

THE NORTHVILLE RECORD.

VOL. XLIX. NO. 32.

THE RECORD: NORTHVILLE, MICH. FRIDAY, FEBRUARY 28, 1919

\$1.50 PER YEAR, IN ADVANCE.

Our Lines of Corsets

ASSURE REAL CORSET ECONOMY

Real Corset Economy depends upon the actual service given by the Corset you buy and real service includes not only wear, but style and comfort.

In going over our records for the past year we find that we have had an especially satisfactory Corset trade, and at the same time we realize that there is a Greater Future for our store in the Corset business. Besides our old stand-by lines of American Lady, Nemo and Ferris Waists, we have just added the Famous Warner Bros. Rust Proof Lines.

COME HERE FOR YOUR NEXT CORSET

Our Spring Lines of Piece Goods in Silks, Dress Goods, and Wash Fabrics are now arriving. Come in and Look Them Over.

PONSFORD'S

Pictorial Review Patterns in Stock.
NORTHVILLE. MICHIGAN.

T's

To those who have not tried one of our several brands of Teas, we can recommend the following:

Chase & Sanborn's Seal Brand, 70c lb.
Aurora Brand (in lead) 65c lb.
Empire Brand 60c lb.

And Two Excellent Grades of Uncolored Japan at 50c and 60c per lb., together with Black Gunpowder, Siftings, etc.

Loose-Wiles and National Biscuit Co's Crackers and Bulk and Package Cookies.

At last we are to have Vinegar by the gallon.

Heinz "Rex Amber" does cost more than the ordinary kind, but it is Absolutely Pure and more than worth the extra money. Heinz Dill and Sweet Pickles in the bulk, and a good assortment of the other standard Heinz products.

If you haven't tried that "OMAR" Flour better begin now
A QUANTITY OF CLOVER, TIMOTHY AND ALSIKE.

"We'll Treat You Better."

VILLAGE ELECTION COMES MARCH 10TH

TWO TICKETS IN THE FIELD BUT NO OPPOSING CANDIDATES.

The village ticket this year, while presenting no opposition so far as candidates are concerned, insures for the municipality a splendid set of officials without the usual ill-feeling being brought into the affair because of one issue or another.

The retiring officials, President Coldren and Trustees Montgomery, Stanley, Balden and Kohler have served the village faithfully and well for some years, and are entitled to the commendation of all citizens.

This year Mr. Lanning very reluctantly consented to accept the nomination for village president, after being urged by a number of business men and citizens of the town. It was thought that with all the new improvement issues coming up, such as paving of Main street, sewers, Ford factories, etc., that he could give more personal attention to the work than almost any one else. His good business ability in these regards would also be of much value to the village as well as his influence as a supervisor in working out these problems to the town's best interests.

The two tickets are equally divided now and everybody ought to be satisfied. Here is the way they stand:

WORKINGMEN'S TICKET
President—W. Judd Lanning
Trustees—Frank Hills, Ernest Miller
Assessor—Charles A. Sessions.

PEOPLES' TICKET
Trustees—Chas A Ponsford, Claude McKahn
Clerk—Thomas E. Murdock
Treasurer—Mary Litsenberger

That makes four candidates on each ticket. It ought to be satisfactory. However, some people are never satisfied and it is intimated now that there are those just aching for a scrap. And this too just as President Wilson gets home from the peace conference.

Mr. Lanning will make a splendid president of the village just as he has in the past made a valuable village official and just as he is today making a valuable representative of Northville township as a supervisor. No township in Michigan is better represented in this respect than this.

If Northville is to assume her proper place in Michigan's business world there must be more of the all-pull-together spirit and this is the year of all years to put it over.

IS COMMANDERY'S OLDEST LIVING MEMBER

F. R. BEAL, NOW OF DETROIT, MADE KNIGHT IN 1886, OUT-RANKED ONLY BY WM. HARLAN.

Sir Francis R. Beal, now of Detroit, was the second one to be knighted by Northville Commandery No. 39, this event occurring July 9, 1886. He is the oldest living member of the Commandery and is only outranked in membership by William Harlan, a charter member. Mr. Beal was

FRANCIS R. BEAL

Formerly of Northville, now of Detroit, the oldest living member of Northville Commandery.

always an enthusiastic Mason and up to the time when the manufacturing business of the old Globe Furniture Co. demanded all his time he was thoroughly identified with all the various Masonic orders.

During the years 1873-1874 and 1882

he was High Priest in Union Chapter and was Master of Northville Lodge two terms.

Other living members who were knighted after Mr. Beal in the months immediately following, are:
Edmund J. Robinson, July 16, 1886
John E. Wilcox, July 21, 1886
Dean F. Griswold, July 27, 1886
Seymour Bower, October 12, 1886
Barton A. Wheeler, January 11, 1887
Charles Booth, May 3, 1887
Edward C. Leach, April 17, 1888
William W. Thayer, June 12, 1888
Delos Leavenworth, March 19, 1889
Charles A. Sessions, October 1, 1889
Louie A. Babbitt, December 2, 1889

PRIMARY ELECTION WEDNESDAY, MARCH 5

NOMINATIONS FOR IMPORTANT OFFICE OF COUNTY AUDITOR TAKES PLACE.

Next week Wednesday the voters will be called upon to vote for the nomination of county auditor, county school commissioner, and a circuit judge. The only contest is for auditor. The Republicans have nearly a dozen candidates, including Arthur Whitcomb, county tax expert, formerly deputy county clerk and a Spanish war vet; Leonard Wilton, a well known Detroit lumber man and supervisor of Grosse Pointe; John Cowan, U. S. soldier and M. R. Palmer, a former newspaper reporter.

For the first time the women of the township will have an opportunity to cast their vote, and it is expected everyone of them will exercise that privilege.

The village election does not occur until the following Monday, March 10, but in as much as there is no opposition to any of the candidates that affair will not be a very lively event.

EASTERN STAR BALL WAS SIGNAL SUCCESS

The Q. E. S. ball, held last Friday night in the school gymnasium was pronounced one of the "best ever," by everybody concerned. The only trouble was that there was almost too big crowd for comfortable dancing at times. There was an unusual number of beautiful gowns, most of them newly purchased for the occasion, the music was excellent, the supper delicious, the decorations fine and all the arrangements carried out with a smoothness and effectiveness that spoke volumes for the ability of the various committees in-charge. Guests were present from several outside cities and towns, and among the dancers were represented all ages, from high school students to a few "young folks" dangerously close to three-score, while a large company of spectators enjoyed the animated scene from the running track above. A very acceptable sum was realized for the Chapter treasury after the paying of the large expenses connected with the giving of the ball.

FINAL BASKET BALL.

The final basket ball game of the season for Northville will be played this Friday night, beginning at 8:00 o'clock, when the local H. S. teams will meet the strong boys' and girls' teams from Plymouth. Northville recently defeated Plymouth in both games and is hoping to repeat tonight.

AUCTION SALE.

Friday, March 7, at 10 a. m., on the Rathbun farm, 1 mile east and 1 mile south of Salem, Mrs. Louis W. Holtz and Mrs. August Holtz will have a sale of 20 dairy cattle, horses, hogs, poultry, hay, grain, potatoes, farm tools, and many other articles. A hot lunch will be served at noon. Auctioneer, Frank J. Boyle.

AUCTION SALE.

Wednesday, March 5, with L. W. Lovewell as auctioneer, on the premises known as Baker's Beach farm, 5 miles west of New Hudson, on Grand River, Adlai Ford, Ray Baker is to have a sale of farm tools, large and small, hay, grain, also household goods, including beds, bedding, carpets, etc. Sale begins at 1:00 o'clock p. m.

CARD OF THANKS.

Mr. and Mrs. James Ford sincerely thank the M. E. ladies and The King's Daughters for flowers sent Mr. Ford before his departure for the hospital.

Supreme-Brand-Household-Salve is antiseptic; stops itching, is good for pimples, skin eruptions and sores.
NORTHVILLE CHEMICAL CO.

The REXALL Store.

NORTHVILLE

"CALLUS CORNS" LIFT RIGHT OFF

Doesn't hurt! Lift any corn or
callus off with fingers

Don't suffer! A tiny bottle of
Frezzone costs but a few cents at any
drug store. Apply a few drops on the
corns, calluses and "hard skin" on bot-
tom of feet, then lift them off.

When Frezzone removes corns from
the toes or calluses from the bottom
of feet, the skin beneath is left pink
and healthy and never sore, tender or
irritated.

Artistic Endeavor

"We'll have to take that last scene
over again," said the director.
"Good heavens!" exclaimed the im-
mortal tragedian, who was trying his
luck in the movies. "I can't go through
a scene like that twice in the same
day. I've never done it in all my stage
career."

"Then there's no place for you on the
screen. Why, our comedian, Fat
Bill Walrus, tumbled head foremost in-
to a tub of water seven times this
morning, trying to do a fall that
wouldn't damage his reputation."
Birmingham Age-Herald.

STOP LUMBAGO PAIN, RUB BACKACHE AWAY

Instant relief! Limber up! Rub
pain, soreness, stiffness right
out with "St. Jacob's Liniment."

When your back is sore and lame
or lumbago, sciatica or neuritis has
you stiffened up don't suffer! Get a
small trial bottle of old, honest "St.
Jacob's Liniment" at any drug store,
pour a little in your hand and rub it
right into the pain or ache, and by the
time you count fifty, the soreness and
lamefulness is gone.

Don't stay crippled! This soothing,
penetrating liniment takes the ache
and pain right out and ends the misery.
It is magical, yet absolutely harmless
and doesn't burn or discolor the skin.

Nothing else stops lumbago, sciatica
and lame-back misery so promptly and
surely. It never disappoints!—Adv.

Room for Him

The 5-15 train was crowded to over-
flowing, and heated passengers were
running excitedly end down the plat-
form, trying to find seats.

As the train was on the move the
door shot open and an excited young
man piped out anxiously:

"Say, is this ark full, or not?"
"Yes," came from the smokestack, ding-
test corner of the compartment; "it's
full right enough—all except the ass
Come right in, m'boy!"

SWAMP-ROOT FOR KIDNEY AILMENTS

There is only one medicine that really
stands out pre-eminent as a medicine for
curable ailments of the kidneys, liver and
bladder.

Dr. Kilmor's Swamp-Root stands the
highest for the reason that it has proved
to be just the remedy needed in thousands
of cases of distressing cases.
Swamp-Root makes friends quickly be-
cause its mild and immediate effect is soon
realized in most cases. It is a gentle,
healing vegetable compound.

Start treatment at once. Sold at all
drug stores in bottles of two sizes, medi-
um and large.

However, if you wish to test this great
preparation send ten cents to Dr. Kilmor
& Co., Binghamton, N. Y., for a sample
bottle. When writing be sure and men-
tion this paper.—Adv.

The Similitude

"A star who wants a good position
is to much the condition of a looking-
glass."

"What is that?"
"Her claims do not get much look-
ing into unless she has plenty of look-
ing."

Cuticura Soothes Baby Rash

That itch and burn with hot baths
of Cuticura Soap followed by gentle
anointings of Cuticura Ointment.
Nothing better, purer, sweeter, espe-
cially if a little of the fragrant Cuti-
cura Talcum is dusted on at the fin-
ish. 25c each everywhere.—Adv.

All the gold coin in circulation would
weigh about 900 tons.

War's Effect on Automobile Industry

Passenger Car Production of 1918 Only 60 Per Cent of That
of 1917—Truck Production Increased—
70 Per Cent

Because of its importance in what has been termed a "war of mo-
tors"—under the sea, on land, and in the air—the automobile industry
has suffered substantially in the making of its normal product, according
to Alfred Reeves, general manager of the National Automobile Chamber
of Commerce. Passenger-car makers in some instances were almost
entirely engaged on war materials when the armistice was signed and have
had some difficulty in getting back to a peace basis. Contracts taken were
not alone for cars and trucks but for guns, mine anchors, helmets, field
kitchens, airplane motors, tanks, tractors, shells, depth bombs, and similar
material which could be made by the modern equipment of the motor-car
plants.

Passenger-car production was almost 700,000 cars short of 1917,
being only 60 per cent of that year, while truck production increased from
128,157 to 219,056, or 70 per cent. Automobile manufacturers are now
returning to normal production, but it will take some months. This
year's production of passenger cars may not even reach the 1917 mark.
The scheduled production of commercial vehicles for 1919 is 350,000.

