AMPHITHEATRE TO BE FEATURE AT SANATORIUM

The finishing touches are being put on the Detroit Tuberculosis Sanatorium and it is expected to open the institution about January 1st. In this week's installment Mr. Maybury tells us about the drives and the amphitheatre to be constructed.

Ten miles of drives, artistically planned to thread their way through well laid out grounds would ordinarily mean the employment of a skilled landscape architect to make the design and a good engineer to put it into execution. This expense, however, was obviated by the fact that Mr. Maybury was capable of filling both roles. He first studied his territory to get the most beautiful effective, and at the same time practical results; then he planned the layout of the drives and grounds. When he was sure his plans would work out successfully he told some of the board of health employees to attach a road scraper to the tractor and follow him. Then he walked ahead of the machine, following out his own plans and guiding the men accordingly. All the road grading is being done by the board of health employees operating a tractor owned by that department.

If the plot of ground on which the municipal sanatorium is being erected were plain land devoid of trees the purchasing, hauling and planting of those trees would amount to considerable expense. Realizing this, Mr. Maybury is particularly anxious to save all the trees and prevent their being sawed down. There are some places near the building where the shade of so many trees is necessary to make the corners of which the department of health is so proud. Where it is possible the trees will be trimmed and the branches thinned out to admit the light. But if the trees are too much in the way they will be transplanted where shade trees are less plentiful. No tree will be wasted by taking it out of the ground and allowing it to die.

In front of the infirmary is a natural amphitheatre which will be made into a recreation field where patients who are able may indulge in such sports as tennis, croquet and base ball. Surrounding this amphitheatre are beautiful bits of woodland through which winding paths will be made so that the ambulant patients may wander through them and enjoy their beauty. These woodland nooks have a practical use, too, Mr. Maybury pointed out. On winter days patients will find shelter from the too strong breezes blowing among the trees.

Of course we will have benches along these paths too, and this in-charge place where economy was the end purpose Mr. Maybury said. "We have a number of men employed here to work the farm in the summer time. In the winter instead of allowing them to remain idle, we can keep them busy making rustic benches to scatter through the woods."

Patients who are not able to walk about will not be deprived the pleasure of the woods, however, thanks to a clever plan of Mr. Maybury's. The laboratory and operating room is a one-story addition to the main building, and is built so that it extends out to the edge of a patch of woodland close by. On the roof of the laboratory is a good-sized area that would otherwise go to waste. If Mr. Maybury had not decided to turn it into a little roof garden patients in wheel chairs can be wheeled out upon it, and enjoy the surrounding woods without any tiring exercise.

Ever since ground was broken for the sanatorium in 1920, when he assumed charge of its construction, Mr. Maybury has been preaching and practicing the doctrine of economy. As an example of his sincerity to carry this out to the letter he accepts no remuneration for his services. He has been on the ground superintending construction every day since that work began nearly three years ago. The layout of the buildings, the details of actual construction, the layout of the roads and of the landscape, all reflect Mr. Maybury's art and understanding of this work.

Mr. Maybury is well known to Detroiters as a member of the Maybury family which has long been identified with the history of Detroit. During the term of 1902 to 1905 Mr. Maybury held the office of commissioner of public works.

for tubercular adults, a permanent unit for tubercular children and a summer camp for children, exposed to and in the incipient stages of the disease," Mr. Maybury said. "The main buildings will open Jan. 1 and in looking back over the period of construction, I believe the success of what we have accomplished is due to the co-operation of the board of health and the people of Detroit with those directing the work of construction. I have been more or less interested in municipal activities for between 35 and 40 years and I have never known a group of men to give such encouraging support to an undertaking as the members of the board of health have given in this work. It was also encouraging to know that the people of Detroit approved of our policy as evidenced by the fact that when the bond issue for this institution came to ballot, it was passed by an overwhelming majority, but we have made every effort to show how we appreciate that generosity by saving as much as possible. In every instance, where there was some problem of expense to solve, we found the answer in the word economy."

MAJORITY FOR SEWERS WAS OVERWHELMING

At the special election held on Monday of which the voters were given an opportunity of voting upon the proposition of bonding the city in the sum of \$110,000 for the construction of a sanitary sewer system and a sewage treatment plant the vote was almost unanimous in favor of the proposition. The election was held on a very quiet day and the argument for or against the proposition was heard from many women who were at the polls and in almost all cases the vote was favorable to the proposition.

