HALLOWEEN WEDDINGS

Hamilton—Coe

On Saturday morning last at 10:30 Don Hamilton, son of Mr. and Mrs. Frank Hamilton of Novi, township, was united in marriage to Miss Lena Coe of Walled Lake at the Methodist parsonage in this village. Rev. Wm. Richards performing the brief ceremony. The bride and groom were unaccompanied and left immediately after the ceremony for a honeymoon trip to Kalamazoo to spend a few days with an aunt. After their return they will make their home at the Hamilton homestead in Novi. The best wishes of many friends are extended and all who enjoy their acquaintance will wish them an abundance of happiness.

Hocking—Hinckley

On Saturday evening at eight o'clock Lloyd Hocking of Highland Park brought his bride, Mildred Hinckley, of Detroit to the Methodist parsonage in this village for betrothal. Local witnesses observed the double ring ceremony performed by Rev. Wm. Richards, as the bride and groom were without attendants. The happy couple left immediately after the ceremony for their new home on the Seven Mile road which had been previously prepared for them.

DIED AFTER A BRIEF ILLNESS

The news of the death of Mrs. Cora Foster Tomeraasen was a shock to her parents, Mr. and Mrs. William Foster, and many Northville friends. Her death was due to an attack of pneumonia following a bad cold. The remains were brought to Northville on Tuesday morning on the 6:20 train, and funeral services were held at the family home on Dunlap street at four o'clock in the afternoon. Rev. Wm. Richards officiated.

Services were conducted by members of the Western Star, the deceased being a member of the order at her home city of Champaign, being a socialist matron.

The text was taken out of a very old Bible and portions read were very familiar to the deceased. The book being in the family since 1797. This old family Bible of Holy Scriptures was constantly used by her in the simple services to her congregation. In the beginning of grandmother Hastings and descended down to her great-grandmother.

Mrs. Tomeraasen was a woman of rare Christian character, an active member of the First Congregational church and a teacher in the church school in her home town. While the hour of the funeral was but generally known, friends surrounded the casket and to show in their sorrow how much and beloved the deceased to their late resting place in Forest Hill Cemetery.

The deceased was born in Chicago Ill., February 7th, 1866, and died at the age of 73 years. She was a sister of Mrs. F. E. VanAtta who was called to Charlevoix last week.

FARMS IN WAYNE COUNTY.

It may be interesting to know that on January 1st, 1925, there were 2,962 farms in Wayne county as compared to 2,958 on January 1st, 1920. The total number of acres was 190,706 as compared with 262,234 five years ago. We have woodland not pastured amounting to 27,111 acres. The value of the land and buildings for 1925 was given as \$61,728,207, as compared with \$57,763,530 in 1920. Last January there were 6,605 horses on the farms of Wayne county as against 10,316 for 1920. We had 12,637 dairy cows as compared with 18,013 for January, 1920. These figures are given out by the Department of Commerce at Washington representing the farm census.

Search Your Attic For Old Stamps

Fortunes Have Been Found on Old Envelopes

Many old stamps, both U.S. and Confederate, are worth from \$50 to \$1,000. The hobby of stamp collecting is of far greater importance nowadays than at any time past, when it was generally considered as a pastime for schoolboys only. Today, collectors eagerly seek out and pay huge prices for those stamps which are scarce to the point of being worth hundreds or even thousands of dollars. Last year in Paris a stamp sale one stamp of British Guiana was sold for \$32,500--this being the highest price ever paid for a single stamp. People who make a hobby of "grandfather's letters" do not realize they may be burning rare stamps, which if sold might make them rich.

Make a thorough search through attics and storerooms for old letters mailed from 1845 to 1870. Keep the letters if you wish, but send the envelopes (or folded letters) to Mr. Harold C. Brooks, Box 321, Marshall, Michigan. Mr. Brooks, who is master of 15,000, is a private collector, and is said to pay better prices than a dealer. During the past twelve years he has paid thousands of dollars for envelopes bearing old stamps, particularly in United States and Confederate stamps. He also collects patriotic and other flags, and is especially interested in the original flags of the Civil War.

Mr. Brooks' address is 1500 Main Street, Marshall, Michigan. He can be reached at any hour of the day or night. His telephone number is 321. He is a member of the American Legion Auxiliary, and is a member of the Michigan State Society of the Sons of Union Veterans of the Civil War.

STATE NEWS IN BRIEF

Owosso--With the remark, "I am so tired," George Basile, 63, years old, dropped dead at the dinner table. Basile had been ill for several days. Heart trouble was given as the cause.

Port Huron--The work of dredging a channel 25 feet deep from the Fort Gratiot light-house at the mouth of St. Clair River to a point a half mile north of the lighthouse of the Corsica Shoal is completed.

Grand Rapids--A rally of all engineers of the state at a spring meeting in Detroit is planned by the Michigan Engineering Society, which held its annual meeting here. The society is considering a geographical survey of Michigan by the government, the state paying part of the expense.

