Pictorial Patterns.

The Extra Large Tub
Is What Makes It
Speedy

The EASY Washer does not depend upon violent agitation of the water for its speedy action in washing the clothes. Violent agitation is not consistent with the long life of clothes.

The ability of the EASY to get the washing done in a remarkably short time is due to its extra large tub. Instead of washing only a few pounds of clothes in a tubful, as small washers do, it washes 14 pounds to a tubful—60 pounds of clothes per hour.

Arrange today for a demonstration of the EASY in your home. Sending for this washer on approval places you under no more obligation than if you came to our store to look at it.

FIRST NEW STINSON PLANE NEARLY READY.

The first new plane made in the local plans of the Stinson Airplane Company was taken to the landing field being used by the company on the Staffweather farm on the Six Mile road Tuesday afternoon and evening and the work of putting on the finishing touches and testing was carried on Wednesday and yesterday. The new plane is practically a reproduction of the Stinson plane that has been flying about this section since the factory was established here.

Four other planes are in the factory in various stages of construction and one of them will be completed within a short time. Others will follow as rapidly as possible.

VILLAGE COUNCIL BUYS NEW FIRE TRUCK.

At a meeting of the village council Monday night it was decided to purchase an Ahrens-Fox fire truck. The members of the committee to whom the matter of purchasing a new truck was referred visited a number of towns and cities and it was their opinion that the Ahrens-Fox offered the most for the money. Detroit City has some thirty of these machines and those who are associated with the department speak highly of them.

The new truck will arrive within a few weeks and then Northville can boast of having an up-to-date fire fighting unit.

The new truck is equipped with a vertical double action piston pump with a capacity of 600 gallons of water a minute. The Ahrens-Fox has been engaged in the manufacture of fire engines for many years and Chris Ahrens, father of the present head of the firm of Ahrens-Fox worked on the first steam fire engine made in America. The company was fortunate in being able to deal direct with the principals of the company and thus a considerable saving was effected.

COMMUNITY GOSPEL MEETINGS.

A very interesting and inspiring series of meetings is in progress at the Baptist church. The Christian and Missionary Alliance which had planned to conduct a series of meetings at the church, the offer of the Baptist people to use their building. All the meetings of the week excepting Sunday morning are in charge of the Alliance evangelist W. Van der Valk. He is doing the preaching and is ably assisted by a corps of gospel singers. Instrumental and vocal numbers are rendered in each meeting. On Friday evening of this week between 8:15 and 9:30 a special musical program will be presented, including Mr. Ralph Ford, vocalist of Newark, N. Y. Next Sunday evening Evangelist Van der Valk will speak on "The Return of Jesus Christ—the Next Stroke of God's Glo."

SELLEY FAMILY HOLD ANNUAL REUNION.

Mr. and Mrs. Fred A. Selley were chairman hosts to the members of the Zachariah Selley family reunion held at their home on east Flint street on Sunday, July 25th. A two-course dinner was served at long tables set on the lawn. Following dinner an election of officers was held with the following persons chosen: Morris Jay, president; Mrs. Ernest Bailey of Birmingham, secretary; Carl Kemp, treasurer. This was the second annual reunion of this family and there were fifty-five members present from Detroit, Birmingham, Pontiac, Owosso, Flint, Northville and Pontiac—Oron Review.

PUBLIC MEETING CALLED TO CON- SIDER PAVING.

By order of the village council a meeting of the citizens of Northville will be held at the High school auditorium on Friday evening of next week the 13th for the purpose of considering the question of paving certain streets in the village.

It is the opinion of members of the council that some definite program should be agreed upon and that some pavement should be constructed each year as the finances of the village will permit. All who are interested in this matter are urged to attend this meeting when the plan will be fully explained.

OLD BUILDINGS SOON TO BE RE- MOVED.

The old buildings occupied by Sutton & McCullough with their second-hand goods and farm implement repairs will soon be removed by the Ford Motor Company and the grounds about the buildings will be cleaned and made attractive. No definite action will be taken with the old stone building on the corner of Main and Horton streets. These buildings are among the oldest in Northville and their removal will be a great public improvement.

Enjoy the band concert Saturday night with your neighbors.

NORTHVILLE NEEDS LARGER POSTOFFICE QUARTERS.

In order to provide more room for the local postoffice a portion of the room heretofore occupied by Hulls & Hotelling as a bath room has been partitioned off and the rural mail carriers will be transferred to the new annex, the space they now occupy being badly needed for the expanding business of the office.

The postoffice quarters have been too small and inadequate for a long time and with the increasing amount of mail being received and dispatched each month the present room is altogether out of date. This condition can very easily be remedied and a commodious and modern postoffice secured for Northville if the people demand that a change be made.

C. R. Horton would be pleased to enter into a contract with the postoffice department to rebuild the old Alceum theatre building to meet the needs and requirements of the local postoffice. This plan is not only practical as far as the postoffice is concerned but the plan would also make a great public improvement, removing as it would the old wreck of a building now an unsightly object on our main business street. Congressman Erickson assured the writer when he last visited Northville that he would be pleased to recommend larger and better quarters for the office just as soon as a suitable building could be secured.