The following figures are interesting in showing the war's effect on
automobile making, the third largest manufacturing industry in this
country:

	1917	1918
Passenger cars produced in United States	1,737,151	1,044,754
Commercial cars produced in United States	128,157	219,056
Wholesale value passenger cars produced	\$1,053,505,781	\$801,987,925
Wholesale value commercial cars produced	\$220,082,668	\$434,168,992
Exports passenger cars	65,375	37,172
Exports motor trucks	14,876	9,904
Value of passenger cars exported	\$50,026,358	\$37,797,615
Value of motor trucks exported	\$37,049,134	\$25,741,080
Motor vehicles registered in United States Dec. 1	4,941,276	5,945,442
(Of this number about 490,000 are trucks.)		
April, 1917, to December, 1918.		
Value of war contracts assumed by automobile and truck man- ufacturers (more than)	\$1,100,000,000	
Passenger cars ordered by government	55,460	
Motor trucks ordered by government	204,760	
Passenger cars produced on war contracts	18,726	
Motor trucks produced on war contracts	90,727	
Passenger cars shipped overseas for American expeditionary forces	7,904	
Motor trucks shipped overseas	54,343	
Army trucks requisitioned by post office department for postal service	13,170	
Federal taxes paid on sales of automobiles and trucks during twelve months ended Sept. 30, 1918	\$32,812,678	

HINTS FOR POULTRY GROWERS

The poultry grower who has not yet
adopted sprouted oats as a part of the
hen's bill of fare, especially during
the winter months, is not only depriving
his hens of feed that would be re-
laxed and which is most valuable in
feeding for egg production, but is also
overlooking one of his best opportu-
nities to save on the cost of feeding.
Town folks who keep only small flocks
have been quicker to realize the advan-
tages of feeding sprouted oats than
have farmers, yet the latter are the
ones who should be first to understand
the food value and the results that
might reasonably be expected from
sprouted oats, because the oats sprout-
er is to the poultryman what the silo
is to the dairyman.

A few poultry growers operate their
oats sprouters the year round, they
having found sprouted oats to be an
excellent feed for both laying flocks
and growing stock. This can be done
very profitably when the chickens do
not have free range, but is not neces-
sary with the farm flock during that
part of the year when there is plenty
of natural green feed. The real advan-
tage in feeding sprouted oats is that
it provides succulent green feed when
none other is available. In the sprout-
ed form, none of the grain is lost or
wasted. The hens eat all the tender
green sprouts, roots and soft hulls.

Oregon Will Use Soldiers to Build Miles of Roads

The Oregon state highway commis-
sion has adopted the most extensive
program of road improvement for the
year 1919 of any ever proposed or car-
ried through in that state in one sea-
son. It calls for an estimated ex-
penditure of \$3,525,200, and the money
is to come partly from a \$6,000,000
road fund already voted by the peo-
ple and partly from automobile tax
receipts and road taxes. It is esti-
mated by the highway engineers that
the labor of 3,000 men will be required
in carrying out the program. It is in-
tended to give preference to returning
soldiers.

London Has Women Police.

London is trying out 100 police wom-
en, uniformed and assigned to beats
as "peepers." They are sworn in as
constables and their particular duty is
to assist others of their sex.

SHORT AND SNAPPY

The perfect man is usually a
perfect imperfection.

An essay on man—a woman's
attempt to marry him.

Absence may increase the
love, but it is rough on the coun-
terfeit.

The greater the bore a man is
the smaller the hole he leaves
behind him.

She who composes a cross
baby is far greater than she who
composes a ragtime melody.

Record Coinage by U. S. of Undesigned Penny in 1918; Rising Prices Was Reason

Reports from the mints show a
total of 307,913,000 one-cent pieces
turned out by the United States in
1918. This is a record coinage. It
stands for only a single year's pro-
gress, however, in a tide of pennies
which has been rising steadily dur-
ing the latter half of the war period.
The average annual output of one-
cent pieces from 1907 to 1916 was
about 100,000,000.

Obviously the 1918 increase in our
smallest of coins was made necessary
by the call for small change to pay
war taxes on goods sold at retail.
Really, all sorts of economic causes
are behind the rising demand for pen-
nies. Rising prices of provisions and
other staples have gone constantly
into odd figures.

At times and places of old in the
United States, down on the gulf and
out on the gold coast, the cent has
been despised. Men boasted of spend-
ing nothing less than a nickel. The
copper coin now has its turn about.
Nobody holds it in scorn.

THE CONQUEROR WORM

Let this be a gala night
Within the lonesome latter years.
An angel throng be hovering
In veils and drowned in tears.
Sit in a theater to see
A play of hopes and fears,
While the orchestra breathes fitfully
The music of the spheres.

Mimes, in the form of God on high,
Mutter and mumble low,
And hither and thither fly:
Mere puppets they, who come and go,
At bidding of vast formless things
That shift the scenery to and fro,
Flapping from out their condor wings
Invisible wo.

That motley drama—oh, be sure
It shall not be played on!—
With this Phantom, chased for evermore,
By a crowd that seize it not,
Through a circle that ever returneth in
To the self-same spot;
And much of Madness, and more of Sin,
And Horror, the soul of the plot.

But see amid the mimic rout
A crawling shape intrude:
A blood-red thing that writhes from out
The scene's solitude!
It writhes—it writhes—with mortal pangs
The mimes become its food,
And seraphs sob at vermin fangs
In human gore imbued.

Out—out are the lights—out all,<—
And over each quivering form
The curtain, a funeral pall,
Comes down with the rush of a storm,
While the angels, all pallid and wan,
Uprising, unveiling, affirm
That the play is the tragedy, "Man,"
And its hero, the Conqueror Worm.

—Edgar Allan Poe.

"Umbrella Pants" and "Bridges" Alberts May Be the Style

That the men of this country will
soon have to wear baggy trousers, or
"umbrella pants," was the intimation
of tailors attending the twenty-third
annual convention of the National As-
sociation of Clothiers in New York
recently. The abrogation of personal
liberty is expected because of the vast
quantity of cloth left on the clothiers'
hands by the war's sudden ending. The
clothiers advocated the double-breast-
ed coat and the Prince Albert as
means of using up surplus cloth.

Victor Hugo's Prophecy of 1880 Which Excited Great Comment When It Appeared

In 1880 Victor Hugo, who was then
in Paris, wrote the following remark-
able words, which appeared in the
French newspapers at that time and
excited considerable comment. It
was then not thought likely that his
vision would in any way be realized,
at least for a long time to come, as
it was then not so many years after
the Franco-Prussian war. In his usual
masterly style he wrote:

"Then France will suddenly arouse
herself. She will become formidable.
She will regain Alsace-Lorraine. Is
it enough? No! no! She will cap-
ture—listen—Trieres, Mainz, Cologne,
Coblenz. And you shall hear France
cry: 'The clock strikes my hour.
Germany, hear me! Am I thine en-
emy? No, I am thy sister. I have
taken all from thee, I return all to
thee upon one condition; that we
shall no longer be a divided people;
that we shall be one united family,
one republic. I will demolish my fort-
resses, thou thine—my vendetta is
brotherhood. No more frontier. The
Rhine, mine and thine."

"We shall be the liberty of Europe.
And now let us clasp hands, for we
have rendered each a reciprocated
service. Thou hast freed me from
my emperor. I will free thee from
thine."

American "Apollo" Is Found in the Great National Army

The American "Apollo" has been
discovered and his proportions mea-
sured. A committee appointed by the
National Association of Merchant
Tailors to seek the "perfect man" an-
nounced it had found him in the na-
tional army and would analyze him
when the association convenes at At-
lantic City. He is worthy of being a
"world model," the committee asserted.
"The idea that perfection among
men should be measured by bulk is all
wrong," said the investigators, who,
after scrutinizing the best specimens
at the various cantonments decided
Apollo should be five feet eight in
height and weight 148½ pounds. His
chest must be 38 inches, his waist 32½
inches, thigh 21½ and calf 14½.

Usefulness Always the Final, Determining Test

When a corporation looks around
for a new president, a congregation
for a new minister, a housewife for
a new servant, a firm for a new clerk,
a state for a new senator, a superin-
tendent for a new foreman, a college
for a new professor, what is the one
test applied? Who is it each seeks
to find? Usefulness is the final, de-
termining test. All endeavor to choose
the one who will prove most useful
in the position. Every aim and end
of society, of the world, is to produce
men and women who will be useful,
who will be helpful, who will be able
to serve mankind.—Forbes Magazine.

FOR A LAUGH

To Keep From Yawning.

Mrs. A.—Which of your social an-
ties do you find the most trying?
Mrs. B.—To appear interested in the
things that don't interest me.

An Old Bird.

"When I was a
boy," said the lo-
quacious waiter,
"we kept chick-
ens, and each one
had a name."

"And how old
are you now?"
asked the diner,
doing strenuous
work with his
knife on a bird.
"Nearly sixty,
sir."

"Well, perhaps you recall the name
of this chicken?"

Lingering.

"I didn't think Plunkville was big
enough to support a stock company."
"It isn't. That's a road troupe what
stranded here and can't raise enough
money to get away."

Cooling Process.

Yeast—Do they
have electric fans
in the restaurant
where you get
your lunch?
Crimsonbeak—
No, I have to fan
my soup with my
hat.

A Question.

"One thing I'd like to know."
"What is it?"
"Do senators really tell all these
state anecdotes that are attributed to
them?"

Dad's Concern.

"What did your father say when you
asked for his daughter?"
"Wanted to know if I could support
him in the manner in which he had
been accustomed."

Novelty to Him.

"It must be hard work peddling
books."
"It is," said the agent. "I'd like to
get a chance to handle one of these
best sellers you hear so much about."

RECLUSE CANNOT LOSE HIS MONEY

Chicago Man Made Unsuccessful
Attempts to Give Mil-
lions Away.

SOUGHT TO BE PAUPER

Aged Eccentric Is Again Millionaire.
Although He Transferred Money
to Attorney—Victim of Many
Fieecings.

Chicago.—Edward W. Morrison,
aged recluse of Chicago, has been try-
ing to get rid of his millions for many
years, but, despite the assistance of
his lawyers and cronies, he is unable
to become a pauper. The millionaire
nearly succeeded a few years ago
when he transferred all his property,
variously estimated at \$3,000,000 to
\$6,000,000, to his attorney, but the
transfer was recently set aside by a
federal court.

In addition to his dealings with his
attorney, Edward Morrison gained no-
tority some years ago when he was
accused by Joseph Burnstein, a Chic-
ago junk dealer, of being the father of
the two Burnstein girls he had adopt-
ed. The charge never was proved.
Spent \$24,000 to Get \$25,000.

In the investigation conducted by
Federal Judge Landis it was shown
that the eccentric millionaire had paid
\$24,000 to a man named Douglas to go
abroad and to search for \$25,000 worth
of bonds supposedly stolen from his
safe. Another man is said to have col-
lected thousands of dollars for pro-
viding the aged millionaire with ques-
tionable entertainment.

"My father was rich," he declared
when questioned about a real estate
transfer. "He left me \$3,000,000 when
he died. I doubted that in speculation

Transferred All His Property.

In mines and real estate. It was my
money; I made it. I had a right to
spend it as I pleased, and I did."

But the Chicago courts and the Chi-
cago board of education, to whom the
will of Morrison's father provides the
estate shall revert for the erection of
a high school building, should the re-
cluse die without children, thought
otherwise and through their efforts the
property has been regained. So Ed-
ward Morrison is a millionaire, once
more.

Accused of Theft in Home Where Dead Lay

Atlanta, Ga.—You must watch
things even when you have a fu-
neral in the house. J. L. Wood
has just been indicted in At-
lanta charged with stealing a
valuable and a small sum of

avenue where Wood had gone
from a local undertaking estab-
lishment to make arrangements
for the burial of the mother of
the household.

USE GAS TO QUIET CHICKENS

Fall Off the Roosting Places and Are
Easy Prey for Thieves
in Ohio.

Springfield, Ohio.—Chicken thieves
are using gas in looting the hen coop
of Clark County. Farmers in the vic-
inity of Buena Vista, near this city, have
noticed a peculiar odor in their chicken
coops after thieves have been there.
The mystery was explained when one
farmer found a chicken under one of
the roosts which he took for dead.
He tossed it in the barn yard and in a
few minutes the chicken recovered
and walked away. Farmers say the
gas puts the chickens to sleep, they
fall off the roosting places and are
easy prey for the thieves.

Steals "Shots in Arm."

Bellefontaine, O.—When Dr. H. A.
Skidmore started home from his office
he found a note on the table in his
reception room. It said: "When you
get this I will be on my way. Many
thanks. I hope sometime to have
money enough to pay you." Investi-
gating, the physician found that his
supply of morphine and all of his
hypodermics were gone.

Town Claims Greatest War Record.
Franklin county's (Pennsylvania)
borough, Mont Alto, a little more than
a year old as a community, claims
the honor of having the largest per-
centage of population in active service
of any town or village of the United
States. The population is but 700, and
the service flag unveiled has 50 stars.
Mont Alto is but three miles from the
sanitarium for tuberculous patients,
up on top of the mountain. From this
went many of the attaches, none of
whom are included in the 50 whose
stars adorn the flag.

