BIBLE CLASS ENJOYS ANNUAL BANQUET

The C. A. Dolph Bible class held its first annual get-together meeting and banquet last Thursday evening. The committee in charge prepared an elaborate spread, which was very daintily served. Following the dinner the regular prayer meeting was conducted by the pastor, after which the time was at the disposal of the class. During the year of its organization a membership of nearly one hundred has been reached, and there is a splendid attendance every Sunday. The class discussed the current Sunday school lesson, emphasizing its bearing upon every-day life and experiences. The secretary reported a fine financial year, this class alone having raised and expended more than the total income of the Sunday school used to be a few years ago. A photostatic duplicating machine has been purchased for church publicity business and the "shun-ins" and afflicted and sorrowing have been remembered with flowers. About 75 were in attendance last Thursday evening.

BILL TO FIX INTERURBAN RATES PASSED BY LEGISLATURE

A bill giving the Michigan Public Utilities Commission power to fix rates on interurban lines, these rates to be based upon the valuation of the property and lines, where no franchise takes precedence, has been passed by the House. It was introduced by Representative Andrew Glaspie, and the vote was 79 to 13. Until there has been an appraisal and audit of the property and books of companies affected, the bill allows the commission to fix temporary rates based upon earnings per mile.

The main purpose of the bill was to rewrite the Smith law passed in 1919, which permitted interurban lines to charge rates as prescribed by the law regardless of existing franchises. The State Supreme court upheld the law and the Detroit United railway was permitted to fix its rates notwithstanding the terms of certain franchises.

SURPRISED THEIR FRIENDS

Announcements of the marriage of Miss May Holcomb, daughter of Dr. and Mrs. T. L. Holcomb of Novi, to Hugh K. Babbitt, son of Mr. and Mrs. E. A. Babbitt of this village, have been received by Northville friends.

The marriage was consummated a year ago, on April 12, 1920 and the young people have kept it secret from their many friends until just recently.

The bride has been a teacher in the Redford schools and many friends there will join with Northville and Novi friends in wishing the young people health and happiness.

E. M. Bogart, who has had charge of the A. P. store here since closing out his business some months ago, has been appointed assistant superintendent and has been placed in charge of eighteen of the company's stores. His headquarters for the present at least, will be in Northville.

LACK OF FUNDS DELAYS HIGHWAY WORK

In the office of the State Highway Commissioner at Lansing everything is in readiness to advertise for bids for the construction of the Northville-Novi-Farmington Highway. The blue prints are complete in every detail and all the preliminary work has been done, but the contract cannot be awarded because of the fact that the bonds to be issued against the road district, pay but five and one-half per cent interest. In these times money is not plentiful and the bonds are not attractive, the interest is regarded as too low. Unless the department is assured that the bonds can be sold the commissioner will not advertise the contract, and consequently the whole matter is being held up.

This strip of highway is a very important one to the district through which it passes and it is to be hoped some way may be found to float the bonds and thus assure the construction of the road this year. To put the improvement over for another year may mean a much longer delay.

MRS. LEMOTT DIES SUDDENLY

So universally was Mrs. Wellington Lemott loved and respected by the people of this community that expressions of deepest regret were heard on every hand Monday morning when the news of her sudden and unexpected death became current about the village. Her whole life had been spent in this community and by old and young she was esteemed for her many excellent traits of character.

Nola May Ross, daughter of Ebenezer and Alice Ross, was born in Northville, May 1st, 1896, of what is now known as the Curtis farm. In early childhood she was converted and united with the Presbyterian church in this village, which has always been her church home. She was engaged in every good cause and was a constant and efficient worker in all church activities. She was a student of the Word, which was a lamp unto her feet and a light unto her path which led her to the glory land. She was a woman of great faith and was always loyal to her convictions. She graduated from the high school with the class of 1914.

The deceased was married to Mr. Lemott June 2nd, 1920, and to this union was born one child, a son, James Ross, who survives. She died Monday morning soon after midnight at the home of her mother, leaving her little one, a loving and devoted husband, her mother, sister and brothers, who have the sympathy of the entire community in their great sorrow.

