"Yes. "What would I get then—Left?"

No. "No one gets left—except those who do not join—you would receive \$801.13."

"And what does \$1. a week for 56 weeks amount to at 4 per cent compound interest?"

"It amounts to \$659.12, a profit of \$139.12 or \$102.01 less than you would receive in the Loan. This \$102.01 is about 74 per cent of \$139.12."

For the love of Mike, "How do they do it?"

SUPREME COURT O. K.'S PICKETING

RULES WORKMEN CAN STRIKE
BUT MUST NOT INTERFERE
WITH OTHERS' RIGHTS.

DECISION IMPORTANT TO LABOR

Opinion From Chief Justice Taft
Interprets Sections of Famous
Clayton Act.

Washington.—Picketing is legal, but there must be no violence or intimidation in connection with it. Where there is, it is the "duty" of the courts to issue injunctions.

This, in effect, is the opinion of the Supreme Court of the United States, in a decision Monday, which promises to have far-reaching influence on future labor troubles. The opinion interprets labor sections of the famous Clayton Act, and for the first time lays down principles which the Court believes should govern legal regulations of industrial disputes.

The Court goes out of its way to declare that labor has a right to organize and a right to strike, and a right to "propagandise." But it tells how these rights should be restricted.

The case was that of the American Steel Foundries against the Tri-City Central Trades Council of Illinois. An injunction against picketing was issued in 1914 in a lower court, on the grounds that the company and individuals were preventing non striking workmen from going to the plant. Appeals brought the case to the high tribunal.

"It is clear that Congress wished to forbid the use by the Federal courts of their equity arm to prevent peaceful persuasion by employees, discharged or ex parte in promotion of their side of the dispute, and to secure them against judicial restraint in obtaining or communicating information in any place where it might lawfully be," said Chief Justice Taft, in discussing the legal restraints against using the injunction as set forth in the Clayton Act.

As it is the right of workingmen to combine in unions, a decision handed down through Chief Justice Taft had to be.

Union was essential to give laborers an opportunity to deal on equality with their employer.

The strike became a lawful instrument in a lawful economic struggle or competition between employer and employee as to the share or division between them of the joint product of labor and capital. To render this combination effective, employees must in their combination extend beyond one shop.

NAVAL BUDGET WAITS PARLEY

U.S. Will Spend \$425,952,367 for Navy
If Agreement is Not Reached

Washington.—In the event of an agreement among the nations for a joint naval holiday and a suspension of building, it is expected that the request for an appropriation for \$425,952,367 for the Navy Department in the United States budget to be fixed by Congress will be lessened markedly.

The request however, indicates the intention of this Government to proceed with its naval outlay unless an agreement is reached.

The annual budget, submitted Dec. 5 by President Harding, asks for the appropriation of \$3,801,313,659. The appropriations for this year total \$3,719,000,514.

DELAY INDEMNITY PAYMENTS

Germany Probably Will Be Given
Three-Year Breathing Spell.

Paris.—Germany will probably be granted three years' delay in her indemnity payments.

Negotiations are now going on between the representatives of France and Great Britain and the responsible officials of both countries virtually agree that Germany must be given a breathing spell. All that remains to be done is to work out a scheme acceptable to both countries.

Sinn Fein and British Delegates Agree

London.—It is officially announced that the government officials and the representatives of the Dail Eireann have reached an agreement, the terms of which will be submitted for the acceptance of parliament and of the Dail Eireann.

A copy of the agreement has been sent to Sir James Craig, the Ulster premier, by special messenger.

PACKER EMPLOYEES ON STRIKE

Nearly 50,000 Go Out As Protest
Against Wage Cuts.

Chicago.—Labor leaders announced here Dec. 5 they would institute picketing in the strike called for 50,000 employees of the big packing houses throughout the Middle West.

The strike was called following wage cuts in all of the plants of the "Big Five" packers and among hundreds of small independent firms.

AVOID CHRISTMAS TREE FIRE

Unsafe Care Should Be Used In Trimming Thus Preventing Fatalities in the Homes.

PEOPLE cannot be too careful in guarding against fire when trimming a Christmas tree, says a correspondent in Good Housekeeping.

There have been scores of Christmas tree fatalities in homes and in Sunday schools which a little care might have prevented. The wife once set a tree in a blaze, consuming nearly half of its finer ornaments together with the green branches. A tiny candle had been wired too tight and it took only a few minutes of its bright heat to char a branch above it and start a flame! A thick portiere was torn from its pole and thrown over the blaze. If it had not been at hand the light window curtains would have caught fire by another minute.

