## EASTERN STAR BALL A BRILLIANT AFFAIR

The annual ball given at the High school gym under the auspices of Orient Chapter, O. E. S., on Wednesday evening, was one of the most brilliant and enjoyable social affairs ever held in Northville. The music was furnished by Fisher's orchestra of Ann Arbor and the program rendered was thoroughly enjoyed by the merry dancers. The colors of the order were used in the decorations and were blended in a most attractive manner. The grand march was led by Mr. and Mrs. W. L. Tingham, Mr. Barber and Miss Fraser of Detroit gave an exhibition of fancy dancing, and Mr. Barber sang two solos.

The committees having charge of the delightful function were composed of the following:

Executive—H. R. Bogart, Claude Ely, Clyde Schoultz, LeRoy Stewart, Charles Freydl, Frank Hills.

## MARRIED AT PEORIA.

The following account of the wedding is taken from the society column of the Peoria, Ill., Star:

"Miss Florence Stewart, daughter of Mrs. Minnie Stewart, 2606 Main street and John V. Couch, Detroit Mich., were quietly married at 11 o'clock Wednesday morning at the parsonage of the First Presbyterian church by the Rev. Daniel F. Williamson. They were attended by Mr. and Mrs. Sam Barron. The bride was charming in a costume of blue silk taffeta with hat to match. Her going away dress was of blue serge. Mr. and Mrs. Couch have gone to Hartland, Mich. for a two weeks visit with the groom's parents, Mr. and Mrs. Thor. Couch, and will be at home after March 16 at 2606 Main street Peoria."

John is employed at the Electrical Testing Co. in Peoria. He is an ex-service man and saw some hard service, the marks of which he still carries. The young couple are both well and very favorably known here, and their many friends join in congratulations and best wishes.

## SHOOTER'S SCORE.

Regardless of the heavy snow fall on Saturday, the regular semi-monthly club shoot was held Sunday, with eight contestants entered in the 50 target program. As is usual, when he is present, Wm. Cavers carried away first honors with a score of 48x50. Our special guest, George McCall, was close on his heels with 47 breaks. Mr. Vallaux, who has been shooting but a short time, "found" 15x20 the last time up. Following is the result of the afternoon's sport at the traps:

C. Merritt	45x50
M. Powell	46x50
H. Passage	46x50
F. Hills	44x50
G. McCall	47x50
W. Cavers	48x50
R. Vallaux	32x56
A. Evans	41x50

## TO ESTABLISH YARDS AT NORTHVILLE.

The Grand River Lumber & Coal company of Redford, which has lumber and coal yards at Redford, Charlevoix, Oak, Beech and Stark, will open yards here within a few weeks. Last October the company purchased the property formerly occupied by the Carpenter coal yards, just across the street from the Northville Condensery and a crew of men are now engaged in preparing the property for the receipt of a large and complete assortment of lumber and building material. The Grand River company is one of the largest dealers in lumber in this section and they will establish a very complete yard in Northville and the manager declares that the local yard will not be surpassed by any in this part of the state.

## BOY OF NINE YEARS KILLED BY BROTHER

What seems to have been a cold, premeditated murder was enacted at the Banfield farm home near Farmington late Sunday afternoon, when Warren Banfield, aged 12 years, shot and killed his brother, a lad of but nine years. While Warren at first claimed a passing motorist killed the lad, he afterwards confessed that he committed the crime himself and described the escapade with a calmness that would have done credit to a hardened criminal.

The Wild West bandit tales and typical outlaw stories fired the imagination of Warren. He remembers dreams of courageous deeds with himself as the hero. When his uncle, David Corey, a Detroit policeman, came to visit Sunday at the home of Warren's parents, Mr. and Mrs. Wilfred C. Banfield, and showed the boy his revolver, from which he had taken the cartridges, Warren conceived an idea. The next morning he extracted the gun and cartridges from their hiding places and during the day set forth on the tragic errand.

