NORTHVILLE, MICHIGAN.

Alseium Theatre.

We Are Going to Rebuild

It is difficult to announce at this time any definite plans, but we desire to assure the people of Northville that the Alseium Theatre will be rebuilt—bigger and better than ever. As soon as possible work will start on the new structure which will be one that will be a credit to this splendid community.

In the shadow of the great loss we have sustained we are comforted by the many expressions of sympathy and help that have been made and we desire to express our thanks to all who helped to fight the fire. To the local firemen and to the brave fellows from Plymouth, Redford, Farmington and Walled Lake, who came to assist in the fight, we want especially to express our appreciation.

Be assured, friends, that we shall rebuild.
W. J. THOMPSON.

NORTHVILLE SUFFERED A \$150,000 FIRE LOSS EARLY THURSDAY MORNING

Fire Started in the Foresters' Hall and Spread Rapidly to Elliott's Grocery in the Ford Block and the Alseium Theatre Building
—Help Came From Plymouth, Farmington, Redford and Walled Lake—But Small Insurance Carried—New Blocks Will Replace the Old Ones

About three o'clock Thursday morning fire was discovered in the building known as the Foresters' hall and an alarm was sounded. Before the people of the village could be aroused the fire had gained great headway and within a very short time the structure, a frame building and a very old one, was a seething furnace. The wind which came from the north drove the fire into the rear of the Ford building occupied by W. H. Elliott & Son and soon all that part of the structure was in flames. The fire which was fast destroying the frame structure soon reached the Alseium theatre building and within a very short time the door and stairway leading from the second floor of the theatre were in flames. Then the fire shot to the roof and for a time it seemed that the whole of the business section on east Main street could not be saved. The fire in the meantime was fast eating its way into the Elliott store and within a short time, probably not more than half an hour after the alarm was given, the three story building was wrapped in flames. The local firemen fought heroically and against great odds but they were powerless to check the on-rushing fire. Calls were sent to Plymouth, Redford, Farmington and Walled Lake for help and within a short time the departments from these places were on the ground, fully manned and prepared to join hands with Northville people in their fight to stop the spread of the fire. Plymouth's company laid two lines of hose and they were turned on the theatre building from the east and two streams of water were soon being played on the brick wall and the Ware and Alexander buildings on the east. The Redford department connected with a hydrant on Horton avenue and soon had a stream of water at their command. Farmington and Walled Lake boys took their hold wherever there was a chance to assist and soon there were seven or eight streams of water being played upon the fire from as many angles. The water supply held up splendidly and until the very last there were no cries for water.

The Ford block collapsed to the west and south and fell into the alley and the street. In the fall some of the burning material struck and broke a window on the east side of the Northville State Savings Bank, but no serious damage resulted. With that meagre reduced somewhat the combined efforts of all were directed in trying to control the fire at the theatre and fortunately the walls of the building—all four of them—stood and the interior was completely burned out. The walls formed a pocket into which the fire fought desperately to spread itself to adjoining property, but the demon was defeated. Burning embers were swept across the street to the south and willing workers applied water to many roofs which were in danger and greatly threatened.

Considerable of the stock of the Elliott store was removed across the street and nearly all the cases and counters were taken out. Some of the goods removed were broken and badly damaged, but everybody did what they thought was for the best. Floyd Shafer was able to remove only a part of his stock of electrical fixtures and R. H. Baker was not able to save all of his office equipment. The Ware building being threatened workers soon removed the equipment and stock of the restaurant but that too was more or less damaged in the hurried handling and not all of it was saved.

The Foresters and W. R. C. lost all their belongings in the hall and the loss will be a severe one because there was a fine lot of dishes and silverware besides a piano, chairs, tables, etc. Mr. and Mrs. Elliott and Waldow were able to save a few articles of wearing apparel, but Mrs. Ford and daughter were forced to flee and leave everything behind. Mr. and Mrs. Lee Herrick had rooms on the third floor and they lost practically everything. Mr. and Mrs. Thompson had very pleasant apartments above the theatre and they did not have time to save anything except a few clothes they were able to get into. Both Mr. Thompson and Mrs. Ford lost sums of money which they had in their rooms and all their personal effects were lost.

The loss will run considerably more than \$100,000 over and above the insurance. Mrs. Ford had \$5,000 insurance, Elliott & Son carried \$5,000, Mr. Thompson had but \$10,000 on building and contents and his equipment alone was worth more than that sum. Mr. Shafer had some insurance.

During the progress of the fire two poles of the Detroit Edison company took fire and considerable damage resulted. The Edison crews were on the job early, however, and did everything they could to assist in the fight. Naturally, but a comparatively few from the great crowd which gathered could do but little but stand and watch, yet all did what they could and by their presence gave expression of the genuine sorrow all felt and the tender sympathy extended to those who had suffered by the fire. Fortunately no one was injured and all the occupants of the buildings were able to escape with their lives. It was indeed a very fortunate misfortune. From the ashes of the burned buildings there will arise new structures that will be a credit to their owners and to the village. Those who have suffered losses will build anew and with the spirit of thankfulness will strive to build better and more enduring buildings.

Northville people are very thankful to our neighbors from Plymouth, Redford, Farmington and Walled Lake for their prompt assistance. No urging was required to secure a prompt response to our appeal for help. All four of the departments made record runs to Northville and words are unable to give expression to the appreciation all our people feel for this kind and neighborly assistance.

The fire burned nearly all day Thursday, but early in the morning a force of men were placed at the task of removing the debris from the streets and the work of clearing away the ruins will be pushed with vigor just as soon as the insurance losses have been adjusted.

As we look back over the two hours when the fighting was the hardest it is difficult to suggest anything that could have been better handled. To be sure we lacked some needed fire equipment, and let us hope this need will now be supplied, but from first to last our fire fighters and the people generally did exceedingly well.

The Record does not believe this is the proper time for unreasonable criticism because some mistakes were made in the rush of things. We were urged by many people to "roast" certain individuals for their lack of interest and appreciation of the danger which threatened the town but this is no time for harsh words or public condemnation. Let us rather gather experience from the mistakes of the past and endeavor to co-operate with the village officials and with the members of the fire department in so adjusting matters and in providing the proper equipment that some of the short comings may not occur again. Above all, let's clear up a lot of fire hazards which threaten Northville and her citizens.

The Modern Woodmen also occupied the Foresters' hall and they suffered the loss of their regalia and numerous other effects.

The members of Porahontas Lodge held a pedro party in the Foresters' hall on Wednesday evening and it is believed the fire started from the furnace.

SPARKS.

Foresters will hold their meeting tonight at the Library building.

T. M. Gillispie of the Park Hotel passed hot coffee to the firemen and all others who needed the warmth of the "cup that cheers."

Mr. and Mrs. W. J. Cowell of the Cowell House very generously supplied the firemen with hot coffee and a lunch during the progress of the fire.

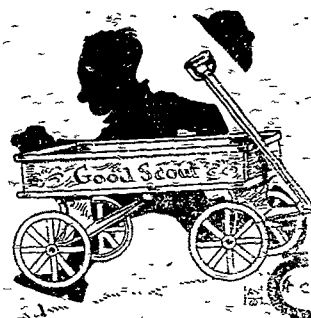

The safety meeting will be held at the High school auditorium on Wednesday evening next. Tell your friends and neighbors and urge them to attend.

Flying embers threatened property on the south side of Main street, but fortunately no damage was done, although great showers of sparks.

UNIVERSITY "NURSERY SCHOOL" OPENS WITH 25 PUPILS.

With diminutive chairs and tables in place the Merrill-Palmer nursery school, which is being conducted at Ann Arbor in conjunction with the graduate school of the University of Michigan, opened Tuesday with 25 little tots enrolled and 40 other children, between the ages of two and five, on the waiting list.

Miss M. Lord, who has been acting until recently, as the head of a large children's school, with Miss Edna White assisting will be in immediate supervision of the school. Mrs. Helen T. Wooley, of the Merrill-Palmer school in Detroit, is to have charge of psychological studies in the school, while the educational work will be carried on in connection with the graduate school of the University.

The main purpose of the school aside from that of benefiting the

children along educational and recreational lines, is to give advanced students in the school of education opportunity for direct observation in teaching and advanced psychology. The day's work at the school begins at 9:00 o'clock. The mornings will be spent at work, the children will then have lunch together, after which they will spend the afternoon in sleep and play.

PONTIAC DEMOLAY WINS COURT CHAMPIONSHIP.

Pontiac Demolay has captured the state Demolay basketball championship with a record of eight victories and two defeats. Ten teams, including Lansing, Alma, Jackson, Muskegon, Wyandotte, Grand Rapids, Battle Creek, Flint, Albion and Pontiac were entered in the state league of the order. Pontiac was the runnerup with seven victories and three setbacks.

Golfer's Advantage

The golf ball has one advantage over the angling Ananias; he doesn't have to show anything to prove it.—Boston Transcript.

Women Breed Silkworms

The breeding and rearing of silkworms forms one of the most important and lucrative occupations among women of the Italian countryside.

Two Great Languages

The only living language besides English which is at present growing with any rapidity is Spanish. Spanish is the principal language of America from Mexico southward, and the population of the South American countries is increasing rapidly. Yet even Spanish is no high rival to English as a world language.

AUTO PILGRIMAGE TO CAPITAL IS PLANNED

A. W. FRYE

Detroit—The organization of a national Automobile Caravan "seeing America" Trip to Washington in which thousands of members will drive to that city, during July, from every section of the country is the plan adopted by The Macabees, well known fraternal benefit society, as its Americanization program for 1925 and a Caravan Jubilee will be held in Washington in connection with the Order's regular quadrennial convention, according to A. W. Frye, supreme commander of the order.

During the period of pilgrimage the general field staff will be moved from the national headquarters in Detroit to Washington.

