The pageant entitled, "The Ever Living Christ" given at the Baptist church Sunday evening, was one of the best entertainments ever put on in Novi, and those who did not attend missed a very instructive and

interesting evening. Nearly 50 persons took part and all did their share to make it a success, and every one of the large audience should have been benefited by it. Several of the adults were dressed in the costumes representing Bible times, which helped to make the entertainment more real. The church was very prettily decorated in keeping with the sacred day and time. Much credit is due Miss Oshorn for her good work and patience in preparing the cast for their parts.

The state primary school fund will receive \$8,769,567 from taxes on railroad properties, telephone and telegraph companies and other utilities this year, it was announced by the state board of assessors Saturday, an increase of \$1,190,910 over last year.

\$24 NOW AVERAGE WEEKLY EARNING

DEPARTMENT OF LABOR REPORT SAYS COST OF LIVING DROP 26 PER CENT.

STILL ABOVE PRE-WAR SCALE

BUT WAGES AND LIVING COSTS ARE MORE IN LINE WITH AVERAGE NORMAL CONDITIONS

Washington.—The cost of living, which has risen on nearly 25 percent in Michigan and throughout the country in the last 15 months, is declining faster than wages, it is indicated in reports to the department of labor.

Twenty-four dollars per week is the average now being earned by workers in industrial plants. This is practically the same as a year ago, despite wage reductions in 1922. The figures are taken to indicate that wage reductions have averaged about one-half of workers' thins supposed

average weekly earning capacity, now approximately the same as a year ago for a majority of those employed in the following industries: Manufacturing of automobiles, coal, lumber and timber, men's clothing, leather, lace, lace shoes, paper and cigars.

This report is based on returns from a large number of plants in all sections of the country, and cannot be taken to apply to the earnings of workers in any single locality or establishment.

The report shows a material reduction, however, in the average earnings of workers in the iron and steel industry, in the building and repair of cars, and in the manufacture of silk. A year ago the average weekly earning capacity in these industries was \$22. The average is now \$24, or more in line with the earning capacity of workers in industry in general.

The industry that wage scale rates have been brought more into line with those in the principal industries is a unique, for which business men and economists have been waiting for many months. Average earnings of workers in all lines are still very much above previous standards, the returns showing, although distinctly lower than during the period when wages were at the peak.

SUDAN GRASS PROVES VALUE AS PASTURE.

That Sudan grass is practically the only crop that can be sown during the late spring and early summer and provide satisfactory pasture for horses and cattle, is the statement of C. R. Megee, of the M. A. C. farm crops department.

Many livestock farmers will be short of pasture this year due to loss of seedlings from drought the past season," says Megee. "If the pasture is for hogs or sheep, rye may be used to advantage, but it is not very desirable for horses or cattle. For them Sudan grass is about the only available crop which can be planted in the late spring or early summer."

ARBOR DAY PROCLAMATION.

(By Governor Groesbeck) Governor Alex J. Groesbeck has issued the following proclamation in which he urges the proper observance of Arbor Day—May 5th:

Fifty years ago the State of Nebraska instituted the observance of a day set apart for tree planting. This day was known as Arbor Day, and its observance has become general throughout the nation. It is a day of sentiment, reverence and patriotic sentiment in the acknowledgment of the tender susceptibility of man toward all the living of the outdoors. Reverence inspired with as the sturdiness of the oak, the majesty of the pine, the beauty of the elm, and the splendor of the leaf bearing branches of the maple with its seasons of changing color and form, a well grounded faith in the productive energy of nature's generous, creative forces.

To us of Michigan, Arbor Day is of particular significance. There was when our forests outshone in splendor and magnificence those of any other state. Today, through the utilization of this natural product and the devastation wrought by forest fires, these forests have to a large extent disappeared, though we still have many thousands of acres of beautiful forest land.

Therefore, by virtue of the authority vested in me as Governor of the State of Michigan, I hereby designate Friday, May 5th, 1922, as Arbor Day, and request that exercises appropriate to the day be held in all our schools

and village people for 15 days free trial.