Here is a chance to improve conditions at the postoffice and also to improve the general appearance of the town.

EDDIE STINSON WILL BE AMONG THE RELIABILITY FLYERS.

The Detroit sponsored second annual commercial airplane reliability tour for the Edsel B. Ford trophy which is scheduled to start from Ford Airport, Dearborn, August 16 calls attention to the strides made by Michigan during the past 12 months in development of its aircraft industry. Between 1914 and 1925 planes will be entered in this year's tour and 14 cities will be visited during the tour, which will take two weeks. The cities included in the itinerary are: Kalamazoo, Chicago, Milwaukee, St. Paul, Des Moines, Lincoln, Wichita, Kansas City, Mobile, Indianapolis, Cincinnati, Cleveland, Fort Wayne and Dearborn. The cities will be visited in the order in which they are listed. The distance to be covered is approximately 2,545 miles on a single trip, the longest jump being from Milwaukee and St. Paul, a distance of approximately 300 miles. Michigan Manufacturer Eddie Stinson of the Stinson Airplane Company of this place will take part in the contest.

ROTARIANS HEAR INTERESTING TALK ON MONDAY.

Prof. Claude Ford of the State Normal College, Grand Rapids, and past president of the Rotary Club of that city, gave a very interesting address before the Northville club at its luncheon on Monday. He elected for his theme "Good Fellowship" and in a forceful manner stated that good fellowship was one of the cardinal principles of the great Rotary movement, and the practice of that precept men are drawn together in movements having for their objects the uplifting and improving of the communities and in the cultivation of a spirit of co-operation and helpfulness that argued well for the times in which we are living. He declared that to be a good Rotarian meant to be a good citizen and that Rotarians must stand for all the good things in our community life if they were to measure up to the highest principles and precepts of the organization.

New Members had a birthday during the week and he passed the cigars.

SOME DIFFERENT NOW.

Mr. and Mrs. J. D. LaRue of Ypsilanti will leave tomorrow for a week's outing at the Sesqui-Centennial, Philadelphia and Atlantic City. Mrs. LaRue possesses the diary of her grandfather, the late J. M. Simmons of this place, which describes the visit of Mr. and Mrs. Simmons to the Centennial fifty years ago. It is interesting to note the advance in prices since that time. Board and room in Philadelphia was \$1.25 per day at that time. They had an extended trip, including Washington, New York City up the Hudson to Albany and Niagara Falls and the entire expenses for Mr. Simmons and wife were \$75.00.

THE GLOBE FACTORY IS A BUSY PLACE.

The plant of the Globe Furniture & Manufacturing Company of this place is a busy place these days. An order for seats and other equipment for a Jewish synagogue at Orlando, Florida, will be shipped this week and an order for seats and pulpits for a new church received from the Capitol Avenue Baptist Church of Atlanta, Ga. This is usually a quiet time of year at the plant.

Dollar Sale!

Folks, Look! You'll hardly believe your eyes when you stop here tomorrow and see the great Big Bargains you can purchase for one "lone dollar." MEXICO IN THROES OF RELIGIOUS WAR

Rioting in Many Sections as
All Catholic Churches
Are Closed.

Paul Smith, N. Y. —Owing to the strained relations between the Church of Rome and the state in Mexico, President Coahuila has no intention for the present of lifting the United States embargo on the shipment of arms and ammunition to the southern republic. This was made known in an executive order issued from the summer White House.

San Antonio, Texas.—Hundreds of nuns, priests and teachers have crossed the border into the United States, many of the sisters disguised for fear of detention.

Mexico City.—All Catholic churches have been closed in Mexico and all Mexico is in the throes of a religious war, the outcome of which is a worry to the entire world. Rioting is reported in many sections and great loss of life is feared.

Detachments of federal troops are patrolling the streets and roads in the villages and open country of the federal district, ready to give assistance to municipal authorities, of the towns and villages, when disturbances arise over the religious situation. The troops, traveling in motor cycles and automobiles, have instructions to shoot anyone offering resistance.

These steps have been taken because of reports of intense excitement in the suburbs and outlying villages, especially among the Indians.

Agents of the department of justice closed and sealed church structures, except places of actual worship, under the orders of the attorney general. These structures include offices of archbishops and bishops, churches, shrines and places where church treasures are kept. Numerous churches in the same line suspended services of their own accord.

Mrs. E. C. Clegg, in charge of a special legion in Mexico, since expelled of Mexico, continued duty was ordered by the president.

The order came at the direction of the president, who because the situation might be of his presence.

Mrs. Clegg was given a special pass to enter the country, but on entering the country, she was arrested by the police.

When she was released, she was given a pass to enter the country, but on entering the country, she was arrested by the police.

