"GIMME"

Show beginning at 7:00 o'clock.

Don't forget Tuesday Show begins Sept. 11.

Admission, 10c, 20c and 25c.

COUNTY PICNIC WELL ATTENDED.

No doubt Clark L. Brody, secretary of the Michigan State Farm Bureau, was talked to a larger audience than he did on Saturday at Elizabeth Park but certainly never to a more attentive one. About four hundred people grouped themselves in the grove after dinner, listened to the Odd Fellows Band of Wayne, and to Mr. Brody tell of the co-operative movement in Michigan and the things that are being accomplished in a big way by the farmers of Michigan. Mr. Brody emphasized the importance of farmers paying more attention to the orderly marketing of their products instead of the unbusiness-like way of thinking only of production.

The music furnished by the Wayne band was thoroughly enjoyed and added much to the program.

Andrew Staz of Plymouth, carried away the horse shoes given to the winner in the elimination horse shoe pitching contest.

The East Nankin Farmers' club base ball team under the leadership of Mafie Lathers, defeated the Flat Rock Grange team piloted by George VanRiper by a score of nine to five. It was an evenly contested game and surely no gang of rooters ever made half as much noise for a losing team as did the bunch from Flat Rock.

RACES AT THE FAIR.

The Northville Wayne County Fair will present a fine racing program this year on Thursday, Friday and Saturday afternoons. Harry C. Robinson of Plymouth, will officiate as starting judge and Frank Cooke of Detroit, will be presiding judge. Friday has been designated as "Michigan Breeders' Day" because the Michigan Futurity, the Michigan classic, will be raced that day when three-year-old trotters and pacers will be the center of attraction. The program for the three days is as follows:

Thursday, September 27th.
Race No. 1—2:30 Trot, Purse \$300.00
Race No. 2—2:30 Pace, Purse \$300.00
Two-year-old Colt, Trot (stake) added money \$200.00
Friday, September 28th.
(Michigan Breeders' Day)
Race No. 3—Three-Year Old Trot, Mich. Futurity \$300.00
Race No. 4—Three-Year Old Pace, Mich. Futurity \$200.00
Race No. 5—2:15 Pace, Purse \$300.00
Saturday, September 29th.
Race No. 6—2:25 Pace, Purse \$300.00
Race No. 7—2:15 Trot, Purse \$300.00
Race No. 8—Free-For-All, Trot or Pace, Purse \$300.00

ENTER YOUR BABIES.

For the past several years the Better Baby contest at the Northville Wayne County Fair has attracted a great deal of interest, and it is the desire of the fair management to make the contest to be held this year one of more than ordinary interest and importance. Babies between one and three years of age can be entered in this contest and parents are urged to enter their little ones. Each child will be given a thorough physical examination. It will be necessary to fill out application blanks for babies entered in this contest and they can be obtained and filled out at the office of Secretary E. L. Smith, or from Mrs. Flora Larkins superintendent, any time after Sept. 15th and up to and including Wednesday, the 26th, until 11:00 a. m., at the secretary's office at the fair grounds. There are no charges for this service, but all entries must be made not later than 11:00 on Wednesday of fair week. This is done to get names in line with State fair work. The baby show will be conducted the same as in former years. See bills later for list of premiums, and be sure and bring the babies.

COMMUNITY CLUB ELECTS OFFICERS.

The Waterford Community club held its regular meeting at the home of Mrs. William Smith, for the election of officers. Lemonade and cake were served. New officers were elected for the ensuing year: President, Mrs. Robt Taylor; vice-president, Mrs. John Nelson; secretary, Mrs. Edmond Watson; assistant secretary, Mrs. Deiore; treasurer, Mrs. Archie Herrick; the Misses Helen Herrick, Ester Vickery and Hazel Herrick, Flower committee.

Rev. Father Lafaver of Plymouth, who went to New Mexico for his health some months ago, writes to friends that he is feeling fine again and expects to return to Plymouth within a month or so. His many Northville friends will be glad to learn this bit of good news.

L. A. YOUNG SUSTAINS INJURIES AT POLO.

An injury to Leonard A. Young, captain and guiding spirit of the Detroit Polo Club, has reduced the chances of the club's representative team, the Gold Hats, to a minimum, as far as winning the Mid-Western polo championship of 1923 is concerned.

Carl Young was injured a month ago in Chicago during a match between the Gold Hats and the North Shore team. He was knocked from his horse and tripped. The result was serious internal injuries and a fractured skull.

Since the accident Mr. Young has been confined to his home at Wing Lake. Physicians have informed him that he cannot ride a horse again for two months and that he probably will never again be able to play polo, at least not for a year or more.

Other members of the team thought that Mr. Young would recover in time for the Mid-Western polo championships, to be decided on the fields of the Detroit Polo Club next month, but apparently all these hopes are now wrecked.

Capt. Young developed into a highly efficient back this season. By devoting an average of three hours a day to practice his mallet work became sensational and at the time of his injury he could loft a ball better than any polist west of the Alleghenies. There is no one obtainable who can fill his place. —Detroit News.

FORMER NORTHVILLE PEOPLE GATHER.

157 E 64th St.
Los Angeles, Calif.
August 20, 1923.

Editor Record:
The following items may be of interest to the Northville relatives and friends of John W. Dolph:

Thirty miles south of Los Angeles are several small resort beaches. At one of these beaches Anaheim, landings assembled on Saturday, August 18, 1923, the near California relatives and friends of the writer to help him celebrate his 75th birthday. Besides J. W. and wife Florence, were Willard J. Dolph and wife, Viola, Belle Knox, a daughter and her son, Harry, Hazel Bowen, daughter of Mrs. Knox and her husband, Ernest Bowen and their little son Leroy; (great grandson of J. W. Dolph) Oscar Graham and wife Lillian, daughter and son-in-law of Mrs. J. W. Dolph, Melvin Henry and wife Belle, father and mother of Viola Dolph and Mrs. Thomas Thompson and son Alfred of Detroit.

The day was an ideal southern California day, and the gathering was a most enjoyable one, our only regret being that the Northville relatives were not among the party. Willard J. Dolph and Mr. and Mrs. Henry start on Monday morning Aug. 20 for a vacation trip by Motor to Sacramento and San Francisco. Very truly
John W. Dolph.

GEORGE RAYSON DIED SUDDENLY.

When the news of the sudden death of George Rayson became current about the village last Thursday afternoon deep and sincere regret was expressed by all who enjoyed his acquaintance. He was a kindly man, a good neighbor, an exemplary citizen, and his passing is universally regretted.

Mr. Rayson was 33 years of age, and he was born in England, coming to America at the age of fourteen years. He had been a resident of this village about fifty years, retiring from business some months ago when the building in which he had his shop for so many years was torn down. He served the village as trustee for a number of years and rendered praiseworthy service. Mrs. Rayson died about fourteen years ago, having been injured by being struck by an icicle as it fell from the roof of a house.

When he settled on the north side there were but very few houses there, and at one time he owned considerable land in the vicinity of his home.

Funeral services were held at his late home on Saturday afternoon and interment took place in Oakwood cemetery. Rev. Wm. Richards conducted the services.

Northville friends and acquaintances of Mrs. Catherine Couch Greenleaf will regret to learn of her death which occurred at the home of her parents, Mr. and Mrs. Thomas B. Couch of Hartland, on August 4th. She was ill about five weeks, heart trouble being the cause of her death. She was 26 years of age and had been married but about a year. Northville friends will extend sympathy to the bereaved parents and husband. Burial took place at Hartland.

HARNESSING THE RIVER ROUGE

The Detroit Sunday News contained some illustrations of the Nankin, Plymouth and Phoenix plants of the Ford Motor company, with the following interesting article regarding the development of the power sites along the Rouge river:

Henry Ford is making the sluggish Rouge river work overtime. At three dams within an hour's drive of Detroit, he is taking power from this apparently unpromising stream and using it to run machines that turn out automobile parts.

At the Phoenix, Plymouth and Nankin Mills, he has placed picturesque little manufacturing plants in the heart of nature and thus proven that he was in earnest when he started the world with his advocacy of rural factories along little streams.

One of Mr. Ford's pet policies is to use the energy of small streams wasted so long, utilize the power in generating electricity and build small factories where farmer folk can find employment at any wages during their slack time.

The Plymouth plant, recently completed, will make taps used in machine-work and give employment to 30 farmers of the neighborhood.

A winding road leads from there to Nankin Mills, lower down on the Rouge, where an old white-painted mill has been transformed into a little factory.

This was Henry Ford's first hydro-electric plant, laid out and put into operation inside a sturdy old building familiar to him in his boyhood days as a flour mill. The old mill wheel is gone and in its place is an electric generator operated by a flow of water through the underground spill-way, generating electricity sufficient to operate the several machines used in the manufacture of carburetor parts, tiny pieces and little screws of nickel and brass. Farmers in the neighborhood come in off seasons and work at the machines.

Also on the Rouge, a mile from Plymouth is the Phoenix plant, which employs 100 women and girls all busily engaged in making generator cut-outs. These women come for the most part from small communities around Phoenix, some from as far as 20 miles. But good roads enable them to reach their jobs as quickly as city stenographers who go from residential neighborhoods downtown to work by street car.

The Phoenix plant is hidden just off the highway in a clump of trees and many Detroit motorists go by it

every day without realizing that they are passing an industrial experiment and object lesson that may have a profound influence in changing the industrial fabric. Industry of the future, says Mr. Ford, will not have its departments all under one roof or in the same town. Departments will be scattered over a whole state or several states; tucked away in little communities that happen to have a stream flowing through them.

The products of the Phoenix plant are of a sort best made by the delicate feminine touch and the muscular effort required is very small.

Through the Phoenix plant is fairly large and uses up considerable power the Rouge has been equal to the demands placed upon it. The force of the water coming through an intake and rushing down a spill-way has been more than sufficient to drive the machinery. Since November last when the plant was opened, it has never been necessary to run the generator at full capacity.

There always has been an unused surplus of energy.

The observer will notice that all the products turned out at these rural factories are small. The cost of transportation to Highland Park and River Rouge is infinitesimal per unit. One truck can carry enough parts to last a long time. Outgoing trucks from Detroit carry raw materials to the little plants and bring back finished products.

The visitor is also struck by another fact. Industrialism need not necessarily connote hideous factories of dirty brick, belching smoke-stacks, and grimy workmen crowded into ramshackle hovels. The little Ford plants are placed in leafy bowers and surrounded with flowering shrubs, green bushes and trees. The spots you would select for a picnic, Henry Ford has picked for factory sites.

The buildings are simply constructed, trim and spotlessly clean with wide window spaces, open to the cool country breezes. They do not dominate the scene and overshadow it, but are part of it. They fit in with the surroundings.

The Michigan State Highway Department has established a camp at Novi for the accommodation of about 250 men working on the Grand River road between Farmington and Novi. Another camp is situated near the Renwick place east of New Hudson, where a hundred prisoners from Jackson are quartered while working on the road officially known as "M-16" and "M-17".

OAKLAND TEACHERS TO MEET IN PONTIAC

A large attendance of rural school teachers of Oakland county is expected in the assembly room at the court house in Pontiac Saturday, September 1, according to E. J. Lederle, commissioner of county schools, at which time a general get-together meeting will be held.

