to prove a nightmare to her hubby.

Don't judge a woman by the beauty of her hair until you find out whether it is natural or artificial.

What a pity it is that the most beautiful females usually have little else to recommend them.

Many a man is honest because a good opportunity to be otherwise never knocked at his door.

TIMELY TOPICS FOR ALL INTERESTED IN BETTER FARMING

HOW MAN MADE \$1,000

MORE ON A WOODLOT

WASHINGTON, D. C.—That the woodlot owner who merely guesses at the value of his timber may find his guess very costly is well illustrated by the following instances of the difference between guesswork and intelligent solving of woodlot problems taken from U. S. Department of Agriculture, Farmers' Bulletin 715, Measuring and Marketing Woodlot Products.

A woodlot owner in Maryland received an offer of \$1,500 for a tract of timber, which he was inclined to accept as a fair price. Before the sale was made, however, he consulted the advice of the State forester as to the amount and value of the timber. As a result the State forester made an examination of the tract, estimated the market value of the timber, and furnished the owner with a list of timber operators who might be prospective buyers. The timber was then promptly advertised, with the result that the man who had previously made the \$1,500 offer raised his bid to \$1,500, and the sale was finally made to another person for about \$5,500. Only three months elapsed between the date of the first offer and the final sale. Not only was the original offer increased by nearly 270 per cent, but the woodlot was also left in excellent condition. This was accomplished by having the trees to be cut selected and marked by the State forester with a view to leaving the young growing timber on the ground, together with sufficient seed trees to restock the open places. The contract further called for close utilization by cutting the stumps low and using to small diameters in the tops, the felling of tops for cordwood, and the scattering of the remaining brush.

A Michigan Example.

An 80-acre farm in south central Michigan had on it a 10-acre woodlot, containing about 48,000 board feet of basswood and about 12,000 each of hard maple, soft maple, red oak, soft elm, ash and beech. The trees were overmature many of them hollow, and the owner knew he ought to "sell them to save them." Timber on an adjacent 10 acres had previously been sold for less than \$100 per acre, or a total of about \$1,000. Even this value compares well with incomes commonly obtained from woodlots in southern Michigan. Instead of selling on the first bid made, however, the owner acting on the advice of an expert attached to a near-by forestry school, wrote to a number of wood-using firms in different cities, from some of whom, after examination of his timber, he secured bids on the different species in his woodlot. As a result, of his bargaining, he received for his stumpage sums amounting, in the aggregate, to nearly \$2,000. For his red oak, bought for quarter-sawing by a firm outside the State he received \$21 per 1,000 board feet. His other trees were purchased by veneer companies, the basswood returning \$19 per 1,000 board feet, ash

\$16, elm and hard maple \$14, soft maple and beech \$12.

Two Ohio Cases.

An owner in northwestern Ohio received bids of \$550 and \$600 lump sum for his timber. Following the advice of a relative who had previously run a sawmill, he engaged a portable mill, sawed out, and sold the following at the prices named:

- (1) White oak, 8000, rough lumber for wagon stock, Hickory butts for bands, and elm butts for hoops, sold for \$1,350.
- (2) A 100 ft. cut and used on the farm, value \$100.
- (3) 5000 of the sold for \$250.
- (4) Rubus, consisting of elm and poplar, sold for \$100.
- (5) Elm and poplar, sold for \$100.

Loss of crops from timber \$275
Total cost of operation \$1750

Net for stumpage, etc. \$1400
and profit \$1400

It will be noted that \$600 was the highest bid received for the standing timber, whereas he cleared \$1,400.

In western Ohio, a woodlot owner who had carefully protected his best timber for many years, accepted in 1914 a local buyer's lump sum offer of \$200 for the timber on 65 acres. The

trees were tall, clear, good-sized white and bur oak of high grade. By a careful measurement of the stumps and tops, made just after logging, the writer found that the tract had yielded not less than 14,500 board feet per acre, or a total of something over \$1,500 board feet. A fair price for this quality of timber would be \$17, per 1,000 feet of the stump. At this rate the timber included in this sale was worth not less than \$1,450, or \$1,476 more than the farmer received for it. Though this may seem to be an extreme case, mistakes only slightly less striking are common.

CURVED RIFLES USED

Guns That Shoot Over Parapets Now in Big War

A rifle that shoots over the parapet while the user sits in comparative safety in the trench without necessity for exposing himself to the fire of the enemy is a late invention brought out by a well known sportsman and big game hunter of this country. The feature of this invention is that the rifle is held vertically while the projectile is fired horizontally. This is accomplished by a curved deflecting tube, fixed to the muzzle of the gun, that changes the course of the projectile from the vertical to the horizontal as it leaves the gun.

