SALVATION ARMY DRIVE TODAY. FRIDAY'S STORM WAS THE HEAVIEST OF THE SEASON.

The rain storm which visited this section last Friday, continuing about eight o'clock and continuing until near four o'clock in the afternoon, was one of the heaviest ever witnessed here. They will be given a formal welcome. This is a labor of love, and these busy men are giving freely of their time for the welfare of the cause.

On Saturday it is noted to have some of the young girls from the High school offer tables for sale on the streets and throughout the residential section of the town. Be as liberal as your circumstances will permit. Remember the Salvation Army does not connive at, favors or interests to any one community.

The business district has been divided into five sections and visitors selected as follows:

North Center Street—L. Blake and E. H. Partridge  
West Main Street—D. B. Burnham  
H. S. German  
East Main Street—H. G. White and C. R. Horan  
Factory District—C. A. Dolph and C. H. Bryan

### BAD WRECK AT SALEM TUESDAY NIGHT.

A very fortunate wreck occurred on the Pere Marquette railway at Salem shortly after eight o'clock Tuesday night, fortunate because no one was injured. A passenger train, bearing excursionists from Petoskey, and statewide jumped the track at the crossing and the engine, tender, baggage car and three coaches left the rails, but in spite of that fact not a single person was injured, a most unusual occurrence.

As the train approached the station something on the engine or tender gave way and before the train could be stopped the engine and the cars mentioned had left the rails. The ties were cut nearly in two and a steel rail was torn from its fastenings and thrown some distance into the right-of-way.

The wrecking crew was summoned and after a few hours' work the wreck was cleared and the train proceeded on its way to Detroit. The wonder is that many were not killed or badly injured.

### TERRILL SPENCER.

A little wedding ceremony was performed at Our Lady of Victory church last Wednesday morning when Miss Beverly Terrill, daughter of Mr. and Mrs. H. M. Terrill, and Rev. Mr. Spencer, son of Mr. and Mrs. Thomas Spencer, were united in marriage by Rev. Father Schuler.

Miss Beth Ponsford, maid of honor, and William Spencer, brother of the groom, acted as best man.

After a wedding breakfast for the bridal party at the bride's home they left for a motor trip through Ohio, Indiana and Illinois.

They will stay with the bride's parents until after November 3d when they will be at home at 229 Dear Avenue, this village.

Previous to the wedding showers were given by Miss Barbara Edwards, Mrs. Harry Horn and Miss Beth Ponsford.

### W. CUNFER-RATHBURN.

Miss Alice Wagner of this place and Oral Rathbun of Plymouth, were married on Thursday afternoon at 2:00 by Rev. William Daniels at the W. E. parsonage. They were attended by Miss Emma Kremer of Northville, as bridesmaid and Daniel Wright of Plymouth as best man.

They left immediately after the ceremony for Detroit where they remained and attended a play at the Bonstelle Play House. They started Friday morning for Cleveland and Geneva, Ohio to visit relatives.

They expect to be at home after October 15th at 529 Kellogg street, Plymouth. The bride is well and favorably known in this section and many friends will extend hearty congratulations.

### VILLAGE STORES TO CLOSE WEDNESDAYS.

At a meeting of the merchants of the village on Tuesday night it was decided to close the stores every night in the week at 6:30 with the exception of Saturday night. During the past few months the stores have closed every night except Wednesdays and Saturdays. Beginning next week all the stores will close on Wednesday night.

At this meeting it was also decided to form a permanent business men's association for mutual benefit and the following officers were chosen: President, C. A. Ponsford, secretary-treasurer, Howard Stark.

## PLAN MEMORIAL IN HILLS OF DAKOTA

## May Carve Washington-Lincoln Statue on "Needles."

Rapid City, S.D.—A national shrine, modeled from one of nature's vagaries, and situated in the beautiful Black Hills of South Dakota, is the vision of Guston Borglum, the sculptor, and a group of South Dakota residents who view the Black Hills as the greatest undeveloped wonderland in the United States.

The shrine would be a monument of Washington and Lincoln, standing side by side, their figures carved from a huge needlelike piece of granite, which towers 200 feet above its granite base.

Borglum has long held this vision. He expects soon to visit South Dakota to discuss details for raising the \$1,000,000 necessary to its completion.

Shaft Visible. Many Miles.

In the Black hills there is a group of rocks that rise perpendicularly as high as a fifteen or more story office building. These rocks are known as the Needles. One of these has withstood the elements more than its neighbors and there remains a wide base from which there ascends a shaft rising almost to a point.

