## THE ECLIPSE ARRIVED ON SCHEDULE TIME.

About everybody in Northville and for miles around witnessed the eclipse of the sun last Saturday morning, and from out of the great throngs which gathered with smoked glass or photographic films to look and to enjoy the wonderful event, but very few will be here when the next eclipse comes again.

Shortly before eight o'clock the sun resembled a big cheese from which the man in the moon had taken a good bite. It seemed as if a thin black rim were obliterating a part of the sun's rim. While people gazed, the thin rim cut steadily into the sun for awhile, and then, gracefully, the rim became a disk recognizable as the moon, floating between the sun and the earth.

A quick glimpse from unshielded eyes showed the sun blazing red, such portions as the moon did not obscure. At a few minutes after 9 a. m. the sun was 98 per cent eclipsed; only a thin rim of it was left visible. It became dark during the eclipse; not as dark as night, but much darker than normally at the same hour this time of year. The sky was practically clear, but still it was darker than if heavy clouds had obscured the sun. The full light of day returned rapidly after the moon started to move from between the earth and the sun, and the little groups of people that had gathered in places of advantage about town soon disappeared, and sought places where they could get warm, for it was pretty cold for sky gazing.

## GAS COMPANY ELECTS OFFICERS.

The Plymouth & Northville Gas Co. held their regular directors' meeting last week Wednesday and the following officers were elected for the ensuing year:

President—R. W. Seymour  
Vice-president—David Frazer, Jr.  
Secretary—George B. Meacham  
Treasurer—B. B. Adams.  
The above officers, together with J. J. McLaren, also form the board of directors.

During the coming year the company are planning to make some extensive improvements in the local plant, that will put it in first-class condition in every respect, and will enable them to give the best service possible at all times.

The improvements which call for an expenditure of \$75,000, includes the installation of a water gas set which would enable the plant to still produce gas should anything go wrong with the coal making process. Two new coal barges will be installed, and an addition to the building constructed. About three miles of gas mains will be laid in Plymouth and two miles are to be laid in Northville—Plymouth Mail.

## OBITUARY

Mrs. Mary Stark.

Mrs. Mary Ann Stark was born at Brighton, Michigan, on March 7th, 1831. Seventeen years ago she came from her home town to make her residence with Mr. and Mrs. Bert Stark. She had been in poor health for four years and on last Monday fell and broke her leg. The pain and shock combined with her ill-health caused her death Tuesday evening, January 20th, at the age of nearly 94 years.

Funeral services were held from the Stark home Thursday afternoon, Rev. F. P. Knowles officiating. She was laid at rest in the mausoleum at Rural Hill until spring when the remains will be taken to Brighton for interment. Mrs. Stark is survived by one sister, Mrs. Sherwood of Ypsilanti.

## PLANNING FOR FATHER AND SON BANQUET.

At the meeting of the Exchange club on Wednesday William Richards and Roy E. Crowe gave very interesting reports of the annual meeting of Michigan clubs which was held at Lansing on Monday. It was decided to hold the annual father and son banquet sometime during the week of February 6th to 13th. Committees were appointed as follows: Entertainment, L. A. Babbitt, F. S. Neal, R. R. Brown; tickets, C. R. Horton, Don P. Yerkes, H. G. White; banquet, A. J. Hellrich; C. A. Dolph, C. R. Ely. The banquet will be held at the High school gym and the tickets will be sold the same as last year—two tickets for \$1.25. All men attending must be accompanied with their son or some boy.

The Men's club of the Presbyterian church will enjoy a dinner at the church parlors on Thursday evening, February 19th, at 6:30. W. J. Cameron, editor of the Dearborn Independent, will be the speaker.

## LEGISLATURE PASSES GAS AND WEIGHT TAX.

A new system of automobile license taxation was virtually a law in Michigan today. The Evans weight tax bill, which had been passed previously by the house, was passed by the senate Tuesday night. All that was necessary to make a statute was the governor's signature, and the legislature planned to order it sent to the executive office for his approval without delay.

Governor Groesbeck stated that he is prepared to sign the measure as soon as the house has ordered it enrolled and transmitted to him.

According to present plans 1925 automobile license rates—the issuance of which was deferred by the state administrative board pending the enactment of a highway finance program, will be placed on general sale, February 2nd by the department of state. Passenger car owners will pay for licenses at the rate of 55c for each hundred weight, or major portion thereof, of their cars. Truck and passenger carrying bus operators will be taxed from 65c to \$1.25 a hundred vehicles in these descriptions weighing up to 2,500 pounds will pay 65c, from 2,500 to 4,000 pounds 80c, from 4,000 to 6,000 pounds \$1, and over 6,000 pounds \$1.25.

## PRETTY CHURCH WEDDING.

Last Tuesday evening Mr. Earl H. Arndt of Detroit and Miss Elizabeth Starr of this place were united in marriage at the Baptist church by the pastor Rev. A. K. Wackae. About 7:30 the friends and relatives of the contracting parties gathered in the church and while they were gathering, Mrs. Jennie Micoloff played an appropriate selection on the pipe organ. About a half-hour later the bridal party entered and marched down the aisles to the sweet strains of the Mendelssohn Barthelemy wedding march. Mr. Arndt was attended by Mr. Warren A. Keebe of Detroit and Miss Starr by Miss Margaret E. Grey, also of Detroit. The bride was attired in a beautiful white silk gown and the bride's maid wore pink silk. The bride carried a large bouquet of bridal roses. The ring ceremony was used. The church was decorated with ferns and white silk ribbon. After the wedding ceremony the party with their relatives and friends met at the bride's home where a wedding repast was served and the usual happy time was enjoyed by all present. Mr. and Mrs. Arndt left for the northern part of the state, where they will spend a few days and will return in the near future to make their home in Royal Oak.

Northville friends will extend hearty congratulations to Mr. and Mrs. Arndt.

## GERALD WOLFE DIED IN DETROIT.

Gerald Wolfe, four-year-old son of Mr. and Mrs. Harry Wolfe, passed away Monday, January 19th, at Harper hospital after an illness dating from last October, when a peanut became lodged in his windpipe. He was operated upon several times but to no avail. Spinal meningitis developed which was the immediate cause of his death. He leaves his parents, a brother, Harry and sister, Viola.

Funeral services were held Thursday from the home on the Seven Mile road, Rev. S. D. Eva officiating. Interment at Grand Lawn cemetery—Farmington Enterprise.

Messrs. William Richards and Roy E. Crowe represented the Northville Exchange club at the annual meeting of the Affiliated Exchange clubs of Michigan which was held at Lansing on Monday. A banquet which was attended by upwards of 600 people was the feature for the evening. Hon. J. W. C. "former congressman."

## Items Of Interest in World's News

## End Gambling in Mexico

Mexico City—President Calles is determined to put an end to gambling, a terrible scourge. A number of requests for gambling concessions have been denied. The famous gambling area of Lower California have been closed in by the closing of the present.

## Ferryman Now Robber

Chicago—One month ago George Hennan was foreman of a jury in the court and he is under arrest as a participant in a gang robbery returning \$18,500. Sitting calmly in the detention bureau Hennan outlined the details of eight robberies which he and his gang had staged.

## Prayer Opens Council Meeting

Chicago—In accordance with the resolution adopted unanimously at the last meeting of the city council, which provided that pastors of various denominations should be called upon to open future meetings, the Rev. John Thompson, pastor of the First Episcopal church, led the citizens in prayer.

## Turm Helps Country's Credit

New York—The sturdy performance of Finland's great group of amateur athletes headed by Paavo Nurmi have raised the credit rating of the little Baltic nation at least 10,000,000, in the opinion of Leonard Astrom, Finnish minister to the United States, and one of Wall Street's bankers.

