NORTHVILLE'S NEW FIRE TRUCK ARRIVED TUESDAY FORENOON.

Northville's new Ahrens-Fox fire truck arrived in the village Tuesday forenoon direct from the factory at Cincinnati, Ohio. A representative of the Ahrens-Fox Company, in company with Phenold Kukken, of this place, who will have charge of the new fire engine outfit, left the Ohio city Monday night in Monroe, coming on to Northville Tuesday forenoon.

In the afternoon the truck was given an official inspection under the direction of A. N. Kilgour, a representative of the Michigan Inspection Bureau. In the presence of a number of the members of the village council and a number of citizens. The test took place on the bridge at the approach to the Rural Hill cemetery and John Ahrens, of the Ahrens-Fox Company and the fire chief and his assistant from Mr. Olmets, were among the interested spectators. The test required that the engine should pump 600 gallons of water per minute under stipulated pressure, and the test was continued for a period of more than two hours.

From the character of the test and judging from all appearances, it would seem that the outfit would meet all Northville's needs.

It certainly is a fine looking outfit. The new truck will be housed in the new fire hall, and will be carefully looked after and kept in condition for instant use by Mr. Kukken, who has been employed by the company, and who with his family, is occupying a part of the village building.

J. P. Webb is the company's representative who drove the new truck to Northville and he will remain until Mr. Kukken is thoroughly familiar with the new outfit.

BISHOP GOVERNOR RAMSEY VISITS LOCAL ROTARY CLUB.

Monday's meeting of the Northville Rotary Club was one of unusual interest because of the visit of Bishop Governor Ramsey of Des Moines, representative of the International Club of Rotarians. At the meeting the members had gathered on a program which included a talk on the history and progress of Rotaract, a young organization of a non-political nature, and informed the good folk that Governor Ramsey was a Rotarian and gave a very interesting talk and sang a solo on the history and progress of Rotaract, please, especially the work that is being done with boys of the Rotaract communities, of the work of the crippled children, whether, of Rotary education and of community service. It urged the members of the local club to be along all these great movements, and to be zealous in their attendance at their own club.

The compliment of the Northville club upon the spiritual record it has made since its organization, and it mounted all to return to the teachings and life purposes of Rotary the primary object of which is to make better men and better citizens.

During the serving of the meal, Isadore Keeney and Arlene Richardson tarred the company with piano solos, and they were heartily applauded, and each was presented a box of candy as an expression of appreciation of the club members.

STAFF DEBATING LEAGUE TO OPEN HERE TONIGHT.

The state debating league in which 220 High schools of Michigan will take part will open for the season on Friday, November 18th. The subject chosen for discussion this year is:

Resolved, That the United States Government Should Own the Coal Mines, and for its opening debate the team representing Northville has drawn Milford for its opponent. The debate will take place here in Northville, the local team having the affirmative and Milford the negative. The Northville team is being coached by Superintendent W. H. Gordon.

The second debate will take place on December 10th, the third on January 14th and the fourth on February 11th, with the final state championship debate at Bell Auditorium, Ann Arbor on May 10th.

Northville will be represented by Sam Salter Margaret Safford, Lee Lovell and Russell Atchison. The judges for the debate will be Superintendent Upson of Walled Lake, Superintendent Yates of Wayne, and Principal V. E. Chase of the Fordson school. Admission to the debate will be free, and all Northville people are urged to attend.

MASONS TO GIVE THANKSGIVING BALL.

The first annual Thanksgiving ball to be given under the auspices of Northville Lodge, E. & A. M., will take place at the High school gym on Wednesday evening next. Lorenz orchestra of Detroit has been secured, and a very enjoyable dance program is thus assured. Committees in charge of the affair, hope to make the occasion a most enjoyable one.

John Walker was able to be moved to some time this week.

HANERT—ATCHISON.

An event of great interest was the uniting in marriage of Miss Ruth Atchison, daughter of Mr. and Mrs. Myron E. Atchison, late residents of Northville, and well known in this community, and Charles Hanert, son of Mr. and Mrs. Wm. Hanert of Detroit. The wedding took place at the home of the bride's parents, at 1275 Hazel avenue, Detroit, at 8:30 p.m. in the evening of Tuesday, November 16th. Rev. Wm. Richards united the bridal pair with the ring ceremony.

Mrs. Ford Atchison acted as usher after placing the happy company that gathered for the event, she announced "the bride is coming." Mrs. Butler Harris then commenced to play Mendelssohn's wedding march and the bridal party marched from the anteroom taking their places at an altar of palms arranged in the parlor. The bride came last leaning on the arm of her father where she was placed beside the groom in waiting for the bride.

Mr. Atchison took part in the ceremony by giving the bride to the groom.

The happy party consisted of Mrs. Gladys Whipple, matron of honor, who wore a dress of rose satins, and carried a bouquet of pink roses, and whose little daughter, Natalie, dressed as ring bearer, dressed in blue georgette carrying a basket of pink sweet peas.

Hazel Sowles acted as bridesmaid and was neatly dressed in yellow georgette, carrying a bouquet of yellow roses.

The bride was beautifully gowned in white georgette, adorned with rhinestones and carried a bouquet of white roses and lilies of the valley and on her head a coronet of holly.

Walter M. Hanert, brother of the groom, acted as best man.

After the ceremony the bridal party and guests were served with refreshments when later among guests and rice the newly wedded couple spoke on the songs meant to be York. The visitors will return to Hazelton in the Shilohian Convict Rail road town, to be jail.

The dad and mother, antic and aunt of the bride were present from New Jersey.

WOMAN, OLD & YOUNG.

Speaking this afternoon before the Interim month at the Northville Woman's Club in their study of China.

On Friday, November 12th, a lecture was "Population Decay." Mrs. L. A. Hubbard gave a most interesting review of the slaves and revolutionaries of that country.

She said, "that no country has more intelligent women than China."

Her description of the life of the Chinese who for many generations live upon the back of a wife, while these wives are very afraid.

Miss Lois Cleaver spoke upon the subject of the "Chinese laundry."

She seemed to regard him from rather a negative angle, although she admitted there must be a positive side to his character, for there is a little good in all of us, but in her study of him, she had found little that was good to be said.

They are here to make money. There are no real devout Christians among them. They follow the Christian religion the same as they would put on American clothes.

Mrs. C. L. Dubuque gave a review of Dorothy Canfield Fisher's book, entitled, "Her Son's Wife." Mrs. Dubuque had personally visited the home of the authoress in Manchester, Vermont, recently coming into very close touch with her life and surroundings.

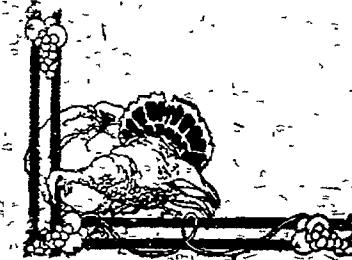

She portrayed the life problems and experiences of a lonely soul struggling for perfection upon this plain so vividly that it made one feel that you had not only personally read the story, but that you had visualized the spirit of the author, that is written between the lines and around the words.

