## FORD INTERESTS TO EXPAND

The Ford Motor company of Delaware, a hundred million dollar corporation, into which the automobile and tractor business of Henry Ford is to be merged, is about to be incorporated. It is indicated in papers submitted to the secretary of state at Lansing the first of this week. The company will be formed under Delaware laws rather than Michigan; it is understood, because Michigan does not permit corporations to be organized with a capitalization over fifty million dollars nor can its operations be as wide in their scope as in a Delaware corporation.

Not only will the new company take over the auto and tractor business of the Ford Motor company and Henry Ford & Son, but it is understood that the new corporation will be authorized to build aircraft, internal combustion engines, locomotives and railroad cars, as well as other transportation devices. The stock, it is understood, will be held by Henry Ford, Edsel Ford and Mrs. Henry Ford as in the present corporation.

While Michigan will lose out on the \$100,000 incorporation fee, yet a portion of this amount, will later come to the state when the reorganization is completed and it applies for the right to do business in this state, the law requiring a fee of one-tenth of one per cent on that portion of its capital representing Michigan properties, and that fee will be a record breaker for the state.

In June 1903, the Ford Motor company was organized with a capital stock of one hundred and fifty thousand dollars. Of this amount one hundred thousand dollars was actually paid, one-half in property, forty-nine thousand in cash and the Ford patents representing forty thousand of the remaining fifty-one thousand dollars. In 1905 the capital stock was increased to two million dollars, the additional stock being distributed as a stock dividend on condition that the stockholders renounce their claim to the two million cash surplus on hand. The capital of Henry Ford and Son was one million dollars, paid in cash.

## FAIR ASSOCIATION HELD ANNUAL MEETING

The Northville Fair Association and Driving Club held its annual meeting last Friday night. The annual report showed that the new building had been completed at a cost of \$1,181 and an old note of \$251 cleared up and that the club had on hand a balance of \$418.50 at the end of the year. There were also bills receivable amounting to \$557 which will be paid to the club in a month or two. All in all 1919 was a very successful year and 1920 promises to be still better.

The following board was elected for both Fair and Driving Club:

James A. Huff, president and manager, Thos. E. Murdock vice-president, F. S. Neal, secy.; A. C. Balden, treas., and E. M. Starkweather, H. B. Clark, S. Montgomery, M. N. Johnson, N. C. Schrader, C. H. Young, M. H. Sloan, W. J. Lanning, Mark Seelley, Chas. A. Ponsford and Glenn Richardson.

The 1920 fair dates have been set to follow Ann Arbor and are September 29-October 3.

N. C. Schrader, Supt. of concessions, has already booked nearly all the attractions for this year, including Ferris wheel, merry-go-round, side shows and the Flying Leyans, as the chief free attractions.

## HOUSE STRUCK BY LIGHTNING.

During Thursday night's storm the chimney on the house of C. B. Turnbull was struck by lightning and pieces of flying brick were strewn all about the yard. It was soon discovered that the house had been set on fire by the lightning and an alarm was turned in. Fortunately but slight damage was done.

Electa—Mrs. Mary Alexander.  
Ward—Miss Nellie Freydl.

## D. U. R. WILL INCREASE FARES

Within a short time, in accordance with the recent decision of the Michigan supreme court, the D. U. R. will increase its rates on all lines running out of Detroit, except the Monroe & Toledo, which is now being operated on the two-cent rate basis. According to the provisions of the Smith Law, under which the new rates will become operative, electric railways having passenger earnings less than \$8,000 a mile, may charge two and one-half cents a mile, and where the earnings are \$10,000 per mile the rate of two cents a mile is permissible. The new rates to be put into effect soon on the D. J. & C. railway and on the Orchard Lake division will be as follows:

D. J. & C. RY.			
DETROIT to		New Rate	Old Rate
Dearborn	2.50	.15	.15
[Howard St. turn for 10c tickets]			
Wayne	3.00	.25	.25
Ypsilanti	3.50	.40	.40
Ann Arbor	4.00	.55	.55
Chelsea	4.50	.70	.70
Grass Lake	5.00	1.00	1.00
Jacksco	5.50	1.40	1.40
Saline	6.00	.75	.75
Plymouth	6.50	.49	.49
Northville	7.00	.59	.45
Northville (O. L. Div.)	7.50	.46	.35

The railway company maintains, of course, that the rates of fare must be increased in order to meet increased costs in operating expenses, and that its double true 12 with the increased rates the service will be unimpaired. It would relieve the little bit with the new order of things. The company expects to do, if three or four limited cars could be run each afternoon from the interurban station in Detroit to Farmington Junction. It would relieve the crowded condition of interurban cars coming this way and would prove of very great convenience to the people out in the section covered by the Orchard Lake division.

## ARBOR AND BIRD DAY.

Governor Albert Sleeper has issued a proclamation designating Friday, May 7th as Arbor and Bird Day in Michigan and urges its general observance throughout the state. The governor says:

"Michigan's once splendid forests have largely disappeared, though we still have many thousands of acres of timber left. It would be to be the part of wisdom to re-plant with trees vast areas which have been cleared away. It is a little thing to do, but this project will require many years for its accomplishment. In the meantime our cities and villages can add greatly to their attractiveness by planting shade trees along their streets and in their parks and squares. Young trees planted for this purpose may be obtained at small cost from the Public Forestry Commission at Lansing and the M. A. C. at East Lansing. Trees, too, constitute the natural home of most of our birds and their preservation is a matter of the greatest moment."

## OAKLAND MAN CHOSEN.

The Sixth district Republicans at their convention Wednesday afternoon elected former State Senator Leonard Freeman, of Flint, Genesee county and Thad Seely of Pontiac, Oakland county as delegates to the national convention.

Freeman defeated Rep. J. B. Pengelly, supporter of Senator Johnson, by a vote of 107 to 29. Pengelly offered to withdraw if the convention would name a Johnson delegate, but his request was ignored.

S. S. Riley, of Lansing, Ingham county, and Daniel C. Richard, Livingston county, were elected alternates.

The resolutions call upon the delegates to vote for Hiram Johnson as long as he has a "reasonable chance" for nomination, and offer to the state Horace E. Dodge for presidential elector.

