The election of ten directors for the ensuing two years results in the choice of the following:

James A. Huff, E. M. Starkweather, Thomas E. Mardock, Harry B. Clark, N. C. Schrader, Frank S. Neal, Marvin H. Sloan, A. C. Balden, S. Montgomery and E. L. Smith.

The election of officers resulted in the re-election of the present very efficient officials—H. R. Richardson, president; T. E. Mardock, vice-president; E. L. Smith, secretary; James A. Huff, treasurer. All the superintendents who served last year were re-appointed by President Richardson.

Plans for the fair for 1924 were discussed and it was decided to hold a five-day fair again this year and the last week in September was selected as the time—September 23, 24, 25, 26 and 27.

Resolutions were unanimously adopted expressing the thanks of the association for the untiring efforts of the officers, superintendents and all who contributed in any way to the success of the fair last year, and it was planned to make the fair this year better in every way and bigger in all its departments.

Just mark the fair date for next September on your calendar and begin early in the spring to plan for the big event.

MARK S. AMBLER DIED IN DETROIT.

Many Northville friends and acquaintances were greatly distressed Saturday morning when the news of the death of Mark S. Ambler at his home in Detroit became current about the village. He had been ill but a few days and death came unexpectedly and with a suddenness that was a great shock to his family. He was the son of W. H. Ambler of this village and he grew to young manhood in this community. For many years past he had been engaged in the wholesale lumber business in Detroit. Being of a happy, jovial disposition, he made friends easily and his circle of friends was extensive.

He is survived by his wife and two children—Shirrell W. Ambler and Mrs. Leila H. Ambler of Detroit. Funeral services were held at his late home, 2627 Ferry Park, Detroit, on Tuesday afternoon at two o'clock and interment took place at Rural Hill cemetery in Northville. Schrader Brothers had charge of the funeral arrangements.

FORESTERS INSTALLED NEW OFFICERS.

Court Northville, F. of A., installed its newly elected officers last Friday night and the meeting was one of more than ordinary interest. Grand Secretary Saunders and Grand Treasurer Kyles of Detroit were present and assisted in the ceremonies of installation. The following officers were installed:

Past Chief Ranger—W. H. Safford
Chief Ranger—Guy Martin
Sub Chief Ranger—Arthur Stilwell
Financial Sec.—J. W. Lay
Rec. Sec.—Harvey White
Treas.—Alfred Mitchell
Senior Woodward—George Dixon
Junior Woodward—M. J. Boelens
Lecturer—C. H. Sumbly
Senior Beagle—Elsworth Cramer
Junior Beagle—Bert Quigley.

SPECIAL MEETINGS NEXT WEEK.

Beginning next Tuesday night, the 22nd, a simultaneous religious campaign will be opened in many of the Presbyterian churches in the Detroit Presbytery. Northville is among the communities to be thus favored and special meetings will be held each evening until February 3rd. Rev. G. W. Simon, pastor of the First Presbyterian church at Lansing, has been assigned to Northville and will deliver the message each night. A large choir will lead the singing and the service of songs will be an interesting and inspiring part of the service every night.

The public is cordially invited to attend the meetings and to assist in making the campaign a successful and profitable one.

NORTHVILLE WON BOTH GAMES.

Northville's High school basketball teams won two games from Plymouth at the local gym last Friday night. Our neighbors turned out in great numbers and cheered their teams loyally but they were outplayed in both games. The girls' game was won by Northville to the tune of 31 to 22 and in the boys' game the score was 22 to 13. A good many fouls were called on the Plymouth girls because of rough playing.

A fine spirit of friendliness was manifested throughout both games and the rooters for both schools did their best on the side lines. Harry White is developing into a wonderful 'yell' master, and he was given splendid support.

KILLED WHILE HUNTING RABBITS.

Frank Layman, whose home was in Detroit, was killed while hunting rabbits in Livonia township last Sunday with four companions. The accident occurred a mile east of the Meadowbrook Country Club, and Layman fell mortally wounded after all four of his associates had fired at a rabbit. The four men did not know which of the shots was the fatal one, so they declared. An inquest was held Tuesday. The members of the hunting party were all Detroit residents.

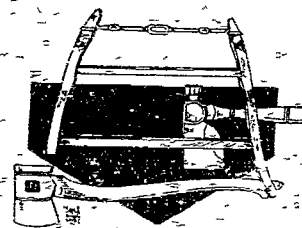

Mrs. A. A. Stington is spending the winter with her daughter, Mrs. James Erwin in Novi township.

their wives, enjoyed a bountiful dinner at Hotel Ambler and the feast served was a most enjoyable one, upwards of sixty being present to partake of the splendid repast. During the serving of the meal the Redford male quartet, under the direction of Roy Burgess, sang a number of selections to the pleasure and delight of all. Every number was enthusiastically enjoyed and the members of the quartet responded generously.

