THE BIGGEST AND BEST ONE HELD

The Northville Fair Delighted All
Who Attended—Fine Weather
—Wonderful Exhibits.

The seventh annual Northville Wayne County Fair closed last Saturday after having enjoyed one of the most delightful and successful weeks in its existence. The weather had been ideal, in fact real summer weather prevailed throughout Wednesday, Thursday and Friday, while Saturday was somewhat cooler, bringing relief to visitors and to those whose work kept them shut in as well. Nothing occurred to mar the pleasure of the week in any way and from Monday morning until Saturday night a fine spirit of co-operation and fellowship prevailed. The officers of the association and the committees had labored hard to make the fair a success and it was a great deal of pleasure that they realized they had the hearty good-will and support of the whole community. The success of the fair reflects credit upon the whole community as well as upon the officers who labored early and late in their efforts to make the week one of genuine pleasure to all who passed through the gates.

The Races:

The races this year were especially interesting, the two-year-old trot, the three-year-old pace and the three-year-old trot were added features that attracted a good deal of attention from horsemen all over the state. In the former event on Thursday there were three starters and the youngsters turned off the mile at a lively clip, making a pretty race. J. L. Gaffney developed a case of stubbornness in the three-year-old pace on Friday and permitted Donnie Forrest to win the race, though they were closely matched and Gaffney won the first heat. The three-year-old trot was one of the fastest and most exciting races ever conducted by the Michigan Breeders' association. There were but two starters, Peter Pater, owned by Dr. Patterson of Detroit, defeated My Sister Lou, but had hard work to do so. This race was for the governor's cup. Ethel Todd, who won second place in the two-year-old trot on Thursday, was raised by the Starkweather Stock Farm of this place and sold to W. R. Roach of Grand Rapids. M. H. Sloan was the active head of the speed department and he was ably assisted by E. M. Starkweather, M. N. Johnson and H. Hamilton, and these gentlemen deserve a great deal of credit for the success of the racing program. Fred Vanatta acted as clerk of the course.

The Art Department.

There were more than 500 articles of needlework in this department and it was the center of attraction all during the fair. There were 600 cans and jars of fruit, jellies, pickles, etc., the largest number ever displayed, while the flower display was greatly in excess of any previous year. The display of baked goods was especially inviting and plainly demonstrated that Northville women are exceptionally good cooks. The antique exhibit was visited by many people and created a great deal of interest. The entire building was given over to the ladies this year and every inch of space was filled, and the exhibit in each department was most attractive. The ladies composing the several committees worked faithfully and they are to be congratulated upon the attractiveness of their displays. Poultry and Pet Stock Department. A. E. Fuller and G. E. Richardson were "stepping sideways" all day Wednesday trying to find places for all the splendid birds that had been brought. A great many poultrymen who wanted to come were notified that there was no room for more. The display of poultry fully sustained the reputation of all previous Northville fairs and the room was crowded most of the time. Fred Moffit's display of dogs was one of the most interesting exhibits on the grounds and received many visitors and a great deal of praise from men and women who "know dogs."

The Ford Exhibit.

This wonderful exhibit fully justified all the pleasant things The Record had published regarding the display in issues previous to the fair and the large spacious tent under which it was shown was filled with visitors throughout the week. In fact we do not believe that any ex-

hibit on the grounds met with such universal favor with all fair visitors as did the one made by the Ford Motor company, and it was altogether natural that such should be the case. The Ford cars being the "universal cars" they attracted the attention of all, both old and young; horsemen, dairymen, poultrymen, gardeners, as well as many thousands of women, who were most eager to visit the exhibit. Besides a display of Ford cars and Fordson tractors the exhibit consisted of three handsome Lincoln cars, one open and two enclosed jobs and they were greatly admired.

