INSTRUCTORS AND BOARD MEMBERS ATTEND BANQUET

School Year Starts Out Under Ideal Conditions Good Talks Made.

Members of the school board Tuesday evening entertained the entire school faculty at a get-together meeting held in the parlors of the First Presbyterian church, the event proving to be not only very pleasant but without question far more beneficial than had been anticipated by those who planned it.

Every member of the board was present and all of the teachers had an opportunity to meet not only the board members but other instructors as well.

Following are members of the faculty who were present and received a most cordial greeting from school district officials and Superintendent William H. Gordon:

Arch Ammerman, Sr. High Principal; Margaret Draper, History.

Josephine Hayes, French-Latin.

Wm. Briggs, Commercial.

Milton Cook, Science.

Ella Lathers, Domestic Science.

Nea Lester, English.

Elaine Parks, Geography.

Irene Roag, Jr. High Principal.

Elizabeth Chapman, History.

Doris Stark, English.

Elvira Doster, Girls' Physical Director.

Raymond Doetsch, Boys' Physical Director.

Pete Thompson, Manual Training.

H. Ruth Bach, Music and Art.

Ida B. Cook, Fifth Grade and Principal of Grades.

Olive Eldon, Sixth Grade.

Lillian Hofer, Fourth and Fifth Grades.

Elizabeth Boyle, Eighth Grade.

Bazel Parmalee, Third Grade.

Marion Montgomery, Third Grade.

Fay Christ, First Grade.

Irène Schowalter, First Grade.

Ida Rose Cavel, Kindergarten.

Some of the Presbyterian ladies served an excellent dinner. President Ernest Miller of the school board, who acted as master of the evening, made it clear that the dinner was a very informal one and planned for the purpose of making it possible for the teachers and board members to become better acquainted.

"I am glad that it will be a benefit to us only you, the members of the board as well. If we know each other and understand each other, it will be easier for us to work together through the work we have to do."

Mr. Miller said:

"We feel sure that our new administration staff of a dozen that the work of the public school will be very successful."

Washington Roberts, a former instructor in the public schools and now a member of the school board, gave his impressions of the public school system in this town. The Outlook.

He made the assertion that largely the lack of sufficient money education they received, and would continue if all the money expended was productive of good results it should be.

"There is no question as to the necessity of education, but when it is made compulsory and everyone is required to attend school until a certain age, I have often questioned the benefits that come from it."

"I do want to tell the teachers that are here that they will have our fullest co-operation in building up the schools of our community," stated Mr. Roberts.

Miss Ida Rose Cavel sang two very pretty numbers. Miss Cavel is one of the new instructors in the school.

Miss Neva Lester, one of the new instructors, assigned the subject, "The Inside," treated it in a very acceptable way. She pointed out the wonderful material a teacher has to work with, of the possibilities that are offered for the building of character and of worth-while citizens in the school room.

Mr. Ammerman made a very brief but good talk of the opportunities offered a school worker. He stated that the teacher owed to the community a service and that looking from above he could plainly see how important it was for everyone connected with school work to serve to the best of his ability.

Miss Lucille Bach musical instructor sang two numbers that were excellent. Her selections were followed by an interesting talk by Miss Fay Christ, who for the past six years has been one of the efficient teachers in the lower grades.

Miss Christ stated that it has been demonstrated many times that the real character of a child is formed during the early years of its life, and for that reason instructors of the lower grades had always regarded their work as among the most important in the school.

Supt. W. H. Gordon stated that the teacher had a real responsibility to the public.

"I have always felt that the public school is to a very great degree responsible for the conduct of the boys and girls of the community. I feel that if there are deprivations and wrong doing that the school has failed to a certain extent because we are and should be the moulders of character as well as instructors. Our constant aim should be to build up manhood and womanhood and make our community the ideal place we would like to have it," he said.

Members of the school board, Edward C. Langfield, Harry German, and Ray Richardson made brief talks to the teachers. The program was followed by a session that thoroughly acquainted everyone present.

The next meeting of the council will also be taken up with a consideration of paving work.

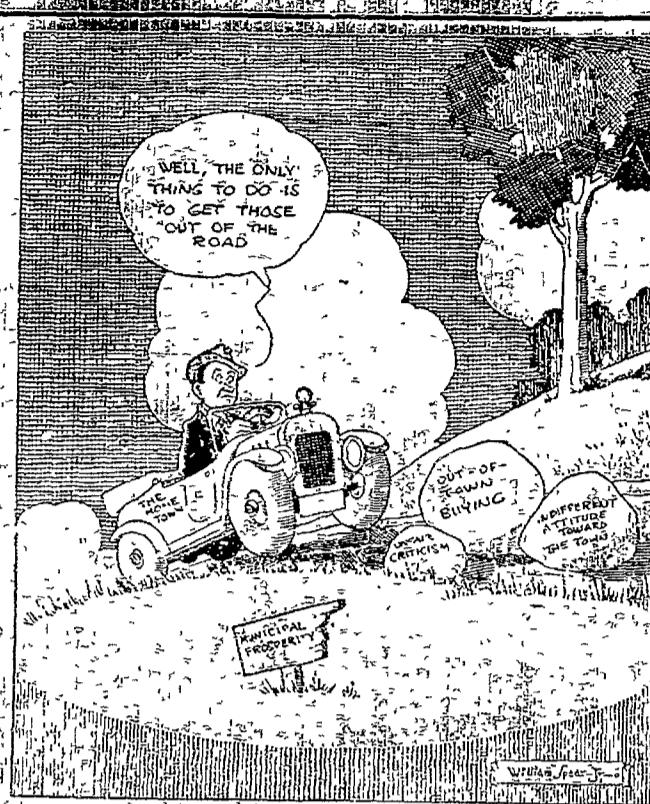

M. J. Murphy is the champion speller of the Exchange Club. At the meeting Wednesday noon Dayton Gunn, president of the club, placed Don Yerkes Jr. in charge of the meeting. An old-fashioned spelling contest was conducted. William Yerkes ran the prize winner a close second in the contest, and for several minutes the contest waged between these two. Louie A. Bobbitt was able to stay in the contest until it was suspended just a little while for an emergency for tonsil removal.

The road not only means much to Northville, but it will be of vast benefit to Novi, giving to that rapidly growing community another outlet to the south that is so badly needed.

With prospects bright for the paving of the Waite Lake road next spring from Novi to the north and the possibility of paving what is now known as the Novi road paved by Oakland county, that community will be a center of more than usual activity.

BLOCKING THE WAY

NOVI-CENTER ST. ROAD PROJECT IS HEARD BY STATE

Delegation Places Question of New Trunk Line Before Board

First steps toward having the state take a long leading role Novi's west end of the trunk line highway project were taken Monday when a delegation of residents from each of the three districts were present, meeting for a conference in the hotel in Novi and placing a letter before the body for approval.