When she was released, she was given a pass to enter the country, but on entering the country, she was arrested by the police.

U. S. Crop Area Is Cut 5 Per Cent in Five Years

Washington.—Despite escalation of wheat acreage in the United States, the crop area in the United States is still smaller than it was five years ago, according to a report of the United States Department of Agriculture.

The report states that the total area of the United States that has been shown in any census period.

Decreases in crop acreage have occurred principally in the eastern cotton belt, in the corn and winter wheat belts, the eastern and southern portions of the corn belt, the hay and dairy region from Lake Michigan to the Hudson valley, and in eastern Washington and California.

Increases, on the other hand, have occurred in the semi arid western portion of the great plains region, extending from south eastern Texas to Montana and beyond; in the upper portion of the Mississippi river bottom; central Florida; southwestern Colorado and in northern Minnesota and Wisconsin.

The reduction in crop area represents a decrease of 5 per cent for the five-year period, the 19,000,000 acres having reverted to pasture or been allowed to lie idle. During the same period, however, the acreage of forest, cropland and woodland increased about 8,000,000 acres.

Radio Manufacturers to Seek Broadcasting Rule

New York.—Announcement was made here that the radio apparatus section of the Associated Manufacturers of Electrical Supplies has made plans for the formation of a national radio protective committee which will call a convention to take steps to govern wave-length jumping by broadcasting stations.

It is said, had been planned by the radio manufacturers association. This is believed marks the first step by the radio industry to put broadcasting on a self-governing basis.

City Loses Its Police Force

Warren, Ohio.—Unable to pay salaries to police officers, the city council has dismissed Warren's sixteen policemen. Warren has a population of 40,000.

Detroit Wins on "Jimmies"

Detroit, Mich.—Police have issued tickets to several hundred "Jimmie" drivers in continuance of Detroit's campaign in behalf of licensed carriers. The charges are "traffic violation."

WEST POINT PARK CHURCH

Sunday school at 12 noon. Lloyd S. Gullen, Sunday school superintendent

VILLAGE ORDINANCE

An Ordinance for the safeguarding of Life and Property by the Regulation of Electrical Wiring and the Use of Electricity.

SECTION 1. The Inspector of the Michigan Electrical Bureau shall act as Electrical Inspector for the Village of Northville. Said Inspector shall have supervision over the installation, additions to and alterations of all electric wiring, connections, apparatus, and of all electrical equipment installed within the Village of Northville in or on buildings.

SECTION 2. All such electrical wiring, connections, apparatus and equipment shall be maintained, used and installed in accordance with the provisions in the latest edition of the "National Electrical Code," the accepted American standard for electrical construction, approved by the American Engineering Standards Committee. In addition to the following rules shall apply:

1. Conductors of all electrical wiring shall be required in all buildings within the city limits, in all buildings outside the city limits except dwellings, and in the basements of all dwellings.

2. The "loop system" of wiring shall be used in all electrical installations.

3. Only 1/4 inch knobs with suitable screws are approved.

4. Outlet boxes, 1/2 inch deep are required on all side wall light outlets.

5. Armored cable or so called BX shall enter all outlet boxes or plates with an approved connector.

Branch circuits are limited to 300 watts.

Kitchen outlets must be on separate circuits.

SECTION 3. No person, firm or corporation, shall install, alter or use any electrical wiring, apparatus or equipment subject to the terms of this ordinance without first notifying the Village Clerk, on an application blank provided for that purpose.

Such notice shall in all cases be given before any wiring or equipment becomes subject to electrical work.

SECTION 4. It shall be the duty of the Inspector to examine each electrical installation or alteration before it is made in said Village of Northville, and to determine the same in accordance with the provisions of this ordinance.

SECTION 5. The Inspector shall have the right to enter any building or premises for the purpose of examining any electrical wiring, apparatus or equipment installed in the Village of Northville, and the same shall be done at the time of issuance of permit.

SECTION 6. For the inspection of all installations of electrical wiring, apparatus or equipment hereafter installed in the Village of Northville, the following fees shall be paid to the Village Clerk at the time of issuance of permit:

Wiring for incandescent lights — equipment for 4 circuits or less \$2.50. Each additional circuit up to and including 20 circuits — 25.

Each additional circuit over 20 — 10. All plugs in kitchen rated at 500 watts, and should be on separate circuit. Installation—Furniture for 50 lights or less — \$2.50.

Each additional 10 lights or fraction thereof — 25.

Wiring and Fixture Inspection at same time—No more than 4 circuits and 50 lights — \$4.00.

Drop cords only, and not more than 15 lights — \$2.50.

Electric Ranges and Heaters—Each heating unit, or plate — 25.

Refrigerators for charging outlets—Each equipment — \$1.00.

Electric Signs—50 light sign or less — \$2.50.

Each additional 20 lights or fraction thereof — 25.

Wiring Motors and Generators—10 h. p. or K. W. or less — \$1.00.