There were 250 votes polled in support of the proposition and there were 218 voters who declared themselves in favor of the proposition and but twelve opposed. In precinct No. 2 there were 271 votes cast, and of this number 255 were "yes" and but sixteen registered "no."

The overwhelming majority in favor of the proposition is really quite remarkable and we doubt if any other village the size of Northville ever made such a record. Such propositions usually receive but a small majority, but this is not Northville's way of doing things. When the street paving bonds were voted the question was carried almost unanimously.

The question of constructing an adequate sewer system in Northville has been under consideration for many years and the present plans and specifications—except as to certain changes were prepared under present-day conditions—we prepared in 1917 but the matter was never before presented to the voters for their acceptance or rejection.

The proposition was presented on Monday and during the day preceding the election it was most commendable and it is to be hoped that the voters of Northville will be satisfied.

HUSBANDS WERE GIVEN A GOOD CLEANING

The "one-act play," "Cleaning a Husband" presented at the Alselum theatre on Monday evening under the auspices of the W. P. C. drew a scanty house, in fact, more people purchased tickets than could secure admittance to the hall and in consequence of that condition the play will be repeated on Friday evening of next week—December 2nd. The parts were all well taken and the piece was presented in a very creditable manner, much above the average for home talent.

Specialties were introduced between acts and each number was well received. Margaret Sanford gave a song and dance number and was compelled to respond to an encore. Northville's male quartet composed of James VanDyne, Roy Clark, Wayne VanDyne and Ray VanValkenburgh, sang a number of selections and every one was heartily applauded. Mrs. Ward gave a reading, which amused all. Perkins' orchestra furnished music during the evening and this feature added greatly to the enjoyment of the immense crowd.

If the men of this community are not shown a thing or two as a result of the play we shall be very much surprised.

The King's Daughters will have a handkerchief sale and supper at Forester hall on the evening of December 7th. Keep the date in mind and plan to assist this very worthy organization by your presence and patronage.

THANKSGIVING

Each and every one of us have a lot to be thankful for, and while Thanksgiving Day is naturally designated as a time for giving thanks, we believe in giving thanks throughout each year to the many patrons of this store, who deserve much credit for the success of our business. The large patronage we enjoy and our hundreds of permanent customers, who come again and again is a gratifying evidence that we are thanked for our many efforts in providing good merchandise at lowest prices for our endeavors to please and satisfy.

Colder Weather

Is just around the corner—so we are told by the weather man. Are you prepared for winter? Have the doors and windows all been made wind-proof? Don't you need a new Heating Stove for the living room, a new Range for the kitchen or an Oil or Electric Heater for the bedroom or bathroom?

For all of these needs we have the necessary things to supply you and we invite you to call.

We especially want to call your attention to the Estate Heat-rola—the parlor pipeless furnace—we are showing. Here, we believe, is the final solution of the heating problem for small homes—with or without basements. Estate Heat-rola is not a stove, but a practical and efficient pipeless furnace that offers all the comforts of warm air heating at very low cost. Estate Heat-rola supplants stoves and fire places! It heats 3 to 6 connecting rooms, and heats them better than an ordinary stove heats one.

It looks like a handsome cabinet. Phonograph. You can rub it and dust it with a cloth, just as you do your furniture. Burns any grade of coal—hard or soft, lignite or slack. Guaranteed to keep fire 50 hours on one change of coal.

GROVER SIMPSON, Propr

BRIAND SPEAKS OF FRENCH PERIL

PREMIER PRESENTS FRANCE'S POSITION AGAINST DEMORALIZED EUROPE.

MAY SHELVE LAND ARMAMENT

Conference Likely to Confine Efforts to Naval Questions; Britain Re-opens 55% Proposal.

Washington—Speeches of the late war tell aheadward the armament conference Monday. Europe's concerns were thrust to the front for the first time in the third open session.

M. Briand presented France's brief for the world's consideration, told in lucid, logical verbiage and fiery, exalted manner, France's position as the carpost of the settled world against demoralized uncharted eastern Europe.

Delegates of other powers applauded his religious fervor, recognizing his country's necessity for a large military force, voiced in the case of the United States and Great Britain a polite assurance of Anglo-Saxon sympathy for France, as she again is engulfed, and then adjourned to real problems of the conference.

The western world is gratified France is willing to undertake the business of being a bulwark against possible inundation from Germany or Russia, at no expense to the western world.

It was an interlude. The matter of land armament restriction is before the conference only casually, although Mr. Hughes announced at the close of the session it would be considered by the armament committee.

