MIGHTYBONE

is made of the very finest tempered steel—it is so pliant that it conforms to every movement of the body and it is so strong that it will not break.

It springs back into its original position as the pressure is lightened—and keeps the corset always in its proper lines.

Mightybone is light in weight—permitting its free use without adding perceptibly to the weight of the corset—and it is coated with a water proof composition making it impossible for any American Lady corset to rust.

Examine these samples carefully—test them—compare them with the boning used by other corset manufacturers.

To every American Lady corset is attached a Mightybone tag. It carries the message of the value of Mightybone to every customer—and it is a strong and constant reminder of the quality of boning to be found in every American Lady corset.

FORMER NORTHVILLE BOY DIRECTING ORCHESTRA.

From the Waterbury, Conn. Evening Democrat we are permitted to take the following item regarding a former Northville boy—Floyd C. Evans, who will be kindly remembered by many of our citizens:

"Composed of fifty-eight pieces, the Waterbury high school orchestras have just completed their second successful musical season for the shower of compliments and congratulations that were imparted to their musical ability and to their fortitude this week is a just tribute to them in trying to master the hundred and one technicalities of classical music. They have played together, practiced together and worked together for the ultimate effort that comes with the successful presentation of their annual concert, which is one of the best of the school activities each year."

Only those who had the pleasure of hearing the student musicians play the musical classics of Beethoven and Mozart last Wednesday evening can appreciate the genuine art that they are working into their musical

interpretation under the expert and able direction of Conductor Floyd C. Evans, a man who has worked hard for the realization of the present combined school orchestras which is, in itself, a credit to the city and to the schools they represent. Four years ago, Conductor Evans took hold of the first handful of students who had a slight liking for the better kind of music. Year by year he developed them, always encouraging, never scolding, until today he is responsible for one of the finest and best high school orchestras in the state of Connecticut. The rapid strides of progress that students have made in their study of better music under direction of Conductor Evans is the genuine sense of consolation that his efforts have not been in vain."

OBITUARY.

Miss Emeline Lapham, daughter of David and Sarah Lapham, was born in Livonia, Mich., May 13th, 1842, being the eldest of six children. Her home for the past sixty years has been in Northville. For the greater part of the time spent in Northville she was engaged in nursing.

With old age gradually creeping on and health failing her, she was confined to her bed August 24th, 1922. September 13th she was moved to Ypsilanti to be cared for by her niece, Miss Belle Morrison.

Miss Emeline Lapham passed to her eternal rest February 26th, 1923, at the age of eighty years, nine months and thirteen days. She is survived by seven nephews and the one niece with whom she has spent the past six months.

The funeral services were held in Ypsilanti Thursday, March 1st, and the body taken to the Quaker cemetery in Farmington for burial.

DEATH OF MRS. FRANK HUDSON.

Milford friends and relatives of Mrs. Frank Hudson were quite unprepared for the news of her death which occurred at the University hospital at Ann Arbor last Sunday morning. She had been there but a few days, and it had not been determined whether an operation was advisable, when she suddenly expired. The cause of death was given as tubercular peritonitis.

Rev. J. D. Young conducted the funeral service from the home five miles west of Milford on Wednesday afternoon and the burial was at Oak Grove.

Mrs. Hudson was 38 years of age and she leaves three daughters, and husband, also her mother, Mrs. Wolfe, of Farmington, two brothers, Earl and Harry Wolfe and two sisters, Mrs. Isaac Bond and Mrs. Fred Bond.—Milford Times.

NEW FINANCE OFFICER.

At a special meeting held Tuesday evening, March 6th, Merrill Sweet was elected adjutant and finance officer of Lloyd H. Green Post No. 147, a vacancy caused by the resignation of A. V. Barber. Comrade Barber's work has called him away from Northville and although he will remain a member, his willingness and ability in discharging the duties of his office and his likable personality will be missed by the boys.

All members are requested to be at the rink Wednesday evening, March 14th, at 6:00 sharp, where we will be the guests of the Woman's Relief Corps, at a supper and entertainment, celebrating their birthday.

Do not fail to cast your ballot next Monday at the annual village election. Mr. and Mrs. J. A. Neal of Orion have been guests this week of Mr. and Mrs. George H. Baker.

HENRY M. BELFORD.

Henry M. Belford was born in Holly township, September 14, 1857 and died at his home in South Lyon, February 28, 1923, at the age of 65 years, three months and 14 days. He was married to Miss Edna Tiffany, April 6th, 1879. She died in the year 1918. He later married Mrs. Lillian Burton on August 18th, 1920. Besides his wife, there are still living one daughter, Mrs. Roy Daugherty of Holly, and three step-daughters, Mrs. W. J. Warby of this place, Ethelwyn Burton of Detroit and Margaret at home with her mother. He also leaves two brothers, A. C. of Newark and J. H. of Grand Blanc, and a sister, Mrs. Libbie Hodges of Fenich. There are three grand-children, Harriet Dougherty, Junior Jewett and Peggy Joyce Warby, and an number of nieces and nephews.

The deceased was a member of the Belford Congregational church of Newark, and fraternally a member of the Holly Lodge F. & A. M. also the Loyal Orange Lodge of that place.

The funeral was held from the Presbyterian church in charge of Rev. W. C. Evans, on Sunday afternoon, and both South Lyon and Holly Masonic lodges took charge of the service at the cemetery. The body was placed in the vault in the South Lyon cemetery, and interment will take place later at Holly.

The many beautiful floral offerings and the large attendance at the funeral was a tribute to the esteem in which he was held by all who knew him.—South Lyon Herald

SEE WHERE YOUR MONEY GOES.

Readers of The Record will find in this issue a very interesting serial story, written jointly by Village Clerk Murdoch and Village Treasurer Ernest Miller—the annual village statement. It is worth reading, too, and every resident of the village should look it over. It will tell you just how the tax moneys have been expended and the condition of the several departments of the village. Last spring the present council received from their predecessors a debt of \$2,000. During the past season upwards of \$10,000 was expended in improving the water system and had it not been for that expenditure there would have been a handsome balance in the treasury at this time. As it is the present council owes about \$4,000, but two thousand more than a year ago after having made large expenditures from the water fund. This is a very creditable showing and the members of the council are to be commended for their efforts. They have worked together harmoniously and for the best interests of the village at large.

TO MEET NORTHVILLE'S NEEDS.

The Record expects to be able to announce next week the completion of a plan by which Northville's needs for more houses will be met partially at least, within the next few months.

A number of Northville men are negotiating for the Yerkes farm on the Base Line road and it is proposed to plat the property, put in water and surface sewers, sidewalks and gravel streets. The property is ideally located for development and the lots will be offered at very attractive prices. Northville's greatest need at the present time is more houses—a lot of them.

FORD PLANT A BUSY PLACE.

The local Ford plant is a busy place these days with a large force of men employed in three shifts. During the 24 hours there are 92,000 valves being turned out, and by multiplying that number by six will give the number of valves being made each week—552,000. This number of valves scarcely supplies the needs of the Ford Motor Company for Ford cars and Fordson tractors.

The number of men employed in the local plant is being increased daily and the same is true of the number of women employed at Phoenix.