At the last session of the city council, an additional allurement of the state of the trunk line highway park was made by the board. The delegation from the three cities requested that the eight-mile highway be built. Now that the highway road is to be part of the state highway, Novi and the highway road be made by the state.

If the state is willing to take a hand in the paving of the entire cost of paving it will be left to the state and federal government.

The highway would necessarily be on condemned land as there is no thoroughfare all the way at present along this proposed route.

It is known that high state officials look with favor upon the project as it furnishes the only direct connecting line between Grand River avenue and the Ann Arbor road, and north and south travel is increasing at such a terrific rate that immediate action is necessary.

Attorney Fred W. Cochran, who acted as spokesman for the delegation, pointed out to Governor Fred W. Green and other members of the board that the proposed road would not only be a great aid to traffic but it would do away with six-grade crossings between the two points.

"We feel that the road is a great necessity. It has been a need for many years, but the point has been reached where the state must come to our aid. It is a project worthy of your fullest consideration, and we would be pleased to have you look into the matter and give it your approval as soon as possible," stated Mr. Cochran.

In fact, all the money expended for the improvement, except materials used, will be spent in Northville according to the agreement made between the village and paving company.

The city decided to hold in abeyance for a short time the proposed paving of the intersecting streets.

This part of the program was not definitely abandoned, but there is a possibility that that portion of the work will not be done in the immediate future. However, the prospects are pretty certain that Church street and Cady street will be paved this year, or the first thing in the spring. Cady street will doubtless be paved with concrete.

At the meeting Friday night, there were a number of property owners present, and the interest seemed to center in the kind of paving to be laid.

Property owners on Dunlap street were advised that as a result of the width of the paving to be put down, the lawns would be made considerably wider, the distance between the curbing and sidewalk being increased.

The next meeting of the council will also be taken up with a consideration of paving work.

STINSON PLANES ENTERED IN RACE ACROSS COUNTRY

Northville Made Crafts to Feature Long Distance Hop

Final tests are being made today at the Stinson-Northville airport of the monoplane to be used by Eddie Stinson in the non-stop race from New York to Spokane, Washington, which starts next Wednesday, September 21.

The race looks very much like an all-Sunson affair. Besides the entry of Eddie Stinson, J. Parker Vandart of Detroit has entered and will fly a Northville-made plane, Paul Wood who was induced to give up the attempt to fly across the Atlantic from Windsor, Canada, to Windsor, England, has entered his Stinson monoplane, and recent dispatches indicate that Ruth Elder, who proposed to fly from Florida to Paris, changed her plans and flew the plane made by the Northville factory in this overland endurance race outside of these United States, but two other entries have been made.

Notwithstanding the fact that the first prize going up for the winner of this contest is \$10,000 cash and the second prize is \$5,000 only two other planes have been entered for the flight from New York to Spokane without a stop.

While there have been a hundred and eleven entries entered in various other contests scheduled for what Spokane declares to be the greatest aviation carnival in history, seemingly few of the flyers have the five planes that can make the flight from the Atlantic seacoast to the state of Washington without stops.

Eddie Stinson was the first aviator to make a night flight from New York to Chicago. That was made a number of years ago before planes had been perfected to the degree they are now. Part of the flight to Spokane will have to be made during darkness.

The monoplane has been flying during the present week at the local factory for the long-distance hop is of the usual standard plane manufactured by the corporation. Its gas tanks will be installed, arrangement to those that have been placed in the plane being made by the record-the-world flight being made by Schlesinger and Brock.

The departure from New York to Spokane is about 2300 miles, which at an average speed of 230 miles, requires about 10 hours.

The trip will be made in the new type of aircraft, which is the first to be made by the company.

The airplane will be built during the summer to provide for 30 additional pupils, increasing to 30 students during the next two or three weeks.

EXHIBIT AT FAIR WILL BE MOST COMPLETE ONE

An unusually complete exhibition of electrically driven farm equipment will be shown by the Detroit Edison company at the Northville-Wayne County Fair, September 27th to October 1st. John H. Flessner, farm representative for the company has just announced.

Included in the exhibit will be electric feed grinders, milking machines, water systems, pump jacks, incubators, brooders, sheep shearers, clipping machines, churbs, pressure milk coolers, milk separators, and root cutters. A five horsepower portable electric motor, planned for a truck, will also be on display.

Of interest to the farm wife will be electric ranges and refrigerators.

Wherever possible, these equipment will be shown actually in use.

Nothing will be sold. "This will be a wonderful opportunity for the farmer to see what electric equipment is on the market that will be useful to him and his wife in their farm work," Mr. Flessner said. "The nice thing about this exhibit is that there will be no salesmen to bother the farmer or try to sell him something. It is simply a demonstration of electric farm machinery."

Novi News

Mrs. Lillian Conner, wife of Dr. J. C. Conner, will be mother in Novi Saturday evening at the home of Mrs. M. A. Smith, 11111 12th Street, Novi. Other details during the past week included the visit of Dr. E. C. Johnson, noted Novi physician, and Dr. Frank W. Weller, 11111 12th Street, Novi. Dr. Johnson, who has been ill for some months, has been advised by his physician to give up his school work for the coming year.

Mr. and Mrs. Charles Gaffey, Mr. Tremble and Mr. and Mrs. C. Gaffey of Detroit, visited at the home of Mr. and Mrs. P. G. Gaffey, last Tuesday. Neil Hiel and family of Birmingham moved last week into the new house built by Mrs. Clarence Smith on her farm. Mr. Hiel will operate the farm for the coming year.

Little Jack, son of Dr. and Mrs. J. Schell of Jersey City, New Jersey, is suffering from infantile paralysis. He was remembered as the grandson of Mrs. J. V. Gaffey, and the last child born in the old Novi hospital.

Miss Partridge of Plymouth is making an extended visit at the home of her sister, Mrs. J. P. Flatt. Other visitors to the Flint found the past week were Mr. L. W. Partridge of Denver, Colorado, and Mr. and Mrs. A. W. Flint of Detroit.

The song of the threshing machine and the early days of finding their way to market made the summer past. Although the grain crop is much less than last year, many bushels are being sold by our fruit growers in the Detroit markets.

Miss Margaret Pratt celebrated her ninth birthday Monday from 4:00 to 6:00 by entertaining twenty of her little friends at a party given in her home. A good time was enjoyed by all. Ice cream cake and candy were served, and the little people dispersed, wishing her many happy returns of the day.

Zenos Boiliet met with a keenly felt misfortune in the loss of his pocketbook which contained over fifty dollars. His last recollection of having it was in the Smith store in Farmington. The restoration of the purse to its owner would be really living the Golden Rule and deeply appreciated by its owner.

