

THE NORTHVILLE RECORD.

VOL. XLIX. NO. 47.

THE RECORD: NORTHVILLE, MICH., FRIDAY, JUNE 13, 1919.

\$1.50 PER YEAR, IN ADVANCE.

TO VOTE MONDAY ON STREET PAVING

PROPOSITION SHOULD CARRY BY A BIG VOTE; MEANS BIG THINGS FOR NORTHVILLE.

Next Monday is the special election day for Northville and the proposition to bond for the paving for the two main streets of the village should carry by a big majority. It means that while Northville will spend \$32,000, the county and state will expend for Northville's benefit, to a large extent at least, \$84,000 in addition.

The Northville bonds will extend over a period of 15 years or more so that no one will feel the expense to any appreciable extent. The interest on the bonds will be but \$1,690 a year and that is all the taxpayers of today will be called on to pay. Even that amount will be more than offset by the fact that these streets will be taken over by the county road commissioners who for all future time

will keep them in repair at no expense to the village.

It is estimated that the village would under the present system pay out over \$2,000 a year to keep Plymouth avenue, Main, Rogers, Mill and Center streets in repair so that this will really be a matter of less expense for the taxpayers when paved with cement. To this surely may also be added the saving on the mile of township road from the U. S. Flash station to Northrop's corners, as the village now pays about 75% of the road tax in the township outside the village.

Some people have also misunderstood the proposed amendment relative to the 2 per centum amount on the assessed valuation to be raised by tax in any one year. That has been misconstrued as meaning that a person's tax might be raised 2%. This is not the case at all. In reality there is no change in the present law at all so far as that part is concerned. In fact the only change in Section 22, proposed is the adding of the following words: "and the total indebtedness shall not exceed

10 per centum of such valuation." At the present time the assessed valuation of the village is about \$900,000 and the amendment would simply mean that the total indebtedness, water works, electric lights, paving, etc., shall not exceed \$90,000.

The amendment is printed here in full with the only change in the present law printed in black type:

SECTION 22. "Should any greater amount be required in any year for any corporate purpose than can be raised under the other provisions of the charter, such amount may be raised by tax or by loan, or partly by tax and partly by loan, if authorized by a three-fifths vote of the electors voting upon the question at an annual or special Village election, provided that the total amount to be raised by tax in any one year shall not exceed two per centum of the assessed valuation of the taxable property in the Village as shown by the last preceding tax roll, and the total indebtedness of the village shall not exceed 10 per centum of the assessed valuation."

As a matter of fact the bond proposition and the amendment will not increase the taxes of any person in the village. And when a sinking fund is created to take care of the bonds, \$2,000 a year, it would only add to the tax about 22 cents on each \$1,000 assessed valuation.

The village's present indebtedness is \$46,500 (water works, \$19,000, electric light \$27,500), but this is partially offset by the fact that Northville has on hand as an asset \$25,000 of bonds—\$11,000 city of Owosso, \$14,000 Royal Oak—which pays to the village 5% interest, the same interest the village pays out. Therefore the real indebtedness of the village at the present time is but \$21,500.

Voters are asked to study this situation over and if any further information is desired or if it is not fully understood ask President Lanning or any member of the council or Mr. Babbitt or Mr. Lapham at either bank to make it more plain or to give additional information.

It should also be noted that to pave Center street to the Base Line road, only costs \$625 more than it would for the village to pave, at its own expense, the Center street. The County Commissioners could not and would not touch Center street unless they went to the County line.

BOARD OF COMMERCE GETTING ORGANIZED

There were about thirty men out to the Board of Commerce organization meeting Tuesday night. Jas. A. Huff presided.

The constitution and by-laws as presented and read were adopted and a committee of five was appointed to solicit more members. The next meeting was called for Tuesday night, June 17 to be held at the High School Gym. The committee is: S. A. Lovewell, Tom Garfington, D. C. Bowen, Rex E. V. Belles, F. E. Van Atta.

L. W. Lovewell of South Lyon was present and addressed the meeting.

The initial fee has been fixed at \$5.00 and annual dues thereafter \$2 per year.

All those interested in the welfare and advancement of Northville are urged to be present Tuesday night at which time a board of 14 directors will be elected.

VOTE YES FOR GOOD ROADS MONDAY

If you want to see Northville grow and progress, get out to the polls Monday and vote "YES" on both questions—bonds and amendment. Remember that one is of no use without the other. It is estimated that the saving in street expenses alone each year after the cement paving is down will pay in less than 30 years all the interest and bonded indebtedness as well.

The oil or dust laying material alone on these streets has cost as much as \$800 a year and repairs a thousand or two more, to say nothing about regrading every few years.

All in all, the taxes will be less after the paving is down, and besides that the value to the village of paved streets will be ten times its cost. Here's a good chance for the women of the town to show their enterprise on Monday VOTE YES.

CHILDREN'S DAY AT THE M. E. CHURCH.

A simple and very effective decorative scheme was one of the features of the Methodist Children's day program Sunday.

The platform was overarched with a canopy of locust blossoms, and its background a big handsome American flag.

Within this pretty enclosure the boys and girls recited, the choruses were sung and the final patriotic display given.

The entire program was well balanced and splendidly carried out. In selecting Mrs. H. R. Bogart and Miss June Filkins to be in charge of the program and Wilbur Cook to plan the decorations Supt. Filkins was especially wise.

HENRY FORD WAS HERE TUESDAY

Henry Ford and two nieces were in town Tuesday. To the Record, Mr. Ford stated that he was very favorably impressed with Northville and hoped to be able to get together with the people here on the proposition of power sites. He thought the prospects were good for the completion of the project. The contemplated dam, if built, will form a pretty little lake on which, Mr. Ford said, small boats may be used and a nice bathing beach will also be provided. Mr. Ford looked hale and hearty and his great industrial burdens do not seem in the least to have given him a care-worn appearance.

STOP—LOOK—LISTEN!

From the band stand Saturday night, a full explanation will be given as to what the proposed good roads special election will mean to Northville, and why it is the duty of every public spirited citizen, man or woman, to vote "Yes" on both questions, Monday.

FORESTERS OF AMERICA NOTICE

The Foresters of America will hold their Memorial services at the Methodist church Sunday morning, June 15. All members of Court Northville are requested to meet at the lodge rooms at 9 a. m. to attend this service.

PURITY ICE CREAM.

Our own manufacture. We stock regularly vanilla and chocolate. Specials this week: Strawberry Cream and Lemon Sherbet. Phone 202-W. Roy G. Clark.

NOTICE TO TAXPAYERS

Village taxes will be received at the Northville State Savings bank on and after Monday, June 16, until July 15.

MARY LITSENBERGER, Village Treasurer.

Don't try to pull yourself out of trouble with a corkscrew.

The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day, at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher. *Chas. H. Fletcher*
Genuine Castoria always bears the signature of *Chas. H. Fletcher*.

Fat and Oil Production.
The production of the animal fats, exclusive of butterfat, equal to but 70 per cent of the vegetable oil output of the United States in 1912, rose in 1917 to nearly 80 per cent. Including butter, in 1912 the quantity of animal fats was approximately twice as great as that of vegetable oils, while in 1917 the production of the two classes of fats and oils was nearly the same.

One of man's hardest battles is against the innate spirit of brotherhood.

Can Wear Masks and Smoke.
For persons who wear influenza masks and desire to smoke, Edward T. Duncan suggests a way, which is described in Popular Science Monthly. Get two corn plasters and stick them on the mask, one inside, one outside, and bore a hole through the mask to fit the holes in the plasters. Through this hole a cigarette can be smoked. It can be corked when not in use.

The more bread the baker makes the more he kneads.

DAIRY

COWS INCREASE UNDER TEST

As Result of Work of Testing Association in Ohio Community Material Gains Noted.

(Prepared by the United States Department of Agriculture.)
The cow-testing association of Hamilton county, Ohio, which is composed of 24 members of the county farm bureau, placed 304 cows on test for four months or more during 1918. Of this number 181 cows were on test for the full year. In 1916 the cows owned by members of this association produced 4,126 pounds of milk and 175.98 pounds of butterfat a head. In 1917 the cows produced 4,721 pounds of milk and 212.9 pounds of butterfat.

Although Apparently Healthy This Animal Is Positive Reactor to the Tuberculin Test.

fat, while in 1918 the average was 6,107 pounds of milk and 259 pounds of butterfat.

The average gain a head in pounds of milk during 1918 over the first year was 1,981, while the average gain a head in butterfat was 38 pounds. The average gain of 1,336 pounds of milk in 1918 over 1917 represents a total gain for the association of 415,264 pounds. Figuring this at \$2.975 a hundredweight, the average price for the year, gives an added value of \$12,334.14 to the association.

The returns show there were no exceptionally high producers, but the average production of the entire association shows a very material increase.

COW TESTING ASSOCIATIONS

Increase in Butterfat Production Largely Attributed to Work of Organizations.

(Prepared by the United States Department of Agriculture.)
The estimated average butterfat production of all the dairy cows in the United States is about 160 pounds a year. From 80 yearly summaries of cow-testing associations, including the records of 26,710 cows, their butterfat production averaged 245 pounds a year. This is more than 50 per cent above the country's average production, and a large part of the gain may fairly be attributed to association work.

From every point of view, therefore, the cow-testing associations seem to be successful. Measured by the strict rules of the investigator they have made good; tried out in the field of practical experience they have proved true; weighed in the balance of public opinion they have not been found wanting.

DAIRYING ON BETTER BASIS

One of the Greatest Needs of Industry at Present Is More Attention to Breeding.

At the present time one of the greatest needs of the dairy interests in this country is that the individual farmer shall be more of a student of the fine points of breeding. Comparatively few now pay much attention to that. It is not so with horses. We take a great deal of pains to breed our mares to the best possible sire. We have learned that it pays to do this. We get colts and they sell for a better price when we wish to turn them off. The same attention might well be given to the matter of mating cows and bulls. If we ever get away from the thousands of cows that take our good feed and our care and give back not enough to pay for their keeping, we will have to get the best sires we possibly can and mate them with cows of known good qualities. Then dairying will come to a better basis. We will all of us be doing business at a profit.