This shaft rises to a height greater than any elevation east of the Rockies except Mount Harney, itself in the Black hills.

Situated among virtual mountains of red, purple and gold, their slopes dotted with towering pines, the proposed memorial rock may be seen for miles before the long, slowly ascending trail finally brings the visitor within its shadow.

Here Borglum found a setting for a national memorial.

Financial Backing in View.

With the advice of several South Dakota residents, Borglum chose as the characters for this memorial Washington and Lincoln, two outstanding figures in American history, whom he knew would appeal to the patriotism of every corner of the United States.

Information regarding importers of the material in this state indicates that the financial problem will be met.

Local wealthy persons have pledged \$10,000 to the fund, and it is predicted that on Nov. 3, a substantial sum will be raised to finance the project's realization.

## BOY FINDS IT DIFFICULT

TO LIVE ON \$12,000 A YEAR.

From John M. and Beth Wright of Los Angeles, Calif., recently arrived with their twelve-year-old daughter, Margaret Parker, before Judge John K. Brown of the Court of Appeals, and condemned that it

it has been very difficult for young Margaret to live within her annual allowance of \$12,000.

The boy, owner of the large Parker ranch on the Island of Hawaii, is reported to be a millionaire. The grandmother, in his judgment, petitioned the court to increase the allowance to \$16,000, which was rejected.

Alex Kailigh told the court that the servants employed in her home for the benefit of young Ballard cost approximately \$400 a month. In addition to the increased annual allowance of \$16,000, the court authorized an expenditure of \$2,500 to cover the cost of the boy's education in Hawaii and \$1,800 for distribution to the youngster among the improvements on his cattle ranch when he visits his parents to be the guest of the staff and cowboys.

## WOULD USE BLIMP IN FLIGHT TO NORTH POLE

Washington—Lighter-than-air machines, like the dirigibles Shenandoah and Los Angeles, are in the opinion of Commander Donald B. MacMillan the type of craft best suited to overcome the ice hazards that the Far North presents to the explorer.

Continually drifting ice floes, he has radioed the National Geographic Society, make uncertain the landing of heavier-than-air machines, as one day a fjord may be open only to be冰 bound the next.

Under such conditions, he said, a cache established by an airplane is not a help, but a menace, for if depended upon and a plane arrives out of fuel, destruction is certain.

"The lighter-than-air machines can do the work," he added, "and should do it at the earliest opportunity."

## U. S. TOURISTS TO CUBA TO GET TAX EXEMPTION

Havana.—Citizens of the United States will receive the same privileges given Cuban citizens by the immigration authorities, under a recent department ruling.

The treasury department has exempted tourists and other travelers from payment of the one-quarter of one per cent tax on money above \$50 taken out of the country by travelers.

Secretary of the Treasury, Cartaya, authorized steamship companies to issue identification cards to passengers which, on their leaving the country, absolves them from either making a statement as to the amount of money they are carrying or payment of the tax.

## COOLIDGE SETS RECORD

Swampscott, Mass.—Regardless of all that is record of President Coolidge's aforesaid records show he shook hands with 43,011 persons last year.

No former President ever shook hands with so many in one year.

Borglum has long held this vision. He expects soon to visit South Dakota to discuss details for raising the \$1,000,000 necessary to its completion.

Frank R. Beal has been elected chairman. Frank S. Harmon, Clerk.

Frank Perrin and Frank Neal, tellers,

and the caucus ran out of Franks and a ballot was ordered.

street. He has a nice line to select from and, in addition to that, he is experienced in the manufacture of wagons and is thus able to make the best possible selections for his customers at lowest possible prices.

Mr. Cattermole will also do general repair work and build to order.

One of the very largest attended township delegate caucuses ever held here was that of Monday afternoon.

The contest was not on the delegates but as to whether they should be for Brooke or Waite in the judging question.

Frank R. Beal was elected chairman.

Frank Perrin and Frank Neal, tellers,

and the caucus ran out of Franks and a ballot was ordered.

It took a

lot of balloting but in the end, the Brooke delegates won out by a majority of 1 to 5 voters.

"ABIL" TO ENTER TWENTY-FOURTH WEEK.

Albie's Irish Rose, Alice Nichols' stupendous success at the Garrick Theatre seems to be the world's near

lately although so far unperformed motion. The Times' Irvin

opened with twenty-fourth week in Detroit on Sunday with

the contract for the year. The

annual musical performances, and according to present indications the show

at least until after the Christmas

holiday.