At this opening meeting of the year policies will be outlined and explained

and plans laid to inculcate a spirit of mutual helpfulness.

Professor H. Z. Wilbur, of the State Normal school at Ypsilanti, will speak on "Extension Work." A unique plan for Oakland county school work, one that will appeal to its teachers, it is expected, will be outlined by Commissioner Lederle. The majority of the county's rural schools will open the Tuesday after Labor Day—Pontiac Press.

Sale of Boys' Suits and Shoes

Just received a new line of boys' all-wool two-piece suits, which will be put on sale for Saturday only, at \$7.50 and \$8.50

COUNCIL PROCEEDINGS.

A special meeting of the Village Council was held in the Village Hall Monday, Aug. 27, 1923.

Present: Charles A. Dolph, President; Trustees—Simmons, Filkins, Montgomery, Blackburn, Nays—None. Carried.

Moved by Filkins, and supported by Blackburn that storm sewer be built corner Main and Center streets.

Yeas—Simmons, Filkins, Montgomery, Blackburn. Nays—None. Carried.

Moved by Blackburn and supported by Montgomery that President and Clerk be authorized to enter into contract with D. H. of C for care of prisoners.

Yeas—Simmons, Filkins, Montgomery, Blackburn. Nays—None. Carried.

Moved by Filkins and supported by Blackburn that Sewer committee be authorized to receive bids for construction of sewers as follows: Walnut street, Duquar street and Barnhart property.

Yeas—Simmons, Filkins, Montgomery, Blackburn. Nays—None. Carried.

Moved by Filkins and supported by Montgomery that Southern Surety Co. be paid \$600 on Estimate No 13, Sec. 3.

Yeas—Simmons, Filkins, Montgomery, Blackburn. Nays—None. Carried.

On motion Council adjourned.

T. E. MURDOCK, Clerk.

A regular meeting of the Village Council was held in the Village Hall Monday, August 28, 1923.

Present: Charles A. Dolph, President; Trustees—Simmons, Filkins, Montgomery, Blackburn, Vanatta.

Quorum present.

Minutes of meetings of July 2nd and 23rd, 1923, were read and approved.

The Finance committee audited the following bills:

J. H. McMillan, labor, health department	\$ 4.00
F. W. Hinchman, fence	176.45
Ernie Lyke	175.00
W. H. Sanford, band	430.00

W. B. Ambler & Son	17.02
Ely Coal & Ice Co., coal	138.46
Bert S. Simpson, lumber	138.46

Moved by Simmons and supported by Montgomery that bills be allowed and ordered paid.

Yeas—Simmons, Filkins, Montgomery, Blackburn, Vanatta. Nays—None. Carried.

Moved by Vanatta and supported by Blackburn that time for collection of taxes be extended to October 10th, 1923.

Yeas—Simmons, Filkins, Montgomery, Blackburn, Vanatta. Nays—None. Carried.

By Trustee Blackburn:—

RESOLVED, That the Council heartily endorse the Safety Campaign as started by Sheriff Geo. Walters and aid him in this work so far as possible.

Supported by Simmons.

Yeas—Simmons, Filkins, Montgomery, Blackburn, Vanatta. Nays—None. Carried.

Moved by Simmons and supported by Montgomery that bill of Leo Lawrence for \$2.50 and James Black for \$15 be allowed and deducted from account of Shullo Construction Co.

Yeas—Simmons, Filkins, Montgomery, Blackburn, Vanatta. Nays—None. Carried.

Moved by Filkins and supported by Blackburn that request of Chevalier & Wendell and Lou M. Coe for privilege of operating pool and billiard rooms be allowed.

Yeas—Simmons, Filkins, Montgomery, Blackburn, Vanatta. Nays—None. Carried.

On motion Council adjourned.

T. E. MURDOCK, Clerk.

Great Thoughts Born in Stillness.

All the revelations are the gift of stillness. The lake must be calm if the heavens are to be reflected on its surface.—B. Brerley.

Try Northville first.

Novi News.

Mrs. Alfred Gow is entertaining her niece from Detroit, this week.

Rev. and Mrs. Osborn entertained friends from Jackson over Sunday.

Mrs. Lola Tipton of Chicago, is visiting her mother, Mrs. M. A. Bourne.

Dr. A. T. Holcomb and family will move back from their cottage at the lake, next week.

All are welcome to any and all services of the Baptist church and will find the services full of interest.

Mr. and Mrs. Huber Bourne and baby spent Sunday with the former's parents, Mr. A. Bourne and wife.

Mr. and Mrs. Clark Bassett and family of South Bend, spent Sunday and Monday with relatives here.

Mr. and Mrs. Perry Taylor and little Edison Opdyke of Adrian, spent Saturday night and Sunday among Novi friends.

Mrs. T. Shida is entertaining her sister, Mrs. Roy Leonard and children from Detroit, this week, who were former Novi residents.

J. L. Munro and Mr. and Mrs. Burton Munro and family visited last week at Vernon, Saginaw, Bay City and Vassar.

Mrs. Lee Wooster of Holly spent a part of last week among Novi friends. She expects to move to Pontiac soon.

Miss Genevieve Durfee is home from her school work at Davison.

The B. Y. P. U. will be in charge of Mrs. Clara Clark next Sunday evening, beginning promptly at 7:15. Topic, "Lesson from the Psalms." A Singing Psalm, Psa. 96:1-13.

Mr. and Mrs. Earl Gow entertained Mr. and Mrs. F. G. Power, Mr. and Mrs. Arthur Power and children, Miss Marion Power and Mr. and Mrs. Ray Holcomb for dinner on Sunday.

Pastor Osborn has begun a series of Sunday morning talks on the general subject: "Jesus and Everyday Life." Next Sunday the special topic is "Jesus and Established Customs."

The shutter of the camera opens and stars within focus leave a sharply defined path on the plate as they pass westward beside the zenith. After a few seconds the shutter closes and a valuable picture is ready for the mathematical calculations of astronomical science.

By measuring distances between certain stars appearing on the picture various positions of the north pole are found. And since it has recently been discovered that the "pole" does not stay at the same point on the earth's surface, but wanders about in a space 50 feet square, such findings are of intrinsic value. Explorers in the far north could possibly locate the pole within a mile of its proper position. The zenith camera can locate it within two feet.

Locates North Pole.

Motions of the pole prove so complicated and in some respects their cause is so obscure that astronomers are agreed that there should be a considerable increase in the number of instruments suitable for such findings. There are only five in the world, three of them in this country. In accord with this idea, Professor Schlesinger is hopeful that his camera may prove entirely successful and that it will be generally adopted and necessary observations made with it without additional expense at other points.

Study of the north pole field alone has brought many interesting discoveries, chief of which are: the earth taken as a whole, is as rigid as the strongest structural steel and the land in the northern hemisphere is creeping northward at the rate of one foot a year. This latter, although apparently insignificant, is of major interest to science.

When Yale's new 26-inch telescope is set up in some land south of the equator, probably New Zealand or South Africa, the zenith camera will be used to study and measure the stars of the southern heavens.

Vienna Realtors Make Hay While Sun Shines.

Vienna—Vienna is showing remarkable adaptability during these days of reconstruction. In more than one municipal office the musty records and business system that were reminders of the Middle Ages have given place to broad, flat-topped desks, card index systems, typewriters, and a flock of alert young women.

There has been an orgy of speculation in real estate. Of the 43,700 buildings in Vienna, 21,000 have changed owners since the armistice, some of them over and over again. One place changed hands ten times inside of 18 weeks. The whole city has been crazy to exchange depreciated crowns into real estate, and prices went up tremendously.

In one instance a seller received 6,000 times the prewar price for his dwelling. Even the members of the old aristocracy lost their heads and sold property right and left, and Vienna is filled with foreign buyers.

The city collects transfer taxes at the rate of 80 per cent, a circumstance which diverts a very satisfactory income to the municipal treasury.

Discover Indian Graves Lined With Whalebone.

Santa Barbara, Cal.—Indian graves lined with whalebone and containing bodies buried face downward have been unearthed on the site of the Ambassador hotel in this city by representatives of the Museum of American Indians of New York and the Smithsonian Institute of Washington. The scene of the discoveries is known locally as Burton mound.

Kick of the Mule.

A mule lives only about thirty-five or forty years, but every year has a kick in it.—New York Herald.

Take Heed of Losing Friend.

You hardly make a friend in a year, but you can easily offend one in an hour.—Chinese Proverb.

CAMERA FINDS ELUSIVE POLE

Can Place Location Within Two Feet in Wanderings in Area of 80 Square Feet.

New Haven, Conn.—Prof. Frank Schlesinger, director of Yale university observatory, has perfected what is to be known as the Zenith camera. Final experiments carried out here for over a month have proved successful. What is to be the exact value of this new "find" for the field of astronomy is, of course, unknown, but men well versed in scientific study of the heavens have already planned important tasks for the apparatus.

The optical principles of the Zenith camera were perfected some years ago by the English astronomer royal, George Airy, but all the new automatic features were designed and perfected by Professor Schlesinger, who first started work upon the instrument in 1911. For the last year Yale's noted astronomer worked vigorously for the completion of the camera, and except for a few minor changes it is now able to achieve all for which it was planned.

Accurate Measurements.

By photographing certain stars as they come into focus, the Zenith camera makes possible accurate measurements of the varying latitudes of this world. The focus of the camera is directed through a huge telescope, so placed that only those stars passing exceedingly close to the zenith will be photographed. A plate is inserted in the camera at nightfall and, after figuring a time scale with utmost accuracy, a delicate clock system in alarm form is carefully attached. Then all action is automatic until the plate is removed by an operator before morning light harms it.

When the proper time comes, the shutter of the camera opens and stars within focus leave a sharply defined path on the plate as they pass westward beside the zenith. After a few seconds the shutter closes and a valuable picture is ready for the mathematical calculations of astronomical science.

By measuring distances between certain stars appearing on the picture various positions of the north pole are found. And since it has recently been discovered that the "pole" does not stay at the same point on the earth's surface, but wanders about in a space 50 feet square, such findings are of intrinsic value. Explorers in the far north could possibly locate the pole within a mile of its proper position. The zenith camera can locate it within two feet.

Locates North Pole.

Motions of the pole prove so complicated and in some respects their cause is so obscure that astronomers are agreed that there should be a considerable increase in the number of instruments suitable for such findings. There are only five in the world, three of them in this country. In accord with this idea, Professor Schlesinger is hopeful that his camera may prove entirely successful and that it will be generally adopted and necessary observations made with it without additional expense at other points.

Study of the north pole field alone has brought many interesting discoveries, chief of which are: the earth taken as a whole, is as rigid as the strongest structural steel and the land in the northern hemisphere is creeping northward at the rate of one foot a year. This latter, although apparently insignificant, is of major interest to science.

When Yale's new 26-inch telescope is set up in some land south of the equator, probably New Zealand or South Africa, the zenith camera will be used to study and measure the stars of the southern heavens.

Vienna Realtors Make Hay While Sun Shines.

Vienna—Vienna is showing remarkable adaptability during these days of reconstruction. In more than one municipal office the musty records and business system that were reminders of the Middle Ages have given place to broad, flat-topped desks, card index systems, typewriters, and a flock of alert young women.

