## HOME SEWING

There has never been a spring in the history  
of our business when we have sold so many  
dresses to be made at home. The straight line  
effect and the easiness with which the fit is at-  
tained with a Pictorial Pattern combined with  
the very beautiful cloth and the extensive as-  
sortment we are showing no doubt account for  
them.

## Something Different

We want you to see the new Banner Krepe de  
Leen. You will find this cloth so moderate in  
cost (\$1.69 pr yd), so easy to cut and fashion  
into a modish dress, so satisfactory in its wear-  
ing qualities that you will want to use it in mak-  
ing some of the styles pictured in the new Sum-  
mer Pictorial quarterly just on sale.

"shop" before dinner. The evening  
will be free for individual ar-  
rangement. Tuesday the young people  
will visit the National Museum, Smith-  
sonian Institution, medical museum

Baltimore, Md., and soon after ten  
o'clock they will take their Pullman

scenery during the afternoon. They  
will arrive in Detroit Friday morn-  
ing at about 8:00 and their home.

The outing will be a most deligh-  
tful one and one of great educational  
value to the young people.

### ANOTHER OLD VETERAN AN- WERED LAST ROLL CALL.

Myron B. White died at his home in  
this village last Sunday, surrounded  
by the members of his family, after  
having lived more than 83 years. He  
was born in Williamson, New York,  
November 25, 1840. He grew to  
manhood in his native state and when  
the Civil war came, and a call was  
made for men to defend the Union he  
responded, and on December 10, 1861,  
enlisted in Company I, 98th New York  
volunteer infantry. He was wounded  
on June 1, 1862, and in January of  
the following year was honorably dis-  
charged for disability. In July, 1863,  
he again joined the army and served  
during the remainder of the war,  
being honorably discharged when the  
Union forces were mustered out.

Mr. White came to Northville in  
1871, where he has since resided. In  
November, 1880, he was united in  
marriage to Lydia A. White, and two  
children, blessed the union—Mrs.  
Albert Stockman and Harvey D.  
White of this place. Mr. White was  
for many years an enthusiastic mem-  
ber of the G. A. R. and he greatly en-  
joyed the companionship of his old  
comrades. He was a good citizen  
and his death is mourned by the many  
Northville people.

Funeral services were held at his  
late home on Tuesday and interment  
took place at Rural Hill cemetery.  
Rev. F. P. Knowles and William  
Richards conducted the funeral ser-  
vices.

### NOVI RECLUSE DIED ALONE.

John Crane, who resided alone in a  
little shack a mile north and a mile  
west of Novi, was found dead in his  
home by a neighbor who chanced to  
call. From all appearances Mr. Crane  
had been dead for a couple of days  
when his lifeless body was discovered.  
Schrader Brothers of this village  
were notified and the remains were  
brought to their funeral parlors here  
and prepared for burial. Funeral  
services were held Wednesday. The  
deceased was known to have had some  
relatives but they are not known to  
Novi people.

A number of friends and neighbors  
from Novi attended the funeral, which  
was conducted by Rev. F. I. Osborn.  
Interment took place in the Novi  
cemetery.

### TO IMPROVE ALSEIUM THEATRE.

Manager W. J. Thompson of the  
Alseium theatre has placed an order  
for new seats with which he will re-  
seat the main floor of the theatre.  
He has also placed an order for a pipe  
organ which will be installed within  
a few weeks. With these improve-  
ments completed Northville can boast  
of one of the most modern equipped  
and furnished playhouses in the state,  
and Mr. Thompson is to be com-  
mended for his enterprise and for the  
public spirit he is displaying in try-  
ing to provide his patrons with the  
very best.

Arthur Simmons has purchased a  
farm near South Lyon and has moved  
his family there.

### FORESTERS ENJOYED FAMILY NIGHT.

The annual banquet and entertain-  
ment given under the auspices of  
Court Northville, Foresters of Amer-  
ica, has become to be regarded as  
"family night," when the members of  
the court gather with their wives  
and children for an evening of real  
enjoyment; and the twenty-second an-  
nual gathering held last Friday night  
proved no exception to the rule. Over  
700 invitations were issued and by six  
o'clock a good portion of that number  
of guests had responded and were on  
hand ready to enjoy the bountiful  
dinner these annual gatherings  
always insure. The committees in  
charge of the affair had been faith-  
ful to their tasks and the hall never  
looked more attractive or inviting.  
The tables were beautiful in white,  
green and orange and handsomely  
decorated—baskets of choice ap-  
ples added their color to the decorative  
scheme. The dinner was all that  
could have been desired and was  
nicely served by the committees in  
charge, the ladies' wives and sweet-  
hearts of the members, assisting as  
only women can on such occasions.  
More than 500 people partook of the  
splendid dinner and there was still  
plenty of provisions left.

