### CAUGHT WITH THE GOODS

A man and a woman, supposed to be husband and wife, giving their names as Mr. and Mrs. Alex Kiseneki of Detroit, have been under suspicion by people residing on the Fisher's road for some weeks. They had been seen to make frequent trips along the highway, and they appeared again on Monday at the Starkweather farm. Local officers were notified and Deputy Sheriff Erie W. Kyler hurried to the farm and found the man and woman and their car. The fellow was placed under arrest on suspicion and as the officer made an effort to search the car for booze both the man and woman pitched into him and succeeded in breaking many of the quart cans in which they had white male.

Kiseneki was brought to the village and was arraigned before Justice C. R. Ely upon the charge of transporting liquor and he was fined \$50 and costs, amounting to \$75, which he paid. If people would co-operate with local officers as they did in this case the number of booze peddlers would soon be reduced.

### GEORGE VAN SICKLE DIED SUNDAY MORNING

George VanSickle, a pioneer of Salem township, died very suddenly at his home on the Salem road Sunday forenoon. He had not been ill in fact he was about as usual and ate his meal. In the morning, according to the house he complained of not feeling well but within a short time he declared he felt much better. He was left alone in his room that night but soon those in the house heard a strange noise and going to his room found him dead on his bed. Mr. VanSickle was born in Salem township September 1st, 1843, being 82 years old at the time of his death. His whole life had been spent in Salem. Funeral services will be held this afternoon at two o'clock in his home. Interment will take place at the Thayer cemetery.

The members of the Legion and the business men who have assisted in the drive are very grateful to all who have responded to this very worthy call for financial assistance.

### OLD NEIGHBORS' REVIEW OLD FRIENDSHIPS.

The Friendly Neighbors held a reunion and surprised Mrs. Catherine S. Gibson with a pot-luck dinner Wednesday, November 11th. They presented Mrs. Gibson with a pot of Chrysanthemums. This society had not met before for nine years and the following ladies were present: Mrs. Fred Steinable, Mrs. Lucy A. Smith, Mrs. Ada S. Murray, Mrs. F. L. Becker, and Mrs. Albert Ebersole of Plymouth; Mrs. L. Van Valkenburgh, Mrs. Milford Baker, Mrs. Ada S. Johnson and Mrs. Robert Gibson of Northville. It was unanimously voted to re-organize and Mrs. Becker invited the society to meet with her in December.

Mr. and Mrs. Edward Elliott of Detroit spent Sunday with Mr. and Mrs. Harry Elliott.

### SON KILLS HIS FATHER IN SALEM LAST SUNDAY

Sunday forenoon someone went to the farm of Wm. Mager, near Frazee lake in Salem township, and shot and killed Mr. Mager. Officers believe that a son of the farmer, Harold Mager, aged 25 years, committed the crime.

According to information given by the lived man, Clifton Adams, Harold Mager drove to the farm Sunday morning and asked excitedly for his father who was in the barn. A few minutes later, he heard two shots fired. The officers found where one had gone through the barn door and blood on the barn floor indicated the other had taken effect.

After the shots were fired the man said he saw the younger Mager drive his car around to the barn door and a little while later he left. The man then went to the barn, found the blood stains and called the officers.

Deputy Sheriffs W. H. Safford and Ernie Lyke of this place were called on the case Sunday and spent the day searching that section.

Tracks of the car in the newly fallen snow enabled officers to follow the car to a clump of bushes near McCormack lake where the machine stopped. Behind the bushes officers found blood stains, but no body. The tracks went on from there to the main highway where they were lost.

Checking up upon Harold Mager's activities in just few days the officers found he had left his last rooming house, 211 E. 11th street, Ann Arbor last Friday. The family did not know where he moved to when he left their house. The license number of the car he hired was that of the car which Mager was driving when apparently wrong. The car was issued to Charles Mead Jr., Adison, Michigan, who can be traced in South Bend long time ago.

Quarrels between members of the family arose over the desire of the son to do given part of the 350 acres of land the old Mager owned which informed the officers. Three years ago the separated for one of the two farms and the father returned to Detroit and the son and two daughters, Mrs. Lucy, Mrs. Anna, Mrs. Mager, died for about a year and died before the son was married. Since then the son had attempted to different things in vain. His father, however, continued living until after quarreling with him. They had quarreled before the son left Seneca a week ago.

