Edward C. Langfield Tells Club His Ideas of the Real Rotarian

Rotary and what it means was the theme of a remarkably interesting talk made Monday noon at the meeting of the Northville Rotary club by Edward C. Langfield, former president of the organization and the delegate of the club to the Ostend convention.

The day's session was in charge of Dr. Burkhardt and Father Schuler. Mr. Langfield in part said:

"Four of the six objects of Rotary refer especially to business and professional life, and in my opinion that is the most convincing argument you will ever have for international goodwill and international peace. Unhappily we have business and professional men materializing as men of good will and peace and yet our business right we are never going to get our international relation right."

You must bear in mind that there is quite a difference of opinion as to what is fair and what is unfair in business, and the purpose of the discussion was to get Rotarians to crystallize their opinions of the unfair in business, and then again, a man can stand up before a crowd of Rotarians or others and tell all he has arrived to, but he is not going to convince us or change the methods of that man in business, but if we can get the man in business to thinking and let man will think, and that man will stand up and talk about things in business, and will convince himself that those things are wrong, then that man is going to change his methods."

As business men and professional men pure and simple, we have to give an account of ourselves to the men and women in the world around us, with whom we want to stand well, and if we cannot give an account of ourselves by our advertising and our service, as we call it, we shall go under in time. But that is not the problem we are here to face. We are Rotarians' business and professional men, and we have got to give an account of ourselves to non-Rotarian business men, and it has got to be a jolly good account, too. They want to know why we take the word "Rotarian" on the word "Business." They want to know what there is practical and how they can understand it. Now, the word "Business," above "Self" sound Greek to them, and it did not sound Greek to me after we came into the Rotary club. It did to me I think in because I thought there was a germ of fine idea in that. I did not understand the idea and I have not yet located the germ. Are not some or you like that, too? And when you meet fellows outside, who are just a bunch of business men, as we are but who do not happen to be in the Rotary, you have got to give an account of Rotary, and it has got to be a true one."

Mr. Versteeg, Amstelada: Buying and selling a little booklet issued by the Rotary International, which gives you hints about what you have to say and how you should study the matter and how you should bring it before others. "Hiring help? Don't you buy and sell goods, but realize that you are selling?" For instance; if you are selling a thermos bottle, don't sell metal and glass, but sell this customer the pleasant cutting he is going to have, and look for everything whether it is the two-penny article or whether it is a big object. Look for everything, not the article, but the result of it. Look for the future and the service the article is going to get, and when you have learned to realize the background of it, what is underneath, only then will you be selling the right article in the right spirit.

We should think in terms of happiness; we should associate with happiness, with its real department, "goodness," and if we carry this into our business and into our profession, all I can say is that the world would be a better place on account of the existence of this association to which we in this room have the privilege to belong. "Yes, business is business, and to carry on your business is to serve. Success is being friendly when another needs a friend."

It's in the cheery words you speak, and in the hand you shake; Success is not alone in skill and deeds of daring great.

It's in the kind words you plant when a satisfied person goes his way. Success is in the way you walk the paths of life each day; It's in the little things you do and in the things you say!

Success is in the glad "hello" you give your fellowmen; It's the laughter of your home and all the joys you plan.

Success is not in getting rich or rising high to fame.

It's not alone in winning goals which all men hope to claim.

It's in the man you are each day through happiness care.

It's in the cheery words you speak and in the smile you wear.

Success is being of heart and clean and broad of mind.

It's being faithful to your friends, and to the stranger kind;

It's in the children whom you love, and all they learn from you.

Success depends on character and everything you do.

### MAN WHO GAVE BELL TO NORTHVILLE SAW BIGGEST ONE MADE

Jurius Beal Back from Most Interesting Trip to Brady, New York England

Jurius E. Beal, one of the regents of the University of Michigan, who gave to the Northville Methodist church the bell that tells the community of the passing hours, recently returned from a trip to England, where he witnessed the moulding of one of the biggest bells ever made.

"I went up to the bell foundry that has been so famous for so many years. It just happened that while I was there that the workmen were clearing away the sand from the casting of one of the biggest bells ever made. It was amazing to see the intense interest of the men in the work. All wanted to see if the cast was a perfect one, and it is hard to describe the delight of the workers when it was found that the big bell was perfect in every way. Of course, when you stop to think that these men realize that they had just made a bell which may be ringing 2,000 years from now, it is not so difficult to understand their interest after all," stated Mr. Beal.

In the factory there were men working who were great grandsons and grandsons of former employees. Jobs are passed down from father to son. If a man is a bell maker in England, his son is almost sure to be one."

Mr. Beal, long a resident of Ann Arbor, has always been greatly interested in Northville, and his gift to the Methodist church of the big bell that tells the time every hour of the day and night was in memory of a cousin, who had much to do with the early development of this community.

"I used to drive over to Northville very frequently. Before we had automobiles and good roads it was a good three-hour drive. In fact, if we made it in three hours from Ann Arbor by horse and buggy we thought we were making remarkably good time. Now it takes us about 30 minutes to get over there. Northville is a very delightful community. I always liked the place very much and in the past few years its growth seems to have been very rapid."