Clare was walking on in front of him, he said, and he decided to try shooting at him to see how close he could come without hitting him. Clare turned as he fired and the shot struck him in the side. He fell, writhing and the older boy then ran up, noted his agonies and fired the second shot, he told police.

The boy is a bright lad has always been tractable, until lately he tried twice to run away "and go west," both times being caught near home. He stood well in school and was generally liked. His parents are broken hearted, not only over the death of Clare, but over the double-tragic nature of the affair.

Warren was taken into custody by Sheriff Butler and he will be held at the county jail at Pontiac until it is determined just what can be done with him. Owing to his age his case cannot even be taken before the juvenile court and county officials are at a loss to know just how to dispose of the matter. He will, doubtless, be sent to the Industrial school at Lansing, however.

Mr. and Mrs. Banfield are industrious, hard-working people and they feel keenly this great sorrow which has come upon them. Neighbors and friends have rendered every assistance in their endeavor to soften if possible, the very great calamity which has come to them.

## HIGH SCHOOL LEAGUE STARTS IX APRIL.

The schedule or dates for the series of ball games to be played by the teams representing the High schools of the Four-Square pennant race for the base ball championship, has been prepared, and just as soon as the weather permits in the spring, the high school athletic park will see the candidates for the local team trying out for places on the team that will represent Northville High on the diamond the coming season April 22nd is the date for the opening of the season. Other dates are as follows:

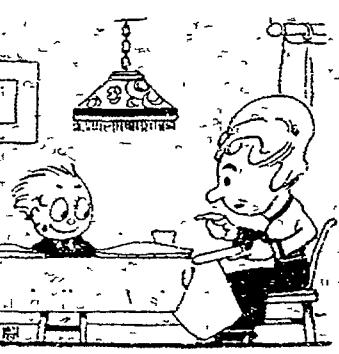

April 22—Plymouth at Farmington; Wayne at Northville (league game); April 24—Farmington at Wayne; Dearborn at Plymouth (league game); May 1—Dearborn at Northville (league game); May 13—Northville at Farmington; Plymouth at Dearborn (league game); May 18—Wayne at Dearborn (league game); May 29—Farmington at Plymouth (league game); May 31—Wayne at Plymouth (league game); June 10—Farmington at Wayne (league game); June 17—Northville at Wayne (league game).

## SMALL VOTE POLLED.

But little interest was taken in Wednesday's primary election and but 120 votes were polled in both precincts in Northville. The day was an ideal one for election, but people were not interested. Joseph A. Moynihan, candidate for circuit judge, and William H. Green, Jr., candidate for county auditor, received nearly all the votes cast here.

A number of ballots were thrown out because some voters desired to show no partiality and voted for all four candidates whose names appeared on the ticket.

The republicans of Novi township will hold their caucus at the town hall on Saturday afternoon, March 12th.

## TWAS SAID :

Custard pie and currant pudding reposed in all their luscious temptation on the table, in front of him. Willie liked both. He was torn with conflicting emotions.

"Which will you have, Willie?"

"Custard pie," gasped Willie, after a long and painful struggle.

"Pie what?" asked Willie's parent, wishing him to add "please."

Willie didn't understand.

"Pie what?" she repeated sharply.

Then Willie had an idea, which seemed to solve his difficulties and make the world bright once more.

"Pie first," he answered. Satisfaction is first, last and all the time at this store. That's why we give so much careful attention to the goods we offer to customers. ## What 4% Means

THE NORTHVILLE STATE SAVINGS BANK OF NORTHVILLE pays 4% interest, compounded twice a year. What does 4% compound interest mean? It means that if the interest is allowed to remain on deposit with the principal sum, interest will be paid on interest—that is, \$1.00 placed at 4% compound interest, will double itself in a little less than eighteen years through the interest additions. To secure the best results it is necessary to set aside weekly or monthly a fixed sum from your income, and deposit it to your account. The tables here given show what may be accomplished by this method. The interest earnings equal from 20% to 50% of the money deposited during the periods shown. That is, if monthly deposits of \$5 are made for twenty years, the total sum would be \$1,200. With 4% compound interest, it will amount to \$1,833.50; the earnings added equaling \$633.50, or 52% of the money actually saved.