The old Mager was born February 18, 1848, in Salem, and was a widow for nearly all his life and was nearly 80 years old.

Frank Boyle, deputy coroner for Saginaw, followed the tracks of Mager's automobile 19½ miles

covered that at one spot the tracks of the roadway had been disturbed and were bloodstained. Other tracks Boyle reported tended to indicate that the boy had at first abandoned the body and driven away, but had come back to return and carry his dead with him in his flight.

Young Mager was arrested Monday evening about eight o'clock by Officers Maurice Miller and Herman Olsendorf of the Ypsilanti police force after Mrs. Anna Dexter Gray called police to report that a man had been sitting in an automobile near their home since six o'clock in the evening. She had no idea who he was as neither she nor Mr. Gray had questioned him.

Driving out to the Gray farm, just north of Ypsilanti, the officers found the machine parked near a small woods. Mager was sitting huddled up in the front seat. When Officer Olsendorf opened the door of the car and asked him his name he readily admitted he was Harold Mager. He was taken to Ypsilanti and later turned over to the county officers and taken to the county jail at Ann Arbor.

In the back seat of the car were his trunk packed with his clothing and a .32 revolver which was empty. Preliminary investigation failed to reveal any traces of blood on the machine which was taken to Ann Arbor where it will be more carefully examined.

Mager wore a cowhide coat, was spattered with mud, haggard and hollow-eyed. The officers who saw him believe that his mental condition is not feigned. His mind seemed to wander, and he talked incoherently of events which had transpired years ago.

## FOUGHT THE ALABAMA

John Young, of Washington, sole survivor of the historic naval battle between the U. S. S. Kearsarge and the Confederate ship Alabama off the French coast in 1864, has just celebrated his eight-second birthday. He was one of the three men on board the Kearsarge wounded during the engagement but is still full of life and hearty despite his years.

## MUSSOLINI HALTS MOB SEEKING VENGEANCE

### Three Held in Plot to Assassinate Premier

Rome—Premier Mussolini, who had a narrow escape from assassination, subdued a vast crowd of his followers who were determined on summary vengeance.

"You must stay. I wish it," cried the premier when there were instant shots for revenge.

And the crowd, which gave Mussolini the greatest demonstration in his career, became quiet.

Following the discovery of a plot to slay the premier on the day in which Italy was joining in the celebration of the allied victory in the World war, it became known that the police had arrested Elio Zaniboni, former socialist deputy, Gen. Luigi Capello, a Wilsonist, and Giuseppe Quagliari, former Socialist, to Zaniboni and a editor of Popoli, orson of Don Stanzo, leader of the Catholic Democratic party. It is known as one of the important leaders of the Lega.

The newspaper organ of the anti-pacifist party have been suppressed and in Milan lodges have been raided until further orders. Other important arrests are expected soon.

Efforts to place responsibility for the plot on the Communists, when it was learned that the attempt was the outgrowth of a secret meeting of Socialists, Catholics, Democrats, Socialists, and Masons all in a plot against Mussolini.

The police declared that Zaniboni had started a room off the level with the balcony from which the premier would speak. The police followed Zaniboni and when they seized him they said they found in his possession a sharp-shooter rifle.

### French Franc Is Lowest Since Big Break in 1924

New York—Pounded down by the efforts of Frenchmen to convert their wealth into reliable currencies, the French franc sold for 399½ cent, which brought it slightly below the value of the Italian lira, now to the lowest point it has touched since speculators drove it to 330 cents in March, 1924.

The bulk of the selling of francs, which is taking place in Paris and London rather than New York, comes from French interests distrustful of the franc's future.

### Dr. S. Dickie, President Emeritus of Albion, Dies

Albion, Mich.—Dr. Samuel Dickie, president emeritus and connected for almost half a century with Albion college, died suddenly at his East Erie street home here. No person has had a larger part in shaping the destiny of Albion college than Doctor Dickie. In 1888 he became the national chairman of the Prohibition party and served in that capacity for 12 years during which he stumped the country for the dry cause.

