### ANTHONY H. KOHLER DIED AT PENNSCOLO SUNDAY.

When the news of the death of Anthony H. Kohler, which occurred at Pensacola, Florida, on Sunday noon last, became current about the village there were many expressions of sorrow among the people of Northville who had enjoyed his acquaintance and friendship for many years. Mr. and Mrs. Kohler and daughter went to Pensacola last fall with the intention of spending the winter in the sunny south. Soon after their arrival Mr. Kohler was taken ill and he gradually failed until death claimed him. Mrs. Kohler has also been ill and at the time of the death of Mr. Kohler her condition was so bad that she was unable to accompany the remains north for burial and consequently arrangements were made to place them in a vault until weather improves here and until she is able to make the journey home.

Mr. Kohler was engaged in business here for more than 30 years and he enjoyed to a marked degree the confidence and esteem of all who came within the circle of his acquaintance. Quiet and unassuming in manner,

honest and upright in all his dealings, he represented the highest type of a man and a citizen and his death is a distinct loss to this community where he spent so many active years. Anthony Kohler was born in Buffalo, N. Y., December, 1847. With his parents he came to Detroit when a boy and in 1873 he was united in marriage to Miss Permelia Villorot of Redford, and to them were born 9 children, 6 of whom are living. He moved to Northville in 1885 and built his home and grocery store where he has been in business until November of last year, when he sold his interests to his son, Ernest.

Mr. and Kohler celebrated their golden wedding anniversary last September, by a big family reunion up at Port Lambton.

Mr. Kohler was a member of the village council for a number of years. He leaves besides his widow six children—Lena, Frank of Redford; Ernest, Mrs. Roy Terrill, Fred of Plymouth, and Mrs. Wm. Bryson of Detroit, and one sister, Katherine Kohler to mourn the death of a dear husband and father.

### JAMES H. WOODWORTH ANSWERED FINAL SUMMONS.

James H. Woodworth died at his home on Rogers street in this village early Tuesday morning after an illness of several months, though he had not been confined to his home only for about a week. He suffered a slight stroke a little more than a week before the final summons came.

James Henry Woodworth was born in Detroit, October 8, 1847, and he spent most of his life in Salem, Plymouth and Northville, having moved to Salem with his parents when quite young. On December 28, 1870, he was united in marriage to Mary Lucinda Pickney. Surviving him are his wife and three children—Roy P. Woodworth of Plymouth, Lydia L. Burnett of Holly and Frank R. of this village. The youngest child, J. Clair, died about two years ago. He is also survived by three grand children, one great-grandchild and two sisters, Mrs. Margaret E. Webster and Mrs. Wm. Parks of Grand Rapids, Mich.

Funeral services were held at his late home on Thursday afternoon at two o'clock, being conducted by Rev. Wm. Richards of this village and Rev. F. A. Burnett, a son-in-law of Holly. The remains were placed in the vault.

The tenderest sympathy of the entire community is extended to the grief stricken family.

Northville's great need for 1923 is more houses to rent and for sale. We believe that 50 houses could be rented here within thirty days if they were available.

### FARMINGTON MAY GET A RAILROAD.

If present plans do not miscarry Farmington will be on the line of the belt line railway which is to be constructed from Wyandotte through Wayne, to Mt. Clemens. Peter N. Jacobsen, who was instrumental in constructing the present Detroit belt line, has asked the Interstate Commerce Commission at Washington for permission to construct the line and it is believed his request will be granted. The project is being financed by New York capital and the enterprise is being endorsed by many of the big manufacturing firms in Detroit and surrounding towns. From Wayne the proposed line will pass through Farmington, Franklin and Pontiac, crossing all the railway lines now entering Detroit. It is proposed to building a double track road and the line will be 60 miles in length.

It is estimated that the project will cost \$5,000,000 and that it will take two years to complete the job. If the project goes through it will mean that many concerns now crowded into the city will be able to secure sites along the railway where they will be able to secure more room.

### NEW FIELD HOUSE AT FERRY FIELD.

Superior is the keynote of the new University of Michigan Field House now under construction on Ferry Field. The structure will be superior in construction, superior in seating and superior in usefulness to any thing of the kind now known.

