TWO U. OF M. BOYS MEET INSTANT DEATH

Last Thursday night, about midnight, at Jerry Lappam of this village, was returning from Ann Arbor he discovered an overturned automobile in the highway at the corner of the Ann Arbor road south of Worden. The wreck aroused his suspicions, and he made a hurried investigation with the result that he found the bodies of two young men lying in the road a short distance from the automobile. The car was a big Mercier and judging from all appearances, was being driven at a rapid rate when the accident occurred. There is a sharp curve in the highway at that point and as the young men had evidently never driven over the road before, they were not aware of the danger.

The unfortunate young men were students of the University of Michigan and were about 20 years of age. They were William Graver, Jr. of Chicago and Manley Kerns of Lansing, whose father is proprietor of the Kerns Hotel in that city. Graver was a sophomore while Kerns had just arrived at the institution to enter upon his freshman year.

Land seekers and investors here is something certainly worthy of your immediate consideration. I have 160 acres in township 4 Canton, Wayne county, only a few rods from Warren Ave. two good homes one set of buildings, could not be replaced for less than \$10,000. You know all about the quality of this land if you ask your friend, also what it is selling for together with the wonderful features—ever increasing value, sure to double, with very bright possibilities of soon being worth 4 times what I ask. Force sale must be sold, \$20,000 takes it. First come, first served. This is the last I do not desire to have to run in my side papers. Will call on anyone for personal interview. THE FAIR IS A HUMMER

Brennan, Fitzgerald & Sible are on the grounds with their fine herd of Jersey cattle. Chris Neilson is in charge of the display and has a very attractive exhibit. The Detroit Board of Health has a booth in this tent also, in which demonstrations are being given on the proper care of milk. J. A. Huff, the Northville Electric Shop, Floyd G. Shafer, E. E. Fields, Schrader Brothers, Northville Milling & Lumber Co., Mrs. R. Wolfe & Son, Detroit Creamery, Detroit Tuberculosis Society, Homer Furnace Co., among those who have attractive displays in the main building.

The antique department is attracting a great deal of interest and many interesting things are on display. The display of the Northville schools is very attractive. This was arranged by Misses Mulford and Foster and their very able and efficient assistants from the students of the High school. The Boys' and Girls' Clubs of Wayne county have an exhibit all should visit.

The display of fruit and vegetables is most creditable in spite of the unfavorable season. The poultry and pet stock show is bigger than ever and Superintendent Fuller was compelled to send some exhibitors away for lack of room.

There is a noticeable improvement in the arrangement and 'lay-out' of the grounds this year.

USE POLICE CAR TO DELIVER RUM

SEVERAL OFFICERS INVOLVED IN REVELATION OF CHICAGO POLICE SCANDAL.

\$5 A CASE BUYS PROTECTION

Chief Fitzmorris and District and Federal Authorities Join in Fight on Bootleggers.

Chicago—Evidence that whiskey had been delivered from bootleggers to their customers in the police patrol of the Grand Crossing precinct is in the hands of Federal authorities, the district attorney's office announced Monday. An extra charge of \$5 a case was assessed for use of the patrol and a uniformed escort of patrolmen. Assistant District Attorney Merensky said.

A police captain, 25 patrolmen and 20 saloonkeepers from the South Side police precinct were called before United States District Attorney Clyn, in connection with alleged whiskey 'shake downs' uncovered by the arrest last week of three police sergeants.

The move against liquor law violators in the police department was proceeding from three angles. Chief Charles Fitzmorris, who has charged that 2,500 policemen are bootleggers and law violators, and who transferred 500 officers and men in one shake-up order, was continuing his investigation.

District Attorney Clyn promised Federal assistance in ridding the department of law violators. John Kjellander, Federal prohibition director, promised assistance of his department. He ordered Patrolman David Ransford to appear and explain a failure to hold a man caught delivering a gallon of liquor.

Harry L. Brin, assistant district attorney, announced that he had learned policemen involved in the liquor scandal were raising a huge defense fund in the department and had hired a number of prominent lawyers.

Ransford was held in \$5,000 bonds. De Charles Moore, and Mr. and Mrs. John C. Allen, were taken in custody at their homes and held in \$2,500 bonds each in the same case.

Capt. Michael Gallery of Deering street station, where three sergeants were arrested last week, for conspiracy to steal 215 cases of whiskey, was called to the Federal building, with his son, Robert Gallery, and 15 patrolmen.

LABOR CONFERENCE IS OPENED

President Harding Addresses Men Called in Unemployment Crisis.

Washington—The National Unemployment Conference, which the Administration hopes will evolve means of putting the nation's involuntary idle back to work, was formally opened here Monday by President Harding. Addressing the half-hundred industrial, economic and labor leaders comprising the conference, the President described the present industrial depression as a 'war inheritance throughout the world.' As far as the United States is concerned, he added, he would have little enthusiasm for any proposed relief which seeks either palliation or tonic from the public treasury.

Belief was expressed by the President that the results of the conference would extend beyond the borders of the United States, and that the delegates in their deliberations would be performing 'a service to the world.'

KNOWING ONE THING TO THE LIMIT

That is Edison's way, also Rockefeller—Schwab and hosts of others.

Paul of Tarsus was like that too. He was a tent-maker by trade—a preacher by choice—a staunch friend of God as a business.

You have a chance of becoming an expert in your line if you stick until the eleventh hour and sixtieth minute.

Chicago's motto is "I will" and Paul adapted his slogan "I determined" and that upholding will made him a world leader even to this day—1900 years after his earthly career ended.

What do you know to do all the way thru—every phase in angle?

DAIRY COW COSTS SHOWN BY RECORDS

Figures on the cost of maintaining dairy cows, just released by F. T. Riddell of the farm management department at the Michigan Agricultural college, give \$142.80 as the total direct cost per cow during the past year in the average herd. The material upon which this estimate is based was gathered from a cost accounting route in Wayne and Monroe counties, which included 529 animals on 3 different farms, and was checked carefully by W. J. Kurtz, of the college staff.

Returns from the herds studied on the route totaled \$235.06 per cow,

leaving a net average return above direct costs of \$92.26 a year per cow. Costs included \$103.36 feed per cow, and \$39.44 for other costs, including maintenance of entire herd and feed for young stock and bulls. Returns included \$175.38 for milk and cream sales, and \$59.18 from other sources, including sale of stock and manure, and dairy products used in the home.

Man labor required to care for one dairy cow was found to total 151 hours a year, at an average price of hired labor of 24.9 cents per hour, including board. Total investment per cow ran to \$357.05, equipment and buildings being included in the investment figures.

An interesting feature brought out in the records was the fact that different herds, because of greatly differing production ability per cow, showed decided variance in earning power. Nine herds averaged 8,325 pounds of milk a cow, for a net return of \$111.62 a head; while eleven herds averaged but 6,310 pounds of milk per cow, for a net return of only \$52.94 an animal.