### Lawyer Must Pay 6 Cents to the House of David

Chicago—By direction of Judge C. E. White a jury in the Circuit court at Benton Harbor, Mich., returned a verdict of 6 cents in the suit of the House of David against Attorney Jerome Robbins of Chicago. The plaintiffs sued for \$100,000, alleging that the attorney blackmailed them.

### New Zealand Drys Beaten

Wellington, N. Z.—Prohibition is becoming more unpopular in New Zealand. In the referendum on the question the Prohibitionists have been defeated by 29,000 votes, a majority 11,000 greater than that of 1922.

### THE WOLVERINES WIN OPENING GAME.

The Wolverine Athletic club won its first game on the home field Wednesday afternoon. They defeated the Lincoln Park merchants from Detroit, a snappy team well-known in the city, by a six to two score.

The teams were about evenly matched, each team averaging about one hundred and seventy pounds on the line. The first three-quarters were played with both teams fighting hard but neither scoring until the last of the third quarter when the Wolverines crossed their opponents' line for a touchdown, resulting from a forty-five yard forward-pass, Wood to Daudt.

Other features of the game were a trick play, featuring a hidden pass, Wood to Caruthers, who tramped around the Merchants' left end for a forty yard gain, and Stevens' smashes through left tackle, which netted many gains to the home team.

The Wolverine defense was featured by Brainerd, left end, who rounded the Merchants' end and set them back for losses a number of times. Uster and Miller, tackles who were in on every play, and Coach Miller of Northville, right guard who presented a stone wall to the smashes of the opposing team, Reuman played a good game at center tearing through the Merchant's line and tackling their backfield. Papa Wood, quarterback, used his head in running the team and Smith played a good game at guard stopping the Merchants' smashes through his position.

The Merchants gained their points when the Wolverines intercepted a pass on their own two-yard line, and downed the ball back of their own goal rather than take a chance of losing the ball through a fumble or blocked punt.

**NORTHVILLE HAS A NEW ATHLETIC CLUB.**

The Wolverine Athletic club has been organized for the benefit of the people of the surrounding towns who are interested in athletics but have no chance to compete in game.

It is our hope to organize and run a club where the young athletes who have graduated from High school, and any one interested in athletics can come and take part in various games and enjoy good, clean sport.

There being no YMCA or other athletic organization in any of the surrounding towns, we cannot help but think that this club or organization will succeed if we can get the support of our townsmen.

There are a great number of young men from Northville and Plymouth who are interested in the organization and some older citizens who are quite willing to give it their support.

We sincerely hope to gain the patronage

of the public and the support of the merchants and townsmen.

There has been some very generous offers made by some of the merchants of Northville and Plymouth for the boys if they will organize and run a good club and put out noble good teams, and the boys on their part will make every effort to give their supporters

their money's worth.

We shall charge very reasonable admission fees to our games and athletic exhibitions and will give the public the best we have.

Our aim is to find some room or building in which we can equip a gymnasium and a basketball and tennis courts in branches of sport.

We hope to invite boys in football, basketball, base ball, track and field.

We also will run boxing and wrestling teams. We hope to have classes in physical training and a gymnasium belonging to the club, access to the gymnasium.

We have a wide and varied field of material to pick from and should be able to put out some very good teams.

This club has been organized on the principle of clean living, and clean sportsmanship and we hope to be of real benefit to our community by giving the public a source of entertainment through good, clean athletic competition and developing stronger, healthier better citizens of our members.

We now have an enrollment of about thirty-five members and there are many more who are anxious to join us.

The officers who have been chosen to take charge of the organization, are as follows:

Harold Stevens of Plymouth, president;

Leeland Daig of Plymouth, vice-president;

Russell Reiman of Plymouth, secretary and treasurer; and James Wood of Northville, athletic manager.

We wish to announce our next football game on the home field which

will be played at Northville on November 22nd, with the Park Clothes team of Detroit.

We play the River Rouge next Sunday, November 15th;

Park Clothes of Detroit at Northville on Sunday, November 22nd; Wayne County Good Roads at Wayne on Thanksgiving; November 26th, and

Saint Maria's of Royal Oak on November 29th.

JAMES WOOD,  
Organizer of the Club.

