## O. E. S. OFFICERS WERE PUBLICLY INSTALLED

The Masonic Temple was the scene of a most enjoyable gathering last Friday night when the newly elected and appointive officers of Orient Chapter, O. E. S., were publicly installed. The capacity of the hall was taxed to its utmost to care for the large number of members of the order, and the invited guests. Mrs. B. G. Filkins officiated as installing officer and Mrs. L. A. Babbitt served as marshal and the ceremonies of installation were impressively carried out. During the evening Miss June Filkins and Wayne VanDyne contributed very pleasing vocal numbers and Mrs. S. G. Power gave a reading. Refreshments of ice cream and wafers and coffee were served in the dining room, the new officers occupying seats of honor at the tables. The tables were handsome with an abundance of cut flowers, which were generously furnished by the Northville Greenhouse for the occasion. The installing officers and those who were installed to serve for the coming year were presented with generous bouquets by the chapter.

## AT REST AFTER MANY YEARS OF SUFFERING.

Mrs. Phyllis Hamilton died at the home of her son, Herold Hamilton on Sunday, and by her death one of our oldest residents has passed from life's activities and suffering to perfect rest and peace. Mrs. Hamilton was born April 9th 1849; at the old homestead of her parents Ignatius and Laura Parmentier, which is situated about two miles north of the village of Northville, since owned by Mr. Rosmus Christensen. February 22, 1859, she was united in marriage with Chas. Hamilton whose death preceded her own by eleven years.

Five children came to bless this union, of whom four are still living Mrs. A. M. Eckles of Plymouth, Frank and Herman Hamilton of Novi township and Mrs. C. E. Burgess of Detroit. Deceased also leaves five grandchildren and three great grandchildren. She is also survived by a brother, Chas. Parmentier of Windsor, Ont., and a sister, Mrs. Dollie Hosmer of Northville.

In 1877 Mrs. Hamilton took up her residence at the old home where her death occurred, and her whole life was spent in the vicinity of Northville. She possessed a kind and sympathetic nature, ever ready to sympathize with those in their sorrow, comfort those who grieved and relieve those who suffered.

Altho for years she was bedridden and during the period of physical suffering she met life with a sublime fortitude and the day before her death she held fast to her hope of permanent relief and even after having pronounced that death was the only remedy she ever maintained a cheer and courage and had a pleasant smile on her hand and a cordial welcome to all.

It can truly be said of her that the world is better for her having lived. Thus a kind and indulgent mother, a true and sympathetic friend, and a good neighbor has passed to her reward.

## DEPT. OF CANCER.

Miriam J., the beloved wife of William H. Ward, died at the Henry Hospital in this village Friday last, of cancer. The remains were taken to her home on the South Lyon road where funeral services were held on Monday afternoon, being conducted by Rev. Evans of Farmington. Burial took place at Grand Lawn cemetery. Schrader Brothers had charge of the funeral arrangements.

Mr. and Mrs. Ward became residents of this community about two years ago, moving here from Detroit, where Mr. Ward was engaged in building operations. They had made many friends in the neighborhood in which they resided and Mr. Ward became well known among a large circle because of his activities as superintendent of the poultry department of our fair last fall. The sincere sympathy of the community is extended to the family in their great bereavement. Besides her husband Mrs. Ward is survived by one son and one daughter.

Fred E. Field has rented the Filkins building on North Center street and will move his grocery stock there early next week. The shelving is being replaced and the store will be very attractive when Mr. Field gets fully settled.

## NORTHVILLE AND NOVI WANT THE NEW ROAD

The Northville Automobile Club held an enthusiastic meeting at the village hall on Tuesday evening for the purpose of considering steps to insure the construction of the Northville-Novi-Farmington highway this season. As stated in The Record two weeks ago, the condition of the money market makes it difficult to sell the six per cent highway bonds to be issued for the payment of the highway when completed and the state highway department does not deem it advisable to advertise the contract until assured the bonds can be sold. It was suggested by those who have been laboring in behalf of this important improvement that the banks of Farmington and Northville underwrite the bonds amounting to \$140,000, but as they are saleable only at 97 cents it was decided this plan could not be successfully carried out. Farmington has pledged its share and it was the opinion of those who attended the meeting Tuesday night that Northville must do its part.

It was proposed that Northville assume its share of the bonds and sell them at the market price leaving a difference of about \$2,100.00 to be raised among the people of this section and Novi to pay the premium. More than a thousand dollars was pledged at the meeting and a committee appointed by President Yerkes to present the matter to the public. He named as such committee Messrs. M. N. Johnson, G. Richman, F. J. Cochran, L. A. Babbitt and E. H. Lapanz of Northville, and Messrs. W. M. Bogart, J. D. Taylor and Dan Madews of Novi and Walled Lake.

The matter of the improvement of this stretch of highway is a very important one to Northville and Novi especially, and the officers and members of the Auto club are to be commended for the efforts they are making to secure the construction of the road this season. The highway when completed will be the means of bringing a lot of business to Northville, because the distance will be shortened between our door and that of our neighbors living in Novi, Walled Lake and Wixom and the country intervening. If its construction is delayed it may be a matter of years before the project can again be revived. This is the opinion of those who have given the subject very careful consideration. We believe the people of this section will rally with enthusiasm to this enterprise when properly presented and if they to the balance of the funds necessary to be raised will be secured in a day.

## WILL PROVIDE KINE ENTERTAINMENT.

In connection with the meeting of the Parents' First Association meeting which will be held in the High school auditorium on the evening of Wednesday, May 12th, the manager of the local telephone exchange is planning to present a novel and interesting series of pictures called "Number, Please," which are more than 10,000 picture news items throughout the country. Representatives of the Michigan State Telephone Co. will be present from Detroit in an interesting manner the workings of a telephone system. Upon a special board a demonstration will be given of "What happens when you lift the receiver" and calls will be originated and completed. The various classes of long distance service will be explained in detail.

Mrs. Jane Filkins will render two vocal solos during the evening and it is desired to have the auditorium filled with parents and citizens generally. Similar demonstrations have been given in a number of Michigan cities before the Chambers of Commerce.

## NEW COUNTY CLUB LEADER.

The executive board of the Wayne County Farm bureau has selected Wm. Bonap for the new club leader in boys' and girls' work in Wayne county, and he will take up the work upon the retirement of G. O. Stewart the first of May. G. O. Stewart, who enters business for himself, will leave many friends among old as well as young, to wish him the best of success in his new work.

Edmund Yerkes entertained a number of his young friends at a very enjoyable party at the Library building Monday evening. Games were played among them, being the winding of the May pole, and dancing was enjoyed. Refreshments were served.