## Two-Year-Old Bread in France

Paris—A journeyman baker says he has found a formula for bread, long the use of which will keep the oaves in an edible condition to months or even years. Recent laboratory experiments have proved that the loaves could be kept relatively fresh for 10 months while the inventor, Jean Mami, says this period will be extended to two years.

## Use Radio to Hunt Criminal

Washington—The interior department will use radio in an effort to procure the arrest of an impostor now in Ohio posing as an agent of the bureau of pensions and defrauding old soldiers. The commission of pensions has requested radio stations in Cleveland and Cincinnati to broadcast a message giving his description, warning veterans and advising his detention and arrest.

## Railway Claims Settled

Washington—Liquidation of the claims and counter-claims between a Federal Government and the railroad growing out of the government's war-time control of the carriers, has been practically completed without litigation in any case, James Davis, director general of railroads, announced in his final report to President Coolidge. Two small claims in Colorado, where receiver had involved difficulties, have not yet been settled.

## KING ALFONZO ABANDONS ACTION AGAINST IBANEZ

Paris—Premier Herriot has announced in the chamber of deputies that he has been authorized to declare that King Alfonso of Spain had abandoned his action in France against Vincente Blazquez Ibanez, the Spanish author, who has been attacking the king in documents from French territory. The premier added: "I wish to thank Spain for this proof of love of liberty."

## Chinese Shell Steamer

Shanghai—The Chinese fort at Woei Sung, on the outskirts of Shanghai, fired on and hit the Chinese passenger steamer Lungta which was loaded with 300 passengers. The steamer was forced to unload and it was then commandeered for the transportation of the Chinese soldiers.

The firing created much excitement since the river was filled with foreign shipping, including American British, and Japanese trans-Pacific liners. None of the passengers was injured.

## Brazil Balks at Japanese

Tokio—Considerable feeling has been caused here by the refusal of the Brazilian consul to approve the passport of 600 Japanese citizens scheduled to leave for Brazil. Immigration and steamship officials have taken the matter up with the Brazilian government.

Japanese government officials claim that these 600 are merely part of the quota of 2,800. Brazil agreed to accept last December, but that they were prevented from sailing until now because of the shortage of steamship facilities.

## Warren Blocked in Senate

Washington—Charles B. Warren's appointment as attorney general came under fire in the senate when a special subcommittee began an investigation of charges that he engaged in lobbying activities back in 1913 or behalf of the beet sugar interests. Confirmation of the appointment has been held up indefinitely. Emphatic denial has been made by Charles B. Warren that he ever represented a beet sugar company or any other company before a congress committee.

## Ambassador Jusserand Quits

Washington—Ambassador Jules Jusserand, of France, has left Washington after 22 years of diplomatic service, with a warm spontaneous reception welling toward him from an unusually large crowd of the capital's residents who had come through the decades to know him as a friend. His schedule calls for a brief stay in New York, a visit to friends in Boston, and then departure from New York for France, where he intends to retire to private life.

## Beveridge Plays Laws

New York—Americans are more law-ridden than were the Russians under their czar or the Turks under their sultan, said former Senator Beveridge of Indiana, in speaking at a dinner commemorating the 124th anniversary of John Marshall's appointment as chief justice of the United States supreme court. The Lawyers club and the Association of the Bar of the City of New York gave the dinner at the club's headquarters in Hotel Astor.

## Attempts to Fire Jail

Flint, Mich.—Attempts to liberate himself and more than 190 other prisoners by setting fire to the county jail, Henry Crawford Negro, ignited a torch which he improvised from several newspapers and hurled into a waste paper receptacle. Any attempt to escape by the women and men prisoners was blocked when firemen from Central station put out the fire by means of chemical extinguishers. No one was injured.

## Ex-Gov. Davis Held

Topeka, Kan.—Waiving their preliminary hearing, former Governor Jonathan Davis, and his son, Russell, charged jointly with conspiracy and accepting a bribe in connection with granting a pardon to Fred W. Pollman have been bound over to district court on bonds of \$1,000 each. Their trials are set for the April term of court.

## Resume Honduran Relations

Washington—Formal relations between the United States and Honduran governments will be resumed February 1, upon the inauguration of the new constitutional authorities in Honduras. Secretary Hughes has announced that he had instructed Lawrence Dennis, charge at Tegucigalpa, to so notify the Honduran authorities.

## New Swedish Premier Named

Stockholm—Minister of Commerce Sangleri was chosen to succeed Branting as premier of Sweden. Branting resigned because of ill health. He will remain in the cabinet without a portfolio.

## Earthquakes Kill Hundreds

Moscow—The recent trans-Caucasian earthquakes destroyed 40 towns and killed 200 persons, according to reports from that region received here.

## WIXOM WHISPERINGS

Sunshine Bob Hanscomb, the master impersonator and artist-entertainer, will be the attraction for the fourth number of the Wixom Lecture Course to be given in Community hall, on Wednesday evening, February 4th. His programs of stories, costume selections, character impersonations and life portrayals of the authors of the day, are simply wonderful. Everyone will want to hear him.

## SECOND WEEK OF "THE GOOSE HANGS HIGH"

"The Goose Hangs High," the truly typical American comedy by Lewis Beach, will continue for a second and final week at the Garrick theatre commencing next Sunday night. Sponsored by the Dramatists' theatre, Inc., it is the first outstanding New York success of the current season to come to Detroit.

## THE PONSFORD SALE CONTINUES

Last week's issue we announced that the January clearing sale at the Ponsford store would continue for one week, when we ought to have stated the sale would continue until February 7th.

In spite of the cold weather many people have taken advantage of the bargains being offered and are laying in a supply of good merchandise at very attractive prices.

## DUNDEE'S NEW NEWSPAPER SHORT LIVED.

A few months ago a few merchants and citizens of Dundee, who had become peevish at the editor of the Reporter induced a young fellow with a little money to start another newspaper in the town. For a couple of weeks the new paper looked very prosperous and then its patronage began to grow less and less until last week it gave up the fight and sold its list and advertising contracts to the Reporter. Business firms who had never patronized the Reporter took large spaces in the new enterprise just to work out a little spite, but the outcome of the affair has defeated them in their efforts to wreck an enterprise that has been established in the community for more than 50 years. It is some job to "root out" an oak that has been growing for fifty years. It requires more than a garden rake or squirt gun.

## THE ROOSEVELT DAM

In the south central part of Arizona a large area of fertile sandy loam lying at an altitude of about 1,200 feet above sea level and well-suited for the production of grain, cotton, alfalfa and live stock, was unproductive because of the simple fact that the annual rainfall of from seven to nine inches was entirely too scant to admit of crop maturity.

The waters of the Salt and Verde rivers carry the drainage from some 12,250 square miles of territory. If this water could be properly stored and carefully spread over this great unproductive area during the "growing" season, fabulous crop wealth would naturally result.

By the building of a tremendous dam a reservoir was formed which holds the water which formerly went to waste. This dam (Roosevelt) is 1,125 feet long on top and 280 feet high in the center, and contains 342,225 cubic yards of building material. The reservoir extends some 20 miles up stream and holds sufficient water to cover 1,365,000 acres one foot deep. To properly and efficiently handle such a herculean task as the storing and distribution of such a stupendous volume of water over such a broad area, it was necessary to construct and bring into use an intricate and far-reaching system of spillways, tunnels, hydraulic gates and something like 750 miles of canals.

Some idea of the success of this project can be glimpsed from the crop report for the year 1920. The irrigated area had been divided into 4,200 farms which boasted a population of 31,600 and contained eight towns which had forty-one schools and forty-five churches and housed 32,199 persons. These 4,200 farms yielded the following crops: in bushels—barley, 178,820; corn, 66,985; oats, 67,390; wheat, 95,285; sorghum grain, 22,388; beans 1,490; potatoes, 11,790; 13,671,000 lbs. of fruits; 28,465,000 lbs. of cotton, 100,398 tons of alfalfa hay and 42,700 tons of cotton seed. The farms on this project also contained 5,137 sheep; 8,662 hogs; 254,572 chickens, turkeys, geese, etc., and 18,819 hives of bees.

