THE COUNTRY FIVE ARE SOME "PUMPKINS"

A number of bowlers from the Trolley League and mostly from Northville have been conspicuous at the Woodward alleys lately.

On Saturday evening for the past four weeks at the Detroit alleys on Woodward avenue bowling in sweepstakes has taken place. Twelve bowling teams bowled and are awarded, first, second and third prize, according to their totals. The winner realizing forty dollars and the second twenty-five.

Harry Green sized up the situation at the Woodward alleys one night and decided that there were some good bowlers in the country as well as in the city so he organized a bowling five. The first night his team finished third and since then won first upon three different occasions. He entered his team under the name of the "Country Five" as at first it was the only one outside of Detroit. To date, the Country Fives have won \$170 in prize money and are entered again next Saturday night.

The team has scored in three games 274 pins which is the highest mark reached, meaning an average of 186 per game for each man three games, and all games rolled on different alleys.

The last two contests also saw the Fives of Northville entered and they were second to the Country Five on both occasions.

Last Saturday night after the victors had won, some Detroit onlooker jumped up and shouted "Hey, Those Country Guys are Some Pumpkins."

The objects of the society are the conservation of game, preventing violation of the game laws and encouraging a love for out-of-doors.—Detroit Free Press

SEWER WORK TO START SOON

Just as soon as weather conditions will permit work on digging the trenches for Northville's new sewer system will start. Mr. Shullo of the Schullo Construction Co., who has the sewer contract, has been in Northville for the past week or so perfecting plans to start the work just as soon as possible.

L. W. Fall and R. L. Potter, surveyors, representing Engineer C. W. Hubbell, came to Northville the first of the week and began actual work on the job Wednesday. These gentlemen expect to remain here until the sewer system is completed.

Frank Boyle of Salem, was in town Monday.

TREES TO BEAUTIFY SEVEN MILE ROAD

During the year 1922 the largest and most extensive highway program ever undertaken by the Highway Commissioners of Wayne county will be worked out. In all sections of the county highway construction will start along about April 20th and the season will be a busy one. In addition to the construction of new highways some of those already built will be widened and others will be greatly improved.

Among the projects in which our readers will be especially interested are the following proposed improvements:

Eight bridges on the Northville-Plymouth road are being replaced. One has been completed and the rest will be finished this summer. De-

tour bridges are provided for use in the meantime. A concrete retaining wall is being erected along the Rouge near Dearborn on Michigan avenue.

The Federal government has agreed to co-operate in building the Grand River-Plymouth and Arbor road. The present gravel highway has been a white elephant involving especially high maintenance charges. The government and the state will bear 75% of the cost of improvement.

The work on the Southfield road between the Seven and Eight-Mile roads at Redford will be made into a 29-foot concrete road as soon as the frost is out of the ground.

Among the north and south roads to be constructed to make the east and west roads more effective will be a stretch of eight miles along the Boulevard between Springwells and Dearborn and Bedford and Greenfield townships. The north and south road from Wayne to Farmington will be rushed to completion. It will be a 29-foot concrete road.

Of the Middle Belt Route, known locally as the Jim Bell road, only five miles will be completed this year, but 19 miles will be graded for final operation next year. This road will bisect the county and be a main thoroughfare between Michigan avenue and the Telegraph road.

Four miles on the Telegraph road will be completed as a federal project. North of Dearborn this road will be widened to 80 feet for a stretch of two miles at no expense to the taxpayers. The road commissioners convinced the adjacent farmers that the value of their property would increase and they donated the land for the improvement. This stretch will be graded this year and concreted next year.

The Phoenix road which passes by the House of Correction will be made a 20-foot concrete road. The labor will be done by prisoners.

Trees will be planted along the Seven-Mile road from Lake St. Clair to Northville, 21 miles this year. The road commissioners have drawn up elaborate plans for roadside decorations. They will plant straight rows of trees of the same variety but will select those adapted to each kind of soil along the way. Trees often will be missed in clumps or planted irregularly. At points where a pretty landscape would be obstructed, none will be planted. No trees will be planted at sharp turns.

