SMILES

The smile in the alley used to be quite popular a few years ago but is now nearly extinct.

The Politician, with a smile and glad hand, we have with us still.

When Automobile prices drop, we smile.

When we meet a pretty girl—more smiles. A new one—known as "the Newberry"—has recently been added to the list.

NOW

When our members pay their dues, they smile because they know their money is being used to help some person buy, remove encumbrances or improve property.

We are told that \$1.00 deposited weekly in a bank for 10 years will amount to \$637.15. That's good; mighty good.

BUT

Some of our members have recently finished Paying in \$561 and received \$800.

AND

THAT'S WHY THEY ARE SMILING.

The Standard Oil Co has contracted

for the erection of a large tank build

ing just east of the depot. The

building is to be 29x30 feet, two

stories in height. The oil will be

shipped here in iron railroad tanks

and piped to the huge storage tanks

in the oil house.

The many friends of Mrs. Di

McKenzie (nee Hattie Yerkes) of Fall

River, Mass., will be glad to know

that her husband who has been so

seriously ill, is now considered to be

out of danger. Mrs. Lyman Yankees

of the place is still with her, and

they are at present in the south.

Alerman Phillips borrowed his son

Bert's wheel last week and had just

got nicely mounted when a big purple

tree grape fell on him.

The alerman called for the tree to get out of the

way, but it kept coming along and

when it hit Bert, it was a collision.

The tree was 10' bigger than that of a

wrech but Mr. Phillips was only led

up for a couple of days.

Mr. C. L. Clark, one of Northville's well known young men, was

invited to bring up to Mr. Alerman

his new open roadster on Wednesday

evening, but he declined.

The car is built by Archie M. Price

of the price of a team and a team

of horses, and is to be used for

driving the tractor on the farm.

Mr. Clark will make these home

on their farm in Northville.

A sad collision accident hap-

pened to Bill Davis, little six year

old boy, of 1611 Monroe night

With his mother he rode over to

Yerkes' Post mill with Uncle Gil-

ford who had a little visit for some

time. On his return Mr. C. L. Clark

scattered the team started in a run down

Geiswold Avenue. When on the rail-

road bridge the little boy climbed over

the wheel, and when he was picked

up it was found that his arm and leg

were terribly lacerated, altho no

bones were broken. Dr. Burgess

treated the wound, and has hopes of

the little fellow's recovery. The

little girl crawled under the seat and

was found to be uninjured when the

team was brought to a standstill.

An old-fashioned barn raising as

is termed in the older inhabitants

has come to be a rare attraction.

A record representative was among the

hundred or more young and old men

who gathered at the farm home of

Mr. Christensen, one mile north of

Northville, Tuesday and took a hand

in the "old-fashioned raisin" of his

mammoth new barn. It was a very

interesting scene and the presence of

a large number of old men, coming

quite a distance, made the matter seem

more pioneer like. Tom Davis, the

stone mason, had charge of his

"raisin" Grant Putnam, who had

done the framing, was busy keeping

the right braces, posts, etc., in the

right position. After the second bent

was up, men were scattered over the

frame work like swarming bees on an

apple tree limb. Save one error, the

whole frame went up like clockwork.

The most anxious man in the crowd

was Mr. Estman, the carpenter. He

had done the framing and the success

of the raising depended upon the ac-

curacy of his work. When completed

this will be one of the largest barns

in the section, it being 40x66 feet

with 18-foot posts. Supper was

served at six o'clock. Among the

"old settlers" present we noticed Ed

Whitaker, Abe Sheffield, Delos Flint,

George Yerkes, Jim Jones, George

Brown, George Dennis, Jonah Sanford,

Ellwood Knapp, Sam Eddy, A. T.

Rice, L. V. Ely and Joseph Leadbetter.

WE Either Follow the Market OR ANTICIPATE IT

You always get the lowest market price when you buy your Furniture, Rugs, Floor Coverings and general House Furnishing equipment from Schrader Brothers. This is a strong statement but equally strong is our policy of always following the market when the factories reduce their selling prices.

No matter what loss we have to take we feel that we are never justified in charging our patrons more than the market price. Many times during the past few months we have gone through our stock and marked our goods down to meet present-day conditions, and wholesale costs. We feel that this is the only fair policy, though the loss to us has been pretty large at times. But we have the satisfaction of knowing that we have "played fair" with our customers. When wholesale prices are reduced our patrons get the benefit and that fact is worthy of your consideration at this time.

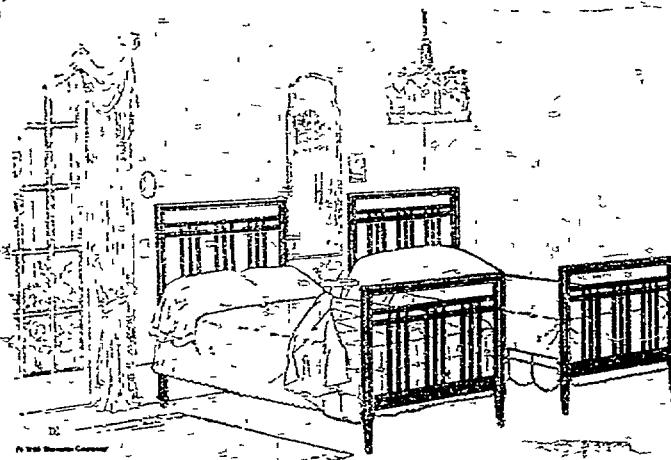

When you need Furniture, Rugs, Floor Coverings, Shades—or anything in our line you will do well to visit our store and make a personal inspection of our stock. The quality of the goods we offer you speak for itself and you will be pleased we are sure.

Our assortment of Rugs is especially worthy of your inspection. We have them in many patterns in room sized—very attractive.

Porch Furniture

Will be in demand before long we invite you to inspect our assortment of Chairs suitable for your porch. We have a big line Porch Shades also.

In Bedroom Furniture we are especially fortunate in having a fine assortment in many styles and patterns, both in the periods and in single pieces.

Seeing is believing and you cannot afford to make your Furniture purchases from a catalogue. Come here and make your selections personally—examine the goods we offer, and make sure you are getting full value for your money.

DETROIT THEATRES.

It is doubtful if any production film or otherwise, has been so unanimously praised by the New York critics as D. W. Griffith's pictureized version of "Way Down East" which was given its first showing at the 44th Street theatre in that city on September 3rd with Lillian Gish and Richard Barthelmess in the leading parts, and which commences the third week of its engagement at the Shubert-Detroit next Sunday.

Mr. Griffith's first public presentation of his new film was of such importance that his audience was composed largely of those who attended the first nights of the conventional drama rather than the regular movie fads, and to quote a paragraph from the New York Telegram: "Those who went for a thrill were not disappointed. It was there full measure and running over."

