NORTHVILLE HI WINS SECOND PLACE IN B. B.

Last week Tuesday marked the close of a very successful baseball season. On that day, Northville lost to Farmington by 2 to 1 score which put the losers out of the running for the pennant. Had the local boys won that game they would have stood a very good chance of winning. The standings of the teams of the Four Square League are as follows: Farmington, first; Northville, second; Dearborn, third; Wayne, fourth; Plymouth, fifth; and Redford, sixth. The Northville-Farmington game last Tuesday was undoubtedly the best game played in the league this season. H. German pitched a stellar game for the N. H. S., allowing but three scattered hits. One of these hits was over the fence which netted the batter four bases and a score. In the fourth inning Treadway scored on a wild peg to first, which should have been the third out. Northville made eight hits off Staimann two of which were responsible for the score. In the sixth inning F. Freydl hit for three bases and scored, on E. Riley's single Northville did better hitting and had more men on bases than their rivals but were unable to hit in the pinches. Batteries for Northville: H. German and E. Freydl, for Farmington, Staimann and Treadway.

The following men are batting better than '00.

GAVE ENJOYABLE RECITAL.

A number of the piano students of the C. F. Fikins, assisted by Miss Jane Fikins, soprano, gave a very enjoyable recital at the Library building Wednesday evening. Miss Fikins sang two numbers, "My Heart at the Sweet Voice," from the oratorio, "Samson and Delilah," and "Roses of Picardy" and both selections were well rendered and were received with generous applause. All of the piano numbers were well rendered and the young people were paid many compliments by those who were privileged to enjoy the program. The following were the piano selections given: Duet—March, Irene Marsh and Catherine Curtis; Dreams—Geraldine Huff; Fascination Waltz, Barbara Blackburn; Duet—Enroute March, Beth Ponsford and Geraldine Huff; L'Elegance—Fannie Grainger; Rustle of Spring—Avis Brown; Valse Caprice—Reva Schraeder; Duet—La Fleurette, Vivian Parmenter and Vance McKain; Polonaise in A—Irene Marsh; Staccato Caprice—Catherine Curtis; Trio—Torchlight March, Reva Schraeder, Barbara Blackburn, Avis Brown.

LARGE CROWD PRESENT.

An exceptionally large crowd enjoyed the Children's Day service at the Presbyterian church last Sunday morning. The church was beautifully decorated with palms and flowers, while song birds added their voices to the songs of the children. The program was an exceptionally good one and spoke eloquently both of the ability of those who took part, and of the patience and perseverance of the committee in charge. The young people's choir rendered several selections beside aiding materially in the congregational singing. The drills, exercises and individual parts of juniors and intermediates were all good. As usual the tiny tots were the center of greatest interest. They were there with all their life and enthusiasm and each with his own individuality so plainly evident. Fifteen babies of the Cradle Roll—the youngest not yet four months old—responded when their names were called, and each received a pink rose bud from a cradleful on the platform. The sacrament of baptism was administered to fourteen children.

RACES FOR THE FOURTH.

The committee having the Fourth of July races in charge has arranged a good program for the afternoon and a good field of horses is promised. There will be three events—a 2:30 trot, 2:30 pace and a free-for-all trot or pace. A purse of \$100 has been hung up for each of the three events and we may expect to see some pretty lively stepping. Horsesmen are expected from a number of the surrounding towns and a number of the speeders now in training on the local track will be in the races.

FARMINGTON GIRLS HURT IN AUTO CRASH

A number of Farmington young people, pupils of the tenth grade of the High School, planned a picnic at Walled Lake Tuesday afternoon and were to have a pot-luck supper. The merry company was conveyed to the lake in autos and among the young men to take their cars was Fred Allen. He had five young ladies in his car and while riding on the east side of the lake his car skidded and crashed into a tree by the side of the road, injuring three of the young ladies badly. Treva Castleman sustained a fractured arm, Margaret Kreager was badly cut about the mouth and face and Irene Hammond, who was the most seriously hurt, suffered many bruises and it is believed she was injured internally. Young Allen was driving pretty fast and as another car approached he attempted to turn out and in doing so applied his brakes. The auto was badly damaged.