Don't Burn Blackened Lamps

At this season when so many hours are spent under the lamplight, Edison customers would do well to inspect their lights.

A lamp that has had 1,000 hours of burning—say, six months of daily use—has dropped perhaps 40 per cent in efficiency. In other words, it is burning up current that does you no service—and you pay the loss.

Edison Service includes the exchange of bright new lamps for your old blackened or burned-out lamps, as follows: 40, 60 and 100 Watt Sizes.

FARM DOLLAR IS IMPROVING

Purchasing Power of Products 7 Per Cent More Than Year Ago

Lansing—A distinct improvement in the financial condition of Michigan agriculture as a whole is indicated in the statistics for the year 1923 compiled by Verne H. Church, Michigan representative of the bureau of crop estimates of the United States Department of Agriculture.

The purchasing power of Michigan farm products on Oct. 15 last year was 73 per cent of what it was in 1913. This is 7 per cent higher than it was at the beginning of 1923 and 11 per cent higher than the lowest point which was touched in August and September 1922.

The total estimated value of the various crops not including livestock or livestock products was \$242,472,000 as compared with \$214,894,000 in 1921 and \$183,655,000 in 1921.

This represents a gain of nearly 13 per cent over 1922 and 30 per cent over 1921. Except for such crops as were out of season the valuation was computed on the basis of prices on Dec. 1. Otherwise the price used was that received in the marketing season.

Several crops, notably wheat, barley, rice and beans, commanded higher prices on Dec. 1 than on the same date in 1922.

A larger total monetary return was shown for corn, oats, potatoes, hay, beans and apples. The value per acre of winter wheat, corn, buckwheat, potatoes and hay was likewise higher.

Since production was increased only in winter wheat, barley, beans and apples, most of the gains if it is apparent must be due to better prices.

ROAD PROGRAM IS ANNOUNCED

Governor Plans Concrete Highways To Cost 15 Millions.

Lansing—Five hundred miles of concrete roads and such additional gravel roads as the State can pay for with funds derived from license tax receipts and the sale of road bonds will be built by the State Highway Department in 1924. Gov. Alex J. Groesbeck announced following a preliminary study of the tentative road program drafted by Frank E. Rogers, state highway commissioner, and submitted to the State Administrative Board last week.

Of those 500 miles, the Highway Department engineers say fully 100 miles can be built by the prison laborers already organized for road work.

The remaining mileage must be constructed by contractors employing free labor at an estimated cost of between \$30,000 and \$35,000 a mile, unless the prison camp crews are enlarged and provided with additional equipment.

The Governor's 500-mile program consequently would be in the neighborhood of \$15,000,000 as against \$22,844,513 the estimated cost of the 1,122 miles included in Mr. Rogers' proposal.

WANTS ENEMY FUNDS UTILIZED

Alien Property Custodian Has Plan to Secure Money to Trade

Washington—Creation of a federal agency to utilize in productive enterprise the enemy funds on deposit in the treasury to the credit of the alien property custodian was proposed in the annual report of Colonel Thomas W. Miller, the custodian, made public recently.

Colonel Miller suggested that two ends would be served by returning the funds to active enterprise—revival of business and commercial relation with the former enemy countries; and the reaping of profits by the federal corporation which could be, if desired, applied to settlement of claims which later might be adjudicated by the mixed claims commission.

"There is approximately \$130,000,000 of cash on deposit in the U. S. treasury to the credit of the alien property custodian, which sum will increase as the liquidation policy is carried out," Colonel Miller said.

WAYNE CRIME INCREASE BIG,
VOORHIES SAYS.

Crime in Wayne county, outside of Detroit, has increased about four times in the past 10 years, an increase which is much higher than it should be, based upon the population growth during the same period. Paul W. Voorhies, prosecuting attorney says.

In 1913 only 163 criminal cases were tried in the Wayne county circuit court, while last year 715 criminal cases were tried.

Only one circuit judge has been assigned to criminal cases recently, Mr. Voorhies said, and as a result, the docket has become crowded. The prosecutor said that he believed another judge would be assigned to criminal cases next week to clear up the docket.—Detroit News.

EMIL STEVENS IN LOVE IN
"COTTAGE"

Emil Stevens, noted singer and actor of Mrs. Fiske, coxter to the Garrick theatre next Saturday evening in his latest vehicle, "Love in a Cottage," a new play by Henry Kitchell Webster, presented under the direction of Messrs. Shubert.