Parker, executive secretary of the association.

In the evening a speaker of national reputation will give an address for the general public.

On the second day of the conference the election of officers will be held at the forenoon session, and the rest of the day will be devoted to a discussion by the delegates from the various

#### THIEVES STOLE ALL WINDOWS FROM HOME.

Butler, that someone had made a raid upon his farm in Avon township, and had stolen all the windows in the house. The thieves took glass, sash and all. Sheriff Butler will detail an officer to investigate and locate if possible, the missing parts.

## FARMERS' LOAN IS LEGAL, SAYS COURT

NEW ISSUE OF FARM LOAN BONDS TO BE OFFERED, SAYS COMMISSIONER LODDELL.

#### LEVER ACT UNCONSTITUTIONAL

Supreme Court Also Declares Evidence in Liquor Raids Void If Secured Without Warrant.

Washington—A new issue of farm loan bonds bearing interest at five per cent will be offered immediately, Commissioner Lodell of the farm loan board announced Monday night. The amount is as yet undetermined.

The announcement followed decision of the United States supreme court that the farm loan act, designed to assist the agricultural development of the United States, by providing readily accessible credits to farmers through federal loan banks, is valid.

The supreme court held unconstitutional the section of the Lever act under which the government stopped the coal strike of 1919 and subsequently launched its campaign to reduce the cost of living by prosecuting alleged hoarders of and profiteers in food stuffs and other necessities.

The court sustained lower court in granting to 13 retail merchants of Denver, Colo., an injunction restraining authorities from enforcing provisions of the Lever act.

Practically all attacks against the act were based on the ground that it violated the fifth amendment to the constitution in that it deprived defendants of their property without due process of law. Other arguments were based on allegations that enactment of the law October 22, 1919, after hostilities had ceased, was not a proper exercise by congress of its war power.

Evidence obtained by revenue agents in raids conducted without a search warrant cannot be admitted in court proceedings, the supreme court ruled in action as to the conviction in South Carolina of Lawrence Amos.

#### U. P. LAND SOLD FOR \$2,000,000

Grand Rapids Lumberman Takes Over 172,000 Acre Timber Tract

Marquette—One of the upper peninsula's biggest timber tracts comprising 172,000 acres in Houghton, Iron, Gogebic, Ontonagon and Keweenaw counties, changed ownership Monday, with the announcement of its sale by James C. Ayres estate of Boston, to Godfrey Von Platen, Grand Rapids lumberman.

The consideration is said to have exceeded \$2,000,000.

The following companies are interested with Von Platen in the project: Wisconsin & Michigan Lumber Co. of Eagle River, Wis.; the Goodman Lumber Co. of Marinette, Wis.; the Marathon Paper Mills of Rothschild, Wis.; the J. W. Wells Lumber Co. of Menominee, the East Jordan Lumber Co. of East Jordan, Mich., the Vethman & Son Co. of Trout Creek, Mich., and the Von Platen Fox Lumber Co. of Iron Mountain, Mich.

The question of getting relief to the starving is solely one of money, says Mr. Crane, and by relief he includes food, clothing and preventive measures against typhus.

#### YOUNG LAD SHOOTS BROTHER, 9

Fire Starts Accidental, But Second Fired to End Suffering.

Portage—Warren Bartfield, 11, went out for a hunting trip and not finding anything to shoot at, aimed at his younger brother, Clair, 3, "to see how close I could come without hitting him." The shot took effect in the boy's side and he fell over groaning. Frightened, Warren attempted to carry his brother home to do this he decided to fire another shot to end his brother's suffering according to his story to the police.

The boy is now at the Juvenile Detention Home and will be held until April 8 when he will become 12 years of age and then will go into juvenile court for trial.

