JOHNSON AND WARNER CARRY THE STATE

Election day was bright and sunny, but the conditions of the roads, doubtless, kept many of the farmers of the township at home. There were but 345 votes polled in both precincts during the day—205 in precinct No. 1 and 139 in precinct No. 2, and of this number about 80 were cast by women. There were 200 straight republican and 52 straight democratic votes cast, with the result as follows:

For Supervisor:	
William J. Lansing	275
Louis VanValkenburg	61
Township Clerk:	
Ernest E. Miller	294
Spencer, Heeneey	42
Township Treasurer:	
Emma Knapp	275
Ruth Gibbs	58
Highway Commissioner:	
Stewart Montgomery	278
Sidney Lutsenberger	53
Overseer of Highways:	
Harley D. Johnson	262
Gus Schödt	41
Justice of the Peace:	
John O. Knapp	275
Fred L. Newton	65
Member Board of Review:	
Floyd A. Northrop	259
Louie A. Babbitt	72
Constables:	
Frank N. Perrin	260
John Lockwood	65
Ferry Austin	272
Willard Cole	58
Horace S. Greene	274
Truman Garfield	49
George Whipple	274
Harvey VanValkenburg	62

The annual township meeting was called to order in the village building at two o'clock and an adjournment was taken to the library building. There was a good attendance and in the audience were a number of the representative women to the township and village. The recommendations made by the township board were adopted unanimously by the meeting, with the result that the following will be raised for the various township funds this year:

Contingent Fund	\$4,000
Poor Fund	400
Highway Improvement Fund	3,500
Road Repair Fund	1,500

A resolution was presented by C. A. Constable asking the board to appropriate \$7,000 for the employment of a village nurse for the township, and after a brief discussion of the question the resolution was unanimously adopted. This is in accordance with an act that is being taken all over the state and Northville does not believe in being far behind its neighbors. A village nurse will be of very great assistance in many ways and by the aid of a village nurse people will be taught to help well as well as assist when they become ill.

It was the sense of the meeting that South Center street road be improved and repaired and the members of the township board with the assistance of our very competent and efficient highway commissioner may be depended upon to do the right thing in this matter. The members of the board are of the opinion that it will not be wise to expend a lot of money for highway improvement this year, owing to the great cost of doing that kind of work. They will, however, make such repairs and improvements as are necessary to keep the highways of the township in good condition. Northville is fortunate in having a township board that is conservative and painstaking and the members endeavor to expend the public funds in an economical manner.

Fred M. Warner, who was a candidate for member of the republican national committee, received a handsome vote in Northville, where he has a host of personal friends. He received a total of 211 votes against 74 for all his opponents.

Senator Hiram W. Johnson lead the field in the presidential preferential primary, receiving a total of 108 votes, to 83 for Governor Lowden, 50 for Leonard Wood, 29 for Hoover, 7 for Pershing, 1 for Simpson and 1 for Poundexter.

On the democratic ticket, William Jennings Bryan received 2 votes, William McAdoo 4, Milton A. Palmer 5, and Judge Connelly received 14 votes for member of the national committee.

The two bonding propositions were given large majorities here and the resolution regarding the county hospital was also approved by a large majority.

GOOD FRIDAY WAS FITTINGLY OBSERVED

The Union services held at the M. E. church on Good Friday afternoon were well attended and those present received an inspiration from the hymns sung, the scripture lesson read and by the lessons which were drawn from the event of the crucifixion by Revs. Grimwood and Marsh. Upwards of twenty-five members of Northville Commandery Knights Templar, were present in full uniform, and their presence added dignity and color to the service. The choir led the congregation in singing and the words of the familiar hymn brought a deep hush over the audience as all joined heartily in singing:

"Were the whole realm of nature mine,
That were a present-tar too small;
Love so amazing, so divine,
Demands my soul, my life, my all."

While the congregation remained standing Rev. H. J. B. Marsh offered prayer and Rev. E. V. Belles followed with the scripture lesson, taking passages from the gospels giving accounts of the crucifixion. Rev. Marsh then sang a solo in a manner that added greatly to the services. Rev. Grimwood took for his theme words found in Luke 12:48, selecting as his text "The Sigh" and from these two words drew an interesting picture of the crucifixion and those who participated. Rev. Marsh took for the subject of his remarks the words found in Matt. 27:46, and made an eloquent appeal, admonishing those present to accept the meaning and teaching of the cross as the guide of their daily life. The choir and congregation sang a hymn and the benediction was pronounced by Rev. E. V. Belles.