Mr. Beal over a period of a great many years has been one of the regents of the University and has been one of the men responsible to a very great degree for the remarkable development of that institution.

### Public Confidence

We shall abide by the conviction that the foundation of a greater Paige-Detroit Motor Car Company must rest upon the confidence of the public in our integrity and ability as manufacturers.

Public confidence can only be won by building a worthy product, and selling it at a fair price. With the improvements in all Paige sixes and eights, and the lower prices on ten of the twenty models, we believe the soundness of Paige value is evident.

In examining the twenty improved Paige body types, note particularly the two new models that make available a Paige six for the first time for less than a thousand dollars. Prices range from \$995 to \$2665, f. o. b. Detroit.

## FIRST FLORIDA TOURISTS LEAVE FOR SOUTHLANDS

Mr. and Mrs. S. L. Crosby  
Will Drive along Eastern  
Route to South

The first of Northville's Florida contingent has departed for the southlands—Mr. and Mrs. S. L. Crosby, leaving last Wednesday morning for their annual winter stay in Melbourne, Florida. From now until snow flies there will be departures nearly every week if past custom prevails.

Mr. and Mrs. Crosby are driving through. He generally takes seven or eight days for the trip, as he never hurries and frequently plans several side trips on the way down. This year he is going to go direct to Washington, and then follow the coast line down.

"In this way we escape most of the mountain driving, and still have a very pleasant trip. It will be our fourth winter in Florida, and we are anticipating it very much. It is a big relief to get away from the severe winters, although no one could ask for nicer springs summers and falls than we have here. If the weather is not bad, we expect to camp out most of the time," stated Mr. Crosby before leaving.

**FARMINGTON HOPES SOON  
TO HAVE STREET-CAR SERVICE  
TO THE CITY**

It is encouraging to the movement to secure a renewal of street car service to Farmington, which was afforded the community Wednesday when Del A. Smith, manager of the Detroit Department of Street Cars, informed members of the Farmington Club and the citizens that the Detroit Commission will go over the situation and consider it in two weeks on November 2nd.

Mr. Smith was unable to be present to speak to a gathering of businessmen, Exchange club members and other business men Wednesday, who sent a statement indicating his intention to give the matter thorough consideration. Mr. Smith intended to come to Farmington until half an hour before the meeting, but was called away just before he was to start. Several members of the department were present however.

Anticipating Mr. Smith's appearance here at the meeting of November 3rd, the Exchange club has issued an invitation to all who attended the meeting Wednesday, and all others interested to come to the meeting on that date to greet Mr. Smith and impress him with the earnestness of his company's desire to get trolley service again.

Petitions for the service are still in circulation. Large numbers of citizens have signed the petitions, but there are many whose signatures have not yet been secured. All those who have not signed are urged to do so within the next ten days. Petitions are available at practically every building in Farmington.

At the meeting Wednesday, the Farmington Exchange club unanimously passed a resolution pledging firmly and enthusiastically support of the petition of citizens who had passed the purposes of the framers of the law. It has made sound orderly marketing possible. It has opened new avenues to sound credit to the farmers and to other marketing agricultural products. Growers of staple crops get more credit and get better interest rates on Federal warehouse receipts than they get for receipts from warehouses which do not qualify under the act.

A copy of the act can be copied by you in law courts. George O. Franklin, Market Economist, U. S. Department of Agriculture.

## MEXICANS ARRESTED IN NOVI TOWNSHIP FACE A MUR- DER CHARGE IN ILLINOIS

Two men and a woman, Mexicans, were arrested in Novi township early last Saturday morning and taken to Pontiac, where they were held on a charge of having killed two men at Waukegan, Illinois.

The men, Francisco Avroyow, 23, and Angelio Castaneda, 23, and the woman, Marie Ortiz, 24, were arrested at about 12:30 Saturday morning in Novi township, one mile west of Novi and a quarter of a mile north, by Deputy Sheriff John C. Marek of New Hudson and W. E. Coe of Walled Lake.

The officers were patrolling for chicken thieves when they came upon the car parked along the side of the road. Upon their arrival the car—a Ford Tudor sedan started up and went a distance south of Grand River road, then returned. They were followed by Officers Marek and Coe, whose suspicions had been aroused.

The officers leaped out at each side of the car and grabbed the men who were found to be carrying guns. Open boxes of ammunition and other articles in the car led the officers to believe the trio must be wanted somewhere, so placed them under arrest and took them to the county jail in Pontiac.

The men would at first admit to nothing except the killing of a man near Flint, which they used for food, the hind quarters having been found in the car. When questioned by the sheriff in the presence of the men, the girl appeared afraid to answer, explaining later that the men had threatened to kill her if she told. When questioned alone she told of her experiences with the men of a robbery pulled off in Flint, the forepart of the month, after which the trio went to Waukegan where they met with other bandits and got into a dispute over stolen property, which resulted in her companions shooting and killing two other Mexicans, Julio Gerena and Guadalupe Gonzalez. The murderers got away and have since been driving nights mostly.

According to Deputy Marek a telegram was sent to Waukegan, and the girl's statement verified.