## MAKE FEDERAL ROAD AID COUNT

HARDING BACKS TOWNSEND BILL DESIGNED TO PREVENT FUTURE WASTE

### DEMAND STATE'S COOPERATION

Federal Funds for Road Building to Be Conditional Upon Maintenance Agreement

Washington.—Sweeping change in the federal government policy is favored by President Harding and Senator Charles E. Townsend, Michigan, is preparing a bill for introduction in the senate that will carry out the ideas of the administration.

Five years ago a measure generally known as the Federal Aid road act was passed by congress. It was hailed as marking a new era in road development. And so it did, but it had a serious defect in that it failed to provide adequately for maintenance of roads after construction.

This act will terminate with the close of the present fiscal year, June 30, and the president and his advisors are determined that the federal road law that will be passed to take its place shall guarantee the federal government's "voice" in the program of expenditure and that congress shall not make a mere gift from the national purse to the various states for road betterment.

The bill being drawn by Senator Townsend will be designed to avoid unscientific expenditures of hundreds of millions of dollars, which have resulted heretofore in the construction of a patch-work and uncoordinated system of country roads throughout the country.

President Harding looks upon highway transportation as being almost as important as the road transportation problem. He regards the extension of the system of national highways as a need of the first order, but he considers maintenance to be as essential as construction.

### COUNTY AGENT IS UNDER FIRE

Kalamazoo County Bar Association Charges Misconduct

Kalamazoo, Mich.—The state board of corrections and charities recently being charged brought against county agent George C. Thayer by the Kalamazoo County Bar Association.

The county agent is charged as follows: Taking into custody young girls, who are delinquents and holding them in the juvenile detention home, requiring them to submit to examinations by male physicians, browbeating them in order to obtain confessions or admissions threatening them with confinement in the Adrian house for girls, and other acts.

More than 25 witnesses have been subpoenaed to testify.

### JAPAN OFFERS YAP SOLUTION

Wants Mandate to Hold and Offers U. S. Cable Authority

Tokio.—The Japanese government it was reported, has agreed to settle the controversy over the island of Yap upon the basis of the following compromise:

The United States to recognize the validity of Japan's mandate over Yap Island.

Japan to recognize America's cable rights.

The United States had laid claim to the cable station on Yap Island because it is the only direct line of communication between America and the Philippine islands.

### CHIPPEWA INDIANS ORGANIZE

Will Make Application at Washington for \$4,000,000 Bonds

Houghton, Mich.—Organization of permanent councils of Chippewa Indians living along the shores of Lake Superior is being effected. Constitutions and by-laws are being drafted as a preliminary step toward making application at Washington for legislation. The Chippewa bands of Barrage county are among the first to be organized.

Charges have been made that the Chippewas have not received fair treatment at Washington. The principal legislation desired is the passage of a bill distributing between \$4,000,000 and \$5,000,000 for the Chippewas of the district.

### PROMINENT ATTORNEY IS DEAD

Former Attorney-General of Michigan Suffers Apoplexy Stroke

Grand Rapids.—Adolphus E. Ellis, former attorney general of Michigan, and senior member of the firm of Ellis & Ellis, died at his home here after a brief illness. Mr. Ellis suffered a stroke of apoplexy. He was 72 years old. Burial took place in Ionia. Mr. Ellis was elected attorney-general of Michigan in 1890, and re-elected in 1892. He was elected mayor of Ionia five times.

## STATE TAX RATE SLIGHTLY HIGHER

REGULAR APPROPRIATIONS FOR 1921-22 ARE \$19,059,922; EXPECT REDUCTION IN 1923.

### SOLDIERS BONUS NEXT PROBLEM

Special Session Must Provide Means for Taking Care of \$1,250,000 Interest on Bond Issue

Lansing.—Michigan's total state tax levy will during the two ensuing years, be slightly larger than for the biennial period just closed. The appropriations of the regular session, show a slight increase over the appropriation of two years ago, but the increased assessed valuation, figured at nearly half a billion, will reduce the rate sufficiently to bring it at or below the figure of the last two years.

But there is still the special session to come, with an almost certain appropriation of \$1,250,000 for each year for interest and sinking fund on the soldiers' bonus bonds. The special session might pass a few other appropriation bills, so, until its business is done, exact tax rates will not be known, but they will be in the neighborhood of \$4 per thousand of valuation, as against \$3.57 last year.

In the year 1922, however, the tax will be lowered about 60 cents per thousand, as the regular legislative appropriations for that year are approximately three millions less than those for 1921 collection.

The situation will contain an unprecedented element in that business year, the state will collect its first corporation tax. It is estimated to produce \$6,500,000 annually, and out of this money, plus three million fees annually, it is expected to do all the state building. The regular tax levy contains no building appropriation except \$1,107,000 to complete the state office building and less than \$100,000 for a new cell block at Marquette prison.

The regular appropriations for 1921-22 are \$19,059,922 and for the following year \$16,791,78. These include the mill taxes of three million each year for the University of Michigan and \$1,000,000 each year for the Michigan Agricultural College. These institutions get no other state moneys except the conditional building appropriation out of the corporation tax and fees. These figures in the last two years were \$17,472,512 and \$17,774,41. The totals thus show \$6,974,8 more this session than last with the subject's loans to come.

### HOUSE GETS PEACE MEASURE

Senate Adopts Knox Resolution By Vote of More Than 2 to 1

Washington.—The Knox peace resolution will be considered by the house and the emergency tariff bill and immigration restriction by the senate in this, the fourth week of the extra session of congress. Establishment of a federal budget system will also probably be considered in the house.

Adoption by the house of the general peace measure is not expected before next week. The Knox resolution was adopted last Saturday by a vote of 49 to 24.

### SAGINAW GETS NEW AUTO FIRM

John W. Ruggles Heads Company Which Acquires Shipyard Plant

Saginaw, Mich.—The newly formed Ruggles Motor Car company has purchased the plant of the Saginaw Shipbuilding company and will manufacture motor trucks.

The Ruggles company is capitalized at \$2,650,000 and has as its officers many of the leading business men of Saginaw and vicinity. John W. Ruggles, Alma, will be president and general manager of the plant and will supervise the conversion of the shipyard into a motor plant.

### INDICT 25 IN TOLEDO MAIL THEFT

U. S. Grand Jury Returns Two Counts Against Each Person

Toledo, O.—Twenty-five persons have been indicted by the United States grand jury in connection with the million dollar postoffice robbery on February 27. Two counts were returned against each of the defendants. All these indicted persons are Toledo residents. Frank Urbaytis and his sister Wanda Urbaytis who was arrested in Chicago were not included in the list of those indicted. Trial of the case has been set for June 6.