There has been an orgy of speculation in real estate. Of the 43,700 buildings in Vienna, 21,000 have changed owners since the armistice, some of them over and over again. One place changed hands ten times inside of 18 weeks. The whole city has been crazy to exchange depreciated crowns into real estate, and prices went up tremendously.

In one instance a seller received 6,000 times the prewar price for his dwelling. Even the members of the old aristocracy lost their heads and sold property right and left, and Vienna is filled with foreign buyers.

The city collects transfer taxes at the rate of 80 per cent, a circumstance which diverts a very satisfactory income to the municipal treasury.

Discover Indian Graves Lined With Whalebone.

Santa Barbara, Cal.—Indian graves lined with whalebone and containing bodies buried face downward have been unearthed on the site of the Ambassador hotel in this city by representatives of the Museum of American Indians of New York and the Smithsonian Institute of Washington. The scene of the discoveries is known locally as Burton mound.

Kick of the Mule.

A mule lives only about thirty-five or forty years, but every year has a kick in it.—New York Herald.

Take Heed of Losing Friend.

You hardly make a friend in a year, but you can easily offend one in an hour.—Chinese Proverb.

U. S. FAIR SHOW AID TO FARMERS

PROGRESSIVE DAIRY METHODS WILL BE FEATURE OF EXHIBIT

TO HAVE LATEST INFORMATION

Heading the big dairy exhibit which is intended to assist Michigan farmers to greater production and more profits in their dairy work, the United States government is to erect 22 attractive booths at the \$5,000,000 Michigan State Fair which will be held from August 31 to September 9.

Dairy herd improvement is taught with the view of encouraging farmers to raise pure bred stock so that they may have a double market—sales of milk and pure bred calves. Maps will show that the states having the greatest number of pure bred bulls are the states with the highest average milk production.

It will be shown as a result of investigation into the cost of milk production that the farmer spending over 65 cents for feed for each dollar's worth of milk produced is losing money. Interesting relationships between the various factors of production, which show definitely the greater earning power of the high-producing cows, are also presented.

Extensive information will be supplied on the feeding of calves in various sections. An interesting bit of information will be the government's announcement of the finding of a meal that is a satisfactory substitute for milk.

Increasing milk production through herd management will be demonstrated for the benefit of the dairymen. Here it will be shown that milking three times a day instead of twice increased production 11.9 per cent. Box stalls, it will be shown, increase production 5 per cent as compared with stanchions, while exercise was proven to slightly increase the production of butterfat and to increase feed consumption.

How to eliminate silage flavor and odors will be explained as will the use of dairy products on the farm, and methods of cleaning milking machines.

Scientific breeding of dairy cattle to predetermine the qualities of offspring will be one of the lessons taught in the movement for better cattle. Incidentally, the investigators have determined that nearly all the Holstein cattle in the United States are descended in a direct male line from five sires.

Cream, butter, condensed milk, pasteurization, dairy statistics, moving pictures, cow-testing, co-operative marketing, value of quality, international trade, and costs are also mentioned in the government program.

"This exhibit," said George W. Dickinson, secretary-manager of the fair, "is quite exhaustive and should prove of immense value to all those engaged in the production and sale of dairy products. It is new in nearly every detail and up to the minute in every way."

SINGING HUSSAR BAND COMING TO STATE FAIR

A singing Hussar band will be one of the musical features of the Michigan State Fair, which will be held from Aug. 31 to Sept. 9, according to Secretary-Manager G. W. Dickinson.

"This is a real vaudeville act," Mr. Dickinson said, "and should prove a big attraction."

"The famous Ninety-first Highlanders band of Canada, conducted by Lieut. H. A. Stares also will be with us this year. This band has proved very popular in past years and won many honors abroad.

"Cervoni concert band, a splendid organization, will be an added musical attraction this year.

"There will be plenty of music every day to make the crowds feel happy."

Auto Tourists Sure of Fun At State Fair

Rigid regulations for neatness, comfort, safety and enjoyment will feature the tourists' camp at the Michigan State Fair, Secretary-Manager George W. Dickinson announced.

No Gypsy or other objectionable tourist will be allowed to camp within the grounds.

"Every auto tourist who driver through the fair gates with his camping equipment will be assured a most enjoyable time," said J. H. Brown, who will be in charge of that feature.

"The camp will be in an ideal place and their will be every convenience. When the car owner drives in he will get tickets for one day for each member of his family. Then he will drive to the state assigned him in camp. Registration of the car owner and his family comes next."

Civil War Vets and Children at State's Big Fair

First replies to invitations sent to G. A. R. post commanders, indicate that there will be a big response to the Michigan State Fair's invitation to veterans of the Civil War and their wives to attend as the guests of the fair on Tuesday, Sept. 4, Secretary-Manager George W. Dickinson announced this week.

The old soldiers will be given seats of honor in the grand stand where they may view the many attractions, including horse races, and enjoy the music of the big bands.

A special program has been arranged by Mr. Dickinson so that the veterans, annual visit to the fair will be most enjoyable.

The crippled children living in and about Detroit and in the border cities of Canada also will be guests of the fair on this day.

The fair opens Friday, Aug. 31 and closes Sunday, Sept. 9.

AUTO BIG HELP TO STATE FAIRS

The importance of the automobile in the development of the State Fair is being emphasized more and more every year, according to George W. Dickinson, secretary-manager of the Michigan State Fair which will be held in Detroit from August 31 to September 9.

"There was a day," Mr. Dickinson said, "when many persons thought the passing of the horse would doom the fairs. But the result has been just the opposite.

"The large number of automobiles relieves the heavy traffic on trains during fair time with the result that the motorists and those remaining railroad passengers all travel in comfort.

"This encourages many more farmers to bring their families to Detroit for the great exposition. In fact the automobile has just about brought the fair to the front yard of every farmer within a radius of 75 miles.

"We expect to do a great deal more for the accommodation of touring motorists this year. We had a camp for them last year where, for a reasonable fee they could park their cars, pitch tents and do their cooking. This year the tourists' camp will be enlarged and we will be able to accommodate comfortably about 1,000 persons a day."

AUTOMOBILE DAY AT STATE FAIR

Plans are being made for the reception of huge throngs on "Automobile Day," the first day of the \$5,000,000 Michigan State Fair which will be held in Detroit from August 31 to September 9, according to Secretary-Manager George W. Dickinson.

Many of the big automobile manufacturers have pledged their co-operation and assured fair officials that large numbers of their workers, enthusiastic about "Automobile Day" will be there day and night.

In addition to the many other attractions, the fair officials have invited the automobile companies and automobile dealers to enter one or more decorated cars in an automobile parade which will pass in review before the grandstand where notables in industrial and public life will be seated.

Mr. Dickinson predicts that this will be the biggest opening day ever seen at the Michigan State Fair and that the great masses of people as well as the scores of costly attractions will be worth while making a long trip to see.

7 MORE FREE ACTS FOR THE STATE FAIR

Seven special acts have been included in the free attraction program for the Michigan State Fair, which will be held from Aug. 31 to Sept. 9, Secretary-Manager George W. Dickinson announced.

Triple somersaults, double twisting and reverse flights will feature the tumbling of the "Flying Fishers." A comedy triple cradle novelty will be presented by the Palone Trio, featured by mid-air acrobatics.

LaFleur and Portia will appear in a combination contortion and aerial novelty.

A sensational perch novelty, marked by unusually finished technique is promised in the act of the Three Alex. The Cleora Miller Trio will give a musical treat, featured by a girl with a lyric soprano voice of great range. There will be syncopated operatic, popular and jazz numbers.

The Four Readings, reputed to be among the best hand balancers and ground acrobats, will demonstrate remarkable strength and speed in their performance.

The Six Belfords, crack foot jugglers, will complete the bill.

STUDY ANCIENT CHINESE CULTURE

Fogg Museum of Harvard Is Sending Trio of Scientists on Exploring Expedition.

Cambridge, Mass.—The Fogg Art Museum of Harvard is sending three men to China for exploration and research. The force will consist of Langdon Warner, '03, who, until recently, was director of the Pennsylvania museum; H. H. F. Jayne, '20, assistant curator of that institution, and Duncan McDougall, son of Dr. William McDougall, professor of psychology at Harvard.

The work will consist largely of a preliminary survey in central and western China and will probably last not more than eight months in the field. Mr. Warner, who is in charge of the expedition, hopes to make considerable progress in determining the sites of the Sung dynasty and to visit some of the rock grottoes containing Buddhist sculptures of the Fifth and Sixth centuries A. D. A comprehensive series of rubbings from inscribed and decorated stone monuments and a considerable number of photographs, which have not been hitherto obtainable, are expected to be secured for the Fogg museum. It is hoped also that two or three important examples of early architecture still existing in northern China and Manchuria, which are fast falling to ruin, will be thoroughly measured and photographed.

To Collect Photographs.

As funds are not available for the purchase of original objects of art to enrich the collections at Harvard, the first year's expedition will confine its work largely to procuring photographs, rubbings, measurements, and other materials for the study of early and medieval Chinese culture. If the results of the preliminary trip warrant excavations will be undertaken next year. If the consent of the Chinese government is obtained.

The importance of such work is apparent, the Fogg museum authorities declare, when it is realized that, although Europe and America are fairly rich with the contents of early Chinese tombs, for which fabulous sums are paid by collectors and museums, not a single tomb with its contents undisturbed has been recorded and photographed by a responsible scientist.

The tall pottery vessels, bronzes and jade found disposed about the bodies of the dead have been brought overseas, by thousands, but the priceless information by which they might have been exactly dated is not available. It is argued that to know the arrangement of these little processions of figures in the grave, to find what wares are associated with others, to measure these tombs and to find and copy "in situ" the tablets buried with the dead would be worth more than the actual possession of all this material.

Study Buddhist Art.

Until the Harvard party reaches China nothing can be definitely foretold of the extent of its travels. Political disturbances may interfere seriously with much that should be accomplished, and the government at Peking is able to furnish the Fogg museum with no definite assurance that its representatives will be able to carry on their proposed investigations. It is believed to be certain, however, that enough opportunities will be found to repay the first year's work and to pave the way for a return trip. The Harvard party will devote its time entirely to the study of Buddhist art, and its labors will not conflict with those of other expeditions that may be in the country.

Blind Man Sponsors City Beautiful Plans

Topeka, Kans.—The first campaign inaugurated by A. E. Van Petten, the newly-elected president of the Chamber of Commerce here, who is totally blind, was one for the beautification of this city.

Despite the fact that Mr. Van Petten is destined never to look upon the beauties of nature his campaign may bring out, he declares he appreciates his new honor as president of the local civic body mainly because it gives him the opportunity to sponsor a movement that has always been close to his heart.

A systematic organization to carry out the project was perfected by Mr. Van Petten and includes ward and precinct committees, headed in each instance by someone vitally interested in the campaign, and also school children.

Each school child has been presented with a red tag bearing the pledge: "I won't pick flowers or break off branches."

"I won't cut across lawns because it kills the grass."

"I want Topeka to be more beautiful."

Mr. Van Petten has been blind for 14 years.

Synthetic Camphor Is Cheap.

New York.—Adolph Ketcham, a chemist of this city, who has just returned from Germany, brought samples of synthetic camphor recently perfected by German chemists, which, he said, can be produced in quantities at a fraction of the cost of the genuine camphor, and is equally valuable for medicinal and industrial purposes, including the manufacture of celluloid.

