Let All Rejoice

Let us give thanks—not for those gifts alone
Of field and garden, tree and fruitful vine,
But for those gifts by which our lives have grown
More nearly like the Infinite design.

Let us give thanks, from fervent hearts, for love,
Pure love toward God, unselfish love toward man,
For tenderness, compassion—gifts above
What human thought could wish to have, or plan.

Let us give thanks for the great gift of prayer,
By which we reach the consciousness of peace,
And realize the constant help and care
Of love divine, that cannot lapse nor cease.

Let us give thanks for true and loyal friends,
For home, and family ties, for work, for play;
For beauty and the grace that laughter lends
To toil or trial, on our daily way.

Let us give thanks that in this troubled hour,
With skies bedimmed by doubt, by hate, by fear,
We can rejoice that God alone has power,
Can prove it true, and thus win heaven here.

CHURCH MUSIC HEARD ON WCX. Part the Club Took in the Celebration

Fine Program From Central M. E. Pre-
sents Organist and Talented

Sister:

Miss June Filkins, mezzo-soprano
was introduced to the radio audience
last Tuesday evening in a delightful
recital broadcast from Central Metho-
dist Episcopal church by WCX, the
Detroit Free Press station. Already
known to many Detroit music lovers
as an ambitious student who had
been heard in church and recital
work the young singer made an im-
mediate impression on her large group
of hearers.

Appearing with Miss Filkins was
her brother, Guy Filkins, organist at
Central church, a musician who need-
ed no introduction to the great radio
crowd. He is heard each Sunday
when WCX broadcasts the Central
church services, and throughout the
fall and winter season gives frequent
afternoon and evening recitals in the
church.

Mr. Filkins introduced summer
nighttime organ recitals to Detroit and
they have become a permanent in-
stitution in Central church. Comment-
ing on these recitals the Dispatch,
well-known magazine devoted to news
of organ music and organists, said re-
cently: "Hot weather organ recitals
introduced by Guy C. Filkins, organist
of Central Methodist Episcopal church,
Detroit, afford a noontide respite in
the cool church edifice from the heat
of the downtown district to many
workers and have made Mr. Filkins'
name ore held high in esteem in the
Motor city."

Mr. Filkins received his instruction
on the organ from L. J. Redwick, of
this city, and Edwin Arthur of Cleve-
land, and studied piano with Wager
Swaine, in Paris. Before going to
Central church, about four years ago,
he was organist and choir director of
Preston Methodist Episcopal church.

In presenting the comprehensive
program he gave Thursday evening,
Mr. Filkins not only revealed his
musical talent and knowledge of or-
gan mechanics but brought forth the
resources of the instrument, one of
the finest and largest in the city. He
played compositions by the acknowl-
edged masters of organ literature and
magnificent excerpts from such as
Wagner operas. He proved himself
a competent artist in whatever he
 essayed.

Miss Filkins has an agreeable
mezzo-soprano of considerable range
and warmth and she sang a diversified
group of well-chosen songs, in addi-
tion to the Romanza from "Faust."
She is studying with Thaddeus
Wronski, artist director of the Detroit
Community Opera.

The concert was the first broadcast
from a local church and brought many
telephone calls to the Free Press radio
department asking for information as
to how it was accomplished and ex-
pressing appreciation of the fine music
given by Mr. Filkins and Miss Filkins.

FARMINGTON CLUB CELEBRATES
25TH BIRTHDAY.

The Farmington Ladies' Literary
club met at the home of Mrs. T. H.
Turner in Northville to celebrate the
twenty-fifth anniversary of its organi-
zation, with 33 members present.

Roll call was responded to with
"Club Recollections" which were
many and varied. Sketches of some of
the work that had been accomplished
by the club were given, as follows:
Mrs. Martha Schroeder, "The Li-
brary," Mrs. Minnie Wilber, "The
Park," Mrs. Ernestine Pierce, "The

Part the Club Took in the Celebration

of the One Hundredth Anniversary of
Oakland County," Mrs. Ella Irish,
"The planting of memorial trees for
the departed members."

