## THERE'S A TREAT FOR NEXT WEEK

**FRED NEIL MEETS  
A TRAGIC DEATH**

A most distressing accident occurred at the Pere Marquette depot in this village Saturday forenoon, when Fred Neil, son of R. R. Neil, was killed by a through freight. The unfortunate young man had gone to the station upon an errand for E. M. Starkweather, by whom he was employed, and after transacting the business he was entrusted to do stood for a few moments and visited with Ovid McDonald, an employee of the railway company. A through freight was approaching the station and when less than forty feet distant young Neil attempted to cross the track ahead of the fast-moving train. As he reached the track he stumbled and fell directly in the path of the train and upon one of the rails. Before the train could be stopped a number of cars passed over his prostrate form and as a result his body was terribly mutilated.

Schrader Brothers were called and the remains were tenderly gathered and brought to the funeral chapel where they were prepared for burial. Justice G. H. Baker was notified and after a consultation with the prosecuting attorney decided it was not necessary to hold an inquest.

Young Neil was 18 years of age, having reached his eighteenth birthday just a couple of days before his tragic death. For eight years he has made his home with Mr. and Mrs. E. M. Starkweather by whom he was held in high esteem. He was a young man of good habits, steady and industrious, and his sudden death cast a deep sorrow over the community. He is survived by his parents, one brother and two sisters, who have the sympathy of all.

Funeral services were held at the funeral chapel Monday afternoon and were conducted by Rev. E. V. Bellies, Interment took place at Rural Hill Cemetery.

**PNEUMONIA FATAL TO DR. R. F. McPHAIL**

After an illness of 10 days Dr. Donald F. McPhail, 31, died Tuesday night at 8:40 o'clock in his residence, 483 South Broadway. Death was caused by pneumonia.

Dr. McPhail came to Dayton four years ago from his birthplace in Northville, Mich. He entered the St. Elizabeth hospital as an intern and three years ago began his practice in this city. Since practicing in Dayton he had taken a prominent place in the profession. He was a member of the Montgomery County Medical Society.

During the world war he served overseas with the first division and was with the First Engineers when they invaded Germany. At the close of the war he returned to the United States and after visiting at Northville came to Dayton.

Surviving are his wife, Ruth, his mother and two children—Mrs. Olae Tamm, Mrs. Northville, who is a widow and a widow of the deceased. His young nephew was born in this village and Mrs. McPhail is the daughter of Mr. and Mrs. C. C. Chadwick, former residents of Northville.

**SURPRISED THEIR FRIENDS.**

Mrs. Flora Hendryx, daughter of Mr. and Mrs. Frank Hendryx of this place, and Archie F. Avis of Detroit, played a surprise on their friends this week by announcing their marriage, which took place in Detroit on January 25th last. The young people are residing at 469 Marshal Avenue, Ferndale.

Mr. Avis has a meat market in the city and is enjoying a prosperous business. The bride was for nearly nine years an employee of the Ford Motor company at the Highland Park plant. Friends here will extend Mr. and Mrs. Avis hearty congratulations.

**TO RE-DECORATE CHURCH.**

The contract for re-decorating the interior of the Presbyterian church has been let to Ralph B. Wilts, a local contractor, and the work will be done during the month of August when the church will be closed for the summer vacation. Several Detroit firms submitted bids for the work, but the committee decided in favor of Mr. Wilts because he offered a much greater value than any of the others.

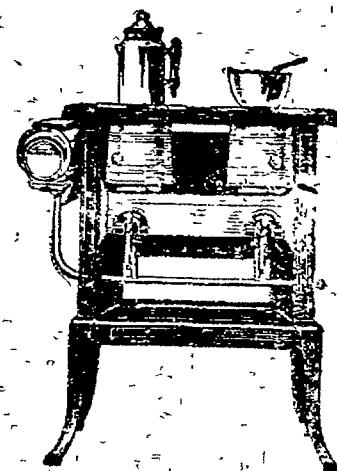

The responsibility for this much-needed improvement has been assumed by the Woman's Union, and the ladies are to be congratulated on the business-like way in which they have proceeded thus far.

Mrs. Agnes Killett was entertained by her cousin, Mrs. Horace Dodge of Detroit Sunday on her yacht, "The Delphine." They made a trip to St. Clair Flats and part way across Lake Huron and Mrs. Killett reports a very enjoyable time.