The Northville Record.

E. E. BROWN, Publisher.

An Independent Newspaper published every Friday morning at Northville, Michigan, and entered at the Northville postoffice as Second-Class matter.

NORTHVILLE, MICH., AUG. 31, 1923

TWENTY-FIVE YEARS AGO

Items taken from The Record files of 1897, for the week corresponding to this week.

Arthur Phillips is visiting Saginaw friends.

Born to Mr and Mrs A. T. Stewart Aug. 22, a boy.

Mrs. W. Y. Murdock of Ypsilanti is home on a visit.

Water works pipes are being laid through the park.

The Yarnall institute continues to be thronged with patients.

Miss C. M. Rathban of Detroit is learning telegraphy at the F. & P. M. depot.

Miss Florence Dunlap of Grosse Ile, was a guest of relatives here last week.

James Cooper of Plymouth and Miss Daisy Thomas of Northville were married Wednesday.

Mr. and Mrs. J. M. Simmons spent last week with their daughter, Mrs. Ernest Miller, at Tecumseh.

A large number of people went up on Buckner's hill, Tuesday evening to view the Detroit fire works.

Mrs. J. M. Swift presented the school this week with a handsome cabinet organ. It has been placed in the 4th grade room.

The Lutheran church trouble has been settled and a new pastor may be expected here soon. Rev. Reinhardt will shortly move to St. Paul.

A family reunion occurred at the home of Earl Cobb last Saturday. Twenty five relatives were present from Traverse City, Bay City and Cherry Hill.

Frank Lewis of Co. K 32nd Regiment, who has been very ill with malaria and spinal complaint at Fernandina was moved to a hospital at Atlanta, Ga., Tuesday.

M. G. B. Swift and family leave Monday for their home in Fall River, Mass. Misses Camilla and Beth Wheeler gave a tea party Monday night in honor of the Misses Swift.

Mill street has been graded and graveled from the U. S. Fishery to Rogers street. It is suggested that the name of the street be changed to Columbia avenue in honor of the government plant.

Erwin Harrison, a nephew of Mrs. Clara Sessions, died in Detroit Saturday as the result of an overdose of morphine. He was well known in Northville and formerly worked in the Record Printery.

Eight year old Ernest Axford of Walled Lake, was run over by a Grand Trunk train Friday and both his legs were cut off. He died four hours later. Funeral services were held Sunday, conducted by Rev. Tickner.

It is a singular coincidence that Miss Lettie Johnson of the Globe office, and Roy Smith of Purdy's grocery, are taking a vacation at one and the same time. Grace Beebe is taking Mrs. Johnson's place and Earl Whitaker is substituting for Mr. Smith.

POST OFFICE NOTES.

Monday being a national holiday, the post office windows will be open from 7 to 11:00 a. m. and from 5 to 7 p. m. Lobby open as usual.

Do you know you can buy 24 two-cent stamps, all bound up in a neat little book, with oil paper between each leaf to prevent sticking, all for 49 cents. That's a money saver really for smaller users of stamps where the same number in the usual way might get stuck together and become spoiled.

Envelopes with 2 cent stamps affixed 12 for 27 cents. Return card in corner or plain just as preferred.

Attention of R. F. D. patrons is again called to the orders of the Postal Department at Washington, that all delivery boxes should be painted with owners name and box numbered.

Patrons of the Postoffice and R. F. D. routes are invited to make suggestions tending toward the betterment of the service or even its convenience. Drop a line to the postmaster.

A young woman called at the post-office and inquired rather bashfully if there was a letter for her.

"Business or love letter?" asked the postmaster jokingly.

"Business," was the blushing reply. "As no letter could be found, she took her departure, but at the door turned and came back.

"Please," she said, flatteringly, "would you mind looking among the love letters?"

Mrs. Belle McCully is showing some early advanced styles in millinery this week. You are invited to call and look them over.

Try Northville first.

PRESBYTERIAN CHURCH NOTES.

Rev. A. J. Knowles of Monroe will occupy the pulpit next Sunday, morning and evening. The regular services of the church will be resumed and all are urged to be present.

BAPTIST CHURCH NOTES.

Subject of sermons next Sunday are as follows: At 10:30 a. m., "Why our prayers are not answered." At 7:30 p. m., "Why God Allows His Followers to Suffer."

At the evening service next Sunday, new members will receive the right hand of fellowship.

Next month the pastor will preach a series of sermons, subjects will be, "Courtship," "Marriage" and "The Home."

Collectors will soon be out for pledges for the new recreation hall. This is something every church should have. Let us hope that every church in Northville will soon be thus equipped.

Some of the H. F. class plan to go camping for a few days this week.

The attendance at prayer meetings continues to be very good and a very encouraging feature is the number of young people who attend and take part.

METHODIST CHURCH NOTES.

Next Sunday is the commencement of the new church year, September 2. The month of September will be given to conferences in the state. They are called "Michigan Conference" constituting the western part of the state, and the "Detroit Conference" of the eastern half, with the Upper Peninsula.

Nearly a thousand ministers with almost a double amount of laymen will be in session, representing a hundred and thirty thousand communicants in the state. Northville is a party, not only in the state, but through our connection policy of the church throughout the world. The founder of Methodism said "The World is My Parish" and all since, have worked with that aim with forty millions scattered all over the world with the purpose of evangelization. This is not all. Outside communions have had contributed to its ranks their most outstanding leaders. May God be praised. Now to my people. Let us finish up our year to the last cent, and to the last drop of sweat in glorifying prayer. The Lord's treasury should have had its last envelope last Sunday. It should receive its first for the new year next Sunday. Taxes, insurance, lodge dues, when unpaid, leaves us "Anathema" but how patient God is with us. Let us do the right, for there is a time coming when there is a limit to God's patience when He will say "I know you not."

Now about next Sunday services. In the morning the pastor will recognize Labor Day with preaching on "Labor and Capital" at 10:30. The choir, while not all chorists will be present, yet more than half will be present to render the "special anthem." The Sunday school will meet at 12:00 with a class suited to all needs. The Epworth League will meet at 6:30, led by Mrs. Geo. Groth. The topic is "The Social Service of the Christ." In the evening a special service at 7:30. The illustrated lectures on the Panama, showing the canal and other wonderful scenes of interest due to the civilizing power of our nation. The choir will sing the beautiful hymn "For the Beauty of the Earth" as the shades are placed on the screen. Everybody welcome. Come one and all. —Pastor.

NORTHVILLE 17—MONROE 2.

All talk, arguments and discussions regarding the calibre of the Monroe and Northville ball teams is settled. There was a chance for discussion after the first game was played at Carleton for it was a close score, being 2 to 1 in favor of Northville. But after Northville trounced the players from the muskrat city Sunday 17 to 2 at Carleton we will call the bacon devoured. It was still a larger crowd and when the game began the park had an appearance of Navin Field, Detroit, only different. It was, however, the largest bunch of spectators ever assembled at Carleton to a ball game. Too bad it could not have been a real good game, but our boys had their batting eyes with them and in the third and fourth innings twelve runs were tallied. At this time Monroe had none. Three pitchers for Monroe were used badly while Jaska for Northville kept his opponents guessing and they wound up with two runs. Our local boys not only batted terrifically but they played as well in fielding as the fans could ask a semi-pro team to play.

Now, that the fair base ball tournaments are coming on at Howell, Milford and Northville in which the Northville team is entered, let us hope that they continue their good work. Manager Hicks and Captain German are doing their best to have Northville well represented in base ball.

The Five Point team, which consists mostly of Kelsey Wheel-club players of Detroit, play here Sunday.

Permanent waving at Mrs. G. W. Hills. 7-1c

Northville Fair, Sept. 25-26-27-28-29.

TRIBUTE TO HARDING.

Warren G. Harding now belongs to the ages.

The best tribute this column can pay him is this little paragraph:

When Mr. Harding became President, he dismissed Dr. Grayson, and put Dr. Sawyer in his place. But Mr. Harding saw to it that Dr. Grayson was assigned to duty in Washington, so that Dr. Grayson could continue to treat the sick man, Woodrow Wilson. This did Mr. Warren G. Harding in a very quiet way. A gentler man never lived. —Atchison Globe.

Northville's base ball team received an awful drubbing at the Howell fair on Wednesday when it was defeated by Stockbridge by a score of 17 to 3. The Stockbridge players batted everything in sight and got away with it.

Permanent waving at Mrs. G. W. Hills. 7-1c

Select your fall hats at Mrs. Belle McCully's millinery over Kigour's clothing store. She is showing some advanced styles this week. 7-1c

ELMER COLUMN.

For Sale, Rent, Wanted, Lost, Found etc. Rate, 25c per insertion, cash.

WANTED.

WANTED—Three furnished or unfurnished rooms with kitchenette, Manager Meadowbrook Country Club. Call 7182.

FOR SALE.

TRUCKING—Local and long-distance moving. Prices reasonable. See and house west of U. S. fishery. 5-4c

SCREEN DOORS—Window screens, saw filing and lawn mowers ground. J. N. Ashley. 4-4c

FOR SALE—Lot on Mill street, with four large maple trees, ideal building spot, 50x150. Price, \$750. Inquire of M. E. Atchison. 6-4c

FOR SALE—Sole trader fully equipped and in fine condition. F. P. Simmons & Sons, Northville. 6-2c

FOR SALE—Good six-room house and two acres of No. 1 land, on good roads, 3 miles west of Northville. Cheap. For terms, call M. N. Johnson. Phone 241. 5-1c

CARD OF THANKS—The relatives of the late George Rayson wish to thank his friends for their many kindnesses shown Mr. Rayson in his latter years. Mrs. Barnum also joins with me in thanking those who so kindly assisted in the burial service and for the floral tributes and other marks of thoughtfulness shown at this time. Wm. T. Rayson. 7-1p

CARD OF THANKS—We wish to thank our friends and neighbors and all who so kindly helped during our fire, especially the Northville Fire department and to compliment them on their efficiency. R. Christensen and Family. 7-1p

LOCAL.

The Red Arrow division will hold its annual reunion in Grand Rapids next week.

Capt. Ed. Denniston has been appointed a delegate to attend the national prison congress at Boston in September.

Miss Iris Balch will teach at Bell Branch again this year, commencing her work next week.

Miss Geraldine Young, Merritt Young and Raymond Watts will attend the Ferris Institute at Big Rapids the coming year.

Mr. and Mrs. Archie Morris and Mr. and Mrs. W. L. Tinnham spent a few days at Mio during the past week, returning home Wednesday.

C. L. Squibbs will take part in the motorcycle races at Marshall next Monday, Labor Day. He will not race at the Northville Fair this year.

The Greening Nursery Co., of Monroe will present a handsome American elm tree in honor of the child who wins the better baby contest at the fair this fall. The tree will be planted on the fair grounds and suitably marked.

A special meeting of the Presbyterian Women's Union will be held on Monday evening, September 2, at 7:00 o'clock, in the church parlors. All members of the union are urged to be present to discuss matters of importance.

The veterans of the twenty-second Michigan volunteer infantry are holding their reunion in Pontiac this week. There will be a camp fire this evening at which an interesting program will be given. Mr. and Mrs. George Goodell and L. C. Mead are in attendance.