Photographs of Ford industrial plants and of scenes about the Ford railway—the D. T. & L.—were shown and they added greatly to the pleasure of all visitors. A sedan body assembled was shown in the rough and other parts from which Ford cars were assembled were on exhibition. The Ford technical school also had a very interesting display and everything about the exhibit was fully explained by the courteous employees who were in charge of the display. Everything about the display reflected the Ford efficiency and completeness, and Northville people are very grateful to the Ford company for the interest manifested in the success of our fair and the very elaborate exhibit they made. Under a separate tent moving pictures were shown and this feature also proved very popular with the public, the tent being filled to its capacity most of the time. The concert Saturday night by the Hawaiian singers attracted great crowds to the big tent.

The Better Baby Contest.

This feature of our fair is growing in interest each year and on Wednesday afternoon a great crowd gathered about the tent where the better baby contest was being conducted. This contest was in charge of Mrs. Flora Larkins, whose efforts have made this department one of the outstanding features of the fair. Dr. Douglas of the Sanatorium conducted the physical examinations of the little ones, while Frank J. Boyle assisted in the display of the dimpled, smiling, rosy cheeks, curly haired little ones.

The following were the prize winners:

Mrs. Hammond of Salem will receive the electric toaster given by the Detroit Edison company for the baby scoring highest. The Greening Nursery company's offering of an elm tree will be in honor of Elmer Edward Boulat, son of Mr. and Mrs. Howard L. Boulat of Northville, who will also receive the special prize of \$25 offered by Heide, the Plymouth florist. Those winning the premiums will please call at the home of Mrs. Flora Larkins for them.

The superintendent of the contest desires to express her sincere appreciation to Drs. Walker, Douglass and Seldon of the Sanatorium and the nurses who assisted during the contest for their interest and assistance in making the affair a success.

The Ball Game.

Redford carried off the honors of the tournament in which eight teams took part. The Redford team won the contest with the Reds and on Saturday afternoon defeated Northville, the leaders of the Blues. In a game that was fast and exciting. Ten innings were required to decide the contest, the teams each having seven runs at the close of the ninth. Redford scored in the tenth. The tournament afforded a lot of sport to lovers of the national game and each game was witnessed by an immense crowd.

ORDERS ISSUED FOR BUS LINES

SPEED LIMIT FIXED BY UTILITIES COMMISSION—ROAD RACING BARRED

THE REGULATIONS ARE STRICT

No More Than One Passenger May Be Carried on Seat With Driver—Minimum Fare Cited.

Lansing—Commercial trucks and busses operating under the public utility commission's jurisdiction will not be permitted to travel at a speed exceeding 30 miles an hour, according to an order issued by the commission Monday.

The reduction in speed is made in the interest of safety both to passengers and other traffic on the highways. Numerous complaints of excessive speed at which trucks and busses have been operated have reached the offices of the commission. Another new regulation also of a safety nature is that forbidding busses to carry more than one passenger on the driver's seat.

Parts of the order follow: "No common carrier motor vehicle shall be operated by any person whose sight is defective, or by any person that has not full use of both arms and both legs and feet, or by any person that has been convicted within one year of drunkenness or of driving while intoxicated.

"No common carrier motor vehicle shall operate at any time at a speed greater than 30 miles an hour."

"Motor vehicles carrying passengers shall not carry more than one passenger in the front seat unless the driver's seat of such vehicle shall be separated from the front seat of such vehicle, except in cases where the front seat of such vehicle is 54 inches wide, two passengers may be carried in such seat and where the front seat is wider than 54 inches, an additional passenger may be carried for each additional 18 inches of width.

"Where a minimum fare is established, such minimum fare shall not in any case be in excess of 10 cents. "At no time shall any vehicle used as a motor vehicle common carrier, engage in any race upon the public highways.

"No applicant to whom a permit has been issued under this act shall at any time carry property to a value greater than the amount covered by his insurance filed with this commission, nor persons in a number greater than the number insured under his insurance, proof of which is filed with this commission."