Tell your friends and neighbors about the Chautauqua next week.

## U. S. MOBILIZES TO ACT IN STRIKE

MAIL TRAINS ARE TO BE KEPT  
MOVING—MARINES AND  
ARMY IN READINESS.

### FREIGHT HANDLERS WALK OUT

Militia, Guards, Railroad Properties,  
Etc.—Boycott Object to Working  
Under Troop Protection.

Washington—The federal government began a mobilization of its forces Monday to deal with the strike of railway shopmen when the attorney general announced that he would call into service an unlimited number of United States deputy marshals, and when the postmaster general ordered all postoffice inspectors in his service to take the field.

At the same time it was learned that if these measures do not serve to facilitate the movement of United States mails and to maintain interstate commerce the marines will be ordered out, and if they are ineffective the government will fall back upon the army.

After 10 days of suspension of shop work in many hundreds of railway plants the government is realizing that it miscalculated, and belated means are being employed to overcome, if possible, the effect of the strike on the mail service and upon interstate commerce. With no other phases of the matter is the government immediately or officially concerned, it is declared.

### Freight Handlers Join Strike.

Roanoke, Va.—Sanctions to call a general strike of the members of the Brotherhood of Railway Clerks, Station Employees, and Freight Handlers on the Norfolk & Western railway was given Monday night by E. H. Fitzgerald, grand president of the brotherhood, in a telegram to Richard P. Deed, grand vice president. C. R. Lane, general chairman of the organization on the Norfolk & Western railroad, issued a strike order effective Tuesday morning at 10 o'clock.

In a letter to local union officials calling the strike, Mr. Lane said the action was taken after a count of the strike vote of employes "with reference to the wage controversy and other conditions."

### Guardsmen Called Out.

Bloomington, Ill.—Five companies of Illinois national guardsmen Monday night were holding the Chicago and Alton shops, where 2,000 men are out on strike, and the Union station headquarters for the Alton Big Four and Lake Erie, prepared to protect volunteer workers.

Chicago & Alton railroad clerks Monday night adopted a resolution announcing they would refuse to work under the protection of state troops.

### SEVERE STORM SWEEPS STATE

Crops and Buildings Destroyed By Rain and Wind.

Lansing—Buildings were destroyed and state crops were damaged tremenously by the hurricane which swept a wide area in the Thumb district accompanying the heavy rains Monday afternoon and evening.

Trees and buildings in certain sections were lifted in the terrific wind, followed by a veritable cloud burst, which laid flat hundreds of acres of ripening grain and filled many Flint basements with water. Thousands of dollars worth of merchandise, stored in basements of downtown stores, was inundated, when overtaxed sewers backed up.

Unfold damage was done to crops by a windstorm which swept Sanilac county at 6:30 p. m. Monday.

Driving rain and lightning left in its wake a devastated strip 10 miles wide.

### FORD'S OFFER BEFORE SENATE

Senator Ladd Submits Bill to Lease Muscle Shoals Property.

Washington—A bill proposing acceptance of Henry Ford's offer to lease the government's water power property at Muscle Shoals, Ala., has been introduced in the senate by Senator Ladd, Republican, North Dakota, a member of the senate agricultural committee.

The bill would accept Ford's offer "in full," including his demand for the Gorgas steam plant. The measure was "laid on the table" when Ladd failed to make any motion for its disposition.

### GERMANY WANTS MORE TIME

Asks Allies To Grant Moratorium of Cash Reparations.

Berlin—Germany has requested that the Allies grant her a moratorium of the cash reparations payments in order to allow her to secure a breathing spell in her present straitened financial condition.

State Secretaries Schroeder and Fischer left for Paris to request the moratorium from the reparations commission and to explain Germany's present plight.

The committee is composed of Messrs. H. G. Roach and B. C. Kremer. The recent fire here caused the citizens to

### Novi News.

George O. Groell has been granted a divorce from his wife, Emma Groell, on the grounds of desertion. It is said Mrs. Groell is living in Detroit.

The remains of John Wattis, who died in Washington, D. C., recently were brought to Novi for burial. The deceased was the father of Mrs. James Halstead.