The three fellows who were apprehended here the night of the fire at the Standard Oil company's warehouse, had stolen the car in which they came to Northville. They claimed to have come from the McGregor Mission, but they could give no good reason for being in Northville that time of night and with no lights on their car. They were taken to the county jail for investigation.

LABOR DAY PROGRAM AT LAKE ORION

Saturday, Venetian night—day bombs, fire works, souvenier dancing.

Sunday—roller skating, roller coasting, boating, swimming contests, 40 amusements.

Monday—Labor Day—Free barbecue watermelon feast (noon), parking, base ball, pleasure riding, orchestra, row and fishing boats, canoes, launches. Cottages to rent.

Permanent waving at Mrs. G. W. Hills. 7-1c

Bible Thoughts for the Week

Sunday.

THE ROYAL LAW—If ye fulfil the royal law according to the Scripture, Thou shalt love thy neighbour as thyself, ye do well, but if ye have respect to persons, ye commit sin, and are convinced of the law as transgressors.—James 2, 8, 9.

Monday.

LUSTS OF THE FLESH—Walk in the Spirit, and ye shall not fulfil the lust of the flesh. For the flesh lusteth against the Spirit, and the Spirit against the flesh: and these are contrary the one to the other.—Galatians 5, 16, 17.

Tuesday.

TO SEE THE LORD—Follow peace with all men, and holiness without which no man shall see the Lord.—Hebrews 12:14.

Wednesday.

GLORY AND HONOUR AND POWER—Thou art worthy, O Lord, to receive glory and honour and power: for thou hast created all things, and for thy pleasure they are and were created.—Revelation 4:11.

Thursday.

HEAR THE WORD—O earth, earth, earth, hear the word of the Lord.—Jeremiah 22:29.

Friday.

THE TEMPLE OF GOD—Know ye not that ye are the temple of God, and that the Spirit of God dwelleth in you?—1 Corinthians 3:16.

Saturday.

GRACE AND KNOWLEDGE—Grow in grace, and in the knowledge of our Lord and Savior Jesus Christ. To him be glory both now and for ever.—II Peter 3:18.

Chronometers in Competition. In Geneva, Switzerland, a chronometer competition is held every year at the observatory.

Not Good in a Fight. "One or these safety razors," said Uncle Eben, "may be safer for shaving, but it ain't no perfection at a rough party."—Washington Evening Star.

Figured Out. Jud Tunkins says a man can be happy if he has all the money he wants, only there isn't any such thing. —Washington Star.

Try Northville first.

ALONE—A FOOT AND CROSS LOTS

That is the way Henry Ford says to go when you wish to get anywhere.

Saul of Tarsus was a man of that stamp—was direct—speedy—hard hitting—brandy.

Saul of Tarsus—strict Pharisee—ardent in his devotion to the ideals of his race—intolerant to any deviation from those standards.

Saul of Tarsus in pursuit of those who dared to differ with him about God started for Damascus to kill and destroy—was halted by the brightest light men ever see—knew he had to stop his destructive methods.

Paul—a new name—sees a new prize—devotes all his towering energies to the cause of the Nazarene—does work that will send his name vibrating along the corridors of time.

Men and women are wanted this day, who are big enough to own up that they are trundling life in a wrong way—who dare give themselves to the Highest—the Best—the Richest—the Lasting.

C. A. DOLPH BIBLE CLASS

METHODIST SUNDAY SCHOOL

First Presbyterian Church

The regular services of this church will be resumed Sunday, September 2nd.

Vacation days are past. We trust that everyone has had an enjoyable time and have returned to their homes full of enthusiasm and determination to press forward the work of the Lord.

Rev. Frank P. Knowles will preach both morning and evening. Let us make a special effort to attend these services.

At 10:30 a. m.—Morning Worship.

At 12:00 (noon)—Sunday School.

At 7:30 p. m.—Evening Worship.

Make this first Sabbath after vacation a home-coming event. Meet your friends at church.

You are cordially invited to all the services of this church.

THE FRIENDLY CHURCH

All Is Not
Gold That
Glitters

Pictures are deceiving and photographs cannot show the quality of the goods they portray.

You take no chances when you make your selections here—because you can not only see just what you are getting, but you have our guarantee behind every article you buy.

Come in and look around—we are always glad to show you through our store and to display the quality of the goods we offer our patrons. We will put our time against yours any day. Don't be deceived by pictures.

Day In and Day Out—

"Day in and day out I'm workin'," says Hank, the Hired Man. And day in and day out fifty farm-trained men are working for you, scouring the country, gathering plans to help you make money. In the next issue of

The COUNTRY GENTLEMAN

Aaron Sapiro, one of the biggest figures in cooperative marketing in the country, tells "How to Build the Cooperative Machine." Farmers are realizing that it's a question of "united we boost—divided we bust!"

How to save money by feeding wheat when wheat is cheap; how good roads can do; the freight rate bugaboo; new tillage methods; splendid new fiction stories; keen humor, of which Hank, the Hired Man, is one feature—all of that is only a part of one issue!

It's not enough to tell the farmer how to raise his crops—he gets that experience on the farm. It's with his vital problems—transportation, cooperation, marketing—that THE COUNTRY GENTLEMAN is concerned. That's the kind of service \$1 a year brings to your door!

MINERS SUBMIT SECRET TERMS

LEWIS DECLARES GOVERNMENT'S
SUBSTITUTE USE PRO-
POSAL ABSURD

NEGOTIATIONS MAKE PROGRESS

Governor Pinchot Delivers Ultimatum
In the Name of "Patience."
Strained Public.

Atlantic City—Characterizing it as an "absurd move" that is giving the miners no worry, John L. Lewis, president of the United Mine Workers of America, expressed the belief that the government's proposed substitute coal plan, which the conference of governors in New York is expected to complete, will not prove an obstruction to the effectiveness of an anthracite strike in the event one is called.

"It is nonsensical to entertain the idea that substitutes can take the place of anthracite in anthracite burning states," Lewis said.

Harrisburg—Anthracite union miners placed their strike case before Governor Pinchot in a secret conference after the governor had informed both sides there must be a settlement.

Four union delegates went into the governor's private chamber about two hours after he had obtained their consent to talk business in the first open session of the peace parleys here.

Pinchot did not advance any plan for breaking the existing deadlock between the two parties. He only asked that they agree to confer with him privately.

The governor, speaking to the four representatives of the miners, and four of the operators, in the reception room of the capitol, stressed the needs of the public.

The rights of the miners to a fair wage must be accepted, he pointed out. The rights of the operators to a fair profit cannot be violated.

"But the general public is a party to this controversy," he said "and its rights as well as the rights of the other two parties must be represented and recognized."

"A shortage of anthracite means not only a huge loss of wages to the miners but it means also the loss of health among millions of American families, loss of comfort, of working power and of time."

"I express a truth that none can deny when I say that the anthracite using people of the United States are losing patience and I ask you to consider that fact with care."

INVESTIGATE MICHIGAN BEETS

Tariff Committee to Determine Production Cost.

Washington—Michigan's much investigated sugar beet fields are once more to be looked over by a party of investigators. The United States tariff committee announced that it has ordered "a comprehensive investigation" into the cost of producing sugar beets and that its inquiry will cover 30 sugar areas in Michigan, Nebraska, Colorado, Utah and California.

The Michigan inquiry will start about September 4, it is learned, at the tariff committee offices. The plan is to send two crews to the state, each consisting of six or seven men experienced in estimating costs of agricultural production, and to these will be added several men who are experts in beet sugar.

Headquarters will be established at Lansing. From there the investigators will go to Bay City, West Bay City, Carrolton, Alma, St. Louis and Owosso. After making inquiries for Michigan at these places they will go to Lima, G., to study the Ohio situation and will then proceed to Colorado, Utah and California.

PERSHING ASKS ARMY SUPPORT

Declares Public Opinion Greatest National Defense Need.

Camp Custer—"The greatest need of our national defense is that the people of the United States be made familiar with the National Defense Act and put behind its enforcement the powerful support of public opinion," said Gen. John J. Pershing, as he arrived to inspect Camp Custer.

The general made a brief tour to lend the inspiration of his presence at the closing events of the various citizens' military training camps, and to create sentiment in favor of the country's defense program.

"The strength of the program depends on the support given it by our people," said he. "The theory of the entire plan is in harmony with the manifest sentiments of the American people that our military forces shall be purely for defense and not for aggression. Accordingly, our Regular Army has been reduced until it appears insignificant. The National Guard virtually becomes our first line of defense."

"But back of that is that great body of trained men for the reserve."

Week's News in Brief

Rhineland Coal Stock Sequestered
Essen—General Degoutte, the French commander, has issued a new order sequestering all stocks of coal and coke and by-products for the benefit of the occupying powers. Heavy penalties are to be inflicted for violation of the order.

Paris Banks Float Belgian Loan
Paris—The Belgian loan of 400,000,000 French francs, is to be handled through French banks and does not represent an advance by the French treasury to the Belgian government. It is a purely commercial operation, to be effected at the prevailing rates, as are private loans.

Speculators To Be Executed
London—A dispatch from Berlin saying speculation in foreign currencies will be ruthlessly suppressed, adds that the German government has decided to inflict the death penalty in the worst cases of infringement of its financial regulations, and to mete out hard labor sentences in others.

\$1,000,000 Loss as Dam Bursts
Pueblo, Colo.—Damage estimated at \$1,000,000 was caused by the breaking of the Apishapa River dam near Fowler, Colo., 35 miles south of here, following a cloudburst. A wall of water from the broken dam demoralized railroad and automobile traffic and wire communication in the flooded area.

Says Britain Loses Trade
Williamstown, Mass.—Sir Edward Grigg of London, in a statement here took issue with the latest speech of M. Poincaré of France. "France is better off now than she was before the war," he said. "England, on the other hand, is still dragging along with between 20 and 25 per cent of her trade entirely gone."

Not Advertising for Actors
Los Angeles—Established film companies are not advertising here, or anywhere else in the country, for applications. Hollywood is "bummed full" of extras, and before any girl or youth comes to Hollywood on the strength of an advertisement promising work, he or she should investigate those who are behind the ad.

War Mothers Will Convene
Kansas City—Governors of every state in the Union have been asked by the Kansas City chapter of the War Mothers to seek in each state the "Gold Star" mother who made the greatest sacrifice in the World War with a view to sending her at her state's expense to the national convention of War Mothers in Kansas City, September 29 to October 5.

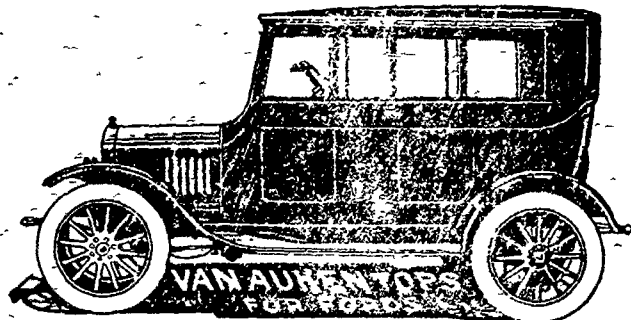

Insane Man Runs For Office
Buffalo—Henry Hoffstetter, an inmate of the state asylum for the insane here, will be a candidate for nomination for congressman under the commission form of government. His petition has been filed in regular form, and the elections commissioner ruled: "So far as the charter is concerned, the man may run for the city council and be elected, if he gets enough votes."