Music was furnished by the Mes-
dames Whipple, Pauline, Cook and
Wilber was enjoyed during the after-
noon. Mrs. Martha Hatton read a
poem "Our Inspiration" written by
the late Mrs. Florence Moore for the
celebration of the tenth anniversary
of the club, and dedicated to Mrs.
Turner who was the founder of the
club and the first president. At a
previous meeting of the club a new
constitution and by-laws had been
adopted and the name of the club
was changed to "The Farmington
Woman's club." The task of bidding
farewell to the L. L. C., was delegated
to Mrs. Ella Irish, after which the
members all joined in singing "Auld
Lang Syne." The response and ac-
ceptance of the new title was given
by Mrs. Mary Johnson. This was fol-
lowed by the ceremony of the lighting
of the candles on the birthday cake
by Mrs. Bertha Steele. The members
then repaired to the dining room
where the committee, Mesdames Wil-
ber, Irish and Steele, served lunch,
assorted cakes, ice cream, candy and
apples. Mrs. Bertha Hatton pre-
sided at the punch bowl.

PRESENTED TABLE AND CHAIR TO
LIBRARY ASSOCIATION.

About sixty members of the North-
ville Woman's club enjoyed an indoor
basket picnic on Friday last at their
club rooms in the Library building.

During the lunch hour the guests
were pleasantly entertained by the
Northville High school orchestra.

The delightfully informal social
hour following the picnic luncheon
and the exceptionally fine musical
program were in charge of the com-
mittee of the day—Mrs. Agnes Shafer,
Mrs. May Filkins and Mrs. May Power,
who had previously very appropriately
decorated the Library.

There were violin solos by Dr.
W. M. Nelson, piano solos by Miss
Edith Kyser and vocal numbers by
Charles Hutton of Walled Lake, Mrs.
C. D. Kigour officiating as accom-
panist.

A remarkable feature of the pro-
gram was the presentation of the
beautiful table and chairs, a gift to the
club for the enjoyment and use alike
of the club and library from Mrs.
Margaret Thompson Yerkes and Frank
L. Thompson in memory of their
mother, Mrs. Eleanor Thompson, who
was for many years a devoted member
of the club.

Mrs. Narcia Dubuar in well chosen
words made the presentation and Mrs.
Della Harmon of Detroit, an honorary
member and ex-president, accepted in
the name of the club.

Following the presentation and ac-
ceptance Mrs. Edith Lapham very
graciously spoke a few words in the
memory of her mother, Mrs. Lucy
Stout Dowd, founder and mother of
the Northville Woman's club and Mrs.
Thompson, and also indulged in some
very entertaining reminiscences of
the earlier days of the club.

MRS. CHARLES HINMAN DIED IN
DETROIT.

Edna May, beloved wife of Charles
Hinman, died at the home of Mr. Hin-
man's sisters in Detroit last Friday,
aged 44 years. She was taken to the
city about three weeks previous to her
death for an operation for an ailment
of long standing.

Besides her husband she leaves five
children. Funeral services were held
at her late home in this village on
Monday afternoon and were conducted
by Rev. E. V. Belles. Interment took
place in Rural Hill cemetery.

CELEBRATED FIFTIETH WEDDING ANNIVERSARY.

November 22, 1872, there took place in the home of the bride's parents, Mr. and Mrs. Samuel Seaman at Burlington, Mich., the wedding of their daughter, Louisa Jane, to Mr. H. A. Spicer of Marshall, Mich. On Wednesday, November 22, 1922, Mr. and Mrs. Spicer celebrated the fiftieth anniversary of that wedding in their home 369 East Ann Arbor street, Plymouth, with a reception to old friends and neighbors from 3 to 5 in the afternoon and a family dinner for the relatives at 6 o'clock. The color scheme of the decorations was yellow and white.

Mr. and Mrs. Spicer moved to a farm just outside of Plymouth 45 years ago where they resided until five years ago, when they moved to their present home. They have six children, all of whom are living: Mabel L. Spicer, S. W. Spicer and Mrs. H. S. Doerr, of Plymouth; Mrs. W. H. Wakely, I. A. Spicer and Mrs. N. U. Avers, of Highland Park and Detroit.

PLYMOUTH WORLD WAR VETERAN DIES.