The crowds which attend this production which is the most popular ever staged, continue to roll the house

despite almost every high and many people have paid some distance to Detroit to see the show two or three times.

They say that even when they know what is coming they get just as big laughs as the first time they saw the play, and the continuous roar of hilarity which can be heard on Griswold Street every night is proof of their statement that the show is the funniest ever produced.

Theatrical critics agree that the acting is as fine as anything ever seen in Detroit, and this is easily understood because the actors and actresses are all top stars perfectly.

The Irish parts are taken by real Irishmen and the Jewish parts by real Jews who talk on the stage just as they do when not in the theatre. Native Americans are given at the Garrick each Wednesday and Saturday afternoons, and it is good judgment to place orders for tickets early. They may be purchased two weeks in advance.

**THIS IS FIRE PREVENTION WEEK.**

This week is being observed throughout the country as fire prevention week and there is need of giving attention to the matter of fire hazards in every community. Northville experienced a disastrous fire last spring just because the people of this place have been lulled to sleep by the fact that it is safe to remain in business for years after it has been extinguished.

Now that winter is approaching every property owner ought to be alert to the conditions about their premises.

In case of fire prevention week, a whole lot of fire insurance policies are being written.

**DOWN IN THE FACTORY DISTRICT.**

The first plant of the F. & F. Motor company is always a busy place and at this season it is especially active. Production is being pushed to the limit.

An effort is being made to sell the large building owned by the Simpson Scale company. Detroit parties have been here and there are prospects of being able to make a deal which the factory will come here that will give employment to upwards of fifty women. The company is continuing its activities now almost entirely to the manufacture of butcher beam scales. They have some orders on hand and a large order for beams is booked for as the result of a favorable connection recently made with parties at St. Louis, Mo.

The Northville Laundry now located in a part of the Simpson building, is doing a good business, giving employment to a number of people. If more Northville people would have their laundry work done at home more people could be worked there.

Al. Zimmer's garage and service station, also located in a part of the Simpson building, is a busy place.

Mr. Zimmer has sold a lot of Essex and Hudson cars this season.

The Bell Furnace & Manufacturing company's plant is a busy place these days. With lots of furnaces sold and cold weather coming it keeps the force pretty busy trying to satisfy those who are demanding "heat". It is hard to secure men who understand the installation of furnaces and as a result the company is short-handed.

The Superior Chern & Manufacturing company of this village recently made a shipment of their large-sized chins to California. They have a good many orders on their books.

The Globe Furniture & Manufacturing company is busy with orders for church furniture. They recently made very promising selling connections in the east and they are expecting some good orders as a result.

## CAILLAUX TAKES U. S. DEBT PLAN TO PARIS

**Secretary Mellon Asks \$40,000,000 per Annum Until 1930.**

Washington—Negotiations for the funding of the French war debt of \$4,200,000,000, which have been going on for eight days, were suspended Saturday when Joseph Caillaux, minister of finance, refused to take back to his government a temporary proposal made by Andrew Mellon, secretary of the treasury.

This suggestion provides that France pay \$40,000,000 annually to the United States for the next five years. At the expiration of that period, or at any time during its course, the French government would resume the discussion of the definite funding of its obligations, taking up the pourparlers from the point where they are now left off.

Secretary Mellon's proposal was presented to the French commission after the French terms for settlement had been pronounced unacceptable.

The American offer which M. Caillaux will carry back amounts to an acceptance of 1 per cent interest on the total French debt, with accrued interest as it now stands, at over \$4,000,000,000, for five years. The miffles of \$40,000,000 in reality represent only an addition of \$26,000,000 as France has been paying \$20,000,000 annually in interest at 5 per cent on the U.S. War Stocks she acquired for \$40,000,000 in 1919.

Mr. Mellon's offer is admittedly only a stopgap to prevent the total of the debt from seeming interest rolling up to a greater grand total.

**Mrs. Woodrow Wilson in New Romance; Is Report**

Paris—A possible romance in which the names of Mrs. Woodrow Wilson and Dr. Sterling Rufin of Washington, D. C., have been linked together has been the subject of much speculation in Geneva and Paris in the last few weeks. Mrs. Wilson is being entertained by her friends here, but Doctor Rufin sailed for New York September 23 on the steamer Majestic.