Friday, November 19th, is "Economics Day." There will be talks on Industrial China and her struggle for existence, history of the opium trade and other items of interest.

Most Any Part Will Satisfy

FOR THANKSGIVING

Thanksgiving time will soon be here. Now is a good time to see about your Roasters and Carving Sets. We have a good supply of both at attractive prices.

Wixom Whisperings.

The Wixom Baptist church is enjoying a series of revival meetings, with Rev. W. F. Rawlins, assisted by his wife, Mrs. Rawlins' sister, and husband, Mr. and Mrs. Kines of Wisconsin, are also a great help. Mrs. Hines is an evangelist, and Mr. Hines plays a cornet. Meetings are being held every night at 8:30 P.M. Thursday night is Walled Lake night. Friday night is young people's and family night. The Juniors will have charge of part of the program by singing and reciting Bible verses.

The church will present a Schodfeld Bible, Friday evening, November 19, to the family with the most members of their immediate family present. If you have a large family, come and get the Bible. It does not matter where you live.

Rev. W. F. Rawlins expressed a desire to have a baptistry, and he was very much pleased when one of the oldest members of the church, Marvin Bogart, told him to instruct the trustees to have the baptistry built, and he would pay all the bills. This will be a living memorial for years to Mr. Bogart, who has worshipped many years in the Wixom church.

DETROITERS BUY PROPERTY IN PLYMOUTH DISTRICT.

Whether it is a portent of coming events is not known, however, two executives of the Burroughs Adding Machine Company have purchased residential sites in the Plymouth District within the past week. One purchase almost adjoins the property recently acquired by Harry C. Robinson, president of the Plymouth City Commission, at the junction of Elmwood road and Bradley, and the other is a corner in Plymouth Gardens, adjoining the above and fronting Phoenix Park.

It has been rumored that three large Detroit plants were surveying transportation possibilities and facilities of the Peru, Marquette on the ridge of the hill selected by the Peninsular Steel Works.

INDICATIONS POINT TO A HARSH WINTER.

After their long return Monday from a four day trip to Fish Pointe on Bear Creek, Bill and Dorothy had two different sets of ducks for the menu in their kitchen. The ducks were taken in the Michigan. Most of the meat of certain species birds sold in Michigan are in fact wild game. We saw a great number of birds sold in Michigan, including wild turkeys, we might get a hummer. But we saw many thousands of snow geese, mallard and blue wings and both in great numbers, seen here only in extremely cold weather. He also saw buffleheads commonly known as butter balls and golden eye ducks, commonly known as whistlers, which like the above have been known to appear in these localities only in very cold weather. He found three different species of wild geese—snow geese, blue geese and Canada geese—and several hundred whistling swan.

A Study

Vacillating, fickle, highly emotional. Swayed by effect rather than by reason. Ignorant, dissatisfied, noisy. Occasionally a factor of no small importance in public affairs. Thoroughly unpredictable, erratic, gullible. Dangerous when aroused. As a rule treacherous butterfly. Wholly helpless without a guiding hand. Plastic. A delight to the connoisseur; a mob.

Spider's Harbor

A species of spider inhabiting the shores of the Pacific may be found at low tide crawling around on the rock and coral reefs, but when the tide rises you search for them in vain. Each spider, when the tide starts to come in, takes refuge in a crevice and spins over her retreat a sheet of silken web impervious to water.

THE COAL SITUATION

England and South America are buying Kentucky and West Virginia soft coal in immense quantities which has caused a scarcity of Kentucky coal for domestic use and a decided rise in prices.

Most coal dealers and users know that Illinois coal is inferior in many respects to Kentucky coal and should not be used for domestic purposes only as a last resort or when Kentucky coal cannot be procured.

A large amount of this coal from Illinois is however being shipped into Michigan for domestic use. It is CHEAPER, but as before stated is much INFERIOR to Kentucky coal in quality due to its lack of heat units, softer texture, larger per cent of dirt, ash and scot. Hence in the end it is more costly to the consumer.

Aside from the Pocahontas, which comes from the Virginias, we handle nothing but the best grades of Kentucky egg and lump for domestic purposes, as our paid freight bills will show.

ORDER KENTUCKY COAL and take no SUBSTITUTE.

Phone 374.

NOVI ELEVATOR.

BETTER SOCIAL ORDER.

The Manufacturer and Industrial News Bureau, battling for better business and industrial conditions, makes a plea for the support of churches of all denominations.

It contends that churches stand for good business and economical conditions—religion is related to the social order, family life, public and private morality.

If only one member of a family attends church, for one of the children goes to Sunday school, the cause of religion is worthy of family support.

The Manufacturer pleads that every family in our great nation include in its annual budget a contribution to support a religious organization.

This would be a good policy for the state as well as the family—there are too many half-starved and improperly supported churches.

his audiences as only a great master can. His playing without question has the widest range of emotional expressiveness or any of the play passages of the most exquisite artists.

Torrents of passion come from the strings when he plays music of a st-

ring dramatic character. But, in the music of Chopin and other composers where sentiment predominates, he can make real and human

What a Dollar Will Buy

in the

ALLPREST

way of

Finished Family Laundry Work

If you have been buying laundry work by the piece rate, or by the pound rate, plus a special charge for certain articles, you will be glad to have one of our price charts showing you how economically your work can be done in the "Allprest" way.

The idea of having part of your work come back finished and the balance to be ironed at home, was always distasteful to you. Now you can have it ALL come home ready to wear, or use, no ironing necessary.

6 Pounds-24 Articles-\$1.00

Three Pounds of Flat Work

Three Pounds of Apparel

You have never had an opportunity in the past to buy laundry work ready to use, at such figures—and the work is perfectly washed and finished under our new "Allprest" system. One dollar is the minimum price on this class of work.

Flat Work, 10¢ per pound

Wearing Apparel, 22¢ per pound

NORTHVILLE LAUNDRY

We Use Soft Water Only

Here Are The Improvements

Review this impressive list of improvements—a notable twelve-months' record of progressive engineering:

A new five-bearing crankshaft (replacing the three-bearing type).

A new two-unit starting and lighting system (replacing the single-unit type).

Air cleaner of improved design.

Spark and throttle levers placed above the wheel for greater convenience.

Rumble seat for Sport Roadster.

Stylish new body lines.

Rich and attractive new colors.

Improved all-steel body construction.

Increased driving vision.

Indirect dial lighting for De Luxe and Sport types.

Far greater riding comfort.