Turkey Wants Embassies Moved
Constantinople—The Turkish government has sent notes to the various foreign countries demanding that they transfer their embassies from Constantinople to Angora, the new seat of the government. Thus far, despite a transfer of governmental seat, nations have been permitted to maintain their embassies in this city.

Washington—Secretary Weeks has handed a war department plan to Brig Gen William A. Mitchell, whose assignment as assistant chief of the air service expires April 16. General Mitchell was named to be a staff officer of the Eighth corps area with headquarters at Fort Sam Houston, San Antonio, Texas, a post regarded by the war department as the most important field position in the air service.

Teapot Dome Trial Ends

Chester—The Teapot Dome trial has ended here in United States District Court Federal Judge. Blake K. French will avoid the filing of the trial by the government and the defense before he decides whether Henry D. Sokol shall retain the Teapot Dome lease or the United States shall regain the big Wyoming naval oil reserve.

The government has given 15 days in which to submit its case of the case and the defense has a week or 15 to 30 days in which to prepare its defense before the complete record before.

Pershing Gets Tough Job

Washington—Gen John J. Pershing has been handed a more difficult job that may live and during the night almost as much as he did in France. Within a few days of his appointment by President Coolidge as head of the commission to supervise the plebiscite in Tacna and Arica that will decide the sovereignty of territory in dispute between Chile and Peru for 40 years, he has discovered that he has been picked out for the most difficult, delicate and important diplomatic assignment on the American continent.

Pope Receives K. of C. Envoy

Rome—The Pope receiving in private audience Edwin Hearn, Rome representative of the Knights of Columbus, stressed the splendid work the knights are doing in Rome and approved and promised to support the knights' determination to make social work here entirely on a non-confessional basis. The papal approval is especially important because certain factions in Rome have tried to place obstacles in the way of the knights' activities for the benefit of Catholic children.

Cash Funds Lost in Mails

Buffalo—Postoffice inspectors have been investigating the loss of \$120,000 worth of \$10 bills en route from Washington to the Federal Reserve Bank in Detroit.

While it is likely, officials said that the pouch was lost somewhere between Washington and Buffalo, there is a possibility it was stolen while being transferred here, as some of the bills have been passed in Buffalo.

Forbes Stricken with Paralysis

Boston—Colonel Charles R. Forbes, former director of the United States Veterans bureau, was suddenly stricken with paralysis at the home of his sister, Mrs. Harry Jenkins, and was in a serious condition at a local hospital. It was learned.

Like American Hosiery

Australian women prefer hosiery from America to that of any other country.

WATERFORD NEWS.

The Misses Laura and Letta Rowland had a narrow escape Thursday afternoon when a P. M. freight train struck their auto, throwing it into the ditch near the Ford factory at Waterford, but fortunately they escaped with slight bruises.

Mr. and Mrs. Frank VanAtta spent Sunday with Mr. and Mrs. Elmer Perkins.

Mrs. Charles Waterman, mother and children spent Sunday with Mrs. Waterman's daughter, Mrs. Jayska.

Mrs. Ernest Reigler is decorating the interior of her home.

Mrs. Ida Hughes spent Thursday in Detroit.

F. H. Grennan left last week for Florida, where he will join Mrs. Grennan.

They expect shortly to put on a big force of men at Ford's factory.

Mr. and Mrs. Fred Cores spent the week-end with Mr. and Mrs. Herb Moe.

A 12-pound boy arrived Saturday night at the home of Mr. and Mrs. Arthur Green.

FIRST FORD PLANE IN MAIDEN FLIGHT.

The "Maiden Dearborn," the first airplane built at the new Ford airport, had its initial flight test at Dearborn Friday last.

The "Maiden Dearborn" is an eight passenger all metal monoplane of the "air pullman" type.

Liberty

The liberty of a people consists in being governed by laws which they have made themselves, under whatever form it be of government; the liberty of a private man is being master of his own time and actions, as far as may consist with the laws of God, and of his country.—Covley.

Babylon's Dimensions

It is now believed that the ancient city of Babylon was 14 miles square, surrounded by a wall 60 miles in length, 300 feet high, 100 feet broad at the base and wide enough on the top for two chariots to race abreast.

Care of Metal Utensils

In order to "save constantly, using polishers on metals to keep them bright and spotless it is a good idea to wipe the metals with a flannel containing vaseline after the final polishing treatment, after which they can be gone over again frequently in the same way.

First American Casting

The first iron casting made in America was turned out by the Saugus (Mass.) iron works in 1642. It was a small iron pot and bracket and is preserved in the Lynn (Mass.) public library.

NEWS FROM THE STATE CAPITAL

Governor Sidetracks Rapid Transit Measure As Being Unconstitutional.

Lansing—Rapid transit legislation for Detroit has been sidetracked in the house of representatives. It was Governor Alex J. Groesbeck who pulled the switch turning the Detroit commission's enabling bill off the legislative right of way and back into committee.

The senate commission's bill was one of the first to be introduced at this session of the legislature. Twice it has been sent back to committee and amended to conform to ideas of manufacturers and business interests of Detroit. It was apparently acceptable to everybody interested, but the governor decided it was unconstitutional. He declared that if it came to him in its present form he would veto it. Its present form is fundamentally the same as the enabling act of 1923 which he signed.

No Vote Reform in Prospect

Governor Alex J. Groesbeck's opposition to any type of primary election reform, to party enrollment and to the primary convention has made itself known. The hopeless election law tangle, which has only increased since the beginning of the session, reached a point where it is about certain no reforming legislation will be passed.

The senate passed the Wood election law bill on third reading. The bill passed, however, is not the Wood bill which was introduced, but a mere codification of the existing law. Still bearing Wood's name, but with all its party enrollment and election of delegates teeth neatly drawn, the bill was brought out of the committee, passed on general orders put on its immediate passage under suspension of the rules and shot through the senate.

House Wants Poet Laureate

The house of representatives has expressed a desire to honor Edgar A. Guest, whose verse has won him national renown.

The Howell bill providing for the appointment of a poet laureate for Michigan by the governor was passed by a vote of 87 to 5.

Representative Chester M. Howell of Saginaw, the introducer, explained that the bill was sponsored by Michigan Kiwanians who are ready to petition the governor for the appointment of Guest in event the bill also passes the senate and is signed by the governor as is expected.

The position is purely honorary. It carries with it no salary. According to Howell, it is just intended to reward Guest for the cheer that his rhyme has brought to many hearts.

Pollution Issue Evaded

After heated debate in which motives of sponsors and critics of the bill were attacked and the state department of health played as untrusting worthy, the house of representatives voted to shunt the Smedley and stream pollution bill off the calendar and back into committee. Many members believe that by so doing they succeeded in killing the bill.

U. of M. Denied Buildings

The University of Michigan appropriation bill, calling for an expenditure of \$3,192,700, was reported out of the House University committee without amendment. But it is reported authoritatively the Governor and House leaders have agreed to grant the university nothing in the way of funds for new buildings except \$900,000 for the proposed museum.

School Fund Amendments Lose

The members of the House who want the richer counties of the state to contribute toward the upkeep of schools in the needy counties fought off two amendments to the Bohn Primary School Fund Bill, and set it sailing on its way to a third reading. Wayne county will lose \$200,000 of its annual school funds if the bill becomes a law.

Sanitarium Bill Slashed

One of the bills passed by the House of Representatives would appropriate \$69,000 for the State Sanitarium at Howell. Originally a bill called for an appropriation of \$770,000 but the members of the Ways and Means Committee with their eyes on the \$14,500,000 mark set by Gov. Alex. J. Groesbeck had used their sharp axe.

Normal School Bill Returned

The Bryant Bill, proposing the establishment of a fifth state normal college in the northern part of the state was sent back to the committee by the House. It had been reported out by the Ways and Means Committee with a minor error in the phraseology and was sent back for correction.

Forestry Tax Relief Passes

The Pearson Bill, to relieve lands held for reforestation from the burden of excessive taxes, passed the Senate, having encountered no serious obstacles since it was introduced. It has gone to the House. Enactment of this bill into law would make possible the reforestation of more than one-third of the State's total area of 26,000,000 acres. It is estimated by officials of the bureau of agricultural industry, State Department of Agriculture, who have just compiled results of a survey of 16 counties.

42 PER CENT OF MICHIGAN SEED CORN WORTHLESS.

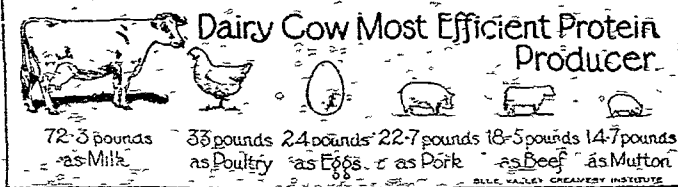

Only 58 per cent of the seed corn in the cribs of the Michigan farmers this year is fit for use, according to the Sears-Roebuck Agricultural Foundation. The figure is based on germination test of seed corn from farms in 60 counties in the state that were entered in the National Seed Corn Show held in Chicago last week.

Fully 42 per cent of the Michigan seed corn tested showed poor germination, according to J. S. Naylor, the expert in charge of the testing. Presumably they are the best ears that these farmers could find, and yet this large percentage of them will not grow when planted. Unless farmers test

their seed corn before planting time, there will be a prodigious amount of replanting necessary. Testing now will prevent an absolute shortage at harvest time, he says.

"The big lesson of the National Seed Corn Show can be learned by each Michigan corn grower in his own crib," says Mr. Naylor. "Take the dozen best ears. Then take the poorest dozen ears. Each dozen ears will plant an acre of ground. The land is the same, the work is the same. Same weather. Same overhead. Same cost. At the end of the season the best dozen ears will yield 20 bushels. The 12 good ears will yield twice the crop of the 12 poor ears. This is the lesson that every farmer should take to heart."