When all had been served and the  
tables cleared away, Peter Perkins  
orchestra appeared and furnished a  
program of dance numbers greatly to  
the delight of old and young. Old  
fashioned dances were indulged in  
and the happy company made merry  
until a late hour.

Grand Secretary Saunders of De-  
troit, Mr. and Mrs. Lester Eaton, Mrs.  
K. R. Fox and S. S. Cronin, past deputy  
grand chief ranger, of Pontiac were  
among the guests present from out-  
of-town.

### MRS. LYDIA WOOD DIED SUNDAY MORNING.

Mrs. Lydia Wood died at her home  
on Wing street at six o'clock Sunday  
morning after a short illness of only  
four days. She had been in poor  
health for two years, but was able  
to look after the household duties.

Lydia Field Wood was born in  
Warner, Merrimack county, New Hamp-  
shire, and came to Michigan with her  
parents at the age of four years, and  
father, Moses Field, settling on a  
farm at Cherry Hill, where the de-  
ceased grew to womanhood. She  
attended the State Normal at Ypsilanti  
and while there became  
acquainted with Theodore Wood who  
was a student there also. On Sep-  
tember 3, 1862, they were united in  
marriage, and to the union four chil-  
dren were born; three of whom died  
in infancy. She became a member  
of the M. E. church in her early girl-  
hood and attended the church at  
Cherry Hill where her father was  
pastor for some time. Mr. and Mrs.  
Wood came to Northville in 1885, and  
have lived here since that time with  
the exception of one or two years.

Mrs. Wood was a member of the L.  
O. T. M. and through the thoughtfulness  
of the members of the order she  
was able to be present at the banquet  
given on the evening of March 17th.  
Besides her husband she leaves one  
son, Bert Wood of this place a grand-  
son, Paul B. Wood of Plymouth, a  
granddaughter, two great grand chil-  
dren. Funeral services were held  
Wednesday afternoon and were con-  
ducted by Rev. William Richards.

But, too often, we forget that good times are  
not permanent. They are not like death and

In good times, it is well to look ahead and

good; to conserve our energies and our earnings

not, in some future day, be good, no time will  
find us unprepared.

## TWO MEN KILLED IN THUG ROUNDUP

POLICEMAN AND ALLEGED HEAD OF OUTLAW GANG SHOT TO DEATH IN BATTLE

LOST REC V-ED IN "ROOST"

Band Believed To Have Been Responsible for Series of Daring Daylight Holdups.

Detroit—Two men were lost in a pitched gun battle in "Robbers' Roost" on the Detroit waterfront Monday evening. Seven down-river police and sheriff's deputies broke up a band of four or five of the most desperate bank robbers and gangsters ever to invade the city.

The two killed were Benjamin Monroe, "Boss" Patrolman, who was shot through the heart and killed by the handcuffed leader of the outlaw band, "Leo Corbett," chief of the desperadoes, killed by Police Chief Albert Jaeger, of Ecorse, as he fled to ward a waiting automobile.

Two of Corbett's accomplices were captured after they had dived into the river and attempted to swim to the Canadian shore. A third gunman abandoned a fast touring car and fled into the swamps starting a man hunt covering an area of miles.

Currency running into the thousands of dollars was recovered either on the gangsters or in their lair. It was money obtained in numerous recent bank robberies, holdups and burglaries, police assert.

Corbett, the detectives said, was the leader of a band that came here about three months ago from Toledo. For weeks, the detectives had been on the trail of the gangsters. Corbett and his band, the detectives asserted, "pulled the jobs" that in recent weeks have made bank holdups commonplace.

The last two holdups attributed to the band took place only a few hours before the fight on the river front. These robberies netted \$7,300. About \$2,000 of the money, which was part of the stolen money, was found hidden in the "roost."

Walter Barfiski said to be owner of a rear beer saloon was robbed of \$5,000, and the branch of the Commonwealth Federal bank, at Michigan avenue and West Port street, yielded \$2,711, according to an announcement of B. R. Adams, assistant cashier.

GRAND JURY INDICTS SINGLAI

Is Outgrowth of Refusal To Test Before Senate Committee

Washington—Harry Singlair, indicted by a Federal grand jury here on ten charges, growing out of his refusal to testify before the Senate committee.

The indictment was in 10 counts each referring to a specific question asked the oil operator when he was last before the committee. The grand jurors held that these questions, all of which Singlair refused to answer were "pertinent to the matters and questions under inquiry before the said committee."