A pretty array of asters and cosmos given by Mrs. Killings and Mrs. J. O. Munro decorated the front of the church Sunday morning and gave another token that autumn is here and with it an increase in the attendance at the Bible school. The pastor's sermon was from the text "So we who are many are one body in Christ, and severally members one of another" Rom. 12:15. Miss Rowena Root led the B. Y. P. U. at 7:15 p.m.

Sunday morning, at 4:00 o'clock, while driving east on the South Lyon road, Henry Franklin met with an accident which resulted in injury to the driver and car. The auto after skidding into the ditch, was brought to a standstill by hitting a telephone pole. It was turned over. Mr. Franklin was badly cut about the head. He was at his home and is doing nicely.

NORTHVILLE, MICHIGAN, FRIDAY, SEPTEMBER 16, 1927

AN IMPORTANT PROJECT
There is considerable interest in the proposal to have what is generally termed the Center street road leading from the west grade separation in Novi to the Ann Arbor road made a trunk-line road and paved under the direction of the state and federal government. However, that interest does not seem to be in keeping with the importance of the project.

Grand River is one of the main highways leading to central and western Michigan. Traffic over that highway carries a very large portion of all travel from eastern and southeastern states up into Michigan. Travelers returning to the east and south follow Grand River.

Have you stopped to realize that there is not a single paved line connection between Grand River and the highways to the east and south this side of Lansing? There is a paved road leading to the south from Lansing to Jackson, but that does not provide the direct route motorists like to follow who are headed towards Ohio and other points in that direction.

What a convenient thing it would be for motorists going to or from Ohio and the east to turn over from Grand River at Novi, travel over Center, Grand River's congested highways than a few miles further to Detroit. And what a time it would be for both Novi and Northville. It would cause Novi to expand towards the west, opening up for that fast growing community a new section for development and taking away from its main intersecting streets some of the congestion that exists there, at present.

It would make Center street the only trunk line road that Northville possessed as at present there is not a trunk line leading into or anywhere near Northville. No one any longer disputes the value of trunk line roads.

Some communities have been made by them. Brighton, for instance, Novi, too. The little community to the north has almost doubled in population in the last five years. It boasts more gas stations than any other place its size in the state. Ohio more likely at a Michigan station helps the Michigan town where that legislation is located.

But the time is here for immediate consideration of future requirements. A statement of this kind does not mean that the school board should begin the construction of new buildings tomorrow of next day—but a definite program making provision for future expansion should be worked out immediately; and then carried out as soon as possible.

The present board has been wise in its economy policy and, however, the progress it is following it might be able to accommodate a good-sized building fund for the next year or so.

No public demonstration that it has faith in the present members of the board and that its judgment in this matter would be accepted.

With the necessity coming and the public expressing the probability of starting one for the board.

Mr. and Mrs. Fred Ferguson and babe from Los Angeles have been spending a few days at the home of Mr. and Mrs. H. A. Desautels.

Rev. W. W. Desautels has been a visitor during the past week at the home of his brother, H. A. Desautels. Mrs. P. L. Sweet of DeRidder, Louisiana, is visiting at the home of her son, Merrill Sweet, for a few weeks.

Miss Keisha Rowland, who has been the very efficient cashier of the Michigan State Telephone office in Northville, has resigned her position with the company to accept a place at the Wayne County Training school. Dr. Haskell has made a valuable addition to his office staff by the employment of the Northville girl. Phone company patrons will regret to see Miss Rowland leave the service.

Rev. William Richards, pastor of the First Methodist church, has gone to Port Huron to attend the Methodist conference being held at that place. Although he has been pastor of the Northville church for five years, the membership is exceedingly anxious to have him returned, and at a recent meeting strongly appealed to the district superintendent to have his pastorate continued. It is not regarded as possible that the wishes of the church will be disregarded by the conference elders.

H. S. Greene, who since 1905 has worked in the fruit department at the Michigan State Fair brought to his home in Northville the other day a number of apples that were given him by L. W. Lovell. The apples that were displayed by Mr. Lovell were picked a year ago, and when displayed at the fair were just as hard as they were when picked. They were the only old fruit displayed at the fair, and attracted considerable attention. Mr. Lovell, who resides in South Lyon, kept them in the cellar of his home just as anyone would store apples away for the winter. They were Jonathan's picked from an orchard in South Lyon.

DETROIT AMUSEMENTS

MY MARYLAND BEGINS SECOND WEEK AT SHUBERT LAFAYETTE

"My Maryland," the new American operetta at the Shubert, Lafayette Theatre, started off on its run in Detroit last week with even greater momentum than originally pushed it forward in Philadelphia where it has been playing to capacity audiences for thirty-two weeks. Opening here in the midst of one of the year's biggest playtime holidays the great operetta got off to a flying start drawing crowded houses nightly, giving the aspect of a curtain attraction.

Considering the enthusiasm of the audience at every performance there seems little doubt yet that the Detroit engagement will hang up records in length of theatrical hereabouts. Already players are starting to come back to see it again. It is almost uncanny, the spell that this play casts over you.

Supplementing these outstanding players is a huge cast of 150 whose feature is the great singing soldier chorus of 60 men. The same combination of theatrical forces that made the three previous biggest successes "The Student Prince," "Blossom Time" and "Maytime" produced "My Maryland." They are, in addition to the authors Dorothy Dunnelly and Sigmund Romberg, J. C. Huffman, the stage director and J. J. Shubert, the master showman of musical productions.

MICHIGAN CELEBRATES ITS FIRST ANNIVERSARY

With what is heralded as the greatest show ever assembled at the Michigan theatre will celebrate its first anniversary next week (September 21). One year ago the doors were opened to the public for the first time and the event was one of national interest and brought to Detroit some of the leaders from all branches of the motion picture industry. The theatre was then the finest and one of the largest ever built and expressed the utmost in theatre engineering and construction. The past year has seen if maintain this leadership and proved that the builders' faith in Detroit's appreciation was not misplaced. The leading artists of the nation have been brought to the Michigan - Paul Whiteman, John Philip Sousa, Ted Lewis, Vincent Lopez, Ben Bernie, Gertrude Ederle, Nola Bayes and hosts of other stars have made the Michigan theatre one of the few picture theatres of their magnitude. This policy of bringing the greater international dignitaries on the stage to Detroit and here for popular prices will be maintained during the coming year. The anniversary show is the official opening of a season at Greider Entertainment. The feature film is to be "Spring Fever," a striking gold comedy with William Haines and Jean Crawford. This picture is a special booking and was selected after a thorough inspection of the numerous films in the market for the anniversary programme. In addition to the feature film there will be a variety of other short subjects, programs, news, etc., in rehearsal at the time of the anniversary.