It was with a feeling of sorrow that Plymouth citizens learned of the death of Roy J. Robinson, World War veteran, which occurred at the home of his parents, Mr. and Mrs. W. A. Robinson on Kellogg street, Friday morning, November 17, after a long illness.

Roy J. Robinson, youngest son of Mr. and Mrs. William A. Robinson, was born December 10, 1889, in Nankin township, Wayne county, Michigan, and died November 17, 1922, at Plymouth, Michigan. His early life was passed on his father's farm near Wayne. In February, 1913, he went to Peace River Crossing, Alberta, Canada, where in March, 1915, he enlisted to fight in the World War. In November, 1916, he went over seas with the Edmonton Highlanders, with whom he fought, first in the trenches, later as a sapper, receiving wounds and other effects of his war service from which he never fully recovered. He was honorably discharged from the service in June, 1919, and returned to the U. S. After a short visit with his parents, he returned to Peace River Crossing, where he remained until July of this year, when, on account of his failing health, he was brought to the home of his parents, where he has remained until his death.—Plymouth Mail

MICHIGAN'S GRAPE CROP YIELDS MILLIONS.

A Eawton dispatch of recent date stated that in spite of low prices southwestern Michigan's grape crop, this year, brought a return to the growers estimated at about \$10,000,000. The crop was by far the largest ever grown in this section, and averaged a return of about \$300 an acre. Statistics published by the shipping companies showed a total of 5,167 carloads shipped out of VanBuren-Berrien district and an additional 2,240 carloads from the Lawton-Paw Paw district, making a grand total of approximately 9,000 carloads, exclusive of the grapes hauled out of the district by automobile and by steamers to Chicago and Milwaukee.

A census of farm products and farm acreage, made by the VanBuren board of supervisors, showed 10,000 acres devoted to grape culture.

What has been done in Berrien and VanBuren counties might be accomplished in this section of the state and much of the hilly lands in Washtenaw and Wayne counties could be producing grapes in paying quantities. There has been for a number of years a growing demand for Concord grapes, owing, doubtless, that people are putting up their own grape juice. Concord grapes sold in this vicinity last fall, at the farm gate, for \$3.00 per bushel.

PAULINE FREDERICK AT THE GARRICK.

One by one the players who deserted the spoken drama for the alluring influence of the screen are returning to their first love like the heartick heroine of "Ole Joe" who came home to the raised test.

The most important desertion from the ranks of the gelatine got to the hilt on stage is the charming and beautiful Pauline Frederick a woman who unifies exquisite natural refinement, consummate elegance of manner and a wealth of dramatic artistry which the tree could ill afford to lose for the eight years she was isolated in the science of animated photography, and yet while she made millions of friends and admirers by her delightful personality and nude dramatic entourage disclosed upon the screen, that wonderful voice which she possesses was stilled and one of her greatest assets denied the world.

If Pauline Frederick had nothing else to commend her prominence upon the stage her voice alone would demand the artistic recognition. It is sacrosanct to silence a voice so so rarely modulated and so effectively applied.

Thanks to the persuasive voice of a H. Woods she has again reached the stage where the spoken word is given expression and will have a new play "The Guilty One" at the Garrick theatre for the week commencing next Sunday night, December 3rd.

NOTICE

To correct some misinterpreted writings and possible untruths, I will make the following statement: That I recently sold out my barber business below the Huff store and promised not to engage in the business in Northville for two years. I fully intend and will keep my promise. I am now, also John Sanders, in the basement of the Joslin building each of us working for the owner of the barber shop, Harry German, strictly on a percentage basis for the work we do. I do not and never have owned a chair, mirror or any other article except my own razors or small barber tools. I am not engaged with Mr. German directly or indirectly in any way except as mentioned.

When I purchased a shop in Northville, the owner signed a contract that he would not engage in the barber trade in Northville for two years. Within a few weeks after signing the agreement he was working for me on the percentage basis the same as I am now. Had I wished to have broken my recent contract with him I could have purchased the shop where I am working, but I have more respect for my character. It is my chief asset, for as far as money is concerned, I have but little.

I have made the above explanation simply to throw the true light to those who may not have had a good opportunity to know the truth and may possibly have been misled by not getting full explanation.