DON'T GUESS AT PRODUCTION

High-Priced Feeds Make It Desirable for Dairyman to Test All Cows in His Herd.

Remember that the higher prices paid for feed, the less you can afford to keep a loafer cow in your herd. Don't guess. Weigh the milk. Weigh the feed. Test the milk. Don't guess by the looks in a tumbler. And you can't tell by a cow's looks, either. The milking looks of a cow is often no more than skin deep.

Important to all Women Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition. Poor health makes you nervous, irritable and may be despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmor's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmor & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Adv.

Refresh a Heavy Skin.

Adversity is the only scale that gives the correct weight of our friends.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curves of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness often die to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back.

By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should disappear; dull eyes become bright and pale cheeks glow with the bloom of perfect health.

CAUTION.—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its tendency to increase weight, be used by anyone who does not desire to put on flesh.

HEARTBURN Caused by Acid-Stomach

That bitter heartburn, belching, food-repeating, indigestion, bloating after eating, all are caused by acid-stomach. But they are only first symptoms—danger signals to warn you of awful troubles, if not stopped. Headache, biliousness, rheumatism, sciatica, that tired, listless feeling, lack of energy, dizziness, insomnia, even cancer and ulcers are traceable to ACID-STOMACH.

Thousands—yes, millions—of people who ought to be well and strong are more weaklings because of acid-stomach. They really starve in the midst of plenty because they do not get enough strength and vitality from the food they eat.

Take EATONIC and give your stomach a chance to do its work right. Make it strong, cool, sweet and comfortable! EATONIC brings quick relief for heartburn, belching, indigestion and other stomach miseries. It proves digestion—helps you get full strength from your food. Thousands say EATONIC is the most wonderful stomach remedy in the world. Brought them relief when everything else failed.

Our best testimonial is what EATONIC will do for you. So get a big 50c box of EATONIC today from your druggist, use it five days—if you're not pleased, return it and get your money back.

IT'S NOT YOUR HEART; IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ill-afflicted people today can be traced back to the kidney trouble.

signals that the kidneys need help. You should use GOLD MEDAL Haarlem Oil Capsules immediately. The soothing, healing oil stimulates the kidneys, relieves inflammation and destroys the germs which have caused it. Go to your druggist today and get a box of GOLD MEDAL Haarlem Oil Capsules. In twenty-four hours you should feel health and vigor returning. After you feel somewhat improved, continue to take one or two capsules each day, so as to keep the first-class condition and ward off the danger of other attacks.

Ask for the original imported GOLD MEDAL brand. Three times money refunded if they do not help you.

Living Monstrosities
Instances where a living creature appears to consist of two similar parts capable of a certain degree of separate life are cited by many authorities. It is noted that this phenomenon occurs abnormally and occasionally even among human beings. Instances are Helena and Judith, the Hungarian sisters (1791-1823), the famous Siamese twins (1811-1874), the South Carolina negroes Millie and Christina, and the Bohemian sisters, Rosalie and Josephine.

PACIFIC BLOCKADE NOT NEW

French Writer on International Maritime Law Was the First to Fully Describe It.
"Pacific blockade" as a term invented by Hauserfeulle, the French writer on international maritime law to describe a blockade exercised by a great power for the purpose of bringing pressure to bear on a weaker state without actual war. The Pacific blockade has apparently established itself as a legitimate means of coercing a weak power to observe its international obligations without resorting to war for that purpose. It is a modern development and has usually been the act of several powers acting in concert. It was first employed in 1827, when the combined fleets of Great Britain, France and Russia blockaded a portion of the Turkish coast. More recent instances of its exercise were the blockade of Crete by the powers in 1897, the blockade of Venezuelan ports by Great Britain, Germany and Italy in 1902 and of Turkish ports by the powers in 1903.

Safety in Silence.
"An intelligent looking dog you have there."
"Indeed he is," said the proud owner. "Now, if that dog could only talk, the things he might say!"
"Perish the thought! That dog has followed me into all kinds of places."

Home Town Helps

IDEAS FOR THE PUBLIC PARK

Points That Should Be Given Consideration Before the Final Plans Are Made.

In the landscape architect's ideal conception of an acre of park for every hundred inhabitants, there is no guide for calculating park space appropriate to a town of 5,000. It is evident that an acre, more or less, would not be a determining factor in its value. The problem of relative size is really a local one, its answer depending on the community's facilities for outdoor enjoyment, on the benefits that will accrue to it by the acquisition of a park, and on the specific idea which lies behind the desire for a park.

Camping and picnicking, two legitimate park uses, both suggest an appeal to the motorist. A good camp site is pre-eminently adapted to the attraction of strangers, thereby bringing some added trade to the town merchant. For the campers good drainage is essential. A fitting entrance is the first important consideration. If the park is near the business section of the town, extending the approach to the main street by means of a parking strip planted to trees is very effective. Such a strip, extending for one block along

Brick Pillars, Elaborated Into a Pergola at One Side and Carrying a Lantern at the Other, Form a Very Effective Entrance.

In the middle of the street from the park entrance, with pillars of suitable design at the end, will cost not less than \$500. Formal park entrance pillars of brick or stone may be elaborated to a vine-draped pergola on each side, costing completely at least \$350. Or a rustic entrance, to harmonize with a wooded area, may be constructed of lumber from the clearing of the site. Only sound logs and limbs of durable wood should be used. For such an entrance of appropriate size, 200 hours of labor must be allowed. Popular Mechanics Magazine.

BUILD ON RIGHT PRINCIPLES

United States Housing Corporation Gives Outline of Plans Made for the Future.

Women are to be consulted in the planning of homes in after-the-war building, according to the announced policy of the United States Housing Corporation.

"When our men want to find out what plan to follow in building a workman's home they usually talk it over with headquarters," according to a statement by the United States Housing Corporation. "Headquarters they find invariably in the kitchen. The greatest housing experts are the housewives themselves. They know when arrangements are convenient and where steps may be saved in the daily routine of work. Many of our standards representing the greatest convenience and the greatest beauty that the money invested will buy are the result of home-need suggestions from women."

"In all building projects the government's standards have been placed on a high plane. The women of the country will see to it that in future private development must measure up to these standards. All specifications for drainage, ventilation, lighting and kitchen fittings must be maintained on the present level. No slump back into the pre-war tenement will be tolerated by the workers. In all future building projects, whether sponsored by the government or by individuals, every house will be required to have a maximum of light and air."

Municipal Forest Parks.
That municipal forests could profitably be established by many cities is the opinion of Edmund Secrest, forester at the Ohio experiment station. His opinion is based upon the fact that there are many municipal forests in New England and that such woodlands have been established in Europe for 500 years.

"Many municipalities have areas of rough or hilly lands near their limits, which in many cases may be already partially covered with native forests. In other sections planting could be done to reforest cleared land, which could easily be converted into a forest park."

Building Workers' Dwellings.
As many workers in Galt, Ont., are compelled, owing to the dearth of houses, to have their homes in surrounding towns and villages, the city council is applying to the government for a loan of \$250,000 under the conditions named in the provincial housing act. The appropriation will be used to build a hundred dwellings.

KEEP YOURSELF FIT!

You can't afford to be laid up with sore, aching kidneys in these days of high prices. Some occupations bring kidney troubles, almost any work makes weak kidneys worse. If you feel tired all the time, and suffer with lame back, sharp pains, dizzy spells, headaches and disordered kidney action, use Doan's Kidney Pills. It may save an attack of rheumatism, dropsy, or Bright's disease. Doan's have helped thousands back to health.

A Michigan Case

J. W. Viers, 330 Milwaukee Avenue, O'wosso, Mich., says: "I had sharp pains across the small of my back, caused by a strain, when at work and when I stooped, the pain always seized me. I had seen Doan's Kidney Pills highly recommended and finally began taking them. They soon cured me and during the past year I have had no sign of the trouble."

Get Doan's at Any Store, 60c a Box
DOAN'S KIDNEY PILLS
FOSTER-MILBURN CO., BUFFALO, N. Y.

As He Walks Along

The local soviet in the town of Voronezh in Russia has discovered what everyone else has failed to find, hitherto, a royal road to learning. And, like every really great discovery, it is simplicity itself. Placard the principal thoroughfares of your town with "portraits and brief news items," and what have you? Why, a "Street University." "In this way," declares the Izvestia, "any citizen, instead of spending years at a bourgeois university, can pick up a general knowledge of the principal subjects as he walks along." As he walks along. Even so.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of four freckles, as Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from your druggist and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is a salve that more than once is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles—Adv.

His Favorite.

Landlady—What part of the chicken do you prefer?
Boatler—A little of the meat, please.

A Sure Sign.

"I think his health is, because his language isn't."

It's no more human to err than it is to lie about it.

COCA-COLA WILL BE USED TO CHRISTEN ENGINE

Program Will Feature Exercises at Fire Hall on Wednesday.

[From Nashville Tennessean]

Ann Dallas Dudley, the new fire engine at the Waverly-Belmont fire hall, will be christened on Wednesday afternoon at 2 o'clock with appropriate exercises. Mrs. Guilford Dudley, for whom the engine gets its name, is one of the state's pioneer suffrage workers and it is due to her untiring work that partial suffrage was given the women of Tennessee. Mrs. Miles Williams, a resident of the twenty-first ward, is chairman of arrangements, and also a pioneer suffragist, and little Judith Winston Folk, the 6-year-old daughter of Mr. and Mrs. Itau Folk, also a pioneer suffragist and the youngest member of the Nashville organization, has been chosen sponsor. Miss Folk has selected as her maids the following young girls, daughters of prominent suffrage leaders: Travania Dudley, Lenore Kenny, Kate Barksdale, Harriet Ingram, Mary Sue Cantrell, Jane Davis and Elizabeth Smith.

