

THE NORTHLVILLE RECORD

VOL. LVI, NO. 30.

FLAMES WRECK GERMAN GARAGE FIREMAN HURT

Department Keeps the Fire
from Spreading to other
Blocks

Threatening the entire business district on the north side of West Main street, a fire which started in the rear of Harry German's garage shortly before eight o'clock Tuesday evening, was checked before it had a chance to spread to other buildings in the immediate vicinity.

Through the good work of the local fire department, the loss will probably be less than \$20,000, confined entirely to those occupying the Recreation building, in which the garage was located.

The blaze, as stubborn as all garage fires, was raged intermittently for over two hours. Believed to have checked it broke out at two different times with renewed force in different parts of the building.

Just how the fire started is not known, but when first discovered the blaze was confined to the truck owned by Jim Spagnuola, which had just been driven into the garage.

The blaze was in the truck part of the machine and Leslie Gerwin, one of the first to enter the garage, declares that almost immediately, it burst through the top of the truck and spread over the roof of the garage.

Ja K Palmer was also one of the first to help fight the flames while the fire was still in the car.

Chief Fred Hicks and a department crew in their motor wagon made their way quickly and turned on the water. In the meantime, by means of the water pressure that gathered in the hose in every direction, Albert Stockman, one of the men who were at the garage and left out about the head, was immediately sent to the doctor's office for treatment and young athletes were taken to close the wound.

As soon as the department had connected up the new pumper and water had been turned on the blaze, it was held under control, and kept from spreading. Two lines of hose were run from the new pumper. The Ford fire engine was hooked up to the hydrant in front of the Lapham bank, and was kept in operation until the larger fire truck from Plymouth arrived.

The firemen fought successfully to keep the flames from out of the front of the building, confining it as much as possible to the section where it started. Several times the wooden structure housing the Walker pool room, caught fire, but the department kept the structure from being damaged.

At the time of the blaze, there was a wind blowing from the west, and no one expected that the Recreation building or any of the surrounding structures would be saved.

The Northville Electric Shop, to the west, was not damaged although only inches separate the structure. The Hills market to the east escaped without loss.

The firemen kept the flames from getting into the workshop of the German garage. The greatest damage was done in the space used for storage of cars. There were six machines in this section which the workers did not get out. They were completely destroyed.

In the playroom where there were a number of new cars, only four were destroyed.

A new Rupp that had just been driven in before the fire was gotten out.

Lester Stage who owned the fire and battery shop on the west side of the building was a heavy loser. His insurance covers only a third of his loss. While he was able to save considerable of his stock his loss is large. He has not yet decided whether he will resume business.

When the fire first started and looked as though nothing could check it, Village President Elmer Smith sent calls to surrounding communities for help. Plymouth was first to respond and did good work in helping the local fighters.

Farmington, Walled Lake and Redford sent their fire trucks and men all getting here within thirty minutes from the time the blaze was discovered.

The firemen from these places did a very good work under the direction of Chief Hicks.

Although this section has, within the past month, been experiencing a severe weather, there was not a single fire in the neighborhood.

Harris German, owner and heaviest loser died in every way possible with information to the fire fighters. Mr. German, President Smith and Chief Hicks arranged with the Red Arrow Ranch to provide meals for the firemen during the night, almost the entire force staying on until every spark had been put out.

These three expressed their appreciation to the nearby communities for their co-operation in sending help. President Smith plans to write to each place, giving the thanks of the community.

Frank Bradshaw, who owned the lease on the pool room and bowling alley, lost heavily. His plans for the future are undecided, he says. The Heather Barber shop, located in the east end of the building, was only damaged by water.

When the fire broke out the bowling tournament had just started, and at the call of fire, the players thought someone was fooling, but they discovered soon that the entire structure was on fire and they turned to help fight the flames.

One of the Redford firemen slipped into the furnace pit, which was filled with water, and it was with some difficulty that he was rescued by his associates.

Fortunately he did not go entirely under the water.

In the thirty years that Mr. German has been in business, this is the first time he has ever had a fire. He stated that his loss is well covered by insurance on the building as well as on the used and new cars.

He expects to rebuild, but it will be a few days before his plans will be entirely worked out.

Fire insurance companies have already been over and are making satisfactory settlements of claims.

TELLS BOYS HOW TO MAKE SUCCESS OF THEIR FUTURE

Rotary Speaker Points to
Character as Must
Essential

If you want to get anywhere in this world, boys, have character.

If you want to get anywhere in this world, boys, have character.

These were the two points that Prof. James M. Brown of the Spartan Normal school, drove home when telling effect in an address, Monday noon, before the Rotary Club members of Northville.

Present were the members of the Northville high school basketball team, Superintendent Gordon and Coach Walker as guests.

The program Monday was under the direction of boy work of Rotary. It was in charge of Wellington Hobbs, and it was through his efforts that he secured Prof. Brown of the Normal as a speaker.

Play the game clean and if you can't win by playing that way, don't win.

"Do you know that of the 24,000,000 school children in the United States there are at least 75 per cent defective in some way? The work we are engaged in is trying to make more perfect children boys the citizens of tomorrow."

"First of all we try to build character. When a boy graduates from school, you never know which boy he is going to turn. We are aiming these days to train him in such a way that he will go in the right way.

"Everything is competition. No matter what you do. The minute you start practicing as a physician you enter into competition with someone.

To make good boys should be honest with themselves. It is the greatest help in competition you can find.

"Honesty is the only thing in life. If you are not honest there is no real hope for your success in anything.