At the annual meeting of Novi township school district Monday evening, there were a total of 271 votes cast for trustee. Orrin S. Hulett received 188 and Loren D. Flint 83. Mr. Hulett was the candidate of those residents of the township who were opposed to the consolidated school plan. At the meeting a resolution was presented and accepted asking the school board to withdraw its suit now pending to have the injunction set aside.

### Paris an Ancient City.

The name Paris, as applied to the town first occurred in an epigraph letter conveying a council there in A. D. 360. The city is first mentioned in history under the name of Lutetia by Julius Caesar in 58 B. C., when he appointed it as the meeting place of deputies from conquered Gaul. It was then the fortified capital of the Parisii, an insignificant Gallic tribe.

## STATE ACTS TO CLEAN UP TOWNS

TROOPERS ORDERED TO END REIGN OF BOOTLEGERS NEAR DETROIT.

### CORRUPT OFFICIALS MUST GO

Governor Declares Local Police Who Failed to Enforce Laws Will Be Driven Out.

Detroit—The threat that state troopers were on the way to the down river towns of Wyandotte, Ecorse, Ford, River Rouge and Lincoln Park to end the reign of bootleggers, blind piggers and other law-breakers proved sufficient to throw the customarily riotous blind pigs of those places into gloom early this week.

Gov. Alex J. Groesbeck ordered the troopers to the territory where Sheriff Irving Coffin and the local police are said to have failed to control the situation, and the Governor gave orders that the troopers should determine responsibility for past laxness of law enforcement as well as to see to it that law is now enforced.

Almost simultaneously with issuance of the governor's orders, Merlin Wiley, attorney general, announced that he had arranged with Governor Groesbeck for a conference Sunday morning, at which the whole situation as to the tolerance in Wayne county of bootlegging on an organized commercial basis, and the alleged failure of numerous county enforcement officials to do their duty, will be gone forever.

"I have been at my home in Sainte Marie over the Fourth and am not entirely in touch with the most recent developments in this deplorable situation but I can say that I am in hearty accord with the governor's attitude, and I will say further that the governor means just what he says when he fares that the law must and will be enforced," Mr. Wiley said.

Mr. and Mrs. Charles Wilson left Thursday for Niagara Falls, Toronto and other Canadian cities. They will be absent about three weeks.

The laying of the corner stone of the German Lutheran church will take place Saturday afternoon followed by a picnic, and speeches in Harmon's grove, adjacent to the U. S. fish station. John Bartall add to his Fourth of July celebration on Saturday by going up to John Boehner's hill top house, which it is reported vacant, and tapping the elder barrel. He pleaded guilty in justice court Monday and was laid a couple of "whacks."

A local telephone company known as the Northville Telephone Co. was organized this week with a capital of \$1,000 with the following as stockholders: J. M. Gurnett, R. M. Johnson, Whipple & Son, Sande & Porter, A. K. Carpenter, F. S. Neal, F. M. Warner, George Whipple. The company has asked the council for a franchise to erect poles and strings wires through the village.

**SHERIFF COFFIN SHOUP RESIGNS**

Following almost immediately after the release administered to Sheriff Coffin and his deputies by United States Judge Arthur Tuttle, state troopers paid a visit to Ford City and unearthed a terrible state of affairs among the bootleggers and blind pugnats of that section.

Judge Tuttle charged that the federal officers had had very little co-operation or assistance from the sheriff's office, intimating that the whole organization was in league with the rum runners, and the clean-up made in a single half-day by the state troops would indicate he knew what he was talking about. At any rate the accusation and the results of a few hours determined effort to rid Wayne county of a lot of law breakers should induce Sheriff Coffin to resign his office and give place to some one who is in sympathy with the present prohibition law.

Under the administration of Sheriff Sime conditions were very much the same, and it is now about time that the sheriff's office was given a good clean up. If Sheriff Coffin does not resign and take a lot of his inefficient deputies with him the whole outfit should be removed by the governor.

**TO ENLARGE GRANDSTAND.**

At the regular meeting of the fair officers and directors held last Thursday night it was decided to enlarge the seating capacity of the grand stand by erecting an uncovered platform right in front of the present building and to seat the new addition with chairs, thus providing a large number of extra seats for fair visitors. It was also decided to enlarge and improve the two ticket offices, making them more convenient and accessible.