Since that Christmas tree has always been placed in the center of the room, and we have eschewed cotton, wool, tissue-paper angels, and celluloid ornaments.

First of all, we wire each candle securely in place at the furthest end of a branch which has nothing

burning above it, either at tree or trimming. Then as the tree is decorated we watch carefully the fast-disappearing candles. Sometimes one of them, nearly burned down, will topple over or be merely a spark of flame, but near to something inflammable and be a menace.

GOOD TURNS ON CHRISTMAS

Chance for All to Aid the Friendless in Having Happy Yuletide Season.

REAL purveyors of Christmas cheer may often find a market for their precious wares outside the pale of charity, for all homeless people are not necessarily poor, and neither are all childless homes necessarily unhappy. Housekeepers who are short on homes may combine these two tasks and make Christmas day a merry delight for the group-ups in spite of these unfortunate conditions.

There is always something peculiarly pitiable in the idea of any one "looking alone" which should appeal to the home maker without a family, so that this should be the occasion for her to gather in all the junior ladies and helpers in her acquaintance and give them a joyful opportunity to "look together." Even the Stooges, if she knows any, should be rescued from their lonely hells of grief and persuaded to open their hot up hearts and vent them outside for general inspection, as Dickens says. For Christmas days to seek out. Therefore collect six or eight of these birds of feather who are desolate of nearby kith and kin and make your Christmas center of good cheer for all the charming soloists you are able to draw within the radius.

Good Year for Violets

Sweet peats have been sown for the Christmas market only for many years past. They must be started blooming before the cold weather begins. Then they will bloom all winter. Daffodils do not get in until February, but almost all the rest of the spring flowers, hyacinths, narcissus, lily-of-the-valley, and so on are on the Christmas counters.

Easter lilies, too, though rather cold and white for Christmas, are sold. Violets are fine this winter, deeply dark, beautifully blue. Some magnolias now come in enormous sprays. There are carnations but the bright red Christmas carnation is the favorite. Holly comes from the hills of Maryland and the south. The wild holly supplies the market and there has never seemed to be any perceptible diminution of the supply. Great quantities of it are purchased by all sorts of dealers who decorate their stores with it and send out a sprig attached to every Christmas parcel.

JESUS SAID

In St. Luke 14:12, 13 and 14 verses. Then said he also to him that bade him. When thou makest a dinner or supper, call not thy friends, nor thy brother, neither thy kinsman, nor thy rich neighbors; lest they also bid thee again and a recompence be made thee.

But when thou makest afeast call the poor, call the maimed, the lame, the blind.

And thou shalt be blessed: for they cannot recompense thee: for thou shalt be recompensed at the resurrection of the just.

I believe in this kind of gospel: and I believe it's hard to practice. Faith without world is dead. Jas. 2:17.

In I John 3:16 we read. "Hereby receive we the love of God, because he laid down his life for us: And we ought to lay down our lives for the brethren."

Here lies my reason for giving up my position, my opportunities to make money. God has done so much for me, and out of such love in my heart, that I am willing to go anywhere and tell all men of Jesus and his power to save.

I John 3:17. But, whoso hath this world's goods and seeth his brother hath need, and shutteth up his bowels of compassion from him, How dwelleth the love of God in him?

I John 3:1-8. My little children, let us not love in word neither in tongue: but in deed and truth.

You may think that is hard. It is hard without salvation. Jesus said come unto me, all ye that labor and are heavy laden. And I will give you rest.

Take my yoke upon you, and learn of me: for I am meek and lowly in heart, and ye shall find rest unto your souls.

For my yoke is easy, and my burden is light.

I would appreciate it very much, if anyone who reads this notice would give me the names and addresses of people in Northville and in its vicinity who do not expect to have anything at Christmas time, and I will see to it that all will have something.

ing, Dearborn and Flat Rock. Local followers of the national game who would like to see Northville represented in the newly-formed league are invited to be present at a meeting to be held in the Village Hall, Wayne, at 8:00 o'clock, Friday, December 16, when a permanent organization will be perfected and officers for the coming year named.

The formation of the Wayne County Base Ball League is the outgrowth of several years' sentiment along this line, especially from the men who have the keenest interest in promoting the sport between the smaller cities of the county and nearby territory. If you would like to have your town represented in the League during the 1922 season be sure and attend the meeting at Wayne, December 16.