DAVID TOAL ACQUITTED.

David Toal, Northville dairy farmer, was found not guilty of robbery, not armed, by a jury in Judge Ira W. Jayne's court Tuesday. The jury deliberated only 20 minutes.

The complaining witness was Jas. Heener, a neighbor, who said he was knocked down in his barnyard during the evening of September 20, 1922 and robbed of a check for \$73.23.

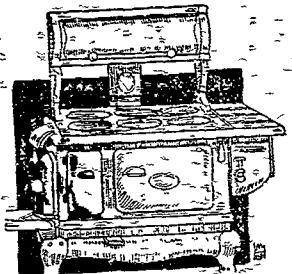

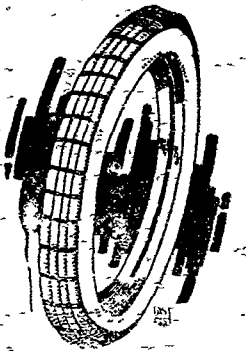

The grocer who cashed the check identified Toal as the man who presented it.—Detroit News.

Don Miller will have an auction sale on the VanZile farm, a mile north of Taft's corners, on Friday, March 23. See The Record next week for particulars.

FRANCE CONTROLS SHIPPING

Occupation of the Three Cities is a Reprisal for Recent Acts of Sabotage.

Paris—Announcing officially the occupation of parts of Mannheim, Karlsruhe and Darmstadt last week, the French government stated that this far only the Rhine ports of the first two cities and the railroad work shops in the last had been seized.

The occupation is in reprisal for recent acts of sabotage in the Ruhr and Rhineland, the French announced. The entire cities will be occupied, if sabotage continues.

The advance of several companies, which seized these cities, puts the French much nearer to Frankfurt, and the Germans fear this city may next be taken.

By seizing the harbor section of Mannheim, the French control Rhine shipping and the customs. Posts to put this control immediately into effect were established.

The Germans have frequently uncorrectly reported advances upon these two cities.

First shock occupation was effected swiftly, it was a shock to the inhabitants, who immediately arranged measures of resistance.

Railway workers at both Darmstadt and Mannheim quit work when they found the French in their midst.

The invaders were active in the Ruhr as well, rounding up officials who are to be deported, arresting and disarming police, while cavalry and tanks occupied and controlled the center of Gelsenkirchen near Rotthausen.

Berlin—President Ebert has decreed as espionage any aid rendered with regard to political or military matters on behalf of any foreign power which has occupied German territory in peace time and also for sheltering or otherwise assisting or harboring persons accused of giving such aid. Those convicted under the decree are liable to sentences of imprisonment ranging from 10 years to life and to fines not exceeding 500,000,000 marks.

BOMBER FALLS, ONE IS KILLED

Skilful Handling of Plane Prevents Greater Loss of Life

New York—Lieut. Stanley Smith, army air service, was killed and Major Follett Bradley was probably fatally injured when a giant Martin bomber in which they had just left Mitchell Field for Chanute Field, Rantoul, Ill., was forced down in Brocklyn.

Four student mechanics privates, who also were in the biplane, escaped with only slight injuries, owing to the skilful manner in which Major Bradley piloted the big bomber to earth from a height of 5,000 feet.

The two officers both of whom were stationed at Chanute field were pinned under a wing of the machine, which brought to earth on its wheels, overturned when it struck a hillock.

Lieutenant Smith, suffering internal injuries, a fractured skull and several broken bones, died in a hospital several hours later. Major Bradley was reported to be in a precarious condition.

Major Bradley and Lieutenant Smith flew to Mitchell field from Rantoul Saturday bringing with them four mechanics, who had completed the course in the army school at Chanute field.

They were returning Sunday with four other student mechanics to be placed in the school when the accident occurred.

WORLD COURT PLAN IS KILLED

Senate Formally, Flatly Rejects Proposal Offered by Harding.

Washington—The senate last Saturday formally refused to consider President Harding's proposal for American participation in the international court of justice as created under the treaty of Versailles.

A motion by Senator King, Democrat, of Utah, to take up his resolution accepting the president's proposal was defeated 49 to 29, the vote being taken while the senate was in state of uproar, due to a parliamentary tangle.

The vote came while a half dozen senators were shouting for recognition and when half the senate was not aware of the subject being voted on.

King had obtained recognition and moved to consider "a resolution introduced a few days ago," before the resolution was read. King had called for a vote and the roll call started.

Last "Light Brigade" Survivor Dead—London, Ont.—Thomas W. Shaw, said to be the last survivor of the famous Light Brigade that charged to destruction on a Russian battery at Balaklava in 1854, died in Victoria Hospital, a victim of bronchitis. He was 91 years old.

VOLCANOE'S OUR BEST FRIENDS

Geologist Says Without Them We Would Have No Oceans or Carbon Dioxide.

KATMAI ERUPTION DESCRIBED

Most Tremendous Volcanic Explosion of History Passed Unnoticed Because It Was So Far From Centers of Civilization.

Washington—It might be a surprise to many to be told that the fire-spitting, lava-spouting, earth-rocking volcano is one of mankind's best friends rather than his arch enemy, but such is the surprising declaration which was explained to the conference on geography of the National Education association in Boston recently.

The most tremendous volcanic eruption of history, that of Mount Katmai in Alaska in 1912, was described in this connection by Dr. Robert F. Griggs, leader of several parties sent to the scene of the cataclysm by the National Geographic society, and who discovered the valley of Ten Thousand Smokes, Katmai's neighbor wonder of nature.

Mankind's debt to the volcano has been more fully recognized by results of recent researches, as a bulletin of the society describing the upheaval. Without volcanoes, it is now believed, there would be no oceans, and to volcanoes we are indebted for carbon dioxide, without which human life could not exist.

Katmai Explosion Unnoticed.

The explosion of Katmai, the conference was told, was unnoticed because it was so far from the centers of civilization. Had the eruption occurred near New York city, the bulletin declares, the sulphurous fumes would have polluted the air everywhere east of the Rocky mountains, the noise would have reverberated like an artillery duel across the central states. The lower Hudson itself would have been turned into a gigantic tomb.

However, due to the lack of population in that far region, there was no loss of life, and the eruption provides scientists and geographers now one of their greatest opportunities to study the phenomenon of volcanic action.

Those generally unaware of the eruption until long after every inhabitant of the country, and almost of the world, felt its effects, one of which was the cold damp summer of 1912. This was caused by the interception of sunlight by the long hanging dust cloud in the upper air. Even in cloudless Sabana it was declared, the day was overcast.

Repeat Ice Age.

A succession of such mighty explosions could plunge the earth into another ice age, it is believed.

An area around Katmai, larger than the state of Delaware, was covered that summer by more than a foot of volcanic ash which was enough to destroy all but the hardiest of vegetation. When the explosion occurred two cubic miles of material were blown off the top of the mountain and the present whereabouts of the mountain top is still a mystery to scientists.

GIVE BOUNTY FOR MALE BABES

Government of Montenegro Takes Steps to Increase the Rapidly Dwindling Birth Rate.