Washington—Carrying \$100,000,000 more than it did as passed by the House, the Annual Naval Appropriation Bill was reported to the Senate by the Naval Committee. The largest single increase was \$21,000,000 for enlisted men's pay, made necessary by the provision for a personnel of 120,000, instead of the 100,000 proposed by the House.

An added appropriation was one of \$15,000,000 for beginning work on two great airplane carriers. The provision is provided for every county in the state.

#### 10 FRENCH REDS NOW ON TRIAL

Communist Leaders Charged With Plot to Overthrow Government.

Paris—Ten Communist leaders charged with plotting to overthrow the government, will go on trial this week before an extraordinary session of the criminal court here.

Eighty witnesses have been sum-

moned to testify as the result of a widespread investigation and raids which have been in progress since

May 1 of last year, when the govern-

ment called railwaymen to the

strike to break the railway strike that was

quickly followed by an abortive gen-

eral strike.

The proposed amendment would

limit the county to paying 25 per cent

of the remainder of the cost, 75 per

cent or more of the remaining cost

to fall on the state.

It is Mr. Neilson's opinion that such an arrangement would accelerate the construction

of grade separations on all roads de-

signed as trunk lines. Railroads

would pay 25 per cent of the expense

as before.

The proposed amendment would

limit the county to paying 25 per cent

of the remainder of the cost, 75 per

cent or more of the remaining cost

to fall on the state.

It is Mr. Neilson's opinion that such an arrangement would accelerate the construction

of grade separations in Wayne

County; and elsewhere.

Movement for new separations would continue to come from the county.

Other proposed changes would per-

mit the relocation of trunk lines with-

in cities and villages when agreed on

by the county road commissioners and

the State Highway Commission, and

would authorize boards of county road

commissioners of adjoining counties

to jointly lay out new roads

as in the case of Wayne and Oakland

Counties.

It is proposed further to raise the

limit of county road taxes to \$3

where assessed valuation is less than

\$29,000,000, to \$4 where it is between

\$20,000,000 and \$40,000,000, to \$2

where it is between \$40,000,000 and

\$100,000,000, to \$2 where it is between

\$100,000,000 and \$200,000,000, and to \$1

where it is more than \$200,000,000,

virtually an increase of \$1 for each

\$1,000 valuation all along the line.

When Mr. Neilson said it was pro-

posed to require all vehicles other

than motor vehicles to carry lights

on the left-hand side because many auto-

mobiles collide with unlighted wagons

at night on congested highways, G.

W. Schneider, president of the Michi-

gan Road Commissioners and En-

gineers Association, said, "I do not

believe the country is ready for

that yet."

LIFE HELD SAFER IN LARGE CITIES.

"Does Michigan hold the lives of

boys and girls living in small towns

and the country as less valuable than

the lives of those who dwell in the

larger cities?"

This is one of the questions raised

by Dr. R. M. Olin, commissioner of

health, in the annual report of the

state department of health for 1920.

Declaring that "the acid test of ef-

fective public health control is the

death rate," the report shows that the

11 largest cities having efficient

health administration were able to

hold the number of deaths from

measles, in 1920—despite an unusual

prevalence of the disease—to a 49 per

cent increase over the preceding year.

The increase in deaths from scarlet

fever was 51 per cent greater than

in 1919.

Comparing these increases with the

figures for the balance of the state

which is said to have few trained

health officers and "in most cases lax

control of these diseases," according

to Dr. Olin, there is found a 214 per

cent increase in deaths from measles

and a 72 per cent increase in deaths

from scarlet fever.

In the same group of cities there

was a 24 per cent decrease in the

number of deaths from typhoid fever,

while throughout the rest of the state

the disease increased 8 per cent over

1919, representing a difference of 32

per cent in favor of sanitary control.

A preponderance of children, in

rural and semi-rural communities will

continue to die from preventable dis-

eases," says Dr. Olin, "Until an</

## COUNTY CLUB CHAMPIONS.

Although club work is rather new among the boys and girls of Wayne county, the fact that two state championships were won during the past year is all the more surprising and speaks well of the high character of this part of the country farm bureau as conducted under the direction of Glenn O. Stewart, leader in this work.