The purpose of this device is to enable a soldier to shoot over the top of a trench parapet without exposing himself to the enemy's fire. The rifle is held vertically, and the projectile is fired horizontally, following the curve of the deflecting tube.

The rifle is aimed by means of a telescope consisting of two mirrors, one fixed to the upper end of the tube, the other to the lower end of a tube that is mounted on the rifle barrel. The device is adapted only to close range fighting and is particularly intended for use in repelling a charge, although it is evident that it can be used effectively for shooting from behind a building or other shelter. —Popular Mechanics.

Household Hints

Recipes and Advice of Interest to Housewives

THINGS WORTH KNOWING.

If when canning pears they have an insipid taste, the addition of some grape juice will give them a delicious flavor and a beautiful color.

A scant teaspoonful of alum added to a large kettle of peaches will keep them very green and make them crisp.

A few drops of pure glycerine put on the edges of your jars before screwing on the lid will prevent mold from forming on the fruit.

Strips of adhesive plaster make excellent weather strips. Cracks and crevices may be sealed completely by its use.

The Table.

Peach Roll—Pare and cut up five half a dozen peaches and sweeten them liberally. Mix together one pint of flour, two teaspoonfuls of baking powder, one-half teaspoonful of salt, and one small teaspoonful of butter. Mix with sweet milk until it can be handled just comfortably. Roll out, spread it with the sliced peaches and roll it up, pinching the ends to give it a long narrow shape. Lay this in a deep baking dish, set flour over it lightly, dust with pulverized sugar, and add a few bits of butter. Cover with a lid and bake for 30 minutes. Remove the lid and brown the top. Serve hot from the pudding dish. The water flour sugar and butter together with the peach juice, will have formed in the same necessity.

Peach Tapioca—Wash a cup of the fine granulated tapioca in cold water, rinsing several times. Place in a bowl with three cups of cold water and allow this to stand for 30 minutes. Then cook in a double boiler until the tapioca is clear and transparent. Pure ripe peaches, cut from the stems and removed the stones. When the tapioca is clear pour it over the peaches, arranged in a baking dish. Cover the dish tightly and bake in a moderate oven until the peaches are tender. Then remove the cover and broil the surface slightly. Serve very cool, with cold cream, slightly sweetened.

Huckleberry Sage—Wash a cup of huckleberries through cold water, several times. Then cook in a double boiler until the berries are clear and transparent. Pure ripe peaches, cut from the stems and removed the stones. When the berries are clear pour it over the peaches, arranged in a baking dish. Cover the dish tightly and bake in a moderate oven until the peaches are tender. Then remove the cover and broil the surface slightly. Serve very cool, with cold cream, slightly sweetened.

Mixed Jellies

Combinations of fruits are a safe for the purpose of mixing peach and currant acids in jelly making proportions. Among those which have been tested and proved are equal parts of raspberries and currants, pears and cranberries, raspberry juice and apple juice, apple and cranberry juice and pineapple and grape juice.

Garden Notes for August.

Keep up the cultivation of all crops as long as possible. Do not allow the soil to form a crust or long standing.

The plants need aeration of the soil for root action and culture means economy of moisture. Leave the ground level for most crops. The present dry weather emphasizes the desirability of some sort of irrigation their cost.

System for extensive gardens. It is a first season's that they par. Make plantings of beets and carrots for the autumn and winter supply. Some of the earlier varieties of string beans may be planted now and a splendid crop obtained. Make sowings of leaf and head lettuce for the fall crop. Use plenty of water to insure prompt germination. Endive may also be sown this month for fall use. An immediate sowing of Chinese cabbage will make good heads

for salads by October. Sow turnips at once. Some of the early celery may now be blanched for market or home use. Use boards of heavy building felt (not tarred paper) for blanching at this season. Blanketing with soil is likely to cause rusting of the stalks.

Keep the sprayer busy upon late potatoes, celery, melons, tomatoes and cabbage. Use Bordeaux mix on all these crops except cabbage. Add arsenate of lead to it so much as the rate of three pounds to 50.

YES, RAZORS GET TIRED

So Barbers Maintain and Back up As

Barbers maintain a razor gets tired and is improved after a rest. Any razor, after constant use, while not exactly becoming dull, grows sluggish and fails to work as smoothly as when it has lain for a few weeks without work.

Constant use and continued sharpening puts the molecules in a sluggish condition, and it is impossible to set the same edge as when the steel has not been in use for some time. When the razor lies idle and the electric current is passing off at the edge the molecules are being toned and tempered and the edge actually becomes more perfect and really sharper.