Rumors of the impending engagement of Doctor Rufin and Mrs. Wilson brought the following statement from a close companion of the former President's widow:

"Mrs. Wilson adheres to the policy she has followed since she was in the White House and refuses to confirm or deny any newspaper reports concerning her."

**Landslides Bury Many in Tokyo and Yokohama**

As the retaining walls in a Tojo building broke many crippled girls were pinned under the ruins of the structure and tons of earth, but were extricated unscratched. ## KRIM'S CAPITAL IS REPORTED IN FLAMES

**Spanish Troops Capture Maekran Heights—Paris Correspondent Killed.**

Madrid—Admiral Abd-el-Krim's capital in Spanish Morocco, a few miles from Alpicem, bay is in flames, but whether set afire by the much peset Rifians themselves or by shells from the Spanish guns is not known.

General Primo de Rivera, aboard the dreadnought Alfonso XIII, living on the Alhucemas coast, sent by radio

the fact that Adrir was burning. It was against this stronghold, that the Spanish advanced in the last few days

had been directed.

In his message Primo de Rivera tells

of the Spanish troops reaching the Maekran heights without resistance by the Moors and with few casualties.

The rate of Adrir, he says:

"Adrir is afraid. Including Abd-el-

Krim's supporters, the conflagration presents a strange spectacle."

An official communiqué reports that the Spanish troops in the Alhucemas bay sector, following up their advance in which Monte Faluas was occupied, captured important heights of Adrir and Sedoun in the direction of

Yahia.

After these heights the Spaniards

are able to dominate with their fire the camp of Krim's followers.

An official communiqué says the campaign has ended with every ob-

jective taken. The French troops have

infiltrated deep lines twelve kilo-

meters (7½ miles) north of Kitane.

Reginald Kuhn, correspondent on the Moroccan front for *Le Temps*, leading Paris newspaper, was killed by a Rifian bullet a few moments after leaving the staff headquarters of General Naubu.

Chicago than in other cities for the

**Recommend Revision of Live-Stock Freight Rates**

Washington—After a parliamentary

investigation of complaints of the

American National Live Stock Asso-

### MICHIGAN COWS RANK HIGH IN PRODUCTION

Ranking second only to Wisconsin among dairy states of the country in the number of herds which have qualified for the National Dairy Exposition "300-pound-herd-average" honor roll, Michigan dairy farmers have made an enviable name for themselves as efficient producers.

A total of 813 Michigan herds are listed in the national roll as having averaged more than 300 pounds of butterfat per head from the period from July 1, 1924, to June 30, 1925. Wisconsin, with 334 herds in the select circle, tops the entire country, while Minnesota takes third place with 387 herds listed. Other leading states are Pennsylvania, 254; Iowa, 183; Ohio, 150; Indiana, 145; and Illinois, 115.

The Michigan herds are all members of 86 of the state, county, testing associations. There are 106 county cow testing associations in Michigan now, according to E. C. Baltzer, extension specialist at the Michigan State College who has charge of the association work. Wisconsin has more than 160 active associations, and Mr. Baltzer points out that Michigan's percentage of 300 pound herds is greater in proportion to the number of test associations than is Wisconsin's.

Special certificates will be awarded the 813 Michigan "300-pound" herd owners during the National Dairy Exposition in Indianapolis from October 16 to 17. A number of prominent citizens of the state are also entering animals in the competitive judging classes at the big show.

### GIVE HOME MERCHANTS A CHANCE

Communities grow only in proportion to the support they receive from the people who make up the community. Northville has the chance to improve its quality and size by the inhabitants investing their money in buying the necessities of life in other localities. People who cling to the misguided notion of "doing better" away from home often lose dollars in doing so.

The home merchant is honest and offers honest value. He can't afford to be otherwise, though he might be inclined to. He depends for his living upon the community which he serves and he must give the community what it wants at fair price.

When you are tempted to trade outside and buy "something" "find it good" if down, prices you should think twice before acting. If you are interested in merchandise bought at home, you always get a good bargain. The merchant knows it may have been shipped and he is generally willing to take the loss rather than have a disappointed customer. But the man of true merchant is not frequently interested in you. His only hope is to sell you once and he does not have to take precautions to preserve your good will.

More than owing it to your community to trade at home, thus keeping your money in circulation at home, you should give the home merchant the first opportunity to serve you from a sound economical viewpoint.

### INCREASE IN STATE TAXES

Oakland County will pay \$566,071 in state taxes this year, according to the county tabulation received from Lansing. The corresponding figures last year were \$279,941.

