MRS. MARTHA MORGAN BADLY INJURED.

Monday night soon after five o'clock while Mrs. Martha Morgan, who is employed at the Ford plant at Phoenix, was hurrying through the rain to reach Purdy stop before the arrival of the car from Plymouth, she was run down by an automobile driven by Frank Tillotson of Plymouth, who was coming to Northville where he is employed. Mrs. Morgan did not notice the approaching car and owing to the storm Mr. Tillotson failed to see her in the highway until his car was almost upon her. He applied the brakes but in spite of all that he could do the car struck Mrs. Morgan throwing her to the ground with great force. She suffered some bad cuts and bruises about her head and ears and one of her legs was broken in two places.

As soon as possible after the accident the unfortunate woman was rushed to the Ford hospital at Highland Park, where her wounds were dressed and she was made as comfortable as possible. Her daughter, Miss Edith Morgan, accompanied her to the hospital and remained with her until after midnight and came away with the assurance of the attending surgeon that her mother would, doubtless, recover, unless something unforeseen occurs.

Mrs. Morgan is the mother of six children; five of whom are at home, and as soon as the news of her misfortune reached the village a number of kind hearted women gave their attention to the family of little ones, whom, it was at first feared, would be bereft of a mother's love and care. The sympathy of the whole community is extended to Mrs. Morgan in her misfortune.

Mrs. John Heier of Alto came Tuesday in response to a telegram informing her of the accident which had befallen her mother.

FORESTERS TO PRESENT MINSTREL SHOW.

Whoa! Stop, look and listen! There's something coming way down the track. It makes a heap, big noise and it sounds familiar—just like the Foresters' minstrels. But large bodies move slowly and you will have to wait until January 8th before you can enjoy the splendid program now in preparation. Rehearsals have been going on for a number of weeks and the parts have all been assigned and we are promised a regular Pete Barnum show—bigger, better, busier than ever.

No, the performance cannot be given sooner. You will just have to throw your enthusiasm into neutral and wait until the date first above mentioned. You cannot rush big projects too fast. In the meantime mark the date on your calendar and save your money. Hold on tight.

OBITUARY—JENNIE McNEIL.

Miss Jennie McNeil was born September 10, 1903, at Kalkaska, Mich., where she resided until 1919, when she moved with her parents to Wayne county, where she resided until her death. She departed this life November 30, 1922, and leaves to mourn her death her father and mother, two sisters and one brother and many other relatives and a host of friends.

Funeral services were held last Saturday at the home of Mr. and Mrs. Charles Watson, Rev. Wm. Richards officiating.

All ladies of Orient Chapter, O. E. S., are requested to meet at the home of Mrs. D. B. Bunn on Thursday afternoon next, the 14th, at one o'clock. They are urged to bring needle and thread.

ST. PETERSBURG, FLORIDA, AN ATTRACTIVE CITY.

From a letter received from Mrs. T. G. Richardson last week we are glad to present the following to Record readers.

The Richardson-Warner party left Detroit on November 15th at 12:30 on a through Pullman and arrived at St. Petersburg at 8:40 on the morning of the 17th, without making any change. The trip south was a pleasant one and upon their arrival at their destination members of the party were soon settled in very pleasant quarters at the Wigwam. St. Petersburg is a very attractive and progressive city. The streets and avenues are all paved with brick and there are more than 75 miles of pavement in the city. The avenues are 70 feet in width from curb to curb and the residence streets are 20 feet wide with 30 feet of lawn on either side to the sidewalks. The sidewalks are six feet in width and are constructed of cement blocks in six squares, two colors, gray and black, being used. All the walks in the business section are of the same material and are very wide. Streets are placed on all the main and side streets for the comfort and accommodation of pedestrians.

Up to the time of writing the letter Mrs. Richardson had seen but two policemen, an indication that the Northville-Farmington people are on their good behavior. Some post cards enclosed with the letter gave views of the Wigwams and some of the residence streets, showing the handsome well kept lawns and wonderful shuuberry.

"One thing," writes Mrs. Richardson, "that appealed to us was the handsome automobiles and the careful drivers, for the cars seldom exceed 15 miles an hour and some go even much slower. The drivers of the machines evidently do not think they own the streets and sidewalks down in Florida." Though a booster for Michigan and her home town of Northville, Mrs. Richardson says she does not mention how people drive up here.

The scores in St. Petersburg are very attractive, the stocks are well cared for and the prices are reasonable. There is a lovely park there, one block from Main avenue, which covers an entire block. The people gather there in great numbers to witness and to take part in the various games provided. Both men and women play croquet, checkers and cards and pitch quoits. Saturday evenings we listened to the band concert, which was very good, but not up to our Northville band."

T. G. evidently discovered Mrs. Richardson had written us a letter and before it was posted he added a postscript. He wrote: "Just as I might have expected—Mrs. R. stole my notes I had jotted down. You noticed she stated she had seen but one policeman. St. Petersburg has a normal summer population of about 1,800 and a winter population of about 8,000. It is a fine city and is growing very fast. Four large hotels, 80 apartments and 1,600 dwellings built last year. Pinned to his letter was a newspaper clipping telling about that Jewish and the kingfisher we mentioned last week. T. G. declares to goodness he saw the 350 pound Jewfish, and that the time he saw the monster was on Sunday soon after he had been to church where he had the pleasure of hearing Evangelist Bob Jones preach to 5,000 people. Under those conditions we must admit that they do raise big fish down south."

In closing his letter Mr. Richardson declared he guessed he had better quit before Mrs. R. come and finds out what I have been doing."

It was raining the day he wrote and for the first time in many days the sun did not shine during the day. A daily newspaper in that city gives the paper free upon any day when the sun does not shine at all during the day.

ORGANIZED DANCING CLUB.

On Tuesday evening of last week about thirty-five couples of married people gathered at the Foresters' hall and organized a dancing club which will be known as the All-Married Dancing club. The club will meet every two weeks on Tuesday night, and the following have been chosen officers: President, George Hicks; treasurer, Roy Cramer; membership committee, Mrs. George Hicks, Wray Klump and Charles Wade. Many enjoyable gatherings are planned by the officers and members of the new club.

The State association of Farmers' clubs has been in annual session at Lansing this week and there was a large attendance.

Only six machines were used in the election here and 23 precincts in the city.

Pontiac—A new plan of operation for water works based upon a schedule aimed to make it self supporting was announced by the city council. The department has depended on city taxes to make up deficits in the past and to meet bonds and interest. Higher water rates are likely and the withdrawal of \$30,000 water expense from the city budget will follow. The new rates will not be effective until next July.

Lansing—Fixings of fuel prices by the state will begin Dec. 1 in every community where it appears dealers are exacting unreasonable prices. This is the order contained in a letter sent to all county fuel administrators by William W. Potter, state fuel administrator. It is the result of an investigation just completed which shows that in some communities the request of the administrator for a price based on the average margin of profit taken in 1921-1922 has been ignored.