Many of the stores and business places were closed from noon until three o'clock and thus the day was fittingly observed in Northville.

TEMPLE HAS SUCCESSFUL YEAR

Another successful year has been closed up at Northville Commandery No. 1 under the leadership of William H. Babbitt, Commandery. The present membership is 125, a gain of 24 for the year. Enough petition have already been received to form an equally good ending to the year. The following officers were elected and installed at a meeting held on Tuesday evening:

Commandery: Herbert T. Thayer
Vice: Andrew Taylor
Clerk: C. A. Thompson
Carrington
Chancellor: Fred Wright
Scribe: Gus P. W. Allen
Treasurer: Joseph Grace
Trustees: Barton A. Wheeler
Chris. A. Dolph
S. R. Ames
S. B. A. Edgar
Foster
Warden: Jas. N. Vandine
Sergeant: Dean F. G. Old
Counselor: Fred Green
M. A. Porter
A. Eckles

HELD ANNUAL MEETING

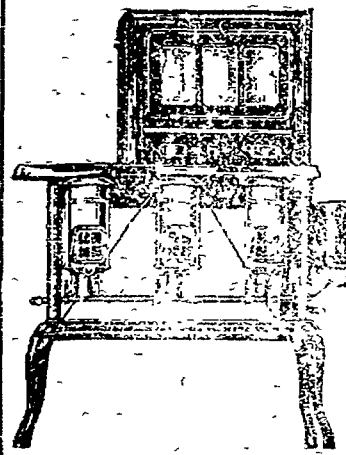

The annual meeting of the Presbyterian church and society was held at the church on Tuesday evening. Sapper was served at 6:30 and the business meeting followed. Reports were submitted by the various departments of the church and all indicated the society was in a very flourishing condition. The present membership of the church is 281. The average attendance at the meetings of the other organizations of the church have been good. The total receipts for the past year were \$5,910.15. The following were elected trustees for the ensuing term: C. C. Yerkes, Frederick Hedge, Harry Elliott.

The meeting voted unanimously to increase the salary of the pastor, Rev. E. V. Belles in the sum of \$400.00 for the coming year and the action taken was a very fitting way to express the appreciation of the church for his faithful and efficient service and leadership.

PARENT-TEACHERS MEETING

The Parents-Teachers' association held an enjoyable meeting at the High school building Tuesday evening with a good attendance. Rev. H. J. B. Marsh, president, presided and offered prayer as the meeting was called to order. A number of questions of interest to the school were discussed and it was as the sense of the meeting that an athletic director be employed by the district and that some equipment be procured for the gym and for the play grounds out of doors. A pot-luck lunch was served and the social hour proved most enjoyable.

"The Perfection" HARTFORD TIRES

Ask the Man Who Uses Them.

All days are alike to the New Perfection Wick Blue Flame Oil Cook Stove. No matter for what purpose you need a quick, clean, hot flame, or a "slow," steady flame—there is no stove like the New Perfection—the wonderful oil stove that has revolutionized housekeeping. The New Perfection besides being the perfect stove for summer, is just as efficient for year-round use. It is a home and family stove. Will do the family boiling, stewing and frying in a safe and restful manner over a stove that does not overheat the kitchen. You can do this with the New Perfection Wick Blue Flame Oil Cook Stove. Can be had either with or without Cabinet Shelf.

FOUND HIS OCCUPATION GONE

Wearies Wanderer Another Victim of the Horrors of War, as He Explained to Housewife.

Women don't feel tramps readily nowadays with work so plentiful and men so badly needed in almost all occupations, and a tramp has to be a lot brighter than formerly with his excuses if he "lets by" the average housewife with a hard luck tale. One that came to the back door of a Minneapolis residence the other day will not fail to amuse you in his particular "profession" anywhere.

"I'm out of work," he explained to Mrs. Housewife, as she stood frowning down on him, "because the war destroyed the only occupation I ever had—been taught—the occupation my father taught me and that I at last had followed until this terrible war came on."

"What was your job the war ended?" asked Mrs. Housewife, a shade of interest and even of commiseration entering her voice as she spoke. "Tramplage man" was the almost tearful reply.—Indianapolis News.

Varied Climes, Varied Habits.

Natives of hot climates who spend much time in the water rarely use soap except for a shave or shampoo. The Eskimo is a reckless bather during the fishing season, when he is forced to wade to disentangle his nets, but his wife and family think handling wet nets absolves them from further bathing rites.