Funeral services were held from the Presbyterian church on Wednesday afternoon, being conducted by the pastor, Rev. T. V. Belles. Interment took place at Grand Lawn cemetery. The active bearers were members of her graduation class and the honorary bearers were members of the Westminster Guild. Many floral offerings in their own language expressed the love and esteem of friends.

Friends from out-of-town who came to attend the funeral were Mrs. S. Lemott and Mrs. Lemott of VanLue, Ohio; Mrs. J. E. Daniels, Mr. and Mrs. Howard Pippin, Marion Wise of Findlay, O.; Mr. and Mrs. Guy Bishop of Arlington, Ohio; Mr. and Mrs. E. C. Lemott of Deers Grove, Ohio; Mrs. James Burpach, Mr. and Mrs. Arthur Sanson, Mrs. L. S. Paxson of Detroit; Mr. and Mrs. Estell Stogary, Fayette, Ohio; Mrs. H. E. Meyers of Flint; Mrs. Lewis VanBuskirk of Holly; Mrs. C. C. Wall of Plymouth; Mr. and Mrs. Chas. Snyder of Wayne; J. A. Hamilton of Ann Arbor.

Decay causes losses of thousands of dollars annually. These losses are caused by weather acting upon unpainted surfaces. Weather is a destructive agent. Repairs are expensive. They are usually neglected because they are not apparent—seldom are they looked for. Painting is a good investment—it pays dividends in increased property values, minimum repair bills, and increased life of buildings.

WOMAN ACCUSED OF SETTING FIRES

WIDOW, 22, WANTED TO FRIGHTEN LOVER'S MOTHER AWAY, TO AVOID INTERFERENCE

BLAZE IS STARTED FIVE TIMES

First Department Called Three Times Before Susicion Wefe Aroused and Investigation Made.

Enraged by what she believed to be the cooling love of a man whom she was married to, Mrs. Leda Graham, 22-year-old widow, set fire five times in one day to the home of George Steele, a restaurant owner, in Detroit.

Maddened by despair over the loss of his affections, Mrs. Graham resolved to frighten the older woman away from the Steele home and thereby drive her back to Detroit in order that she might recover the place in the son's heart from what she had been driven by the mother's hazy reminiscences.

The first blaze was considered an accident and the second and third were noticed only because of news of the injured flames. The fourth, however, excited suspicion and the fifth led to an investigation which resulted in the housekeeper's arrest. The loss resulting from the series of fires was small.

It was at this juncture that the young man's mother arrived from Detroit to visit her father. Her coming seemed to upset Mrs. Graham. She believed that he was losing interest in her.

At the same time scores of Washington landlords, who have boosted rents again and again during the past few years are liable to prosecution and heavy fines. They have been fighting the Ball act tooth and nail, winning their test cases in lower courts only to lose out before the highest tribunal.

The majority opinion delivered by Justice Holmes justified the law on the ground of public interest.

Chief Justice White and Associate Justices McKenna, McReynolds and Van Devanter dissented from the majority opinion, declaring the attack on "constitutional liberties" contained in the act "at the very root of our civilization."

ROADS ALL SET FOR WAGE CUT

100 Carriers Join In Fight On Present Labor State.

Chicago—Railway managements of nearly 100 carriers were prepared Sunday night to launch their first big drive Monday for a reduction of labor wages.

A consolidated hearing, at which wage disputes will be presented from throughout the country, will begin Monday before the United States railroad labor board.

All of the roads ask a reduction in unskilled labor wages and several ask blanket reductions for all employees.

MANY CITIES OWN WATER PLANT

Report Shows 75 Per Cent of State Uses Municipal Water.

Lansing—A census of the state's water supplies, requested by the United States public health service, has just been completed by the Michigan department of health. It reveals: First, that 75 per cent of Michigan's population, or 2,934,592 people, are served with municipal water supplies; and second, that 16.4 per cent of the population, or 588,800, plus a large percentage of the 926,805 using private wells, are drinking water that is not properly protected from contamination.

IRISH SYMPATHIZERS MARCH

Cold Wind No Deterrent to Parade In Which Thousands Appeared.

Chicago—Braving a freezing wind from the lake, several thousand members of the American Association for the Recognition of the Irish Republic took part in a monster parade Sunday as the opening feature of a two-day convention. Despite the severity of the weather, hundreds of old men and women and small children marched.

