NORTHVILLE TO HAVE A NEW MODERN MILL

D. V. Yerkes of the Northville Milling company expects to award the contract for the erection of a modern flour mill and warehouse within a very short time. The plans for the buildings have been decided upon and as soon as the land upon which they will be located can be surveyed active work on the warehouse will begin and pushed to completion as rapidly as possible. The erection of the flour mill will follow. The present building occupied by the mill must be vacated by March 17th and a warehouse to be 30x60 feet in size will be erected in which the machinery may be stored until the new mill can be erected.

The new buildings will be located on the Pere Marquette right-of-way just west of the Northville Condensery and will be valuable additions to Northville's industrial enterprises. The new mill will be 20x50 feet in size, two and a half stories high with a basement and will be erected with the idea of providing all modern conveniences in milling, both in flour and feed products. The warehouse will be a permanent building and will be used in connection with the mill later, the machinery has been placed and the new mill is in readiness for operation.

Being located on the railway the new mill will have splendid shipping facilities, something that has been lacking at the old mill site. With this added convenience the business of the mill can be greatly increased to the mutual advantage of both the owners of the property and their patrons.

Mr. Yerkes will also establish in connection with his milling interests a lumber yard and he hopes to have the new enterprise in operation by early spring. A new and very complete stock of lumber and building material is being selected for the new yard and it will be the aim and ambition of Mr. Yerkes to be able to supply all local needs.

FORD NOT SEEKING LOAN

Henry Ford asserts he is not trying to float a loan in Wall street.

"I have never sought a loan for any amount in Wall street, nor has any one done so for me," he said in the first interview he has granted in nearly a year. "The Ford Co. has no reason for asking a loan."

"When we do float a loan it will be at a time we do not need the money."

Mr. Ford said he will build plants, extend financial aid and promote labor and industry in the small towns, "where they belong," he said.

"People are leaving the cities for the country. Men are taking off their silk shirts and returning to the farms. Many of them belong there," it was fetterous wrr prosperity that lured them away.

The Ford Motor Co. sold 50,000 cars in January while the plant was closed, Mr. Ford asserted. He expects to sell 750,000 cars this year, compared to 1,250,000 in 1920. The 1921 figures, comparatively as much, as 1921 production, considering the return to normalcy, he declared.

The recent shutdown of the Ford plants was to dispose of stocks on hand amounting to between \$15,000,000 and \$20,000,000, Mr. Ford explained. He said employees of the Ford company now are beginning to return and that the company will work back to near normal production steadily. Detroit Journal.

WAS A DELIGHTFUL AFFAIR

The silver tea given at the home of Mrs. Lizzie Harger on Saturday afternoon for the benefit of The King's Daughters' flower fund was a most delightful affair and the proceeds of the afternoon were about \$20. The musical program given was one of the most enjoyable rendered in Northville in a long time and the officers and committee of The King's Daughters are very grateful to all who assisted.

Mrs. Harger, who so kindly opened her home for the affair, desires to express her appreciation also to all who contributed in any way in making the gathering such a pleasant success.

GOOD PROGRESS BEING MADE

The committee reported nearly \$500 in cash and subscriptions toward gymnasium equipment. After the business session a fine musical program was rendered by Mr. and Mrs. Farree and party, which was greatly enjoyed by the audience.

What 4% Means

THE NORTHVILLE STATE SAVINGS BANK OF NORTHVILLE pays 4% interest, compounded twice a year. What does 4% compound interest mean? It means that if the interest is allowed to remain on deposit with the principal sum, interest will be paid on interest—that is, \$1.00 placed at 4% compound interest will double itself in a little less than eighteen years through the interest additions.

To secure the best results it is necessary to set aside weekly or monthly a fixed sum from your income, and deposit it to your account. The tables here given show what may be accomplished by this method. The interest earnings equal from 20 to 50% of the money deposited during the periods shown. That is, if monthly deposits of \$5 are made for twenty years, the total sum would be \$1,200. With 4% compound interest, it will amount to \$1,833.50; the earnings added equalling \$633.50, or 52% of the money actually saved.