Awkward.

Speaking of names, we heard the other day of a man named William Arrimee, and every time he told it to a woman she took it for a proposal.—Exchange.

Important to Mothers

Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it

DON'T WHINE IN SICK ROOM

Remember to Carry Cheer, Not Sympathy to Those Who Are Temporarily "Shut In."

Every one is called upon now and then to visit the sick room. Conditions surrounding the bedside visitations present a wide variation. There is one rule that holds good under all conditions, and that is to carry cheer and sunshine—not a long face, but a smile. If the patient is able to talk to them of what is going on outside, help them to forget themselves. A man who for over twenty years had been paralyzed, was visited by a friend who was profuse in expressing his sympathy and regret at the old man's helplessness. As he was about to leave, the afflicted man said, "Come again, won't you but when you do please forget to tell me that you are sorry for me as every one tells me that. I've heard it every day for twenty years. Help me to forget it. Bring me a breath of the outside world."

Flowers are always a gracious help in making the sickroom a place of cheer. A book or a magazine also helps.—Thrill Magazine

Signs of It.

"I am sure that man is coming here with a bill."
"What makes you think that?"
"He has such a collected manner."

It's surprising how much respect a worthless pian is capable of generating for himself.

A friend in need clings to you for all you are worth.

DAIRY

MILK RECORD IS EXCELLENT

Shipment Made From Los Angeles to Chicago Found Sweet Eighteen Days Afterward.

(Prepared by the United States Department of Agriculture)

When a bottle of cream shipped from Los Angeles to the national dairy show at Chicago, was opened and tested 18 days after it had left the cow, it was pronounced in perfect condition by those who examined it. Other samples of milk and cream entered in the national milk and cream contest and examined 15 to 18 days after production were also found to be sweet.

Because of the number of bacteria present, ordinary milk will not remain wholesome for such a long time, even if kept cold. The milk and cream which made such long keeping records were produced under very sanitary conditions, and every precaution was taken to keep them clean and to keep the bacteria count low. Furthermore, the milk was cooled to a low temperature immediately after it was drawn and held there. The success attained in producing milk of such long-keeping qualities and low bacterial count is due in a large measure to the educational value of the local milk and cream contests which have been especially popular in cities of the Pacific coast states.

The bottles of milk, which were placed in boxes, and surrounded with crushed ice, were kept at a temperature from 32 degrees to 34 degrees at all times. The boxes were shipped in refrigerated cars to Chicago, and most of them were not opened until the date of the contest. An inspection of the samples on arrival at Chicago showed that of the various methods of packing the milk in these boxes were entirely satisfactory. The ice which was packed in as tightly as possible. One or two samples packed in ice and shipped arrived in a spoiled condition due to the fact that it was not enough crushed and had not been maintained. The ice in the insulated boxes lasted well, and on each box from Portland, Oregon, which was received at Minneapolis on Tuesday, the milk was found to be in good condition.

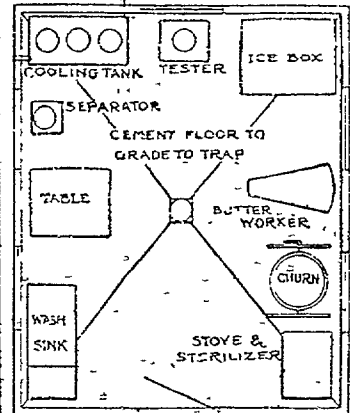

When milk is produced and handled under the right conditions it can be shipped to almost any point in the United States or to foreign countries, and arrive in good condition. At present considerable quantities are being shipped to Panama and are used on ocean liners plying between this country and Europe.

FAVOR ONE-STORY BUILDINGS

Recent Survey of Milk Plants Indicates That Low Structures Are Most Satisfactory.

(Prepared by the United States Department of Agriculture)

A recent survey of more than 100 milk plants, made by the dairy division bureau of animal industry, shows that for establishments handling more than 1,000 and less than 5,000 gallons of milk daily, the typical structure is two stories high; where less than 1,000 gallons of milk are handled daily, the plants are usually housed in one-story buildings. Although there are a few

Floor Plan for Dairy House.

plants of three or more stories, this report would seem to indicate that fewer stories prove more satisfactory in most cases. One of the most noteworthy disadvantages of a milk plant having several stories is the increasing quantity of labor needed, in proportion to the size of the business.

