## PONSFORD'S

Electrical Patterns

the latest triumph of the world's oldest  
and largest maker of electric cleaners  
is being demonstrated daily in our store.

Come in today! Learn the meaning of  
POSITIVE AGITATION—the greatest  
contribution ever made to home-clean-  
ing science. It's a revelation!

If you can't get in, phone us, and  
we'll send one to your home.

When you clean house—as all will—you will  
want some new fixtures to brighten up the  
home. Just remember we have them for every  
room in the house—from the cellar to the guest  
chamber.

We shall be glad to have you call and look over  
our line of Electric Appliances at anytime.

Floyd Shafer, Prop., 111 Huron's Basement

## FREDERICK P. WILCOX DIED SUNDAY NIGHT.

Suddenly and without warning, death came to Frederick P. Wilcox at his home in this village Sunday night, and the news of his sudden passing was a great shock to the members of his family and to his friends and acquaintances in this community.

The deceased was born in Northville July 9th, 1862, being the youngest son of George and Anna Wilcox. When he was a year old his family moved to Saginaw where they resided for a period of nine years, returning to Northville in 1872. At the age of 22 he joined the United States army, being stationed in Texas for eight years. He then returned to Northville, and in 1895 he was united in marriage to Mary Oswald of San Antonio, Texas, and they made their home in Northville where they continued to reside. To this union were born seven children—Oswald L. of Warren, Ohio; Mrs. Marie Malsberger of San Antonio, Texas; Charles L. and George F. of Detroit; Harland E. of Alpena, and Kathryn E. and Kenneth of Northville, all of whom survive. Besides his children he is survived by his wife and one brother, David.

Funeral services were held at his late home on Thursday afternoon at 2:00 and were conducted by Father Schuler. Interment was made in Rural Hill cemetery.

## CAVE A PLEASING ENTERTAINMENT.

Floyd G. Evans and five of his pupils from the Waterbury Conn. High school orchestra, who attended the supervisors' of music national convention in Detroit last week, came to Northville last Thursday night as planned and gave a very enjoyable entertainment. The young men, directed by Mr. Evans who presided at the piano, rendered a program that delighted all. Mr. Evans contributed some violin numbers and each number was heartily encored.

Two members of the Dolph Bible Class presented Mr. Evans and his boys a beautiful bouquet of roses, the presentation being made by Floyd Spie.

Mr. Evans will be remembered by some of the older residents, as a young Northville boy who has gone out into the world and made good. He is author of music in the Waterbury schools and has an orchestra chosen from the various schools of the city with a membership of 15 young men and women.

## LOCAL FIRM RECEIVING A LARGE SHIPMENT OF BOTTLES.

You remember the big suggestion "Why not have bottles a hanging on the wall?" Well a mere matter of no bottom, whether they're blue, or green, or yellow or black would cut but little drama compared with a cabin full of bottles received by the Northville Church of Christ last week. They received their first full car load, containing 220 cases of bottles of various sizes, and those 220 cases contained 80,000 bottles. This purchase only indicates that the local enterprise is growing by leaps and bounds, and it deserves to grow. The gentlemen directing the affairs of the company are aggressive and wide-awake and they have built their business on the true foundation of service, honesty and fair dealing.

The company now employs a number of salesmen besides offering its products through jobbers all over the country.

## IRONACE COMPANY HELD ANNUAL MEETING.

The annual stockholders' meeting of the Bell, Furnace & Manufacturing Company of this place was held at the office of the company Wednesday night, with a good attendance. E. L. Smith, C. A. Ponsford, C. H. Bryan, E. H. Lapham, C. S. Wilkins and Sherrill Arnold were elected directors and the directors later elected the following officers: President, Sherrill Axler; secretary, C. H. Bryan; treasurer, E. H. Lapham.

The company has orders on its books for nearly 300 furnaces and the present season gives promise of being a very good one.

## PLYMOUTH-NORTHVILLE ROAD TO BE REBUILT.

Assurances have been received from the Wayne County Highway Commission to the effect that the Plymouth-Northville road will be paved this season and that work will start as soon as Center street becomes sufficiently settled to permit of travel. This will be an improvement all will appreciate.

## TRAP SHOOTING TOURNAMENT SUNDAY.

The Northville Gun Club will hold a registered trap shooting tournament at its grounds in this village, near the Pere Marquette railway station, on Sunday, the 26th, and it is expected that many followers of the sport will be present.

## KNIGHTS TEMPLARS INSTALL NEWLY ELECTED OFFICERS.

The newly elected officers of Northville Commandery, Knights Templar, were installed Tuesday evening in the presence of a goodly number of sir knights and their ladies, and the affair was a very enjoyable one. Grand Master Sir Albert Smith, grand commander of the Grand Commandery of Michigan, officiated as installing officer and he was ably assisted by Chas. A. H. Thom, grand sword bearer. The purpose of the gathering was announced by Mr. Smith and he called upon Sir Knight F. P. Knowles to conduct the devotions. The new officers then took their places before the altar and the important installation ceremonies were given, and new jewels just recently purchased by the commandery, were presented to the several officers as they were escorted to their respective stations.

A very enjoyable musical program had been prepared and vocal numbers were contributed by Mrs. Chas. Murphy, Benji Stewart and Mr. Sandall of Detroit and all were compelled to respond with a second selection. Mrs. Harry Blake gave two violin numbers and the Messrs. Alferio and Cipio, of the Ford Motor Company's orchestra greatly delighted the large company with several selections on the violin and piano accordion. They were repeatedly recalled and were very generous in their responses.

Remarks were made by Sir Knights Smith, William Richards, Amos and Henry Otis, and by Sir Knight Thom. Sir Knight C. R. Van Valkenburgh had charge of the program and introduced each participant.

A buffet lunch was enjoyed in the dining room at the conclusion of the program.

## AMERICAN LEGION SUNDAY ENTINELY OBSERVED.

An audience that filled the Methodist church gathered Sunday morning to observe American Legion Sunday, and to enjoy the very interesting services which had been planned for the occasion. Members of the American Legion, the W. R. C. and Legion Auxiliary were given seats of honor and the services throughout were inspiring and helpful. The pastor, Rev. William Richards offered the opening prayer and read the scripture lesson, the choir let up congregational singing and sang an anthem and Alfred Copperwedge recited a solo. The Triumphant Rev. H. H. Hall of Saline, a member of the congregation, who is regarded as a spiritual man, offered prayer and gave a very interesting discourse, taking for his theme "Preparedness." He thought the best way in which the nation might prepare was for its citizenship to be patriotic, to obey the laws, to sustain the laws, to play fair with religion, to be tolerant with one another and in this lies that will be the salvation of nations and of men. He expressed the belief that as Americans we sometimes become too boastful of our wealth and greatness and suggested that we try and overcome that habit.