POSTMASTER TINHAM ASKS CO-OPERATION.

An order to Postmaster T. L. Tinham, Postal Improvement Week, May 15, will be observed in Northville as well as in the other towns managed first and second class post offices.

The purpose of the week, as it is pointed out by Postmaster Tinham, is to show the public the possible efficiency to the post office and their maintenance with the co-operation of the public.

It is the standard of the local post office, Tinham declared this week, to carry out to its fullest extent the message sent out by Postmaster General Huber-Worke, "Do All Duties." This message was sent recently to every post office in the United States.

In order that the post office may serve the public more efficiently the public is asked to co-operate with them in every way possible. There are a great many ways in which every person using the mails can do his share. Postmaster Tinham believes letters and packages can be addressed more clearly and the divisor or of details on the address such as house number, is also a big source of trouble.

Postmen are also a big source of trouble. Improper addressing causes much loss of time and does not permit the postal employees to give the best service in return.

BOWLERS ENJOYED BANQUET.

The Plymouth Hotel was the scene of a very enjoyable banquet and gathering last Thursday night, when members of the Trolley Bowling League, came to celebrate the close of the season and to award the prizes won by the several teams and individual members. A fine chicken dinner was served at 7:30, and after the feast an impromptu program of toasts and story-telling filled an enjoyable hour. The first prize was awarded to the Redford Reds, second prize to the Plymouth Rocks, third prize to the Farmington Trolley Liners, and fourth prize to Jim's Bears of Northville.

All the officers who served during the past year were re-elected, and Walpole

after the business session had been concluded the merry company of men, repaired to the Plymouth Lanes where a bowling tournament was enjoyed.

Northville was represented by a good sized delegation.

Disease in our home prevented the editor of The Record from accepting the very kind invitation extended to enjoy the banquet. Every editor regrets to miss a good "feed," and we were especially disappointed in not being able to meet with the splendid lot of fellows comprising the teams of the Trolley Bowling League.

POSTAL IMPROVEMENT WEEK IS OBSERVED

May 1 Sees Inaugurated First General Campaign of Kind in Service.

With a postal service no less remarkable in a day and half than in a week, postal employees would be gratified to see how world-famous our country is today.

To help fastigate the interest in the work of the post office, a number of cities have organized "Postal Improvement Weeks." This is the first general campaign of kind in the Postal Service for several decades. Postmen, men and women, large users of the newspress, motion pictures, telephones, and the entire organization of 26,000 postal workers are to be involved in this country-wide campaign of interest in postal improvement. Your help is vital. Address your letters plainly with pen or typewriter. Give street address. Spell out name of state, don't abbreviate. Put your return address in the upper left hand corner of envelope (not on the back) and always look at your letter before dropping it in the mail to see if it is properly addressed. This care in the use of the mails is for your benefit and speeds up the dispatch and delivery of mail matter.

If you have any complaints of poor service make them to your postmaster. He has instructions to investigate them and report to the department.

COURTESY
It sticks in human relations like postage stamps on letters. The POST-OFFICE DEPARTMENT expects it to be used by its postmasters and employees in dealing with the public.

Help them in its use beginning with POSTAL IMPROVEMENT WEEK, May 1, 1922.

THANK YOU

WITHOUT STREET ADDRESS
YOUR MAIL IS DELAYED
AT OFFICE OF DELIVERY

The Dead Letter Office has been in existence ever since Ben Franklin started our postal service. Even then people addressed mail to Mr. Ezekiel Smithers, "Atlantic Coast," and expected Ben to know just where Zeke lived.

Perhaps they had Zeke's address in letters up in the garret, maybe a chest full of 'em, but then it was easier to let Ben hunt Zeke. Today people are addressing letters to John Smith, New York, N. Y., or Chicago, Ill., thinking Uncle Sam can locate him, which is just as incomplete as was Zeke's address of yore. The Postoffice Department asks you to put the number and street in the address. It helps you.