WARNS U. S. OF AIR PERILS

Ten Year Building Program Urged. By Asst. War Secretary.

St. Louis—A ten-year program of building aeroplanes to meet the deficit in machines needed for training and defensive purposes, was advocated in an address here by Dwight F. Davis, assistant secretary of war.

Speaking before the St. Louis Aero nautic corporation and the Flying Club of St. Louis, Mr. Davis said the United States had no desire to enter aerial competition with other nations, and that such a program could not be considered as such.

"Today," he said, "we are showing the same supineness, the same failure to appreciate the necessity for preparedness."

Outlining the tremendous destructive and offensive powers of the aeroplane, Mr. Davis said the United States was doing "pitifully little" to safeguard itself.

"We have reduced our army air service," he said, "below the safety point for national defense until its actual strength today is only 915 officers and about 8,600 men.

"We have failed to provide even his meagre force with adequate equipment for training, much less for combat needs."

SPECIAL ELECTION IS CALLED

Governor Walton Issues Date To Decide Klan Issue.

Oklahoma City, Okla.—Gov. Walton issued a call for a special election December 6 on the initiated proposal to empower the state legislature to convene itself to consider impeachment charges against the executive.

"If the majority of the people want to amend the constitution, so as to enable Ku Klux Klan members of the legislature to impeach the governor and thereby remove all legal restraint on the lawlessness of the Klan, then I submit I don't want to be governor and will advise that we acknowledge the sovereignty of the emperor of the invisible empire," Governor Walton declared in a formal statement.

A fair vote of the people on the initiated proposal will determine the issue, he added, and "I, as chief executive recognizing the sovereign people as the master, am willing to try the issue in the court of the people at a fair and legal election to be held at the earliest date."

Geographical isolation makes the Railroads of Michigan a transportation system like that of no other state. Most of our traffic either originates or ends in Michigan.

Bridge the Great Lakes with car-ferries and tunnel under the mighty connecting rivers, though we may, such accomplishments merely better our service to you; we are Michigan Railroads more than trans-continental traffic lines. Our train schedules are for Michigan, not for New York and San Francisco.

To a degree greater than any other state, Michigan's welfare, and the welfare of her Railroads, are therefore one and inseparable. You cannot fall back on trans-continental lines for emergency help; we must always rely on you for our chief support.

We can prosper only together.

Because of this mutual dependence, the twenty-four Railroads operating in Michigan have formed this Association with the purpose of strengthening the relations of the Railroads with the People of the State, by providing you with a clearing house for the exchange of ideas, relative to the transportation problems so vital to the prosperity of our Peninsular State.

We invite your suggestions toward bringing about a better understanding and closer cooperation between the Public and the Railroads. Communicate with this Association.

BAVARIA FLIES ROYALIST FLAG

MUNICH: HAILS CROWN-PRINCE RUPPRECHT AS KING AS MONARCHY NEARS.

SEPARATISTS BATTLE POLICE

Scores of Persons Killed and Wounded, Including Women and Children.

Munich—Bavaria's marching steady towards a royal crown Prince Rupprecht was hailed as king in the streets of Munich. The black, white and red flag of the monarchy was hoisted with the Bavarian colors over the famous Purkin barracks, home of the Bavarian royal guard regiment, and now occupied by "Green" police and companies of Reichswehr. The "green" police officers with the "green" step. The republican flag no longer is flying in Munich.

Crown Prince Rupprecht unveiled a memorial tablet to the dead of the Bavarian royal guard at Purkin barracks in the presence of 15,000 veterans and former members of the regiment, which Sunday celebrated its tenth anniversary. He spoke briefly and steered clear of politics.

After a mass for the dead of the regiment, Crown Prince Rupprecht proceeded to the military museums, where the Munich police force was celebrating its twenty-fifth anniversary.

Two other regiments celebrated anniversaries, and the streets of Munich were filled with officers in brilliant uniforms of pre-war days, laden with honors and medals.