Ann Arbor—On an island to the south of Java, according to tradition, there is a Peruvian treasure buried. Its value is over \$100,000,000. President M. L. Burton has received a letter from H. M. Pitman, of San Francisco, interested in the Beulah Engineering corporation, which corporation is about to send out an expedition for this island in hopes of finding the buried treasure. Pitman asks that President Burton appoint some Michigan man to go on the expedition, to represent the university.

Charlotte—Arthur Mahen and Norman Weldon, of Lansing, who waived examination when taken before Justice J. C. Nichols, on the charge of stealing 25 chickens, valued at \$50, from Samuel White, of Windsor township, and were bound over to circuit court on grand larceny charge, pleaded guilty when arraigned before Judge Smith. The crime was committed in March, 1921, and the men left the county at once, going to Detroit, and had been back in Lansing only a short time when they were apprehended. They formerly lived in Delta.

THE TRUE CHRISTMAS SPIRIT

Period of Good-Will and Kindly Thought for Others, Most Important on Calendar.

HAT if, as a Scrooge-like cynic intimates, the Christmas spirit comes to us but once a year, not even he will attempt to assert that we are not the better for it. Think what it would mean if that period of good will and kindly thought for others were dropped from our calendar. No blessed interruption to our too generally self-centered lives; no yearly oasis of brotherly sentiment to urge us, however temporarily, of selfishness and cause us, if only for a few days to think of making others happy.

Pre-eminently, the children's festival, as of right it should be since it commemorates the nativity of the Christ-Child, it transforms us all, whatever our years into children of larger growth. We experience anew the glad expectancy of childhood, the thrill that far surpasses any realization, and find our greatest pleasure in the simple childish emotions of love and joy.

And this is the noblest Christmas gift, the gift of the true Christmas spirit that captures and takes possession of each one of us. "Except ye be converted and become as little children ye shall not enter into the kingdom of heaven."—Pittsburgh Dispatch.

PEACOCK PIE FOR CHRISTMAS

Gaily Plumed Bird Formerly One of the Principal Dainties at Court Feasts.

HICKEN pie, beefsteak pie, and pumpkin pie, not forgetting apple pie and cheese, the great American Institution—all of these have a familiar ring to our ears, but who of us has ever tasted the famous English dainties, peacock pie? Yet at one time, this was a favorite Christmas dish which was brought in with a great deal of ceremony by the lady, most distinguished in all the company for beauty and high position. Many times this dish was garnished with the head and tail of the peacock in such a way as to appear that the bird was alive. Knights made vows over it to break spear in defense of beauty and distress. It was this ceremony which gave rise to the once popular oath "by cock and pie."

Probably the use of the peacock pie as a Christmas dish arose from the old belief that the flesh of the peacock is incorruptible which of course would make it a symbol of immortality and new life.

To the people of today the peacock is a symbol of vanity.

SOME OLD YULETIDE BELIEFS

Season Supposed to Control the Destiny of Children Born at Gladsome Time.

OLD superstition says that it is lucky to be born on Christmas Day.

French peasants believe that in addition to being born on Christmas Day babies have the gift of prophecy, while in Siles there is a belief that a boy born on Christmas Day will become either a lawyer or a thief.

In some Swiss peasants, children born on Christmas Day are supposed to be endowed with what is usually called a "good gift of the gift" while those born on Christmas Day are supposed to have less fortune and better some notions. A daughter born on Christmas Day will grow up to be a saint or a virtuous.

A curious belief for the benefit of Christmas Day babies was left by a man who died in 1915. By the terms of his will each child born in the estate's native town on December 25th receives five pounds as a birth day gift.

VERY SLOW

Mrs. Bug—I've done all my Christmas shopping.

Mrs. Snail—Well I haven't and I started out a month ago.

Sad and Solemn Thoughts.
"Even at Christmas, when all the world is gay and glad," said the grey-bearded philosopher, "there come to a man sad and solemn thoughts."
"Yes," agreed the young man who had no watch on the end of his chain, "and the saddest and most solemn are those that come to a fellow when he reads of the marriage of a girl to whom last Christmas he gave a diamond ring on which he is still paying installments."

Christmas Weather.
For Christmas the weather should be of that Pickwickian kind in which the grass is "crisp and frosty," the air has a "fine, dry, bracing coldness," and the day is one "that might induce a couple of elderly gentlemen in a lonely field to take off their greatcoats and play at leapfrog in the lightness of heart and surety of youth's companion."

TWENTY-FIVE YEARS AGO

Items taken from The Record files of 1897 for the week corresponding to this week.

Mrs. Dexter White is quite ill. Lena Ward has been spending the week in Detroit.

John Rogers left Tuesday for a deer hunt near Quebec.

Mrs. D. McGill of Novi, is the guest of Mrs. L. L. Brooks.

C. J. Carruthers of New Brunswick, Conn., is visiting his brother, Will.

Aaron Tatt has leased the Butler barn on Center street for livery purposes.

Mrs. Charles Woodman has been seriously ill with peritonitis for a week past.

Charles Rogers and S. E. Cranson had phones placed in their residences this week.

Mrs. Libbie Allen of Webster, N. Y., is visiting at the home of her brother, W. J. Little.

Mrs. Ida Joslin is "on the road" again this week installing new chapters of the O. E. S.

The many Northville friends of Rev. George Hudson of Flint will regret to learn of his constant failing health.

James R. Nash of this place has been drawn as jurymen for the January term of the Wayne county court.

Tip "Lewis" as received notice of his successful passing the civil service examination in the U. S. fish commission.

D. K. Shafer received word Saturday of the death of his youngest son's wife, Mrs. George Shafer at her home in Allegan county.

Little Donald Yerkes of Milford is reported to be much better this week, thanks to the skill of Dr. T. H. Turner of Farmington.

Charles E. Williams, a former Northville resident, died at his home in Alpena last week. Mr. Williams first wife was a sister of J. A. Dubuar.

A. K. Carpenter made his wife, and himself as well, a nice Christmas present last week by putting a new turn-out in their Rogers street residence.

The vast amount of mud these days on Main street, from Center to the depot reminds one of the constant growing need of some sort of substantial paving along that route.

After an absence of eight months Mrs. Edward Taylor (nee Laura Evans) of Union City, is home until after Christmas. Mr. Taylor will be home next week for a three days' visit.

WHY NOT DIVIDE SOME OF THE PROFITS?

Farmers and dairymen who are supplying the Detroit market with milk are demanding \$3.25 per hundred for their product, while the Detroit milk dealers are offering \$2.75. The creamery men met with representatives of the farmers in Detroit Wednesday but refused to meet the farmers' demands. After some debate the farmers offered to compromise on \$3.00 but the dealers refused to go higher than \$2.75, at which figure, they said they could still do business without raising the city's retail prices.

It was finally agreed to arbitrate the matter. A representative of the milk dealers declared that if they were compelled to pay \$3.25 per hundred for milk the price to their customers would have to be increased to 14 cents a quart.