Cetinje, Montenegro.—There has been an alarming decrease in the birth rate of Montenegro, due to the loss during the war of so many of the "Black Mountain" fighting men. The government is offering premiums to mothers who bear male children. The females now greatly outnumber the males.

The incentives offered by the government to mothers of male children have resulted in pathetic appeals from the untutored peasant women to the American Red Cross nurses to give them "the medicine to make a boy."

In Montenegro boys are considered much more valuable than girls, and the constant prayer of the mountain dweller is that she may be blessed with a male child. This disparity in the sexes is largely the outgrowth of the days when Turkey held dominion over the Balkans and when the liberty-loving Montenegrins had an ever present need of men to defend the homeland.

In Montenegro the women do all the work, the men considering manual labor undignified. They feel it is their chief duty to carry firearms and swords, talk politics and prepare for the next war.

Cassidy leaped to rescue her and both were drowned.

DETROIT THEATRES.

The third annual edition of that vivid and electric revue, the Green-wich Village Follies, well remembered in Detroit for its noteworthy engagement at the Garrick theatre last November, returns to that theatre Sunday night for a week's engagement. Since its earlier engagement here the "Follies" has toured the major cities of the Middle West with signal success, and has but recently concluded a long and highly profitable run in Chicago. It will be presented identically as on its first visit, with cast and production intact and unaltered.

With this pictorial and antic show comes Ted Lewis, known the length and breadth of the land as the high priest of jazz, and his famous band. Lewis will offer an entirely new program of songs in this return engagement of the "Follies." Among the new numbers which his band will render are "Toot, Toot," "Tootsie, Goodbye," "Running Wild," "Hot Lips," "Loving Sam," "Homesick" and "The Tiger Rag." He will also play "Three O'clock in the Morning" and "Down the Old Church Aisle," as on his first appearance this season.

Returning, too, is Joe E. Brown, the unique buffoon with the expansive face and the flair for grotesquerie in dances and grimace.

"Charley's Aunt," a farce which has endured since 1894 and has been played in Detroit many times; also which is produced in London, England, each year for a long run, has been selected by the Bonstelle Company as the offering at the Shubert-Michigan next week.

This play is being offered by Miss Bonstelle on account of the numerous requests and Minor Watson as Charley's aunt will be afforded as unusual and unique opportunity.

SENATOR TOWNSEND MAY GET GOOD PLACE.

Charles E. Townsend, who retired March 4 as senator from Michigan, is under consideration for appointment to the international joint commission, which speaks for the American government in adjusting certain treaty questions with Canada.

At present there is no vacancy on the commission, but it has been reported that Obediah Gardner, of Maine, the present chairman, might retire in the near future. In that case, former Senator Townsend probably would be made chairman.

Rushes Signify Ones Welcome.

The saying "not worth a rush" dates back to the days before carpets were invented, and the floors were strewn with rushes. When an honored guest was expected fresh green ones were laid out and spread, but people of little consequence had to be contented with rushes that had been used while still humbler folk got none at all.

A Jazzy Warning.

There are those who refuse to accept the convention, no matter how expressed. Take the matter of the warning signals now common on the backs of motor cars. Usually they flash readily the one word "Stop." But the other evening on Fifth avenue, when a light four was brought to a standstill the command "Halt, Kid" flashed into view.—Detroit News.

Michigan Happenings

Tear gas bombs were pressed into service by sheriff's officers last week to subdue two maniacs, who ran amuck at the Mt. Morris hospital, miles north of Flint. The maniacs wrecked the interior of the ward and tore a large iron bar from a window, terrorizing hospital attendants and scores of patients. When it became apparent hospital authorities could not cope with the situation, a call for help was sent to the sheriff's office. When the officers arrived they found Kenneth Dennis, World War veteran, standing off hospital attendants.

A 100-acre tract located in Royal Oak township, Oakland County, which the people decided to accept for the establishment of a zoological park at election of last fall, was formally ceded to the City of Detroit, last week, by the Detroit Zoological Society. The society, of which Edwin Darby, Secretary of the Navy, is president, approved the step, upon condition that the City will expend annually for the period of five years a sum not less than \$100,000 for the maintenance and improvement of the premises as a zoological park.

Jerome Daniels and his wife were killed instantly and Frank Bates injured, when the automobile in which they were riding to Battle Creek, was hit and wrecked at Death crossing, in the village of Galesburg last week. Witnesses said the driver of the machine speeded up as he neared the crossing, evidently trying to beat the passenger train over the crossing. The tragedy brought the total death list at the crossing up to 12 in about 17 months. More than half the county's fatal automobile mishaps have occurred there.

The Crosby Transportation Co will start the operation of a new boat line between Detroit and Milwaukee in the next few weeks it is announced by Edward C. Farmer vice-president of the company. The new boat line is designed especially to handle the shipment of automobiles from Detroit to Milwaukee, where the automobiles can be driven over land to distributing points in the west. Detroit automobile manufacturers have urged the establishing of the new line because of the present freight congestion.

The constitutional amendment authorizing the establishment of ports and port districts in the state was passed by the senate last week. This measure, introduced by Representative Vincent Dacey, in the house, now is ready for the governor's approval. When it appeared on the ballot, at the last November election, in company with the income tax amendment and other more or less unpopular constitutional amendments, it was defeated.

The county road commission at Monroe last week awarded the contract for the construction of the Cone road, four and one-half miles long, for \$90,526.60. The road is to be constructed of two-course macadam with bituminous treatment 14 feet wide. It will be finished by November 1. The proposed good road starts at Cease's Corners, runs westerly through the hamlet of Cone and ends at the county line.

The Cadillac Motor Car Co through its president, H. H. Rice, presented the City of Detroit, last week, a memorial tablet commemorating the memory of Laumet de la Mothe Cadillac, on the 255th anniversary of Cadillac's birth. The tablet was placed on the building on the site of old Fort Pontchartrain. Acting Mayor John C. Lodge accepted the tablet for the City.

The Wayne county bonding bill to enable the issuance of \$1,900,000 in bonds, ratified last fall by the voters, has been adopted by the house 69 to 19. The bill will remove technical obstacles in the present bonding laws and clear the way for the issuance of \$900,000 bonds for the Elmo hospital and \$1,000,000 for the home for the feeble minded.

Walter T. Hubbard, of Saginaw, entered state prison at Jackson last week to remain the balance of his natural life, without the least trace of emotion. He was sentenced to prison for life for the murder of his 11-year-old daughter.

Plans for the construction of a new \$500,000 motion picture playhouse in the downtown business district of Flint has been announced by Lester E. Matt, theatrical magnate.

Six Grand Rapids men recently have received commissions in the United States army reserve corps.

George Telford, 72, the "Recluse of Flint," was found dead last week in a shanty he has occupied alone for 30 years, one hand clutching a photograph of his wife whose death drove him to solitude.

Seven farmers' clubs, Gleaners, Grangers and Supervisors, of Tuscola county, met in Caro last week. Dr. E. Mumford, of the Michigan Agricultural college, talked on community building, and Mrs. A. J. Knapp, of Cass City, on "Our State Institutions."

Do You WEAR Out Clothes or WASH Them Out?

Clothes are more often worn out on the scrub board and through the wringer than through ordinary wear. That's why we say that Federal-washed clothes will wear longer.