### Indict Six in Auto Ring

Chicago.—The federal government's crusade against an alleged national "auto theft trust" resulted in indictment of six men by the federal grand jury in Judge K. M. Landis's court. The indictments were returned under the Dyer act, which prohibits interstate commerce in stolen automobiles. The men indicted are William Beville, Chicago, and his brother Seth, of Dayton, O.; Roy Rapp, Fred Soback and Fred Snyder, all of Chicago, and William Price, of Dayton, O.

## FARMERS, ATTENTION!

We have confidence enough in the future horse market for young, large, sound horses that we have purchased the imported Percheron Stallion, Janze, (No. 8707) which we will stand at our farm, 8 miles southwest of Northville, for the season of 1921. The service fee is \$20 to insure a standing colt. By all horse reports as to the shortage of young, sound horses and the few mares that have been bred the last four years, especially the last two years, which was about 20% of the regular breeding, it looks like a good time to breed a few mares, if nothing more than to raise a few good farm horses for yourself. And farmers who have been reading the tractor reports on farms for the last year we believe are fully convinced that the horse will make a far larger gain over the tractor the next two years than the tractor has made on the horse for the last two years, and Mr. Farmer, if you are in a puzzle whether to buy a tractor or a good team of horses, this spring go and talk to a few farmers who have a tractor, which to get, and after they tell you, have them explain the reason why they act accordingly.

However, come out and take a look at the old horse, and we have several farm mares, both graded and pure-bred, and we will look them over also, and have a good visit on the horse proposition anyhow.

We have a team of mares weighing 3,000 pounds, a team of mares coming three years old, and a saddle horse for sale.

**RESORT GOVERNMENT HELD SANITARY NEED.**

Some adequate form of governing organizations is the outstanding need at most Michigan summer resorts, according to Mr. Edward D. Rich, director of sanitary engineering of the state department of health.

"Summer resorts are summer colonies," Mr. Rich points out, "often closely built up and, densely populated, dwellings are frequently occupied by more than commonly occupied residences of the same size; hotels are crowded to the utmost during the rush season; and dealers in all kinds of foodstuffs do a thriving business—and too often are poorly equipped for conducting their business in a careful, cleanly manner."

**LIME SOLUTION MAY BE USED TO PRESERVE EGGS.**

Solution silicate, or water glass, is the most convenient preservative in which to store eggs for winter use, but where lime is easily procurable, lime water is very satisfactory and much cheaper than water glass. Lime water is apt to roughen the shells of the eggs slightly, making the eggs somewhat less attractive in appearance than water-glass eggs. Directions for using this lime water are given by the United States department of agriculture.

To preserve with lime, dissolve 2 pounds slacked lime in a small quantity of water, and dilute with 5 gallons of water that has previously been boiled and cooled. Allow the mixture to stand until the lime settles; then skim off, and use the clear fluid. Put clean, freshly unwashed eggs in a earthenware crock or jar and pour the clear lime water into the vessel until the eggs are covered. At least two inches of the solution should cover the top layer of eggs. Keep the receptacle tightly covered to prevent evaporation and also to keep all foreign material out of the solution.

**GARDEN NOTES**

Time now to sow seeds of hardy annual-flowering plants.

It is not too late to start seeds for the late crop. Seed may be sown in well prepared out-door beds. Make the soil fine, cover the seed very lightly, and keep the soil moist.

The common variety of spinach go to seed quickly in warm weather. If you are fond of this vegetable, try New Zealand. This variety gives all summer and repeated pickings may be made from the same plants, only the tender growing tops being used.

Try plantings of sweet peas and wax beans now. There is still danger of frost, but if the planting is lost, re-plant. The cost of seed is of minor consideration. Don't plant wax beans until the weather is settled and the soil is quite warm otherwise the seed will rot.

It is a mistake to start an asparagus bed from old plants. Only one or two year old seedling plants should be used. Set the plants in one apart in rows spaced 3 or 4 feet apart. Always set the plants deep. The crown of the plant should be at least six inches below the surface of the soil.

Plan to grow more vegetables for canning and storing this season. All reports indicate that the supply of canning fruits will be limited.

**THE ED WYNN CARNIVAL.**

Visitors to Detroit during the week of May 8th which falls on a Sunday, will have the opportunity and the pleasure of witnessing one of the biggest musical events in Detroit's theatrical history in the Ed Wynn Carnival, when Ed Wynn, the "perfect fool" and the same big organization which appeared there earlier in the season, at the New Detroit opera house, Randolph and Monroe streets.

The "Carnival" returns now to the New Detroit opera house for one week only with a matinee on Saturday, which will be given at popular prices. Described as a freaky, jazzy musical delight in two acts and twelve scenes of gorgeous splendor, the Ed Wynn Carnival has created a furor in each city where it has been presented. Thousands were unable to gain admission to the New Detroit opera house during this clever musical concert's engagement there last November, and it was due to this fact and owing to the public demands of so many patrons that Manager Bert C. Whitney has arranged the return date for the entire week commencing Sunday night, May 8th. Ed Wynn and his "Carnival" will probably be the last big attraction of the season at the New Detroit opera house. It requires two large 70-foot baggage cars and 75 people to present properly the Ed Wynn Carnival. While Ed Wynn is responsible for the book-lyrics and music, the entire production was staged by the master-hand and stage wizard, Ned Wayburn, he of Ziegfeld Follies fame.

An augmented orchestra under the direction of Antonio Baffano will take care of the score. The already large advance sale indicates a week of tremendous patronage.

MUST HAVE LICENSE TO FISH.

The anglers' license law, sponsored by the different sportsmen's organization throughout the state has been passed by the state legislature and signed by Governor Groesbeck. The law will be effective July 1 and makes it necessary for every resident of the state to obtain a fisherman's license before they can fish on any stream or lake. The license fee will be \$1.00 and may be obtained from any county clerk, village or township clerk or any game warden. The license under 18 years of age do not require a license. People living on shores of streams or lakes will be furnished a license free of charge to fish in that stream or lake. The license for the year 1921 shall be only \$1.00. Any person violating any of the provisions of this act, shall, upon conviction, be sentenced to pay a fine of \$10 or 10 days in the county jail.

TWO LIVES LOST IN AUTO ACCIDENT.