All of the counties of the state will pay a larger amount of state tax this year on account of the increase in the state's budget.

Wayne County will pay \$8,252,123 this year as compared with \$6,545,215 a year ago. Washtenaw will pay \$242,032 as compared with \$299,123 last year.

### THE VERY SAME BOY

Automobile License Clerk (former railroad conductor) : "And how old is your boy who wants this driving license, madam?"

Fond Mama : "He is 16 almost 17."

Clerk : "He grows fast, doesn't he. It's the same youngster who was just under 6 when you rode on my train summer before last."

### Good Guess, Anyway

The wives of two traveling salesmen were introduced. They settled down for a comfortable talk. Servants, the weather and children were discussed, and then one wife inquired: "And what is your husband's line?" The other wife considered before she replied: "I'm not entirely sure, but he is always talking about dotted line, so I suppose that's it, don't you?"

### Just Plain Turtle Soup

Did you ever eat turtle soup? Not mock turtle soup, nor green turtle, nor sea turtle, nor terrapin à la Maryland, but plain turtle? You know, regular mud-turtle—all fixed up with garlic and onions and small fresh carrots and petite pots and tiny new potatoes and just the right amount of seasoning and—salt? What? Never did? Neftimer did!—Phil Moore, in Forest and Stream.

## STATE NEWS IN BRIEF

St. Louis—W. W. Carpenter, who has been managing editor of the St. Louis Leader for the last year, has bought an interest in the May City Times, where he assumed the editorial management October 1.

Torino—Laurence H. Hale, well known miller here, was elected commander of the John F. Girard post of the American Legion, to succeed D. O. Melinger, who will serve as past commander in the coming year.

Lansing—The state administrative board recently released \$25,000 to the Michigan State College for additional work on the new agricultural building. It was estimated this amount will complete the structure.

Marshall—The Southern Michigan Transportation company has started its auto bus service in connection with the Michigan Electric Railway Company. In this section, the busses operate between Kalamazoo and Jackson.

Lansing—Corporation tax receipts for the year will yield about \$6,000,000, according to department of state estimates. Collections thus far total \$6,784,691 and considerable of the levy is outstanding. Last year the yield was \$303,863.

Marshall—William Peter, 14-year-old son of Mr. and Mrs. Harry Peter, of Marano township, disappeared over a week ago and nothing has been heard of him since. He was last seen at the fair grounds, where he assisted in erecting the merry-go-round.

Lansing—The counties should look after persons afflicted with tuberculosis although the work should be under the supervision of the State, Dr. R. M. Olin, State Health Commissioner, told delegates to the Mississippi Valley Conference on Tuberculosis.

Upstate—The enrollment at the State Normal College here now is 2,379, about 300 fewer than last year, according to figures given out by Registrar C. P. Stigle. Many of last year's graduates experienced difficulty in obtaining positions because of the over supply of teachers.

Grand Rapids—Vice-president Charles G. Davis is being sought by C. Wellington Komer, of Pasadena, Calif., president of the International Managers' Association, as a speaker during the annual convention of that organization, to be held here Nov. 17-18 and 19. Major Elton Swarthout has joined in the invitation.

Sault Ste. Marie—Despondent over his slowness in school Supt. H. H. Miller, 17 years old, committed suicide by swallowing a strichnine capsule. A physician was called, but the boy died three hours later. Miller, a student from Chicago, had been absent from his school frequently, and was attending the local high school. His father is a dentist.

Lansing—Return to the regular limitations regulating uses of wages operating dangerous machines in Michigan factories is to be asked of the coming legislature by Carl Young, commissioner of labor. The session of 1923 changed the minimum wage from 15 to 21 through the passage of a House bill, which was amended in the Senate.

Ann Arbor—Construction of new buildings for the Department of Architecture and the museum will constitute the program of expansion for the University of Michigan during the next year according to J. Christensen, assistant secretary. The Architecture building will be started on the \$100,000 provision made by the state legislature last spring.

Saginaw—Pastors and teachers attending the seventy-fourth annual convention of the joint synod of Ohio and other states at the St. John's Evangelical Lutheran church voted unanimously for a union of the Ohio and Iowa synods. Delegates were directed to instruct their respective congregations to vote on the matter before November 1.

Baldwin—Michigan's right to fish in Michigan streams was assured temporarily here recently, when the jury hearing the case of Frank Collins, of Toledo, O., owner of stony lance on both sides of Pine River, against Gladwin S. Gerhardt of Reed City, who crossed Collins' river fences while wading in the bed of the stream in fishing, returned a verdict of no cause for action.