There was snap and precision to the movements and salutes of the officers and soldiers which marked an intense military feeling.

Separation was frowned upon from all quarters, but Director Von Kahr has swept rapidly forward to the march of events to a point where he can force the Berlin government to take action.

In such an event the monarchist feeling in Bavaria may rush the country into civil war.

The atmosphere is tense, as in the days which preceded the red revolution in 1919 here. Monarchist military organizations marched through the streets, singing, and Socialists and Communists are keeping discreetly within their doors.

Dusseldorf—The great Separatist demonstration here Sunday terminated in a veritable massacre. Scores of persons were killed and hundreds wounded, included many women and children. Dusseldorf still teems with excitement and more trouble is feared. French cavalry and armored cars are patrolling the streets.

The French occupation authorities hold the German Green military police—the Security police, responsible for the outbreak, declaring that they started the shooting, in which the Communist groups later joined.

The hospitals and police barracks are filled with wounded and French military doctors are rendering all possible assistance.

TERROR RIOTS SWEEP SOFIA

Execution of 100 Communists With 15 Students Renews Revolt.

Athens—Terrorism prevails in Sofia messages from the Bulgarian capital said Sunday. Passage in and out of the city has been forbidden and circulation of automobiles stopped. Officers and under-officers of the army, loyal to the government, have been enrolled in four companies and are guarding public buildings.

Numerous communists, including 15 college students, have been executed during the rioting, according to reports reaching here which declare the Bulgarian capital is still in a state of panic.

The government of Professor Zandoff is taking extraordinary measures to put down the disturbances, but the agitation among sympathizers of the Stamboulsky regime overthrown by Zankoff, continues.

In face of present dispatches, recent reports from the Bulgarian capital stating that the government had matters well in hand and that the revolt could be considered at an end, are felt to have been too optimistic.

It is understood the Zankoff government recently executed 100 Sofia communists, and that the Bulgarian rebels reoccupied Vidin, defeating Zankoff troops.

A large force of communists has retreated into the foothills of Mount Murgos, and fiercely resisting capture.

NORTHVILLE YOUTH GUN CLUB STAGED TWO-DAY TOURNAMENT.

The annual fair tournament of the Northville-Plymouth-Gun club was a decided success. Some twenty odd shooters from Michigan and Ohio attended and competition was keen from the very start. During the two days of the shoot, some of the best shooting ever witnessed on these grounds, was done by the trapshooters contesting. Through the courtesy of the Peters Cartridge Co. the shoot was managed by Mr. Hall, whose management of a tournament is enough to insure its success, and this tournament was more than that. Frank Hills was in charge of the field, most ably assisted by R. C. Miller of Lansing. H. W. Potter took charge of high-gun trophy by turning in a perfect score on the hundred targets on Friday. It was a "plumb center" shooting exhibition throughout, and looked like he had the habit. Frank Holzner took second honors with 89, and Frank Hills "busted" 98 clays in his string.

The second days shooting was not as pleasant, owing to a wind blowing from the cold northwest nearly all day, and an overcast sky, which made the "seeing" none too easy. In spite of these handicaps the scores turned in were mighty fine. Fred Brent and Wm. Cavers tying for high with 99 each, closely followed by R. C. Miller, Bert Gaylord and F. Briggles with 98 each. H. W. Potter (can't keep him down), E. Burroughs, Dr. Britton and J. Campbell turned in 77 each. 5,200 targets were shot at, with a score of 91 1/2% on total.

Twenty-six trophies were carried away by the contestants, and all had a very good time.