## Caledonian Art

At pottery the Caledonians could not compare with the Romans, since the potter's wheel seems to have been unknown amongst them. But they almost excelled the "masters of the world" in their ornaments. The mountains yielded their craftsmen gold, silver, bronze, amber, rubies and rock crystals such as agate, Jasper and cairngorms and jet. From these they made ornaments and weapons.

### NEWBURG SCHOOL ENTERTAINS NORTHERN DIVISION, ZONE A.

Realizing that there has been an urgent need for improvement in rural schools, E. W. Yost and Fred Fischer have adopted a plan to bring about that improvement similar to the zone system, which has produced such splendid results in the thirty-six rural schools affiliated with the Ypsilanti Normal College. In order to carry out this work efficiently two new supervising-teachers have been employed making a total of three supervisors in the county. The county is divided into three divisions with two zones in each division.

The first meeting of the northern division, zone A, was held Saturday, January 24th, at the Newburg school with Miss Hazel Reddeman and Miss Onalee Hall as hostesses. The morning meeting which was the teachers' meeting, began at ten o'clock. Miss Lorraine Cochran, helping teacher in the northern division, presided. Each teacher introduced herself by standing and giving her name and the name of her school. Miss Cochran then called on each teacher to tell of some special thing which she had noticed when she visited the schools. This was very interesting and instructive. The election of officers then took place. The following are the officers:

President, Miss Hazel Reddeman; vice-president, Miss Lenore Wright; secretary, Miss Margaret Griffith.

Following the election of officers Miss Cochran taught a demonstration lesson in geography on the north central states, using Miss Hall's fourth grade pupils. A discussion of the lesson then followed. This concluded the meeting for the morning. A splendid dinner was served by the ladies of the Parent-Teachers' association.

The afternoon meeting to which all the people of zone A were invited, was called to order by the president, Miss Hazel Reddeman. The minutes of the morning meeting were read and approved. Miss Jackson extended an invitation to all to attend the meeting next month at the Waterford school. The appreciation for the dinner was given by a rising vote of thanks.

The program which followed was very enjoyable. Several recitations were given by pupils of the Newburg school.

Superintendent G. A. Smith of Plymouth school was then introduced and gave a very interesting talk on "The Qualification of a Good Teacher." The roll was then called, all teachers of zone A were present except one. The visitors at the afternoon meeting were eighteen from Newburg, one from Stark, Miss Jameson, supervising teacher of southern division, Mr. Gleason and Mr. Sterner, teachers from the southern division, were also visitors.

## BRIEF NEWS OF WORLD EVENTS

### Troops Patrol Herrin After Four Men Killed In New Klan War.

Herrin, Ill.—Khaki-clad troopers patrolled the streets here to bring peace to the hatred-swept center of "Bloody" Williamson county where Klan and anti-Klan revolutionists spat fire resulting in four dead and two injured.

The dead from the latest outbreak—S. Glenn Young, dry leader and storm petrel of the Ku Klux Klan ranks, Ed Forbes, Young's lieutenant and body guard; Homer Warner, another Klan lieutenant; Deputy Sheriff Ora Thomas, chief understudy to Sheriff Ed Calligan, arch-foe of the Klan.

The bitter battle was ushered in shortly after night court recessed. Ora Thomas with Ross Lisenby and Judge Bowen strolled from the court room down the main street. A bullet whizzed across from the vicinity of Young's restaurant, just missing the three men, and lodged in a drug store front.

Later Young walked across the street, accompanied by his trusty bodyguards. He went into the cigar store at the European hotel. Soon after, Thomas entered the smoke shop.

Young drew out his two revolvers and advanced toward Thomas. The latter started shooting and dropped mortally wounded as Young's guns spat in answer.

Young also reeled to the floor and Forbes dropped over, wounded, behind the cigar case. Warner staggered against the door and collapsed. There is no explanation of what incident caused the latest outbreak of trouble.

### Army Aviator Acquitted

New York—Lieutenant James T. Hutchinson, army aviator, acquitted by a court martial on a charge of insubordination for flying low over New York city, asserted he was humiliated by his arrest on the charge, and had been sacrificed to public opinion. Hutchinson has been in the air service eight years, five of which he has spent at Mitchell field, L. I. Prior to his acquittal he had protested against his arrest and imprisonment for 40 days.

### Two Killed In Plane Crash

Pensacola, Fla.—C. F. Lingfield, aviator pilot, and Harvey Young, aviator rigger, were killed, and A. V. Rowland and A. W. McCall injured when a Lavi biplane crashed in Escambia Bay, six miles from Pensacola.

The accident was seen by men in a shrimp boat, which was anchored nearby. The two injured men were rushed to the beach for first aid treatment and later removed to the aviation station.

### Approve Trotsky's Removal

Berlin—The overthrowing of War Minister Trotsky meets with pronounced approval of the German Communists, whose organ, Rote Fahne, asserts it signifies the solidarity of the Communist party and brings to a definite close a phase in the party's historic development in that it removes from its ranks a man who vainly sought to attack or improve the work created by Lenin.

### Approve Survey Bill

Washington—Completion of the topographical survey of the United States, with \$950,000 available during the coming year would be provided under a bill passed by the house and sent to the senate. The measure, which has the backing of the interior department and several organizations of engineers, would open up a \$37,200,000 mapping program extending until 1944.

### Senate Wants Arms Parley

Washington—Without discussion or a record vote, the senate has accepted an amendment to the naval bill requesting President Coolidge to call another arms conference. The amendment offered by Senator William H. King (Dem.) Utah, was accepted without objection by Chairman Frederick Hale, of the Naval Committee, in charge of the bill.

### Dead Hermit Once Rich

Bayshore, N. Y.—A beach comber who shot himself after having lived unknown on Fire Island for seven years, has been identified as Andrew Sherman McMillan, formerly a wealthy contractor living in Pittsburgh. Ill health and despondency following a divorce were given by the man's brothers as the cause of his hermit-like existence.

### Child Labor Loses Oklahoma

Oklahoma City, Okla.—Ratification of the child labor amendment to the United States constitution was defeated in the House of Representatives of the Oklahoma legislature here by a vote of 80 to 24.

### Deficiency Bill Signed

Washington—The president signed the urgent deficiency bill providing for a total appropriation of \$159,000,000, of which \$150,000,000 was for tax refunds.

## Make Your Kitchen Work Easier

Do you have to stand in your own light when washing dishes? Do you have to pull things you are cooking out of the oven to see when they are done?

A well-lighted kitchen will save you an immense amount of time, labor, fatigue and annoyance—and the cost is small.

Have a central lighting unit—a white glass, mushroom-shaped globe, and 100 or 150 watt lamp. This should be close up to the ceiling.

Then have another lamp over the sink—one with a deep shade, open at the bottom, and made of white glass. Equip it with a 50-watt white lamp. This lamp should be from 6 to 12 inches from the wall and about 6 feet from the floor.

You are welcome to our advice and suggestions at all times. No charge made.

## Do Your Railroads Win This Reward?

Modern Railroad progress in Michigan began March 1, 1920.

On that day, Uncle Sam quit Railroad and returned the roads to their owners, to reorganize and restore.

That date found the 24 steam Railroads of Michigan deficient in almost every essential. Service had fallen to its lowest point of efficiency. In public esteem, the Railroads were on trial.

Your Railroads are not ashamed of their progress since that eventful date.

We have re-equipped our lines with locomotives and cars.

We have restored and improved our roadbeds.

We have made large investments in terminals, and have made every dollar count.

And we are giving you today the best railroad service Michigan has ever had.