At Federal Laundry we use no scrub boards, no wringers, no chemicals. Your clothes are washed in softest water with mild, pure soap. Then the water is gently whirled out of them in our modern centrifugal extractors. And they are dried and ironed with the greatest care.

You may send your washing to Federal with absolute confidence.

Items taken from The Record files of 1897 for the week corresponding to this week.

Carl Mordock left Saturday for Owosso and Big Rapids.

Mrs. A. C. Jordan is spending the week with Detroit friends.

Mrs. Lottie Passage of Plymouth is spending a few days with Mrs. Earl Cobb.

W. P. Johnson of this place has been drawn to serve on the jury for the April term of the Wayne county circuit court.

Will Tuham and E. C. Hinkley have rented the store recently occupied by Mr. McClain as a barber shop in the Maik building where they will start a cigar store.

A letter from Robert Waterman at Sand Beach states that he is improving in health each day and has gained nearly 20 pounds in weight since reaching home.

In the village council's annual report for the year ending March 1st, 1923, the total receipts were \$9,064.68. Cash on hand, \$1,890.99. Total tax collections, \$1,512.96 as compared to the present time, (1923) \$32,024.84.

Peter Ely's house on Church st. was damaged by fire, smoke and water for about \$100 on Friday evening of last week. The fire caught in the attic over the kitchen and, unless a mouse caused the igniting of a match among some small sacks of rags stored there, the origin of the blaze is a mystery. All the household goods were safely removed by the neighbors with but little damage. The loss on the building is covered by insurance.

METHODIST CHURCH NOTES.

Having concluded the series of sermons on "Service for Others" we will commence next Sunday morning the sermons on "God's Care." These services are for our Christian education regarding God's interest in us.

In the present day life let us be interested in Him. We can no more thrive in our soul apart from Him; than a child mentally can thrive out of school. Come let us worship.

Time of service, 10:30. Our Sabbath school is at 12:00 and old and young are invited to stay. Our Epworth League is at 6:30 with a competent leader.

The evening service is at 7:30. The pastor will preach on "Angiology." The public not interested elsewhere is invited to attend. My how good to see the crowds last Sunday.

We were glad to see our Presbyterian brethren with us for worship due to the temporary misfortune as their own hour of worship. "How pleasant it is for brethren to dwell together in unity."

Prayer meeting will be at the parsonage Thursday at 7:30.

The pastor will be at Pontiac this week, and somewhere else next week up to Thursday, until we get the last cent of the two million two hundred thousand dollars for our Christian Education Fund. A lady of our church unsolicited gave me her subscription on Monday last. If there are others like-minded kindly give to the pastor next Sunday. We are looking for cleanings as well as heavy subscriptions.

W. R. C. NOTES.

The fifth regular meeting of the Woman's Relief Corps will be held on Wednesday evening, March 14th, preceded by social afternoon, pot-luck supper and program. The occasion will celebrate the 32nd birthday of the Corps and also combine a patriotic commemoration of the birthdays of Lincoln and Washington.

Post G. A. R. and American Legion have received invitations to be present and to assist in making the evening a pleasure.

Social events will be followed by the regular meetings at which there will be initiation.

Novi News.

T. Shinn was called to Kansas by the death of his father. The Grange met this week Tuesday at the home of F. C. Rice.

Mrs. Delos Leavenworth of Ypsilanti spent the first of the week at their farm here.

The W. C. T. U. met at the church on Wednesday with election of officers and prayer meeting in the afternoon.

CHURCH NOTES.

Sunday is going to be a big day for the people of Novi. At the morning service there will be special music that you all enjoy. Evangelist Miles will speak on the topic, "Possess your Possessions." God has great things for all of us if we are willing to take them. Come and hear this message.

There will be a song service Sunday night at 7:45 to which you are all invited. The chorus choir will sing out of their new song books. Mr. Miles will speak on the topic, "Can a Man be Born Again?" Come, pray, help and you'll be helped.

Mr. Miles will speak to the boys and girls of the Sunday school on, "Getting rid of the Black." This is an object lesson and all of the boys and girls will miss it if they miss it.

We are very much pleased with the work of Evangelist Miles, who is conducting special meetings at the Baptist church. The following meetings will be held the rest of this week and next. Prayer meetings each day at 2:30, except Saturday. All who cannot attend are asked to set aside this hour for prayer at home each day. Children's meetings are held at the church directly after school each day of school. These meetings are full of enthusiasm and are well attended. Everybody welcome. Services are held every night in the week, beginning at 7:30, with a 15 minute prayer service. Good singing is a specialty and finely conducted by the evangelist.

Carl VanValkenburgh is spending the week with his parents, Mr. and Mrs. Emery VanValkenburgh. He has been ill for the past few weeks, but did not give up until compelled to do so, when he was taken to Grace hospital in Detroit where he remained for a little over a week. He expects to return to Center Line where he is engaged in the drug business, within a few days.

From the Pensacola, Florida, Daily News of February 20th, we take the following: Funeral services over the remains of Anthony H. Kohler, aged 75 years, were conducted this morning at 10:30 o'clock at Northrup & Wood undertaking parlors, Rev. Father Cassidy of the Sacred Heart church, officiating. The body will remain at Northrup & Wood's, and shipped later to Northville, Mich., the former home of the deceased for burial.

Mrs. Elmo Huff of Detroit is the guest of Mrs. William Kay this week.

Representative Pitkin's death penalty bill was defeated in the house at Lansing Tuesday afternoon.

Mrs. Judson Biglow of Detroit spent the week-end visiting at the homes of Mrs. George Ford, Mrs. W. H. White and Mrs. Phil Taylor.

Northville township caucuses will be held Saturday of this week. The republicans will meet at 2:00 in the afternoon and the democrats at 7:30 in the evening at the village hall.

The Foresters will give a box social at their hall this Friday, evening, and everybody is invited to join in the fun. Bring a well filled basket and be on hand promptly at 8:30.

Mrs. Charles LeFever has been very ill during the past week and for a time her condition became alarming to her family and friends. She is much improved this week, however.

A daughter, Betsy Ann, was born to Mr. and Mrs. Bert Bond of Detroit, Sunday, February 25. Mrs. Bond will be remembered as Miss Ferloin Books, a former Northville girl.

Northville Commandery, Knights Templar, attended the funeral of Alvin G. Houghton at Redford last Friday afternoon. Mr. Houghton died at Harper hospital in Detroit after a few days illness of pneumonia.

Primary election created little interest here on Wednesday. There were but 124 votes polled, in both precincts—72 in No. 1 and 52 in No. 2. The same was true of the city where less than 4500 votes were cast.

George W. Edwards, father of W. G. Edwards of this village, died at Eloise last Saturday. The remains were taken to the home of Mrs. L. F. Sajow, a daughter of the deceased, where funeral services were held on Tuesday afternoon.

For the accommodation of the public the postoffice lobby in this village has been left open so people who desired to do so might get mail from their boxes on Sunday. Owing to the conduct of those who have been in the habit of making the building a loafing place during the past several months, the office will be closed Saturday nights in the future and will remain closed until Monday morning.