## ADDED A HANDSOME TRUCK.

The management of the Northville Condensing company, being desirous of keeping its plant up to the minute, has added a handsome new Packard truck to its motor equipment. The new truck made its first appearance on Northville's streets Monday and it is the handsomest vehicle of its kind ever seen here. The business of the company is constantly increasing and the new truck will be a valuable addition to its motive power.

Ed Sessions is visiting relatives and at Carson City.

## DOESN'T NEED ANY LAXATIVES NOW

Mr. Becker says life is a joy, without constipation or stomach trouble.

"I had catarrh of the stomach and lead for three years. My stomach was so bad that every time I ate anything sweet, such as fruit or pastry, the burning hot water would run out of my mouth. I took a laxative every night."

"Since taking Milk's Emulsion my bowels move regularly. I have now taken ten bottles and have gained 10½ pounds. All my friends remark how fine I am looking, and it seems a pleasure to live again, without stomach trouble."—Bert Becker, Miami, Ohio.

Physicians usually make slaves out of their users, and weaken the bowels instead of correcting them. Stomach trouble in many cases is directly due to constipation.

Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physica. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength Milk's Emulsion is strongly recommended to those whom sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon, like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee—Take six bottles, home with you, use it according to directions, and if not satisfied with the results your money will be promptly refunded. Price 60¢ and \$1.20 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.—Adv.

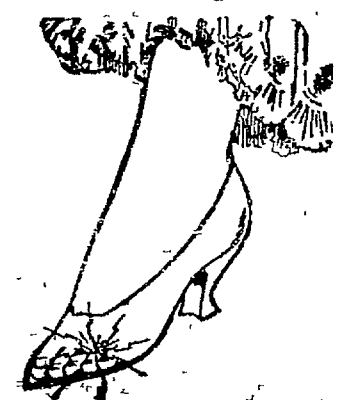

The Mysterious Fascination. "I don't approve of some of these popular songs," remarked the severe person.

"You don't have to pay any attention to those you disapprove."

"Oh, yes, I do. That's the worst of it. They are the very ones that keep running through my head."

## LIFT OFF CORNS!

Drop Freezone on a touchy corn, then lift that corn off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic! No humbug!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes and the calluses without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.—Adv.

## Spilling the Beans.

"Now that you have your divorce, I suppose you have no further use for Reno?"

"On the contrary," said the beautiful actress, "I love Reno and propose to make my permanent home here."

And then her mother had to bawl down the staircase: "Dearie, when does the next train leave?"—Louisville Courier-Journal.

## DEWS OF EVE

No More Gentle Than "Cascarets" for the Liver, Bowels

It is just as needless as it is dangerous to take violent or nasty cathartics. Nature provides no shock absorbers for your liver and bowels against calomel, harsh pills, sickening oil and salts. Cascarets give quick relief without injury from constipation, biliousness, indigestion, gases and Sick Headache. Cascarets work while you sleep, removing the toxins, poisons and sour, indigestible waste without griping or inconvenience. Cascarets regulate by strengthening the bowel muscles. They cost so little too.—Adv.

## The Real Term.

"I wrote up those athletic achievements from some magazine footnotes."

"I should call them feat notes."

## To Have a Clear Sweet Skin.

Touch pimples, redness, roughness or itching, if any, with Cuticura Ointment, then bathe with Cuticura Soap and hot water. Rinse, dry gently and dust on a little Cuticura Talcum to leave a fascinating fragrance on skin. Everywhere 25c each.—Adv.

The wise man may be likened to a tree that bends but never changes its base.

### MEN TURNING TO BOLSHEVISM

Something Profoundly Disquieting in the Constant Repetition of Word Which Seems to Convey Such a Sinister Meaning.

#### Article XII

By FRANK COMERFORD.

I met a young American major just back from the French front. I had known him for many years. Before the United States entered the war he was one of the many impatient at our delay. He believed that it was our duty to join the fight when the ruthless submarine campaign torpedoed the Lusitania, sending to cold, wet graves American women and children. I distinctly remember his face as he read the headlines in the papers telling of the murderous slaughter of Americans on the high seas. Now when he greeted me he started me with his first words, "The war is over, I'm a bolshevik." I did not know what the word meant, yet it carried to my mind an impression, and while the impression was hazy, it was clear at least in one particular. It sounded like the confession of a crime.

He had always been of a quiet, conservative type. Before the war one would have judged him to be a pacifist; he was even-tempered, mild of manner, and I still think that before August, 1914, he was a pacifist in head and heart. It was only the call of a just cause, the fight for an ideal in which he believed, that had made him a soldier. In this respect he was typical of 90 per cent of his countrymen.

I had spoken to him the day he enlisted, for he was one of those who volunteered, who might have waited for conscription and claimed a just exemption. He was in the beginning of his married life, with two very young children. By profession he was an engineer. Going to war meant leaving a wife and two babies, leaving a job that promised advancement. I recall his enthusiasm, the intensity of his patriotism, his quiet disregard of the danger to himself. "I am sure that there was little hate in his morale. He saw a danger to the world. The honor of his country had been offended against. He was an American, one of those upon whom the duty fell, so he went."

He was a bolshevik! Why? I was confounded, confused. The only meaning I gave to his remark was that he was an anarchist. The word "bolshevik" sounded red to me. It flared of the torch, photographed disorder, lawlessness—it registered blood, violence, assassination, force, hate, insanity. I wondered how this nine-lettered word had become the vehicle for so many sensations that disturbed peace of mind and sounded alarm.

Where had the word come from and what company had it kept that so fouled its soul? What did it really mean—had it a definite meaning? Was it a bug like the "flu" germ? Had it come among nations to destroy them and to the hearts of men to silence the heavenly message, "Peace on earth, good will to men." Would it run around the world as a scourge? Was it a postscript to the bloody war, lesson, prophesying more anguish and tears than four years' fighting had brought? Would the world, coming out of the war best, now be broken?

Or was it a meaningless myth? Was the word a bogie, a bad joke, a nightmare pressing heavily on a tired, nervous world's head?

#### Seeking Word's Real Meaning.

Or was the meaning that men had read into the word a lie? Was bolshevism the message of a new Messiah being cried down by the money-changers of our time in the same way their ancestors had silenced the word from the Mount and destroyed the Message Bearer with the lash and the cross?