Best He Could Do.

Unlucky Fisherman—Bo: will you
sell that big string of fish you are car-
rying?
The Boy—No; but I'll take you
pitcher holdin' it fer s'pence.—Lon-
don Answers.

Wasn't He Cute?

Wife—You must not expect me to
give up my girlhood ways all at once.
Hubby—That's all right. Go on tak-
ing an allowance from your father as
if nothing had happened.—Brooklyn
Citizen.

Paraffin Replaces Oil.

Paraffin for oiling wood-working
tools is preferable to oil or grease. It
costs little, is easily applied, and may
be carried in one's pocket unprotected.

Daily Thought.

A soul without reflection, like a
house without inhabitants, to ruin
runs.—Young.

HAD WORK FOR THE "DOCTOR"

Indiana Woman's Request Should
Have Put End to Annoying In-
sistence on Telephone.

In South Bend they have many party
telephones. A matron on one uses hers
to talk to her sisters. Often their con-
versation is interrupted by a young
treble voice demanding the line "to
call the doctor."

Becoming suspicious, the matron one
day listened to the call which followed
the one they treble had interrupted.
And lo! instead of the doctor, the
young lady called a young carpenter
who was her best friend. Again and
again this happened—the request for
the phone to call a physician and then
its use to converse with the young car-
penter.

Then the matron became provoked
righteously. So she had one day just
reached an important place in her con-
versation with her sister when came
the usual interruption. It brought this
retort from the matron: "Yes, you
may have the phone to call him. And
while you're talking, please tell him
that I'd like for him to stop on his way
to call at your house and repair my
kitchen table legs."—Indianapolis
News.

Wonderful Instinct.

Two city fathers were standing in
the market place beside a pile of cab-
bages. A naturalist passed by, and
noticed that a Pieris butterfly had set-
tled down on the hat of one of the al-
dermen.

"Friend," he said, "a butterfly is
resting on your head."
"Good," replied the dignitary, "that
brings good luck, if the old saying
may be believed."

"Yes," the naturalist rejoined, "and
it reveals to me the wonderful instinct
with which nature has endowed the
insect."

"How is that?" the city father asked,
much interested.

"It is a cabbage butterfly," the nat-
uralist said—and passed on his way.

The blacksmith puts the horse on
his metal by shoeing him.

SEALED TIGHT
KEPT RIGHT

The Flavor Lasts!

Above all things one's millinery must be kept fresh looking and immaculately clean. There are many millinery materials that are always in style as velvet and velvet ribbons, well-made flowers, laces, ribbons, straw hats, crepe, and chiffons. They become soiled and matted, but can be cleaned and freshened up by simple processes available at home. Now that spring is near, a becoming straw hat may only need repolishing, or to have the trimmings freshened up to serve during the early spring and as a change throughout the season.

For colored straw hats there are dyes which are usually on sale in drug stores, ready to apply, which will restore the color of the straw or change it to another color. There are several reliable dyes that will change colored hats into black ones. Most of these dyes give the hat a fine luster and it looks practically new after dyeing. Often a faded hat can be successfully restored to color by applying the colors mixed with gasoline, as described in a former article. Some hats can be scoured with soapuds, as leghorn or Panama straws. In this case the suds is used, but with a view to keeping the straw from getting very wet. To restore a natural straw color, a hat may be cleaned with lemon juice and sulphur. A white straw may be washed with oxalic acid diluted with water. After a leghorn hat has been cleaned it may be bleached by suspending it over a burning sulphur candle. Burn the sulphur in the bottom of a barrel, suspending the hat at the top so that it will not scorch. A felt hat may be successfully scoured with the finest sandpaper. Ammonia will often restore color in colored straw hats. Wrap a cloth out of half a pint of hot water to which a teaspoonful of ammonia has been added and cover the hat with this cloth. Allow it to re-

main a while. If the brim needs pressing, cover it with the cloth and iron with a warm iron. If the color is not sufficiently restored by this process, mix tube paint and gasoline and dip the hat in it, or brush it on. There are several reliable hat dyes that can be bought with directions for using that will quickly renovate straw hats.

To Freshen Flowers.
Mix tube paint and gasoline with the color desired and dip faded flowers into this dye. Petals may be shaded and veined with tube paints. Flowers that are crumpled should be held over dry steam and gently shaken. When they have been steamed and tinted take small, sharp scissors and trim away any frayed edges. One can often make flowers look as good as new by these processes.

Jet Buckles, White Shoes.
White buckskin shoes shown for the South show jet buckles of various sorts. Usually they are very effective. One method of mounting the buckle is to place it on a foundation, composed of closely plaited black ribbon, which extends just far enough to give the buckle a little backing. Sometimes, too, white satin evening slippers show jet buckles, or small jet buttons fastened flat against the tongue section or the edge of the shoe as it slopes up to the instep.

To Wash Camels Skin.
To wash camels skin put it through warm soapuds, rinse in several warm waters, draw it through the hand to squeeze the water out and hang up to dry. Pull while drying, if you would have it smooth.

A nice damask table cloth that has become worn in spots will make over into napkins.

Capes, Comfortable and Full of Style

Capes in great force stand ready to answer the demand for spring wraps, having gradually and surely ingratiated themselves into the likings of fashionable women. Nothing demonstrates better the inexhaustible genius of designers than the constantly varying interpretations of the cape which make it, just now, the most interesting of wraps. It is shown in unending variety.

Capes are long or short, as you will, but mostly long. They are always full and naturally loose. But in many new models the looseness disappears below the knees being restrained by means of cutting or by confining it in a new that is rather tight about the figure. Among new capes for spring are long and short capes of taffeta with collars—very ample and cozy looking, of sweater-weave silks or wool materials, and linings that lend them warmth. Navy silk with beige-colored linings and collars is the favorite combination. Duvelyn capes, in navy and marine blues, in brown, henna and tomato red, convince one that no other fabric could show these colors to such advantage. One of the simpler capes in marine blue duvelyn is shown in the accompanying

illustration. It is a practical and graceful garment part cape and part cloak since it has sleeves. The body of it hangs from a small yoke and it contrives to hang in at the sides where it slopes toward the hem in the approved way. As a change from coats, and because it is more picturesque and becoming, the cape for spring deserves attention. In duvelyn, cinnamon brown, henna and tomato red they are deliciously soft and rich looking and velours ought to be as good a vehicle for these colors that make wraps of so much distinction.

Capes are lined with crepe-de-chine to match in color or with checked or cross-bar silks; large checks, in quiet tones, being everywhere present in displays of new spring apparel.

The cape, pure and simple, is to be found, but the cape which borrows something of the coat or is posed on a jacket and is in reality a combining of two wraps into one is oftener in evidence. Nearly all of these wraps have cozy and ample collars. They are successful wraps from every point of view, comfortable and full of style.

HORSE SALE DISTEMPER

You know that when you sell or buy through the sales you have about one chance in fifty to escape SALE STABLE DISTEMPER. It is your true protection, your only safeguard, for as sure as you treat all your horses with it, you will soon be rid of the disease. It acts as a sure preventive, no matter how they are exposed. At all good druggists, horse goods houses or delivered by the manufacturers.

Acid-Stomach Ruins Health of Millions

Besides those painful attacks of indigestion that awful bloated, lumpy feeling after eating and downright stomach misery that you who have experienced it know so well; besides disgusting belching, food-repeating, sour stomach and distressing heartburn—besides all this, ACID-STOMACH undermines the health and saps the strength of millions.

If you don't get rid of those stomach miseries there is no telling where your stomach troubles will end, for it is a well known scientific fact that many serious ailments have their start in an acid-stomach.

Start now—this very day—to get rid of your stomach miseries. Take EATONIC—the wonderful remedy that absorbs the excess acid from the stomach and brings INSTANT relief. You simply have no idea how much better, stronger and brighter you feel at once. It drives out all the gas and bloating, puts an immediate stop to belching and heartburn,

ends stomach suffering and makes it cool, sweet, comfortable and strong. There can be no further excuse for you to allow acid-stomach to wreck your health—pile up misery upon misery until you get to the point where you feel down and out and that life has lost all its joys. Remember, just as acid-mouth ruins teeth, so acid-stomach ruins health.

Take EATONIC. It's good, just like a bit of candy and makes the stomach feel fine. You can then eat the things you like and, what is more, every mouthful you eat will count in creating power and energy. You'll feel so much better—have punch and pep—the power to do things and get results. Your stomach misery will be gone. Take EATONIC. Get a big box of EATONIC from your druggist today. It costs so little. If it fails to remove your stomach distress, he will refund your money. That is guaranteed; you are to be satisfied or money refunded.

EATONIC

FOR YOUR ACID-STOMACH

Dicky's Wish.
It was Dick's first day at school during the afternoon, he began crying and the teacher asked him what the trouble was. Like so many, he was homesick.

"Well, Dick," the teacher said kindly, "you may go home."

"No," he sobbed, "I don't want to go home, but I wish I was there."

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/2 oz. of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. If will gradually darken streaked, faded gray hair, and make it soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Ad.

None but a fool is always right—Hare.

And sometimes it doesn't pay to believe everything you tell other people.

Don't wait until your cold develops Spanish Influenza or pneumonia. Kill it quick.

CASCARA QUININE
Standard cold remedy for 20 years—in tablet form—safe, sure, no opiates—breaks up a cold in 24 hours—relieves grip in 3 days. Money back if fails. The genuine has a Red top with Mr. Hill's picture. At All Drug Stores.

SAFE, GENTLE REMEDY CLEANSES YOUR KIDNEYS

For centuries GOLD MEDAL Haarlem Oil has been a standard household remedy for kidney, liver, bladder and stomach trouble, and all diseases connected with the urinary organs. The kidneys and bladder are the most important organs of the body. They are the filters, the purifiers of your blood. If the poisons which enter your system through the blood and stomach are not entirely thrown out by the kidneys and bladder, you are doomed.

Weakness, sleeplessness, nervousness, despondency, backache, stomach trouble, headache, pain in loins and lower abdomen, gail stones, gravel, difficulty when urinating, cloudy and bloody urine, rheumatism, sciatica and lumbago, all warn you to look after your kidneys and bladder. All these indicate some weakness of the kidneys or other organs or that the excretory system has been attacked by some poison. GOLD MEDAL Haarlem Oil Capsules are what you need.

They are not a "patent medicine," nor a "new discovery." For 200 years they

have been a standard household remedy. They are the pure, original imported Haarlem Oil your great-grandmother used, and are perfectly harmless. The healing, soothing oil soaks into the cells and lining of the kidneys and through the bladder, driving out the poisonous germs. New life, fresh strength and health will come as you continue the treatment. When completely restored to your usual vigor, continue taking a capsule or two each day; they will keep you in condition and prevent a return of the disease.

Do not delay a minute. Delays are especially dangerous in kidney and bladder trouble. All druggists sell GOLD MEDAL Haarlem Oil Capsules. They will refund the money if not as represented. GOLD MEDAL Haarlem Oil Capsules are imported direct from the laboratories in Holland. They are prepared in correct quantity and convenient form, are easy to take and are positively guaranteed to give prompt relief. In three sizes, sealed packages. Ask for the original imported GOLD MEDAL. Accept no substitutes.—Ad.

Grow Wheat in Western Canada

One Crop Often Pays for the Land

Western Canada offers the greatest advantages to home settlers. Large profits are assured. You can buy on easy payment terms, land similar to that which through many years has averaged from 20 to 45 bushels of wheat to the acre. Hundreds of cases are on record where in Western Canada a single crop has paid the cost of land and production. The Government of the Dominion and Provinces of Manitoba, Saskatchewan and Alberta want the farmer to prosper, and extend every possible encouragement and help to Grain Growing and Stock Raising.

Though Western Canada offers land at such low figures, the high prices of grain, cattle, sheep and hogs will remain.

Loans for the purchase of stock may be had at low interest; there are good shipping facilities; best of markets; free schools; churches; splendid climate; low taxation (none on improvements).

For particulars as to location of lands for sale, maps, illustrated literature, reduced railway rates, etc., apply to Supt. of Immigration Ottawa, Can., or

This Is Orange Blossom Time in Florida

And it's a good time to leave the Frozen North for a short Winter vacation.

Come on down to Lake Alfred and see one of the most beautiful sights imaginable—thousands of acres of Orange and Grapefruit Trees in full bloom, scenting the air for miles around.

We have a few planted small groves, but fine, not yet taken, but you cannot buy an acre until you have first seen the property. You had better hurry, for these are choice and will be sold soon.

After carefully investigating what others have done in our vicinity, under exactly similar conditions, and you have satisfied yourself that our claim that a Six or Seven-Year-Old Grove, on a conservative estimate, will produce from \$200 to \$250 per acre Net, you can buy with perfect safety.