Next Tuesday night Plymouth's High School basketball team will come to Northville for a return game. From present indications about half of the people of that community are coming with their team and that means that Northville must turn out in great numbers. At the game at Plymouth some weeks ago the rooters were about evenly divided between the two towns and the game was a battle royal, both on the floor and from the side lines. Northville's rooters will be expected to do their best Tuesday.

If you are in need of a new hat this spring they are here, at Belle McCully's Easter opening March 17.

THE KNARLED OLD OLIVE TREE IN FAR OFF GETHSEMANE

The scene in that garden will not fade from men's memory. A lovely figure—gown that brought forth sweat like blood—moments that produced physical exhaustion—angelic help—victory.

The man in the shadow of the olives frequently sought this secluded spot to pray. Among the trees he could send his petitions skyward along with the appending leaves.

The man now prostrate has come to the crisis hour of his life—beset with enemies—a personal friend turned traitor—his helpers asleep—his cause seems doomed—Where is his way of escape?

Hours pass—the grim battle of human doubt and weakness—the age old struggle for the supremacy of God's will was fought by that tragic figure under yonder olive tree.

No man is free from his gethsemane—sooner or later the hour of supreme trial comes to all. The struggle is timeless. The battle is for everyone. The victory may be secured. The right way to win the contest is to Pray.

Gas on Stomach

Won't Let You Sleep

Gas often presses on heart and other organs, causing a restless, nervous feeling which prevents sleep. Simple buckthorn, bark, glycerine, etc., as mixed in Adlerka, expels gas and relieves pressure almost INSTANTLY, including restful sleep. Adlerka often removes surprising odd matter from BOTH upper and lower bowel which poisons stomach and caused gas. EXCELLENT to guard against appendicitis. C. R. Horton, Druggist.

NEW QUARTERS FOR OAKLAND AUTO CLUB.

Oakland County Automobile club is moving into its new headquarters at 36 1/2 north-Saginaw street, where it will occupy the entire second floor of the Commercial Bank Building.

The club has been growing so rapidly and has been so pressed for room, that the directorate felt this move was necessary to take care of the increased activities and needs.

Taking on mechanical first aid and towage, with other features, together with the approaching touring season also made the change necessary.—Pontiac Press.

TRAGEDY, DAIRYMEN TO ADVERTISE

John M. Kelley of Wisconsin, vice-president of the National Holstein association, and chairman of the Wisconsin dairy committee, was the principal speaker at the general session of the Michigan Allied Dairy association convention at Kalamazoo last Thursday afternoon. "Organization and advertising," was the subject of his talk, in which he emphasized the importance of the marketing phase of the dairy industry.

"Too much attention has been paid to production to the neglect of marketing, the most important phase of the industry," he declared. "The chief obstruction to the development of the dairy industry, not only in Michigan but throughout the country, is the fact that dairymen have been too willing to let things ride. They have paid no attention to effective advertising, as individuals or as associations and advertising means marketing."

HOW SOON THEY ARE FORGOTTEN

When Woodbridge N. Ferris was stumping the state last fall as a candidate for United States senator he made many passionate appeals to republicans to forget their party allegiance and give their support to him, because party affiliations should not count in a contest of that character. And many thousands of republicans took his advice and voted for Mr. Ferris—the non-partisan candidate, the man who did not believe in parties—not when he was a candidate.

Those who forsook their party—republicans, prohibitionists and socialists—and voted for Mr. Ferris can find but little comfort or the expression of very little appreciation from his utterances at the recent democratic banquet held in Detroit. In his address he declared "Democracy for democrats. The primary reward belongs to Democrats and no one else. Republicans who voted for me voted to save their self respect. I have no time for colorless democrats, colorless republicans, colorless prohibitionists or colorless socialists."

Week's News in Brief

Gov. Reiley's Resignation Accepted. Washington—The resignation of E. Mont Reily, governor of Porto Rico, has been accepted by President Harding. It was said at the White House.

Mrs. Raizen Given Life. New York—Mrs. Lillian S. Raizen, convicted of slaying Dr. Abraham Gluckstein, of Brooklyn, has been sentenced to serve 20 years to life in Auburn prison by Supreme Court Justice Clegg.

Engine Fell into Creek, Kills Two. Dover, Ohio—Engineer Duckworth and fireman Hart, both of Massillon, were killed when a Baltimore & Ohio freight engine jumped the track at Freeport 25 miles from here, and plunged down a steep bank into a creek.

Joins Good Roads Congress. Washington—A resolution by Senator Townsend, Michigan, authorizing the secretary of agriculture to accept membership for the United States in the Permanent Association of International Road Congress has been adopted by the senate.

Tennessee Names Town After Hero. Nashville, Tenn.—Tennessee's famous World War hero, Alvin C. York, now has a town named for him. The place is called Acyork and is situated near the farm which was presented to York by civic organizations of the state in appreciation of his heroism overseas.

Wound in Boy's Heart Sown Up. Atlanta, Ga.—Glenn Freeman, a colored boy, was reported recovering at a local hospital where his heart was temporarily removed from its normal position while a surgeon sewed up a knife wound in the organ. The operation required an hour and 20 minutes.

World's Largest Turbine is Built. Milwaukee—The world's greatest hydro electric power unit is in construction in Milwaukee, according to W. M. White, chief engineer, hydraulic department of the firm turning out turbines. It will harness 70,000 of Niagara's horsepower. It is to cost \$750,000.

Large Oil Strike Reported. Los Angeles Calif.—The greatest oil strike in the history of California fields was made last week. A well known as Rider No. 1 at Signal Hill, Long Beach, broke away and began spouting an estimated output of between 20,000 and 25,000 barrels, worth approximately \$35,000 a day.

Helped to Rebuild Chicago, Dies. Cedar Rapids, Ia.—Marcus M. Hall, 72 years old, whose mother, Mrs. Abigail Hall, 104 years old, died in Chicago the other day. He died here three days later. He was not aware of his mother's death. Mr. Hall was a building contractor and helped rebuild Chicago after the great fire.

Reserve Officers Named. Washington—Only two Michigan names appear on the list of accepted applicants for commissions in the officers reserve corps as made public by the adjutant general. They are Milton D. Hesser, Jackson second lieutenant, quartermaster's corps, and George C. Bond, Adrian, second lieutenant infantry.

Congress Woman Gets Labor Post. Washington—The ambition of Congresswoman Mae Ellen Nolan, of California, that she might be able to carry on the work of her late husband, Representative John L. Nolan, in the interest of labor, was gratified when the house voted her a place on the labor committee. She also was made a member of the committee on expenditures in the postoffice committee.

Greece Decorates Michigan Woman. Athens—The Greek cross de guerre was awarded for the first time to women when the Greek government presented it to two Americans, Dr. Mabel Elliott, of Benton Harbor, Michigan, and Dr. Esther Lovejoy, of New York City. The honors were bestowed because of their work with the Near East relief in Smyrna and in saving many persons from death at the risk of their own lives.

Michigan Arbor Day Set. Washington—The American Tree Association's call to "celebrate the centennial of Arbor Day in 1922, fifty years before it happens by planting trees now," will be answered in thousands of places, the association's officials say, now that Arbor Days are at hand. The first states to begin planting will be Alabama and Texas in each of which Arbor Day comes early in March. Michigan's comes April 27.