Why would it not be a good plan for the city dealers to divide their profits with the dairymen for awhile. Milk companies in the city are declaring dividends as great as fifty percent. Does any one know of a dairyman who is making fifty percent on his dairy investment? At \$3.25 per hundred pounds for milk city dealers can still make a fair profit at 12 cents a quart.

Sixty Centuries gone and it is still a live question.

Who is my neighbor? Why is any one my neighbor? When does one cease to have neighbors and be under obligations?

Love thy neighbor as thyself was the law—the common sense relation of folks in this world. There is dazzling immensity in it.

Daily men are confronted with the task of loving the unlovely—dealing kindly with the fretful and disagreeable—treating justly the unkind and the hateful.

Many will not be governed by the neighbor idea. They are continually at war with society and the prisons and reformatories attest to the vigor of their opposition.

The Great Teacher was sure that all men could be good neighbors and He proved it for an example to humanity. Other men from year to year have tested the proposition. The divine plan is that this old world could be a neighborhood—the loving—service-giving—friendly—old-fashioned kind. How much better a town is when that spirit prevails.

The story of the Good Samaritan is a classic on what true neighborliness means. You remember the incident and the actors in that wayside drama. Perhaps you have some original ideas to offer regarding it. There will be a chance to express them Sunday if you will come at 12:00 o'clock, in the

Week's News in Brief

Youth Helps Father, 87, Celebrate.
Middleport, O.—His 7-year old son contributed to the pleasure of the celebration marking the 87th anniversary of the birth of Herbert Jacobs at his home in Kyger. The aged man is in fine health. Jacobs has been married twice.

Kansas City Aids Girl Star.
Kansas City, Mo.—Through financial aid extended to her by hundreds of Kansas Cityans, Marion Talley, 15-year-old grand opera star, will leave for Chicago early next month to continue her vocal study under the direction of Frantz Prochowsky.

Swiss Aviator Wins Alps Flight.
Bern—Lieutenant Mueller, of the Swiss army, won the contest in the night around the Alps, an event in the international aviation meet at Zurich. He covered the distance in eight hours through heavy clouds, which made the flying difficult over the Alpine heights. The majority of the other contestants withdrew.

14,000 Textile Strikers Return.
Lawrence, Mass.—The Lawrence textile strike, covering six months, officially ended September 5, when 14,000 returned to work. The mills, several of which closed due to poor business and those affected by the strike, threw open their gates and work began in all departments. The operatives returned under their old wage scale.

Breaks Arm Pitching Ball.
Anderson, S. C.—Ralph Ballantine, pitching an amateur game between Broadway and Eureka communities, broke his arm by merely throwing the ball. Attending physicians say the muscular effort in throwing the ball with great force caused a twist in the bone causing a splinted break in his arm from the elbow to the shoulder.

McAdoo Answers Call of Wild.
Santa Barbara, Calif.—William G. McAdoo has heard the call of the wilderness. With a party of friends the former secretary of the treasury is en route for Eastern Idaho after camping along the Snake river. The party will board a specially built raft and care down a 200 mile ride down the treacherous river. Two Indians will guide the party.

Senator Inherits 35 Squares.
St. Paul—Fifteen Indian squares, 10 buckets of war paint, several bales of feathers and other state regalia were willed to State Senator Patrick H. McGarry of Walker, by Chief Echinor-Om-Mom, of the Leech Lake reservation, in northern Minnesota, who died recently. Senator McGarry, who had befriended the chief, said he was undecided as to what he would do with the bequests.

Fox Terrier Digs Up Evidence.
Silver Springs, Md.—His pet for terrier, "Sport," faithful companion of years, is responsible for George Wright, Four Corners' farmer, being held under \$500 bond on charge of illegal possession of whiskey. Deputy sheriffs, after searching Wright's home for liquor and finding none, were about to leave when "Sport" began to bark at the same time digging in a potato patch. The dog uncovered 12 quarts of liquor.

Motor-Driven Liners Are Next.
New York—Motor-driven ocean liners are likely to be the next development in trans oceanic travel, according to Captain J. P. Holst, who arrived on the Frederick VIII. Two lines of motor freighters started as experiments are great successes, he said. Ships run by motors have no funnels, he explained. Plans are under way now to build an ocean liner equipped with a Diesel engine generating 15,000 horsepower.

Savants Taboo Favored Foods.
Paris—Modern meals are responsible for half of the world's disease and death, according to a sensational book by two famous French savants, Louis Marchadier and Jean Gouven, who warn the public against eating many favored delicacies. The list of foods banned as dangerous, includes shell fish, honey, beans, white bread, tinned peas, pickles. They also advise against drinking wine, beer, milk and unboiled water.

When Shopper's On Grand Spree.
New York—Ten women charged with disorderly conduct and intoxication were arraigned before Magistrate McGeehan, in Yorkville court. Police records showed that all had previously been arrested on similar charges one or more times. All the prisoners were arrested during the night in St. Gabriel's park. When arraigned the women carried loaves of bread, packages of meat and groceries, having gone on a spree while shopping for supper.

Stockings Found in Bobbed Hair.
Youngstown, O.—Advocates of the "bobbed hair" movement have claimed among other things, that it does away with insidious covered "rats" and other artifices. But—so! During a jitney accident here a young woman, with bobbed hair, was hurt. While in a faint she was carried into a nearby residence. Holding the smelling salts, the attending physician felt a hard substance at the back of her head. He removed a pair of stockings.

THE FEATURE OF CHRISTMAS

Spirit of Generosity and Happiness and Arrival of Old-Kris Kringle Completes Program.

THE happiest feature of Christmas is the spirit of generosity it engenders. The embodiment of this spirit is a Father Christmas, Knight Rupert, or some other mysterious personage, who ubiquitously slides from house to house showering down his gifts for the "weans," and leaving behind him everywhere an atmosphere of cheerfulness and genial happiness.

The beneficent belief in this old-world spirit has, happily, spread to almost every corner of the civilized world. In America the German Christ-Kindel or Infant Christ, becomes the Kris Kringle, who like Santa Claus in England, pursues his unimpeded way through keyholes and down sooty chimneys to bestow his gifts upon children that are "good," while Pels-nichol or Nicholas With the Fur" tolls closely upon his heels with a birchen rod for the "naughty."

Long was this belief in Kris Kringle maintained in its native existence, and may the "weans" see little of that chastening rod of Pelsnichol.

SANTA BANNED BY PURITANS

Christmas Was Utterly Denounced as Evil and Unediv in Early Days.

IN THE early days of America's history Christmas festivities were not generally observed.