Each additional h. p. or K. W. up to and including 5 h. p. or K. W. or less — 10.

Each additional h. p. or K. W. over 5 — 10.

Minimum fee for any trip or inspection — \$2.50.

SECTION 7. Any person, firm or corporation who shall violate any of the provisions of this ordinance, shall, on conviction thereof, be punished by a fine of not less than \$10 nor more than \$100 together with costs of prosecution, or by imprisonment not exceeding sixty days, or by both such fine and imprisonment, in the discretion of the court, and upon failure to pay such fine and costs of prosecution, may be imprisoned for any time not exceeding sixty days unless payment thereof is sooner made, and if imprisonment, he shall be in any case it shall be in the County Jail of the County of Wayne, Michigan.

SECTION 8. All ordinances or parts of ordinances conflicting with the provisions of this ordinance are hereby repealed.

SECTION 9. This ordinance shall take effect within 30 days from the date of its passage.

SECTION 10. This ordinance shall not be construed to relieve or lessen the responsibility or liability of any party owning, operating, controlling or installing any electric wiring or devices, for damages to persons or property caused by any defect therein or shall this village be held as assuming any such liability by reason of the inspection authorized herein.

The above ordinance was adopted and passed at an adjourned regular meeting of the Village Council on Monday evening, July 19th, 1926.

ELMER L. SMITH, President.

THOMAS E. MURDOCK, Clerk.

OLD REDFORD CEMETERY ABANDONED.

With the removal of the tombstones Wednesday, the work of vacating the old St. Mary's cemetery at Grand River and Division road was completed according to H. G. Wilson, in charge of the work. Four hundred eighty bodies were removed from the burial plot to the new Catholic cemetery on the Eleven Mile road since the operation was started May 25th. Redford Record.

WASHTENAW COUNTY FAIR NOTES

Displays in the merchants' building on the Washtenaw County Fair grounds for the 1926 exposition, which opens this month will, it is believed, excel in quality and attractiveness any previous combined efforts of Washtenaw county merchants. This building has proven of such benefit to the merchants and business men, by putting them in direct personal contact with their customers than particularly two thirds of the lessors have at this early date renewed their contracts for 1927-28-29-30, although their present lease does not expire until the close of 1926 fair.

High booths are reserved for flower exhibits and displays which promise to eclipse displays of former years in this division.

The second story, too, will be filled with exhibits and excellent displays. Among the latter will be the 22nd State Fair display which should interest every visitor at the 1926 Washtenaw County Fair.

NEW YORK MAN HEADS MICHIGAN BELL TELEPHONE CO.

Burch Foraker, a telephone operator, was chosen at a meeting of the board of directors of the Michigan Bell Telephone Co. as president to succeed Theodore J. Judge, who died on June 16th. Mr. Foraker is in Detroit and will assume the duties of president at once.

No change for additions in the general plan of the Michigan Bell company will follow the selection of Mr. Foraker, it was announced today at the meeting of the board of directors in Detroit. Announcement of the election of the new president was made by G. W. Wilson, vice-president and general manager.

The Michigan Bell is carrying on a program of construction and other work in Michigan, including the building of a new plant at the Grand River and Division road, and the building of a new plant at the Grand River and Division road, and the building of a new plant at the Grand River and Division road.

M'KINLEY FIRM GAVE CASH TO AID SMITH

Slush Probe Reveals All Illinois Utilities Helped.

Chicago—Col. Frank L. Smith had the financial backing in the Illinois primary of all three major groups of public utilities interests, including the Illinois Power and Light company, of which Senator William B. McKinley is nominal chairman of the board.

Former Congressman Ira C. Copely of Aurora, who developed the \$50,000,000 Western Power and Electric company, contributed \$25,000.

Clement Strickland, who headed the company of financiers who took over the McKinley utilities interests, including the company as chairman of the board, contributed \$20,000.

This makes the total of direct contributions to Colonel Smith's campaign from the utilities \$65,000.

In addition to this Mr. Smith contributed \$10,000 to the (Columbia) Cook county club, and \$10,000 to the South Bend club, and \$10,000 to the South Bend club, and \$10,000 to the South Bend club.

The public utility contributions to Colonel Smith's fund, assuming that the Schuyler \$2,500 is a new item, now stand:

By Samuel Insull direct	\$125,000.00
By predecessor group	33,735.19
By Colonel Copely	5,900.00
By Clement Strickland	20,000.00
By Daniel Schuyler	2,500.00
By Insull to Croge group	10,000.00
Total	\$216,235.19

Insull's total contributions, including the Schuyler \$2,500, acknowledged to date stand as follows:

To Smith, direct	\$125,000.00
Propaganda for Smith	33,735.19
To Croge-Barrett committee	10,000.00
To Dancien-West committee	10,000.00
To Smith by Schuyler	2,500.00
To George L. Brennan	15,000.00
Total	\$216,235.19

Widow Is Arrested in Double Murder Mystery

New Brunswick, N. J.—Mrs. Frances Stevens Hall, widow of Rev. Edward W. Hall, pastor of the Protestant Episcopal church of St. John the Evangelist, who was shot and killed with Mrs. Eleanor Mills on September 13, 1922, was arrested in her home in New Brunswick, charged with the murder, and locked in the Somerset county jail in Somerville.