If you have your trip costs you nothing, as we refund traveling expense to purchasers.

Our groves at Lake Alfred are right on the Main Line of the Atlantic Coast Railroad, in the heart of the Highland-Lake Section, the highest, safest, citrus section of Florida, with Ninety Lakes within a Five-Mile radius. Good asphalt and brick roads, schools, etc.

Prices fair, values big, reasonable terms.

Send for our illustrated booklet, read it carefully, and then visit Lake Alfred personally.

The Northville Record.

Published by
NEAL PRINTING CO.
F. S. NEAL, Owner.
J. W. PERKINS, Manager.

An Independent Newspaper published every Friday morning by the Neal Printing Co., at Northville, Michigan, and entered at the Northville post-office as Second-Class matter.

NORTHVILLE, MICH., FEB. 25, 1919.

It seems almost too bad that such a fine body of Detroit policemen should be required to direct traffic. Apparently in these days when automobile drivers are anxious to be directed, any one armed or even one-legged man should do it quite as efficiently.

If the recent Acrostic writer is no better judge of humanity than he or she is of poetry, it is punk.

Salem Sayings.

Mr. and Mrs. Ed. Oliver were Northville shoppers, Friday.

Mrs. A. Foreman and son were South Lyon shoppers Wednesday.

Mr. and Mrs. Horvath entertained company from Detroit, Sunday.

Earl Atchison and Geo. Bennett were Northville callers Tuesday.

Mrs. W. E. Smith is very ill at the home of her son, Floyd, in Northville.

Mr. and Mrs. George Bennett spent Sunday with Mrs. Hattie Bennett and sons.

Mrs. Hattie Bennett and son, Coe, returned from Detroit Monday evening, after a few days' visit.

Mr. and Mrs. Harry Simson went to Plymouth Saturday to visit their daughter for a few days.

Mr. and Mrs. Edwin Smith of Ann Arbor and Mr. and Mrs. Harry Atchison were Detroit shoppers Saturday.

Coe Bennett and Earl Atchison were in Detroit Wednesday on business. Coe bringing home a new phonograph.

There will be a cake sale social at the town hall, Salem, February 28 for "Old Glory" circle. Everybody invited.

If you wish to overcome dandruff or gain new hair growth, use our Supreme Brand Hair Tonic.

Gibson were Detroit visitors Friday.

The Co-Operative association is having remarkable success with their live

Miss Helen Smith was home from Detroit for the week-end, accompanied by a friend.

Mrs. C. J. Oldenburg and two daughters and Mrs. Florence Carter and daughter were in Pontiac Friday.

Mrs. W. R. Abrams was at Walled Lake Tuesday helping care for her brother, H. F. Andrews, who is ill.

Miss Sadie Hopkins and Mrs. Robt. Chamberlain of Pontiac were Saturday night and Sunday visitors at the home of the former's parents.

A flag was raised on the school they shipped a mixed carload to Detroit which contained 31 hogs, which brought \$1242.50 and 8 calves brought \$198.90. One man received \$141.75 for 2 hogs.

WIXOM CHURCH NOTES.

The sermon topic for next Sunday morning will be, "The Lost Coin, the Lost Sheep and the Lost Boy."

The C. E. topic for Sunday evening will be, "Obedience." Leader, Mr. Chas. Sturman.

There will be a Men's Community Banquet in the Co-operative hall this Friday evening. The object of this banquet is simply a get-together object. The address will be given by Rev. R. H. Bradey of Pontiac.

Supreme Brand Cough-Syrup will stop your cough. Yes, stop the tickling and hoarseness.

NORTHVILLE CHEMICAL CO.

WEEKLY CALENDAR.

PRESBYTERIAN CHURCH NOTFS.

(By the Pastor.)
Combined service Sunday morning at 10 o'clock Christian Endeavor at 6:30 p. m.

Evening service at 7:30. The stereopticon lecture on "Alaska" was not given last Sunday evening as announced because the slides did not reach us in time. They are here now, and the lecture will be given next Sunday evening. This great wonderland of America presents a subject that will entertain, instruct, and inspire. Come along.

March is the last month of the church year. Let us make it a banner month in attendance on the various services. Call on your neighbors to remind them of the meetings and if you meet them coming to remind you, why not shake hands and come together. A new year lies ahead. What shall we do as a church in that new year? Let's begin to plan together.

The Martha Chapter meets next Wednesday evening with Miss Hazel Bishop.

METHODIST CHURCH NOTES.

"The Church Around the Corner."
Morning services at 10 o'clock Sunday school at 11:30. Epworth League at 6:30 p. m. Evening services at 7:30. Prayer meeting on Thursday evening at 7:30.

All who wish to attend any or all these services will be heartily welcomed. Come with us and we will do you good.

The monthly business and social meeting of the Epworth League will be held March 5th, at the home of James Sessions. All interested, cordially invited.

BAPTIST CHURCH NOTES.

Sunday services. 10 a. m. Regular communion service. We will have with us a representative of the Art-Saloon League, who will speak concerning the work.

The evening service at 7:50 will be a song service. If you enjoy gospel singing or can sing we invite you to come. We expect two men from a Pontiac factory who will tell us why they are Christians.

Next Monday evening, monthly business meeting of the church. Deacons, trustees and advisory board will meet at the home of the pastor. Financial report for February will be read and other business transacted.

The choir meets on Wednesday evening, with the pastor.

Thursday evening we resume our study of Galatians in the prayer meeting. The pastor is glad to see the interest in these meetings, but we are constantly missing some one who ought to be there. Are you among the missing ones? Do you want to know more about the Christian life? Come and show by your presence that you do.

CARD OF THANKS.

To the friends and neighbors who so kindly assisted us in our great sorrow, Rev. Brass for his comforting words, Mr. Harry Bogart for his singing and for the beautiful floral offerings.

LEE HAMMOND AND FAMILY

Walled Lake Warbles.

H. F. Andrews is quite sick.

Mr. and Mrs. W. L. Richardson have moved to Wixom.

Mr. and Mrs. D. L. Bentley were Pontiac visitors Monday.

Born to Mr. and Mrs. Bert Welfare February 18, a baby girl.

C. G. Parmelee has moved his family back here from Detroit.

Mrs. George Tuttle entertained the Baptist Aid society this week.

There will be "Street Fair" held at the school house Friday night.

Mrs. Sidney Holmes will entertain the M. E. Ladies and March 6th.

Mr. and Mrs. Arthur Tamlyn, who have been quite ill, are much better.

Mrs. Fred Parmenter entertained the Embroidery club Monday afternoon.

Frank Nook attended the hardware men's convention held in Kalamazoo, recently.

Frank Tuttle has rented Mrs. Fred Parmenter's house and expects to move soon.

Glenn Moss, who is employed in Pontiac, spent the week-end with his parents here.

Miss Evangeline Bentley, who has been ill for the past week, is better and attending school again.

Miss Beil Smith of Pontiac, Miss Bernice Smith of Detroit, spent the week-end with relatives here.

Mr. and Mrs. H. J. Smith entertained several guests at their home Sunday in honor of Mrs. Smith's birthday.

Members of Miss Sadie Bentley's and J. A. Deveraux's S-S classes of the M. E. church, will entertain the young people of the Baptist S-S school Saturday evening in the parlors of the M. E. church.

FOR RENT—6-Room apartment, besides pantry and bath room, electric lights, gas for cooking, gas stove furnished. Two blocks from post office, Northville, Phone 202-J. 29tf-c.

CHICHESTER'S PILLS
THE DIAMOND BRAND
Ladies Ask your Druggist for Chichester's Diamond Brand Pills in Red and Gold wrapper. BOTTLES, 50c and 1.00. Sold by Druggists Everywhere.

YOUR INCOME TAX REPORT BLANKS READY

Blanks for making income taxes may be secured at the Record office or at the banks, and a blank copy has been mailed direct from the revenue office to all who made reports last year.

The rate this year is increased from 2% up to 6%.

All single persons (male or female) whose net income is \$1,000 or more and all married persons whose net income is \$2,000 or more must file a report whether they have an income tax to pay or not. Net income means the income less allowable expenses not including personal exemptions. For instance a married man, with one child, having a net income of \$2,100 would have a personal exemption of \$2,200 and while he would not have any income tax to pay, he must make a report just the same.

If the wife has a separate income it must be considered as a part of the husband's income and added to his in making the report, or else the wife must make a separate report, in which case each would be allowed but \$1,000 exemption; or the husband would be allowed \$2,000 exemption and the wife no exemption.

Mr. Neal at the Record office is familiar with the workings of the income tax law and is prepared to assist in the making out of reports for a limited number of those who desire his services during the next two weeks, either at your home or place of business.

500 NORTHVILLE WOMEN HAVE NOT REGISTERED

A somewhat surprising situation in regard to the appreciation (so far) of the women of Northville township of the enfranchisement recently granted them, is revealed by a comparison of certain figures obtained by the Record. Township Clerk Miller informs us that the number of women so far registered is but 317. Mrs. Floyd Northrop, who was one of those in charge of the local war-work registration last year for the Council of National Defense, has kindly gone over the figures of that list, for us and, after eliminating the names of those of the more than 900 signers who have died, left the township, or were under legal age, it is found that there should be, approximately, 800 women voters in the township. This of course, leaves in round numbers, 500 who have not yet registered. Considering the importance of at least one issue to come before the people at the spring election, it looks as if it were time for somebody to get busy and arouse the women to a sense of their duty. It is found that many think it is too late to register, which is not the case, as the books will again be open after the primaries, March 5, up to the Saturday before election.

ELWOOD KNAPP DIED SUNDAY

Elwood Knapp a lifelong resident of this vicinity, died Sunday, February 23, at his home here, where Mr. and Mrs. W. A. Ely have been caring for him for some time past. Mr. Knapp was in his 78th year. He leaves no relatives nearer than cousins. Funeral services were held Tuesday afternoon at the home, Rev. Frank Brass of Wixom officiating, and burial took place in the Knapp cemetery northeast of town.

LUTHERAN CHURCH NOTES.

(By the Pastor.)
Services Sunday afternoon. This being the last Sunday before Lent, a sermon appropriate to the occasion will be preached.

Owing to the pastor's forgetfulness, the collectors and their districts could not be presented last Sunday. This will be done next Sunday.

Supreme Brand - Menthol-Camphor-Cream promptly opens clogged-up nostrils and air passages, relieves headache, dullness and sore throat.

NORTHVILLE CHEMICAL CO.

W. H. COWLES, Opt. D.

THE DETROIT

Optical Specialist.

Be Optimistic

Here's Good News for Northville
Residents.

"Have you a pain in the small of the
back? Headaches, dizziness, nervous spells?
Are you languid, irritable and weak?
Annoyed by urinary disorders?
Don't despair—profit by Northville
experiences.

Northville people know Doan's Kid-
ney Pills—have used them—recom-
mended them.

Here's a Northville resident's state-
ment:

"Mrs. Roy Cole, Horton Ave., says:
"My estimation of Doan's Kidney
Pills hasn't changed in the least since
giving my first endorsement some
years ago. I couldn't recommend
a better medicine for pains in the
back. Doan's soon bring relief."
Price 60c, at all dealers. Don't
simply ask for a kidney remedy—get
Doan's Kidney Pills—the same that
Mrs. Cole had. Foster-Milburn Co.,
Mfrs., Buffalo, N. Y. Advt. 74

Northville Newslets.

Miss Carolyn Babbitt has been very
sick during the past week or two.

Mrs. J. B. Cook is now on the road
to recovery from her serious illness.

Friday night, March 7, is the date of
the next of the Foresters' popular
dancing parties.

Surveyors have been at work this
week on the land for the new sari-
tarium west of town.

Regular meeting of the Library
board this coming Saturday after-
noon at the usual hour.

Regular K. P. meetings have been
changed to the first Thursday night
in each month. Next meeting, March
6th.

Thomas E. Murdock of this village
is the newly-appointed member for
Northville of the Democratic Central
committee.

D. Kilgour, recently discharged
from the U. S. service, has returned
to his former position in the Gorton
clothing store.

On the Republican village ticket at
Milford women have been nominated
for the offices of clerk, treasurer,
assessor and two trustees.

The regular afternoon meeting of
The King's Daughters will be held
Tuesday, March 4, at the home of Mrs.
J. B. Tinsam, at three o'clock.

Scott Lovewell has sold the E. C.
Dickerson farm of 144 acres, located
out the Fishery road to R. H. Chrysler
of Northville, who has successfully
operated the German and Curtiss
farms for the past five years.

The Oxford Leader chronicles the
fact that Miss Jessie Roost spent Sun-
day with her parents. With Spartan
heroism our office humorist refrains
from any allusion to that old saying
about chickens coming home to Roost.