Bids White House Goodbye
Washington—Quietly and almost unnoticed, Mrs. Florence King Harding left the White House, never to return except possibly as a guest. Mrs. Harding, whatever may have been her inner emotions walked out of the door across the portico, and into the waiting automobile as calmly as she has passed through all the succession of trying hours that have been her lot in the past 15 days.

Stambulski! Death Relief to Women
Sofia—No sooner was the death of Stambulski, former premier of Bulgaria, confirmed than the women of the cities began to order and make new dresses, and buy new shoes with high heels. Stambulski had ordered that women's dresses should be worn long, and even described the exact length. He also ordered that all shoes should have flat heels, and the police were instructed to enforce these regulations.

Three Projects End Vets' Fund
Washington—Completion of the two veteran bureau hospitals in California and the project at Aspinwall, Pa., will utilize all that remains of the \$35,000,000 made available in the two Langley bills. Director Hines said that a further survey of the central section of the country might reveal that additional funds for hospitalization are needed. At present, he said 50 per cent of the beds in bureau hospitals are vacant.

Inhale Talcum Powder; Succumbs
Newark—Virginia Moran, six-months-old daughter of Police Sergeant William Moran, of Newark, died of pneumonia, which, according to the report of Dr. William D. Minighem, deputy county physician, was caused by inhaling talcum powder. Dr. Minighem examined the child's lungs after its death, and said they were so covered with powder that respiration was checked. He will analyze the powder.

Something You Have Always Wanted—No Marks—

You can now have your entire family washing, including wearing apparel and flat work, carefully laundered by a responsible laundry, for less than it has cost you to have it done at home.

Under this new service all wearing apparel and flat work are first separately weighed, then each family bundle is individually washed in the softest water, with purest soap, the cost being decidedly economical.

**5 Pounds Wearing Apparel
5 Pounds Flat Work
BOTH FOR \$2.00**

Any excess weight over the minimum 5 pounds, a small charge is made for excess flat work, and 50¢ a pound for excess wearing apparel, is made. This service includes all family wash, except starched collars, starched cuffs, and lace curtains. The average family wash costs between \$2 and \$3. This service is new in Detroit but growing in popularity every day. May we call for your bundle?

FEDERAL LAUNDRY

STATE NEWS IN BRIEF

Holland—Dedication exercises for the new Masonic temple were held here.

Dundee—Mrs. Harold Laskey, of Dundee township, died from the effects of an explosion of a tin of blacking when she was cleaning the stove.

Traverse City—Dr. E. R. Alexander, of Kansas City, won the Northern Michigan Golf Championship here. A field of 48 players was entered in the contest.

Flint—A total of 624 bill and dog fish were taken from Long lake in the campaign conducted by the state conservation department to rid the lake of obnoxious fish.

Lansing—Mrs. Mary C. Spencer, state librarian of Michigan and dean of state librarians of the United States, died at her home here. She was in her eighty-first year.

Kalamazoo—The twenty-first annual convention of the Michigan Rural Letter Carriers' association was held here, with hundreds of delegates from all parts of the state in attendance.

Lansing—Members of the Michigan Public Utilities commission have granted to Henry Ford a right to cut short his Detroit and Ironton railway line through Monroe and Lenawee counties.

Charlevoix—The establishment of a direct dispatch of mail by rural carriers from Boyne City to Charlevoix has improved the service from 12 to 24 hours to all offices in western Michigan.

Kalamazoo—Fire started when lightning struck a building on the farm of Nathan F. Simpson, chairman of the State Tax Commission, threatened the entire village with destruction and caused a loss of \$50,000.

Holland—Tourists continued to journey north in great numbers, while birds have already started their migration southward owing to the cold nights. Hundreds of marlins which spend the summer here, have started south. It is the first time that the birds have departed before September.

Lansing—An effort to plant Michigan streams with homegrown fish will be made by the state conservation commission. Crews will be sent out to obtain eggs. Heretofore the eggs and fry for planting have been imported largely from other states. It is believed that fish will result from the experiment.

Novi—Mystery shrouds several fires on farms in Novi township. Barrs on the farms of some well known farmers have been destroyed by incendiaries, it is believed, within a few days. The fires have resulted in a near panic and efforts to increase insurance as a result have led to investigation of the situation by insurance companies.

Lansing—C. L. Smith, assistant attorney general conferred with Governor Grosbeck regarding the inquiry into the alleged Michigan cement combine ordered by the state administrative board. It is understood the preliminary work of the investigation will be completed shortly and steps looking toward possible court procedure will be taken.

Pontiac—An ordinance adopted by the city commission, which makes it possible for the commission to hold hearings at which witnesses may be compelled to testify and produce any books, records or papers demanded of them. Persons refusing to do so can be held guilty of a misdemeanor punishable by a fine of not to exceed \$500 and imprisonment in the jail for not more than 90 days.

Iron Mountain—Officials of the Greater Sheridan Road association announced that the road they represent will become the longest street in the world. This is to be effected by changing the names of all streets which form a part of the road in towns and villages through which it passes. Starting at St. Louis, the road extends almost due north along route 15 in the upper peninsula, to Fort Wilkens. The original Sheridan road is in Chicago.

Grand Rapids—An investigation into the price of coal in Grand Rapids was directed by the city commission. Evidence presented to the commission indicated that Pocahontas run of mine is being sold as high as \$13 here, although it is being sold in Chicago for \$8.25 delivered, it is said. The city purchasing agent, said quotations on Pocahontas run of mine were \$7.74 to \$4 at the mine, and that the freight rate from the coal district to Grand Rapids was \$3.48 per ton.

Grand Rapids—Complete denial that they have instituted an organized boycott of grocers and others who sell butter substitutes was entered in Federal District Court here by members and officers of the Michigan Milk Producers' Association. The 700 farmers who are members of the association asked that the restraint-of-trade suit brought against the association by Best Foods, Inc., manufacturers of nucoa, be dismissed and the petition for an injunction denied. Judge Clarence W. Sessions denied the motion for withdrawal.

Camp Custer—Fire of unknown origin gutted four barracks. Hundreds of men fought the flames all night.

Grayling—Troops of the Michigan National Guard, which have been in camp here, have returned to their home stations.

Mt. Pleasant—Samuel W. Hopkins, pioneer real estate operator and attorney of Isabella County, was found dead in his home.

Grand Rapids—John Hayward, formerly state senator from Kent County, died suddenly of apoplexy. He was elected to the Legislature in 1891.

Lansing—Unemployment is at a minimum in Michigan, according to the summary of industrial conditions issued by the United States Employment service.

Charlevoix—Fire partially destroyed the 35,000-gallon storage tanks of the Brown & Wallace Oil company, threatened the electric light plant and put the city in darkness for an hour.

Owosso—Dr. C. A. Backlund, Owosso dentist, and A. Burns, pilot of a biplane, escaped unscathed when the biplane in which they were descending crashed into a tree near the outskirts of the city.

Hillsdale—A bonus of \$10,000 to be the first premium money paid in the United States for a consignment of tuberculosis-free hogs, has been received by local shippers. The hogs, pure bred Hampshire, were sold recently in Buffalo, N. Y.

Lansing—Reforestation in the upper peninsula and the northern part of the lower peninsula of Michigan will be the first problem to receive the attention of the Lake states forest experiment station, according to an official announcement from Washington.

Bay City—The property of the Saginaw-Bay City Street Railway company was sold at auction for \$225,000, to the Northern Title and Trust company. The railway will resume operations in Saginaw but there is no immediate prospect of service in Bay City.

Kalamazoo—A romance and marriage in France five years ago, broken temporarily when the American soldiers returned to their homes, was continued when Marie Hargrave, war bride, and George Hargrave, Hollingburg, were united at the latter's home.

Detroit—Al, though Harry Hewes, of Toledo, had 100 cases of "white noise" liquor in his automobile when it was searched by a policeman three weeks ago, he walked out of recorder's court a free man, because the officer had no search warrant when he made the alcoholic find.

Alma—Under the proposed new contract between the city and the Consumers' Power company, a boulevard lighting system will be installed on State street and Woodworth avenue. The contract provides for current of twice the present candle power at a cost of \$1200 a year less than the contract which has just expired.

Bessemer—With the city council in a quandary over the question of a water supply, the mayor has decided to call a mass meeting of the citizens to sound out public opinion, before any definite move is made. With the city already bonded to the extent of \$215,000 on its water system, a failing of the supply would have left it in a situation such that it will be without water in a short time, it is said.

Baton Rouge—Claude B. Kimberly, cashier of the Bellevue State bank, has gone to Quebec by train, whence he will hike down through Canada, Maine and Portland and along the coast to Boston, a distance of about 400 miles. He will return to Bellevue from Boston by rail. Each year Kimberly goes on a hike during the summer months. Last year he walked from Toronto to New York city, a distance of 420 miles.

Lansing—Michigan farmers will reduce their acreage of wheat 15.5 per cent, and rye, 9 per cent, according to a survey completed by Verne H. Church, federal statistician, and L. Whitney Watkins, state agricultural commissioner. The survey was undertaken in co-operation with the federal government at the suggestion of many farmers that they could better plan and regulate their planting if they could be informed in advance as to probable acreage.

Grand Rapids—Decision as to the winner of the Edward Bok \$100,000 prize for the best method of promoting world peace will be made January 1, 1924, by the co-operating council of military civic organizations, according to John G. Emery, representative on the council of the American Legion, who has returned from a visit to the committee headquarters in New York. The committee will have from November 15 to January 1 to inspect the communications received on the subject.

Iron Mountain—A proposal to bond the city for \$390,000 to buy the Iron Mountain Water Works company will be voted on at a special election September 10. The company is asking \$210,000, but the city council has decided it will require \$180,000 more to extend and improve the system. Lake Antoine, the source of the city's supply for 30 years, soon will become inadequate to meet Iron Mountain's development. If the bond issue passes, water will be taken from the Menominee river and altered.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions. All druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

Mr. and Mrs. Robert Pickell were recent Ypsilanti visitors.

A. E. Miller and son Lyle of Detroit were in town Saturday.

Maiden Hayes is spending the week at Northville—Milford Times.

Mrs. Emma Burrows is visiting Northville relatives and friends.

Mrs. C. A. Sessions has been spending the week at Battle Creek.

Miss Genevieve Parmenter will teach at Birmingham again this year.

Jack Blackburn will attend a radio school at Boston, Mass., the coming year.

Willard Ely is spending a few days with his brother, Tracey Ely, in Chicago.

The Northville band has been secured to play at the Milford fair this year.

The dates for the Washtenaw County Fair at Ann Arbor are Sept. 18 to 22 inclusive.

The Five Points team will meet the Foresters on the home grounds Sunday afternoon.

The annual meeting of the American Legion of Michigan is being held at Ironwood this week.

Frank E. Hillis is prepared to issue your hunting and fishing license.

Call a meat market.

Mrs. S. L. Brown spent several days this week with her daughter, Mrs. Clayton Nogaf of Dundee.

Mr. and Mrs. William Montgomery and family spent Saturday and Sunday with relatives at Anchorville.

Dr. F. W. Main, who recently closed his office here and moved to Detroit, is now located at 1612 Glendale Ave.