In every mind was the thought and from every tongue fell the word. Russia had given the world a word. It had encircled the globe. Everywhere people were speaking the word—it found lodgment in every brain, a living place in every language. Its use had become universal. The old, the young, the rich and poor, the learned, the uneducated, the serious, the simple, the toiler, the artist, the poet, and the peddler, the thinker and the thinker, held the thought and spoke the word. Men, women and children spoke the word, read the word, and felt the thought it carried.

To the nine hundred and ninety-nine it was a word of ill-omen, a word of terror and fear. To the one in a thousand it was a word of hope, a light for the feet of a stumbling world, and the nine hundred and ninety-nine said that some of these people called bolsheviks were dreamers of a strange dream, that twisted idealism had made them mad, that the majority of those who profess faith in bolshevism were sick with a strange, social fever, that they were mischief-makers, ne'er-do-wells, criminals, that they sought to burn the world.

I made up my mind that I would learn the real meaning of the word. The dictionary definition threw no light on its meaning. I came to the

conclusion that to learn the real meaning of the word I might with wisdom adopt the scientific method used by the doctor of medicine in arriving at a diagnosis. The doctor examines and gathers the symptoms, the meaning of the disease. He then determines what diseases might produce these symptoms. By a process of elimination he discards one possibility after another until at last there is but one disease left, one thing that the symptoms can mean.

I discovered at the outset that most of us have the habit of using terms loosely. Seldom do we give time or thought to the exact, real meaning of things. The meaning of bolshevism is too important to the world not to try to understand it. There is a difference between having the acquaintance of a word and knowing; the former is a mere introduction, the latter an intimacy.

Since the war, when the fastidious diner wearily orders his consommé and the waiter brings it a bit tardily or cold, he thinks to himself, or if courageous enough to speak his mind, he calls the cook a bolshevik. He has found a word to express his irritation. It serves his profane feelings and at the same time saves his smug respectability.

#### See Bolshevism Everywhere.

Once the maid asking for an afternoon off provoked a knowing smile. Her mistress granted the request, charged it up to a possible romance and generally suspected the policeman on the beat. Since the war it is different. The maid is looked upon with suspicion. Her motives are questioned. The request is considered a symptom of the new terrible disease, bolshevism. The mistress thinks to herself: "The maid doesn't want to work any more; she is down with the epidemic."

The office boy, working the reliable excuse that his grandmother has died again, to get an afternoon off to go to the ball game, is trying to shirk work, in the opinion of his employer, who formerly, when such an application was made from the same source, chuckled as he granted it, while his memory took him back to his own boyhood days when he used the grandmother yarn to answer the call of the ball field.

Many captains of industry see the symptoms of the new dread in every movement and thought of the workers. The demand for living conditions and decent wages are grudgingly received by minds seared with the thought that it is bolshevism.

The hivers of child labor, looking hastily at legislation designed to end child slavery, call the leaders of child life conservation bolsheviks. When doctors and public-spirited men and women insist that an irreparable injury is being done the nation in allowing women to work for a period in excess of the hours they are able to work without menacing their motherhood, the profiteers from woman labor cry out: "You are invading the right of private contract; you are mad with bolshevism."

#### Every Sort of Definition.

The wag with the wit of a barter defined bolshevism as a wild idea surrounded by whistlers. The school-keeper, howled over by prohibition, screams "bolshevism." The anti-slavery leader came back with the answer, "Your 'personal liberty' cry is only a camouflage for bolshevism."

If anyone disagrees with you, don't grant him the right to an opinion, don't reason with him—just call him a bolshevik. The word has become an epithet, a popular invective, a slur, an insult, an outlet for contempt, contumely and hate. Its paragonical influences our definition of it. Most of us see the Russians with the eyes of the caricaturists, who for so many years have portrayed the Russian as the moujik with high boots, disheveled hair, wild whiskers, the face of an assassin, the body of a terrorist in action, the suggestion of a long dagger smeared with hot blood, under his greatcoat.

If a doctor, making an examination of all of the patients in a hospital, discovered they all had certain symptoms in common, such as temperature, weakness and pain, and because of these findings should diagnose the sickness of all of the patients as pneumonia, the doctor would be regarded a lunatic, yet there are men in the world today who are as foolish as such a doctor would be. They call every symptom of unrest, without regard to its history, bolshevism.

#### Roumania's Oil Wells.

Many of the Roumanian oil wells are not in working order, which is chiefly due to the military measures taken by the allies at the time of the German advance in Roumania. Although Gen. Falkenhayn's experts devoted particular attention to the reconstruction of the dismantled wells, their work was crowned with limited success, and it will take a long period of systematic work to raise the Roumanian oil fields again to their pre-war importance. The Roumanian government is reported to have lately concluded a convention with the Austrian government whereby they are to supply the Austrians with petroleum and other material of primary necessity in exchange for industrial products.

#### Have Evidence Against Germans.

Evidence of German crimes is furnished by M. Delannoy, librarian of Louvain; Henri Davignon, secretary of the Belgian commission of inquiry; Paul Lambotte, director of the art galleries of Belgium, and M. Lamy, secretary of the French academy. The latter, it was said, has made a most telling indictment of those who were responsible for acts of savagery.

## COOKIES and SMALL CAKES

From the NEW ROYAL COOK BOOK

WHEN the children romp in hungry as young bears, here are some wholesome, economical delights that will not only be received with glee, but will satisfy the most ravenous appetite in a most wholesome manner.

**Cookies**  
½ cup shortening  
1 cup sugar  
1 cup milk  
1 egg  
1 teaspoon grated nutmeg  
1 teaspoon vanilla extract or  
grated rind of 1 lemon  
4 cups flour  
3 teaspoons Royal Baking Powder  
Cream shortening and sugar together; add milk to beaten eggs and beat again; add slowly to creamed shortening and sugar; add nutmeg and flavoring; add 2 cups flour sifted with baking powder; add enough more flour to make stiff dough. Roll out very thin on floured board; cut with cookie cutter, sprinkle with sugar, or put a raisin or a piece of English walnut in the center of each. Bake about 12 minutes in hot oven.