"The athletic field is the greatest place in the world for character and honesty building. The great game of foot ball is built upon honesty. The public knows it and it is for that reason that such great crowds are interested in these contests.

"There is no better place in the world to teach a boy to be square than upon the foot ball field.

"But, with character there also must be the spirit of sacrifice. Every one must sacrifice, sometimes it may seem hard, but it will pay you. Sacrifice and be honest with yourself. These are the points I want to leave with you."

The audience was followed by a brief talk by Mr. Roberts, whose

NAME SELECTED FOR NEW PLAT TO BE OPENED SOON

Bloom Property Will in
Future be Hillcrest
Manor

Hillcrest Manor is the pleasing name that has been selected by Charles Bloom of this place for the subdivision he expects to open in the near future on the western limits of Northville. Mr. Bloom has practically completed all details for the sale of the property, which doubtless will to a very large extent be purchased by people in and around Northville or those knowing of property values in this section.

In speaking of the development within the metropolitan district of Detroit, R. J. Dyer, Northville real estate operator with offices in the Peabody building, says:

"The failure of any community is very largely dependent upon the care with which residential sections in that community have been planned and developed. A community is made up of individuals and individual make up the community. An influence which brings an increasing number of desirable individuals to a community is as important to a town in determining that community's future development as any natural or developed advantages possessed by a particular

set location, which gives to the population greater appeal, a greater attraction to desirable people, is a factor in justice and equality, respectability, and reputation.

This is a particularly difficult problem to solve in developing a subdivision to hold up a certain type of population, retaining the characteristics of the neighborhood in which it is located.

It is also a difficult problem to find a location which will be good and suitable for a particular type of population, for which it is necessary to allow a wide range of people which the population attracts.

Those factors are definite and include the beginning of the future, the strength of which will be good and suitable for a particular type of population.

These were the two points that Prof. James M. Brown of the Spartan Normal school, drove home when telling effect in an address, Monday noon, before the Rotary Club members of Northville.

Present were the members of the Northville high school basketball team, Superintendent Gordon and Coach Walker as guests.

The program Monday was under the direction of boy work of Rotary. It was in charge of Wellington Hobbs, and it was through his efforts that he secured Prof. Brown of the Normal as a speaker.

Play the game clean and if you can't win by playing that way, don't win.

"Do you know that of the 24,000,000 school children in the United States there are at least 75 per cent defective in some way? The work we are engaged in is trying to make more perfect children boys the citizens of tomorrow?"

"First of all we try to build character. When a boy graduates from school, you never know which boy he is going to turn. We are aiming these days to train him in such a way that he will go in the right way.

"Everything is competition. No matter what you do. The minute you start practicing as a physician you enter into competition with someone.

To make good boys should be honest with themselves. It is the greatest help in competition you can find.

"Honesty is the only thing in life. If you are not honest there is no real hope for your success in anything.

"The athletic field is the greatest place in the world for character and honesty building. The great game of foot ball is built upon honesty. The public knows it and it is for that reason that such great crowds are interested in these contests.

"There is no better place in the world to teach a boy to be square than upon the foot ball field.

"But, with character there also must be the spirit of sacrifice. Every one must sacrifice, sometimes it may seem hard, but it will pay you. Sacrifice and be honest with yourself. These are the points I want to leave with you."

The audience was followed by a brief talk by Mr. Roberts, whose

children especially, to be situated in a pleasant suburban community such as we have here, than to be living in an apartment or the narrow city lot. Children are certainly entitled to room to play, grow and be healthy. Hillcrest Manor is ideal from this standpoint, and thanks to the foresight of Mr. Bloom in planning the development, it will remain so.

FEBRUARY 17TH IS DATE FOR FATHER AND SON BANQUET

Exchange and Rotary Are

Working to Make Event

One of the Best

The father and son banquet to be given under the auspices of the Exchange and Rotary club will take place on February 17th at the school building according to H. G. White, chairman of the Exchange committee.

Members of both clubs are working to make the event one of the biggest ever held in this place. Entertainers of more than ordinary fame will be secured.

At the meeting of the Exchange club Wednesday noon, the Rotary club will be conducted each year in the future for the Citizenship cup, donated by members of the Exchange club.

At the meeting of the Exchange club Wednesday noon, the Rotary club will be conducted each year in the future for the Citizenship cup, donated by members of the Exchange club.

No matter whether the father belongs to either club or he is invited to be present with son it is especially urged that each father bring his own son and it is the hope of the club that every boy in Northville can be present at the banquet.

Boys that have no father will be invited to be present. The tickets have not yet been placed on sale but within another week all details will have been worked out.

At the meeting of the Exchange club Wednesday noon, the Rotary club will be conducted each year in the future for the Citizenship cup, donated by members of the Exchange club.

WAYNE'S SERIOUS WATER PROBLEM IS NEAR SOLUTION

Plans Under Way to Unite
Village Supply to
Detroit's

(Wayne Weekly)
The water supply problem which has been causing considerable worry and perplexity to the village commission seems to be gradually culminating into a solution. Jerry Parre, president of the commission, received communications from E. G. Liebold of the Dearborn Water Works that would indicate a favorable solution of the matter in the near future.

Mr. Liebold stated that negotiation would be completed within a few days with the Detroit Water Department, which would connect the Dearborn plant with that of the Detroit plant.

The whole matter hinges on whether or not the large main which is to connect the two works can be laid before the time of necessity arrives. This, of course, cannot be exactly determined until a later date and depends considerably upon weather conditions and how many engineering difficulties are encountered.