SEND OUT AUTO TITLE BLANKS

Every Transfer or Sale of Machines Must Be Recorded.

Lansing—Secretary of State Charles Deland has announced that registration blanks for recording with his office the sale or transfer of automobiles, would be ready for distribution to the automobile dealers of Michigan this week.

Under a law passed by the recent legislature, designed to make theft of automobiles more difficult, certificates of title are required to be issued and recorded with the state department whenever a machine is sold or transferred. A fee of one dollar is to be charged for each registration of a certificate of title.

Every car in the state must be so accounted for at the state department on or before July 1, 1922.

CAMERON DAM DEFENDER FREED

John F. Dietz Pardoned After Serving 10 Year Sentence

Madison, Wis.—John F. Dietz, who attracted nation wide attention more than a decade ago as the defender of Cameron, in north central Wisconsin, has been pardoned by Governor Blaine Dietz was convicted and sentenced to life imprisonment for the killing of Oscar Harp, a deputy sheriff, on October 2, 1910 but the sentence later was reduced to 20 years.

Governor Blaine in granting the pardon, said he considered the trial was legal but declared that he had come to the conclusion that Dietz should be freed "from consideration of public policy and in justice. Reference for the exceptional circumstances."

JANETTE GETS APPOINTMENT

Detroit Journalist Named by Breckinridge to Head Pardon Board

Lansing—Governor Brodhead announced his appointment of E. J. Janette, Detroit newspaper correspondent, to the new office of commissioner of pardons. The bill creating that office abolished the advisory board in the creation of pardons and transferred the powers to the governor with a continuing work in charge of the executive officer of pardons.

Mr. Janette is well known in newspaper circles of the state having managed several upper peninsula papers and founded one before moving to Detroit 15 years ago.

INCREASED CAPITAL ASSETS TAXABLE

U. S. SUPREME COURT IN TWO IMPORTANT DECISIONS HITS INCOME PROVISIONS.

STATE FEES NOT EXEMPTED

Taxes Totaling Hundreds of Millions Can Now Be Collected by Federal Government.

Washington—"Through decisions of the supreme court the government won two important victories in controversies involving interpretation of income provisions of the revenue acts of 1916 and 1917.

Increased value of a capital asset could not be added to "invested capital," the court decided in the appeal of the LaBelle Iron Works, an Ohio concern, from a ruling by treasury officials, but on the contrary must be considered in computing the profits of the corporation on which the taxes were to be assessed.

In the other direction, the court ruled that inheritance or succession taxes paid to a state could not be deducted from the net estate taxed under the revenue act.

The LaBelle Iron Works suit was characterized by a high government official as "the most important legal case affecting federal finances to arise in several decades." The specific point at issue was whether one lands in the Mesabi range of Minnesota, purchased for \$190,000 prior to 1904 could be returned by the iron company at a new valuation of \$10,000,000 in 1917, the increase being covered by a stock issue and carried under invested capital.

Hundreds of millions of dollars in taxes hung upon the decision there being but few partnerships or corporations which did not have on their books an item showing material gains resulting from appreciated value of capital assets.

SESSION CALLED FOR MAY 24

Legislature to Convene to Pass Enabling Act for Bonus

Lansing—A call was issued late last week for the special session of the legislature to convene May 24 to pass an enabling act providing the machinery for paying the soldiers' bonus.

The call did not specify the subjects that are to be laid before the legislature. The governor plans to end a session when the legislature convenes May 24. In the matter of the bonus, the legislature considers most urgent. Other measures opening new subjects for the legislature's consideration will be sent from time to time.

The Bonus bill introduced during the regular session by Rep. Vincent P. Dwyer, of Detroit, will be the first measure considered. It will probably be passed before the end of the first week of the session.

FARMERS, ATTENTION!

We have confidence enough in the future horse market for young, large, sound horses that we have purchased the Imported Percheron Stallion, Danze (No. 8765), which we will stand at our farm, 5 miles southwest of Northville, for the season of 1921. The service fee is \$20 to insure a standing colt. By all horse reports as to the shortage of young, sound horses and the few mares that have been bred 20% of the regular breeding, the last two years, which is about 20% of the regular breeding, looks like a good time to breed new mares, including more than to raise a few good farm horses for yourself. And farmers who have been reading the tractor reports on farms for the last year we believe are fully convinced that the time will make a far larger gain over the tractor for the next two years than the tractor has made on the horse for the last ten years, and Mr. Farmer, if you can't see it, it is time to buy a tractor or a team of horses, this spring go and till to get a good crop, then plant a field, and let the tractor do the work for you.

However, rope out and take a look at the old horses, and do buy several farm horses, both male and female, and we will look them over also, and have a good line in the horse proposition anyhow.

We have a team of mares weighing 1,000 pounds each, one of them coming three years old, and a saddle horse for all kinds of work.

RACE MATINEE AND BALL GAME SATURDAY

For the race matinee to be held at the Fair grounds tomorrow, Saturday, three events have been arranged and some good fast steppers are expected to take part in the afternoon's program. There will be three classes, class A, class B, and a free-for-all so that all the horses now training here and those that may be brought in from outside towns will be given an opportunity to compete. The track is in fine condition and is regarded as a very fast half-mile. If you enjoy racing you may spend a delightful afternoon in Northville Saturday.

The Foresters' ball team has signed the fast Clarkston team for a game during the afternoon, and this event also promises to be of more general interest to base ball fans.

The races and the ball game will make a fine program and the management of the fair is anxious to have the attendance at the first matinee large. Take the afternoon off and have a good time with your neighbors.

TOWN GIVEN GOOD CLEAN-UP.

"Due in a large measure to the untiring efforts of Health Officer Schuyler, Northville was given a very thorough house-cleaning last week. Piles of debris and rubbish that had been accumulating for years were removed ash-piles and little heaps that have been the breeding places for flies and germs for years were carted away, and the town presented a very tidy appearance at the close of the week, though the work of carting away rubbish was not completed when Saturday night arrived.

The alleys in the rear of the business places were given special attention by Dr. Schuyler and his clean-up squad this year and we doubt if any town has alleys that are more free from rubbish and litter. This condition ought to be maintained throughout the year and it can be if property owners and tenants will exercise just a little care.

Clean-up week was a real success judging from the accomplishments of the five or six days' work and those who had the affair in charge are to be commended for the enthusiasm and energy they put into their tasks.

BAND CONCERT JUNE 4TH.

The first Saturday night band concert of the season will occur on the evening of June 4th. Prof W. A. McArthur who has been director of the municipal band for a number of years past has again been engaged and he will have an organization consisting of fourteen members. For years Northville has had a municipal band that would be a fit in a much larger town and the weekly concerts have been greatly enjoyed by people. We are promised some fine programs for this year. W. H. Sanford is manager again this year and he deserves much praise for the interest he has manifested in the band during past years.