The story is one of modern suburban life, and relates the struggles of a young married couple who find love in a cottage instead of the proverbial mansion. They are blessed with a bouncing boy, a first mortgage, and a flock of gossiping neighbors. Making both ends meet causes them a lot of worry, and the husband, an architect, loses his job just when the butcher, the baker, and the piano maker are pressing their bills the hardest. The wife (played by Miss Stevens) proves a friend in need, and her ideas encourage him to climb the ladder to success.

Think it over.
Perfection in art is, perhaps, more sudden sometimes than we think, but then the long preparation for it—unseen germination, that is what we ignore and forget.—Tennison

THE KING'S DAUGHTERS HELD
ANNUAL MEETING.

The King's Daughters held their annual meeting and spread at the home of Mrs. F. S. Neal on Tuesday night and there was a good attendance. The spread was all that could have been desired, and the members present made merry. The following officers were chosen for the ensuing year: Leader, Celia Richardson, vice-leader, Stella Staik, secretary, Lila Chapman, assistant secretary, May Jones, treasurer, Alice Hunkley.

BOUND OVER TO CIRCUIT COURT.

Henry Toussant, who was arrested charged with committing a felonious assault upon Mary Segar, had his arraignment before Justice Patterson in court, Tuesday, and he was bound over to the circuit court to trial.

He was released upon bonds in the sum of \$1,000.

The complainant repeated her story as told to the officers at the time of Toussant's arrest.

A large number of Northville people came away disappointed because the prosecuting attorney and the defendant's attorney agreed that the trial should not be held under the gaze of the bearing of curiosity seekers.

The annual meeting of the Baptist church will be held on Saturday afternoon.

The ladies Aid of the Baptist church met with Mrs. Frank Nook yesterday afternoon.

John Arthur, weighing nine and a half pounds, came to make his home with Mr. and Mrs. Floyd Coppling January 9th. If he likes the place he will remain permanently.

Many Walled Lake friends will extend their sympathy to Superintendent A. H. Upton in his great sorrow caused by the death of his father, which occurred in Florida a few days ago.

At the regular meeting of the Methodist Ladies Aid society the following officers were elected: President, Mrs. Elizabeth Chaff; vice-president, Mrs. W. H. Hinton, secretary, Miss Nellie Carter; treasurer, Miss Clarence Chaff.

Eye Emits Strange Power

That the human eye emits some unexplained power probably unknown to the layman, has been demonstrated in an English experiment with delicate electrical experiments.

The Record

Those having the misfortune to suffer from backache, urinary disorders, gravel, dropsical swellings, rheumatism, or other kidney and bladder disorders, will read with gratification this encouraging statement by a Northville man.

"A Woodmansee, retired farmer, Grace avenue, says: 'I took Doan's Kidney Pills and they proved so beneficial that I recommended them to anyone suffering from kidney complaint. I had a bad spell with my kidneys. They weren't acting regularly and at times the secretions passed too frequently, then again were scanty and painful. Backache had me all bent over for several days and there was a deep-seated pain across the center of my back. I had a tired, drowsy feeling all the time, so I inquired at the drug store for a good kidney medicine and they told me to try Doan's. They proved to do just as represented and soon cured me up in good shape.'—66c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y."

STATE NEWS
IN BRIEF

Lansing—The annual convention of the Michigan State Association of Fairs was held here.

Maple City—Adelbert Lewis of Maple City was appointed probate judge of Leelanau county, by Governor Groesbeck recently.

Ironia—George Majumka, 20 years old, was killed last week when he fell across a buzz saw. He was sawing wood at the farm of a neighbor in Odessa Township.

Lansing—The committee of the state paid out \$54,923 in 1923 for chickens, turkeys, sheep and other fowls and a total killed by dogs according to a report completed by the auditor general.

Ann Arbor—The Ann Arbor railroad has petitioned the Interstate Commerce Commission for authority to issue \$1,002,000 of equipment trust certificates to finance the purchase of 500 box cars.

Lansing—Florida C. A. Lockwood, 45 years old, for 20 years an employee of the local postoffice department and for the last six years postmaster at North Lansing, died here recently, following a brief illness.

Paw Paw—Southwestern Michigan fruit growers have checked over the damage done to their orchards by the cold wave. Mild weather up to the recent cold wave had a tendency to make birds and woodpeckers.

Pontiac—The pulpit of Rev. Father T. J. Brady, who died here recently, after 30 years in charge of St. Vincent de Paul Catholic parish, will be filled by Rev. Father James B. Thornton of St. John's church, Monroe.

Lansing—Announcement has been made here that arrangements have been completed for the annual Lansing Automobile Show, Feb. 5 to 9 in the Hudson Essex garage, near the business center. The exhibition promises to be one of the largest in Michigan.

Kalamazoo—Dr. Benjamin Southworth, 47 years old, a Scotch-Irish one of the most widely known physicians of south-western Michigan, died here recently. He owned a wide popularity in several counties to the fact he would give away his services to the poor, who never called.