At the christening, not champagne but a bottle of coca-cola will be broken and the maids will shower the engine with yellow flowers. Speeches will be made by Mayor William Gupton, Commissioner Tompkins and Chief A. A. Rosetta. Mrs. Dudley, a member of the national suffrage organization, and Mrs. Reau Folk, chairman of the city organization, will be honor guests of the occasion.—Adv.

May Use Cottonseed Oil.

In the United States the yellow-unbleached palm oil is used very largely in the tin plate industry. So far it is almost the only substance which has been found satisfactory as a flux on the discharge side of the pots of melted tin through which the sheet-iron plates are passed to receive their coats of tin. Recent experiments with hydrogenated cottonseed oil, however, indicate that our tin plate industry will be independent of this foreign controlled oil.

Rara Avis.

He—I can't praise that play; it is contrary to nature.
She—How so?
He—One of the prominent characters is a contented wife.

In their longing for India, maybe the Hun junkies wanted to get where there are more snakes.

Superstition vanishes before truth.

Dorothy—How provoking of her. She might have waited until she was dummy.

If There Are Children in The Family—

you owe it to them to be sure that the baked foods they eat are made with

ROYAL BAKING POWDER.

There is a very sound reason for this, even aside from quality and flavor.

There is no alum or other chemical in ROYAL BAKING POWDER to retard digestion. No mineral to injure the delicate membranes of the stomach. No bitter taste to spoil the appetite.

Royal gives you the surety of purity and is by far more economical in the end. Therefore all thoughtful mothers use

ROYAL Baking Powder

Absolutely Pure

Made from Cream of Tartar derived from grapes
Contains No Alum—Leaves No Bitter Taste

The Northville Record. Published by NEAL PRINTING CO.

An Independent Newspaper published every Friday morning by the Neal Printing Co., at Northville, Michigan, and entered at the Northville post-office as Second-Class matter.

NORTHVILLE, MICH., JUNE 13, 1919.

Farmington Flashes

Little Mabel O'Brien, who broke her arm a week or two ago by falling from a porch, is gaining nicely.

John Morris and wife have as their guests for a few weeks their daughter, Mrs. Kleinsmit and her daughter, of Oshkosh Wisconsin.

Mrs. M. L. Oldenburg and the Misses Nelson are enjoying a two weeks' visit from their sister, Mrs. W. H. Woodworth, of Pontiac.

Mr. and Mrs. J. N. Eisenlord were called to Ypsilanti the latter part of last week to attend the funeral of their son in law, Austin Norton, who died Wednesday, June 4, from tuberculosis.

Miss Helen Warner left last week for a several weeks' visit with friends at Old Town, Me., and also to attend the commencement exercises at her Alma Mater at Auburndalle, Mass., where she was graduated a year ago.

The baccalaureate sermon to the graduating class of the Farmington school was given Sunday night by Rev. E. C. Benson before a large audience in the M. E. church. The class has nine members: Merle Graham, Viola Owen, Lucile Thornton, Alida Travis, Caroline Morris, Lloyd Travis, Harley Gibson, St. Clair Switzer and Howard Stamann.

Wixom Whisperings.

After a successful year of school work our teachers, the Misses Van-

Deusen, left Tuesday for their home in Holly.

Mrs. Mary Tuck was a Royal Oak visitor the first of this week.

Mrs. Chris Odenburg and Mrs. E. Bryant were in Milford Monday.

Mrs. F. A. Brass is in Saginaw with her daughter, whose husband is very ill.

Mrs. W. M. Chambers and daughter Mrs. May Proud, were Pontiac visitors Monday.

Mrs. Redwin, a nephew and two young lady friends of Detroit visited George Hart, Sunday.

J. R. Rauch and wife of Plymouth visited the former's sister, Mrs. J. B. Cummings, Sunday.

Miss Lily McNitt, formerly of West Nov, is staying with her nephew, H. G. Roach and family, for a while.

Miss Martha Best of Holly and Miss Helen Hammond of Novi, were the guests of the Misses VanDeusen Monday and assisted in the Commencement exercises.

John Shannon narrowly escaped severe injury Monday when his horse became frightened and ran away throwing him over the dashboard. He is quite badly bruised, but no bones broken.

The Commencement exercises, held at the church Monday evening were well attended. The decorations were very tastily carried out with the class colors and the motto: "Service" All the graduates did their parts splendidly and the address by Rev. Russell Brady of Pontiac, was fine.

Disinfectants.

The best surety of health surroundings can only be had by disinfecting your premises and keep them fireproof and free from disagreeable odors by spraying with our disinfectant.

FOR SALE—Sulphur and Lime 15cts. per gallon. Southside Green-house. 47w2c.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by E. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials. F. J. CHEENEY & CO., Toledo, Ohio. Sold by Druggists. Hall's Family Pills for constipation.

WEEKLY CALENDAR.

METHODIST CHURCH NOTES. (By the Pastor).

"The Church Around the Corner." Sunday morning service at 10:00 o'clock. Forester's Memorial service.

Sabbath school at 11:30. Lesson study, "Prayer, Privilege and Duty."

Epworth League at 6:30. Topic, "Speech, Wise and Otherwise."

There will be no evening service, but instead, the Baccalaureate service will be held in the Presbyterian church.

Mid-week services as usual, on Thursday evening at 7:30.

PRESBYTERIAN CHURCH NOTES. (By the Pastor).

The Sunday morning service begins at 10 o'clock with a Bible study hour, which ends at 11. The service from 11 to 12 will be devoted to the interests of the Boy Scout movement.

The local troop of Scouts has been invited to attend in a body, and some of them have been asked to take part in the morning's program. Then there will be a short address to and for the Scouts by the pastor, and an explanation of the new move for associate members among adults according to a recent proclamation by President Wilson.

The annual Baccalaureate service comes to our church this year and will be held at 7:30 p. m. The congregations of the other churches will participate. Let us, by our presence Sunday evening, show our appreciation of the work being done in our schools, and do honor to the class of 1919.

Walled-Lake Warbles. Miss Gertrude Moss was in Pontiac Monday.

Children's day will be observed in the Baptist church Sunday morning.

Mrs. H. J. Smith entertained the W. C. T. U. ladies, Wednesday afternoon.

Mr. and Mrs. Charles Wedow called on friends at Novi and Waterford Sunday.

Mrs. George Crawford of Pontiac visited Mrs. J. Deveraux a few days this week.

Mrs. R. Christensen of Northville was a recent guest of her daughter, Mrs. Bert Welfare.

District Supt. Rev. E. J. Warren, will preach in the Methodist church next Sunday at 2:30.

Mrs. P. G. Killam will be hostess to the Embroidery club Wednesday afternoon, June 18, when a picnic will be held on their lawn.

Mrs. Leon Carey and baby have returned to their home at Athens, after spending a few days with relatives here.

Mr. and Mrs. D. Austin and two children of Detroit were over-Sunday guests of Mr. and Mrs. Perry Austin.

AUCTION SALE. This Friday, June 13, on his premises 3 miles west of Northville on the Base Line road, at 1 o'clock p. m., Harry B. Clark will sell his entire herd of 45 high-grade Holstein dairy cattle. Auctioneer, George Ratterbury.

Novi News. Mrs. Alpheus Angell is still very poorly.

Mrs. Duncan Chisholm, formerly Isabel Watt, who has been ill with measles at her mother's home, returned Saturday to her own home at Washington, Mich.

Mr. and Mrs. Clare Grace and son, Gerald, of Farmington were visitors at the Wm. Mair's home Sunday. Mr. Grace has been engaged as principal of the Novi school for next year.

Mr. and Mrs. Eugene Root went to Pontiac last week Thursday to visit Mrs. Root's father, William Risner at the county hospital, returning Friday. They found him about the same as usual.

Commencement exercises of the Novi school will be held next Monday evening in the Novi Baptist church. There are two graduates from the tenth grade and seven from the 8th grade.

Mr. and Mrs. Clyde Putnam and daughter, Margie, and the former's mother, Mrs. Mary Putnam, were at Pontiac Tuesday to visit Mrs. Marion Chapman. They found her condition to be about the same as for some time past.

CARD OF THANKS—We wish to thank our friends and neighbors for their kindness, and for the beautiful flowers sent in our time of bereavement. Mrs. Dolly Hosmer, Mr. and Mrs. Peter Ely and Family.

A Dependable Tractor

The one thing a farmer wants to know when he buys a tractor is—Can I depend upon it to do my work? Here is one you can depend upon—the International 8-16 H. P. kerosene tractor.

First: It is made by a Company that turns out nothing but dependable machines.

Second: It is backed by over twelve years of experience in tractor building and selling; so it has no experimental features. Everything about it is tested and tried.

Third: We give you such complete instructions in the care and handling of the machine that you can hardly go wrong.

Fourth: This tractor is so simple that anyone can learn to operate it. It is easier to handle than a team. It does both field work and belt work. It starts easily and runs steadily.

Yes, you can depend upon an International 8-16. It will do the work it is sold to do. Come in and have a look at it. Demonstration at G. W. Deal's Garage. Also International Parts and Accessories on hand.

HILLS BROTHERS NORTHVILLE, MICHIGAN.

HOW ABOUT SHOES?

You Men ought to be interested in a first-class, high-grade Calf Bertsch make Shoe at \$5.00. In these times a \$5 shoe is like gold dollars for 60 cents. They won't last long at that price. May go up later. Better not wait too long. Lots of nice Ladies' Shoes; New, Stylish and Comfortable line of Women's and Men's Oxfords now here and coming in this week. For these hot days they will be what you want. Prices lower than you think they are. Come in and see me. Green Trading Stamps. Carrington's old Stand. JOHN McCULLY.

The Breeze that Blows at Will

On a breezeless Summer day your wife suffers more than yourself. If she had a

G-E Electric Fan

she could obtain the comfort of a cooling breeze by simply turning a switch.