HOME TALENT DID WELL.

The play, "The Old Oaken Bucket," given by Novi home talent at the town hall on Tuesday and Wednesday evenings was greatly enjoyed by the two audiences which crowded the hall to its capacity. The parts were especially well taken and every member of the cast did remarkably well. Montgomerie's orchestra of Northville furnished an entertaining program, each evening.

The play was given under the auspices of the Novi L. E. Ladies' aid and the ladies are very grateful to all who assisted in any way in making the entertainment such a gratifying success.

GREEN-HICKS.

On Wednesday, May 25th, occurred the marriage of Frank Green and Mrs. Leah Hicks both of Northville. The ceremony took place at the Methodist parsonage Springwells, Detroit, by Rev. W. C. Francis, a former pastor here.

Both Mr. and Mrs. Green have a host of friends in this community who wish them a long and happy future.

THE WORK OF VANDALS.

Some person or persons whose sole purpose seemed to be to destroy property they did not need, entered the garage of E. M. Starkweather sometime during Monday night and after removing the two rear tires, took out the cushions, wrecked the spot-light and otherwise did damage to the automobile.

Will Heaney of Farmington was in town Monday.

LOCAL VALUATION SHOWS GOOD INCREASE

Village Assessor Charles A. Sessions is busy these days with his tax roll and expects to have everything in readiness to turn over to the village treasurer early in June. The total assessed valuation shows a very gratifying increase over last year and it is now \$712,555, more than two years ago. The total assessed valuation of the real estate is placed at \$1,305,900 this year, and the personal property is assessed at \$376,140.

The tax rate will be \$1.49 on each one thousand dollars valuation for the year 1921, something that all taxpayers may congratulate themselves over. These figures show a very healthy increase in valuations here. Mr. Sessions raised many assessments slightly, but only in cases where he deemed it necessary to place the property on an equality with other and similar pieces.

WILL ATTEND GRAND COMMANDERY MEETING.

Northville Commandery, Knights Templar, will attend the annual convention of the Grand Commandery at Lansing next week Tuesday and it is expected that the local organization will be well represented. The parade takes place in the forenoon and the field day events in the afternoon.

At the meeting of the Grand Commandery for the election of officers the name of Charles A. Dolph of this village will be presented for the office of grand warden. Northville Commandery has never had honored by having one of its members in the Grand Commandery line and the success of the local organization during the past few years has induced Mr. Dolph and his friends to ask for this honor at this time. The Grand Commandery can do no better than to choose Mr. Dolph and should he be successful it will be a distinct honor to the local commandery and to Northville.

DEED IN DETROIT.

Thomas P. Banks, who for many years was a resident of this community, died at the home of his sister, Dr. Gertrude Banks, in Detroit, last week Wednesday. Brief services were held in the city and the remains were taken to Walled Lake for burial; the services at the grave being conducted by members of Allen M. Hartman Posty G.A.R. of this village.

The deceased was 75 years of age. He served during the Civil War with the Eleventh Michigan Infantry and had a honorable record as a soldier and as a citizen. He died several years ago.

CONTRACT TO BE AWARDED.

Sealed bids will be received by the Board of County Road Commissioners of Oakland county for the construction of the Farmington-Northville-Novi highway up until 10 p.m. Thursday June 9th. Full particulars regarding the contract may be had by reference to the official notice published in the Record today by Frank F. Rogers, state highway commissioner.

This a stretch of highway that has long been badly needed and one that will prove of great benefit to the community through which it passes when completed.

CONTRACT FOR CHILDREN'S BUILDING AWARDED.

A contract for the erection of a building 30 feet in length, one story high, to be used during the summer months in which to house the children who will be brought out from the city to the fresh air camp at the Detroit Sanitarium was awarded the first of the week. The new building will be of stucco construction, with cement floors and will be used instead of tents for sleeping quarters for the boys and girls. It is planned to bring out a large number of children a little later in the season. The children who were out to the camp last summer were greatly benefitted.

REMAINS ON THEIR WAY HOME.

Mr. and Mrs. J. M. Hall have received word from the War Department at Washington that the remains of their son, Frank N. Hall, who died with pneumonia in France, will arrive in New York early in June and that the body would be sent to Northville as soon as possible after its arrival in America. The deceased was a member of general headquarters staff, having been selected with 146 others from Camp Custer to join the General Pershing forces overseas.

The Baptist Ladies' Aid met at the home of Mrs. Robert Thompson, Wednesday afternoon.

Novi News.

Mrs. Herbert Rohr spent Tuesday with friends in Detroit.

Mr. and Mrs. Hunter of Detroit are moving on their farm this week. They are making extensive improvements on the place, which was formerly the old Harmon farm.

Miss Edna Marshall of South Lyon closed a very successful school year at the Stone school house with a picnic, last Saturday. A fine program was rendered by the pupils. There was a good attendance. Friends were present from Novi village.

Mr. and Mrs. Leonard, who have lived in Novi for the last three or four years, lost their only daughter, Betty, aged four years, who was burned to death by a gas heater one day last week. Services were held in Novi at two o'clock Wednesday afternoon with burial in the Novi cemetery.

Mr. and Mrs. Leonard moved to Detroit only last week, and the sympathy of their many friends go out to them in their sorrow. Betty was a very bright little child and will be sadly missed by all who knew her. She leaves to mourn her death, her parents and four brothers. Mrs. Florence Holmes and Mrs. Olive Wick spent Tuesday with the bereaved family in Detroit.

WANT TO CONSOLIDATE SCHOOLS.

Four school districts of the Waile Lake area have petitioned A. L. Craft, Oakland county school commissioner, to fix a date on which residents may vote on a consolidated proposal, it was announced Tuesday.

The petition has been referred to the state department of education which will fix the date for the vote. In connection with the proposal W. L. Coffey, deputy assistant state superintendent of public instruction, has been secured to give an address on consolidated schools at Waile Lake Friday evening.

Coffey is considered by Michigan educators as one of the greatest authorities in the state on this subject—Political Press.

GARDEN NOTES.

Now is a good time to plant Lima beans. They grow best in rich, warm, loamy soils. When planting the large-seeded kinds, it will pay to place the seeds in the soil with the eye down. Don't overdo the depth. A covering of one or two inches of fine moist soil is sufficient. Cucumbers for the pickle crop should be sown about June 1st. Many prefer to plant them narrow rather than in hills. The rows should be spaced about 6 feet apart. Lettuce plants should be spinned 18 inches or 2 feet apart.