Lansing--Two to five years in the Detroit house of correction was the sentence imposed upon Mrs. Gretchen Cole, former leader in Lansing club activities and cashier of the Michigan Mortgage Investment company, after she had pleaded guilty to receiving \$3,000 from the investors.

Kalamazoo--International complications, including a direct appeal by British shipping interests to the American Department of State and controversies between the English and South Haven, have resulted from the arrival of the British freighter "Luton" at South Haven on Tuesday at South Haven with a cargo of English clay for the pottery mills of the Kalamazoo valley. The McLaughlin Company, owners of the McLaughlin Company, of South Haven, has orders for 900 sectional barges to be built at Miami, Florida, to be used in the Kalamazoo River. The houses are to be knocked down and will be shipped in the cargo of the steamship "Luton" (of Canada), which will be used for the construction of new buildings in the Kalamazoo valley.

The American Legion

Endowment Fund

for the

Disabled and Orphans of Veterans

The World War ended November 11th, 1918, for most of us. But the casualty list goes on. There are deaths of fifteen a day officially recorded, as due to war causes--and others not recorded. At such times we know that fifteen more have gone. "Dead on the Field of Honor," as surely as those who rest under the little crosses, row on row, in Northern France. Not mercifully killed in Action, but mercilessly scarred and maimed and tormented through years, going at last to a rest they have earned not in quiet times, but in the hard times. And the widows and the orphans are here in more numbers to-day than yesterday and more to-morrow than to-day.

So it is that the members of the Legion cannot forget about the war, and will not let America forget. Not so long as there is a disabled man who may be cured. Not so long as there is a soldier's orphan without a good American home.

The American Legion Endowment Fund, to help carry on this work is being raised by National, State and Local Committees on which mutual service is being given by public spirited men and women and by members of the American Legion and its Auxiliary Ladies.

You can help Northville go "Over the Top" with your donation.

A luncheon of sweet cider and doughnuts were served. Guests were present from Detroit and Pontiac.

A Hallowe'en party for the young people given by Rev. and Mrs. Carr Saturday evening at the church basement proved to be a surprise for the pastor and family in the form of a donation. They were well remembered with groceries, vegetables, and canned fruit. Mr. Charles Sturman the week before presented them with a nice young cow and a load of Alfalfa Hay.

New England's First Poet

The first poet of New England was Anne Bradstreet, daughter of Governor Thomas Dudley of Massachusetts and wife of Governor Simon Bradstreet. The first collection of her poems was published in London in 1650.

Heat and Humidity

High humidity makes heat more oppressive. Less vapor is evaporated from the lungs in warm damp air, thus humidity influences the processes of respiration. Respiration is more readily perceived in warm damp air. Such air is a great deal less durable than dry warm air.

GIGANTIC ALTERATION SALE!

FURNITURE, RUGS and HOME FURNISHINGS

Owing to the extensive building program we have undertaken we have decided to clean our floors of every piece of Furniture between now and January 1st. Active work has been started on our new building and this will be pushed to completion just as rapidly as possible. When this building is completed we shall then start to make changes and alterations in our present stores. The work of tearing out walls and partitions, plastering, painting, decorating will cause a great deal of confusion and no matter how careful we may be some of our goods will be damaged. To escape this condition we have "determined upon" this Alteration Sale and we want to close out our entire line.

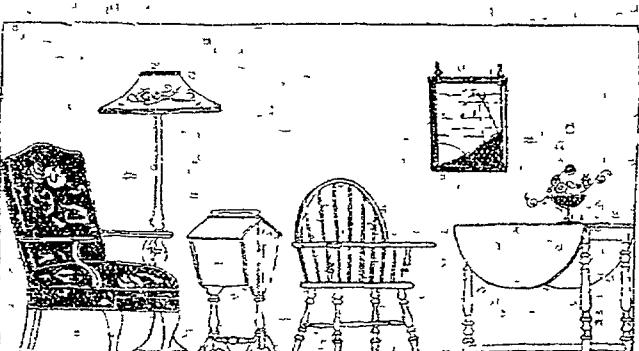

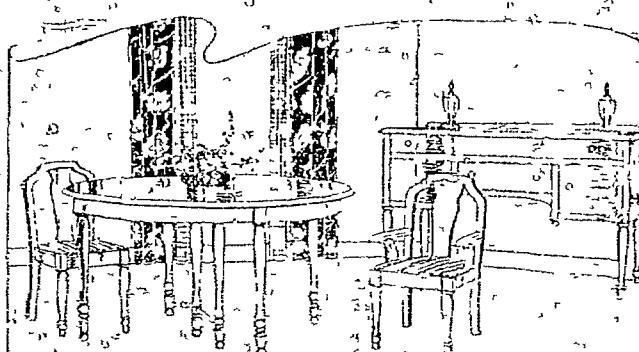

Every Article Offered at 20 Per Cent Discount

Included in this Gigantic Sale will be Every Piece of Furniture, Every Rug, Every Lamp—Everything New on Our Floors. Nothing will be reserved, and every item will be marked in plain figures—just as they always have been at this store.