Must Have Children to Rent Homes. Lynn, Mass.—In contrast to the majority of landlords, Mrs. Vincent Gregg, a welfare worker known as "Mother" Gregg, has announced that she would rent houses, owned by her only to families having at least six children each. "To Rent" placards containing the above proviso were displayed in windows of two of her dwellings. Other houses owned by Mrs. Gregg already are occupied by families each having six or more children.

SIXTY-SEVENTH CONGRESS ENDS

RECORD SITTING OF NATIONAL LEGISLATIVE BODY CAME TO CLOSE SUNDAY.

LAST SESSION UNTIL DECEMBER

"Uncle Joe" Cannon, Fordney of Michigan, Volsted, Author of Dry Act And Others Answer Last Roll Call.

Washington—The sixty-seventh congress, which had spent a greater proportion of its two-year span of life in actual session than any other in the history of the country, adjourned sine die at noon last Sunday.

During the last few hours of the session, President Harding, spending part of the time at the capitol, signed the farm credits bill and 98 other measures. No legislation was vetoed.

Vice-President Coolidge's gavel fell sharply at noon, after an almost colorless morning senate session of two hours, and the house adjourned at 12:06 p. m. after a concert by a section of the marine band and a chorus of popular songs by members and spectators.

The session Sunday was in all likelihood the last until next December, unless some special legislation requires a special session.

The last bill to become law was the "better butter" measure changing the standard of an important measure placed on the statute books at the last moment was the one providing for return to enemy alien owners of all seized property worth \$10,000 or less.

Farewell eulogies occupied much of the time of the hour and a half the house was in session. Representatives Fordney, of Michigan, Campbell of Kansas, Kitchin of North Carolina, Alice Robertson of Oklahoma, and Mrs. Huck all were given ovations, but "Uncle Joe" Cannon received the greatest tribute.

After praises of the retiring veteran of 46 years of legislative service had been said by Representative Hicks, Republican, New York, and Sisson, Democrat, Mississippi, Mr. Cannon was escorted down the center aisle by Representative Rodenberg of Illinois while members and spectators stood applauding and cheering.

Another of the veteran legislators whose career in congress ended was Andrew J. Volsted, author of the prohibition enforcement measure, who was defeated last November.

The outstanding domestic legislation of the sixty-seventh congress was the Fordney-McCumber tariff act. The house ways and means committee got to work on it before the congress assembled and it passed the house July 21, 1921. It was more than a year later or on August 19, that it passed the senate. It took the place of the Democratic Underwood-Simmons law.

The soldier bonus bill also passed both houses, but President Harding vetoed it, on the ground that it made no provision for raising money to pay the bonus, and that the treasury was not able itself to find the money.

In the closing days of the congress there was also enacted a bill both domestic and international in its implications. This was the measure approving the refunding of the British war debt of \$4,600,000,000.

Because of a filibuster in the senate which went on as one of the most remarkable in senatorial annals, the "pet measure" of the administration, the merchant marine or ship subsidy bill, failed of passage. The house passed it, but though administration leaders tried in every way to get it through the senate, a group of Democrats and farm bloc Republicans obstructed it to death.

A senate filibuster also killed the Dyer anti-lynching bill.

GAS WIPES OUT WHOLE FAMILY

Six Persons—Three Generations of One Family Killed.

Chicago—Six persons—three generations of one family—were killed Sunday when a deadly gas, used in ridding a first-floor restaurant of roaches, seeped through an opening in old walls up to the second floor flat.

A dozen other persons probably are alive only because they slept with windows open, for fumes were so penetrating canaries and goldfish in neighboring flats, even as high as the third floor, succumbed.

Here is the list of dead: William Kratzenberg, 80 years old, wealthy retired wagonmaker. Mary Kratzenberg, 69, his wife. John Kratzenberg, 54, their son. Mrs. Laura Szymanski, 38, daughter of the Kratzenbergs. Henry Szymanski, 28, her husband. Harold, their 15-year-old son.

The gas was probably the most deadly gaseous substance known aside from fumes turned loose in Flanders by Germany during the war.

The position of the bodies indicated the gas in some instances had ended life while the victim slept, but in others had choked off a futile effort to reach relief that only fresh air could bring.

It is made up of cyanide of sodium sulphuric acid and water. The combination forms a substance that eats up the oxygen and hydrogen in air, leaving only the poisonous gas.

How to Test the Olive. Dr. Rosenberger of Jefferson college states that the presence of bacillus botulinus, the poison of olives, is readily detected by the strong smell and cloudy liquor. Good olives have a pleasantly aromatic odor.—Scientific American.

Love and Duty in Actual Life. A thousand wheels of labor are turned by dear affections, and kept in motion by self-sacrificing endurance, and the crowds that pour forth in the morning and return at night are daily processions of love and duty.—Chapin.

Catarh Can Be Cured

Catarh is a local disease, greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work.

HAVE NEW DOPE CRAZE

Indians of South Dakota Now Eating Peyote Bean.

Has Demoralizing Effects; Mentally and Morally as Well as Physically—Couple Habit With Religious Ceremonies.

Washington.—A new dope craze, peyote eating, has taken such hold on the Indians on the nine reservations of South Dakota as to create a problem which those who are interested in the welfare of the red man view with grave apprehension. The peyote bean is the fruit of a cactus plant, which grows along the Mexican border. It is known as the Indian cocaine, and has practically the same effect as that drug. Banned by the Indians under any circumstances, it has demoralizing effects, mentally and morally as well as physically. To complicate the situation in South Dakota, the peyote habit has been coupled with religious ceremonies which combine ancient Indian superstitions with Christian rites, and the craze is now in full sway among hundreds of the nation's wards in the Northwest says the Washington Star.

Saturday night has become the favorite occasion for these peyote orgies. Gathering in tents or huts, the devotees eat from 30 to 40 of the small beans, following which they begin to see visions.

Despite the traditions of the red Indian's reticence he is a great talker, especially when under the influence of a stimulant. In the grip of peyote, the braves claim to have wonderful revelations and are filled with the spirit of

word progress, which is unknown to the gathered tribesmen in long and eloquent harangues.

In this state of drug-created frenzy they feed from the Bible, offer prayers and sing hymns, using these devices to cover the degenerate activities which accompany the progressive effects of the drug.

The culmination of many of these peyote meetings is declared by those who have witnessed them to be most revolting. Many instances have already been called to the attention of the authorities of husbands and wives having been separated as a result of the peyote debauches, and the debilitating mental and physical results of the drug are already beginning to show in hundreds of the younger generation of the Indians.

GORILLA NEAREST APE TO MAN

But Scientists Do Not Claim He Is Ancestor of Humans—Evolution Theory Explained.

New York.—The gorilla, that 400-pound chunk of ferocity, was classed as the animal closest to man in its qualities of physical and mental endowment by scientists who addressed the annual meeting of the American Society of Mammalogists in the American Museum of Natural History. It was not contended that the gorilla is man's ancestor, but that in the group to which man belongs, which includes besides the gorilla, the gibbon, the orang-utan and the chimpanzee, the gorilla surpasses the other apes.