The building will be 342 feet long by 160 feet wide and will house all indoor athletic activities. There will be a seating capacity of 12,500, an eight-lap-to-the-mile track a 75 yard

courts, and provisions for indoor practice in football and baseball. All this will be in the main activity room which will be 160 feet wide, 300 feet long and clear of obstruction up to a height of 63 feet. These dimensions are exactly those of a regular outdoor football field. Four floors at the north end of the building will be devoted to trophy rooms, store rooms, drying rooms, locker and shower facilities for 4,200, and the offices of the Athletic association.

The new building will be completed by October 1st.

### HARRY DID SOME ROLLING.

Despite a tumble to 359 in his last game, Harry German, of Northville, easily beat all hands in the Detroit sweepsstakes bowling tournament Friday afternoon.

Rolling along six alleys in as many games, German compiled a total of 1,257 pins. He was the only one of six entries to move beyond the 1,209 mark.

Four scores in the double century circle were included in German's record. His best was 246 attained in his first game. The others were 235, 224, 213.

Charlie Smith, otherwise the Deacon, was next to the Northville speller. With three 200 counts on his roster, he finished with a total of 1,162. Tony Gabriel was third 16 pins behind. German made 1,257 in six games.

### WINOY WHISPERINGS.

J. J. Wines is relief operator at Clyde.

Mr. and Mrs. V. M. Spencer arrived home from California the first of the week.

Miss Frances Smith of Plymouth has been a guest of her sister, Mrs. G. D. Spencer.

Mrs. D. E. Lehman, who was teaching for Mrs. Parks, was taken sick with grip and Mrs. Howard Johnson acted as substitute.

### FREE LECTURE—EVERYBODY WELCOME.

## DON'T FALL FOR SPANISH SWINDLE

Americans Have Quit Going to Spain to Rescue Wealthy Imprisoned Princesses.

## GERMANS ARE NOW VICTIMS

Impostors Who Market Adventures to Credulous Investors Give Their Princesses Names of Famous Women Long Dead.

Granada, Spain.—Americans have quit coming to Spain in search of the beautiful and wealthy princesses imprisoned in a dark damp tower by a greedy uncle who is anxious to annex her fortune.

The historic old Spanish swindle apparently has gone out of fashion in the United States, but it is still in vogue in other parts of the world. Germany has recently supplied quite a crop of kind-hearted gentlemen who advanced money for the release of the beautiful Spanish beauties who were suffering in a prison cell and slowly dying on a diet of bread and water while the bats hovered about her head and added to the terrors of her solitary confinement.

Beauties in Granada.  
Granada has always been a popular center for the men who have contributed to the rescue of imprisoned beauties. Washington, Irving, and scores of lesser writers have credited Granada with having more beautiful women than any other city in the world.

The legend of the Rose of the Alhambra and the stories of the three beautiful princesses Zayda, Zoraida and Zorahayda, hover about the Alhambra and make it the natural refuge for disappointed investors in distressed beauties.

So it is not strange that searchers for princesses should come to Granada after having sought vainly for mythical castles in mythical mountains. Most of the modern Spanish princesses are being held in castles by the sea. Castles by the sea are so much romances and then if it is much more romantic for rescue parties to approach the rock coast in ships and wave to the imprisoned princess, who will promptly fear her clothing to bits and make a rope with which she will lower herself from the gloomy tower. Many of the impostors who are marketing adventures to credulous investors give their princesses the names of famous women who have been dead for centuries—Mormon and Aishah, queens of the Moorish regime, who have been dead for over 400 years, and many other celebrities of history and legend have lent their names to princesses supposed to be in distress.

Visitors Are Warned  
Hotel keepers in Granada have become skilled in detecting visitors who are searching for imprisoned beauties. They usually make very guarded inquiries and seldom admit they have been duped. Frequently they inquire for fortune tellers or astrologers who probably charge well for their services.