The aphidæus beetle, a small orange colored insect, is a serious pest in many gardens where asparagus is grown. I leave a plant here and there uncut. The beetles will roll up on these and may then be poisoned if the "trap" plants are kept well sprayed with arsenate of lead.

Powdered arsenate of lead is a deadly poison for all insects that chew. For garden use, stir in four table-spoonfuls in a gallon of water, will be strong enough for most of chewing insects.

Quality in vegetables depends largely upon rapid continuous growth. Plenty of moisture and plant food are necessary to accomplish these results. Keep the cultivator going. Frequent cultivation helps to conserve moisture and makes more available the necessary elements for plant growth.

FOOD FOR THOUGHT.

The official proceedings of the special meeting of the village council held last Friday night to receive the report of the consulting engineers employed by the village to ascertain the condition and needs of Northville's water system should be read by every taxpayer of the town, because the recommendations contained in the report will have to be acted upon before very long. The report states that for an expenditure of approximately \$3,000 the supply of water can be increased from 220,000 gallons to 400,000 gallons a day without the use of the pump and this fact is worth of consideration by the council and the taxpayers.

It will not be long before this additional water supply will be needed here at the rate at which the town is growing.

NORTHVILLE NEEDS A SEWER SYSTEM.

At a special meeting of the village council last Friday night the initiative was taken toward the plan to provide Northville with an adequate sewer system. Surveys and blue prints of the proposed system have been in possession of the village for the past few years and in both of these proposals the profiles call for the sewer from the north side to cross the low ground recently acquired by the Ford interests and where it is proposed to erect the new dam. The sewer will cross the Griswold road, making it necessary to complete its construction before the dam can be erected and the pond filled with water. Taking this condition into consideration the council instructed the village clerk to write a letter to Mr. Ford relative to the improvement and to ascertain his wishes in the matter of permitting the sewer to cross his land, as the survey's propose.

A day or two after this action was taken by the council Mr. Ford and Hay Dahlinger, one of Mr. Ford's trusted superintendents, were in Northville and in a conversation with a member of the council the matter of the proposed sewer system was discussed.

Mr. Dahlinger, who evidently was speaking from authority and with the approval of Mr. Ford, who stood by while the interview was taking place, stated that the Ford interests were not willing to expand their plant in Northville to greater capacity until the sewer matter was definitely settled, and if no interest was shown by the people of Northville the present plant would have to be reduced in the number of men employed. Under present conditions 250 men are using the out door toilet. Fearing in a emergency measure when the present plant was established such a condition cannot long continue either for the health of the men employed in the plant or for the welfare of the community at large.

During the course of this interview both Mr. Ford and Mr. Dahlinger intimated that it was the desire of the management to greatly increase the number of men now employed here and to no end, of course, additions must be made to the present plant.

But the village representative with whom these gentlemen talked was given clearly to understand that those additions could not be made under present conditions, so the matter now seems to be, in the language of the street, "up to the people of Northville."

The pay roll of the present plant amounts approximately to \$12,000 a week, and as the number of men employed are increased the amount of the pay roll will also increase. If the number of employees could be increased to 500 or a 1,000—and the record is assured this is not out of reason to expect—it would mean a whole lot to this community—not only to Northville village, but to all of the surrounding country. One thing is very certain—the Ford interests can expand in the management so desires and they have the business to warrant such expansion along many lines. It is already Northville's good fortune to have a unit of this great manufacturing industry located here and if we can do anything that will increase the local plant it would seem to be a wise thing to do our best.

The matter of a proper sewer system has been discussed here for many years and unless some definite action is taken the discussion will be continued for many years to come. Is it not good business to make a start now?

Walled Lake Warbles.

All who are interested in the proposition to consolidate the schools of this section are urged to attend the meeting to be held this Friday evening, for the purpose of discussing the plan.

Birmingham—Damages of \$140,000 for being deprived of their water supply from artesian wells, are asked in claims filed Tuesday with the clerk of the village of Birmingham against the village. The claimants are J. S. Williams, John A. Mercier, Friedette Lambert, Julia O. Adams and Albert Stoll, Jr., all owners of farms in the vicinity of the Latham farm in Bloomfield township where the village in March, 1920, caused to be sunk a well of large diameter.

Clarkston—The hardware store of J. H. Alger and Sons was entered and robbed early morning.

Baile Creek—Michigan Masonry today has a total of 120,012 members, a gain over a year ago of 12,974, according to the report of the grand secretary.

Royal Oak—Burglars entered the home of E. J. Startup, Eleven-and-a-half Mile road and Woodward avenue,

Vinsetta park, Wednesday night, and stole a pearl-handled revolver and jewelry, valued at \$500. Entrance was gained by forcing a rear door.

Beauty in All Useful Things.

MEMORIAL DAY PROCLAMATION.

(By the Governor).

Memorial Day is peculiarly an American institution. It is a festival unique in the annals of the nations. It is the day we set apart in memory of the dead and in honor of the living. The ranks of those in whose behalf it was first observed grow thinner year by year. The time will not be very long until these honored veterans of the Civil War will be but a memory but not, let us hope, a fading memory. Let this generation and the generations yet to come never forget what they owe to the men who left their peaceful pursuits and went forth in the name of liberty and justice to do battle for the Union cause. They achieved their purpose. They established liberty and justice and we today enjoy the fruits of their labor and devotion and sacrifice.

In the Spanish-American war and in the Great War our soldiers and sailors and marines, by their valor and their devotion to the cause of humanity, amply demonstrated that the spirit of America still lives. Their heroic achievements nobly uphold the best traditions of the American Army and Navy.

Therefore, in order that we may pay a tribute of respect and affection to the surviving veterans of the Civil War, the Spanish-American war and the recent World war, and do honor to the memory of those who gave up their lives in all these wars, I hereby sincerely urge that Monday, May 28th, 1921, be fittingly observed as Memorial Day. And I earnestly appeal to the people of Michigan for hearty co-operation in plans for the observance of the day in their respective communities. I am sure that everything possible will be done for the comfort and convenience of the old soldiers.

On Memorial Day flags should be displayed at half-mast until noon and then hoisted to the top of the staff.

BUT FLW REMAIN,

Next Monday will be Memorial Day—a day sacred unto nationhood from ages for the dead and one upon which we ought to pay off tributes of respect to the living. There are in the community but few remaining members of the Civil War veterans on whom memory of old days yet lingers. The membership of Alice M. Hafner's G. A. R. now consists of but six remaining members. During the past year six have in went the last roll call and saluted their comrades who have been called to the Eternal City. How many will in with us one year from now only a kind Providence can tell, and out of memory to the dead as well as out of respect to the living we should observe next Friday in a manner becoming the sadness of the occasion.

Plans have been perfected for the day and the program appears in to-day's paper. The business places will close at noon and all citizens are urged to join in the proper observance of the occasion.