Dairy Cow Best Food Factory

THE cow is the most economical food factory in the animal kingdom. The hen, the hog, the deer, and the sheep cannot compete with her, according to the Blue Valley Creamery Institute, basing their estimate upon the percentage of digestible protein produced by each from an acre of land.

Digestible animal proteins are the high quality protein of the human diet, the institute points out. These proteins are the determining factor in the trend of greatest economy of food production. With the annual increase in population the animal protein supply must be increased accordingly if future millions are to be properly nourished. To provide for this increasing need will be the work of the cow, the sow, and the hen, the three farm animals excelling in the production of digestible proteins.

Republican Candidates on State Ticket, Election Monday, April 6

It is very apparent that Michigan Republicans believe that public servants at all times deserve to be rewarded for their faithful performance of duty, the entire state ticket at the April election being present incumbents of their respective positions. Supreme Court Justices John S. McDonald and George M. Clark are present members of that bench; then William L. Clements and James O. Murfin have each for a number of years been active on the Board of Regents having charge of the U. of M., while L. Whitney Watkins has served two terms and Mrs. Dora H. Stockman one on the State Board of Agriculture, the governing body of the M. A. C. Frank F. Rogers, State Highway Commissioner, has held that office more than a dozen years and was connected with the same department since its creation in the present form. Thomas E. Johnson has been connected with the school work of Michigan since 1890 and was appointed Superintendent of Public Instruction to fill vacancy by Governor Sleeper. Frank Cody, who is superintendent of the public schools in Detroit, has been a member of the State Board of Education for the past twelve years and is now the Republican party nominee for a third term.

The Northville Record.

E. E. BROWN, Publisher.

An Independent Newspaper published every Friday morning at Northville, Michigan, and entered at the Northville postoffice as Second-Class matter.

NORTHVILLE, MICH., APRIL 3, 1925

TWENTY-FIVE YEARS AGO

Items taken from The Record files of 1899, for the week corresponding to this week.

Miss Mary Van Veenburg visited at Dexter this week.

C. C. Yerkes was at Howell this week trying a case in circuit court.

Mrs. J. M. Armstrong and family are moving to Northville this week from Farmington.

Lewis Perkins visited his son, J. W. Perkins, over Sunday enroute to his home in Idaho Springs, Colo.

Mrs. G. W. Gibbs went to Morenci, Thursday to visit her daughter Mrs. E. W. Bick and other relatives.

Miss Camilla Wheeler is home from Alma College for a week. Miss Nicholson accompanied her home.

At a meeting of the Presbyterian society yesterday afternoon it was voted to give Rev. Jerome a call to the church and he will occupy the pulpit permanently commencing Sunday morning.

B. Freydl will open up his new clothing, gent's furnishing and tailoring store at the old stand, Saturday noon. The store has lately been remodeled for Mr. Freydl's convenience and presents an attractive appearance.

Republicans and democrats both held caucuses last Saturday. Benton and Sessions head the two tickets. Both caucuses were conducted in a harmonious manner and no one seemed to acquire any tender spots. A full vote is expected on Monday.

The oldest book in Northville has at last been discovered. It is a "History of Description of the Famous Cathedral of St. Paul's London," published in 1741. The book is owned by Peter Barley and was brought by the family from England many years ago.

WOMAN'S CLUB NOTES.

Friday, April 3rd, the Northville Woman's Club held their annual meeting for the election of officers. Besides this thrilling event there will be a one act play, "Four Owners of Spain," also a review of that popular play "Outward Bound."

Light refreshments. Come and bring guests.

E. W. Lockwood and his wife, Edna Lockwood, arrived home from Florida last week. Other Northville people who have spent the winter in the sunny south will soon be on their way home.

BAPTIST ANNUAL RUMMAGE SALE

We are asking the friends of the church to save by buying useful during housecleaning and we will collect same. Sale second week in May. Call Mrs. Bissett, Phone 263, Mrs. Biers, Phone 211, or Mrs. O'Donnell, Phone 52-J.

ST. PAUL'S LUTHERAN CHURCH.

Service next Sunday at 10:30 a. m. in German. Theme of sermon: "The Lord's Supper." Good Friday service will be held in German, at 10:30 a. m. All are invited to gather under the cross of our Savior and hear the answer to the all-important question: "What must I do to be saved?"

Next Sunday evening, at 7:30, the quarterly meeting of the congregation will be held. All male members are requested to attend.

Tonight the elders' meeting will be held at the parsonage.

Mrs. Charles Meisner is still at the hospital, but is slowly recovering. Mrs. Ed. Musolf, Sr., has an attack of grip.

The April meeting of the Ladies' aid will be held at the residence of Mrs. Louis Miller, next Thursday afternoon.

PRESBYTERIAN CHURCH NOTES.

As on the day when Jesus made His triumphal entry into Jerusalem, the children were found in the temple singing Hosanna, so we trust they will be on hand Sunday morning. The pastor will speak especially to them on this subject, "Behold Your King."

Let us make it a day of rejoicing and spiritual victory in all the services—church, Sabbath school and Young People's meeting.

Subject for the evening service will be, "A Day of Triumph."

Special music appropriate to the day in all the services.

Alma College Glee club will be the guests of our Westminster Guild, next week and will sing in our church on Wednesday evening, at 8:00 o'clock.

BAPTIST CHURCH NOTES.

The subject of the morning sermon will be "Endurance." This will be a sermon for Christians and we hope will be especially interesting to those who find it hard to remain true to God at all times.

There will be no services Sunday evening other than the B. Y. P. U. which will meet at 5:30. This will be a special meeting and all are urged to be present.

We will unite with the Plymouth Baptist church Sunday evening. This will be Mr. Payne's last meeting at that place for this year. Cars will leave the Baptist church of this place at 6:30. All who have cars please meet at the church and take a cab.

The men's class were rewarded with a splendid supper Tuesday evening, by the ladies' class, who they defeated in an attendance contest. A excellent program was also provided and Mrs. I. B. Cook gave several readings that were very much enjoyed. The ladies challenged the men to another contest to last for three months. The losers providing the feed. Some April fool candy, made by Mrs. B. T. Hemsted provided much amusement. Every one "but" but found work and small white beans hard to bring.

Don't forget the prayer meeting next Thursday. We are all compelled to use the main room of the church, because the regular room is too small.

Essie M. Perkins of Detroit has been engaged to conduct a course in Bible study commencing May 1st. More about this later.

METHODIST CHURCH NOTES.

PALM SUNDAY

Next Sabbath is Palm Sunday. Decision Day. We are asking for some evidence in your lives.

The pastor will preach in the morning on "The Spirit of Life" and the choir will sing to back up the message with their special song of praise.

In the Sabbath school at 2:00 o'clock noon, the pastor will bring the final message to the young, closing the Lenten addresses. Let every teacher do his and her part for the scholars.

In the Epworth League at 6:30, Russell Atchison and Lynn Partridge are the leaders and all our young people are asked to be present with their help.

In the evening at 7:30 the pastor will preach on "The Psalm of the Soul." The male quartet is reviving much interest by their gospel songs. They will sing again next Sunday.

On Easter Sunday there will be a reception of a large class of members into the church. In the evening the choir will give the famous cantata, "The Resurrection Light," to which the public is invited. See more extensive notice next week.

On Good Friday the usual services will be held in our church through the co-operation of The King's Daughters who have asked other churches and the business men to unite.

The business places will close from 12 noon until 3:00 p. m. Services will commence at 1:15 and close at 2:45. The Rev. W. W. Edwards of Mount Hope Presbyterian church, Lansing, a very dear friend of the pastor, will preach. The public is cordially invited.

Mid-week service on Thursday every week. Bring your favorite text.

LINER COLUMN.

A FIRE THAT NEVER CEASES TO BURN

The fire demon hit Main street a terrible blow the other night and there is loss and ruin for many of our fellows.

A very little spark started all the trouble and when under way was hard to control.

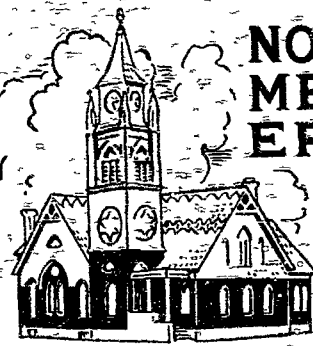

In old Jerusalem a company of one hundred twenty people had been meeting daily since the ascension of Christ waiting for the divine fire to reach their waiting hearts.

Suddenly the answer came. It was like a tongue of flame and sat upon each of them. They were galvanized into action and went out to spread the good news of God's love to a weary world.

The fire of enthusiasm for those principles of conduct which we call the Kingdom of Heaven has not ceased from that day until now. All the fire departments cannot quench it.

Sunday School - 12 Noon

Evening - 7:30

REV. WM. RICHARDS

First Presbyterian Church Sold

Beautiful church situated among the maples at Main and Church streets to close its doors forever as a church. Trustees forced to dispose of property because of a lack of interest among its members.

Would it SHOCK you if the above statement was true? For of course it is made to attract your attention and direct your thoughts toward the institution most vital to the welfare of your community—the church.

A church is erected as a place where people may gather and publicly worship God.

The church is your only insurance against the invasion of your home—your only assurance that you will not be deprived of it by ruthless hands.

Where there are no churches, law and order are unknown. You are specially invited to attend the Palm Sunday services in this church, this Sabbath, at 10:30 a. m.

A HEARTY WELCOME AND A WARM HAND.

SHAKE AWAITS YOU HERE

THE FRIENDLY CHURCH

PRODUCTION

Every true Christian strives to produce the fruit of the Spirit. Jesus says it is "by their fruits ye shall now them" not by their clothes, or money, or social position, or family but by their "fruits."