Letters concerning the distressed princesses are usually marked strictly confidential and instructions are given that nothing must be said to anyone lest the life of the princess be endangered. Most of the dupes are too much ashamed of their plight to confess openly that they have been fooled.

## BIRD DIES WITH HER YOUNG

Killed in Forest Fire in New Jersey Rather Than Desert Her Nest.

Asbury Park, N. J.—A dead gaudy pine was a giant torch half way up its length in the big woods fire, which swept the outskirts of Brelle recently. At the very top was a giant fish-hawk nest, and braving the inferno of flame and smoke a parent bird hovered over the nest with a fish in its beak for the three baby inmates craning their necks over the edge. Finally wheeling in desperation the bird conquered its terror and settled upon the nest just as the tree toppled with a resounding crash into the blazing underbrush, carrying the hawk mother and babes to death.

## BUYS DOGS FOR "PARADISE"

Texas Man Will Save Hounds Doomed to Death by City To Build Big Kennels.

Beaumont, Tex.—The first "dog paradise" in the South will be established here by T. D. Brooks, president of the Brooks Supply company, who already has bought more than 200 canines of all breeds, sizes and colors which were awaiting execution in the city dog pound.

Mr. Brooks said he would build the largest and most complete dog kennel in the South. He gives as his only reason for the project that he was anxious to save the lives of homeless dogs which were to have been asphyxiated by the city.

Caterpillars Destroy Woods.  
Regina, Sask.—Caterpillars have eaten up 50 square miles of forests in the Kipling district near here. Scarcely a green leaf remains and the district presents the stark appearance of a winter scene, forestry officials say.

## HAS GRAND RIVER WIDENING PLAN FAILED?

The plan to widen Grand River avenue, known also as Trunk Line No. 16, in the Michigan highway system, will probably fall through so far as Oakland county is concerned. At a meeting of property owners held at Novi it was decided to charge the state for any land taken for the widening.

In Wayne county the road officials have already considered the necessity of widening the road through Redford to the county line. It is likely the Wayne section will be looked after in the near future.

Members of the board of county road commissioners and the county engineer of Oakland county attended the Novi meeting last week. After various plans for financing and putting through the improvement were discussed the land owners decided that it would be up to the state highway department to pay for all property taken for the widening. In addition the owners of frontage agreed that the state should pay the expense of setting back or replacing fences when the widening is done. There is hardly any chance that the state will offer or attempt to direct the road widening, while the owners maintain this attitude.

The Detroit Automobile Club is interested in seeing Grand River Road widened so that it will be safer for travel between Detroit and Lansing, but no officials of the club feel that their efforts should be directed toward Trunk Line No. 16 before Woodward road is widened from the city limits to Pontiac. Because of the great

volume of traffic going back and forth between Detroit and Pontiac, Woodward has come to be a very dangerous highway. In fact, it has been called the most dangerous road in the country.

The above article was taken from the Detroit Sunday News, and we do not believe it represents the true attitude of the people of Oakland county regarding this important highway improvement. The Record was informed that a majority attending the meeting at Novi favored the plan proposed by the state highway department and that the project would be put through. It would seem to be only fair that the state pay for the land taken for road purposes and the expense of moving buildings and rebuilding fences, because all the people of the state, and of other states for that matter, will be benefited if this project is carried through as planned. At any rate we are very sure Oakland county people will be found doing their full share in connection with any movement looking to improved highway conditions.

The funeral of Thomas E. Barkworth, who for many years was a prominent attorney in Jackson, was held last Saturday. Mr. Barkworth was prominent in the councils of the democratic party in Michigan for many years.

One of the largest banquets ever given in Michigan was enjoyed at the General Motors building in Detroit last evening by the democrats of Wayne county and other sections of Michigan.

## FIRE DESTROYS INSANE ASYLUM

WEST WING OF BUILDING BURNING MOST DANGEROUS MANSION.  
—JACS BURNS—25 DEAD.

### HEROIC ATTENDANTS LOSE LIVES

Cool Handling of Situation By Dead Guards Prevents Greater Holocaust, Saves Hundreds.