This "solution" is quite gratifying to the commission as it means the saving of considerable in both time and money and worry. If these plans should fail through it will mean that Wayne must devise some means whereby the local supply can be enlarged for consumption during the summer months. Dredging the Rouge has been considered but it is doubtful if there can be enough water dredged to fulfill the needs from the

It was altogether too short back to Williams whence on to Los Angeles arriving there at 2:15 p.m. Sunday, 1,000 miles and only twenty minutes late.

All of the time sunshine and losses is right. My winter overcoat has been on the closet ever since I arrived here.

Yours truly,

LIES DOWN TO REST DIES WHILE ASLEEP

The passing of William D. Walte

of Novi came very suddenly to his family and friends last Friday, January 28th. The noon work was done at the barn, as usual, after which he came to the house as his custom, sitting beside the fire with his newspaper. He went to the lounge to rest and peacefully passed away while asleep.

He was born in Redford, November 1, 1880 moving from there at the age of ten years to the present farm home, where he lived up to the time of his demise.

He was married in 1888 to Maggie Palmer. Born to them was one son, George, and one daughter, Ethel, now Mrs. Margaret Thomas, Endora and Mrs. Thayer of Farmington. With these two to mourn his loss are his good wife, his grandson, Howard Thayer, a sister, Mrs. John Darling, of Battle Creek.

The funeral services were held Tuesday, February 1st, at 1:00 o'clock Rev. William Richards officiating. Burial took place in the Novi cemetery.

AFTERNOON CLASS IN KINDERGARTEN

TESTED
CEMENT BLOCKS

Any Style

Any Quantity

Northville parents will be pleased with the announcement made today by Superintendent Gordon, that there will be afternoon kindergarten classes as well as forenoon classes. It has been the practice during past years to have only a forenoon kindergarten class, but beginning with the present semester there will be both forenoon and afternoon classes for small children. The only requirement is that the child be five years of age.

REGISTRATION NOTICE

To the Qualified Electors or the Village of Northville, (Precinct No. 1), State of Michigan.

Notice is hereby given that in Conformance with the Public Acts of 1927, the designated Village Clerk will upon date except Sunday and legal holiday, or the day of any regular or special election or official primary election, receive for registration the name of any legal voter in said Village who, already registered, may apply to me personally for such registration or who may make application for registration by mail or messenger as provided by Act 77 Public Acts of 1927, except that I can receive no names for registration during the time intervening between the Second Saturday before any general or special election or official primary election and the day of such election February 28, 1927—Last Day for General Registration for Election.

March 8th.

All electors not already registered and intending to vote at said election should make application to me on or before the 26th day of February, 1927.

Notice is further hereby given that I will be at the Council Room, No. 111, State of Michigan on

FEBRUARY 12 and FEBRUARY 19, 1927, from 8:00 o'clock a. m. to 5:00 o'clock p. m. each of said days for the purpose of reviewing all registrations and registering such of the qualified electors as shall appear to be present and apply therefor.

REGISTRATION OF VOTER

BY 8TH.

If any person whose name is registered shall appear and claim the right to vote at any election and shall under oath state that he or she is a resident of such precinct and has resided in the Village of TWELVE MILE, to be proceeding such elector to the polls, shall apply for registration, and that, owing to the addition or loss of legitimacy of his or her voter registration number of his or her family or to any other reason which prevents him or her from voting in his or her own interest, he or she shall make application for registration on the 26th day of February, 1927, for the registration of electors as provided, and that such elector on the 26th day of February, 1927, shall be required to prove his or her name and make an affidavit in accordance with the statement, in or upon shall be subject to the rules and regulations as directed above.

Registration by Mail or Messenger Under Act No. 7, Public Acts of 1927, the privilege of Absent Voting is extended to include registration. In compliance with this act registration can be secured by mail without personal appearance. An affidavit similar to the following must be made:

State of Michigan,

County of _____,

being duly sworn, deposes and says that he is a duly qualified elector of the _____ Ward or Precinct, of the Village of _____, in the County of _____ and State of Michigan, that he is not now registered as an elector therein and that he makes the affidavit for the purpose of procuring his registration as an elector in accordance with the statute.

Taken, subscribed and sworn to before me this _____ A. D. 1927. Signed _____ Notary or Justice

The time limit for registration by mail or messenger is the same as where personal application is made.

Therefore the affidavit of an elector desiring to register by mail or messenger must be received by the Village Clerk, not later than the SECOND Saturday preceding the election.

NOTE—A blank form for making application for registration can be had by addressing the Village Clerk and giving the name of Village above named.

Provisions in Case of Removal to Another Precinct

Any registered and qualified voter who has removed from one Precinct of a Village to another election precinct of the same Village shall have the right on any day previous to election day on application to the Village Clerk, to have his or her name transferred from the registration book of the precinct from which he or she then resides. Such elector shall have the right to have such transfer made on Election Day by obtaining from the board of inspectors of election of the precinct from which he or she has removed a Certificate of Transfer and presenting the said certificate to the Board of Election Inspectors of the precinct in which he or she then resides.

Dated, February 4, 1927.

THOMAS E. MURDOCK,

Village Clerk

CHAMPION CORN
GROWER OF STATE
IN MONROE COUNTY

Paul Clement Wins in the
Contest Conducted by
State College

Paul Clement, a leading corn grower of Monroe County, was crowned Michigan Corn King at the annual meeting this week of the Michigan Crop Improvement Association, held as a part of Farmers Week at M. S. C. Mr. Clement's official yield was fifty bushels of shelled corn per acre, at 14% moisture content. This yield, valued at \$65.70 per acre brought in the greatest returns over the cost of purely cultural operations of all the contestants entered in the five-acre corn contest sponsored by the crops association and the farm crops department of the college.