Miss Louise Spicely daughter of Mr. and Mrs. Samuel Phifer, Canoe township, has been selected as the best all-round "first" year gannan club girl in the state of Michigan. Miss Louise is only 12 years old and she canned 41 1/2 quarts of fruit, vegetables and meats during the year.

Howard McPherson, member of the Sand Hill Poultry club near Wadsworth, was chosen as the state poultry club champion. He has had three years in poultry club work, during which time his record has been remarkable. Young McPherson's flocks won first prize in the state wide laying contest at the State Fair last fall; also first at the Northville fair.

Both of these county club champions will be given a trip to the W. A. C. during the year as a special reward for their club work.

HOLLY—Plans are under way for the annual men's banquet to be held the last week in March. The women will hold their banquet the same night.

## NEW CORN BULLETIN READY AT M. A. C.

A new corn bulletin, covering in comprehensive fashion all branches of corn growing in Michigan, is just off the press at the Michigan Agricultural College and ready for distribution to farmers of the state.

Michigan corn varieties and their adaptation to different sections of the state, seed selection and care, and general cultural practices, are discussed in the bulletin, which has been edited by Prof. J. F. Cox and J. R. Duncan of the M. A. C. Farm Crops Department. Complete pictured illustration of all subjects taken up in the pamphlet is a feature reported to add greatly to its practical value.

Corn growing is one of Michigan's greatest industries, its value being greater than that of any other crop produced in the state," says Professor Cox in the introduction to the bulletin. "The production of corn compares favorably with Michigan's leading industries. The value of the corn crop approximately equals the total annual output of Michigan's copper mines or iron mines, and exceeds the value of her lumber industry or mineral

products. The average state production of corn for the last 15 years has been 32,000,000 bushels a year. The crop was valued at between eight and nine million dollars in the year 1919.

The new corn bulletin is known as Regular Experiment Station Bulletin No. 289, Michigan Agricultural College, and may be had free on request.

## FORD ROUGE PLANT GETTING IN MOTION.

Tractor production was started at the Rouge plant this week, on a 20 per cent basis, and several local men were called back on Tuesday. It is announced that the volume of production will be increased until a maximum output of 500 complete tractors daily is reached, and it is believed that this mark will be achieved within a month or six weeks.

No official announcement has as yet been made regarding activities at the local plant, but it is reported that temporarily, at least, the magneto department of the Rouge establishment will be located here. If this is authentic, it will mean that within a week or ten days a heavier tone will be injected into local condition.

E. BROWN, Publisher

An Independent Newspaper Published every Friday morning at Northville, Michigan, and entered at the Northville post-office as Second Class matter.

NORTHLVILLE, MICH., MAR. 4, 1921.

In the death of Judge Claudius R. Grant, which occurred at St. Petersburg, Florida, Monday morning, Michigan has lost one of its grand old men. While a resident of Houghton he was elected to the supreme court of the state and for many years filled that important position with marked ability.

In the death of Champ Clark, who passed away at his home in Washington, D. C., Wednesday after a few weeks' illness America mourns the loss of one of its most citizens. He had been a national figure for many years.

With Ted, Debs and Teddy Roosevelt in charge, or Uncle Sam's navy department there will be no plenty of business effects and opportunities will make a good part.

It's now President Harding. Here's hoping.

A mistake in dates was made last week in announcing the 4th number of the Lecture Course. It should have been March 5th. The play "Whiskers" and the farce "The Obstinate Family" will be given on that date. Remember, Saturday evening March 5th the boys' quartet of Farmington and the men's quartet of Wixom will sing and there will also be instrumental music and readings.

**W. R. C. NOTES.**

The anniversary of the W. R. C. is to be celebrated with a supper given by the comrades, immediately following the regular business meeting Wednesday afternoon, March 7th. Assured of a bountiful supper and an hour of good fellowship, let us honor the occasion with a record attendance and thus manifest our appreciation of courtesy extended.