It is the razor wrapped in a towel, placed in a drawer, or in a box, that will not be home. The best test is to run a razor that is sharp and draw rather carelessly, without any motion. It is the same for the razor, wrapped in a glass case for the illustration prevents electric current from passing thru the metal. —The Blade.

J. H. (Cyclone) Davis.

Alleging that Paul Waples, chairman of the state Democratic executive committee, wilfully omitted to place his name on the printed ballots as Cyclone Davis, and instead placed it there under the name of J. Cyclone Davis alleges that few people knew him under the name of J. H. Davis, and, further, that the omission cost him over 50,000 votes, enough to allow his opponent the advantage.

WAYNE COUNTY SHOULD BE
LOYAL.

The State Tax commissioners have added \$330,000.00 to Wayne county's assessed valuation. This will make Wayne county pay one-third of the state taxes instead of one-fourth. Wayne gets soaked again as usual and the trouble largely lays with Wayne people. If Wayne has a candidate for state office, the first opposition encountered usually comes from Wayne's own politicians. Today, Frank B. Leland is having the loyal support of the masses of the people of Wayne in his candidacy for governor but candidates from other parts of the state have a busy organization urging the people to vote against Wayne's candidate, Mr. Leland. "Sure thing. Get busy and soak Wayne county for the benefit of some other part of the state. Do not be loyal to your home candidate. That's the idea."

Wayne county never had a better or more capable man for any office within the gift of the people than is Frank B. Leland. "He is the peer of any man in the great state of Michigan and he is a man who has done things too. He is also a man who can stand up on the platform and talk to the people direct and isn't depending on other men to make his speeches. The people know where he stands on all public matters for he is talking to them personally every day. Wayne county voters should stand loyal to Wayne's candidate."

A Chicago man is said to have recently scolded some of his fully modest neighbors for wearing his pajamas around in the daytime. Instead of being contented that man should be honest in a garment of long underwear, say from the slavers of conventional dressing.

One or two of those Oxford leaders called on inviting along with disaster when allowing an item in the following to appear in that paper.

Smoking in the dark is no pleasure—not so with us as a fair dancet. Everything has its time and place.

What might be called adding insult to injury is the advertising of fur gets and fur coats by the city merchants during the "late unpleasantness." If folks didn't have enough heat troubles without being confronted with pictures and prices of fur garments.

Dr. James E. Burgess, at present coroner, is candidate for the nomination of county treasurer. The doctor who has a splendid record is a cousin of Ed Fuller of the Northville U. S. Fish Station.

Brighton has a curfew ordinance and also has six ladies as special sworn officers to look to its enforcement. These officer-ladies are of course entitled to be called the belles of the town.

"Now, Thomas," said the teacher, "can you more fully explain the adage, 'Old men for counsel and young men for war?'" "It means," replied Thomas, "that the old men do the quarreling and then let the young men do the fighting."—Fun.

POLITICAL GOSSIP.

The claim made by Sleeper supporters, that the Bad-Axe man straightened out the middle in the state treasurer's office, is causing many a smile and considerable indignation among friends of former Governor John T. Rich. The fact is that Ex-Gov. Rich was appointed by Ex-Gov. Warner and served one year as state treasurer after the removal of Mr. Glazier. Gov. Rich straightened out the Glazier tangle and put the state's affairs in perfect shape before Mr. Sleeper came in.

The fight for the Republican nomination for county treasurer promises to be a live one in Wayne. There are four entries: Burgess, Green, Lamphere and Frenwald. It's no walk-over, but "Billy" Green's chances look better than ever before. He is very popular and certainly very competent and with the three other candidates drawing votes from each other "Billy's" long-cherished idea may be realized.

William Guttman should be re-nominated for county auditor by the Republicans. His performance of the duties of his office has been above criticism. Previous to his election as auditor, he served several terms as alderman from the third ward with credit to himself and to the city of Detroit. He has trained himself in the public service, and there is no reason why the citizens of Wayne county should set his aside.

Now that the state tax commission's figures on the assessed valuation of the various counties has been published, attention is being directed to the fact that Frank B. Leland of Detroit is the only candidate for the Republican nomination for governor who has had the nerve to attack the methods of the state tax commission.

Ed Gavde of Plymouth is up again for re-nomination as representative in the state legislature. Ed is one of Plymouth's leading merchants and made a good record in his first term. If faithful service counts for anything Gavde deserves re-nomination.

WILLIAM H. GREEN, JR.