We honor the memory of our soldiers dead, but a deeper lesson should be held in mind—that it is a sacred obligation to the living to preserve that for which they made supreme sacrifice. We may well, in these days of strife and unrest, rededicate ourselves to preserving and continuing the work they so worthily began, remembering that it is an honor to rest under the Stars and Stripes either in life or death.

ADVISE EARLY BUYING.

Those most familiar with the coal situation say now is the opportune time to order next winter's supply. Transportation is going to eat a tremendous figure in getting coal. If the usual amount is not coming in May, June and July it is sure to cause congestion later. Those who can afford to store their coal now no doubt should do so, and not longer delay placing their order. Then, too, the price is lower now than it will be later.

There's A Lot of Satisfaction

In owning a Buick car, not only in the pleasure you get from the easy riding qualities, but from the fact that a Buick Service Station is always close by in case any trouble should appear.

The Buicks are popular because they have given splendid service—ride easy—cost but little to operate—easy to handle. Let us give you a demonstration in a 1921 Model.

MEXICAN TERMS TO BE SUBMITTED

RECOGNITION PROGRAM, BASED ON FALL'S REPORT TO SENATE,
READY FOR OBREGON.

MUST PROTECT U. S. INTERESTS

Drafting of Treaty Dependent Upon Assurances That Property Will Be Safeguarded.

Washington.—A definite statement outlining conditions upon which the United States would extend recognition to the Obregon government of Mexico has been prepared for submission to President Obregon.

This statement is in the form of a memorandum, it is said, will be delivered to Obregon by George T. Summerlin, counselor of the American embassy at Mexico City, who is expected to leave for Mexico this week. He was summoned here a month ago by the secretary of state to give firsthand information concerning the situation in that country.

Conditions for recognition, it is understood, are practically identical with recommendations made by Secretary Fall in his report at the last session of Congress as chairman of a sub-committee of the Senate foreign-relations committee, which investigated the Mexican question.

The important feature of the communication is said to be insistence that Obregon sign some documents giving assurances Americans and their interests will be safeguarded properly in Mexico before the United States will consider resumption of formal relations with that country.

If such assurances are given, it is believed Henry P. Fletcher, undersecretary of state, who was ambassador to Mexico for a time under the Wilson administration, until he resigned because of disapproval of that administration's policy toward Mexico, will be designated to represent the United States in drafting a treaty.

The communication which Summerlin will deliver to General Obregon contains nothing which can justify its being characterized as an ultimatum but, it is understood, the Mexican executive will be left in no doubt as to determination of the American administration to see that American interests are not indefinitely discriminated against. It is said to have been prepared not only with the knowledge of Secretary Fall but in collaboration with him.

STATE RAIL TAX OVER 7 MILLION

Primary School Fund to Receive Nearly All of Levy.

Leaving a total of \$7,575,651.94 in taxes collected on the railroads sleepers car, coal loading and express companies doing business in Michigan this year according to the final tax rolls filed with Auditor General Fuller by the State Tax Commission. This cash comes with a total levy of \$8,995,180.36 in 1920.

The tax payable in June will go into the Primary School Fund, except the amount received from the sleeping car companies. The latter amounts to \$18,479.57 for 1921, leaving a net total for the school fund of \$7,566,175.13. Thus the net gain for the fund over last year from this source is \$551,701.

AUTHORIZE \$100,000,000 LOAN

Morgan Firm to Form Syndicate to Handle French Issue.

New York—J. P. Morgan & Co. have announced that the French government has authorized it to issue in the United States \$100,000,000 of French 20-year external loan at 1-1/2 per cent bonds.

The loan is to be underwritten by a syndicate now being formed by the Morgan firm. The bonds will be offered at 85 and interest, yielding slightly over 8 per cent.

DIPHTHERIA DEATH RATE

Wayne county with a population of 1,272,645 had 441 deaths from diphtheria in 1920, giving the county a diphtheria death rate equivalent to 37.5 per 100,000 population, according to rates made public this week by the state department of health.

The average diphtheria death rate in Southern Michigan, for 1920 was 26.8 per 100,000 inhabitants, for Central Michigan, 18; for Northern Michigan, 18, and for the Upper Peninsula, 10.5. The average diphtheria death rate for the state increased from 31 per 100,000 living persons in 1919 to 24.1 per 100,000 in 1920.

Diphtheria death rates of counties adjacent to Wayne county also increased in 1920, a rate which was twice as high as the average for the United States. If communities are to

Waukegan, 14.1; Oakland, 15.6; and Macomb, 15.7.

"Any county which has a diphtheria death rate greater than 10 per 100,000

population would consider its rate excessive and should take the necessary steps to reduce it," reads the statement.

"Antitoxin, the only known cure for diphtheria, will be available free distribution throughout the state next January. But in the meantime, every child and adult

showing symptoms of diphtheria—a sore throat and a temperature

should have the protection antitoxin

affords.

Michigan had the highest death

wife and drove into town to

Dr. Burgess who found an excruciating

bruise, that it was all a big bluff to frighten his wife.

A tornado swept over the counties

of Oakland, Macomb and Lapeer last

night, the first appearance just north of

Ortonville, where it killed two whole

family, then passing to Oakwood

where not a house was left standing.

The two children living yet on the

ground. One mile east of Oakwood

the village of Thomas suffered quite

severely, the central part of the place

being blown away. Other places suffer-

ing losses were North Oxford, Men-

mora, Dryden, Whigville, Fairgrove

and Munger. Forty-eight people

were killed and seventy-five injured

and \$1,000,000 in property was totally

destroyed.

A deplorable accident occurred at

Milford early Saturday morning in

which two of our well known North-

ville young men were interested.

After attending the Junior Hop here

Fridays night, Messrs. Claude Burgess

and Phil Harding drove to Milford

with two young lady friends, Misses

Mattie Andrews and Pearl Smith, in

a double surrey. When the young

men got out of the rig at Miss

Andrews' home, the team made a jump

or two and before the lines could be

recovered, they were going at break-

neck speed toward the mill pond embankment.

In jumping from the rig, Miss

Andrews was caught in the

fender and dragged along the ground,

wreck uninjured, except for a severe

injury to her hands and shoulders.

Miss Smith clung to the rig and when

it was finally smashed in going over

the embankment she came out of the

wreck uninjured, except for a severe

shaking up. The accident occurred

close to Miss Andrews' home, to which

place Mr. Burgess carried her and

summoned medical assistance. The

young men feel very sorry at the hap-

pening, but the accident was one of those

peculiar and unfortunate affairs

where no one was to blame.

Next Monday is Memorial Day. Miss Ida Barley has returned to her school work.

Stewart Montgomery is erecting two bungalows on the north side.