**THE TOOTHWELL CO.**

The Toothwell campaign is, as its name signifies, a campaign for better teeth. This campaign is national wide, and is organized and carried on by the Toothwell Company, a company of progressive dentists who have found its preparation to be without a peer for the purposes for which they are designed. These preparations include a remedy for pyorrhea, for spongy and bleeding gums, a tooth paste for acid mouths, one for alkaline mouths, one for normal mouths and one to be used in conjunction with the pyorrhea remedy.

Many teeth are ruined by use of improper tooth paste. Most people when buying their tooth paste rely upon the selection of the druggist.

The only correct way to buy tooth paste is to have an analysis made of the saliva, both microscopically and chemically. The microscopic analysis will show the kind of germs which are causing the decay and which you have to combat while the chemical analysis will show whether or not the saliva is acid and to what extent. Acid mouths are the cause of much decay. No two mouths are alike, consequently different mouths call for different tooth pastes.

Addressed containers in which saliva can be mailed us will be furnished you by your dentist or sent you by filling out and mailing the following coupon to us. A charge of fifty cents is made for this service and in exchange you will receive a large tube of the tooth paste best adapted to your case, which in the future can be obtained from your dentist.

THE TOOTHWELL COMPANY  
621 Forest Avenue  
Ann Arbor, Mich.

Enclosed find fifty cents for which upon examination of saliva send large tube of tooth paste best adapted to my case.

On Sunday afternoon the Eastern  
Oddfellows team of Detroit will come

Lake next Tuesday, July 18th, in res-  
ponse to an invitation from Ella

down upon the roof. The roof was  
slightly damaged but fortunately no

ing in Detroit in a picnic supper and  
a good time. No special invitations  
will be issued, but all are invited to  
come. Meet at four o'clock and din-  
ner will be enjoyed at six.

The Record was late last week  
owing to the fact that our gasoline  
engine refused to work. No amount  
of coaxing or petting would induce the  
critter to "spark" and we were com-  
pelled to arrange for electric power  
on Friday morning. The engine has  
rendered faithful service for a great  
many years and as we were about to  
install an electric motor for the  
operation of our newspaper press and  
thus be able to give the old stand-by  
a vacation, it seemed to delight in  
asserting its independence and it cer-  
tainly "showed us." Just like all  
gasoline engines—when they are good  
they are very, very good, but when  
they are bad they are devilish.