There are always two sides to a story and you have mine.

Starting A Sales Force Into Old Territory.

The business of some firms lags—stops or slips back because the selling policy is not handled correctly. There are certain underlying principles which may be forgotten—temporarily neglected or wilfully disregarded. Sending salesmen into old territory calls for some special new training. The distribution of goods is very closely interwoven with hospitality—that friendly spirit—that service idea. Folks buy from those they like.

Missionaries—salesmen if you please—of the business world explain, make friends and present the goods clearly and conscientiously and seek to get the signature on the dotted line.

The church has representatives—missionaries—in every country and in every section of our own good land. Missionary work, whether at home or abroad, is the sales effort of the church. Its purpose is to diffuse light and information to every

Walled Lake Warbles.

In these days of high cost of living most of us must be satisfied with one egg for breakfast, but not so with C. L. Berry of this place. He is the proud possessor of a White Orpington hen that layed two eggs on one day, and on Sunday at that. The eggs were connected with a membrane about two inches long. This simply goes to show what a consolidated high school will do for a community. Things are coming in pairs for Walled Lake.

They are staying at the Wigwam Hotel, a most imposing and delightful family hotel. A letter The Record received from Mr. Richardson will be published next week.

For some reason or other some pretty big fish stories have been in circulation in St. Petersburg since Messrs. Richardson and Warner arrived in that city. A jewfish weighing 350 pounds and a kingfish weighing 40 pounds were caught there last week, and while press dispatches fail to tell the names of the fellows who captured that jewfish we have our suspicions.

POULTRY

GEESSE QUITE EASILY RAISED

Kept Generally in Small Flocks on Farms and Purchased by Exporters and Fatteners.

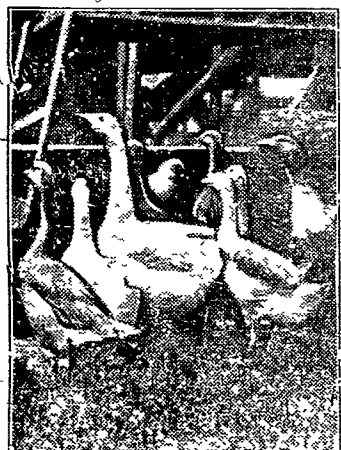

Produced by the United States Department of Agriculture. Geese are raised usually for young birds to be sold in January, although they are also sold around Thanksgiving and Christmas. Ten-week-old geese are the largest breeds of pure-bred geese, weighing up to ten pounds.

Geese usually are killed and picked the same as other kinds of poultry, but are much more difficult to pick than chickens. Generally the veins in the back of the mouth are severed with a long-bladed knife, followed with a blow on the back of the head with a short club. The wings are picked to the first joint, and the feathers are removed from the neck half way to the head, pulling with the feathers and not back toward the head. The soft pin feathers and the down may be removed partly by rubbing the body with moistened hands or by shaving the skin.

The dry-picking of geese is rather difficult. The most common practice is to scald or steam the geese feathers before picking. This can be done over a wash boiler three-fourths full of boiling water, laying the dead geese on a burlap sack stretched tightly over the boiler and steaming first, the breast, then the back, and then each side. The whole process of steaming will not take more than two or three minutes, and the geese must be kept moving to prevent scalding the flesh. The geese is steamed until the feathers can be pulled out easily, and the head usually is laid under the breast to keep the breast from scalding. After picking, the bird is stung over an alcohol flame, the alcohol usually being burned in shallow tin plates.

Another method for removing the down is to sprinkle powdered rosin over the body of the geese and dip it into hot water, which melts the rosin so that it and the down can be rubbed off easily, leaving the body clean. Geese may also be steamed by scalding slightly and wrapping the body tightly for five minutes or longer in burlap or cloth to allow the steam to work thoroughly through the feathers. Some markets prefer dry-picked geese, while in other markets no difference is made in scalded or dry-picked.

Geese are raised successfully in all parts of the United States, but are most abundant in the South and the Middle West. Slightly more than one-tenth of the farms in the United States reported geese in the census of 1910.

Mature Geese and Partly Grown Goslings Will Get Their Living From a Good Pasture So Long as the Grass Remains Green.