A Woodmansee, retired farmer, Grace avenue, says: "I took Doan's Kidney Pills and they proved so beneficial that I recommended them to anyone suffering from kidney complaint. I had a bad spell with my kidneys. They weren't acting regularly and at times the secretions passed too frequently, then again were scanty and painful. Backache had me all bent over for several days, and there was a deep-seated pain across the center of my back. I had a tired, drooping feeling all the time, so I inquired at the drug store for a good kidney medicine and they told me to try Doan's. They proved to do just as represented, and soon cured me up in good shape." 60c at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 1

GOD IS TALKING TO YOU

This moment while you are reading that voice is speaking—to encourage—to help—to suggest—to guide.

Abraham heard the Great God speaking to him in Ur of Chaldees. His faith and obedience placed him high in the world's esteem.

Paul, on a trip to Damascus, to do what he thought was his duty, heard a Divine Call that sent him into a new path of power and everlasting good.

Martin Luther trying to do penance for his sins heard the voice of God enunciating a wonderful principle. He started a campaign that has altered religious thinking for all time.

John Wesley heard God talk to him and felt his heart strangely warmed. Because he heard and felt he became leader of a religious awakening that has brought an untold amount of good.

Your best interest, highest good, future state swings upon the hearing of the voice of God and obeying. It is a quiet, modest, powerful voice—one that we must listen to sometime.

Do as Abraham and Moses and David and Isaiah and John Baptist and many others did—listen and obey and win.

METHODIST SUNDAY SCHOOL

First Presbyterian Church

The church is a power in the community to the degree that its constituency is willing to make it serve the needs of the community. There is no higher type of service we can render to our fellow-man, than to make plain the message of Him who died that all might live.

Do You WEAR Out Clothes or WASH Them Out?

Clothes are more often worn out on the scrub board and through the wringer than through ordinary wear. That's why we say that Federal-washed clothes will wear longer.

At Federal Laundry we use no scrub boards, no wringers, no chemicals. Your clothes are washed in softest water with mild, pure soap. Then the water is gently whirled out of them in our modern centrifugal extractor. And they are dried and ironed with the greatest care.

You may send your washing to Federal with absolute confidence.

(1) When cattle, calves, hogs, sheep, lambs, goats, kids, horses, mixed carloads, charges shall be based on the carload rate and minimum weight for that kind of stock which on a straight carload basis produces the highest charge, subject to the exceptions in (2) and (3) below.

(3) Charges on mixed carload shipments of cattle and calves shall not exceed charges computed on basis of the cattle rate at actual weight of the entire shipment or at the cattle minimum weight if greater.

The order, according to Deputy Commissioner W. P. Hartman, was issued in conformity with resolutions and requests of the Michigan Potato Growers' exchange, the Michigan Potato Producers' association, the State Potato Shippers' association and the Michigan Agricultural college.

Grades established are U. S. Fancy, Number 1, U. S. Number 2, U. S. Number 3, U. S. Number 4 and U. S. Number 5 and Ungraded.

The first includes large and practically perfect potatoes and is provided for the use of those who wish a special grade for the superior potatoes which meet its requirements.

NORTHVILLE BOYS TO WITNESS CASE GAME.

Dr. L. W. Snow is a booster for his own home town and he may always be found on the front row among the rooters for the home team. Before the foot ball game last Thursday at the fair he assured the members of the Northville High school team that if they defeated Plymouth they would take the whole "home" to the Case-Michigan game at Ann Arbor this coming Saturday, and true to his promise he is planning to take the members of the victorious team to see the big game.

GEORGE LANG DREW HEAVY FINE.

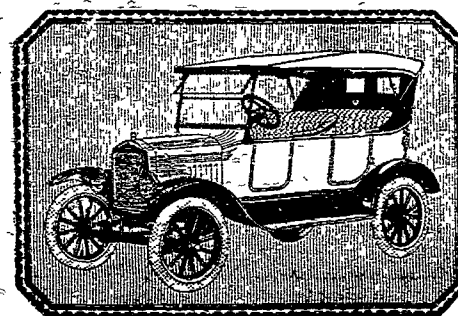

Saturday night an automobile being driven by George Lang and a woman companion ran into another car on

North Center street, doing considerable damage. Instead of expressing his regret because of the accident, Lang and the other lady who gathered about the scene and he was finally placed under arrest by Marshal Lyke and taken before J. S. G. H. Baker, who gave him a \$50 fine and a 30 day suspension from driving.

