There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

THE STANDARDS OF TRUE AMERICANISM

A Study in Reflections. A Kansas woman insists that the way to make windows shine is to scrub them with shampoo. This suggests an explanation of the polished surface of bald heads.

GARRICK THEATRE, DETROIT.

"Rock-a-Bye-Baby" is the catchy title of the musical comedy at the Garrick Theatre the week commencing Sunday, October 6th, which has been one of the big hits on Broadway. The cast is headed by Jefferson DeAngelis, Louise Dresser, Walter Lawrence and Enda Hibbard number their followers in Legion. Dorothy Dickson and Carl Hyson, the sensational dancers will introduce a number of their dances. Then comes a real treat, the Ladies of the ensemble (don't you dare use the word chorus girls.) This bevy of beauty is said to compose the pick of the Ziegfeld girls. They're all real actresses with speaking roles. They are all gowned by Lucile, and most of them collect a principal's salary every week. We don't dare announce how many of them are carrying their cars.

Airquakes. An English astronomer of prominence has advanced the theory that there are airquakes, entirely independent of earthquakes, that are caused by the explosion of meteors in the atmosphere.

THE ELECTRIC CLEANER. absolutely does away with periodical house cleaning. It's Home Clean Home, all the time. Cleans carpets and rugs without taking them outside to shake them. The Electric Cleaner works like a toy, alongside of the old broom. Gives you so much more time and recreation. You can secure a cleaner on easy terms. That should mean a Cleaner in your home this very week. THE DETROIT EDISON COMPANY.

You can do this by buying Swift & Company shares, which are bought and sold on the Chicago and Boston stock exchanges. There are now over 22,000 shareholders of Swift & Company, 3,500 of whom are employes of the Company. These 22,000 shareholders include 7,800 women. **LETTER FROM NOVI SOLDIER**

The following letter from a Novi boy in France will be of interest to many friends:

August 25, 1918.

Dear Friends: Just a few lines to let you know I am still in existence and feeling fine. I am sorry I could not get around to write before, but really I have been so busy moving and doing other things that must be done. Well at the present we are all back from the front lines taking a little rest which isn't bad at all. The part of France I am in now is much better than the part I first hit when I arrived here, but I have been many miles since then. I can hardly realize that I have been over here three months. Well the weather is fine at the present, real warm along with a nice breeze. I am writing this sitting at the end of our wagon or cart which we use to carry combat equipment. No doubt you can tell by the writing I am not sitting in a M. C. A. writing room, but this answers the purpose. This is the most beautiful part of France I have seen, rather a rolling country with hills as far as you can see any way you look, and all vegetation is green - along with the stone houses with their red and gray slate roofs makes a picture for any artist to paint. The roads here are certainly fine all made of stone which is much like our asphalt. They certainly are great for touring. We don't find any time to do any touring but never-the-less, we certainly do appreciate their good roads. Well I have seen some of the very front lines and been in some of the drives. In fact we were so close at one time, with a pair of field glasses you could see in the Hun's trenches. We made some of them scatter and some of them will never fight in this war any more. In fact I have worked-gat on the field when shells were bursting all around and pieces whizzing past your head making one lie down flat on the ground to keep from getting hit, as there is no use to try to stop them if you can get away from them. Along with the bursting of shells and shrapnel and the clatter of a gas horn, made the days and nights go by rather fast.

I wouldn't take a whole lot for my experience and I am glad I had a chance to get at the front and expect to be there again soon. That's the only way to get this war over.

Well, I guess I will close for now hoping this finds everything going along fine and that everybody is well and business the very best. Hoping to hear from you soon, I remain.

Yours truly, BERT

**October 11, 12 and 14 FRIDAY, SATURDAY AND MONDAY**

**This Year More Remarkable Than Ever Before**  
**A Special War Time Service.**

The United States is at war with the greatest military power the world has ever known. More than a million of our boys are in France, and millions more in training. The blanket output of the country has been practically commandeered by the government to supply the needs of our soldiers and sailors. Blankets are now almost priceless because there are none to be had from the mills. The blankets in this offering were contracted for last year and stored as fast as made for this special event. The goods were all apportioned to a limited number of retailers, and we were most fortunate to be included. Hence your opportunity. When these goods are sold we cannot obtain more at any price. We offer them October 11, 12 and 14 at the Prices Determined upon before the Tremendous Advance of the past Six Months:

**How Can Our Young Women Do Their Bit?**

**Through Commercial Training and Commercial Service**

While the wives and mothers of our soldiers are giving unstintingly of their time to Red Cross Work, there are other avenues of service, equally important in this hour of need, which are particularly open to our GIRLS AND YOUNG WOMEN.

We refer to COMMERCIAL SERVICE in the offices of retail and wholesale establishments, factories, banks, etc.

To render such service EFFICIENTLY demands SPECIAL TRAINING.

Young people of either sex who have completed their common or high school education can render their country no more patriotic service than by fitting themselves to take up the work of the men who have joined or will soon join our fighting forces.

Such branches of Business Training as STENOGRAPHY, TYPEWRITING, BOOKKEEPING, ACCOUNTING, BURROUGHS CALCULATING MACHINE and similar subjects, insure young people SPLENDID POSITIONS with our great business houses, factories, banks and stores.

Taking up this work, enables you to DO YOUR BIT in capacities of