You Can Figure Your Own Discount

Come in and look about. Select any article you desire. Look at the price tag and then figure your own saving—a discount of 20%. As the public is well aware, our price tags have always been marked in plain figures so our customers could shop for themselves. They are all in plain, understandable figures, so plain that any child can tell the selling price of any article we have. Not one price tag has been changed for this sale. If you desire any article costing regularly \$10, all you will have to do is to deduct 20% and you will get the article during this sale for \$8.00. Articles marked at \$25 will cost you but \$20, articles costing \$50 will cost you but \$40, and so on all through our stock.

BUY FOR CHRISTMAS NOW

EVERY ARTICLE WILL BE SACRIFICED.

Not a single article in our big stock will be spared in this price reduction. Everything Must Go so we may have the room for carpenters, masons, painters, electricians, decorators after January 1st. We have purchased nothing in anticipation of this big selling event. We have our regular stock, and all of it was purchased with no idea of making this sacrifice in price. When we fully decided to go forward with our building plans we concluded something must be done to reduce our stock. Thus our customers are offered this opportunity to save 20% on their Furniture Purchases, and that right at This Season when people are planning their Christmas Gifts.

Good Furniture and this store have become synonymous ideas in the minds of thousands, simply because at this store you are always sure of high quality, lasting beauty, correct style and exceptional value.

ALL RUGS GO IN THIS SALE.

High quality Wiltons, Axminster, Tapestries and other weaves at prices that can only more firmly establish our reputation for value-giving. More than 200 to select from. All are new fall patterns of beautiful designs and colorings.

THE BARGAIN TABLE IS ALL SPREAD FOR YOU--COME EARLY!

We invite you to partake heartily of the Feast of Furniture and Rug Offerings we have gathered for your inspection. We are very sure you will be delighted with the feast, because we are offering you an opportunity to satisfy your desires in High Quality Furniture and Rugs at Very Low Prices. Our regular prices are lower than the same articles can be purchased for elsewhere, and we are slashing the prices 20% lower during this sale. Spread the News—Tell your Friends—Come Yourself. Come early while the stocks and assortments are complete. Come and make your selections while the "picking" is at its best.

TO HOLD HEALTH CONFERENCE

Two thousand Michigan health officers and public health nurses have been invited to attend the ninth annual conference of health officers and public health nurses to be held in Lansing, November 18, 19, and 20, 1925. The conference is held under the joint direction of the Michigan department of health and the Michigan Public Health association.

Dr. George F. Dick of Chicago, discoverer of the toxin that causes the rash in scarlet fever, will be one of the main speakers, discussing the present status of scarlet fever control.

Diphtheria prevention will be the subject of a paper by Dr. Frederick Sears, district state health officer from Syracuse. A feature of this session will be the full call of all Michigan health officers and public health nurses to find out how many Michigan

children have been protected by toxin anti-toxin.

Dr. Clarence Cook Little, president of the University of Michigan, will be a guest of the conference addressing an open evening session on November 18. Dr. Little's subject has not yet been announced.

MISS DUNDAS ILL AT LANSING.

Miss Muriel Dundas, Oakland county demonstration agent, is in a hospital at Lansing with tonsillitis. Miss Dundas was taken ill while attending the first session early last week and was removed to the hospital.

At first it was thought she had diphtheria, but hospital authorities say now it is tonsillitis and that she is recovering. It is expected she will be home in a week—Pontiac Press.

BALKAN PEACE NEAR; LEAGUE IS OBEYED**Withdrawal of Greek and Bulgarian Troops Marked by New Fighting.**

Paris.—The council of the League of Nations in a short session, under the presidency of Mr. Briand received the official reports from the representatives of Bulgaria and Greece that orders had been given to their respective armies to cease all hostilities and withdraw behind their frontiers in accordance with the league's demands.

Latest news from the scene of the hostilities however, declare that the Greeks have been harpooned in their evacuation, by hostile and irresponsible groups of Bulgarian irregulars.

Briand congratulated the two countries on the prompt action already taken and launched into a panegyric of the league's handling of the situation.

This was almost immediately seized by Foreign Secretary Chamberlain of Britain and led to what might almost be described as an orgy of self-congratulation on the part of the members of the council, who voted in that speech of Briand and Sir Eric Drummond, the secretary general of the league for their prompt action in showing the world that when the council is called on by any nation, it is ready to take up its work of conciliation immediately.

London.—News of a fresh clash between the Greeks and Bulgarian forces reached London in the face of assurances from both Greek and Bulgarian representatives to the League of Nations that all fighting would cease and that troops are being withdrawn behind the frontiers of the two nations.

