## TO ORGANIZE AN EXCHANGE CLUB HERE

During the past few weeks there has been considerable discussion regarding the advisability of organizing an Exchange Club in Northville and the affair has reached a point where the success of the movement now seems assured. At a meeting held at the Ambler Hotel on Wednesday noon a temporary organization was perfected and the following officers were chosen: President, R. R. Brown; secretary, G. A. Dolph, treasurer, L. A. Babtett. A request has been made for permission to form a club here and at a meeting to be held within the next couple of weeks it is hoped to have twenty-five members so an application can be made for a charter.

The Exchange Club idea has been spreading rapidly throughout the country of late and in a great many towns where it has been impossible to maintain a Chamber of Commerce it has been found that the Exchange Clubs have found place and a welcome from among the business men.

The objects of the Exchange Club are to eximite the idea of "exchange" in everyday business and professional life to the maximum of service; to provide a medium for the exchange of ideas, methods, information and business courtesies, to promote and encourage good fellowship between members and their families; to take an active interest in humanitarian, civic, state and national affairs, thereby lending aid to movements tending to make the community, state and nation a better place in which to live.

There are many problems which present themselves to every community that require and ought to receive the attention and consideration of the business and professional men and it is believed that an Exchange Club will provide the means of accomplishing much for Northville and the surrounding country.

### MARRIED ON CHRISTMAS DAY.

The home of Mr. and Mrs. H. G. Teeples was the scene of a very pretty wedding on Sunday, December 25th, 1921, when their daughter, Miss Gladys Teeples, was united in wedlock to Mr. W. M. Wendt of Northville. The ceremony took place at 3:00 o'clock. Dr. St. John of Highland officiating. The bride, who was given in marriage by her father, was attired in blue silk and white georgette, and carried a beautiful bouquet of roses and carnations.

After the ceremony a sumptuous dinner was served the tables being arranged to form the letter "T" representing "Teeples." Only the immediate families of the contracting parties were in attendance. Mr. and Mrs. Wendt will make their home in Northville—South Lyon Herald.

### POPULAR YOUNG PEOPLE WED.

Miss Elva Magraw, a popular and well known young lady of Plymouth, and Mr. Fred Kohler of this place were quietly married at the home of Rev. A. L. Ball in Pontiac on December 24th. Immediately after the ceremony the young people returned to the home of the bride's parents, Mr. and Mrs. John Magraw on Mill street, Plymouth, where they will reside during the winter. Mr. Kohler is employed by the American Bell & Furnace Co., and has many friends here who will extend hearty congratulations. He is the son of Mr. and Mrs. Anthony Kohler.

The Foresters and their wives and lady friends enjoyed a social dance on Monday evening, which proved a most

### NEW YEAR CAME WITH A STORM.

Father Time, represented as 1921, took rather a noisy and boisterous departure last Saturday afternoon and evening. The old fellow seemed to fight to the very last to retain his hold, but he finally "blew" himself out and in stepped Happy New Year, an innocent and inexperienced youngster. All day Saturday and until late at night the wind blew fiercely and the cold became intense as night appeared, indicating that the old year desired to leave his impress upon all. Sunday morning found the ground covered with a mantle of snow and the thermometer registered pretty low. During the day (Sunday) there were frequent snow flurries and Sunday night was one of the coldest of the season.

Notwithstanding the cold and the storm which accompanied its entrance, 1922 was given a royal welcome. What the New Year holds in store for us no one knows, and it is well that it is so. Each day will unfold itself to us and if we strive to do our best we shall be able to overcome some of the disappointments and discouragements which are bound up in the 365 days.

### THERE'LL BE NO ICE SHORTAGE NEXT SEASON.

Work of installing the machinery for C. R. Ely's new artificial ice plant is progressing nicely and within a few weeks the "wheels" will be set in motion and ice of a superior quality will be made. The new plant will have a capacity of thirty-five tons daily and a storage of 300,000 tons capacity has also been provided.