CONNIE THOMAS AT CAPITOL NEXT WEEK

Connie Thomas, the singing princess of the silver screen, makes her first solo appearance in Detroit next week at the Capitol Theatre, and will be in the seven feature in her latest picture, "Brilliant At Sundown." European stories and backgrounds have been the chief motifs for many of Connie's recent screen appearances and this one is said to be the very last suitable as a perfect and satisfying screen farce.

"Breakfast At Seven" is laid in Paris this time. It is a story of gay boulevardiers turning the candles at both end and adapted from a French story of the same name. It has the smart, sophisticated and bawdy ring of the original presented. It purports to contain a shocking story of the strangest marriage ever heard of.

The supporting cast is the best that could be selected for the roles, judging by the names. There is George Washburn, Don Alredro, Paulette Duval, Marie Dressler and a host of other big names.

Rice and potatoes are not exactly the same in food value, though both are rich in starch. Potatoes contain some minerals and vitamins in addition to starch. White rice is considered "baking in glass." However, when plenty of fruit and vegetables are used in the daily meals using rice instead of potatoes makes little difference in nutrition.

Washing eggs reduces their keeping quality and results in losses, especially if they are to be placed in storage. All the small, very large, or very dirty eggs should be used at home or sold to local consumers, and not included with those shipped to market.

Bible Thoughts for the Week

Sunday.

O Lord, Thou art my God; I will exalt Thee, I will praise Thy name. ... Thou hast done wonderful things. ... Then hast been a strength to the poor, a strength to the needy in his distress, a refuge from the storm, a shadow from the heat. — Isa. 25:1, 4

Monday.

He will swallow up death in victory; and the Lord, God will wipe away tears from off all faces; and the rebuke of His people shall be taken away from off all the earth; for the Lord hath spoken it.— Isa. 25:8

Tuesday.

In the beginning was the Word, and the Word was with God, and the Word was God. All things were made by Him; and without Him was not anything made that was made.— John 1:1, 3

Wednesday.

There is no man that hath power over the spirit to retain the spirit; neither hath he power in the day of death: and there is no discharge in that war.— Eccl. 8:8

Thursday.

Trust in the Lord with all thine heart; and lean not unto thine own understanding. In all thy ways acknowledge Him and He shall direct thy paths.— Prov. 3:5, 6

Friday.

This is the confidence that we have in Him, that, if we ask anything according to His will, He heareth us.— I John 5:14

POPULAR YOUNG COUPLE WEDDED
GO EAST ON TRIP

Mr. and Mrs. Harold Bloom will be at Home to Friends October 1st

MISS Ada Mary Ely, daughter of Mr. and Mrs. Carl Ely, and Charles Harold Bloom, son of Mr. and Mrs. Charles Bloom, both well known and popular residents of Northville, were married at the bride's home at noon Thursday, September 8th, by the Rev. Frank P. Knowles, pastor of the First Presbyterian church. Only members of the immediate families witnessed the wedding.

The ceremony was announced when Miss Ida Rose Cawell, a close friend of the bride, sang Carrie Jacob Bond's song, "I Love You Truly." The couple were attended by Miss Cawell and Edward H. Riley.

The bride's dress was blue crepe and she carried white roses and lilies of the valley. The bridesmaid wore a dress of rose crepe with a bouquet of pink roses and white baby's breath.

The Ely home was beautifully decorated with palms, ferns and white asters, intertwined with wreaths of white baby's breath.

Immediately following the ceremony, Mr. and Mrs. Bloom left for a motor trip through Canada to the New England states and New York. They will be at home to their hosts of friends in the attractive residence which has just been completed at 628 West Main Street.

There have been numerous showers during the past few weeks, among them being a kitchen shower given by Mrs. George Nahm and Mrs. Ward Masters; a miscellaneous shower by Mrs. C. H. Ely of Farmington; a surprise miscellaneous shower at the Ely home by relatives and a handkerchief shower by Mrs. Robert Coolahan and Miss Barbara Blackburn.

Many bridal and luncheon parties have also been given in her honor. Mrs. James Fry and Miss Doris Stark entertained at a party; Miss Nettie Stammann and Miss Frances Brown gave a bridge luncheon at Farmington. Miss Catherine Curtis entertained at a tea and dinner party in Detroit; Miss Ruth Yerkes assisted by Mrs. Allen Buckley gave a mixed party in the beautiful Yerkes' grove for both the bride and groom.

Both young people are graduates of the Northville high school, and the bride is a graduate of the State Normal at Ypsilanti. Mr. Bloom has been associated with the Northville State Savings bank since leaving school, and he is now a paying teller of the bank.

CHARLES BOOTH OF NEW YORK WRITES TO OLD FRIENDS IN NORTHVILLE

Many friends of Charles Booth, a former resident of Northville now residing in New York City, 439 West 16th street, who planned to return home through a letter to the Record in my communication, in

Dear Sir:

Next to being there and participating in the festivities of the centennial is the pleasure of learning that one is not forgotten by the long-time folks that gathered in the old building. Your registration last year caused me many of my associates, of bygone days that I am regretful of my inability to have been present.

Being a "native son" of Northville, I am always interested in your progress and while much of the old charm has passed, the town is certainly going ahead rapidly. In its infancy I was often present at the printing of the Record and the contrast with your present excellent publication well serves to emphasize the general advancement.

My best wishes for continued prosperity.

Cordially yours,

CHARLES BOOTH.

The reason it is better for a child to learn to eat cereals and fruit without sugar is, that many sweet foods spoil the appetite for other foods that are needed, and by adding sugar to everything, a taste for sweet foods is needlessly developed. Any candy or sweet foods should be given sparingly at the end of a meal.

HAIL!
(By Gass Woodman, Seattle, Wash.)
"Rai" for Northville's dandy town,
That's sure where I belong;
A hundred years she is today,
And still a goin' strong.
I'd like to be there once again,
A playin' in the band;
The music that we made those days
Was little short of grand.

The boys turned out with right good will.

For practice or parade,
Twas Johnnie Symonds, led us then
In uniform arrayed.

There's Wilson Griswold, Henry Wald,
Rockwell and Ferriggi.

We tapped on many a snappy march
In tempo not so slow.

Ah me, some players now are missed,
Their spirits long have flown;

Perchance they're playin' now a long

Engagement 'round the Throne.

To thos'n now left, I hail today,

My hand is out to you;

Long live the town, long live the band.

With friendship pledged anew.

S. Old Timer, Seattle, Aug. 21, '27

Some months ago or maybe more,
I came to this ere town;

I'd walk a street up to th' end,

An' walk th' next one down

I asked some questions here an' there

Like, what is this 'en' why?