In one state, the observance of Christmas was utterly denounced as an evil, unediv and pernicious custom, and any child daring to think of as much as a plum pudding on that day would make himself liable to reproach by the authorities. All along the stern and rock-bound coast, Geraldine Ames witnessed in the churchman, the only Christmas trees in the days of the Puritan domination were those that nature had planted there and had adorned with fleecy snow. The trees burned brightly on the open hearths, but as far as the children knew, Christmas was just like any other day in the calendar. Even after the Puritan reaction against the forms and customs of the old church had spent itself to some extent the children of the Seventeenth century still expected no gifts in honor of the birth of Christ.

ASK FOR CHRISTMAS PEACE

Let All Pray to God for Perfect Rest and Perfect Power and Perfect Love.

CHRISTMAS peace is God's and he must give it himself, with his own hand, or we shall never get it. Go then to God himself. Thou art his child, as Christmas Day declares. Be not afraid to go unto the Father. Pray to Him; tell Him what thou wantest. Say, "Father, I am not moderate, reasonable, forbearing. I fear I cannot keep Christmas right for I have not a peaceful Christmas spirit in me, and I know that I shall never get it by thinking and reading and understanding, for it passes all that, and lies far away beyond it does peace in the very essence of thine undivided, unmoved, absolute, eternal Godhead which no change nor decay of this created world; nor sin or folly of men or devils; can ever alter; but which abideth forever what it is in perfect rest, and perfect power and perfect love. O, Father give me this Christmas peace."—From Town and Country Sermons.

GOOD SCHEME

Doing your Christmas shopping early, ain't you Jones?

Well, you see I want to get my wife's Christmas present before my creditors get around to buying their wife's presents.

Christmas Trees and Stockings.

Two Christmas practices, both old and very pretty that have come down to us are the Christmas tree and the hanging up of children's stockings on Christmas eve. Each provides a way of making gifts, and the way provided by the stockings is especially pleasing to children. Perhaps it is going out, but in homes where it is still followed there are delighted children on Christmas morning when the mysteriously-filled stockings are examined in something like awe blebbed with great pleasure. The Christmas tree survives, and no Christmas school festival is complete without one, brilliant with lights and loaded with presents, presided over by a merry yet venerable Santa Claus.

Christmas Neckties.

Some individual with leisure and curious mind has figured out that 90 out of every 100 men receive a necktie as a Christmas gift. The estimate is conservative, but how many of the neckties so bestowed are worn by their recipients? The giving of neckties is a perilous proceeding always, for a necktie is essentially a matter of individual taste. Many a man gets neckwear at Christmas that he could readily enough admire as part of a curtain or a drape, but that he would wear only in the compulsion of a gun.

Today's Wise Word.
"An education for individuality should include in a large way the essential beauty of poetry of things, the essential order of history of things, the ultimate values of the region of things; and in childhood particularly the eternal sea and nay or the reality of things."—Dallas Lore Sharp

PROPOSITION TO ACQUIRE GAS PLANT BY PLYMOUTH VILLAGE.

The following petition is being circulated relative to a proposition to purchase the Plymouth and Northville Gas Co. plant by the Village of Plymouth.

To the Village Commission, Plymouth, Michigan.

WHEREAS, It seems desirable that the Village of Plymouth should own and control its gas plant, and it is understood, by the investigations of the Chamber of Commerce, that the gas plant now owned by the Plymouth & Northville Gas company, may be acquired at a price to be fixed by appraisers, or at a price mutually agreed upon, and if purchased, the cost could be defrayed by the sale of bonds secured by a mortgage on the gas plant without being a general obligation upon the village, and

WHEREAS, The Village Commission, before taking action in the matter, has expressed a willingness to be advised as to the wishes of the electors thereof, therefore:

We, the undersigned, do, respectfully petition the Commission that it take such action as may be necessary to submit to the electors of the Village the question of purchasing said gas plant.—Plymouth Mail.

YOUR AUTO'S ELECTRICAL SYSTEM.

There recently appeared in the Chicago Daily News, an article by Mr. Erwin Greer, president of the Greer college of automobile engineering, under the title of "Take Care of Your Battery," which C. Stanberg of the local Willard service station says contains real battery information. The article follows:

"If you want to obtain low cost of battery service on your car you must do three things: You must have a standard battery, you must see that it is serviced properly, and you must give it a certain amount of attention yourself."

"If you consider the cost of a battery and the work it has to do you will readily realize that it needs exactly the care that you give the engine."

"There are now on the market more than 100 different makes of storage batteries. Out of this number a good percentage are virtually worthless when compared with top notch batteries by responsible concerns."

"Once you possess a good battery the next thing to do is to give it the care it deserves. All you have to do is to add distilled water once each week in summer and every two weeks in winter of at such intervals as found necessary. Aside from this simple procedure see to it that the terminals are clean and tight and the battery as a unit is mounted solidly in place. If a white or green deposit appears on one of the terminals little or no current will flow into or out of the battery. Disconnect the terminal and scrape off the deposit, wipe the terminal dry and cover with a light coat of grease or vasoline."

"Never add anything but distilled water. There are some garages and even battery service stations that will try to sell you some special electrolyte to 'revive' the battery. These special solutions should not be used, for while it is perfectly possible to add chemicals temporarily to revive a battery it harms the battery in the end. If the battery is so far gone that it will not take a charge, special electrolyte will give it only temporary relief at great cost."

"See to it that the generator charging rate is low or high enough to keep the battery up to charge. Some drivers do little continuous driving with the result that the battery is undercharged. Others do constant driving and little starting and stopping with the result that the battery is usually overcharged. It is difficult to anticipate driving conditions, therefore the wise owner occasionally has the battery charged at a service station. If possible go to a reputable station where an honest opinion will be given."

STATE NEWS IN BRIEF

Detroit—A friendly receiver was asked for and granted C. H. Willis & Co., Marysville, Mich., through the United States court and the Security Trust company of Detroit was appointed receiver. Although the company is said to be entirely solvent this process was deemed expedient in order to re-finance and conserve the best interest of all concerned.

Grand Rapids—Judge Willis B. Perkins, signed an opinion ordering a decree to be prepared directing forfeiture by the Grand Rapids, Holland & Chicago railway, the Michigan Railroad company and the Michigan Railway company of the franchise for the operation of interurban cars over the main street in the village of Grand Rapids, unless the defendants pave between the tracks.

Port Huron—G. Earle Minne, and A. Embley Gerrie, filed suits in circuit court against the city of Port Huron to recover \$30,000 damages each. The men allege the city was negligent in not properly safeguarding approaches to the Tenth street draw bridge, and that as a result Mrs. Minne and Mrs. Gerrie were drowned September 14, 1921, when the Minne automobile went into the open draw.

Corvina—An instance of the law's demerit was uncovered in the files of the county clerk's office here, which is believed to be a record. It shows that the first case started in Shawassee county, each in 1847, was pending until 1916, when it was finally discontinued. The case was that of Freeman Stowe et al. against Elhas Comstock credited with having built the first house in Ooyogso. The action was foreclosed.