Race matinee and ball game at the Northville Fair grounds Saturday, tomorrow, afternoon.

J. Cochran is erecting two six room bungalows on his property west of town on the Fishery road.

Superintendent Joe Bagtram of Oakwood cemetery has the grounds in fine condition for Memorial Day.

Mr. and Mrs. George B. Ferkes have taken possession of their newly acquired country home—Brasida.

Charles W. Parker and A. L. Shepard have purchased the Main Street Garage and will continue the business.

George, little son of Mrs. Eva Parker, underwent an operation on Tuesday. Dr. Scott performed the operation.

Carroll's Hot Tamale team will play the Pontiac team on the local grounds next Monday afternoon at four o'clock.

Mrs. Georgia Schoenbridge of Salem was married to Leo Hobbs of Northville Saturday, May 14th—Selegi Cor Southfield Herald.

The streets and business places of Northville were filled with people Saturday night. It was a happy prosperous-looking crowd.

There will be a big three days celebration at Lake Orion, beginning Saturday. There will be ball games and numerous other amusements.

Frank Schanfill and family, George Groth and wife and Mrs. James moored to Bay Huron Sunday, returning home on Wednesday.

J. C. Sasanella has rented the room in the old opera house block recently vacated by Fred E. Field and will open a restaurant on Saturday of this week.

Mrs. George Simons who is convalescent from an operation for appendicitis, is at the home of her parents Mr. and Mrs. Jas. L. Hegle in Parma.

An eighth grade examination for pupils in the district schools of Salem township will be held in the town hall at Salem today. Friday, beginning at eight o'clock.

The Northville Confectionery is receiving about thirty thousand pounds of bulk daily now. A car load of granulated sugar was unloaded at the plant at first of the week.

On Thursday evening of next week the Royal Neighbors and Modern Woodmen will have a hard time, indeed at the Fair tent hall, to win the public's cordially favored.

Mr. W. J. Thompson underwent an operation in Harper Hospital, Detroit, last wednesday. He is getting along well and expects to be able to return home within a few weeks.

The new platform scale installed by the Northgate Lumber & Coal Yard were damaged the first of this week. They have a capacity of twenty-four tons and are large enough to accommodate a truck and trailer.

The people of the state will demand the action of Governor Grossback in forbidding the holding of sparring matches on Memorial Day. This is one of our most sacred and hallowed institutions and ought not to be desecrated.

Northville's new swimming pool is enclosed and the roof completed. The roof and side walls are covered with asphalt shingles, making a very attractive exterior. The new pool will be a credit to Northville and its owners when completed.

The manager of the Hot Tamale has set four o'clock for the ball game on Monday so as not to interfere with other events of the day. Mulread of Belleville, a young catcher now acting for Wayne in the Masonic league, will be behind the bat for Northville to receive German and Hutchins, who will do the pitching.

The new pavilion just completed at Cazenau Shores, Walled Lake, will be formally opened with a dance on Saturday evening—to-morrow night. Finzel's orchestra of Detroit has been engaged to furnish music. The new structure is the largest of its kind in Oakland county and has a wonderful dance floor, it is said.

The Northville Foresters' ball team was defeated by the Commerce team at Walled Lake Sunday by a score of 7 to 3. This was the Foresters' first game of the season and naturally the team was not in good working form. The management of the team promises to have a real ball team, however, when all the players have been assigned. On Sunday afternoon they will play the Oddfellows' team of Pontiac on the local grounds.

Dr. McIndoo, superintendent of the Ford Republic, a home for boys, addressed the young people's meeting at the Presbyterian church Sunday evening. He told in an interesting manner of the work and purposes of the institution and explained the method by which the boys were permitted to govern themselves. The Republic has its own officers and a court before which tribal all offenders are brought for hearing. Punishment to fit the offense is meted out by the court and its decisions are recognized as the law of the institution.

Mrs. H. B. Jones of Novi was in Northville Friday afternoon.

Wren Stillwell and family now occupy the Barnhart residence, next to the Library building.

The heat of Sunday and Monday was most oppressive. Tuesday night a fine rain visited this section and the shower was very welcome.

Beginning Saturday night there will be dancing at Taylor's Walled Lake pavilion each week. On Monday evening next there will be a special party. Stone's famous orchestra of Detroit will furnish music for the dances throughout the season.

TAKE NOTICE.

For some time past certain persons have been dumping rubbish on the Ford property in this village, and this is to notify all that the practice must be stopped. Should the practice continue prosecutions will follow. A word to the wise ought to be sufficient.

WHEN THE NEIGHBOR'S CHICKENS GET INTO YOUR YARD

For the dogs dig up the cover bed, or they gossip about you or play the corner at night you generally get peevish.

What is it to be a good neighbor—permit such items of selfishness as represented by the foregoing list or so managing your affairs as to make it easy for folks to get along with you.

If there is vitrol—prussic acid or rattle snake poison on the tongue every time certain people's names are mentioned can that be considered the work of good neighbors?

Does every man who falls on the straight road have a good name, can finally reach him?

Who is my neighbor? That is an age-old question. It bobbed up in Eden when Adam and Eve did what they were told not to do. Not very good neighbors to do you think? Anyway this subject will be present Sunday at 11:30 at the

IT MUST NOT BE AGAIN.

Fitting and tender memorial services were held at the Bobbed pier on Slavy's afternoon over the remains of many thousand American soldiers who gave their lives overseas. A great concourse of people gathered again by every thoughtful American. He paid a splendid tribute to the American soldier and with his simple services were President, and Mr. Harding who were moved to tears as they viewed the rows upon rows of flag-draped coffins which were crowded into the great building. President Harding placed a wreath upon one of the caskets and it happened to be the one containing the remains of a Michigan soldier—Joseph W.

Gurton of Bayard, who was the first of which men are not willing to fight, and the American forces to give up his life; it need be to die, but I do wish for a nation where it is not necessary to stand with uncovered heads and tear-stained faces, the president delivered an address which should be read again.

"It must not be again." God grant that it will not be again. Let a practical people join in co-operation with God to end that

which is nothing more suitable for the purpose than gladiolus. Plant a few now and some later to furnish

"I would not wish a nation for a good supply."

MEMORIAL DAY—1921.
In Flanders Fields sprangtime has come again.
With rain and leaf and buds screened Decking in nature's bonitoons, kindly way.

The hallowed ground where rest our soldier dead
This Memory Day the soul of wounded France Receives the homage of a common host For cradled in her bosom now she holds The gallant youth whom Allied nations lost.

No more they'll hear at eve the bugles blow.

Or see the welcome gleam of homey fires Their marching feet are free from aching strain; They shall not heed the urge of old desires.