An' every time I asked I got

A cordial reply.

A notion crept into m' dome,

An' seemed r' stuck there tight;

That, when they do things in this town,

They seem r' down-right.

Now, farters, I wish to say,

Just before I commence,

I hand out any compliments,

It's not worth thirty cents.

But to th' celebration of

The hundredth day of birth,

I've go to take m' hat off,

And cheer for all th' worth.

There was no ruction anywhere,

Throughout the day or night,

I'll say, now, folks, that's thaf' eré

thing

Was surely done up-right.

The management of that affair

Deserves a shake of hands;

The singers, sports an' speakers, too,

An' equally th' band.

Boy Scouts an' earlistans have their part;

An' Girl Scouts, too, their share;

An' Police, who, most courteously,

Kept order everywhere.

Just seemed that everyone was bent

(The part of being slight)

On seeing that his own task was

Much simpl' done up-right.

Th' parade was a credit to

Parakers an' th' town;

Th' village, too, was all dressed up

In givin' m' girl a gown.

Hold on, one more commitment

Before we say conclude,

What would it have amounted to

Without th' multitude?

Now, folks, right in I want to

With a hearty comple-

But I am satisfied to have

More things r' done up-right.

Far be it from us to want to interrupt your enjoyment of these glorious days. So we beg pardon, BUT—

Have You Ordered Your Coal Yet?

That's just a kindly reminder that you'd better slip down to the cellar, and figure your needs.

William A. Mara of Northville, secretary of the Stinson Aircraft corporation recently gave out a public statement in which he pointed out the success of airplanes in land flying. The Detroit News regarded the statement of sufficient importance to com-