In the Bible we find that "the fruit of the Spirit is love; joy, peace, longsuffering, gentleness, goodness, faith, meekness, self-control."

ARE YOU
KEEPING UP PRODUCTION?

It is our business to help you. For sermon subjects see Baptist church notes in this paper.

BAPTIST CHURCH
THE LIVE CHURCH

These Warm Days

Suggests a change from heavy garments to lighter and more comfortable ones. Just remember we have a good assortment of Light-weight Underwear and Hosiery for women, misses and children.

All those pretty Hats we have been selling during the past few months would make a wonderful display if they could all be assembled in an Easter parade. We have one here for you—just waiting here for you. Better come in and try it on today.

STATE NEWS IN BRIEF

Camp Custer—Camp Custer needs improvements and needs them badly, was the comment of Brig. Gen. Benjamin A. Moore, new commandant of Custer, upon his first visit here.

Battle Creek—A new theatre, to cost between \$300,000 and \$400,000, and to be one of the largest and finest equipped in Michigan is to be built by W. S. Butterfield, it has been announced.

Indianapolis—Gov. Alex. J. Groesbeck has denied a request of the governor of Indiana for the extradition of Albert O. Rogers of this city, on a warrant for passing worthless checks by the Terre Haute, Ind., police.

Port Huron—Sir Henry Thornton, president of the Canadian National Railways and the Grand Trunk Railway, will come here April 20 to address the members of the St. Clair District Transportation club.

Muskegon—The Continental Motors Corporation has issued a call for all its former employees to return to work. Increased production has caused night forces to be added in some departments. Three thousand men are now employed.

Lansing—Work has begun on clearing the site for the construction for the new Hotel Olds, a community project. The hostelry will provide 300 rooms and will be 12 stories, the highest building in the city. The estimated cost is \$1,000,000 and it is to be completed by April 1, 1926.

Ann Arbor—More than 20 names have been suggested to the faculty and regent committee which is to make recommendations as to a president for the University of Michigan to the Board of Regents, according to Regent J. E. Beal, of Ann Arbor, one of the members of the joint committee.

Indianapolis—An inventory taken of the loss caused by a fire, which swept through four buildings on the West Brook Bros. farm near here brought the loss first estimated at \$25,000, to \$35,000. Friends rallied to a subscription fund to aid the stricken families. Twelve children were made homeless by the flames.

Grand Rapids—Attorney Edward S. Straub, World War veteran and former state representative, was convicted by a jury in U. S. district court of having aided and abetted Carl W. Himmler, manager of the Division Avenue branch of the Commercial Savings bank, in misapplication and abstraction of the bank's funds.

Menominee—With the announcement of the purchase of land for the enlargement of docks and the construction of additional tracks here, P. S. Bradley, traffic manager of the Ann Arbor system, asserted that these improvements, together with the five car ferries, will make the Menominee port a distributing point second to none on the Great Lakes.

Lansing—Michigan's National Guard will have to curtail drilling to some extent because of the action of President Coolidge in holding up the deficiency appropriations for armory drill pay. His action now, taken in the interest of economy, holds up drill pay for the remainder of this quarter or until next June 30. What will occur afterward is not yet clear.

Detroit—A check for \$2,627,309.05 has been paid, under protest, by Mrs. Alice Gray Kales, of this city, to the government, covering the supplementary income tax on the sale, in 1919, of her minority holdings in the Ford Motor company. Several other former shareholders of Ford stock, including Senator James Couzens, who have been assessed additional income tax on the sale of their stock, have filed bonds in lieu of making the payment.

Detroit—Percy L. Hudson, shot when he thought a holdup man who was trying to rob the American State Bank branch at Epworth boulevard and Oregon avenue, died in the Receiving hospital Hudson, 41 years old, and a veteran of the British army in the World war, probably saved the bank funds for the companion of the man who shot Hudson, carrying two revolvers, was guarding the manager and the teller of the bank, who had obeyed his command and were standing with their hands in the air.

Owosso—Authorities at Memorial hospital have been unable to locate relatives of William Belton, an ex-service man who says his home is in Pontiac, and who is in the hospital facing a major operation that may prove fatal. They wish to communicate with his relatives before the operation. Belton, according to his story, left Pontiac on a freight train but fell and was badly hurt. He was taken off at Durand and brought here. Belton says his brother lives in Pontiac but could not give the address.

Detroit—Three persons were seriously burned and two injured in leaping from a third-story window when a fire broke out in the basement of the Hanley Apartments here, and badly damaged the second, third, and fourth floors of the building. Eleven persons were aided in leaving the burning building by Harry Bartlett and William Burkahl, patrolmen from the Central station, and a half dozen others were led down ladders or caught in nets by firemen. There were about 42 persons in the apartment house.

OAKLAND COUNTY VOTERS ASKED TO VOTE MILL TAX.

Four humanitarian projects, all of which are of the utmost importance, are involved in the three-quarter mill tax which will be put before the people of Oakland County at the election April 6th. They are:

The county infirmary or home for the poor.
The tuberculosis sanitarium.
The juvenile detention home.

The contagious disease hospital.
Need of these four buildings, has been urgently felt for some years and it was with the purpose of being able to provide them on a "pay as you go" basis that the building committee of the board of supervisors two years ago, recommended the plan on which funds have been and are being raised to finance them.

Through the means adopted of which the three-quarter mill tax is one of the final steps the county will be able to erect these badly needed structures without adding a penny of cost for bond interest to run through many years and be paid out of taxation. The county will get the buildings at the cost of construction without added expense for financing.

This plan has already been carried through two years. By it there has been accumulated \$93,901 from 1925 paid into county officers. These have been set aside for the building fund and it is expected \$300,000 more will be secured in that way this year.

In 1924 the county voted and paid a mill tax which raised \$189,600. The three-quarter mill tax will provide for \$160,000 more. These means will bring the total fund within \$25,000 of the amount needed for the buildings and that amount of a mill tax in 1926.

Thus a building program which involves a total cost of \$502,901, is being financed at a minimum expense to the people of the county, without adding a dollar for bonded indebtedness charges.

STATEMENT OF OWNERSHIP, MANAGEMENT, ETC.

In accordance with the U. S. postal laws, Act August 24, 1912, the following statement is published as of date, April 1st, 1925.

Name of publication—The Northville Record.

When Opportunity Knocks

One of the many tests made to demonstrate the value of light in attracting customers and increasing sales was the following:

A small department store was selected for the experiment. Measurement of the light intensity used showed about 5 foot-candles. Arrangements were made to permit an increase to 15 foot-candles at will. Both these intensities were used alternately and results compared. It was found that during the better lighted period the number of actual purchasers increased 12%. The extra cost was comparatively trifling.

Here is where Opportunity Knocks at the door of the modern-spirited storekeeper—competitors are mostly running under the handicap of poor lighting.

Heating Advice Saves Fuel

We believe we can help owners if they will give us a chance to talk with them about the regulation of their boilers. The important thing is the accurate and sensitive control of fire so that it does not "run away" or "smolder out".

Make the coal pile last longer, by better firing and fire control. You may need more advice this year because of the necessity of burning less coal and a different kind of coal probably, than you have been accustomed to. Be prepared and have your plant "tuned up".

If you have an OLD house—let us submit an estimate to you for installing a modern labor and fuel saving Ideal American Heating Outfit in it. It is easy to heat old homes because they are usually well built and it is a quick and easy matter to install radiator heating.

Please do not hesitate to call us in. Our heating advice is free and you will be under no obligation whatever. We stake our reputation on our work and OUR PRICES ARE REASONABLE.

NORTHVILLE, MICHIGAN.

LOCAL

The annual spring election will take place next Monday.

Beginning this week Dr. Alexander will only be in his office part of the time.

Attend the safety rally at the Alseum Theatre on Wednesday evening next.

Mr. and Mrs. John Walker are visiting relatives and friends at Milwaukee, Wisconsin.

The Michigan School Masters' Club is holding its annual meeting in Ann Arbor this week.

Mr. and Mrs. A. C. Balder returned from Florida on Tuesday and report a very enjoyable outing.

Mr. and Mrs. C. R. Ely and Ivan returned home Tuesday night from their outing in Florida.

A handsome new Moter pipe organ has been installed in the Presbyterian church at Redford.

Raymond Watts has returned home from Big Rapids where he has completed his course in pharmacy.

Mrs. W. K. Ingerson, wife of a former pastor of the Presbyterian church of Milford, recently gave the society \$1,000.

Northville Commandery, Knights Templar, will hold its annual meeting on Tuesday evening next when officers will be elected for the ensuing year.

Mr. and Mrs. Chas. Preston of this place have purchased a grocery and meat market at 8855 Livonia Avenue, Detroit, and have taken possession.

Miss Ruth Yerkes, who is attending college at Rockford, Ill., is spending her vacation with her parents here.

Mr. and Mrs. D. P. Yerkes.

Harry C. Robinson has been elected president of the city commission of Plymouth. He will be perfectly proper to salute him as Mayor Robinson from now on.

Lloyd Palmer of Ypsilanti, has purchased the Duxley restaurant on Main street and will continue the business.

Mr. and Mrs. Eloy will strive to give Northville a first-class eating place.

The Union church at Livonia Center will be opened on Easter Sunday after having been closed for ten years except for funerals.

Rev. H. H. Phelps of Wayne has been engaged as pastor.

S. L. Grosby writes The Record from Melbourne, Florida, to the effect that they are leaving for Northville and home this week. They have enjoyed their stay in the southland greatly and both are unusually well.

Good Friday will be observed in Northville again this year with union services at the U. B. church in the afternoon. The public is cordially invited to attend the services, which will be held under the auspices of the King's Daughters.