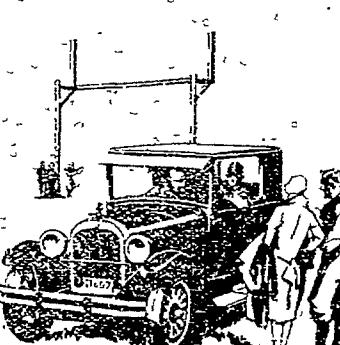

Impressive new smoothness and silence of engine operation.

Greater beauty, greater convenience and remarkable new silence and smoothness of engine operation have followed these vital betterments.

Yet Dodge Brothers low prices remain unchanged—values certainly that no motorist can now afford to overlook!

U. S. MAY DECLINE WORLD COURT PLAN

President Reaffirms Ultimatum to Europe in Address at Kansas City.

Washington—President Coolidge has decided that the most valuable service the United States can perform at this juncture in behalf of world peace is to work for codification of international law.

He will urge Congress to pass a resolution authorizing him to call an international conference for that purpose. His hope is that such a conference will succeed, and that its result will be to strengthen and make the League tribally more of a real force.

This is the President's program, subject to change only in the unexpected event that the powers of the League of Nations should reverse their decision to go to America's reservation in the World Court, and should thus enable this country to enter the court on its own terms.

Washington.—President Coolidge's declaration in his Kansas City speech on the government's position in regard to adhesion to the World Court provoked much comment in Senate circles. No one would be quoted, but it was a general feeling that the court was doomed so far as this country is concerned.

Senator Frank Chalmers of the foreign relations committee simply said: "It is all right as far as it goes." Some were inclined to take the view that the Presidential utterance might lead to serious consideration of the proposition—which is certain to come up in the Senate—to vote the United States out of the court.

Such a resolution is to be offered in the Senate by Senator Trammell of Florida, while Representative George H.inkham has announced he would submit a similar resolution in the house.

Kansas City.—In dedicating Kansas City's lofty World War memorial, President Coolidge on the eighth anniversary of the great armistice announced the withdrawal of America from the World Court venture unless Europe accedes unconditionally to our conditions of neutrality.

His utterance reflects the most able of his career, the President, it is claimed, in position in international affairs, delivered pronouncements that will go reverberating through the chancelleries of the old world countries and in the new world here in the course of time.

It is now conceivable that ever before than the buyer of a car with a used Cadillac may obtain an outstanding bargain due to the fact that many of these cars are being traded in brand new vehicles, frequently before 2 months from the date which they have been put into them, it is believed.

It is spending money in vain to buy one of the best distinction in the class of used speaking when now before the American government. It is only fit for the market that is well known to the World Court, as it is to the other nations, that the Treaty of Versailles has given birth to a number of difficulties of every kind, and having which it is clear that have added the volume of Europe toward the United States.

To those Europeans who expect to depict us as a newly rich nation of drowsy chancers, devoid of refinement and appreciation of humanities, the President flung back the answer that even were this true of America, there would be more hope for the progress or true ideals in the modern world even from a nation newly rich than there is from a nation chronically poor. Honest poverty is one thing, but lack of industry and character is quite another.

As much to his fellow countrymen as to the outside world, Mr. Coolidge addressed reminders that no one will protect us but ourselves, and that unless we maintain an adequate preparedness for war we shall only invite aggression. With our present state of preparedness he is satisfied, not only because he thinks it ample, but because our army and navy are of a size and power to alarm other nations and induce them to competition in armament.

That our provision for World war veterans has been generous and ample the President asserted at once pointing to his address, even mentioning the benefits of the bonus though not by name. Under no other flag, he said "are those who have served their country held in such high appreciation."

The President ended his address by sounding the note of the importance of preserving the American spirit in world affairs.

The President spoke from a gigantic green-draped pavilion reared before the still, more gigantic outlines of the Liberty memorial.

Queen Marie in Chicago

Queen Marie of Roumania, her son Prince Nicholas and daughter Princess Elena are in Chicago in the course of their North American tour, and for four days will be the guests of city and citizens.

Want Relief From Tax

Chicago.—Relief from the 1-cent tax on each \$100 involved in sales of grain futures is to be asked from Congress at the coming session as the cut most favored by Chicago board of trade brokers.

Pinchot Deplores "Blot" Philadelphia.—In an Armistic day address here, Governor Pinchot said the Pennsylvania and Illinois "carry a disgraceful blot" because of "corrupt politics and crooked elections."

JAIL SENTENCE FOR COMMERCE MAN.

A raid by the sheriff's officers on the general store operated by James H. Martin at Commerce late last Friday night, was followed by his arrest on a charge of violating the prohibition law. He pleaded guilty when arraigned before Judge Covert. The raid is said to have disclosed a large quantity of alleged wine, beer and whiskey.

In circuit court Monday, Martin was sentenced by Judge Covert to spend the next four months in jail—Milford Times.

DON'T FORGET THE RED CROSS

The annual Red Cross fall rally will soon be inaugurated in Northville, and every citizen is urged to remember that a "dime and dollar" is all that is needed to raise the local quota. When the hurricane swept over portions of Florida, destroying countless homes and making many families homeless and destitute, the American Red Cross came to the rescue and rendered a service no other organization could render at such a time, because the organization had been properly financed as a result of your dollar, and the dollar of your neighbor. The organization had supplies on hand, and they were rushed to the stricken area as fast as special trains could carry them.

Your dollar membership this year will help when the next great disaster comes to some section of America or in some section of the world. The activities of the American Red Cross are not confined to any particular section.

CADILLAC, REVIEWED, CARS OFFER MANY ADVANTAGES

The remarkable prosperity of many Detroit business and professional men has resulted in a situation in the used car market unusually favorable to buyers of high-class used cars according to C. M. Johnson, manager of the used car department of the Detroit branch of the Cadillac Motor Car Company, Cass Avenue of York street, Detroit.

It is now a noticeable fact that ever before than the buyer of a used car with a used Cadillac may obtain an outstanding bargain due to the fact that many of these cars are being traded in brand new vehicles, frequently before 2 months from the date which they have been put into them, it is believed.

It is now a notable fact that ever before than the buyer of a used Cadillac may obtain an outstanding bargain due to the fact that many of these cars are being traded in brand new vehicles, frequently before 2 months from the date which they have been put into them, it is believed.

LOCAL TELEPHONE EMPLOYEES ATTEND SAFETY MEETING

A number of the employees of the Michigan Bell Telephone Company of this place, were at Ann Arbor, last Friday night, in attendance at a district safety first meeting. "Never take unnecessary chances" was the advice given the telephone workers by the speaker of the evening, workers being present from Northville, Plymouth, Monroe and Ypsilanti and the meeting was arranged by the Ann Arbor plant employees association.

Three addresses, each stressing the need of safety first methods and the value of first aid treatment, were made during the evening. C. B. Moore, supervisor of safety Michigan Bell Telephone, Detroit, G. E. Gardner, superintendent of the department of safety, also of Detroit, and R. J. McElroy, division plant supervisor Grand Rapids, were the speakers.