Demand for removal from office of Theodore Roosevelt, assistant Secretary of the Navy, has also been received in the Senate by Senator C. Dill (Dem.), Washington.

Declaring the assistant Secretary was far more culpable than was a superior, Secretary Edwin Denby, in the releasing of the naval reserve the Washington Senator introduced a resolution saying it to be the sense of the Senate that President Coolidge should call for his resignation.

It was stated that two of the victims were patients and the third a hospital employee. The other patients were rescued, it is said, and taken to the hospital across the river at Ishpeming.

Because of the storm which swept the Upper Peninsula for two days telephone and telegraph communication between this city and Negaunee has been seriously crippled and details of the fire could not be obtained.

UNIVERSITY WOMEN PLANNING NEW BUILDING.

Miss Frances E. Yerkes, as chairman of the Northville committee of the University of Michigan Women's League building and endowment fund campaign, was one of the more than fifty women from all over the state who met at the Hotel Statler in Detroit on Saturday, March 29th, for a luncheon and conference in connection with the campaign. The object of the campaign is to raise \$1,000,000 for a woman's building on the University of Michigan campus.

At the invitation of the national campaign committee, members of the Michigan division from various parts of the state assembled for the conference from large centers like Ann Arbor with 845 alumnae and Grand Rapids with 235; to smaller places where there are as few as 5 alumnae, for the plan in this great national campaign is to reach every alumnae and bring to her attention the vital need for the Women's League building.

At the luncheon Mrs. John McKay, chairman of the Michigan division of the national campaign committee welcomed the Michigan representatives and introduced Miss Jean Hamilton, who is dean of women, and acting chairman of the national campaign committee. In recognition of the importance of the campaign, the regents have released Miss Hamilton from some of her duties as dean of women, and has appointed a second assistant, Mrs. A. S. Hobart, of Knox College. Miss Hamilton spoke from her close personal experience of the urged need for the League building in the life of the 3,700 women students who attended the University in the course of a year.

### SATURDAY NIGHT WAS A GREAT NIGHT FOR "PARTIES"

Last Saturday night was a great night for "parties" so far as members of the Northville and Redford patrols were concerned. To begin the festivities of the evening the Redford patrol brought to Northville Peter Keller and William Laney, who were so drunk they could scarcely navigate. They were turned over to the Northville patrol and taken to

Plymouth, where they were arraigned before Justice Patterson. After some questioning Laney told the officers they secured their liquor at a house on the Seven Mile road, and he finally swore to a complaint to the effect that he secured his supply of booze at Sauer's place. Officers took the two fellows and drove to Sauer's house and after forcing the back door found Mrs. Sauer alone in the house with no booze about the premises. Neigh-

bors who were attracted to the scene by the presence of the officers directed them to a house some distance away in which it was claimed booze was being sold and nightly parties were being held. The officers went to the place and found a quantity of liquor and placed the owner of the place, August Schram, under arrest and sent him to the county jail. While at Plymouth Keller told the officers of another "party" that was

being held on the Plymouth road, in a sort of dug-out situated a mile or so from Plymouth gardens. Getting into their cars the officers drove to the place, which is located back from the highway some distance, and gained entrance through the back door which had not been fastened. Inside there were some twenty men, a woman and two young girls, the girls having been taken there by their brother. A phonograph furnished music for dancing and liquor was being served freely. As the officers entered the place which was being operated by a fellow named Al Barr, Herman Toussant was in the act of pouring some liquor from a bottle into a glass. The "guests," some of whom were so drunk they were asleep and were awakened with difficulty by the officers, were sent home and Barr and Toussant were taken to the county jail.

A more uninviting place for a gathering could not have been selected, but it seemed to answer its purpose as a place to serve booze and was pretty well equipped for that purpose. Among the "guests" present were a number of fellows from Northville who seemed quite surprised when the officers appeared. Officers warned them if they were caught there again they would be taken to the county jail with the rest of the rubbish.

### OAKLAND COUNTY NEEDS NEW INFIRMARY FOR ITS AGED AND POOR

At the annual township election to be held throughout the county next Monday the people of Oakland county will be given an opportunity to vote for or against a one mill tax for the purpose of providing funds for the erection of a county infirmary to replace the one now being used, and which is in a most deplorable condition.

M. T. Murray, chairman of the State Welfare commission, with headquarters at Lansing, recently made a thorough inspection of the present infirmary. At the conclusion of his visit of inspection Mr. Murray wrote Luther Allen of Birmingham, chairman of the Oakland county board of supervisors as follows:

"Following the conference with your committee on the 7th instant an inspection of your county infirmary was made:

"I do not hesitate to say that conditions under which Oakland county is maintaining its unfortunate aged indigents, and infirm at the county infirmary are positively inhuman and shameful.