Grand Rapids—While the Rev. H. E. Walker, pastor of St. Paul's Lutheran church, was delivering the funeral service at the services for Oliver College in the church last week, Joseph C. Coode, 35, grocer and lifelong friend of Coode, died of apoplexy. Coode was "stricken" as the minister began the sermon.

Lansing—Letters have been addressed by the State Department of Conservation to all of the Representatives and to the two Senators from Michigan, asking them to introduce and support legislation which would cause the Federal government to deed the unused portion of Round Island, adjacent to Mackinac Island, to the State.

Detroit—Despite the fact that in December 1923, Detroit's postal receipts made so large a gain over the same month in the preceding year that the city ranked second in the country, the continued heavy business done at the local postoffice once more brought it well up in the game for December 1923 over those of December, 1922.

Lansing—A request has been received from the Traverse City state hospital by the administrative board for an increase in its \$50,000 appropriation for the construction of a dining hall for women patients. It was explained that by authorizing the expenditure of a greater sum a combination building which would afford a recreation room for the patients, can be erected.

Lansing—A tentative highway program for 1924, suggesting total expenditures of approximately \$22,000,000, has been submitted to the highway finance committee of the state administrative board by Highway Commissioner Frank Rogers. The program probably will be revised to meet the state's financial condition, Rogers said. It allots the cost, about \$5,000,000, to the counties, \$15,000,000 to the state, and \$2,000,000 to the federal government.

Port Huron—Police Court jury recently convicted William Ellerthorpe, Clyde Township farmer, of not paying his dog tax, and so far, the constitutionality of State Dog Tax law has been upheld. Mr. Ellerthorpe, however, says that he will appeal his conviction to the circuit court and if necessary, to the Supreme Court in his effort to have the law declared unconstitutional. Mr. Ellerthorpe, following his conviction by a jury of six men, was fined \$10. The fine has not been paid pending his appeal.

Marquette—Shortening of the open season on partridge in the upper peninsula will be one of the questions to be considered at the spring meeting of the Northern Michigan Sportsmen's association. Delegates from the lower peninsula to the annual meeting of the Congress of Michigan Game associations, held in Marquette reported that only a few partridge are left in the lower part of the state and that unless a closed season in southern Michigan is ordered, there is a danger of the birds becoming extinct.

Do You WEAR Out Clothes or

WASH Them Out?

Clothes are ruined when put on the scrub board and through the rings, then through ordinary wear. That's why we say that Federal-washed clothes will wear longer.

At Federal Laundry we use no scrub boards, no wingers, no chemicals. Your clothes are washed in softest water with mild, pure soap. Then the water is gently whirled out of them in our modern centrifugal extractor. And they are dried and pressed with the greatest care.

You may send your washing to Federal with absolute confidence.

BAPTIST CHURCH NOTES.

Our Sunday school went over the top again in attendance. This is the third time in as many months our school has broken record attendance.

A small crowd enjoyed a big treat last Wednesday when Harold Fitch gave his lecture on "Live and Let Live." Mr. Fitch is not only a lecturer but a reader and impersonator.

On the third of next month we will have a congregation night. Supper will be served and another good get-together time for all. We hope to have these gatherings every month.

See our ad for next Sunday's subjects.

Looks like we were to have a choir at last. Miss Fay Christ has the matter in hand and prospects are fine.

One of our youngest C. E. members will have charge of the regular service on Monday and all. She will be assisted by other young members of the society.

Watch our ad and this column for another interesting and we trust helpful service. Something very different.

There will be a reception of members also at this service. This will make six Sundays that the "Lord is adding those, such as are being saved."

The Sunday school is at 12:00, let everyone find a place.

In the evening at 7:30 the pastor will preach on God's Illumination. This will be an interesting message for interesting people.

Our family night will be next Thursday with a pot-lunch supper under the management of the Dolph Bible class.

Our program will be made up of local talent with an interesting moving picture. Let us rally as a church to the last man, woman and child, and have a good get-together rally time.

THAT WAS SOME FAIR.

The Senior-Junior fair at the High school building on Tuesday evening drew a good sized crowd and all had a good time. Various articles, varying from "hot dogs" to choice home made candies were offered from prettily arranged booths. There were the fortune teller, the snake charmer, a musical show and numerous other mirth provoking novelties introduced. A court presided over by Judge Markham, who was ably assisted by Lawyer Marks Yerkes did a thriving business and many were taken into court by Northville's efficient policemen.

Ida Rose Cavell and Ada Ely. So charming did the "officers" appear in their attractive uniforms that one was arrested when it failed to violate some of the "laws" and were not brought before the bar of justice. It was a merry crowd and a handsome sum was realized from the various concessions.

