

# THE NORTHVILLE RECORD

VOL. LVI. NO. 45.

NORTHVILLE, MICH., FRIDAY, MAY 20, 1927

\$1.50 PER YEAR, IN ADVANCE

## SELECT JUNE 22 AS DATE FOR BIG GRADE FIELD DAY

**Northville Schools to Conduct Event at Local Fair Grounds.**

Arrangements have been completed by Superintendent W. H. Gordon of the Northville schools and the school board officials for the first grade field meet ever held in this community. The date has been fixed for Wednesday, June 22nd, and the fair grounds have been secured for the event.

Part of the committees have been named and other workers will be announced within the next few days in view of the fact that the affair is something that the entire community is going to be interested in, the school authorities thought best to have many of the committee workers from outside school ranks.

There will be athletic events and bicycle races for the boys of the grades, and for the girls there will be drills, May poles and various group dances.

It is planned to have all the children from the first to the eighth grade take part. The Exchange and Rotary clubs have voted to provide the ice cream for the big picnic dinner which will be served on the day of the field meet.

The committees that will have charge of all preliminary arrangements will be published next week, as well as other information about the event.

There is no question but what the field meet will bring hundreds of interested persons to Northville to witness the various contests, dances and drills. Those backing the project are determined to make it one of the most successful field days ever held in the state for the grades.

## WILL SPEAK HERE

MRS. DYGERT

## HER LECTURE TO BE OF INTEREST TO HOME MAKERS

**Edison Company Brings Expert on Illumination to Northville**

So that the residents of Northville might have an opportunity to hear one of the leading authorities of the central West express her views on proper interior decoration and home illumination, District Manager Edward Mills of the Detroit Edison Company, has arranged to bring to this community Mrs. Dygert, for an address to be given on Wednesday, June 1st, at the Presbyterian church parlors.

The coming of Mrs. Dygert is in connection with the cooking school to be conducted at the Presbyterian church from May 31st to June 3rd. Mrs. A. F. A. Starnes will have charge of the cooking school, and Northville ladies know of her ability along domestic science lines. Tickets must be bought now but what the cooking school will be well attended, and it is to be given by Mrs. Dygert will be equally well attended. Mr. Mills states that the meetings have been arranged, and the Edison people and everybody involved in the project have charge of the kitchen, and come with the cooking school in full force.

The high school will be at 12:45 noon.

The May 1st lecture will start at 6:45. The Adrienne Club is to meet at the young people's meeting room.

Bro. Kilday will be with us in our congregation for the drama service at 7:30.

Everybody welcome.

**PRESBYTERIAN.**

Sunday morning worship at 10:30. Sermon by the pastor, "A Wall or a Shield". Sunday school at noon. Lesson, Peter Heals the Leper Man". Union Young People's meeting at M-E church 6:30 p.m. Evening service at M-E church at 7:30. Sermon theme, "God of all Comfort".

The Auxiliary will meet on Monday evening with Miss Marian Power. Mid-week service Wednesday, 7:30 p.m. Study, Matt. 6:9-13. "The Disciples Prayer."

**ST. PAUL'S LUTHERAN**

"He that hath an ear, let him hear what the Spirit saith unto the churches."

"Our Synod—Its Yesterday, Today and Tomorrow" will be the pastor's subject on next Sunday morning. All members are urged to hear this message. This service will be in English and will begin at 10:30. Visitors heartily welcomed.

Sunday-school classes meet at 10:00 o'clock.

An important meeting of the members will be held immediately after the service.

You are always welcome at St. Paul's.

**BAPTIST**

Rev. Joseph Priest of Fenton, gave the church two good sermons on Sunday last to a fair-sized audience. This is Mr. Priest's second visit as a candidate for the pulpit.

Our Mission Circle carried off the honors at the annual woman's meeting at First church in Pontiac, last week. Ypsilanti came second, and the next yearly meeting will be held in that city. A banner was offered last year for the largest attendance per capita, let us all do as well next May.

No important business matters are to come before the church Sunday.

Miss Bernice Sterling, one of the teachers in the Bath school who escaped injury when the building near Lansing was blown up Thursday and 37 children killed, is a sister of Mrs. Harold White of this place.

youngment. Church membership is urged to be present.

The rummage sale was closed Tuesday evening, and the ladies are well pleased with their success. Mrs. Bissell acted as general chairman and was untiring in her efforts.

Children's Day will be observed Sunday, June 12th.

Brother Quincy Carmen of the Board of Fisheries at Hillman is very ill at Alpena, and the prayers of our people are requested for his speedy recovery.

**OUR LADY OF VICTORY**

Rev. Jos. S. Schuler, Pastor, 224 Thayer Blvd, Phone 332.

# Hillcrest Manor

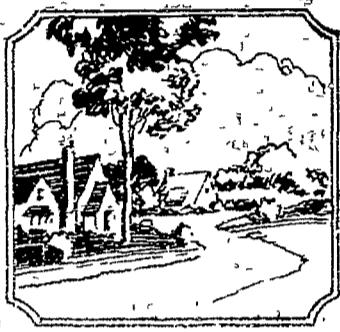

IN THE NORTHLAKE HILLS

## "Time Passes . . . Fleeting Hours Speed Swiftly by." And with the fleeting hours Speeds Opportunity.

**M**INUTES grow swiftly into hours—hours into weeks and years. Swiftly time passes, parading an everchanging picture before our eyes. We recall many scenes . . . pleasant moments . . . ambitions realized . . . wasted hours . . . lost opportunities . . . opportunities which might have brought profit and happiness.

Perhaps we lacked self-confidence. Perhaps we failed to recognize the opportunity when we faced it. Perhaps we delayed . . . failing to realize how swiftly golden hours speed past . . . and with them our opportunities. Born on the wings of Time, opportunities cannot wait. Brought into being by great forces, they are carried by those same forces beyond our reach if we fail to act within the hour.

Opportunities exist for YOU—TODAY—in Hillcrest Manor. Each week the number decreases. Each sale cuts the supply and increases values. Many have realized the fact and acted. Many are securing sites NOW. You can be one of this group of shrewd investors and wise homeseekers if you do not wait too long. "Time passes . . . fleeting hours speed swiftly by."

And . . . as the hours speed by . . .

Report Hillcrest—  
and see how time  
is passing. The days  
are gone when you  
thought of you will be  
seen driving under the  
leafy umbrellas filled with  
possible buyers—men and  
women admiring and enjoying  
Hillcrest's scenic beauty  
—who want large homesites  
(which are not plentiful)  
who must be near schools  
and service centers . . .  
or be in at present prices?

Many Hillcrest Homesites  
will then change hands—at  
substantial profits. Will  
you PAY someone a profit  
for YOUR Homesite here—or  
be in at present prices?  
Decision rests with you.

Time CAN bring happiness and profit—your future is in your hands—subject to DECISION TODAY . . .