GREENLEAF-COUCH WEDDING.

A very pretty wedding occurred at Hartland Saturday noon, June 10th, at the Methodist church when Katherine, daughter of Mr. and Mrs. Thomas B. Couch became the bride of Malcolm F. Greenleaf, son of Mrs. Geo. F. Greenleaf of Detroit. The ceremony was performed by the Rev. R. E. Simmons of Hartland. Previous to the entrance of the bridal party, Mrs. R. G. Dodge, sister of the bride, sang "I Love You Truly." She was accompanied by Mrs. W. J. Ryce, who also played the wedding march. A bride beautifully attired in white, with a charming, tasteful trim, and in a graceful, tasteful trim, wearing a lovely bouquet of white roses and lilies of the valley, entered on her father's arm and was met at the altar by Mr. Greenleaf, his brother, L. Greenleaf, giving as his best gift. The bridesmaid, Miss Grace Parham of Hartland was charmingly gowned in orange-colored organdy. Little Miss Pauline Green of Detroit, carried the ring in a tiny and was very pretty in blue organdy. A reception was held at the home of the bride's parents, following the ceremony and a most delicious wedding breakfast was served. Mr. Greenleaf has been connected with a large wholesale house in Detroit for the past ten years, except for the two and a half years he served in the Marine Corps in France and Germany in the World War. Mr. and Mrs. Greenleaf live at home at 1634 Wendale avenue, Detroit.

YOU CANNOT FOOL THE BEESY LITTLE BEE.

Considerable excitement was occasioned in the village Wednesday afternoon when a swarm of bees came to the business section in search of the "sweetest" and loveliest place in town in which to locate. At first the dainty queen sought entrance to the office of the local telephone company, having heard doubtless, of the attractiveness of the office force. Failing to gain admission her majesty led her attendants and royal company to the office of the Detroit Edison Company, feeling confident she would gain her heart's desire, but again she was baffled in her attempt to find the "sweetness" and loveliness for which she was in search. Disappointed, but not discouraged, the queen led her followers across the street where they took refuge in the large shade tree. Hod Jackson finally gathered in the happy family by cutting out one of the branches of the tree and conveyed the fair queen to a place of safety, where she will be permitted to store up the "sweetness" for which she was in search.

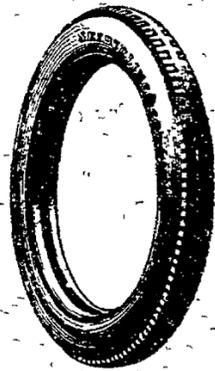

FAIR-BROWN.

Announcements have been received of the marriage of Miss Ruth Caroline Brown, daughter of Mr. and Mrs. Milt. Brown of Detroit, to Louis J. Fair, on Monday, June 5th, 1922, at Detroit. Mr. and Mrs. Fair will reside at 5304 Parker Ave., in that city. Both bride and groom are former Northville residents, and their many friends here wish them happiness and success.

ATTENTION VETERANS.

If you served ninety days or more in the Spanish-American War, the China Relief Expedition, or in the Philippines prior to July 4, 1902, you will be interested to know Congress has passed a Pension Law of vital interest to you.

This law contains two provisions: 1st, it allows pensions to all ex-soldiers, sailors, and marines with the above service record who were honorably discharged and who are now over sixty-two years of age; 2nd, it allows pension to those who are at present materially disabled from earning their living by manual labor from disease, if the disability be not the result of their own misconduct. Such disability must be permanent but need not be total. It need not be the result of military service. The soldier does not have to be sixty-two years old to claim on disability. The amount of pension depends upon the degree of disability and ranges from \$12.00 to \$30.00 per month. Widows of veterans are also allowed pensions.

Fruit in Powder.
It would be very convenient to keep in the pantry fruit juices in the form of dry powders, so that one could mix a glass of lemonade or orangeade or other beverage on hand. They would be useful also for cooking. A newly patented process for making such powders consists in mixing the fruit juice with gelatinized starch and reducing the solution to a dry product by atomizing it into a current of dry, warm air.