### J. WALKER ELECTED MAYOR OF NEW YORK

*Tammany Candidate's Plurality Over Waterman Put at 400,000.*

New York—Gov. Al Smith and Tammany Hall won a big victory when the Democratic candidate for mayor of New York City, State Senator Jimmy Walker, was elected by an overwhelming vote and virtually the entire city government passed into Tammany control.

Walker won by a large majority over the combined vote of all opposition and by a plurality over the Republican candidate, Frank D. Waterman, the millionaire fountain pen manufacturer, exceeding 400,000.

To complete the triumph of Smith, he states voted in favor of all of the proposed amendments to the constitution which the governor advocated.

The Republicans retain control of the state legislature, but in New York City few Republican candidates survived the Democratic landslide. Most prominent of these few is Mrs. John E. Pratt, silk stocking candidate for alderman in a Fifth avenue district.

Mrs. Pratt, who is the daughter-in-law of Standard Oil magnate, defeated the son of former United States Senator James A. O'Gorman by a plurality of 2,600. She will be the first woman to sit on the board of aldermen.

With Walker, there were swept into

the entire Democratic city ticket and the Democratic borough and judicial tickets.

District Attorney Joab Bannon of New York County, Democrat, defeated former Gov. Charles S. Whitman, whom Republicans nominated for the office of public prosecutor, which he once held, and in which he made the reputation that sent him to the executive mansion in Albany a decade ago.

### G. O. P. Wins Municipal Elections in Indiana

Indianapolis.—Republicans won sweeping victories in municipal elections in Indiana at the climax of a campaign regarded as a trial heat for state elections next year at which two United States senators will be chosen.

Their candidates for mayor were successful Indianapolis, Terre Haute, Evansville, Fort Wayne, Lafayette, Greencastle, Peru, Kokomo, Frankfort and Jeffersonville, and in all of

these cities but Indianapolis the Republicans' victory ousted Democratic administrations which have governed the city for four years.

In Indianapolis John R. Dugay, Republican, won the mayoralty which will be vacated by Mayor Lew Shantz, but his margin of victory was a bare seven or eight thousand votes over Walter Myers, Democrat.

### Wet Democrat Elected Governor of New Jersey

Trenton, N. J.—Commodore Harry Magruder, of Jersey City, Democrat and wet, defeated State Senator Arthur Whitman, of Mendham, Rep. political and dry, for governor of New Jersey by a plurality of 11,000 votes.

The successful candidate won his triumph easily on the platform theme singeing the major of the state road law and the New Jersey state road law enforcement bill.

Commodore Magruder announced immediately after his victory, as soon as he could begin, that he will take complete control of the state to prevent the introduction of state law legal wine, gin, beer

and some of烈酒 wine, and beer.

### Warder Murphy's Gold Mine

By JAMES F. DWYER

(Copyright)

WARDER MURPHY ground his rifle and looked dreamily across the ten-acre patch of vegetable garden that surrounded Parlinghurst penitentiary. A dozen "trusties," short sentence prisoners with full good conduct marks, were working in a line that stretched across the potato field, and Warder Murphy, formed the extreme left wing. On the right was Warder Finerty, and between these two lying obstacles in the path to freedom, the squad of convicts toiled industriously.

Murphy's conscience mind became aware of the fact No. 307, known to his prison companions as "The Rat," had snatched a few pieces of the leftward rifle strap that cracked over a gravel bed, and was then used with great energy to wash a few handfuls of the sandy soil. The warden was astonished. He moved rapidly toward the prisoner and angrily ordered him back to his work.

"There's gold here, Mr. Murphy," he cried. "Gold real gold, sure."

The warden's eyes blazed suspiciously, but he choked back the threat that was on his lips. The prisoner twirled the can vigorously, while his eyes and tongue pleaded with the officer.

"Let me just wash this stuff," he whispered hoarsely. "I know there's gold here, Mr. Murphy. I've been a miner and I know the looks of the ground."

With a final twirl "The Rat" jerked out the last of the muddy water that the tin contained, then he peered at the slit in the bottom.

"Look," he cried, "didn't I tell you there's gold here?"

He firmly grasped the tin with trembling fingers. In the bottom of the can were three little shiny pellets tiny shavings in the wet sand. Murphy gripped them in the palm of his right hand and gazed upon greedily.