Mr. Moore quoted statistics showing the results of safety first work, and reported that while the number of minor accidents has been reduced markedly, there still is opportunity for lessening the number of major accidents.

Mr. Gardner, who now is on his forty-seventh year with the state telephone company stressed the big part which carelessness plays in accident. Slides were used to show how many of the accidents occurred. The speaker admitted that some of the injuries were caused through unfortunate circumstances, uncontrollable by men, but asserted that several could have been prevented if the workers had refused to take chances.

Men of the district were told by Mr. McElroy, that the northern division, of which the Ann Arbor district is a part, has nearly reached its quota of major accidents for the year. He repeated the advice offered by Mr. Gardner and urged all workers in the district to refrain from taking chances.

STATE OF MICHIGAN. County of Wayne, ss. At a session of the Probate court for said county of Wayne held at the Probate court in the city of Detroit on the nineteenth day of October in the year one thousand nine hundred and twenty six.

Judge of Probate—Edward C. Congrund, Judge of Probate.

In the matter of the estate of SARAH A. JASTINS deceased, deceased, and a minor child a purpose being to set the just and legitimate interest of said deceased living need deferred due date court before state.

It is ordered that the first day of October next at twelve o'clock in the forenoon at the court to be appointed for probate and distribution.

It is further ordered that a copy of this order be published three consecutive weeks in the newspaper of record of the county of Wayne, D. E. CONGRUND, Probate Judge.

Given under my hand and seal this twenty second day of October in the year nineteen twenty six.

I, Edward C. Congrund, Probate Judge of the County of Wayne, D. E. CONGRUND, Probate Judge.

OAKLAND COUNTY HAS HEALTH DIRECTOR.

Dr. John D. Monroe has been appointed head of the Oakland County Department of Health, according to an announcement made Saturday by the county board of auditors. His assistant is to be Dr. V. Volk, who is now an assistant to Dr. C. A. Nease of the Pontiac Health Department. Dr. Monroe will have supervision of the contagious disease work at the county contagious disease hospital and the tuberculosis hospital, and will handle public chases and other health work in which the county is engaged. Dr. Volk will have charge of the laboratory at the contagious disease hospital where all laboratory work for the county will be done.

CHEVROLET DEALERS IN NOVEL SALES CONTEST.

Turkey or beans—which?

"Win" or "lose" feast on turkey—lose and you die on beans."

This is a novel inspiration in the nation-wide sales contest being conducted this month within the great sales organization of the Chevrolet Motor Company.

"Winners" will be those who deliver the largest percentage of their November quota. In thousands of cities throughout the country, those who have won the right to die on turkey will sit directly opposite their less fortunate bean-eating brethren.

The contest involves two assistant sales managers, C. E. Dawson and H. T. Klingler, six regional sales managers, 400 zone sales managers, 8,000 direct and associate dealers and 14,000 salesmen.

Mr. Dawson is directing the Film, Atlantic Coast and South Eastern regions against the Great Lakes, Middle West and Pacific Coast regions led by Mr. Klingler.

In addition to the regional contest, each Chevrolet zone within the region matched against another zone and even dealers far apart within the zone may be in against another dealer.

The turkey-bean contests of the dealers organized in each held every Saturday night in their own restaurants together with the regular customers who will compete in the kitchen or bean-eating competition. No money is given away.

The whole idea is to get the public to come into the dealerships.

Let us fill your bins now, or at least put a part of your needed supply in before bad weather and intense cold sets in.

WHY NOT TRY A PUBLISHER IN THE RECORD?

NINETY YEARS AGO STATE HAD 68 MAIL ROUTES.

A statement from the general post office issue just 90 years ago shows that Michigan in 1836 had 68 routes over which regular delivery of United States mail is made.

The usual time schedule consisted of one delivery and return every week over each of the 68 routes. A few routes maintained two deliveries a week, and one route, from Toledo to Adrian post, boasted three-times-a-week service, the most frequent in the state.

The longest route of the 68 was from Clinton to Kent post, 120 miles. From Centerville to Michigan City, was 100 miles, and from Ann Arbor to Ionia post was 96 miles. Detroit to Lapeer, 70 miles.

Most of the routes were from 15 to 35 miles. A gazetteer published at that time boasted of Michigan's fine mail service and delivery.

FOUR NEW MEMBERS WHEN SENATE OPENS

Successors to Lawmakers Who Died Will Take Seats in December.

Washington.—Four new faces will be seen in the United States Senate when it convenes in December.

Senators Cummins of Iowa and Franklin of Maine, died during recess. David W. Stewart succeeds the former. The latter's successor has not yet been chosen, but he will have been picked by the opening of the session.

Senators Butler of Massachusetts and Williams of Missouri do not come back like the other lame ducks, but dropped out immediately upon being beaten at the polls, never having been elected senators, but only appointees to fill vacancies. Ex-Senator David L. Walsh replaces Butler and Representative Harry B. Hayes Williams.

The newcomers, then, will be Stewart, Walsh, Hayes and the (as yet) unknown from Maine.

The lame duck delegation—senators beaten for re-election or re-elected in unusually large ones in outgoing senators, Wadsworth of New York, Weller of Maryland, Ernst of Kentucky, Harrold of Oklahoma, Cameron of Arizona, McKinley of Illinois, Meigs of Colorado, Pepper of Pennsylvania, Leopold of Wisconsin and Stanfield of Oregon.

It will also be the last session for Senator Underwood of Alabama, though he wasn't beaten, having proudly announced he wasn't a candidate.

The current guess is that appointmental federal jobs will be found for most of the lame duck's constituents. There are rumors of coming vacancies in the cabinet. If so, they'll be convenient to put retiring senators into. Perhaps a few diplomatic posts will be available.

The now progressives will not take office in the Senate until 1927—but when they do their group, including those already in harness, will be the largest in the history of progressivism.

Of the really dependable progressives there will be Senators Spratt, La Follette, Prather and Neely, John T. Blaine and Smith. Smith's recent slogan "Shovel it belongs to us" attests his purposes in the next administration though it paid him 14% of the Eastern Legislature.

The black sheep, by two thousand in the title of its date, says our La Follette, the old.

There are also several more or less progressive Republicans who though not with the progressives—part of the time in the "twilight zone"—as Senator Stedman expected it.

Young, Borah, Howell and Johnson are typical of this type and it looks as if Senators Prather, Connelly, McSparran and Neely should be included.

In 1924 Progressives won't remarkably well as reminders of the progressiveness of Senator Walsh of Massachusetts, who will be back next year. Always very much in harmony with them, S. are Sumner Welles and Wheeler of Montana.

In the Democratic "twilight zone" may be himself Senator Caraway, Billings, McKeithen, Neely and Reed of Missouri.