The village of Belleville has a new fire engine.
Charles F. Spaulding, prominent Holy man, is dead.
John Feeney, of Highland, was afflicted with the sleeping sickness.
Alfred B. Kinney has been appointed deputy sheriff for Milford.

The Milford Times completed its fiftieth year with its issue of January 28th.

A Washtenaw county historical pageant will be given in Ann Arbor in the near future.

The New Hudson elevator is now equipped with a 30-horse power electric motor and a big feed grinder.

The villages of Pleasant Ridge, Ferndale and Royal Oak will vote in April on a proposition to consolidate as a city.

Seven new directors are to be elected at the meeting of the South Lyon Board of Commerce on March 15th.

A fire service has been established between Redford and Detroit. Let us hope this will relieve the crowded condition of many of the D. U. R. cars which Northville and Farmington citizens are compelled to take.

Rev. Philip Wittich of Detroit, received a unanimous call to the Congregational church of Salem and Worden to become its resident pastor. As soon as the parsonage is put in order and Rev. Wittich has severed his connection in Detroit he will move to Salem.—South Lyon Herald.

Farmington Flashes

Born Thursday last to Mr. and Mrs. Ernest Esch, a son.

Born Friday afternoon to Mr. and Mrs. Elmer Hibbins, a son.

Mrs. Mary Sprague died at her home last Wednesday afternoon after

illness of four weeks.

Clayton Walters had his car stolen last fall and the machine has just been recovered in Cincinnati, Ohio.

About half of the male population of Farmington are candidates for township treasurer. Will not let the women have this job.

The Oakland county boys' conference is in session in this village with about eighty delegates—boys—from various parts of the county. The conference will last three days.

Mrs. Bridget Lapham, age 30, is in a serious condition as a result of a fall Saturday noon when she fractured one arm at the shoulder.

Mrs. Lapham had gone to the rear door of her home to scare a "vagrant dog" away. The dog, in an affectionate mood, leaped up to be petted, knocking Mrs. Lapham down. She was unable to rise and was found by her great-grandson, Robert Cook.

Fred L. Cook, a local merchant, is her grandson.

Walled Lake Warbles.

Walled Lake is to have street lights within the very near future.

Fishing in the lake here affords great sport for a lot of people these days.

Mr. and Mrs. H. R. Russell of Detroit were visitors at the home of N. B. Johns Saturday and Sunday.

C. F. Rose has recovered his car, the loss of which was mentioned last week. The machine was found in the rear of a hospital in Detroit.

The motor had either been frozen or burned out.

Mrs. George Welfare is again able to be up and about the house.

Most everybody predicted that spring was here. Wonder what they think now?

There will be a pie feast in the Methodist church Friday evening February 11th. Come on, you pie faces, and buy some Walled Lake apples and sit down in some corner and eat it together. Won't that

be fine? Ever, but must bring me.

While Fred E. Coe of Commerce township was returning from Pontiac late last Thursday night, and while at the corner by the Kego Harbor school house, two unknown men confronted him with revolvers and demanded that he hand over his money.

Fred concluded that was the best thing to do and gave up about eleven dollars. He was then ordered to hurry on his way.

Again on Saturday night when Mr. Coe was coming from the county seat he discovered two men in the highway who had driven their car directly across the road, expecting to stop anyone who might come along.

Mr. Coe being wise to the game, took the ditch and went around the fellows and got away without being held up. Fred declares that he never stopped to look back.

WOMEN SCORE FIRST VICTORY.

Michigan club-women meeting with the legislative committee of the State Association of Probate Judges and representatives of the state board of corrections and charities, Tuesday morning, won two big points in the preliminary battle for an amendment to the present mother's compensation act as passed by the special session of the legislature of 1907, when it was unanimously agreed that the income for a mother with one child shall not exceed \$12 a week, with \$2 a week for each additional child, and that when the probate judge is satisfied that the mother is a suitable guardian for said child the court order shall be issued.