BALANCED RATION FOR COWS

Combination of Ground Oats, Gluten, Bran and Cottonseed Meal Is Quite Economical.

A balanced ration for dairy cows used largely by New York farmers who feed silage, hay and some corn fodder for roughage, consists of 200 pounds ground oats, 200 pounds gluten, 100 pounds bran and 100 pounds cottonseed meal. Considering nutritive value it is about the cheapest ration a farmer can buy.

HAD TERRIBLE COUGH AND NIGHT SWEATS

Cough about gone, eats and sleeps well, and gained 12 pounds.

"In December, 1933 I had a fearful cough, and my physician ordered me to change of climate immediately. I went to San Antonio, Texas and entered a sanatorium. Left there and came to Oklahoma City in October, 1934. Had no appetite, could not sleep, had night sweats and was losing from one to three pounds a week. I also had catarrh of the bowels, which the doctors had been unable to relieve.

Relatives urged me to try Milk Emulsion. I did so and began to improve. First at first, but steadily. My weight had increased 12 pounds, I had no temperature, and my cough was about gone. I can eat heartily sleep well and am working at my trade again. V. W. Neff, 610 No. Dewey St. Oklahoma City, Okla.

Nature does wonders in fighting off disease, if given the chance. Milk Emulsion is a powerful help in providing strength and health. It costs nothing to try.

Milk Emulsion is a pleasant-tasting food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and cathartics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. "Cure" stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case you are urged to try Milk Emulsion under this guarantee. Take six bottles home with you, use it as a coffee to digestion, and if it does not give the results you want, your money will be promptly refunded. Price 75c and \$1.50 per bottle. The Milk Emulsion Co., Terre Haute, Ind. Sold by drug stores everywhere.

Important to all Women Readers of this Paper

Thousands upon thousands of women have suffered from bladder trouble and never knew it.

Women's complaints often have to be traced back to bladder trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Women suffer pain in the back, head, and loss of vision. Their health makes you nervous, irritable and may be dependent, if you are ever ill.

For hundreds of women given this Dr. K. M. Swampfoot, Jr. is a strong evidence to the kidneys, proved to be just the remedy needed to overcome such conditions.

Send for a sample bottle to Dr. Swampfoot, the great kidney, bladder and blood medicine, will do for you. Dr. Swampfoot, 100 N. 1st St., New York, N. Y. You can receive sample size bottle by mail. You can purchase medicine and sample bottles at all drug stores.—M.F.

Don't Forget Cuticura-Talcum

When adding to your toilet requisites, an exquisitely scented face, skin body and dusting powder and perfume, or a dainty other perfumes, superintend you may rely on it because one of the Cuticura Trio (Soap, Ointment and Talcum). 25c each everywhere.—Ad.

The real test of the soap's popularity is the reality.

The spider is an expert fly-catcher.

SHE WEARS NOTHING FADED AND SHABBY

But "Diamond Dyes" Her Old Apparel Fresh and New.

Don't worry about perfect results. Use "Diamond Dyes" guaranteed to give a new rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's coats, feathers—everything. Direction Book in package tells how to dye over any color. To match any material have dealer show you "Diamond Dye" Color Card.—Ad.

PIES and PASTRIES

From the NEW ROYAL COOK BOOK

CHEER up! There is no further reason for worrying about table variety. The new Royal Cook Book gives new suggestions for every meal every day. The book is so full of surprises there will never be another dull meal in the home. Here are a few suggestions from the new Royal Cook Book.

Plain Pastry
This recipe is for one large pie with top and bottom crust.
2 cups flour
1/2 teaspoon salt
1/2 teaspoon Royal Baking Powder
1/2 cup shortening
Cold water
Sift together flour, salt and baking powder and shortening and rub in very lightly with tips of fingers (the less it is handled the better the paste will be). Add cold water very slowly, enough to hold dough together (do not work or knead dough). Divide in halves; roll out one part thin on floured board and use for bottom crust. After pie is filled roll out other part for top.

Rich Pastry
2 cups pastry flour
1/2 teaspoon Royal baking Powder
1/2 teaspoon salt
1/2 cup shortening
Cold water
Sift flour, baking powder and salt; add one-half shortening

ROYAL BAKING POWDER

Absolutely Pure

and rub in lightly with fingers; add water slowly until of right consistency to roll out. Divide in halves, roll out one half thin; put on in small pie pan; add remaining shortening; fold upper and lower edges in to center; fold sides in to center, fold sides to center again, roll out thin and put on pie plate. Repeat with other half for top crust.