The news of the new outbreak of fighting was accompanied by charges and counter-charges between the Greeks and the Bulgarians. The Greek troops were attacked by the Bulgarians while the Greeks were in process of being withdrawn from Bulgarian soil and it is understood that the withdrawal will be stopped by the time being, fighting from both sides and never declared.

The article was made in London ten miles west of London, after the first battle set to begin on Saturday, according to latest reports.

Slayer of U. S. Agent Shoots Way Out of Trap

Chicago.—Matthew J. Doherty, slayer of Lieutenant James A. Bowler & Stimmons escaped into a police equipment and shot his way out again, running away. It is believed he selected a gun found in the departmental safe which escaped with his life because of the loyalty of his sweetheart, Mrs. Werner, who long waited between him and the gates of the police. Besides Doherty those wounded in the conflict were George H. Gutz of the detective bureau, Lloyd Anstis, uncle of the Warner women, Sergeant G. Rogers, who once through the force, Boston, who arranged the murder of the bad man, paid for his service by leaving \$1000 in the body.

Senator S. M. Ralston Left \$90,000 Estate

Indianapolis.—Senator S. M. Ralston of Indiana left \$90,000 estate, it was revealed when his will was filed for probate here. Of the total \$75,000 was listed as real estate and \$15,000 personal property, all of which was left to the widow and children. John C. Ralston, a son, was named executor.

Belegs Left \$40,000,000 to His Grandchildren

Milwaukee.—With the exception of a few specific bequests, the entire \$40,000,000 fortune of the late John Belegs, Milwaukee tractor magnate, is bequeathed in trust to the children of his daughter, Mrs. Richard McCulloch, St. Louis. Mo., it was announced at the office of the executor of the will here. Mrs. McCulloch has three children.

MRS. STILLMAN SUES BANKER FOR DIVORCE

Infidelity Is Charged by New York Woman—Husband Denies Allegations.

New York.—Mrs. Anne U. Stillman has off-hand begun a fight to win her freedom from James C. Stillman, Summons and complaint in an action for divorce on statutory grounds were served on the banker late this morning. It is believed that in taking the offensive against her estranged but still married husband, Mrs. Stillman will use against Mr. Stillman the extreme weapon of bigamy, which during his marriage to divorce her and legitimize Guy Stillman as the son of Fred K. Beaman, a French Canadian trapper. It was said that to win success, might be easier than the man introducing merely a certified copy of the record of the case is sure.

Mrs. Stillman was succeeded in her home at Grudeau, Quebec, with the rarest reverence by wife's maid.

The action will be tried in Westchester County. Mr. Stillman, it was said, has entered an answer to his wife's complaint, containing the usual denial of the allegations set up.

Following her husband's action five years ago, after a somewhat belated trial, Mrs. Stillman met the banker's

husband at a dairy show in Indianapolis, was sold to James E. Larroche, Detroit, Michigan. Mollie, who is five years old, is a granddaughter of Cedar Lawn Cemetery, Paul, who won the championship of the National Dairy show in 1920 and whose neck, chest and rump were chosen by the Holstein-Friesian association as typical of the true Holstein bull. In the 322 days that she was in milk last year, Mollie produced 12,904 pounds of milk and 571.3 pounds of butterfat. She is rated as of almost perfect dairy type.

My husband bought another blue ribbon back from the National Dairy show," Mollie said. Roamer, owned by James P. Thompson of Bay City, was shown the judges as the grand champion bull of the show.

OLIVE CHERRY TOP RURAL LIFE INVESTIGATION.

Oakland County has been selected as one of the 100 counties in the country to receive the first annual "Olive Cherry Top" award of Michigan State College. This will be given to the county which has the best record in the field of agriculture, health, education, recreation, and other rural activities.

A committee of 10 county agents, 1000 farmers, and 1000 private persons from all over the state will be selected. The money in each district will be used to encourage the growth of local industries, and to help in the development of the community. The award will be presented at the end of the year.

One feature of the competition, probably the most important, is the "Agricultural Survey," where all the farms in the community are to be visited and much information collected.

On the basis of the findings of the survey practical methods for community organization will be suggested to the benefit of agricultural extension workers and local community leaders.

TAKLAW'S TAXI THE LARGEST THAN EVER BEFORE.

Oakland County will raise a property tax of \$2,121,525.67 for the state, county and county road tax. This is the largest sum of money ever levied by the state, county and townships in the history of the county.

—The huge sum will be apportioned on the basis of the new valuation of \$295,505,000 given the county by the state tax commission when it came here October 29th on the petition of Supervisors R. Y. Moore of Bloomfield, John O. Salmer of West Bloomfield and Washington E. Irish of Independence township. It will be collected however, on the valuation of \$215,150 fixed by the supervisors at their July session. The valuation of \$295,505,000 is compared with \$189,131,231, the valuation on which last year's tax was spread.

This year the county will raise \$596,071.05 for the state tax, as compared with \$427,941 in 1924. \$236,424 for the county road tax as compared with \$152,500 and \$1,589,337.79 for the county tax as compared with \$1,231,526.97. The county tax includes the county's share of the Covert road costs, which this year amount to \$345,767.17.