Amendments will be presented in that form to the legislature.

AUTHORITIES ANALYZE VITAL FARM PROBLEMS.

That farm credit is the crux of the whole agricultural problem of today, with allied questions of distribution and marketing demanding attention, was the outstanding thought expressed by agricultural authorities of national reputation who addressed the big general meeting of the M. A. C. Farmers' Week, from January 1 to February 4.

"We must eliminate all unnecessary factors in our present system of distribution," said A. F. Lever, congressman and present member of the Federal Farm Loan board. "Then we must standardize crop products, organize our sales force, provide warehouse facilities to enable an open marketing of our products and finally devise a credit machine that will enable the farmer to market his products in a sane and orderly way."

"After our immediate problems of marketing, transportation, and credit are taken care of," declared Dean Eugene Davidson, of Illinois College, U. S. "we must again face the problem of production in competition with the world."

DETROIT THEATERS.

"What's Your Number" a new farce comedy which will be offering at the Currier theatre for one week commencing Sunday night, February 17th, is a shining example of the up-to-date standards of light productions, the 1921 tendency on the part of American theatre impresarios to make their touring companies as much class as those that are available at the Metropolitan theatre goes on Broadway.

Indeed this production has in its cast three members who have a following in New York theatre and approaching "chanteuse" of noted stars, Miss Grace Valentine, who has one of the leading roles in this smart, nautical comedy, as it has been neatly called by Miss Valentine, because it takes place for the most part on shipboard has a long series of Broadway successes to her credit, has figured in the electric signs along the Great White Way.

Miss Dorothy Mortimer is another member of the cast, demonstrating by her selection that the producers have exercised the utmost discrimination in the selection of a high class group of players for the principal parts.

"Buddies," the biggest musical success of the past season, is again coming to the Shubert-Detroit for a week's engagement commencing Sunday night, February 13th, with popular matinees on Wednesday and Saturday, but on this occasion Detroit will be favored by the Selwyns as they are sending the cast especially selected by them for the two-year world-tour of this delightful romances.

Heading the company, Dennon Maley appears as the bashful "Babe," Ohye Reeves-Smith as the gaily "Julie," and Joseph Herbert, Jr., as the lovable "Sonny." Supporting the three stars are Jack Grey, William Quinby, Leroy Montemanto, S. Sidney Cline, Grady Miller, Harold Gouline, Paul Wilson, Merle Nowkirk, Kathleen Colpitt and Irene Cattel.

After playing one solid year in New York and six months in Chicago, this attraction comes to capture Detroit again with the tenderness of its love story, its scintillating humor and the wonderful melodious quality of its music.

DEATH OF MRS. ELMER PERRIN

The words of Paul, "I have fought a good fight, I have finished my course, I have kept the faith," may be applied with appropriate significance to the heroic effort and Christian attitude displayed by Mrs. Elmer Perrin of this village during her long and painful illness, covering many weary weeks and months. Death came to her relief on Monday night about midnight, and while the final outcome of the struggle was foretold for a long time, yet the people of this community had hoped she might be spared. Throughout her long illness she bore her suffering cheerfully and hopefully, and within the last few weeks assured anxious inquirers that she was getting better. Possessing a sunny and hopeful disposition she did not complain, and though burdened with the great weight of sorrow for she knew the wayward with which she was afflicted—cancer—would some day prove fatal, she endeavored to bring happiness and sunshine into the lives of all with whom she was associated.

The deceased was 33 years of age last August, being born at Milford in 1887. She grew to young womanhood in that community, receiving her education in the schools of that village and at the Ypsilanti Normals. After finishing her course at the normal she was a teacher in the schools at Milford and Farmington for a few years before her marriage to Mr. Perrin. She was universally loved, and respected by all who knew her, and the bereaved husband, little son and aged mother, have the sincere sympathy of the community in their great affliction. She was an esteemed and honored member of Orient Chapter, O. E. S., and was one of the officers at the time of her death. Funeral services were held at her late home on Thursday afternoon at two o'clock. A wealth of floral tributes attested to the esteem in which the deceased was held by the people of this community.