Apple Pie
1 1/2 cups flour
1/2 teaspoon Royal Baking Powder
1/2 teaspoon salt
2 tablespoons shortening
4 apples, or 1 quart sliced apples
2 tablespoons sugar
1 teaspoon milk
Sift flour, baking powder and salt; add shortening and rub in very lightly, add just enough cold water to hold dough together. Roll half out on floured board, line bottom of pie plate; fill in apples, which have been washed, pared and cut into thin slices; sprinkle with sugar; flavor with cinnamon or nutmeg; wet edges of crust with cold water; roll out remainder of pastry, cover pie, pressing edges tightly together and bake in moderate oven 30 minutes.

THE NOVI ELEVATOR

HIGHWAY PROGRAM

FOR THIS SEASON

Due to the levying of a county road tax last fall by the Wayne County Road Commissioners, for the first time in history, found itself with enough funds to continue its work through the fall, winter and spring seasons, according to Edward N. Hines, chairman of the commission.

"With the knowledge that this season would be one of tremendous activity; labor and material shortage in every county in the state, and in fact every state in the union, we have planned our season's work so as to build the greatest possible mileage in the history of the commission in one season," continued Chairman Hines. "On March 15 our work was further developed than at any preceding June first. Among the major projects which will receive attention this summer is Warren Avenue road on which one crew will spend the entire year, starting from where the work stopped last fall."

"The grade on six miles of Warren road has been completed and equipment and road-making machinery assembled, two miles of pebbles distributed on the grade, camp site established. Weather conditions are the only factor which will not permit of an immediate start in laying concrete. Warren road will be built of concrete 18 feet wide, 32 feet over all; with its ultimate destination the Wayne County lines."

"Grading is also completed on Center street through Northville, connecting with the Oakland County line. All machinery is ready to start placing the concrete as soon as weather conditions permit. Another important project is the one through the village of Oakwood on Fort street. Stone is being shipped and all machinery assembled to make an early start. This road will be concrete of varying widths from 18 to 32 feet."

"Oakwood" boulevard, formerly known as Fort boulevard which starts at the city line and Oakwood, will be carried west into Dearborn a distance of five miles. This road will be built of concrete 24 feet wide, 36 feet over all. Work on Livernois road north three miles to the Eight Mile road, the Warren and Oakland county lines. This road when completed will provide an adequate detour during the time Woodward avenue is being widened out and rebuilt by the city of Detroit from the Six to the Eight Mile road, and at all times will relieve the congestion on Woodward avenue in Wayne county.

The property owners along Livernois road are raising a fund in order to provide additional width of concrete on Livernois. If successful in their efforts a 19-foot grade or strip will be provided in the center of the road, making provisions for street car track extensions in the future, and 16 feet of concrete with adequate shoulders will be constructed on each side of this strip. If the property owners are not successful in raising the additional cost of the extra width a concrete road 21 feet wide over all will be built.

"Sumpter road extending south of Belleville toward the Monroe county line is another important road that will receive attention this season. One crew will carry on active work on this road throughout the entire year. This will also be an 18 foot concrete road, 32 feet over all."

A contract has been let on Federal Aid Project No. 42 known locally as the Telegraph road, extending from Flat Rock to Michigan Avenue, just west of Dearborn, a distance of 14.2 miles. The bridges, culverts, drainage, structures and grading only will be done this year. The Federal Government and the State of Michigan pay 75 per cent of the cost of the building of this road.

"All roads completed this year will be signboarded with the handsome standard concrete signpost previously adopted by the Commission. Maintenance crews are at work putting and keeping the roads previously built in the best possible condition for highway traffic of every description."

"In addition to the work already accomplished, the Commission has a problem in the bridges of this county. Since making its annual report to the Board of Supervisors, the bridge on the Plymouth road near Plymouth and also the structure known as the Phoenix Bridge on the Northville road have been completed and opened to traffic."

"A contract has been let to put new foundations under the bascule bridge over the River Rouge on the Dix road. This has been made necessary by the United States Government's project in widening and deepening the River Rouge. Other bridge project under way are the replacement of the Redford Mills bridge on the Seven-Mile road, the bridge on the Northville-Plymouth road just outside of Northville over the River Rouge, and the bridge near the City of Detroit's new park on the Plymouth road. These projects will all be completed this season."