The arrest was the result of charges made by Arthur S. Rehl, in a petition for annulment of his marriage to Louise Geist. The girl at the time of the murder was employed as a maid in the Hall household.

Mrs. Hall was released in bail of \$15,000.

150 LOST IN STORM; 8-MILLION DAMAGE

Two Hundred Vessels Are Missing After Gale Hits Bahama Islands.

San Juan, Porto Rico.—Towns and villages of Porto Rico are still cut off from communication with the capital, but, according to Secretary of Agriculture Chardon, more than 100 persons were killed and about 100 injured in the recent hurricane. Thousands are homeless and the total damage is estimated at \$8,000,000.

Toronto, Japan.—The toll of dead and missing in the floods which have ravaged Nippon, according to the latest report of the Japanese government, is placed at 100,000 and the damage to property at 10,000,000 yen (\$35,000,000), as numerous reports of relief workers entered the stricken district.

Nassau, New Providence Island, Bahamas.—Raged by wind and wave with more than 100 persons missing, the Bahamas Islands were directly affected from communication with the outside world while anxious residents took further count of the toll of destruction from the worst hurricane in the recorded history of the islands.

The majority of those missing are believed to have been drowned with the sponge fishing fleet which set sail a few days before the West Indian hurricane struck the islands. Several vessels must have been lost before the toll of death and shipping and property damage is known. While conservative estimates place the damage at \$8,000,000, reports have not been received from several islands of the group and communication with them has not been established for days.

Nassau, the beautiful capital of the Bahamas group, with a population of more than 12,000, presented a picture of desolation. Debris from uprooted trees, wrecked houses and splintered boats washed up by the waves cluttered the stately driveways of the city, where virtually all business has been suspended. Abandoning of one to search for missing persons and to ascertain the conditions of other islands under her admiral's command. The latter islands of the group are known to have suffered severely, but inside the full extent of the damage and the extent of the damage was at Nassau and the loss of 100,000 dollars from Miami.

Only three fishing ships were left in Nassau harbor from a fleet which were anchored there. Between 100 and 200 sponge fishing vessels, carrying from 25 to 50 men each, were destroyed at Nassau and other islands, not counting the sponge boats, some of which possibly found shelter in isolated bays or near uninhabited islands.

Nassau had no power warning of the advance of the hurricane. The tropical radio station near Miami radioed weather reports when high winds and a rapidly falling barometer indicated the approach of a storm. The wind steadily increased in velocity and becoming a gale, lashed the island tearing houses from their foundations and uprooting trees. Wires were blown down and the public utility plants damaged to such an extent that the city was plunged into darkness. The government record showed the wind reached its velocity peak at 150 miles an hour.

Clearing the harbor into a seething mass of waves, the hurricane piled waves high over the wharves into Bay street, a flood into the city. Soon a gale swept down from the north west, sweeping the onrush from the Caribbean and still waves lifted high from their moorings and sent on to the wharves. Several were blown to sea.

In Florida the greatest damage seems to have been done to Palm Beach and West Palm Beach with the total damage to above \$1,000,000.

WASHINGTON BRIEFS

According to figures made public by the Department of Commerce, finished manufactured products continued to lead the exports of the United States during June.

A small army of workers has been busy both inside and outside the White House effecting the repairs and improvements authorized by congress at its last session.

The shipping board has resuspended a regulation prohibiting privately owned American ships from furnishing free transportation to the clergy. The prohibition, however, still applies to government-owned vessels.

Profits received by real estate dealers from the sale of land are subject to income tax, according to a ruling made by A. W. Gregg, counsel of the internal revenue bureau.

Freed in Shame Suicide Case
Tia Juana, Mex.—Zenaido Llanos, former police chief and three others charged with offenses against Clyde and Andrew Pérez, American girls, here last February, were acquitted by a jury in the court of first instance here.

For Protective Sugar Tariff
Honolulu, T. H.—The territorial Democratic convention here adopted a platform favoring a protective tariff on sugar.

Novi News.

Miss Isabel Corey of Detroit visited her aunt Mrs. T. Shimm and family, here, for the week.

Mrs. Lonnie Munro, who has been at the hospital in Northville for the past three weeks, will be able to return home in another week or so.

Mrs. Ed Murphy of the Novi Hotel was called to Detroit Sunday by the death of her husband, who fell from a car Saturday, the injury causing concussion of the brain. Funeral Tuesday.

Detroit people are not afraid of the rain. This was proven Sunday evening when about twenty-five or thirty came out and took charge of the services at the Baptist church. These young people have been going out during the summer on Sunday evenings from the First Baptist church and holding services in the street, at churches and nearby places also. This was the first time since the storm Sunday evening by one of the members, a young man who is studying for the ministry, was well worth hearing. The subject, "Deceitability," was well brought out and much enjoyed by all who heard it.