Charge Stationers Boost Prices

Chicago—Complaints from Chicago, St. Louis, Cleveland, Minneapolis, Detroit and many other cities in the middlewest concerning alleged attempts of a combination of stationers to boost prices, have been referred to the attorney general, according to Charles F. Clyne, United States district attorney. Clyne said school children in small towns in this vicinity are forced to pay for their supplies 300 per cent more than they did a few years ago.

COURT'S DECISION HITS LANDLORDS

U. S. SUPREME COURT DENIES RIGHT OF PROPERTY OWNERS TO SET OWN RENTALS.

LEGISLATIVE REGULATION O.K'D

Decision For Tenants Won By 5 to 4 Vote; Dissenting Opinion Forecasts "Disaster" to Constitution.

Washington—The power of congress and state legislatures to enact anti-proteering laws to protect tenants from gouging landlords was upheld by the United States supreme court Monday in two decisions by a vote of 5 to 4.

One of these decisions dealt with the District of Columbia rent law enacted by congress, permitting tenants to remain in possession of rented property at pre-war rates and setting up a commission to pass on the question of fair rentals. The other decided a case attacking the validity of a similar law enacted by the New York state assembly.

The principle involved in both cases was the same. The court declared both laws constitutional. The decisions have a nationwide significance for the reason almost every city in the country has its problem of rent profiteering.

Although the District of Columbia rent law passed over an emergency, expires next fall, Senator Ball, of Delaware, announced he would move at once to extend its life until the present housing shortage passes. There is every indication that congress, itself containing many members who have been victimized by rent profiteers, will continue the measure in effect.

At the same time scores of Washington landlords, who have boosted rents again and again during the past few years are liable to prosecution and heavy fines. They have been fighting the Ball act tooth and nail, winning their test cases in lower courts only to lose out before the highest tribunal.

OLD MAN IS CLUBBED TO DEATH

Believed That Aged Recluse Fought Against Robbers in Home.

Waterford, Mich.—Evidence that Henry Gerhing, aged recluse, fought to the last with robbers who left him hounding beneath a bed in his home near here, was revealed in the investigation concluded by Sheriff Bridgeman Monday.

Bruises about the head and shoulders, were sufficient, physicians say, to have caused death. The first theory was that the old man starved to death, unable to release himself after the robbers left him securely tied and unable to summon help.

KEEPS OAKLAND'S MEMBERSHIP IN TOP POSITION.

R. F. Beach, business manager of the Oakland County Farm bureau, in a statement Thursday, declared that membership in the county bureau this year will reach 100 per cent of last year's total when allowance is made for the farmers who have retired or have moved to other counties.

"We expect," said Mr. Beach, "that paid memberships this year, when all farmers, have received notification that their fees are due, will reach 90 per cent of last year's total. This will make the membership about the same as last year, as about 10 per cent of the membership has retired from active farming or moved to other counties."

The farm bureau movement is not only growing in Oakland county, but it is spreading throughout the state and nation. In fact, this part of the movement is going ahead so well that in Oakland county we are now devoting much attention to membership work but are concentrating on the business end of the farmers' news.

NORTHVILLE, MICH.

Northville School Notes.

Monday morning proved to be a most interesting chapel meeting. Wendell Miller, a graduate of the Northville High school and now a student at the University of Michigan, gave an excellent speech on the subject "Why Go To School?" His talk proved very effective and commanded the attention of the boys and girls from the start to the finish. He brought out the many reasons for going to school, and the value of a High school and later a college education. He earnestly urged every one to think seriously upon this matter and recommended the University of Michigan very highly. At the close in behalf of the seven Northville High school boys who are at present attending the University, Mr. Miller presented the school with a beautiful Michigan banner. Mr. Winn led in giving cheers for three of the University boys present, Mr. Miller, Mr. Salow and Mr. Belles. In response to a request by Mr. Helfrich asking if those present to raise their hands if they would like to attend college, about everyone in the room responded favorably. These chapel meetings are a source of much good for the boys and girls receive inspiration to make their aims high and to do their very best.

The spelling contest which was held at Plymouth last Friday afternoon between the Wayne, Plymouth and Northville schools, resulted in a victory for the Wayne school. Miss Van Valkenburg, of the Northville schools was still standing when the contest closed.