A deplorable accident happened last Thursday afternoon that resulted in the death by drowning of Mrs. Andrew Taylor, Jr. and her daughter Vivian, five years old. Mrs. Taylor and daughter had gone for an automobile ride, starting from home about twelve o'clock. They drove down the Newburg road, to the Stark road, then turned north towards the Plymouth road. The auto crosses the river Rouge about a half-mile west of the Ford dam, and the water there is some twenty feet deep at this time of the year. Mr. Taylor said he drove into the bridge at twelve minutes past, and just as he was about to cross, three feet of the earth side something went wrong with the steering gear of his machine and he lost the automobile and bar of cast iron and over again in the water. As stated the water there is some twenty feet deep and Mr. Taylor succeeded in extracting himself but was unable to find his wife and child until he had moved most of his clothing and was reported into the water. Mr. Taylor's home is at 1100 E. Main street, Northville, Mich.

VanValburg; 4th vice-president, Miss Cecile Eldred. Secretary, Miss Myrtle Wadsworth; treasurer, Ralph Strands; organist, Roy Clark; choir: Carl VanValburg. A standing vote of thanks was tendered the retiring cabinet for their faithful and efficient services thru the past year.

PRESBYTERIAN CHURCH NOTES.

Mother's Day! Let us, as individuals, keep the day sacred to our own mother, whether she is with us to gladden and bless our home today or whether she sleeps beneath the grasses and flowers. And let us all, as has grown to be a custom and as Governor Groesbeck again recommends in his proclamation for this year, gather in God's house there to take part in services appropriate to the day. The morning service is at 10:30 o'clock. The subject of the sermon will be "Blessing Our Mothers." In the evening at 7:30 we will observe Mothers' and Daughters' Night. A special program will be presented under the auspices of the Young People's society in which only mothers and daughters will take part. Come to both these services, and don't forget to wear a flower for Mother's sake. Sunday school at 12:00 o'clock. Mid-week prayer service Thursday evening at 7:30.

BAPTIST CHURCH NOTES.

Next Sunday being Mother's Day, our morning service will be in honor of our mothers. A sermon will be preached appropriate to the occasion, and we invite all who wish to show their gratitude to God for their mothers and all mothers who appreciate their children to come and worship with us. Please wear a red flower if mother is still living and a white one if she has passed away. We will provide flowers as far as possible for all who do not have one to wear. In the evening the pastor will preach on "The New Song" or "The Song that is Sung in Heaven." A children's service is conducted by the pastor in the afternoon at three o'clock to which we heartily invite all parents who wish their children to become interested in Christian living and Christian work, to send them. Another talk will be given on "James and Jared of the Philippines." Morning service at 10:30. Evening at 7:30. Mid-week service, Thursday, at 7:30 o'clock.

A RARE TREAT FOR NORTHVILLE.

The W. C. Circle members of the Presbyterian church have arranged for an evening of unusually fine entertainment to be held at the church on Wednesday, May 11th at 8 o'clock. Miss Pauline Johnson of Detroit who on previous occasions has so fully favored us with her wonderful voice, has consented to render several selections. Miss Schilling, who is visiting at New York is at home for a short time and very graciously accepted an invitation to again sing for us. Miss Pauline Johnson of Detroit will be Mrs. Schilling's accompanist. Several instrumental numbers also will make up the program, after which a buffet lunch consisting of sandwiches, pickles, fried cakes and coffee will be served in the dining room. The ladies who have this affair in charge, promise a rare musical treat to all who attend. The admission will be 50 cents.

THIS WILL INTEREST YOU.

Are you as well as you want to be? Would you extend your life fifteen or twenty years beyond your present expectations? Do you want to know the real way of robust health? Then go and hear the lecture "What's Right," May 9, at the High school auditorium. Mr. Webb, the lecturer, has superintended schools in Ohio for 25 years. Many who wonder how a man of his age can look and act so young, have heard him. But he has learned the secret of health and keeping young and old well, and he will tell you the way. No drugs, no pills, no poisons. Come and hear you friend Webb on May 9.

LOCAL.

Mr. and Mrs. B. B. Bunn entertained a number of friends at cards Wednesday evening. Mr. Lester Cook, who has been seriously ill for several weeks, is slowly improving and his many friends will be glad to know. Mrs. D. W. and T. B. Harty entertained the infant son of Mr. and Mrs. Earl Brough at Sunday. The child is doing nicely at this writing. The many friends of George J. Henry will be pleased to learn that he has been promoted to the position of manager of the local Smith store. Mrs. Edna Freydi royally entertained the First Five Handing club at her home Tuesday evening. The next meeting will be held at Mrs. S. A. Lovejoy's home on High street. The horse sheds at the fair grounds have been completed. It is expected that some very interesting matinee will be held at the grounds during the summer. There is talk now of a big racing event here on July 4th. The Pro-American League is making every effort to secure and household requirements can be obtained at the Center Street Millinery Store. Ask about them.

Better Buy At Home. A lady came into my office last week to have a broken plate repaired. It being newly made, I asked her where she got them. She said she went to Plymouth on the advice of her friends; said \$45 for them, and could not wear them, they wobbled around her jaws like they were made for some one else. I told her if she had had them made in Northville, she would have saved \$10 or \$15, and got something she could wear. We have just as good, or better dentists right here at home.

SUPREME COURT FREES NEWBERRY

REVERSES CONVICTION, RULING CONGRESS CANNOT REGULATE PRIMARY ELECTION.

16 OTHERS ALSO RELEASED

Two Justices Dissent From Opinion But Agree That Statute Had Been Misconstrued.

Washington—Conviction of United States Senator Truman H. Newberry in federal courts in Michigan for conspiracy to violate the federal corrupt practices act was set aside in a decision by the Supreme Court announced Monday.

The conviction of 16 other defendants also was set aside. The court held that Congress was without power to regulate primaries.

Justice McReynolds read the opinion in which Justice McKenna dissented as to the power of Congress, but agreed as to the decision.

Chief Justice White also dissented from the decision that Congress did not have power to control all elections, but agreed that the statute had been grossly misconstrued.

Justice McReynolds said that the lower court erred in dismissing the demurrer of the defendants.

"Obviously, the corrupt practices act covers also the primaries and other preliminary acts preceding an election," the court said.

The question here is whether Congress may limit expenditures of a candidate. The source of such power is in section four, article one, of the Constitution.

This gives Congress the power of regulating the manner of holding elections and not of elections.

Chief Justice White, in his dissenting opinion, traced in detail the growth of the election system to show that Congress was given the power under the Constitution to regulate senatorial elections.

"It is essentially a Federal matter not existing before the Constitution," said Mr. Justice.

THE LEGISLURE ADJOURNED.