Red Cross Nutritional Worker for Wayne County.
 What has the poor child with such a delicate appetite been doing between meals? Are you truly helping that child to come back to normal by offering it a glass of milk or a bread and butter sandwich, or are you further handicapping it by giving it a few pennies, or cookies with which to buy digestive disturbances and heartstiffs? Sweet fruits are much better than candy or cake for young children and no matter at what age candy is eaten it should be eaten in small quantities at the end of the meal.
 Again did the "delicate child" eat no breakfast? An engineer or an owner of a car would scoff at you should you merely suggest running an auto without any gasoline, but that is exactly what you are doing when you attempt to keep the human machine running and working without any breakfast.
 Play as well as milk or water, is good for children, but don't allow the child to neglect the thorough mastication of its food by moistening a mouthful of food in order to swallow it quickly and get out to play.
 Now we come to the worst of all food habits and that is the tea and coffee habit. Drs. Carter Howe, and Mason have made the following statements: "The general effect of tea or coffee is to produce wakefulness and relief from fatigue, increased strength and rapidity of the heart beat and increased blood pressure." The tragedy of such dietetic sins is that they do not give immediate pain but work their destruction in a sure and steady manner. When our athletes, with their well trained bodies refuse to take a chance on tea and coffee, how much more necessary is it for us to help these children to overcome this habit and to guard the younger children from ever "tasting" it.
 Costly Debauch.
 One of the calamities of medieval England was directly due to overindulgence in liquor. Henry's son and heir, William, was to sail from France on the White Ship. The Norman sailors got drunk just before they started for England, and the vessel was lost with all on board. It was a costly debauch, for by removing Henry's only male heir it opened the way for a civil war over the succession when he was no more.

AUTOISTS, BE CAREFUL.

W. S. Gilbreath, secretary of the Michigan State Council of Motor Clubs, recently issued the following letter of warning to Michigan motorists, which is printed in The Record for the protection of the public:

"TO WHOM IT MAY CONCERN: My wife, Edna Toussaint, having left my home without just cause or provocation, I hereby give notice that I will not be responsible for any debts contracted by her after this date."

"Dated Northville, Michigan, June 16, 1922."

W. S. Gilbreath, Secretary of the Michigan State Council of Motor Clubs.

It would be well to watch carefully the operation of a host of so-called Automobile Motor Club or Association organizers.

As a rule, their propaganda is carefully worded to convey the idea that scores of Clubs have already been organized and that great service is now rendered. They promise many things, which from a pure business standpoint, cannot be performed; people's names are being used without authority; attacks are made against great and growing organizations; and in general, the idea is conveyed that said organizers are philanthropists, coming with gifts to you.

We would suggest that you yourself scrutinize carefully the personnel of each organization represented as going right to them for information and ask for bona fide recommendations from the so-called organizers. Advise your members, friends and all inquirers to do this.

No fault can be found with high-minded, legitimate propositions, but one of the other kind took \$20,000.00 out of Detroit, from those who were too careless to investigate.

Be careful!

HOME-MADE BAKED GOODS: Another sale by June Circle of the Presbyterian church will be held on Saturday, June 17th, at the Palace Meat Market. We will try to supply your wants. 48-wlc

Right Idea of "Druggery": The secret of success still lies in the same old word, "druggery." For druggery is the doing of one thing, one thing, one thing, long after it ceases to be amusing; and it is this "one thing" I do that gathers me together from my chaos, that concentrates me from possibilities to powers. - W. C. Gannett.

Conflicting reports about the size of the Michigan cherry crop are circulated. The early reports indicated a bumper crop, although some of the growers are inclined to dispute this. In the Traverse City district, there is little likelihood of heavy immediate shipments as there is now a cold storage plant at Traverse City and there is promise that much of the crop will go into storage at once to be doled out as conditions demand.

There is a great deal of activity over at the House of Correction farm. Excavations are being made for the new building and men and teams are busy grading the new highways. THE TRAGEDY OF A NATION'S DEATH

The Jewish nation crashed to earth and the effects of its fall are felt today.