"The Statutes of this state confer upon the State Welfare commission authority to condemn and close a county infirmary on the grounds that it is, 'insanitary, or is dangerous to the health or life of the inmates thereof, or does not permit of proper separation or classification of inmates, or is inadequate.'

"The counts set forth in the statute applies in every particular to your infirmary. This is a sweeping indictment, but the present conditions fully justify it, and I am confident it will be approved by the fair-minded citizens of the county who will go and see for themselves.

"It is my understanding that action has been taken by your Board submitting, at the April election, a one-mill tax proposition which, if ratified, will pave the way for a new infirmary. This is the one spring need in your county today, and the citizens of the county should welcome an opportunity to avert the deplorable conditions which now prevail.

"I sincerely hope that the members of the Board of supervisors, knowing the conditions as they do, will present the situation fairly and squarely to the voters of their respective townships, or wards, so that they may vote intelligently. If the citizens of Oakland county can have knowledge of the actual conditions in the infirmary, it would seem that the one mill tax proposition would be overwhelmingly ratified, and thus done, it will not be necessary for the state to take drastic action in the matter."

### RECORD DAY IN FORD PLANTS

Swinging into its big spring production program, the Ford Motor company on Wednesday, March 13, reached the highest mark in its history when its domestic assembly plants produced a total of 7,456 cars and trucks.

This record-breaking figure does not include the daily output of 500 cars and trucks for export, nor the production of the Manchester, England, and Ford of Canada plants which manufacture most of their own products.

The new production record is of especial significance as it indicates the enormous demand being made throughout the country for Ford cars and trucks and the company's endeavor to bring its output up to the point where it will attempt to fill all requirements as to avoid repetition of the shortage which existed last spring when thousands of persons were disappointed in not being able to secure delivery of cars.

### Seems That Way.

Those who think it necessary to do the work themselves in order to have it done right, seldom get rich.

## We Appreciate The Interest Shown In Our Opening.....

We appreciate greatly the interest shown by the people of this section in our first Annual Spring Opening, when our re-modeled and enlarged store was thrown open to the public. We not only appreciate the fact that a great many people visited the store during the two days, but we also desire to express our deep appreciation for the many compliments paid our store and its very complete assortment of Home Furnishings by those who called.

Our efforts to provide a Furniture Store that would be a credit to Northville have not been inspired solely from selfish motives. We have endeavored to offer our patrons the best grades of Furniture, Rugs and Floor Coverings and we have carried as large an assortment as our store rooms would permit, but we were never quite satisfied. And now with our enlarged space and our increased facilities we shall strive to serve the public better and thus endeavor to merit the continuance of public favor. We have not reached our goal, however, because we intend this store and this stock shall grow and keep step with the community we seek to serve.

If you were prevented from coming to our opening on account of the bad weather, we invite you to step in any time when in town and look around. You will enjoy spending a half hour here any day.

To feel that your efforts to serve the public in an efficient and painstaking manner are appreciated inspires one to greater effort, and we shall endeavor to keep this store up to such a degree of excellence that our patrons and friends will always be proud that Northville possesses such an enterprise.

Very truly yours,

SCHRADER BROTHERS,

## Reliable Transport

During almost every winter there comes to Michigan at least one period in which all inter-city train station fails, except that furnished by the State's 24 steam Railroads. Such a period followed the snowfall of February 19, 1924.

During that period, traffic was suspended on even the most extensively traveled trunk highways. Automobiles, trucks and buses either remained indoors or were deserted and left in the drifts, awaiting aid from the highway authorities.

Yet, throughout this entire period, no community in Michigan suffered for food or fuel. For the railroad trains moved, carrying the freight and passengers entrusted to their care. Railroad men fought day and night against the storms, that this service might be provided.

The railroads consider it a compliment that Michigan always expects good railroad service, even complaining occasionally, if mid-winter trains vary from fair-weather schedules.

The expenses of this service under storm conditions are always excessive—and the state pays no part of the bill as it does for highway snow clearing. Railroad men incur the hardships and railroad capital pays the bill.

Will you recall, next July, that the Railroads hauled in your winter food and fuel despite 6 foot snowdrifts which shut off other means of transportation? Courage and railroad earnings did this—not your tax money.

Come in and let us show you the workings of this great labor and time saving appliance. It costs but a few cents to operate; and you can but it on very easy terms.

## APRIL TEACHERS' EXAMINATION

The forenoon session will begin at eight-thirty. Applicants are urged to be on time.