### Twelve Factors Which Prove Hillcrest a Present Opportunity

1. Adjoins Village Limits— Practically in town—with the freedom of the fine country place—a strong feature—easily accessible.
2. In Path of Immediate Growth— Fine development must take this direction—bringing increased values. Quicker development certain.
3. Only  $1\frac{1}{2}$  Blocks from Grade and High School— A big point to families with small children builds bigger resale values—very rare in subdivision property.
4. Only  $\frac{1}{2}$  Block from Bus Line— Many business and professional men like bus service to Detroit. Big plus if you wish to sell.
5. Rigid Requirements Protected Value— An orderly established subdivision. Get complete details at our office or write. Worth your while.
6. Wide Winding Drives Under Construction— No flat road or hill to climb in Wayne County—you will like this more than walking down now.
7. Perfect Setting for Beautiful Homes— The setting is half the home—or more. Individual land capitol being full beauty of Hillcrest.
8. No Small Lots—100 ft. Front and Larger— Room to grow—live and be happy. No question—greater beauty—bigger value—easier resale.
9. Wayne County's Most Beautiful Property— No subdivision in Wayne County can duplicate ALL Hillcrest features. See for yourself—your eyes know.
10. Individuality in Every Homesite— Practically no two Hillcrest Homesites the same. No monotonous repetition of same lot size and shape. YOUR Homesite is Unique—one of a kind—more desirable—more valuable—more salable—more profitable.
11. Prices Less Than Most 40 Ft. Lot Properties— This is a fact. Yet Hillcrest is superior to such properties. We will gladly prove by comparing prices.
12. The Last Close-in Property Available— No similar property can be offered within  $1\frac{1}{2}$  blocks from school. Positively the last of such opportunities.

### Prices advance \$200 on each Homesite Unsold after May 31

Hillcrest has achieved a recognition rarely accorded any subdivision in so short a time. Present prices will soon be past. You can obtain 136 ft. frontage NOW for \$1550.00 (ask to see No. 41). You can obtain 200 ft. frontage for \$2425.00 NOW, (ask to see No. 61.) You can buy a homesite 147 ft. x 186 ft. for \$2375.00 NOW, (ask to see No. 24). Terms are 10% down and 1% monthly including interest. It is not difficult to pay for a homesite. Prices will never again be so moderate or terms so convenient. Come up Sunday. Visit the office any week day. Make Reservations NOW.

## What Have You

## to Give?

Some things we call real property and some personal, and the law defines them. How much of it will go through the gateway called death?

While you are of a sound mind you can direct your property and give as you see fit, but supposing you are not, then what?

The fall is to give, give, give, as prodigal with life and possessions as God is with beauty and fragrance and nobility of things all around us.

Peter met a man at the temple gate who sought alms. Peter did not have the silver or gold but he did give him restoration to health—the gift that was most valuable to the man and an example to the onlookers.

C. A. DOLPH BIBLE CLASS  
METHODIST SUNDAY SCHOOL

## First Presbyterian Church

NORTHVILLE, MICHIGAN

It's Cobb's a great ball player because he has always tried to do his best. No game is ever lost as far as he is concerned, until the last man is cut. In the game of life you have got to stand right up to the plate, hit the ball hard, and play the game square if you want to win.

Peter made one big mistake, but he didn't stay down; having learned his lesson he came back with all he had and played the game through to the end. Religion does something for a man, that nothing else can do. It helps him to fight and win when the devil is on top.

It's this kind of religion that the churches of Northville are preaching. It has helped others—it will help you.

10:30 a.m. 7:30 p.m., Sunday school at 12 noon. A welcome for you.

**Local News**

Harry White has gone to New York city, where he will make his future home.

Judge George H. Baker has been seriously ill the past week, but is now getting much better.

Mr. and Mrs. Louis Hillyer and daughter, Mary, of Elsie, were guests of their Cousins, the Neals, Saturday and Sunday.

Mrs. Grace Watts, Mrs. Maud Bennett and Mrs. Ethel Clark have been summoned as circuit court jurors for the June term of court.

Mr. and Mrs. J. E. White and children from Grand Rapids, spent Saturday and Sunday at the home of Mr. and Mrs. Harold White.

Mrs. Erin Corb and Mrs. William Richards were two delegates at the annual convention of the Missionary Society of the Methodist Church.

The many friends of Leo Lawrence will be glad to know that he is improving very rapidly from his recent operation. He is now at his home.

Officer William Safford has been drawn for service as a circuit court juror, but his official duties will make it impossible for him to serve in Detroit.

Mr. and Mrs. Clarence Whipple announced the marriage of their daughter, Hazel Ella, to Alvin G. Bodding, at Noblesville, Indiana, by the Rev. Merrill Lester.

Mrs. Loren Goodale has been confined to her home as the result of a sprained ankle. She tripped on the walk last Friday, the fall resulting in a very painful injury.

The Missionary Society of the Methodist church will meet with Miss Blanche Clarkson, Duxbury, Friday next May 25. A good advance is required. Time 2 p.m.

Mrs. L. L. Lindsey of Gross Pointe visited with her parents, Mr. and Mrs. J. M. Van, last Friday. Z. O. Hall of Detroit also spent the past weekend at the little old patients.

Mrs. Elmer Peck has been married for nearly ten years. The Peck was born in 1910 and she is a great pleasure after the very difficult operation taken upon her applying for gold and platinum.

Ed. H. Bogart of Grand Rapids is continuing his summer trip to the Rockies for the first time. The tour is through a planned route, the main one recommended being made in town, and in the second in a more rural route.

Mr. Johnson has secured the contract to construct a new swimming bath and ever so convenient the present site just at Woodlawn, off Main Street. Work on the plan and start at once.

The Public Library Art society will hold its first meeting for the election of Mrs. Scott, or Campau, on Wednesday, May 25. Members are requested to bring their names and addresses. A pot-luck lunch will be served.

Over thirty members of the Northville American Legion Post No. 16, the Salem Methodist church, Sunday, Rev. Halliday, who is leader of the pastorale of the church, as president of the local Legion post, and has always been active in Legion matters.

Albert Vraendenburg, who has been spending the winter at the home of his daughter, Mrs. A. J. Leverington, in Hannibal, Missouri, has returned to his home in Northville. His daughter accompanied him, and remained here for a brief visit. Mr. Vraendenburg is not in the best of health.

Nineteen young ladies from her sorority house at the State Normal at Ypsilanti, were guests over the past weekend of Miss Ada Ely. A part of the time was spent at the Ely cottage at Walled Lake, and even though overcoats are still in service, the students took a swim in the lake Sunday forenoon. They returned to Ypsilanti Sunday evening.

About the greatest thief in the world is the fellow who will steal flowers that a person has given considerable time and trouble to produce. But, right now, Northville flower lovers are suffering from the operations of some flower thief. Some have thought that possibly it was someone working out from Detroit who steals the flowers and takes them back into the city to sell.

Harvey Blomberg and Miss Ruth D. Dubois, well known young people of this section, were married last Saturday, at 11:30 o'clock by the Rev. A. K. MacRae in their new home on Ann street in Plymouth. The groom has been a resident here for about three years. The wedding was in the presence of only the immediate family and a few friends. They were attended by K. Anderson and Miss Anna Anderson. Miss Bessie Little played the wedding march and sang "Oh Promise Me." A wedding trip to two weeks duration is being enjoyed. They are visiting Washington, Philadelphia, New York City and other eastern points. The groom is employed at the Ford Motor plant.

SAM PICKARD  
Buyer, and Dealer in all kinds of live stock. Dairy Cows a specialty. Always have a good selection of fresh and close up cows for sale.

The Red Arrow Lunch is putting up a new electric sign.

Harold White was a business visitor in Detroit the first of the present week.

H. A. Boylen and family spent Sunday with the latter's father in Kalmaroo.

Mrs. George Stamp is spending some time with her daughter in Michigan City.

Mrs. George Weaver of Kingsley, Mrs. E. M. Hollis and family and Don Stier visited friends in Grand Rapids and Muskegon over Sunday.

There will be a card party given at the home of Mrs. E. L. Lomax on the Base Line road on Wednesday, May 25, from 2 to 4:30 p.m.