To sum up, senate progressivism will be somewhere ten to twenty three strong in the next congress.

Thirds inclusive of elements from all parties and all degrees of progressiveness, but even the minimum figure, with so closely balanced a Senate, will give the more power than it has possessed at any past session of Congress.

Georgia to Take 300,000**Bales Cotton Off Market**

Atlanta, Ga.—Georgia will begin immediate withdrawal of 300,000 bales of cotton from the market for 18 or 24 months, or until the market is satisfactory, in order to relieve the situation brought about by the low price of the staple. The financing has been arranged by Georgia banks. Five of Atlanta's largest banks have underwritten \$12,000,000 bond to finance the movement.

4,000,000-Bale Cut in**Cotton Begins at Once**

Washington.—As a result of the conference held here by members of President Coolidge's special cotton committee, representatives of the intermediate credit banks and representatives of the cotton financing companies recently formed in the South, it was announced that actual practice of plans for removing 4,000,000 bales of cotton from the market would begin at once.

Former Cuban Governor Dies

New York—Maj. Henry H. Landón, military governor of Cuba following the Spanish-American war, is dead.

Death for Mussolini's Enemies

Rome.—Hereafter attempts upon the lives of the premier or any member of the Italian royal family will be a capital offense. The chamber of deputies has finally passed a law to this effect and also one providing for heavy penalties for persons antagonistic to Mussolini's regime.

Women to Cosmic Posts

Lahore, India.—The Punjab legislative council has admitted women to election to the council.

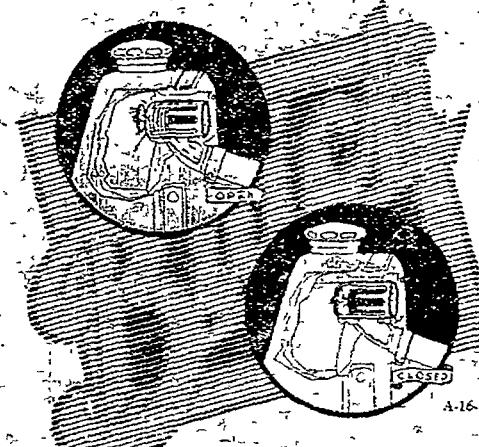

ORCHARD LAKE HOTEL DAMAGED BY FIRE.

A serious fire was averted Friday morning by the Pontiac City fire department at the Orchard Lake Hotel, at the junction of Long Lake and Orchard Lake roads, four and one-half miles from Pontiac.

A fire, which resulted from an overheated stove pipe in the ground floor dining room of the hotel spread rapidly between the floors of the old frame building.—Pontiac Press.

**STATE NEWS
IN BRIEF**

BAY CITY—Reorganization of the Northeastern Michigan Fair association virtually is assured by the appointment at the annual meeting recently, of a committee to revise the by-laws and nominate officers for the coming year to put the fair on a "paying basis."

STURGEON BAY—The assessed valuation of the city of Sturgeon Bay last year was \$11,355,000, or double the last valuation of \$5,675,000 recorded seven years ago.

ANN ARBOR—In the election which now approaches at the new stadium at the University of Michigan, a number of flowing springs have been discovered which will result in a delay of several weeks in laying of road for the new drain ditch. It will take some time to reach a depth where the sources of streams of water can be cut off, putting an end to the trouble.

Sainte—Mrs. Evelyn Peacock, 23 years old, with her two-year-old son, Wilfrid, in her arms and Olive, one-year-old, were found dead in their home recently when the husband and father returned from work and found the house filled with gas. Financial worries are believed by police to have induced Mrs. Peacock to turn on the fireburners of the kitchen stove to kill herself and her two children.

LANSING—A report completed by the state superintendent of parks showed an increase of nearly 1,000,000 in the number of visitors to state parks in 1926. The number in 1925 was 2,552,000, as compared with 3,500,000 the year before. The park visitors included a record number of non-residents, amounting to nearly 1,000,000 in all. In Michigan, by no means, decreased from 12,300,000 to 14,000,000.

Grand Rapids—Lee H. Shantz, local collector, reported to the state auditor of public accounts that the Auditor General Aug. 30, 1926, had received a sum of \$1,000,000 from the state of Michigan, and that this amount was to be used to pay debts of the state of Michigan. This amount was to be used to pay debts of the state of Michigan.

Detroit—The new city hall building is to be completed in October. The cost of the building is estimated at \$1,000,000. The city has agreed to pay \$500,000 of the cost. The city has also agreed to pay \$500,000 of the cost. The city has also agreed to pay \$500,000 of the cost.

PONTIAC—Plans for a \$750,000, 10-story office building on the site of the Eagle Theatre here were announced recently by A. J. Kress, Jr., president of the Kress Amusement enterprise of this city. Excavation for the building, already started, originally called for a 1,000-seat theater, but were changed after tests showed the site capable of development into a large building. They will now include a theater with a seating capacity of 1,000.

Detroit—The Semer Solvay Co. recently started work on 50 new coke ovens to cost more than \$1,500,000.

The new ovens will have an approximate capacity of 900 tons of coke a day.

At present the company produces more than 2,500 tons of coke a day.

The addition to the plant was necessary, because of constantly increasing demands for coke and coal products in Michigan and Northern Ohio.

The 50 new ovens will be ready

for use about Aug. 1, 1927.

Saginaw—Nearly three years of discussion ended abruptly when the special drainage board composed of drain commissioners from 11 counties voted to abandon the proposed Flint River cutoff recently. The plan was designed as the first step of a major drainage operation designed to relieve high water conditions in the lowlands of the Saginaw Valley, water shed and other sections of the state and to provide a greater outlet for the Flint River.

Lansing—The bodies of Thomas Kirby, Jim Jack J. Hanrahan and Joseph Milwaukee were recovered from the broken shaft of the Barnes-Hecker mine recently. They were found lodged in the timber jam in the shaft 40 feet from the surface. Kirby, Hanrahan and Milwaukee were the three men who were attempting to escape from the flooded mine by following Wilfred Miller, only man of 52 in the mine who had survived the disaster. The miners' wives went off the ladder road and took up their husbands' bodies and muck.

Detroit—During the years 1910 to 1920 Detroit's population increase was 112 per cent, or just twice the combined increase of New York, Chicago and Philadelphia.

Ionia—The city of Ionia registered nearly two to one vote in favor of Eastern Standard time in the recent election. The council will abide by the vote of the people and not take any action on changing the time, which is now Eastern Standard time.

Monroe—John Michael Gottfried, 35 years old, pioneer railroad section foreman, who has been a resident of this city since he was 19 years old, voted during the recent election through an absent voter's ballot. He is a Democrat. Mr. Gottfried cast his first vote in 1882.