## FORMERLY BELIEVED PASTOR PAID A FINE COMPLIMENT.

Northville friends of Rev. W. S. Jerome, who was pastor of the First Presbyterian church of this place several years ago, will be pleased to learn of a fine compliment that was paid him at the meeting of the Detroit Presbytery at Royal Oak on Tuesday. Mr. Jerome served the First Presbyterian church in Pontiac as pastor over a period of years and during his residence in that city he greatly endeared himself to the members of the church and society and to the people generally.

At Royal Oak on Tuesday a request was made by the officers of the Pontiac society that he be appointed pastor-emeritus of the church he had served so faithfully in years past, and the very gracious request was granted by the Presbytery. He will receive a regular salary from the Pontiac church and will assist in the work of the church as he is able to do.

## FIRE WHISTLE TO BE SOUNDED AT NOON.

Beginning next Monday the village alarm will be sounded each day at 12:00 noon. This plan has been decided upon for two very good reasons—to keep the alarm in working order and to let Northville people know when it is noon. There will be just one blast and arrangements have been completed whereby the alarm can be turned in from the Michigan Bell Telephone office. Do not become alarmed unless there should be more than one blast of the alarm. One blast simply means it is 12:00.

For fires the alarm will be sounded for a longer period, of course.

## SAYS FRENCH HAVE MASTERED MEASLES

### Nation's Health Declares It Can Be Controlled

Washington.—Development of an anti-measles serum by French scientists promises to make possible the prevention and control of measles, "the most serious acute disease in existence," according to the Nation's Health. The Public Welfare Administration of Paris, France, has established 600 centers for the protection of children from measles convalescents and to its application in accordance with epidemiological and clinical studies of Prof. Leon Bernard and his pupils, Robert Debré and Pierre Jeantot.

Already the work is considered to have demonstrated the practicability of laboratory for anti-measles serum prophylaxis attached to children's hospitals and hospitals for infectious diseases and the effective nature of preventive work in measles as developed by these research workers, especially in institutional fields, says the writer. It is stated that no untoward incident or criticism has arisen during the progress of the work.

### Preventive Properties Known

"Everyone is aware of the preventive properties of the serum of measles convalescents," the writer continues, "but heretofore conditions have not been determined controlling the practical application of this product in the prevention of measles, the doses of serum to be injected, the moment at which it must be taken from the convalescent, and the moment at which the serum should be injected into the threatened individual for its protective action to take effect and the contraries to be rendered powerless."

The method usually applied has been to inject the serum from the first to the sixth day of incubation. This prevents the impending eruption of measles and confers a transient immunity from the disease.

Discussing the traditional methods, Robert Debré proposes as an improvement the use of sera attenuation to replace sera precipitation. The serum is infected at the end of the period of incubation. The method is not preventive but is applied in a greatly attenuated form. Measles cannot be easily obtained in very slight doses, but the body may become persistently well being chartered throughout the blood, the droplets containing offshoots of the disease have no virulence, and a permanent protective immunity can be formed by the preventive methods for measles.

It is proposed that the serum be used in a sufficiently large quantity for an effective result, but Professor Debré's method of preventing measles has been successfully utilized to prevent epidemics in institutions and in the families of children exposed, and the immunologist, Professor Bernhard reported by the health committee of the League of Nations, declares that the effectiveness of the proposed method is now definitely established and the protection of 90 per cent of measles cases is fully proved by results so far achieved.

### Most Serious Acute Disease

Measles is the most serious disease in existence. In the last 20 years the total mortality due to measles has fallen in 10 of the principal European countries, 10 per cent, whereas fever, mumps, 40 per cent, and whooping cough 48 per cent. Mortality from measles over the same period has fallen 10 to 10 per cent. It is so prevalent that nearly anyone in England or the U.S. can expect to have it.

The figures adduced recently by the American Journal of Hygiene go to show that more than 90 per cent of all infections in England, Canada and the United States contract measles at some period of their lives.

To go back to Professor Bernhard's figures, in the whole of Europe with the exception of Russia and the Balkans, measles caused 700,000 deaths in the ten years from 1900 to 1910 in the United States, in the zones subject to notification, measles caused more than 100,000 deaths in the 20 years from 1901 to 1920.

The epidemiological aspects of measles are interesting as brought out by the pupils of Professor Bernhard. The reason that the course of measles is not fully appreciated is that the disease has quite a different effect according to the categories of children it attacks. As a general rule, measles is mild in the country and in the small towns; it is much more dangerous in the great crowds of the large cities. Thus in France, measles mortality is three times greater in Paris than in communities of less than 500 inhabitants. The difference is negligible in the case of diphtheria and whooping cough.

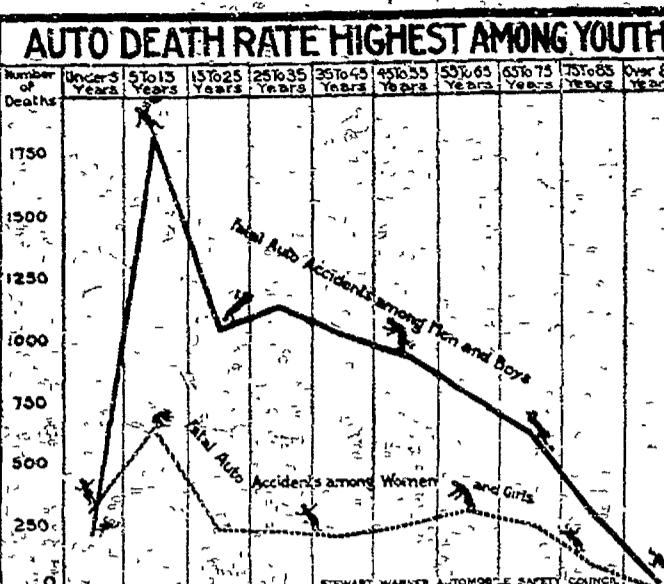

### Bigger Than Eiffel

Milan—An iron tower modeled after the Eiffel tower in Paris, but "bigger and better" in every way, is to be built here and named after General Mussolini. It will be dedicated in 1928, the tenth anniversary of the Italian victory over Austria.

### Prehistoric Ruins

Guayaquil, Ecuador.—Prehistoric ruins of a city, covering 3.11 square miles, have been found by Major Abquiero of the Ecuadorian army in the Huasca mountains in Carchi province, near the Colombian border.

## Youth of Nation Tops Death List in U. S. Auto Fatalities

YOUTH pays the heaviest toll in annual automobile fatalities. From five to fifteen years is the period when the greatest number of fatal accidents occur, for both sexes. The chart shows the age distribution of automobile deaths for men and women, as given in the latest mortality figures prepared by the government. These figures, says the Stewart-Warner Safety Council for the prevention of automobile accidents, emphasize the need for more playgrounds and increased safety education among school children.