J. S. Lang is building a very attractive bungalow on his property near Waterford on the Plymouth road.

Misses Helen Lanning, Carrie Litsberger, Mary Sowles and Alice Wagner left last Friday for a boat trip to Duluth.

Mrs. E. J. Tremper and daughter Grace, returned Friday from Walled Lake where they spent two weeks with relatives.

Paramount pictures will be featured at the Alseum theatre during September and a number of especially good ones have been booked.

Mrs. F. R. Bennett of Ypsilanti, Mrs. L. C. Hough, Mrs. L. H. Bennett and Mrs. F. Adams all of Plymouth visited Northville relatives, Sunday.

Mrs. Flora Maloin of Detroit and her sister-in-law, Miss Ida Maloin of Ottawa, Ont., spent the week-end with the former's sister, Mrs. M. D. Taylor.

Ray and Mrs. E. V. Belles, and son, Donald, returned to their home at Kenton, Ohio, the first of the week after an outing of two weeks at Walled Lake.

Mr. and Mrs. James Tiffin and children of this place and Mr. and Mrs. Clyde Fisher and son of Plymouth, were recent guests of Chatham Ontario friends.

Northville's two cannon have again been mounted on the school grounds.

Cement bases were constructed and the guns were placed in position during the past week.

Farmington is making great plans for the Labor Day celebration to be held there next Monday.

The affair is being given under the auspices of the American Legion.

Oliver Goldsmith of Plymouth, and nephew and Albert E. Tatzka motored to Saginaw Bay, Saturday, and returned home Tuesday morning. They reported they had a fine time.

Mrs. Edward Musolf, Jr., of this place and her mother, Mrs. Louis Minehart and little son, Ralph, of Plymouth, have returned from a week's visit with friends at New Baltimore.

An average of about one out of every five farms in Michigan has been abandoned, according to a survey completed by Verne H. Church, federal agricultural statistician for Michigan.

The Kings Daughters hold their opening fall meeting at the home of Mrs. Brock on Tuesday, September 4th, at 2:30 p. m. A good attendance is desired as there is special business to be taken care of.

The special election Monday by which the Detroit Edison Company was granted an electric franchise for this village gave 125 affirmative votes out of a total of 128. Two were negative and one voter forgot to mark his ballot—Milford Times.

Thomas B. Couch of Hartland was a Northville visitor on Tuesday and while here he made this office a pleasant call. He has sold his business and building at Hartland and expects to leave for Illinois soon to make his future home.

C. A. Ponstford and daughter, Beth, returned to Northville the last of the week from their motor trip to Colo. They report a very enjoyable outing and they bear every indication that the trip was beneficial to them. They covered more than 4,500 miles on their tour.

Dr. D. B. Henry is driving a new Hudson coach.

Miss N. Johnson is wrestling with an attack of lumbago this week.

A good soaking rain would be very welcome throughout this section.

Charles Minhart of Plymouth is driving a new Chevrolet sedan.

Mrs. E. A. Noble will spend the week-end with friends in Pontiac.

Miss Marie Beckman will teach the school at Turner Y again this year.

Burt Rice and family of Nov. were callers at E. J. Simmons, Sunday.

H. R. Richardson is suffering from an attack of inflammatory rheumatism.

Mr. and Mrs. E. J. Musolf, Jr. spent Sunday evening with friends at Detroit.

County Agricultural Agent, Carr, was in this section of the county on Wednesday.

Mrs. M. J. Tremper of Montrose is spending the week at the Tremper home.

Allen Buckley expects to attend the Normal College at Ypsilanti the coming year.

Mrs. E. W. VanDyne of Bentley, Michigan, is visiting relatives and friends here.

C. E. Dubuay is enjoying a vacation with his sons, James and Carroll in New York state.

Miss Eliza Murdock will teach the Wolfe school on the Seven Mile road the coming year.

Mrs. E. C. Langfield and son, Conrad, have returned from Glen Lake, where they spent several weeks.

Mrs. McIntyre and little daughter, or Greensprings, Ohio, are visiting at the Frank Bryan home, near Four Towns.

Miss Rose Blundell, who has been attending school in Chicago, is spending her vacation with Northville friends.

Mrs. W. H. VanDyne returned home Saturday from the Ann Arbor hospital, where she has been taking treatments.

Mr. and Mrs. Samuel Diltz and little daughter, Barbara of Detroit, were callers at the E. J. Simmons' home Sunday afternoon.

Mr. and Mrs. William Greer are visiting the former's brother and family at Reading, Ohio, this week. They motored through.

Mr. and Mrs. E. J. Smith of Detroit and Mr. and Mrs. W. M. Carpenter of Pontiac, spent a day with Mrs. E. A. Noble, recently.

The Globe Furniture company received an order last week for pews and furnishings for a large church now being erected in Toledo.

Miss Gladys VanDyne returned home Tuesday after spending the summer vacation with her grandparents at Bentley, Michigan.

F. E. Vanatta has sold his residence property on Rogers street to Detroit parties. Mr. Vanatta expects to build a new house in Orchard Heights.

The Rev. H. A. Simpson, superintendent of the Grand Rapids Presbyterian of the Presbyterian church, was the guest of Rev. Wm Richards last week.

Rev. W. W. Edwards, D. D., of Mount Hope Presbyterian church, Lansing, spent Sunday and Monday as the guest of Rev. and Mrs. Richards.

Now
the Easy
has Three
Vacuum
Cups

The new model EASY is a 3-cup washer, differing in this respect from all previous models.

The importance of this new feature cannot be overemphasized, for it has direct bearing upon the efficiency and speed with which it washes the clothes.

Just as the old model EASY with two vacuum cups had a distinct advantage over washers having only one cup, so the new model EASY with three vacuum cups is eminently superior to machines having only two cups.

Before buying an electric washer, make it a point to see the exhibit of the New Model EASY in our store—on phone for a free home demonstration. You will then be posted on the latest development in electric washers.

Walled Lake Warbles.

A young lad who had made his escape from the Industrial School for boys, stole a Ford car at Island Lake the other day and drove it to Walled Lake, where he cashed a check for \$10 to pay for gasoline, said check having been left in the car by the owner. Charlie Conelynier and recognized the car near New Hudson, reported the matter and the young fellow was apprehended next day by Detroit police. It became known later that he had at first stolen a car at Lansing, abandoning it at the Lake for one that had gas.

An important conference of the superintendents of all the Sunday schools of Oakland county will be held at the First Presbyterian church in Pontiac on Saturday and Sunday, for the purpose of discussing plans for the year's work. The county convention will be held at Pontiac on Sunday.

FAIR NOTES.

At least eight teams will take part in the base-ball tournament to be held during fair week. They will be assigned as the Blues and the Reds and the two teams winning the tournament honors will play Saturday afternoon to determine the champion ship of the week.

There will be an unusual display of works again this year for four miles during the fair.

The fact that this has been a favorable season for all kinds of vegetables the agricultural display will be a hummer. Plan now to make some displays in this department.

The Northville Exchange club will give a handsome silver cup to the poultryman making the best display at the fair this year. This will be in addition to many other special prizes being offered by Northville citizens and business firms.

We are already assured a big field of horses for the races.

If you are a Ford owner you will better look up the program for Wednesday, which has been designated as Ford day.

FARMERS' STATE

Members of the state association of equalization after hearings extending over several days, have fixed the equalized value of Michigan for 1923 at \$1,540,000,000. This is an increase of \$154,000,000 over the past year and falls almost entirely upon the industrial centers of the state.

The total reduction made from the tax commission's recommendation is \$5,065,000. The reductions are entirely in agricultural counties.

Wayne county was raised to \$2,666,500,000; an increase of nearly \$600,000,000 over the equalized value of a year ago.

Ten northern counties were given reductions. As a result of these big state valuations, the state tax will be considerably reduced. George L. Lott, chairman of the tax commission, states that it will be about \$232, as compared with \$312 last year.

State Tax Total Less—The amount of state tax to be collected this year will be about \$16,000,000, which is a considerable reduction from the amount that Michigan must pay to the state this year.

The state tax was over \$16,000,000 last year.

WE WONDER, TOO.

We have been informed that one of our leading young business men, Ralph Simons, while holding one of his Sunday evening Sessions at Northville, discovered a fire in the basement of the Standard Oil Co. plant about 1:30 Monday morning while passing in his car. He succeeded in extinguishing the flames, but they had time to spread. The fire, as set by someone using a bad gasolinated with waste oil. We wonder what Mr. Simons was doing in Northville at such a "late hour" on Sunday evening—Armada Times

America's Marvels

NATURAL AND OTHERWISE

By T. T. Maxey

THE CRADLE OF LIBERTY

Independence hall, oft referred to as "The Cradle of Liberty," in historic Chestnut street, Philadelphia, where "Uncle Sam" was born more than 146 years ago, stands and looks very much as it did when, on July 4, 1776, the liberty bell rang out to the world from its place in the tower the news that the colonies in America had agreed to withdraw from the rule of England.

The plans for this venerable brick building, which is 100 feet long and 44 feet wide, were laid in 1729. Except for the wings and the tower, the structure was completed a few years later as a home for the Continental congress.

Possessed of a simple dignity and a quiet charm, Independence hall is a substantial and imposing relic of Colonial architecture—perhaps the most historic of all American buildings. To and through it come and go annually hundreds of thousands of citizens, representing every state in the Union and many lands beyond the seas.

This building has been the center of many a stirring and historic scene. In it met that Continental congress which debated, then shaped, and finally adopted, and finally signed the Declaration of Independence.

It was here that the first American flag was raised on its birth day in 1776. It was to this building that this body was carried to the state and across it was that congress convened, following the close of the Revolutionary war.

During the summer of 1787, to meet to sign a constitution for the new United States.

The hall, which one by one the authorized representatives of the colonies arrived in a dense atmosphere and signed their names to the Declaration of Independence.

The walls of the building are graced with portraits of the signers and a painting of that dramatic moment when the signing was completed.

Liberty bell, the most famous of all bells in America, hangs from the tower and is ready to ring, and how resplendent a glass cabinet on the main floor, which directly beneath it is the local.

On July 4, 1923, it will ring out its note of freedom.

Northville High School Will Open September 4, 1923

The Northville High school offers an excellent opportunity to the young people in this vicinity and of Wayne county to secure a high school education. Northville has one of the best equipped High schools in Wayne county and is constantly increasing in size and efficiency. Students attend Northville High school because there they can obtain excellent courses of study under the very best of teachers obtainable. Graduates of this school are admitted without examination to the University of Michigan and to any other college in the state.

The Northville High School offers courses in English, Mathematics, Science, History, Latin, French, Commercial, Art, Bookkeeping, Typewriting, Shorthand, Speaking and Music.

PHYSICAL TRAINING DEPARTMENT

It is one of the strong departments of the school. A finely equipped track and gymnasium serves the physical needs of our boys and girls under the direction of competent instructors. A complete course in physical training will be given to both boys and girls. Northville believes in developing the body as well as the mental life of its students.

The school has an excellent swimming department under the direction of a competent instructor of several years. Graduates from this department are in good positions in the business world without additional training.

Tuition of Non-Residents is \$30 per year. Below the High School the tuition is \$50 per year.