There will be no compromise of the 5-5-3 ratio of capital ships as proposed in the American naval limitation plan for the United States, Great Britain and Japan.

This was, assured Monday when Great Britain, seconded the emphatic stand taken by the United States, in the face of Japan's plea for a greater allowance of capital ships, that the only way to stop the mad race for naval supremacy is to stop building warships and to adhere to the existing relation of naval strength.

GIRL NAMES DOCTOR AS SLAYER

Ardith Monroe Declares Prominent Man Attacked Her Mother

Downsac—Ardith Leona Monroe has caused a sensation here as great as was occasioned by the murder of her father, mother and sister, Sept. 17, as a result of her naming a prominent local physician as the slayer.

The 12-year-old girl declares in an affidavit that the physician attacked her mother, that Nava, the sister, cried: "Don't you hurt mama!"—and that all was blank to her after that. County officials who have interviewed the physician declare the girl's charges absurd and impossible. The community holds him guiltless. He has witnessed to prove his whereabouts every hour of the night of the crime, he says and is anxious for a hearing.

How the girl came to make the charge is the big topic of conversation here today. Did Ardith see the slayer or does she only think she saw him?

WATSON SPEAKS FOR NEWBERRY

Georgia Senator Also Makes Attack on Henry Ford.

Washington—The first senator on the Democratic side to come to the aid of Senator Newberry in the Ford-Newberry contest spoke Monday in his behalf. It was Tom Watson, of Georgia, life-long Populist, last year elected to the senate on a platform opposing the League of Nations and hitherto classed as uncertain in the polls made in the senate.

Watson's defense of Newberry and attack on Henry Ford at the last of Monday's debate provoked Senator John Sharp Williams of Mississippi to speak in defense of Ford and to attack Watson.

LAST DEFENSE FAILS LANDRU

Man Accused of Slaying 11 Women Can't Produce One of Group.

Paris—Henri Landru has failed in his attempt to produce in court at Versailles, where he is on trial for his life, any one of the 11 women whom he is alleged to have slain for small sums of money. Had he produced only one of this tragic group or even some evidence to create a reasonable doubt as to the death of any one of his alleged victims, he almost certainly would have gone free.

DETROIT AND D. U. R. ON TERMS

Exchange of Running Rights Will Result in Unified System.

Detroit—Only minor details remain to be worked out before Detroit will have a complete unified street railway system, with city cars operating over the D. U. R. tracks, and the company having running rights over sections of the city's system.

The universal transfer will be the last step in the negotiations for peace between the city and the D. U. R., both sides now believe.

VOICES

By Emanuel G. Frank

There's a wondrous thrill of pleasure
When you see the form and face,
Of some loved one in whose presence you rejoice,
But the joy there is in seeing
Can't compare with what takes place,
When you hear the magic music of her voice.

Be it mother, wife or sweetheart,
Be it sister, daughter, friend,
As within your waiting vision each appears,
While your heart may leap to see them
What is better in the end,
Than their eager voices sounding in your ears.

But remember as you listen
That these sweet and nameless thrills,
Find an echo and an answer rich and true,
In the hearts of cherished loved ones
Which alone your voice fulfills;
For when all is said, your voice is really you.

So when travel takes you from them
Let them feel how much you care,
Let them know you haven't left them all alone;
Let them feel in fullest measure
You, yourself, are standing there;
Let them hear the voice they cherish through
[the phone.

Week's News in Brief

Women Deacons Now Sanctioned.
Philadelphia.—Women may be ordained as deacons under a decision of the Presbyterian General Assembly, announced at Presbyterian headquarters. The decision follows a vote by Presbyteries, a majority favoring the admission of women to the ministry.

Explosion in Berlin Kills 10.
Berlin.—Ten persons were buried alive in the ruins and 30 were injured in a terrific explosion in an oil refinery at Otzheim, near Wiesbaden, according to advices received here. Damage was estimated at 25,000,000 marks. Cause of the explosion was unknown.

Plan T. R. Monument at Panama.
Panama.—A monument to Theodore Roosevelt is to be erected on Ancon Hill overlooking the canal in whose construction he took such a great part. The idea which was originated by J. H. Grieser, canal-zone swimming director, has been approved by the authorities.

War Record Secures Release.
Flint.—Because of his records in the Spanish and World Wars, Elmer Martin, who confessed to stealing bed bugs and other articles from a second-hand store, here preparatory to wedding the girl of his choice, was released on probation for two years by Circuit Judge Brennan.