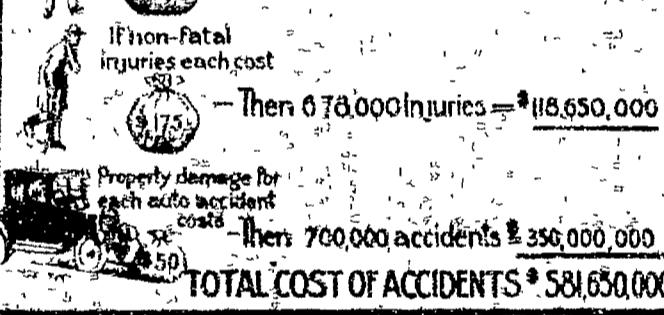

Complete statistics are not possible, as only 35 per cent of the United States keeps mortality records. About 22,000 a year is generally conceded to be the annual number of automobile fatalities. For 8,621 males known to have been killed in one year there were only a third as many women, or 2,845. It is the fact that the male population is only 4 per cent greater than the female.

This chart does not take into consideration the 660,000 Americans who are injured annually by automobiles. Such figures are not available except in certain states, but the boys and girls again make up the bulk of such casualties as indicated by the records of New York state kept for the first nine months of 1925. Here 11,768, or practically one-third of the 38,532 injured were under fifteen years of age.

During her senior year she was the editor of the class annual, the first published by a senior class of Milford High School.

She will finish her fourth year's work in the canning project and her third and fourth in the clothing project this spring.

Miss Holden has been engaged to conduct a canning club at Wixom this season. In the fall she will take up a course at the Michigan State College, home economics, in contact with

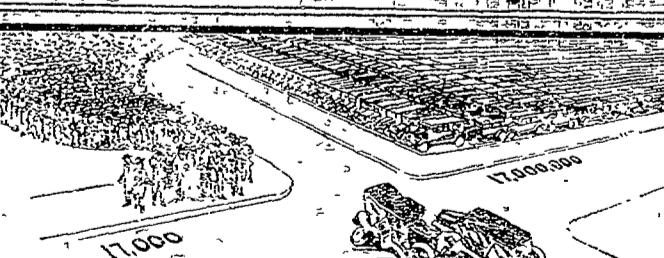

Close to \$50,000 a year—the annual economic loss due to automobile accidents, fatal and non-fatal. This appalling sum is only an estimate, a incomplete figure on the number of automobile accidents in the United States we believe, but it is also conservatively estimated that 22,600 lose their lives each year in automobiles, and \$5,000 a human life is the lowest value put on it by economists.

Non-fatal losses, 678,000 persons affected, average \$175 property damage, insurance records show this makes the staggering total of \$118,650,000 a year.

No account is taken here, however, the Stewart-Warner Safety Council for the prevention of automobile accidents, for the economic value of time lost in the injured due to delays caused by accidents or to minor property values such as bent fenders, etc., incurred while repairing vehicles, particularly the commercial ones, are out of service due to accidents. Were all these taken into the reckoning, the total figure would surely be doubled, or around \$113,000,000.

Staggering is the economy of this economic loss, most of which is volunteered by such relationships as these: It is twice the cash income of the 1923 wheat crop; it is equal to about one-third of the much discussed French debt to the country, and, finally, this loss would be the extra tax of the U.S. at its present ready assessment valuation.

## One Death Per 1000 Autos in a Year Is Record of U. S.

1 Person Is Killed and 28 Injured Annually for every 1000 Automobiles in this Country

STEWART-WARNER AUTOMOBILE SAFETY COUNCIL

ONE out of a thousand is the relationship between the annual automobile fatalities and the number of motor vehicles in this country, according to the Stewart-Warner Safety Council for the prevention of automobile accidents, which has undertaken a strenuous campaign of automobile safety and accident prevention.

And for every fatality there are at least 28 accidents serious enough to get on record. This does not take into consideration minor sprains and bruises or people suffering from nervous shock as the result of being in an automobile accident.

To appreciate what a vast army of killed and injured is annually conscripted by the reckless motorist and careless pedestrian, a comparison may be made with American casualties in the great war. Over 1,000,000 people are killed annually by the automobile as there were American soldiers killed on the field of battle during the entire war, while the number injured each year is nearly three times as great as the number of our boys who were wounded throughout the war.

## MILFORD GIRL WINS SCHOLARSHIP

Scholarship in Michigan State College for her excellent work with farm clubs, has been awarded to Miss Dorothy Holden, daughter of Mr. and Mrs. B. A. Holden of near Milford.

"Since 1921 when girls' canning clubs and sewing clubs were first organized in the community she has been active in the work, winning many prizes. In 1921 she won a contest, and as an award attended the National Dairy and Food Show at Chicago, where she was one of eight who had won championships in Michigan and the only one from Oakland County.

In 1923 Miss Holden and Miss Ruth Howe represented the County as a team in canning demonstration at the State Fair, with all expenses paid.

They competed with 20 other County teams, and won from 50 girls, and were given a week at Michigan State College where they demonstrated before 125 girls from the state.

In 1924 Miss Holden won second place in her third year's canning project which was in the form of a scholarship at the State College. She also won in 1924 the eighth place in a national contest conducted by a glass company when each contestant was allowed to submit 12 jars from their canning project.

In 1925 she represented the county in a canning project which was in the form of a scholarship at the State College.

The scholarship was recently won for the 1925 season. This gives her \$50 on her freshman work and \$45 on her sophomore work.

Miss Holden was graduated from Milford High School in 1925 where she spent four busy years, having acted as class secretary during her junior and senior years, and as corresponding secretary for the lyceum course sponsored by the school.

During her senior year she was the editor of the class annual, the first published by a senior class of Milford High School.

She will finish her fourth year's work in the canning project and her third and fourth in the clothing project this spring.

Miss Holden has been engaged to conduct a canning club at Wixom this season. In the fall she will take up a course at the Michigan State College, home economics, in contact with

the Stewart-Warner Safety Council for the prevention of automobile accidents, for the economic value of time lost in the injured due to delays caused by accidents or to minor property values such as bent fenders, etc., incurred while repairing vehicles, particularly the commercial ones, are out of service due to accidents. Were all these taken into the reckoning, the total figure would surely be doubled, or around \$113,000,000.

Staggering is the economy of this economic loss, most of which is volunteered by such relationships as these: It is twice the cash income of the 1923 wheat crop; it is equal to about one-third of the much discussed French debt to the country, and, finally, this loss would be the extra tax of the U.S. at its present ready assessment valuation.

## STATE NEWS IN BRIEF

Lansing—Gov. Alex. J. Groesbeck has proclaimed the week of April 17 to 24 as American Forest Week. In the same proclamation he designated Friday, May 7, as Arbor Day.