## LADIES' RAINBOW SAXOPHONE BAND

LADIES' BAND WILL PRESENT PROGRAMS OF DISTINCTIVE MERIT

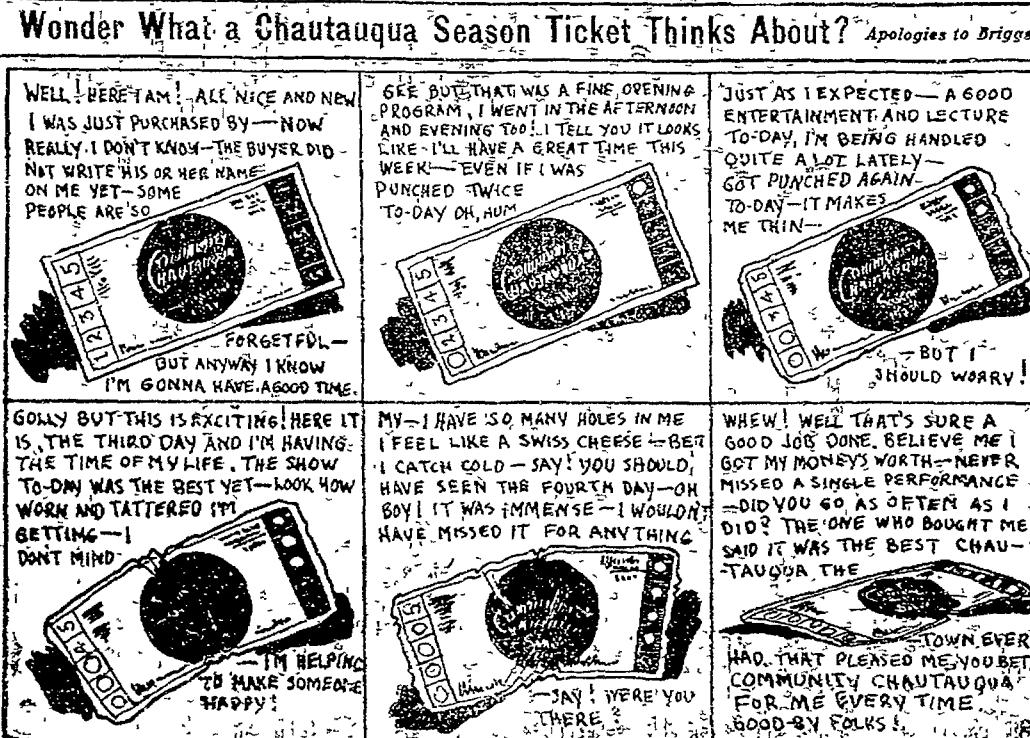

A DISTINCTIVELY different kind of a musical organization is the Ladies' Rainbow Saxophone Band. This group of talented and attractive young ladies under the direction of Sue Ernest Hewling will delight our Chautauqua audience with a splendid program on the afternoon of the second day and a spectacular double concert on the evening of that day. Miss Hewling is unquestionably supreme as a lady drummer, her drum solos being unique, unusual, and at the same time of great musical merit. In addition to her splendid ability as a drummer, Miss Hewling is a remarkable whistler and cornetist, trombonist and saxophonist. Like her, each member of her organization, in addition to her solo instrument, plays well one or more other instruments, thus making possible an almost unlimited variety of instrumentalities. Their programs are enhanced by splendid costumes and stage settings, with special rainbow lighting effects. With such an organization the second day should prove one of the most popular of the entire Assembly.

## "THE MIKADO"—A FEATURE OF CHAUTAUQUA

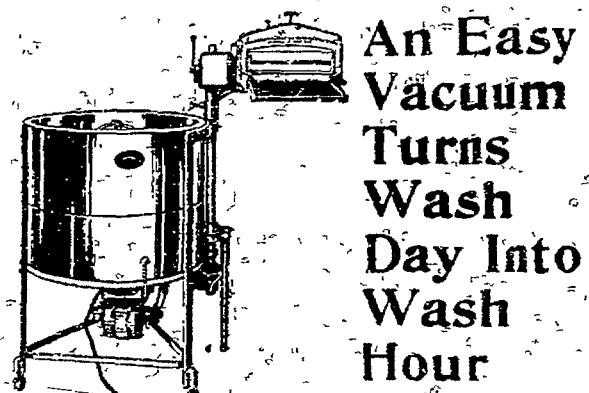

DAVIES LIGHT OPERA COMPANY

THERE is not on the Chautauqua platform another company with such an enviable reputation as has the Davies Light Opera Company which, on the fifth night of our Chautauqua, will offer for the delight of Chautauqua patrons the justly celebrated Gilbert and Sullivan comic operas, "The Mikado." This opera, with its excellent fun, rhythm and captivating music, will be presented by a cast of splendid professionals, aided by colorful costumes and special scenery. The platform will represent an elegantly decorated Japanese garden, in which the scenes of the opera will unfold this clever story. The many comic and embarrassing situations, in which some of the characters find themselves, will make the audience rock with laughter while the rustic singing, both in solo and chorus will be thoroughly enjoyed by everyone.

### MASONIC TEMPLE TO WASHINGTON

The first padeful of earth has been turned on Shooters Hill, just outside of Alexandria, Va., where will be located the "beautiful memorial" to George Washington, the Mason, being erected by the Masonic fraternity of the United States.

Washington, as Master of what is now known as Washington-Alexandria Lodge, F. & A. M., left many relics of the most important historic interest. These, now in the possession of the lodge in the old Virginia city, will be suitably housed in the beautiful fire-proof temple to be erected on a commanding elevation between Alexandria and Washington, D. C.

The building is to cost two and a half millions of dollars, and is to commemorate the Masonic activities of the Father of His Country, who carried Masonic teachings into his every official act, and who gave an impetus to the Masonic activities of the United States which is still a guiding force.

The turning of the first earth was done by Louis A. Watres, of Scranton, Pa., who is president of the George Washington Masonic Memorial Association. The invocation was made by the Rev. Dr. Norton, chaplain of the association.