Miss Marion Mulford spent the week-end with friends at St. Louis.

Northville's basket ball teams will go to Farmington tonight. The two games to be played by the two teams.

OBITUARY - MRS. SHIRTLEIF.

Emma Day's Shirtleif was born in Manchester, England, June 21, 1877, and died February 4, 1921. At the age of thirteen she came with her parents to New Hudson Mich. where she spent her early life. On March 1, 1878, she was married to Mr. George Albert Shirtleif. They had three sons, Fred, and Glen C. and Edward Davis and six daughters, Jane Lebbin, Mrs. Estlin Harding, Mrs. Ellen Dowling, Mrs. Mary Closs, Mrs. Lizzie Thayer and Mrs. Tillie Baum. She was always ready and willing to help others whenever she felt she was needed. The funeral services were held Monday, February 7th, at eleven o'clock, at the home of her son, Fred, where she had been cared for during her long illness, and interment was made in the cemetery.

DO NOT TAKE CHANCES.

The old superstitious dread of tuberculosis is doing much to check the campaign against this disease, according to Dr. E. R. Vanderslice, formerly medical director of the Michigan Anti-tuberculosis association. In "Michigan Out-of-Boots" he makes a plea for reporting cases of tuberculosis earlier instead of waiting to make certain that it is that disease. "We had far better be on the safe side," he advises fellow doctors, "and call a thing tuberculosis which does not prove to be such, than to fail to recognize an open case."

There is an universal feeling among people that it is somehow a disgrace to have a disease diagnosed as tuberculosis. The Michigan Anti-tuberculosis association declares many a family doctor has resorted to camouflaging an incipient case as a "bad cold" or "flu." This is often a tragic mistake. If people would get into the habit of facing this disease square and were willing to have since lived. There were born to them three sons, one Fred, having a good suspicion of it, there would have been the death of his wife. Being afraid of having the disease called by its right name is not only illogical, the Michigan association declares, but it causes many deaths each year.

Grand Rapids - W. H. Barney of Union, president of the Michigan Retail Lumber Dealers' association, is willing to help others whenever she felt she was needed. The funeral services were held Monday, February 7th, at eleven o'clock, at the home of her son, Fred, where she had been cared for during her long illness, and interment was made in the cemetery.

The petitions will be dismissed by Judge Stockwell. Simpson has not yet indicated whether corrected petitions will be filed.

Lansing - Although 763 more cases of tuberculosis were reported in Michigan in 1920 than during 1919, the indications are that the number of deaths will be found lower when the statistics are tabulated. The same thing was shown by a comparison of 1919 with 1918. The total number of cases reported in 1920 was 4,994, as against 4,231 in 1919. PLANS FOR BETTER SCHOOL WORK.

With its objective to attain better public schools in the state, better teachers, equal school opportunities for every child in Michigan, and a more democratic foundation, school week, designated by Governor Groesbeck for the week of February 13, promises to become an important factor in the attempts of Michigan educators to better the school system of the state.

A program has been mapped out by Superintendent of Public Instruction Thomas E. Johnson which characterizes the manner in which educators hope to attain concrete results. Encouragement to the legislative program is requested of citizens of the state, the policy including the improvement of rural schools through changing the present consolidated school act, a bill for which has already been introduced in the Michigan legislature, longer school term, lengthened to nine months, closer school supervision and better school buildings.

NEW LEGISLATION PROPOSED.

Profiting and graft in municipal construction would largely be eliminated by the passage of a bill introduced by Sen. Davis of VanBuren, which would prohibit the letting of state of municipal contracts on the so-called "cost-plus" basis.