Officers Chapter, Order of Eastern Stars will hold a special meeting this evening, April 3rd with supper at 6 o'clock followed by a short business meeting charming by-laws. Initiation will be the program for the evening.

The King's Daughters will hold their next meeting with Mrs. Florence Alexander on Tuesday afternoon, April 7 at 7:00 o'clock. Members please refrain from sewing that is finished at this date.

Members of the Northville Evening club with their ladies enjoyed a luncheon at the Hotel Statler at 6:30 and a theatrical party at the Shubert Detroit afterward. The dinner and the presentation of "The Dream Girl" were greatly enjoyed.

Sunday forenoon the house on the Fred Foreman farm west and south of the village was discovered to be on fire and the blaze having gained such a start before it was discovered, was soon destroyed. A family by the name of Welch was occupying the house.

The annual banquet given under the auspices of Court Northville, F. of A. at Foresters, hall last Friday night proved a most enjoyable gathering and sustained fully the reputation of these annual events. The hall never looked so attractive and the dinner was all that could have been desired. After the dinner the tables were cleared away and dancing and a good time followed. It was a family night for the members of the order and their guests and all present enjoyed the affair greatly.

G. J. Russell of Eaton Rapids was in the village Tuesday calling on old friends. He moved from Northville in 1899 and for a number of years was engaged in special work for the Modern Woodman, spending several years in the east with headquarters at Baltimore Md. He has taken the agency for the well known and popular products of the Northville Chemical Co. and will cover a number of counties in southern Michigan. He met many old friends while here.

The members of the senior class of the Northville schools, accompanied by Superintendent and Mrs. A. J. Heltrich and Miss Aletha Yerkes will leave Saturday morning over the Pere Marquette railway for Washington, D. C. They will change at Detroit and expect to arrive in Washington about noon on Sunday, and will remain there until Tuesday night when they will take the train for New York City where they will spend a day. They will reach home again one week from today.

MISS LIZZIE E. STARKWEATHER DIED SATURDAY MORNING.

After having been an invalid for many years, during which time she bore her affliction cheerfully and uncomplainingly, Miss Lizzie E. Starkweather died at the home of her sister, Mrs. M. N. Johnson last Saturday morning, aged 58 years. She was the daughter of Irving N. and Rachal Starkweather and her whole life had been spent in this community. Since the death of her parents and the breaking up of the old home she had resided with Mr. and Mrs. Johnson, where she has been kindly cared for. Everything was done for her that love and affection could bestow, but the kindly ministrations were of no avail except to smooth the pathway to the grave.

She possessed rare Christian graces and was held in high esteem by all who enjoyed her acquaintance. Funeral services were held at the home of Mr. and Mrs. Johnson on Monday afternoon. Besides Mrs. Johnson she leaves another sister, Mrs. B. C. Phillips of Detroit.

MRS. EDWARD MILLARD PASSES AWAY.

The May Roberts Millard, a very estimable lady of Northville, died at her home Monday, March 23, 1925, of apoplexy. Her death, so unexpected, was a great shock to her many friends. Mrs. Millard was born September 9, 1877 at Livonia. She was married to Edward Millard March 29, 1899, and to them were born four children, Mrs. Margaret Pankow of Northville, Helen Millard of Laingsburg, Lottie, and Russell Millard of Detroit, who with her husband survive her. She leaves also two sisters, Mrs. Carl Ely of Northville and Mrs. John Walters of Farmington.

Deceased was the daughter of Mr. and Mrs. Asa Roberts. Her mother dying when she was quite young, she assumed household cares and the role of mother to her sisters.

Her father only recently passed to the great beyond.

The funeral services were held Thursday at 1:00 o'clock, Rev. H. H. Davis of Redford Baptist church, officiating. The interment was made at Grand Lawn—Farmington Enterprise.

MOTOR BUS LINE RUNNING.

The Detroit Northville & Milford Motor Bus Co. started its service between these points the first of the week and will operate a number of commodious and comfortable busses. People desiring information regarding the time of the arrival or departure of busses may call 222, Northville and Cadillac, 0837, Detroit.

AUCTION SALE.

Hills Brothers will have an auction sale of pedigree cattle, also coats and hay on the Frank A. Miller farm, one mile south of Northville, on Thursday April 15, commencing at 12 o'clock and L. W. Lovevald will be the auctioneer.

W. R. C. NOTES.

The next meeting of the W. R. C. will be held on April 5th. A good attendance is desired.

Did you pay road water tax? The Forester will meet to night.

700 Wilson greenhouse at South Livon was recently damaged by fire. Supervisor W. H. Yerkes returned from Florida the first of the week.

Barbaric Destruction

The Sarkens were enabled to beat water for their bibles for a period of six months with the 700,000 volumes they took from the great library of Alexandria, Egypt, by Canph Omar's orders in 640 A. D.

Unchallenged Monopoly

Practically every government on earth is a customer of a little shop in New Jersey, where the geometric lathes for engraving the patterns on banknote and similar plates are manufactured.

NOTICE TO FARMERS.

We are putting in repair parts for farm machinery, and we are now able to supply plow points of most every kind.

Have a good maple syrup outfit for sale.

We buy and sell household goods of all kinds.

Have two houses in the village for sale. If you want to buy see us first. If you have anything to sell see us. No deal too large or too small.

REDFORDITE TO SPEND TWO YEARS IN JAPAN.

Thomas Lowry, son of Mr. and Mrs. Edmund Lowry, Hartford avenue, left Wednesday for China and Japan, via San Francisco. Mr. Lowry was sent to the Orient to assist in organizing the Ford Motor Co.'s new plant in Japan. He plans to be in Japan about two years.—Redford Record

UNIVERSITY HOSPITAL OPENING JULY 1.

July 1st, it is said, is the date set for the opening of the new University hospital, which has been under construction for two years, and which represents several million dollars. Before it was half built, the money ran out and its completion lagged until last year, when more funds were available.

The present hospital is a disgrace to the state. The new home for patients will have 700 beds, some in dormitories, some in private rooms. Patients with means will be charged the cost of the service.—Ann Arbor Post

DETROIT EDISON CO. SPENDING MILLIONS IN NEW EQUIPMENT.

The Detroit Edison Co., supplying this section with electricity for light, heat and power, spent \$27,000,000 last year in new extensions and equipments, and will spend \$18,000,000 more this year for the same object.

During 1925 the company will extend its lines to serve between 35,000 and 40,000 new customers in homes not previously supplied with electric service. Each new customer will require a meter costing eight dollars for the most commonly used size, and a service connection costing about seven dollars more.

A great many of the new customers reached will require an extension of our distribution system. The distribution network must be strengthened here and there, and new feeders must be provided to carry the current from the substations to the feeding points. All together the taking on of 40,000 new customers will require \$3,200,000 to be invested for distribution and metering.

U. OF M. PLAN 28 CLASSES RELIGIOUS IN JUNE.

Hosts of Michigan graduates are expected to return to the scenes of their Alma Mater this year on June 12 and 13. On those days, which have been designated Reunion and Alumni days respectively, members of twenty-three former classes of the University of Michigan will come from every part of the United States to meet old friends and revisit the familiar haunts of college days.

Commencement this year falls on Monday, June 15. The preceding three days are filled with various activities and entertainment for the graduating students and the visiting alumni. The alumni in the following classes will meet on Reunion day: literary classes of '70, '88, '90 men, '00 women, '05 men, '05 women, '16 women and '23 engineering graduates of '16, '17, '18 and '19, the medical classes of '00, '01, '05, '16 and '23 the law classes of '05, '06, '07, '10, '19 and '25 dental.

The program for the three days preceding Commencement include Friday reorganization baseball game with Ohio state, and student gathering in Hill auditorium in the evening. Saturday registration and meeting in Hill Auditorium, Alumni luncheon, Alumni mass meeting, baseball game between alumni teams, and the Senate reception; Sunday morning Baccalaureate sermon in Hill Auditorium.

SECOND WEEK OF "THE GREEN HAT" AT GARRICK THEATRE.

The thousands of admirers of the literary style of Michael Arlen and the thousand of sceptics that doubt his ability to turn out an interesting play from his sensational novel, "The Green Hat," are all now convinced.

Last Sunday night at the Garrick the world's premiere performance of "The Green Hat" was given under the auspices of A. H. Woods directed by Arthur McClintock and played by a brilliant cast, including Katherine Cornell, Ann Harding, Leslie Howard, Paul Cohn, Eugene Powers and others. Mr. Arlen is barely twenty-eight, but has five books to his credit. "The Green Hat" leading in all sales not only in England, his native country, but in America. Mr. Arlen is being hailed as the literary giant of the age, his knowledge of the human qualities of we mortals that inhabit the earth being almost uncanny and his word pictures of those qualities being of in-and-out transparency.

do not schedule a visit to "The Green Hat" you will miss an conversation that promises to be the most interesting of the year. This play is brought to your attention by the Garrick management to the demands for seats, for arrangements for a second next Sunday.

Question

and to decide whether I or outlived.—Phila.

Walled Lake Warbles.

J. W. Lock-top of Farmington was in town Monday looking about.

Clarence Chaffy is making plans to build a new house on the Buttmeyer subdivision.

Lloyd Fish C. F. Rose and Dan Bentley are each driving handsome new autos this spring.

The Walled Lake Pioneer Inn is undergoing some repairs preparatory to the summer business.

Mr. Steubbe has recently sold his farm for \$500 an acre. The place is about a mile from Walled Lake.

Mr. Sherman recently purchased an acre and a half of land from John Ansbomb and expect to build a new house soon.

Thieves ransacked the home of C. F. True recently and carried away a lot of things. The family has been in Florida for the winter.

Bruce McKnight is building a fine new residence on the Arthur Pierce subdivision. Mrs. Seeley is also building a house and Chas. Wedow is building another house on his Hill Crest division.