Mrs. Edith Keeney has been spending the past few days in Fumigton at the home of her mother, who has been ill. Her condition is reported as somewhat improved.

The regular meeting of Orient Chapter No. 17, O. O. S., will be held this Friday evening at six o'clock dinner followed by initiatory work, is scheduled for Friday evening, May 28th.

Sunday guests at the home of Mrs. George Ford were Mr. and Mrs. Jessie Carlson of Niagara Falls, Mr. and Mrs. Henry Severance of Flint, Mr. and Mrs. Phil Taylor of New and Mr. and Mrs. W. H. White and children of Northville.

James Huff is this week helping Northville in its clean-up and paint-up campaign. He has put on a special sale of everything one needs to assist in the cleaning up process. And his special big ad mentions a lot of real bargains.

Record readers will be interested in the full page ad that John McCullough is carrying this week. Mr. McCullough is conducting one of the biggest trade sales that was ever put on in Northville. The ad calls attention to many excellent bargains.

## Local News

The W. R. C will hold a regular meeting and conduct sanitary work on Wednesday evening, May 26th. The meeting will begin promptly at 7:30 p.m. As this is the last meeting before Memorial Day, the president has requested a large attendance as various committee appointments will be announced at that time.

Wm. Wain, the night watchman in Sessions' hospital suffering from an injury to his left knee received last Saturday evening, when assisting in the direction of traffic at the main intersection. He had temporarily relieved Officer Safford, whom the former of a machine hit him and knocked him to the paving. It was raining and dark at the time and his dark raincoat apparently precluded the driver of the car from seeing him.

A number of members of Orion Chapter, No. 770, E. S. attended the annual meeting of Wayne County Association, held in the Masonic temple at Highland Park, Monday afternoon and evening. The included Madames Celeste Konler, Lydia Ely, Blanche Franklin, Mary Castle, Delta Brooks, Anna Edwards, and Hazel Boyden. Worthy Matron Lydia Ely and Associate Matron Elizabeth Franklin took charge of the afternoon work.

The W.C.T.U. held their annual meeting at the home of Mrs. Neile Westcott, 118 Baseline street, at the regular hour of 7:00 o'clock. Refreshments will also be served. Members please be present.

Work has started on the new bridge that will be constructed by Oakland county on the Novi road, just where it turns off the Baseline road. A wider turn will be made, although the Gordon company did not consent to the plan suggested by the Oakland county officials. Use of all the highway right-of-way makes possible the larger turn.

Mrs. L. M. Eaton is recovering nicely from a minor operation recently underwent at the Sessions hospital.

Harold Rutenbar of Plymouth, who underwent a serious operation at Sessions' hospital, is getting along as well as could be expected.

Fred VanAtta was in Kalamazoo on business, last Saturday.

Scott Montgomery, who accompanied his parents, Mr. and Mrs. Stewart Montgomery, home from Florida two weeks ago, left last Wednesday night for Gainesville, Florida, where he will join his band which is under contract to play this summer.

That friend with relatives of Robin White, son of Mr. and Mrs. George White, of Novi, died yesterday morning. Mr. and Mrs. William and Mrs. John D. White, of Novi, were to drive to the coast to have a vacation there, but Mr. White found the most difficult part of the drive.

A few weeks back to Mr. and Mrs. M. Davis, of Novi, West Virginia, died May 7th.

John F. Gandy, 13 W. 11th, recently returned from a trip to Lake Superior.

NOTICE

People dumping rubbish along any of the Novi township highways will be prosecuted under the state law. This means any kind of rubbish or garbage.

By order of  
WILLIAM MAIRS  
Highway Commissioner

Have you  
ever made  
good on  
one job...  
for 39 years?

THE extra mileage you get from Dunlop tires starts with the fact that Dunlop has had thirty-nine years of tire-building experience—more than any other tire maker.

Each part of each Dunlop is built right. Dunlop owns its own cotton mills to spin selected long-fibre cotton into the special Dunlop cable-twist cords.

These cords mean extra strength—an added factor of safety against constant load and pounding of roads—longer life and greater mileage.

They mean extra "stretch"—so the tire carcass will give under blows, and come back to its original shape without the slightest injury.

Every Dunlop you buy has extra miles built into it because Dunlop knows each part of its job. That's why we recommend you put Dunlops on your car.

#### GRAHAM'S PLAN PAIGE PROGRESS

Plans to place Paige in the forefront of the automobile industry are outlined by Robert C. Graham, representing the three Graham brothers who recently announced their plans for assuming control and management of the Paige Detroit Motor Car Co.

At a meeting of the Board of Directors of the Paige company, May 2, the company and Messrs. Joseph B., Robert C. and Ray A. Graham, which contract, when ratified by the stockholders of the company, will pass the controlling interest to, and the management of the company to, the Graham brothers.

We selected Paige to re-enter the motor car business," said Robert Graham, "first, because the present Paige line of eights and sixes are fine cars which represent outstanding motor car values. This line of cars will be continued on the market through present Paige dealers. The public may buy Paige products today with greater confidence than ever before because of the added strength of the new management."

"We are putting four million dollars into the Paige business and will follow with an additional four million as the development and expansion of the business warrants. We will devote to our full time and energies. We have behind us twenty-five years of experience as manufacturers. We believe that success comes from building good goods efficiently and offering them to the public at fair prices. We are in a motor car business as manufacturers to stay."

The farm population of this country decreased 649,000 persons last year, the largest decrease in any year since 1920, according to estimates by the United States Department of Agriculture. The number of people living on farms January 1, 1927, is estimated at 27,392,000 against 28,541,900 January 1, 1926. The 1925 agricultural census figure, 28,932,000, was used as a base for these calculations.

A celebration was recently held in London in honor of the inventor of match John Walker, a chemist who sold boxes of friction matches 100 years ago. Each box contained 50 matches.

### BILLION DOLLARS FOR '27 HIGHWAYS

(By Dubois Young, President of the Hupp Motor Car Corporation)

More than a billion dollars will be spent this year for highway construction and improvements, according to figures received from government department.

It is planned to construct 20,000 miles of new roads. For new bridges \$56,000,000 will be expended. Another \$27,000,000 will be used for reconstructing existing roads.

Not only is the nation wisely spending larger sums of money for good roads, but the highway engineer is building more speedily. The modern road-builder builds for safety. No longer does he depend much on warning signs and devices. Instead, he eliminates curves, avoids railroad crossings and reduces steep grades.

It is interesting to note that \$27,000,000 is available for the reconstruction of good roads. The necessity for building wider highways and for widening roads is most evident. Traffic must continue to move rapidly.

Estimated total road mileage to be built by the state highway departments includes 6,957 miles of earth improved roads, 32,303 miles of sand, clay, gravel and macadam roads, and 7,489 miles of asphalt, concrete and brick highways.

Millions of dollars for good roads. The economic influence of improved highways is a story that would fill a book. Think of the effect on real estate values alone that such roads will have. Such highways will result also in a further disintegration of urban life and further development of suburban and rural life.

In truth it can be said that as a country improves its highways it progresses socially and economically.

It is advisable to have horses' teeth trimmed by a competent veterinarian at least once a year. Generally, all that will be required is to file off the long, sharp corners, which are liable to uneven wearings. This roughness first causes sore tongues or cheeks, followed by a lack of proper mastication together with digestive troubles. Old horses particularly are often much benefited by proper attention to the teeth.

Eggs rank high in digestibility whether you eat them raw or cooked. The advantage is probably on the side of the slightly cooked egg especially in the case of the egg where

## Constant Cold—

The prime virtue of the Electric Refrigerator is its practically unchanging cold. It maintains a steady, food-preserving temperature—and this it does automatically.