Cheboygan—Instead of the elaborate wedding festivities planned, a very simple, quiet ceremony marked the union of Miss Celia Brovage and her second cousin, Louis Brovage, of Rigasville. The groom, while taking the bride's father, Anthony Brovage, to the wedding by motor car met with a serious accident, in which he was hurt painfully and the elder Brovage was injured so seriously he lies in an unconscious condition in the hospital in the city.

Lansing—A new high record for gasoline tax collection was set in August, a report completed by the Department of State shows. The two-cent levy netted the State \$977,110, an increase of \$29,232 over the net return of \$947,677 in July. Gross collections in August were \$1,025,438, refunds totaling \$42,423. That the total yield of the new weight and gasoline highway gasoline tax will yield in excess of \$1,900,000 appeared certain. The weight tax, up to Sept. 1, had turned \$1,868,882 into the treasury and the total probably will run close to \$14,000,000.

Marshall—The Marshall Gas Light Co. has sold its plant to the Michigan Federated Utilities of Battle Creek for \$66,500 cash and a \$42,000 mortgage.

Algonac—Edwin Randolph, 91 years old, Civil War veteran, is dead. He was born in Michigan in St. Clair County, in 1834. But four Civil War veterans are now living in Algonac.

Ironwood—A 10-pound fawn wrecked an automobile at Custer 13 miles west of here, and died with its life.

An automobile party from Niles came upon the fawn in the highway and could not avoid the animal.

Grand Rapids—Following consideration of rural social problems, the Michigan State Conference of Social Workers selected Miss Dorothy E. Chapman of Ann Arbor, as its president to succeed Alfred Stoneman of Lansing.

Lansing—Lansing is to have a laid-in field of state property, Governor Groesbeck said recently. The administrative board is expected to approve a proposal that the city be given the use of part of the boys' vocational school farm for aviation purposes.

Allegan—Henry Hollins, 17 years old, was taken to Grand Rapids to face a charge of stealing a car, belonging to Charles Walker of Byron Center. The boy was arrested at Bradley when the machine he was driving ran out of gasoline. His youth led the officer to make an investigation which resulted in the arrest.

Monroe—Sheriff Joseph Kinsey has started an investigation to follow

leads which gave liberty to four prisoners.

They were smuggled into the county cell. It was discovered that

only four escaped instead of all the prisoners simply because the remaining were too large to crawl

through the small opening in the bars.

Channing—Fire of an undetermined origin destroyed the St. Paul and Knobury Hotels, and the poolroom of R. J. Tobin. The three buildings were frame structures. The fire originated in the St. Paul Hotel and firemen were hampered by low water pressure. Assistance was given by the Iron Mountain and Crystal Falls fire departments.

Mid-Clemens—At a special meeting of the city commission the resignation of City Engineer H. R. O'Meara was presented and accepted. It was

the third set of a public hearing of the charges of misconduct filed by

the commission. In his resignation

the engineer declared his innocence

of the first charges, but admitted

## FROM OFFICE BOY TO GENERAL MGR.

Salary Increase Comes  
With Promotion

Chicago, Sept. 30.—After a careful survey of the entire labor situation existing from office boy to president, indications are that positions showing increases in salaries require experience and help.

Consulting the president of one of our largest industries, the writer inquired regarding the rapid success of a certain young man who had become general manager and who a few years ago was but office boy; his answer was Brown started as office boy, the lowest salaried position in our office; he was ambitious and managed to purchase a typewriter on small monthly payments, and after three weeks of practice at home, he was promoted to bill clerk which position gave him knowledge of the selling price of all merchandise. His next advance was that of assistant manager, then the numerous forms of letter writing and enabled him to hold a stenographic position, giving him complete knowledge of letter writing. He was then made secretary, bringing him into contact with all business details and qualified him for the general manager's office after thousand per year. The same opportunity awaits every young man and woman. Education or age have nothing to do with operating so simple a machine as the typewriter. We are informed that a great piece of benevolent work is being carried on in a large Chicago mail order house in furnishing typewriters to people worthy of credit, by selling on small monthly installments, so low as to average about eight cents per day and actually teaching their customers how to use and operate any typewriter in about three weeks' time. You can get other information by writing the International Typewriter Exchange, 184 W. Lake Street, Chicago Illinois.