Disinterment of Yanks Completed.
Brest.—Disinterment of the bodies of American soldiers buried here during the war has been completed. The army authorities have forwarded to the four permanent American cemeteries in France 1,080 bodies, removal of which the United States was not requested by relatives.

Wooden Water Mains Disappear.
Muskegon.—Wooden water mains, relics of the lumbering days, have finally been replaced in Muskegon. A survey two years ago showed the city still was using four miles of the old wooden mains. Although most of the mains were constructed 50 years ago, they were in fair condition when taken up.

5,555 Barrels of Wine Seized.
New York.—Wine supposedly manufactured for sacramental purposes, and valued at more than a half million dollars, was seized when 14 federal prohibition agents descended upon a winery in East Third street, confiscated 5,555 barrels of the fermented liquor, and arrested six men for violating the Volstead Act.

Envoy to Russia Recalled.
Riga.—Former Governor Goodrich, of Indiana, who went to Russia two months ago as a special investigator for Herbert Hoover, chairman of the American relief administration, has been recalled by cable and asked to return to America to report immediately on Hoover concerning latest Russian famine conditions.

"Big Tim" Given Six Years.
Chicago.—"Big Tim" Murphy for war state representative, gang leader and president of the gas workers and street sweepers unions, was sentenced to six years in Leavenworth penitentiary and fined \$20,000 by Judge Kenesaw W. Landis for his part in planning the \$260,000 Dearborn station mail robbery last April.

Claims Wife Misrepresented Age.
Grand Rapids.—Fred Harrington won a divorce in superior court from Mrs. Pearl Harrington because his wife claimed to be only 21 when they obtained their marriage license, although she was 26 at the time and because she failed to tell him she had been twice previously married and was the mother of children.

Publicity Causes Cancellation.
Houston, Texas.—The first "deed" to a child ever filed in Harris county, which was filed to make triply binding adoption papers, was cancelled. Publicity attendant upon the technical wording of the deed, \$19 and other considerations, was given as the cause for the withdrawal, as it was not desired that the child should go through life known as a \$10 baby.

3 Youths Marooned on Island.
Manistee.—Within range of the city's lights and with automobiles passing by, three Manistee youths were marooned on a sand bar in Manistee lake for seven hours. Their motor boat had broken down and the swift current forced them against an island. They were rescued by the coast guard crew which had been notified by relatives after the boys did not return.

Would "Cover" Magazine Girl.
Lewisburg, Pa.—More "cover" on the magazine cover girl is wanted by women of the Lewisburg Civic Club. Those maidens of fair face and form who regularly adorn the covers of the most popular and even the home type of publications are, forced, the women charge, to appear before public gaze with a shameful lack of clothing. The club members assert that this display of shapeliness in bathing suits and other negligee attire "does not add to our sense of modesty."

Yes

it's toasted, of course. To seal in the flavor—

GOOD CLOVER SEED SHORTAGE IS LIKELY

A great shortage of good stocks of clover and alsike seed is not unlikely, says the State Farm Bureau Seed department, pointing out that the American crop, according to Department of Agriculture statistics, is 30 per cent under the 1920 yield. It is also to be noted that the farm bureau that in 1920 the American market with a home crop 70 per cent larger in volume than the 1921 crop absorbed about 15 million pounds of imported seed. This year because of unprecedented droughts abroad, less than a million pounds of French seed is expected. Exposure of the worthlessness of Italian clover seed is expected to keep much of that stuff out of the country. Domestic seed markets are strengthening daily. The farm bureau is advising its members to get their seed early this year if they would have good crops.

ARE YOU A FARMER?

Are you a farmer? Not in the hidebound sense but as a progressive. If so the International Grain and Hay Show, under the auspices of the Chicago Board of Trade, at the International Live Stock Exposition, Indian Stock Yards, Chicago, Nov. 26th to Dec. 1st will afford you an opportunity to keep abreast of the times.

Agromomy, to use the scientific term, is a study essential to successful farming. Know the weeds and grasses so as to control your loss.

At this Exposition the recent work of the best investigators at the principal Agricultural Colleges of our country may be visualized. Theories will be expounded and practical demonstrations made, drawing here to those interested and every one should be instructed in as many possible novel lessons in such comprehensive form.

The Grain and Hay Show will not only be instructive, but spectacular. It is one of the greatest annual events in agriculture.