Widely known as a seed grower, and last fall elected one of the charter members of the honorary Michigan Master Farmers Club, Mr. Clement grew his big 1926 crop on land which had previously been in alfalfa. The seed was of his own breeding, and is known as Clement's White Cap.

Ernest Gilbert of Coldwater, who holds the contest yield record of 112 bushels per acre, made in 1926, neared second in 1926, with a yield of 99 bushels per acre.

Bronze medals, awarded for yields of 75 to 85 bushels per acre, were given to Otto Wegener, Riga, for a yield of 85 bushels per acre; George Britton, 81 bushels per acre, and Ervin Monterey, Fairgrove, 73 bushels per acre.

MEXICAN QUAKE BAD ONE WRITES FORMER RESIDENT

Houses Shook Like Leaves on Trees—Damage to Town Great

George A. Kyes, formerly of South Lyon, now of California, has written his sister, Mrs. W. E. Allen, a vivid description of the earthquake in Calixto, California, on New Year's eve. The letter published in the South Lyon Herald follows:

"We were awakened at 12:18 by the first shock, and ran out to sleep porch where Wilford was sleeping, lest he be frightened. The first shock lasted about five minutes. The house shook just like leaves shake on a tree. Everything loose fell to the floor, and there was a continual rumbling in the earth which would scare even a burro. At 12:25 we ran over to our neighbors. For three hours the house shook almost constantly with only intervals of a few seconds. Dishes fell from the cupboard, pictures from the walls, and even books from the bookcases. The floor lamps toppled over. The shocks kept getting worse, until three o'clock in the morning when the chimney fell through the roof. Then time of us loaded into a Packard car and drove out of town to a vacant lot, leaving everything we had to its fate. We stayed there until 7:00 a.m. when the worst shock came. That big one rocked and plunged when standing just like it would if it were being driven over a rough road at a high speed.

"After five o'clock only light shocks came, and we drove in as soon as it was daylight. Our house was not damaged—only the chimney wrecked—but the Mexican town across the border lay flat. Our \$50,000 school house, just completed in September, is in ruins. Most of the larger store buildings were wrecked.

"At El Centro, twelve miles north, no damage was done, and at San Diego only light tremors were felt. I used to describe an earthquake as feeling 'funny,' but I don't do that any more. The funny part of it has all gone. A man feels mighty insignificant and helpless when the earth begins to roll beneath him. Wilford and Miss Kyes were terribly frightened, and have not gotten over the shock.

"We are still having light shocks, and as I write have felt two distinct ones. We have the worm in our hot oil again no one knows."

Mr. Kyes is inspector of Immigration at Calexico, and is well known in South Lyon. He left his organization for the new job in Detroit, and worked for the Ford Marquette building department.

NEW REGULATIONS IN DISEASE CONTROL

In order that Michigan may have the best code of tuberculosis laws yet devised, a member of the staff of the Michigan Tuberculosis Association is at present in New York City making a study there of the tuberculosis codes of every state in the United States. It is hoped to incorporate into the Michigan laws the best features yet included in the code of any state, and to leave out of the Michigan law any provision which experience has shown to be unwise or impracticable.

The present tuberculosis code in Michigan is contradictory and inadequate when considered as a fighting measure against tuberculosis. It carefully provides that utmost secrecy shall surround a case of tuberculosis while a patient is living, and has an open active dangerously communicable case of the disease, but provides with equal care that when he is dead or has been moved or becomes an arrested case, the place of his abode, if not immediately disinfected, shall be placarded with a large placard, telling the world that a person afflicted with tuberculosis has previously lived in that place.

Another bit of irony that characterizes the tuberculosis laws of Michigan consists in its provision that the early case shall be reported for "statistical purposes." The law provides in addition that the early case shall have "frequent" examinations, but does not state whether an examination is frequent when held every three weeks or three months or three years. Neither does it state who is to make the examination or who pays for it. As a result the early case has rarely been examined at all, and while he was important only from a statistical standpoint, he has quite regularly developed into the open case.

It is such weakness in the law, declares T. J. Werle, executive secretary of the Michigan Tuberculosis Association, that have impelled the association to strive for a new code of tuberculosis laws. "We do not want patches on the old law," he declares, "but a simple, direct new law, as effective as it can at this time be made."

What a mother likes about a young man is usually what her daughter does not.

NORTHVILLE Twenty-Five Years Ago

Items taken from The Record files of 1902, for the week corresponding to this week.

Born, January 31st, to Mr. and Mrs. Souvey, a pair of girls.

The bear certainly saw his shadow Sunday, and here goes for six weeks more of trouble.

The last entertainment probably ever to be seen in the Northville Opera House will be that given by the Presbyterian Ladies' Aid Society, next week Friday night.

Tuesday night was probably the coldest of the year. Wednesday morning it was easily ten below zero.

T. G. Richardson has leased his two farms west of the village to Joe Miller, and will dust the hay seeds of his clothes for a few years, and maybe forever, and give his attention to the dairy business.

Parties representing a cannery factory were here last week looking over Northville, as a desirable place for locating such an industry. It was intimated that a site would be all that would be asked, but it is since learned that a stock company would necessarily have to be organized here.

Mr. Shafer is contemplating remodeling the opera house over into a ballroom possibly to stage in one end, and it will no longer be for rent until that work is finished.