A resourceful man purchased for a very small sum a dozen oak table leaves which had not been taken by the purchaser when some banquet tables were closed out by a hotel going out of business. He took these table leaves and in his spare time made out of them fine and roomy china cabinet with lead glass fronts, thus giving his wife the additional cupboard room which she badly needed.

### Dangerous Foods

It is a generally accepted fact that rabies cannot be transmitted to normal animals through food containing the virus of the disease, unless lesions are present in the alimentary canal. However, the conclusion that there is no danger to the consumer from the meat or milk of animals that are rabid is not tenable, since abrasions of the lips, mouth, pharynx are all too frequent a permit of such risks.

**FRENCH TANKS ROUT 10,000 TRIBESMEN***Smash Through the Walls of Suedia and Relieve Garrison.*

Suedia, Palestine.—The French have completely defeated Druse tribesmen and Suedia, capital of Jebel Druze, has been relieved after its French garrison had been penned up for sixty-six days. Ten thousand Druse tribesmen were scattered by the attack of the French column, aided by air bombers and tanks.

The tanks, moving in a diagonal formation, reached the walls of Suedia and made themselves into a battering ram, beating down the walls and blowing houses and allowing the infantry to enter the city. All the Druse forces were engaged in a battle which lasted five hours before they were scattered.

There is a human interest side to the attack and relief of the French garrison of 700. Commandant Tom Martin, previously rumored to be sick, wounded and dead, was found alive and well. Major Martin joined the attack the moment the French tanks reached the old Turkish citadel there by forming his first liaison with the French army for sixty-six days. During these days they were fed by airplanes and communicated with by radio.

When the tanks knocked against the gates of the citadel, the heroic garrison streamed out, joining the infantry and tanks in fighting the Druse until they were driven out of the city.

Paris.—News of the defeat of Druse tribesmen, received here, led to the prediction that it meant the beginning of the end of French troubles in Syria.

**Washington Wins Second Consecutive League Flag**

Washington—Washington captured its second American league pennant and will face Pittsburgh, which clinched the National league title, in the World series, starting at the latter city October 7.

The American league race ended suddenly, as the champions won two games from Cleveland, while St. Louis came from behind to nose out Philadelphia, sole remaining contender, in an 11-inning contest. The Senators won the first game 4 to 3 in ten innings and the second, 6 to 2.

It happened so quickly that apparently none but the rapid fans who had figured out the theoretical chances of Washington and Philadelphia were aware that the Senators had won the pennant.

**Robert Goeler Makes Third Plunge Into Matrimony**

New York.—In his marriage to Miss Roberta Willard at her parents' home at Fisherton, near Newport, Ky., Robert Goeler, multimillionaire son of the late Ogden Goeler, is making his third plunge into matrimony.

His first wife, was Miss Elsie Whelan, noted society beauty of Philadelphia, whom he married in 1904. After a decade of happy life temperamental differences arose, and in March, 1914, Mrs. Goeler was granted a divorce in Newport, R. I.

In 1919 Goeler married in Paris Mme. Fernanda Rjabouchinsky, the former wife of Prince Nicholas Rjabouchinsky of Russia.

Goeler is said to be worth about \$40,000,000.

**Latvia Makes Debt Agreement With U. S.**

Washington.—In the midst of the important French war-debt negotiations Secretary of the Treasury Mellon paused long enough to sign a war-debt funding agreement reached with the Republic of Latvia. The indebtedness represents obligations received in connection with the sale of war supplies by the secretary of war and obligations received from the American relief administration on account of relief supplies furnished on credit.

**Doris Keane Gets Divorce**

Washington.—The expenses of the state of Michigan for the fiscal year ending June 30, 1924, for general departments, public service, interest and other items were \$65,682,356.

**BEWARE OF STRANGERS SOLICITING.**

Fake solicitors are now touring the rural districts of Michigan, where they gather up produce either with the promise that the check will come from "the office" or taking in poultry and other merchantable articles in payment of "subscriptions" to magazines that never come. Unless you happen to personally know a solicitor or agent as a person of reliability, it is a good plan to give them wide berth.

**OFFICERS WIN A REAL BATTLE.**

On Saturday the Detroit House of Correction officers defeated the St. Stanislaus Y. M. C. A. 2 to 1 in one of the hardest fought contests on the farm grounds this season.

Roman, the officers' portside, and Hurkley, the Saints' starboard, each pitched a brilliantly consistent game.

Hurkley allowing but six hits and Roman seven.