The electric refrigerator solves the problem of keeping foodstuffs always in perfect, health-preserving condition—with out your raising a finger. Come in and let us tell you more about it.

**Not a New Rug—Just  
Renewed an Easy Way**

Yes, it's the same old rug you have seen so many times before. But I have learned an easy way to keep things looking just like new. For a few cents I get a jar of Solvite dry cleaning soap that saves me at least five dollars.

Everything that will be harmed by water can be cleaned by Solvite. Use it for dry cleaning soap, dissolved in gasoline, auto, coats, dresses, rugs, gloves, furs, draperies, and many other things come out bright and looking like new. Nothing takes wrinkles out of Solvite. If new, it costs only one cent a jar. Solvite—use it and save five to ten dollars through its use.

**STINSON PLANE IS  
USED EXTENSIVELY  
SAYS MAGAZINE****Prominent Business Men  
are Flying These Days  
to Save Time**

One of Northville's main products, the Stinson plane, was given especial mention in a write-up published in the last issue of the Michigan Manufacturer. The article, in part said:

"Stinson Aircraft Corporation commercial airplanes were designed by one of the most experienced flyers in the world, Edward A. Stinson. Stinson has flown more miles, trained more pilots and tested more airplanes than any other man and has been designing airplanes since 1911, when he and his equally famous sister, Katherine, barnstormed the country in famous 25-horsepower Wrights. In those days Eddie had to take down and rebuild his ship every time he was to give an exhibition."

As a result of his long experience Stinson has developed what is undoubtedly a "fool-proof" plane. First he took every precaution to insure positive rigid construction. He built his fuselage of steel tubing and welded every joint and every connection with steel. He put solid Duralumin ribs in his wings. He made all his controls of steel and all his rudders, elevators, stabilizers and ailerons with steel frames. He uses the Wright Whirlwind radial engine, developing 200 horsepower.

Horace E. Dodge, president of the Horace E. Dodge Motor Works, also owns a Detroit car and uses it for pleasure trips over the continent and for business conferences in different parts of the country. Other men who find the Detroiter invaluable to their business are: Frank J. W. Blair, president of the Union Trust Co.; Newton S. Skillman, president of the D. C. Bearing Company; Charles C. Rohn, president of the Bohn Aluminum & Brass Corporation; William B. Stout, aircraft designer and general manager of the Stout Metal Airplane Division of the Ford Motor Company; Carl H. Kellie, president of the Contractors' Equipment Association; Edward S. Evans, president of the D. S. Evans Corporation and joint holder of the Round-The-World record of 28 days; and Austin F. Beement of Austin F. Beement, Inc.

Edward F. Schlegel, president of the Wayne Oil Corporation, entered his Detroit in the National Reliability Tour in 1926, and placed third. Since then he has used the ship for flying to all parts of the United States in the welfare of his business.

**OAKLAND SALES  
SET NEW RECORD**

On April 26 a new sales record for the Oakland Motor Car Company, Pontiac, Michigan, 19,423 cars being sold during the month, it was announced by W. R. Tracy, vice president in charge of sales. This exceeds the sales of last August, previous high mark of the company, when a total of 17,663 cars were sold.

May production schedules have been increased again, and the Oakland factories now plan a combined output of 24,000 Ozark and Pontiac cars this month, an average of more than 1,000 cars each working day.

The 100% cars ahead goal was

reached one day during the last week in April, but this month the production will have to average above the record mark if the schedule is to be maintained.

Oakland is running far ahead of its 1926 sales, each month showing a big increase. During the first four months of 1927, Oakland-Pontiac sales totaled 53,618 cars as against 39,309 cars for the same period last year.

Attaining of the new production record was accomplished in April in spite of the fact that the new Pontiac division factories were being occupied and new additional assembly lines and equipment utilized for the first time. With the added facilities working smoothly, no difficulty is anticipated in accomplishing the large schedule during May.

Production is still far behind orders, according to factory officials, and every effort is being made to increase production without interfering with careful inspection methods and the quality of cars built.

**EASTLAWN GIVEN  
HIGH PRAISE IN  
MEDICAL JOURNAL**

**Northville Sanitarium Is  
Lauded in Bulletin of  
Wayne County Society**

The Bulletin of the Wayne County Medical Society, in its last issue, gives the East Lawn Sanitarium, located in this place, an especially good write-up. That article follows:

"A visit to Northville not only offers a delightful drive but also a surprising experience. Standing 1,700 feet above the sea level, the East Lawn Sanitarium is surrounded by a twenty-acre hillside covered with fine old growth forest trees. It has had a profitless history of years involving many flower beds and fountains.

This institution has been named 'An Academy of Health,' and lodges a magnificent old homestead, which has been enlarged and made into one of the most attractive and healthful hospital homes that it is possible to conceive. Numerous individual cottages are appropriately grouped. Never in your editor's experience has he been afforded so delightful a surprise as when he inadvertently drove into and up the winding road leading to East Lawn Sanitarium without being aware of his destination. This institution houses more than sixty patients, and is equipped completely in every way for the study and treatment of tuberculosis. Natural springs afford pure drinking water. An innovation, not duplicated to our knowledge, is a radio plug at each bed for furnishing such programs as are available to all radio fans and in an ingenious arrangement with the aid of a phonograph Dr. Wickham is enabled to furnish educational directions and information to every patient in the institution. These

weekly addresses are a part of the routine of the institution.

Experience has shown that tuberculosis when taken reasonably early is definitely curable, and that such a cure does not necessarily embody a long stay in a sanitarium, and that such 'education' as is acquired in a properly conducted institution is most desirable for follow-up home treatment, which must necessarily be carried out over a long period. The United States Public Health Service states that improper diet is one of the most common causes of the disease and calls attention to the general lack of knowledge of food values.

Dr. Wickham was most cordial in his reception of the writer, and expressed the hope that many Detroit physicians would visit him and accept of his hospitality."

Better dyes are being used in wash fabrics now than ever before. Nevertheless, it is well to get a sample of goods and test it for both surface and water fading before buying a piece of material. Cover a part of the sample with cardboard and expose it to direct sunlight for at least a week. Remove the cardboard occasionally and compare the exposed and unexposed portions. Wash a sample under ordinary conditions and then repeat the process.

Chalk should be set for about 60 hours after they are matched.

### DETROIT DOCTOR TELLS ROTARIANS HOW TO LIVE LONG

Club Members Vote to Join  
the Twilight Baseball  
Local League.

Northville Rotarians Monday noon voted to put a baseball team in the local twilight baseball league, electing their president, Don Yerkes, Sr., as manager of the team, then heard a talk on heart ailments of people in middle life.

However, the speaker, Dr. Phil Marsh of Detroit, stated that he really saw no danger to any member of the Northville club in playing baseball because they all looked healthy and fit.

Dr. Marsh was introduced to the club by Wellington Roberts who had charge of the program of the day. He declared that in recent years nothing has taken such a great toll of human life as heart ailments, but to some extent he said this was due to the fact that human life was longer now than it was a decade ago.

In fact the average existence of a human being has been increased from 38 to 58 years. This is due to the fact that many diseases that formerly took a heavy toll of lives have been practically abolished. It is no longer necessary for anyone to have smallpox, diphtheria or typhoid fever. Last year there were but three cases of typhoid fever in one eastern state and it was found that these three cases had been imported outside the state. Of course this fact has much to do with the figures I quote," he said.