Practically all there are in this country are in small flocks, and few, if any, farms are devoted entirely to their raising. Fattening, however, is conducted as a special business on a large scale in the producing sections, in which case the geese are collected from the general farms, usually over a large area, and fattened for a few weeks before they are killed.

On farms where there is plenty of grass or pasture land geese can be raised successfully in small flocks. A natural supply of water is, of course, essential. The birds are very hardy, both young and old, and rarely are affected by any disease or insect pest. Grass forms the bulk of the feed, and it is doubtful whether it pays to raise them unless it is available. They are the closest known grazers. Both mature geese and partly grown goslings will get their entire living from a good pasture so long as the grass remains green. A body of water where they can swim is considered essential during the breeding season, and is a good feature the rest of the year.

MARKET UNDESIRABLE STOCK

Poultryman Should Go Over Flock and Cull Out Fowls Not Wanted for Winter.

If you have not already done so it will be well to cull out and sell off such stock as you do not intend to winter. In fact, it is generally desirable to have September and October cullings for the purpose of marketing such old and young stock as it will not pay to carry through the winter season.

BEFORE JEFFERSON HAD A SAN

(Names of places and persons for obvious reasons have been changed in this story, but the incident happened as narrated.)

Dr. Merrit, fresh from the U and new to Jeffersonville, answered his telephone promptly. It was Burroughs, the hotel keeper, a vast, jovial fellow whom the doctor saw on the hotel porch daily who was calling "Gosh, doc," said Burroughs. "I wish you'd come over. Fellow from twenty miles out in the 'jackpines' just drove in here and left his boy on the steps, and asked me to send for the doctor, and before I could say 'Boo,' he hit the horse a crack and he was gone. And the boy—he ain't much more'n a kid—looks as if he was dyin' now."

Dr. Merrit's patient was still waiting for him on the hotel porch when the young doctor ran up the steps a good-looking lad, at he had not been so wasted with fever. He was in the most advanced stage of tuberculosis, dying, as Burroughs had said, but since he kills its victims by tortured sighs, Dr. Merrit foresaw that it might be weeks before death came.

"Edgar Robinson," the young man whispered in reply to the doctor's inquiry as to his name.

"How long have you been sick, Robinson?" inquired the doctor, cheerfully as he could.

"Why, I've been in the house since January, but Dad can't pay doctor's bills, and wasn't much, but a bad cold, I thought, anyhow. So I just stayed in and kept warm, haven't had much appetite, you know, but I haven't been really sick. There's eight of us in the family, though, and Dad couldn't keep a loafer, any longer, I didn't think, and so I told him, if he'd bring me into town, maybe somebody—" Edgar's eyes glistened hopefully.

Burroughs beckoned the doctor to the end of the porch. "Gosh, I wish I could keep him," he humbled regretfully. "But I got a duty to the public."

"If there was a hospital—" began the doctor.

"Ain't any within thirty miles," answered Burroughs. "And that's all ways full. If there was one of these TB sanatoriums in Jefferson county now—"

"If there was a sanatorium," said the young doctor fiercely, "this never would have happened. That boy could have been saved, six months ago. As it is, I suppose it's the poor farm."

In the end it was not even the poor farm, for the poor commissioner held that he couldn't take care of contagious diseases. So young Merrit and the kind-hearted hotel keeper built a little shack out in the woods back of the hotel, and between them cared for the forlorn young patient, until three weeks later, he died.

"And I'll stay here," vowed Merrit, the night Robinson went, "till I see Jefferson county with a san, or they run me out."

Jefferson—or whatever its real name is—has a "san" now, already it has done good work, and a field of unbounded usefulness is before it.

But in all Michigan there are for its 35,000 consumptives only 2,000 beds.

A proportion of the Christmas seal money will be used by the Michigan Tuberculosis Association in the campaign for more of the life-giving sanatoria that save incipient cases of tuberculosis from drifting into the plight of Edgar Robinson.

Now!

It will be a help to your local dealer if you will place your order for coal now if you have not already done so. We are receiving some Soft Coal and Coke these days and hope to secure some Hard Coal soon, but it is scarce and hard to get.