Your Railroads gladly acknowledge their appreciation of your spirit of Fair Play. We are making good for you. We will continue to make good with all the means and effort within our power.

There are many improvements still to be made. We will make them as our means permit. For it is our steadfast desire to make you as proud of Michigan's system of steam Railroads as we are of the prosperity of the state we serve.

Your Railroads want to be your Friends. Do we deserve such classification? Write us, frankly and fully.

### TWENTY-FIVE YEARS AGO.

Items taken from The Record files of 1899, for the week corresponding to this week.

Born, to Mr. and Mrs. Fred P. Wilcox, January 20th, a son; Mr. and Mrs. W. Y. Murdoch were over from Ypsilanti Sunday.

Mrs. George Barber of Waterford spent Wednesday at Mrs. W. H. Sanford's.

Little Helen McCully is having a rather hard tussle with the measles this week.

Mrs. and Mrs. George Stanley have moved back from Milford and George is now working in the gun factory.

C. M. Christensen and another left this week for Ypsilanti to finish up their business course at Cleary's college.

C. E. Joslin has completed his spring trip for the Chicago wall paper firm and will remain at home until sorting out time.

Monday morning after Chemistry class, the Seniors and Juniors attended a pie social just west of the school house. Two pies quickly disappeared with the exception of one piece, which was to be offered to the janitor, but owing to certain circumstances it never reached him.

### THE REVIVAL AT THE BAPTIST CHURCH.

The revival meetings, which had been in progress at the Baptist church for the past three weeks, closed last Sunday evening with the church building filled beyond its capacity. At half past six that evening the church was half-full and by seven o'clock people were standing. Rev. Joe Payne, the evangelist, delivered another of his heart-searching messages and the meetings closed with nine going forward.

Two unusual features of the meetings were the large number of men who accepted Christ, and the evangelist's success on a return engagement. The smallest crowd during the whole three weeks was about one hundred and twenty-five and the largest was last Sunday evening. During the meetings sixty-six people went forward. Forty-two expressed a desire to unite with the Baptist church of this place two with the Presbyterian church three with the M. E. church, two with the Walled Lake M. E. church, one with the Farmington M. E. church one with the Farmington Baptist church and four have not yet decided what church they will unite with.

On Friday evening Mr. Payne baptized twenty-eight in the church baptistery all of these united with the Baptist church. On the following Sunday morning the pastor extended the right hand of fellowship to forty new members, which was one of the largest classes to be taken into the church at one time. A number of officers will unite with the church in the near future sickness and other reasons prevented them becoming members last Friday and Sunday. The revival was conducted with very little machinery, and there was no out-of-town musical talent with the exception of one evening when Mr. George McKelvey of Detroit sang a solo. All through the meetings Fred McKelvey of this place was in charge of the music and had something special in that line for every meeting. The children's choir, under the leadership of Miss Marguerite Warner, did excellent work every Friday evening but the last Friday and were ready for business on other evenings. Mr. Payne did not use any of the objectionable methods so often used in revival meetings, but his plan, fearless presentation of the truth and his dependence on God gave him success. The church has not only been benefitted by a large addition to its membership but it has been inspired to go on to greater efficiency.

### TO GIVE PEDRO PARRY.

The first of a series of Pedro parties for Forester's wives, will be given at the home of Mrs. J. W. Law on Thursday afternoon, February 5th, at 1:30. Wives of Foresters are most cordially invited. Come and learn more of our plans. Foresters' Aid Com.

### TO HOLD BOX SOCIAL.

There will be a box and foot social and dance given at the Foresters' hall on Tuesday evening, February 10, at 8:00 o'clock. Everybody welcome. Bring box lunch for two and come and enjoy the fun. Foresters' Aid Committee.

### FORESTER AID NOTES.

Regular meeting of the Foresters' Aid next Tuesday evening at 8:00 o'clock. A good attendance is desired.

RECORD LINES PAY-TRY ONE.

### BAPTIST CHURCH NOTES.

Our Sunday school went over the top again last Sunday in attendance. The attendance was 108. Let's keep it up.

Mr. Payne has gone, but don't let this stop the revival. A Christian church should always be on the revival spirit.

If all attend the prayer meetings that promise to, we will have to use the main room of the church. We all hope this will come true.

We believe it was at the prayer meetings that our very successful revival started. Don't miss the prayer meetings.

Next week we plan to hold a get-acquainted social. The old members want to get acquainted with the new members and the new with the old. Particulars will be announced next Sunday from the pulpit.

### PRESBYTERIAN CHURCH NOTES.

Did you note the unusually large congregation last Sunday morning?

A place for every one and every one in their place. Bring a friend. Morning worship at 10:30. Sermon "Christ's Vision of Life".

Sunday school at noon. Lesson: "The Vine and the Branches." John 15. The shorter catechism question 58.

Y. F. S. C. E. at 6:30. Topic: "Christian Endeavor as an Expression of Friendliness." Phil. 2:1, 11.

Evening service at 7:30. The pastor will begin a series of talks on "Things Supreme," the first being "The Supreme Revelation."

The Westminster Guild will act as hostesses for February at the evening services and they extend a very cordial invitation to all.

Mid-week service on Thursday at 7:30 p. m.

### METHODIST CHURCH NOTES.

"The Day We Live In" will be the morning meditation next Sunday and we trust the crowds will keep up their interest in attendance. Worship at 10:30.

The Sabbath school will begin at 9:00 a. m. The older folks failed to measure up to the request last Sunday. Let us do better next Sabbath.

In the evening we will have a rich treat with "Hymns of the Continent" when fifty-three views will be placed on the screen which will be a religious delight to us all. Beautifully colored and impressive are these hymns. Let us hear about them and then sing about them. Time 7:30.

Prayer meetings next Thursday at 7:30.

Everybody welcome.

The Aiea conference of our church will be held in old Central church, Detroit, on February 24th to 28th.

This includes the Detroit and Michigan annual conference of east and west Michigan together with the Central German, Swedish, Norwegian and Danish conferences representing a membership in Michigan of 150,000 members. Our church will be represented with a good delegation. Speakers rich in thought will contribute largely to our religious life. Look for other notices.

### SKI CHAMPIONS COMING SUNDAY.

Anders Haugen, captain of the American ski team at the Olympic games, Alf Bakken, champion of Norway; Barney Reev, the only Irish ski jumper of renown in the world, and the famous Hag's Brothers of Detroit, will be the headliners in the Detroit Ski clubs tournament at the Northville slide next Sunday.

At least 16 skiers, among them the best in the country, will negotiate the new slide, the scaffolding of which has been raised from 76 to 90 feet this year. The riders come down the steep incline and shoot off into space over the brow of the Balden Hill, which joins the fair grounds on the edge of Northville.

### NORTHVILLE SCHOOL NOTES.

Over one hundred pupils are being served each day in the school lunch room. The Domestic science girls are doing excellent work in the preparation of this noonday lunch as the food is well cooked and of the very best.

A representative from the Baltimore & Ohio railroad gave an illustrated lecture on Washington, Tuesday. The lecture proved an inspiration to the pupils who are contemplating the Washington trip.

The High school of Highland Park will hold a practice debate with the Northville team at this place Friday, January 30th.

Members of the Board of Education and superintendent of schools spent Thursday in Detroit where they made a careful study of the new type of elementary school buildings. Information was obtained which will prove valuable in the contemplated building program for Northville.

Both High school and Grade teachers' meetings were held Monday afternoon.

The Eighth grade scholarship honor roll for January is as follows: Arthur Stoner, Tedd Watts, Allen Beard, Hazel Harkling, Marjorie Johnson, Catherine Litsenberger, Gladys Ludwig.

## THE DIFFERENCE BETWEEN A LOCOMOTIVE AND AN APPLE TREE

The locomotive is a mechanical union of parts and does marvelous work when handled by men who know how to direct its forces.