"It's gone," he groaned.

"Not quite," affirmed the prisoner. "The water got at one end and the Rat" watched him closely. Presently Murphy turned to him again.

"I'll be gone in to dinner about ten," he said excitedly. "What about then? He needed at the three pellets again.

The prisoner considered a moment. "It'd be no good to be," he mumbled, and as "The Rat" got out to spend an hour with his wife, Murphy slipped an untouched plug to the prisoner who eagerly clutched his hand over it and looked hopefully at the face of the guard.

"Take much for those things of gold," he mumbled.

"I'll get another, just off Warder Finerty and give it to you," answered Murphy. "But hold your tongue, about the gold whatever you do."

The second plug which Murphy immediately obtained from Finerty recurred. "The Rat" and his wife sat down upon the white laundry tree as he munched in with his eleven companions near the jail bell ring for dinner.

But Warder Murphy had no appetite. Vision of gold in unweighable quantities lay upon before his mental eye. But now the knowledge had to be put to good use. Murphy had no money, and he rapidly ran over in his mind those of his friends who had capital to invest. "Weiner, the German Jew, who'd never watch refusing establishments, was particularly hard money and ten minutes after the prisoners had been locked in their cells for their midday meal, Murphy was in the shop.

"Hey, Weisler," he cried joyfully, as he held the three little pellets upon the counter, "what would you give for a patch of ground where you could dig those up by the bucketful?"

The Jew picked up the pellets one by one, and after examining them keenly laid them back on the counter.

"I would give 'noddings,' Mr. Murphy," he said, slowly, "these are tree little lumps of brass."

When Warder Murphy returned to the jail the chief warden called him aside.

"There's trouble brewing, for you," he said grimly. "We searched 307 and his pal 59 at dinnertime and found that each had a plug of tobacco in his possession."

"No. 59?" queried the astounded Murphy.

"Yes. No. 59," snapped the chief, "that friend of 'The Rat' who works in the brass shop."

And then it dawned upon the fear-stricken warden how No. 307 had obtained the necessary material to salt the mine in the potato patch.

### NEW LIBRARY LIST

Within the month a new County Library list will be mailed to each of the schools of Wayne county. School boards and teachers are urged to spend the library money early in the school year, using the county lists to make selections.

A late ruling by the state Superintendent of Public Instruction permits the purchase of Compton's pictorial encyclopedias with school library funds. Schools that have sufficient library money to purchase a good reference set in addition to the books needed and used by the children as good reading, may take advantage of this ruling. However, small schools with little library money are advised against buying sets of books of any kind.

### OAKLAND TO HAVE A PUBLIC GOLF COURSE

Last Friday afternoon the board of supervisors voted to accept the offer of Manly D. Davis of a gift to the county of 172 acres of the old D. L. Davis farm near Davison. The gift carries a condition that the county must build a public golf course on the farm within five years, or 60 acres of the tract will revert to the heirs. The remainder can be retained if it is used for park purposes and the whole if the golf course is maintained.

The supervisors voted Friday for the second time to turn down the proposition to buy land adjoining the old jail for county purposes. Milford Times.

### AMERICAN EDUCATIONAL WEEK, NOVEMBER 16-22ND

The purpose of American Educational week is to stimulate enthusiasm for education.

We know that education for all the people is essential to the prosperity of the country. We know that the system of education developed in America is that which is best suited to our habits of living and to our plan of government.

We know that it is every citizen's duty to his children and to the country to maintain the schools at high efficiency.

But to enjoy these things is not enough. Our faith in public education must be shown by our efforts in labor. We must exert ourselves to advance the interests of the schools and encourage our neighbors to do likewise.

American Education week

is an effort of the importance of education in the life of America, and in the necessity of the support of every citizen in behalf of a strong, effective program.

The following is a synopsis of the program for the week:

**Monday, November 16th—Compton Day**—Slogan—"Every Boy and Girl a Good Citizen."

**Tuesday, November 17th—Patriotism Day**—Slogan—"One Flag, One Land, One Heart, One Hand, and Nation Everywhere." Holmes

**Wednesday, November 18th—School and Teacher Day**—Slogan—"The School is the Foundation of Democracy."

**Thursday, November 19th—Conservation and Thrift Day**—Slogan—"Work and Save."

**Friday, November 20th—Know Your School Day**—Slogan—"Progressive Civilization Depends on Progressive Education."

**Saturday, November 21st—Community and Health Day**—Slogan—"The School Health Work, Hails Without Community Interest."

**Sunday, November 22nd—For God and Country Day**—Slogan—"Religion, Morality and Education are Necessary for Good Government."