"Heart trouble" is due to several things. Sometimes to over-eating, sometimes to come ailment that we have suffered from. It is a pretty good practice to have a periodic health examination made. In this way you can generally check what might prove to be a serious condition later in life," he stated.

The Northville club has been invited to attend the meeting of the Northville Rotarian Club on the evening of May 29. A number of members have been invited to attend the session.

### PHONE SLOGANS IN ADVERTISING

Retailer Dealers Pay Increasing Attention to Orders That are Called in

Telephone numbers are the most important part of any telephone number. If the first four digits of a telephone number are 1234, the last three digits must be 567 or 568. A greater convenience, it has been found, for only a limited number of dealers to adopt telephone numbers in common with their advertisers. Those who have done so however, have found the results most satisfactory.

One such dealer who advertised recently in his local newspaper used a slogan which reads:

"Our Telephone Never Rings Twice."

This particular dealer, realizing the value of good telephone service and the impression it makes on his prospects to be received promptly and courteously, has spent considerable time in perfecting his organization so that all telephone calls are answered immediately and the inquirer is shown the same courtesy as he would be accorded if he were calling in person.

Retail stores that recognize the "telephone urge" and are interested in promoting business by telephone, find it advantageous to display their telephone number prominently in their advertising—not alone accompanying their signature, but often in other parts that covers more than a quarter of a page.

### JUST A WORD TO OUR ADVERTISERS

It has been brought to the attention of the Record that someone has been around trying to sell various advertisers an so-called cut service. They say that the use of the small cuts they offer can be taken out from the cost of the ad.

Before buying anything like this, just call up the Record, and let us know about it. We have installed an unlaminated cut service and can get most anything you want.

One or two of the advertisers have purchased these cuts, and both of them are greatly disappointed in what they got, and have already discarded the service. However, they have got to pay for it just the same. Be sure and call when approached by these fellows.

A "laminated" cut is surrounded by water and provided with a bomb-proof coating. It has been given to the Bank of France.

# Firestone Dealers

**Have Purchased 100% More  
GUM-DIPPED TIRES**

[This Year Compared With Same Period Last Year]

THE demand from car owners for Gum-Dipped Tires has given Firestone Dealers a large increase in volume enabling them to sell these tires to you at the lowest prices in history.

On the cars of motorists everywhere, these wonderful tires are delivering unheard-of long mileage with greater safety and comfort.

The Firestone Balloon Tread, scientifically designed three years ago, and unchanged today, follows the contour of the tire carcass with no excess rubber at the edges to cause "shoulder breaks". Narrow rider strips permit the tread to yield to depressions and cling to the road, preventing skidding. This tough, pliable tread has the wear-resisting qualities for thousands of extra miles.

Such a tread must be placed on a carcass with the qualifications to withstand the terrific flexing that this design permits. The Firestone carcass is made of cords dipped in a rubber solution which not only saturates and insulates every fiber of every cord, but unifies sidewalls with carcass, avoiding separation under the extreme flexing.

Many Firestone Dealers are prepared to offer you a liberal allowance for your old tires, on a new set of Gum-Dipped Tires to start the motoring season.

To meet a demand for a low price tire and tube, Firestone designed and manufactures, for Firestone Dealers only, Oldfield Tires and Tubes, which carry the Standard Manufacturers' Guarantee.

WHITE'S

A regular meeting of the Council  
of the Knights of Columbus of Northville was held at the  
Knights of Columbus Hall on the 2nd day of  
May, 1927, present: Elmer J. Stech  
President, Trustee, T. P. Kipps, Van-  
Valkenburgh, Walker, German and  
Schultz, the following resolution was  
adopted:

RUSSELL LTD., that in order to get the  
best and most perfect Village govern-  
ment and to better provide for, promote  
and maintain the ensuing interest  
of all our people we do claim  
expedited and desire to revise the  
Charter of said Village, and to have  
it declared for a general revision of  
said Charter, and do further resolve  
that the question of having a general  
charter revision shall be submitted to  
the electors of said Village for adop-  
tion or rejection at a special election.

We do further resolve that there be  
submitted to the electors at such special  
election also, the election of five  
(5) electors of said Village, who are  
freeholders to be elected at large on  
a non-partisan ballot each of whom  
shall have had a residence of two (2)  
years within said Village, and that  
the five (5) candidates having the  
greatest number of votes at such elec-  
tion shall be elected as such Charter  
Commissioners.

RESOLVED further, that said election  
shall be held in the Village of Northville  
during the 13th day of June, 1927, at Precinct No. 1 in the Village  
Council Chambers, and Precinct No.  
2 in the Horton Block Basement, in  
said Village, which election shall be  
from 7:00 o'clock in the forenoon to  
7:00 o'clock in the afternoon, Eastern  
Standard time.

The official ballot on such proposition  
shall be substantially as follows:

## FORM OF BALLOT.

Official Special Municipal Ballot.  
Instructions: To vote for any can-  
didate make an "X" in the square  
in the appropriate column according to  
your choice at the right of the name  
voted for.

## Vote for five (5).

If you wrongly mark tear or deface  
this ballot return it and obtain  
another.

For Members of Charter Commission  
Names of Candidates

## OFFICIAL BALLOT.

Shall there be a general charter re-  
vision of the charter of Northville  
(YES)

Shall there be a general charter re-  
vision of the charter of Northville  
(NO)

Notice is hereby given that the  
Board of Registration of the Village  
of Northville will be in session at the  
Village Council Chambers in said vil-  
lage on the 6th day of June, 1927, from  
9 a. m. to 8 p. m. for the purpose of  
registering the names of all the electors  
qualified to vote at the special  
election to be held in said village  
June 13th, 1927.

The foregoing resolution was moved  
by Filkins and seconded by Van  
Valkenburgh.

Yours, Filkins, Van Valkenburgh,  
Walker, German, Schutz, Nos-  
tene, Carried.

THOMAS E. MURDOCK  
Village Clerk

INDUSTRIES ARE  
HEADED TOWARDS  
WESTERN WAYNEBreak Ground for New  
Stove Plant near Red-  
ford-to Employ 1000

That Detroit's industries are rapidly  
coming this way has been evident  
for the past two or three years—but  
actual proof of the fact is found in  
the following report taken from the  
last issue of the Redford Record:

"Fifteen hundred local folks gathered  
to witness the turning of the first  
soil for the Peninsular Stove  
Works, Saturday afternoon. The site  
for this community's first factory  
soon to be under construction  
at Burt road and the Pere Mar-

quette was the lively scene of  
thronghs of automobiles and people  
flags, bunting, decorated cars, Boy  
Scouts, as the special train steamed  
in from the city bearing prominent  
officials of the Peninsular Stove  
Company and the Pere Mar-

quette Railroad.

A roped off space was provided  
for the Redford high school band  
and Brightmoor Exchange girls  
into this space the city notables  
gathered and the sod turning ceremony  
was performed.

Three generations of the Moran  
family were present: Fred Moran, president of the  
Peninsular Stove Works; his son, a  
grandson, father and son tossed  
the first dirt into the air, the interested  
group and actors under fire by  
photographer and movie camera  
men as the soil flew into the air.

Moving a truck, B. F. Taylor  
addressed the throng briefly, citing  
the significance of the moment to the  
home buyers before him, and introducing  
the "brains" of the Peninsular  
Stove Company and the Pere Mar-

quette Railroad. Mr. Moran reviewed  
the history of the Peninsular  
Stove Works from the date of its  
removal from Wyandotte, in 1921, to  
Detroit, and gave as two powerful  
reasons for the removal of the plant  
to the new site, the expansion of the  
plant, demanding more room and more  
modern facilities, and the desire to  
be near the market.