This ought to assure a sufficient supply of ice for all needs next season. Mr. Ely not only expects to be able to supply all local needs but he also plans to supply the farmers in the surrounding country and to establish a daily delivery system at Farmington. At the present prices for labor he is confident he can supply farmers with their season's ice cheaper than they can harvest and store a sufficient quantity for their needs.

### CELEBRATED WEDDING ANNIVERSARY.

Mr. and Mrs. John Wilson, who reside on the Base Line three miles west of Northville, celebrated their 50th wedding anniversary New Years' eve, friends and guests representing Northville, Plymouth, Detroit, Ypsilanti and Jackson being present, besides many other friends and neighbors. Just as the old year was passing out an elegant lunch was served. Mr. and Mrs. Wilson received many beautiful as well as useful presents. Games were played and enjoyed by all, prizes being given to the ones who were lucky enough to be winners. It was in the wee hours of the morning before the last guest departed.

### ANOTHER VETERAN MUSTERED OUT.

Charles Crocker, an aged veteran of the Civil war, and a former resident of this village, died at his home rear Belleville last Tuesday, aged 75 years. The remains were brought to Schrader's funeral parlors in this village where services were held Saturday afternoon. Burial took place at Rochester.

The deceased is survived by his wife, one daughter, Mrs. Hollington of Belleville, and a brother, Frank Crocker, of Grand Rapids. He was a member of the local G. A. R. Post and was held in high esteem by his old comrades and friends.

### CONSENTED TO AN INJUNCTION.

When the Novi school injunction case came up in circuit court at Pontiac, the anticipated fight between the two factions failed to materialize. The defendants, through Attorney Lynch, rather sprung a surprise by consenting that the temporary injunction be granted, as the bonds could not be disposed of anyway while there was any controversy over the legality of the election. The whole matter, therefore, is deferred until the latter part of January when the merits of the case will be threshed out.

### LITTLE CHILD DIES OF PNEUMONIA.

The many friends of Mr. and Mrs. Floyd Simonds in this section will extend sincere sympathy in the bereavement which came to them during the holiday season in the death of their little eight-months-old daughter, Marian. The family were spending the holidays at their old home near St. Clair when the little child was taken suddenly ill with pneumonia and passed away Sunday night. Funeral services were held there and burial took place at St. Clair.

## 4 BANKS MERGED TO AVERT CRISIS

Liabilities of \$60,000,000 Attributable to Over-Extension of Loans in Industrial Enterprises.

**Chicago**—In a \$60,000,000 bank absorption the two Fort Dearborn banks were taken over by the Continental and Commercial banks Monday night. The action which followed an all-day session of members of the Chicago clearing house and leading financiers, averted the most serious crisis that has threatened the La Salle street district since the day of the Walsh bank collapse.

The difficulties of the Fort Dearborn institutions had engrossed the attention of the clearing house for several days. As a result of an examination of the books of the two banks, the clearing house, several days ago learned there were at a serious situation. On Thursday night W. A. Tidell, president of the Fort Dearborn National bank, called in the clearing house committee and with his associates threw up their hands.

The banks of the clearing house association, comprising most of the larger establishments in Chicago, held extended conference on the situation.

An examination of assets and liabilities was made by two of the largest as a result of which two banks offered

## BEAR FACTS AND HUCKLEBERRY JAM IN THE TROLLEY BOWLING LEAGUE.

Bare facts about the Bears must come to the surface, and the sooner they are out of the reporter's system, the better. Although Jim's Bears did win three games from the Trolley Liners at Northville last Thursday night, they simply bowed rotten. I do not mean "rotten" for that is not a good word to use, and furthermore, it is too mild a word. It does not half express the meaning. "Rotten" is a new word and pronounced just as it is spelled. The X is silent, as in fish. Jim's team, should have been "ash" for the visitors for the old bear nor the cubs could bowl but little. It was a very "ou" night for them and the Farmington, five were a narrow margin worse, so that allowed the local boys to win.

Bear in mind the bare fact that a bear has a characteristic to climb. Jim's Bears have been climbing since the bowling league was accepted by the League of Nations. You must understand that these two leagues are alike only different. One consists of a number of men who go to allies and fight it out with drunks between them. The other is allies with drunks of oceans between them and beats behind closed doors.