Tuesday of this week Miss Barley and Mr. Helfrich took several students of the Eighth grade civics class to hear a case tried in the circuit court at Detroit. The event proved very interesting and the boys and girls were very much impressed by what they saw. The officials of the court treated the class with every courtesy and gave them the opportunity of seeing a case which would prove interesting to young people.

On account of the weather the game with Plymouth was postponed from last Friday to Wednesday of this week. Some excellent speakers who have promised to talk before the High school within the next few weeks are as follows: Prof. Hoyt, Prof. Stickle and President McKeeney of the Michigan State Normal college. Mr. Yost and Mr. Fisher of the County School Commissioner's office. Watch for future announcements regarding the date of each of these speakers. It will be well worth your while to hear each one of them.

Don't forget to attend the operetta given by the High school chorus under the direction of Miss Maitford this (Friday) evening at the Alcazar theatre. The title of the musical is "O'Hara Ban". A new form of excuse blank is being used in the High school which is proving very satisfactory. It is a printed form and greatly simplifies the work of the teacher.

Novi News.

Mrs. Herbert Rohr spent Tuesday with her mother at Redford. The members and friends of the Novi M. E. church are asked to help clean the church and yard Saturday afternoon.

The Ladies' Aid society met at the M. E. church parlors Wednesday. The table collection was \$6.15 and the flower collection was 35 cents. Mr. and Mrs. Huey of Davison are moving into the Lee West home. Their many friends extend a glad welcome to them. Mr. Huey was pastor of the Baptist church at Novi for a number of years.

The Gleaners met at the pleasant home of Mr. and Mrs. Eugene Root Wednesday afternoon, April 20th. There was a good attendance and a fine program and social time was enjoyed. The hostess served maple syrup, biscuits and several other good things to the company.

D. C. R. TO REDUCE WAGES.

Officers of the street railway men's union in Detroit had before them an announcement by E. J. Burdick, assistant general manager of the Detroit United railway, that wages of all platform men in Detroit, Pontiac and Ann Arbor, as well as interurban car men, would be reduced May 1, by 20 per cent. The company's financial position and lower cost of living were given by Mr. Burdick as the reason for the reduction.

The company's communication to the union stated that the wage cut proposal was not open to arbitration and positively would go into effect on the date named.

Union heads announced a meeting would be called within a few days at which their course would be decided. It was indicated the proposal would be placed before the membership in a referendum.

The cut, according to Mr. Burdick, would still leave the wage ranging from \$3.33 to 100 per cent above that paid five years ago.

All employees of the company except car men, accepted a 20 per cent reduction of the first of this year.

NEW AGRICULTURAL COURSE AT M. A. C.

Addition of several new courses in agricultural section at M. A. C. has been announced by Dean R. B. Shaw, head of the division. The new courses, adopted to meet changed conditions in the agriculture of the country, is said to enlarge and broaden the field of study at the state school materially. Courses adapted to practical dairy farming are among those added to the curriculum. One of these will train men in judging dairy cattle and will

develop student teams to represent the college and state at future national dairy shows. Others cover dairy barn management, market milk production, and other phases of the industry. Work which will train in selection of beef cattle is also being started under the animal husbandry department. Teams to enter judging competition at the International Live stock show at Chicago will develop from this training. Other new courses include work in farm crops

with potatoes, sugar beets, and other minor root crops; farm management subjects under the newly established department of farm management; a general elementary course in genetics under the botany department; and added work in farm mechanics. Practically all changes in the M. A. C. curriculum affect the Junior and Senior years of the course; the elementary work having been judged as adequate for present conditions as it has dropped, the new courses simply offering a wider option of selection

for students of the division.

TO ESTABLISH DEPARTMENT OF PUBLIC SAFETY.

Five insurgents from the hundred percent support which has heretofore been accorded to all administrative measures were discovered when Governor Groesbeck's proposal to create a State Department of Public Safety came up for final passage in the senate. It is proposed that this new department shall take over the work of the State Fire Marshal's depart-

ment and the department of the Michigan State Police and be specifically charged with the enforcement of the prohibition law in Michigan. Without any debate, but with no apologies or excuses, Senators Baker, Bolt, Bryant, Ripelle, and Smith of Wayne voted "Nay" on the Governor's message. Twenty-three stand-patters answered "Yes."