"The Commission hopes to continue

the work of paving the various railroad corporations and the Detroit United Railway. Twenty-seven such crossings were completed last year, making numerous dangerous places safe and sightly.—Detroit Sunday News.

HAS MANY STOCKHOLDERS.

Some very interesting figures have just been announced on the number of shareholders of the American Telephone & Telegraph Co., showing that the stock is very largely owned in small blocks, well scattered all over the country, including Michigan. Probably it is stated, there is no other public utility the shares of which are so widely held among the people served directly by the utility.

At the close of the past year there were 120,460 shareholders of the A. T. & T. Co.; those holding less than 100 shares numbering 111,271, while 42,778, or more than one-third, held five shares or less. About three-quarters of the shareholders held 25 shares or less, each, and the average number of shares held by all stockholders was 37.

INSTITUTE DATES SET.

The second Wayne county institute will be held at the Detroit Normal school for six weeks beginning June 23 and closing August 6," said E. W. Yost, commissioner.

The same general plan will be followed as that of the very successful session of last summer, the courses of both the institute and the Detroit Normal being open to all teachers who enroll.

"The object of this institute is two-fold. First, to provide six weeks' normal work required by law for beginning teachers; second, to afford an opportunity for present teachers to add to their professional training as well as to enable them to earn credits applicable to the requirements for one or other certificates.—Detroit Journal.

WAYNE COUNTY DID WELL.

Wayne County came through with flying colors in its campaign for membership to the Farm Bureau. It now has 1425 members, and considering its containing Detroit with its many subdivisions, its results were especially good. Michigan now has 37,478 members, and the United States 1,709,009. Since the drive, organizing of the different townships and been completed. Local interest has been taken in all the meetings. Several townships wish to start immediately a Farm Bureau local cooperative organization for buying fertilizer, dairy feed, etc., and selling farm produce, etc., in the county and will have their own local organizations in the near future.

The county is the only business man who has a raw material at hand and so the finished product in many cases is made. Organization is to be organized, organizations reverse this, it links the consumer into the chain with the producer in the chain to benefit by it.

PROCLAMATION

(By the Governor)

SCHOOL WORK

Unusual economic conditions have been met by all lines of business and all professions. There is today in Michigan a shortage of teachers and the work of our schools is consequently greatly hampered. The need of efficient teaching is fundamental and anything that interferes with the proper work of the teacher is calculated to do the commonwealth a real injury. What can be done to remedy conditions? An educational campaign, with a special effort to enlist the interest and sympathy of the best of our young people in the cause of education, ought to be helpful, and the suggestion that a particular week be definitely set apart as SCHOOL WEEK seems of me to be a most valuable one.

Therefore, I, Albert E. Sleeper, Governor of the State of Michigan, do issue this my proclamation and designate the week beginning April 11, 1920, as SCHOOL WEEK, and I urgently request the press, the pulpit, all clubs, and other social and educational organizations to give thoughtful and earnest consideration to the problem of the supply of teachers and to set aside some portion of that week for the discussion of this and other school problems.

Given under my hand at the Capitol in Lansing, this thirtieth day of March, 1920.

ALBERT E. SLEEPER

Governor.

Dwarf Tree Nearly 200 Years Old. A species of Greenland fir, believed by scientists to be nearly two hundred years old, is growing on the Shunk farm in Bullfrog valley, near Elmington, Pa. The unique tree is less than two feet high, but its branches have a spread of 15 feet and a circumference of about 60 feet. It resembles a collection of shrubs, and is one of the largest specimens known.

Following Influenza and Hard winter Colds the Blood Requires Attention.

Many cases of influenza and colds are due to the impure condition of the blood because of the toxic poisons stored within the body during the long winter months.

Until nature takes its course you should try the refreshing tonic powers of a good Alternative and Blood Purifier. This may be had by taking Supreme Lard Blocc and Skin Purifier which contains carefully selected well recognized Root's Barks, Herbs and Leaves.

The Real Merit of this preparation are its powers of restoring and strengthening the system cleansing and enriching the blood when it has become impure, such impurities often showing themselves by eruptions, pimples, blotches, etc. It stimulates nature to expel impurities from the system through the natural channels, thus cleansing the blood and restoring the system to a pure and healthy state, as through the blood all the organs and tissues of the body are reached.

For your convenience a stock of Supreme Lard Blocc and Skin Purifier is carried by Ambler & Son or may be secured direct by calling the Northville Chemical Co. Phone 36-W.