After a memorable night of revelry and dissipation in making the 51st Michigan Legislature adjourned at five o'clock Saturday morning, April 30th. The last night was largely spent in conference between the two houses on matters of appropriation.

In general, the Senate was more liberal than the House and neither branch seemed willing to concede to any amendments proposed by the other body.

Separate committees of the House and Senate were appointed to investigate the charges against the House and the Senate.

Finally all the appropriation disputes were settled and a satisfactory agreement reached. The conference committees compromised on \$4,500,000 for the University and \$1,550,000 for buildings for the four State normals.

The House completed the Governor's reorganization program by passing Sen. Forester's bill abolishing the State Fire Marshal's department, the State Oil Inspector's department, and the department of the Michigan State Police and establishing in their place a new State department of Public Safety.

COUNCIL PROCEEDINGS.

An adjourned regular meeting of the Village Council was held in the Village Hall, Friday, April 22, 1921. Present—H. Ray Bogart, President; Trustees—Simmons, Henry, Montgomery, Blackburn, Van Atta, Ely.

CLARENCE W. HUBBELL, Consulting Engineer

Detroit, Mich. April 29, 1919.

Dear Sir: In regard to your water situation, I have thought the matter over quite carefully, and from the impression I received, I believe the springs from which your gravity supply is obtained can be made to yield more water than they are now giving.

This is certainly true for the conditions which prevail at this time of the year. I cannot, of course, be sure what the springs will do at the end of a long drouth, as I have never seen them under those conditions.

It would seem, however, that No. 1 springs might be made to yield more water by means of a cut-off ditch, or preferably a drain of large size, and in such manner as to intercept any flow of water now and its way to the swamp holes, which are not very far away and some 30 feet lower than the spring.

The success of this would depend upon further investigation.

I recommend, first, that careful levels be taken to be sure that air valves are placed at all high points in the pipe lines leading from the springs to the collecting well and from the collecting well to the reservoir.

Provision should be made for the escape of air from those high points by automatic air valves instead of the hand valves now in use. This would insure full capacity of the line at all times.

It may also be advisable to lower the creek section of the line near the reservoir in order to draw down the water in the springs to a slightly lower level.

As to the reservoir, I understand that it can be bypassed. It is this, I would certainly recommend testing it, by allowing it to fill to a high level as possible, then emptying it out completely and permitting the water from the springs to flow directly to the town without passing through the reservoir.

Carrying out the reservoir, the usual measurement of its height of the water in the reservoir for several days or a week would then show whether an appreciable leak was taking place.

The test should be made now when the springs are high, and the use of water in the town not as great. It will be in the summer when the water is being sprinkled.

Also the evaporation from the surface of the reservoir will not be as great now as it will be in warmer weather.

In the interest of carrying out the test, I would strongly recommend that you place meters on every connection about 10 per cent of the connections are metered at the present time.

If you desire us to run the necessary levels over the pipe lines from the springs to the reservoir, and make further report on the development of the springs, and the placing of automatic air valves, and run the leakage test on the reservoir, we can do this work for one hundred and fifty (\$150) dollars.

In case you accept this proposal we will expect you to furnish assistants to dig up the pipe line at such points as may be necessary.

Yours truly,

CLARENCE W. HUBBELL, Consulting Engineer

FIND SLAIN TAXI DRIVER AT WHEEL

ROBBERY BELIEVED MOTIVE FOR SLAYING OF EARL GAREY OF LANSING.

LOOKING FOR ESCAPED BANDIT

Police Connect Crime With Man Who Jumped From Train Taking Him to Jackson.

Charlotte, Mich.—Earl Garey, 25 years old, Lansing taxi driver, early Sunday was found slain in his car, which, with lights burning, stood in a lonely road three miles north of Charlotte. He had been shot twice, one bullet entering his head and the other his neck.

Following the finding of the body, a state-wide search was instituted for a man, who Saturday night ordered Garey to drive him from Lansing to Charlotte, more than 20 miles. The man's description, which has been sent broadcast, is: Five feet, seven inches tall; weighs 160 pounds, dark complexion, wore a black suit and a brown hat.

Lansing police officials, who came here to take a hand in the investigation, deprecate the theory that a liquor squabble may have been behind the shooting. They believe the murder was inspired by robbery and point to the fact that Garey's pockets were emptied.

They also lean to the belief the slaying was the work of a bandit who last week escaped from a train near Lansing while being taken to serve a sentence at Jackson prison.

Officials of a taxi company at Lansing declared a man entered their office at 8 o'clock Saturday night and inquired about a car to take him to Charlotte. He wore no overcoat and appeared to be in need of a shave, they said. He was told to wait in the office, as there were no cars available at that moment.

After an hour had elapsed, they said, Garey came and the man was turned over to him. The taxi officials are of the opinion the slaying of Garey was not intentional, but only incidental to robbery.

Joan Holmes, a farmer, who found Garey's body, notified Sheriff Gilley. He said he first saw the car standing in the road at midnight Saturday, as he was on his way home from Charlotte.

But better still, buy yourself a Buick and join the procession of pleasure seekers you see go by each sunny day. You will enjoy a Buick personally because it is so easy to operate, and your family will also enjoy a Buick because they ride so comfortably.

Then there is another consideration—the resale-value of a Buick is very high. In case you should ever desire to sell your car you can realize better from a used Buick than from any other car on the market selling at its price.

Let us demonstrate the splendid operating and riding qualities of a Buick to you. Phone 43 and we will call.

Wixom Whisperings.

Mrs. McDonald was in Detroit Tuesday. Mrs. B. D. Birch of Detroit was in Wixom for the first time in weeks. Mrs. Harry Lake entertained the Church Helpers, Wednesday afternoon. Mr. and Mrs. Wilson of New Hudson spent Tuesday night with their son-B. A. Mrs. Elizabeth Nixon of Northville visited her sister Mrs. Martin last Saturday. Ray Adams and wife attended the funeral of Mr. Mahypenny at Milford last Friday. The mesdames Emma Abrams, W. M. Chambers, B. C. Decker, R. M. Hopkins, H. A. Smith and B. D. Birch attended a Maccabees installation at New Hudson Tuesday. The relatives who attended the funeral of Mrs. Frances McGuire were: Mr. and Mrs. LaMar Bruno and daughter, Mr. and Mrs. Loren Bruno, Mr. and Mrs. Jay VanBuren and Mrs. House of Highland, Mrs. M. Bruno and daughter of Ponton, Mr. David Law of Cass City, Mr. and Mrs. Frank Dodge of Novi, Mr. and Mrs. Jeff Parker and Mrs. Ford Parker of New Hudson and Mrs. Gibson of Pontiac. Word was received here last Friday of the death of Mrs. Frances Law McGuire at St. Cloud, Fla. Mrs. McGuire was a former Wixom resident, having been among the first who built a home here. On account of poor health she went to Florida about five years ago. Her body was brought to Wixom Sunday to the home of her uncle, John Pattan, and the funeral was held from there Monday afternoon. She was buried in the cemetery here beside her husband and children, who died several years ago. She was nearly 74 years of age.