A meeting will be held in the town hall at Novi on Friday evening, August 13th. This will be a political gathering with speakers representing Governor Groesbeck and Mayor Fred Green. Several musical numbers will be given by parties from Detroit. Mr. Henderson of the Novi Board of Commerce will give an address. Two important announcements will be made at this meeting regarding the campaign. Rev. Thompson of the Baptist church will open and close the meeting with prayer. Every elector is urged to be present and hear both sides of the story.

On Thursday of last week occurred a very pleasant gathering at the west Farmington school house and grounds when the Horticultural society and friends met for their regular meeting.

Don Eaton was in charge and several discussions were enjoyed. Mr. Pickford one of the agents looking after fruit conditions reported a large percentage of good among the apple orchards in the state as well as in Michigan. One feature he mentioned being the large amount of crab and other fruit pests in some orchards while in others they were not so plentiful. None were in evidence at north two large tables were spread under the beautiful shade trees and laden with a splendid pot luck dinner to which all did justice not minding the large quantity of ice cream which was so generously served. As soon as the company had "able" a number of cars lined up and drove on a tour of inspection to the farm, thence to the school grounds for "more to come." The host of the ladies remained there for an afternoon visit. The people of that district surely know how to do things and to be commended for the splendid spirit of program. The school house and playground are certainly all that could be desired for the children and in which any school district or neighborhood might well be proud to have.

Mrs. Marlow moved west Sunday that her brother, 47 years old was killed and her sister and a sister injured when a large truck car hit them driving them into the ditch near Lansing where they were on their way here to visit the family of Mr. and Mrs. Marlow who are the proud parents of a boy who came to them July 21st.

Mr. and Mrs. E. A. Sallow and son, Mr. Archie New and L. Woodruff, who are to King on Monday to see Mrs. Clara Woodruff who was badly injured last Sunday when at the home of her agent. She had only gone in the house for a few moments, living close by. Mrs. Legg was preparing to get supper and when lighting the fire she poured kerosene on and it caused an explosion, the flames catching in the clothing of both Mrs. Legg and Mrs. Woodruff. The latter running out doors was met by one of the neighbors who heard the explosion and he quickly wrapped her in a blanket smothering the flames and she was immediately rushed to the Cass City hospital where she is doing nicely and will not, physician says, be scarred very badly. Mrs. Legg ran around the house and before any one could get to her was so badly burned that she died a few hours later. She was taken to Marquette but no doctor could be found there to give her relief from her sufferings. Her funeral was held Monday at her home in Farmington. All business places were closed during the services.

Reason for Cold Weather

The naval observatory says while it is true that in the northern hemisphere the maximum difference between the heat lost at night and that regained by day occurs about December 21, it is also true that there is more lost at night than gained by day for some time after that. In other words one might say that the northern hemisphere cools off most rapidly about December 21, but still continues to cool after that time, though more slowly.

New Smoothness—New Features—New Colors....

Chevrolet again electrifies the world by increasing Chevrolet Values!

Now in the greatest year in Chevrolet history—building cars in tremendous volume to meet an ever-increasing worldwide demand—Chevrolet continues its successful policy of increasing Chevrolet values!

Now Chevrolet adds to the performance, beauty and completeness of equipment that have been winning the world to Chevrolet.

By developing the smoothest Chevrolet in Chevrolet history, by enhancing its smart appearance and by adding features which increase the economy and satisfaction of Chevrolet purchase and ownership!

A triumph of engineering science, today's Chevrolet is the only low-priced car ever to offer every quality of smooth car performance.

Forty to fifty miles an hour as long as you like without the slightest sense of forcing or fatigue! Remarkable smoothness at every speed!

Acceleration that is a delight in traffic! Power that conquers hills—

such are the almost revolutionary qualities attained by a superior method of mounting the motor on the chassis and by a new camshaft with scientifically determined quieting curves.

Come in! Arrange for a demonstration. Admire the brilliant beauty of the new and striking Duco colors on every model! Mark the greater convenience of the centralized throttle and spark control! Note that all enclosed models with their bodies by Fisher now carry an approved stop light as standard equipment and have a front door pocket.

Then take the wheel—and you will quickly learn that today's Chevrolet with its new smoothness, new features and new colors, is a car that only Chevrolet could build—a value that only Chevrolet could offer.

PLANS BEING PERFECTED FOR MILFORD FAIR.

One of the big features of the Oakland County Fair this year will be the three afternoons of horse racing. The track has been reclaimed and is very fast, that real speed contests may be expected.