A PROMPT ADJUSTMENT.

To Whom it May Concern: We had a fire at our home a few days ago. A lighted candle had been left in a so-called ivory candle stick and set it afire, damaging more than \$200 worth of things. We left the claim with the agent of the Detroit Fire and Marine Insurance company, E. H. Lapham, on Friday morning and had a check for the total amount of claim the Tuesday following.

LEADING A BRICKYARD STRIKE

The Hebrew people were in slavery and had been for 400 years.

The Egyptians had tried to wipe out this people by making their life a burden.

Moses—the deliverer—Hebrew born—Egyptian trained—desert cured—divinely directed—led these weary folks out to freedom.

Moses had all the learning that the university of Alexandria and all other sources could give him.

Moses was the greatest law giver the world ever saw and his code has been the basis of all world systems of jurisprudence.

Moses was a great organizer—a builder of clouds—generals at all the "armies" and leading them into a new world of great power.

Moses is a giant among great characters and only one man of Nazareth has been able to class him.

METHODIST SUNDAY SCHOOL

First Presbyterian Church

This is go-to-church month. Of course, down deep in your heart of hearts, the place where you really live and are your own real self you know that you ought to go to church. The church stands for those things that make life worth living and makes of your community a safe place in which to raise your children. Going to church not only raises a man's reputation among his neighbors but also increasing the respect he has for himself. No man should attempt to live in God's world without God—it does not pay.

At 10:30 a. m.—Morning Worship. This is God's day. He has reserved it for himself. We should use it in praising Him.

At 12:00 o'clock, noon—Sabbath School Hour. Remember the old song "Bringing in the Sheaves." There are plenty of sheaves in Northville to be gathered. How about it? Shall we gather them in?

At 6:30 p. m.—Young Peoples' Christian Endeavor. There is room for all, and all young people are invited to this service.

At 7:30 p. m.—Evening Praise Service. Good music at every service of this church. Here the spirit of friendliness abounds.

PARDON APPEAL FOR LT. GRIFFIS

CLEMENCY PETITION TO BE PRESENTED TO GERMAN PRESIDENT

TWO MILLION NAMES SECURED

Officer Tried To Kidnap Bergdahl—Has Seen in Jail Five Months—Punished Sufficiently.

Washington—A petition on which appears approximately 2,000,000 names will be presented to D. O. O. Veid, German ambassador to the United States, and to President Ebert, of Germany, to pardon Lieutenant Coriss H. Griffis of Hamilton, O., the American who was taken to the American Grover Cleveland Bergdahl American draft dodger.

Griffis was seized by German civil authorities in the fight which followed the kidnapping effort, was tried and sentenced to serve 21 months in a German prison and to pay a fine. He has served five months of his sentence.

Several weeks ago a committee of Americans, headed by Dr. James Whitney Hall, of Chicago, began a campaign to have the prisoner released. Finding that the state department was in no position to interpose in behalf of the American on the ground that he had been found guilty of an offense against the domestic laws of Germany, the American committee turned its attention to the prospect of a pardon or at least of a commutation of Griffis's sentence.

Petitions were circulated in every state in the union, and in a few weeks time 2,000,000 signatures were attached to it. This document is to be transmitted to the German president through the embassy. If Dr. Wedfield feels inclined to forward it to Berlin.

The plea for a pardon is based upon the declaration that Lieutenant Griffis has been punished sufficiently in the judgment of his American friends and that it would be an act of graciousness on the part of the German government to grant him an immediate release.

DAWES FLAYS DEBT ENVOYS

Hits Five Year's Bungling in Reparation Speech.

Paris—Opening his speech by accepting the chairmanship of the first experts' committee before the reparations commission and his colleagues on the sub-committee General Charles G. Dawes, of Chicago, told everyone exactly where to get off.

In a long, loud, cracking statement the senior American committee man reminded the allied statesmen and politicians that they had been limping around for five years bungling the reparations problem, and warned them that unless they forgo their peacetime bickerings and selfish grabbing ambitions and determined to make concessions and sacrifices necessary for an agreement the whole world would be plunged into catastrophe immediately.

General Dawes criticized every line that had been done—or not done—by the commission since the armistice. Speaking with the aid of voluminous notes, the general delivered a lengthy peroration.

The success of this committee depends on whether in the public mind and conscience of the allies and the world there is adequate conception of the great disaster, which faces each ally and Europe, unless common sense is crowned king.

General Dawes carefully qualified the exact status of himself, Mr. Owen D. Young, and Mr. Henry M. Robinson, so their associates will not be here that they are here under false pretenses, but fully realize that their judgment will have an important effect on American public opinion.

LARGE SUMS RECEIVED IN TAXES

State Treasury Collected Nearly 17 Millions Last Year.