IT PAYS TO BUY IN YOUR OWN COMMUNITY

Few buyers stop to realize just how much they save by shopping in their own neighborhood.

It is the local merchant who best knows the local needs and he is the first to seek local improvements in every manner. He stands behind all local organizations. He makes every effort to accommodate and please the local resident. He soon becomes acquainted with you and has a personal interest in your being satisfied in his store.

He is out of the high rent district. His overhead is lower, yet his stock is as complete and his courtesies as pleasing as his downtown competitor. His smile is more ready for he knows you. His purse is more easily opened in behalf of civic moves for betterment.

Make it a rule to shop in your own community—to know the man with whom you trade.—Ex.

Mr. and Mrs. C. A. Dolph and Messrs. W. E. Scotten and E. H. Lap-hazi were among those who attended the opening of the new First National Bank building in Detroit Friday night.

PRESIDENT ASKS FOR SUGGESTIONS

HEARS CRITICS OF U. S. VETS HOSPITALS ON RETURN FROM FLORIDA.

WANTS TO HELP WAR'S AFFLICTED

Shows Personal Interest in Welfare of Wounded; Vets Seek \$16,500,000 for Hospitals.

Washington—Problems connected with the care of the disabled soldiers was the first matter considered by President Harding Sunday on his return from a vacation in Florida. The president called Director Forbes of the Veterans' bureau, Director Davies of the Budget bureau, and Brigadier General Sawyer (infectious diseases) of the American Legion in conference to discuss the whole plan of government hospitalization and vocational training of former service men.

The groups of officials were asked to state the criticisms which they were said to have made against the present plan and to suggest any improvement of amendment they had in mind. The president made it over his deep personal interest in the subject and the desire of his and other government officials to do everything possible for the welfare of the 4 million disabled men who have returned from their service in the United States.

The special train conveying Mr. and Mrs. Harding and their party reached Washington shortly after noon, the train having been made on schedule time and without incident. The executive and Mrs. Harding went at once to the White House.

Mr. Harding said he felt greatly benefited as a result of the rest, and the numerous games of golf which marked his vacation stay, and declared he had a "dolly" time.

Mrs. Harding and the other members of the party voiced similar sentiments.

More Vets' Hospitals Wanted

Chicago, Ill.—Urgent necessity of caring for thousands of mental, nervous and physically handicapped ex-servicemen will be stressed to congressmen and senators this week when members of the Disabled American Veterans of the World War, in all parts of the country, will demand passage of the Langley bill, appropriating \$16,500,000 for increased hospital facilities.

This action comes in the wake of a survey made in all parts of the country by the Disabled American Veterans of the World War, the effort having been composed exclusively of men wounded and disabled in the war.

INDIANS CLAIM HUNTING RIGHT

Will Fight Game Warden's Charge of Killing Deer.

Howden Mich.—An interesting legal point has arisen in connection with the arrest of two Indian residents of the reservation near L'Ange, Baraga county, on the charge of killing deer out of season. The Indians declare that, under an old treaty, they are permitted to kill deer the year around on reservation land. The game warden who arrested them believe otherwise, however, and have put it up to the department to decide. The defendants will fight the case vigorously.

Detroit Bank's Vast Treasure Transferred to New Quarters.

Detroit—Eighty million dollars in cash and negotiable securities was moved from the offices of The First National Bank in Detroit, in the Ford building, to the bank's new building on Campus Martius early Sunday. Every precaution was taken to safeguard the vast treasure and only a few curious pedestrians witnessed the spectacle.

NEW U. S. MINT CHIEF ON JOB

San Antonio Man Succeeds R. T. Baker as Director.

Washington—Trusteeship for a third of the world's gold supply changed hands Monday when F. E. Scooby, of San Antonio, Texas, succeeded Raymond T. Baker as director of the mint. Gold assets of the mint service institutions aggregate \$2,000,000,000. The world's gold supply is estimated at approximately \$20,000,000,000.

Michigan News Tersely Told

Kalamazoo—Miss Marie Thompson and Ernest Weber were seriously injured here when they were struck by an automobile driven by William Donahue.