Grand Rapids—Leo F. Bolger, held by police for nearly a year after he confessed to aiding in the robbery of the Michigan Exchange branch of the Grand Rapids Savings bank and the murder of Detective Samuel Slater and Patrolman George Brandman, was sentenced by Superior Court Judge Leonard D. Verrier to life imprisonment at Jackson. Bolger had been held in the hope that other gangsters would be caught and sentenced.

Kalamazoo—While jumping up and down on a brush pile to scare out a rabbit, William Kelley, 17 years old was accidentally shot in the leg by a discharge of his 16-gauge gun, which he had laid on the twigs. Two other boys, along with Kelley, witnessed the accident. At the hospital it was found a number of the shots tore and lacerated the flesh above the ankle, but it is not believed amputation will be necessary. Kelley was allowed to partake of a rabbit dinner at the hospital.

Grand Rapids—Within a few days of a promised discontinuation of parole, Floyd L. Freeland, 25 years was arrested for stealing 22 chickens from the farm of John Stahl, three miles north of Freeport, Ionia county. "I was just planning a good Thanksgiving dinner," he told Sheriff Vierger, when arrested, the sheriff says. He implicated his wife and brother John, 19 years old, who were also arrested. He said he was paroled from Ionia prison two years ago after serving one year and nine months for highway robbery.

CARD GAMES AT CHRISTMAS

Thin Pasteboards Afford Means of Entertainment in England During Yuletide Season.

UNIVERSAL Christmas custom of England in olden times was playing at cards. Persons who never took a card at any other season of the year felt bound to play a few games at Christmas.

A prohibitory statute of Henry VIII's reign forbade card playing save during the Christmas holidays. Of course this prohibition extended only to persons of humble rank.

As Sir Roger De Coverley took care to provide both creature comfort and amusement for his neighbors at Christmas by sending a string of hog's puddings and a pack of cards to every poor family in the parish.

Even the pulpit comes in for its share of anecdotes regarding playing cards. Fuller gives an example of a clergyman preaching from Romans 12:3. "As God hath dealt to every man the measure of faith, The reverend gentleman in question adopted as an illustration of his discourse the metaphor of 'dealing' as applied to cards, reminding his congregation that they should follow suit, ever above board, improve the gifts dealt out to them, take care of their trumps, play promptly when it came their turn, etc."

Short notes were frequently written on the backs of playing cards. In an old collection of poetry is found the following lines:

"To a Lady Who Sent Her Compliments to a Clergyman on the Ten of Hearts."

"Your compliments, dear lady, pray forbear."

"Old English services are more sincere."

"You send ten hearts—the time is only nine."

"Give me but one and burn the other nine."—Cleveland Plain Dealer.

ORIGIN OF CHRISTMAS TREE

History of the Yuletide Emblem Extends Far Into the Mists of Antiquity

THE history of Christmas tree usage extends far into the mists of antiquity. Some say its origin is connected with the legendary Tree of Tine, Yggdrasil, the great tree of Norse mythology within whose roots and branches heaven and earth are bound.

Some say the custom may be traced to the Egyptians who, at the time of the winter solstice, decorated their portals with branches of the date palm.

To a Scandinavian legend may perhaps be traced our custom of illuminating the tree when darkness comes. Among the Greeks, Christmas is known as the feast of lights.

To people of different localities today the term Christmas tree may mean fir, spruce, pine, cedar or even mahogany, for each particular region makes use of the most suitable species that is to be found near its markets. In the vicinity of the mid-west, a short-needle pine found in Michigan and Wisconsin may be used. On the Pacific coast the white fir finds favor, while throughout Ohio the Norway spruce is largely used. In Maryland and Virginia, the scrub pine and farther south cedar and holly. Best of all is the symmetrical balsam fir, each tiny leaf of which sends out a breath of aromatic fragrance.

AN OLD CHRISTMAS CUSTOM
Village Boys in North England Re-produce Flay That Is as Old as the Race.

THE North of England some of the oldest of our Christmas customs are still faithfully observed. One of the quaintest is that of the village boys who call themselves "The Villagers." At Christmas time they perform a little play that is as old as the English race.

There are three chief characters—St. George resplendent in silver-pierced armor, and brandishing a wooden sword; Beelzebub, who is of course, the famous dragon; and the Doctor, who wears a battered top-hat.

At the beginning of the play it is announced that the countryside is being laid waste by Beelzebub. Various minor characters make an appeal for deliverance from the monster's sway. Then St. George bursts upon the scene. A fierce battle takes place, in which he slays Beelzebub, but is himself badly wounded. At this point the Doctor rushes in with a bottle, which he places to the saint's lips.

"Tak soon o' mah lip-saff dahn thy tiffaff," he prescribes. So George drinks and is cured.

Some of the words used in the play are so old that neither the boys nor the majority of the audience can understand them.

OLD STORY.

U. S. FILES SUITS AGAINST BUILDERS

CLAIMS \$29,000,000 MORE AS OVER-CHARGED BY WAR CAMP CONTRACTORS.

\$5,000,000 INVOLVED AT CUSTER

Government Maintains It Could Not Properly Safeguard Interests Because of Emergency.

Washington—Six additional suits seeking recovery of large sums alleged to have been mis-spent in construction of the war time army cantonments were filed Monday in as many cities by representatives of the department of justice.

The six actions sought to recover \$29,000,000 and brought the total claimed by the government from war contractors to more than \$50,000,000.

The projects, contractors and sums involved in the six suits were: Camp Travis, San Antonio, Tex., \$3,000,000; Camp Lee, Petersburg, Va., \$1,000,000; Camp Custer, Battle Creek, Mich., \$1,000,000; Camp Pike, Little Rock, Ark., \$1,000,000; Camp Dodge, Des Moines, Ia., \$1,000,000; Camp Irwin, N. J., \$1,000,000.

The six bills of complaint, almost identical in form, were filed in the federal district courts at San Antonio, Tex.; Richmond, Detroit, Little Rock, Des Moines and Trenton. They charge fraud, connivance, waste and improper use of funds and material.

Further suits against "prime contractors" on government war time construction are in preparation by the department and will be filed as they are completed. A suit involving construction of one of the major army projects in New England was to have been instituted but was not completed in time.

As in the case of the four initial suits filed November 24, an important specification in the government's complaint is the charge that the defendants took advantage of the government's preoccupation in other war activities to grossly violate the confidence imposed in them.

The bills of complaint recite that at the dates the contracts were entered into between the United States and the defendants, and at the times the acts charged against the defendants were suffered, a national emergency existed and it was impracticable and impossible for the government to exercise the customary degree of supervision and inspection.

OBJECT TO BUTLER APPOINTMENT

Senate Refuses to Confirm Nomination of New Justice.

Washington—The nomination of Pierce Butler, St. Paul attorney, to be an associate justice of the supreme court, failed of confirmation by the senate Monday in the close of the extra session, and a renomination in the regular session was made necessary. Senators LaFollette, Republican, Wisconsin, and Norris, Republican, Nebraska, objected to immediate confirmation, and forced over the nomination.