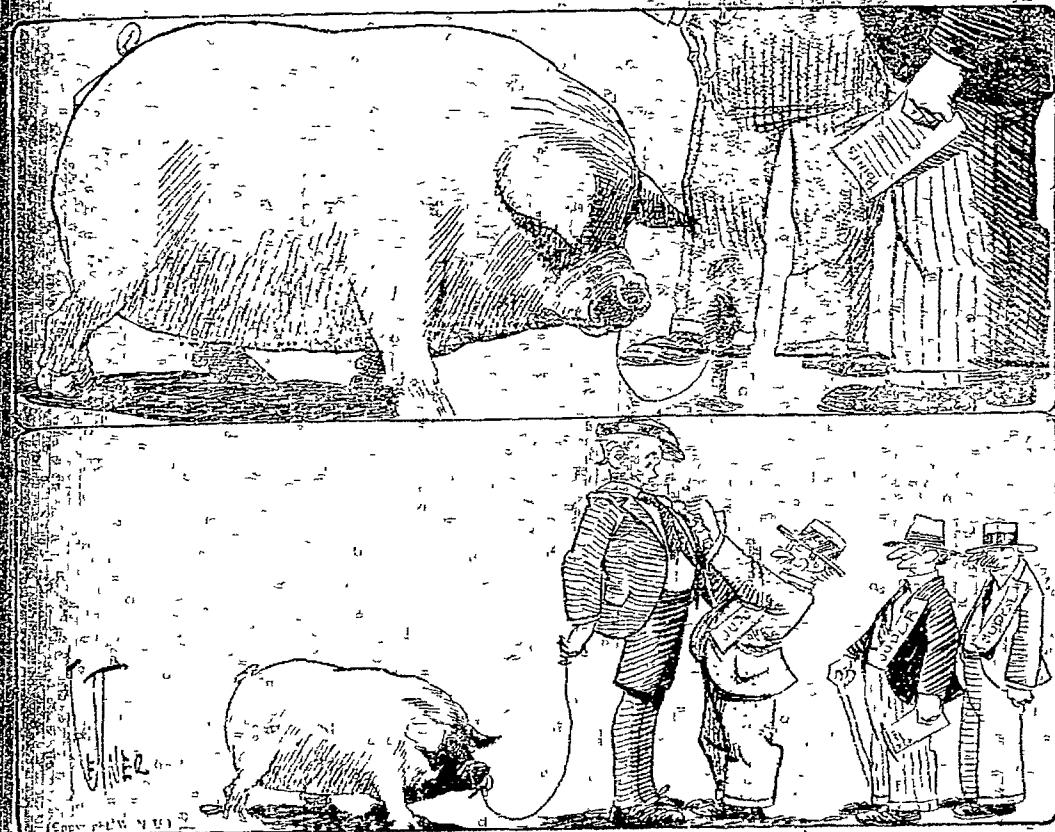

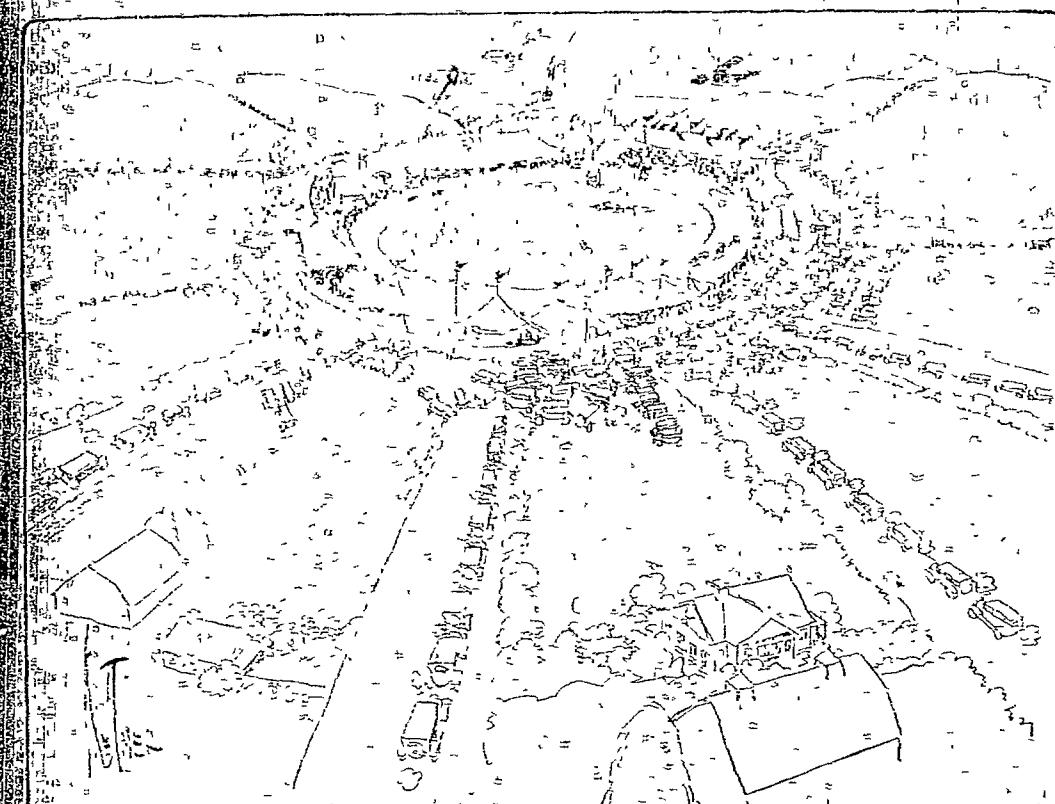

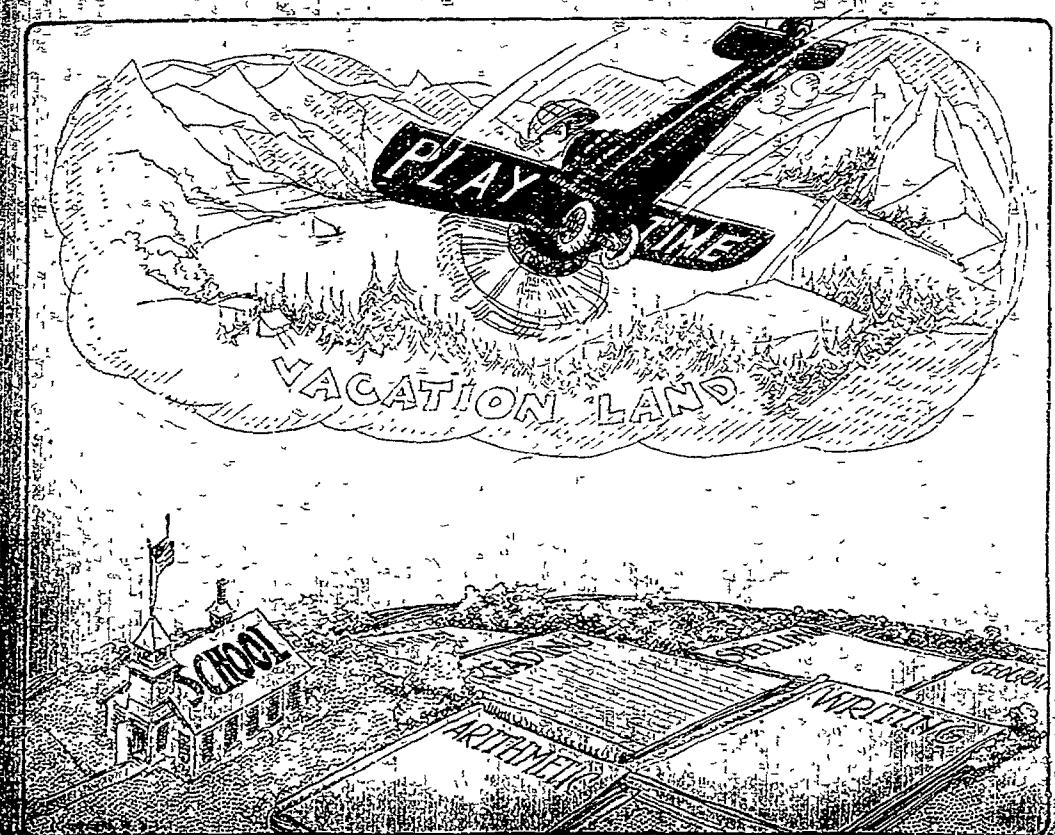

ment editorially upon it.

In a recent issue of the News appeared the following editorial:

William A. Mara, of the Stinson Aircraft Corp., was very wise in graphed and interviewed, but he tells emphasizing recently that while trans-oceanic hops, accompanied by disasters, too often, were engrossing public attention, regularly manned airplanes in the United States say 27,000 miles take to the air. His converts are not of airplane flying over them every day. That mileage is steadily increasing, and there are, practically speaking, no disasters.

KIWANIS WAYS
TO WIN SUCCESS****Service—Honesty and Willingness Requirements
He Declares**

"There is but one direction towards success. No short cuts, no easy ways, no helping hands along the way, it's the road which leads straight forward. And in order to win success, and the rewards that go with it, you have got to render service. You have got to play the game of life absolutely on the square," Fielding H. Yost, athletic director of the University of Michigan, told members of the Plymouth Kiwanis club at one of the largest meetings it ever held, Tuesday noon.

"The grand old man of the University," as he is affectionately referred to by everyone who has ever in any way been associated with him, talked to the Kiwanians and their guests for one hour straight, and every sentence uttered contained sound advice and common sense suggestions.

He briefly told of what the University had done towards building up a great athletic plant for the students and of the aspirations of the school for the future.

"I well remember that some 21 years ago for the first game of the season we sold something like 218 tickets. For the first big home game this year we have sold over 80,000 tickets.

During all these years we have tried to build school spirit, as well as build the bodies and the intellect of the young people."

"Tomorrow night I am going to talk to a lot of the boys over at the school.

I am going to talk to them about two words, just two words—love and service."

"Everything is wrapped up in those two words—absolutely everything. If you have hate in your heart, you are doomed to failure. No man can hate anyone and get anywhere. We try to teach the boys to love and respect everyone, their opponents in conflict as well as their associates. This is a wonderful thing to have a kindly feeling in your heart towards humanity."

"Service. I belong to a club that has for its motto, 'He who proffers most serves best.' And how true that is. No man can ever get anywhere in this world unless he renders a service to fellowmen. Do something if you do it honestly. Do it nearly. Do it partly. Your whole heart and you will immediately see the re-action of mankind."

Save the Old Umbrella

THE old umbrella has many uses. Do not throw it away until some of them are practicable in your life yet. In the absence of a clothes hanger, one helpful husband found that the umbrella with the curved handle never stopped and walking. It hangs on the clothes line full of clothes and can be held along the line, the hanging progresses along with walking back and forth to the clothes bush.

Flower plants and vegetables may be protected from the hot sun during the torrid days of summer by old

umbrella from which the bulky handle has been removed so that they can be easily slipped into the ground. Even the umbrella which will not protect against rain will nurse and protect a tender plant which would otherwise die from too much heat.

One young man made an admirable shower bath by taking the frame of an umbrella and sewing rubber to its tips to make a curtain around him while water was sprayed from above. His curtain was of course collapsible so that it could be folded away when not in use.

(C. 1927, Western Newspaper Union)

Although spring and fall are the favorite seasons for outside painting, it may be done in either summer or winter if necessary. Outside painting can be done whenever the surfaces are dry and the weather not freezing, and the temperature pleasantly between 60 and 80 degrees F. New wooden buildings need a priming coat of paint as soon as the weather permits, finishing coats being added within the next month or two. Tinned roofing should be painted as soon as laid, while galvanized sheet iron may be allowed to weather for a year, usually with no injurious effects, to give paint a better foothold.