It will cost you less than a cent an hour to keep her comfortable, even when ironing, on the hottest Summer day.

DETROIT EDISON CO.

Large advertisement for Swift & Company, U. S. A. The Mission of Swift & Company. Swift & Company has become one of the large businesses of the world through continuing to meet the growing needs of a nation and a world. Society has a right to ask how the increasing responsibilities and opportunities for usefulness which go with such growth are being used by the men who direct its affairs—and the men have the right to answer: To promote the production of live stock and perishables and increase the food supply; To reach more people with more and better meat; To make a fair competitive profit, in order to reimburse the 25,000 shareholders for the use of their capital, and to provide for the future development of the business; To reduce to a minimum the costs of preparing and distributing meat and to divide the benefits of efficiency with producer and consumer; To live and let live, winning greater business only through greater usefulness, with injury to nothing but incompetency, inefficiency and waste; to deal justly, fairly, and frankly with all mankind. These are the purposes and motives of the men who direct the policies and practices of Swift & Company. Swift & Company, U. S. A.

Northville Newslets.

Eugene Clarkson is in very poor health. T. G. Richardson's new bungalow is rapidly nearing completion.

The Milford High school will graduate 13 girls and 7 boys this year. O. R. Bromley was the speaker at the Traffic club in Jackson Saturday evening.

Wm. Mosher has progressed so far on the road to recovery as to be able to walk up town. The Record joins in congratulations.

Wayne village was visited by burglars last week, two buildings being entered and clothing taken from one and jewelry from the other.

J. H. Steers and family will soon take up their residence in Detroit, where they have purchased a Duplex apartment on Pingree avenue.

There is to be a sale of home baked goods at the Huff store Saturday, June 14, for the benefit of the Parther Lights class of the baptist church.

Will Safford has recently purchased the Ivan Webber residence on Randolph street, where the family have been living for several years past.

The annual picnic of the Presbyterian Sunday school has been dated for Monday, July 7, and the place chosen is Bob Lo island, as last year.

Mr. and Mrs. C. O. Thomas have moved their household goods from Detroit and are nicely situated in their new home on West Cady street.

Charles Bassett of Novi township has bought George Goodell's residence property in Bealton and will move there with his family in the near future.

John Harger of Detroit gave a 6 o'clock dinner party last Thursday evening in honor of the 34th birthday of his father, Oscar Harger of this village.

Chas. Hills has commenced the work of tearing down and remodeling the Houk property on Wing street, which he recently purchased, into an up-to-date bungalow.

All Northville soldiers who failed to receive service trings from the township on Memorial day, may obtain them from L. A. Babbitt at the Northville State Savings bank.

Mrs. Harlan and son, William, have bought a one-acre lot of Jamies Hogle on the Northville road, and have purchased the house formerly owned by Mr. Meyers and will move it on the lot, where they will reside after vacating their home in this village—Farmington Enterprise.

The following item appeared in the Palmer Penmanship bulletin for May, and refers to a former Northville boy: "F. C. Evans, Supervisor of penmanship, Hibbing, Minn., has been elected to a similar position in Waterbury, Conn., where he will begin his term of service September 2nd.

Miss Martha Horton, daughter of Mr. and Mrs. Ralph Horton of this place and a graduate of the Northville High school, who has been assistant to Prof. O. M. Misener at St. Clair the past year, has been appointed principal of the school in that city. This speaks well for the young lady's ability as an instructor.

G. W. Dickinson, secretary-manager of the Michigan State fair, has been forced to build a number of additional pavements to take care of the concessions which have reserved space for this year's fair. Big increases in space have been made for all exhibits.

"From present indications," Mr. Dickinson said, "it is certain there will be double the number of exhibitors in every department this year, over the number last year. The condition is indicative in a big way of the general prosperity of the country."

A very interesting illustrated booklet, detailing the wonderful work of the U. S. Supply service at Bordeaux, France, has been received at the Record office from First Lieut. H. P. Holmes of that department, a former Northville boy. The information is too extensive for reproduction in this paper, which we regret, as it gives valuable insight into the remarkable manner in which difficulties were overcome and efficiency attained by our American Engineers, to the complete astonishment of the natives "over there." One statement that may perhaps throw some light on the trans-Atlantic war mail service shows that during the month of December alone almost four and a half million pieces of homeward bound mail passed through the U. S. office at Bordeaux.

Arleco Spraying Mixture. Arleco Spraying Mixture prevents potato blight, fungus diseases and kills insects of all kinds such as bugs, fleas, beetles, etc. Very valuable for all small fruits, berries and grapes.

NORTHVILLE CHEMICAL CO.

Seen any 17 year "locusses" yet?

Miss Wilma Grant, formerly of this place, graduates at Hillsdale next week.

Eight veterans of the civil war were in line at the Memorial day parade at South Lyon.

Plymouth, also, has a new subdivision, platted by the Starkweather estate, which is right in the village.

Lawrence VanValkenburg, has arrived at his home here, with his honorable discharge from the U. S. navy.

Thomas Gleason and family have moved from Meadowbrook to the Murray farm on the Northville Outer Belt Drive.

C. R. Benton of this place has been appointed by Gov. Sleeper as a delegate to the national tax conference in Chicago.

Wesley Mills and sister have taken possession of their recently purchased home on Wing street south, formerly owned by Mrs. Roy Van Sicke.

The Baptist social at the home of Mr. and Mrs. Wallace Williams Saturday evening, was a great success, both in point of attendance and interest.

Mr. and Mrs. Daniel S. Kysor of this place announce the engagement and approaching marriage of their daughter, Loella Gaston, to Mr. Milton Osgood Cross of Detroit.

On Saturday of last week Mrs. Arthur Power, assisted by Miss Mary Power, entertained a party of 25 Detroit ladies at a kitchen snoyer in honor of Miss Hester Power.

The latest names on the membership list of the Northville Auto Club are George Hotaling, Mrs. Susie Calkins, Lizzie Harter, Thomas Carlington, Harry B. Clark and Newton I. Colt.

There is to be a benefit soon for the Ladies' Aid of the M. E. church. Specialties will be given by Miss Lillian Girardin, Jately of the Columbus Grand Opera Co. Watch for further announcements.

The annual picnic of The King's Daughters is to be held Tuesday, June 17, at the home of Mrs. Charles Bloom. A potluck supper will be served at 5:30 p. m. Members are requested to bring the usual dishes.

A telegram was received Monday by J. W. Perkins bringing the news that his son, Musician Peter L. Perkins of the 23rd Engineers Band had arrived at Boston, after over a year and a half of army service, mostly in France.

The annual meeting and election of officers and trustees of the Ladies' Library association occurs this Friday afternoon, June 13, at 2:30 o'clock, at the Library building. All adult women card-holders are entitled to vote at this meeting.

Frank Vogt of Walled Lake forgot about the closed season on bass and Deputy Game Warden, Geo. Pickle of this place took him before an Oakland county judge who assessed Frank about 17 bones. "Never again for me," said Frank.

The Democratic administration at Washington have certainly gone the limit in the tax line. The latest is to charge a cent a gallon luxury tax on drinking water. The two big spring water companies here, have to charge that now to all buyers of the fluid.

Dr. Tom Henry has been forced by continued poor health to give up his work in Detroit. It is the doctor's intention after a few weeks' recuperation to resume practice in Northville, giving special attention to surgery and diseases of the eye, ear, nose and throat.

Read carefully the article in this issue on the special election for next Monday, and if you are a voter don't let anyone persuade you that you should not vote "yes." It will be a splendid thing for our village, and, as the article explains fully, it will not increase our local taxes to any extent worth mentioning.

It is anticipated that the women voters of Michigan will, when opportunity permits, execute a terrible revenge on the legislators responsible, for one feature at least, of the new automobile drivers' license law. Every person who takes out such license will be obliged to state, under oath, his or her exact age. And even the voting privilege doesn't carry with it any such horrible requirement as that!

Anent the oft-voiced belief that a rainless Memorial day is an unusual occurrence, the Record's staff statistician has compiled the information that during the past 16 years from 1904 to 1919 inclusive there have been, locally, nine memorial days without even a sprinkle, seven of these designated as "very pleasant," and two as "cloudy." The other seven days during the 16 years have had showers at some part of the day mostly recorded as "slight."

This is Boy Scout week. Have you joined yet as an associate member.

You will help to lower your taxes by voting Yes next Monday on both ballots.

Mrs. Fred Hicks is improving satisfactorily from her operation in a Detroit hospital.

Ambler & Schoultz have a new Dodge touring car, purchased thru the Hills Agency.

Do you want to see Northville boom and continue to boom? Go to the polls Monday and vote Ycs.

The Martha Chapter of the Westminster Guild is to have a picnic at the home of Mrs. D. P. Yerkes, Monday afternoon at 5 o'clock.

The last meeting for the summer of the Fleur de Lis club was held at the home of Mrs. Asa Smith on Monday evening. Light refreshments were served.

The Methodist Missionary society will meet at the home of Mrs. Edwin White next Tuesday, June 17, at 2 o'clock. All members are urged to attend as the election of officers will occur at this meeting.

The memorial services for Harry J. Rattenbury of the 39th Infantry Co. who was killed in France, August 6, will be held at the Newburg church, Sunday, June 15, at 3:00 o'clock p. m. The services will be conducted by the Rev. Marian Carpenter of Detroit.

Through the Lovewell Farm Agency of this place, J. B. Bradley of South Lyon has sold his 158 acre farm in Canton township near Michigan avenue to William Gyde of Salem; E. W. Lockwood transfers his garage building on Main street to H. A. Marshall of Detroit, who will take possession later on.

The Woman's Relief Corps will observe its annual memorial and decoration services for members as usual on Flag day, Saturday, June 14. The ladies will meet at the home of Mrs. Robert Thompson at three o'clock p. m. All who can do so are requested to bring flowers. The ritual service will be held in Rural Hill cemetery this year.