On that those pilgrims from a thousand ports Who journey forth to view this sacred ground May fair conceive and truly understand The sacrifice they made ere peace was found.

Let them there be there in the spot Where, facing the sea, their life's sun set And we, in keeping faith with those who taught Cherish their memory! Let us not forget!

Northville School Notes.

June 3rd Trenton H. S. team will play at Northville.

June 7th Farmington will come to Northville with an undefeated team promises to be the best game of the season. Remember the date, June 7th at 3:30

The Komo-Kimo-Klub of Senior girls and eight guests enjoyed the hospitality of the club house at Walled Lake on a week-end party May 20 to 22. The "caperones" were Mrs. Treval and Mrs. E. C. Vurdock. The beautiful weather helped the girls have a good time and a good coat of sunburn.

One week from this Friday the Parre Entertainers will give a fine musical program in the auditorium of the High school building for the benefit of the High school. Admission will only be 25 cents to children and school students and 35 cents to adults. The program will be varied and represented by Mr. Parre, violinist, Mr. George Robinson, harpist, Mrs. Alice Fisher Parre, pianist and Leo Huffman Hitler, reader. Be sure and come and enjoy a splendid evening of music.

Last Friday Northville won from Trenton by a 23 to 1 score. G. Hammond pitched for the N. H. S. nine and about six different men for Trenton. Northville came to bat first and everyone hit the ball; some for singles, some for doubles, others for triples and Moffit for a home run. Before the T. H. S. could get three men out eleven Northville men had crossed home plate. After this ending the Trenton boys settled down to baseball and showed some good playing. Their left fielder made a good play on a long fly by Stillwell. They also exhibited some good hitting.

Monday evening the students and teachers of the Junior and Senior High school listened to a very interesting and helpful address by Fred Fisher, assistant county school commissioner. Mr. Fisher's subject was a combination of the following—Sportsmanship, courtesy, loyalty. Each of these were developed in such an interesting manner that all were impressed with their significance. Mr. Fisher paid a nice tribute to some of Northville's leading citizens (Mr. Cass Benton), as a living example, of courtesy and urged us all to cultivate this side of our nature. He urged us also to be sportsmen and not sports, and at all times to be loyal to those with whom we are associated. Mr. Fisher will always be welcome to our school and we hope that he will come often.

"BROKEN BLOSSOMS" COMING NEXT WEEK.

An extraordinary interest not only to lovers of the motion picture, but likewise to all who appreciate the highest in art in its various manifestations, is the announcement of the Alseum theatre that it has secured David Wark Griffith's super screen creation "Broken Blossoms" to be shown Thursday and Friday nights of next week.

Never has a motion picture been accorded a reception comparable to the triumph that has followed every showing of this production. Newspapers have devoted column after column to its beauties and wonders. Everywhere its success has been instantaneous and it is safe to say that in bringing "Broken Blossoms" to Northville the management of the Alseum has to its credit the biggest accomplishment in artistic entertainment that we have yet enjoyed.

Wixom Whisperings.

The Misses Alma and Ruth Porter were Pontiac visitors last Saturday. Mrs. Robert Cole entertained her father from Detroit, a part of the week. Mrs. Louise Oldenburg of Grand Rapids is visiting her son, C. J. and Carl Oldenburg.

Mrs. F. Wagner of Wixom and Mrs. Schmidt of Kensington, were Detroit visitors Tuesday.

Born, Thursday, May 19th, to Mr. and Mrs. Bertil See, an eight-pound daughter, Maxine Adeline.

Mrs. Alice Bennett, who spent the winter in Aberdeen, Washington, returned home the first of this week.

The Seniors held a party at the home of Shirley Johnson Wednesday evening. Ice cream and cake were served.

The Community banquet will be held in the town hall Friday evening,

May 27th. A fine program has been prepared in connection with the supper Everybody invited. One dollar for banquet and program.

Come and Have A Good Time!

500% Per Year for 18 Years

Do you know that during the past few years resort property in Florida has proved the best investment in the world? Read these authentic statements from a Miami, Fla., publication regarding lots in that city:

A lot year one-half acre 42 and one-half acre 1 or 1½ in St. Mt. sold for \$20,000. A lot year one-half acre 1 or 1½ in St. Mt. sold for \$10,000. A Ave. D one-half acre lots could be bought as low as four years ago for \$100. Today they sell for \$10,000.

Instances like these could be multiplied from all over Florida. Within ten miles of Villa Tasso is property which could have been bought only four years ago for less than \$100 per acre. Today quarter acre lots there are selling at from \$1,000 to \$1,500 each.

Villa Tasso

It is not expected that Villa Tasso lots will show quite such a phenomenal advance as this, but those familiar with the situation predict that values will advance from 100 to 400 per cent within the next two years. If you ever expect to own a home in Florida, this is your opportunity.

Villa Tasso is very beautiful. It is high and healthful. It is wonderfully located, directly on Choctawhatchee Bay, with the Florida National Forest for a background. Here are found huge oaks, magnolias, pines, holly, etc., with many varieties of flowering shrubs. There are no mosquitos. It is a delightful place to live, summer or winter. For fishing, hunting, bathing and boating it is unexcelled. Reached either by boat or auto.

Send for illustrated literature, prices, etc. It will pay you.

TUBERCULIN TESTING CONFERENCE CALLED.

Conference of veterinarians who are to take the U. S. Bureau of Animal Industry tuberculin testing examination on June 25, has been called at the Michigan Agricultural College from June 22 to 24. The conference which will be handled by the Veterinary division at the college co-operating with Drs. Bush and Newson, state inspectors for the U. S. Bureau, will review various phases of the tuberculin testing work, in preparation for the examination.

The purpose of the examination is to qualify veterinarians to take over accredited herds. Unable to be handled alone through its regular inspectors, the Bureau of Animal Industry is looking for veterinarians qualified for the testing work.

Examinations will be held at various places in the state including Detroit, Lansing, Jackson, Grand Rapids and other centers.

WORKING FOR BETTER MARKET-ING CONDITIONS.

Farmers from Oakland, Wayne and Genesee counties met in the Detroit Board of Commerce Friday to assist in forming the program of work for the new agricultural division of the board.

Wayne County was represented by Wilson Carmichael, secretary of the Market Gardeners association.

The principal subjects discussed were marketing of farm products from the surrounding counties in Detroit, ways and means for simplification of methods and the co-operation of business in helping farmers obtain longer term seasonal credits.

It was pointed out by G. A. Bingham, organizer of the state farm bureau now in charge of the Board of Commerce agricultural division, that people in the city rapidly are coming to a realization that farmers have peculiar problems and that the city folks through the agricultural division are ready to try to work on these problems.

GIVEN LONG PRISON TERM.