State highway departments last year resurfaced a total of more than 15,600 miles of earth roads. In addition, they rebuilt 16,328 miles of old surfaces, 16,051 miles of the 237,928 miles of Federal and State roads are now asphalted.

**SOUTH LYON FOLKS ARE
RETURNING FROM THEIR
VARIOUS VACATION TRIPS**

According to the South Lyon Herald most of the vacationists at that place have returned home. The Herald under "vacation notes" says:

Mr. and Mrs. J. Carleton Covert returned from the north last Friday, and have again taken rooms in the residence of Mrs. Alberta Arms.

Mrs. R. J. Smith and two children came home last week after spending the summer with relatives and friends at Whitecourt, Alberta, Canada.

Mr. W. L. Walker returned from New York state Saturday night, after spending about a week with relatives at Rochester and friends at Watkins Glen and Buffalo.

Mr. and Mrs. Claude Wilkinson and Charles Wilkinson returned to South Lyon Sunday night, after passing a few days in North Star, Ithaca and Los Lake Woods.

Miss Helen Bidwell has returned from California, where she spent the past nearly two months. She has now gone to Detroit to resume her work as teacher in Marshall Foch school.

Mr. and Mrs. E. M. Glenan returned home last Thursday night after a vacation of nearly three weeks at Petoskey and other points in the north.

Mr. and Mrs. A. M. Bailey went to Flint Saturday, and in company with Mr. and Mrs. A. V. Dowsett and children of that place, went to Houghton lake, returning to South Lyon Tuesday morning.

Mr. and Mrs. Ross Sprague and children and Mr. and Mrs. J. F. Gross and son returned to their home last Friday after passing a two weeks vacation at Bay View. Mr. and Mrs. Charles Sprague, who had been there for a longer time, remained expecting to return to South Lyon some time next week.

Miss Myrtle Vanhorn of Flint was a guest at the Lovewell home over Sunday. Miss Vanhorn and Miss Nelly Lovewell returned last weekend from a five weeks stay at their cottage on Pine Island in the St. Mary's River in Ontario. Next Monday, Miss Lovewell resumes her work as director of religious education for women students at People's church, East Lansing.

Cotton seed meal should not be fed to young calves.

Calves kept together in a large pen are difficult to feed by hand unless milk. When they are loose the milk often is spilled, and the larger calves get part of the smaller ones' share. Very simple stanchions may be constructed to prevent losses of milk, and to insure the equal distribution of the feed. To prevent the calves from sucking one another, it is best to keep them in the stanchions for some time after feeding. Calf stanchions are usually 36 to 40 inches high with spaces 4 to 5 inches wide for the calves' necks. Allow from 2 to 2½ feet between the calves.

Portable Adding Machine**

In this new Burroughs Portable, portability and low price are combined with Burroughs quality, dependability and accuracy. Big business is using this machine on individual desks in various departments. The small retailer is using it on his counter and in his office. Professional men, secretaries of organizations and others find it indispensable in their offices and homes for business and personal accounts.

The Burroughs Portable adds up to \$1,000,000.00; has standard visible key board and right-hand control. It is very simple to operate. It prints ciphers and punctuation automatically. It requires little more space than a letterhead. The price is only \$100—\$10 down—balance in convenient monthly payments. For more information or free demonstration call or write.

MICHIGAN BELL TELEPHONE CO.

Save Money
on Long Distance Calls

There are Two General Classes of Long Distance Calls.

1—Person-to-Person. This is a call placed for a specified person and is the kind of call to make when you want to talk to someone in particular and you are not reasonably sure that person will answer the telephone or can be called to it quickly. A Person-to-Person call costs the same at all hours.

2—Station-to-Station. This is a call placed for a certain telephone number and is the kind of call to make when you are reasonably certain that the person with whom you wish to talk will answer the telephone or can be called to it quickly. Station-to-Station calls cost appreciably less than Person-to-Person calls, and offer reduced Evening rates, from 7:00 p.m. to 8:30 p.m., and further reduced Night rates, from 8:30 p.m. to 4:30 a.m. There is no change of rates at midnight.

It helps speed the connection if you give the Long Distance operator the number of the distant telephone, when making a Station-to-Station call, but it is not necessary to give it. If you do not know the number, tell the operator, for instance, that you are calling the office or home of "Mr. John Smith, 350, Savre Street, Lansing, Michigan;" she will then connect you with the called telephone and give you the number for future use.

NORTHLVILLE Twenty-Five Years Ago

Items taken from The Record files of 1902, for the week corresponding to this week.

Naevin Sloan has sold a carload of Osborne corn harvesters since August 25th.

The Northville U. S. fish station will make an exhibit at the Michigan State fair next week.

Among the recent Michigan patents listed is one to Spencer Clark of this place, for wood bending.

Mrs. O. M. Thrasher returned last Friday from a ten day visit in the northern part of the state.

Judge Howard Benton of Wisconsin is visiting his father, G. P. Benton, and other friends in this vicinity.

Prof. C. H. Bassett and family have moved to Columbus, Ohio, much to the regret of the many friends they have made during their residence here.

The 15 D. P. & N. car loaded with returning fair people, jumped the track just after crossing the Phoenix pond last night. Fortunately no one was injured.

A few Northville people were up early enough to see at least the trail left by the brilliant meteor which passed across the eastern sky about five o'clock.

Mrs. O. M. Thrasher, Mrs. Kern and Mrs. Delta Harmon attended the silver medal contest at Plymouth Monday night in the capacity of judges. The medal was given by Miss Laura Bell.

The incandescent light placed at the corner of Center and Cedar streets recently is much appreciated by people living that those glare "lights" to nicely what was a very dark section of the street.

Stuart Montgomery, who lately purchased the Elliott Drug business, is proving himself worthily enterprising. Besides increasing his drug store's bright new paint, he has had a telephone put in his house so that he can be called up by his patients at any time.

The repeated breakage of the pipes leading from the reservoir basin at the big Thompson spring is the cause of the trouble with the water system.

Four hundred feet of iron pipe is required to get tanks in good working order, and meanwhile connection can only be effected with the Hills spring, thus greatly lessening the supply.

BRIED APPLES AND BACON

Thinly sliced bacon is delicious when fried under the flame of the kitchen fireplace; it is especially nice for bacon fat, crisp and appetizing.

Good bacon can also be obtained by roasting it in a heavy skillet, draining the excess fat, and browning a large part of the fat in another skillet.

Apple slices can be fried in the fat, and when the bacon is browned, the apples can be added to the bacon.

Apples can be fried in bacon fat, but

the bacon fat must be removed before the apples are fried.

THE CENTENNIAL

The centennial is past.