FOR COUNTY TREASURER

The office of county treasurer has brought out a field of candidates for nomination but the office is one of importance, requiring a certain amount of schooling and adaptability. Mr. William H. Green, Jr., as chief clerk in the county auditor's office for a number of years, has had a training that has especially qualified him for the position of county treasurer. He is thoroughly familiar with all departments in county affairs. He has made a host of friends, both throughout the county and county by his prompt and courteous manner in the position he holds. His method of dealing with old or young, rich or poor, has pointed him out as a man in a class by himself, and one well worthy of promotion. His record in business and in public office has been one of uprightness and integrity, and in every way qualifies him for the promotion he is now seeking.

SENATOR TOWNSEND STICKS TO HIS POST

United States Senator Refuses to Leave His Seat at a Time of National Crisis to Campaign for Re-election.

On account of the important measures pending at Washington, and the critical state of national affairs, United States Senator Charles E. Townsend will be unable to make any personal campaign for renomination, except, perhaps, for a few days before the primaries. And this in face of an active and aggressive campaign being made against him.

Senator Townsend has in his one term as United States Senator, risen to a commanding place as one of the leaders of the minority and their chief spokesman. His presence is necessary in order to protect the interests of the minority on all important measures, and he has never been known to shirk his duty and he has built up a record for regularity of attendance surpassed by few members of the Senate.

UNITED STATES SENATOR, CHARLES E. TOWNSEND.
On Duty at Washington While Friends Look After Campaign.

For this reason, the Senator is compelled to refuse the many urgent requests to visit various sections of the State in the interests of his own campaign. His friends have, however, taken up the burden of the contest for him, and a voluntary committee of fifty has been organized to present the Senator's candidacy so that his own time may be given to the people's interests. This committee is now sending out an address to the voters of the State as follows:

Detroit, August 10th, 1916

Dear Sir:

Charles E. Townsend was the first United States Senator from Michigan to be nominated directly by the people. He has fully justified their faith and we urge his renomination and election.

The United States Senate is of supreme importance to all who believe in the principles of the reunited Republican party. The Senate will be the first to elect a Republican President and House be elected. The success of Republican policies, therefore, demands the strongest man in the Senate, man of experience, of judgment and proved ability, man of strong convictions with the courage and ability to express them. A time of national crisis is no time for experiment. Senator Townsend has proved himself to the people of Michigan and the country in both House and Senate. The trusted friend of two great Republican Presidents, he was spokesman of the House for their most important progressive measures. He fought for freedom of debate against the reactionaries of his own party. He has stood uncompromisingly for protection to American industries and labor, scientifically administered.

As a leader of the Republican minority in the Senate he has not hesitated to denounce incompetency, diplomatic blundering or extravagance in the Democratic regime. He is one of the members of the Senate most regular in attendance and has helped shape some of the most important legislation of the last six years. He has been indefatigable in the interests of citizens having business with or requiring the aid of the government.

The people of Michigan need the experience, ability and statesmanship of Senator Townsend at Washington during the crucial years that are at hand. We hope you will do everything in your power to further his renomination and election.

Very sincerely yours,
TOWNSEND SENATORIAL COMMITTEE

PRIMARIES, AUGUST 23.

ADVISORY COMMITTEE:

Bernard J. Owen, Chairman, Battle Creek; Levi E. Babcock, Detroit; Charles E. Fernald, Kalamazoo; Joseph E. Bayless, Midland; Frank W. Wan, Sturgis; John Q. Ross, Muskegon; Sherman T. Handy, Sault Ste. Marie; E. W. Padlock, Charlevoix; Homer H. Gray, Cheboygan; A. L. Deuel, Harbor Springs; A. B. Darragh, St. Louis; W. H. Frankfurter, Hillsdale; W. H. Porter, Lansing; Harvey H. Vandenberg, Grand Rapids; Fred Lee, Dowagiac; John S. Haggerty, Detroit; William T. Dust, Detroit; L. B. Mason, Kalamazoo, Mich.

Ex-Governor Fred M. Warner recently, in a Washington interview, on being asked whether he was a candidate for the Senate, replied: "There is only one man for the position, and that is Senator Townsend."

The importance to the country of Senator Townsend remaining at Washington has been forcibly demonstrated in the last few weeks. His recent extraordinary reply to the vicious attack made by Senator Walsh upon Justice Hughes attracted the attention of the whole country. A few days later Senator Townsend voiced the protest of a whole people against the maintenance of unaccommodated Northern mills in Mexico to do police duty merely to cloak the administration's failure to put the regular army in condition for that purpose. His castigation of the other day of the southern industries which employ child labor was so vigorous and so apt that it challenged the attention of the country and helped to pass the anti-child labor bill over the opposition of many southern Senators.