A society of the American Home Guardians was organized here last night, by Supreme President, Hon. L. T. Hemans of Mason, with fifteen charter members. It is a fraternal insurance society for young people.

POULTRY RAISERS IN NEW AVERAGES

Don't be surprised if within the next two or three weeks someone enters the egg-laying contest now existing among Northville poultry raisers, with a one hundred per cent average. It is getting close together now. Mrs. Ed. Gardner is the latest entry. She raises Black Jersey. During most of the winter few hens have produced from five to seven eggs per day. The average right now is closer to seven than five.

Mrs. Ed. VanSickle, whose remarkable record with a big flock was published a couple of weeks ago, has added that she specializes in Single Comb Rhode Island Reds, and that she keeps her stock as perfect as possible.

Of course, soon after the middle of February, it cannot be said that the laying at the time is under 60 per cent, as the production of all flocks begins to increase along about that time. It has suggested that, if you have broodstock, as to large average flock production, it is worth before starting, for legend reader, are interested in what poultry raisers are able to accomplish under adverse winter conditions.

TO RE-PLAT SECTION NEAR FARMINGTON

F. D. Fleming has about completed arrangements for vacating Builders Park subdivision at the southern limits of Farmington and re-platting it in connection with a contiguous subdivision owned by Louis Tarabusti, the total of which will comprise 250 acres, says the Farmington Enterprise.

At a meeting of lot owners in Builders Park held at Mr. Fleming's office recently where the necessity and advantages of the re-platting were fully set forth and explained, unanimous consent to the change was given.

The new plan conforms to all latest

state and county requirements, is laid out with wide winding drives and the restrictions are ample and fair.

Application to the circuit court for

an order vacating the old plat will be

made immediately when the property

will again be placed on the market.

A short time ago Mr. Tarabusti ini-

augurated a selling campaign of lots

in his connecting subdivision and

many sales are reported.

HAS LIVED 81 YEARS IN MILFORD TOWNSHIP

George Austin says that so far as he knows he is now the oldest resident of Milford who was born in this township. He has lived here practically all his life, and has never voted elsewhere. He was born in May, 1846, in a house his father built that stood a little back and just north of the building occupied by Ray Lockwood, and his parents, Mr. and Mrs. Job Austin, later moved to what is now the Moore farm on the northern edge of the village.—Milford Times

Hez Heck says: "The wuss thing that kin happen to any man is to have money and opportunity come together."

No problem is more perplexing than deciding which kind of pie to take when there are a dozen varieties to choose from.

WRITES POEM IN HONOR OF MOTHER JUST BEFORE DEATH

Viola Birch, 18 Years Old,
Expires Following
Long Illness

Viola Birch, 18 year old Northville girl, died at sunrise last Sunday morning, at Eastlawn Mortuary, following an illness of nearly four years. Her parents dead, the young girl, long ill, died, after the passing of her mother, a few years ago, shortly before her death penned the following beautiful poem:

"MY MOTHER
At evening when I am lonely,
And I know not where to roam;
I sit down and think of Mother,
And dream of Home, Sweet Home."

It's a feeling of remembrance,
Just to see her face once more;
It seems I see her smiling again,
As in the days of yore."

I know not where my road may lead
Nor where it has a turn.
But it is for you, dear Mother,
That I shall always yearn.

Why she left her lonely daughter
Is not yet to me clear;
But I hope to meet her sometime,
Meet again, My Mother dear.

She was the daughter of the late Mr. and Mrs. John Birch, who lived for many years in Northville. Born here on August 21, 1908, she moved with her mother to Plymouth when ten years of age. It was in Plymouth where she joined the Methodist church on May 24, 1920. The girl's love of her mother caused her to think constantly of her parent. She was a faithful worker in her church until her sickness four years ago. Beside her three sisters and brother, Mrs. Margaret Thomas Endora, Mrs. Myron Bitch of Detroit, and Miss Mabel Darling of Port Huron, she leaves a large circle of friends for whom she was loved by all who knew her.

Funeral services were held in the Schreiber Bros. funeral parlors at 10 a.m. Friday afternoon at 3 p.m. Arthur Wall, William Richards, George, from Elkhorn, Vt., loaned \$1500 toward the expenses of the service. Total cost was \$1500.

**NORTHVILLE TEAM
STANDS CHANCE TO
WIN CHAMPIONSHIP**

Basketball Teamsters vs. Hayhorns Won Three and Lost!

But Our Game

Northville's high school basketball team, the "Daddies," lost their first game of the season Saturday night to the "Hayhorns" of Farmington Hills, 30-25.

The score Friday night was 25-10. A good game was played by each man on the team. Weitz, Ley, Foyere, Longwell, Thompson and Smith. Capt. Ted Wattie was high man with 15 points to his credit.

Tonight the boys play at Wayne and it is freely predicted that it will be an easy victory for the local team. The championship contest will be played here Friday night, February 11, with the fast team from Plymouth. Even though Northville should lose at Wayne, the average so far won will give the players the right to contest for first place. As no other team can equal the average already possessed.

**NORTHVILLE KIDS
INTERESTED IN
THIS AUTOMOBILE**

Elliott & Son have Aroused
Interests of Boys and
Girls

W. H. Elliott & Son are giving the boys and girls of Northville a regular thrill these days. To verify this statement all you have got to do is go over in front of their store and watch the youngsters as they race around the display window.

Is it that a dog? That beats will call a year residence by adding Plymouth Coed Model Chrysler | mentioned after my regular working Hupp, Ford or any car. The one kid yesterday.