When Rome fell it took centuries to heal the wound that event made. When Constantinople passed the earth was influenced mightily for evil.

The really big men of all these countries lifted their voices in warning—but the folks were so busy, so intent on their own way that they did not heed.

America cannot scorn the laws of God and get away with it. She, too, must fall if national righteousness is not observed. The individual must be right and then the nation will stand unshamed.

PROGRESSIVE BANKING

Organized in 1907 this bank adopted a policy of paying interest at the rate of three per cent on Savings Deposits for the full time.

August 1, 1919, to meet the demand for a higher interest rate, we changed our rate to four per cent on all Savings Deposits remaining three months or longer.

September 22, 1919, our Capital Stock was increased from \$25,000.00 to \$50,000.00.

December 15, 1919, we became a member of the Federal Reserve System.

These changes were all made with a view of giving our customers better Banking Service.

We now realize the need of more complete Banking offices and have contracted for remodeling and enlarging our present quarters.

The inconvenience caused during remodeling will, we hope, be offset by still better service in the future.

FIRE BIGHT SHOWS IN SEATE ORCHARDS.

That Fire Bight a disease of fruit trees capable of causing extensive damage among orchards, is developing rapidly in many sections of Michigan is indicated by reports received at the Michigan Agricultural College. Fire Bight is particularly dangerous to cherries, and control measures must be adopted at once to prevent the spread of the disease and resultant loss.

Fire Bight is now in the twilight stage, in which it can be readily controlled, says C. H. Conroy, plant pathologist at M. A. C. The blight was usually fairly few in the trees, and they can be cut out readily. The work should be done at once before the blight enters now in serious and spreads to the main limb.

Fire Bight is a disease more dangerous to young, rapidly growing trees. Old trees making slow growth suffer little, and commonly need little attention. With trees in full vigor blight promises to be serious unless growth of the trees is stopped by drought.

Prompt removal and burning of all diseased twigs making the cut at least a foot below the blighted portion will remove the source of infections and keep the trees clear. Full directions for control can be obtained from the M. A. C. Department of Botany, East Lansing, Michigan.

Fire Bight is most common on apples and pears. It is sometimes found on plums, and has frequently been reported in this state as a serious disease of quince and mountain ash.

WIND STORM SWEEPS PLEASURE PLACE AND CONTINUES UP EAST COAST.

CROWD CAUGHT IN SMALL BOATS

Frankie Efforts Made to Reach Safety But 25 are Drowned; Ferris Wheel Wrecked.

New York—A violent storm, accompanied by shifting winds that reached a velocity of 88 miles an hour, took the lives of 57 persons, injured more than 100, and caused enormous property loss in the metropolitan section late Sunday. Five persons were killed and more than 40 hurt when the wind caught a huge Ferris wheel at a Coney Island amusement park and crushed it to the ground.

A woman and her seven-year-old daughter were crushed to death and several other persons injured when an oak tree blown by the wind crashed through the roof to the crowded dining room of the Red Lion Inn, on Boston post road, carrying with it an old fashioned stone chimney.

Miss Edna Smith, 17, walking with a companion along the reservoir road and drowned.

Charles Emerson, New Rochelle clothing manufacturer, was rowing in Echo Bay with his wife and three children when the storm broke. He managed to row to shore, then died from a heart attack.

A tree fell across a party of motorists seeking shelter on the Brookville road, near Locust Valley, Long Island, killing Larry Halleran, of Orster Bay, and seriously injuring his three male companions.

Concetta Biasiata and his 10-year-old son Anthony, of Mount Vernon, were killed when a tree, under which they had found shelter in the Bronx, was struck by lightning.

Unable to reach shore in the stiff wind, Frank Logenthal, 20, was drowned while swimming in East river.

Ten excursionists on the ferry-boat Highland returning from Interstate Park N. I. to West Fifteenth street, were injured when the wind tore a limb of from it down. In falling the limb struck the railing of the lower deck at a spot where about a dozen passengers had gathered for shelter, then it slid into the river and disappeared. Sidney Jacob, 14, was badly hurt and was taken to a hospital. Other injured were able to get to their homes.