Ypsilanti—A victory dinner was held recently after the three day membership campaign of the Ypsilanti Board of Commerce. Ypsilanti claims that the 708 members enrolled as members of the board are at the largest board of commerce in proportion to its population in any city in the country. Ypsilanti's population is 11,000.

White Cloud—The Newaygo County Bank, a private institution of which E. C. Sickle is president, has closed its door because of financial difficulties. Depositors held a meeting and voted in favor of buying the Old State Bank of Fremont appointed receiver. The bank's troubles are said to have been caused by a considerable amount of delayed payments on loans.

Roseville—The recently incorporated village of Roseville, which is located between the Ten and Eleven-Mile roads in Erin township, and bounded on the east by Lake township and on the west by Warren township, plans to engage a city manager and is looking for a certified civil engineer, according to John A. Asmus, president of the village.

Grand Rapids—East Grand Rapids, which recently voted against annexation with the city to avoid paying a higher tax rate, will not receive fire protection from Grand Rapids fire department after May 1, when the present contract expires. City officials believe the compensation paid by the township for the protection is too low. East Grand Rapids will be required to pay an increased fee if the contract is renewed.

Big Rapids—The three members of the Mecosta County road commission resigned recently and their resignations were accepted at once by the board of supervisors. The supervisors had threatened to remove the commissioners unless they resigned. The commission and supervisors have been in disagreement throughout the winter on matter of public. The supervisors failed to elect a new road commission chair.

Almonte—At a recent session of the board of supervisors the building committee was directed to continue working with the city commissioners in the building of a new city hall. The new offices will be temporary, for the erection of civic buildings will be started as soon as the village can acquire the rest of the property on the same block.

St. Ignace—William G. Moore,

Chicago millionaire, and president of

the American Board of Navigation

Company has purchased the Grand

Bazaar, New Buffalo township.

A golf club is to be formed at

the property. Both the city and county

offices have outgrown their present

quarters. The board refused to let

Moore \$320 toward the Eastern

Michigan tourist as mention. Her

man N. Fisher, L. S. Davis, also

president of the association, addressed

the board.

Monroe—The Monroe school board has officially adopted a gift of \$1,000 from G. A. Christenberry, of Bartlesville, Okla., left from the investment of which will be devoted to grants for research by public high school students in the constitution of the United States. Several years ago the board passed a resolution in honor of the donor's father, the late Isaac P. Christenberry, former supreme court judge, United States senator from Michigan and minister to Peru.

Clinton—A mile and a quarter on the river, the deepest telephone in the world, has been installed at Anna's St. No. 5 of the Clinton & Decatur Consolidated Utility Co., property being the last connecting the telephone down in the gulf with the C. & H. Exchange, is a late and pendulous cable, weighing one and one-half pounds to the foot. The equipment was placed in commission by the company's electrical department, assisted by the Michigan Bell Telephone Co. office here.

Grand Rapids—The Michigan crew of the James Whitcomb Riley Memorial Highway is to be from the Indiana line via M-13 to Five Lakes Corners, then by the new and undetermined United States route, M-31, connecting M-12 and M-13 and by M-11 to the Straits of Mackinac. It was determined by representatives of towns on M-13 and M-31 and of motor organizations of Grand Rapids and the Grand Rapids Association for Commerce in conference with officials of the Riley Highway Association.

Lansing—At the request of Thomas E. Johnson, State Superintendent of Public Instruction, Gov. Alex. J. Groesbeck has fixed Tuesday, April 27, as the date for a meeting of the State Board of Education with the State Administrative Board at Lansing. Mr. Johnson informed the Governor that the Board of Education desired to discuss the rebidding of the administration building at the Central Normal School at Mt. Pleasant, the building of a fifth normal school and other educational problems.

Monroe—According to a resolution adopted recently the board of supervisors will hereafter meet the second Tuesday in April, the third Monday the following week, the third Monday in June, with a recess until Tuesday in July, August and September, the second Mondays in October and December, the third Mondays in January and February, and the second Monday in March. The board may also meet on special dates, upon no notice decided by the chairman or five members. The board may meet during the year—not more than 25 times.

Detroit—James E. Land, 61 years old, former general manager of the Michigan State Telephone Company and one of the pioneers in Michigan, and one of the pioneers in Michigan, is dead at his home, 13367, Mark Twain Avenue.

Pontiac—Rapid growth of Pontiac schools has forced the board of education to create a new office, that of supervisor of the primary grades. Miss Harriet E. Radford, Mt. Pleasant, woman of many years' teaching experience was appointed to the post, the first of its kind here.

Monroe—Walking along the highway, Julius Mandelk, 57 years old, Elmer township farmer, fell face downward into a ditch filled with water and was drowned. He was discovered by his wife and a daughter, who had been searching for him as he had failed to make his appearance at home.

Annan—J. E. Tausig, president of the White Cloud Bank, a private institution of which E. C. Sickle is president, has closed its door because of financial difficulties. Depositors held a meeting and voted in favor of buying the Old State Bank of Fremont appointed receiver. The bank's troubles are said to have been caused by a considerable amount of delayed payments on loans.

Roseville—The recently incorporated village of Roseville, which is located between the Ten and Eleven-Mile roads in Erin township, and bounded on the east by Lake township and on the west by Warren township, plans to engage a city manager and is looking for a certified civil engineer, according to John A. Asmus, president of the village.

Marine City—To save the wheels and tires on the local fire truck, the city council has ordered that the truck shall not travel at a speed greater than 25 miles an hour on paved streets nor at a speed of more than 15 miles an hour on unpaved streets. By decreasing the speed of the truck, the city will save at least \$300 a year, city officials estimate.

Birmingham—Birmingham business offices will move into new quarters early next month, when alterations now being made on the building at Pierce and Main streets will be completed. The new offices will be only temporary, for the erection of civic buildings will be started as soon as the village can acquire the rest of the property on the same block.

St. Ignace—William G. Moore,

Chicago millionaire, and president of

the American Board of Navigation

Company has purchased the Grand

Bazaar, New Buffalo township.

A golf club is to be formed at

the property. Both the city and county

offices have outgrown their present

W. S. McNair, Attorney, Northville  
STATE OF MICHIGAN, County of  
Wayne: At a session of the Probate court for said county of Wayne held at the Probate court room in the city of Detroit, on the twelfth day of April in the year one thousand nine hundred and twenty-six.  
Present, Edward Command, Judge of Probate.

In the matter of the estate of WILLIAM H. AMBLER, deceased.  
Sheriff W. Ambler, executor of the last will and testament of said deceased, having rendered to this court his final account and filed therewith his petition praying that the residue of said estate be assigned to the persons entitled thereto.  
It is ordered that the eighteenth day of May next, at ten o'clock in the forenoon, at said court room be appointed for examining and allowing said account, and hearing said petition.