Horse Power

From This Powerful MAXWELL ENGINE

Almost 34 horse-power from this regular stock Maxwell engine!

34 actual, brake horse-power!

Proved by an accurate dynamometer test, made in the Maxwell laboratories August 10, 1916.

There has been a lot of talk about horse-power, and we just want to let Maxwell owners and prospective owners know that in respect to horse-power, as in most other respects, the Maxwell leads by a comfortable margin. Not that we attach such great importance to horse-power. We don't. We never have.

Horse-power—abundant horse-power—is only one of many superior features of the Maxwell.

We are selling motor cars—complete motor cars—not engines or horse-power.

Horse-power is a matter that is secondary to motor efficiency and economy.

A giant has no advantage if he does not

apply, or wrongly applies, his strength.

Maxwell cars have horse-power—all you want or need—probably more per pound of car weight than any other automobile in the world.

But we don't make any loud cry about it.

Because we have more than horse-power to sell you.

Because you are, and should be, interested in results, the net effectiveness of power.

We challenge competitive tests. We invite comparison.

Because we absolutely know that no car of its class or weight can surpass the Maxwell on speedways, on rough roads, through sand or mud, anywhere.

And because we know, and you will know, that, everything considered, the Maxwell is the World's Greatest Motor Car Value!

MICHIGAN STATE FAIR WILL OPEN ON LABOR DAY

Exposition to Continue For Ten Days.

ANNOUNCES NEW FEATURES

General Manager Dickinson Says Displays and Exhibits in Various Departments Will Break All Records. High Class Amusements.

With new buildings constructed, macadam roads and concrete sidewalks built and the grounds and buildings in general greatly improved, the 1916 State Fair will open on Sept. 4, Labor Day, and continue for ten days. G. W. Dickinson, general manager of the exposition, says that the displays and exhibits in the various departments will break all records and that the amusement and entertainment features are of the highest class.

Stupendous Machinery Display. The fair will represent more truly than ever before the wonderful agricultural and industrial progress made during the past year by the people of the Wolverine State, said Mr. Dickinson. Live stock valued at \$1,000,000 will compete for prizes totaling thousands of dollars. There will be stupendous machinery exhibits as well as superb displays of the products of Michigan's farms and factories. Included in the list of features are harness horse racing, auto polo, trained animal acts, better babies' contest, automobile show, day and night fireworks, horse polo, aerobline flights, chariot races, running races, poultry and pet stock show, athletic events, domestic exhibits, Cpn T. Keppel's famous midway shows, girls' milking contest, day and night horse show, four day test for dairy cows, automobile races, wild fowl exhibits, displays of farm machinery, educational exhibits, lectures by physical culture and health experts and various other attractions.

PROMINENT MEN WILL SPEAK AT STATE FAIR

General Manager Dickinson Announces Speaking Program.

Men prominent in the state and nation have been invited by G. W. Dickinson, general manager of the Michigan State Fair, to give addresses during the exposition, which will be held at Detroit, Sept. 4 to 13.

Among the men invited to speak at the fair are: Theodore Roosevelt, William Jennings Bryan, President Wilson, former Governor Hughes, Governor Woodbridge N. Ferris, Congressman P. H. Keeler, Doremus, and Nicholas, Mayor O. B. Marx, Senator James A. McArthur, former Governor John T. Rich, former Congressman Edwin Denby, Dr. H. H. Wiley, Dr. J. H. Kellogg, Bernard McFadden and John Brennan.

Mr. Dickinson says that he plans to have a prominent speaker give an address every afternoon during the fair.