Two men were killed in Newark, N. J., when they came in contact with electric wires, torn down by the wind.

A massive, decayed log on the New York Westchester County line at Mt. Vernon fell crushing to death Mrs. Casale Cavavalo and her infant son.

Moore Rustin, one of a party of excursionists in Echo Bay, was drowned. Three other members of the party swam to shore after the canoe capsized.

CONSCIENCE TO GUIDE NO MORE

Chicago Finds It Necessary to Adopt Stringent Beach Rules.

Chicago—Let your conscience be your guide—but not as to bathing suits; for those, read the city ordinance.

This was the dictum of Deputy Commissioner of Public Works Burkhardt, on the eve of the formal opening of bathing beaches.

"We tried the conscience rule once," said the commissioner, "as a result of that experiment the city ordinance this year will govern bathing suits. The conscience of some habitues of the beaches is a trifle too elastic."

INDIANS CLAIM CANADIAN PARK

MOUNTED POLICE ON GUARD TO HEAD OFF TRIBESMEN AT POINT PELEE.

300 WANT TO SETTLE ON LAND

Maintain That Old Treaty Made By British in 1749 Entitles Indians Possession.

Leamington, Ont.—Encamped within the precincts of the Dominion government's national park, at Point Pelee seven miles east of this little south Essex town, a small detachment of Royal Canadian mounted police, under command of Sergeant A. Birtwhistle, Monday night awaited the coming of a band of some 300 full-blooded Indians, who have announced their intention of taking possession of many hundreds of thousands of acres of the finest farm lands in western Ontario.

The Indians claim the land under an old British treaty of 1749. The government, through its department of Indian affairs, at Ottawa, has notified Robert H. Conover, superintendent of the Point Pelee park, that the Indians must be treated as trespassers in case they should encroach upon the government land.

An advance guard, consisting of two families and numbering about 15, reached Point Pelee several days ago and are camping in an old wooden house on what is known as alienated lands, just outside the park preserve.

Among them is Archie Dodge, an Indian of the Pottowatomie tribe, who claims to be a great grandson of the last chief of the Pottowatomie Dodge who came here from Avilington, was intercepted by Sergeant Birtwhistle and catechized concerning the plans of the Indians to take up their quarters inside the park.

Concerning the war debts France is favorable to granting delays in payment but cannot admit for the present reductions to the amount of the sums borrowed by Russia during the war. France also insists upon the recognition of the rights of French holders of pre-war Russian bonds.

Captain Stevens ascended in the same plane with Lieutenant Wade. The pilot, accompanied by Stevens and Sergeant Roy Laugham, observer, took off at 11 a. m. and reached the maximum altitude at 1:05 p. m., requiring two hours and five minutes to make the climb.

GAS WILL BE USED, SAYS SIMS

Naval Officer, Declares Chemical Warfare is Not Inhuman.

Albany, N. Y.—"You can bet your life that if we have another war and if we are attacked we'll use gas," said Rear Admiral William S. Sims, U. S. N., Monday night at the annual dinner of the Albany Medical College alumni association. "If we are attacked we'll use gas," he continued, "and we won't care how, when or why." Gas, he declared, is not the inhuman method of warfare that it generally is believed to be. The general impression that the use of gas was so inhuman, he said, was caused by Allied propaganda because the German army was using it.

FERTILIZING PASTURES AND MEADOWS PAYS.
All hay crops as a rule, look very promising. Alfalfa and Clover fields look especially well. Do the pastures and meadows compare in production with them? A comparison will generally give a negative answer. Where barnyard manure or fertilizer has been used especially on the sandier soils, a much better crop has resulted. Ammonia Sulphate applied at the rate of 100 pounds to the acre has given remarkable results on the sandy soils. Demonstrations on the farms of Mrs. Mayde Bennett of Plymouth and Fred Miller of Sumpter townships show results well worth going a long distance to see. The grass from these plots is also more palatable as shown by the way the cattle go after the fertilized portions.