Displayed in the window is one of the finest to automobile ever made. It is big enough for two to ride in. And some youngsters in Northville are going to own that car. Mr. Elliott drives it. I tell you just how it can be secured.

**ASTRONOMY TALK
IS HEARD BY MANY**

Members of the men's class of the First Methodist church heard a very interesting talk on astronomy a few nights ago by Professor Corbin of the State Normal College at Ypsilanti.

The one hundred or more present were disappointed because of the inability of Eddie Stinson to be present, but an emergency matter took him on flight to northern Michigan from which he was unable to return in time to speak.

The Rev. Richards, who had planned and arranged all the details for the event, was highly complimented by everyone present for the success of the affair. Dinner was served by ladies of the church, the menu being a most satisfactory one.

Dick Colgour led in a brief community singing period, and following those present adjourned to the auditorium of the church, where the illustrated lecture was given. It was a very instructive lecture, and revealed just what a small part of the universe this old mother earth.

WITH OUR NEIGHBORS

Mrs. Myron H. Ellis, 85, and one of the early settlers in the Wayne village district, is dead. She had many acquaintances in that vicinity.

Additional sewer construction work has been found necessary over at Dearborn. That place seems to be growing about as fast as any of them.

The federal treasury department is going to send an income tax expert over to Holly soon, and see if he can find anyone in the town who pays an income tax.

The Redford Woman's Club recently had a men's night. That is something different. But Redford is always trying to do something a little out of the ordinary.

Arthur Wall, who lives over on the Shanty road near Wayne, had a bit of his steel, a 76-day-old 1000-watt radio, loaded onto a truck while hall was at a time day.

They are holding booster meetings over in Wayne. Now in the town next door to us pay a visit every month and make known how little they would have to start the business.

The Health Fair Herald is getting a special folder and is in cooperation with local merchants. It is a good one and will be of interest to many people.

There is a new boy in the neighborhood around Milford as there are stray dogs everywhere. In Wayne, according to the Milford Times, says. At least half a dozen trappers had them, poultry flocks raided last week, one farmer having a lot of geese and gulls stolen.

Brighton is becoming very ambitious. It wants to become a city and the residents will be asked in the spring to decide whether it is their desire to remain just a mere village or become an honest-to-goodness city. Brighton could be easily located entirely within the southwest section of Northville, and no one would hardly notice the addition.

Brighton is becoming very ambitious. It wants to become a city and the residents will be asked in the spring to decide whether it is their desire to remain just a mere village or become an honest-to-goodness city. Brighton could be easily located entirely within the southwest section of Northville, and no one would hardly notice the addition.

B. FREYDL

NORTHVILLE, MICHIGAN

LOCAL

C. A. Poldorf was a visitor in St. Johns over Sunday.

Mrs. Herman Kruger is confined to her home by severe illness.

Miss Mabel Miller spent the last week in Detroit with relatives.

Miss Orpha Bird has been spending a few days visiting in Detroit and Dundee.

Mr. and Mrs. Fred Lyke and Mrs. S. E. Cranson were Detroit visitors on Sunday.

The Legion Auxiliary will meet with Mrs. Monroe Alexander on February 5th.

The January thaw on Sunday took with it a lot of the ice from the streets and highways.

Miss Ruth Abbott, who is instructor of music in the Northville schools, has returned from a week-end visit.

Let a Record ad sell some of that surplus furniture you have stored away. Then buy some new at Northville's stores.

Miss Elsie Brässow will this evening entertain eight girl friends at her home. The affair will take the form of a bunco party.

The Fleur-de-Lis 500 Club was entertained by Mrs. M. H. Sloan at the home of Mr. and Mrs. A. G. Newman last Monday evening.

Mr. and Mrs. A. A. Barrett and two children of Hudson, recently spent a few days with their cousin, Mr. and Mrs. R. H. Johns of West street.

Mr. and Mrs. Leslie Duerl and baby of Detroit, and Mrs. L. M. Whitley of St. Charles, Illinois, spent Sunday at the home of Mrs. C. H. Young and family.

Mrs. S. G. Power and Mrs. W. H. Verkes gave a delightful bridge luncheon at the home of Mrs. Verkes last Saturday. Covers were laid for thirty-two ladies.

The Old Time Dancing Club gave a party Friday evening in the Library. About thirty couples attended. The club membership is composed of residents in Northville, Clarksville and Farmington.

Frank Raymond is in charge of the boilers at the Union Apple Canning Company's plant. He was employed there in a similar capacity for a number of years by the Thompson Steel & Manufacturing Co.

Deputy Sheriff Farlie L. Lee received information in the past few days which may lead to the arrest of the three who robbed a number of banks of \$1,000,000.00.

Mr. and Mrs. Fred Lyke this evening will entertain Mr. and Mrs. Condie Bainbridge and Mr. and Mrs. W. T. Pentright at Plymouth. Mr. and Mrs. Bert Slagle and Mr. and Mrs. S. E. Cranson will be local guests. Cards will be the feature of the party.

J. W. Latrop of Farmington, reports the sale of Grand River section property to the amount of \$100,000. Mr. Latrop is the owner of many acres of land in Farmington and Novi townships to say nothing of extensive buildings on Grand River road in addition to the west.

The many friends of Lyle M. Kestell who has been connected with the Edison company for some years, will be interested in knowing that he has been transferred from the substation at Division and Warren avenue in Detroit to the more important post at Park and Charlotte avenues.

Fourteen ladies were entertained at luncheon by Mrs. M. J. Murphy, last Friday. Five hundred was the feature of the afternoon and all had a very pleasant time. In the evening Mr. and Mrs. Murphy entertained members of the Fulkin family, when another very enjoyable time was had.