COMMERCIAL COURSE IN NORTHVILLE SCHOOL. Supt. D. C. Bowen and the Board of Education have been gathering data regarding the establishment of a Commercial course in the High school.

The plan has been completed and the course will begin September 1. An instructor has been secured from the Ferris Institute which assures the district of a first-class course and high grade results.

Announcements of the course, the fees and what subjects are elective and those eligible to enter the course will be made as early in July as possible.

This is another addition to the splendid educational equipment of the district which, it is confidently believed the patrons will heartily approve.

NOTICE ABOUT GOODELL'S NOVI STORE. Having bought out the store and property of the late C. E. Goodell of Novi, I will still carry on a full line of groceries. Will appreciate what trade you can give me. Fetch in your butter and eggs and I will pay you the highest market price for them, either in cash or trade. Watch for my ad in next week's paper. With best wishes Agency for Macomber's Laundry. Goes Wednesday, back Friday. FRANK DEER, Novi, Mich.

JEROME-ANDERSON. Married Tuesday evening, June 3, at the home of Mr. and Mrs. Bryant of Detroit in the presence of 50 guests, Rev. William S. Jerome of White Pigeon, Mich. to Miss Fannie Anderson of Pontiac. Mr. Jerome was pastor of the Northville Presbyterian church for thirteen years, and many friends here are extending congratulations. Mr. and Mrs. F. J. Cochran and daughter of this place were among the guests at the wedding.

AUCTION SALE. On Wednesday, June 13, at 12:30 p. m. on the Samuel Bassett farm 1 mile north and 1/2 mile east of Novi, Charles Bassett will have a sale of Horses, Dairy cattle, Hogs, Sheep, Farm Tools, Hay and Grain, Vehicles, Harness, some Household goods, Poultry, etc. Auctioneer George Rattenbury.

Features at the New Alseium Theatre. Coming—Saturday, June 14, Pauline Frederick in "Resurrection."

Tuesday, June 17, Constance Talmadge in the famous play, "Mrs. Lefangwell's Boots."

JUNE 2, 1919. The date on which your Savings Account will be credited with its earnings for the past six months. It pays to carry such an account with this bank. LAPHAM STATE SAVINGS BANK Northville, Mich.

THE NORTHVILLE LOAN & BUILDING ASSOCIATION. THAT BOY OF YOURS is a little Shaver now, but if he doesn't eat too many watermelons or green apples will likely grow up and after a while will want to go to College or get married. Either one will take money and lots of it—more than the average person can likely produce at a minute's notice—so the best way to be ready is to come over and take out 16 shares of our stock, on which you will pay \$2.00 a week, and by the time he is thru High school your stock will be worth \$1,600. If the money is not needed then you can let it remain at a good rate of interest. You will find that money invested with us yields better than Texas Oil Wells or trying to guess what some outsider is going to do in Northville. THINK IT OVER.

Orchard Heights AGAIN! Have you seen the Proposed Plat the Surveyor has completed? Several ACRES and LOTS have been SOLD. Building Plans have been completed and work will start in the very near future. Lots and Acres Priced \$250 to \$1,000 with a liberal discount for cash. We are at your service to help you select a VALUABLE HOME SITE. Office Phone 264. House Phone 131-J, for E. R. Smith. House Phone, 301 J-3, for S. A. Lovewell. LOVE-WELL FARMS

FARMERS! WE HAVE ON HAND DAIRY FEEDS, OIL MEAL, COTTON SEED MEAL, BRAN, FINE MIDDINGS, CALF MEAL, (2 Kinds) OATS, CORN, BARLEY, CHICK FEED, STRAW, LIME, SALT, CEMENT, WOOD PULP, LUMBER, TILE, POSTS and FENCING. COAL—CHESTNUT, STOVE, FURNACE, POCHOONTAS, and COMMON SHEET. FEED GRINDING AND BLACKSMITHING EVERY DAY AT THE ELEVATOR. "TOOT" SAYS—DON'T NEGLECT YOUR HORSE'S FEET, JUST BECAUSE YOU DRIVE AN AUTO. THE HORSE HAS AS MUCH RIGHT TO SOME SHOES OCCASIONALLY, AS HE HAD BEFORE YOU BOUGHT YOUR MACHINE. BETTER LET US STRAIGHTEN UP THAT MILK WAGON OF YOURS AND SET THE TIRES. IT WABBLES AROUND SO IT IS HARD TO TELL WHETHER IT IS GOING TO THE FACTORY OR RETURNING. FIRST THING YOU KNOW IT WILL GO THE WAY OF THE "ONE HOSS SHAY." CALL US UP. A. L. HILL THE NOVI ELEVATOR. Phone 309 J-2.

A Nation of Spenders, We Must Become Instead a Money-Saving People

BY THE WIFE OF THE SECRETARY OF WAR

As a people we have always been regarded as extravagant, and the accusation is not unjust. We have been wasteful in many different ways, and in looking for compensation for all the cruel sacrifices we have been forced to make during the war one's attention is called to the material benefits we can derive from the bitter experience if we are willing to learn the lesson. If we become a nation of savers instead of a nation of spenders some of the sacrifices will not have been in vain. When the actual fighting was over our interest in our country's welfare rather "slumped." It was, perhaps, the natural reaction from a long period of strain and excitement, but it was none the less to be regretted. Our country needs our assistance just as truly today as it did a year ago, and it is the plain duty of every citizen, man, woman or child, to ask himself the question: "How can I help?"

One of the most obvious ways is to give our financial support. This, however, differs from most of our war service in that it involves no sacrifice. It is absolutely the safest and most paying investment one can make, and one is no longer forced to argue that he should do this thing for his country's sake, or for his soul's sake, but it can now be put on the lower plane of a thing done for one's own interest which incidentally helps the nation's credit.

No amount of money is too small to be put away profitably in Thrift stamps, and there are always conveniently at hand places where the investment can be made, including the postman at our doors and the schools where we send our children.

When we open our purses we should address to ourselves the question: "Am I spending this money wisely, or could I make better use of it?" The trouble is that if we do not take this matter under more serious consideration than we have in the past our country's credit may be at stake.

With an apology for the bad taste of a personal allusion, my children spend a portion of their money allowance each week for Thrift stamps, and the competition involved in seeing who can possess the largest number has run the aggregate to a surprising extent. Thrift stamps and War Savings stamps have the value not only of creating a fund for a definite purpose, such as the education of a child, but teach the value of money and the lasting returns which can be gotten for it, at the same time reculating all the traditional virtues which flow from saving a part of all the money coming into one's possession.

One of the permanent benefits that we can extract from this cruel and wasteful war, beyond the determination that it must never happen again, is the consciousness of a personal responsibility to our government, without which it cannot hope to hold the respect of the rest of the world.

Army Intelligence Test Proposed as College Entrance Examination

By PROF. WALTER T. MARVIN, Rutgers College

The question, who is the college man? has always meant who is the college man relatively to the remainder of the population? We have always known that the college man is an extraordinary person, that he has been selected from a vastly larger group; for he has formed but one or two per cent of the male population of America of his age.

The data resulting from the application of the army intelligence test to the undergraduates of Rutgers college warrants the conclusion that the record of the college man in the years following graduation is not due primarily to the education he has received in the high school and the college, but is the result of a remarkable and extraordinary inborn intelligence.

We have been told by college presidents and others, "Here we behold the product of education"; whereas what we behold is chiefly the product of extraordinary capacity, given as a gift of Mother Nature, or heredity.

Imperfect as is the army intelligence test, because of its emphasis on mere speed, it is still capable of finding whether or not a man has the capacity required by the college. This fact has suggested the substitution of an intelligence test for the traditional college entrance examination.

Such a substitution is not only permissible but desirable, because it can be better trusted to tell us whether or not it is advisable for him, in his own interest, to spend four years in such an environment as the college instead of going at once out into the world to learn the trade or vocation that is to be his life's career.

Carranza's Government Soon to Fall; Mandatory in Mexico Advisable

By RICHARD H. COLE, Former Carranza Representative

Carranza's government can't last six months longer. The German merchants in Mexico helped him along until Germany was beaten. Then supplies were cut off. Now Carranza has lost large numbers of his army. He has no money. Sixty per cent of Mexico is in rebellion. Fourteen different rebel commanders, all independent, are in the field.

There will be a mandatory in Mexico. I do not think any Mexican faction or group of factions can organize a stable government in Mexico. Mexico is too far gone in anarchy to be reorganized by Mexicans. Only a strong outside power can restore order and law in Mexico.

I would not advise military intervention. Any strong power could conquer Mexico in sixty days. But it would be a shame and a crime to do so. What the Mexicans want is food, not force. About sixteen million of Mexico's seventeen million people will welcome Americans who come with food and the help they are entitled to.

A few trainloads of food—beans, sugar and coffee—enough soldiers to police the country, about ten thousand men in all, and we can do a more profitable business in Mexico in a year than we can do in Russia in a lifetime.

Economy Corner

Sewing Buttons.

In sewing on buttons leave them a little loose from the garment so that the thread may be wound around in order to insure a good fastening. It is a good plan to place a pin between the button and the cloth, passing the thread over the pin; then when the thread is fastened remove the pin and the button is sufficiently loose.

In ripping buttons off old blouses, etc., string them at once on a bit of strong thread and tie together. Next time you want a set of buttons you will not have to pick them out from several hundred others.

To Make Even Buttonholes.

In making buttonholes in sheer, soft material, a perfectly firm straight edge may be made by even a novice in buttonholes if a very fine cambric needle is run through the cut from one end to the other, so that the needle is directly over the opening of the buttonhole; is done over the needle, then the needle is pulled out and inserted again outside of the work, and the second side worked over it, the little cross-stitch at the ends being made while the needle is not in place.

Neat, Firm Buttonhole in Cloth.