BOYS AND GIRLS IN WINTER CLUBS TO MEET APRIL 23RD.

Looking forward to the annual spring round-up of achievement day is the thought most prominent in every club member's mind these days. County Club Agent, G. O. Stewart, assisted by Miss Elda Robb, Assistant State Leader for girls, has been busy the past week attending local exhibits at various schools throughout the county. At these meetings the best articles of the garment-making and handicraft clubs chosen and will be shown at the Plymouth High school auditorium Saturday, April 23rd. There will be no forenoon meeting but the program will start promptly at 1 P. M. Eastern time.

R. A. Turner, State Club Leader, and one of his assistants will be the judges at this meeting and will also talk to the club members and their guests. A splendid program has been arranged in addition to the exhibits and the various clubs in the county will be well represented. Everyone is invited and we hope you are planning on coming. This will be another milestone added to Wayne county club work and we hope every community will send several car loads of people.

LIBRARY NOTES.

The Story Telling hour was enjoyed last Friday afternoon by about two hundred children and Mrs. James Ironsides is certainly an adept at the art, to be able to hold the attention of that many children in the manner in which she did for an hour. We were sorry not to have a larger attendance of the parents in the evening, so they would understand the real object of the story telling. Many who did attend were much interested and later a branch of the Detroit Story Teller's League may be formed from the Library association and the Woman's Club that the work may be continued. The object is to entertain a better taste in reading among the children. The following new books by fiction on juvenile have been added to the library: "The Tale of Genji" by Robert Bly; "The Tale of Genji" by Robert Bly; "The Tale of Genji" by Robert Bly.

METHODIST CHURCH NOTES.

At 10:00 A. M. "Should I Live in Discard" because they are Old. Sunday school 11:30. Epworth League, 6:30. Evening worship 7:30.

BAPTIST CHURCH NOTES.

All services will be held at this church next Sunday as usual, with preaching by the pastor in the morning. The sermon topic will be "Christ to Love." In the evening "Believe and Receive." Both these sermons will be a practical one to anyone who wants to live a Christian life. If you want amusement, that is not our business, but if you desire help in the spiritual life, this our joy and our life to serve you for Christ's sake. In the afternoon, we have church for the children, conducted by the pastor. Send yours along next Sunday to hear about Jack and Janet in the Philippine Islands. Morning service at 10:30. Sunday school at 11:45. Evening service at 7:30. Prayer meeting, Thursday at 7:30 p. m.

PRESBYTERIAN CHURCH NOTES.

Last Sunday it snowed. And many were kept from their accustomed place in God's house. We hope you missed the service and that you will be present next Sunday for that spiritual food and united worship which makes for the highest and happiest living. We received the offering for the China famine sufferers last Sunday—\$172—but are holding it over one week so that all may have the opportunity of giving. Remember three cents saves a life for one day—a dollar will keep a human being alive for a month and there are yet more than two months till the harvest will bring relief. We had a good service last Sunday evening. Good music, good talk, and a good crowd. Come again next time and bring somebody with you. Mr. Helrich will lead the meeting. The subject is "A Good Name and How to Obtain It." And then there's the Sunday school. You can spend an hour in a better way than joining a class and really studying God's book. Without doubt, it is the greatest book in the

world. You will find in it a plenty of things to quibble about—plenty to puzzle your mind and vex the soul—if you are looking for that kind of things. On the other hand you can find plenty of practical, wholesome teachings, as clear as light; and you can find the way of life pointed out so plainly that he who runs may read and understand. Services at 10:30 A. M. and 7:30 P. M. Sunday school at 12:00.

ATTENTION, MANSIONS!

The extra car which will convey Northville Mansions to Detroit next Monday afternoon will leave here at 4:45. If you have not already told the committee you were going, do so at once. Notify C. R. Horton. Remember the car will leave at 4:45. A fine dinner will await all who go, to be served by the members of Kilmarnock Lodge.

A HAPPY BIRTHDAY.