Mrs. Harry Ayer and her "Girl Scouts" had a merry time at the High school gym last Saturday afternoon. There was a mock track meet in which teams were entered representing some of America's best colleges. A basketball game and a good feed afterwards.

WAYNE COUNTY SAFETY DRIVE ATTRACTING GREAT INTEREST.

The second week of the Wayne county safety drive opened at Flat Rock on Monday evening with a good crowd present. On Tuesday night a meeting was held at New Boston.

Thursday night was Dearborn's turn and to-night there will be a meeting at Romulus. On Saturday night there will be a grand rally at Belleville, and on Monday night at Wayne. Tuesday night at Plymouth and Wednesday evening Northville people will have the privilege of enjoying the splendid program to be presented. The Ford Motor Company is co-operating with Mr. Stafford in planning for the Northville meeting and a high class entertainment will be the result. The admission will be free and all are cordially invited to attend. Let's have the biggest crowd of the campaign right here at Northville.

During the month of campaigning the Ford Motor company has loaned to Sheriff George A. Walters and his county committee, the Dixie Eight, the Harmony Four, the Friendship Orchestra and the Accordion Duo. The Hudson Male Quartet of the J. L. Hudson company, the Colonial Four from the Colonial Clothes Shop, Professor Lancy from the Detroit Light Opera, Virgil Brown, tenor, Noble Larkins, tenor, J. S. Mayrand, baritone, Eddie McGrath, a saxophone quartet, a string quartet and several other entertainment features will be presented at each of the meetings.

NEXT MONDAY WILL OCCUR THE ANNUAL TOWNSHIP ELECTION.

One county proposition will be voted upon by the voters at the coming spring election, Monday, April 13th, besides the regular township officers, county and state officers. In the township election of various officers, there is only a ticket in the field. The Republican thereore there will be no opposition to the nominees on that ticket. The county proposition is one for the retirement of all county employees, who have been in the employ of the county 25 years or who have attained the age of 70 years. The proposition is to pay such persons a pension, amounting to one-half of the annual salary, but not in excess of \$900 per annum.

On the county ticket there is only one office to be voted for that of county auditor. In the state election, the voter will be given the opportunity to express his choice for a Justice of the Supreme Court, Regent of the University, Superintendent of Public Instruction, Member of State Board of Education, Member of State Board of Agriculture, State Highway Commissioner.

The annual township meeting will be held at the Library building in the afternoon as usual, when the clerk's report will be submitted and other important business transacted.

APRIL MEETING OF WIXOM CLUB.

The April meeting of the Wixom Farmers' club will be entertained by Mr. and Mrs. E. E. Rucker at their home on Wednesday, April 8th. The following is the program: Song of the Club. Invocation—Rev. H. J. Thibaut. Secretary's Report—Business. Reading—Mrs. Howard Johnson. Piano Solo—Mrs. Birdie Richter. Question for Discussion—"What Benefits has the Farmer received from the State Farm Bureau?" B. A. Holden. Music by the Club. Flower Fund Collection.

Question—Is the Farmer Getting his Rightful Share of the Money paid by the Consumer for his Milk?" C. J. Sturman.

Question box conducted by Mrs. J. W. Hopkins.

MRS. R. D. STEPHENS, Secy Wixom Farmers' Club.

STURGIS AND ST. MARY'S OF JACKSON WON BASKET BALL HONORS.

Sturgis High school and St. Mary's school of Jackson were respective winners of the Class B and Class C state basketball championships in the final games played in Waterman gymnasium at Ann Arbor Saturday afternoon. Sturgis defeated Lake Linden, 36 to 25, and St. Mary's defeated Three Oaks, 23 to 22.

Sturgis, getting away to a poor start in the tourney, narrowly defeated Grand Haven in the preliminary, and then overwhelmed Birmingham in the semi-finals, 37 to 16.

St. Mary's had no easy time in winning. Until the last 45 seconds of play, Three Oaks, playing an excellent game, led. Heuman succeeded in getting a long one through from the center of the floor, and Smith, just before the whistle, followed with a short one, which gave the Jackson school the winning point. St. Mary's fought her way to the finals by defeating Farmington in the first round and East Jordan in the semi-finals.

Immediately following the meet, Coach Edwin J. Mather of the University of Michigan athletic staff, aided by the three officials of the meet, selected the following all state teams Class B.

MacDonald, Lake Linden, forward; Don Grove, Sturgis, forward; Nestor Lake Linden, center; Clemens, Sturgis, guard; Face, Grand Haven, guard.

Honorable mention in Class B—Marsh Hart, Zanzien, Grand Haven, Edman, Birmingham; Eldred, East Rapids, forwards; Fleming, East Rapids, McCabe, Petoskey, guards.

Class C—Sukupchak, Bridgman, forward; Bittler, St. James, forward; Savoldi, Three Oaks, center; Heuman, St. Mary's, guard; Potts, Three Oaks, guard.

Honorable mention in Class C—Gorton, Carson City, forward; And Birdwell, St. Mary's, guard.

On consolation rounds Grand Haven Class B, champion of 1924, defeated Petoskey, 35 to 11, for the consolation honorarium. Previously Grand Haven had defeated East Rapids, 28 to 2, and Petoskey had defeated Alma, 18 to 13.

In the Class C consolation St. James of Bay City was winner over Farmington 15 to 8. Previously St. James had taken a default from Carson City and Harbor Springs had defaulted to Farmington.

The consolation were for teams eliminated in the first rounds of the tournament.

Early Santa Claus.

Kris Kringle originally meant Christ Child. It is from the German diminutive form Christkindel. It is common to use now as Santa Claus.

America's Marvels

NATURAL AND OTHERWISE

By T. T. Mazy

OUR FIRST NATIONAL PARK.

The act of congress in 1820 which set aside the Hot Springs of Arkansas and four sections of adjoining land for the future disposal of the United States, not to be entered, leased or appropriated for any other purpose whatever, forced into existence the first link in our present chain of world-exceeding national parks.

This act performed a double purpose in that it also served to perpetuate and preserve these now celebrated springs from commercial monopoly or exploitation.

The Hot Springs National park reservation contains upwards of 900 acres and is located in the city of Hot Springs, which is not far from the center of the state. The altitude of the city is about 600 feet, while that of the surrounding hills is about 1,200 feet above sea level.

There are 46 hot springs in this group. All of them flow out into a narrow valley, from the base of what is known as Hot Springs mountain. There are also quite a number of cold springs here, and their waters are used both for drinking and in the treatment of those who visit this region with the hope of leaving their ills behind them when they return home. The combined flow of all of these springs reaches the enormous volume of more than 750,000 gallons every 24 hours.

Tradition would have us believe that the Indians were familiar with the medicinal value of these springs in the days before the coming of the Spanish explorers, some 400 years ago; that the several tribes fought bitterly at various times for their control, in the belief that the "Great Spirit" was ever present in them.

The temperature of the waters from these various springs varies from 102 to 147 degrees—the average ranging from 135 to 147 degrees. These waters contain some twenty different kinds of mineral matter and are radio-active.

These hot springs offer relief from many of the ailments which beset the human race. There are 17 large pay bathhouses under governmental supervision. The rates for baths and service are fixed by the director of national park service at Washington. The park is administered by a resident superintendent and is open all the year.

(© 1913, Western Newspaper Union.)

RECORD LINERS PAY—TRY ONE.

FOCH'S WAR CAR CREATING PUZZLE.

Vehicle in Which Armistice Was Signed Now Ruin.

Paris.—The authorities are at a loss to know what to do with Marshal Foch's famous wartime sleeping car headquarters, in which the armistice was signed.

At present the car stands in the courtyard of the Invalides Building, where it is fast becoming weather-beaten. The only way of preserving it from the elements, in its present position is to build a shed over it, but General Marlaux, custodian of the military museum of the Invalides will not permit Marnard's famous courtyard to be disfigured by such a structure.

The mayor of Compiègne has offered to return the car to the Rhodanes sidetrack, where the armistice was signed, and there build a suitable shelter over it at the expense of the Compiègne municipality, but the minister of war is unwilling to accept this offer, as the car is one of the principal exhibits at the Invalides museum, for which admission is shortly to be charged.

Furthermore, it is pointed out that to allow its entrance to the courtyard might lead to the taking of the archway, and to remove it would necessitate a repetition of that operation. Meanwhile, the changeable climatic conditions continue their destructive work on the famous car.

Land Bought for \$60,000.

Now Returns Millions.

Pottsville, Pa.—By a real estate deal completed at Miami, Fla., Mrs. Elsie Ellsler, of Philadelphia, and Miss Anna Ellsler, of this city, will share \$1,000,000 of close to \$1,000,000. Mrs. Ellsler was a waitress in a hotel before her marriage to John Ellsler, and is said to be visiting in California at present. The property in Miami, which has now been sold, was purchased by the mother of Miss Ellsler in 1894 from the United States government for \$60,000.

For years Mrs. Ellsler was the subject of jokes among her acquaintances as to her Florida investment, the land being considered absolutely worthless. But when Miami began developing, the little tract in the wilderness soon was overtaken by the building boom and in her exuberance she named the tract "Princess Park."

Dispatches have been received here from Miami stating that all the lots in the tract had been sold for \$75,000 through a local real estate company. Joseph M. Smith, of Philadelphia, represented Mrs. Ellsler at the sale, and James J. Moran, of Pottsville, represented Miss Ellsler. Previous to this lots were sold for more than \$250,000. The tract is booming because of the belief that it is in line for additional trackage and a station for the Florida East coast railroad.

Miss Ellsler stated she will continue to live in her modest little home here unimpressed by her fortune. She showed many Pottsville residents to share in her good fortune by selling lots to them, and they later made 500 per cent on their holdings. James J. Moran, of Pottsville, developed the property for Miss Ellsler. Mrs. Ellsler, of Philadelphia, became an heir to the property through her husband, who died in 1921.