Please me, I should not be reporting on the League of Nations and will get back to the Trolley League which pay me \$200 per cent.

I report that the Bears have climbed to the top and are now resting on the top most pinnacle. But think of a scribe sitting in the press box writing material for a bowlering match, when not a player on either team could splash enough maples to keep the pin setters awake. Joe Sport could only sympathize. He pulled down his ear laps, put more ashfa in his pipe and wondered how much wool a woodchuck would chuck, if a woodchuck would chuck wool.

Art Lamb and John Clark of the Farmington five furnished a little Lauderburg, unopposed by Perry Austin and others on the star line.

The roosters tried to get Clark's "goat." By that is meant that all attempt was made to unstring his nervous system to a degree which it could depreciate his bowling ability to nothing. It was no use. Clark has been in the game too long and only laughed at their mount and repaid in return. Lamb put down a bowling ball from Perry Austin's neck was taking advantage of the fact that Art would make with it. He would ask, "How do you like the new net and if it was the right night he had over bowled?"

Of course Lamb felt sheepish and might have wished his friends that he could bring the mutton home to a feast with Austin. The Farmington captain, however, retained his composure and whenever he did miss could only say "O fiddle." Whatever he thought was an entirely personal affair. He did tell Austin that whenever he came to Walled Lake to "drop in." Anyhow everyone had a jolly good time except the quill busher.

Those Huckleberry Fans that you see advertised on all kinds of year books and are bound to rise were at Farmington. They were there to business and met the Lanham Five. Needless to say they topped over the pins in the shape and won a two out of three games. Took the majority of games right on the home grounds of their antagonists. Sure their visitors in the first game in all directions and smothered them to a farewell in the last game. No one among that was a game the winter witnesses across the seas. The Pins, did, nevertheless win two of the three games at Farmington but the neighboring boys gave them a real battle. Six pins was the difference of one game. The Farmington allies are nice new ones and the boys like to bowl upon them. The Bears and the Pins will meet at Farmington in the near future and the men on both teams are looking forward to it. But for all that, never forget it is at Northville that we have sunshine while at Delray and Ecrose it is all moonshine.

Let us wish everyone a Happy and prosperous New Year, and trust that those who do not have a glorious fourth of July to be sure and be at the Northville fair next September.

## WAYNE COUNTY SEEKING LARGER REPRESENTATION

Wayne county and the remainder of the state are now waging a bitter fight with the ultimate goal the control of the next Legislature, which will redistribute the representation in the legislature.

With 41 members in the house Wayne county is out to pass a constitutional amendment next fall which will remove the money provisions of the state constitution, and thus enable her to gain one-third of the total membership of the legislature.

Without a change in the constitution the most Wayne county can have is 29 members. Chas Pierce, for years secretary of the senate, and a former member of the legislature, has drawn a map showing the population of each county and the representation each will be entitled to in the legislature.

In drawing up the tentative redistribution of the state Mr. Pierce has followed the constitutional provisions in framing districts, and while the next legislature may make some minor changes, the new districts will have to be about as Mr. Pierce has outlined them. This, of course, will be true providing Wayne county does not succeed in removing the money provision of the constitution.

The representation in the house is based on population of each county. The coming year each county will be given one representative for each 36,000 population, or it is also provided that any county having more than half of the total upon which the districting is based is entitled to one representative and it is this provision that Wayne is bitterly attacking, and is seeking to have changed.

## MANY SPECIAL TAXES ENDED NEW YEARS

Important changes become effective January 1, under terms of the new revenue act.

The small income taxpayer will be greatly benefited by the increased exemption for the head of a family from \$2,000 to \$2,500, and the increased exemption for dependents from \$200 to \$300. This change applies to incomes spring this year and will appear on returns to be made immediately after the first of the year.

Changes effective January 1, 1922, will be immediately reflected in the law.

Repeal of importation taxes on freight rates, passenger fares, Pullman cars, express packages, and transhipment of oil by pipelines, the abolition of the freight tax is definitely to be a per cent reduction in

freight rates.