Novi News.

Roy Leonard expects soon to move with his family to Detroit. Mr. and Mrs. Frank Rice and son put Sunday in Lansing. Rev. J. Jenkins of Manchester, Mich., will occupy the Baptist pulpit next Sunday. Mr. and Mrs. Will Mello and baby went Sunday with Mr. and Mrs. Fisher near Farmington. Rev. Shum and family of near Highland have been visiting their mother, Mrs. Roy Leonard and family before going to Kansas to live. Mr. and Mrs. H. H. Root and Mrs. E. M. Root and little son, Roy, had a dinner Sunday with Rev. and Mrs. J. C. Choi, at Okemos. Mr. D. J. Lyon and little son of Park Huron are spending a couple of weeks with Mrs. Lyon's parents, Mr. and Mrs. D. H. DeGalar. Mrs. S. W. Taylor, Mr. and Mrs. Edward Kuchler and Claire Woodruff of Detroit, spent an evening with Mr. and Mrs. E. Woodruff last week. Those who attended the Baptist church service Sunday evening felt well repaid as Mr. B. V. P. C. conducted by Mrs. Eugene Root, was especially interesting and as a rather ungodly nature, there were four ministers present, Rev. Brass of Walled Lake, Rev. Hovey, Rev. Shum and Rev. Campbell of Detroit, and each one had a part in the service.

Walled Lake Warbles.

A number of Walled Lake young people who are pupils of Mrs. John E. DeCoy's class gave a very enjoyable musical on Tuesday evening. There were about thirty-five members in the class and all enjoyed very well.

FOR ANOTHER WEEK.

Never has Detroit seen so enthusiastic an endorsement of a picture play as it has with "The Four Horsemen of the Apocalypse," the screen visualization of the popular novel of the same title by Vicente Blasco Ibañez. That the story is universal in its appeal is evidenced by the throngs which continue to flock to the Garrick, making the fourth week of its engagement, to start Sunday, imperative. That one of the clergy used the picture as a basis for his sermon is only additional proof of its great human appeal.

Everyone connected with the picture-ization of the story has done exceptional work. June Nathie's adaptation has been enhanced by the clever direction of Rex Ingram. The characters have been picked with excellent judgment and each person given an adequate realization of the role assumed.

South Lyon.—Funeral services for Sylvanus Smith, age 76, an old resident of Green Oak, were held from his home Monday afternoon, with interment in the South Lyon cemetery. Rev. F. C. Watters of the Methodist church officiated. Sons of South Lyon attended. Two sons, Frank and Phillip, survive.

No More Goodyear Tires.

Because I have been going you \$2 and up for your old tires, in each case you are buying one, the Goodyear ( ) has refused to sell me any more tires. They have used a very undesirable method in letting me know this. Their salesman, instead of coming to me and saying that I was to have to wait until they had more tires, he came to me and letting me know this. Some time in the near future I expect to be able to sell you Goodyear tires. If you want them, in spite of the company's refusal to sell them to me. The best way to sell a new line is to sell it at cost, on Friday and Saturday. May 6 and 7 all light bulbs will be sold at cost. The smallest will go for 17 cts. and the largest for 45 cts. Week's News in Brief

Radio Sent 10,000 Miles. San Francisco.—The world's long distance wireless record was broken by the United States navy by sending messages within three minutes from Cavite, Philippine Islands, to Washington, 10,000 miles.

Three Injured by Train. Kalkaska.—Wilson Maxon, 50, was instantly killed, his son, Roy, 22, and Ford Wilson, 30, all of Brutus, were fatally hurt when their car was demolished two miles north of Kalamazoo by the afternoon G. R. & I. passenger train.

Bandits Loot Safety Vaults. Denver.—Approximately \$25,000 in bonds and securities and \$100 in cash was obtained by bandits who looted 100 safety deposit vaults in the first national bank of Strasburg, Col., near Denver. The bandits escaped in a motor car.

Caught on Limb, Chokes. Pontiac.—Caught by the sleeve of his tiny jacket when he slipped and fell from the limb of an apple tree on his father's farm near Amy, Oakland county, Rowland Taylor, 4, son of Mr. and Mrs. Clyde Taylor, was choked to death.

Gasoline Reduced Two Cents. New York.—Reduction of two cents a gallon wholesale in the price of gasoline was announced by the Standard Oil company of New Jersey. The new price, 24 1/2 cents a gallon, will affect New Jersey and Baltimore, Md.

Land Given to University. Oakland.—One hundred and one acres of land in Alameda, Cal., valued at \$250,000, were deeded to the University of California as a part of the \$1,000,000 bequest to the university by the late Dennis Searles, New York millionaire.

To Publish 'Evaders' Names. Washington.—Publication of lists of draft deserters will be begun shortly. Secretary Weeks has announced lists of men who have been found guilty of draft desertion will be made public by the War Department according to former draft districts.

Sawyer Named Harding's Physician. Washington.—Dr. C. E. Sawyer, the Harding family doctor, has been chosen as the president's physician and will be nominated as a brigadier general in the medical reserve corps. It was announced by Secretary Weeks of the war department.

To Build Another Tunnel. New York.—April 16 has been set as the date for the ceremony in connection with the breaking of ground for the New Jersey entrance of the vehicular tunnel to New York under the Hudson river. The ground will be broken in Jersey City.

Crowder Visits Provinces. Havana.—General Crowder, accompanied by his two wives, left for a visit to the three provincial provinces—Matanzas, Santa Clara and Camaguey—where new elections are to be held on March 15. His visit is in the interest of conciliation and harmony between parties.

Limit Full Collision Risks. New York.—Carelessness of automobile drivers in Greater New York has driven two large insurance companies to discontinue the writing of full collision policies. The companies announced that hereafter they will only accept risks under the \$50 and \$100 deductible forms.

Don't Want U. S. Rule. Kingston, Jamaica.—A majority of Jamaicans are not in favor of the suggested sale of the island to the United States. As a counter blast, a resolution was introduced in the legislature urging confederation of the entire group of the British West Indies with a uniform tariff.