The tea following our last meeting was a goodly sum and the valued was enjoyed by both guests members.

Remember the date, March 7th, promptly at 6 o'clock.

**Northville School Notes.**

Last Friday evening our high school boys' basketball team won its eighth victory for the season from Plymouth by a score of 27 to 7. The game was played in four eight minute periods. The shortened periods enabled the teams to play harder making the game fast and exciting. Our boys showed improvement in basket shooting and with their usual teamwork proved themselves a very hard combination to play against. During the game Sulwell made five baskets, Chapman three, German three, and Litsenberger three. The quality of E. F. di's work at standing guard cannot be measured in the number of baskets that he made out in the number of baskets he kept the visitors from making. W. Elliott was substituted for Freig in the last quarter. F. V. of Plymouth refereed.

Tuesday, March 1, our boys' first game to the Normal High school was a score of 31 to 13 and a record year won from the "Wa" by the second team won by a score of 16 to 22. Due to the illness of Chapman and Diel, our first team was considerably weakened. The Normal team outclassed and outplayed the local team but the boys found it a very helpful experience to play against a team from which they could learn many new tricks of the game.

Friday, March 4th our teams go to Trenton.

In one of the best games of the season our girls' team was defeated by the girl's team of Plymouth last Friday night. The visiting teams were accompanied by a large crowd of boosters and as there were many Northville fans present the "rooting" was not in any means a one-sided affair. Our girls played well, but were unable to stop their opponents.

The Plymouth games last Friday night were exceptionally well played by all four teams participating and the playing was clean and the very best of feeling and fellowship was manifested.

Spiegation is not far off.

Our boys' basketball team will attend the State tournament to be held in Ypsilanti Thursday and Saturday, the 17th and 19th.

Stars on the lake.

## BUY MORE CAR LINES.

A proposal that the city purchase eight of the Detroit United Railway company lines operating under a day-to-day agreement will be submitted to the voters at the April election. The Detroit council decided Wednesday night. A favorable vote would add between 20 and 25 miles to the city's lines.

## DETROIT THEATRES.

The Shubert-Detroit Opera House, the week beginning Sunday night, March 6th, will be the residence of William Hodge, famous as "The Man From Home." Twice last season Mr. Hodge appeared in Detroit in the same play, "The Guest of Honor," a romantic comedy of New York life, which was so splendidly received that thousands were unable to secure admission to the theatre.

In order to accommodate those desiring to see the famous star this second return engagement was arranged. There will be seven night performances and matinees Wednesday and Saturday.

Like "The Road to Happiness," "Fixing Sister," and "A Cure for Curables," Mr. Hodge's newest vehicle

is the product of his own pen. As might be expected under the circumstances, he has very carefully taken into consideration the Hodge personality, and has evolved a role which gives his individuality full sway. At the same time he is said to have drawn some characters notable for their deft limning.

"Irene" is keeping up its popularity record at the Garrick theatre, where it begins the second and final week of its engagement Sunday night. This same play by James Montgomery, set to a score of Harry Tiner's most captivating tunes, and with more than a dozen charming lyrics by Joseph McCarthy, has been pronounced by happy audiences as the most joyous musical comedy hit of the season.

The story of Irene O'Dare, the little shop girl, apparently has won a warm spot in the hearts of Detroit theatregoers. The adventures of this particular Cinderella, as told by Mr. Montgomery, carry her from the tenement house of her mother to a great party at a Long Island country place, where she sings and dances and wears ravishingly beautiful gowns and finally is promised to her Prince Charming in marriage.

## Fordson

More and more every day the demand for the Fordson Tractor increases because the Fordson has demonstrated so much usefulness, so much economy, so much labor saving, so much money saving, along so many lines of activity. The farmer has discovered that not only for plowing, harrowing, discing, seeding, mowing, reaping and threshing, but a multitude of other uses; cutting wood, feed grinding feed, churning, washing, furnishing water in the house, making electric light possible in the house and around the barns; so that, as a matter of fact, there is hardly an hour in the day when the Tractor cannot be made a profitable servant. There is ditching to do; there are roads to fix; and so on down along the line of the numerous calls that constantly face the farmer the Fordson steps in and does the work, one might almost say "drudgery".