More just rates for auto licenses for less than a year are proposed in a bill introduced by Rep. MacDonald of Houghton. For motor vehicles registering between April 1st and Sept. 1st, a tax of 1/2 of the regular rate would be collected and for motor vehicles registering after Sept. 1st 1/2 of the regular license would be charged.

An increase of the mill tax for the University of Michigan from 10 to 12 of a mill was introduced by Rep. Lennon of Genesee. Passage of this bill would increase by \$1,120,000 the annual revenue of the University of Michigan.

A bill to prevent alien from owning or having in their possession any shot, guns, rifles, pistols, or other firearms, was introduced by Rep. Lennon of Genesee. This bill is what is termed the "Alien Firearm Bill" and is closely modeled after laws in force in other states.

The old proposition of requiring all vehicles traveling on the public roads during the hours of darkness to carry lights, was revived by a bill introduced by Rep. Coleman of Colfax. This bill would require all animal drawn vehicles, traveling on the public highways to carry lights showing plainly from the rear during the prime hours of darkness. A law of not more than \$25 in 1917 by full in provided for violation of this measure. Similar proposals have been introduced at previous sessions but have never been favorably received.

THE TENNESSEE DUO

In Sunny Songs and Stories of The Southland

"The Tennessee" Duo is the regular name however, and the Misses Helen and Katherine Beane are the two delightful young Southern ladies who make up this company. In a program of exquisite charm and striking originality, they smile their way into the hearts of their hearers with story, song and dramatic sketchwork.

The Tennessee Duo are unusually good soloists—and they understand thoroughly the art of duet singing—for perfect blending of voices is really an art. Miss Katherine has a brilliant contralto, clear, sweet and delightfully fresh. Miss Helen possesses a lyric soprano, rich and full. Each sings with splendid finish. Each possesses personality.

Miss Katherine features the costume work, and her impersonations show the touch of the real artist. Miss Helen, too, does characterization work of real merit. Their instrumental work is also good—but it is the delightful freshness of these two clever maids, and the wholesomeness of their art, which rounds out an ideal entertainment hour.

There is a seat for you if you hurry.

WILSON WILL NOT SETTLE RAIL ROW

TELLS UNION HEADS "DIFFERENCES MAY BE ADJUSTED BEFORE R. R. LABOR BOARD."

NOT A MATTER FOR CONGRESS

President Believes That Wage Question Will Be Adjusted to Satisfaction of All Concerned.

Washington—President Wilson refused the request of the railroad labor union representatives that he investigate railroad executives' claims, before the railroad labor board that the carriers must adjust wages or face bankruptcy. He also declined to submit the matter to congress.

The president set forth his position on the appeals made to him in a telegram addressed jointly to two of the railway labor unions and to the association of railroads, executives, who also had sent a communication to the White House.

Confidence was expressed by the president that all questions dealing with railroads' labor and management might be left safely to the two bodies entrusted under the transportation act with such matters—the railroad labor board and the interstate commerce commission. He accordingly informed the labor and carrier representatives that he was submitting copies of telegrams received from them to these two bodies as "the only action deemed necessary."

IONIA WARDEN RESIGNS POST

Otis Fuller, Reformatory Head for 27 Years, Quits Under Fire.

Ionia—Warden Otis Fuller, head of Ionia Reformatory for the last 27 years, forwarded his resignation to Governor Groesbeck Monday. It was believed at the time that his action would influence the members of the board of control to follow suit in which case a complete reorganization of institution management would result.

The resignation of Warden Fuller, one of the best known prison officials in the state, followed sensational charges of mismanagement and unsanitary conditions, and the adoption by the legislature of a resolution calling for a complete investigation of the institution by the Reformatory committee of the house.

ENGINE JUMPS TRACY; 2 HURT

Toledo—G. C. Finley, engineer of Pennsylvania passenger train No. 411, was scalded so badly that he is now in bed to recover and his fireman, W. E. Lottar, was injured severely when the locomotive jumped the track at 11:36 on the 10 miles east of here Sunday afternoon.