New York—A terrific blast set by dredgers in Hell Gate Saturday night, rocked the buildings of the Manhattan State hospital for the insane on Ward's island in the East river and set the 6,338 inmates cowering and waiting with a sense of impending doom.

Attendants calmed them and got them to bed, but before morning the doom fantasied by the disordered brains had come true, for 22 of the maddest they had been burned to death in a fierce fire that swept the west wing of the main building. Three heroic attendants died with them, striving to the last to rescue them.

Hospital authorities and City Medical Examiner Norris, who rushed to the scene, said that in all probability the blast had been the immediate cause of the fire. According to their theory, it caused a break in the insulation of electric wires in the attic of the building. A short circuit, they think, did the rest.

The fire was discovered at 5:05 o'clock by Michael Campbell, an attendant. His calm, heroic work, and that of James Hill, attendant in charge, and Patrick Blighan of Hartford, Conn., George A. De Emo and George F. Reiss, the three attendants who were burned to death, prevented a far greater holocaust.

As fast as the maniacs declared by Superintendent Nathan Heyman, to have been the most dangerous on the island—could be marshalled from their rooms, they were marched in orderly procession to the fireproof dining hall, far from the scene of the fire. The battle against the flames was hampered by two obstacles. One was the near zero weather in which the firemen worked, the other, and more serious was the extreme difficulty in getting apparatus to the place.

### INTERURBAN CRASH HURTS 40

Car Hits Open Switch At Roseville, Crashing Into Powerhouse.

Detroit—A speeding Mt. Clemens interurban train of two cars, carrying more than 100 passengers, crashed into the brick wall of the Roseville powerhouse when it hit an open switch Saturday afternoon. Both cars of the train were derailed, and all passengers thrown about violently.

Twelve persons are known to have been hurt so seriously as to require medical aid. About 20 others were slightly injured.

The switch was left open after the arrival at the barns of a freight train, spectators said. Only a few minutes before, the interurban which figured in the other accident, striking five men in an automobile, entered the barns for repairs.

The first accident occurred when an interurban, south bound, hit the automobile as its driver attempted to make a crossing at the Masonic Country Club crossing.

James Norburn and William Warneke of Detroit, occupants of the front seat of the automobile were seriously hurt. Warneke died at a Mt. Clemens hospital Sunday. Norburn's back was broken.

### MRS. RAIZEN GUILTY OF MURDER

Jury Convicts Woman of Shooting Doctor 15 Months Ago.

New York—A verdict of guilty of second degree murder was returned by a supreme court jury Sunday against Mrs. Lillian B. Raizen, who shot and killed Dr. Abraham Glickstein in his Brooklyn office, December 10, 1921.

Mrs. Raizen's defense was that the physician had ruined her life and that she had been driven to insanity through haunting fear of him.

The jury, picked from a special panel of 100 men of "super-intelligence" and instructed to try the defendant "with their heads and their hearts," returned the verdict after deliberating 12 hours and 15 minutes.

The verdict carries a sentence of from 20 years to life imprisonment.

### NEW INAUGURAL DATE POSSIBLE

Senate Approves Installation of New Presidents in January.

Washington—The Norris amendment to the federal constitution eliminating the present session of an old congress after election of a new congress, and changing the date of inauguration of president from March 4 to the third Monday in January, was approved by the senate.

The resolution embodying the amendment was adopted after brief debate and by a vote of 63 to 6. It now goes to the house with approval there before adjournment of congress regarded as problematical.

**REVISED ITS CHARTER.**

Revision of five sections of the charter under which the Monitor Insurance company an Oakland County mutual organization for farmers and rural residents, election of officers and report of the secretary-treasurer Tuesday, afternoon completed the annual meeting, held in the Armory.

Perhaps the most important change in the charter is that whereby Section 30, regulating the levying of assessments, is revised to permit the board of directors to levy one assessment each year in such amount as will care for the business of the company during the year. This levy will be made about June 1st. Under the old provision, a \$3 assessment on each \$1,000 was levied every eight or nine months, to care for the business. The new plan, according to officials, allows

Monarch of a great people—Leader of a wonderful race in a far-off age—his accomplishments will now be more talked of than when he was alive.