Harold Lee Boutilier entertained a few little friends in Wednesday afternoon, April 20th, the occasion being his second birthday. The following children were present: Myrtle May Boutilier, Clarence Brooks, Helen Borchert, the youngest guest being Jack Richard Brooks who is only three weeks old. Refreshments were served and all left, wishing the little host many happy returns of the day.

BROUGHT HOME THE BACON.

At a recent gun club shoot at Birmingham two of Northville's crack "shoots" were among the prize winners. F. E. Hills won first place in Class B being presented with an electric flat iron, and Mrs. Howard Hill won third in Class D, receiving a generous slice of bacon.

W. R. C. AND G. A. R. NOTES.

Comrades and ladies of the W. R. C. you will want to attend the social hour given by the April committee of the Corps Wednesday afternoon, April 27th, directly following the regular meeting of the G. A. R. Aside from card, there is a good time in view. Meet at 7:30 at the hall anything after 7:30 is a detriment and a small charge of the fee.

FORMERLY RESIDED HERE.

Edward K. Johnson, son of Dr. W. M. Johnson who will be remembered by many of our older citizens as a former resident of this village, was a well known business man in the retail yard in Detroit, Sunday, died Monday evening. Mr. Johnson never married. He is survived by one sister, Mrs. Frank Clark of Novi and two brothers, R. A. Johnson of New York City and R. H. Johnson of Hudson. Funeral services were held in the home of Mr. and Mrs. Clark in Novi last night on Thursday afternoon and interment took place in the Novi cemetery.

PARMENTER-BARRINGTON.

The marriage of Miss Fern Barrington daughter of Mr. and Mrs. W. H. Barrington of Salina, to Harold M. Parmenter, son of Mr. and Mrs. W. A. Parmenter of this village, was solemnized at eight o'clock Wednesday evening, April 20th at the new home of the bride and groom on Northside. Rev. H. J. B. Marsh of the Methodist church performed the ceremony in the presence of about twenty-five guests. Miss Genevieve Parmenter, sister of the groom, was bridesmaid, and Mr. Aub Gates of Plymouth attended the groom as best man. A wedding supper was served to the company after the ceremony. Mr. and Mrs. Parmenter will leave on a wedding trip to Williamston this Saturday.

THREE PRESIDENTS ASK AID FOR CHINA.

Harding, Wilson and Taft Appeal to Americans to Help Stricken Millions of Sister Republic.

The President and two ex-Presidents of the United States have joined for the first time in the history of the country in an appeal for a philanthropic enterprise. President Harding, ex-President Wilson and ex-President Taft are in the forefront of the movement to send aid from America to the famine victims of China. One of President Harding's first official acts after his inauguration, taken when he had been in the White House less than two weeks, was to renew the appeal made by his predecessor in behalf of America's sister republic in the East. President Harding said in part: "At this time, the earliest practicable moment in my administration, I desire to add my own to the many appeals which have been issued heretofore in behalf of the starving people of a large section of China. The picture of China's distress is so tragic that I am moved, therefore, to renew the appeal heretofore made, and to express the hope that the American people will continue to contribute to this humanitarian cause as generously as they possibly can."

In appointing the American committee for China Famine Fund, with his own immediate predecessor in the White House, ex-President Taft, as one of the members, and Thomas W. Lamont of New York, as chairman, President Wilson said in his proclamation: "Not only is the name of humanity, but in that of the friendliness which we feel for a great people in distress, I venture to ask that our citizens shall, even though the task of giving is not today a light one, respond as they can to this distant but appealing cry for help."

TRAIN HITS AUTO; FOUR KILLED

Family Returning From Dance Wiped Out At Rail Crossing.

Owosso, Mich.—Three persons were instantly killed and a fourth one died a few hours later of injuries received when the automobile in which they were riding was struck by a Grand Trunk passenger train at a street crossing in Perry, 16 miles south of here.

The dead are Mrs. and Mrs. Frank Martin and their children, Arthur, 7 years old, and Robert, 3 years old, residents of a farm near here. Mr. Martin was a son of Titus S. Martin, prominent Republican politician in Shiawassee County.

The Martins were returning home from a dance at the Perry Opera House. The midnight passenger train does not stop in Perry, and is said to have been going 40 miles an hour when it struck the automobile. The bodies of Mrs. Martin and her two sons were found a half mile up the tracks from where the motor car was struck.

