SCHOOLS TO OPEN TUESDAY NEXT

On Tuesday next the children and young people of this section will begin another school year. Everything is in readiness for the opening of school and with a competent teaching staff we may look forward to a successful year. The building has been cleaned and repaired throughout and everything is in fine condition. Janitor, VanValkenburg, having been busy about the premises all summer. The list of teachers reveals some new names but it also reveals the fact that a number of those who were here last year and the year before have been engaged for another year. Harold Eising has been engaged as physical director, a new department which will prove of great benefit to both the girls and boys of the school.

The following is the list of teachers engaged:

A. J. Holzrich, Superintendent.
Miss Roy Larkins, Principal.
Miss Francis E. Verkes, History.

Miss Aletha Verkes, English and Public Speaking.

D. M. Winn Science and Athletics.
Harold Eising Physical Director.
Miss Dorothy Whipple Latin and French.

Miss Marion Mulford Music and Drawing.

Edward Anderson—Commercial.

Mrs. B. J. Holcomb, Eighth grade.

Miss Ida Berles, Seventh grade.

Mrs. Hugh Babbitt, Sixth grade.

Mrs. A. Zimmer, Fifth grade.

Miss Dorothy Dubauer, Fourth grade.

Miss Hazel Parmeter, Third grade.

Miss Jane Elford, Second grade.

Miss Fay Christ, First grade.

Miss Dorothy Taylor, Kindergarten.

This is but a partial list of the new teachers.

Starting Sunday, a new catcher will act for the Foresters against the Detroit team. On Monday, Labor Day the Campbell Garden club will be here again. Jaske and H. German will do the pitching in these games.

All Forester players as usual are requested to be in uniform.

There may be a shift in the line up but one thing certain we are going to see different ball from now on.

THEY MUST PLAY BALL.

Manager George Hicks Has Something to Say of Interest to Local Fans.

George Hicks, manager of the Foster ball team, has set his foot down and down to stay. He makes the statement that he has listened to ball players, ball fans and others long enough. From now on he will run the team to suit himself with the expectation of satisfying the public. He says, "We have lost the last five games played and used the same players that had won seven straight victories." There has been too much dissension among the players, caused by jealousy, spite and misunderstanding. The fans have seen the last of such if I have to place nine new men in uniform," says Hicks. Harry German will captain the team on the diamond. He has authority to release any player who wants to lay down or play indifferent ball."

FORD DECLares HE WILL LOSE DOWN PLANT.

Deciding he would close down his steel manufacturing plants on September 5th, before he would pay from \$150,000,000 to steel producers, Henry Ford may soon well be the man of the moment as a millionaire. Some day, Mr. Ford declared he had more coal than he could burn but he expected to need to go to the domestic market to buy other fuel. Now in the country would be compelled to do the same and that the miners would do in compensation for a minimum for their fuel supply. Rather than encourage the strike in their organization he preferred to close down for an indefinite period until prices came down to a point that was fair and just.

If the Ford interests close their plants it will mean that many thousands of men will be thrown out of employment not only in Detroit and Michigan but in many other cities of the country as well. The measure, though extreme, may be the means of bringing the coal strike and the railway strike to a head. Mr. Ford's declaration will certainly be the means of forcing Washington to take notice of the seriousness of the situation.

In his declaration Mr. Ford stated that it was his belief that the officers of the labor unions and the mine operators had a very good understanding and that much of this recent agitation was the result of the plans and schemes of those in classes. If the labor unions and the go-betweens employed by the mine owners and operators could be locked up for a period of thirty days the strike would be settled to the entire satisfaction of the miners, the railroad employees and the general public.

Should the strike be settled at once it will require a long time to get the mines and the railroads running in a manner that will insure prompt shipments and delivery of coal. All coal stocks are depleted and very few families in our community have their winter supply on hand. Many factories and public utilities throughout the state are also on the verge of a shut down for lack of coal, and winter is but a few weeks away. The outlook at best is anything but encouraging, but it is hoped conditions will improve within the next two weeks.

CHILDREN ENJOYED THE RIDE.

About 155 children from the trash camp and children's hospital were given an auto ride last Friday afternoon by members of the Northville Automobile club. Forty cars were required to convey all the children and their nurses and the ride about the country was thoroughly enjoyed. The route selected was to Wixom and return and upon the arrival of the caravan in this village on the return trip each child and some of the older occupants of the cars was given an ice cream cone filled to overflowing.