On account of the rain last Saturday the auction announced by F. H. Tousier was postponed for one week to Saturday, the 14th. That is tomorrow afternoon.

### SWEEP NO MORE

The broom was one of the first things invented; and today it is, practically, the same as in the days of Eve. Down through the centuries it has weared women and scattered its dust and germs everywhere.

The broom, in fact, is not only extremely old-fashioned, but unsanitary as well; and its use is a hard and needless task.

In the modern home its place is taken by the electric vacuum cleaner, which a child can handle, and which picks up every particle of dirt and sucks it into a bag for safe and proper disposal.

Students belonging to the Agricultural Club of Holy High school are putting on a Community Fair to show the results of project work in that department. Merchants in town will furnish the prizes and various classes of the High school will provide the amusement booths.

Over in Brighton, there are two sisters who have lived in five different cities in the last five years and have attended Sunday school every Sunday during that time. That is a record well worth having.

Engineers sent by the Milford Board of Commerce, have been examining the land between Milford and Commerce along the Huron river, in view of raising the dam at the Ruthell power station to form a lake 8 miles long, with 21 miles shore line.

A bold young man in a bad case of nerves demanded as a paroled for them the contents of the cash register in George Williams' bowling alley at Farmington, not to mention the fund contributed involuntarily by the patrons of the place. Not satisfied with this, a few nights later, apparently he and a companion pried open the cash register at the Park Garage and removed \$50 while Mr. Albright was absent from the office for a few minutes.

A full grown deer caused much commotion on a South Lyon farm when he followed a herd of cows in from the woods and investigated farm life for awhile before returning.

NEXT WEEK AT NEEBE'S REED TRAIL OPERA HOUSE.

"Dinner Under the Elms," the dramatic success of the past season in New York, and Eugene O'Neill's newest play, "In the Shubert," Detroit Opera House for one week commencing Sunday night November 15th, after successful runs in New York and Chicago, playing 12 weeks in the former city.

The author, revealing the rear end of a two-story New England farmhouse, shows, in various successions, the interior of four rooms, shown by dropping scenes of the confronting walls. So, uniting the space at the foot of the house walls, are five little places in and one big room.

One can never tell where the thrilling action will break out next.

So much is to be said of the setting because it is thoroughly characteristic of the play.

Eugene O'Neill at seventy, bringing his third wife, Abby Putnam, to the farm which he has worked by the sweat labor of his three sons.

The two older boys, for editorial, after selling their rights to inheritance to their younger half-brother Eben, who has discovered and stolen their father's gold and silver pieces.

There has been a dispute as to the ownership of the farm between Euphrasia and his second wife, and her son stays to defend her, dead right.

The new wife is strong in the possessive instinct.

When she sees that through the wall

is a way of securing the inheritance she tries to influence Eben, and ends by falling in love with him.

The dramatic situations that ensue, bitter and tragic, ending with punishment or wrong, form the basis for this stark and forceful story.

The cast is headed by Robert Harrison, Mary Morris, Charles Ellis, Victor Filippini, Mary True, Allen Nagle, Arthur Mack and R. Bruce Eaton.

## GUARDING A NATION'S LIBERTIES

Not since the Civil War has press comment been so strong, so aggressive and so unmistakably in favor of maintaining intact the basic principles of our government, as it is now. Editors of the nation are giving timely warning to the people and to politicians of the dangers involved in allowing boards, commissions, legislation and government to override the rights of the individual as guaranteed in our constitution.

At no time in the past has it been as hard for the political demagogue, unscrupulous captain of industry or labor agitator to "put something

over" on the American people. Never before was Our Country as ready to listen to the advice of a real statesman, industrial leader, or honest labor representative as it is today.

This is a healthy situation, and the people can thank the American press for a fair discussion of the basic problems involved in our industrial and political system, free from the damaging influence of partisan politics.