Port Huron—Mrs. Clara Whaley, 21 years old, mother of two children, residing on a farm near the east of the city east of Lake, was found to be pregnant when she was examined yesterday. She was examined by Dr. C. L. Fisher, who diagnosed the condition as pregnancy complicated by toxoplasmosis.

Michigan—Michigan's motor vehicle population is 1,000,000 vehicles and the estimate made by G. C. Dilworth, State highway commissioner. The motor vehicle "population" of Michigan today is 1,000,000 and the estimate of 1,000,000 vehicles is based upon the increases of past 3 years since 1915.

Ann Arbor—With a gain of 178 students over last year's registrations, the University of Michigan has entered its eighty-ninth year with the largest enrollment ever recorded in normal times, according to final figures compiled by Ira M. Smith, registrar. The total number of students in the school for the year is 12,876.

Saginaw—An effort to extend Saginaw's oil field, located northeast of town, to territory east and southeast of town, has been announced in a decision of the Consolidated Coal Company and the Sun Oil Company to drill in Buena Vista and Blufford towns. The Sun company has several properties held in the vicinity.

Ann Arbor—Tickets to the stadium football game between Michigan and the State Rose Bowl have been sold. The first draft, totaling four tickets, was "removed" at the 10th minute of the fourth quarter of enough time to permit the game to go on. The regular game began when the receiver received his money back for the return game.

Lansing—William D. Mullings, son of the late W. D. Mullings, a noted lumberman, was killed in a hunting accident in the woods near the community of Mullings, about 15 miles west of Lansing. Mullings, 21, was shot and killed by his father, Joe Mullings, in a hunting accident near Bass Lake recently. At the time of the accident, as they stood facing each other, only a short distance apart, his father's shotgun caught in his clothes, and the weapon was discharged at the son. The older Mullings carried his son two miles to his home near Keystone but he died soon after reaching there.

Detroit—Many important contributions in traffic which will greatly increase field railroad facilities in the Detroit district and speed up the transportation of inbound and outbound freight, are being completed by use of the leading roads, according to a recent road survey. Approximately \$250,000 will be spent before the year is ended in the Detroit area which includes such centers as Flint, Pontiac, Jackson and Lansing.

Treasure City—Andrew Rice, 24 years old, was shot and killed by his father, Joe Rice, in a hunting accident near Bass Lake recently. At the time of the accident, as they stood facing each other, only a short distance apart, his father's shotgun caught in his clothes, and the weapon was discharged at the son. The older Rice carried his son two miles to his home near Keystone but he died soon after reaching there.

Detroit—Building statistics for the city of Detroit during the first 10 months of the year have reached the record figure of \$137,550,300, or \$5,261,710 more construction than during the same period of 1925. Detroit's record building year, the 10 month total for 1925 was \$132,218,556. Building experts predict that construction during the next two months will bring the yearly building total close to \$190,000,000 or nearly \$10,000,000 in excess of the preceding year.

Sault Ste. Marie—The traffic at the locks here up to the end of October, exceeds the similar period of the 1925 season by about 4,500,000 tons. Total freight shipments through the Sault canals so far has been 76,422,476 tons as compared with 71,827,722 tons last year. The October traffic this year was 12,572,275 tons, an increase of 1,200,000 tons over October 1925. Of the freight passing here 3,938,947 tons was iron ore, an increase of 2,600,000 tons for that commodity over last October.

Lansing—Comparative figures have been prepared by an official of the State Highway Department between horse-drawn vehicles and motor vehicles for October 1923, and for a single day in 1926. The point at which the comparison was taken is on M-10, one mile south of Pontiac, and the figures for Oct. 1, 1923, are: horse-drawn vehicles, 66; motor cars, 228; motor busses, 10; motor trucks, 14. For 1926, horse-drawn vehicles, 11; motor cars, 7,556; motor busses, 165; motor trucks, 533.

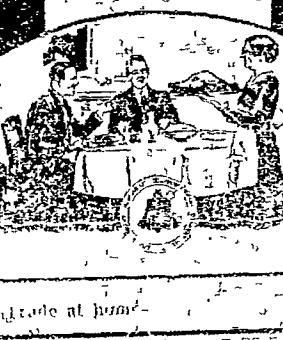

Well be HOME Thanksgiving use Long Distance

ROTARY HAS A PROUD HISTORY.

District Governor Selwyn Ramsey of Bay City, who paid an official visit to the Northville Rotary Club on Monday, gave a brief account of the history of the great Rotary movement during the twenty-one years of its existence, and we are pleased to give a brief outline of his very interesting address.

Rotary was originally a social club founded 21 years ago by Paul Harris and three others in Chicago; stated the District Governor. From its start, its membership grew until-as with all organizations-there came a time when it was felt necessary that the club should reach out into the community of Chicago and render a real service. At first much work was done for the boys, and today Rotary stands in the foremost ranks of organizations that are helping boys to become good men.

The Rotary idea, however, was not destined to stop in Chicago, within comparatively short time other cities adopted the plan-until it became necessary to form a National Association of Rotary Clubs in the United States. Visitors from foreign lands taught by the practicality of Rotary in this country took the idea back to their own countries, and there it became necessary to establish Rotary International. Today there are over 2,500 Rotary clubs in forty countries of the world, having a combined membership

of over 125,000 of business and professional men in their respective communities.

Work among crippled children has been an outstanding effort on the part of Rotary clubs in this country, continued the Governor. "We are now reaching the point where we have caused public officials to realize that society must provide for crippled children the same as is done for the blind, the deaf, dumb and the homeless, with the help of other clubs, as well as individual members of society, we are going to put over a program that will give all crippled children a chance for not only physical rehabilitation but opportunity for education and self-supporting work.

It is not in Rotary province to take upon itself the physical and financial responsibility of reforming the world; rather are we but a group of self-supporting people, engaged in the business of making a living, with a willingness to give of our time and our money to the end that the world may be a better place in which to live.

In my opinion, Rotary, as world-wide movement is but in its infancy.

Its fundamental idea is service. Foreigners who come over here tell us that they look to Rotary International as a leading figure in the establishment of an ultimate world peace.

Twenty-Five Years Ago

Items taken from The Record of 1901, for the week corresponding to this week

R. H. Purdy has a sale of lamps this week.

Mrs. A. T. Stewart and children visited among Milford friends, over Saturday.

B. Cohen has a page adv. in today's Record, announcing a sale of Fall goods.

A shooting gallery is a new attraction in town, with mechanical music to beat the band.

Milt Brown has purchased the Northville laundry, and has taken possession thereof this week.

Ralph Horton, a former Northville boy, is now prescription clerk at the Central Drug Store in Detroit.

Last week Friday, November 15th, was the 76th anniversary of the birth of Oscar P. Phillips, the first boy born in Plymouth township.

J. Crosby has retired from the sanitary work department of the Globe Furniture Company, and will engage in the same business in Port Huron under the firm name of the Marshall & Crosby Manufacturing company.