Dr. W. K. Gregory, curator of comparative anatomy of the museum, explained the theory of man's descent as evolutionists hold it today. Their contention is not that man is descended from one great ape, but that he goes back with them to a common ancestor, now long extinct. Certain fossil remains of this creature, Doctor Gregory said, show that the pattern of his teeth was closer to that of man's than in the case of any animal now existent.

Hair Saves Woman's Life.

Pottstown, Pa.—Although severely injured when she fell from a second story window while reaching for a screen the other day, Mrs. Clara Keim owes her escape from probable death to her long hair. She landed on her head on a cement walk, but her hair was so arranged as to form a cushion which broke the force of the contact. She was unconscious when found and taken to a hospital.

Money Lost Last Winter Found in Potato Field

Miller Ressler, a farmer, of Eden township, Pa., lost his pocketbook early last winter. He advertised for it in the newspapers and made personal inquiry without results. He mourned \$60 as a dead loss. A little girl hunting potato bugs found the wallet in a field a few days ago. The notes were sent to a bank at Quarryville, Pa., for redemption.

Week's News in Brief

Editor Enns Life by Hanging—Jeffersonville.—The body of Harry Bird, 45, city editor of the Jeffersonville Evening News, was found hanging in a doorway of the composing room last Tuesday.

Americans Change Citizenship—Ottawa, Ont.—The United States furnished 2,000 of the 2,206 aliens who swore allegiance to Canada last year, announces the naturalization branch of the department of state.

Lad Fills Pulpit in Texas—Greenville, Tex.—Mayo Cleveland, 8 years old, so far as is known here, is the world's youngest licensed preacher. Baptized about three weeks ago, he expressed desire to become a duly ordained minister. His request was granted.

Firemen Save American Flag—Lynn, Mass.—Hundreds cheered while two firemen scaled the front of the Elks' building during a fire and brought down a large American flag which had been flying at the top of the five-story structure. Two firemen were injured.

Oldest Bible Bought by American—Berlin.—A German Bible dating back to the Thirteenth Century, and believed to be the oldest of its kind in existence, is reported to have been sold to an American by a private citizen of Berlin. The book is written on parchment and is valued at \$15,000.

Mail Plane Falls Into Lake—Gary, Ind.—A mail airplane, on its way from Bryan, O., to Chicago, was reported to have fallen into Lake Michigan, near here during the height of a wind and snow storm. It was reported the aviator blinded by the snow storm, hit a tree along the shore then plunged into the lake.

Noted Astronomer Dies

Williams Bay Wis.—Professor Edward F. Barnard, 65, a noted astronomer died after a six weeks' illness. He was born in Nashville, Tenn. After studying at Vanderbilt University he went to the Lick Observatory, at Mount Hamilton, California, where he discovered the fifth satellite of Jupiter.

Water Too Cold; Bath Loses Bat.

Cape May, N. J.—Albert Smith, who made a bet with Prof. Robert Bard science teacher of the Cape May High school that he would bathe in the ocean once a week whether he had to climb over piles of ice or not, gave up after taking a final dip here and departed for Palm Beach.

Martin Luther's Refuge in Ruins

Eisenbach Germany.—The historic Wartburg here, where Martin Luther was hidden from the pursuit when placed under the ban after the Diet of Worms and where he translated the New Testament into German, is falling into ruin, another victim to conditions resulting from the depreciation of the German currency.

French Aviator Breaks Record

Paris.—M. Sadi-Lecointe, famous French aviator, set a new airplane speed record by flying 365 kilometers an hour in a 300 horsepower Nippon machine. This breaks the world record of 358 kilometers an hour made by the American aviator, Mitchell. (Reduced to English miles, 365 kilometers would be about 226 miles).

Ferry Daughters Plan Vassar Gift.

Greenwich, Conn.—Announcement was made here that Mrs. Blanche Ferry Hooker, and Mrs. Queen Ferry Conoley, daughters of Dexter M. Ferry, Detroit seed merchant, will present Vassar college with a graduate club building which is to be the largest and finest institution of the sort on earth. Both are Vassar graduates.

"Living Dead Man" Electrocutted

Columbia, S. C.—Ira Harrison, convicted slayer of J. C. Arnett with two accomplices last May was electrocuted at the South Carolina state penitentiary here. Harrison who has been in a state of coma for two months, and who had been pronounced a "living dead man" by some examiners, did not speak before he was strapped to the death chair.

Dentist Identifies Man by Teeth

New York.—William Murray, 32, confessed robber who was captured with his partner, George Roberts, after an auto chase and gun battle in upper Broadway, ended in showing his teeth when he held up a dentist, Dr. Henry Zasuly, Brooklyn, a few days ago. Murray then revealed an unforgettable array of gold crowns and bridge work which enabled Zasuly to identify him with one professional glance.

Prisoner 22 Years, Is Millionaire

Muskogee, Okla.—After serving 22 years in prison for a murder he did not commit, Charles Tidwell, of Welch, Okla., has returned here a millionaire. Tidwell found it a different world when released. Oklahoma was still the frontier when he was sent to prison. Government allotments, held all these years, now will be paid him and lands taken from him when convicted, will be restored. He owns one farm of 80 acres in a rich oil section.

WHO WAS THE FIEND?

Story of Flask Spurs Muse to Pity "Uncle Joe"

Mr. Cannon Says "After Reading Admirer's 'Cannonade' He is Willing to Let the Story Go Uncontradicted."

Washington.—Recent reports that a flask had mysteriously disappeared from "Uncle Joe" Cannon's coat pocket caused H. E. McFarland of St. Louis, one of Uncle Joe's fervent admirers, to burst forth in verse. He wrote what he termed a "cannonade" on the incident as follows:

Who was the fiend, pray let me ask,
Who hid the flask—our Uncle Joseph's flask?
The flask he carried on his hip,
From which to take a quiet nip
Of mellow stuff we used to know
In happy days of long ago
How could one have such little tact
Regardless of the Volstead act?
How could one be so mean and low
To rob our dear Old Uncle Joe?
To rob the widow or a bank
Is bad enough and savors rank;
To rob a graveyard of its dead,
Or take away the orphan's bread
Are crimes we may, perhaps, condone,
If circumstances all were known
But cursed be he who breaks the lock
To rob us of our private stock
Or, what is worse, will watch his chance
And steal our humor from our pants
And spare us, pray, the crushing blow
Of doing this to Uncle Joe

"It is a question whether the author owes you an apology," the author wrote Mr. Cannon, "or is deserving of the thanks of congress for what he intends as a slight tribute of respect and affection for its most beloved and honored member. It is his fervent hope that there was no material delay in getting the prescription refilled."

Mr. Cannon replied to the letter as follows:

"I have your favor, with enclosure, and after reading your 'cannonade,' I am willing to let the story go uncontradicted and thank you for your tribute."

"You may have heard that many years ago I gave a promise to the newspaper correspondents in Washington that when they had a good story and no one to father it they might appropriate my name without fear of contradiction. I have had a good many thrust upon me, some of them irritating, but generally the other way and I reckon the score is in my favor."