Mr. Moran, president of the  
Peninsular Stove Works, explained  
the plan to have the plant  
operated by the company, and  
it was decided that a member  
ship committee of three should be  
appointed. The suggestion was also  
made that each member get a new  
member as soon as possible. This  
would not only enlarge the membership,  
but would give us much added  
information for our files, which  
means better and more complete  
information for you.

**Buick value is greater today than ever before**

Because Buick is a beautiful car; its Fisher Bodies are distinguished for their smart-stylish design, rich Duco colors and fine coachcraft.

Because Buick performance is superb; with the famous Valve-in-Head engine, vibrationless beyond belief.

Because Buick has always used the savings of great volume to enrich Buick quality.

Because Buick initial cost is low and Buick operating cost is economical.

Buick value is greater today than ever before. Examine Buick, point by point. Compare it with other cars before you make your choice.

**EAT TOMATOES IS ADVICE HE GIVES TO 'PHONE GIRLS**

Roy Crowe Sends Each One Marked Copy of "Beauty" Article

Roy Crowe, manager of the Northville telephone district, who is looking after the welfare of the employees just as much as he is the service of the community, doesn't overlook anything which might prove of assistance to his methods. This became more than evident the other day when he mailed to each one of the telephone girls in this district a copy of "The Mouthpiece," the publication issued by the Michigan Bell Telephone Company, with an article entitled, "Paint Your Cheeks Red," marked so that they would be sure to see it. A portion of the article which might be of general interest follows:

If you want to be in style and keep up with the times, eat vegetables which have obtained their life-giving qualities from Nature herself. Watch your diet carefully and avoid eating many heat-producing foods.

Vegetables contain every good food element that can be found in any spring tonic taken from a medicine bottle and are much easier to take. Why take iron from a bottle when you can have delicious spinach served in large tables bowls three times a week, and guaranteed not to injure or discolor your white, nearly teeth in any way? Who couldn't enjoy cream-kissed carrots twice a week? There would be no occasion, then, for a rouge refill for "Paint Your Cheeks from the Inside" makeup, just what it says.

Eat tomatoes—nice, big, juicy red tomatoes; they are a good vitamin food, and, it has been proven that vitamins are absolutely essential to 100 per cent healthy life. The lack of vitamins in food will cause babies to have rickets, and experiments have proven that animals cannot produce young without the vitamin element in food. The lack of this also produces other conditions which are injurious to health.

Sparkling eyes are a symbol of radiant health and increase your attractiveness 100 per cent. If you wish to attain this degree of charm eat yellow-colored vegetables, such as squash and pumpkin, for the color-yellow-phosphorus, which is the food element producing sparkling eyes. In order to simplify dietary duties in hospital, and to help plan menus, all vegetables have been grouped in three classes, and a well-balanced diet should include at least one vegetable from each group daily. The 5 per cent vegetables are lettuce, radishes, celery, spinach and all green leafy vegetables. The 10 per cent vegetables include string beans, beets, carrots, turnips and squash. The 15 per cent vegetables are peas, lima beans, dried beans and potatoes. These vegetables all contain vitamins.

**LOCAL HIGH PLAYS IN BAD LUCK GAME**

While the score shows that the Northville high school baseball players lost to Roosevelt high in the last game played in the high school series, it does not show the splendid game that was played by the local boys. It was simply a case where fate was against them and they lost, but not because of the fact that they did not play a good game.

The Northville team allowed Roosevelt 16 runs, but was touched for eleven safe hits, six of them being doubles. Mott of Roosevelt struck out 16 batters, but was touched for eleven safe hits, six of them being doubles.

The size of the back-yard poultry flock, which can be most efficiently kept well, depend upon the space available, and the amount of table scraps or other waste available for feed. It is a mistake to overstock the available space. For a flock of 20 to 25 hens a yard space of not less than 25 by 30 feet will be required. Where less space is available the size of the flock should be reduced, allowing 20 to 30 square feet per bird.

Today the poultry industry ranks sixth in importance of all the agricultural industries. Its annual farm valuation runs considerably over a billion dollars.

Interference with scientific and commercial development of peaceful aviation is opposed by the

**ELECT DELEGATES TO STATE MEETING**

Meeting May 15th

Elmer Smith and Sherill Ambler were elected official delegates to the state convention of the Exchange club, which will be held in June at Kalamazoo, at the meeting of the club, Wednesday noon. President Don Yerkes, Jr., and Secretary Richards will also go as representatives of the organization.

Wednesday's meeting of the club was characterized by a good talk and a mighty good dinner. Allen S. Brown of Detroit was the speaker. He explained the purposes of a new organization known as the Broadcasters of America. It was founded a little over a year ago and has for its object the teaching of Americanism and instilling into the public mind a greater interest in public affairs.

The cottage cheese served at the dinner Wednesday came from the Ulrich dairy, and it was about as delicious as cottage cheese could be.

An electrically operated motor horn that imitates the human voice and utters warning words has been invented.

Eat all the cherries you can during their short season, and then can the surplus for winter pies. Pit them, heat them in syrup, pack them hot, and then process in the water bath. Don't undertake any canning until you have secured a copy of the latest farmers' bulletin on the subject, 1471-F. It gives the correct method and time tables for all the fruits and vegetables you are likely to put up.

**STYLE**

Style as swift as the stream lines of a smart new roadster! And like the roadster, the style built into this season's models of the W. L. Douglas shoes will carry you over many pleasant hours of mileage—always conscious that no shoe is better looking or more comfortable.

**Announcing — another Chevrolet Achievement****The Imperial Landau**

Specially-Built Fisher Body — Strikingly Beautiful Duco Colors — Elegantly Appointed — The Aristocrat of All Chevrolets

A grain Chevrolet revolutionizes every previous conception of quality and elegance in a low-priced automobile by presenting the Imperial Landau—a new model whose distinction and smartness entitle it to comparison with the costliest custom-built cars.

Its specially-built Fisher body reveals all the masterly craftsmanship for which the Fisher name is famous. The finish is lustrous black Duco, with emblematic equipment of brilliant chasseur red.

With oblong windows with nickelized windshild rim and landau bows—with vaulted roof, end with top and rear

quarter in mouse gray textile leather, this aristocrat of all Chevrolets is one of the most strikingly beautiful cars to be seen on the streets and highways.

And, of course, it has all the power, speed and smoothness—all the flanking acceleration, finger-tip steering and unfailing dependability that have brought to Chevrolet such world-wide fame.

This beautiful car is now on display in our showroom. Come and see it. You will be delighted to learn that a car so low in price provides such commanding individuality and style!

QUALITY AT LOW COST

**MAGAZINE LAUDS  
STINSON PLANE AS  
THE BEST MADE**

**Aero Digest Has Excellent Article on This Local Institution**

(By Samuel K. Holland, Jr.)  
Positive evidence that commercial aviation is here to stay and that airlines can be made as sure and safe as any railroad has been given in the records achieved in the past five months by the Stinson Aircraft Corporation.

With the recent sales of cabin jobs to the United States Department of Commerce, the Patricia Airways and Exploration Company, Ltd., and the Marion Motor Company of Indianapolis, the Stinson Company has established enviable sales and performance records. When the Marion ship is delivered, 20 Stinson-Detroiters will be in the hands of airlines, business corporations and private owners.