Included in this year's budget are two large overdraws from the past year—\$33,000 in the temporary poor fund and \$58,000 in the general fund, both of which funds were exceeded during the last 12 months. The supervisors included in the budget \$161,664.36 as a three-quarters of a mill tax to apply on the cost of building the Infirmary and Confinement Disease hospital and the further sum of \$21,581.02 as a one-tenth of a mill tax, also to be used for new buildings.

TO HOLD HEALTH CONFERENCE

Two thousand Michigan health officers and public health nurses have been invited to attend the fifth annual conference of health officers and public health nurses to be held in Lansing November 18, 19, and 20, 1925. The conference is held under the joint direction of the Michigan department of health and the Michigan Public Health Association.

Dr. George F. Dick of Chicago, discoverer of the toxin that causes the rash in scarlet fever, will be one of the main speakers, discussing the present status of scarlet fever control. Diphtheria prevention will be the subject of a paper by Dr. Frederick Sears, district state health officer from Swartzendruber. A feature of this session will be the rôle call of all Michigan health officers and public health nurses to find out how many Michigan

children have been protected by toxin anti-toxin.

Dr. Clarence Cook Little, president of the University of Michigan, will be a guest of the conference addressing an open-evening session on November 18. Dr. Little's subject has not yet been announced.

MRS. STILLMAN SUES BANKER FOR DIVORCE

Infidelity Is Charged by New York Woman. Husband Denies Allegations.

New York.—Mrs. Anne U. Stillman has at last begun a fight to win her freedom from James A. Stillman—Saximous and companion in an action for divorce on statutory grounds. She was served on the banker more than a month ago, it was learned.

In taking the offensive against her estranged but not divorced husband, Mrs. Stillman will use against Mr. Stillman the evidence which she has been gathering with care to divorce him. And, it is anticipated, Mrs. Stillman's son, Frank, Belgian Princess-Catalina Indian guide, will be used to witness this fight, because he has given his mother copies of the record of the famous suit.

Mrs. Stillman was succeeded in her hearing at Grande-Anse, Quebec, with the shortest telephone line miles distant, in action which she tried in West Chester County.

Mr. Stillman, it was said, has entered an answer to his wife's complaint, containing the usual denial of the allegations set up by his wife.

Fighting her husband's action five years ago, after a short stay at Harvard, Mrs. Stillman's banker

OAKLAND COUNTY SUPERVISORS
INCREASED SALARIES OF COUNTY OFFICERS

The members of the Oakland county board of supervisors voted to increase the salary of several county officers last week. The two circuit court judges, the probate judges, and the chairman of the board of county auditors were each given a boost of \$2,000. The prosecuting attorney was allowed \$1,500 for expenses in addition to his salary of \$4,000, and the two members of the board of auditors were made full-time employees with a salary of \$3,500 each.

The supervisors are considering the purchase of a new site for a new county office building. The matter came to a vote Monday afternoon on a proposal to buy real estate on Wayne street, a corner of the old jail property on the spot, for \$4,000. It received a majority vote, 18 to 11, but not the necessary two-thirds. It will be brought up again during the session on a motion to reconsider.

NIGHTINGALE BEATS CHAMPION COW.

Michigan became the home of the champion Holstein-Holstein cow in America when Mollie adjudged the best cow of her type by the judges of the National Dairy show held at Indianapolis. She was sold to James E. Larroche, Detroit, Michigan. Mollie, who is five years old, is a granddaughter of Cedar Lawn Canary Paul, who won the championship of the National Dairy show in 1920, and whose neck, crest, and rump were chosen by the Holstein-Friesian Association as typical of the true Holstein bull. In the 322 days that she was in milk last year, Mollie produced 12,964 pounds of milk and 511.9 pounds of butterfat. She is rated as almost perfect dairy type.

Michigan also brought another blue ribbon back from the National Dairy show. Straightglass Reamer, owned by James E. Davidson, of Bay City, was chosen by the judges as the grand champion—sure bill of the show.

OAKLAND CHOSEN FOR RURAL LIFE INVESTIGATION.

Oakland, Mich., has been selected as the place to live in the state where a rural census is to be taken on Oct. 15. It was made by the department of agriculture, Michigan State College, by H. P. Larson and J. F. Tamm, who are now here to direct the work of all agents engaged in the investigation, particularly in the rural life. The work of investigation is to be done in October, and its purpose is to find out what is being done in the way of financing, if the business border is in and what is being done with agricultural and residential.

One important objective probably Waller Lake, is to be selected for interpretive surveys. These and the farm-homes of the country are to be visited and much and varied information collected.

On the basis of the findings of the survey practical methods of community organization will be suggested to the benefit of agricultural unions on workers and local governments to help organize them.

GARLAND'S TAXES ARE LARGER THAN EVER BEFORE.