Men Turning to Army. Washington.—The high price of recruits went down in common with other falling markets in 1920, says a war department announcement. It cost an average of \$86.75 each to get 133,040 men to the colors that year, as compared with \$127 in 1913. In February, 1920, the cost was \$192.36 each, however, against \$42.79 in December of the same year.

Baker Commissioned Colonel. Washington.—Former Secretary of War Newton D. Baker has been commissioned a colonel in the judge advocate's department of the officers' reserve corps. In a letter to Mr. Baker, Secretary of War Weeks said that he hoped the former secretary would be a "material factor" in building up the reserve corps and would not be a "passive member."

Holds Torpedo, Saves 50 Lives. Breckenridge, Texas.—Catching a 20-quart nitroglycerine torpedo as it was blown from the casing by an unexpected flow of gas, Powell Wright held it until 50 persons and 200 quarts of the explosive on a wagon reached safety. He then dropped it back into the hole with the receding gas and escaped. The derrick was wrecked by the impact and the well caught fire when the torpedo was lifted to the crown block by a recurrence of gas to the hole.

WEATHER IS SAID TO FAVOR APPLE SCAB.

Use of the early pre-pink spray for control of apple scab is advised for this year. A report was made in view of the fact that present weather conditions are said to be distinctly favorable for infections. Dry weather and rapid growth cause light scab, but this year when the apple is practically standing still infections are sure to be numerous unless spraying starts early, according to G. H. Coons, plant pathologist at the Michigan Agricultural college.

Tests made in the M. A. C. botany laboratory show that apple scab spores were ripe on trees near Grand Rapids on April 26, says Coons. "This means that growers must speed up on the spray program and put on a pre-pink spray as well as the regular pink spray they are accustomed to apply. The pre-pink spray is a new thing in spraying, and means an application while the blossom buds are distinct and before the buds have separated in the cluster. It is not a substitute for the regular pink spray, but is an added protection."

Heavy fruit losses in various parts of the country because of spring freezes this year will mean added value to the fruit which is brought through, according to R. E. Marshall, of the M. A. C. Horticultural department and every effort to insure high quality fruit will be advisable. Applications of spraying or dusting should be given special attention.

The majority of growers will use lime sulphur 1-40 or Bordeaux mixture for apple scab control, while others will try sulphur dust again this year.

"WAY DOWN EAST." The greatest and latest effort of that master of motion picture art, David Wark Griffith, will be shown in the production of "Way Down East," at the Shubert-Detroit opera house Detroit, for a limited engagement, only beginning Sunday night May 8th. Following the initial presentation "Way Down East" will be shown twice each day for the duration of the engagement. Matinees will be at 2:15 and the night showing at 8:15. This classic motion picture spectacle, with its sensational dramatic and rural and city scenes and covering the four seasons of the year, culminating in a terrific snow blizzard and followed with a gigantic breaking up of the ice in a mad race leaping away from its frozen state with hero rescuing heroine at the brink of a great waterfall, is by far the most compelling thing that this produced of "The Birth of a Nation," "Intolerance," "Hearts of the World," and other great spectacles has ever attempted.

Never since Caesar plated the arena with silver for the delight of the rulers of ancient Rome has such an expensive entertainment been offered to the public. Griffith was a year in the making of the film and spent \$50,000 in so doing.

A large symphony orchestra brought a gift from New York city will furnish the elaborate musical arrangements that goes with the snowings. In addition a large force of stage mechanics are utilized to manipulate the famous Griffith effects and elaborate settings that goes with the picture.

The management of the Shubert-Detroit opera house in Detroit has organized a special clerical staff to handle with precision and dispatch the mail orders of out-of-town patrons. These orders will be filled promptly and in order of their receipt. The price (including war tax) will be 75 cents \$1.10, \$1.65 and \$2.20 for nights and Saturday matinees. There will be matinees every day at which the prices will be 25 cents, \$1.10 and box seats \$1.65.

Northville School Notes. Last Friday the Northville High school base ball team journeyed to Wyandotte where they defeated the High school team in that city. German and E. Freyd constituted the Northville battery and worked together very harmoniously. Only three single hits were made by the W. H. S. team, while German struck out 12 of their men. The first three times at bat Sullivan and E. Freyd made safe hits, two of the latter's hits being doubles. Only one man on the local team failed to get at least one hit. Their fielding was equally as good since few errors were made and several men were put out on bases while trying to steal. At the end of the seven inning game the score stood 18 to 5.

Monday, May 2nd, our base ball team defeated Wayne High on their Diamond by a 4 to 3 score. Smith and Luke pitched for Wayne and German and Moffit for Northville. Wayne held the lead until the fifth inning when Northville scored the point that made the score 3 to 3. In the last half of the fifth inning German relieved Moffit and held the W. H. S. to one hit and no runs while his teammates scored the winning run. Moffit struck out 6 men and walked 2. German struck out 6 men and did not walk any. Two hits were made off Moffit and one off German. Seven hits were made of the Wayne pitchers.

Northville won from Dearborn in a shut-out game Wednesday by a score of 6 to 0. It was undoubtedly one of the best games played by the team this season. German pitched for the local team and Lapham for the visitors. German struck out 15 men and walked 6 while Lapham struck out 9, hit 2 and walked 1.

Two hits were made off German and eight off Lapham. Hummond made the first run in the first inning and the score stood 1 to 0 until the seventh inning when German sacrificed and scored Moffit. In the eighth inning the N. H. S. scored four more runs making the score 6 to 0.

# Parent-Teachers' Association

will present an interesting program at

## HIGH SCHOOL AUDITORIUM

# Tuesday Eve'g, May 10

Telephone employees, young people who are maintaining and serving the wires that bind together this community and nearby and distant towns, will, on Tuesday evening, May 10, tell the story of their work at a meeting of the Parent-Teachers' association to be held in the Northville High school auditorium.

They will show by means of a portable switchboard, just now a telephone connection is established, how the little lights come on and twinkle before the operator when the receiver is taken down in a way that happens when you lift the receiver. An operator, by the way, does more than 15 things in the establishment and completion of a call for a subscriber. Each separate act will be described interestingly by the operator herself.

There will also be a special musical and moving picture program, the latter including current events pictures, a good comedy and a graphic picture of the building of a large telephone system.

Miss June Filkins of the Northville central office will sing two solos and Stanley J. Williams, of the telephone company's auditing department at Detroit will offer a number. Both Miss Filkins and Mr. Williams are typical young telephone people and each has attained considerable success as a vocalist. They also will be other musical numbers of merit.