**Cocoa Drop Cakes**  
1 tablespoon shortening  
1 cup sugar  
1 egg  
½ cup milk  
1 cup flour  
3 teaspoons Royal Baking Powder  
½ cup cocoa  
1 teaspoon vanilla extract  
1 teaspoon vanilla extract

Cream shortening; add sugar and well-beaten egg; beat well and add milk slowly; sift flour, baking powder, salt and cocoa into mixture; stir until smooth, add vanilla. Put one tablespoon of batter into each greased muffin tin and bake in moderate oven about 20 minutes. Cover with boiled icing.

**Orange Cakes**  
1 tablespoon shortening  
1 cup sugar  
1 cup milk  
1 egg  
2 cups flour  
3 teaspoons Royal Baking Powder  
1 teaspoon salt  
1 teaspoon orange extract  
grated rind of 1 orange  
Cream shortening; add sugar slowly, beating well; add milk a little at a time; then add well-beaten egg; sift flour, baking powder and salt together and add to mixture; add flavoring and grated orange rind; mix well. Bake in greased shallow tin, or individual cake tins, in hot oven 15 to 20 minutes. When cool cover with orange icing.

Doughboy. Might Have Had Right Idea, but Surely He Had Never Driven Mules.

Returning soldiers tell a good story of a mule driver in France. He was driving a four-mule team hitched to a ration wagon and, as he told the story, he lost his way in the night and mist and drove right through the American trench line, which was not continuous at that point, and started rumbling along an old road which led across No Man's Land. He had gone a few rods when a doughboy jumped out of a listening post and began to signal to him with both hands.

"What's the matter?" shouted the driver.

"Hush!" said the doughboy in a low and urgent whisper. "You're heading straight toward the German lines. For God's sake turn around and don't speak above a whisper."

"Whisper, h—!" boomed the driver. "I've got to turn four mules around."

#### European Army Illiteracy.

Examination of recruits for the army and navy for the leading European countries showed the following percentage of illiteracy: Germany, 0.11; France, 1.90; England, 5.90; Austria, 28.80; Hungary, 28.10; Italy, 38.80; Russia, 61.70. The percentage of illiteracy in the United States army was 7.8.

In Lithuania the Production of Honey Has Become an Important National Industry.

In Lithuania, when a bee stings a man he turns the other cheek. And almost literally at that, because it is as easy to kill a bee, and no one ever commits that sin intentionally. As a result of their national fondness for bees Lithuanians, with the growth of their economic system have developed bee raising from a general social custom to an important industry. Thousands of barrels of honey are exported from Lithuania annually.

Almost everyone in Lithuania has at least one bee hive. Sometimes they have swarms of thousands. But it is common even to the cities to have a hive. A hive you might say is made from the honey gathered in his garden alive. Mielus, the national drink of Lithuania, is made from fermented honey.

#### Star Spangled British Product.

It came recently to the attention of the American chamber of commerce in London that a British firm was using the American flag and words and phrases indicating American origin for the advertising container and bottle labels of a wholly British preparation. Communication of this fact to the British board of trade saw all traditions of departmental red tape shattered when the board of trade rang up by telephone instead of following the usual formal tortuous channels of communication. After obtaining further particulars the firm concerned was called to account and has agreed to refrain from the objectionable practice in future. The Nation's Business.

Fanny Crosby Credited With the Composition of More Than 8,000 Popular Religious Lyrics.

Fanny Crosby, the blind writer of more than 8,000 hymns, and an interesting of successful career, according to a recent sketch in "Along Broadway," musical magazine. She lost her eyesight when only six years old and 12 years later, at the New York Institute for the Blind, she met and fell in love with the blind musician, Alexander Van Alstyne. They were married and lived happily. Mrs. Van Alstyne afterward becoming a teacher at the institute.

Many of Fanny Crosby's best known hymns are to be found in the popular Moody and Sankey hymn books. The simple earnestness and true religious spirit of her hymns make them as popular as ever. Some of the best, including "Jesus Is Calling," "Only a Step to Jesus," "Come Great Deliverer" and others have been sung by great artists and recorded for the photograph.

#### Grasshopper Bait.

A year ago the grasshopper ate up nearly \$100,000,000 worth of our winter wheat. Science at once set about devising some scheme to control this pest. They mixed a concoction, on an enormous scale known as "grasshopper bait," making 4,755 tons of it, or enough to fill 153 large railroad cars. To mix this bait they used 500,000 lemons, eighty-three tons of white arsenic and other ingredients in similar proportion. The bait was then scattered over a great area in Kansas. The grasshoppers ate it freely, with the expected result. This year there are no grasshoppers in Kansas.—Boys' Life.

Groceries, Meat Market and General Merchandise

Dear Friends:

Poke Easley, in the last few months, in his various schemes, and by raising the rent of his houses, has accumulated considerable wealth, and it is expected Dr. Tom Henry will soon have to examine him to see what kind of an operation he will need to save his life. The Tin paddler has reported that spring is coming down the road, and the Postmaster is looking around for the old Play Point he used last summer to prop the door open.

I have a lot of Field Peas to sell at \$1.25 per bu. and they are fine. Clover, Timothy, Alsike, Alfalfa, Rape, Millet, Hungarian seed of all kinds. All seeds are lower now. I have a lot of the White flour in Cloth sacks, 1/2 barrel, at \$3.50. Farmington flour 1/2 at \$1.60. Buy flour now. Also lots of new H. P. Navy beans 10 cts per lb., 25-lbs. Dairy salt at 50 cts. I am headquaters for Creamery butter; also Nutola and Margarine butter. I have the Swift's Premium Margarine at 43 cts. It is 15 100 creamery butter and needs no coloring.

All kinds of canned goods at lowest prices for the best. Will pay cash for potatoes and eggs. Have a fine line of candy, bananas, apples, cakes, pies, cookies, fried cakes and bread. Will retail eggs at 42 cts per doz.

Lots of fresh beef, and pork and all kinds of luncheon meats. And the good old cheese at 38 cents per lb. Shredded coconut in bulk at 46 cts. Horse radish in bulk at 12 cts per pound.

If you need a Broom come and see me. Also the Best teas and coffees for the least money.

## Impurities in The Blood Directly The Cause of Many Human Ailments

This time of the year many people suffer from what is termed "SPRING FEVER," which in many cases is due to the stagnant condition of the blood because of the toxic poisons stored up within the body. You have a tired feeling and wonder why. It is because the various organs of the body are not doing their normal duties.