Marshall—Republicans here nominated the first woman candidate for office. She is Mrs. C. W. Pierce, a candidate for supervisor from the third ward.

Owosso—The mother and two sisters of the late Claude Jones, of Morrice, have begun suits in Circuit Court to collect from his estate, debts which they say he owed them, amounting to \$350.

Bay City—The entire Republican ticket was successful in the village election at Esseville. For president Otto Garner was re-elected for his sixth consecutive term, defeating Nicholas Waga former president, by a vote of 341 to 117.

Grand Rapids—Cay H. Holmster, a member of the board of directors of the War Finance Corporation in Michigan, says about \$25,000 in farm loans have been made in Michigan thus far, with a few applications yet to be acted upon.

Grand Rapids—The city commission is considering adoption of an ordinance which will make it an offense punishable by fine or imprisonment to admit girls under 17 years of age to public places unless they are accompanied by proper escorts or chaperones.

Port Huron—Mrs. Clara B. Forbes, wife of Lieutenant Haverly F. Forbes, who was lost in the United States ship Cyclops mysteriously disappeared during the war, learned that she had \$1,000 due her from the state and national governments. She forgot to apply for her husband's state bonus.

Alpena—Hope that the Alpena farm bureau can be made sound financially, is found in the checks for 1921 and 1922 given to the hands of the trustee Charles D'Angelo. It is believed the cashing of these checks would take care of all obligations and leave a balance for the resumption of business.

Battle Creek—Governor Grosbeck, following his inspection Wednesday of the Roosevelt American Legion hospital, ordered 100 buildings at Camp Custer to be purchased to accommodate the tubercular ex-service men now on the waiting list and those who daily are making application for admittance.

Pontiac—Noticeable exodus from farms in the vicinity of Oxford where, during the past few months 10 young farmers have sold auction sales and quit farming in several cases the land given up has been farmed by the same family for three generations. In each case the farmer has moved to town and sought employment.

Manistee—Announcement was made by the Pere Marquette steamer line, that its weekly service, between Manistee, Ludington and Milwaukee, Wis., will be resumed March 25. The "P. M." which has been undergoing repairs here during the winter, will go into commission with the steamer Nevada which has been operating all winter.

Kalamazoo—Suit to break the will of Oscar M. Allen, Jr., has been filed in circuit court by Mrs. Edna Crawford Allen and Madge Allen, wife and daughter by the first marriage. Under the terms of the will the entire estate, valued at \$300,000, was left to Mrs. Lucile Dixon-Allen and Oscar Allen III, wife and son by the second marriage.

Pontiac—Mrs. Mary G. Hill, of Farmington, more than 80 years old, has brought suit against her daughter and son-in-law, Mr. and Mrs. John Dingfelder, to recover possession of a farm she says she sold them for \$8,000, \$3,000 of which was to represent her care for the rest of her life. The defendants deny such an agreement, but say their home is open to her.

Pontiac—Farm bureau financial prospects for the coming year are auspicious, according to Mrs. George T. Hendrie, in charge of a committee drafting the program for the year. She reports there is every prospect that receipts will be \$15,000, of which \$2,800 is federal aid. The bureau began work two years ago with indebtedness of \$7,000, of which \$4,000 remains. This will be wiped out during 1922, Mrs. Hendrie maintains.

Ann Arbor—After exhausting one panel and part of another, and just as the trial of Sam Stanich, charged with armed robbery, got under way, Edward Bernard, Detroit attorney for Stanich, was taken ill suddenly. The case is held up temporarily. Stanich, an Escorse man, is charged with the armed robbery of Orval Hawkes' jewelry store, at Whitaker, October 30. Hawkes, who is 74 years old, was beaten so brutally that he nearly died. This is the second trial, the first jury not being able to agree.

Owosso—The state department of health believes that nature has no secrets which should be kept from the children, and that ignorance is a guarantee of innocence, declared Dr. Frank A. Egle, health department lecturer, during the showing of the film, "The Beginning of Life," before school children here. "The children should know how their body functions and should also know the relative importance of their physical impulses. They should be taught what physical development will bring them, particularly during the period of adolescence."