MICHIGAN HEN COMES NEAR WORLD'S RECORD

Coming within eight eggs of the world's record for her breed, and within twelve eggs of the all-breed record Mrs. Ann H. Barred Rock hen owned by the Michigan Agricultural college, has just completed a year's egg production which has won her a lasting place in the poultry Hall of Fame. Mary Ann laid the remarkable total of 393 eggs between Nov. 16, 1920 and Nov. 15, 1921.

Proof that "blood will tell" is given by the fact that Mary Ann H. has four sisters who produced between 200 and 250 eggs last year. She is the daughter of Mary Ann I, the founder of the now famous strain of Barred Rocks owned at M. A. C. The "Ann" family are to be on display for class work during the special poultry short course which opens at the college on November 25 and runs for four weeks.

HIGHWAY WILL BE IMPROVED.

Through the efforts of the officers and a special committee of the Northville Automobile club a conference was held at the office of President C. C. Yerkes last Saturday afternoon for the purpose of considering the improvement of a few hundred feet of the highway leading from the base of the road to the new State Highway. Commissioners Rogers of Lansing, County Road Commission Lajtel and Eugene Helms of Oakland county were present. After the condition of the road was fully explained to these officials it was agreed that the highway should be improved in the spring, and put in first-class condition.

This piece of road in question was evidently overlooked by everyone when the plans were considered for the improvement of the Novi-Northville-Farmington highway, and the omission was not discovered until the Novi road had been graded.

TOM CORWIN

America's Greatest Polyphonic Imitator to Give Us a Joy Night.

There are a great many entertainers whose business it is to make the public laugh—actors, magicians, elocutionists, etc., but as an imitator and humorist, Tom Corwin stands alone. His personality is sufficient to win an audience, and as the greatest imitator on the American stage, in conjunction with his humorous and literary selections, never fails to more than satisfy his audience with an entertainment of rare pleasure. Many of his imitations are so wonderful, that it leaves the audience spellbound, doubting whether he has not some artificial means to assist him. His abnormally developed faculty of imitation, working upon lungs and lips, is all the assistance required. The entire program absolutely is of the highest order. If you want to laugh and laugh, and laugh, then come and hear the only Tom Corwin. He can bark like a dog, crow like a rooster, and do so many funny things that you are continually kept laughing.

A HELPLESS BOAT IN A RAGING SEA

Heading for destruction with a crew and passenger list of 300. Who would not be afraid in such an unequal battle with a tempest tossed sea?

The man Paul who was aboard this ill-fated boat, according to an ancient record was sure—absolutely certain—not troubled by the shadow of a doubt.

This man had a faith that outtrode the storm—outlasted the driving gale—was superior to elemental fury—and that faith kept the whole crowd from going to Davy Jones Locker.

Novi News.

A shadow social was held at the Novi town hall on Tuesday evening for the benefit of St. Mary's building fund. Progressive pedro and dancing furnished the amusement.

FREIGHT WRECK NEAR NOVI.

Early last Friday morning a south bound freight on the Pere Marquette railway was wrecked near the crossing at the Novi cemetery and some fifteen cars were derailed, two of them being cut in two. The cars were loaded with miscellaneous freight and with their contents made a great pile. Fortunately no one was hurt as a result of the wreck. The crossing was blocked for a few hours.

LOT OF ARRESTS.

Last Friday forenoon a number of late police came to Northville and made a "burr-up" visit to the pool room conducted by L. C. on Main street. It is alleged a bottle of whiskey was found in Coo's pocket, but no other liquor was found about the premises. He was placed under arrest and taken to Detroit, where he was released upon \$1,000. Coo claims the bottle contained payment in full on his race horse.

SAVE FINE COVER.

The opening number of the "Save Fine Cover" course given by the Thursday evening by the church concert party in organization. One of the things which was given to the most enjoyable and many of the prizes ever given in Northville and was deserving of a much larger crowd. Every number presented by the talented young women was heartily applauded and from the first to the program delighted the audience.

The entertainment for the simple of what we may say the remainder of the evening we have it is portable will be a most enjoyable entertained by the winter. Citizens especially ought to purchase season tickets to encourage the Foresters in their efforts to bring to Northville the best of the character.

DISTRICT EPWORTH LEAGUE CO-LECT MEET IN YPSILANTI.

A meeting of the cabinet officers of the Ann Arbor district Epworth League was held at the home of the president, T. O. Huckle, Saturday when plans were laid for an active winter's work. Owing to removals from the district some changes were made in the officary, the following now being in charge:

First vice—Miss Mabel Chapman, Ann Arbor

Second vice—Miss Josephine Warner, Ypsilanti

Third vice—Evert Benton, Chelsea

Secy-treas—J. C. Springman, Pontiac

Junior League Supt—Miss Dorothy Butler, South Lyon

It was voted to hold two sub-district conventions in January, one at Acria and the other at Plymouth. The annual spring convention will be held at Northville next April.