Good Enough To Eat

Was Last Week, Is This Week and Will Be Next Week

We said the below last week, but are going to say it again so it will sink in.

The last place one would look for something to eat would be in a lumber yard and yet there is one thing we handle that is strictly building material and is not only good enough to eat, but is eaten by everybody (man and beast alike). Everybody wants it and everybody eats it. What's your guess?

Why, Salt, of course.

The car of salt unloaded last week contained Salt in barrels, Salt in sacks and Salt in blocks.

The Salt we handle, in barrels and sacks, does not get hard. If you have been using salt which hardens up like a stone, cut it out and use only our non-hardening, and you will forever have peace of mind.

The building season is opening up now. Let us handle your wants in our lines—Lumber, Shingles, etc., and Building Material.

BRILLIAN PROGRAM PREPARED FOR TWENTY-EIGHTH MAY FESTIVAL, ANN ARBOR, MAY 18, 19, 20, 21.

Dr. Albert A. Stanley, who has announced that this year's May Festival will be the last which he will conduct and who will retire from active musical service at the end of the present academic year, has prepared the following attractive program for this event which promises in many ways to eclipse all of its predecessors.

The University Choral Union will contribute Mendelssohn's "Elijah" and Verdi's "Aida," while a large chorus of school children will appear in "The Voyage of Arion," especially written by Professor Earl V. Moore and dedicated to Dr. Stanley. The program will also include, by special request, a number of Dr. Stanley's own compositions. The Chicago Symphony Orchestra, under Frederick Stock, which has participated annually since 1904, will again furnish the orchestral selections.

The program in full is as follows: First May Festival Concert—Wednesday evening, May 18, 8:00 o'clock. Soloist, Orville Harold, tenor. Metropolitan Opera company: the Chicago Symphony Orchestra, Frederick Stock, conductor. FORD PAYS BALANCE OF LOAN.

Recent reports that Henry Ford contemplated extensive financing in Wall street in connection with his automobile business were discredited Friday by New York brokers.

They announced that the Detroit manufacturer, instead of being in the market for money, had liquidated his loans here, aggregating \$24,000,000.

Several of the notes, it was said, had been taken up before maturity one large banking institution reporting that a Ford note, dated April 18, had been paid two weeks ago.

FARMERS, ATTENTION!

We have confidence enough in the future horse market for young, large, sound horses that we have purchased the imported Percheron stallion, Janze (No. 83707), which we will stand at our farm 3 miles southwest of Northville, for the season of 1921. The service fees is \$20 to insure a standing colt. By all horse reports as to the shortage of young, sound horses and the few mares that have been bred the last four years, especially the last two years, which was about 20% of the regular breeding, it looks like a good time to breed a few mares, if nothing more than to raise a few good farm horses for yourself. And farmers who have been reading the tractor reports on farms for the last year we believe are fully convinced that the horse will make a far larger gain over the tractor the next two years than the tractor has made on the horse for the last two years, and Mr. Farmer, if you are in a puzzle whether to buy a tractor or a good team of horses, this spring go and talk to a few farmers who have a tractor, which to get, and after they tell you, have them explain the reason why, then act accordingly.

However, come out and take a look at the old horse, and we have several farm mares, both graded and pure-bred, and we will look them over also, and have a good visit on the horse proposition anyhow.

We have a team of mares weighing 3,000 pounds; a team of mares coming three years old, and a saddle horse for sale.

FORD FACTORY IS BUSY

Orders Ahead Are 102,000, and More Than 22,000 Men Are at Work.

The Ford Motor Co. reports a steady gain, both in sales and production. We were never in better position than we are right now, said Henry Ford Tuesday.

Actual sales in the domestic market for January were 57,208 automobiles and 1,123 tractors. For February, 61,603 cars and 1,942 tractors. For March, 67,221 cars and 4,768 tractors. April looks even better.

At the present moment the factory has 102,000 unfilled orders for automobiles. Production of the present working force is about \$3,000,000 a month.