MARNE MEMORIAL POSTER

The poster shown here is by Albert Serner, noted American portrait painter. It typifies the tribute which this country will pay to the French through the Marne monument. The poster will be displayed in cities, towns, and villages, and will designate many of the places where contributions may be made during the week of March 22—a "free-will offering," in which numbers of contributors, rather than size of contributions, will be sought from school children and others.

Contributions are now being received at National Headquarters, 150 Nassau street, New York, by Charles H. Sabir, president of one of New York's largest trust companies, who is treasurer of the fund.

The memorial will be erected at the site of the battle of Marne, and will rival in size and grandeur of design the Statue of Liberty.

Pretty New York School Girl Helps Spread Appeal for Pennies for "America's Gift to France."

Meaning, on the Marne, and will rival in size and grandeur of design the Statue of Liberty.

MEET TO DISCUSS COMMON PROBLEMS

Oakland county officials will meet at the Board of Commerce Tuesday, April 6, for a conference designed to encourage co-operation in solving common problems. The affair has been arranged by C. B. Cook, county agricultural agent, and the following persons will take part: Mrs. Jeanette R. Lyons, girls' protective agent; Mrs. Edna N. Formhals, secretary of the Red Cross; Miss Martha Peters, Miss Marjorie and Miss McDonald, Red Cross nurses; George H. Kimball, Y. M. C. A. secretary; Glenn C. Gillespie,

prosecuting attorney, A. Floyd Blakeslee and George E. Sutton, assistant prosecuting attorney, Ross Stockwell, judge of probate, John R. Andrews, transient officer, Frank S. Jackson, juvenile agent. A dinner will be served, after which each of the guests will talk briefly on the aspect of his work in relation to that of the other officials.—Pontiac Press

Hair Oil Old Stuff.

Hair oil was used in the time of the Egyptians, 4000 B. C. A hair tonic for an Egyptian queen was "dog's paw, asses' hoofs, boiled in oil with dates."

How to Lower Your Meat Bills

Hints From the Department of Justice

SPECIALIZE IN BUYING MEAT AND SAVE MONEY.

The housewife of the present generation and particularly of the past year or so, during which money has been rather plentiful, has been demanding meats from one or two cuts of beef; that is, cuts from the loin for steak and cuts from the ribs for roasts. This has created a tremendous demand for the loins and ribs, leaving an oversupply of the major portion of the carcass, which the retailer must dispose of at a disadvantage, owing to the lack of demand.

If Mrs. Housewife would take more interest and specialize in her buying, and would read carefully the articles that have been and are being published, calling her attention to the cheaper meats, she would realize a substantial saving. She would soon become convinced that there is ever "usually" good meat in the round lump plates, chuck, etc.

In the olden days Mrs. Housewife would call for a chuck steak and such, as well as an occasional round steak. Mrs. Housewife now buys only one steak, and that is the porterhouse, which is naturally the most expensive, as it is the most called for, and it logically must stand the extra expense. It is the world old law of supply and demand.

Too many housewives know that from the chuck they can get steaks, boiling beef, pot roasts and stew meats. The carcass (excepting the loins and ribs) contains meats that are just as appetizing, delicious and nutritious as the more expensive cuts which are the ribs and loins. Unfortunately, however, custom recently was directed that the ribs and loins be considered the more popular, hence the cheaper cuts have really gone out of their own.

A few years ago the average housewife usually called for a chuck steak or round steak as a matter of course. In fact it was the daily diet and no one thought of ordering sirloin or porterhouse steak except on special occasions. A good cook might be that of ordering a chuck or round for every day of the week, just because it is easy to be economical. Special delicacies had to be ordered on rare occasions and the average woman would simply be better prices for a few dollars and buy the chuck steak.

pot roast or corned beef. It represents approximately 23 per cent of the entire beef carcass, and the chuck represents approximately 34 per cent. The loins represent 17 per cent and the ribs 9 per cent, and of the entire carcass there is actually less than 5 per cent porterhouse steak, 3 per cent of club steak and about 9 per cent of sirloin steak.

Among the many appetizing uses of the chuck are roasts, steaks, pot roasts, stews, boiling beef, pot pie meat and hamburger, with the "steak" for soup meat and soup bones.

There has lately been such a remarkable demand for one or two expensive kinds of meats that people who formerly were contented with what represents the less expensive portions never even thought of calling for them. At the same time they continually complain of their meat bills without stopping to realize the reason.