### SOME CHANGES IN AUTO LICENSE RECORDS

A school of instruction attended by many of the county clerks of the state was recently held at the office of Secretary of State Charles J. DeLand at Lansing. There will be considerable change in the license records required for next year so much, in fact, that there will be no recognition whatever in 1924 of any blanks that had been used in 1923.

It will be remembered that the weight tax bill was not passed until along in the session of the legislature and that the old license tax was held in abeyance for many weeks waiting for the legislature to act. It was not even certain as to just what the clerks would do when they did act. This made it necessary to hurriedly prepare blanks which the experience of the past year has shown were not just what they should do. Consequently new blanks have been prepared for next year. None but the new ones will be recognized in any business that concerns automobile licenses or drivers' licenses for 1924.

All county clerks in this district were present at the school of instruction at the secretary of state's department to instruct county deputies as to the general use of the new blanks and also to instruct them as to the sale of the new license plates.

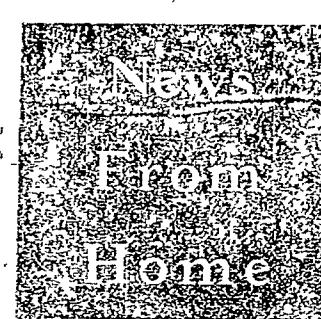

Another regulation which will go into effect next year will be that adjoining counties will not use the same colored ink in the making out of its census or other blanks for automobiles. A special ink will be used which will be furnished by the secretary of state, for this purpose, the idea being that in this manner it will be less easy for counterfeit licenses to be made, and will also make it easy for officers to detect any frauds that may be attempted.

It is expected that a number of automobile licenses granted from the state of Michigan next year will pass the million mark by a considerable sum. Some changes have been made in the regulations for collecting the weight tax so that people who are interested in the use of their automobiles or trucks for next year, had better get in as soon as possible as it will be required of them at an early date.

### WALLED LAKE WIRBELS

A cottage belonging to Mr. Price in the Spring Lake Heights subdivision was destroyed by fire Thursday night. The Walled Lake fire department responded to the call for help and rendered efficient service in preventing the spread of the fire to other cottages. It is believed the fire was caused by hunters who had made the cottage a gathering place. The cottage and contents cost a total loss and the value of the property is placed at \$2,000.

On account of the rain, the auction originally set for F. H. Tousey was postponed for one week to Saturday the 14th. That is to follow afternoon.

Boys and girls away at school or out in the world making their own way, surely will appreciate an occasional telephone call from Mother or Dad, telling all the home news. And of course Mother and Dad will appreciate hearing the voices of the absent loved ones.

### WILLIAM PENN HOUSE IN PARK TO WELCOME TOURISTS

Visitors to the Sesquicentennial International Exposition at Philadelphia next year will find the 14th house of brick made in England given which William Penn lived after his arrival in America on October 27th, 1682 among the many objects of historical interest to be seen at a tour of the city. The quaint structure has been removed from its original site in Little Compton and erected in west Indianapolis Park where all visitors are welcome.

Penitentiary Park, in the western part of the city of Philadelphia, known as Rittenhouse, where he established his residence in the cottage in Little Compton, and a short time after in Rittenhouse Palace. Material for the rebuilding had been shipped from Eng and sent to the colonists to Pennsylvania.

Not all the colonists who left England with Penn on the "Welcome" received their homes in the new world. Historians tell us they were so unfortunate as to have smallpox break out among them a few days after leaving England in August, and more than one-third of the company of one hundred who sailed the ship died from the plague.

# WINTER AND Radiator Protection

## GLYCERINE

Glycerine and water is undoubtedly the best solution to prevent freezing of automobile radiators in low temperatures, and, while comparatively new to the general public, it has been used with marked success and satisfaction for a number of years.

### Some of the Proved Advantages are:

1. Glycerine will not evaporate at maximum radiator temperatures, therefore the solution will remain at full strength throughout the winter.

2. Glycerine is practically odorless and non-volatile, therefore in using this solution there are no disagreeable odors or unpleasant volatile vapors.

3. Contrary to the opinion of some, actual tests have proved glycerine to be less injurious to rubber hose connection than plain water.