Our advice is not to wait for Hard Coal. Let us put some Soft Coal in your bins so you will have some fuel when cold weather comes.

Like every other coal dealer we are doing our very best to supply our patrons, but the task has been a difficult one. Very little coal compared with former years, has been mined during the past few months, and now everybody wants coal.

Give us your order and we will do our best.

REALTORS INDORSE STATE LAND PLAN

PROVIDES AGENCY FOR SURVEY
OF LAND OFFERED FOR
SALE FOR FARMS.

WILL PROTECT FARM SETTLERS

Unscrupulous Dealers Have Done
Michigan Great Injury By
Selling Worthless Land.

Lansing—The land settlement plan being developed by the state department of agriculture, was given the endorsement of real estate men, railroad agents and representatives of local development bureaus from the northern part of the state at a meeting here Monday when the plan was explained and discussed in detail.

One delegate to the meeting declared the Michigan plan was more complete and forward-looking than any being followed by any state in the nation.

The plan is for state agricultural and economic agencies to make a survey of the property, which an owner seeks to put on the market, and see if it is not what portions of any of his land are suitable for profitable farming development. Under the plan, the owner pays the cost of the survey, and agrees to withhold from the market non-agricultural land unless said land has been examined by the prospective buyer prior to its purchase.

It was pointed out that while Michigan has more than 6,000,000 acres of good agricultural land in the northern part of the lower peninsula and in the upper peninsula, unscrupulous land dealers have destroyed the confidence of buyers both within and outside the state, to the point that it is now almost impossible to interest them in Michigan's undeveloped land. It is to restore the confidence and place the settlement of good farm and woods land on a scientific basis that the land settlement plan is being laid out.

It was also pointed out that with a correct land settlement policy, the state will be in position to go forward with its reforestation policy, devoting agricultural land to the production of new forests.

DENBY FLAYS CADETS FOR ORGY

Powderyism Follows Wild Rum Party
by Middles.

Washington—One of the most drastic indictments of American naval cadets ever delivered by a secretary of the navy, came from Secretary Denby Monday in denouncing as "a disgrace upon the naval academy" the misconduct of midshipmen at a navy ball in Philadelphia following the Army Navy football game last week.

The misconduct of the midshipmen is said to have been excessive consumption of intoxicating liquor at a Philadelphia hotel and consequent rowdiness, which Secretary Denby described as "the most flagrant that has ever been charged against the academy."

Secretary Denby has ordered an investigation to be made at once.

RECORD STOCK DIVIDEND PAID

Firm in Standard Oil Group Distributes 300 Per Cent Melon.

New York—A stock dividend of 900 per cent, the largest in the recent epidemic of high dividends, and constituting one of the largest distributions of stocks in this country in many years, was declared Monday by directors of the Atlantic Refining company, a member of the so-called Standard Oil group.

The dividend is payable to stockholders of record December 12. The present amount of common stock outstanding is \$5,000,000, so that the stock dividends will raise the total to \$50,000,000.

CHANGES MADE IN SUBSIDY BILL

Indications Point to Passage of Measure With Amendments.

Washington—Six amendments to the administration ship subsidy bill were adopted by the house Monday out of more than 30 offered by critics of the measure.

Two of the six amendments were adopted in spite of the opposition of the Republican leaders, while the other four were accepted by them though with some reluctance.

Indications early in the week were that the bill will be passed by the house but only after a number of important amendments are added.

KOB WARS ON RESORT OWNERS

Many Forced to Abandon Disorderly Houses After Killing.

Shreveport, La.—Enraged over the shooting of Cotton Persons, 35 years old, a drifter in the oil fields near Camden, Arkansas, by a Negro early Sunday morning, a band of 250 armed and masked men, marching in military formation, visited a half dozen small towns and oil camps in the Smackeeve field and warned owners and habiters of disorderly houses.

To Induce Sleep
If you are habitually a long time in going to sleep try drinking slowly a glass of warm milk and eating a few grapes before retiring for the night. The "milk" may be the last of time between bedtime and your last meal. A glass of water and a tin of grapes should always be kept at the bedside.