A statement, opposing Mr. Butler's confirmation, filed recently with the judiciary committee was referred to by Senator LaFollette and he was joined by Senator Norris in demanding that the persons making the statement be given a hearing.

ADD TO DRY DIRECTOR'S FORCE

Extra Aids to Watch for Bootleggers in Yuletide Trade.

Detroit—Federal Prohibition Director James R. Davis proposes to "clean up" Detroit by Christmas. To that end he has asked Washington for 20 extra officers.

He has learned that what he calls "fashionable" bootleggers are doing business in cafes and hotels and even private residences, and that they are preparing to unload a big stock before Christmas.

By placing out-of-town officers in hotels and cafes he hopes to trap these men, and also to get sufficient evidence against cafes themselves to warrant him going into the federal court and proceeding against them as common nuisances.

"Just as if a silk encased knee were more moral than an unclothed one," she snuffed as she boarded her train.

GREEKS BANISH PRINCE ANDREW

BROTHER OF FORMER KING CONSTANTINE TAKEN TO ENGLAND WITH WIFE.

GREEK ARMY IN THRACE REBELS.

No More Discipline Possible and Mutinous Troops Control; Venizelos to Form New Cabinet.

Athens—Prince Andrew, brother of former King Constantine, has been sent to England by a military court to banishment for life and deprivation of his rank. He will not suffer actual degradation. He and his wife, Princess Alice, embarked at Phaleron Sunday afternoon aboard a British warship. It is understood they will be taken to England.

The trial of the prince closed Saturday night, after numerous witnesses had been examined and pleas for clemency had been made by counsel for the defense. The indictment set forth that in the advance on the Sagaris river, Prince Andrew, commanding the second army corps, refused to obey an order to attack the enemy.

Royalty had a bad time in the final stages of the inquiry. The prosecutor dwelt on the disadvantages of employing princes in high positions in the army; he pointed out that their influence was pernicious, not only in Greece, but in all countries, and cited cases where they had been responsible for military disaster. In this connection he alluded to the former German crown prince, which pleased the democrats among the spectators.

Andrew bore up well throughout the trial. It was touch and go whether he would escape with his life, as the charge on which he was convicted is punishable, according to article 207 of the Greek code, by death. The defense, however, invoked special circumstances, and the prince found himself referred to as altogether unqualified for the position of commander of an army corps, which could only have been obtained through favoritism accorded to royalty.

The Greek army in western Thrace has mutilated. No more discipline is possible, it is reported. Rumors say that M. Venizelos will soon return here and will attempt to form a new cabinet, with the intention of arresting the movement for a counter revolution.

Fearing a bloody counter revolution, the population here is panic-stricken and endeavoring to reach a zone of safety.

Hundreds unable to find railway accommodation are leaving the city by vehicle or on foot.

TURKS RESENT JAPAN'S ADVICE

Protest Continuance of Participation in Near East Parley.

Washington—Inspired by the soviet delegates, the Turks are expected to protest further Japanese participation in the Near Eastern settlement. It was learned here Sunday night that the Kemalists bitterly resent Baron Hayashi's advice to the Turks to tolerate a continuance of special foreign rights in Turkey. The Turks are contrasting the Japanese attitude towards their nation with the attitude of the United States government toward Japanese during Japan's 33 years' struggle from foreign domination.

The Turks draw attention to the fact that Japan made no headway as a nation until her defeat of China in 1895. They say that it was Japan's military success and not her accomplishments in civil government, that won her abolition in 1899 of consular jurisdiction and tariff interference.

HEALTH MEETING GETS UNDER WAY.

Michigan's second annual conference of health officers and public health nurses held under the auspices of the state department of health and Michigan Public Health association, began Monday at Lansing, with more than 300 delegates present representing virtually every county in the state.

In his opening address Dr. R. M. Ohm, state health commissioner, pointed out the necessity of an annual gathering of health officers and public health nurses and announced that the annual conference was to become a permanent fixture in the program of the Michigan Department of Health.

Few people have the responsibility thrust upon them in a lifetime that a public health officer and nurse face daily," Dr. Ohm said. "Chances of preventing death come to the public health worker frequently. On his decisions and action rests much of the welfare of every community. To cure the individual is the work of the practicing physician. To assist in keeping the community from being composed of sick individuals is the function of the public health worker."

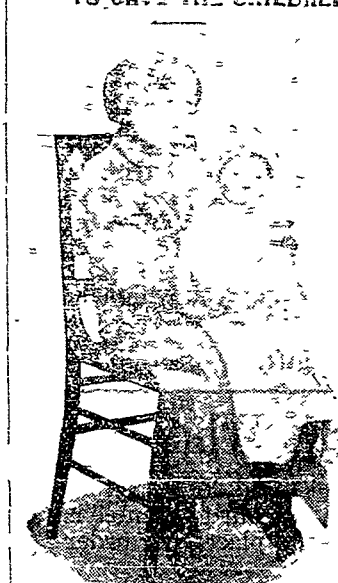

DETROIT THEATRES.

William Courtes, one of the most gifted and popular stars on the American stage, with his excellent supporting cast direct from a long run at the Frazee theatre, New York, will be the attraction at the Garrick theatre, Detroit, the week commencing next Sunday night, in Edward A. Paulson's clever and highly amusing farce, "My Temporary Husband." Mr. Courtes is under the management of H. H. Plater, who has supplied his star with the most suitable part and play he has had since that of Stephen Denby in "Miss Clover," some eight years ago. "My Temporary Husband" might be described as a farcical romance, as it is not only funny and has a new twist in its romantic treatment that is enjoyable as well as novel. The story has to do with Blanche Ingram, a guest for a temporary husband.

At the Shubert-Molinea theatre, beginning Monday night, the Bonstelle Company will offer for the first time in Detroit, "Main Street," by Sinclair Lewis, which was acclaimed by press and public alike as one of the most distinguished successes of the theatrical season. "Main Street" started its success as a novel that was the leader of the best sellers. The dramatic content was so evident that the Shuberts had Mr. Lewis make a play about his study of a small city, which was first produced by Stuart Walker.

"Forget-Me-Not"—a story of orphans, in which Gareth Hughes and Bessie Love play the leading roles, opens an engagement at the Broadway Strand theatre Sunday. "Forget-Me-Not" is a love story, but it is more than that. It is the life story of two foundlings who find in their devotion to each other some compensation for the unkind fate which has deprived them of parents and home. But even this consolation is denied them for Jimmy is adopted by a rich woman and passes out of Ann's life to reappear under conditions that seem at the time to shatter her faith in the goodness of life.

CHRISTMAS STORIES HELP TO SAVE THE CHILDREN

Florabel Jessica Jane is chasing the cure in the children's infirmary at the State Tuberculosis Sanatorium. She has her rest periods twice a day, and takes her "temp" every afternoon, and she is beloved of every small maiden in the girls' infirmary. Seventy children are now being cared for in the children's infirmaries at Howell. Tuberculosis is a deadly menace to childhood. Christmas seals, which make possible the work of the Michigan Tuberculosis Association, fight to keep children so healthy and strong that they can throw off the effects of the one present infection.