This is the Age of Machinery, the day when man plans the day's work or the year's work, and then turns it over to the Tractor to execute. Get the book, "The Fordson at Work," because it is free. If you cannot call for it, write and we will mail it to you. The Tractor is not only necessary to every farmer but is an established utility along a great many commercial lines. Our allotment is limited to so many each month. Let's have your order now.

Mt. Clemens—When it was discovered that Henry Patteney, a farmer living near David, was a wholesale purchaser of yeast, officers raided his home. Now Patteney is waiting trial on a charge of operating a whisky still.

Flint—The first whisky made from sugar beets ever found in this country was taken in a raid by sheriff's officers on the farm of Steve Pribelicky, near Glio Pribelicky and his son were arrested and 10 gallons of whisky were confiscated.

Mason—John Livingston, a brewer issued in 1860 and 1870 have been returned to the Ingham County clerk's office. They were found in the effects of the Rev. S. R. Perrin, who died recently, and had been mislaid after being addressed to the county clerk.

A report—Caster Hall, son of Charles E. Hall, a barber here, was arrested with his wife, and his citymate, George Anderson, were playing cards near here. Anderson was released. John Steinhurst Hall's wife, however, an hour later

was taken out of eight boys aged 12 to 15 years, who in the Industrial School at Lansing, were apprehended and taken by William McLean, 16, son of that village. The boys were all under 16.

Albion—Dr. Delos Fall, former state superintendant of public instruction, and at one time dean of education College, died at Brandonville, Fla., after a short illness of pleuro-pneumonia.

Dr. Fall took an important part in the framing of the educational chapters of the Michigan law as written in 1907.

Mt. Clemens—Incorporation of Halfway, midway between Detroit and Mt. Clemens, as a village under the name of "East Detroit" or "Clairview" was unanimously urged at a meeting at which the Halfway Commercial was organized. Halfway will vote on incorporation at the same time in May as do Center Line and Rossville also on its route from Detroit to Mt. Clemens.

Port Huron—Electors of Port Huron will vote April 4 on the proposed rate boost from five to 10 cents as set by the City Electric Railway Co. The present franchise of the railroad does not expire for eight years. President Frank W. Brooks of the Detroit United Lines, writes that unless immediate action to increase fares is taken the company will take steps to discontinue its service.

Barry—Arthur Hartwick, 16, of Sarnia, has been brought here from Toronto, Ont., and will face a charge of stealing \$300 in Liberty Bonds and theft stamps from the farm home of William Hall, Pinconning, last November. Hartwick also admitted several daylight robberies in Sarnia, it is said, and over \$2,000 in gold has been recovered. One ring recovered is valued at \$1,000. Hartwick has been masquerading in women's clothing and was trailed to Toronto over a week before being captured, the officers say.

## KEEP YOUNG

People with bad backs and weak kidneys are apt to feel old at sixty. Many old folks say Doan's Kidney Pills help them keep young. Here's a Northville case:

Mrs. C. C. Keyes, Grace Avenue, says: "Doan's Kidney Pills save all that's represented of them and I am ready at any time to touch for their merit. I have been subject to kidney trouble for a number of years, which at times, caused me much misery. Since I began taking Doan's Kidney Pills, however, my kidneys act more regularly and in every way, I am benefited by this old, reliable remedy." (Statement given September 20, 1916.)

On April 26, 1920, Mrs. Keyes said: "I have every bit as much confidence in Doan's Kidney Pills as when I gave my former statement. Sometimes when I have taken cold, I have noticed a slight return of my trouble, but Doan's Kidney Pills at such a time, have never failed to give me prompt relief."

Price, 66¢, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Keyes had. Foster-Milburn Co., Mrs. Buffalo, N. Y.