Arabian Horses to Be One of Feature Attractions at Michigan State Fair

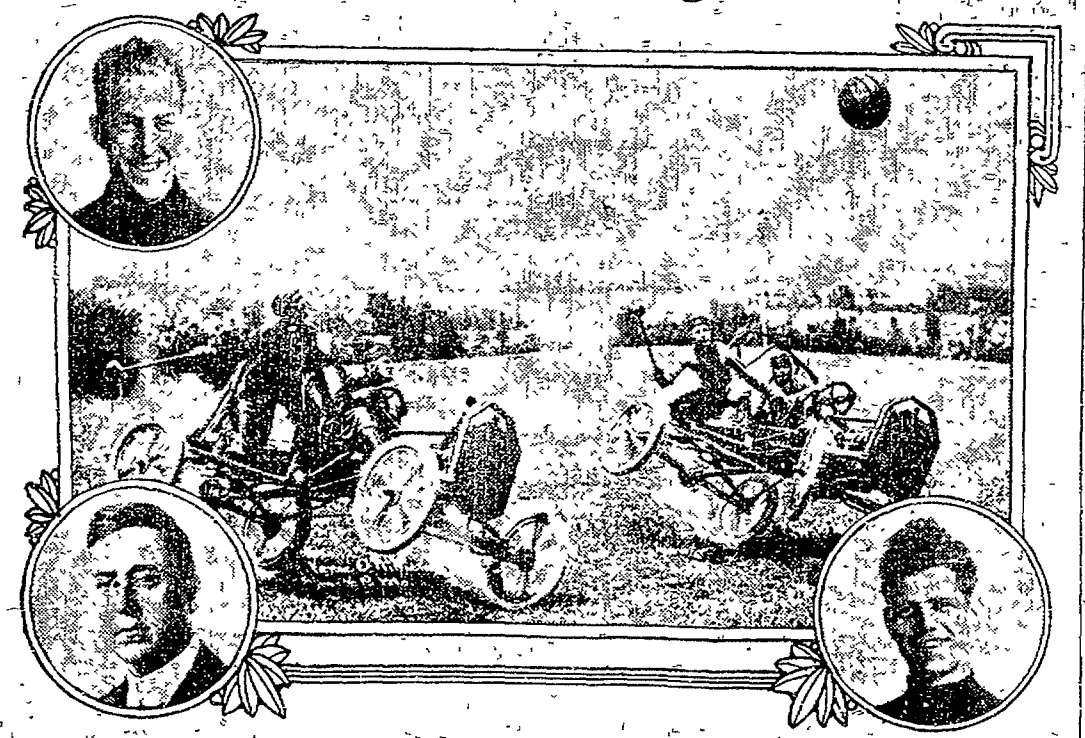

MISS ESSIE FAY AND HER SUPERB EQUINES, ARABIA AND DON M'DONALD.

ONE of the features of the Michigan State Fair which will be held at Detroit Sept. 4 to 13, will be an equestrian act in which two well trained Arabian horses will give a wonderful exhibition. These horses are most intelligent equines and give a remarkable performance.

New Roads and Sidewalks Built. New roads and sidewalks are being constructed at the Michigan State Fair grounds under the supervision of G. W. Dickinson, general manager of the exposition. The highways are being built of crushed stone which is being covered with oil the contents of a tank being used for this purpose.

Old Soldiers' Day, Sept. 5. W. Dickinson, general manager of the Michigan State Fair, announces that the old soldiers will be guests of the State Fair management on Tuesday, Sept. 5. A special patriotic program will be given, including concerts by bands, addresses, daylight fireworks and flights by aviators.

American and English Auto Polo Teams to Meet In Contests at Michigan State Fair

SCENE IN AUTO POLO GAME. LOWER INSET, LEFT, RALPH A. HANKINSON, MANAGER OF THE AMERICAN AND ENGLISH AUTO POLO TEAMS. UPPER INSET, CAPTAIN RAY LAMKIN OF ENGLISH TEAM; LOWER RIGHT, CAPTAIN WALTER STIRLING OF AMERICAN TEAM.

THE directors of the Michigan State Fair, who are on the alert to secure high class attractions for the patrons of the coming fair, have spared no expense in their endeavor to secure the utmost in merit in the way of good amusements. General Manager G. W. Dickinson announces that he has made arrangements to bring the original auto polo teams to Detroit in September. These teams have just returned from a most successful invasion of the Far East and Orient, including a series of nine games as a special feature attraction to the Insular Government Carnival held in Manila. These teams had the honor and distinction of having played before the Royal Imperial household of Japan by a special request in March.

Manager Hankinson recently was in Detroit for a conference with Mr. Dickinson, where he entered into a contract whereby the original teams will appear daily at the 1916 fair, both afternoon and evening.

LELAND VS. THE FIELD.

How does it look to the voters of Michigan for politicians to spend large sums of money in the last two weeks of the campaign, publishing statements that Wayne county is not sold for Frank B. Leland for governor? The sleeper managers know that the statements they are publishing are not in accord with the facts. Anyway, what have their statements to do with the merits of the respective candidates?

Besides, why do the sleeper lieutenants select Mr. Leland for their attacks? Can it be that they do not know that there are five candidates in the field or is this their way of acknowledging the fact that Frank B. Leland is away out in front, with his hat in his hand, making straight for the goal?

It's Smooth as Silk

A Talcum Powder containing the
least particle of grit or foreign
substance is not a proper powder
to use on baby's tender skin—or
on your own.