The first week in January will be observed at "Win-My-Chum" week of the Ann Arbor district, and the first vice president will send out a special program for that week. The latest information on activities at the Imperial mine, in the Upper Peninsula, owned by the Ford interests, is to the effect that 125 men are working and as soon as the surface work has been finished half of the surface workers will be transferred underground. Work on the permanent building to house the blacksmith and carpenter shops has been started. It is expected that the side walls will be up in two weeks. The building will be 55 by 160 feet in dimension. Work is also progressing on a number of portable houses and a dwelling for superintendent. A well is being sunk to provide water for these houses. Electric lighting has been installed on the mine location—Michigan Manufacturer

"IRENE" AT THE GARRICK.

"Irene," the smart musical comedy, which will be seen at the Garrick theatre, commencing Sunday November 27 is one of those miraculous delights, a musical comedy that sparkles like rainbows in ingenious comic settings of charm and realism with a plot of sense and feeling woven by sprightly and clever dialogue. The combination has been the means of capturing both London and New York for record runs.

The book of "Irene" is by James Montgomery, author of "Noting By The Truth" and "Going Up." The score is by Harry Tierney, the lyrics by Joseph McCarthy. It was staged by Edward Royce of the Gaiety theatre, London. It is hard to say whether it is the delightful story, the spirited score or the fitting lyrics which have most contributed to the phenomenal success of "Irene." However they all combine so charmingly that it is the resultant and delightful effect that alone matters.

FOR COUNTY REFORM DRIVE.

County reform under the auspices of the Wayne county committee on county reorganization was recently launched at the Board of Commerce with a dinner.

The committee which was appointed November 8, 1920, by vote of a popular meeting held in Detroit, is composed of Clarence E. Wilcox, J. D. Tappan and W. P. Lovett of Detroit; C. F. Verkes, Northville, W. M. Merz, Gray's Pointe, Joseph A. Martin, commissioner of public works, and Paul W. Veerles, prosecuting attorney.

This campaign precedes the election in November, 1922, at which the constitutional amendment providing for county reorganization in Michigan will be submitted. It provides for a commission of not less than three nor more than nine members, to have charge of the administrative functions of the county, except in judicial, tax and other matters.

Michigan News Tersely Told

Grand Rapids—Burglars for the second time in a few weeks, carried a safe from the office of the Sun Oil Co. The safe contained \$200.

Ontonagon—County officers are investigating the disappearance of Emil Hill, woodman, who has been missing for two weeks. Equal play is feared.

Saginaw—A state-wide campaign to educate the people to the value of ice in preserving food was decided upon at the recent meeting of the Michigan Ice Industries association here.

Battle Creek—Glen Barclay, 18, this city, was killed at the Angell street crossing by a Michigan Central train. He was driving an automobile and intended to call on a woman friend.

Charlotte—The commission form of municipal government for Charlotte, as provided for by a new charter drafted by a special commission, was rejected by the voters in a special election, the vote being 201 for to 540 against.

Pontiac—Two veins of anthracite coal have been found by well diggers on the property of Herbert Root at Walled Lake. The first was at a depth of 50 feet and just below it was another, said by the diggers to be the largest they have ever encountered.

Grand Rapids—The Michigan Railway company has been named defendant by William Marshall, in a suit in circuit court for \$2,000 damages. The action is based on alleged injuries received when Marshall's automobile was struck by an interurban car.

Port Huron—An automobile ride over the Grand turnpike, ceremonies at Muttonville and a banquet in Port Huron, will be features of the formal opening of the new concrete road from Port Huron to Detroit, November 28. St. Clair, Marine City, Marysville and Port Huron citizens will participate.

Bay City—Enoch Gladwin and others have appealed to the supreme court against the decision in the Gladwin circuit court in which they lost in a suit for damages against the Beaverton Power Co. They sued to recover as the result of an overflow of lands, said to have been caused by damming Beaverton river.

Saginaw—The badly mutilated bodies of William Van Valkenburg 55 years old, and his wife, who was 55, were found on the Pere Marquette right of way, near Hoyt Station, five miles from Saginaw. It is believed they were struck by a freight train. A letter in the man's pocket indicated they had recently come from Detroit.