And it is further ordered, that a copy of this order be published three successive weeks previous to said time of hearing, in the Northville Record, a newspaper printed and circulating in said county of Wayne.  
(A true copy.)

EDWARD COMMAND,  
Judge of Probate.  
EDMUND R. DOWNEY,  
Deputy Probate Register.

## NORTHVILLE Twenty-Five Years Ago

Items taken from The Record files of 1902 for the week corresponding to this week.

The ladies of the Presbyterian Society are planning to repaper and re-carpet their church in the near future.

The Northville council is making a much-needed improvement in the widening of Atwater street north of Dunlap.

Professor Chas. Burgess and wife and sister Miss Olds have moved into the Hook house on Mill street. They are from Montague, Mich.

Wm. H. Verkes has sold his Verkes Mill property to his brother, D. P. Verkes of Milford. L. E. McRobert is to have charge of the mill.

Chas. Blackburn started Monday with the household goods for Manitoba where his father had preceded him nearly two weeks ago. Mrs. Blackburn and daughter, Matie, are at Chatham, Ont.

At the Shoemakers ball last week the prizes for the best waltzing were won by Ned Taylor and Clara Johnson, first, second by Bob Pickle of this place and Grace Hitchcock of Farmington.

Yesterday's snow storm was something of a "damer" on those previous folks who were deluded by a few fair days into believing their "garden sass" expecting to have all sorts of fresh things by the first of June.

At the Tuesday afternoon session of the semi-annual meeting of the Detroit Presbytery, in session here, about seventy-five pastors and delegates were in attendance. The voting for commissioners to the General Assembly to be held in Philadelphia during the coming summer resulted in the election of Rev. W. S. Jerome of Northville with Rev. W. S. Buck of Holly and Rev. Marcus Scott of Beeton as alternates.

**RAVITZER SAYS**

"A man on the road to success who can't stop to have his shoes shined, don't get there, that's all."

And what Ravitzer says is so.

A man can make a better impression in his bare feet than he can in a pair of ill-fitting shoes.

You will feel at ease in a pair of our well-fitting, fashionable foot garments. You can go where your inclination leads you if your feet are properly clad. If you're inclined toward the best of boots come in and see us.

GARLICKSON, Clerk

Franklin B. Soult

doing the farmer and the cause of SUPERVISORS APPROVE OAK FARMING a great harm. There is nothing the matter with farming, if these professional friends would leave LAND'S ROAD PROGRAM miles of highway improvement in Oakland County were authorized Friday.

As a matter of fact, but little of the calamity howling comes from the Board of Supervisors which referred the six roads to the county road commission for construction this summer.

The improvements will be two and a half miles of the W. E. Irish road from Clarkson to Ortonville, seven miles of highway improvement in Oak-

land County were authorized Friday.

The movement will be started to sit down on the professional friends of the farmer. It is produced for the purpose of fooling the farmers, and by a class of men who want to make use of the farmer for their own selfish benefit.

The improvements will be two and a half miles of the W. E. Irish road

from Clarkson to Ortonville, seven miles of highway improvement in Oak-

land County were authorized Friday.

The weight contest, the object of which is to bring a single litter of pigs to a total weight of a ton in six months, develops great competition among the state's leading swine

pig breeders. Last year, 18 of the 163 litters entered reached the ton goal.

An even larger entry list and a greater proportion of "finishers" is looked for in 1926.

Any farmer in the state is eligible to enter the contest with a litter farrowed between February 15 and May 15. Registration, which is free, may be made with any county agricultural agent in the state, or direct with the animal husbandry department at Michigan State College.

A long list of prizes and awards are offered the winning litters of the different breeds in the annual contests.

**Science Not Interested**

No sharp contest has developed among scientists for the privilege of examining the beauty of the winner in a beauty contest.

### PROHIBITION CONVENTION DELEGATES BEING CHOSEN.

Churches and Sunday schools in every part of Michigan are selecting delegates to attend the Michigan prohibition convention to be held in Detroit April 22-26 during the next two weeks. A flood of letters have already been received at state headquarters of the Anti-Saloon League notifying convention officials of the selection of representatives to what is anticipated will prove to be the greatest prohibition demonstration ever staged in the United States. Convention officials are especially trying all Michigan pastors to attend the Detroit rally. It is known to be the plan of several church organizations out in the state to join in sending banner-laden auto caravans of delegates to the state metropolis for the event.

Prohibition officials of states and nation, a dozen congressmen and United States senators, college presidents, nationally prominent pastors and attorneys, and a galaxy of Michigan's political, industrial and church leaders are included on the program of addresses. Sight-seeing tours, exhibits, banquets, free movies, shopping tours, and dramatic debates are among the side-lights of the convention sessions which are stirring statewide interest in the Detroit meetings.

The aim which convention officials are now confident will be realized, is to make a demonstration in favor of prohibition which will not only settle any possible doubt as to this state's stand on prohibition but will jar the "hopes of wet agitators throughout the nation."

The historical Central Methodist church has been named the convention church and all sessions will be held in the auditorium of this downtown edifice. The Tuller is the official convention hotel.

### PONTIAC WOMAN AGED 100 YEARS DIED FRIDAY.

Friday night marked the passing of one of Pontiac's most interesting citizens when Grandma Shook died at the home of her grandson, Ray Chandler at 45 Lake street, at the age of 100 years.

The oldest of four generations, Mrs. Shook was spry and healthy until two weeks ago when she began failing. Her greatest delight was her house, and she did work around the house and took walks downtown as well as abroad.—Pontiac Press.

Hughland—A very important occurrence from an agricultural point of view in the discovery of a natural rock of high mica-schist on the island of Louisiade. The ledge covers an extensive area, and will supply the agricultural needs of the territory for years to come.

### ELECTION NOTICE.

Proposition to issue bonds of the Village of Northville for \$25,000 for the construction of a building for the housing of fire apparatus and engines also to be used as a Council Chamber, cell block, public rest and toilet rooms and quarters for those employed in the fire department according to the plans theron on file with the Clerk of the Village of Northville.

By resolution adopted on the 12th day of April, 1924, a special election will be held in the Village of Northville on the 3rd day of May, 1924, between 7:00 a.m. to 5:00 p.m. at the following places:

In Precinct No. 1—In the Beirin Block in said Village.

In Precinct No. 2—In the Village Council Chambers in said Village for the purpose of submitting to a vote of the electors of said Village the proposition of borrowing the sum of \$25,000, and issuing the bonds of said Village to be placed in the General Fund for the purpose of constructing a building for the housing of fire apparatus and engines also to be used as a Council Chamber, cell block, public rest and toilet rooms and quarters for those employed in the fire department for the Village of Northville according to the plans theron on file with the Clerk of said Village.