Unsuspected wealth and color have lain within this ancient tomb for centuries.

These new discoveries are being brought to the grand council of the world for its inspection.

Unknown metals and forces and appliances are being dragged forth and put to work as the months come and go.

The men and women moving up and down these streets of ours possess powers which if released would add to the worth of our nation.

**No Rest-No Peace-**

There's no peace and little rest for the one who suffers from a bad back, and distressing urinary disorders. Northville people recommend Doan's Kidney Pills. Ask your neighbor. Be guided by their experience.

Henry VanSickle, farmer, Mill St., Northville, says: "I had my first experience with Doan's Kidney Pills some time ago and I can say they did me a world of good. I had been doing some extra heavy work on the farm and I blame this for starting my kidney complaint. My back ached terribly and nights I could get no sleep, as the misery was still there. I had binding dizzy spells and didn't have any ambition to do a thing in the way of work and my kidneys didn't act regularly either. A friend advised me to try Doan's Kidney Pills; so I went to Horton's drug store, and got three boxes. They fixed me up in good shape so I am only too pleased to recommend Doan's."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. VanSickle had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## Four Reasons why You Should Buy Your Ford Cars This Month

I. The unprecedented demand for Ford Cars throughout the winter months has taken the entire output of the Ford plants working at capacity, indicating that the demand this Spring will be far in excess of the number of Ford Cars that can possibly be built.

II. January was the tenth consecutive month in which retail deliveries exceeded 100,000 Ford Cars and Trucks. Requirements for February, the month when preparations are already under way for Spring business, called for 148,407 Cars and Trucks—more than 24,000 in excess of the number we can possibly produce.

III. Ford dealers in many parts of the country are already finding it necessary to specify future delivery dates on Ford Products because there are no reserve stocks to draw from.

IV. Your order placed now will protect you against delay or disappointment later on—It is the only way you can be assured of reasonably prompt delivery.

WE CONSIDER IT IMPORTANT TO GIVE YOU THESE FACTS, SO THAT IF YOU ARE PLANNING TO PURCHASE A FORD CAR, TRUCK OR FORDSON TRACTOR FOR USE THIS SPRING OR SUMMER YOU CAN LIST YOUR ORDER AT ONCE AND TAKE ADVANTAGE OF OUR DEALER'S OPPORTUNITY TO MAKE DELIVERY.

#### Walled Lake Warbles

Walled Lake's basket ball teams were defeated by teams from the Central Methodist gym of Pontiac in the latter city one night last week. Prof Gardner of the M. A. C., the new dean of horticulture, addressed a meeting of the Oakland County Horticultural society at the High school auditorium on Tuesday. Nevels Pierson, assistant state boys' and girls' club leader, made a visit to Oakland county this week, holding meetings at Milford and Clarkston. Rev. W. E. Marvin, pastor of the First Methodist church at Pontiac, who is well known to many Walled Lake people, sustained a compound fracture of his left ankle on Wednesday of last week.

#### ARREST DIVERS ON CAR TRACKS

Warning notices have been sent out by Sheriff Butler calling attention of drivers of automobiles and trucks to the penalty for driving on interurban car tracks. All who are found driving on the tracks will be arrested and prosecuted, he says.

#### T. B. BILL STARTS FIGHT.

A battle royal broke loose in the house when the Kirby bovine tuberculosis bill came up for final passage. Enemies of the measure "agreed not among themselves." They put up a stiff, though rather disjointed fight. The main provisions of the Kirby bill are that it slightly reduces the maximum state awards for condemned cattle to correspond with the federal award and paves the way for county cooperation in carrying out what is termed the 5-year program of bovine tuberculosis eradication. The bill finally passed 53-34, having a bare margin of two votes more than the necessary fifty-one.

#### STATE HORT SOCIETY TO HOLD WINTER MEET.

Members of the Michigan State Horticultural society, the leading organization of fruit-growers in the state, will gather at Paw Paw on February 28, for three days, in their annual mid-winter meeting.