It was a merry party and songs and "yell's" by the children informed everybody along the route that the Northville Auto club was "all right" and the ladies and gentlemen who drove the cars seemed to enjoy the outing as well as the children.

PEACE EFFORTS ARE RENEWED

Anthracite Miners and Operators Are
Induced By Officials to Resume
Discussions Under Threat.

Washington—Congress will give full support to President Harding if he decides to seize the anthracite mines to secure the long delayed payment of miners' wages. Both houses were induced to give their assent to such a measure by the miners themselves.

This is not necessary, it was stated yesterday Sunday, indicated a renewal of the effort to make peace between the operators and strikers at Philadelphia. Secretary of Labor Davis and Senator Pepper, Pennsylvania, have been successful in getting both factions to renew discussions.

In the meantime Mr. Harding and his cabinet were completing their plans to meet the extreme emergency. For the first time in several months the president took a trip down the Potomac on the Mayflower presidential yacht. His "strike cabinet" consisting of Secretaries Hoover and Fall, Attorney-General Daugherty and Senator Cummings and Kellogg were with him along with other guests.

Mr. Harding and his "strike cabinet" took along a large mass of data, including the anthracite situation, the coal miners, the domestic consumers and a large portion of the eastern half of the country in the event of an immediate strike. A conference of oil producers will be held in New York Monday evening, and the president will be present.

The president's speech will be made at the White House on

FORD PLANT WILL BE CLOSED

Thousands of Men Will Be Worked
Up to Coal Mining

Detroit—The administration of President Harding has decided to close the Ford plants here will leave 5,000 men without employment. The recently planned industrial parks of the country which also will close employ 20,000 more and the total loss of some 300,000 other persons will be indirectly involved.

Mr. Ford said that coal had been ordered in on a large scale but that it would not pay to import it in order to bring it along.

U. S. TO BUILD POSTOFFICES

Will Check "Price-Gouging in Rentals,"
Declares Postmaster

Washington—Government ownership of postoffices buildings in every city and town in the United States, where none now is owned, has been proposed to Congress by Postmaster General Work with the approval of President Harding. The president's approval, administration officials said, Sunday, was based upon reports showing that the plan, once put into effect, would mean a saving to the government of approximately half a billion dollars within the next ten years.

EXPECT HALF MILLION AT FAIR

State Exposition Likely To Break All
Attendance Records.

Detroit—More than 500,000 persons will visit the Michigan State Fair during the seventy-third annual exposition that opens Sept. 1; it is anticipated by G. W. Dickinson, secretary manager.

More than 200,000 are expected to be drawn from all over the State. Substantial increases in the premiums offered in all departments have had the desired influence and more and larger entries are being received from dairymen and farmers.

Wood To Stay at Philippines
Manila—Governor Leonard Wood will remain as Philippine administration head until the four-year program considered essential for the rehabilitation is assured of success. Despite reports that he will become president of the University of Pennsylvania in January, it seemed apparent he would be unable to leave Manila until the close of the legislative session early in February or perhaps later if an extra session of the legislature should be convened.

THE OAKLAND COUNTY FAIR

What you see at a fair naturally divides itself into two general classes. There are the exhibits in all of the many departments, together with their placards and printed or oral stunts. These are intended to furnish instructive and educational. Then there are entertainment features—the three acts, the races, the ball games, the mask and special amusement grants. These are intended to furnish entertainment, help swell the crowd and thus make possible the payment of premiums. It is the aim of the management of the Oakland County Fair to give a well-balanced exhibition of the best class in the world these respects.

The secretary states, that local boosters in every department have been working hard and they expect to make the 1922 fair the biggest and best. The county has been selected. The fair is strictly on a county community basis. Officers, aldermen, and commissioners work in 1922. A 2 cent receipt received from the fair is to be used for improvements.

Improvements this year include closing the grand stand back from the track and adding additions to double the capacity building, a new band stand and a new judges' stand, building three new stock sheds, canvas topped, \$824, purchase of 200 new wire coops for poultry and pet stock. Premiums have been increased and boys' and girls' club work will be restored. Besides three ball games and six races, three high-class "free" acts, bows will exhibit daily.

The dates of the Oakland County Fair are September 13 to 16 at Milford. The management cordially invites you to attend. You will see many old friends there and will vote a day or two at the county fair well spent.