Famous Brittany Church.

Destroyed by Lightning.

MOULAY, France.—Fire destroyed the fifteenth century church of St. Jean du-Vergil near here, one of the most famous shrines in Brittany, during a storm. Lightning struck and set fire to an adjoining house and the flames ignited the church steeple. The villagers formed a bucket brigade, but their efforts were fruitless, and many wept as they saw their beloved church consumed. The famous reliquary containing a finger of John the Baptist, which drew pilgrims from all Brittany, was saved, as were the ancient sacred vessels.

Proclaims Sea Lion Is Man's Ideal Pet.

London.—The sea lion is the ideal pet and the perfect friend of man according to recommendations made by members of the Amateur Menagerie club, who published recently a book on their various experiences with animals.

Owing to the expense of the upkeep of a sea lion, however, it is not probable they will ever replace cats and dogs as pets.

A sea lion has all the intelligence of a dog, adaptability and affection but ordinarily it costs from \$500 to \$700 a year to keep a pet of this kind.

One of the club members, L. R. Brightwell, has had much experience with sea lions as pets and highly recommends them. In his opinion, it is only the high rate for the use of water and the cost of the fish as food which prevent the sea lion becoming a universal pet.

"Greed is undoubtedly the sea lion's one great fault," writes Mr. Brightwell, "but, given enough fish, a sea lion may be taught anything. His amazing gifts of balancing, diving and forming picturesque groups are implanted in him by nature."

SAYS SUN IS OVER BILLION YEARS OLD.

Princeton Astronomer Accepts Theory of Britisher.

Princeton, N. J.—Ten thousand billion years probably are no longer than the life of a star, Henry Norris Russell, head of the department of astronomy in Princeton university, said when he voiced his agreement with the theory recently advanced by Professor Eddington, and Doctor Jeans, English astronomers.

"The sun has undoubtedly shone for more than a billion years," Professor Russell said. "Assuming as Professor Eddington does that matter in the interior of stars may be gradually converted into energy to supply these losses, the life of a star probably exceeds ten thousand billion years."

"Having accepted this, a serious difficulty regarding the origin of the solar system is removed. The best hypothesis so far is that which assumes that planets owe their existence to eruptions from the sun produced by the close approach of another star to the sun. This was first suggested by Professors Chamberlain and Moulton of the University of Chicago."

Professor Russell explained how it could be demonstrated that the approach of one star close enough to another to cause eruptions would be an excessively rare occurrence. If the stars have been shining for only a few hundred million years, few indeed would have planetary systems around them, he said, adding that, as Professor Eddington suggests, the stars have existed 100,000 times longer than this, it is probable that large numbers of stars are attended by planets.

"We have no hope at present of finding out which ones are the centers of such systems, for the planets are so small in comparison with the interstellar distances that no human means of observation could detect the ones like those in our system if they revolved about even the nearest star," Professor Russell said.

"Among a large number of planetary systems there would probably be many planets which were potentially habitable, having the proper temperature and suitable supplies of air and water. We can hardly say what chances there are that life would actually exist on such planets, because we know virtually nothing of how life originated on the earth. The forms which life might take on another planet are of course matters of pure speculation."

"It may be added that although the new point of view makes it probable enough that life has existed or will exist in many places in the sidereal universe we are not yet in a position to say how many of these would occur at the same time. It is fairly likely that the time during which any planet is actually the abode of life is but a small fraction of the life of the star about which it revolves."

Hit by Burglar, Woman Traps Him in Closet.

Philadelphia.—How Mrs. Sarah Kaufman unwittingly trapped and almost caused the death of a burglar who had tailed her unconscious, was revealed 15 hours after the attack. When a closet door in the Kaufman home was opened by police and out fell the burglar nearly unconscious.

Mrs. Kaufman was passing through a room on the second floor on the way to her bedroom when she was tailed by a blackjack. Police say that in falling she struck the closet door into which her assailant had darted, and closed it, the spring-lock snapping.

Her husband found her unconscious and took her to the Misericordia hospital. She was able to return home the same day and was passing through the room where she had been assaulted when she heard a faint scraping noise in the closet. Going to the door she heard a faint breathing and called the police.

As the officers opened the door a youth, who later said he was Melvin Barnes, eighteen, of Galveston, Texas, fell out, almost unconscious from lack of air.

He admitted later he had broken into the house, but denied striking Mrs. Kaufman.

Pays After 40 Years.

Pattonsburg, Mo.—Forty years ago George N. Gromer lent \$50 to a friend for a short period, but the man left the neighborhood before he repaid the loan. Several days ago Gromer received a letter in which was a check for \$200. It came from the man who had asked the loan of the \$50. The debtor said he had become prosperous and wanted to liquidate the obligation.

Eat Orange a Day, Keep Baldness Away.

Milwaukee.—An orange a day will keep baldness away. Dr. LeRoy Crummer, professor of medicine at the University of Nebraska, is authority for the statement, made at a meeting here of the Tri-State Medical association.

"Science has found that the absence of certain acids in the stomach eventually produces baldness," he declared. "It is also proved that citrus fruits abound in healthful acids that tend to stimulate sluggish stomachs. Eat citrus fruits and you will never be bald."

Mayor Also Admiral.

As a compliment, the lord mayor of London is always an admiral of the port of London.—London Answers.

Bible Thoughts for the Week

Sunday.

But Thou, When Thou Prayest, enter into thy closet, and when thou hast shut thy door, pray to thy Father which is in secret; and thy Father which seeth in secret shall reward thee openly. For your Father knoweth what things ye have need of, before ye ask Him.—Matt. 6:8.

Monday.

He That by Usury and unjust gain increaseth his substance, he shall gather it for him that will pity the poor. A faithful man shall abound in blessings; but he that maketh haste to be rich shall not be innocent.—Prov. 28:8, 20.

Tuesday.

Ascribe Ye Greatness unto our God. He is the Rock, His work is perfect, for all His ways are judgment: a God of truth and without iniquity, just and right is He.—Deut. 32:3, 4.

Wednesday.

The Lord is the portion of mine inheritance and of my cup: Thou maintainest my lot. The lines are fallen unto me in pleasant places: yea, I have a goodly heritage.—Ps. 16:5, 6.

Thursday.

Fear Thou Not; for I am with thee; be not dismayed; for I am thy God: I will strengthen thee; yea, I will help thee; yea, I will uphold thee with the right hand of my righteousness.—Isa. 41:10.

Friday.

The Fruit of the Spirit is love, joy, peace, longsuffering, gentleness, goodness, faith, meekness, temperance: against such there is no law.—Gal. 5:22, 23.

Saturday.

When the Righteous are in authority, the people rejoice: but when the wicked beareth rule, the people mourn.—Prov. 29:2.

AUCTION!

SALEM SAYINGS.

Mrs. Earl Stanbro who has been seriously ill is reported to be doing as well as could be expected.

The infant son, Foster Albert, who came to bless the home of Mr. and Mrs. Earl Stanbro of Salem, on March 19th lived only a few hours when he passed away. Funeral services were held on March 21st, Rev. Halliday officiating. Interment at Walker cemetery in Salem. The bereaved parents have the sincere sympathy of their many friends.

Record Liners Cost But Little

Wm. S. McNair, Attorney, Northville.

NOTICE OF MORTGAGE SALE.

Whereas, Charles F. O. Mason, of the city of Detroit, Wayne county, Michigan, made and executed a certain mortgage, bearing date the 27th day of November, A. D. 1917, to Robert B. Thompson, of the township of Northville, Wayne county, Michigan, which was recorded in the office of the Register of Deeds of the county of Wayne on the 30th day of November, A. D. 1917 at 11 o'clock in the forenoon, the said mortgage, on page 366.

And whereas, the amount claimed to be due upon said mortgage at the date of this notice is the sum of Thirteen Thousand One Hundred Sixty-four and 34/100 (\$13,164.34) Dollars, and no suit or proceeding has been instituted at law to recover the debt now remaining secured thereby or any part thereof.

And whereas, default has been made in the payment of the money secured by said mortgage, whereby the power of sale contained therein has become operative.

Now, therefore, notice is hereby given that, by virtue of said power of sale, and in pursuance thereof and of the Statute in such case made and provided, the said mortgage will be foreclosed by a sale of the mortgaged premises, at public vendue, to the highest bidder at the Congress street entrance to the Wayne County Building in the City of Detroit, in said county of Wayne, that being the place of holding the circuit court, within said county, on the 2nd day of July, A. D. 1925, at 10 o'clock in the forenoon; the description of which said premises contained in said mortgage is as follows: Lands, premises and property situated in the township of Northville, County of Wayne, and State of Michigan, described as follows, to-wit:

Beginning at the northeast corner of section four, Town 1, South Range 8 east, running thence south on the east line of said section, fourteen hundred and five feet, thence west parallel with the north line of said section, twenty-five hundred twelve and 95/100 feet, thence north parallel with the east line of said section six hundred fifty-three feet, thence east parallel with the north line of said section fourteen hundred seven and 95/100 feet, thence north parallel to the east line of said section, seven hundred ninety-two feet to the north line of said section, thence east along said north line eleven hundred four and 7/10 feet to beginning corner, a 22,774 acres of land.

Dated April 2nd 1925.

New York has barred Jack Dempsey from the city's sports grounds.

Boals Survey Decided Upon
Washington—President Coolidge has determined upon a commission to investigate the Muscle Shoals and report recommendations for it.

Hawaii Rejects Merger
Honolulu—The House of Representatives of the territorial Legislature has tabled by the promptest action on record a resolution proposing to make Hawaii an integral part of the state of California.