Grand Rapids—The Michigan Automobile Association elected the following officers: President, Harold Royal, Shelby; Vice President, William McEwing, South Haven; Secretary, Frederick A. R. Todd, Lansing; executive committee members, E. P. Duggitt, Cooperaville, Walter Reid Lake Odessa, and Hans Weigandt, Traversa City.

Charlevoix—Elver Sweet, 21 years old, charged with passing forged checks here Nov. 10, was returned to Ionia reformatory to complete a five-year term for robbery. He was convicted of robbery, in the circuit court here a year ago, sentenced to serve from six months to five years in Ionia. He was paroled after serving seven months.

Kalamazoo—The sudden death of her husband, Otto Glen Martyn, made his girl bride a widow, three weeks after their marriage. Martyn was engaged in repairing a boiler at the Hawthorne Paper mill. He was about to emerge from the boiler, evidently after having had a premonition of his coming collapse, when he sank back dead. The coroner decided Martyn died of heart failure.

Detroit—Officials of the village of Oakwood appeared before the county election commission with a request that the November election be investigated. They complain that in the ballot on annexation with Detroit, which carried 363 to 249, more votes were cast than there are qualified voters in the village. The commission advised them that inasmuch as all who voted had registered, someone else should investigate, starting on the registration books.

Grand Rapids—In its answer filed in United States district court yesterday, the House of David of Benton Harbor denies each allegation made by the expelled members. Mr. and Mrs. John W. Hansel, in their suit to recover property turned over to the Israelites and for compensation for services, amounting to \$69,000. Special denial is made of charges of immorality in the colony, brought by the Hansels, who are charged with attempts to break up the cult. Date for hearing has not been set on the defendant's motion to quash the case.

Kalamazoo—Is a woman whose husband dies three weeks after their marriage entitled to his insurance, despite the fact his policy was left in the name of his former wife? That is the question the Kalamazoo County Circuit Court will have to decide between Mrs. Glenn Martin No. 1 and Mrs. Glenn Martin No. 2. Martin remarried three weeks after he divorced his first wife. No. 1 kept up the payments, and the policy names her the beneficiary. No. 2 contends she is the beneficiary because she was Martin's wife at the time of his death.

PARENTS' SLAYER BEGINS SENTENCE

CHAMPLAIN GIVEN LIFE TERM IN STATE PRISON FOR DOUBLE CRIME.

GIRL'S FAITH CAUSED QUARREL

Prisoner Tells Warden Stepmother Stirred Father to Keep After Him Continually.

Saginaw—The doors of Jackson prison closed on Richard Champlain, 22-year-old Hemlock boy, Saturday morning, and for the rest of his natural life at hard labor he will atone for shooting and burning his mother and father, wealthy and highly respected farm couple, at the farm home near Hemlock, on Nov. 14.

The departure of Champlain from Saginaw was without event. The day fitted into the picture. It was raining and cold. "Dick" was up at 5 o'clock, ate a hearty breakfast and was at the depot at 6 o'clock. His sister Frances and her husband, only relatives living here, bade him an affectionate farewell.

Parents' Religious Intolerance Blamed.

Jackson—Conflicting religious beliefs were given by Richard A. Champlain, in a statement after entering Jackson prison, as the real reason why he had killed his father and stepmother and burned their bodies in their home near Hemlock.

In answer to a question by Warden Hubert Champlain declared that his real mother was a Roman Catholic, and that he had been christened in that faith. He said that his mother had died when he was 3 years old, and that his father married again.

Questioned further, he stated: "Two years ago my sister was married to a Roman Catholic boy. My father, because she did this, disinherited her. My stepmother kept hating him, and I believe she was responsible for the dishonor of my sister. I have had several sweet hearts. But three weeks ago I met Clara Humpert. I loved her. I do yet. I had intended to marry her. Of course I knew what my fate financially would be also. When my parents learned that I was courting a girl of another faith, my stepmother began to keep after my father about it, all the time stirring him up and poaching him off."

"Monday evening the row began in earnest at the supper table. My stepmother kept at it and at it and at it. Then my father kept at me and at me and at me. It was not the sight of blood in France, as I told the Saginaw editors and newspaper men, that stirred me at this moment. It was solely because my stepmother was so bitter against the religious faith of my real mother. I got up from the table, and, securing a revolver, I returned to the table, first shot down my father through the heart, then my mother."