Elimination of taxes on musical instruments, sporting goods, brewing equipment, electric fans, thermos bottles, radios, motion picture cameras, perfumes, cosmetics and proprietary medicine. Elimination of the soda fountain tax and substitution of a tax on syrup and carbonic acid gas equivalent to 10 cents a gallon. Reduction of the tax on candy from 5 to 2 per cent.

Change is in luxury taxes on robes, hats, stockings, etc., so that classes of articles are taxed at 5 per cent of the manufacturer's price where before 20 classes paid 10 per cent on the retailer's price.

Elimination of parcel post tax on one cent on each 25 cents charge. Elimination of tax on bonds of municipalities.

## HEALTHY NEW YEAR TO BE A FIFTH ROUND GREETING

Health New Year is the greeting the Michigan Tuberculosis Association extended to the people of Michigan today and this will be the greeting to only for the first day of January 1st for the whole year.

When the people of Michigan put the spirit of this greeting into practice the death rate from tuberculosis will go down even faster than it has been during the past few years, the state association declares. And that has been rapid, the figures of the Michigan State Department of Health showing that during the first nine months of 1921 the death rate from this disease has been reduced to 74.6 per 100,000, a drop of 6.1 points over the 1920 rate, thus making a net saving for the first three-quarters of the year of 225 lives.

Success in the tuberculosis fight is to a large extent dependent on the personal interest that all the people take in it. If Michigan's three million people will make the greeting "Healthy New Year" a vitally personal one throughout 1922, an even greater reduction in the death rate may be looked for than last year.

## TO HAVE HEARING ON RATES

Likelihood that telephone rates in exchanges outside the city of Detroit will be substantially increased, is apparent from information released before the Public Utilities Commission, at Lansing, on the rate controversy between the Michigan State Telephone Co. and the city of Detroit.

The telephone company submitted evidence and testimony to show that while its Detroit property is earning approximately 7% its property in the state outside Detroit shows earnings of less than 1% and that the entire property is earning under 6%.

In the Detroit case, attorneys for the city demanded a reduction in rates, purporting to show that the Detroit property of the company was earning 9% on its plant value.

The telephone company, on the other hand, introduced evidence to show that the Detroit property was earning only 1%, the deviation from the city's figures being due to difference claimed in the valuation of the property.

On showing that the telephone property outside Detroit was earning less than 1%, Judge Franz C. Kuhn, president of the telephone company, protested any reduction, in the Detroit rates unless rates outside Detroit were increased.

He also made it clear that it was his understanding that the Detroit rates were to continue in effect until the entire rate situation, both city and state, could be adjusted, and that the evidence submitted clearly showed the need for substantial rate increases outside Detroit.

The commissioner was informed that in 1922 the company must resuscitate to the extent of \$43,000,000, and that in order to do this, that there must first be a reasonable period of voluntary earnings to build up the company's credit. That will be no end if the company is to adequately meet the future demand of the people of Michigan for service.

It was contended by the company, indicating that the telephone's ability to give satisfactory service in the future depends largely upon the opening of new fields of investment in the meantime.

The Utilities Commission gave out the information that its inventory and appraisal of the telephone company's property outside Detroit will be completed within a few weeks, and that hearings in the matter of rates for exchanges outside Detroit will follow immediately.

## STATE FARM BUREAU TO MEET FEBRUARY 3.

The fourth annual meeting of the Michigan State Farm Bureau is to be held at the Michigan Agricultural College February 2-3, during Farmers Week. At that time the State Farm Bureau board of delegates and farm bureau members will hear the state organization's report on its year's work. Officers will be elected and a program for 1922 will be mapped out. Efforts are being made to secure American Farm Bureau Federation speakers of national reputation for the Michigan Farm Bureau meeting. Perhaps 6,000 farmers will be at the Agricultural College during Farmers week.

Michigan railroads may offer reduced rates to farmers attending the Farmers Week program, it is reported.