F. L. Vincent of Franklin, while on
his way to Birmingham last Friday
morning, killed a blue racer snake
which measured 5 ft., 4 in. in length—
Oxford Leader. And the same paper
also notes the fact that a man out
there has seen a "first robin." Next!

The Presbyterian Sunday school is
to have a "winter picnic" in the
church parlors this Friday evening,
to which the families of all the mem-
bers of the school are invited. The
six o'clock supper is to be followed
by a cake contest and auction and a
free entertainment by a magician from
Detroit, beginning at 7:30.

The project of a community house
which has been in the minds of a num-
ber of Milford people for some time,
came to the surface at the Board of
Commerce meeting Wednesday. The
matter was given an enthusiastic pre-
sentation by the president of the
board, Mr. Keyes, and received the
practical endorsement of the forty or
fifty members present.—Milford Times.

Robert Graham, 50 years of age,
who was so terribly burned in at-
tempting to save his barn and con-
tents which was burned on the morn-
ing of January 31st, passed away last
Saturday, February 15, 1919, after two
weeks of intense suffering. He had
been in poor health for some time and
had about completed arrangements
for retiring from the farm.—Farmington
Enterprise.

Charles Young has moved here from
St. Cloud, Minnesota, to the Hart
farm, which he purchased last sum-
mer. Mr. Young has also made a re-
cent purchase of the Tait farm of 128
acres and 100 acres from Will Van-
Sickle adjoining his property. This
makes Mr. Young one of the finest
600 acre properties in Michigan. He
makes a specialty of producing high-
grade hogs and dairy cattle. The
coming of Mr. Young and his family
to Northville will be of much value
to the community.

Supreme-Brand-Laxative-Pills will
relieve constipation and biliousness,
headaches.

NORTHVILLE CHEMICAL CO.

Roy Clark has been confined to the
house for a week past with muscular
rheumatism.

The Busy Bee Circle of the Baptist
church will have a sale of baked goods
at Elliott's hardware store this com-
ing Saturday, March 1.

The Misses Nola Ross and Dorothy
Limbricht entertained a number of
young people at a Washington party
Saturday evening at the home of Miss
Ross.

Signs of spring, 1st—Movies; 2nd—
Lloyd Lovewell's and Frank Boyle's
picture on every telephone pole. In

Lyon Herald.

This Friday evening, February 23, is
the date of the annual meeting of the
stockholders of the Northville Driving
Club, in the village hall at eight
o'clock sharp.

The Redford Record mentions a
"hop party" held there recently.
Sounds kind of bad—considering the
reports of the rush to buy hops and
other "suspicious" stuff in Detroit of
late.

Alfred W. Chaffee, formerly well
known here as an air-ride salesman
for many years died Monday, Febru-
ary 23, in Ontario, California. The
body was brought to Plymouth for in-
terment.

L. O. T. M. members are reminded
of the regular meeting next Monday
afternoon, at 4:30, instead of even-
ing, followed by a supper and enter-
tainment, to which members are privi-
leged to invite their husbands, or
another guest each.

The joint meeting of the women's
societies of the Presbyterian Church
is to be held next Wednesday, March
5, in the church parlors. The ladies
are to bring lunch, which, with coffee
furnished by the Aid society, will be
served at one o'clock, followed by the
business meeting, when the reorgani-
zation of the societies into one body
will be taken up.

Mrs. Fred Foss has recently had
two surprises, one last Friday when
her son, William, of the U. S. S.
Orion, came home and another on
Monday evening, when 35 friends ap-
peared to help her celebrate her 50th
birthday. A bountiful supper, cards
and music were enjoyed, and Mrs. Foss
was given a beautiful Boston fern
Sgt. Paul Foss is in France, and the
brothers have not seen each other
since they left home, 14 months ago.

Rev. Edward V. Belles of this place
has been chosen to take part in the
installation services, March 4, when
the new pastor of Plymouth Presby-
terian church, Rev. L. M. Bicknell,
will be formally inducted into his
position there. Other clergymen who
will assist in the ceremony are Rev.
Dr. W. T. Jacques, Rev. Dr. R. M.
Huston and Rev. C. L. Lovrie of De-
troit. A community six o'clock
supper is to be served and a social
meeting enjoyed preceding the service
which will begin at 7:30.

Features at the New
Alseum Theatre.

Saturday, Charles Ray, in "The
Hired Man."

Monday and Tuesday, March 3 and 4,
the greatest of all the picture re-
miniscences of the world war—D. W.
Griffith's Hearts of the World, in 13
reels. Seats at Murdock's, 50 and
35 cents, and war tax; children, 25c.
Complete show each night, beginning
at 7:45.

BOLTON-THOMPSON.

Cass R. Bolton of Plymouth and
Miss Alberta B. Thompson of Salem
were quietly married at the Metho-
dist parsonage in Plymouth last Tues-
day afternoon by Rev. Frank M. Field.
The young couple were attended by
William E. Thompson, brother of the
bride and Miss Eva Abbott of Rush-
ton. The groom is a prosperous
young farmer living west of Plymouth
and the bride is a daughter of Mr.
and Mrs. Thomas Thompson of North-
ville. They are now on their wed-
ding trip and will be at home after
March 15, on the Bolton farm. Many
friends unite in wishing them a happy
and prosperous honeymoon voyage.

CARD OF THANKS.

Frank Green and family wish to thank
all those who so promptly and will-
ingly assisted them at the time of
the fire, and especially the fire de-
partment for service.

How's This?

We offer One Hundred Dollars Reward
for any case of Catarrh that cannot be
cured by Hall's Catarrh Medicine.
Hall's Catarrh Medicine has been taken
by catarrh sufferers for the past thirty-
five years, and has become known as the
most reliable remedy for Catarrh. Hall's
Catarrh Medicine acts thru the Blood on
the Mucous surfaces, expelling the Poi-
son from the Blood and healing the dis-
eased portions.

After you have taken Hall's Catarrh
Medicine for a short time you will see a
great improvement in your general
health. Start taking Hall's Catarrh
Medicine at once and get rid of catarrh. Send
for testimonials free.

Sold by all Druggists, Etc.

A LETTER FROM

NURSE IN FRANCE

The following letter joined the
Record by Mrs. George Young, is from
her sister, Miss Hummel, who has
been a nurse in a military hospital
in Paris for many months past:

Paris, France, January 12, 1919
"Dear Sister: Received your
Christmas card today. Evidently you
did not receive my letters. I wrote
you three or four since I last heard
from you, which is at least three
months ago.

"Yes, I got to see President Wilson
when he was here, also to shake
hands with him. He and Mrs. Wil-
son made a long visit at our hospital
and both shook hands with every
patient and of course with the nurses
too. Mrs. Wilson is really very
pleasing and the boys were all crazy
about her. They gave him a right
royal reception here in Paris, as they
did in each capital.

"I was at Chateau Thierry a week
ago, to visit the battle grounds around
there. To us here in Paris, that is
the most interesting. It was the
nearest the Germans got to us, about
35 miles, and for several days we
were fired at regularly and could hear
the continuous roar of the guns in
the barrage. It was there the Ameri-
cans made their first stand, showed
old Bill what they were made of,
turned him in his advance on Paris,
and made him head the other way.

I think we had more patients from
that drive than we have had from any
other, and so have heard more about
it. Many of our worst cases were
brought from there, many of them
directly from the first-aid stations.

We visited Belleau Wood, which I
had heard so much about from the
boys that I almost knew it without
seeing it. It seems to have been a
fighting center, and is very interesting.
Coming back we passed through the
little village of Belleau where almost
every building was wrecked to its
foundations, as in all the villages
about. We passed one very pretty
little American graveyard, the graves
all in straight rows and at the head
of each a cross with a circular Ameri-
can flag. We saw the barbed wire
entanglements and some of the dug-
outs and trenches, but the latter were
scarce as there was not much time
to dig them, the fighting came on so
suddenly. We hiked all the way out
from Chateau Thierry to Belleau Wood
and back, ten or twelve miles. It
was raining all day long, so we were
soaked, but when evening came, I
was glad I could come on home in-
stead of lying down in a shell hole
and listening to bullets whistling by. To
see how conditions really were makes
me more thankful than ever that the
war is over. DULCIE."

AUCTION SALES.

March auction sales are to be con-
ducted by Frank J. Boyle as follows:

Monday, March 3—Theodore Schoof,
½ mile east of Plymouth, on Plymouth
road.

Tuesday, March 4—Ernie Rossow,

JOHN O. KNAPP,
Commissioners.

FIVE FRIDAYS

By FRANK R. ADAMS

Copyright by Frank A. Munsey Company

SYNOPSIS

Lucile Green, charming, but with faded, is visited at the Green's summer island home by Monty Blaney. She proposes a week's fast. All food is banished. Frank Bopp, a rival suitor, appears unexpectedly.

CHAPTER II—Continued.

We all went down to see him off and set on the dock until he got everything ready—all of us, that is, except Mrs. Green, who complained of a headache, poor old lady, and decided to stay in bed.

I did not help Bopp on his way, much as I should have liked to, because I knew my limitations when it comes to motorboats. Now, with an automobile I am right at home. When a car refuses to do what the advertisements claim for it, all you need to do is to get out the tool kit, jack up one of the axles and telephone the nearest garage. Sometimes it isn't even necessary to use the jack, but it looks more professional and impresses your passengers with your mechanical skill.

Bopp looked the engine over and sniffed. "Looks like it was built by a one armed plumber's assistant with the St. Vitus dance. However, it's very simple. A child could understand this."

He pulled a few levers, set the steering wheel and started to crank it.

"Monty," he commanded, "loosen that line there, and when the engine starts throw it aboard so I won't have to leave the steering wheel."

I did as he asked.

He turned the flywheel over painfully. There was a sort of wheezing sound, but nothing resembling the regular explosion of a marine motor in the flush of perfect health feeling its oats.

"The engine is cold," he announced.

"The principle of the gasoline engine," I lectured glibly to Lucile, "is easily comprehensible to the intellect of a boy of ten. It consists simply of mixing gasoline in the thing-a-ma-jig which is drawn into a what-d-you-call-it in the engine, and then when an electric spark is applied from the ding-bat there is an explosion. See—he turns the wheel over—this draws the charge of gas into the engine—now the eccentric trips the sparking device—now listen intently for the explosion. You can't hear it because there is a very good muffler on the boat."

Bopp expressed what he thought of me by hitting the engine a smart rap with the monkey wrench.

"What's the matter?" inquired Lucile sweetly, wishing to smooth matters over. "Won't the engine run?"

That is always the prize question to ask the operator of a gasoline engine on a boat or an auto. Next time you see an auto stalled beside the road, with the driver dripping perspiration and tearing his heart out at the crank, ask him that, and you will hear him pour out his innermost soul in words of one syllable.

Bopp seemed disinclined to answer, so I did it for him. "You see, he could make the engine go, any child could, but he wants to get it all warmed up before he starts it. It is really kindness on his part. No humane man would want to make a poor, cold, gasoline engine run fast right at first. See Mr. Bopp is going to hold it in his lap until it gets warm."

"Oh, dry up," snapped Bopp impatiently.

"That's impossible," I retorted. "The earth itself is over two-thirds water, and I stack up considerably higher than that."

Bopp now had a smudge of dark grease on his light trousers, had worn a blister on the palm of his hand and had used up a collar completely. He opened a valve on top of the engine, sniffed suspiciously and looked wise.

"It's flooded," he snorted.

"I can sympathize with it," I said feelingly.

After rummaging around in the locker for awhile he got out a collection of tools and began to remove a steel plate from the engine.

"In order to make it easier to understand the inner workings of the engine," I explained to Lucile, "he is going to take it apart so that you may see each piece distinctly. I wonder if he knows that he spilled some cylinder oil in that place where he is now sitting. No matter. To resume our lecture, that thin piece of tubing covered with black grease is the crank shaft. No; I am mistaken. That is the man's leg. The crank shaft is that other thing not quite so thin and shapeless. Move your leg a little, will you, Bopp, so that Lucile can tell which is the crank shaft?"

There was no reply save a growl of rage from below where the young man was standing on his head peering into the fissures of the machine.

"Don't forget to tell me when to let go of the rope," I reminded him.

Lucile suddenly scrambled down into the launch.

"Oh, Frank," she exclaimed, "would

it make any difference if this wire were fastened to something?"

He arose from his imitation of a kangaroo about to jump down a mine shaft and took the wire from her fingers without comment. His feelings, whatever they were, he did not dare trust to speech. There was something majestic about the repression of the man that forbade comment. In palpitating silence he attached the wire to a place which seemed to be made for it, reassembled the engine, wiped off his hands and grasped the crank. He turned it once easily, and, "zing," the motor got down to business like a clock.

Lucile hastily scrambled out of the boat.