Mrs. James F. Dubois and two children from the Adirondacks are spending the winter in Northville and is occupying apartments at 217 Center street, north. Mr. Dubois has charge of the School of Forestry in the Adirondack mountains and will spend his vacation period with his family here next month.

Mr. and Mrs. George Carson have just received a copy of the Cutler-Orosi Courier of Cutler, Tulare county, California, containing a splendid article written by their son, Dr. Will G. Carson of that place. In fact, the newspaper has for some time past been running a series of economic news prepared by the former Northville youth now a professional man of the west.

J. E. Rogers who has been making an extended visit with his parents, Mr. and Mrs. C. W. Rogers has accepted a position with the General Motors Corporation as Instructor in accounting for the benefit of their dealers and agents. His first location will be at Janesville, Wis., for which place he left here the past week. He will be joined by his family this week, having sold their home in Red Oak, Iowa.

Mrs. D. Merithew spent a day visiting in Detroit, recently.

Mrs. Frank Thompson was in Detroit for a short time, recently.

Bruno Freydl was a business caller in Detroit, the first of the week.

Mr. and Mrs. Hutchins of Detroit, were Sunday guests of Mr. and Mrs. H. G. Merithew.

Mrs. L. E. McRoberts is confined to her bed at the home of her daughter, Mrs. D. F. Verkes, Sr.

Specimens of water in different parts of the village have been tested and no germs found.

Rev. F. D. Knowles of the Presbyterian church, was in Detroit, Monday attending a church meeting.

Sterling Eaton of Lansing, and Bruce Masselink of Kalamazoo, spent the first of the week in Northville.

Lauren R. Schall of the Chrysler Motor Sales Co. of Detroit, was a guest at the Neal home over the week-end.

Ed Keeney attended the state convention of agents of the Peoria Life Insurance Company, held in Ypsilanti, the first of the week.

Mrs. Emma Heim, who has been spending the past week with her parents in Grand Rapids, will return to Northville, today.

M. J. Murphy and C. E. Langfield went to Grand Rapids last Sunday, where they attended the Exchange club convention the first of the week.

C. R. Horton is spending a couple of days in Detroit attending a discussion of drug store matters that is being conducted by the Rexall company.

Mrs. Leroy W. Childs, who has been spending the past three weeks at the home of her father, Dr. R. Schuyler, returned to her home in Atlanta, Georgia, last Wednesday.

Milton Brown of Detroit visited in this village Monday. Milt has a hankering to live in Northville once more and if things shake themselves just right he may move back here.

Northville is the healthiest place in the state of Michigan. That fact is borne out by the statement made today by the village health officer, Dr. R. Schuyler. "There is not a single case of contagious disease in Northville today," he said. "And this is the time of year when children are destined to have whooping cough, owing to the crisp and dry air in winter."

Deputy Sheriff Farlie L. Lee received information in the past few days which may lead to the arrest of the three who robbed a number of banks of \$1,000,000.00.

Mr. and Mrs. Fred Lyke this evening will entertain Mr. and Mrs. Condie Bainbridge and Mr. and Mrs. W. T. Pentright at Plymouth. Mr. and Mrs. Bert Slagle and Mr. and Mrs. S. E. Cranson will be local guests. Cards will be the feature of the party.

J. W. Latrop of Farmington, reports the sale of Grand River section property to the amount of \$100,000. Mr. Latrop is the owner of many acres of land in Farmington and Novi townships to say nothing of extensive buildings on Grand River road in addition to the west.

The many friends of Lyle M. Kestell who has been connected with the Edison company for some years, will be interested in knowing that he has been transferred from the substation at Division and Warren avenue in Detroit to the more important post at Park and Charlotte avenues.

Fourteen ladies were entertained at luncheon by Mrs. M. J. Murphy, last Friday. Five hundred was the feature of the afternoon and all had a very pleasant time. In the evening Mr. and Mrs. Murphy entertained members of the Fulkin family, when another very enjoyable time was had.

Mrs. James F. Dubois and two children from the Adirondacks are spending the winter in Northville and is occupying apartments at 217 Center street, north. Mr. Dubois has charge of the School of Forestry in the Adirondack mountains and will spend his vacation period with his family here next month.

Mr. and Mrs. George Carson have just received a copy of the Cutler-Orosi Courier of Cutler, Tulare county, California, containing a splendid article written by their son, Dr. Will G. Carson of that place. In fact, the newspaper has for some time past been running a series of economic news prepared by the former Northville youth now a professional man of the west.

J. E. Rogers who has been making an extended visit with his parents, Mr. and Mrs. C. W. Rogers has accepted a position with the General Motors Corporation as Instructor in accounting for the benefit of their dealers and agents. His first location will be at Janesville, Wis., for which place he left here the past week. He will be joined by his family this week, having sold their home in Red Oak, Iowa.

N. H. S. STUDENT NEWS

In the Commercial department of the school typewriting honors have been won by the following: Woodstock— Ruth Foreman, 51, 50 word min. Tehe Goats, 40, Mildred Plant, 40, 50 word min. Underwood— Ruth Foreman, 53, 50 word min. Durance Dunbar is the first of the beginning typists to earn an honor having written 32 words per minute in 15 minutes on a Woodstock typewriter. He will receive a 25 word min. from the Woodstock Typewriter Co. Commercial Law has replaced Business English for the second semester. Bookkeeping II is now studying the four-column cash journal.