The form of ballot to be used for the submission of said proposition shall be substantially as follows:

Official Ballot or issue of bonds for constructing a building for the housing of fire apparatus and engines also to be used as a Council Chamber, cell block, public rest and toilet rooms and quarters for those employed in the fire department for the Village of Northville according to the plans theron on file with the Clerk of said Village.

Shall the Village of Northville borrow the sum of \$25,000, and issue its bonds therefor to be placed in the General Fund for the purpose of constructing said building for the Village of Northville according to the plans theron on file with the Clerk of said Village?

YES  
NO

Dated April 14th, 1924.

THOMAS E. MURDOCK, Village Clerk

### NOTICE OF REGISTRATION.

Notice is hereby given that the Board of Registration of the Village of Northville will be in session at the Village Council Chamber in said Village on the 1st day of May, 1924, from 9:00 a.m. to 3:00 p.m. for the purpose of registering the names of all electors qualified to vote at the special election to be held in said Village on May 3rd, 1924.

THOMAS E. MURDOCK, Village Clerk

### HAWAIIAN TOWN IS WIPE OUT BY LAVA

#### Molten Flood From Big Volcano Mauna Loa Covers Ten to Fifteen Homes.

Kona, Territory of Hawaii.—The village of Hoopuloa, on the southwest shore of the island of Hawaii, was completely wiped out by an avalanche of lava that burst forth from the volcano Mauna Loa. Ten to fifteen homes were engulfed. The inhabitants are believed to have perished.

A flood of molten rock pouring out from the crater struck the sea, starting the ocean boiling several hundred feet out at sea.

Spilling into the water just south of Hoopuloa, the lava turned in the direction of Kona, filling the bay and completely burying the landing and from ten to fifteen houses located in the vicinity.

All houses and the wharf at Hoopuloa were engulfed under fifty feet of lava, the post office being the last building to burn.

As the streams of lava, which flowed from an 8,000-foot level in approximately four days, approached the ocean it split into two branches. Eight hundred feet from the water one stream turned toward Hoopuloa and the other started in the direction of Kona.

Army airplanes arrived a few hours after the village was wiped out, but were unable to locate the flow definitely because of the dense steam and smoke. The aviators reported the heat as intense at an elevation of 3,000 feet. Large clouds of steam hung over the ocean, rising to a height of several hundred feet. As the lava struck the water, tremendous rockets of steam shot up, the air showering the entire region about the bay.

Almond Steiner, Halaakala, Island of Hawaii.—Several hundred passengers gazed awestruck while the great volcano, Mauna Loa, rising into the clouds from the island of Hawaii, sent forth a fiery river of lava. A vessel cruised along the south coast and now comes down from the slopes of that mountain presented a most glorious picture.

Honolulu, T. H.—Hawaii was one of the few logically Hawaiian islands remaining as at the islands. It contains a chain of from ten to fifteen islands, all in Hawaiian style, in number of approximately 100 islands.

Munich had been an inspiring sight since it began developing masses week after week after a period of five years of truce. The mountains, 11,675 feet high, stand tall and is the highest city in the world.

May Ask U.S. for Aid

at Antwerp. Call Dr. George Bushell, city health officer, characterized the smallpox epidemic here as the bigest and most malignant epidemic that has attacked humanity in recent years. He declared it might be necessary to ask Great Britain for aid if his office is hard-pressed by local interference.

### WINNING FIGHT AGAINST FOG

Washington—The navy bureau of mines, in a report recently issued, states that rapid progress is being made in the development of devices to dispel heavy fogs over airplane landing fields.

### WASHINGTON BRIEFS

President Coolidge sent to the senate nominations reappointing Ben W. Cooper, chairman of the railroad labor board, and Samuel Higgins, whose terms have expired.

Reporting favorably a bill to abolish capital punishment in Washington the House District of Columbia committee said states without the death penalty "have not only been satisfied that the crime wave has decreased but have long since condemned as barbarous his procedure."

The form of ballot to be used for the submission of said proposition shall be substantially as follows:

Official Ballot or issue of bonds for constructing a building for the housing of fire apparatus and engines also to be used as a Council Chamber, cell block, public rest and toilet rooms and quarters for those employed in the fire department for the Village of Northville according to the plans theron on file with the Clerk of said Village.

Shall the Village of Northville borrow the sum of \$25,000, and issue its bonds therefor to be placed in the General Fund for the purpose of constructing said building for the Village of Northville according to the plans theron on file with the Clerk of said Village?

YES  
NO

Dated April 14th, 1924.

THOMAS E. MURDOCK, Village Clerk

**CHEMIST GETS MEDAL.****MARKETING BILL IS OFFERED IN HOUSE**

**Billion-Dollar Measure Provides for Commission and Loan Fund.**

Washington.—A billion dollar plan to finance the marketing of farm products under government direction, so as to increase the profits of farmers, was presented to the house in a bill by Representative Tincher (Rep., Ky.) designed to embody the views of the Coolidge administration on farm relief.

The bill proposes an appropriation from the federal treasury of \$100,000,000 for wages to co-operatives engaged in marketing farm products, and the issuance of debentures to the amount of \$1,000,000,000 to finance marketing operations on a vast scale under the direction of a farmer's marketing commission appointed by the President.

In accord with the views of the President and Secretary of Agriculture, Tardieu, the bill avoids the devices of the Dickinson and the corn belt bills for taking the surplus off the domestic market and raising the price of the remainder to the American consumer. These devices the administration regards as species of price fixing.

The aim of the Tincher bill is to bring about higher prices on farm products through regulation of production and marketing so that the market never will be glutted and farmers never compelled to sell their products for an inadequate return.

The bill provides for the establishment in the treasury of a farmer's marketing commission loan fund, in which repayments of loans made by the commission shall be repaid and reserved until 1930, for the use of the commission in making such loans as provided for in this act.

For the expenses of the commission an appropriation of \$500,000 is authorized.

The bill provides for the creation of a federal farm advisory council, in the manner proposed by the committee of twenty-two representing the Des Moines conference of corn belt states. The advisory council is to consist of three members from each of the five federal land grant districts elected by the farm organizations. Some of the principal functions of the advisory council is to advise the President as to persons for appointment to the farmer's marketing commission, which corresponds to the federal farm board of the Dickinson and corn belt bills.

The marketing commission is to consist of the secretary of agriculture and six members appointed by the President, from the eighteen nominated by the advisory council. These appointments are to be confirmed by the Senate. Each member is to be an expert in his line—say, on live stock, another on grain, another on dairy, and poultry products, and others on cotton, tobacco, fruit and vegetables.

The commission is authorized to determine by survey and map publication relating to the parts of the country where there exists or may exist during the ensuing twelve months a surplus in excess of normal supply of agricultural products in such commodity handled by such commission and report its findings.