"Let her go!" Bopp yelled, taking hold of the wheel in a pose a good deal like a viking save for the grease on his trousers. (Did viking wear trousers? My memory is at fault.)

I threw the line on board with a feeling of envy for one who was speeding to a square meal.

"Keep to starboard!" Lucile yelled. "Keep to starboard! There's shallow water on the port side!"

Bopp spun the wheel, and the launch turned abruptly to the left.

"The other way!" screamed Lucile. "Starboard is on your right side!"

She was too late. The boat stopped suddenly. Bopp hastily took an impression of the steering wheel on the pit of his stomach.

I yelled to Bopp, "Do you want any help?"

"No," he replied, bowing to me unintentionally from pain, holding one hand on his belt line where the wheel had struck him.

To Lucile I explained in as loud a tone of voice as I could command: "It is a curious thing about many deep water sailors that they cannot tell their left and right hands apart. Say 'port' or 'starboard' to them and they get you at once."

CHAPTER III.

Marooned.

BOPP managed to make the engine run again and started to back off from the bar when the propeller wheel struck something, and proceedings ended.

That was the absolute finish of the performance for that day. He could not turn the engine over again, even by hand, and an investigation disclosed that the shaft was hopelessly tangled in some heavy wire which the propeller had picked up out of the sand. Bopp discovered this by sticking his head under water over the side of the boat.

"You might as well come ashore," said Lucile. "We'll have to get a mechanic."

So Bopp came ashore by wading in rather chilly water up to his waist. Considerable of the bloom was rubbed from his usual natty appearance when he clambered on the dock, besmudged and dripping.

"Welcome to the Fasters' club!" I greeted him. "I would baptize thee as a brother in the Aqua Pura fraternity, but I see there is no need. We'll go up to the house and give you a nice drink of water to warm you up after your chill."

"Where's the telephone?" demanded Bopp.

"What's the matter?" asked Lucile.

"I am going to telephone to town to have a boat come over to take me to breakfast."

"In the meantime," I requested, "would you mind moving over here a

moment and dripping on these flowers, which need water?"

Lucile took him to the telephone. I followed at a leisurely pace, and by the time I got to the house I found Bopp whirling the telephone lever expectorantly. It was one of those country telephones where you have to grind a little business on the side of the box until central hears you swearing at the transmitter. The operator seemed more oblivious than usual, and Bopp remarked "Hello" in every possible tone of voice from wheedling to a threat.

"I wonder," Lucile murmured vaguely, "if maybe it wasn't the telephone cable which you dug up with the propeller of the launch."

"What's that?" Bopp demanded.

"I said, 'It must have been the telephone cable you got mixed up in when you ran the launch aground.' That's why it won't work."

He hurled the receiver into the hook.

"The engine is cold," he announced.

"The engine is cold," he announced.

"The engine is cold," he announced.

"The engine is cold," he announced.

"The engine is cold," he announced.

"The engine is cold," he announced.

"The engine is cold," he announced.

"The engine is cold," he announced.

"The engine is cold," he announced.

"The engine is cold," he announced.

"The engine is cold," he announced.

"Don't be cross," she said soothingly. "Think pleasant things. You've got to stay. Make the best of it."

"Think pleasant things! I do! I think of ham and eggs. Can you suggest something pleasanter? How far is it to the mainland?"

"Two miles."

"And I can only swim a mile and a half."

"Why don't you start anyway?" I said.

"Hush!" warned Lucile; then, turning to Bopp, who was headed for the door, "Where are you going?"

"Out in the woods to eat the leaves off the trees." He slammed the door. After he had gone a blessed calm reigned for a few minutes. All at once Lucile started.

"Suppose he should eat some poison ivy!" she exclaimed. "He's a city bred man, and I don't suppose he knows

what it looks like. Don't you think you had better go and show him where it is?"

"Sure; I'll be glad to go. I'll not only show him where it is—I'll feed it to him."

"No; I'll go," she said. "You are might quarrel."

Right there I made my mistake. I let her go after him. So she spent the day with him instead of with me.

While roaming about the empty rooms I heard a whine and, looking for its source, found Toofles in the kitchen trying to reach the shelf where the dog biscuit were kept. In the excitement Lucile had forgotten to feed her. With melancholy pleasure in seeing some living creature the pangs I felt myself I got down the box of his cut and gave the dog one.

There were twelve of the little cakes left in the box. The dog seemed very fond of them. One would not be missed. I hope I never have to go through such temptation again. I weighed a biscuit in my hand. I sniffed its fragrance, and then I put it aside. I would stick to my promise. But the memory of that biscuit haunted me the rest of the morning. Every time I thought of it I had to cut a new hole in my belt. I went back to the shelf a hundred times and looked longingly at the box, but always tore myself away with a sigh.

Some time during the late afternoon Mrs. Green dressed and came downstairs. She said she was feeling better, but she was pale and seemed a trifle unsteady on her pins.

Clouds began to obscure the sky about sundown, and Mrs. Green fretted a good deal because Lucile was away from home. In order to ease her mind I volunteered to find the couple and take them raincoats and umbrellas. Just as I opened the door there was a deafening roar of wind, which whined the branches of the trees in sudden fury. The sky appeared to split in the middle with a blinding light and a ripping crash of thunder. The lightning had obviously struck somewhere in the vicinity. The crash of thunder outside was echoed by a thud inside. I looked around. Mrs. Green was lying on the floor. She had fainted.

I dropped the bundle of raincoats and ran to her assistance. First I held her head on my lap, but couldn't seem to get any farther toward reviving her. Somewhere I had read directions for reviving fainting ladies. One of the first things recommended was to loosen the corset, but this seemed to be an unpardonable liberty to take with a lady I had only met a few times. Besides, I didn't know how to locate a corset and wouldn't have been able to loosen it if I had found it. It would be a goodsend if some one would get out a book on "How to Revive Fainting Ladies, Although a Bachelor."

I looked up to find a strange man in the room. He was clad in overalls and carried a satchel.

"Are you married?" I demanded.

"I don't know why it's any of your business," he responded, "but I am. Further than that, I'm an Elk and belong to the union."

"If you're married tell me what to do with a lady who has fainted."

"Give her some of this."

He produced a flask from his pocket and poured a large portion of its contents down Mrs. Green's throat.

THE SCHOOLMA'AM

By ETHEL M. FARMER.

Miss Brooks stood on the threshold of the little village school, vigorously ringing the rusty old bell. Many school-boys had stood on that same threshold ringing that same rusty bell, but somehow this one seemed different from the rest. And somehow the clanging of the bell seemed clearer than ever.

The ringing of the bell ceased; the long line of children passed into the building and the schoolhouse door was closed. It was very evident that the long days in the little school were not ones of drudgery. The teachers who were little more than a girl herself, was dearly loved by all the children.

As she began the day's work no one would have surmised that in her heart there was trouble.

"It really did seem strange about Ed. It could not be true. Dick was mistaken. He—"

A suppressed giggle interrupted her wandering thoughts.

With great dignity she asked a very modest little girl, who proudly wore two light braids down her back, the cause of the disturbance.

"Excuse me, please," the girl spoke timidly, "but we had this lesson two days ago."

"Excuse me, too," was all she said, as she reassigned the lesson.

The clock carefully ticked away the minutes and the hands gradually crept along their daily journey. Then a ruler fell on the floor with a sounding thud!

A little red-headed fellow in the front seat was working very industriously, with his desk covered with papers and opened books, but the tell-tale ruler lay in the aisle beside him.

"Jimmy!"

"Er, yes'm, Miss Brooks; did you mean me?" And he struggled desperately to return her look with innocence.

"Pick it up!" she said slowly, frowning back a smile.

With great alacrity he leaped over and picked up the offending article and placed it thoughtfully in his desk.

All went well for a while after the ruler was safely deposited out of sight until Jimmy suddenly thought of the lovely, big cud of gum he had stuck under his desk.

"How good it would taste!" he thought; but he knew how stern "she" was on chewing in school—he had tried it before.

He studied the clock with a sigh, for there were 15 minutes more! At last he could stand it no longer, and the gum was suddenly and slyly transferred from the desk to his mouth.

"How good it was!" And he gave it a few good chews.

"Jimmy" came in low tones from the other side of the room.

"Er, yes'm," he replied, jumping to his feet, "I'll take—"

"Put it in the basket and crawl in under my desk. Stay there until the bell rings."

At last the closing bell rang and the children filed out of the building, but Miss Brooks did not notice that Jimmy did not appear.

With a sigh she sat down at her desk and drew out part of a newspaper clipping which told of the engagement of Lieutenant Edward Smith to a beautiful "society belle." All of the article was not there, but Dick had assured her that it was true and that Ed had not treated her fair.

Just then Dick himself entered the room.

"Where shall we go this evening?" he asked cheerfully.

"Are you sure this is true about Ed?" she asked him again.

"How can you doubt it? Forget about him and we will have a good time together."

"She shook her head.

"I guess I will not go tonight. Somehow I do not believe that is true about him."

Suddenly Jimmy opened his eyes. Who said Ed? Why, Ed was his special friend and was coming home from the army this very day!

He scrambled out from under the desk, rubbing his eyes.

"Why, I've been asleep and I promised to meet Ed right after school."

"Ed?" she asked in surprise, after overcoming the shock of the unexpected third party.

The boy's face fell.

"It was to be a surprise to you," he stammered.

Just then Dick picked up his whip, which he had laid on a chair, and disappeared through the door, for he had suddenly spied a tall soldier hastening up the road with one arm carried stiffly in a sling.

He had just barely left when the soldier entered.

"Ruth!"

She looked with surprise and joy at the newcomer.

A few minutes later she passed her worn clipping to Ed slowly.

His face clouded as he read, but it immediately cleared when he realized its significance, and the cause of the strange disappearance of his old rival whom he had just caught a glimpse of down the road.

"This is another Ed Smith, who lives in town," he assured her. "I know him. Don't worry about me."

No more explanations were necessary and Miss Brooks' "problem" was settled very satisfactorily.

At a signal from Ed, Jimmy scampered from the building; but he saw what happened later when he gleefully climbed up on the roof and peeped in at the cracked window.

COMB SAGE TEA IN FADED OR GRAY HAIR

If Mixed with Sulphur it Darkens so Naturally Nobody can Tell.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. It's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.—Adv.

Hunting Laws.

Hunting on Sunday is prohibited in all states and provinces east of the one hundred and fifth meridian except Illinois, Louisiana, Michigan, Texas, Wisconsin and Quebec. Mondays constitute a closed season for waterfowl in Ohio and locally in Maryland and North Carolina; and certain other week days for waterfowl in several favorite ducking grounds in Maryland, Virginia and North Carolina.

EAT A TABLET! DYSPEPSIA GONE

PAPE'S DIAPEPSIN INSTANTLY RELIEVES SOUR, GASSY OR ACID STOMACHS.

When meals hit back and your stomach is sour, acid, gassy, or you feel full and bloated. When you have heavy jumps of pain or headache from indigestion. Here is instant relief!

Just as soon as you eat a tablet or two of Pape's Diapepsin all the dyspepsia, indigestion and stomach distress ends. These pleasant, harmless tablets of Pape's Diapepsin never fail to make upset stomachs feel fine at once, and they cost very little at drug stores. Adv.

Fifty-Fifty.

The speaker was quite wealthy himself—also very patriotic. He urged the children to save their pennies to help the soldiers. Finally as a climax he told of his own son in camp. At the close of his speech a lot came forward with a dime. "Here's some money," he said in a voice loud enough for every one to hear. "Half is for your boy and the other half for you."

State of Ohio, City of Toledo, Lucas County—ss.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for any case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE.

Sworn to before me and subscribed in my presence, this 5th day of December, A. D. 1988.

Weekly Health Talks URIC ACID IN THE SYSTEM

By HEE H. SMITH, M. D.

Uric acid is now generally recognized as the cause of more diseases than was heretofore believed. When the kidneys are out of order uric acid accumulates within the body in superabundance. The disordered kidneys do not filter the poisons out of the blood, as they ought to do; and so the poisons remain in the blood and float around until they find a place to lodge, in form of urate salts. The thing to remember is that you may have rheumatism in any part of the body—you may have pains anywhere—your back may ache and your head may be dizzy—but the trouble is not where the pain appears.

The trouble is in the kidneys, and what is the first thing to do? You must get that excess uric acid out of your system, which can be done by taking Anuric Tablets, the splendid remedy which Dr. Pierce of Buffalo, N. Y., has put out in the drug stores at a low price. Anuric Tablets (made double strength), when taken into the system as medicine, have the peculiar power of dissolving the uric acid deposited there. Drop a bit of sugar or salt into hot water, and it will disappear. In precisely the same way do these Anuric Tablets dissolve uric acid. Of course, after ridding the system of uric acid, it may return again unless you eat the right foods and live the right kind of life. But Dr. Pierce will advise you fully on proper food and correct living if you write and ask him. He makes no charge for such advice. Take Anuric Tablets today, by all means, and get that uric acid out of your system. Don't, don't, don't, but the matter off.