Marketing and cultural problems of the orchard man will be discussed in detail by the state's foremost horticulturalists during the conference.

David Friday president of the Michigan Agricultural college, will address the conference on Wednesday evening, February 28. Other headliners on the program include: Jason Woodman, of Paw Paw, member of the state board of agriculture, A. J. Rogers, of Beulah, president of the horticultural society; W. P. Harmon, of the state department of agriculture; G. V. Branch, director of Detroit municipal market; James Nicol, of South Haven, former president of the state farm bureau, V. R. Gardner, head of the M. A. C. horticultural department, and practical growers, county agricultural agents, officers of the state association, and other members of the M. A. C. staff.

The Michigan Agricultural College is asking the present state legislature for a \$400,000 appropriation for a new horticultural building, and President Friday is expected to outline his plans for extensive horticultural work in the state at the Paw Paw conference.

#### IS WELL QUALIFIED.

Theodore J. Richter is forty years of age. He was educated in the schools of the city of Detroit and is a graduate of the High school and the Detroit College of Law. He then practiced law for four years, when he was appointed a clerk in the Wayne circuit court, which position he held for five years. He was then elected Justice of the Peace of the city of Detroit and held that office for eight years. During that time eighty three thousand cases were commenced before him. He also held three grand jury investigations, among which, at the direction of the Attorney General of the state, he investigated conditions in Hamtramck, resulting in improved conditions in that section of the county.

Shortly after his election to his third term as Justice, Judge Richter was appointed to the bench of the circuit court to fill the vacancy caused by the death of the late Judge Hosmer. Last fall he was elected by the voters to fill the balance of this unexpired term. He is now candidate for a regular term as judge of the circuit court of this county. Thus Judge Richter has had the unusual and burdensome experience of having to go through three campaigns for election within two years.

While on the circuit bench Judge Richter has taken deep interest in the domestic relations troubles in that court, especially in adjusting decrees in such a manner as to best provide for the welfare, support and education of the children of divorced parents.

#### DEARBORN TO HAVE PARK AND MUSEUM.

It is announced that Henry Ford has offered to build and equip a museum within the park which Dearborn proposes to set aside along the Little Rouge at that place. The museum collection would consist of the wonderful collection which Mr. Ford has gathered together of agricultural implements and machinery of both ancient and modern times. An idea of this collection was gained by his exhibit at the state fair last summer. It is now on the Ford premises at Dearborn and draws interested people from all over the globe. This paper also hears it rumored that Mr. Ford will probably build the needed dams along the Rouge in the new 1200 acre park which the city is just securing and which extends from the Pere Marquette railroad two miles south of Redford, to Warren avenue—Redford Record.

#### EXTENSION OF MOTHER'S PENSION COMING BEFORE HOUSE.

Extension of the mother's pension for the relief of dependent children whose fathers are incapacitated by tuberculosis is provided for in a bill to be introduced in the house of representatives this week by Rep. Dennis Dawe of Monroe.

At present, the pension may be paid only in case the father has been de-

clared insane or feeble-minded, epileptic or blind, or if he is serving sentence in a penal institution. The Dawe bill would amend the present act by providing that the allowance may also be paid if the father is suffering from tuberculosis in such a stage that he cannot pursue a gainful occupation.

The proposed amendment, which is sponsored by the Michigan Tuberculosis Association, has the approval of public health workers over the state, officials of the Association declare.

"Within the last week public health nurses from Grand Rapids, Flint, Bay City, Kalamazoo, Ypsilanti and several other cities have written us in support of the extensions of the mother's pension," said the executive secretary of the Tuberculosis Association today.

"At the time base line approval on personal observation of the need for such a change in our law."