Served harness events are carded, with \$300.00 and \$400.00 purses for each. Horses from all over Michigan are expected to score for the work and everything points to one of the greatest race meetings in the history of the Association. Trainers, who have made history in the Michigan circuit in its palmy days will be here. Following is the program:

Thursday, August 19
2:24 Trot Purses \$300.00
9:15 Pace Purses \$400.00

Friday, August 20
2:24 Pace Purses \$400.00
2:20 Trot Purses \$300.00

Saturday, August 21
2:13 Pace Purses \$300.00
2:16 Trot Purses \$400.00
Free-for-all Pace Purses \$300.00

The race track has been reclaimed, and Scott says a better one is not to be found anywhere in the state.

The fireworks will be not only a feature of the night fair, but of the afternoon programs as well. The display has been bought of the Hot Fireworks Co. and includes a lot of day-light fireworks as well as the elaborate displays that will conclude the evening programs. Their experts come here to set them off.

Secretary Lovelock has the teams lined up for the ball games. Milford and Holly will play on Thursday, Northville and Pontiac on Friday, and the winners conclude the series on Saturday. As before, Lew McAllister, formerly with the Detroit Tigers, will umpire.—Milford Times

DETROIT MAN DROWNED AT WALLED LAKE SCUBAY.

One man drowned and a man and woman narrowly escaped the same fate in Walled Lake early Sunday morning when the boat in which they were riding overturned in 12 feet of water.

Elmer, then 34, 3457 Harding avenue, Detroit, was on the surface after he was thrown into the water, and his body was recovered 20 minutes later by Fred W. Mass of Farmington, who dove for it.

His companion, Kayles, Deacon, 1211 Fairview avenue, Detroit, was borne under when the third member of the party, Christine, a school teacher, threw her arms about his neck, choking him. Deacon took her only to her, but was hit by the boat from behind. He again tried to get out, but was hit by the boat, struck a blow which quivered her eyelids. He made her to swim with the girl to safety.

Two other members of the party, Mrs. Lillian C. 1211 Fairview avenue, and her sister, Mrs. M. J. Alfred street, both of whom were on shore when the boat overturned.

The five had noticed the Walled Lake early Sunday morning at the cottage of Mrs. H. J. Jones, of 215 Adams street, Detroit. The boat had gone out in the lake about 5 o'clock.

Shirley Pratt, Schiela and Deputy Willie Cole were called and brought the four survivors to shore. After hearing their story, in the presence of Prosecutor Clyde D. Underwood they were released.

A cut on the back of Jones' head leads to the belief that he may have come to the surface beneath the completely overturned boat and stunned himself on some of the metal work. He was 37 years old and is survived by his widow but has no children.—Pontiac Press

STEEL PILLARS AID TO DRIVERS.

Dodge Brothers, Inc., pioneer builders of all-steel body construction of motor cars have proved conclusively that the all-steel body is to supplant the old style wooden body, in the opinion of H. S. German & Sons, local dealers for Dodge Brothers products.

"It is nearly 12 years ago that Dodge Brothers conceived the idea of an all-steel body in their touring cars," says Mr. German. "The public reception of this radical departure from the wooden bodies then in vogue was instantaneous. Today every Dodge Brothers passenger car has an all-steel body."

"Dodge Brothers use steel pillars throughout the car, creating greater vision and safety to the motorists. It stands to reason that in case of an accident, an all-steel body, reinforced with steel throughout, provides a greater degree of safety than was possible with wood construction."

"From the very beginning of their manufacturing experience, Dodge Brothers clearly saw that economical, rapid and uniform volume production could only be secured by the extensive use of steel in place of wood. The sales of Dodge Brothers motor cars throughout the country is indicative of approval of the all-steel bodies which give the maximum strength and rigidity per pound weight."

MACCABEE MERGER NOW COMPLETED.

The merger between the Maccabees and the Ladies of the Maccabees which

has been under discussion for the last eight months has been completed and will go into effect immediately, it was announced by A. W. Frye, the Maccabees' supreme commander.

The merger was ratified by the su-

pereme governing body of the women's organization December 11, 1925, and by the men on January

Potent Sermons at Home

A fine picture, a beautiful flower, a cozy grate fire, a harmonious decorative scheme in the home, preach sermons just as potent as those claimed from the pulpit.

THERE IS NO SATURATION POINT FOR HONEST VALUE

Build a product that the world needs, better than the world expects, and mounting sales will answer those who are constantly predicting a saturated market.

During the first six months of this year, for instance, Dodge Brothers sold 207,115 motor cars and trucks. This represents a gain of 49.3 per cent over the first six months of 1925, and continues Dodge Brothers in the enviable position of THIRD IN THE INDUSTRY.