WHEN you get

up "tired as a dog" and sleep is full of ugly dreams you need

BEECHAM'S PILLS

OPERATION OF GASOLINE ENGINE IS NOT DIFFICULT IF INSTRUCTIONS ARE OBEYED

Repairing a Gas Engine on a Power Spraying Outfit.

(Prepared by the United States Department of Agriculture.)

The gas engine, a great labor saver on thousands of farms on which stationary engines, tractors, motor trucks or automobiles are operated efficiently, is also at times the cause of a great waste of labor. Often large crews are hired to help with thrashing, hay baling, cutting ensilage, etc., draw full wages for hours spent in idleness owing to inefficient handling of the engine. A man frequently will spend much more time and energy in starting a gas engine to pump water for stock, run a milking machine, or for some other similar purpose, than would be required to do the work by hand. The time lost throughout the country in this manner, enormous in the aggregate, is to a great extent preventable.

It is not desired to convey the impression that gas engines usually give trouble, or are difficult to operate, for this is by no means the case. Delays from engine trouble are usually due to the operator's ignorance of some of the details essential to efficient operation.

Use Information Furnished. All catalogues and directions furnished by the manufacturer should be studied carefully. If none are received with the engine, a request for them should be sent promptly to the manufacturer. It is to be regretted that a few manufacturers are rather lax in the matter of furnishing such material, although it is obviously to their interest to make use of this comparatively inexpensive method of assisting the purchaser to obtain satisfactory service from the engine.

An instruction book furnished by the manufacturer should be kept in a safe place, but convenient for reference.

It is safe to assume that the man who made the engine knows something about its operation and can give some information of value to the purchaser. In altogether too many cases, the instruction book and other literature intended to be of assistance to the user of the outfit are either thrown away or ignored completely, and not infrequently a man is sent from the factory, or a local expert is hired, to make simple adjustments concerning which full instructions are given in literature furnished by the manufacturer but which had never been read by the owner.

Lubrication.

A large percentage of repair expenses is due to insufficient or improper lubrication. In far too many cases owners of gas engines use grades of oil entirely unsuited to their engines, notwithstanding the fact that in each case the manufacturer has furnished a long list of various brands and grades of oil which have been tested and found suitable to the engine in question, and which can be obtained practically anywhere in the country.

Another common error is to use too little oil. It is poor economy to try to save on oil. On the other hand, an excess of oil in the cylinder, while better than too little, will cause carbon deposits, followed by loss of power, overheating, and preignition. Heavy black smoke from the exhaust indicates that the cylinder is getting too much oil, but it is usually advisable to furnish enough to give at least a slight trace of bluish smoke.

If the cylinder is oiled from the crank case by the splash system, the lubricant being used over and over again, the oil should be examined frequently, and as soon as it becomes badly discolored or very thin it should be drained out and new oil substituted. Many manufacturers furnish directions as to how often this should be done. Filling the crank case with kerosene after draining out old oil, and then running the engine a few minutes without load, in order to remove dirt and carbon from bearings and other parts, is frequently recommended. This is good practice where the crank case can be drained completely, but on many engines there are pockets which cannot be fully drained, and the kerosene remaining in these pockets will thin the new oil. Under such circumstances the rinsing is of doubtful value. After such rinsing is done, the engine should not be run at full speed

or under load until the new oil has had ample time to reach all bearings. The dirty oil drained off may be filtered and used for oiling other farm machines, but it should not be used again in the cylinder. If the oil in the crank case quickly becomes thin it is evident that some of the fuel is getting past the piston rings. This seriously affects the lubricating quality of the oil. It should, of course, be replaced with fresh oil, and steps taken to improve the carburetion so as to form a fuel mixture which will burn more completely.

Keep All Nuts Tight.

It requires but a minute or two to go over an engine and see that all screws and nuts are tight, at the same time wiping off any oil and dirt which have collected. This should be done at least once every day the engine is used. Such practice will go far toward preventing many operating troubles, since all gas engines vibrate to some extent and this vibration tends to loosen bolts, nuts, and other parts. This is always a potential source of breakdowns, if not of serious accidents. Furthermore, loosening of parts often results in a loss of power.

MAKE GOOD COWS

The following things that go to make good cows: (1) Good breeding (good sires), (2) proper development of the heifers, (3) not breeding heifers too young, (4) liberal and proper feeding, (5) accurate records, (6) good care, (7) healthy cows.

PLAN FOR BETTER PASTURES

Cut Useless Trees and Remove All Rubbish and Brush—Top Dressing of Manure Is Good.

(Prepared by the United States Department of Agriculture.)

Cut or deaden all trees except those needed for shade, and clear off the brush and rubbish. Pasture plants can not compete with timber. One should decide whether he desires woods or pasture and act accordingly.

Have the shady places on the higher parts of the field and not along running streams or around ponds. Much fertility is lost from grazing lands because this rule is not more generally followed.

Fertilize as you would for a good meadow. There is nothing better than an occasional top dressing of stable manure. This should be applied in the fall or winter. Acid phosphate and manure are very efficient in promoting the growth of tame grasses and clovers and they in turn tend to crowd out the weeds. The weed problem in closely grazed pastures on rich soils is practically nothing.

Reseed an old pasture only as a last resort. If pastures in the East fail, it is usually because of depleted fertility and not from lack of seed. Reseeding should be done in a thorough and not a slipshod manner and only after the fertility of the soil has been restored.

GATHER UP ALL SCRAP IRON

Old Castings Scattered About Farm Would Bring Tidy Sum at Present Price for Metal.

Government publicity experts are sending out a circular advising farmers to gather together the scrap metal scattered about the premises and sell it. Enough old castings could be picked up on some farms to net quite a tidy sum at present prices.

SUNLIGHT NEEDED IN GARDEN

There is No Substitute for It and Vegetables Will Not Thrive Without It.

You can wear out your hoe, cultivating; exhaust the available water supply; water; go broke buying fertilizers; and still fail if your vegetables do not get sufficient sunlight. There is no substitute for sunlight in gardening. It's no use trying to find one.

DAIRY FACTS

PROPER SELECTION OF BULL

One of the Most Important Considerations for Improvement of Herd—Look to Records.

(Prepared by the United States Department of Agriculture.)

Since the use of meritorious purebred bulls is the means by which members of a bull association expect to improve their live stock, one of the many important considerations is the selection of the bulls. Such bulls improve the herds, and the association interest increases in proportion to the improvement obtained. On the other hand, poor bulls cause the interest to decrease accordingly. If a poor dairy bull is used the milk production of the members' herds is greatly reduced, the interest is lessened, and these conditions may lead to the breaking up of the association. Unfortunately, an excellent dairy bull can be selected with certainty only when his daughters' records are known.

Such a tried or tested bull can be depended upon with great certainty to cause improvement in the herds in the bull association. The owner of a tried bull, however, usually knows the record of the animal's daughters and rightfully asks a high price for him. The high cost often makes the members hesitate to purchase such bulls for the association, and instead they buy younger, and untried bulls whose ancestors have made good production records. No bulls should be purchased for an association except from one of these two classes. Considering the records of ancestors, the most important are those of the sire and dam. In the case of the sire, production record is taken as the average of all his daughters' records. Very often the records of some of the ancestors are lacking, but every effort should be made to obtain bulls whose ancestors in the first two generations have an average yearly record of at least 400 pounds of butterfat at maturity.

The state agricultural college may be in a position to assist in looking up pedigrees and records and always should be consulted. As soon as the money can be provided for the purpose, it is advisable for the association to obtain a set of "Advanced Register" or "Register of Merit" books and, if possible, a set of breed registry books of the breed used, both of which are valuable for reference to all the members of the association. Information in regard to the cost of "Advanced Register" and breed registry books may be obtained from the breed associations as follows:

American Jersey Cattle club, 324 West Twenty-third street, New York, N. Y.

American Guernsey Cattle club, Petersburg, N. H.

Holstein-Friesian Association of America, Brattleboro, Vt.

American Breeders' association, Brandon, Vt.

Brown-Swiss Cattle Breeders' association, Beloit, Wis.

In choosing the bulls careful attention should be given to the line of

A Good "Head" of the Herd.

breeding represented in their pedigrees. Efforts should be made to select bulls that have the same family lines in order that line breeding may be practiced when the bulls are exchanged. Before the bulls are finally purchased plenty of time should be given to selecting the line of breeding desired.

Although records of production are of great importance, it is very necessary also that the bulls selected have plenty of strength, great vigor and good body conformation. If the members are not experienced in buying cattle, it is well to ask the state agricultural college for advice and assistance in making the selection.

In buying bulls special care should be taken to see that the animals chosen are healthy and especially that they are free from the infection of either tuberculosis or contagious abortion. If possible the bulls should be purchased from herds accredited by the bureau of animal industry as being free from tuberculosis. A list of such herds may be obtained from the bureau. If it is impossible to buy from an accredited herd purchase from a breeder who will furnish satisfactory evidence that the animals have passed the tuberculin test and have never reacted to that test.

PRODUCING PIGS FOR THE MARKET

Young Animals That Gain Rapidly in Weight Make Greatest Profit for Breeder.

KEEP RUNNING TO CAPACITY

First Opportunity to Force Them Is When They Are Few Days Old—Pen Should Be Arranged for Them.

(Prepared by the United States Department of Agriculture.)

It is of the greatest importance in producing pigs for the market that they gain in weight as rapidly as possible. The modern hog is a highly specialized and efficient machine for the conversion of grain and roughage into edible meat, but to obtain the greatest efficiency, to make the most pork from a given amount of feed, to make the best pork, and to make that pork most economically the machine must be kept running to capacity from birth to the time of marketing. Nothing is more important than this factor. The question of breeding, the kind of feeds fed, and the proportion of the protein to the fattening elements in the ration are all important and are all means to the same end, but if the greatest profit is to be returned to the feeder, his pigs must make maximum gains at all times.

The first opportunity to force the pigs comes when they are a few weeks old. Up to this time they have been living solely on their dam's milk; in fact there is no successful substitute,

A Good-Sized, Profitable Litter.

has been demonstrated by repeated failures to raise newly-born pigs on cow's milk. The milk of the sow is much richer in protein, fat, and ash than is cow's milk, and the latter makes such a poor substitute that pigs under two weeks of age usually die of digestive troubles following its exclusive use. After growing for three weeks the young pigs begin to have an appetite for some feed to supplement the sow's milk, and they should be fed, for unless they are the strain of the sow will be a very serious one. The pigs will eat from the sow's trough, especially if she is being fed on thin, sloppy feeds. A pen should be arranged adjoining that of the dam and separated from it by a partition with sufficient room at the bottom to allow the pigs to run under. In the inclosure to be used by the little pigs place a low, shallow trough to contain their skim milk or manure.

Best Feeds for Pigs

The best feeds for pigs at this age are dairy products, such as skim milk, or buttermilk. These, mixed with mill feeds, as middlings, shorts, and even a cheap grade of flour, or with a meal of ground oats from which the hulls have been removed, give excellent satisfaction. Some feeders use the self-feeder at this time, placing it inside a creep that will admit the pigs to their grain at all times. This is best adapted for pigs after six weeks old, where there is a lack of skim milk and they must be prepared for the period following weaning without this feed.

STUDY BEST USE OF DIVERS FERTILIZERS

Small Field Plots for Purpose Have Been Established.

Special Tests Conducted to Determine Amount of Potash Needed to Meet Requirements of Tobacco Plant.

(Prepared by the United States Department of Agriculture.)

The enormous fertilizer consumption in the United States, amounting to more than a hundred million dollars prior to the war, has undergone in the last few years a decided change, not so much in volume as in the composition of the fertilizing materials. This has forced a careful study of ratios of essential plant-food constituents on prominent and essential crops.

Accordingly, small field plots for the study of fertilizers have been established by the United States department of agriculture on different soils and under different agricultural conditions. The test fields now in operation are at Presque Isle, Me.; State College, Pa.; Norfolk, Va.; Florence, S. C.; Pecan City, Ga.; Putney, Ga.; Thomasville, Ga.; Monticello, Fla.; Orlando, Fla.; Ashland, Wis.; and Scottsboro, Ind.

Special field tests have been conducted to determine the smallest quantities of potash which will meet the requirements of the tobacco plant, more especially on the lighter soils of the blue-creek district. Marked responses have been obtained with only 24 pounds, and even as low as 12 pounds, of potash per acre. These applications have sufficed to prevent the appearance of the characteristic symptoms of potash deficiency which the plant shows when no potash is supplied in the fertilizer. It has been possible also to establish an appreciable difference between the sulphate and the muriate of potash in their action on the plant.