## RUN SHORT OF COW TESTERS

There is once more a shortage of cow testers to carry on official testing work in Michigan's eighty active cow testing associations, according to word given out this week by the dairy department at the Michigan Agricultural college.

Herdsman and farm boys with good dairy experience and further training in feeds and feeding can find good openings in this service, and are asked to communicate with the dairy department, M. A. C., East Lansing, Mich.

Rapid increase in the number of associations in the state has brought about the shortage of trained workers it is said.

## PAID TENDER TRIBUTES.

The funeral of Rev. Seth Reed was held in Flint last Friday afternoon and many ministers of the Methodist church, which he served so long and faithfully, as well as representatives of other church societies, paid his memory many tender tributes. Among the many was one by Rev. Wm. Dave of Dearborn, who has spent 52 years in the ministry. As he reviewed the work of the deceased, he asked the great concourse of people a question that all might ask themselves with profit and over which all might spend some time in reflection. He said: "Do you realize that, if all had lived during this past 100 years as Mr. Reed, there would be today no jails or prisons or poor houses—indeed no armies or navies, no wars or uprisings. The billions of gold we spent for war would have been spent to make happy homes."

This is a wonderful thought—a searching question to all mankind. Think what this would mean to the world today if all that has been wasted and destroyed—the property, the lives, the opportunities—could have been employed as Dr. Reed employed his 100 years upon earth.

## DeWOLF HOPPER AND THE NEGRO

When the American comedy "Kempy" is seen here at the Garrick theatre this week commencing Sunday night, not only will Detroit be honored by the presence of DeWolf Hopper and the Nugents, a quintette of our finest players but what is still more rare a pair of the foremost writers for the theatre will also be seen. J. C. Nugent and Elliott Nugent, who are father and son, wrote "Kempy." They have also had two other successful plays produced—"The Clean Town" and "Dumb Bells." The Nugents are authors or purely American plays, in each of their successes they have selected some phase of native life fashioned it into an absorbing story, sugar-coated their lesson with rich humor and people them play with types that are to be found everywhere and anywhere.

J. C. Nugent will be seen as Duke, a man who left the small town to make his way in the world, and succeeded. Elliott Nugent has the title role, a new kind of part, a wholesome ingenious youth who finds himself unexpectedly a part of the Bence family. The other two types are Jane and Ben and each is a personage, both are played by the actors who were seen in the same roles during the New York engagement. The entire original production is used even to the old-fashioned square piano which used to be the pride of every home.

## WALLED LAKE WARBLERS.

Walled Lake people will welcome the return of its summer residents, and some of them will return soon. Mr. and Mrs. Clyde VanEpps, who have spent the winter in Pontiac, have returned to their home here.

Rev. J. W. Green, pastor of the Baptist church addressed the annual meeting of the Plymouth B. Y. P. U. last Friday night, taking for his subject "Saturation."

Mr. Pepper is at the head of the Ypsilanti Chapter and he stated that the occasion was one of the happiest events in his life when he was able to bring his new friends back to the old home town where he had received the first degrees in Masonry to meet the old friends.

After the dinner Ypsilanti Chapter conferred the Royal Arch degree upon a "team" and did the work in a very creditable manner.

## RAYMOND POINCARÉ

Paris—Raymond Poincaré, after resigning the premiership of France, last week, consented to resume it again and form a new cabinet.

Poincaré and his cabinet which had been in power since 1922, resigned after being defeated in the chamber of deputies upon the question of pensions.

M. Poincaré ever since the creation of his government has held two posts—that of premier and foreign minister. His defeat came at a critical time, as delicate diplomatic negotiations are under way with Great Britain over the forthcoming report of the reparations experts. President Millerand's declaration to stand behind the Poincaré policy influenced the premier to resume the premiership.

## FOUR DROWN IN FOOT OF WATER

Speeding Auto Overtakes in Ditch Trapping Occupants—One Saved.

Benton Harbor, Mich.—An inquest has been held in Lakeside to obtain the facts in connection with the death of four men who drowned in a stream a foot deep when a touring car in which they were driving skidded on a double "S" curve and overturned at the bottom of a small pool.

The dead include James Hoover, 59 years old, garage owner at Lakeside, Charles Ketchell, 35, Lakeside farmer; Fred Poe, New Buffalo glass worker; and Henry Stevens, 60, Lakeside farmer.

Charles Ketchell of New Buffalo, a railroad brakeman, was also in the car but kept his head and shoulders above water until a wrecking car came and hoisted the wreck out of the stream.

Reports say the car was being driven at a terrific rate of speed when it swept into the curve on the paved Chicago highway. Skidding into the soft mud at the side of the pavement, the machine rolled over and plunged down a small embankment, coming to rest bottom side up.