The Superintendent will be in the office Tuesday a.m., September 4, at which time he will be glad to meet any non-resident students and make the necessary arrangements for their entering school.

WARNING HALTS MARCH OF 500

MEMBERS OF HOODED ORDER GATHER ON HILL AFTER FATAL RIOTING

OFFICERS ORDER DISBANDMENT

Carnegie Undertaker is Arrested As Officials Probe Fatal Night Mob Battle

Pittsburgh—The customary quiet prevails in the suburban village of Carnegie, where one white-robed Klansman was killed, another man seriously wounded and an undetermined number hurt during hours of rioting precipitated by an attempt of Ku Klux Klansmen to parade through the village, after a spectacular demonstration on a nearby hill. The Klan offered \$5,000 reward for the arrest and conviction of the killer.

Thomas R. Abbott, of Atlasburg, was shot through the head and died in a doctor's office a few moments later, and Stephen Jarzombek, a bystander, was seriously wounded. Others of the wounded included Klansmen and rioters. A few were taken to hospitals but the greater number were hurried away by their friends and no record left with the authorities.

Five hundred or more Knights of the Ku Klux Klan assembled on a hill overlooking the town. Chief Brand of the Allegheny county detective force immediately dispatched a deputy to the hill with orders to notify the Klan leaders that a demonstration in the village would not be permitted, and unless they dispersed he would not be responsible for what might happen.

County officers arrested Patrick McDermott, a Carnegie undertaker, in connection with the shooting of Abbott. They also sent to the Allegheny county jail W. K. Flaherty and Joseph Joyce of Carnegie upon a charge of carrying concealed weapons.

The Klansmen, arrested while directing automobiles to the Klan meeting, were each fined \$10 for illegally carrying weapons. Sixteen men, who were taken from automobiles bearing the Klan insignia by Pittsburgh police after the rioting, were given their liberty.

10,000,000 DISABLED IN WAR

Statistics Show Germany To Be Worst Sufferer.

Geneva—That at least ten million combatants were disabled during the great war, is disclosed by the statistics issued by the International Labor Office, regarding the number of people in the principal belligerent countries now receiving disablement pensions. The figures are:

Germany	1,537,000
France	1,500,000
Great Britain	1,170,000
Italy	800,000
Russia	775,000
Poland	320,000
Jugoslavia	164,000
Austria	164,000
United States	157,000
Belgium	110,000
Rumania	103,000
Canada	45,000
New Zealand	29,000
Australia	16,000
Finland	10,000

This totals 7,124,000, but no official statistics are available from Turkey, Bulgaria, the Baltic States, Portugal, Hungary and Japan. There is ample evidence, however, says the bureau, that to put the total of disabled men in the World war at ten millions, would not be an over-statement.

JAPANESE PREMIER IS DEAD

Sudden Turn For the Worse Ends Lengthy Illness.

Tokio—Baron Tomosaburo Kato, premier of Japan has died; it was allowed to become known here officially.

Premier Kato had been ill for a number of months, but it was announced that his condition was not dangerous. It was added, however, that his health was extremely poor, and that his retirement could be expected in the near future.

Kato attained eminence among the noted men of Japan, as the right hand man of Admirals Togo and Kamimura in the Russo-Japanese war. He entered the war as a captain, and emerged a rear-admiral, chief of staff of the first squadron of the Japanese navy, with decoration of the Order of the Golden Kite, second class.

Taking over the portfolio of the navy in 1915, Baron Kato became a strong partisan of the advancement of friendly relations between Japan and the United States. At the Washington Arms Conference, where he was a member of the Japanese delegation, he was credited with being one of the strongest proponents of the Naval Accord Treaty.

Coast Man Sells 6-Cent Gas
Los Angeles—Gasoline sells for six cents a gallon for a few hours a day at a Los Angeles filling station.

JAMES A. LOGAN

James A. Logan of Philadelphia, who is the new American unofficial delegate to the allied reparations commission. Mr. Logan was with the French general staff in 1914 as American military observer. Following the signing of the armistice he acted as principal assistant to Herbert Hoover.

GERMANS FACE DICTATOR RULE

Cabinet Move to Grab Stinnes' Funds Seen as Crash Omen.

Berlin—Germany is rapidly advancing on the road to a dictatorship. For the first time since the revolution, the men heading the government not only realize that dictatorial measures must be taken, but they are showing a willingness to take them.

Another reason for considering revolutionary action is the knowledge that the monarchists are preparing an actual military dictatorship when the financial and economic chaos is complete.

The collapse of German money was hastened by the government's stern decisions and financial chaos. The Stresemann cabinet accordingly demands that Germany's rich industrialists whose money is mostly kept in dollars and pounds, deliver immediately \$125,000,000 worth. If the industrialists fail voluntarily the government will force every one to take an oath regarding their foreign currency possessions. If this measure still fails the government contemplates action tantamount to confiscation.

There are also under discussion measures for regulating food prices and distribution, equalizing the war time dictatorship. All measures have a double purpose—stabilization of the mark and the creation of a fund to purchase 33 per cent of the nation's food which Germany needs abroad.

OMAHA HAS FAMINE OF WATER

Fifteen Thousand Are Jobless and Economic Loss is \$5,000,000.

Omaha—With 15,000 men out of employment because of a shut-down of industries, the economic loss in Omaha's "water famine" was declared to have amounted to more than \$5,000,000.

The famine was caused by a Missouri river cave-in which filled city mains with mud.

Citizens continued to obtain the principal water supply from a fire hose stretched from Council Bluffs. Although a slight improvement was noticeable in the city mains, the supply still was 40 per cent mud. Relief was not expected for several days.

Thousands grouped about the hose, artesian wells and park springs, carrying water away in every sort of containers. Street-sprinkling wagons conveyed water to different sections of the city, passing it out from house to house.

Meanwhile, a bitter political fight broke out over the water department. Business firms, claiming the cave-in resulted from negligence are preparing damage suits against the city.

BATTLE WARNING IS HURLED

Pekin Troops Mass About Amoy and Prepare for Action.

Amoy, China—The Chang Tse Ping, an ally of Sun Yat Sen in the defense of southern provinces against the invasion of Pekin troops, has refused to evacuate Amoy in compliance with the ultimatum served on him by General Ong, whose army is menacing the city at a distance of eight miles.

Chang, instead, is storing in ammunition.

Chang carries out his threat, he will begin attacking Amoy by land and bombarding it from the sea.

Falls Dead at Mother's Grave.

New York—As the casket containing the body of his mother was being lowered into a grave at Mt. Zion Cemetery, Masspeth, Queens, Joseph Handelman, 38 years old, of Manhattan, dropped dead. He was standing alongside the grave as the coffin was being lowered and probably would have fallen into the excavation had not his wife and two children caught him. He was dead when an ambulance surgeon arrived from Wyckoff Heights Hospital.

SELWYN'S OPEN GARRICK SEASON

There are some profound truths underlying the mirth and satire of "But For the Grace of God," the brilliant Selwyn presentation which will have its premiere here September 2nd, at the Garrick theatre.

For instance—one is tempted to advance a theory, after listening to this play, that the chronic liar is more believable than the so-called "good man," whose efforts are honestly conveyed and executed.

The character of "Earnest Steele" is an illustration. "Earnest" is an official "serpent." Rich, lazy, unscrupulous, playing with morality like a cat with a bird, he lives by lies and indeed has to lie to live. His existence has become a network of prevarications. He hasn't an honest thought in his head—he even lies to himself and believes his own lies.

"But For the Grace of God" shows this professional liar in the cast of estranging "Margaret" from her devoted but somewhat blind husband, "Richard."

How—when this has been all but accomplished—his adept in the art of lying plausibly is, not reformed, but turned from his purpose, is one of the strong points of the play.

To the Selwyns go the honor of having an exceptional cast headed by Violet Heming, Arthur Byron, Estelle Winwood, A. E. Matthews, Pauline Whitson, Kenneth Douglas and others.

STATE HOSPITAL PATIENT HEIR TO \$10,000 ESTATE.

Daniel Shehan, a patient in the Traverse City State Hospital, was notified Friday by the Union Trust Co., of Detroit, that he is heir to a \$10,000 estate Shehan was formerly a patient in Eloise.

Too Good to Live. Some people make such a virtue of their virtue that it seems a pity that they can't die before being led into temptation.

COMMISSIONER'S NOTICE.

In the matter of the estate of OLIVER R. SLOAN, deceased, the undersigned, having been appointed by the Probate Court for the county of Wayne, state of Michigan, Commissioner to receive, examine and adjust all claims and demands of all persons against said deceased, do hereby give notice that I will meet at the store of Mark Brock on Main Street, Northville, Mich., in said county, on Monday, the 1st day of October A. D. 1923, and on Saturday, the 1st day of December A. D. 1923, at 2:00 o'clock p. m. of each of said days, for the purpose of examining and allowing said claims, and that four months from the 1st day of August A. D. 1924, were allowed by said court for creditors to present their claims to us for examination and allowance. Dated, August 1st, 1923. MARK BROCK, Commissioner.

4-7.

IT'S TIME TO THINK OF

SCHOOL SHOES

For the children—we have been thinking about them and planning to serve the boys and girls, the young ladies and young men to their entire satisfaction. Come in and look over our lines in Children's, Misses' and Youths' Shoes and you will be pleased with the showing we are able to make.

We take special pains to give a good, comfortable fit—the kind that really gives comfort and long service.

Everything in Footwear.

ANYTHING TO SELL? RECORD LINER.

WANTED 10,000 HOMES A YEAR!

We are desirous of securing several men and women of unquestionable character to represent The Brownwell Corporation, Finance Department. Application should be made at once.

IF Detroit should insert a Want Ad in the local newspapers it would unquestionably be an advertisement for HOMES—Ten Thousand of them a Year! Homes for the industrial workmen and their families—that's the greatest need in Detroit today. The tremendous shortage of such homes is common knowledge throughout the city. Detroit's enormous and unprecedented growth and prosperity has created a demand for homes that real estate experts claim approximately 10,000 a year. And 75 per cent of this demand is for the type of homes The Brownwell Corporation builds and sells exclusively. The Brownwell Corporation, an old established and reputable organization, is Detroit's Largest Exclusive Builder of Moderate Priced Homes. Its growth has been phenomenal simply because of its advanced methods and policies and because it Operates in the Greatest Field of the Building Business and Meets the Greatest Demand in that Field!

The Brownwell Corporation Homes Are The Type of Homes That Are So Tremendously In Demand In Detroit!

When The Brownwell Corporation was organized the building field was carefully and thoroughly gone over to find where the most profitable and extensive business lay. We found it to be in the demand for artistic, substantial

homes that could be built to sell for less than \$6,000.

All our efforts are concentrated on this type of home. With Detroit's population increasing

at the rate of 100,000 a year the demand for such homes exceeds the supply. Future plans of The Brownwell Corporation based on the demand reveal one of the most gigantic building programs ever undertaken in this city.

The Brownell Corporation Has Built and Sold Over 700 of These Homes To Expand and Carry Out Their Enormous Plans For The Future They Have Issued 50,000 Shares of Participating Preferred Stock, Paying

THIS IS NOT A SPECULATION BUT A SAFE, SOUND INVESTMENT IN AN OLD ESTABLISHED, REPUTABLE ORGANIZATION!