Northville School Notes

The various grades of the school are busy making toys, games, calendars, etc. for the children of the Sanitarium. The teachers are supervising the work and it is felt that this is an enterprise very much worth while as it will brighten the lives of a good many children who otherwise would not be remembered at Christmas.

Mrs. Larkins left for Lansing Thursday noon where she is attending the annual meeting of High school principals of the state of Michigan. This is a very important meeting and Northville can feel proud to have our school represented by Mrs. Larkins.

At the general teachers' meeting plans were discussed for giving programs of various kinds before the patients at the Sanitarium. An outline is being prepared by the superintendent which will give the dates at which time the various grades will put on some sort of entertainment. Each teacher is planning on contributing some form of entertainment at least once during the year. The High school orchestra will also from time to time give their services to the sanitarium.

Mrs. Hollister of Newson Company, gave a demonstration in the teaching of language to several of the grade teachers Wednesday. Much help was derived from her visit which gave the teachers ideas in the presentation of this subject.

American Education Week is being observed by the grades and High school and much inspiration has been given the work by the help of some excellent outside speakers. In the High school Rev. Richards gave a talk Monday morning on citizenship and it was thoroughly enjoyed by all the students. Tuesday Mr. Emsing, physical director, gave a demonstration on artificial respiration. Ralph and James Wood acted as demonstrators under the direction of Mr. Emsing and performed the part of feigning a drowning person in a very creditable manner.

Wednesday the school has the pleasure of hearing one of the most inspiring and thrilling addresses ever given by the student body by Prof. Pittman of the Normal College. Although he talked twenty minutes into the noon period the students held perfect attention and completely forgot their appetite.

Thursday morning Rev. Bell gave a most interesting and helpful talk on education which was certainly appreciated by all. Thursday evening the physical training exhibition under the direction of Miss Cooke and Mr. Emsing was a decided success. It was the first exhibition of this kind ever given in this school and enabled the patrons of the district to see just what is being accomplished along this line. Friday a general program will be held in which pupils and outside speakers, residents of the community will take a prominent part.

The High School orchestra furnished the music for the Exchange Club dinner Wednesday and the Fair dinner Thursday evening.

Northville holds its first debate against Farmington this Friday evening at that place. The members of the team are Ada Ely, Stare Northrop and Raymond Watts. Miss Aletha Yerkes is coach. It is hoped that many town people and pupils will attend the debate and encourage the home team to victory.

Wednesday evening the football team and coach of the Northville High school were given a chicken pie supper by Mrs. Young. The boys certainly enjoyed the honor accorded them and all reported a most enjoyable time.

The Thanksgiving day crowd at the fair grounds saw one of the best games of football that the Alumni and Northville Hi has ever played. It was the fastest and hardest game that these two teams have ever played. The weather was fine for football but the ground was soggy and a quick start was an unheard of thing. This gave the Alumni an advantage over the N H S because of their weight, but at that the High school held them to their downs and kept the Alumni from scoring until the third quarter, when "Red" Hall was called back from end and dropped a goal, the only score of the game N H S, 0, Alumni, 3.

Basket ball started this week and Coach Emsing expects quite a fast team this year which will try to exceed last year's team. About 20 men turned out.

Mustered Out at 70.

Three score years and ten! It is the scriptural statute of limitations. After that you owe no active duties; for you are a time-expired man, to use King's military phrase: "You have served your term, well or less well, and you are mustered out." Mark Twain on his 70th birthday.

The young people's class of the M. E. Sunday school was recently very pleasantly entertained at the home of Mr. and Mrs. Clarence Chafy. The class has chosen for its motto "We Mean Business" and will be known as the W. M. B. class. The following officers were chosen: President, Erle Welch; vice-president, Mrs. Clyde Smith; secretary, Mrs. Dixon; treasurer, R. B. Knight; social chairman, Miss Beatrice Fox; flower chairman, Miss Clarence Chafy. Charles Wedow has been remodeling his home here in the village shaping it for a steam heating system, which has just been installed. An electric pumping system pumps the water from a deep well and forces it into a pressure tank, which supplies the boiler and hot water tank. Mr. Wedow not only has every room in the house warm, but has a bath and hot and cold water throughout. The two pumping stations and heating systems were all furnished and installed by Glen Chafy, our local plumber. These systems are all controlled automatically and Mr. Wedow is much elated over his job.

COUZENS - APPOINTED SENATOR.

After the Editor of The Record Had Declined the Honor Governor Groesbeck Picks the Mayor.

The editor of The Record gave Governor Groesbeck his last and final answer regarding the senatorship last Wednesday afternoon and, it seems, that almost immediately upon receipt of our letter, he offered the toga to Mayor Couzens of Detroit. We had written the governor as follows:

Northville, Mich., Nov. 29, 1922.
Alex J. Groesbeck, Governor.
Lansing, Michigan.

My Dear Governor:

After having given the matter very careful and serious consideration for a number of days, I regret that I am compelled to adhere to my first impulse not to accept the honor of the appointment you have very kindly offered me. While I appreciate the great honor which you have so very generously desired to bestow, I feel that my duties to the people of this community should come first. Then aside from my duty to the people whom I am seeking to serve in my humble capacity, the thought of breaking the home ties and packing up and leaving for a brief sojourn in the National capital causes great lumps to form in my throat and I just can't do it, Governor.

To become senator and to be compelled to spend the coming years at Washington would force me to give up a whole lot of things I hold most dear. I would miss our mid-summer chauntauqua, the weekly luncheons of the Exchange Club, our glorious Fourth of July celebration, the alumni banquet, the summer race meet, the Sunday ball games, the monthly gun club meetings, and last but not least the Northville fair, and if you had ever attended a fair at Northville, Governor, you could better understand my feelings in the matter. Who could think of going to Washington and missing the Northville fair?

I am very sure that from the list of splendid men whose names have been suggested you will have no trouble in selecting some one who will gladly accept the honors, especially if you will not be too hasty in the matter. Again assuring you of my appreciation for the great honor you have tendered me, and with a heart overflowing with gratitude for all the favors of the past, I beg to remain

Yours very truly,
-EDITOR NORTHVILLE RECORD.

P.S. If you don't succeed in finding some one to accept the job, come over here and I will be glad to introduce you to a few of the fellows from among whom we may be able to select a suitable man for the place.

R. C. REED TAKES A REST.

At a recent meeting of the board of directors of the Michigan Milk Producers' association, R. C. Reed tendered his resignation as secretary and absolutely refused a re-election.

Mr. Reed became the first secretary of the association at its conception over seven years ago when the organization was absolutely without funds and leaves the office with about \$70,000 in the treasury. He has been untiring in his service, traveling thousands of miles, working days and a great many nights to advance the interests of the association in every possible way and always with the one idea of construction and not destruction.