Lansing—Contributions to the state treasury in 1923 from the department of state alone will total nearly \$17,000,000, it is believed; when all the figures have been completed. Up to December \$15,892,804.36 had come in. At least a million more is believed to have come in during December.

Excepting the state auditor general's department, which collects the direct state property tax and a few other fees, the department of state is now the largest money-receiving agency in the state government.

Automobile license taxes alone brought in \$3,806,205.45 in the first 11 months, a sum which December is believed to have increased to at least \$9,500,000.

This means that for the first 11 months of 1923 there were licensed 728,493 motor vehicles of all kinds. These included 651,463 passenger cars, 72,879 trucks and 156 motorcycles besides 6,680 trailers. There were 1,847 dealers licensed.

Corporations tax and filing fees collected came to a total of \$5,648,437.80 during the 11 months. As this sum at present is involved in supreme court litigation, the total may be changed before the statistics are completed.

THIS MAY BE TRUE (I)

It is said that a Northville motorist who made a journey to Florida last fall sold enough gasoline on his trip to pay all expenses and this is how he did it. At first he put a new-fangled carburetor on his car. It was guaranteed to save 20% on gasoline. Next he added special spark plugs that were good for another 20%. To save another 20% an intake super-heater was put on. Then the crankcase was filled with an oil that would add 20% more. Next he installed a patented rear axle good for 20% and finally equipped the old bus with high-pressure "cords" that would bring another economy of 20%. With all these appliances he was saving 120% of his gasoline supply. While driving to Florida he was compelled to stop every hundred miles and draw off 20% of his gasoline which he sold along the way to pay expenses. Can you beat it?

D. J. C. RAILWAY FARES WERE INCREASED WEDNESDAY

Under authorization of the Michigan Public Utilities Commission interurban fares of the Detroit Jackson & Chicago railway on January 15th advance to two and three-eighths cents per mile where such transportation is paid for singly.

However, for the benefit of regular riders the Detroit Jackson & Chicago railway at the same time inaugurates a sixty day trial period with a series of commuters' tickets that will permit such riders to travel between two given points at practically the same average rate as has existed.

The commuters' tickets are issued in three forms as follows:

Twenty rides to be used in 20 days on local and express cars by the purchaser only.

Thirty rides to be used in 30 days on local and express cars by the purchaser or members of his family when traveling together.

Fifty rides to be used in six months on any passenger car, including limited, good for the holder thereof and party.

These commuters' tickets will generally be sold at waiting rooms but they will not be sold by conductors on the cars.

The commuters' ticket sale is purely experimental and their continuance depends wholly upon an increased amount of riding. Under the order of the commission the company has not only a right to issue commuters' tickets, but it has a right to make special arrangements with municipalities providing rates offered one commuter must be offered another if officially asked for providing the cases are substantially the same. "but" says the order "the existence of the competition of other means of transportation and the relative extent or severity thereof shall be deemed to affect the similarity of conditions."

CARELESSNESS CAUSES MUCH CHILD MORTALITY.

Where there is smoke there must be fire. The death of a child from mechanical suffocation, while a tragic occurrence, is but one manifestation of a much vaster and more dangerous evil—that of human carelessness. Thus commented Dr. R. M. Olm, Michigan Commissioner of Health, after hearing of the suffocation of a 10-months old child from stearate of zinc. Stearate of zinc makes excellent powder for toilet use and also for dusting furniture, but the dangers of letting it lie around for children to get hold of is well illustrated by the case

at point. While no more harmful than other powders, stearate of zinc should be placed out of the reach of youngsters' prying fingers.

Far too many cases of child death are caused by the careless mother who leaves a pail of water on the floor while she answers the telephone. Others give children easy access to tubs of hot water on wash day and deaths from scalding result. Mortality of children who take poison by mistake, of medicine at the wrong time, is also traceable to neglectful parents. The "loose gun around the place," always followed up by the "didn't know it was loaded" plea, is

so common an occurrence as to barely warrant mention. Items such as these form that many more causative agents in this country's high child mortality rate. Exercise a little care, folks, and at least cut down your funeral expenses.

HOW TO STOP BOOTLEGGING.

James S. Butler, sheriff of Oakland county, says: "If all violators of the prohibition law were given terms in the state prison at Jackson there would be less violation of the law. We are not in sympathy with the 30, 45 and 90 day terms in the Oakland county jail which are now given."

CHINESE SHOTS KILL AMERICAN

MISSIONARY VICTIM OF BANDIT DIES—CO-WORKER HELD CAPTIVE.

REWARD OFFERED BY OFFICIAL: Wife of Slain Man Expected to Recover—U. S. Legation Urge Drastic Action.