## PREACHER'S MILK POISONED

Dry-Crusader and Wife Charge Wet Plot to Kill Them.

Mt. Clemens, Mich.—The narrow margin by which Rev. Thomas G. Sykes, Macomb county's preacher liquor crusader, and his family escaped from a poison milk plot, was revealed when chemists found two poisons had been placed in his milk supply. The fact that the poisons neutralized each other, alone averted the tragedy, the analysts said.

Sykes during the last few months has been the center of a rum war in Macomb county.

Repeatedly he had led dry forces against resorts reputed to be violating the prohibition law, and his activity has brought threat of death and dire punishment from supposed leaders of the liquor ring, believed to be well known characters of the Detroit underworld.

## COAL MINE PEACE IS ASSURED

Bituminous Workers Ratify Contract For 3-Year Period

Indianapolis—Peace for three years is assured in the bituminous coal industry. The rank and file of the United Mine Workers of America, by an overwhelming vote, has ratified a new wage scale agreement for that period it was announced here. The vote was 164,358 to 26,253. The new agreement continues present wages and working conditions in effect until April 1, 1927.

While the contract embraces only the central competitive field, composed of Indiana, Illinois, Ohio and western Pennsylvania all other coal mining contracts are based on it.

The referendum vote was taken among the 5,000 locals of the international organization and the tabulation was completed in the union headquarters here.

## Nat Counterfeiter of \$1000 Bills

Chicago—Ramon Cruz, young Cuban counterfeiter, today faces 15 years in a federal penitentiary. He was sentenced here to serve 10 years in the federal prison at Leavenworth, the sentence to begin the day of his release from Atlanta prison, where he recently escaped with five years of a sentence still to serve. Cruz was arrested when his laboratory was raided by secret service men and counterfeited federal reserve notes of \$1,000 denomination were found.

## THE FORD INTERESTS TO BUILD DAM AT YPSILANTI

Gardner Williams, Ann Arbor, consulting engineer and the designer of the Edison dam, has finished the drilling preparatory to building the dam on the Barlow farm for the Ford Motor company's proposed factory here.

Drilling was started last November, the drillers reaching a depth of 97 feet before reaching hard pan of rock, but at forty odd feet they reached gravel firm enough, it is believed, to form the foundation for the proposed dam site.

Engineers are now at work designing the dam. It is estimated this work will take at least two months. About May 15, it is expected, bids will be asked and construction will start.—Ypsilanti Record.

## KLAN PRESENTS PASTOR WITH CHECK

Near the close of the services at the Baptist church at Walled Lake Sunday night, while Miss Bluth was singing a solo, two young men arose from their seats in the back part of the church and advancing to the pulpit presented the pastor, Rev. J. W. Green, with a letter containing a check for \$25. The letter contained the following:

Rev. James W. Green, First Baptist church, Walled Lake, Dear Friend: We are sorry to learn of the accident you had with your car in going about your Christian work and as we believe in the great work of every Protestant church, we are presenting you herewith \$25 in help you in defraying the expenses for repairs to your car. We want you to know that we stand ready at all times to help you in your good work. May God bless you and the members of your church. Yours for Christian service, Knights of the Ku Klux Klan, Oakland county.

## SETTING A GOOD EXAMPLE

President Coolidge is setting a good example for all the people to follow in his handling of the eruption in official circles at Washington growing out of the oil scandal. He has kept his head amidst all the excitement, and has not been swayed by the incriminating accusations that have been hurled first at one official and then another. When he became satisfied that Attorney General Dougherty could no longer be of service to the government he very properly asked him to resign, and he will, doubtless, take similar action regarding other officials as the investigation progresses.

At best the situation is deplorable, but there has been a whole lot of gossip and hearsay evidence introduced into the senate's investigation that would not have been permitted even in the trial of a case in a justice court. The public can feel assured that the trial

of those accused will be thorough and that all who are guilty of wrong doing will be punished. President Coolidge will continue to "keep his head" and those who have proven themselves unworthy of public confidence will be weeded out of the government's service.

## SENATE PROBES NOW HIT MELLON

TREASURY DEPARTMENT CHIEF ACCUSED OF HOLDING OFF FICE ILLEGALLY.

### DAUGHERTY QUILTS ON REQUEST

Attorney-General Hands Resignation to President—Has Been Storm Center for Three Years.

Washington—Immediately following the resignation of Attorney-General Harry M. Daugherty, the senate investigating committee has launched an attack on Andrew W. Mellon, Secretary of the Treasury, in an attempt to force his resignation.