Oakland county will take a December tax of \$242,85.57 to the state, county and county road tax. This is the largest sum of money ever taken by the supervisors in a year and represents an increase of 10 per cent over the budget of \$87,934.90.

The huge sum will be apportioned on the basis of the new valuation of \$295,800,000 given the county by the state tax commission when it came here October 20th on the portion of supervisors R. Y. Moore of Bloomfield, John C. Sainer of West Bloomfield and Washington E. Irish of Independence township. It will be collected, however, on the valuation of \$215,119,150 fixed by the supervisors at their July session. The valuation of \$295,800,000 is compared with \$189,121,231, the valuation on which last year's tax was spread.

This year the county will raise \$50,071.08 for the state tax, as compared with \$45,941 in 1924, \$236,424 for the county road tax as compared with \$153,000 and \$1,589,357.79 for the county tax as compared with \$1,221,526.91. The county tax includes the county's share of the Covert road costs, which this year amount to \$345,767.17.

Included in this year's budget are two large overdues from the past year—\$67,000 in the temporary poor fund and \$55,000 in the general fund, both of which funds were exceeded during the last 12 months. The supervisors included in the budget \$161,864.36 as a three-quarters of a mill tax to apply on the cost of building the Infirmary and Contagious Disease hospital and the further sum of \$21,581.92 as a one-tenth of a mill tax, also to be used for new buildings—Pontiac Daily Press.

FROM OFFICE BOY TO GENERAL MGR.

Salary Increase Comes With Promotion

Chicago, Sept. 3.—After a careful survey of the entire labor situation extending from office boy to president, indications are that positions showing increases in salaries require experience help.

Consulting the president of one of our largest industries, he writes inquired regarding the rapid success of a certain young man who had become general manager and who a few years ago was but office boy. His answer was drawn straight as office boy, he was ambitious and intended to purchase a typewriter on monthly payments and after three weeks of practice at home he was promoted to bill clerk, which position gave him knowledge of the selling price of all merchandise. His next advance was that of typist, which taught him the numerous forms of letter-writing and enabled him to hold a stenographic position giving him complete knowledge of letter-writing. He was then made secretary bringing him into contact with all business details and qualified him for the general manager's office at ten thousand per year.

The same opportunity awaits every young man and woman. Education or age have nothing to do with operating so simple a machine as the typewriter. We are informed that a great piece of benevolent work is being carried on by a large Chicago mail order house in furnishing typewriters to people worthy of credit by selling on small monthly installments, so low as to average about eight cents per day and finally teaching their customers how to use and operate a typewriter in about three weeks' time.

You can get other information by writing THE NATIONAL TYPEWRITER EXCHANGE, 14 W. Lake Street, Chicago, Illinois.

WESTERN STATE NORMAL TO HAVE HOME COMING.

Alumni of Western State Normal in this vicinity will start Kalamazooward this weekend for the annual homecoming of their alma mater Saturday.

Chief of the events that concern them on the Kalamazoo Normal campus will be the football game with Central Michigan Normal of Mt. Pleasant, which is expected to decide the state normal college championship. The two schools have not met in football since 1912 and Sunday's game will know the 13th or a lot of peeling.

It follows Mr. Pleasant's objection to the Kalamazoo school's claim to the championship a year ago.

The home coming day program also includes an alumni banquet and an elaborate party in the evening. The day is in charge of the Student Council and the "W" club.

"Sophomores"

The term "sophomore" used for students in their second year of college or high school is a corruption of the earlier "sophomore" due to the supposed derivation from two Greek words, one meaning wise and the other meaning foolish, referring to the first year of college.

TWENTY-FIVE YEARS AGO

Items taken from The Record files of 1899, for the week corresponding to this week.

In order to accommodate their rapidly increasing business, the Dubois Manufacturing Company are erecting an addition to their plant 40x80, reducing dimensions and three stories high, which will be pushed to completion.

The football game between the Ypsilanti team of Pontiac and the Northville big team which took place here last Friday afternoon was the best game played this season. Northville side was able to score.

Mr. and Mrs. Mill Brown are visiting relatives and friends in Howell and Lansing.

Hallowe'en was generally observed by our Young America, and the observance included the exchange of horse blocks, signs, etc., to the slight convenience of the owners on Thursday morning.

Peanut culture is a new thing in this country and Harry Clark has made a very successful experiment harvesting about one bushel from a small acre of ground. The nuts are of good size and equal in flavor to any on the market.

And now Northville has an automobile right here at home. It carries five boys, and the power is generated in the arms of the one who sits on the seat. In the rear of the machine it does not appear to be capable of attaining a very high rate of speed but shows what a boy can do when he splits his busy-splitting wood, carrying in coal or helping his mother take care of the baby.

Helelt McFarlin has purchased a new traction engine and is now preparing to husk corn, cut ensilage, cut and shred corn fodder, saw wood, etc.

Mr. McFarlin has a good machine and knows just how to do the work right.