## 1922 DIPHTHERIA ERADICATION YEAR.

This is diphtheria eradication year. During its 365 days, the state will distribute antitoxin free in each of the 83 counties by establishing general use of antitoxin. It will be possible to save the lives of hundreds of children and cut the diphtheria death rate from 23.6 per 100,000 population to 10.0 per 100,000, according to the Michigan department of health.

"No more need exists for any child to get killed in a duel," says Dr. R. M. Dill, administrator of health. "Negligence in calling a physician in case of children sick, neglect and dirt in failure to use antitoxin when the throat is quiedy sore, are the only reasons the death rate remains high. If the reduction from 23.6 to 10.0 is realized in 1922, however, it will mean the saving of at least 563 lives."

A diphtheria expert, Dr. Dill, says it is absolutely safe to use antitoxin that there are never any ill effects, and that antitoxin will prevent death in every case of diphtheria if administered in sufficient quantities early in the course of the disease.

Antitoxin is necessary, he advises, because the diphtheria bacilli multiply on the membrane of the throat, throwing off poison which seeps into the blood and produces all the symptoms of the disease and unless neutralized—paralysis and death. Antitoxin "kills" this poison and saves the patient, working in harmony with the natural forces of the body.

The following distributing stations have been established in the county by the state department of health: Detroit, City Department of Health, Hamtramck, Dr. T. T. Dysis, Highland Park, Bussell & Foster, Redford, Beyer Drug Co., Northville, C. R. Horson, Plymouth, Pinckney's Pharmacy, Wayne, O'Brien's Drug Store, Bellville, S. W. Campbell; W. Anderson, Clare Flanagan, River Rouge Dr. C. A. Smith, Etorse Louis A. Seaman and Dearborn, City Drug Co.

## ONLY ONE CHARGE AGAINST SMALL

ILLINOIS GOVERNOR FREED ON CHARGES OF THEFT OF STATE MONEY.

## CONSPIRACY CHARGE REMAINS

Another Hearing Set for January 7 When Defense Will Argue for Separate Trial.

Waukegan, Ill.—Governor Len Small has been freed of every charge against him except that of conspiring with Lieutenant Governor Fred E. Sterling and Vernon Curtis to defraud the state of \$2,000,000 during Mr. Sterling's term as state treasurer.

All charges of embezzlement during his own term as state treasurer were stricken from the record, partly by

Judge Claire Edwards and partly by

the state, and the court also quashed a charge of operating a confidence game.

Governor Small issued a statement declaring that what occurred in the circuit court of Lake county will lay bare to the public mind the methods employed and the inspiration causing these indictments.

The date of his trial on the one charge remaining is still uncertain.

Judge Edwards, in his decision, on the motion to quash the indictments, ordered the governor to stand January 9

on an indictment charging him with

embezzlement of \$500,000 during the last six months of his term as state treasurer.

State's attorney C. Fred Mortimer, of Saginaw county, and his assistants staged a vigorous fight to bring the governor to trial first on the conspiracy charge and failing in that, piled the other indictment rather than let it stand James H. Wilkerson, assistant attorney general of Illinois, one of Mr. Mortimer's aids, explained to the court the state's desire to try the conspiracy case first, because all the books and records needed in it had been left in the attorney's office and not carried away.

The embezzlement indictment, he said, charging the governor with misappropriating \$70,000 in state funds, also alleged he had destroyed or carried away many of the records of the finance office.

The next step in the long battle between the governor and his prosecutor will be argued here Saturday, Jan. 7, when the defense expects to present a motion asking for separate trials for the governor and Mr. Curtis, who are both defendants under the conspiracy charge. Legal jockeying may postpone the actual start of the trial a month or more.

The next hearing will be on the conspiracy charge.

The defense will then argue for a change of venue.

## MAKING SHOES TO FIT FEET

No matter how nice they may be, shoes always hurt one's feet. The shoe-store manager offers little relief, since it makes no impression on the customer that it is most important to fit. Upon a visit to a shoe store, the first thing where the customer goes is to the counter. Part of the shoe is stretched and torn a bit, a depression is made to go to the toe, who are the best to come in, and so on.

## WOMEN ACT AS PAWN AGENTS