The apple tree has life within. Its functions are organized about that central life. It produces lovely, sweet-smelling flowers and fruit that gives pleasure and profit to many.

The one is just a locomotive—helpless—inert—until man gives it life. The other is alive—vital—fruit-bearing—capable of great development and growth.

The Man of Galilee said He came to give life—to give abundantly—to give it freely—to give it to all who would accept and use it. He used the vine and branches to indicate how we should avail ourselves of the offer He made.

The community has a life—the form of it—the trend of it—the goal of it—is determined by the folks who live in the community. If love for God—honor—justice—equality—service are the dominant forces, then the community is great.

"Save the Surface and You Save All."

I have opened an Automobile Paint Shop in one of the Stimpson Scale Company's buildings and am prepared to do all kinds of auto painting, using the celebrated Gun Cotton Lacquer finish. This finish is now being used on nearly all factory-painted jobs and we have equipped our shop so we can do a first-class job. Unlike varnish the appearance of Lacquer improves with age. We will do all kinds of re-finishing and varnishing.

When we refinish your car it is as good as a factory job. Only the best grades of paints are used and they are correctly applied. An estimate on your car gladly furnished.

## POULTRY MEN PLAN FARM WEEK SCHOOL

That members of the Michigan Poultry Producers' association will learn many new kinds of the business, during their annual meeting at M. A. C. during Farmers' Week the first of February is shown by a review of their program for the three day conference.

Discussion of everything from disease control to the grading of eggs is included in the talks listed, practical poultry producers of the state taking their place along side specialists from the college staff in the lineup.

A special blue ribbon poultry and rabbit show, as well as a new egg show, will be features of the exhibits of practical interest to poultry raisers.

## NORTHVILLE SCHOOL NOTES.

The Board of Education in conjunction with the superintendent of schools is devoting considerable time and study to Northville's immediate and future needs for additional quarters.

The Board of Education are satisfied that before another school year, another building must be erected to take care of the increased enrollment.

New pupils are being added to the roll each week. Six rooms are now crowded beyond the maximum recommended number of forty pupils. The time for Northville's educational expansion has now arrived and it will be the policy of the Board to anticipate Northville's needs long enough in advance to avoid hasty planning and needless expenditure.

A survey indicating location and pupils will soon be given to the public. From this the public can readily draw their own conclusions regarding the need for more room.

## PRIZE TUBERS TO BE SHOWN AT FARM WEEK

The pick of Michigan's potato crop, recruited from the state's best growers, will be shown in a special tuber exhibit at M. A. C. during Farmers' Week, February 2 to 6. The potato samples will take their place along with winners in farm crops classes at the recent International Hay and Grain show, giving this section of the farm week exhibits a complete entry.

## STATE NEWS IN BRIEF

Iron Mountain—Henry Scheller, 50 years old, was killed when he fell down a chute in the Chapin mine here.

Jackson—Crazed by moonshine liquor, Clall Bottorff, 30 years old, killed his wife, Grace, 24 years old, and then turned a shotgun on himself, blowing off the top of his head.

Port Huron—Citizens of Snover have requested the Detroit United Railroad to take over the defunct D. B. C. & W. Railroad with a view to extending its lines and serving a part of the Thumb district that is now without service.

Muskegon—A 45-mile gale which swept over Lake Michigan piled the Muskegon lake channel with ice, and navigation was at a standstill. The Crosby steamer Missouri, after battling the ice was forced to turn back to Milwaukee with its freight and 25 passengers.

Detroit—A jury in Judge Charles C. Simons' court awarded five year-old Marion Killackey \$12,000 in compensation for injuries received two years ago when she was struck by a fourteenth avenue car, which according to her attorneys, will leave her lame the rest of her life.

Lansing—Wayne County paid the State \$3,902,804.82 last year in automobile taxes and received back \$1,951,402.45, according to a tabulation issued by Charles F. Deland, secretary of state. The total state collections were \$11,261,282.79, of which the counties received \$5,623,223.35.

Grand Rapids—Aviators passing over Grand Rapids must fly at a height of not less than 2,500 feet as a result of an ordinance adopted by the city commission. This height will permit the planes to glide nearly four miles in event of mechanical trouble, according to City Manager Fred H. Locke.

Holland—The Ottawa County Farm Bureau elected the following officers at their annual meeting: President, Henry Harrington, vice president, Gertrude Ynfema, secretary and treasurer, A. J. Knight. Resolutions were passed commending the road commission for their work and favoring a state income tax.

Port Huron—Traffic into the Thumb district has been badly disrupted, the result of a driving wind which filled the cuts through drifts in the north and south roads of San Ilac and Huron Counties, according to reports received here. Snow plows at some points were forced to turn back by the heavy drifts.

St. Joseph—Circuit Judge Charles E. White, of Berrien County, has dismissed the State's receivership suit filed against the House of David colony here in April, 1924. The court gave as his principal reason the explanation that the action, begun by Assistant Attorney General O. L. Smith, was not begun within the 15-year limit prescribed by law and was therefore outlawed.

Saginaw—The amalgamation of the Saginaw Automobile Club and the Bay City Motor Club in a new organization, the Automobile Club of Northern Michigan, which will operate in 23 central and northeastern Michigan counties has been approved by the members of the two clubs. This territory has been assigned the new organization by the American Automobile Association.

Ipsanti—The city council has granted Mayor H. E. VonDewalker authority to appoint a committee of five to consider a zoning ordinance, the will work with the council in formulating plans for expansion and development of the city. A definite building code will be one of the first considerations of the committee, and it will also make recommendations as to what public improvements should be undertaken each year.

Detroit—All butcher shops in the city, except those selling Kosher meat, are to be closed Sundays under the new city ordinance prohibiting the sale of meat or meat products on that day. Under the Police Department's interpretation of the law, all Kosher markets found open Saturdays are in violation of the law. By this interpretation, all persons whose Sabbath is the seventh day of the week, Saturday, may keep open their shops on Sunday.

Grand Rapids—District Judge Arthur C. Denison has revoked the authority granted the receiver of the Manistee and Northeastern Railroad by the Michigan Public Utilities commission to cease operation of trains on the grounds that the road was unsafe. Judge Denison, however, authorized discontinuance of service between Walton and Gaylord and ordered the parties representing the railroad and shippers to arrange for service on the remainder of the road.

Munising—Carlos Rudd, 22 years old, who pleaded guilty in Circuit Court to killing his 7-months-old baby, has been sentenced to serve from three to 15 years in the Jackson State Prison by Judge Louis H. Read. In a written confession, Rudd said he lost his temper when the baby's cries awakened him late one night. He tried to quiet the child by rocking it, but was not successful. Then he put his hand over the infant's mouth, holding it there several minutes. Unintentionally he shut off the baby's breath and it died.

## LOCAL

A Masonic lodge has recently been organized at Berkeley.

Redford township has been divided into six voting precincts.

Mrs. Katharine Strong, who has been very ill for the past week, is slowly improving.

A. T. Stewart an son, Russell, of Lansing, were Northville visitors the first of the week.

Mr. and Mrs. August Fritze spent Saturday and Sunday at the home of J. L. Calkins and family.

Mrs. W. J. Thompson returned home Tuesday from Detroit, where she recently underwent an operation.

Two formerly Holly residents have presented that village a fine tract of land for a community play ground.

Lewis F. White of Detroit, spent Sunday with his brother, W. H. White and wife.

Mrs. Sherrill Ambler, who has been very ill at a hospital in Detroit, is somewhat better at this writing, so it is reported.

E. L. Smith was present at the meeting of the Exchange club on Wednesday, having nearly recovered from his recent illness.

Lawrence Henry had the misfortune while skiing last Sunday, to fall and injure his back severely which confined him to the house for a few days.

There is a possibility that Plymouth capitalists are contemplating establishing in some section near the city.