Northville High girls have won another victory. Last Friday, the girls team went to Rochester and returned basket ball victors. The Rochester team played a fast game during the first half, although when the whistle blew the score was 10 to 11 in favor of Northville. During the second half the score mounted still higher, and at the end of the game, the score stood 27 to 8.

The line-up: Geraldine Hunt, 11; Ruth Sessions, 11; Ernestine Wolf, 11; Jessie Austin, 12; Verna Austin, 12; Mary Jordan, 12; Vivian Taylor, Edna Martinus, and Madeline Cole.

The next game is with Birmingham here.

A few nights ago the Senior class voted on the election which students turned out to be a serious affair. The Misses Gotts, Rent and Warner being favorites.

The School House Spokesman says, "It is the right and privilege of every student in Northville High School to be informed as to what takes place in the Student Council, because all students are members of the Student Union. This is the form which our government, and everyone who practices law, is in the government, and a right of those who are in the government. The Student Council is the government of the school."

During the past three years, the automobile clubs of the United States and Canada have entered into various reciprocal agreements which have resulted in more comfortable touring conditions for the tourist of either country.

Members of the American Automobile Association, partly, of the Detroit Automobile Club may enter upon presentation of their card at club stations located in Canada by

AUTO CLUB HELPS TO SECURE LONGER TIME IN CANADA

Advises How Permit to Stay
Beyond-Limit Can be
Secured

Negotiations between Canadian Automobile Clubs and custom officials were reached during the past week, with the result that members of the A. A. A. are not obliged to abide by the thirty day touring permit in Canada.

According to an announcement made by Charles T. Bush, President of the Detroit Automobile Club, P. E. Doolittle, president of the Canadian Motorists Association, told the directors of the American Automobile Association, recently, that this agreement had been reached.

It was formerly necessary for the mayor of the city to vouch for American tourists desiring to remain longer than thirty days on a Canadian tour. A. A. A. members may now make applications at Canadian Automobile Clubs for a permit to overstay the thirty day limit.

By presenting the A. A. A. club card, the tourist may continue over the thirty day period without the red tape and often times inconvenient negotiations with the mayor of the city. This arrangement, said Dr. Doolittle, "is only another step of reciprocity between the United States and Canada, whereby mutual benefit will result to the tourist interest of both countries. The class of members representative of the American Automobile Association clubs enables this agreement to eliminate the red tape without jeopardizing Canadian law enforcement."

During the past three years, the automobile clubs of the United States and Canada have entered into various reciprocal agreements which have resulted in more comfortable touring conditions for the tourist of either country.

Radiator Protection

GLYCERINE

Glycerine and water is undoubtedly the best solution to prevent freezing of automobile radiators in low temperatures, and, while comparatively new to the general public, it has been used with marked success and satisfaction for a number of years.

Some of the Proved Advantages are:

1. Glycerine will not evaporate at maximum radiator temperatures, therefore the solution will remain at full strength throughout the winter.

2. Glycerine is practically odorless and non-volatile, therefore in using this solution there are no disagreeable odors or unpleasant volatile vapors. \$3.00 per Gallon.

ALCOHOL

Denatured (188 Proof) Highest Test. Contains no benzol or other injurious ingredients. Beware of denatured alcohol containing benzol which tends to injure rubber connections.

Prices in Quantities, 75c and \$1.00 per Gallon.

**EXCHANGE CLUB
IN THIRD PLACE
FOR ATTENDANCE**

Con. Langfield Makes Good Report on State Convention

According to the excellent report given Wednesday noon at the meeting of the Exchange club by Con Langfield one of the delegates to the state convention of the Exchanges held at Grand Rapids, this club stands in third place in Michigan in point of attendance. He suggested that an effort be made during the coming year to win first place and President Don Yerkes, Jr., declared that the sug-

gestion would be carried out. Mr. Langfield with M. J. Murphy were the delegates from this place. The Northville delegates had much to do with fixing the next convention place as Benton Harbor and Mr. Murphy declared their influence was won for that place by some sort of an agreement whereby Con Langfield is to give the city King Ben and the house of David might be involved if he hinted.

Dr. W. B. Steele of Muskegon is the new president and John Sterling of Benton Harbor the new vice-president. Mr. Langfield pointed out that the secretary had much to do with keeping up club interests and he highly lauded the work of Rev. Richards, secretary of the Northville club.

TRY Northville first.

**LOCAL AUTO CLUB
CHIEF STRONGLY
URGES COURTESY**

President Schrader Tells of Good Driving Requirements

Highway Courtesy in its simplest form provides one of the most effective ways of facilitating the smooth flow of traffic, in the opinion of N. C. Schrader of the Northville club.

What is the simplest form of highway courtesy?

According to Mr. Schrader, it consists in giving precise and intelligible signal to indicate clearly every intended change of course while driving whether it be a right turn, left turn, a complete turnaround, or a full stop. On this point he says:

"One of the fundamentals of traffic safety is the signal system, devised so that one driver may apprise all others of his intentions. To reduce the number of accidents on American streets and highways, it is essential that each driver pay 100 per cent attention to this fundamental."

"It might be helpful for each driver to do a bit of introspection to determine just what motivates him when he turns his arm over the side of the car to signal a turn.

Certainly the situation would be much more favorable if all drivers made to give unsolicited, if real courtesy to the cars immediately behind them.

Periodically stops in stopping distances have been the cause of many accidents. It is the opinion of Mr. Schrader that the driver could be greatly assisted if each driver were conscious of his responsibility to other road users as well as himself.

It is the hope of the club that the