Peking—Professor Bernhard Hoff, an American missionary, died last Sunday in a hospital at Ssangyangfu, Hupeh Province, from wounds inflicted a few weeks ago by brigands who also shot down his wife and kidnapped Mrs. Juliana Kilen, a co-worker from Northfield, Minnesota, when they raided the mission at Tsaochang. Mrs. Hoff is expected to recover. Mr. Kilen still is missing.

General Wu-Petufu, leader of the Chinese military party and commander of the northern provinces, has offered a reward of \$10,000 for the rescue of Mrs. Kilen. Mrs. Kilen is reported to have been seen a few days ago, apparently well, in Judchow, Honan Province.

Professor Hoff and his wife were missionaries of the Swedish branch of the Lutheran church in the United States.

After the mission was invaded the three missionaries were warned against trying to escape. The Hoff's, however, not knowing the Chinese dialect, which the brigands spoke at tempted to run away and both were shot down.

Mrs. Kilen, a veteran missionary who understands the brigands' tongue overheard them plan to take Mrs. Hoff with them and promptly sacrificed herself, persuading the brigands to take her instead of the wounded woman.

The brigands were traced to the Honan Province but there the trail apparently was lost.

Officers of the American legation at Peking have been in Honan Province urging Chinese officials to take more drastic steps against the brigands.

STATE TAX LEVY IS BOOSTED

Census Shows Big Increase in Debts and Valuations in 42 Years.

Washington—Summary of the taxes and public indebtedness in Michigan and its political subdivisions, published today by the census bureau, show that the state's per capita levy of general property taxes has increased more than that of any other of the 35 states thus far reported for the period from 1880 to 1922.

The per capita levy of general taxes in Michigan was \$41.67 in 1922. In 1880 it had been \$5.27. Nine other states had a higher per capita general property tax in 1922, but all of these had also a higher tax than Michigan in 1880, so that the increase was not as great.

In one other division of the statistics Michigan also leads all the states thus far reported. Its increase of debt in the state and all subdivisions was the greatest in the entire list of 35. The percentage of increase in Michigan's case between 1912 and 1922, the years compared by the census bureau, was 503 and the closest approach was in North Carolina where the percentage was 422.

REBELS HOLD TAMPICO PORT

Ships Are Prohibited From Entering or Leaving Harbor.

El Paso, Tex.—Rebel forces, in a combined army and naval move have blockaded the port of Tampico. Wireless dispatches received in El Paso Monday stated.

According to the dispatches, virtually all the navy commanded by officers who joined the de la Huerta revolt were outside the port and ships were prohibited from either entering or leaving the harbor.

Revolutionary forces are massed in front of the town on the land side and a general attack is imminent, it is said in radio dispatches.

A British cruiser has arrived at Puerto Mexico, in southern Vera Cruz, to protect British interests, according to E. S. Reynolds, one of 12 Americans who left from Puerto Mexico aboard the steamer Yamaria. Puerto Mexico is held by the revolutionists.

RUHR VICTORY IS EXPENSIVE

Cost of Forcing Germany to Exceed to Reparations High.

Paris—One year after France, with her Belgian ally, went into the Ruhr to compel Germany to pay her reparations bill according to the terms of the Treaty of Versailles, an operation which England officially denounced as illegal and likely to lead to disaster, France is receiving coal and coke to the extent of several thousands of tons daily toward the reparations account.

It cost France about \$50,000,000 to force Germany to her knees. It cost Germany untold trillions of paper marks, actually representing, however, many millions of dollars and brought the country to the verge of revolution and economic collapse.

STATE FARM GROUPS PLAN ANNUAL MEETS.

Thirty different state agricultural associations and groups will hold meetings at the Michigan Agricultural college, this year during Farmers Week, which is to be held February 4-8. Many of them will be holding their regular annual meetings, while all will draw a large attendance to swell the crowds at the big state fair conference.

The Michigan State Farm Bureau comes first in point of numbers among the groups which will gather. Other of the larger units will be the Michigan Crop Improvement association, the Michigan Breeders and Feeders association, with its many affiliated breed associations, the Michigan Beekeepers association, the Michigan Potato Producers association, the Michigan Soils association, the Michigan Poultry association and various other special groups.

While the list of speakers who will appear upon the general programs at the larger units will be the Michigan Crop Improvement association, the Michigan Breeders and Feeders association, the Michigan Potato Producers association, the Michigan Soils association, the Michigan Poultry association and various other special groups.

Special exhibits, covering almost every phase of rural life and agriculture, are being prepared and will be shown in a new way this year. Entertainment features will again include the annual livestock parade, moving picture programs, special gatherings for the ladies who attend the conference, and other events of interest.

Crowds at the annual Farmers Week have run above 5,000 in recent years, and plans are being made to accommodate another record attendance this winter.

OAKLAND SCHOOLS IN POSTER CONTEST.