Married at the Baptist parsonage November 20th, by Rev. O. M. Thrasher, Floyd W. Smith and Miss Fannie Burnett. They are both popular young people of Salem, and we extend to them our hearty congratulations.

General News Flashes

IMMEDIATELY after it became known that Senator Butler was defeated the air was full of reports that he would at once resign as chairman of the Republican national committee. It is understood in Washington that he will not quit this post without the president's consent and that an any case his resignation will be postponed for some time. If he should step out now, it would be assumed that this means Mr. Coolidge would not be a candidate for renomination, and on his present the president has been silent.

COUNTRIESMAN MARTIN MADOLE of Ligonier, who more than half of the opposition committee of the town, makes the following announcement that taxes of next year's incomes will be cut between \$300,000 and \$100,000.

"I am certain that another reduction can be made and I will be unable to do it if I did the last one," he says. "There will be a surplus in the treasury at the end of this year. It will amount to about \$250,000. Next year we will undoubtedly be able to arrange a new tax cut, to become effective in 1924 on 1927 incomes."

CHIUNI can happen to me that I have deluded my work," declared Premier Mussolini after the sixth attempt to assassinate him had failed, and it would seem that his infatuated attitude is justified. This time it was in Bologna, where the date was attending the congress for the advancement of science. An eighteen-year-old youth pushed through the crowds and fired a pistol-point blank at the premier, the bullet passing through his coat. Before he could shoot again the lad was wounded to death by the infuriated mob. As always before the attack, on their leader's life enraged the Fascists tremendously and there were anti-Fascist demonstrations accompanied by bloodshed in various places. The police asserted they had uncovered a great plot, the assassin being a mere tool, and hundreds of arrests were made. The Italian government apologized for attacks on French consulates, and France accepted the explanations, but the feeling between the two peoples is becoming extremely bitter.

The Italians are convinced that the anti-Fascist plots are hatched in France, and the French believe Italy is scheming to get possession of Nice and the Riviera and part of France's north African colonies.

French Police, after a year of watching, descended on a nest of Catalan plotters against Spain in Peñignana and arrested 93 conspirators on the eve of their proposed uprising for the independence of Catalonia. The revolutionists had hoped their revolt would spread throughout Spain and result in the downfall of Dictator De Rivera if not of the monarchy.

PRELIMINARY hearing of the Aimee McPherson case in Los Angeles resulted in the holding for trial of the evangelist, her mother, Mrs. Kennedy, and Mrs. Loraine Wiseman Siefert, their chief accuser. They were bound over to the Superior court on augmented counts of criminal conspiracy. If convicted, they face possible penitentiary sentence of one to ten years on the first count of the indictment; that of obstructing justice; one to five years on the second count; that of preparing false evidence; and one to fourteen on the third, conspiring to suborn perjury.

Kenneth Ormiston, former radio operator at Angelus Temple and the man with whom the state charges Mrs. McPherson occupied a cottage at

The More the Less.

The less you leave things to chance the less chance you have of succeeding.-Boston Transcript.

PLYMOUTH AND NORTHVILLE CREDIT BUREAU MEMBERS ENJOY FINE DINNER.

About forty members of the Plymouth and Northville Credit Bureau enjoyed a fine dinner and get-together at the Park Hotel in this village Wednesday night. The gathering was marked by a fine spirit of fellowship and neighborly interest, and the occasion proved a very enjoyable one. Harry S. Lee, president of the Plymouth Chamber of Commerce, called the assembled company to order and announced dinner.

Between courses the banqueters enjoyed a song fest under the direction of Calvin Whipple, and when all had been served Mr. Lee explained the purpose of the meeting and told briefly of the benefits the bureau had been to its members. The organization of the bureau was fostered by the Chamber of Commerce because they believed it was a good community asset and such it had proved, and at the present time the bureau is in very prosperous condition and is functioning very satisfactorily.

Oliver Goldsmith was called upon and he also told of the benefits of the bureau and cited a number of specific cases to prove his statements. Raymond B. Chaffee, credit manager of the Ernest Kerns Company of Detroit, was the guest of the bureau and told in a very interesting and enlightening manner of the benefits and the accomplishments of the credit bureaus in his home city and he urged every business firm in Northville to join and to avail themselves of the assistance the bureau afforded its members. He explained how reports were secured and how comprehensive these reports were, citing numerous instances of the efficiency of the bureaus for its helpfulness. He said the bureau was not formed for the purpose of raising credit to those who were entitled to receive such accommodations, but for the protection of its members against that class of people who do not pay their bills promptly after the favor of credit has been extended and those who do not pay anything but force to go to the bank credit was founded upon the three C's - capital, character and capability and that they might have capital but not character and while others have character they do not have the capital and hence they often found themselves over-gold and in a position where they could not pay.

"I am certain that another reduction can be made and I will be unable to do it if I did the last one," he says. "There will be a surplus in the treasury at the end of this year. It will amount to about \$250,000. Next year we will undoubtedly be able to arrange a new tax cut, to become effective in 1924 on 1927 incomes."

CHIUNI can happen to me that I have deluded my work," declared Premier Mussolini after the sixth attempt to assassinate him had failed, and it would seem that his infatuated attitude is justified. This time it was in Bologna, where the date was attending the congress for the advancement of science. An eighteen-year-old youth pushed through the crowds and fired a pistol-point blank at the premier, the bullet passing through his coat.

Before he could shoot again the lad was wounded to death by the infuriated mob. As always before the attack, on their leader's life enraged the Fascists tremendously and there were anti-Fascist demonstrations accompanied by bloodshed in various places. The police asserted they had uncovered a great plot, the assassin being a mere tool, and hundreds of arrests were made. The Italian government apologized for attacks on French consulates, and France accepted the explanations, but the feeling between the two peoples is becoming extremely bitter.

The writer was an interested guest at the dinner and from what he learned at the meeting regarding the benefits derived by members of the bureau he believes that every business firm in Northville ought to become a member. With the business men of the two towns working in harmony, meeting about a common table occasionally, a great deal of good can be accomplished and some of the bad check slow-pay and never-pay individuals will soon find that this is not a very good community for their kind of people.

Plymouth was represented at the meeting by about thirty-five men and they were a fine-looking lot giving every indication of being wide awake and progressive and they extended a very cordial invitation to Northville business men to join with them in the good work the bureau was doing.

LET'S GIVE THANKS.

For bounteous crops and the comforts they will bring for home, for health for all good things let us give thanks.

For sorrows which sober, for trials which strengthen, for tasks and load which tire, for rest and for peace let us give thanks.

SALE OF DOLLS.

The November circle of the Woman's Union of the Presbyterian church will hold a sale of dolls at the office of the Lowell-Smith Realty Co. on Friday and Saturday, November 19th and 20th, when all kinds of dolls for the kiddies' Christmas will be offered.