Mr. and Mrs. George White, who have been visiting at the home of Mr. and Mrs. W. H. White, left for Detroit Sunday night. He has secured a position with the Packard Motor Co. in that city.

The February issue of Our Dumb Animals, published at Boston, Mass., contained a picture of "Barney," a horse said to have lived to the age of 30 years under the care of M. E. Moret of Northville.

A number of Northville Masons attended a school of instruction at Plymouth on Monday evening, at which Grand Lecturer Gilbert gave instructions regarding the secret work of the order.

Everything indicates that the ski tournament will draw a large crowd to Northville Sunday afternoon. The Hall brothers and many of the champion ski artists of the country will be here to take the "slide."

Thirty-two relatives from Plymouth and Northville surprised Mrs. Floyd Beckles of Ann Arbor, Tuesday, the occasion being her birthday. A basket lunch was served at noon. Mrs. Beckles was presented with a beautiful gift of silverware—Plymouth Mail.

Northville Community Knights Templar will give a grand ball at the High school gym in the near future. The date has not been selected but committees are at work perfecting plans for the event. It will be a big event and well worth remembering.

The ball given by the Northville High school alumni association last Friday night proved one of the most delightful social affairs of the season. There was a good attendance and the program was thoroughly enjoyed by the merry dancers.

Ann Arbor's handsome Masonic temple will be dedicated on the afternoon and evening of February 25th. The building and furnishings will cost \$500,000 and it is said to be one of the finest small city temples in the country, and the finest one in Michigan outside of Detroit.

Carl Van Valkenburgh of Center Line, Mr. and Mrs. Milo Van Valkenburgh, Mrs. Jessie Olin and son, Howard, Mr. and Mrs. M. L. Van Valkenburgh and daughter, June, Mr. and Mrs. G. H. Potts and two sons, Herman and Allen of Echo City, came out and spent Sunday evening with their parents, Mr. and Mrs. Emory Van Valkenburgh.

C. D. Clark, a former resident of Northville, the son of Frank N. Clark, former superintendent of the United States fishery at this place, has recently been appointed district land appraiser of the New York Central lines for the eastern district with headquarters at the Grand Central terminal in New York City. Many old friends here will be glad to learn of his advancement.

The second annual ball to be given by Fellowship Chapter Order DeMolay of this village will be given at the new Masonic temple in Plymouth on the evening of February 6th—next Friday night. Perkins' six-piece orchestra will furnish the music and the price of tickets will be \$1.25 per couple. The floor in the new temple is said to be delightful for dancing and all who attend the ball will be assured a good time.

Last Saturday night the Moe's Sport Shop basket ball team of Ann Arbor defeated the DeMolay team on the local floor to the score of 33 to 20. The visitors are regarded as one of the fastest teams in the state. On Monday night the home boys defeated the Walled Lake Independents, the score being 14 to 11. Thursday evening the team went to Detroit and were defeated by the Wesleyan Methodist church to the tune of 29 to 23. Saturday the team will go to Redford and meet the Sherwood team of that place.

Fred L. Brown of Cloverdale, Barry county, is the guest of his brother, E. E. Brown.

The two children of Mr. and Mrs. Earl Gow, who have been ill, are gaining slowly.

A message from the Schrader-Cavell party from Nashville, Tenn., stated they were all well and making good progress.

Mrs. Fred Foss returned home on Thursday after spending a few days with her sister, who is sick, at Lansing.

Mrs. J. L. Calkins arrived home from Pontiac Saturday evening, where she has been caring for her mother, who has been very ill.

Miss Doris Teshka underwent an operation for appendicitis at the Sessions hospital on Wednesday. She is getting along nicely.

Mrs. T. R. Carrington was taken to her home last Saturday after a couple of weeks spent at Sessions' hospital. She is getting along nicely.

One of the worst storms of the season swept this section of the state Monday and at has been very cold since. Wednesday morning it was ten below zero.

Miss Ruth Green of Farmington, who has been the guest of her aunt, Mrs. E. S. Neal for the past few weeks, has accepted a position with the American State Bank in Detroit.

Mrs. L. E. Eaton sailed from New York last Saturday for a three months' tour of Europe. She was accompanied to New York by her son, Levi, a Boston who returned Sunday.

Miss Clara Beard of the Northville Fashion Shop recently visited the millinery markets at Detroit and Saginaw and while absent she selected her new stock of millinery. She announces an opening of advanced styles for Saturday and invites all the ladies to make an inspection of her stock.

### THE TRAINING SCHOOL PLAN IN OAKLAND COUNTY.

To spread the gospel of better home-making to every home in the county a new method has been devised by the Extension department at the Michigan Agricultural college. The training school or schools for local leaders enables the specialist to reach a much larger number of people than would be otherwise. Muriel Duggan, Oakland County Home Demonstration agent, is introducing this plan of work in the county.

A training school consists of twelve to fifteen women appointed, elected or volunteering to take a series of lessons from the extension specialist. These leaders will then take the work back to their respective communities or organizations. Formerly the specialist met individual groups, reaching only twelve to fifteen in a township.

At the present time twenty-two counties in Michigan are following this plan of organized project work, some counties on a county-wide basis, thus multiplying the efforts of the specialist from twelve to forty times. The women are so enthusiastic over the work that the task of passing on to the community or local group is not arduous.

In arranging the Oakland county program for the next six months four training schools in the clothing department are to be held and two in the home management project.

The clothing project as outlined by Miss Carrie Williams will include four meetings, beginning late in February and meeting each month.

The subject matter to be given includes:

1. Sewing equipment—Methods of pressing. Care and use of the sewing machine attachments.

2. Short cuts and finishes—Bound buttonholes, set in pockets and neck finishes.

3. Choice of materials—Choice of ready-to-wear garments based on principles of color and design.

4. The one-hour dress.

The Home Management project will have for its subject "The Kitchen."

1. Interior, walls, roof, woodwork.

2. Arrangement for step-saving and efficiency.

3. Large equipment—choosing cupboards, refrigerators, work tables, stoves, etc.

4. Small equipment.

The Home Management project is a continuation of the work begun in the autumn but other communities may enroll now for this second part.

Mrs. Marion Rogers Smith, Home Management specialist, will have charge of the work. There is no expense involved in enrolling for this work.

Any community or farmer's club that desires to enroll leaders for either training groups should notify Muriel Duggan, Home demonstration agent, at once. Locations will depend somewhat on the communities that enroll. It is possible that Walled Lake, Milford, Holly and Pontiac will be the centers chosen for the clothing project. The location of the home management project is also dependent on the communities which enroll. Probably the centers will be Pontiac and Okia.

### MARSHALL ENLARGES SCHOOL GROUNDS.

A dispute from Marshall states that school children of that city are to have more room in which to play, but two residents of the town are to lose their residences to make this possible. A special jury in circuit court Monday decided that the residence properties of C. A. Rapp and Bionas Rustke, adjoining the present school grounds, should be condemned so that the playground might be enlarged. The homes will be razed.

Similar action ought to be taken in Northville because our school grounds are becoming too small. The property on the west side of the present grounds ought to be procured for school purposes.

### PELO PLANNED AS NEW SPORT AT U. OF M.

Polo as a recognized sport at the University of Michigan seems highly possible. Captain Ion C. Holm, at Michigan to have charge of the organized reserves, is an experienced polo player and plans to arouse interest in the sport by inaugurating competition between fraternities.

Inasmuch as college polo in this section of the country has never been tried out, it is expected that the experiment will be watched with considerable interest by all of the leading universities in the middle west. Stanford and Arizona are the only universities in the far west where the game has been popular. In both the schools the U. S. government has loaned them cavalry horses to help abate the cost of the game.

### YPSILANTI POSTOFFICE SUFFERS ECONOMY WAVE.

Acting on orders from Washington, Postmaster George Cook has lopped off an hour and a half from the business day at the postoffice at Ypsilanti.