Rep. Ferens, who introduced the resolution, said that Hawaii was not represented in Congress, was getting no proper recognition from the United States and therefore the only way lay in joining the state of California.

Germ-Killing Metals

Germs that come in contact with certain metals are destroyed as shown by recent experiments. Copper, zinc, brass and silver are capable of killing microbes, but these metals also are most easily attacked by chemicals. In the tests the germs were not harmed by platinum, nickel nor pure gold freshly cleaned and polished.

Value of Observation

An observant man, in all his intercourse with society and the world, carries a pencil constantly in his hand and, unperceived, marks on every person and thing the figure expressive of its value, and therefore instantly on meeting that person or thing, again knows what kind and degree of attention to give it.

Beloit College to Send Expedition to Africa.

Beloit, Wis.—Were the prehistoric ancestors of modern man natives of north Africa?

Will the theories of archeologists be revolutionized as they try to find the cradle of prehistoric civilization?

Beloit college will send an expedition next summer to seek light on these matters. Dean George L. Collie, head of the department of anthropology at Beloit and curator of Logan museum, an honored Beloit will be represented on the expedition by Alonzo Pond, graduate of Beloit in 1913, a research worker for the college, and one who last year added the new famous Auri-guacan necklace and other important specimens to the collection at Logan museum at Beloit, which anthropologists say is the finest teaching collection in the United States.

The expedition will be financed by Frank G. Logan, Chicago, patron of art and archeology. Pond will co-operate with M. Maurice Régnier, governor general of Algeria, whom Pond describes as the leading African archeologist.

Men in France Seen as Offshoot.

Archeologists have accepted France heretofore as the birthplace of many of the ancestors of humans of today and the cradle of prehistoric civilization, but reports of recent discoveries in French Algeria seem to indicate that the remnants found in the caves of France are merely those left by the offshoot from the original stock.

If may be that prehistoric civilizations were developed in France and in northern Africa, but the character of the material found in Africa indicates that the Auri-guacan and Neolithic man may have lived there some time before the date set for the earliest remains of man found in Europe. Large quantities of archeological remains of early man have been found in Algeria—tools, pottery, weapons and ornaments. The only collection of this material in the United States is at Logan museum at Beloit.

The expedition which is being sent out by Beloit to survey this territory will travel on jailing camels in order to cover as much ground as possible in the shortest season in which it is possible for white people to travel in the Sahara. The party will start its journey in Africa some time in October, for before then and after March the heat is so intense that travel is impossible. The military escort, furnished by the French government, will vary with conditions and depend on the advice of the commanders of the various military posts in the sectors.

Route of Expedition.

The party will start from Algiers and go directly to Oran, on the Mediterranean, the next stop being at Ant. Sefra, from whence it will continue south to Colomb Beshan, which is in the mountains along the eastern border of Morocco, thence to the Great Eastern Erg, finally arriving at In Salah. The return journey will proceed by way of the valley of Oued Mya, Inefek, Ouarzila and Biskra, ending at Tebessa. The entire trip probably will consume six months, covering about 4,000 miles.

Besides the archeological work which is the main object of the expedition, opportunity will be offered to study the Touareg Hoggar, one of the most savage tribes of Africa about which practically nothing is known.

The work of this party will be in practically virgin territory, as far as the archeologist is concerned, since the only research work that has been done there consists of one short trip made by M. Régnier a short time ago. The discoveries made at that time were so important and aroused so much comment in the scientific world, that Mr. Pond determined on the expedition which is now being prepared.

Strange Finds Made in Clothes-Cleaning Plants

San Francisco—The old saw that no man is a hero to his valet might be rewritten to say that no man, or woman either, is entirely a mystery to his or her dry cleaner, if one accepts the views of Miss Elizabeth Santry, receiver at a local dry cleaning establishment.

Miss Santry sums up her reactions severely as follows: "The men are unfaithful and careless. The women are stupid and indifferent."

She explains men are prone to leave love letters in their clothes, and that women make a habit of sending garments with jewelry adhering.

"Life in a dry cleaning office is just one piece of jewelry after another, and one love letter on the heels of another. When we send the letters home in the cleaned clothes, wives always get them and trouble follows."

"I called one woman up at a hotel and told her we had her diamond sunburst worth a fortune. She jawned and said, 'All right, dearie, I'll send a bellhop over some time today.'"

redicts Sahara Will Be Biggest Power Station

London.—William H. Barker, eminent geographer, predicted before a body of scientists that the Sahara desert will become the greatest power station in the world through utilization of heat from sand. Africa, he said, is destined to play a most important part in the world's future. France "is anticipating making her Sudan territory into an Argentine for cattle and Egypt for cotton."

Novi News.

Mrs. Thompson's Sunday school class known as the King's Messengers, will hold a box social at the town hall this evening, April 3rd. There will be several booths from which articles made by the girls will be offered for sale. L. B. Flint will sell the boxes and the public is invited to turn out and help the class.

Mr. and Mrs. Delos Leavenworth, Mr. and Mrs. Frank Dodge and Mrs. Hansard have returned home from Florida.

PLYMOUTH MAN HELD FOR CIRCUIT COURT.

The examination of David Cohen, a Plymouth junk dealer, charged with larceny of goods from the Pere Marquette R. R. property at Northville, to the amount of \$675, was held in Justice Phoebe Patterson's court, Tuesday. The defendant, who had pleaded not guilty when arraigned on March 13th, was bound over to the circuit court for trial with bail fixed at \$1,000, in default of which he was committed to the county jail. George W. Springer was the officer in the case. Plymouth Mail.

The case grew out of the removal by some one of some property belonging to the Pere Marquette Railway company which had been stored near the Northville station.

POLLUTION SHOULD BE PREVENTED.

Pollution of Michigan streams should be prohibited by law, despite the opposition that has arisen in the legislature to the proposed measure that would prevent cities and villages from dumping their sewage into the streams of the state. The pioneers of Michigan found it abounding in pure water, and we have no just reason to pass them on to posterity in any other condition. In regards to this question, it would be well if you were to ascertain the position the department of health is taking in the controversy.

What Northville people have been able to do with their splendid sewer and sewage system other towns of the state can do, and they should be urged to keep the sewage out of the streams and lakes.

LYD H. GREEN POST, NO. 147, AMERICAN LEGION.

Much interest was shown in the American Legion Auxiliary meeting held in the Legion "Dug-out" Tuesday evening, March 24th.

Miss Anna Cross state service officer who has charge of the American Legion Children's billet at Otter Lake, Mich., came to help the women organize. Any mother, sister, daughter or wife of a legionnaire is eligible to membership. The charter will be left open until after the next meeting. This means any who attended the last meeting and any who join at the coming meeting will be charter members of this Auxiliary.

The post and auxiliary will meet Thursday evening, April 9th, at eight o'clock in the "Dug-out" and the Library. After the business meetings are over there will be a joint meeting in the library.

FORD COMPANY WILL MANUFACTURE PLANE.

Edsel Ford announces that as soon as certain experiments now being tried out are completed, the Ford company will start manufacturing airplanes after a new device by a Detroit. In addition, construction will be started on the largest dirigible mooring mast in the world, 201 feet high, to cost \$75,000. This mast will be so constructed that lighter-than-air ships can be lowered to the ground.

Try Northville first.

A BIG FIRE LOSS

(Continued from page 1)

poured over many buildings and residences.

The firemen and citizens did splendid work and there was but little confusion. Everybody seemed willing and determined to help everybody else, and a fine spirit of co-operation and helpfulness was manifested.

The visiting firemen from Plymouth, Redford, Farmington and Walled Lake rendered splendid service and worked with all the energy they possessed to combat the flames. The presence of the visiting companies helped greatly in controlling the fire to the east wall of the theatre building. Had the flames spread to the Ware building no one can imagine how far the fire might have traveled eastward.

The operators in the telephone office rendered praiseworthy service, and made every effort to arouse the people and to spread the news of the danger which threatened Northville. They called the surrounding towns and did everything they could to render efficient and helpful service.

All who suffered loss by the fire were cheerful and hopeful on Thursday morning, and all expressed a determination to "carry on" and to rebuild and reestablish themselves again. They manifested a fine spirit of optimism in spite of the great losses they had sustained.

While all were appreciative of the fine assistance rendered by the departments which came to our aid from our sister villages, we were all very proud of the splendid work done by the members of our own department. They were on the scene early and stayed until all danger was passed, some even remaining on duty all night. And while expressing our praise in the heroism and determination displayed by our local boys every Northville citizen was glad to see how wonderfully our water supply held up for a brief interval the pressure seem-

ed low and all thought the water supply had been exhausted but as soon as some repairs were made to the power line the pressure was again maintained and was held there.

The faithful crews of the Detroit Edison Company—these fine fellows who never sleep when duty calls them—were on the job early and were watchful that no one was injured. They acquitted themselves in a praiseworthy manner and their co-operation was a fine compliment to the wonderful organization of which they are a part.

Now that Northville has received its baptism of fire there should be a public awakening to the fire hazards that still exist in the business sections and some action ought to be taken in the matter. There is some additional equipment badly needed for our fire department and there can be no excuse for neglecting these things longer. We should have ladders, good long ones, a number of lanterns, and enough nozzles to equip all the lines of hose that the equipment can possibly use to advantage. Then there should be some steps taken to enforce our present building ordinance and if need be a new building code should be adopted. The old building known as the Foster hall has been a menace and a danger to every piece of property for years, but as citizens we have been lulled to sleep in our feelings of security because there had never been a fire there.

It seems strange that people who are attracted to a fire will steal the goods and various articles that are removed, but that is the case at nearly all fires. From the goods removed from the Elliott store and from Mrs. Wares' restaurant various articles were carried away by some light-fingered individuals who would steal from a widow and defenseless children. Such individuals are lower than the dust from which they were created and their presence in the community ought to be exposed.