4. Mixtures of glycerine may become slushy at extremely low temperature but rarely solidify and expansion is very little, i.e.: Glycerine frozen in a glass tube at 97 degrees below zero failed to expand enough to crack the glass.

## ALCOHOL

### DENATURED (188 PROOF) HIGHEST TEST

Contains no benzol or other injurious ingredients. Beware of denatured alcohol containing benzol which tends to injure rubber connections.

No Corroding nor Electrolysis as from

### Salt Solutions

### No Rotting of Rubber Parts.

While the government authorizes the manufacture of denatured alcohol as low as 160 proof (test), do not forget it is alcohol and not water that prevents freezing.

We can tell you the capacity of your radiator and would be pleased to recommend the correct mixture to prevent freezing.

### Northville School Notes.

A general survey of the abilities of the Northville pupils in all grades has just been completed. This survey includes tests and examinations which reveal the progress made by not only individual pupils but the grade as a whole. Grades from the second to the eighth were given the test in cooperation with the University of Michigan. Late in the year results from the various schoolstakings upon the progress will be tabulated for the comparison may be made. Not only the pupils gave a good account of themselves according to the existing standards.

Beginning Monday, November 16th, the pupils of the Sixth grade will be on full day sessions. This has been made possible due to the fact that several pupils have left during the past few weeks in the Fifth and Sixth grades. The new arrangement provides for a distribution of the pupils between three rooms which will make them somewhat overburdened and beyond the normal capacity of the room but it will at least take care of the emergency for the present. The entrance of several new pupils in these grades would however present the same problem as before.

Miss Elizabeth Lapham, a graduate of the Northville schools, graduated from the University of Michigan last June "With Distinction." This signifies that Miss Lapham made an unusual scholastic record at that institution. Miss Elizabeth Van Valkenburgh also a product of our schools has the unique honor of being chosen vice president of the Senior literary class and a member of the University of Michigan debating team. Miss Van Valkenburgh received her preliminary debate training in the Northville public schools. Several other students who have gone to the University of Michigan from our school have made excellent progress at that school as the records of the University will testify.

Next week is American Education Week. All departments of the school will observe the various days. Wednesday, November 18th, the people of this community will be given a chance to see this school in action. Regular school work from the Fifth to the 12th grade will be held in the main building just the same as the regular sessions. Classes will be suspended in the afternoon so that the work may be given in the evening. School will be called at promptly 6:20 p.m. and run through 9:30 p.m. The public is cordially invited to visit the school

during this evening. Wednesday afternoon Carlyle Lovell, Lynn Partridge, Naomi Colburn, Russell Atchison, Ruth Myers and William McGehee will attend the debate debate at Ann Arbor between the two teams of the university. The Eighth grade has elected officers the following being chosen: President, Edna Martin; vice-president, Louis Tullin; secretary, Marjory Schutte.

Freshman Sophomore Contest. The Sophomores were given a banquet by the Freshmen last Thursday evening. A few tests, too, the Freshmen and Sophomores had a contest, consisting of games in the gymnasium. The agreement was that the losing side should banquet the winning side. The Freshmen lost and gave a very good banquet in return. The members of the faculty and the student council were invited also. Two basket ball games between the girls and boys of both classes followed the banquet. The Sophomores won both games, the girls winning 10 to 5 and the boys 12 to 3. The Freshmen class is to be congratulated on giving such a good dinner and delightful program.

**THE GORILLA TO SUCCEED KIRK'S IRISH PGSE AT THE GARRICK.**

Beginning Sunday night November 15th, "The Gorilla," the delicious travesty of the mystery play from the pen of Ralph Spence, will be the attraction at the Garrick Theatre. Detroit, with popular matinees Wednesday and Saturday.

"The Gorilla," widely heralded through its overwhelming success in New York, Chicago, Boston and London where it played to long runs with crowded houses, is regarded by both the critics and theatregoers as the greatest thriller the stage has seen in a half century. Being a complete parody on the mystery play, it brings to the stage something that is new and original, and occupies a distinctive position among the theatrical offerings of the season. Mr. Spence has devised a play that provides spontaneous and wholesome laughter for those who seek to be genuinely amused, and there are those who say that the laughs are so numerous that one cannot keep count.