Until nature takes hold you should try the refreshing tonic powers of a good alterative and blood purifier. This can be had in taking Supreme Brand Blood and Skin Purifier which is composed of the following ingredients, many of which you know as old-time remedies: Ginger Root, Mandrake Root, Licorice Root, Broom Corn Seed, Triticum, Alex, Senna, Sarsaparilla Root, Poke Root, Red Clover, Burdock Root, Potassium Iodide, Soda Benzozate and Soda Salicylate.

The Real Merit of this preparation are its powers of restoring and strengthening the system, cleansing and enriching the blood when it has become impure, such impurities often showing themselves by eruptions, pimples, blotches, etc. It stimulates nature to expel impurities from the system through the natural channels, thus cleansing the blood and restoring the system to a pure and healthy state, as through the blood all the organs and tissues of the body are reached.

This is an excellent remedy for rheumatism, kidney trouble and a general reconstructive tonic which should be taken especially by those who have had influenza or have winter colds. Many people have a poor appetite and feel that tired, worn or feverish condition. In all such ailments this remedy has accomplished a wonderful amount of good.

SUPREME BRAND BLOOD AND SKIN PURIFIER can be secured by calling the Northville Chemical Co. Phone 25-W or purchased from Ambler & Son, where a stock is carried for the convenience of our customers.

## An Interesting Story

The evolution of the telephone pole, once a seedling, then a towering tree in the wilderness and now bearing the wires that carry the messages of millions, is material for more than an every-day story. The cutting, the trimming, the hauling, rafting and drifting over the white rapids and across still lakes, all this is unusually interesting.

This year we will use thousands of these towering trees—straight cedar poles—and thousands of crossarms to help maintain and expand your telephone service. Does the lifting of the receiver bring to you the thought of what all this means in money and effort? In 1915 these poles cost \$5.43 each and today they cost \$13.05.

The hire of the woodsman and white-water burler, the tools they use, the hauling to the railroad, the freight charges, the setting up and equipping of the pole for your service, all cost greatly more now than in 1915.

This is only an instance of how our costs have grown out of all proportion to our income. These poles, the crossarms, the wire and the labor, by the way, are Michigan products and your service is operated by a Michigan company, headed by Michigan men. Michigan business is largely dependent upon the telephone.

## How much should I give to make this a better world?

A CERTAIN man in New York filled out his income tax report.

It showed an income so large that his tax was 53%. And his total gifts to church and charity for the year were \$148.

Think of it—thousands spent for luxuries and pleasure for himself; and \$148 to leave the world a little better than he found it!

Most of us do better than that; but not so very much better.

Our average daily gift for all church causes is

- less than we spend for daily papers
- less than a local telephone call
- less than a third of the day's car fare
- less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than \$20 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 400,000 people. No wonder that every church board and charity society is forever meeting deficits, forever passing the hat.

It isn't because we are selfish; it isn't because we don't want to help. It's just because no one has ever put up a great big program to us, and asked us to think of the work of the church in a systematic businesslike way.

The Interchurch World Movement represents the united program of thirty denominations. They have surveyed their whole task, no business could have done it better.

They have budgeted their needs; no business could have a more scientific budget. They have united to prevent the possibility of waste and duplication. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

And they come to the men or women who love America—to you—this week asking you to use them as the channel through which a certain definite part of your income can be applied to make this a better world.

Only you can determine what part of your income that should be.

It's a good time right now to answer that question. We're passing through the world just once; how much better will the world be because you passed through?

### Your Duty To Your Child.

One of the first things every parent should do, when a child is born is to start a savings account in its name and keep adding to it—so that when the child reaches maturity there will be a fund to give it an education or start it out in life. The 4 per cent interest that we add will help the fund to grow rapidly.

### Wash Day Out of Your Life Forever

It is hard sometimes to believe that the thing you have wanted so long has really come true. Think of it—not another wash board backache, not another parboiled hand, not another sigh over heavy "old things" that "just won't come clean." No steamed face or wet feet and generally looking a fright. Washes the clothes in an hour or so. Everything from lingerie waists to floor mats come out spotless. No lifting, for Blue Bird's big copper oscillating tub with the twin six movement swirls the water through the clothes seventy times a minute. No wearing away clothes with a wash board rub. Blue Bird clothes wear five times as long. All mechanism is enclosed. Blue Bird is easy to clean and looks clean. Arrange for a free demonstration.

#### SOILS MEN STUDY USE OF SULPHUR ON CROPS.

Investigation to find the value of applying sulphur to Michigan soils is being carried out by Dr. M. M. McCool, of the soil department at the Michigan Agricultural college, who is working in conjunction with a number of farmers of the state who are particularly interested in the use of this necessary element for plant growth.

Tests already carried out in Cass and Van Buren counties, where sulphur has been added to soils by Dr. McCool and G. M. Grantham, have shown results not to be of marked value in the case of several crops grown. Feeling that the question has not been solved in the humid regions, the Michigan soil workers are putting out several tests in different parts of the state this spring.

Dr. McCool advises that farmers apply acid phosphate (a ton of which carries about 120 pounds of sulphur) in liberal amounts to all but a small part of the field. Then to a strip of the remainder they should add sulphur at the rate of forty pounds to the acre, as a top dressing for alfalfa or clover, and observe the results. In this way a definite check can be obtained.

Sulphur occurs in many of Michigan's soils in somewhat smaller amounts than phosphorus, says Dr. McCool. "About eighteen pounds are washed out of an acre of soil annually. Some, but not all, of that removed from the soil is made good by rain and any that enters the soil mass, and it seems that sulphur should, eventually, become deficient in soils unless it is saved in some form."

There are several carriers of this element of plant food that are used, namely, manure, common sulphate, potassium sulphate, calcium sulphate or land plaster, acid phosphate and pure sulphur. Pure sulphur and ammonium sulphate when used freely on soils deficient in lime, or without its application, markedly increase soil acidity and thus become injurious. Where lime is abundant or is applied this is of minor importance.

This has been investigated by several soil workers in this country, as well as in foreign countries, but the results from field tests are variable. Work in Oregon, Wisconsin, New Jersey, Kentucky and Ohio has shown yields of certain crops to be increased somewhat by the application of sulphur.