One of the delightful features of the evening, it is anticipated, will be the meeting of the local telephone employees with their company's local subscribers, from which it is anticipated there will develop the fullest acquaintanceship and understanding for the best co-operation in the rendering of good telephone service. The telephone people insist that complete understanding of each other, the telephone employee and the subscriber, is necessary to the production of satisfactory service.

Miss Ethel Linder, chief operator at Northville, and a delightful young lady, with C. J. Daley, who has charge of the local telephone plant work, and A. D. Hall, manager here for the Michigan State Telephone company, will be the committee representing the telephone employees. They will have as their guest, A. J. Peckham of Lansing, who is the commercial superintendent for the Southern division of the company, embracing the larger portion of the southern peninsula of Michigan. Mr. Peckham will make a brief address, touching upon the relations of the company with the public, the ambition of its employees in the providing of "Ideal Telephone Service for Michigan" and something of the company's plans for extension of service with the growth and development of the state's industrial and social life.

In connection with the demonstration, which has been shown before more than 100,000 persons in Detroit and other cities and being copied throughout the great Bell system, covering the entire country, there will be given sample telephone calls showing the proper way and some improper ways of using the service. There will be some comedy and much food for serious consideration in the making of these calls.

The Parent-Teachers' Association promises a splendid evening program, both from an amuseur and an entertaining standpoint, one that has been commented upon very widely by the newspapers of Detroit and that has been asked for by more than 1000 hungry little and other organizations throughout the southwestern portion of the state. The program was recently given before the Board of Commerce at San Arbor and there witnessed by Northville business men, who have asked the telephone employees' committee to bring it to Northville.

**Pontiac**—Sunt for \$15,000 was begun here in the circuit court by summons by Albert G. Chase against William G. Simpson as an outgrowth of the recent Pontiac village trouble, when the office was closed and the city was in a state of anarchy.

**Howe**—When a fire broke out in a home here in the night, the fire department found John Watson, a baby in a basket of games. The baby was found in a room, a full fifteen of the children are living. The mother is ill and the father is dead.

**School**—A fire in the school here Sunday night, closed down Western avenue, the main business street as the fire trucks were returning home. A small fire resulted in the burning of a building and the loss of \$100,000. An officer here killed it with an automobile.

**Ann Arbor**—Roy Barnes of Pontiac, patient in the Homeopathic hospital, has just won a second prize in a drawing contest conducted by the Federated School of Commercial Drawing in Minneapolis. Barnes who is 25 years old, has paralysis of one leg. He took up drawing to pass the time away.

**Sault Ste. Marie**—This city has sent an order to a Chicago concern for a complete still. It will be used in making tests of the water supply. Three affidavits were furnished to manufacturers as provided in the internal revenue laws to show that the still will not be used to manufacture illicit liquor.

**Lansing**—Only 50,000 tons of acid phosphate fertilizer of the 125,000 tons said by the U. S. department of agriculture to be the normal Spring requirement of Michigan have been applied to the farms of this state, the state farm bureau tariff department reports. The supply is short this year because of transportation conditions.

**Detroit**—The Alma College, Campaign has passed the \$300,000 mark according to an announcement made by Phelps Newberry, the general chairman. Efforts are now being made to secure the total of \$655,000 before June. Alma is the only Presbyterian college in Michigan. The city of Alma where it is located has raised \$60,000, and of this amount the students and faculty have contributed \$14,000.

# MOTHERS' DAY PROCLAMATION

(by the Governor)  
It is a beautiful custom which deserves that one Sunday in the year shall be set apart for the purpose of honoring the memory of the mothers who have gone from us and of paying a tribute of affection and reverence to those who are still left to us. It is impossible to compute our debt to our mothers. Their devotion and sacrifice guarded and sheltered and cared for us, from the cradle up to marriage and womanhood. To them most of us owe whatever there is of sternness of character, of industry, of honor, of the heart of the home, of the love that has made us what we are. It is the duty of every citizen to honor the mothers who have gone from us and to pay a tribute of affection and reverence to those who are still left to us. ## DISSOLUTION OF PARTNERSHIP.

The partnership which has continued for twenty-one years between myself and A. C. Balden has been dissolved by mutual consent, Mr. Balden having purchased my interests in the business. The condition of my health compels me to get away from active business and in relinquishing my interests here I desire to express my appreciation to all my friends in Northville who have patronized us so liberally and steadily during all these years. We have endeavored at all times to serve the public well and we believe we have succeeded and it is with deep regret that I feel that I must retire from the firm. I bespeak for Mr. Balden the same liberal patronage we have received in the past.

Again thanking you one and all, I am  
Very truly yours,  
J. W. HETLEY.

In assuming the full ownership of this business, I, too, desire to express my appreciation for past patronage and to solicit a continuance of the same. It will be my constant aim to serve the public with the very best meats and all other things usually carried in a first-class market. Tell us your wants and we will endeavor to serve them promptly and satisfactorily.

Very respectfully,  
A. C. BALDEN.

## A Chance To Get The Right Stuff

The old grist mill is about torn down and the electric light plant has gone up in smoke, and so, unless something else comes along to distract attention, it looks like a good time to introduce the subject of Oak and Maple Flooring.

Along back most anything in the line of a floor went—dirt floors, dirty floors, all kinds of wood floors—sometimes dirty, sometimes clean—made of walnut, ash, or any of the predominant local woods. Later, around these parts, white pine had all the go. After all the woods had had their turn it began to dawn upon the public mind that, if you really wanted the best, there was in flooring for the interior of the house you would have to hand it to the twin sisters—Red and White Oak and to that hard character—Old Hard Maple—Mr. Maple for the kitchen and Sisters Oak for the living rooms.

The modern flooring plants turn out these high grade Hardwood Floorings tongued and grooved, end-matched, and with all the other trimmings. The balloon of high prices has burst so far as oak and maple floorings are concerned and they are procurable right now from us at prices approaching those before the war.

We can furnish you these up-to-date Hardwood Floorings at right prices and will be looking for to come around and make the deal.

## What we do for homes that buy

# The NEW EDISON

"The Phonograph with a Soul"

AFTER you've bought, what then?

Will you be able to get the selections you like best? Will you have an expert to look after your instrument regularly and keep it tuned year after year? Will you have a music organization interested in helping you get every enjoyment out of your instrument?

You will—if you buy your New Edison from us.

Our business is helping people find true musical enjoyment. Equipping their homes with New Edisons is only one step in the process. Serving their homes with Edison after-service is the other step.

We give this service, every time we sell a New Edison. Remember,—the two together bring the music you want in your home.