So far, Stinson-Detroiters have flown approximately nine times the distance around the world without an accident, despite the fact that every one of them has gone ahead since they left the factory. For instance, two ships are being used by Captain George Hubert Wilkins on his quest for undiscovered lands at the North Pole. Another owned by the Florida Airways Corporation was the first vehicle to enter Miami following the devastating hurricane of last year, carrying the largest cash shipment ever made by an airplane—\$2,000,000 from the Federal Reserve Bank at Atlanta to the stricken institutions in the storm center.

Still another feature in the Detroit's cap is the record flight recently completed by John D. Dodge in his personal Stinson-Detroiter. Young Dodge, with his pilot, Billy Brock, started out with his Stinson-Detroiter in February to spend a day in South Bend, Indiana. They were to return within 24 hours. Two days later, Dodge wired from Kansas City that he was having so much fun that he guessed maybe he wouldn't return so soon. During the following week, notes, telegrams and postal cards began trickling in from Oklahoma City, Dallas, Houston, Yuma, San Antonio, Janesville and finally, a series of inquiries poured into the Stinson factory from prospects in Los Angeles, which showed that Dodge's seven-league boots had at last come to at least a temporary halt.

After spending several weeks in Los Angeles, Dodge returned to Detroit by air without once being troubled by the plane. The flight consumed more than 7,000 miles. It was the longest pleasure flight on aeronautical record. The average time of the trip was exactly 100 miles per hour.

Not long ago a group of Detroit business men who jointly own a Stinson-Detroiter, flew from their Michigan home to Dunedin, Florida, a distance of 300 miles in 8 hours and 30 minutes.

And to show how the cost of such travel has been reduced, young Dodge said his unusual trip was less expensive than a similar trip by automobile and train, while Austin F. Beineke, well known advertising man, who flew a Detroiter from Detroit to Chicago to Peoria, Ill., and return declared his trip, including depreciation on the plane and all incidental expenses, was only 36¢ higher than rail and fare and that the saved three business days by using his airplane.

Another adventurous Detroiter is serving in the faraway gold fields of Red Lake, Ont., linking the camps with the railroad. Detroiters are carrying the mail, too. Three of these enclosed and heated ships have been flying over 800 miles a day on the North West Airways, which operates between St. Paul and Chicago with mail passengers and freight.

Other useful purposes to which Stinson-Detroiters have been put lately were in the business of Edward F. Schlegel president of the Ward's Old Corporation, who has flown his plane more than 25,000 miles on business and pleasure; Horace E. Dodge, president of the Dodge Boat Works, who has flown more than 30,000 miles on business and pleasure; R. C. "Cliff" Durant, famous automobile racer and financier, who commutes from his farm at Roscommon, Michigan, to Detroit, Chicago and other large cities where he has interests. His plane also will carry him from track to track during the 1927 racing season.

The planes are of the latest type of design and make a high speed of 125 miles an hour and cruise at 105. The cabin ships will carry four passengers in addition to 300 pounds of baggage or freight. The Stinson-Detroiter was the first plane to include brakes on the wheels, started on the motor, and a completely enclosed sound-proof heated cabin. The brakes will bring the plane to a standstill in 100 feet so that the ship

may be landed on very small fields. The starter on the motor enables one man to start the motor and take off without any assistance.

The cabin is as comfortable and as tastefully upholstered as the fochette of a luxurious automobile. There is ample leg room for all passengers and pilot, while the lazy-back seat, padded with Marshall springs, are beautifully covered with chrome leather. The eight windows to the cabin allow a good vision to passengers and pilot. It is equipped with dual control for relief pilots on long flights, and also to simplify the training of student aviators.

The ship is staunchly constructed. Steel tubing tested to withstand the tremendous strain is used throughout the fuselage. The wings are built on solid duralumin ribs and heavy spruce spars reinforced with steel. The motor is mounted on steel brackets. The landing gear is also of steel, reinforced from every possible angle to ensure safety. It is so well balanced that it has been flown from Cleveland to Detroit and from Detroit to Grand Rapids—more than 300 miles—without the pilot once touching the stabilizing controls.

Once in the air the ship will fly herself a kick on the rudder bar now and then to get direction being all that is necessary for the pilot to fly her.

It is so designed that no matter how rough the weather the pilot may put it in a stall—nose straight up, tail perpendicular with motor throttled and move both hands and feet from the controls without endangering either ship or passengers. In this position it will neither go into a spin nor slip off on a wing, but will describe a graceful arch and assume a gliding position which it will maintain until landed.

When this performance is carried through the Detroit has a landing angle with a 10 to 1 ratio, a characteristic which insures safety because it enables the pilot to land on any field within a large radius in case his motor cuts out.

An easily adjustable stabilizer is used instead of the slow winding type. The Detroiter's may be set from full on to full off by merely pulling on a lever similar to an automobile's hand-brake, and may be set in any position instantly.

The ship, empty, weighs 1,700 pounds, yet it may be loaded with 1,450 pounds of merchandise, oil, gasoline and passengers without unduly taxing its lifting power or endangering its airworthiness.

Sixty-five gallons of gasoline are carried in three tanks placed in the wings. A switch on the dash board will direct the contents of any one or all of these reservoirs. Fuel is by gravity. Five gallons of oil are carried in a tank beneath the cowling from where it is automatically pumped to the motor.

The plane is 28 feet 10 inches long and 10 feet 7 inches high. It has a 63 inch cord (thick wings) with a Clark Y airfoil.

The wing span is 35 feet 10 inches while the span of the tail plane is 12 feet. Wing loading is estimated at 23 pounds per square foot and power loading at 14.6 pounds per square foot. Flying range, 500 miles, cruising speed of 105 miles an hour. It has an initial climb of 800 feet per minute to a service ceiling of 13,500 feet.

The company has developed an experimental monoplane employing an airfoil said to be the most efficient discovered in the field of aerodynamics. The new design is expected to give at least a ten mile additional cruising speed to the ship and increase its maximum speed almost 20 miles. Due to the new airfoil, Stinson has succeeded in keeping constant center of pressure on the ship. In a dive the pressure travels forward on the wing instead of back, thus decreasing the landing speed of the monoplane and making it fool proof, inasmuch as the ship cannot go on a wing when stalled or go into a tail spin.

Besides this feature the company has perfected a fine control system to eliminate nearly all wires and cables. Also, for the first time in the history of the industry air brakes and an air starter are being employed on the new monoplane. Air is supplied by an engine pump and stored in a small tank.

The wing span on the monoplane is 45 feet with a wing area of 219 square feet. The fuselage is the same as is on the Stinson-Detroiter biplane.

New improvements have been made on the cabin of this ship. It has been extended further back in the fuselage and room for five persons made. Instead of the removable seats being arranged as in a sedan, leather upholstered with Marshall springs—they will be of wicker with Kopac cushions. On either side of the fifth chair is room for passengers' baggage or express. As in the case of the Detroiter, control will be dual. The ship is said to be capable of 180 miles as top speed and have a cruising speed of 107 miles an hour.

# You're Invited

## To Attend

### The Detroit Edison Company's Cooking School

Hear Mrs. A. F. A. Hausman give valuable cooking hints and see her demonstration. This cooking school will be held in the Presbyterian Church Hall, Northville, starting Tuesday, May 31st, and continuing through Friday, June 3rd, from two to four every afternoon. A splendid program has been arranged.