Mr. and Mrs. Reed expect to start for Florida in a short time where he will rest and refresh himself for new duties in the future.—Pawtucket Review.

MICHIGAN CLUB BOYS DO WELL AT BIG SHOW.

A team of Michigan boys, winners of the state championship in Boys' and Girls' club judging events at the State Fair in September, finished seventh among nineteen state livestock judging teams at the International Livestock Show in Chicago last week.

Virginia, Iowa, and Georgia ranked first, second and third, respectively, at the International. The competition was unusually keen this year, according to reports, all of the nineteen state teams doing splendid work.

Cecil Loomis of Jackson county, was high on the Michigan team, all three members of which came from Jackson county. He stood eighth among the sixty individuals judging in the club division.

M. A. C. DAIRY SHORT COURSE LENGTHENED.

The special short course in dairy production at the Michigan Agricultural college has been lengthened to 12 weeks instead of 8 this year, according to announcement just made by Prof. O. E. Reed of the college dairy department. The course will open on January 1st.

This course offers general training for farmers of the state who wish to equip themselves for more efficient handling of their dairy herds and dairy farms. It also gives an opportunity for young men to train themselves for positions as cow testing association testers.

STATE APPLE-POTATO SHOW OPENED DECEMBER 5.

A Michigan apple and potato show is being held in Grand Rapids from December 5th to 8th, with growers from all over the state gathered to

discuss problems of their industry.

The show is being put on by the Michigan Potato Producers' association, the Michigan Potato Growers' exchange, and the State Horticultural society, under the auspices of the West

Michigan Fair association and the Grand Rapids Chamber of Commerce. Educational exhibits of apples and tubers, along with a strong program of addresses by leading authorities of the country, feature the meeting.

LINCOLN SERVICE

Lincoln owners know that Lincoln cars in ordinary usage demand little attention other than the replenishment of gasoline, oil and water. That is because the service requirements of motor cars are in inverse ratio to the quality and character built into them by the manufacturers.

Periodic inspection, proper lubrication, and minor adjustments, when necessary, are essential to the proper and prolonged functioning of any piece of machinery. With quality as a prime factor, it is the secret of economical and dependable transportation.

To insure the operation of Lincoln cars as a source of uninterrupted satisfaction and enjoyment, through the medium of adequate and convenient service facilities, it is the purpose of the Ford Motor Company that its entire dealer organization be equipped to render efficient and intelligent service to Lincoln owners.

Thousands of Ford Dealers in the United States are being equipped with specially trained Lincoln men, competent to make minor adjustments and of providing for ordinary service requirements.

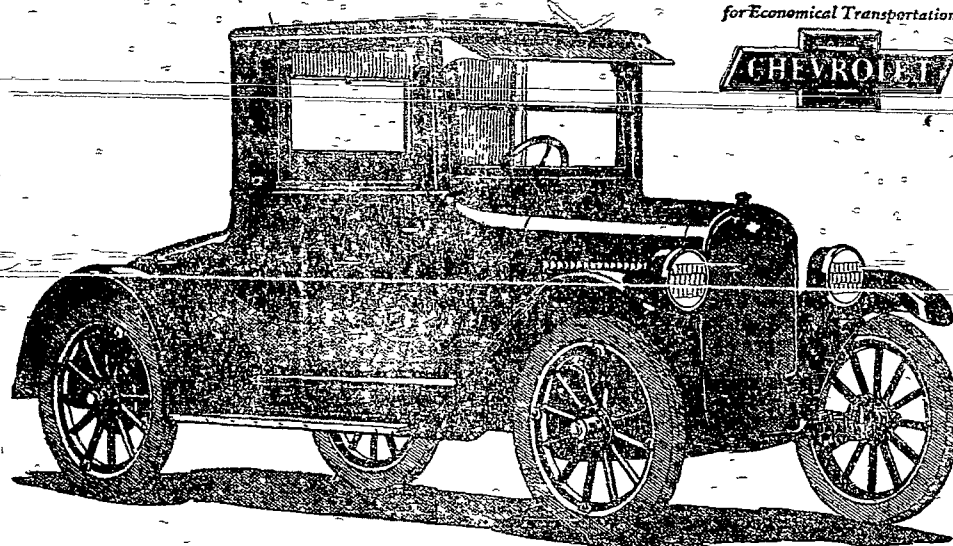

Under this arrangement, a Lincoln owner, whether touring a continent or crossing his own city, may with confidence enter a Ford Dealer's place of business and be assured of prompt, courteous and intelligent treatment by an organization with a personal interest in his welfare.

It is not intended, or necessary, that all Ford Dealers be equipped to do major repair work or overhauling on Lincoln cars. Adequate provision is made, however, whereby such work will be done in each territory when necessary, by dealers who are especially equipped to render high grade service in keeping with the character of the product.

We believe that the Lincoln will run farther and require less mechanical attention than any other car in the world. It is significant and a matter of utmost importance to prospective owners of quality cars that the incomparable, world-wide facilities of the Ford Motor Company should make the ownership of a Lincoln even more desirable than ever before.

The University of Michigan's stadium is the fifth largest in the United States. It leads with seats for 77,000, then follows Ohio state university with 65,000; Leland Stanford Jr. university with 62,000; Harvard with 43,000, and Princeton with 40,000.

Some point to the fact that it costs 14,000 marks to secure a double room in a good hotel in Germany as an indication that the country is going to the eternal bow wows. Reduced to good old American dollars that would amount to but \$1.50. You cannot get a single room in any of Detroit's good hotels for that amount of money, so why feel so badly for the Americans who are touring Germany.

Pittman of the Normal College at Ypsilanti, who is director of rural education at the normal, accompanied a delegation of gentlemen from some of the rural school districts near that city to Walled Lake and Highland on Tuesday for the purpose of inspecting the consolidated high schools recently established in those communities. MIRRORS PREVENT ACCIDENTS.

Mirrors on automobiles, showing the driver, at a glance, the condition of traffic immediately behind him, are among the best preventives of traffic accidents in use today, according to A. A. A. officials. Mounted at the left side of the windshield on the open car, or screwed to the front frame of the closed car in the same position, the mirror calls immediate attention to a car approaching from the rear, and often saves a collision, with resultant loss to both cars; it is pointed out.

AN EARLY MORNING FIRE

Northville people, a good many of them at least, were aroused from their slumbers about four o'clock Thursday morning by the ringing of the fire bell. The very courteous and efficient operator at central informed the public that J. G. Alexander's barber shop was "all on fire" and every body hustled to render any assistance possible. Our fire fighters, were on the scene quickly and they did some remarkably good work because the flames were extinguished after the roof had been practically destroyed.

When you consider it was a frame building you will better appreciate the efforts of those who were first on the scene. Mrs. Babcock who occupied rooms on the second floor escaped in her night clothes and all other occupants of the building were aroused and made their escape. The origin of the fire is a mystery.