#### MAJORIE RAMBEAU IN "THE GOLDFISH" AT THE GARRICK THEATRE.

Majorie Rambeau will be the attraction at the Garrick theatre beginning Sunday evening, February 25th, with matinee on Wednesday and Saturday, in the Messrs. Shubert's production of Gladys Unger's comedy of many manners, "The Goldfish." Not since the "Eyes of Youth" has this versatile actress enjoyed such a success. She appeared in "The Goldfish" at the Maxine Elliott, Shubert and Astor theatres, in New York for six months and then moved to Chicago where she enjoyed a successful run of several months at the Studebaker theatre. Miss Rambeau appeared for the first time in New York in the fall of 1914, coming here from California. She made her first appearance in "So Much for So Much," followed by "Sadie Love" and "Cheating Cheaters." She met with instant success on her first appearance in New York and was immediately given stellar honors. Two of her greatest successes were made in "Eyes of Youth" and "A Hunting." At home equally in emotional or humorous roles, Miss Rambeau makes of Jenny Jones the slangy and adaptable shop girl in "The Goldfish," a creation of sheer joy.

### Northville School Notes.

The following pupils of the high school are, on the honor roll in scholarship for the first semester: Avis Brown, James Wood, Chester Alger, Alvina Staman and Helen Van-Atte. These pupils received an "A" in every subject and were accordingly excused from the final examinations. When the small number of pupils in the high school that receive "A" in every subject is taken into consideration these students deserve special commendation for their splendid work.

The Junior play which is under the supervision of Mrs. Larkins and Miss Frances Yerkes is progressing nicely. Rehearsals of the play take place each night after school with the exception of Friday. The list of characters will be announced in a later issue of the paper.

The final debate of the year was held Monday afternoon in the high school auditorium. Our team composed of Ada Ely, Starr Northrop and Raymond Wallis met the team of the Norma College High School, of Ypsilanti on the question of the St. Lawrence waterway. Ypsilanti had the affirmative while our team upheld the negative side of the question. The result of the debate was a two to one decision in favor of the affirmative. This closes a rather unusual season for our debaters.

Our team won unanimously the first contest against Farmington, the second debate was forfeited to Northville by Williamston and likewise the third debate was forfeited to us by Marquette which with the one point gained from our last debate gives Northville a total of 13 points. The best score that could be obtained would equal 16 points so it can readily be seen that our school is placed in line with the most successful schools in the league. Miss Aletha Yerkes coach worked faithfully with the team and deserves a good deal of credit for their success. The individual members of the team are to be commended for their earnest efforts in behalf of the school they represented.

On Friday of this week the pupils of the entire school will have the pleasure of hearing McCormack the Birdman. Mr. McCormack has been before the people of the United States for 31 years and enjoys a fine reputation in this line. Pups will be called upon to name any bird and he will at once give a correct imitation of the call of this particular bird. In addition to his whistling feature he will give a history of birdlife. All pupils from Kindergarten to the high school will be given an opportunity to hear him.

Mrs. A. Zimmer who recently underwent an operation for appendicitis at Ann Arbor is getting along nicely. The best wishes of the teachers and pupils are extended for her speedy recovery.

Our teams will go to Farmington this Friday night for basketball. The games will start at 6:30 in order to give the players a chance to return home early.

### WHY NOT THIS YEAR?

Why not call a mass meeting of the people of this community and start active work of soliciting contributions toward a memorial and municipal building for Northville? We all realize the great need of a suitable building for municipal purposes and we also realize that Northville needs badly a suitable auditorium for public gatherings and lodge meetings. Then why not join forces with the village officials and erect a building that will meet all our needs and one that will be a suitable memorial not only to the soldiers of the World War but to the soldiers of the Civil War as well and to the pioneer citizens who planned and laid the foundation for the Northville we are enjoying today and whose sacrifices made this enjoyment possible?

Last Friday The Record received a telephone call from A. E. Fuller, who stated he had just been reading Lyle Alexander's article regarding the proposed memorial building and that he was heartily in favor of the project and with a commendable spirit of helpfulness he said you may put me down for a good subscription toward the fund. How many other men and women of this community would like to join Mr. Fuller in this enterprise? We believe there are a lot of them if the proposition was properly presented.

The year 1923 will be a splendid year to put this project across. Why not?

Almost Beyond Human Devising. I am trying to do two things—dare to be a radical, and not be a fool; which, if I may judge by the exhibitions around me, is a matter of no small difficulty.—James A. Garfield.