These High school pupils have not been absent nor tardy this year.

FIFTH WOMEN'S DAY STATE PROGRAM

A most colorful and attractive

group of Michigan rural

women is expected to result from plans made at the meeting of state home demonstration leaders held at the Michigan State College on Friday October 29th.

There were 100 women in confer-

ence at the meeting, representing the

100 lead-up clubs in 100 counties of

the state. These women under the

general direction of the home economics

department of the Michigan State

College are responsible for the

home demonstration work in the

state.

Speakers of local note and national

repute were invited to address the

gathered group on the importance

of the home demonstration work in the

state.

Miss Florence M. Edwards, Mrs.

Ward, U. S. Commissioner of Agriculture, Washington, Mrs. Estelle Bicknell, former representative from Camden, N. J., Mrs. Dora Stockman, member of the

state board of agriculture, R. I. Hall

and director, Michigan extension

work, Dr. T. R. Shaw, of the

agricultural division, the Michigan

State College were leading speakers.

Mrs. Louise H. Campbell, state leader

of home demonstration work on Lake

Michigan, Mrs. Anna G. Johnson, pres-

ident of the state home demonstration

leadership, Mrs. Dora Stockman, mem-

ber of the state board of agriculture, R. I. Hall

and director, Michigan extension

work, Dr. T. R. Shaw, of the

agricultural division, the Michigan

State College were leading speakers.

Counties represented by especially

large delegations were Kent, Liv-

ingston, Genesee, Monroe, Wayne, Oak-

land, Lenawee, Eaton, Clinton, Was-

tanaw, Hillsdale, Branch, Parry, Ottawa, Jackson, Allegan and

Kalamazoo.

More complete coverage of the state

with the educational work in home

making with its resultant important

benefits to the rural housewives of

Michigan is expected to follow the

meeting. It was the fifth annual

rally day for the home economics

leaders.

GRANGE OPPOSED TO GOVERNOR'S PLAN.

Governor Groesbeck made a suggestion a short time ago that the counties

of the state relinquish their right to

long past due highway rewards per-

mitting the enterprise, estimated at

\$10 million dollars, to be used on the

general state wide road program.

Eaton county has in the neighborhood

of \$86,000 still due from this source.

The State Grange at Adrian last

week went on record against the sug-

gestion and thus for the counties seem

opposed generally to the plan.

The governor's plan is, in my opinion,

merely his own personal idea of ad-

vancing the state program as a whole.

Gus Garcez of Bay City was the guest of honor and he told in a very interesting and convincing way the needs of the American Legion for an endowment fund. During his remarks he related in complimentary terms to some of the "boys" who were gathered at the tables—S. H. Bryan, C. E. Langfield, and T. M. Gillispie. He stated that Northville's quota had been placed at \$150 and expressed the belief that this community would go over the top.

Dr. and Mrs. G. G. Burgess of Detroit entertained twenty-one guests at dinner at the Detroit Golf Club Sunday, November 1st. YANK SHOT WHILE FIGHTING CHINESE

Mother of Morgan Palmer Tells Story of Son's Fate

Harbin, Manchuria, Morgan Palmer, the American who was killed by Chinese bandits at his ranch on the Sungari river last month, met death while staging a warlike demonstration intended to frighten away the bandits.

This news was brought to Harbin by Palmer's mother and the son of Dr. Mayey J. Howard, of the Rockefeller hospital in Peking, who were at the ranch at the time Doctor Howard, who also was visiting Palmer, was captured by the bandits and still is held for ransom.

Mrs. Palmer, relating the details of the fight said her son, rising early on the morning of July 20, declared he must go to take guns and go to his ranch to see the bandits, he was assured for them in they should attack his ranch. Doctor Palmer had intended to take a river steamer for Harbin that day but joined Palmer's party with his son. The others were a Russian chauffeur, Palmer's Chinese servant and a Russian boy.

Arriving at the village adjacent to the bandits' stronghold, the party got out and sent the car back for reinforcements but the Chinese guard in the village refused to accompany the party.

Harold Baldwin, Palmer's ranch manager, returned with the chauffeur and tried to prevent further advance,

knowing the bandits were well armed and mounted.

Dr. Howard Surrenders

Palmer, however, insisted on going on. He led his party to a ruined temple four miles from his ranch and midway between two villages. Baldwin climbed to the top of the temple to reconnoiter. Palmer, Doctor Howard and the Chinese and Russian boys entered a nearby cornfield while young Howard remained alone in the car from the top of the temple. Baldwin saw the bandits mount and prepare to make a sortie. He descended and started the gun in pursuit of Palmer and his group and at the same time the bandits made a move to cut off their retreat. Baldwin, who had been ordered to protect the party, who from the ground heard the continuous crackling of running fight rifle muskets, dashed for the ranch. He reached the ranch and took up his position in another group of the bandits. Doctor Howard, who had been told the bandits had captured Palmer, fled from the scene.