Measure and mark the exact length with thread where the buttonhole is to be; stitch quite closely on each side of thread; cut between the rows of stitching; stay in the usual way with a few over-and-over stitches at each end, passing the thread along the edges between the ends, and work.

Some women use soft wrapping twine to pad buttonholes on children's garments. Place this wrapping twine as near the edge as possible and work

over it. Buttonholes made in this way are very strong.

To Remove Threads After Ripping.

After a garment has been ripped it is a tedious job to pick the threads from the seams. If you take a piece of coarse cloth—such as a piece of fowling—dampen it and rub it over the seams; the threads come out readily.

Thread Twisted and Knotted.

When thread twists and knots as you sew, try stretching the cotton before beginning to use it. Take from the spool the usual needleful and, holding each end firmly, stretch the cotton as tightly as possible two or three times.

Buttons of Metal.

There is a big demand for small metal buttons this season, manufacturers say. The small pearl buttons are selling largely for vestings for women and the vegetable ivory buttons, which when made up take every color and the appearance of many materials, are used in large sizes for capes, coats, suits, etc. There are glass and jet buttons used on the high-class suits and the fancy button is used for different purposes. Glass and jet buttons previous to the war came largely from Austria, but are now made in this country.

Barred Crepe.

Georgette crepe printed in large white bars on tulle or blue, tan or white, is so popular during the coming season, so one reads.

Have Apron Fronts.

Some of the new tricotee gowns have apron fronts.

Down by the Sea

The days when any old thing in the way of a bathing suit would do, have become a part of the dim past. Bathing suits, swimming suits and beach suits progressed rapidly and gayly through successive stages of development (some of them more startling than genteel) until they arrived at the present season. Now they all appear to have claims to attractiveness, they are modest and some of them, with the addition of capes, are entitled to be called graceful and picturesque. New fabrics, various rubberized cloths that are attractive in themselves and not affected by water, allow designers to give free play to their fancies in a field where traditions do no hampering—but quite the reverse. Good materials are well handled in the new suits by specialists that have gained much by experience in designing. They have presented a great variety in styles this season.

Two very good examples of these new arrivals for beach wear and bathing are pictured above. They are not regulation swimming suits, but quite equal to meeting all the requirements of the average summer girl who goes down to the sea for pastime or health. The girl at the left has on a sleeveless dress of taffeta which hangs straight

from the shoulders and is tied about the waist with a silk cord. Frills, with a fancy or fringed edge, in three rows decorate the bottom of the skirt and are put on with the "tree edge" uppermost. This is tacked down at short intervals. The round neck is finished with a frill.

The suit at the right appears to be made of wool jersey or a similar material. It has a plain short bodice with short kimono sleeves and these are faced with a contrasting color, split over the arm and the points turned back. Narrow braid is used for trimming in parallel rows about the hips and in short lengths across the front of the waist. A rubber turban, slippers with bands about instep and ankle and a striped parasol insure the comfort of this very up-to-date bath.

It is no longer fashionable to acquire a deep coat of tan, although no one objects to a little of it.

Julie Bottomley

FAVOR FABRIC HAT

Headgear That Is the Cause of a Creative Impulse.

Tulle, Georgette, Crepe de Chine and Other Summer Materials to Be Seen in Windows.

The fabric hat might be called the pitfall of the amateur milliner. Few indeed are the women who have not been seized at least once in their lives with the creative impulse in regard to a few short lengths of silk or muslin, a hat frame and a handful of flowers and ribbons.

It looks the easiest task in the world to produce a hat which shall at least be modestly successful out of almost any bit of left-over material, but it is only a fair warning that however much a joy the fabric hat may be in inspiration, in realization it is usually blank despair.

Once in a long time the amateur discovers a hidden vein of talent, but all too often the only results are pricked fingers, tears and trampled finery. A sadder and wiser woman realizes that the fabric hat requires the full measure of the trained milliner's skill in the fashioning.

Whether owing to a scarcity of straw or to a degree of fashion, the fabric hat appears to be occupying the foreground of the picture during the early summer.

Hats of tulle, hats of crepe de chine or of georgette, crepe, grass-cloth hats, innumerable taffeta hats, hats of lace and purely summery hats of cotton fabric are making irresistible appeal from every milliner's window.

The tulle hat we have had with us all winter, but its extraordinary charm makes it difficult to abandon.

Afternoon Hat of Lavender Georgette.

A close tulle of pink roses completely surrounded by a flaring Turkish turban of black tulle has a curious charm of its own, but it by no means has the chic of the closely folded snug dark brown tulle turban with the swirl of brown paradise springing from one side of its front.

A charming little poke shape formed of black tulle ruffles edged with jet and fastened under the chin by a tulle strap is crowned by pink taffeta rose petals.

Taffeta hats of all shapes are in great favor, from the extremely broad brimmed, picturesque Second Empire shape with its drooping, wide black lace edge to the small, low-crowned

Hat of Lavender Georgette.

milor. One black taffeta hat which droops demurely at the sides is gayly decorated with trailing bunches of yellow, rose and mauve flowers and has in addition a blue ribbon about the crown.

Taffeta hats of the taller crowned persuasion are frequently decorated with embroidery as their only trimming with the exception of a narrow ribbon tied about the crown. The embroidery may be in bright wools, but it is more often in silken threads, raised in bold relief, but of the same color as the taffeta.

Crepe de chine has a rather limited use for summer fabric hats, but georgette crepe is in high favor for both large and small shapes and nearly always in light and exquisite colors. The broad shapes usually have a drooping edge of one thickness of the crepe, but they may be bound with a fold and they are nearly always crowned or wreathed about by flowers or fruit, or both, in exquisite shades.

GLITTER AND GLISTEN FADS

Bead Embroideries and Paillettes, Tunic of Gorgeous Brocades, and Fringes and Tassels.

This is a season of glitter and glisten so far as evening frocks are concerned. Bead embroideries and paillettes, tunics made of gorgeous brocades, which show silver and gold designs on shot backgrounds of gauze or crepe, fringes everywhere, and, of course, tassels. It is an ultrasumptuous year, but not unduly extravagant, because brocaded tunics can be easily made at home, and then need not run into more than two yards of material at most. If you happen to see a remnant of rich broche silk—metallic designs on a dark or black ground—possess yourself of it. If it is not long enough to make the whole of an evening tunic it will certainly make a splendid border, with bands for the corsage and armholes, of one made of chiffon or voile de sole. In putting on

AFTERNOON FROCK OF SATIN

This frock of brown satin, simply made into an afternoon outfit, acquires charm by rows of cords. It is suggested as a practical, all-round costume.

A hem of metallic brocade one ought to introduce a little hand embroidery—feather stitching or something of that sort. This gives the garment the desirable air of being "a creation."

FLOOR CUSHION THE LATEST

Contrivance Is Covered With Woven Rugs—May Be Used for Porch or Lawn.

No cheap rug goes so well with mahogany furniture as does a rag rug, especially in a bedroom. Indeed some clever young women, setting out in housekeeping in attractive houses, with white enameled woodwork and good mahogany furniture, old and new, have decided to start out with rag rugs in their living rooms, to replace them later on probably by more pretentious rugs. But the rag rugs are especially good in an interior in which original or reproduced colonial mahogany is used. But the latest thing is not the rag rug, attractive as that is in its springtime guise. The latest thing is the floor cushion, covered with woven rugs. This fabric, with which the cushions are covered, is identical with that of the rug. It is simply formed into a cover for a big cushion and then is used as a floor cushion or for the porch or lawn. Usually there is a plain center section, with a band of floral design at each end.

Author of "GRAUSTARK," "THE HOLLOW OF HER HAND," "THE PRINCE OF GRAUSTARK," "FROM THE HOUSETOPS," ETC.

PLANT COWPEAS AND SOY BEANS

Time of Sowing Depends Largely on Latitude and Use to Be Made of Crop.

WAIT UNTIL SOIL IS WARM

Plants Grow Slowly in Cool Weather and Ordinarily There is No Advantage in Planting Earlier Than the Corn Crop.

CORN WEEVIL MENACE TO GRAIN SHIPPERS

Can Use Only Precautionary Measures in Elevators.

Aim Should Be to Destroy Insects Before Grain Is Shipped—Estimated Loss of 10 Per Cent in Southern States.

(Prepared by the United States Department of Agriculture)

The grain shipper in the Southern states has to contend with one problem peculiar to that region which is beyond his control. Yet he can indirectly exert an influence toward its eradication. The problem is weevils in corn. While the matter rests primarily with the farmer, and while he is a heavier loser than the shipper, the business of the latter is handicapped.

Against the increase of live weevils in corn the shipper can use only precautionary measures while the grain is in his elevator or in transit after shipment. The aim should be to destroy them before the grain is shipped. When this is not done the weevils may increase enormously in hot weather, should the car be delayed in transit or not be unloaded promptly on its arrival at the terminal market.

If the grain when inspected at the terminal market is found to be infested with live weevils or other insects injurious to stored grain, it will be graded sample grade under the application of the federal grades. Corn shipped as No. 3, for instance, might easily fail to sample grade because of its being infested with live weevils.

A point that the grain shipper must consider is that the corn may go into storage on its arrival at a terminal market. No terminal elevator company will put corn containing live weevils into its bins unless intending to treat the grain at once in order to kill the weevils.

While the grain dealer can destroy the weevils in his elevator or warehouse, this does not affect the source of supply which is on the farm.

It has been estimated that weevils cause an average annual loss of 10 per cent of the corn crop in the Southern States. This loss can be prevented. The control of weevils, it is said, is simple. It is discussed at length in Farmers' Bulletin No. 1029 of the United States department of agriculture. Every grain dealer should send for a copy.

It is obvious that the grain dealer's interests are identical with the farmer's in the matter of the eradication of the weevil. Therefore, the grain dealer should join the farmer in a fight against the pest.

PREVENT SAGGING OF GATES

Run Piece of Steel Wire or Cable From Top of Frame Post to Opposite Corner.