The unusual fertilizer situation has brought forth numerous fertilizer substitutes of more or less doubtful merit for which extravagant claims are made. Companies are organizing to exploit fertilizer materials, concerning the value of which little is known, and a considerable increase in such test work seems necessary. Several such products have been investigated and tested by the department. Some of them are practically worthless and others have value entirely out of proportion to prices charged.

WAYS TO CONTROL HOG LICE

Complete Eradication Is Best Secured By Use of Dipping Vats—Rubbing Posts Good.

(Prepared by the United States Department of Agriculture.)

Lice on hogs can be controlled in various ways, but complete eradication is best secured by the use of dipping vats, experiments show.

Medicated hog wallows and rubbing posts, the experiments showed, kept the number of parasites reduced so that they caused little or no damage, but neither of these methods destroyed all the lice. Crude petroleum was used on the rubbing posts and the wallows were medicated with coal-tar creosote dips, pine tar, crude petroleum, and bland oils. Crude petroleum and coal-tar creosote dips proved to be more effective when applied from an ordinary sprinkling can than when used in wallows or on rubbing posts.

VISITORS HERE AND ELSEWHERE

Mr. and Mrs. C. C. Chadwick of Detroit were in town Sunday.

H. H. Harmon and wife of Detroit spent Sunday afternoon in town.

Wm E. Ambler and wife have been spending several days in Detroit this week.

Miss Agnes Thompson of Plymouth was a visitor at the Tremper home Sunday.

Miss Edessa Daggett spent Saturday at the farm home of Charles Smock and family.

Mrs. Eveline Clarkson has returned to her home here after an extended stay in Detroit.

Mr. and Mrs. W. E. Ambler were in Plymouth Saturday to attend the funeral of a relative.

James Ford was taken to Providence hospital Monday, by Dr. Holcomb, for treatment.

Mr. and Mrs. Bert Rea of Kenton, O., have been guests of Northville relatives a part of this week.

Mrs. B. C. Stark has gone to Lima, Ohio, to visit at the home of her brother, Dr. George Talford.

Rev. W. C. Francis was at Ann Arbor Tuesday for X-ray and surgical treatment for dental and eye trouble.

Miss Aline Thompson of Lansing was in town for the O. E. S. hall and spent the week-end with Miss Helen Murdock.

Carroll Ambler of the Howe school at Howe, Ind., was a week-end visitor at the home of his grandfather, W. H. Ambler and family.

Mrs. Geo Ford returned Monday from a week's stay at Novi, caring for her daughter, Mrs. Phil Taylor and family who were all ill with the "flu."

H. E. Blowers, recently discharged at Denver, Colo., from the U. S. Ambulance service, has gone to Pontiac to work, after spending a few days with relatives here.

W. J. Thompson of the Alseum theatre, is back in town, after visiting friends in Pontiac, Brighton and Detroit. He is improving as well as can be expected from his recent operation.

Charles Rice and family of Lansing and Bert Rice and family of Detroit were guests of their sister, Mrs. Simmons, and family and their mother, Mrs. Rice, at the E. J. Simons' home over Sunday.

Miss Theo Meyers of Flint, Mrs. Pearl Reed of Detroit and Louis Van Baskirk of Pontiac were entertained

for the week-end at the home of Mrs. Alice Ross.

Rep. and Mrs. M. N. Johnson were home from Lansing for the week-end.

Mrs. Lester Cook, who has been ill is now able to be about the house.

Mrs. A. B. McCullough has been listed among the sick people this week.

Mr. and Mrs. R. F. Grandy of Detroit were over Sunday visitors at the F. B. Macomber.

Don Ball arrived home last week, having received his discharge from the U. S. service.

Mrs. Fred Birch of Detroit has been spending several days at the home of her sister, Mrs. W. A. Ely.

Top Sergeant James F. Dubuair arrived in town Monday from Camp Funston, where he was mustered out of U. S. service after his return from France.

Miss Margaret Schulling of Detroit, who spent Sunday with Mrs. S. E. Cranson, delighted the congregation at the Presbyterian church with an exquisitely rendered vocal solo during the morning service.

Five new members were initiated at the Woman's Relief Corps meeting Wednesday evening, and four more applications received. The war has given many mothers, sisters and other relatives a new interest in the only pure patriotic women's organization in Northville, among the many orders and societies.

Mr. and Mrs. A. K. Dolph were called to Lansing Saturday by news of the death of Mrs. Dolph's niece, Mrs. J. A. Smith, at her home in Harrisburg, Pennsylvania. Funeral services were held Sunday at the home of Mrs. Smith's parents, Mr. and Mrs. Bina Simmons in Lansing, and the body was brought to Northville Monday for interment.

Northville School Notes.

(By the Teachers.)
The Debating team from the local High school was defeated by Durand in the contest which took place on the evening of February 15th at that place.

Supt. D. C. Bowen has been appointed chairman of the Small High School section of the Michigan State Teachers' association. This section which meets at the time of the annual convention of the association in October, deals with problems of High schools in towns not larger than 2,000.

The lecture given by Prof. C. E. Pray of the State Normal college in the High school auditorium on last Wednesday evening, was attended by an audience of about 150 people. The lecture was made up principally of stories of Samuel Adams and proved both interesting and instructive.

Music was furnished by the High school chorus under the direction of Miss Johnson.

The following is the list of honor students for grades 3, 4, 5 and 6, for the month of January:

Hortense Conroy, 5-A, 3-B; George Beard, 6-A, 1-B; Marvin Oldenburg, 6-A, 3-B; Dorris Coleman, 4-A, 3-B; Leo Woods, 4-A, 5-B; Mildred Elliott, 4-A, 3-B; Claudine Jacobs, 3-A, 5-B; Ruth Sherwood, 3-A, 5-B; Reva Schrader, 3-A, 4-B; Harold Shafer, 3-A, 4-B; Geraldine Huff, 3-A, 3-B; Marie Schoof, 3-A, 3-B; Helen Schultz, 3-A, 3-B; Irene Franklin, 2-A, 5-B; Clarence Smith, 2-A, 5-B; Alvin Hotaling, 2-A, 4-B; Arthur Schultze, 1-A, 6-B; Ival Franklin, 6-B; Roy Vanatta, 6-B.

HEALTH CRUSADE.

The modern Health Crusade tournament will open in Michigan in February 9 and will continue throughout the state for 15 weeks; closing on May 24. The Michigan Anti-tuberculosis association has been at work for some time getting ready for this health movement among the children of Michigan, but much of the preliminary work has now been disposed of and the tournament itself will open next week.

Similar clinics are being held all through Michigan, under the personal direction of Dr. E. R. Vandier Slicé, medical director of the state association.

and Miss Charlotte Ludington, field nurse. Communities that are anxious to have this service are invited to get into communication with the state association headquarters at Ann Arbor.

Our Sawed-Off Sermon.

It's a fortunate thing for the average specimen of mankind that the fool killer is about three score and ten years behind with his work.

Suggestion for Insomnia.

If troubled with sleeplessness try holding the eyes open instead of keeping them closed. In a short time the lids will droop. Do not allow them to close at once, but hold open until they become tired. Very often so does sleep come.—People's Home Journal.

PRIMARY ELECTION.

Notice is hereby given that a Primary Election will be held in the township of Northville, county of Wayne, in the Village Hall, in the village of Northville, on Wednesday, March 5th, 1919; for all political parties, at which time the following officers are to be nominated, viz.: One County Auditor. One County School Commissioner. One Circuit Judge.

The polls of said election will be open at 7 o'clock in the forenoon, and will remain open until 5 o'clock in the afternoon of said day of election.

Dated, this 24th day of February, 1919.

ERNEST MILLER,
Township Clerk.

"Where Can I Safely Buy an Overcoat?"

That is a question a good many men are asking themselves right now. Many have already solved the problem by coming to Mabley's. SELECT AN ALL-WOOL MABLEY OVERCOAT.

We have only one kind of overcoat fabric—all-wool—at the best rock low price. It's the only kind successful, self-respecting men wish to wear, and it is the only kind a store with a reputation such as Mabley's would every offer to its customers.

This is the Season of the Year When Your System Should be Thoroughly Cleansed with a Preparation, Such as

SUPREME BRAND.

SUPREME BRAND.

Blood and Skin Purifier
A Valuable Alterative and Tonic.

This is an especially valuable remedy for Boils, Carbuncles, Ulcerations, Ringworms, Pustules, Scrofula, Blotches, Salt-Rheum, Sores, Constipation, Rheumatism, and Diseases arising from Impure Blood and low conditions of the system.

This Preparation is Composed of

Ginger Root, Mandrake Root, Licorice Root, Broom Corn Seed, Triticum, Alex. Senna, Sarsaparilla Root, Poké Root, Red Clover, Burdock Root, Cascara Sagrada, Chicory Root, Potassium Iodide, Soda Salicylate, Soda Benzoate and 15 per cent Alcohol as a Preservative.

The Real Merits of this Preparation are its powers of restoring and strengthening the system, cleansing and enriching the blood when it becomes impure, such impurities generally showing themselves by eruptions, pimples, blotches, etc. It stimulates nature to expel impurities from the system through the natural channels thus cleansing the blood and restoring the system to a pure and healthy state, as through the blood all the organs and tissues of the body are reached.

PLEASE READ THE FOLLOWING

Our faith in the preparation is so great that we are willing to guarantee it to benefit you and should you find no results after taking a bottle, we will cheerfully refund the money. We make this statement based entirely on the results obtained by others.

We could not afford to make the above statements or promises unless we were thoroughly confident that you would find them true as we have established our business here and elsewhere and cannot ignore the sale of our other products of which we have 32, and further articles in course of experiment.

WE WOULD BE PLEASED TO MAKE DELIVERY AND DEMONSTRATE OUR OTHER MEDICAL AND TOILET ARTICLES. ADDRESS A CARD OR CALL PHONE 36-W.

SUPREME TRIUMPH

"HEARTS OF THE WORLD"

THE SWEETEST LOVE STORY EVER TOLD

Staged in France on the Actual Locale of the Story.

Scanner workings "little fine," I explained to Lucie, going to take it apart so that I see each piece distinctly. I knew that he spilled some oil in that place where he is not tending. No matter. To resume, that thin piece of tubing with black grease is the crank. No; I am mistaken. That is the leg. The crank shaft is that thing not quite so thin and shiny. Move your leg a little. Will you, so that Lucie can tell which crank shaft?"

There was no reply save a glance of the war, which was eighteen years from below where the young Griffith and his assistants were under actual hours at a time, and the principal had to the rizzard of the machine.

"Don't forget to tell me when the day, March 3 and 4." Complete show, 13 go of the rope," I reminded him. "Seats at Murdoch's—Adults, Lucie suddenly scrambled down the launch.

"Oh Frank," she exclaimed, "we

March 3rd and 4th

POLITICAL PRIMER

A THE first letter, becomes fixed in a child's mind early in life. It requires "A" a great shock to show the public that new methods and ideas are needed in "A" Civic Position. Developments of the past two years have demonstrated that Wayne County Really needs "A" COUNTY AUDITOR.

B MAY stand for business and there can be no doubt that Wayne County taxpayers desire more modern methods in its various departments, so the Honest Voter will study the Auditor Candidates with an idea of determining which man can best serve their interests in that office.

C IN CIVIC Life stands for the man with sufficient broadness of vision to SEE into the future and grasp propositions and problems of public needs as yet undeveloped.

In H. LEONARD WILTON we have a candidate for County Auditor, a successful man in business; a capable official and one with experience in public affairs in Wayne County.

X IN Political Affairs, is the sign of Approval placed before the name of a candidate on the ballot. It should mean that the voter has investigated the MAN and found that he is the best equipped for the place. Put the X-Ray on WILTON as you are making a diagnosis of Auditor Candidates.

YOU may not know about how important is the office of County Auditor. It is the keynote to the business affairs of Wayne County. It can work to the benefit of the public by co-operating with all other departments, which is part of Mr. Wilton's Campaign Platform.

Z IN higher mathematics stands for the unknown quantity. In this very important campaign candidate Wilton stands for the best known needs of the taxpayers. In the development of the system in connection with the affairs of Grosse Ile township, he has instituted the most modern methods in vogue in Michigan.

POINTS FROM WILTON'S PLATFORM

A COUNTY CABINET; Namely, Regular meetings of all officials to consider methods of co-operation and the better transaction of public business.

PARK SYSTEM; To give recreation places for public meetings and a free market where farmers could sell directly to the city consumers.

THE TRACT INDEX has cost the taxpayers half a million dollars; it now should be made of practical use. BUSINESS METHODS should be installed in all County Offices to absolutely safeguard the people's money. Primaries March 5th. Republican Ticket.

THE WAY TO GET RESULTS

H. LEONARD WILTON
FOR COUNTY AUDITOR