A resolution has been introduced by Senator Tennessee McMillan, (Dem.) Tennessee, which calls for an inquiry to determine whether the Secretary "is directly or indirectly concerned in the business of trade or commerce," whether he owns any sea vessel "in whole or in part," and whether he is holding office "in violation" of statutes cited which prohibit maintenance of commercial connections by the Government's fiscal agents.

Harry M. Daugherty, passed out of public life in a temper that terminated characteristically his three stormy years as Attorney-General. His appointment to the Cabinet by President Harding was the subject of criticism, and his resignation came at the virtual demand of Mr. Coolidge and in the midst of a sensational-producing Senate investigation of his official acts.

Mr. Coolidge asked his resignation because he felt he could not depend on Mr. Daugherty for disinterested advice, and because he believed the Attorney-General could not perform satisfactorily the duties of his office under conditions resulting from the Senate inquiry.

Mr. Daugherty tendered his resignation "solely out of deference" to the President's request and asked that it be effective at once.

### SPRING STORMS SWEEP N. T. ON

Upwards of 50 Lives Lost in Wave of Vandal and Floods

Chicago—Sweeping eastward from the Rockies, terrific spring storms have taken a tremendous toll of life and property throughout the entire central section of the United States in the path of the storms, eastern rivers swelled past the flood stage with lives lost and much property damage reported. Upwards of 50 persons were drowned, crushed in falling houses or otherwise killed in the fury of the elements.

Blizzards and hail storms whipped by a 60 mile gale gripped the northwestern part of Michigan. Ice coated and dismantled wires demoralized telephone and telegraph service in many towns.

Rail traffic in Minnesota was paralyzed by an unusual snowfall, thousands of miles of wire went down under the lash of sleet, river shipping on the Mississippi and Ohio rivers was entirely tied up. So violent was the storm in southwest Missouri that houses were whirled into the air and fell with their human occupants crushed within them.

In the east, floods swept Cumberland, Md. and townships in the vicinity of Johnstown, Pa., scene of the historic flood nearly two decades ago. The Potomac river overflowed its banks, inundating the business section of Cumberland, and covering railroad bridges at several points.

### TWO DROWN UNDER UPSET AUTO

Car Skids Into Ditch, Turns Over—Occupants Pinned Beneath.

Detroit—Pinned under an automobile which had overturned in a water-filled ditch on Seven-Mile road, the bodies of Robert L. Linder, 30 years old, and Frederick S. Allen, 31 years old, both Detroiters, were found by a passing motorist. Death was caused by drowning.

From marks in the mud, the car had skidded and turned over. Allen was pinned underneath the water, which was about 18 inches deep, by the steering gear. The seat rested on Linder's chest.

### Botulism Poison Cure Reported.

Baltimore—Dr. J. Howard Brown, assistant professor of bacteriology at Johns Hopkins medical school, has announced a serum to cure botulism poisoning. Botulism is among the most deadly poisons. It originates in "spoiled" canned goods.

### Freight Rate Reduction Urged.

Washington—Under a resolution approved by the Senate Interstate Commerce Committee, a reorganization of the entire freight rate structure so as to bring about the lowest possible rates on farm products at the earliest possible time, would be ordered by Congress. Chairman Ellison D. Smith announced he would press for early action on the measure, which would declare a general policy with respect to freight rates for the farmers.

### IS YOUR WORK HARD?

Many Northville Folks Have Found How to Make Work Easier.

What is so hard as a day's work with aching back? Or sharp stabs of pain at every sudden twist or turn?

There is no peace from that dull ache. No rest from the soreness, lameness and weakness.

Many folks have found relief through Doan's Pills. They are a stimulant diuretic to the kidneys.

Northville people recommend Doan's.

Delf Westcott, Butler Avenue, Northville, says: "My work, on account of being on my feet without any rest whatever, put my kidneys out of order. I had to lay off work for days at a time, as my back was lame and painful and now and then, I became dizzy-headed. Doan's were recommended, so I went to the Northville Drug Co. and got two boxes. After using Doan's, the trouble left entirely."

## The Editorial Spotlight

Telephone Courtesy—Middletown (N. Y.) Times-Press

Two of the commonest utilities in business are the telephone and the telegraph, and yet in the daily use of both of these devices, in most concerns, there are many opportunities to effect improvements. Every business manager should have each of his employees understand that when the number they have called is obtained, their personality is then put upon the wire. They are not face to face, but voice to voice, which is more important, for the telephone usually reflects our moods through accents and inflections of the voice no less truly than do our facial expressions. When an employee talks over the phone concerning company matters, he is "the company" to the person with whom he is speaking. It is in his power to win or lose friends for the corporation that pays for his services. It isn't always what is said but rather how it is said, that counts. Courtesy is the refining oil that lubricates daily affairs, and the more of it we give away, the more we have on hand.