A farm gate may readily be prevented from sagging by extending upward the side member to which the

A Farm Gate That Will Not Sag Is Supported by a Diagonal Wire Brace.

hinges are attached, and running a piece of steel wire, or cable, from the top of this member to the opposite lower corner. The wire may, of course, be attached to the upper corner, but the fastening as shown places the least strain on the wire brace. W. Wallace Snyder, Bedford, N. Y., in Popular Mechanics.

PLAN TO PREVENT DISEASES

Farmer Should Always Use Every Preventive Measure and See That Precautions Are Taken.

Sometimes we cannot prevent outbreaks of live stock diseases on our farms, but we can and should always use every preventive measure and see that proper precautions are taken when the disease first makes its appearance.

MAINTAIN WEIGHT OF HORSE

Animals at Hard Work Should Receive Stated Amount of Grain and Hay Each Day.

Farm work horses at hard labor should receive from one and one-fifth to one and one-third pounds of grain, and from one to one and one-fourth pounds of hay, per 100 pounds of live weight per day, in order that their weight may be maintained.

PALATABILITY OF COW FEED

Of Great Importance in Securing Best Results—Mix Unpalatable Feed With Those Appealing.

Palatability is of great importance in successful feeding. The best results cannot be obtained with any feed which is not well relished by the cow; consequently any unpalatable feed to be used should be mixed with those that are appetizing.

GIRL OF MYSTERY! HOUSE OF MYSTERY!

An American story of love and patriotism; of plot and counterplot; that enthralled the reader and keeps him guessing.

CHAPTER I

The First Wayfarer and the Second Wayfarer Meet and Part on the Highway.

A solitary figure trudged along the narrow road that wound its serpentine way through the dismal, forbidding depths of the forest—a man who, though weary and footsore, lagged not in his swift, resolute advance. Night was coming on, and with it the uncertain prospects of a storm.

He came to the "pike" and there was a signpost. A huge, crudely painted hand pointed to the left, and on what was intended to be the sleeve of a very stiff and pinching arm these words were printed in scaly white: "Hart's Tavern. Food for Man and Beast. Also Gasoline. Established 1768. 1 Mile."

On the opposite side of the "pike" in the angle formed by a junction with the narrow mountain road stood an humble signpost, lettered so indistinctly that it deserved the compassion of all observers because of its humbleness. Swerving in his hurried passage, the tall stranger drew near this shrieking friend to the uncertain traveler, and was suddenly aware of another presence in the roadway.

A woman appeared, as if from nowhere, almost at his side. He drew back to let her pass. She stopped before the little signpost, and together they made out the faint directions. To the right—and up the mountain road Frogg's Corner lay four miles and a half away. Pitcairn was six miles back over the road which the man had traveled. Two miles and a half down the turnpike was Spanish Falls, a railway station, and four miles above the crossroads where the man and woman stood peering through the darkness of the laconic signpost rested the village of St. Elizabeth. Hart's Tavern was off the road to St. Elizabeth, and the man, with barely a glance at his fellow traveler, started briskly off in that direction.

He knew that these wild mountain storms moved swiftly; his chance of reaching the tavern ahead of the deluge was exceedingly slim. His long, powerful legs had carried him twenty or thirty paces before he came to a sudden halt.

What of this lone woman who traversed the highway? His first glimpse of her had been extremely casual—indeed, he had paid no attention to her at all, so eager was he to read the directions and be on his way.

She was standing quite still in front of the signpost, peering up the road toward Frogg's Corner—confronted by a steep climb that led into black and sinister timberlands above the narrow strip of pasture bordering the pike.

The fierce wind pinched her skirts to her slender body as she leaned against the gale, gripping her hat tightly with one hand and straining under the weight of the bag in the other. The ends of a veil whipped furiously about her head, and, even in the gathering darkness, he could see a strand or two of hair keeping them company.

Retracing his steps, he called out to her above the gale: "Can I be of any assistance to you?" She turned quickly. He saw that the veil was drawn tightly over her face. "No, thank you," she replied. Her voice, despite a certain nervous note, was soft and clear and gentle—the voice and speech of a well-bred person who was young and resolute.

clouds now rolling ominously up over the mountain ridge. "By Jove, we're going to catch it good and hard," he exclaimed. "A mile take my advice. These storms are terrible. I know, for I've encountered half a dozen of them in the past week. They fairly tear one to pieces. You are a stranger in these parts?"

"Yes. The railway station is a few miles below here. I have walked all the way. There was no one to meet me. You are a stranger also, so it is useless to inquire if you know whether this road leads to Green Fancy."

"Green Fancy? Sounds attractive. I'm sorry I can't enlighten you." He drew a small electric torch from his pocket and directed its slender ray upon the signpost.

"It is on the road to Frogg's Corner," she explained nervously. "A mile and a half, so I am told. It is on the signpost. It is a house, not a village. Thank you for your kindness. And I am not at all frightened," she added, raising her voice slightly.

"But you are," he cried. "You're scared half out of your wits. You

He Drew a Small Electric Torch From His Pocket and Directed Its Slender Ray Upon the Sign Post.

can't fool me. I'd be scared myself at the thought of venturing into those woods up yonder."

"Well, then, I am frightened," she confessed plaintively. "Almost out of my boots."

"That settles it," he said flatly. "You shall not undertake it."

"Oh, but I must. I am expected. It is import—"

"If you are expected why didn't someone meet you at the station? Seems to me—"

"Hark! Do you hear—doesn't that sound like an automobile—ah!" The hoarse honk of an automobile horn rose above the howling wind, and an instant later two faint lights came rushing toward them around a bend in the mountain road. "Better late than never," she cried, her voice vibrant once more.

He grasped her arm and jerked her out of the path of the oncoming machine, whose driver was sending it along at a mad rate, regardless of futs and stones and curves. The car careened as it swung into the pike, skidded alarmingly, and then the brakes were jammed down. Attended by a vast grinding of gears and wheels, the rattling old car came to a stop fifty feet or more beyond them.

the car around—"And be quick about it," she added. "The first drops of rain pelted down from the now thoroughly black dome above them, striking in the road with the sharpness of pebbles. "Lucky it's a limousine," said the tall traveler. "Better hop in. We'll be getting it hard in a second or two."

"You must let me take you on to the Tavern in the car," she said. "Turn about is fair play. I cannot allow you to—"

"Never mind about me," he broke in cheerily. He had been wondering if she would make the offer, and he felt better now that she had done so. "I'm accustomed to roughing it. I don't mind a soaking. I've had hundred of 'em."

"Just the same you shall not have one tonight," she announced firmly. "Get in behind. I shall sit with the driver."

If anyone had told him that this rattling, dilapidated automobile—fifty years old, at the very least—he would have sworn—was capable of covering the mile in less than two minutes he would have laughed in his face. Almost before he realized that they were on the way up the straight, dark road the lights in the windows of Hart's Tavern came into view. Once more the bounding, swaying car came to a stop under brakes, and he was relaxing after the strain of the most hair-raising ride he had ever experienced.

Not a word had been spoken during the trip. The front windows were lowered. The driver, an old, hatchet-faced man, had uttered a single word just before throwing in the clutch at the crossroads in response to the young woman's crisp command to drive to Hart's Tavern. That word was uttered under his breath and it is not necessary to repeat it here.

The wayfarer lost no time in climbing out of the car. As he leaped to the ground and raised his green hat he took a second look at the automobile—a look of mingled wonder and respect. It was an old-fashioned, high-powered car, capable, despite its antiquity, of astonishing speed in any sort of going.

"For heaven's sake," he began, shouting to her above the roar of the wind and rain, "don't let him drive like that over those—"

"You're getting wet," she cried out, a thrill in her voice. "Good night—and thank you!"

"Look out!" rasped the unpleasant driver, and in went the clutch. The man in the road jumped hastily to one side as the car shot backward with a jerk, curved sharply, stopped for the fraction of a second, and then bounded forward again, headed for the crossroads.

Barnes. "What's your idea fer footin' it this time o' the year?"

"I do something like this every spring. A month or six weeks of it puts me in fine shape for a vacation later on," supplied Mr. Barnes whimsically.

Mr. Jones allowed a grin to steal over his seamed face. He reinserted the corn-cob pipe and took a couple of pulls at it.

"I never been to New York, but it must be a heavenly place for a vacation, if a feller can judge by what some of my present boarders have to say about it. It's a sort of play actor's paradise, ain't it?"

"It is paradise to every actor who happens to be on the road, Mr. Jones," said Barnes, slipping his big pack from his shoulders and letting it slide to the floor.

"Hear that feller in the taproom talkin'? Well, he is one of the leading actors in New York—in the world, for that matter. He's been talkin' about Broadway for nearly a week now, steady?"

"May I inquire what he is doing up here in the wilds?"

"At present he ain't doing anything except talk. Last week he was treading the boards, as he puts it himself. Busted up the flu. Showed last Saturday night in Horvillie, eighteen miles north of here, and immediately after the performance him and his whole troupe started to walk back to New York, a good four hundred miles. They started out the back way of the open house and nobody missed 'em till next morning except the sheriff, and he didn't miss 'em till they'd got over the county line into our bailiwick. Four of 'em are still stoppin' here just because F ain't got the heart to turn 'em out ner the spare money to buy 'em tickets to New York. Here comes one of 'em now. Mr. Dillingford, will you show this gentleman to room eleven and carry his baggage up fer him? And maybe he'll want a pitcher of warm water to wash and shave in." He turned to the new guest and smiled apologetically. "We're a little short o' help just now, Mr. Barnes, and Mr. Dillingford has kindly consented to—"

"My word!" gasped Mr. Dillingford, staring at the register. "Someone from little old New York? My word, sir, you—won't you have a—little something to drink with me before you—"

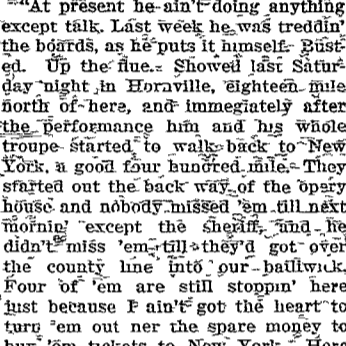

"He wants something to eat," interrupted Mr. Jones sharply. "Tell Mr. Bacon to step up to his room and take the order."