After this, Baldwin went to the ranch and demanded money and supplies. The arduous task of getting the bandits to give up their hold at close range and then killing the Chinese boy in a sudden way.

Bandits flee from town

Morgan Palmer's body was recovered and buried under a great oak near the ranch house, together with that of the Chinese boy. Tom Palmer held a funeral service at the funeral.

Doctor Howard's efforts crossed the Sungari river to the efforts of Chinese troops to encircle him and now are believed to be in the Kirin province of Manchuria.

Samuel Selsdon, American consul at Mukden; Howard Brown and Roger Greene, business director of the Middle Eastern hospital, are continuing at Fushun pending efforts to locate Doctor Howard and bring about his release. Fushun is 479 miles from Harbin and 20 miles from the Palmer ranch.

Niagara Falls Is Not

Losing Its Scenic Splendor

Toronto, Can.—Despite erosion of the crest of Niagara falls, said to be at the rate of five feet a year, P. W. Ellis, chairman of the Queen Victoria Niagara Falls Park commission, expressed the opinion that there is no immediate danger of its losing its scenic splendor.

Mr. Ellis, commenting on the statement of Herbert C. Hoover, United States secretary of commerce, that the falls are "committing suicide," said that methods of preventing the erosion are known. He added that it was probable that the United States and Canada would soon take up the problem and so distribute the flow of water that erosion would be reduced.

WINTER AND Radiator Protection

Glycerine and water is undoubtedly the best solution to prevent freezing of automobile radiators in low temperatures, and, while comparatively new to the general public, it has been used with marked success and satisfaction for a number of years.

Some of the Proved Advantages are:

1. Glycerine will not evaporate at maximum radiator temperatures, therefore the solution will remain at full strength throughout the winter.
2. Glycerine is practically odorless and non-volatile, therefore in using this solution there are no disagreeable odors or unpleasant volatile vapors.
3. Contrary to the opinion of some actual test shave proved glycerine to be less injurious to rubber hose connection than plain water.
4. Mixtures of glycerine may become slushy at extremely low temperature but rarely solidify and expansion is very little, i.e., Glycerine frozen in a glass tube at 97 degrees below zero failed to expand enough to crack the glass.

ALCOHOL

DENATURED, (188 PROOF) HIGHEST TEST

Contains no benzol or other injurious ingredients. Beware of denatured alcohol containing benzol which tends to injure rubber connections.

No Corroding nor Electrolysis as from

Salt Solutions.

No Rotting of Rubber Parts.

While the government authorizes the manufacture of denatured alcohol as low as 160 proof (test), do not forget it is alcohol and not water that prevents freezing.

We can tell you the capacity of your radiator and would be pleased to recommend the correct mixture to prevent freezing.

TRIBUTE OUT OF DATE.

The right to own and operate a coal mine, and the right to work or not to work as a stated wage, may both be God-given. But the fact remains that this country is too big and too versatile to be wrecked by either side in a coal strike. There are other fuels, other workers, other capital, that will work just as well or better. The day of strike or lockout to force the public to overpay a tribute of ransom is getting well past. Manufactured gas is rapidly taking the place of coal in home and factory, while the electrification of railroads will help eliminate the coal shortage fears of transportation companies and shippers.

OFFER BIG REDUCTION IN FURNITURE PRICES.

Right now at the height of the furniture buying season Scarader Brothers announce a gigantic stock reduction sale of everything in their immense stock of furniture and home furnishings. This action was prompted by the fact that the extensive building program which they now have under way makes it necessary to reduce their stock to prevent its being damaged during the remodeling of their present building. Rather than wait until spring and then take a loss of all pieces that might be damaged by workmen they decided to give the public the benefit of the reduced prices before the holidays.

Nothing will be reserved. Every piece of furniture, all rugs and coverings will go in this sale at a reduction of 20 per cent from regular prices, and as it has always been the policy of this well-known store to mark all goods in plain figures it will be very easy to figure your savings on any article you may select. Look at the price tags and then figure a discount of 20 per cent and you will have the present selling price.

The two big store and basement are full and stacks of goods are in the warehouse unpacked. All this goes in the big sale. Could you ask for a greater buying feast before Christmas?

CIVIL SERVICE EXAMINATION FOR RURAL CARRIER AT WIXOM.

The United States Civil Service Commission has announced an examination to be held at Northville, Michigan to fill the position of rural carrier at Wixom, Michigan, receipt of applications to close December 2, 1925 and vacancies that may later occur on rural routes from that post office. The salary of a rural carrier on a standard daily wagon route of 21 miles is \$1,800 per annum, with an additional \$50 per mile per annum for each mile or major fraction thereof in excess of 21 miles. The salary of motor routes ranges from \$2,450 to \$2,600 per annum according to length. Form 1977 and application blanks may be obtained from the post office mentioned above or from the

United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington, D. C. at the earliest practicable date. At the examination applicants must furnish unmounted photographs of themselves taken within two years.