Before you accept a toilet pow-
der rub a little on the back of the
hand or on the tender part of the
wrist—you will easily detect the
presence of grit.

Apply this test to NYAL'S

You will notice two things—its
perfect smoothness and a delight-

in every way.

Its smoothness—combined with
its antiseptic properties leaves the

WAYNE CIRCUIT JUDGES ENDORSE
FARRELL FOR COUNTY CLERK.

Detroit, Mich., June 15, 1916.
Thomas F. Farrell, County Clerk.

Dear Sir:—Inquiries from time to
time have come to me as to the con-
duct of the clerk's office in Wayne
county.

The business of that office, with the
great growth of the city and litigation
that necessarily follows, has increased
until today its demand for careful,
systematic conduct of the business of
the office is important.

I am glad to say that no one could
ask for better work than is done by
you and your efficient staff. The
records are strictly up to date and
correct in every detail.

It seems to me the conduct of the
business of the clerk's office is in safe
hands and is being done in a satis-
factory manner. No word has come
to me to the contrary.

Respectfully yours,
PHILIP T. VAN ZILE.

EDWARD F. STEIN

WELL QUALIFIED

TO FILL THE IMPORTANT OFFICE
OF SHERIFF OF WAYNE COUNTY.

County Treasurer, Edward F. Stein,
candidate for the office of Sheriff of
the Republican ticket at the primaries
to be held Aug. 29, is one of the most
capable officials in the history of
Wayne county. As a public official,
Mr. Stein has devoted his entire time
and energy to the interest and welfare
of the taxpayers and the general pub-
lic, and from the many favorable com-
ments, which one hears from time to
time on the efficient, courteous service
which is accorded all of the taxpayers
who have had occasion to go to the
treasurer's office on business it is ap-
parent that the efforts which Mr.
Stein has made in behalf of the citi-
zens of Wayne county are well ap-
preciated.

Previous to the time that he was
elected to the office of county treas-
urer, Mr. Stein served four years, by
appointment, as chief deputy under
former sheriff, George Gaston, during
which time he became thoroughly
familiar with the great amount of
detail work in connection with that
office. There is no man in Wayne
county who is better qualified to fill
the important office of sheriff, and on
his excellent record as county treas-
urer, Mr. Stein merits the support of
every good citizen at the primary
election Tuesday, August 29. —Advt.

STATE BRIEFS

Lansing, Mich.—A combined assault on the 1917 legislature in behalf of the Industrial School of Boys at Lansing was pledged at a meeting of the members of the boards of control of the dependent non-penal state institutions held here today at the invitation of Governor Harris and presided over by him.

Justice Henry S. Hobbart of Detroit insisted the reconstruction of this institution was the one thing that persons interested in the welfare of the boys of the state should insist on.

"We simply have to come to the next legislature and demand what is needed," he said, "and if we all come here and camp on the trail of the legislators we can get an excellent start."

Flint, Mich.—Directors of the Flint Board of Commerce recently appointed a special committee to consider the matter of providing sufficient houses for the hundreds of persons here who are living in one, two or three rooms because of a lack of dwellings, and the committee today reported the need of the immediate construction of 5,000 new houses "suitable for the needs of the families of the factory men."

Battle Creek, Mich.—On being notified that Colonel Roosevelt would speak in Battle Creek Saturday, September 30, the southern Michigan committee began definite arrangements for the jubilee planned for this occasion.

Detroit, Mich.—The price of gasoline has dropped from 18 to 15 cents a gallon at Standard Oil stations throughout the city. It is said that the reduction is due to a decline in the price of crude oil and to the fact that there is an increase in consumption of gasoline by automobile users and a decrease in the cost of its production.

Detroit, Mich.—Telegrams of encouragement and approval of the educational and citizenship campaign now being carried on by the Americanization committee of the Detroit Board of Commerce were received by the committee Wednesday from President Wilson and Charles E. Hughes, Republican candidate for the presidency.

Manager Dickinson Says Relative Economy of Tractor and Horse Power Is One of Most Important Questions Before the Michigan Farmer.

"The progressive farmer owes it both to himself and to his business to attend at least one of the tractor demonstrations to be held this summer," said G. W. Dickinson, general manager of the Michigan State Fair, who announces that the tractor demonstration to be held in connection with the exposition at Detroit Sept. 4 to 13 will be one of the largest in the middle west.

"There is no question but that the relative economy of tractor and horse power is one of the most important questions now before the Michigan farmer, and these demonstrations offer an exceptional opportunity for him to make a close study of several phases of the question," said Mr. Dickinson.