#### KILLED BY ELECTRIC CAR.

An unidentified man was struck Monday evening by a D. C. R. electric car near Sheldon. Dr. Breaker, of this city, was called and the man died shortly after the doctor arrived. Following the coroner's visit to the scene the body was removed to Jay Moore's undertaking parlor. He was somewhere between 50 and 60 years of age, has grey hair and mustache and is dressed like a working man—Ypsilanti Record.

The unfortunate man was later identified as Dayton Rydler, and he was an uncle of Mrs. R. P. Woodworth of this village. Mr. and Mrs. Woodworth attended the funeral which was held at Ypsilanti on Friday.

#### MARY SNOOK UNDER.

Official returns of the state vote for Republican National committee men reflect a few interesting things. Oscar B. Marx, three times mayor of Detroit, received a plurality of 22,000 in Wayne county and carried but one other county—Crawford which is 29 miles northwest of Detroit and has about 1000 voters. Fred M. Warner carried 10 of the 53 counties and was second in the other eight. State Senator Arthur E. Wood, Detroit, carried five of the smaller Upper Peninsula counties and no others, and was second in 67. Friends of other candidates say that perhaps a great many voters confused Senator Wood's name with that of Gen. Wood, which may account for the Senator's large vote—Detroit Sunday News.

#### NEED MONEY TO EXPAND.

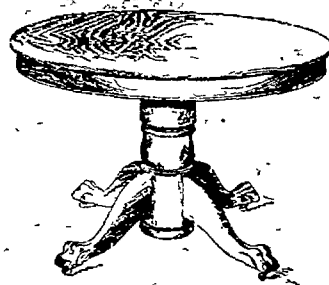

The Detroit Edison company has applied to the Michigan Public Utilities Commission for authority to issue an additional \$5,955,000 of first and refunding mortgage bonds. This is in addition to the \$5,279,500 of first and refunding mortgage bonds authorized December 23, 1919. The money is required to pay outstanding obligations contracted for the purpose of making extensions during 1918 and 1919 and to provide a fund for carrying on construction work during the present year.

#### TO GATHER THE BALLOTS.

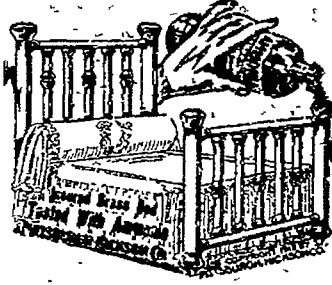

The sergeant-at-arms of the United States senate, David S. Barry, will visit Michigan during May and gather the ballots cast in the Ford-Newberry election. He will be in Detroit on May 17 and 18 to secure the ballots for Wayne county. These ballots, when gathered, will be taken to Washington where a re-count will be held under the direction of the Senate.

## BOYS AND GIRLS

### AT ROUND-UP

About two hundred and fifty boys and girls, with their local leaders and parents, attended the Spring Round-up of Boys' and Girls' clubs at the Plymouth High school, Saturday, April 17th. One hundred and twenty-four garments were exhibited, the results of hard work of the eight sewing clubs in the county. Twenty pure-bred rabbits were shown by boys starting in the new spring clubs. Excellent exhibits were also placed by Miss Trout and her boys' class in manual training, and Miss Alice Brunson, domestic science and art teacher, with her sewing club girls.

The sewing club exhibits filled all the wall-space of the large auditorium and was appreciated by a large number of people. All the clubs were first year clubs and were composed of girls between the ages of 10 and 18 years. Each girl received an exhibitors' number and all her garments and report card story were given the corresponding number. Because of this, the judge, Miss Elda Robb, assistant state club leader from M. A. C., could not announce the winners until after the judging was completed.

Exhibit No. 27 received the highest score on the four point basis and was given first place. This was the work of Flora Vinz of the Redford club. Flora is 14 years old and has a splendid record for her first year's work. As a reward for her efforts, she is to receive a free trip to the club camp at M. A. C. This is given by the Wayne County Farm Bureau. Exhibit No. 4 won second place, and Thelma Brighton of the Sand Hill club carried away this honor. She was given a year's subscription to the Youth's Companion. Third place was won by L. Elzabeth Vinz, No. 9 of the Dubois club. Her award was a fine wicker basket or bag. Mrs. Henry Devets an interested mother of club war, a donor of these two awards. Honorable mention was given to No. 8, Gretchen Bacon, also of Dubois club, and No. 21, Rukie Brades of the Smithville club. Gold-filled club achievement pins were presented to each by County Club Leader, G. A. Sir.

### TO DIRECT MARKETING DEPARTMENT

Dorr D. Buell for the last two years, president of the Cadillac Potato Growers' Exchange, one of the most successful farmer co-operative associations in the United States, will be one of the directors of the marketing department of the Michigan State Farm Bureau early in May.

The commercial operations of the Farm Bureau will be placed under Mr. Buell's direction and his successful development of the Cadillac exchange, from a local community institution into a establishment linking up 100 communities in co-operative associations and producing thousands of dollars of business annually is expected to be the development of the marketing and purchasing department for the thousands of Farm Bureau members in the state.

Buell will be located at Lansing, where the headquarters of the State Farm Bureau will be in May moving it from Birmingham.

In the last week, the membership campaign was completed in Jackson county. More than 1,900 members were obtained. The start of a campaign in Hillsdale indicates a result corresponding to that in Jackson. Next week the campaign will be under way in Saginaw and Branch County. The membership of the State Farm Bureau is now 45,000.

### HAS GIANT WORKMAN.

The Michigan State Telephone Co. has placed a giant workman on its payroll, a piece of machinery that will do the work of twenty men. This new equipment can dig a hole and set a telephone pole in three minutes and works on the principle of a post-hole auger and a giant crane, combined. It is mounted on a heavy truck. There are but one or two like it in the country.

By using such equipment the company is attempting to meet the problems of labor scarcity and the increased cost of maintaining and extending service in its function of binding together a great state.

Telephone equipment of every kind is hard to get and costs much more than it did only five years ago and the telephone company cannot produce service at the old time cost any more than can the farmer and the manufacturer, who sell their product at advanced prices in order to continue doing business.

The telephone company, however, is extending its facilities, adding new equipment where it is most needed, as rapidly as it can be secured, and is replacing much old plant material with new.

Uplift-Through Science. It is the application of science to the work that helps the worker. The social reformer cheers but does not improve. Crowther in the World's Work.