Indigestible Dish.

There is one dish which must appeal to every child reader of the "Arabian Nights" and that is the cucumber stuffed with pearls which is mentioned in one of the stories. The idea of those priceless pearls bursting through the skin of alcohol cucumber must have tantalized many a youngster whose imagination was fired by the splendor and extravagance of the idea that it never stopped to consider what a really unappetizing dish it was.

TOXIN-ANTI-TOXXIN TREATMENT

Permit slips for the treatment have been distributed in the schools from the kindergarten through the third grade. The other children in the school may have it if the parent wishes to sign a slip. The date has no yet been arranged, but as soon as it is the children will be given the information to take home.

Toxin-anti-toxin is a preventative for diphtheria. Three doses are given consecutively, one week apart. There is very little reaction following the treatment. It should not be confused with anti-toxin.

Anti-toxin is given when a person has the disease or has been in direct contact with the patient. In other words, anti-toxin cures the disease, but does not protect against a future attack, while toxin-anti-toxin prevents.

Detroit statistics show a great increase in the number of cases this year, and also in the number of deaths. The winter months are usually the months it is more prevalent but the late summer and fall this year have shown a great many more cases than usual.

If you have not signed a slip for your children to have the treatment, have the child secure one and return to the school. If you do not wish this to be given in the school, take the child to your own physician for it. Let us prevent future cases of diphtheria in Northville.

GEORGINA F. PAUL

Red Cross Community Nurse

HELP CRIPPLED CHILDREN

There is a movement on foot in this state that should have the endorsement of every Northville citizen. It is the work that is being done by the Michigan Society for Crippled Children. The society is now in its fifth year of active and useful service, having already helped clinics in nearly one-third of the counties of the state, and is helping hundreds of crippled children. At present we have 15,000 crippled children in Michigan who need help and who can be aided and made happy again if attention is given to them.

The following plan is established: anyone can contribute to the fund to that end and the largest amount given to the one in the most need, the money raised will be used to help the crippled children in the most effective way.

For many years the Michigan Society has been a great help in the work of the crippled children. The money raised will be spent in the best interests of the crippled children.

This is a worthy cause and we know that everyone will be glad to help.

KNIGHTS OF PYTHIAS TO HOLD IMPORTANT MEETING

On November 24, the Knights of Pythias Lodge No. 10 will hold an important meeting after transacting business at the Lodge has been transacted. Members have been requested to invite their ladies and a "real family gathering" will result. An effort will be made to interest the ladies in the organization of a chapter. Mrs. Pythian Sisters, and Grand Outer Guard Sophie Price and Grand District Deputy Stevens will be present to explain the principles of the order fully.

Every member of the Lodge is urged to bring his lady with him, and assist in making the affair an enjoyable one.

LOCAL

A snow flurry visited the section yesterday.

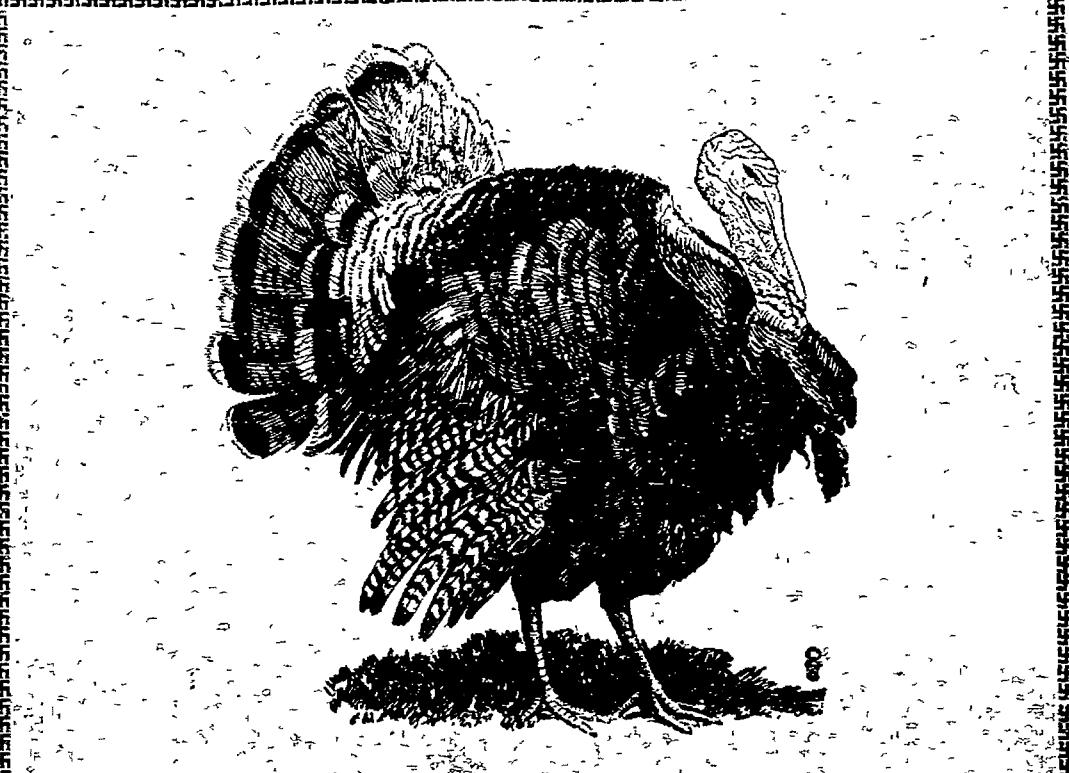

Mr. and Mrs. George Grinnell are spending the winter at Winter Park Florida.

Mrs. M. J. Laher has resigned her position as teacher and Mrs. Forney has been chosen to take her place.

Schrader Brothers delivered to the High School building on Thursday 150 new folding chairs. The new chairs have been used for some time.

The case of the People vs. Fred Moffit, which was tried in Justice Perrin's court on Tuesday resulted in a verdict of no cause of action. It was found that the village ordinance under which the arrest was made, was faulty. Moffit keeps a number of dogs and some of his neighbors claim they are a nuisance in the neighborhood.

We had rather make no profit whatever, on an automobile, than have such a dissatisfied customer. We sell Oldsmobiles, Pontiacs, Hupmobiles and Studebakers. German & Sons, Inc., phone 771.

THANKSGIVING

Thanksgiving is becoming more and more a Family Home Coming Day. What could please Mother more than to have one of our Handsome Dining Room Suites placed in her dining room before the festival day arrives.

She will do her best—as she always does—to prepare a wonderful dinner. Why not surprise her and let us place a new dining outfit in your home the day before?

We have a fine assortment of Full Suites as well as a great array of Single Pieces. Any of these would be most acceptable. Come and make your selection and we will make prompt delivery.