It is the plan of the association to erect a building which will be a Mecca for Masons throughout the world, and one which will compare favorably in beauty with the Lincoln Memorial recently dedicated in Washington and the House of the Temple, magnificent home of the Supreme Council of the Scottish Rite for the Southern Jurisdiction, which has brought to Washington, D. C., the boast of having the most beautiful fraternal temple in the entire world.

Masons throughout the country are contributing liberally toward the fund for the erection of this memorial

### M. A. C. EXHIBITS TO OVER NEW PROBLEMS

Condensed agricultural exhibits covering timely problems of the Michigan farmer in all phases of his business, will be on display at the Michigan Agricultural college for the annual summer Farmers' Day, Aug. 4th.

Latest results of soil experimental work, seasonal farm crops topics, labor saving machinery, special livestock breeding, and breeding information, and other topics of vital interest to the farmer will be illustrated in optional exhibits, which are to be erected on the college campus near the general display of radio outfits, illustrating the possibilities for farm use.

Rapid growth of broadcasting service, both for crops and weather reports, and for purely recreational programs, has resulted in greatly increased interest among farmers in radio work, and the Farmers' Day exhibit will aim to illustrate the possibilities of "wonders in the home."

In addition to the various special exhibits, will be a great livestock style review, to be held during the afternoon program. Animals from the various college herds of cattle, horses, swine, fowl and poultry will be led past the assembled farmers in parade order. Certificates from the different departments will discuss the merits of the stock as the individuals are passing the stand.

Plans are being made by the college authorities to handle a crowd of more than 3,000 visitors and their families for the day.

### STATE NEEDS 196,000 EXPERT FARM MANAGERS

That Michigan's 196,000 farms need 196,000 trained and expert managers to handle them efficiently, was the statement made before the Michigan Pike Tours association at Lansing on Saturday, July 8th, by President David Friday, of the Michigan Agricultural college.

"There are something over 8,000 manufacturing establishments in the state," said Friday. "Each has its own executive and manager. On the other hand, there are about 196,000 farms, each of which is an industry unto itself, with its own executive head, and requiring a high type of managerial ability."

"It is the duty of the agricultural college to offer professional service for this great group of farm managers. The big manufacturing industries have their own experimental, research and efficiency departments. Farmers, scattered widely and in relatively small units, cannot finance and handle such work. It is, therefore, up to a state institution (the agricultural college in this instance) to perform this service for the agricultural industry."

"This, as we see it, is our responsibility at the Michigan Agricultural college, and we are going to assume it gladly and completely."

The Pike Tours association members, who are on a trip around Lake Michigan in the interest of good roads, stopped at the college for a short meeting which was addressed by Lansing business men and President Friday.

### DEARBORN TO GET FORD OFFICE BUILDING

Erection of an office building on the site of the old Ford tractor plant in Dearborn, to house the offices of the administration, engineering and experimental departments of the Ford motor company, the publishing staff of Ford's Dearborn Independent, and the offices of the allied Ford interests, is announced in an article in the Dearborn Press, said to have been officially authorized.

The big new building is regarded as an epoch in the history of Dearborn, as it will concentrate the officers of all the Ford enterprises in the village, which Henry Ford honors as his birthplace.

### FARMERS' LECTURER

A. C. EVERINGHAM

It doesn't matter who we are or what we are, one of us is interested in farming, either directly or indirectly. For upon the success of farming depends our own success. People are gradually coming to realize that the business of agriculture is a primary business of America and Mr. Everingham is helping them to see this clearly and correctly.

This is why Mr. Everingham comes to our Chautauqua on the evening of the first day. He brings his great message, "The Balance Wheel of Democracy." He has delivered this message to thousands of farmers and others and it is stirring them to action.

### Opportunity

A missed opportunity is like the sun in the heavens. At midday, when it is nearest us, we cannot perceive it sufficiently, the white glare is too much for our eyes. It is only when it is passed, when it is already sinking, that it seems to give its details magnified, no the whole suffused in golden splendor.

Some are satisfied to receive 3½ per cent interest on their savings, while others—those in the Loan for instance—are receiving from 5 to 8 per cent on theirs.

There is nothing to prevent a person from eating poor eggs when good ones are to be had—it's simply a matter of taste.