### The Universal Color

The professional painter knows that fierce color discord can easily be created by a misplacing of green. But Nature never misplaces it. Ever blue stands without a blue check by cheek with Nature's green. Turquoise and lovelace go quietly arm in arm with their respective foliage. Any rose of any tint or color is best set off by a green rose leaf. Every spring or fall color, pale or florid will shade pleasantly into green on the very same leaf.

Convincing Argument. Showman—Walk in, ladies and gentlemen, and see the Aztec giants, descendants of a long-extinct race!

Profane Expression. Do not think you are profane when you say that you don't care a dam. The truth is that a dam was the smallest Hindu vow at a time when the English were invading India and the expression, that one "didn't give a dam" naturally sprang up to mean that a matter was of next to no importance.

### The Wind Decides

In Sumatra the wind decides the length of time a widow shall remain single. Just after her husband's death she plants a flagstaff at her door, upon which a flag is raised. While the flag remains untorn by the wind the etiquette of Sumatra forbids her to marry, but at the first rent, however small, she can lay aside her mourning, assume her most bewitching smile and accept the first man who presents himself.

## A RARE TREAT AT ANN ARBOR—MAY FESTIVAL, MAY 19, 20, 21, 22

HILL AUDITORIUM, ANN ARBOR, WHERE THE MAY FESTIVALS ARE HELD.

Musicians throughout the state are very enthusiastic over the splendid program and brilliant array of artists which has been announced for the Ann Arbor May Festival to be held May 19, 20, 21, 22, and from all parts of the country reservations for tickets have been made.

The personnel of performers include three of the leading stars of the Chicago Opera Association and seven from the Metropolitan Opera company, as well as instrumentalists of renown and other musical celebrities. Four evening performances will be given.

Two of which will be miscellaneous in character with such stars as T. Ruffo and Margaret Matzenauer. The other evening performances will be given over to choral works by the University Choral Union under Dr. Albert A. Stanley, one evening being voted to Verdi's "Mazurka" Requiem and the other to Berlioz's monumental opera "The Damnation of Faust" in the former work Lenora Sparks, Carolina Lazzari, William Wheeler and Leopold Bothner will be soloists while in the latter Wynna Sharirow, Edward Johnson, Renato Zahelli and Robert Dislerle will appear. The afternoon

program will present a large children's chorus under the leadership of Russell Carter, Mr. Edwin Arthur Kraft in a program on the big instrument in Hill Auditorium, while James Hamilton, tenor, will offer several arias. Josef Lhevinne, the renowned Russian pianist, will also play two piano concertos at the Saturday afternoon concert. The Chicago Symphony Orchestra under the baton of Frederick Stock, will participate in all the programs except that on Friday afternoon when the children's chorus appears in connection with the organ

## THE PASSING OF THE FAMILY PHYSICIAN.

Who is there that does not suffer a pang of regret at the passing of the old familiar character, the family doctor, and who does not conjure up recollections of his early experiences with castor oil, quinine sulphur and the bitter taken with reluctance but with explicit faith in the old doctor's ability to cure all ills?

In this day of haste and commercialism the old familiar and revered country physician finds himself out of line with the specialists. One of our trained professors recently stated that the best educated and most efficient of our army surgeons came from small towns or country districts and the rest of it quite apparent. The country physician came right in a position of honor over the city doctor, for the city doctor has to keep up on all the latest news in the latest scientific and medical progress, but a practical knowledge of every branch. The country doctor, on the other hand, has a practical knowledge of every branch. The country doctor, on the other hand, has a practical knowledge of every branch.

maid and has checked the mad career of the wayward son, alike in storm or sunshine this unsung hero has generously, toiled on keeping open shop 24 hours per day, 7 days per week and 365 days per year. What other profession can equal it? Twenty-three years ago Dr. Tom Henry came to Northville, a slim, sprightly lad of 21 years, and in a modest way he built up a practice which was as large as not the largest of any country practitioner in the country. He progressed as a surgeon was soon recognized by Dr. P. M. Hall, way officials and he was made local surgeon in the district from Plymouth to Holly. A position he still holds. Later the Street Railway gave him another position which he still retains. During his long and useful life of the country doctor he holds well free, he has been popular for many years, and he has many admirers. He has been interested in musical affairs and in 1894 was elected president of the village. A few years later he was made deputy village clerk. He married Miss Mary E. Hall, daughter of Dr. P. M. Hall, and they have a family of four children. He has been a member of the Northville Baptist Church for many years and is a very active member. war broke out he was one of the first to enlist with the understanding that he would be one of 1000 surgeons sent to France without military training, but a change in the plans of the government sent him to Camp Custer as assistant sanitary officer. His good work there advanced him from the rank of a captain to major and placed him in charge of the Post Hospital at Aberdeen proving grounds where he remained until discharged after nearly two years' service. Owing to the carelessness of a chauffeur he suffered an accident while in the service, which ruined his back and which in all probability will remain uncurable to his dying day. It was the last more than anything else that caused him to give up general practice. He is totally unable to stand the hardships of country work. However, Dr. Henry goes in to his special well equipped by general experience to provide very efficient and in best of friends with him every day.

## WILLIAM HODGE IN "THE GUEST OF HONOR."

The Garrick theatre, Detroit, the week beginning Sunday night, May 2, will be the residence of William Hodge, famous as "The Man From Home." It was only a few months ago that Mr. Hodge was holding forth at the Garrick as "The Guest of Honor," a romantic comedy of New York life, which was so splendidly received that thousands were unable to secure admission to the theatre. In order to accommodate those desiring to see the famous star this return engagement was arranged. There will be seven night performances and matinees Wednesday and Saturday.

Like "The Road to Happiness," "Fixing Sister," and "A Cure for Curables," Mr. Hodge's newest vehicle is the product of his own pen. As might be expected under the circumstances, he has very carefully taken into consideration the Hodge personality, and has evolved a role which gives his individuality full sway. At the same time he is said to have drawn some characters notable for their deft handling.