The Saints and officers each put one

across in the second followed by another one for the Saints in the third. The Officers came back with one to tie, in the fourth. The tie remained unbroken until the last of the eighth when Basa hitting for two bases, was followed by Spencer who nicked Hurkley for a three base hit that scored the game off.

## GREYMAN CAKES COMING SUNDAY.

Owing to the rain last Sunday the Greyman Cakes' team could not come here for its game with Northville, but they will surely be here this week Sunday, October 13th. Spread the good news and look for a real, honest to goodness ball game.

## WALLED LAKE WARBLES.

County School Commissioner E. J. Leifer addressed a meeting of the Parent-Teachers' association at this place Thursday night. There was a good attendance.

George Ormsby, well-known to many people in this section, celebrated his 57th birthday anniversary at his home in Milford, on Tuesday. He was for a number of years mail carrier at Commerce.

## ATTRACTIVE WINDOW DISPLAY.

Walter A. Ware has a very attractive window display of hunting goods in one of his show windows. In the background may be seen a miniature log house, which Mr. Ware erected himself, and it is really a fine piece of work. The side walls are made of small round pieces and the roof is covered with bark from an oak tree, and the building is "pointed" to resemble a real log house, the home of our pioneers.

The building is lighted at night with electricity instead of tallow candles and a little flag adorns the peak of the roof.

## THE FIRST ZONE MEETING WITH SUCCESS.

The first meeting of Zone A was held at the Thayer school last Saturday, just about fifteen teachers present. Miss Ora Eiden, who has been teacher of the Thayer school for the past two years, called the meeting to order.

Miss L. Cochrane, the helping teacher for this zone, gave a demonstration lesson in history and Mrs. Watson of the Briggs school taught a lesson in third grade phonics.

At noon a delicious luncheon was served by the ladies of the Thayer school district.

The afternoon meeting was started by singing "America the Beautiful." Then the girls gave a short program assisted by Miss Ruth Eiden at the piano.

Two beautiful solos were rendered by Mrs. Stroh of Salem with Miss Kilday at the piano. C. Harry also pleased the audience with two violin solos with Mrs. Hadidas of Salem at the piano.

Professor Pray of the Ypsilanti Normal College then told the children historical stories. Fred Fischer then told why the helping teacher is sent to rural schools and of her work.

Mrs. Quinlan, the social service worker for Wayne county rural schools, then told about her particular work. After singing "America," the meeting was closed.

Much credit is due Miss Oliver Eiden for her efforts to make something a success, for a success it was indeed.

Mr. and Mrs. William Wilson and Mrs. Edward Wilson recently planned a family party of 12 at their Sunday in the Wilson home in honor of the 50th wedding anniversary of their parents Mr. and Mrs. Hartt St. John.

## SUZANNE, COMING TO NEW DETROIT OPERA HOUSE.

What will no doubt prove to be the outstanding musical comedy event of the season in Detroit will be the engagement of John Cort's latest musical comedy success, "Suzanne," which will be seen at the New Detroit Opera House next week, beginning Sunday evening. Following the Detroit engagement the piece will be taken to Chicago for an indefinite run and then to Mr. Cort's New York theatre as a permanent Broadway attraction.

The importance of this statement is the fact that it will be seen at the New Detroit at its very best with the original metropolitan cast and all of the features that are already famous.

The cast is headed by Ernest Glendinning, star of fourteen recent successes, Doris Eaton, Ziegfeld Follies beauty and film star, has an important role, as does Irma Marwick, prima donna of many recent musical hits, Wavie and Warren Vaudeville headliners and recently seen in Detroit with Constance Binney in "The Sweet Little Devil," also have considerable to do with the meritment of the piece.

Theodore Bebbcock, Zeffie Tilbury, John Sheehan, Edgar Gardner, Jack Rafael, Sid Tepper and Charles Henderson make up the balance of the unusual cast.

Of course there is a large and snappy Broadway chorus said to be several degrees above "pep" probably the most interesting feature is the personal appearance of Ray Miller and his complete Prinswick orchestra. Mr. Miller not only conducts the performance, but he and his band will entertain between the acts.

In an effort to bring things back to normal, Mr. Cort has reduced the scale of prices for the Detroit engagement to \$2.50 top for the evening performances \$0.50 to \$2.00 for the Saturday matinee and for the mid-week Wednesday matinee the prices will be 50¢ to \$1.50 in keeping in final order, address them to Manager New Detroit, enclose check or money order and do not forget to add 10% to the above prices mentioned, for tax.