It is the best advice to give to be the buyer. The two most expensive meats are the ribs and the loins, although, of course, they are the most popular. The articles of beef with the most expensive articles are the porterhouse and the sirloin. The porterhouse is the most expensive, and the sirloin is the next. The chuck is the cheapest, and the ribs are the next. The same applies to meats. The butcher, of course, gets a price out of the meat, and as stated above, all the meat is in demand, and the loss on the demand must make up the loss on the cheaper meats, while if there is an equal selling of meat, as on the whole carcass, there would not be so much complaint of the high cost of meat.

Every housewife personally should make inquiries of her butcher as to the different cuts of meat.

Mrs. George Grinnell is again able to be out.

See "Crazy Jane" in the High School play.

All members of the drill team are requested to be at L. O. T. M. meeting next Monday evening, for practice after

lodge.

Mrs. Bertha Cook and family moved to their new home at Plymouth, this week.

Albert Tapp of Ford City, Ont. who recently purchased the Cook residence, will take immediate possession.

Messrs. F. S. Harmon, E. H. Lapham, M. N. Johnson and F. S. Neal, representing the Lapham State Savings Bank of this village, attended the

ceremonies in connection with the opening of the new bank building at 12 North Wednesday afternoon.

In spite of the inclemency of the weather, Easter was fittingly celebrated in the churches of Northville.

The services of the day began with the sunrise service at the Presbyterian church and following this appropriate service and program were given in

all of the churches. The afternoon service at the Methodist church was also well attended.

The service at the Episcopal church was also well attended. The service at the Lutheran church was also well attended.

The service at the Baptist church was also well attended. The service at the United Methodist church was also well attended.

YOUR BOY!

Yes, mother, YOUR BOY!

That lively rough and tumble being—your own flesh and blood—that fellow who will some day take his place as your protector and guide.

YOUR BOY—rough, mischievous, bothersome as he is at times—

Can you imagine him any more lovable state—in any more alert or agreeable frame of mind than he is day in and day out?

Hard to fancy, isn't it, Mother?

YOUR BOY—perfect in your heart—a man of might and worthy standing in your dreams; a real boy, vibrant with the joy of Spring.

YOUR BOY—carefree, but for the New Spring Suit for which he has been beseeching—a better suit than he has had before, ever.

YOUR BOY—and you are puzzled as to where to find a suit that will do him full justice.

It is a problem, Mother—but here the solution is plain and easy.

Boys' Dubblebilt Suits

that are made for the hardest kind of wear in manly, outstanding good style. Why these suits are so splendid that they are

Guaranteed for Six Months of Genuine Boy Wear!

When a maker guarantees boys' suits for six months' wear they certainly must have the quality. And that is what every mother wants her son to have—Quality and real style.

Truly, they are the very suits mothers and fathers and mothers have waited—really longed, for.

Dubblebilt suits are cravenetted—genuine cravenette finish that'll come as near shedding water as any fabric we know of. This gives the suits a "Stand-upishness" that is surprising in dress, rainy weather. And it means the protection of his health also.

The elbows of the coat and the knees of the trousers are all interwoven—the seat of the trousers is double interwoven. Plain to be seen what that means in added wear.

Then the double interlocking seams that prevent ripping as only such seams can.

On the trousers are specially riveted buttons—one thought, one glance will assure you of the blessing in this point.

The collars are all hand-felled—making them hug the neck as only the finest suits should.

The double sewn pockets will mean joy to any mother—for with the usual run of suits, that is where he injures them first.

There's a "governor" fastener at the knee which does away with that awful misfit look of his trousers.

And to put all this good workmanship into the handsomest, best wearing fabrics we know of at the prices and work style into them, they are the suits to please a mother's heart and make YOUR BOY one of the big swim.

These fine materials are cassimeres, tweeds, homespun, basket weaves—flannels and serges. Blues, browns, greens, tans—stripes, mixtures galore, checks, plaids and plain colors.

There are single and double breasted suits—inverted pleats on some—many have three.

And with almost every pair of trousers there's a belt to match the suit.

The sizes are from 6 to 18—

Should a "Dubblebilt" suit rip or tear, show any defect in workmanship or material, you are asked to return it to us within six months and get a new one for it.

Does that mean anything to you?

Does that mean anything to the hardest boy on clothes, does it mean anything toward his good looks, his happiness and, Mother, your pride?

Special priced at \$16.75. Other Suits, \$8.50 to \$17.50.