And Northville did her best

To extend a hearty welcome

To each and every guest.

The weather was ideal;

And that was surely a treat;

Twas neither hot nor cold,

In fact, it couldn't be beat.

Our park is an ideal place.

For a gathering of this kind;

And a place more pleasant

Would be difficult to find.

The committees spared no pains

To make the success complete,

From the sports and ball games,

To the dancing on the street.

The speeches and music were splendid,

Such talent you seldom see,

Unless you pay as you enter.

But here everything was free.

It certainly was a pleasure,

To see our friends of yore;

And welcome them to Northville;

To their old home once more.

We all enjoyed the readings,

How those sturdy pioneers,

Worked and cleared the forest,

Where our village now appears.

With its rolling hills and beautiful

homes,

No matter where you roam;

You scarce can find a lovelier place

Than we have right at home.

The barbecue was great,

But instead of a sandwich flat,

I seemed more like a dinner,

And all was gratis.

Saturday's parade

With Ford's band at the head,

Was and of special interest,

Everyone agreed.

After many years of travel,

Concord y in the slow;

May be glad we're today,

And in a hundred years ago.

And so as we look forward,

Our hearts are gladness fills

Because we live in Northville.

The "Village of the Hills,"

We hope our future citizens

Will be worth the past,

And our town will grow and prosper.

As long as time shall last.

the fight. It might hurt the seat sales if some of my stories got by without being censored. I just happened to think, "Maybe that wasn't the reason he tried to get it at all. Maybe he wants to get a front seat down there with that fellow-wearing spats so he can write this fight up for the Record. Going over to tip off the police about him. Next week for the low-down on all the fight stuff. Yours for the truth in prize fighting."

ONE HUNDRED YEARS AGO (Author Unknown)

How wondrous are the changes Since one hundred years ago. When girls wore woolen dresses And boys wore pants of tow. When shoes were made of cow-hide, And socks of horse-spun wool. And children did half day's work Before they went to school again.

One hundred years ago, One hundred years ago. The men and the boys, the girls and the toots. The work and the play and the fight, and the world, and us, we are all turned round.

Since One Hundred years ago. The girls took music lessons Upon the spinning wheel, And practiced late and early On saddle, swift and reel. The boys would ride a horse or mule A dozen miles or so.

And hurry off before it was day. One hundred years ago.

The people used to meet in

Inns instead of slobbers,

And wagons rode as easy.

As always now, days

The oven answered well to ears.

Now they are slow.

For people lived not fast as fast

One hundred years ago.

How well do I remember

Our Wilson's patent stove.

That Father bought and paid for

With both the girls had worn

And how the neighbors wondered

We see the girls go

And said "would bust and kill us all."

One hundred years ago.

Yes, everything is altered.

I cannot tell the cause,

For men are ever changing,

With nature's wonderful laws,

And what on earth we're coming to.

Does anybody know?

For everything has changed so much

Since One Hundred years ago.

This song used to be sung many

years ago by a music teacher by the name of Will McClintock, who

though blind was able to drive his

horse over the country of Battle

and Oakland and had a large class

of pupils to which I belonged.

The only change made in this song

is the number of years from Fifty

to One Hundred.

Lillian M. Cook, New Haven.

it be worth while to see her in concert.

Prayer meeting every Wednesday, 8:00 p. m.

Rev. Parker of Lansing, has accepted the call of this church, and expects to move into the parsonage some time to come.

The manner in which the average hen molts or sheds her feathers is a reasonably safe guide to follow in weeding out poor layers. The better producers continue to lay late in the fall, and therefore do not molt until late.

The late molters also molt rapidly as a rule, while the early molters, which are usually the poor layers, molt slowly.

Hens that have not molted by August 15th, September will show dirty, worn, or broken plumage, while those that have molted early show fresh, clean plumage of growing feathers at that time.

Although steel and rubber enter into the manufacture of automobiles there is more wood used in this industry than ever was required in the old horse vehicle business.

Are Your Buildings Ready for Winter?

Now's the time to put everything shipshape for the bad weather that's sure to come.

Faint now and avoid costly repairs later. There's no better time to do a durable job. Summer heat has dispelled moisture so that paint penetrates thoroughly and holds well.

EVERY NEW TIRE LOOKS GOOD

Dunlops not only look good, but they make good—over rocks and gravel, and ruts and sand.

"Thirty-nine" years of experience has shown Dunlop how to design a tread that gives maximum traction and slow, smooth wear.

This Dunlop tread is the toughest development of rubber known. And this same tough tread-rubber is carried clear around the sidewall to give maximum protection against rut wear.

You get the full benefit of all this extra tread-mileage because each Dunlop is built with the famous trouble-free cable-twist Dunlop carcass, to provide the high strength and elasticity so vital to long tire life.

We recommend you put Dunlops on your car.

THESE FELLOWS ONLY AFTER YOUR DOLLARS

At various times the Record has called attention of its advertisers to fellows who come to town anxious to take some of their money away from them in various cut schemes, etc. Once in a while someone gets caught and are afterwards very sorry they "fell" for it.

According to the South Lyon Herald that community has been infested by the same outfit. In its last issue the Herald says:

"All business men of South Lyon are warned that solicitors stop advertising services, many of whom have visited

that section during the past year and make regular trips through this section and in no way connected with the South Lyon Herald.

The Herald has not given endorsement to any solicitor selling advertising services to business men, and advises all business men to communicate with this office at once if solicitors make such claims. The Herald offers to any business man one of the best advertising and cut services in the country, free of charge."

RESOLVED, That the Commission of the Village of Northville determine and hereby determines to make the following public improvement in the Village of Northville, namely:

To pave with two and one-half (2½) inch sheet asphalt on a six (6) inch concrete base or with an eight (8) inch concrete roadway, or other permanent types of pavements as the Commission may select, to be with the necessary grading, curbing, and drainage, 28 feet wide, THAYER BOLEWARD within the village, from Rogers street to Orchard Drive.

AND WHEREAS, The Commission has determined to defray the whole of the cost and expense thereof by special assessment.

AND WHEREAS, The Commission has caused an estimate to be made of the cost and expense thereof, and also maps, plans, and diagrams, which show the boundaries and divisions of all lots and premises to be assessed for the cost and expense of the same which estimated is the sum of \$12,200 and which maps, plans, and diagrams are now on file in the office of the Village Clerk.

NOW, THEREFORE, BE IT FURTHER RESOLVED, That the whole of such cost and expense be paid by special assessment according to frontage of the lots and premises abutting along and upon said street to be improved in proportion to the front footage of each lot or parcel of land so abutting on said improvement.

RE SOLVED, FURTHER, That the Commission meet on the 24th day of September A. D. 1927, at 8:00 o'clock P. M.