The woman who was with the officers they had taken to the jail place on the north side and the lot of bottles in their car were thrown up at that place.

Ford THE UNIVERSAL CAR

New Touring Car

Looking at the new touring car from the side, you are at once favorably impressed with the effect of longer, more graceful lines secured by enlarging the cowl and raising the radiator.

Standing upright and overman top lend material aid in giving the entire car a lower, more stylish appearance.

An apron connecting the radiator with the fender skirts is also a decided improvement.

A comfort feature much appreciated by owners, is the additional leg room provided by the enlargement of the cowl.

Allow us to show you the entire line of new Ford cars now on display in our show room.

These cars can be obtained through the Ford Weekly Purchase Plan.

from a

Firestone DEALER

At the Latest Prices—The Lowest in History

You will find the Firestone Dealer one of the stable business men of your community. He offers a clean, fresh stock backed by a well organized service. He wants you as a permanent customer.

That is the reason he sells Firestone tires. He knows and has plenty of proof that they are the best tires on the market. He can give you the greatest value and thereby retain your trade for years.

Every day you find new proof of this unequalled value. On the 15th of this month, Firestone Tires set two new dirt track records at Syracuse when Tommy Milton slid around four turns at every mile, and covered the 100 miles in 75 minutes, 33 hundredths seconds. He also established a new world's record for one mile by covering it in 42 and 28 hundredths seconds. The next four cars to finish were also equipped with Firestone Gum-Dipped Cords. Each one of them

went the entire race without a stop. This and every other important race this year was won on Firestone Gum-Dipped Cords and Steam-Welded Tubes. Such performance gives you conclusive proof of their strength and durability.

Not only do race drivers use Firestone Tires as protection to their lives and the surest way to victory, but the largest tire buyers in the world insist on and buy Firestone Tires for economy and service. These buyers include the leading car manufacturers, the biggest commercial car operators and the taxicab and motorbus operators. 57,639,714 tire miles were sold to taxicab and motorbus operators in the month of August.

THE BEST FAIR YET

(continued from page 1.)
and the display of cars would have been a credit to Detroit—in fact was a much better exhibit than was shown at the State fair. Roy M. Terrell had charge of this exhibit and he is to be congratulated upon its success. Many different makes of cars were shown and the exhibit contained the very latest models.

The Live Stock Display.
Everybody was pleased and surprised at the magnitude of the display of livestock, especially of the showing of sheep and cattle. All of the splendid cattle exhibited were owned within a very few miles of Northville, though many exhibitors from distant points were notified not to come because of lack of room. South Lyon and Eloise were the two farthest points from which cattle were received. The exhibit of hogs was especially large and many fine specimens were shown.

Fruit and Vegetables.
This department was never more attractive than this year and the quality of the exhibits attracted favorable comments from all visitors. The display was not only larger than any previous year, but the quality of the fruits and vegetables shown were of exceptionally high quality. Owing to lack of space in the building a tent was used for the vegetable display and for the demonstrations conducted by the girls' cooking and canning clubs. The society is especially indebted to Mr. and Mrs. E. J. Verdura, Harry Rackham, Ralph Carr, county agent, and J. W. Wagner, boys and girls' club leader, for this display of farm products and without their assistance and hearty co-operation the exhibition could not have been given in such an attractive manner.