The necessity for economy was given as the reason. The stamp and parcel post windows will now be open from 8:00 a. m. to 6:00 p. m.

### "MR. BATTING BUTTLER" AT SHUBERT DETROIT.

The absolute truth about George Choo's popular musical comedy, "Mr. Batting Butler," is that there were few empty seats during the remarkable engagement in New York and fewer still during its engagement in Philadelphia, and from every indication, few seats if any, will be empty at the Shubert-Detroit opera house where it will be seen for the week commencing Sunday night, February 1st. During the latter part of last season, Manager Cohn had numerous inquiries and requests for "Mr. Batting Butler." This fact aerobically for the unusual demand for seats now, and which is as it should be, for if ever there was an entertainment built to satisfy the masses of exacting playgoers, "Mr. Batting Butler" is it in big capital letters.

George Choo's, under whose personal direction this unusual musical comedy was produced, deserves credit for retaining both principals and chorus of the original Times Square organization headed by that droll farceur Charles Huggles who has been seen here in several successful farces. Associated with him are a number of musical-comedy artists of no little fame; Helen Blay, a local favorite, Poll Walker, Esther Muir, Marion Hamilton, Teddy McNamara, Eugene McGregor, Frank Sinclair, Howard Freeman, George Debbis, and fifty singing and dancing champions, including the twelve English Rockets. A special symphony orchestra will be another enjoyable feature, to say nothing of the tons of wonderful gowns and new millinery effects. Of the many catchy songs his those considered the best sellers are "Apples, Bananas and You," "Will You Marry Me?" "Tinkle Tune," and "Dancing Honey-moon," consequently they are the most popular. As to the dancing numbers, which are introduced with astonishing rapidity, and are of such varied routine and style, it is difficult to pick out one stronger than the other.

Matinees will be given on Wednesday and Saturday.

### Twig as Tooth Brush.

5'3", the little boy in Kipling's story, was an English orphan brought up as a native in India. He cleaned his teeth with a twig, chewing the fibers thoroughly to penetrate all crevices, and scrubbing energetically to remove tartar. Most East Indians have white, strong teeth.

### EXCHANGE HOTEL TO BE CLOSED.

Saturday night three fellows who were employed on the highway construction crew at Novi, came to Northville and two of the fellows concluded after reaching town that their whistles needed lubrication and fitting their action to their thoughts they went to the Exchange Hotel which has been conducted for some months by H. Herendeen, and arranged for the purchase of two quarts of booze. After imbibing freely of the liquor and having satisfied their thirst they very rudely gave the stock on hand to their companion, a young fellow who gave his name as Edward Howell of Green Oak. Being as green as the town he came from Howell thought he could make way with the balance of the stuff and still move with the traffic, but he guessed wrong. Along about midnight he was gathered in by Marshal Lyke and placed in the village jail for safe keeping.

Sunday morning after a good night's rest he told his story, and after listening with keen appreciation the officers asked the buyers of the booze where they had procured their supply and were told that they made the purchase the night before at the Exchange Hotel and that they were told by Herendeen to go to the rear of the building where they could be supplied. They alleged that they followed the directions and had no trouble in finding two quarts of booze with an unmerciful kick.

The fellows were taken before Justice Ely and he in turn called in Ray Baker, one of the owners of the building, to whom was related the story of the booze purchase. Herendeen was next called and he denied that he had sold any liquor or that the booze had been secured at his place. Notwithstanding his denial, however, Mr. Baker gave him notice to vacate the property within twenty-four hours, but Herendeen pleaded for more time and he was told to get out by Wednesday.

Mrs. Mary Tuck, who was operated on at Harper hospital, Detroit, for an abscess above the eye, is reported as getting along as well as could be expected. Her daughter, Mrs. Jesse Wines, is in the city with her.

The Baraca class of the Wixom Sunday school with Rex H. Thibault, teacher, will give their first banquet in the new basement of the church, this Friday, evening, January 30th. The speaker is from Lansing and music will be furnished by the Milford Melody Makers. Tickets are 50 cents. All are cordially invited to attend.

### HAS FAITH IN THE OLD HOME TOWN.

H. M. Bogart of Pontiac, who is secretary and treasurer of the Monitor Insurance company of Oakland county, in renewing his subscription to The Record writes as follows:

"I am still enjoying the 25 years ago as it brings to my mind my old friends of former days, when as a boy, I lived in Northville. I wish for you and the good old paper the success you so richly deserve. I feel that if the same spirit prevails in Northville in the future that has been manifest in the past few years, that before many realize it Northville will be one of the favored spots in southern Michigan.

"I am enjoying my work here very much and we have had a very prosperous year, our losses for 1924 being \$21,000 less than in 1923 and we closed the year with \$58,000 in our treasury. We are one of the oldest Mutuals in the state, having entered our 55th year. Our annual meeting will be held Monday, February 16th at the Armory here. Wish you might be present to meet many Oakland county men."

## NEWS FROM THE STATE CAPITAL

### Senate Passes Two-Cent Gas Tax Bill With Only One "Nay" Vote

Lansing—The Senate has passed the two-cent gas tax bill by a vote of 30 to 1, Senator Joseph Bahorski casting the only negative ballot. The measure has gone to the House where it must lay on the table five days before it can be acted upon.

An immediate effect clause and an amendment designating an appropriation as necessary to meet a deficiency in funds were added when the senate finally passed the measure.

The measure provides for a tax of two cents a gallon on motor fuel, the return of \$2,500,000 to the counties annually to retire the \$5,000,000 owed them on county rewards, payment of not less than \$3,000,000 annually toward interest and sinking fund charges on highway bonds, \$500,000 for non-trunk line bridges, and the remainder to go toward new construction.

### Weight Tax Bill Passes

The automobile weight tax bill, with a 35-cent per hundred rate for passenger cars and 65 cents to \$1.25 graduated rate on commercial vehicles, has been passed by the house, transmitted to the senate and referred by that body to its taxation committee.

The weight tax bill did not slide through the house with the same speed that marked the passage of the gasoline tax measure in the senate. Rural representatives were not altogether pleased with the bill as it finally came out of committee. There was objection to a belated reduction by the committee of its recommended maximum rate for commercial cars, from \$1.50 to \$1.25. There also were objections from rural members for a larger county share of the receipts from the tax for local highway purposes. The present law gives the counties half of the total receipts for local highway purposes.

### Seek Blue Sky Revision

The Michigan Securities Commission reorganization bill has been introduced by Representative Milton Palmer of Detroit. He announced that two other measures are in course of preparation. The measure that appears would create a full time securities commission, consisting of three members at salaries of \$7,500 each. It would replace the present commission which includes the state banking commissioner, the attorney general and H. M. Duff, who was elevated from executive secretary to the position of full time commissioner by the last legislature.

### Trespassing Made Illegal

Entering an unoccupied house or factory without permission would be made punishable by a fine not to exceed \$250 or 90 days imprisonment, or both, if a bill introduced by Senator Arthur B. Wood becomes law.

Mr. Wood explained that Detroit contractors have reported heavy losses by builders of new houses through people entering and tracking over new-laid floors or doing other damage.

### Hurries Re-apportionment

Senator Arthur B. Wood has asked that a meeting of the Senate Reapportionment committee be called as soon as possible. Senator Eliza Howarth, Jr. of Royal Oak, is chairman of the committee, and Mr. Wood is a member. The committee has before it Mr. Wood's bill providing for an increase in Wayne County's representation from five senators to 10.

### To Increase Bond Limits

Rep. Fred R. Bristow, of Greenfield Township, has introduced a bill in the House to increase the bonding limits of rural and agricultural school districts having a population of more than 15,000 to 15 per cent of the assessed valuation of the district. The limit for districts having a population less than 15,000 is now 15 per cent, but for the more populous districts, it drops to 8 per cent.