"All right old chap—nothing easier," said Mr. Dillingford genially. "Just climb up the elevator, Mr. Barnes. We do this to get up an appetite. When did you leave New York?"

Taking up a lighted kerosene lamp and the heavy pack, Mr. Clarence Dillingford led the way up the stairs. He was a chubby individual of indefinite age. At a glance you would have said he was under twenty-one; a second look would have convinced you that he was nearer forty-one.

Mystery in Plant's Presence.

The Chilean provinces of Atacama, Tarapaca and Tacna are in the rainless region, or desert country west of the Andes, and are entirely devoid of vegetation. The winds in all of this region are from the east, and in passing over the elevated perpetual snows of the Andes are stripped of their moisture and arrive on the coast perfectly dry. The last rain, a slight shower which fell in Antofagasta, in Atacama province, was the first rain which had fallen in 16 years. The last rain which fell in Iquique, in Tarapaca province, was the first in 24 years. With both of these showers a notable phenomenon occurred. The hills back of these cities assumed a green tint from a little plant which sprang up almost in a night. The query is: "From where did it's plant come?"

Soy Beans Are Well Adapted to Cultivation in Rows.

the early spring. For pasture, green manure, soiling, or even for a hay crop, both the soy bean and cowpea may be sown as late as August 1 in the South and July 1 in the North.

DATES OF PLANTING.				
Date of Planting		Green Forage		Grovt cowpea
Haberlandt	soy	Green forage	Dry forage	Soy
May 1	67	155	216	74
May 15	58	140	233	88
June 1	72	189	23	122
June 15	50	124	213	92
July 1	48	135	163	90
July 15	42	102	110	58
Aug 1	36	87	(a)	41

The planting of the same variety at different dates or varieties of different maturity on the same date will furnish an abundance of forage or pasture from middle summer until late fall.

CO-OPERATION IS GREAT HELP

Faith in Possibilities of Organization Is Essential—Must Be Expressed in Deeds.

(Prepared by the United States Department of Agriculture)

While popular faith among farmers in co-operation as a means of improving marketing methods has been strong in recent years and has brought about the formation of a large number of associations, the term co-operation has been employed in such a way that many people have come to believe that a co-operative organization offers a solution for almost all difficulties encountered in the marketing of farm products. A great deal may be accomplished through organized effort when it is properly applied and correctly employed, but too much emphasis, say marketing specialists of the United States department of agriculture, cannot be placed on the fact that co-operation is not automatic and is not a solution for all marketing ills. Faith in the possibilities of co-operation is essential to its success, but this faith must be expressed in deeds as well as words.

MUCH DEPENDS ON FERTILITY

Prices of Land Seldom Based on Capacity of Soil to Yield Crops—Improvement Urged.

Few people realize the value of an acre of rich soil. In fact, prices of land seldom are based entirely on fertility or the capacity of the land to yield crops. The value generally is estimated by the roads, distance from market, schools, churches and the character of the people and the roads, schools, churches etc. It should be the privilege of farmers to improve the soil and conserve its fertility for such depends upon its capacity to yield crops.

Barnes find the theatrical people entertaining, but as the storm rages does a good deal of thinking about the mysterious girl bound for Green Fancy.

(TO BE CONTINUED)

I was there to make a sketch of her. Luncheon was just over, and she was talking to a little knot of women. The first words I heard, as I slid quietly into a nearby seat, were "National Biscuit," recalling pleasantly my own tasty Unceeda Lunch occasions to Old Time Sugar Cookery. I liked her, and she spoke as she spoke at the time when we had and ears busy. "Between the dark and daylight, she was quoting—"there's always a bit of pause and listening—for the children. Since they were things, I've given that to babies. First I had to then, when they were ready to toddle, I had to no one in the house. Child—"I and the original, inherent goodness of Unceeda Biscuit is due to the superior materials and methods employed in the baking. The everlasting table-goodness of Unceeda Biscuit is due to security of the In-er-seal trade-mark package.

NATIONAL BISCUIT COMPANY

VISITORS HERE AND ELSEWHERE

Dr. Will S. Hart of Detroit was a Sunday guest at the Floyd Northrop home.

C. C. Yerkes returned Monday from his trip to the far west—San Francisco.

Bert Rice and family of Detroit spent Sunday with Northville vicinity friends.

Miss Sophia Gibbons entertained her mother and sister of Ann Arbor over Sunday.

The name of Chester Cram appears on this week's list of soldiers arriving from overseas.

Mrs. L. A. Babbitt arrived at her home here Monday from her visit in New York state.

Mrs. M. J. Murphy returned to Cleveland Thursday, after a four weeks' visit here.

Jas. Spencer, recently of the 32nd Division U. S. A., spent the week-end with Mr. and Mrs. James Heeney.

Mrs. H. J. Fulford of Royal Oak, formerly of Chelsea, was a guest at the James Heeney home Wednesday.

Carroll Ambler arrived home last Friday from the Middle school at Howe, Indiana, to spend the summer.

Mrs. Jewett Cranson and Mrs. Henry Germain were guests of Mrs. A. J. Newman at Pontiac last Thursday.

Rev. Wm. S. Jerome and Mrs. Jerome of White Pigeon, Mich., have been guests at the F. J. Cochran home this week.

Mr. and Mrs. Charles Conklin entertained friends from Pontiac Sunday, Mr. and Mrs. Roy Sales and Mrs. O. D. Hummel.

Mrs. A. G. Smith and Miss Marjani Burles of Conrad, Mont., visited Miss Ella Clark and other Northville friends Wednesday.

C. A. McCullough has been attending the state convention of Knights of the Maccabees this week at St. Joseph, as delegate from the local lodge.

Mr. and Mrs. Frank Balden returned Monday from a several days' visit at West Branch. The trip was made by automobile with friends from South Lyon.

Mrs. Charles Mesner and family were pleasantly surprised last Friday when her son, Walter Koehler, returned from France after 16 months' overseas service.

Mr. and Mrs. Wood and sisters, Mrs. C. J. George and Miss E. M. Wood of Detroit were motor guests at the Elza Simons home, Friday, Miss Wood remaining for a few days' visit.

Mrs. H. P. Severance returned to her home in Elm Friday after spending the week visiting at the home of Mr. and Mrs. George Ford of Northville and Mr. and Mrs. Phillip Taylor of Novi.

Mr. and Mrs. Frank Thompson left Sunday morning for their home at Lansing, Mrs. Thompson having visited Northville friends while her husband was in Mt. Clemens for a week or ten days on business.

E. H. Babbitt of New York City, who has been attending the convention of the National Credit Men's association in Detroit this week, has also been a guest at the home of his cousin, L. A. Babbitt of this village.

Mr. and Mrs. Fred L. Newton have been receiving a few days' visit from Mrs. Newton's nephew, Morris L. Dailey, formerly employed here for some time in the office of the Stimpson Co. Mr. Dailey was enjoying a ten days' furlough from his duties in the U. S. Naval service.

The Ford Model T One Ton Truck is really the necessity of farmer, manufacturer, contractor and merchant. It has all the strong features of the Ford car made bigger and stronger. It has the worm drive, extra large emergency brakes acting on both rear wheels and controlled by hand lever, 124-inch wheelbase yet turns in a 46 foot circle, and has been most thoroughly tested. We know it is absolutely dependable. We advise giving your order without delay that you may be supplied as soon as possible. The demand is large and first to order first to receive delivery. Leave four order today. Truck Chassis, \$550 L. O. B., Detroit

D. B. BUNN

(Successor to F. N. Perrin & Sons).
NORTHVILLE, MICHIGAN.

COMMISSIONER'S NOTICE.

In the matter of the estate of PRISCILLA DEANIS, deceased.
We, the undersigned, having been appointed by the Probate Court for the county of Wayne, State of Michigan, Commissioners to receive, examine and adjust all claims and demands of all persons against said deceased, do hereby give notice that we will meet at the Lapham State Savings bank, Northville, Michigan, in said county, on Saturday, the 2nd day of August A. D. 1919, and on Saturday, the 2nd day of October A. D. 1919, at 10 o'clock, a. m. of each of said days, for the purpose of examining and allowing said claims, and that four months from the 2nd day of June A. D. 1919, were allowed by said court for creditors to present their claims to us for examination and allowance.
Dated June 2nd, 1919.
FRANCIS G. TERRILL,
EDWARD H. LAPHAM,
Commissioners.
46-49.

RED CROSS SWEATERS.

The local Red Cross committee again requests the Record to call the attention of our returned Soldier boys to the fact that there is a sleeveless sweater for each one of them who has not received one since coming home. If the garments are not needed now, they will be comforting next winter. Any member of a soldier's family may

obtain a sweater for him by applying to Mrs. C. L. Dubuar, Mrs. F. P. Simmons or Mrs. Georgia Yerkes.

JAMIE F. DUBUAR LEAVES NORTHVILLE.

James F. Dubuar, lately a Sergeant in the U. S. Forestry service overseas, has resigned his recently assumed position in the Northville State Saving bank to accept an attractive offer from the New York State department of forestry, and left town this week to take up his new duties. He becomes an instructor in the Ranger school in the Adirondac reserve, where forestry is taught by practical experience in the actual work, camp life included. The position carries with it a substantial salary. While Northville people greatly regret to lose Jamie and his charming young wife from the community, his many friends are glad he has so pleasant and profitable an opportunity of again taking up his chosen profession.

AUCTION SALE.

J. H. Steers will sell his household goods and many other things at auction this coming Saturday, June 14, at 1:00 o'clock at No. 48 Dunlap street.