The company's normal production, before the plant was closed for inventory on December 31, is about 100,000 cars a month. This required at that time a working force of about 50,000 men. At the present time a little more than 20,000 men are employed. The difference between this number and the full working force is largely represented by the increase in help taken on during the winter and for which there now is no longer need. During the war it became necessary to take on all available help. In many cases men taken on were what is called in the industrial world "floaters," men who work no place any length of time but drift from shop to shop and city to city, seeing the country. In the present situation, in building the present force up to meet production, an effort is being made to take on only employees who display an intention of remaining with the Ford company. By this means the company sees a way to reduce its "turnover" and help to a substantial, greatly stabilizing production and thus reducing productive costs.

URGENT PHYSICAL EXAMS FOR SCHOOL CHILDREN.

If little Willie or Susie have been failing in their school work, or merely passing "by the skin of their teeth" in some subjects, let the family physician give them a thorough physical examination, advise officials of the Michigan Department of Health.

General physical examinations of school children, between now and the end of the school year, are urged by the public health authorities in order that dangerous remedial defects, and correctable physical conditions may be remedied during the summer vacation.

Such a procedure, it is pointed out, will improve the health of communities and help raise next year's class rating for Willie and Susie.

Scarlet fever, diphtheria and other diseases have been unusually prevalent in nearly every part of the state; many children have lost time from school on account of sickness which may have left marks, affecting the health of those that apparently recovered; and the lowered physical resistance of thousands of children has rendered them peculiarly susceptible to tuberculosis," contends Dr. R. M. Olin, commissioner of health.

"These circumstances, together with the fact that a large percentage of children are working under avoidable handicaps of bad throats, vision, hearing, and teeth," says Dr. Olin, "would indicate that parents should have their children carefully examined."

ASKS SALES TAX OF 1% GROSS

SENATOR SMOOT'S BILL WOULD YIELD ABOUT BILLION AND A HALF REVENUE.

CALLS PLAN SIMPLE AND EASY

Provides Proper Distribution of Tax Burden. Attack Made on Present Excess Profits Tax.

Washington, April 22.—Senator Smoot today introduced a bill which would impose a 1 per cent sales tax on the gross receipts of all businesses. The bill would yield about a billion and a half in revenue.

Senator Smoot's bill would provide for the proper distribution of the tax burden, and would attack the present excess profits tax.

Senator Smoot said the bill would be "simple in application and easy to compute." He declared it would "properly distribute the burden of taxation, compelling each citizen to bear a share proportionate to his ability to pay as measured by his buying or producing powers."

"If the sales tax becomes a part of the revenue laws of our country," the senator continued, "Congress can repeal not only the items provided for in the bill as presented by me but can repeal all of the irritating, harassing, discriminatory taxes amounting to hundreds of millions of dollars, and the excess profits tax the result of which has worked such havoc on business concerns of our country and which have in many cases been compelled to pay the excess profits tax on paper profits."

Present taxes on soft drinks, tobacco, automobiles, and some other so-called luxuries would remain under the bill. These commodities already bear taxes regarded as heavier than the flat 1 per cent tax. In addition to the tax on sales, levy having the same application would be placed on total amounts of business.

Adrian, Mich.—Two officers waited on the porch of his home with a warrant charging him with embezzlement of the city's funds, Edward G. Sullivan, foreman of the city street department, picked death as a solution of his problems.

Startled by the report of a pistol shot, the officers forced their way into the house, where they found Sullivan dead, a bullet wound in his temple and a smoking gun beside him.

No strings are attached to this loan proposition—no cost to you whatever. We want you to use the Eureka Cleaner for 10 days, just as though it were your own. Clean your carpets, and rugs, with it. Try it on your furniture, your mattresses and your walls. Track on all nooks and corners, subject it to every test you can think of.

And then, if you are not more than pleased with it, we will send to get the cleaner and the free trial will not cost you a penny. But if you decide you simply can't get along without the cleaner, then you may keep it and pay down as your first payment.

Only \$2.50 IF YOU DECIDE TO BUY After a TEN Days' Free Trial

Then You Can Pay the Balance in Small Easy Monthly Payments—30 Days Between Each Payment

And remember, you are getting the rock bottom, special factory price. We do not charge you a single penny more for these liberal terms, and you are getting our very latest, guaranteed, advanced model Eureka Electric Vacuum Cleaner, and, best of all, the easy monthly payments.