Mrs. A. F. A. Hausman

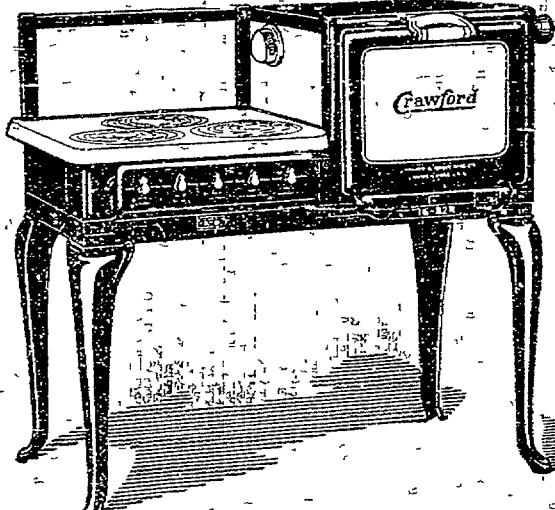

Mrs. A. F. A. Hausman is the well known home economist who conducted the cookery schools so successfully last fall. She will conduct but three schools in Michigan this year, and due to the interest shown in her talks here last year, we are able to secure her services this period.

### Taste Samples of the Food Cooked

Not only will you hear Mrs. Hausman's talks and see the demonstrations, but you'll be served the various things she will prepare during the program. Every afternoon a different menu will be prepared.

### Attendance Gifts!

Each lady attending will be given a coupon at the close of the afternoon talk, the person having the lucky number will be given her choice of several useful appliances.

Ranges may be purchased during the week of the cookery school at reduced prices.

### DIDN'T LIKE THE PHONE SERVICE

She Blamed Telephone Girls  
Because Someone  
Didn't Reply

She was in town from Jackson—by  
her—  
and Jackson is some town when  
compared to Northville—she ap-  
parently thought.

The young lady, peddling everlasting silk hose, the kind you put on and never have to take off, wanted to use a telephone.

You know how these outside  
money-grabbing peddlers do—they  
want all your coin and on top of that  
they persist in using all of the con-  
veniences that you pay for out of  
your own cash—and when through  
refuse—even to say, thank you.

Well, the fair dame wanted to talk  
with a prospective buyer of her spe-  
cial brand of ever-take-off hose.

There was some little delay on the  
part of the phone girls on either right  
or left—but that was sufficient to send  
her into a rage, right telephonist service.

"It's so much better in Jackson,"  
she said, "when we call—she over there  
we never have to wait. I never saw  
such telephone girls. Why don't  
these girls ring them all the time?"

It's nothing less than terrible."

And that's why the gal using  
a phone being so remorseful ex-  
plained on.

Finally, the person called an-  
swered.

"I just couldn't come right away,  
I was taking care of baby outside the  
house."

You see, the phone girls were  
blamed by the free telephone user  
for something they were not to  
blame for—and in what-not cases  
out of a hundred that is generally  
the case.

The local scribe for years—and  
more years on top of that, has through  
the way he has chosen to make a living,  
been forced to be a constant telephone user. And for many years  
it was a case of necessity that the  
service be almost instant—and always  
in large cities.

While the Jackson in Jane was jab-  
bering on—the thoughts came to the  
writer that the telephone service  
is short and sometimes possibly  
little better, than in the bigger cen-  
ters. But you know when you are  
peddling hoses, well that's enough.

**BOSTON AIRPORT**  
MANAGER IS NOW  
FLYING A STINSON

feetless. A real Plane is  
Best Thing in Motor  
Sports Field.

A legend to aviation in Florida from the days of the early 1920's that the Stinson plane was without  
question the peer of any in its class.

"It is nothing more than a flying limousine." It has anything beat I  
have ever seen—I have seen and flown  
practically every kind of machine  
made and there is positively nothing  
like the Stinson plane made. It is  
about as near perfected as an air-  
craft can be made," declared Mr. Billings,  
after he had had his new craft  
out for a test flight.

The Stinson factory is one of the  
busiest places in Northville these  
days.

**LEGION PLANS FOR  
MEMORIAL DAY**

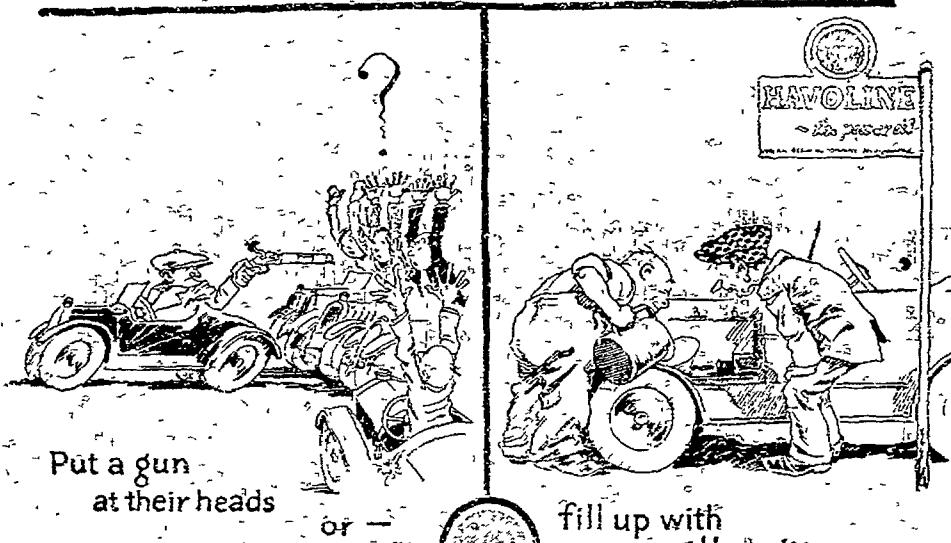

Plans are rapidly being completed  
for the Memorial Day service to be  
held in Northville under the direc-  
tion of the American Legion. The  
program will be published in full in  
the Record next week as there are  
some details that have not yet been  
entirely worked out.

The Rev. Halliday, of the Salem  
Federated church, who is chaplain of  
the local Legion post, will deliver  
the Memorial address. This will be  
his last public appearance in Michigan  
as he is moving to Delaware,  
Ohio, immediately following the Me-  
morial day event.

The Legion plans to make the Me-  
morial Day services here the most  
impressive that have ever been ar-  
ranged in this city.

Mrs. Claude Neal of Orion visited  
the Legion hall yesterday to inspect  
the arrangements for the services.

Two ways to be first on the getaway.

Put a gun  
at their heads

or

fill up with  
Havoline  
the power oil

And the best part about Plan Number Two is that  
you're bound to win—unless the other motorists fill up  
with Havoline too. For Havoline's the power oil. It  
has been proved so by thousands upon thousands of  
tests in all makes of cars.

You can prove it yourself. Flush your crank case and  
fill with the right grade of Havoline. Then test your  
engine's power on familiar grades. Watch its briskness  
in traffic. Is that extra power worth having? Decidedly,

**SOLD BY**

**Elkington & Casterline, Steve Armstrong, Cole's Service Station**

new peaks of speed-power and safety

**What Hudson Did  
"Demonstration Week"**

In addition to hundreds of new records for speed,  
power, acceleration, hill climbing and inter-city  
reliability runs, during a nationwide "Demonstra-  
tion Week", the Hudson Super-Six contributed  
these brilliant new marks in the local arena of motor  
supremacy:

No Northville hill requires a Hudson to go in low—and everyone about here knows how steep some of  
Northville's hills are.

George W. Hills and Dr. L. W. Snow, two Hudson  
enthusiasts, drive their Hudsons regularly on an aver-  
age of 17½ miles to a gallon of gasoline, a fuel produc-  
tion that is remarkably low.

Speed—Northville Hudson drivers are never re-  
quired to follow in second place on the highway, if occa-  
sion requires the great speed that the car can produce.