The locomotive, tender and baggage car turned over into the ditch but the two coaches with passengers, many of them from Detroit, remained on the tracks. The passengers were unhurt save from a soaking up.

OVERPRIDE VETO ON ARMY LIMIT

House Again Votes to Stop Enlistments At 175,000 Men.

Washington—The joint resolution limiting the stopping of enlistments and the regular army is reduced to 175,000 men was passed by the house over President Wilson's veto.

The veto was overridden by a vote of 271 to 16 one member voting present.

The president's veto message was not read to the house until six hours after its formal delivery, but once read action was swift.

ALLY LOAN LEFT FOR HARDING

Houston Says New Administration Left Free to Settle Claim.

Washington—The Wilson administration will follow a policy of hands off with regard to America's \$10,000,000,000 foreign loan for the remainder of its term. It is quite content to leave the task of settling the principal and interest to the incoming Republican administration.

Information to this effect was conveyed to the senate in a letter from Secretary of the Treasury Houston to Senator Lodge, of Massachusetts.

Judge Landis Flays Baker.

Chicago—Federal Judge Landis made a spirited reply to Secretary Baker because of his statement to the house military affairs committee that the war department opposed building separate institutions to care for soldiers afflicted with nervous disease. Representative King, of Illinois, has introduced a bill to appropriate \$4,000,000 for such hospitals. State, county and municipal hospitals are held to be inadequate to care for these veterans.

SCARLET FEVER PREVALENT.

Scarlet fever is now the most prevalent disease in Michigan, according to figures for the first four weeks of the year made public by the state department of health.

Physicians reported 1572 cases, or scarlet fever during January as compared to 974 cases reported during a corresponding period a year ago while indications the first week in February pointed to a continued high sickness rate from this disease.

United scientists discover the specific germ which causes scarlet fever, and are able to obtain a prophylactic serum to immunize persons, the disease will always be more or less prevalent in Michigan because of climatic reasons, states Dr. R. M. Olin, Commissioner of health. Many southern states, he said, find themselves comparatively free from the disease.

"By increases in the prevalence of scarlet fever in Michigan," continued Dr. Olin, "are attributed to the large number of mild, or 'missed' cases which have gone unrecognized in many communities. This permits a chance for the causative agent to build up a virulence from which fatal cases often result. Failure of families to call a physician, together with difficulty in diagnosing all cases before other individuals have been exposed, are the prime reasons for the disease being communicated by the 'missed' cases."

Secondary infections, arising from scarlet fever, such as nephritis, or Bright's disease, defective vision and hearing, heart trouble, and other serious organic complications, are even more dangerous than the direct effects of the disease itself, the commissioner said, and make imperative its early recognition and restriction by parents, teachers, physicians, and health officers if the most serious epidemic of years is to be avoided.

THOUSANDS ATTENDED RURAL CONGRESS

By far the largest gathering of farmers ever brought together in Michigan for a meeting of its kind assembled at East Lansing from January 21 to February 1 during the annual Farmers' Week at M. A. C. Agricultural arena from every part of the state were among the crowd of visitors. A check of registration placing the attending well above 5,000.

Favorable weather all through the early part of the week played a large part in bringing in the farmers. Meetings of the sixteen associations and conference held during the week were all crowded. The state Farm bureau, of course, drawing the biggest attendance at its annual business meeting on February 3 and 4.

Educational exhibits covering every phase of agricultural work proved to be among the most popular features of the program. Farm crops, horticulture, animal husbandry, dairy products, mechanics, auto, and other minor divisions of the agricultural field were represented by graphically presented exhibits bearing upon vital problems of production and distribution. The present demand for improved marketing machinery and facilities to distribute farm products was reflected in the display the key note or central theme of which was based on "marketing."

LIVE STOCK SALE LIST TO BE ISSUED AT M. A. C.