**Senator McKinley Is Defeated in Illinois.**

Chicago.—Senator W. B. McKinley, who, for twenty years has represented this State in Washington, at the recent primary election was defeated by more than 10,000 plurality by Col. Frank B. Smith, the latter winning on an anti-world court platform.

The anti-world court leaders believe that the sentiment in Illinois on the question is indicative of the sentiment of the West, if not of the entire country, and that it presages the defeat of numerous other candidates for re-election to the senate who voted for the world court measure.

The wets believe that the paramount issue in Illinois and elsewhere in November will be the modification of the Volstead act and for that reason manifested greatest interest in the nomination of George E. Brennan for senator by the Democrats on a modification platform. As Colonel Smith voted dry while in congress, it is assumed that he will take the dry end of the argument in the contest with Brennan.

Senator Dale (Dem., Ill.) and Senator Edge (Rep., Ill.) said they considered the large Illinois vote in favor of boxing as clear indication of the reaction against summary legislation.

**Passes \$82,500,000 Road Bill.**

Washington.—The house passed a bill authorizing an appropriation of \$82,500,000 for federal road aid to states in 1928-29.

The bill immediately was signed by Governor Blaine, who called the special session to meet the emergency which he declared due to the action of the board of health of Chicago in barring milk from untested herds.

**To Bar Doubtful Milk.**

Milwaukee.—Milwaukee will be closed, starting October 1, to milk from cows that have not passed the tuberculosis test.

**Burbank Left \$200,000.**

Santa Rosa, Cal.—Mrs. Luther Burbank has bequeathed in the Superior Court special executors of the estate of her husband, the famous horticulturist. The estate, valued at approximately \$200,000, was willed to the widow.

**Aged Slayer Sentenced.**

### Lay Them Right Over the Old Shingles

WHEN your shingle roof must be replaced, you need no longer suffer the houseful of dust and dirt, litter, annoyments and expense of ripping off the old shingles. Leave them where they are and lay Johns-Manville Asbestos Shingles right on top of them. Then you'll have a roof that is fireproof and everlasting; you'll get the benefit of the splendid roof insulation afforded by the old shingles and, most important of all, you will have re-roofed for the last time.

#### RE-ROOF FOR THE LAST TIME WITH JOHNS-MANVILLE ASBESTOS SHINGLES

Lay Johns-Manville Asbestos Shingles right over the old wooden shingles and you eliminate roofing troubles and expense for all time because Johns-Manville Asbestos Shingles will last as long as your building stands. They are mineral—nothing in them to rot or burn; they will not warp, curl or split; they never need paint; they're easy to lay and they are most attractive in appearance. Does your roof need replacement? If so, it will pay you to get full information about this method of re-roofing with Johns-Manville Asbestos Shingles. See us at once. We can do the work for you quickly, easily and economically.

Write, call or telephone today for full particulars, estimate, etc.

### Walled Lake Warbles.

The Woman's Civic Welfare club gave a benefit dance at the new Casino on Wednesday night, which was well attended.

At a meeting of citizens who are interesting in having an efficient fire-fighting force at Walled Lake the following officers were chosen: Chief, Bohart; Captain, secretary, C. E. Rose. This community has a good fire fighting outfit and our citizens respond quickly to every call for help.

At the recent father-and-son banquet held at the High school building Clarence Viles, Superintendent of the Birmingham schools gave a very interesting address on the subject of "Good Fellowship." Julius Nelson, a senior, presided as toastmaster and filled the position with credit. A trio sang and the High school orchestra contributed several numbers to the enjoyable program.

### Salem Sayings.

The last church night of the season will be observed at the Salem Federated church on Friday evening, May 1st, when the American Legion will be the special guests of the church. Prosecuting Attorney Brucker of Saginaw county will be the speaker. The public is invited. Dinner at 8:30—entertainment at 9:30.

On Friday night, May 1st, a play "The Path Across the Hill" will be presented at the town hall as a benefit for the Salem Parent-Teachers Association.

### GRANT HUDSON TO BE A CANDIDATE.

It is announced that Grant M. Hudson, now serving his second term as congressman from this district, will be a candidate at the primary election this fall to succeed himself. Mr. Hudson is not only a man of distinction among men of ability in Congress but he is also a man of conscience and dependability. He has made a good record for the people of this district and with his experience in Washington will be able to do even better in the future.

He ought to be no question of Mr. Hudson's return to Congress for another term.—Milford Times

Mr. Grant Hudson is to be a candidate to succeed himself as congressional representative from this district and while he is busy attending to his department work, there is a certain element of risk throughout the district owing to threats sent against him. The friends of Mr. Hudson will do well to keep their ears to the ground and their eyes open and to look after him, while he is in Washington looking after the people's interest. It would certainly be a great mistake to make a change this year.

### ONE HUNDRED YEARS OF RAILWAY HISTORY.

One hundred years ago last Saturday, April 17th, 1826, the Michigan & Huron railway was chartered. The line is then 11 miles in length and was the first railway line portion of a project in this country. It took nearly five years to construct the 17 miles of railway, and though that small beginning then has been developed during the passing hundred years the great New York Central system or nearly 7,000 mid-sides 256 and miles, constructed by other companies throughout America.

Surely the railways have been the real developers of the country and the builders of our great cities.

### PICK JULY 20 FOR FARMERS DAY DATE.

Farmers Day, the annual summer gathering at the Michigan State College will be held on Friday, July 20th, this year according to announcement just made at the college.

Except for the addition of new features the program for the day will be quite similar to that of former years. It will include inspection of the college experimental plots and barns; a big opening program and a schedule of picnic features.

More than 8,000 farmers and their families gathered at M. S. C. for Farmers Day last year.

### WOODWORTH-HAMILL.

An announcement has just been made of the marriage of Maurice A. Woodworth and Miss Ada Hamill, daughter of Mr. and Mrs. F. W. Hamill, which occurred on Sunday, February 21st at Ypsilanti, Michigan. Both Mr. and Mrs. Woodworth are popular young people of Plymouth and their many friends extend congratulations. Plymouth Staff. Mr. Woodworth's Northville friends will extend hearty congratulations.

### REMEMBERED HIS HOME CHURCH.

The First Presbyterian church of Birmingham will receive \$2,000 from the estate of the late Warren D. Clibze, according to the terms of the will and \$800 will go to the Knights of Pythias of Birmingham to be used as a nucleus for a foundation fund. Mr. Clibze will be kindly remembered among Knights of Pythias of Michigan as having served as Great commander of the state for a number

### THE HIGHWAY IS NEEDED.

It is announced that M-36, running from Toledo to Bay City, is to become a federal paved highway, the expense being divided between the federal and state governments. This road traverses Oakland county from near Redford to Pontiac, Orion and Oxford and thence to Lapeer and Bay City.