Observation "Worth Considering."
A sage of old observed: "He who makes others happy makes possible happiness for himself." This observation reversed is also pertinent. "He who makes others unhappy makes possible unhappiness for himself." Apply this to business and industrial conditions today.

Hongkong an Island
Contrary to popular belief there is no city of Hongkong. That well known name belongs to an island of 22 square miles extent which lies off the south coast of China. It is also commonly applied to the port. The British owned city of 600,000 inhabitants on the island is officially "Victoria."

Fewer Left-Handers in School.
Elizabeth, N. J.—An intensive campaign to cure left-handedness among pupils in local schools here has resulted in a reduction from 250 to 66 since 1919. In the enrollment of nearly 13,000 this is slightly more than one-half of 1 per cent.

\$18 Should Be Minimum Wage.
New York—Eighteen dollars a week is the minimum salary upon which a girl can live comfortably and decently in New York City, Miss Cornelia E. Marshall, president of the Association to Promote Proper Housing for Girls, declared at the recent two-day conference of the organization.

Boys Form Ku Klux Branch.
Dayton, Ohio—The "E Z P" club, comprising 13 members, all school boys in the upper grades, has been organized here. The youngsters call themselves a "branch of the Ku Klux Klan." Officers of the club are: H. C. Stevenson, act.;

king, and Cecil Rhodes Jack. The officers were chosen by cutting a pack of cards.

Youthful Auto Thief Caught.
Philadelphia—George Kreider, a 15-year-old boy, who has confessed, according to police, to being a member of a gang of youthful thieves who steal on an average of three automobiles a day for joyrides, and after stripping the cars of tires and other accessories, abandon them as if wrecked after an exciting chase around Logan circle.

Can Analyze Breath in Air.
Paris—Analysis of air breathed by criminals is the newest aid to the French police in identifying them. The police scientifically examine the air in the room in which a crime has been committed, then examine the suspect, and know positively whether he breathed in that room. If the man expectorated he might as well have left his sitting card.

Refuses Food—Starves to Death.
Reno Nev.—Mrs. Pearl A. Cochran, 35 years old, is dead here from a self-imposed fast. Her physician said she had not taken food for 50 days. A year ago Mrs. Cochran had her attorney sue out a warrant charging her with insanity but at the same time she was regarded as sane. She told her attorney and her physician food eventually would kill her.

Crazed Worker, Discharged, Kills 3.
Richmond, Ind.—Crazed by his discharge from the employ of a railroad, Donato Piorro, an Italian, opened fire from ambush on a gang of section men riding on a hand car to work killing one and seriously injuring two. Officials searching for Piorro went to his home, where they found the bodies of Piorro's wife and child with the appearance of having been strangled.

I. C. C. Suspends Rail-Hearings.
Washington—Interstate commerce commission hearings on railroad consolidations in the northwest were temporarily suspended to be resumed later in western cities affected by the plan. Places and dates for the hearings will be determined later and it was indicated that representatives of the public in the territory concerned would be given opportunity to present views then.

Music Fame Through Church.
Chicago—The way to fame in music leads through the church, the Artists' Fraternity declared in letters written to the clergy of 16 denominations. "Many of our young artists become known through their church appearances," the letter reads. "While we do not want it believed that young artists should be asked to play without being paid, the church can do much to aid them."

Unlucky Man Won't Tell Name.
Greenwich, Conn.—No luck at all—he had no luck at all. Card-sharps won his pigs. His best chickens died of the "p.p." He put up his best horses against "magical dice" and lost. He lost his wife, but wouldn't tell how. And then, when he was driving his only horse, which was limping, he was arrested on complaint of Mrs. Ida McClusky for cruelty to animals. "I'm so unlucky, I won't even tell my name," he said.

Big Rush For Floating Rum.
Simcoe, Ont.—Above the beach near Port Rowan, on Lake Erie, where the steamer City of Dresden went aground and was abandoned with its cargo of 500 cases of Canadian whisky, a line of motor cars waited while their occupants waded out into the icy water to fish for bottles of liquor. The ship, which was condemned 20 years ago when her captain, J. S. McQueen, of Amherstburg, bought and refitted her, broke up rapidly and hundreds of bottles of whisky drifted ashore.