WAYNE TO HAVE ROTARY CLUB

The Wayne Door Club, organized primarily to obtain a Rotary Club for Wayne, has met with success through the efforts of its members, with the result that International President C. C. McAdoo has given assurance that a Rotary club here will be a reality. John D. LaRue has been named organizer, chairman, and with committee is working toward getting the Rotary charter for the club before the first of the year. Wayne will be one of the smallest clubs in the world boasting a Rotary Club as yet, under 5,000 are very rarely admitted to membership in the international society of Rotary clubs.

NORTHLVILLE SCHOOL NOTES

The ball was lifted off the basket ball season of '21 and '22 last Friday night before a well-filled gymnasium. The Northville girls easily outdid the Flat Rock protégés, winning by the lopsided score of 31-9. In every stage of the game our fair followers of the basket ball showed their superiority. One of the features of the contest was the excellent passing displayed by the local six, bewildered, the Flat Rockians were forced to accept defeat from a team that showed excellent coaching and on that promises great success for the season.

Friday, December 9th, the High school basketball teams will meet the Sault teams, one of the best games of the season. The Sault supporters regard them as the biggest game on their schedule, and are following their teams in the hope. The N. H. LITERARY GEMS IN AN EXQUISITE SETTING.

Collecting fairy tales is an art so is the illustration and embellishment. That is why one may well consider the publication known as "My Book House" as an artistic achievement. Not that the six volumes of this series deal wholly with fairy tales. They are, in fact, a treasury of good things fit for children all the way from the toddling to the awkward age. The first volume of the series is entitled "In the Nursery," and contains a selection from "Mother Goose," famous nursery stories and famous poems; the second volume, "Up One, Pair of Stairs," includes selections from mythology, fairy stories of many nations, Greek and East Indian fables, verses by poets as wide apart as Tennyson, Vachel Lindsay and Walter de la Mare. The third volume, "Through Fairy Halls," contains poems and stories, for instance, by Lagerlot, Poe, Peter Newell, Dickens, Hawthorne, Alfred Noyes, Bryant, Galway—too name only a few. The fourth volume, "The Treasure Chest," is a book of enchantment, for here are stories from all the world; by Dickens, Gelett Burgess, Tolstoy, Gautier, Roosevelt, P. T. Barnum, Browning and many more. In the fifth volume we find legends of Robin Hood, Alfred, Don Quixote, the Kalevala, the East Indian Rama, Snowbound, parts of Richard Feverel Bedwill—the lore of many nations and many ages. The whole series has been most carefully arranged and all the great sources of literary gems have been investigated. Many of the most famous stories have been retold and others that have exceptional merit and that have not been accessible heretofore in collections of this kind have been included. The literature of thirty countries was combed by the editors, and illustrations were drawn by some of the best known artists of children's books, including Winter, Wyeth, Knight, Tony Sarg, Pagano, and many more. Three principles of selection were established for the stories that were chosen: "Is it literature?" "Is it interesting?" and "Is it instructive?"

Sets of these books, have already been placed in the Public Library here as well as with several of the school teachers and in many homes where there is one or more children.

The price of the six volumes is \$2.00 if paid in cash, or \$3.50 in monthly payments of \$3.00.

Mrs. E. E. Richardson, 12 High Street, who represents "My Book House" in Northville and vicinity, will be glad to call upon any one who is interested. Her phone number is Northville 62.

The Phonograph that amazed Farmington can be bought!

There is a rumor abroad that the instrument has triumphed in the drastic comparison test, made Friday Evening, November 25th, at the Farmington Town Hall, was a special exhibition model. That rumor is false. The instrument was a regular Official Laboratory Model, out of our own stock.

Every Official Laboratory Model in our stock is guaranteed to sustain the same test.

If you were one of those, in Friday night's audience, who wistfully exclaimed: "Wouldn't be wonderful if I could buy a phonograph like that—know that you can. Know that it will perform this miracle every day in your own home."

The NEW EDISON

The Phonograph with a Soul

Come in and hear for yourself the Official Laboratory Model's marvelous realism. Find out about our Budget Plan, which enables you to own an Official Laboratory Model for a small down payment, the balance on a gentleman's agreement to suit your convenience.

Note—The test at Farmington was made by Amy Ellerman, the world-famous contralto and Vera Barstow, the eminent violinist. They compared their living art with its Re-Creation by the New Edison. There was no difference between the living art and the Re-Created art.

The New Edison stands absolutely alone in this respect, no other phonograph has ever sustained this test of comparison.