John Barrigan, Detroit business man, convicted Saturday of a charge of involuntary manslaughter after an automobile accident in which a D. A. R. girl laborer was killed, Monday was sentenced to from five to 15 years in jail on prison, without recommendation. Barrigan, according to testimony at his trial, had been driving and in automobile struck the girl laborer.

NOTICE TO CONTRACTORS

Assessment District Road No. 292, Oak, Land and Wayne Counties, Mich. began.

Sealed proposals will be received at the office of the Board of County Road Commissioners of Oakland County, Court House, Pontiac, Michigan, until 10 o'clock p.m., Central Standard Time, Thursday, June 9th, 1921, by Frank F. Rogers, State Highway Commissioner, for the improvement of S. 61/2 miles of road in Oakland and Wayne Counties, Mich. in lots as follows:

Commencing at the north section corner common to sections 26 and 27, town 1 north range 8 east, Novi Township, Oakland County, then east on the section line between sections 26-27 and fractional sections 34-35 to the south section corner common to said fractional sections 34 and 35, thence east on the county line between fractional sections 35 and 36, town 1 north, range 8 east, Novi Township, Oakland County and fractional sections 2 and 1, town 1 south range 8 east, Northville Township, Wayne County, to the east section corner common to said fractional sections 26 and 1, thence continuing east on the county line between fractional sections 31, 32 and 33, town 1 north, range 8 east, Farmington Township, Oakland County, and fractional sections 6, 5 and 4, town 1 south, range 9 east, Livonia Township, Wayne County to the south section line between fractional sections 33-34 and sections 27-28 to its intersection with the Grand River Road in the Village of Farmington.

The work will consist of shaping the road, constructing the necessary drainage structures and surfacing as follows:

Section 1 = 6.951 miles of 12 ft. gravel (Trunk Line Specific).

Section 2 = 1.650 miles of 18 ft. to 46 ft concrete or bituminous concrete in Farmington Township.

Plans may be examined and instructions to bidders, specifications and proposal blanks obtained at the office of the Board of County Road Commissioners of Oakland County, Court House, Pontiac, Michigan, at the district office of the State Highway Department, Port Huron, Michigan; and at the office of the State Highway Department, Lansing, Michigan. Plans will be furnished by the undersigned upon receipt of a deposit of five (\$5.00) dollars which will be refunded upon their safe return.

This road is to be built under direction of the State Highway Department funds being secured by the sale of bonds based on a tax upon a special assessment district and upon the townships of Novi and Farmington in Oakland County, and Northville and Livonia in Wayne County, and upon the counties of Oakland and Wayne at large.

Bids at unit prices will be received for either section complete or both sections together.

A certified check in the sum of Five Hundred (\$500.00) dollars made payable to Frank F. Rogers, State Highway Commissioner, must accompany each proposal for each section.

The right is reserved to reject any or all proposals.

FRANK F. ROGERS,
State Highway Commissioner,
Lansing, Michigan, May 11th, 1921.

The following communication relative to the water works was received from G. W. Hubbell consulting engineer.

CLARENCE W. HUBBELL,
Consulting Engineer
Detroit, Mich.

May 20, 1921
The Village Council,
Northville, Michigan.

Gentlemen: In accordance with your instructions we submit blueprint plan of your water system and profile of gravity supply together with the results of tests and recommendations.

(1) Under test on May 13th the covered-spring after 5 hours draining flowed at the rate of 188,000 gallons per day. The open spring delivered 150,000 gallons per day, making the total of the two springs on the above date 338,000 gallons per day.

(2) The pipe lines from the springs to the receiving well showed by test that they are adequate to carry 400,000 gallons per day with a friction loss of 2.5 ft. The pipe line from the open spring to the receiving well shows a poor flow. The profile of the ground line indicates possible high points in the line. These should be uncovered and relieved with air valves.

(3) The profile of the 19-in. line from the receiving well to the reservoir is shown on the blueprint. A drop of 2.5 in. was measured between the water surface in the well to the high point on the line near the reservoir. With this gradient the pipe line will deliver approximately 225,000 gallons per day if no air pockets or other plugs exist. This is the maximum that the pipe will deliver under present conditions. If air pockets exist the amount of flow will be greatly decreased. Hand operated air valves have been placed on most of the high points in the line as shown on the profile. Regular weekly inspection of all air valves should be made to insure proper operation.

The capacity of the gravity line can be increased by lowering of the rock cut section at the reservoir as indicated on the drawing. If pipe is lowered to this grade it will deliver approximately 400,000 gallons per day, which is the maximum that can be expected from the springs during a wet season.

(4) The reservoir at the present water level has a storage capacity of 300,000 gallons. A test of the discharge on May 13th showed a rate of use of 180,000 gallons per day. This indicates that there is no appreciable leakage in the reservoir or the distribution system pumping Supply.

A test of the pump—the overflow weir at the pumping station showed discharge of 200,000 gallons per day. The pump was tested at various heads with the following results:

Pump and Motor Overall Pressure Delivery > 120 ft. 16.7
60 lbs. 192 gpm. 16.7
70 lbs. 120 gpm. 18.0
76 lbs. 69 gpm. 22.0
80 lbs. 38 gpm. 20.0

The static pressure in the system at the pump is 60 lbs when the pump is in service. The above tests clearly indicate that the pressure at which the pump should be operated should not exceed 65 lbs, at which pressure the discharge will be approximately 160 gallons per minute. In order to reduce the present excessive friction loss we recommend that a 4-in. connection be laid to connect with the existing system at Amherst and Clover avenues.

When an additional pump is required an 8-in. line should be laid from the pumping station to Main and Center streets, to connect with the present 18-in. main.

Recommendations:

(1) The rock portion of the 19-in. gravity line should be replaced with cast iron and laid to a grade as indicated on the profile. The length is about 2,300 feet.

(2) Place air valves on high points not now relieved, make weekly inspection of all air valves.

(3) Lay 4-in. main from pump as indicated on the drawings. This line will increase the capacity of the pump unit and will reduce the pumping cost.

Respectfully submitted,

CLARENCE W. HUBBELL,
Consulting Engineer.

On motion Council adjourned.

T. L. MURDOCK, Clerk.

South Lyon Walter E. Hastings has established a record for state ornithology by discovering a colony of black crowned night herons on Harsten Island at St. Clair Flats. The colony consists of about 500 birds who occupy 200 nests. He also found on Dickson Island a large colony of great blue heron and also of white heron.

Compass at South Pole

At the South magnetic pole, which is a long way from the geographical South pole, a compass needle suspended so as to swing in a vertical plane, dips until it reaches a vertical position with the south end downward.

An ordinary compass needle suspended so as to swing horizontally only becomes sluggish near the poles and magnetic forces of the earth tending to pull one end of the needle down, instead of making the needle swing.