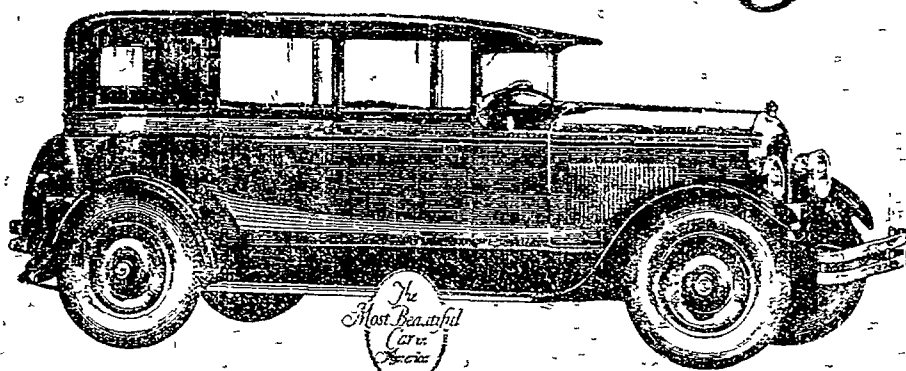

For the three weeks ending July 17th, 23,862 motor cars and trucks were delivered to customers—an increase of 52.4 per cent over the same period last year, and impressive evidence that Dodge Brothers great sales gain is continuing through the quiet weeks of mid-summer.

There may be a saturation point for mediocrity, but honest value will always command a great and ever expanding market.

H. S. German & Sons
NORTHVILLE, MICH.

DODGE BROTHERS MOTOR CARS

see & drive
THE New Paige

...nearly a thousand dollars Less

THE newest Paige cars sell for nearly a thousand dollars less than last year's Paige models. And they do it because Paige is building and selling five times as many cars this year as last. Indeed, Paige sales throughout America registered a gain of 551% in the first six months of 1926.

But even the new low prices of these Paige cars will not delight

you as much as the wonderful performance they display. They are speedy cars, powerful cars, economical cars. Acceleration is instantaneous, while the slightest pressure on their Paige-Hydraulic 4-wheel brakes bring them to cushioned rest immediately. A demonstration will cost you nothing—call or phone—soon.

Oakland County FAIR

August 18-21

DAY AND NIGHT

At Milford

Don't Miss It!

NORTHVILLE FAIR NOTES.

Northville is to have its first annual A. K. C. dog show this fall at the fair. This department is under the direction of Dr. E. B. Cavell and he assures The Record that he will have the finest collection of dogs on display that have ever been shown in this section.

Lovers of horse racing will have a treat at the fair this fall—four days of racing and one day devoted to the saddle horses, with some lively running events.

The free attractions this year give promise of being the best ever seen at a local fair. Three big free acts will be presented each afternoon and evening on the platform. Of course there is an animal act to please the children and the grown-ups.

Water mains have been laid to the grounds and thus the association will have better fire protection than in former years.

The reserved seats are in great demand this year and already a number of boxes have been sold for the season. F. W. Lyke has charge of the sale of the reserved seats.

Work on the new secretary's office will soon be started and the new structure will be a great improvement over the small building that has been used since the fair was started.

An addition is to be built to the main hall running to the west from the present building. This will be used for the community exhibits and for vegetables.

The reserved seats are going like red lightning.

Everything points to a wonderful fair this year and every department will be filled to overflowing as usual. Friday will be children's day when all school children and all other children will be admitted to the grounds free.

The better baby contest will be held on Friday this year also.

The Baptist ladies are going to serve meals under the grand stand again this year. A new cement floor is to be placed for their convenience.

WASHENAW COUNTY DEMOCRATS SELECT TICKETS

Ernest W. Washenaw, twice mayor of an Arbor and holder of other public offices, was chosen Wednesday night by the Washenaw Democrats at a meeting held in County building as head of county ticket as candidate for the office of sheriff.

Mr. Washenaw, who besides having been mayor has served as president of the city council and on the board of supervisors from the first ward, was the almost unanimous choice of the Democrats attending Wednesday night meeting. His supporting committee led by the local leader of his party after the brilliant speech made two weeks ago when he was elected to the position ahead of the opposition.

The meeting Wednesday night was called for the purpose of completing the Democratic ticket, the selection of candidates, of course, not being others from filing petition, and running in the primaries. The county Democratic organization leaders said, simply and not without reason, any county officer won by desert this fall.

D. E. Beach, Chelsea, who is connected with the Washenaw Mutual Fire Insurance Co., was endorsed as a candidate for county clerk. Mrs. Mabel E. Sadtzinger, ex-treasurer of Ipsilanti, was suggested for the office of county treasurer, and Frank Stampfer of this city was proposed as a candidate for register of deeds.

Otto E. Haab, Ann Arbor attorney, was the choice of the Democrats as candidate for prosecuting attorney. The names of Frank C. Cole, Ann Arbor, and Tracy L. Townner, former mayor of Ipsilanti, were suggested for the posts of circuit court commissioners and Dr. E. A. Clark, Ann Arbor, and Carl Waetmner, Manchester, were chosen as likely candidates for coroners.

Harry H. Atwell, Ann Arbor, the only Democrat in Washenaw, now holding a county office, was endorsed as county surveyor and George Gerloch, supervisor from Northfield township, was placed in the field as a candidate for state representative from this district—Ann Arbor Times-News.