EDISON BACKS FORD PROJECT
Inventor and Auto King to Visit Muscle Shoals Soon.
New York—Henry Ford and Thomas A. Edison have joined forces to make Muscle Shoals the biggest thing in industry.
The automobile manufacturer and the inventor, in a conference here arranged to visit the big nitrate and power plant soon after Thanksgiving, when they will make a survey to determine how much it will cost the Government to complete the project so that Ford can take it over.
Edison came here direct from a bedside conference with Secretary Weeks in Washington last Friday. Major details of Ford's offer to buy Muscle Shoals were agreed upon at this conference.

ACTRESS TESTIFIES FOR STATE

Zey Prevon Describes Arbuttle's Alleged Attack on Virginia Rappe.

San Francisco—The State of California shot its heaviest gun at Roscoe Arbuttle Monday and part of the charge took effect—and hurt.
Zey Prevon, known in musical comedy circles as Zey Prevoat, gave evidence against the comedian through which the state is going to try to convict Arbuttle of manslaughter, in connection with the death of Virginia Rappe.

A young woman of striking appearance, Miss Prevon calmly recited the events of the party that led to the death of Miss Rappe; told how the dead picture actress went into the bedroom with Arbuttle; and how she screamed, "I'm dying, he hurt me," as she tore off her clothes in a frenzy.

FLOOD MENACES TERRE HAUTE

Residents of City Flee Homes When Wabash Overflows.

Terre Haute, Ind.—Many families in the lowlands of the city were forced to flee from their homes and the entire western part of the city was threatened with inundation, as the waters of the Wabash river overflowed its banks early Sunday.
The river reached a stage of 16.9 feet.

TO OBSERVE CHRISTMAS SEAL SUNDAY.

Christmas Seal Sunday will this year be observed by churches in Michigan on December 4. All ministers in the state will be asked by personal letter to give some attention on that day to the fight against tuberculosis. The Christmas seal sale will begin on Thanksgiving Day, and by the time the seal sale Sunday comes most communities in the state will be in the thick of the work.

An attempt will be made to have some four thousand pastors in Michigan recall the attention of their congregations to health campaign for the purpose of which the seal sale is conducted. Many ministers have already given assurance to the Michigan Tuberculosis association that they will observe the day.

Almost every pastor in the state has a direct interest in the tuberculosis campaign because there is no minister who has been in the work for any length of time who has not been called upon to pronounce uplifting sermons over tuberculosis victims whose lives might easily have been saved if the necessary means had been brought to bear.

Mrs. Mumby has been a faithful member of the Michigan State Telephone company's office staff in this village for a number of years.

Mr. Mumby has a responsible position with C. A. Taylor of Plymouth, where he has been employed for some years.

NOVI TO BUILD NEW SCHOOL BUILDING. Probably the most exciting and interesting election ever held in Novi township was the special election which took place there on Tuesday, when the proposition of bonding the township for the sum of \$135,000 for the erection of a new township High school building and for acquiring a site for same. The proposition had a lot of enthusiastic opponents and the contest waxed warm all day. There were a total of 257 votes cast and of that number 129 voters favored the bond issue, and 127 opposed the proposition, making the majority in favor of the new school but two.

The members of the board who will have general supervision of the erection and furnishing of the new building are A. C. Atkinson, president; A. L. Hill, secretary; J. N. Erwin, treasurer; George Bassett and George Simons, trustees.

IMPROVING GROUNDS AND DRIVES

Tuesday a force of about fifty men were put to work at the sanatorium and they will be thus engaged for a number of weeks. They will be employed in improving the grounds grading the drives and otherwise improving the property. They will be housed and boarded at the sanatorium.

OBITUARY—JOSEPH W. HETLEY.

Joseph W. Hetley, mention of whose death was made in our last issue, was born in Delaware township, Canada, in 1854. When a young man about 20 years of age, he came to America, settling at South Lyon and after a few years spent there, came to Northville, where he conducted a market for a few years. Disposing of his interests here he returned to South Lyon, where he remained until 22 years ago, when he in company with A. C. Balden came to Northville and associated themselves with the Palace Market.

Mr. Hetley's wife died about nine years ago, and some months ago he was compelled, owing to poor health, to dispose of his interests in the market to Mr. Balden. In all his business dealings Mr. Hetley was honorable and straightforward and many friends in this community will always remember their associations with him.

The deceased is survived by three sisters and three brothers.

Funeral services were held at the home of Mr. and Mrs. Balden on Sunday afternoon, being conducted by Rev. E. V. Belles. Burial took place at South Lyon.