In order that pupils in county schools may be taught the necessity for caution while they are walking upon the public highways to and from school, the Oakland County School commission and the Oakland County Automobile club have planned a poster contest which will be opened the latter part of this week and which will continue until March 1st. Three prizes, \$7, \$5 and \$3 will be given by the Automobile club.

The best poster from each school will be sent to the school commission where they will be judged, and the three best of these posters will be awarded prizes. Since the prizes will be given to the schools and not to the pupils the money will be used in purchasing equipment or decorative material for the schools.

There will be 200 schools in the contest so it is expected that the race for first, second and third prizes will be a close one. The school commission, which is planning an exhibit for the Michigan State fair at Detroit next fall, hopes to be able to include the prize-winning posters in this exhibit.

The plan of the school commission is to have all of the pupils walk on the left side of the highway, facing traffic, so that they will be in a position to see the vehicle as soon as they are seen by the drivers.—Pontiac Press.

FARMERS TRY LUCK AT CATTLE JUDGING.

Clear the rug for "Dad," for the old boy himself is going to unlimber his judging cane and take a chance on picking the winner in the livestock show rings at E. A. C. during Farmers Week, February 4-8.

College students, high school students boys and girls club members and about all other classes of novices at the farming game have been seriously engaged in livestock judging contests for years. Teams have met at county, state, national, and international events to decide the best pickers of blue ribbon stock—bas always the events were listed for students.

The idea that maybe the real farmer himself knew something about livestock finally filtered through to someone's mind, and as a result behold the special event for practical, "practicing" farmers of the state, which is booked for Farmers Week.

FORD BAROMETER READS PROSPERITY.

If the public buys 10,000 Fords a day for any extended period the Ford Motor Co. may make as much money in the next two or three years as it made in the first 20 years of its existence.

Whereas the Ford profits were \$124,193,062 in the 12 months ended June 30, 1923, on average output of 6,000 cars a day they are likely at 10,000 cars a day for a full year to be \$200,000,000. At the 20-year average profit rate, \$79 per car, the Ford surplus on such a production might even show an increase of \$227,000,000 in one year.

These profit figures are huge, but they are nothing compared with the probable vastness of the Ford net assets and the going value of the Ford enterprise after 10,000 daily output has been continued a year or two.—Wall Street Journal.

WAYNE COUNTY LEADS AT MICHIGAN.

Though it draws its students from every state in the Union and from practically every civilized nation in the world, the University of Michigan remains primarily a "state university." Of the 11,860 students enrolled during the academic years of 1922-23, 7,159 were residents of the state, the remaining 4,641 non-resident undergraduates logging in consumption equal to the institution.

Wayne, Washtenaw, and Kent counties furnish the largest number of students, Wayne having 2,136; Washtenaw 1,187 and Kent 387. These ratios will hold true for the present year, it is said, as the total enrollment of the university is approximately the same as a year ago.—Detroit Free Press.

To Supply Only The Best In Furniture**and Funeral Merchandise with the Best****Service We Know How to Give**

With such a resolution firmly adhered to, both patrons and ourselves will be benefitted.

There is just one New Year's Resolution we ask you to make and that is "To Buy Only the Best."

With such a resolution firmly adhered to, we are assured of your patronage.

When our present contemplated improvements are completed we shall have a greatly enlarged space for the proper display of our handsome new Spring stock of Furniture and Rugs which we selected at the Grand Rapids Furniture Exposition last week. We have never seen handsomer designs in Furniture than are being shown this season and we purchased a stock that would be a credit to any city.

Our business for 1923 was very satisfactory, but we are determined to make 1924 the best year yet. With your co-operation we can do this.

All we ask is that you come here and look around. Get our prices before you buy.

THE UNIVERSAL CAR

Looking Ahead

LAST Spring a total of 350,000 people were disappointed in not being able to obtain deliveries of Ford Cars and Trucks, as orders were placed faster than cars could be produced.

The demand for Ford Cars and Trucks this Spring will, according to all indications, be far greater than last Spring.

Winter buying has been increasing at a greater rate than ever before.

Actual retail deliveries the past 60 days totaled 308,170 Ford Cars and Trucks, an increase of 1,961 a day over a year ago.

Over 200,000 people have already ordered Ford products on our purchase plan, the majority of whom will take delivery in the Spring.

The above facts are given with the suggestion that you list your order promptly with a Ford dealer if you contemplate the purchase of a Ford Car or Truck for use this Spring or Summer and wish to avoid delay in delivery.

You need not pay cash for your car. You can arrange to make a small deposit down, taking care of the balance in easy payments. Or, you can buy on the Ford Weekly Purchase Plan. This puts you on the preferred order list and insures delivery of your car at a time to be determined by yourself.