**WHAT ALS THE PIG!**  
Although it has been generally known that there are a dozen or more blind pigs operating in the vicinity of Redford, there have been none of these refreshment parlors in Redford until lately. Redford's own pig operated for a few weeks, but recently it has acted like a dead Wigglesworth of Grosse Ile.

Redford Record. Just testing to become a hog, most likely.

Commerce—A pretty and quiet wedding took place at the home of Mr. and Mrs. Eugene Cranes Sunday when their daughter, Miss Minnie E. Cranes, was married to R. Kenyon Wigglesworth of Grosse Ile.

## LOCAL

Mr. and Mrs. E. Potts returned home from Florida last week.

The Pere Marquette Railway Company recently placed an order for 350 cars.

A number of new residences are to be erected in Orchard Heights this season.

Detroit will play Chicago at Navin Field Sunday, Monday, Tuesday and Wednesday.

Ward Moshimer and William Hill left Monday for Los Angeles, Cal., where they will work in a garage.

Remember the T-bone to be given at the High school gym to-night. There will be good music and a good time.

Harold Warner is in Harper Hospital suffering from an attack of blood poisoning. Farmington Enterprise.

Frank Butler has started the construction of a beautiful residence on the Fishery road in Orchard Heights.

Mr. and Mrs. Charles H. Ely, who spent the winter in Florida, have re-

turned to their home in Farmington.

Rev. F. P. Knowles and E. S. Beard attended a meeting of the Detroit Presbytery at Royal Oak Monday and Tuesday.

Gus Barnhard has purchased the Andrew Leedster residence on North Center street and will remodel it into a modern home.

Mrs. May Henry, Mr. and Mrs. Carl Ely and Dr. R. Ferrin left the first of the week for Muscle Shoals, to look over conditions down there.

Rev. F. B. Carter, pastor of the Baptist church at Orion is just completing his twelfth residence in that growing village, says the Review.

Mr. and Mrs. J. M. Hall arrived here Monday from their winter sojourn in Florida. They report a very enjoyable winter in the southland.

Mrs. Mary Reynolds who has been spending the winter in California expects to start for home soon. She will visit a sister in Oregon on her way to Michigan.

Rexford is soon to have a new telephone building which will be modern to the last word. The total cost of the site, building and equipment, says the Report, will be \$30,000.

**DAWSON, ONCE PRIDE OF YUKON, IS FADING**

**Scene of 1900 Gold Rush Slipping Into Oblivion.**

Dawson City, Yukon—A bunch of the boys no longer whoop it up in the Malamute saloon, nor is there a ragtime kid around to hit a leg tune tune on the music-box. This episode dealing with the demise of Dangerous Dan McCreary and the rest of the lads known as "lone" are but vague memories of by-gone days as far as this town is concerned.

When Robert Service wrote his "Shooting of the Mayor," the little school was open or closed at night according to the gold assay of 25 years ago. Now, though, it's open at all hours. It closed down to the bodies—the dimpled gold nuggets. Today will find children again standing at the last stages of decay.

It's still there, the city of 30,000 that had more than 100,000 people in its

heyday, a city that had its

thousands of houses, stores, bars and restaurants swept into the modern city of the North. Fortunes were made fast at night. The miners made the fortunes, the bankers on inflated terms, gamblers at the faro tables in the scandalizing gambling halls went the same way.

Thousands dragged their bodies over the frozen wastes, many to fall from exhaustion before the journey ended to the golden city. The North exacted a heavy toll from those who would invest fortune on its grounds.

With the exception of the California strike of '99, the rush of 1900 was the greatest in the history of mining. Hundreds of millions of dollars were invested in mines, from the ground. For more than ten years the yield stood up under the advertising.

Then came the tailings of the strike. From 1900 to 1920, 25 million gold miners left the Yukon droppings to the ground.

NOTICE TO PARENTS AND GUARDIANS OF JUNIOR AND SENIOR HIGH SCHOOL PUPILS!

The school authorities believe that excessive idleness and tardiness will only impair the well-being of the junior pupil but often lowers the standard of the entire school and can result in every possible trouble which can be taken to prevent the lowering of the standards in any way. After investigating the method adopted by some of the best High schools in our vicinity we have decided upon the following method to be carried out to the very best of our ability:

The first time a pupil is tardy or absent without presenting a legitimate excuse, the parent or guardian will be notified and urged to cooperate. The first time a pupil is absent or tardy after the parents' receipt of such notice a second notice will be sent asking for personal conference with the parent. In case the parent fails to respond to this notification, the pupil will be sent home. If he is tardy or absent a third time, he will not be permitted to return unless the parent returns with him.

Legitimate excuse must be serious.

MAY FESTIVAL TO BE A RARE MUSICAL TREAT.

Ann Arbor's renowned May Festival will take place during the four days of May 19, 20, 21, 22. It will consist of six concerts in which many of the world's greatest musicians will unite their efforts in programs which will have wide appeal.

The list of stars includes Florence Austral, English soprano; Marie Süßenbuss, Spanish-American soprano; Louise Homer, greatest American contralto; Jeanne Layal, noted oratorio singer; and August Lensta, contralto of the Chicago Civic Opera Company. Three tenors, Giovanni Martinelli, Richard Crooks and Charles Stratton, will participate.

Richard Bonelli, baritone of the Chicago Civic Opera Company; Theodore Harrison, head of the voice department of the University School of Music, and one of America's greatest Elijahs, will sing baritone roles,

while James Wolfe of the Metropolitan Opera Company; and Barre Hill, a brilliant young Michigan artist, will sing bass roles.

Albert Spalding, American violinist,

will be heard as well as Mischa Lévititzki, world favorite pianist.

The University Choral Union of 300 voices will sing under the direction of Earl V. Moore. The Chicago Symphony Orchestra of 70 players will participate under the baton of Frederick Stock, while Joseph E.

Maddy will lead a chorus of several hundred school children in chorals works. Howard Hanson, a noted

orchestral conductor, music school

administrator and a composer who has

attracted wide attention, will appear

in a role of guest conductor in the

world's first performance of his own

work entitled "Lament for Beowulf"

written for chorus and orchestra. He

will wield the baton over the Choral

Union and the Chicago Symphony Or-

chestra.

This splendid list of offerings has attracted commendation of leading

music authorities all over the United

States, such as Rudolph Ganz, con-

sidered the St. Louis Orchestra Ar-

chitect, Charles Goodman, Conductor of the Min-

nneapolis Symphony Orchestra, Howard

Whittemore, president Chicago Mus-

ical College, James Francis Conn

and Eddie William G. Walter, execu-

tive director, the Curtis Institute

of Music, Oslo, Gaithersburg, organi-

zation of the Detroit Symphony Or-

chestra, Charles Frederic Morse, con-

ductor "Orpheus" and Madrigal

club Detroit and many other un-

named people.