REPUBLICANS WIN MAINE ELECTION

JOHN E. NELSON CARRIES ALL COUNTIES IN THIRD DISTRICT.

MAJORITY LESS THAN IN 1920.

Democrats Make Much Better Showing Than At Last General Election.

Augusta, Me.—The Republicans retained control of the third Maine congressional district in a special election Monday to fill the unexpired term of John A. Peters but by a margin greatly reduced from that received by Mr. Peters in 1920. John E. Nelson, Republican, was elected over Ernest L. McLean, Democrat, by a majority, with 58 small towns and plantations missing, of 6,294.

The total vote was slightly more than one-half of that cast in 1920, when women voted for the first time in Maine. This was partly accounted for by rain, snow and sleet throughout the day.

Mr. Peters, who resigned early this year to become federal district judge for Maine, was elected in 1920 by a majority of 19,257. The missing towns cast 3,300 votes in 1920, of which more than two-thirds went to the Republican nominee.

The new congressman and his opponent are lawyers and residents of Augusta.

In a statement after the election, Mr. Nelson said:

"I am extremely gratified at the results of this special election, held on one of the most inclement days of the winter, with the roads well-nigh impassable. The majority is all that the most sanguine Republican could have expected, and has been equaled in recent years only at the time of the great Republican landslide of 1920. We have carried every county, every city and every large town but one in the district."

Mr. McLean said:

"The figures indicate a most decisive victory for the Democrats. The Republican majority of over 19,000 in 1920 will be very seriously cut, and this notwithstanding that the Republicans were strongly organized, had the benefit of a three months' primary campaign to arouse their voters, and had the entire press of the district. The Democrats, disorganized, without any press whatsoever and with only a few weeks of campaign, have accomplished results which no one imagined possible four months ago."

SUMMER SCHOOL WORK ANNOUNCED AT M. A. C.

Special work for teachers of agriculture and instructors in rural and consolidated school features the announcement of the summer session at the Michigan Agricultural college, to run from June 26 to August 4 this year.

In addition to regular undergraduate courses in all divisions of the state college, adapted material in agriculture, home economics, applied science and engineering is being planned for the special courses. Increasing demand from teachers of the state for work designed to meet their needs for advanced training along special lines has led to a considerable broadening of the curriculum for the summer term.

Vocational education for home economics teachers who need further work to qualify under the Smith-Hughes legislation is included in the courses offered for the first time this year.

A two-room school, with real pupils in attendance will be maintained during the summer for demonstration work with the class of rural teachers, according to Prof. E. H. Ryder, director of the M. A. C. summer school.

Farmington Flashes

Farmington's new bank was opened to the public on Saturday and a great many people visited the new building during the day. The interior of the building is finished in walnut and Missionian marble and is really very attractive—one of the most attractive banking houses to be found anywhere. The visitors were presented with flowers, souvenirs and cigars and the day was one of real pleasure in spite of the disagreeable weather outside.

Mr. and Mrs. Fred M. Warner will leave next week Tuesday for California where they expect to remain a couple of months.

Farmington's new Methodist Episcopal church was dedicated on Sunday and it was a big affair not only for the church but for the whole community. Bishop Henderson preached at the morning and evening service and Rev. M. S. Rice of Detroit was in charge of the services for the afternoon. The building which is complete in every modern detail cost approximately \$85,000 and of this sum about one-half had been pledged, leaving about \$45,000 to be taken care of on Sunday. During the day and evening about \$15,000 was pledged. The Ladies' Aid society pledged \$3,000 toward the debt. Every evening this week there have been services at the church and the week's festivities will close Saturday afternoon with a children's party. This evening, Friday, President Laird of Albion college, will address the young people.

WILL THE NEXT GENERATION BE RELIGIOUS?

The future is making it hard to judge correctly as to the outcome but won't it affect your notions of conduct? There are not enough children and young people in our Sunday schools that is a sure thing.

There are not enough boys either to set the example for youth.