A PATHETIC SCENE ON THE WESTERN FRONT

This picture depicts a British stretcher party bringing in wounded soldiers after an advance during the operations on the Somme. The soldier lying prone on the stretcher and another who is being assisted have been wounded in one of the early morning advances in France. The wounded are being conveyed to the rear by the stretcher party. All the members of the latter are in full kit, with steel helmets and Red Cross Crossbands. The sad procession is seen winding slowly along in the dim light amid the slowly dispersing vapors of night.

KING ARMORED CAR PROVES EFFICIENT IN TEST FOR ARMY

Washington Military Authorities Witness Performance of Armored Car.

Philadelphia, Pa., Aug. 5.—Before one of the most critical audiences which ever witnessed such a test, an armored motor car, built by the King Motor Car Co. of Detroit, counted on an eight cylinder King chassis, drew salvos of applause for its performance in an army test the present week in Washington. The car is now at Camp Biddle, Philadelphia, and preparations are being made for one of the most exhaustive and spectacular tests of its kind ever held under the supervision of a board of officers of the United States Marine Corps.

The tests at Philadelphia will consist of reconnaissance, scouting work, sham battles and the loading of the King armored car aboard a battleship going to sea, landing with the car and staging subtle warfare. This test will be under the supervision of a board of marine officers consisting of Captains Seth Williams, Earl Ellis and Charles Sanderson. Marines of the regular service and the citizen soldiers in camp at Camp Biddle will make up the defense and attacking parties.

Every possible test to determine the possibilities of a light armored motor car under war conditions will be staged.

Indiana Drummer Looking for Man With Prize Winning Nerve

South Bend, Ind.—E. W. Zimmer, a commercial traveler living here, believes he has met the man with the prize winning nerve. Zimmer had boarded a street car. After he had got about four blocks a man seated next to him got up, slapped Zimmer on the shoulder, grasped the salesman of the hand and said: "How are you, old man? Glad to see you. Got to get off here."

Zimmer was puzzled but supposed that he had met the man somewhere before. When he got home he discovered that his pocketbook, containing \$30, was missing.

CHURCH PROFIT FROM POTATOES

Organized Congregation of women Grow and Market the Tubers Medora, Ill.—A new method of raising money for church uses developed here when members of the ladies organized class of the Methodist Episcopal Sunday School marketed potatoes at top prices.

At a social given earlier in the season each guest was requested to contribute one potato. The offerings were sold, and with the money obtained therefrom potatoes were procured and planted in a small tract of ground owned by Mrs. John Wilton. The patch produced a prolific yield which is bringing in large financial returns.

Why Buy a Suit Because the Price Seems Cheap?

You Can't Wear the Price Ticket!
The VALUE of an article is not revealed by the price alone, but by the measure of QUALITY which that price will purchase!
So whenever you feel the lure of a "cheap" price, remember that only a cheapening in quality could make that "cheap" price possible!

This is a One-Quality, One-Price Store!

\$15 Suits for \$15! \$20 Suits for \$20! \$25 Suits for \$25!

JOHN D. MABLEY

MICHIGAN STATE FAIR

**DETROIT
SEPT. 4-13**

"Still Growing" Greatest Exposition In Middle West

Notable attractions and exhibitions will feature Michigan's State Fair, which will more truly represent than ever before the wonderful progress which is being made annually by the people of the Wolverine State.

Educational and entertainment features, stupendous displays of farm machinery, superb exhibits of farm products—all will be found at the 1916 State Fair.

Harness Horse Races

Michigan's fastest trotters and pacers will compete in events for purses totaling thousands of dollars.

There also will be events for the automobile pilots. World famous drivers will attempt to shatter dirt track records.

Better Babies' Contest

Michigan's boys and girls under three years of age from cities, towns and rural districts will compete in the annual Better Babies' Contest.

There also will be athletic contests for men, boys and girls, and physical culture lectures and demonstrations by experts.

"The War of Nations"

Day and night fireworks will be a daily feature. A wonderful fireworks drama, "The War of Nations," is to be represented on a mammoth open air stage. 300 people taking part in the cast. A dozen acts of high class vaudeville will be interpolated just before the battle.

After the fireworks drama two allegorical tableaux are to be introduced. One typifies "The Horror of War," the other "The Blessings of Peace." The performance will close with a dazzling exhibition of the marvels of twentieth century fireworks.

Entertainment Features

Horse polo, chariot races, high class midway shows, roller coaster, trained animal acts, two noted bands, running races, auto polo, tumblers and acrobats, vocal soloists, day and night horse show, and many other attractions will provide entertainment for the State Fair patrons.