"I have a flask—two ounces—presented by my doctor but knowing the boys in the press gallery as well as in the house I do not bring it to the capitol, as it would represent neither hospitality nor temptation—scarcely an emergency. That may have been the inspiration for the story. It has, however, served a friendly purpose as an inspiration for the 'cannonade,' and I am again in debt not only to you but to the newspaper fraternity, and I thank you."

WOOD INTO PAPER IN 3 HOURS

Germans Fell Trees and Make Newsprint in Record Breaking Time.

Berlin, Germany.—Trees on which birds warbled their morning song are turned into newsprint paper and sold as midday editions on the same day in certain towns of the Harz district, says the Papierfabrikant, the leading German paper makers' organ.

The exact time taken in the process is 3 hours 25 minutes. The trees were felled at 7:35 a. m., pulped and turned into paper by 9:30, rushed in a motor truck two and one-half miles to the printing office and at 11 o'clock newspaper boys were crying the local sheet on the streets.

Baby Falls From Window, Caught in Postman's Bag

Henry M. Druckman, of Brooklyn, N. Y., a letter carrier, was delivering mail when he saw a baby climbing to the sill of a third-floor window. He ran across the street to notify the child's mother, but the baby kept on climbing. Druckman got under the window just as the child, who had crawled over the sill, fell out. The letter carrier stretched his empty mail bag and caught the baby in it. The child was unhurt.

DISCARDED COW IS FOUND TO BE WINNER.

From a position of disfavor when she was offered for sale at a fifty dollar price, to rank as one of the high producers of a prosperous herd, is the striking change effected by "Bow," a pure bred Jersey cow owned by Don B. Keeler of Jackson county. Bow had been a failure in past years

as a producer. Her owner couldn't sell her for fifty dollars, and regarded her as an all-round losing proposition. Then came the Parma, Jackson county, cow testing association, and with it Bow suddenly developed into a two hundred dollar animal with a high production record. Better feeding and a careful check of records found Bow returning net profit of \$128.71 in nine months.

"Bow is ten years old," says A. C. Baltzer, M. A. C. extension specialist who is working with cow test associations in the state. In the past nine months she has produced 10,463 lbs. of milk and 471 lbs. of butterfat at an average price of \$42.87 per pound, or \$209.16. She has eaten in the nine months 2995 lbs. of grain, costing \$53.71, plus \$19.49 for roughage, making \$73.25, leaving a net profit from

butterfat sales of \$128.71.

"Bow's ninth month production record is 1008 lbs. milk and 43.3 lbs. butterfat. Probably her yearly record will be about 12,800 lbs. of milk and 580 lbs of butterfat."

LOW PRICES

Are things of the past, but building costs are still low enough to warrant building this year. There is considerable talk of higher prices but if you will get a price on whatever you contemplate building, the figure is apt to be considerably lower than you expect.

NORTHVILLE SCHOOL NOTES.

The question is often asked, "How many of our graduates from High School go to college?" This can best be answered by giving our readers a survey of the students who have graduated from this institution in the past two years. Of the class of 1921 which was composed of nineteen members, nine of them or about 50% went to college. Some took short courses and are teaching at the present time while others are still in college. The following is a list of the students together with the name of the college attended: At the University of Michigan, E. A. Chapman, Elizabeth Lapham; Michigan State Normal College, Gertrude Baughman; Marjorie Montgomery, Beulah Merritt; Detroit Teachers College, Mildred Baldwin, Eliza Murdock, Iris Balch; Albion College, Irene Marsh. Of the class of 1922 composed of 29 students, eighteen members, or about 62% have continued their studies in college. Some have taken short summer courses and are teaching at the present time while others are still at college. Following are the names together with the name of college: University of Michigan, Elizabeth Van Valkenburg; Normal College, Seth Benton; Elizabeth Henry, Maurine Lapham; Margaret Murdock, Gordon Mott; Doris Stark, James Fry; Loye German; Detroit Business College, Leona Parmelee; Teachers College, Detroit, Della Brooks, Nellie Evert, Olive Elden; Mildred Walker, Tina Wolfroth; Cass Technical High School, Detroit, Ford Atchison; Alma College, Bernice Henry, Maylon Bradley.

Letters will be sent from superintendent's office in a few days to the parents of pupils who have been absent beyond the limit for successful work in school. Pupils who are absent continually must expect to take the work over and parents are urged to safeguard their interests as much as possible in this respect.

The Junior play will be held the second week in April, so be sure and keep this in mind. Mrs. Larkins and Miss Frances Yerkes are drilling the class faithfully nights after school.

WORKINGMEN'S TICKET FAITHFUL SERVICE.

Seemingly the splendid service rendered by the present council and village president during the year past entitles them to re-election without effort on anyone's part except that of the people whom they have so faithfully and ably served. It is not easy to induce good business men like Mr. Dolph, Mr. Fikins, Mr. Ely, and Mr. Montgomery, to give a lot of their valuable time to public affairs.

Last year a big business undertaking confronted the council. That of new sewer system and the further development of the present water supply. It was not a small job and it is yet unfinished though good progress has been made.

Co-operating with the Ford company engineer, the council has been able to cross the Ford property on the old Yerkes flats and to lay their sewer mains conveniently to take care of the Ford factory and then the Stumpson, the American Bell Foundry and the Globe company. It will take several months yet to complete the sewer system. President Dolph and the present council have made a careful study of the needs of the village and the factories and everything is working both harmoniously and economically. The village was never more judiciously managed than last year. The council is working in harmony with the great Ford industry here as well as with Northville's other industries and business houses and any change at this time could be nothing but detrimental.

FORD WILL BUILD ST. PAUL PLANT.

The Ford Motor company expects to have an automobile plant, employing between 10,000 and 14,000 men, built and in full operation at St. Paul by the first of next year, it was stated at the company offices, Saturday following action of the federal power commission at Washington, Friday, in granting a preliminary permit for development of power at the Twin Cities. To obtain a permanent permit, the Ford company must file its complete plans with the commission within four months, and these will be done as soon as possible, it was announced.

TO HAVE UNIFORM TRAFFIC LAWS.

Uniform traffic regulations for all state highways, whether in counties, cities or villages, are provided for in a bill introduced in the house this week by Rep. Milton A. Palmer of Detroit. The bill is one drafted by Col. Roy C. Vandercrook, head of the state highway department, and is aimed to establish a number of basic principles for traffic, in an effort to make it uniform in all sections of the state. The bill has been submitted to various automobile clubs of the state, and has also the endorsement of the Michigan League of Municipalities.

Rates of speed will be placed at 35 miles an hour in the country, 20 miles an hour in cities and villages, and 15 miles an hour in the business districts. This provision would replace such contrary regulations as now may be in effect in the various cities and towns.

It will also provide that within the corporate limits of any village or city it shall be the duty of the driver of any motor vehicle to stop at least six feet in the rear of any street car or motor bus discharging passengers, except in sections in which traffic is under the supervision of a traffic officer. It will require the stop and turn signals with the arm, and with a rear light at night.

All traffic on trunk line highways is given the right of way and at the intersection of trunk lines the traffic to the right shall have the right of way.

In turning corners, it is required that the turn both in cities and villages and on the country highway be made as near to the center of the street intersection as may be practicable.