## STRIKES.

Upon his return to school, Willie was told to write a composition on "How I Spent My Vacation." This is what he wrote. "We reached Oceanville, by good luck, three days before the strike on the B. & R. The strike cut off our supply of Grade 'A' certified milk from the city, so that we had to get along with milk from the cow. I went in swimming every day, until the life guards struck and the beach was closed. So I got a job as a caddy, which lasted until the caddies went on strike. After that I spent the day at the movies, until the movie operators went on strike. So then we came home, and found the cook on strike, the trolley men on strike and the cat gone. If they would only have a teachers' strike I would be happy again. Exchange

The Ford Sedan with electric starting and lighting system and demountable rims with 31½-inch tires all around, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is ideal for social functions, the theatre, or parties; carrying the children to school, or for touring. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability. We solicit your order for one. Come in and see it.

member is entitled to bring a guest.  
Refreshments will be served after  
work.

If you must have potatoes with  
your meals you had better take up  
on two in your pocket. If you do  
not do this during a Detroit strike  
it is an argument for peace.

Mr. Roy Cole has received a letter  
from her sister Mrs. Frank Shaw  
telling of their safe arrival in Flor-  
ida and of encountering very  
bad roads from Michigan through the  
south. They are quite well pleased  
with their new home.

Edwin, the little son of Mr. and Mrs.  
Walter Ware, met with a very pun-  
gual accident Sunday while at play.  
He fell and "bit" his tongue badly.  
He was rushed to the office of Drs.  
Henry and five stitches were required  
to close the wound.

The Spangnum grounds are now  
equipped with a nicely painted rubber-  
tire fire engine, and hook and ladder.  
Two men remain at the temporary  
building where the fire apparatus is  
stationed, to be ready for instant action  
in case of a blaze.

On Monday evening when Harry  
Shafer was riding down Main street on  
his bicycle, he tried to "loop the loop"  
over a pile of sand in front of the Bunn  
garage, and instead, went headfirst  
over the handle bars onto the pave-  
ment. His face was considerably  
bruised up and some of his teeth  
loosened by contact with the cement.

D. C. Bowen for the past two years  
superintendent of the Northville  
schools has resigned his position, to  
take effect at the close of the present  
school year. Mr. Bowen has been  
elected to the superintendency of the  
schools at Oakwood the rapidly grow-  
ing Fort street suburb of Detroit.  
Arthur Helfrich superintendent of the  
Belleville schools for four years will  
take Mr. Bowen's place.

Mrs. Ernest Crocker, wife of Ernest  
Crocker, a former Northville boy,  
died at her home in Detroit, on Tues-  
day. She had been spending the  
winter at St. Petersburg, Florida, on  
account of her health accompanied by  
her mother and Mr. Crocker, and re-  
turned to Detroit last Saturday. She  
grew rapidly worse, however, in spite  
of all that was done for her, and  
passed away April 27th. The funeral  
will be held at the home this Friday  
afternoon, with burial at Detroit.

Tomorrow is May day.

A Man's Way of Telling Us Why He Came  
to Gorton's for His Spring Suit

He didn't want much fuss made. But he  
wanted dependable clothing that would fit him.  
He wanted good style, good materials and tail-  
oring of worth.

He found all these at the Gorton's Men's  
Store, as so many more men are finding out this  
year when real worth in clothes is important.

The completeness of the stock of Gorton's  
suits makes it every man's store.

The slender man or the fat man can be fitted  
at Gorton's in suits that have been made for his  
particular physique.

A man can be certain of the fit as well as the  
right quality and style of a suit from Gorton's.

Suits are priced from \$35 to \$60.

## A PROFITABLE INVESTMENT

Equal amounts being deposited weekly or monthly a Loan Association will prove the most profitable place to invest your savings as the earnings run from 7 1/2 to 10%

## ACQUIRING HOMESTEADS.

Helping people do this is our strong point but as at the present time it takes about three times as much as formerly to obtain a home, we are financially frequently up against it. Our members have the right idea and to the best of their ability are helping to solve the housing problem.

Those that need no help do, far as a home is concerned, know that the money they pay in is being used to help some one procure a home, and this is true of the borrower also as his money helps out on the next party, etc.

Every one is making a good thing for himself and helping the other fellow also.

Those who can only save a small amount each week, perhaps may think that doesn't count, but united with what we have coming in it helps the work along. We have the organization, experience and machinery, so come on, loosen up, join with us, help buy the gas and watch the houses go up.

Standard Weights and Measures.

The idea of adopting standard measures is a very old one, but it is only recently that it has been generally adopted.

As early as the sixteenth century, particularly in the French empire, the idea of standard measures was adopted.

In 1791 the French government adopted the metric system, and in 1875 the International Conference of Weights and Measures was held in Paris.

It was then that the metric system was adopted by the United States, and in 1906 the United States Congress passed a law authorizing the adoption of the metric system.

Since that time the metric system has been gradually adopted by the people of the United States, and it is now the official system of measurement.

It is now the official system of measurement, and it is the only system of measurement that is used by the people of the United States.

It is the only system of measurement that is used by the people of the United States, and it is the only system of measurement that is used by the people of the United States.

It is the only system of measurement that is used by the people of the United States, and it is the only system of measurement that is used by the people of the United States.

It is the only system of measurement that is used by the people of the United States, and it is the only system of measurement that is used by the people of the United States.

## Insyde Tyers Give You Service.

## They Give You Greater Mileage

Insyde Tyres add from 1,000 to 3,000 miles to the life of a casing by reinforcing it and preventing blow-outs, it put in when tire is new.

Insyde Tyres eliminate 90 per cent of all punctures by preventing sharp articles from reaching the tube.

Insyde Tyres save their small cost in a short time and may be used over and over again in several casings.

Insyde Tyres are made of tough rubber-impregnated fabric, which is practically puncture and blow-out proof when placed inside of an outer casing.

## The Recognized Leaders

If the verdict of the world counts for anything the COLUMBIA-GRAFONOLAS occupies a place held by no other musical instrument in the history of civilization. The natural advantage of priority, the prestige and power of leadership, and the commanding position of the Columbia Graphophone Co. enable it to produce an instrument without a peer in the qualities of technique, tone and convenience; an instrument accepted by musicians as the standard.

We have a good assortment of these machines in our display room and we shall be glad of the opportunity of demonstrating their superior tone quality to you. You can make no mistake in having a Columbia placed in your home.

Something Special—You will enjoy this—One of the popular May Release Records, "Bo-La-Bo" and "Venetian Moon." Come in and let us play this for you.

Big Assortment of Columbia, Emerson, Okeh and Lyric Records, comprising all the latest songs and instrumental selections.