### Capital Punishment Advocated

Fred C. McEachron, of Ottawa county, is the author of a bill to make the crime of first degree murder punishable by death. The bill in language is much like the capital punishment bill that appeared before the legislature in 1921 and 1923, and which were defeated by narrow margins. In 1921, only one vote blocked passage.

### For Eight-Hour Day

Rep. John Holland, of Bessemer, long the champion of the eight-hour working day, introduced another bill in the House to provide that the employees of mines, quarries, mills and manufacturing plants shall not work more than eight hours in every 24.

### Greater Detroit Planned

The Metropolitan area amendment to the constitution, which is designed to provide for the development of Greater Detroit, appeared in the senate in the form of a joint resolution, introduced by Senator George M. Condon of Detroit. The amendment provides that cities, townships, villages or parts thereof, may band together, issue bonds and carry out developments for parks, public utilities, sewage disposal drainage, water, light, heat, power and transportation, and is to be submitted to the voters.

## Secure Your Egg Mash Here!

We are manufacturing here in Novi an Egg Mash that has no superior on the market and but few equals. We have given the matter a great deal of careful investigation and study and we believe we are producing an article that is superior to anything offered the trade.

Our mash contains well balanced proportions of Wheat Middlings, Wheat Bran, Charcoal, Ground Bone, Salt, Ground Corn, Ground Oats, Meat Scraps, Ginger, Anise, Starch, Corn Flour, Powdered Locust Beans, Powdered Whole and Skim Milk, Oxide Iron and Wheat Red Dog—a combination properly mixed and which is producing wonderful results.

The careful observer will readily understand why it is almost impossible for the farmer or poultryman to manufacture or mix a product that would prove as satisfactory, because there are so many commodities which go to make up the well-balanced mash.

We shall be glad to explain this Mash to all who are interested and we invite all to give it a trial. We are very sure you will be pleased with the results.

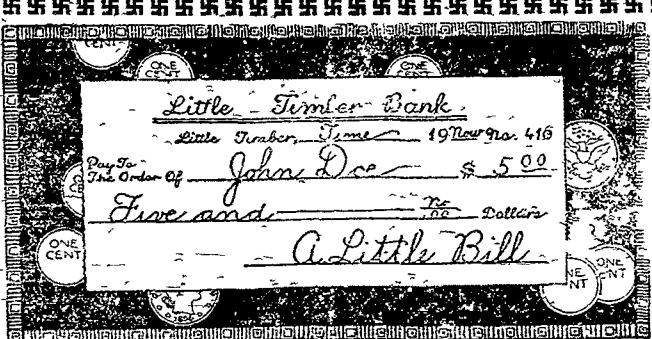

We also have Semi-Solid Buttermilk Feeds which you will find of great feeding value.

## GIVE US A CHANCE

Some people like to shop around when they have a big bill of lumber to buy and generally think they'll save a lot by giving the order to some big city dealer.

Some of these wiseheimers who have taken their big order to the city have discovered they paid a good price after all, and could have bought for less money right from their home dealer, but often in such cases the home dealer doesn't get a chance.

## HOW VILLAGE MATTERS STAND.

As the time of village election draws near it may not be amiss to correct, if possible, some of the ideas that have found expression.

The sentiment has been voiced that the raising of \$45,000 for running the village affairs means that there is waste or extravagance or both.

Let every citizen and the taxpayer especially know that there are certain items which cannot be omitted or changed so long as there are bonds or other obligations that demand interest payments. That interest item amounts to \$8,500.

Every bond issue has a provision that a certain percent of the assessed value of the village shall be set aside for a sinking fund to pay the bond issues when they fall due. That item amounts to \$7,500 at present.

The street lighting is a convenience and a necessity which few would think of omitting. To properly handle that public benefit calls for \$5,000 per year.

The care of the streets must be continuous while automobile traffic is so great or while we are without a larger proportion of paved streets. To make the street fairly smooth will mean some work every day from spring till fall. A constant program will call for not less than \$6,000. This is the estimate of men who are competent in such matters.

The ordinary expenses of the village have been about \$8,000 and they will probably keep in that vicinity for a while yet.

All these items amount to \$35,000 and this does not allow for any emergency that might arise or for doing any additional work which might seem desirable for the future good of the community.

This coming year must see the raising of the foregoing amount as well as a \$1,000 for the final installment on the Saddle Springs and \$4,000 for remainder of the extraordinary expenses in retamping the water system and extending the sewers to Orchard Heights.

It will be seen that the incoming council will have to raise nearly as much as last year even though they should have their requests to the very bone.

So many have the idea that we're doing business in 1905 instead of 1925. Then we had 1,400 people while now there are 2,500. Then it was \$250 per day. Now it is \$600. Then you could own a house for \$1,500. Now you pay \$4,500.

Northville will grow. The expansion of the territory around Detroit will make it grow. The men of larger vision see the movement already under way and they want village affairs handled in a big, generous, far-sighted manner.

The present council has worked diligently to do this very kind of a job. They feel that they have made progress. They see much that could be done. When new councilmen are nominated the electors should not fail to get the best the town affords. The times demand men who are sound, broad minded and zealous for genuine future prosperity.

C. A. DOLPH, President.

## EIGHT CENTURES' BRUSHED ASIDE BY CAMERA LENS.

Robin Hood and his merry crew who took from the rich to aid the poor, his love for sweet Maid Marian, Sherwood Forest and Nottingham Town, Friar Tuck and Little John with their stags and cudgels—all etched out of the dim past and made to live again.

Towering battlements with turrets seeming to cut the sky, great castles of giant kings with their moats and drawbridges—drawn across the span of 800 years and set before eyes of today! The great Fairbanks as bandit chief—yet supreme in the role of romantic lover!

This wonderful picture with Douglas Fairbanks as the star will be presented at the Alseum theatre in Northville on Sunday and Monday, February 8th and 9th, for the benefit of the Foresters' convention fund. There will be a matinee Sunday afternoon at two o'clock and two shows at night and two performances will also be given on Monday night. The night shows will be at 7:00 and 9:00.

This picture has been heralded near and far as the greatest triumph of the screen. As one writer has stated "It is a marvelous entertainment. Aside from this, however, Douglas Fairbanks in Robin Hood has the educational qualification that make a truly great picture."

## Apostle Man of Learning

St. Paul was educated in all the learning of the Jewish doctors of the law, as he states himself. His addresses also show that he had a knowledge of classical literature, particularly the literature of the Greeks. There were many seats of learning in the East in his time. One that we would call a university was situated in his native city of Tarsus, in Cilicia.

# Foresters' Convention Benefit! ALSEIUM THEATRE Sunday and Monday, Feb. 8 and 9 Douglas Fairbanks In Robin Hood

Love of 800 Years Ago. For lovers of today! Love when knights in armor fought with lance on armored steeds! When hearts were won with staff and cudgel and broadsword!

Douglas Fairbanks and the love of Robin Hood and his sweet Maid Marian! This great star is supreme as the romantic wooer! As a bandit who robs the rich to succor the poor—He's Douglas Fairbanks.

A GORGEOUS SPECTACLE—A TREMENDUOUS DRAMA.

Stupendous Scenes of Regal Splendor Provide a Setting for this age-old Story

According to legend Robin Hood could cut a leaf from a bough with one arrow, place a second arrow on the same spot on the bow and split the second arrow with a third before the first fell to the ground. Frequently he succeeded in transfixing a foe's hand to his bow before he could do any damage. The bow-and-arrow marksmanship of this hero of the age of chivalry has much dramatic thrill in the greatest screen triumph of a decade, "Douglas Fairbanks in Robin Hood," of which Mr. Fairbanks is both producer and star. Mr. Fairbanks gives a remarkable exhibition of the fact that he hurls a true arrow in his extraordinary exploits in this brilliant photodrama.