A livestock sale list in which all farmers of Michigan are invited to list their stock without charge is being compiled by the Extension division at M. A. C. and will be ready for distribution late in February. Beef and dairy cattle, horses, sheep, and hogs—in fact all stock will be included in the list.

Farmers who list with the sale list are asked to get their copy in the Extension division, M. A. C., before February 18, the date on which the list goes to press. Those listing animals should give their name and address, the number of animals for sale, the breed, the age, a short description, and the price.

Copies of the sale list may be had free upon application to the Extension division, M. A. C., East Lansing, Mich. The list now being compiled will be the February issue of a regular quarterly list gotten out by the college.

Northville School Notes.

Last Saturday evening a very fine representation gathered to hear the debate between the Northville and Ypsilanti High schools in the auditorium of the High School. The question was resolved, "That all adjustments of disputes between employer and employee be made a part of the administration of justice." The Northville team composed of Elizabeth Van Valkenburg, Eliza Murdoch and Mildred Baldwin defended the affirmative while the Ypsilanti team composed of three boys defended the negative. The judges gave the decision to the negative but our girls deserve a lot of credit for their splendid efforts. The judges were as follows: Supr. Smith of Plymouth, Supr. Sawyer of Redford, and Prof. Ford of the Normal college. The next debate will be held at Adrian on Thursday evening, February 17, with the Adrian High school.

After the basket ball games of last Friday evening between Trenton and Northville, the visiting teams were given a feed by our boys and girls. The boys played indoor baseball while the girls washed the dishes.

Two delegates will be sent from Northville to the older boys Y. M. C. A. conference which is to be held at Farmington this week-end. On account of this conference the basket ball games between Northville and Farmington will be advertised as exhibition games. Delegates from all over Oakland county will be present. The student council has made a five dollar contribution to the Parent-Teachers' association for gymnasium equipment.

Mr. Wynn and Mrs. Jackson have each purchased new typewriters.

One week from next Wednesday, February 23rd, a real treat is promised the students of the High School. Prof. Ford, a very fine speaker from the Normal college, has been engaged and will occupy the last hour beginning at three o'clock. It is hoped a number of parents will take advantage of this opportunity to visit the school.

Last Thursday morning the students and faculty enjoyed a very interesting and instructive talk on banking by E. H. Lapham of this village. The difficult kind of banks, their operation etc. were very effectively described by Mr. Lapham and gave all present a more comprehensive insight of this wonderful institution. Mr. Lapham's talk was very much appreciated and it is hoped that he will again call on us.

Wednesday of this week at the last period a very enjoyable talk was given the High School students by F. J. Cochran. The subject taken pertained to our trade relations with Russia and offered a new insight into this vital question of the present day. We all hope Mr. Cochran will come up again.

The High school basketball teams defeated Wayne and Trenton last week by very decisive scores. The games with Wayne occurred Wednesday night and in spite of the fact that they were mid week games, were well attended. The boys' teamwork was of the usual peppy style, keeping the victory guessing where the ball was going and where to find their opponents. However, one of Wayne's cards was determined not to lose his man as he followed Stilwell around the floor like a little boy, who being afraid of being lost, would follow his mother thru the crowded streets of a city. Evidently he had been assigned the task of keeping Stilwell from scoring in which he failed by four baskets. The scoring was quite evenly divided among the men playing in scoring positions. The good work of the guards was evident from the fact that so few baskets were made from close range. The final score was 28 to 11.

On Friday night the Trenton teams came to Northville. Their boys' team was light but fast and played a very snappy game the first half, the score being 10 to 7. In the second half the Northville boys came back

THE UNIVERSAL CAR

The Ford car can well be called the "people's car," because there are more than 3,000,000 of them in daily operation. That is about four to one of the nearest follower in the motor car industry. This would not be so if the Ford car had not for sixteen years proven its superiority in service, in durability, and in the low cost for operation and maintenance; this would not be so if the Ford car was not so easy to understand, so simple in construction that anybody and everybody can safely drive it.