## If Safety Counts

YOU NEED NEVER HAVE ANY FEAR OF ACCIDENT IN  
OPERATING THE EASY WASHER, FOR IT IS SAFEGUARDED  
IN EVERY CONCEIVABLE WAY.

ALL OF ITS MOVING PARTS ARE ENCLOSED, SO THAT  
NOTHING CAN GET INTO THE MECHANISM AND INJURE IT.  
AND, FOR THE SAME REASON, IT CANNOT CAUSE INJURY  
TO THE PERSON WHO IS OPERATING IT, OR TO CHILDREN  
WHO MAY BE PLAYING ABOUT WHILE IT IS RUNNING.

AN AUTOMATIC SAFETY SWITCH ELIMINATES ALL  
POSSIBILITY OF DAMAGE THROUGH THOUGHTLESSLY  
OVERLOADING IT, BY STOPPING THE MOTOR INSTANTLY  
SO THAT NO INJURY CAN OCCUR.

IF SAFETY COUNTS, BUY AN EASY!

## DO PEANUT POLITICIANS KNOW MORE THAN MR. FORD?

In commenting on the income tax  
recently Henry Ford handed a whole  
lot of peanut politicians who are mis-  
representing the people at Washington  
the following side-swipe:

"I am in business not to make money,  
as money, but to do many things  
which I believe are of public benefit,  
and I believe that I can put my money  
to better public use than the govern-  
ment can. Take the Ford car as an  
illustration. We had very little money  
when we began to build that car.  
We took out small wages for ourselves  
and put back the profits into better  
machinery—which enabled us to reduce  
prices. We made more money, and we put  
that back. Our profits began to be large,  
and if the present income tax had been  
in force we should have had to pay  
most of what we earned to the govern-  
ment. We did not have to do that,  
so we were able to put that money  
into more and more machinery—which  
enabled us not only to bring the price  
of the car down, but also to raise our  
wages, first to a minimum of \$5 and  
then to a minimum of \$6 a day.

"High taxes on the rich do not  
take burdens off the poor. They put  
burdens on the poor. As far as our  
company is concerned, we can go on  
about as we have whether the surtax  
be 25% or 50%. We can make some  
improvements but we cannot do the  
great things we should do had we  
more money. We cannot make as  
much progress in the next 15 years  
as we have in the past 15, and all  
other forward looking companies will  
be in exactly the same boat. The  
men who tell the country that the  
high incomes must be cut down are  
not working for the benefit of the  
masses. What they are really say-  
ing is something like this: 'You  
workmen and farmers have got all  
you ought to have. Let us stop pro-  
gress right here. From now on this  
country must be run for the benefit  
of politicians.'

## IF IN DETROIT, WHY NOT HERE?

In discussing the raids that the De-  
troit police have been conducting  
against houses in the city suspected  
of being places where booze is being  
sold, Commissioner Croul said:  
"When a private dwelling place is  
used for the sale of liquor it no longer  
enjoys the immunity of a private  
home but is subject to police raids.  
In keeping with this ruling, he said,  
raids are now being made on homes  
where liquor is made or sold."

If this is a good law in Detroit, why  
will it not apply to Northville? Why  
should Northville taxpayers be com-  
pelled to repair the fire hydrant near  
the Wilson place on the north side  
every week or so, just to accommo-  
date some fellows who are too drunk  
to see where they are directing their  
cars?

Every car that drives in the Wilson  
yard ought to be searched as its  
driver turns the machine back into  
the street. Continue this process for  
a few weeks and some results will be  
obtained that will make a lot of peo-  
ple sit up and take notice.

Wonderful Electric Lamp.  
An electric lamp, which will burn  
for three years without current has  
been invented by an Italian engineer.  
The lamp is described as a self-sus-  
taining, incandescent electric light that  
will burn a long time without connec-  
tion with any source of electric supply  
other than itself. The light itself is  
radiated from a minute metal.

Ocean Bed Rising.  
A cable ship of the Eastern Tele-  
graph company, searching for a broken  
cable between St. Helena and Cape  
Town, found that the ocean bed has  
risen two and a quarter miles since  
1899. When the original soundings  
were taken in that year the chart  
showed a depth of three miles.

Great Discovery.  
The skinning of frog legs by an  
Italian scientist, to make a soup for  
his sick wife led to the epoch-making  
discovery that electricity can be gen-  
erated by chemical means which was  
the forerunner of the present-day pri-  
mary battery.