Israel at old forgot to do right and then omitted teaching their children thoroughly as it is seen.

The nation dropped—did out—was lost.

It is people can get out to see why can't that many go to Sunday school?

Novi News.

Mrs. Harry Hammond is very ill at her home. Many residents of Novi and vicinity attended the dedication of the Farmington M. E. Church. Mr. and Mrs. Cody, who have resided here for the last two years, have moved to Romeo where they will reside.

The Bible Study readings held in the Baptist church Tuesday and Wednesday evenings, are well attended and very instructive. The Ladies Home Mission society was well attended last week Thursday at Mrs. Gleason's. A fine program was given by Mrs. Willet's. The Law Enforcement League of Oakland county was well organized and expects to do some good work in the future in helping in many ways.

Mrs. Lockwood, state secretary and county president of Oakland county W. C. T. U., with Miss Andrews, who is at the head of the Child Welfare work of the state, will speak in the Baptist church both afternoon and evening on Friday, (today). Pot Luck dinner. Every mother is asked to be present.

WHAT SHALL WE CALL THE RECKLESS AND CARELESS DRIVER? What is the proper name for the motor driver who tries to beat the traffic signal, who drives on the wrong side of the street, who neglects his brakes, who tries to cut in close, who through his carelessness or recklessness endangers the lives of all, particularly of children?

Aluminum is the most abundant metallic element in existence. Although it is more abundant than iron, it has not been used until the last 25 years, for it is found locked up so tight with oxygen that only the electric furnace can easily separate the two elements. It is an essential constituent of nearly all rocks, except limestone and sandstone—Dearborn Independent.

Archwright's Spinning Jack. The Science museum, South Kensington, London, has acquired the only known specimen of the once famous Archwright Spinning Jack, which has been in the Swain family for 100 years. It has 48 spindles, and is worked by hand with a five-foot wooden flywheel. Archwright, after attempting perpetual motion, completed in 1763 a machine for spinning cotton thread.

The American Automobile Association wants a name, which will put such a man in the class as the jay-walker. A jay-walker is a person not sufficiently civilized to cross the street at the proper crossings. He or she endangers public safety as well as obstructing traffic. The jay-walker deserves prosecution, but even non-effective is the inducement carried of this act. The names of orderly and obedient persons in the country will be considered. A name is wanted to give to drivers that they can put on their license. Police records show the percentage of accidents caused by the recklessness of motorists. There is a further step to be taken to make a further step to be taken for safety. The best name of this kind is the one that the American Automobile Association will pay \$5. The name is submitted before May 1st and will be made May 29th. All suggestions should be addressed to the Editor, American Automobile Association, 1108 14th Street, Washington, D. C.

DETROIT THEATRES.
Like its predecessor, "Hello, Alexander," the Messrs. Shubert's latest musical comedy, "Red Pepper," in which the two famous blackface comedians McIntyre and Heath are the principal figures, is couched with exquisite taste and mounted in gorgeous settings; and when this attraction comes to the Garrick theatre next Sunday to engage upon a schedule of nine performances, the management calculates that it will appeal to the portion of critical theatre-goers that demand entertainment a notch on two above the standard set for the variety of musical pieces. "Red Pepper" is replete with laugh laden lines and such provoking situations, not of the light rapid or insane kind that springs from hit-or-miss dialogue, but of an order of high comedy that springs from situations built on substantial foundation. "Red Pepper" contains

humor instead of patter. It is absolutely different from the general run of musical comedy as it carries a real story, which with songs and dances help to carry the plot, each musical number having a direct bearing on the play. It is a story of the race track and a horse by the name of "Red Pepper." Emily M. Young, Edgar Smith, Howard Rogers and Owen Murphy are responsible for the book and lyrics while the tuneful score represents the joint work of Albert Gamble and Mr. Murphy.
Why "French" High Heels.
It is said that Louis XVI heeled on a court wearing high wooden heels on his shoes. He was not a tall man, and adopted this expedient to make himself regally impressive. The term French heel was applied to high heels and finally to a certain type of high heel.