Plymouth Day.
Thursday was Plymouth day and our neighbors turned out by the hundreds, forming a procession that was most imposing. There were nearly one hundred cars in the parade, which was led into the fair grounds by Fred D. Schrader, and members of the Plymouth Riding Club, who were mounted on handsome prancing steeds. The Plymouth band and fire department came next and then members of "the city commission," who were followed by numerous mercantile displays and attractively decorated cars filled to their capacity. Schrader Brothers had a most attractive float representing a house occupied by "newly weds" and the contractors of Plymouth were represented by a handsome house, mounted on a truck. The procession proceeded around the track and the great crowds which witnessed the parade cheered heartily. Our neighbors remained for the evening program and all expressed themselves as well pleased with the fair and their very cordial welcome.

Redford Day.
Friday was Redford day and our neighbors from the tasteful growing community in the state were out in force, more than forty cars being in the procession, each one bearing a banner indicating that "Redford" is a reality on the map. No attempt was made at trade displays, but the people responded to the invitation extended and came over to assist in making the fair a success. They were met at the gate by the Northville band and escorted to the grounds by the local committee.

NOTES.
Never have Northville fair visitors been favored with such splendid music as they were this year. Our own band rendered splendid services and in addition there were the bands from Plymouth, the Ford Motor company's band, the Cass Tech school band with Miss Eunice Northrup as soloist, and the Hawaiian singers, the latter organization being sent over by the Ford Motor company for Saturday night.

The displays in the Main building were very attractive this year and this feature proved enjoyable and interesting. Tradesmen who made displays were well pleased with their success.

George Ferguson of South Lyon had an exceptionally attractive display of farm tools and modern farm machinery.

Saturday was Detroit day and while Mayor Frank Doremus was unable to be present on account of illness the city was represented by many of its citizens. The Cass Tech school band arrived during the morning hours and were most generous with its music until late in the afternoon. Miss Eunice Northrup sang a number of solos greatly to the pleasure of the large grand stand crowd.

To the great regret of everybody pickpockets did a good business during the week, a number of visitors reporting that they had been relieved of sums of money.

The free attractions offered by the fair were never better than this year and the immense crowds each afternoon and night greatly enjoyed them. Every act was good and the Earl sus-

ters and the Dellamead troupe composed of young women who performed on the Ferris wheel and gave the posing acts were especially pleasing. The fireworks were all that could have been desired. People were generous in their praise of the free entertainment given them.

The expenses in connection with a five-day fair are enormous and the officers were especially happy when they were favored with such delightful weather, insuring a good attendance. The free attractions, races, bands, ball games and premiums take a lot of money, and fortunately for the Northville fair all these expenses have always been paid in full.

The Detroit Grotto came Saturday afternoon and at the conclusion of the ball game gave an exhibition drill to the delight of an immense throng. Before and after the drill the members enjoyed themselves about the grounds and if they failed to see everything it must have been under cover. The merry group of men had a good time marching and singing and "putting up" like a lot of happy care-free boys. We trust they will come again next year.

In the football game on Thursday Northville's High School eleven easily defeated the Plymouth boys in spite of the intense heat, the game was snappy and was witnessed by a great crowd.

The handsome cup given by the Oakland County Horticultural Society in the fruit judging contest was awarded to the representatives of the Ypsilanti school. The school of Monroe, Howell, Holly, Plymouth and Ypsilanti were represented.

The Canton Community Club won first premium to the community club class. The Plymouth Grange was second and the Nankin Community Club third. The three displays occupied a space of 45 feet and made a most attractive exhibit. The Wayne county poor farm won first in the institutional exhibits and the Detroit House of Correction farm second. These two exhibits contained some wonderful vegetables and they were very much admired by all visitors.

Owing to the fact that the extra coops for poultry ordered by the association did not arrive until late Friday the display of poultry made by the boys' and girls' poultry clubs of the county did not show to advantage, but some handsome birds were exhibited just the same.

The Northville Exchange club's handsome silver cup went to a Mr. Hedka of Detroit who had a wonderful display of 16 White Wyandottes. The Detroit Sanatorium won first on pheasants, first and second on bronze

turkeys, first on geese and first on guineas.