Statements were obtained from the men in which they are said to have confessed the slaying, but claimed that the shooting was done in self-defense.

Authorities from Waukegan have taken the three to that city, where the men face a charge of first degree murder.

## FORMER RECORD EMPLOYEE VISITS EARLY WORK SHOP

Virgil V. McNitt Speaks at  
University Press Con-  
ference, Then Comes  
to Northville

Virgil V. McNitt, manager of McNaught's Newspaper Syndicate of New York City, who came to Michigan last week to speak before the University Press Club of Michigan, at its annual convention held in Ann Arbor, Saturday visited the offices of the Northville Record, the place where his remarkably successful newspaper career started.

Mr. McNitt was on the program Friday forenoon, and his address dealing entirely with the subject of "Newspaper Standardization" was one of the most interesting of the entire conference. Among other speakers on the program were President C. C. Little of the University, William Bezzell, assistant managing editor of the New York World, and Fielding H. Yost.

I owe very much to Mr. Frank Neal for his kindly assistance to me at the time I wanted to learn newspaper work. He opened his shop to me and let me do most anything I could. I was going to the Northville school, and I used to go to a local school publication. I had the printing and most of the printing of the little paper. It was a remarkable experience for me. In those days there was much thought given to the creation of what one did but I had to learn the fundamentals of the printing art and newspaper work. It was worth everything. Mr. Neal was greatly surprised at the development of Northville, and regretted that he did not permit him to stay longer and look up some of his old associates and friends.

The syndicate—that Mr. McNitt heads—handles some of the best news-paper features published today.

Among the features he controls is the Will Rogers daily public comment

which goes to hundreds of daily papers throughout the country.

Accompanying Mr. McNitt to Northville was his father and son. The father is at present a resident of Muskegon. The young lad was greatly interested in the shop where his father started his career.

Federal warehousing is improving farm credits, Department of Agriculture specialists claim. The Federal warehouse act, they say, has already accomplished the purposes of the framers of the law. It has made sound orderly marketing possible. It has opened new avenues to sound credit to the farmers and to other marketing agricultural products. Growers of staple crops get more credit and get better interest rates on Federal warehouse receipts than they get for receipts from warehouses which do not qualify under the act.

A copy of the act can be copied by you in law courts. George O. Franklin, Market Economist, U. S. Department of Agriculture.

## Waffles By Wire

in many households waffles—that toothsome and nourishing dish—are considered as a treat to be enjoyed only occasionally. This feeling, no doubt, is a sort of "left-over" from the troubled hours of the old-time cast-iron contrivance for waffle-making, with its grease and smell and tiresome running between kitchen and table.

The Electric Waffle Iron has changed all that. Waffles of a deliciousness rarely made in former days are cooked at the table and served fresh, hot and crisp. No grease, no offensive odors, no walking about.

The Electric Waffle Iron runs on 2½ cents' worth of current on low. It sells at \$7.95 to \$11.00, on convenient terms.

METHODISTS OF SOUTH LYON AND NEW HUDSON CHANGE THEIR HOURS OF SERVICE

The congregation of the South Lyon and New Hudson Methodist churches met Sunday night after the evening services at the South Lyon church and agreed upon a new schedule of Sunday services for the two churches. The South Lyon morning service is to begin at 10:30 o'clock instead of 10:30 and the Sunday school hour is changed from 12 o'clock to 11 o'clock. Services are to be held every Sunday evening at 7:30. The New Hudson hours are changed also; morning worship will be conducted at 12 noon instead of at 11 as heretofore, and the Sunday school is to be at 11:30 o'clock. This schedule was adopted to enable the minister to preach every Sunday morning at both churches and to alternate his attendance in the two Sunday schools. This schedule is to be effective in both the churches next Sunday—South Lyon Herald.

entirely overcome, and is obliged to be again placed in a caste.

The teacher training class of the Farmington and Novi Baptist Sunday schools met here Monday evening. Rev. Palmer of Farmington, is the instructor. On account of Hallie's illness the next session will be held next Sunday, at 3:00 p.m. at the Farmington church.

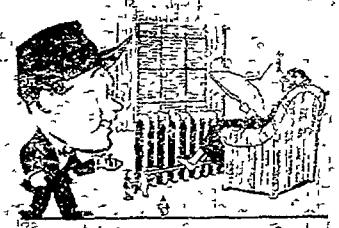

Mr. and Mrs. C. L. Clark, Rev. and Mrs. R. O. Thompson, Mr. and Mrs. Frank Rice and son Warren, Mr. and Mrs. Earl Banks, and sons Russell, Donald and Leslie Bennett attended the laying of the cornerstone services of the new Bethany Baptist church in Pontiac. Sunday afternoon while enroute to Northville School last week Wednesday, Orville Bennett narrowly escaped injury and a serious accident when his car collided with another car which was turning in a driveway. The windshield was broken and he was slightly bruised, together with a day's absence from school were the only serious results.

The first Dodge reunion was held Sunday, October 16th, at the home of Frank Dodge. Mr. and Mrs. Jay VanBuren and Mr. Dodge are the two living members of the Dodge family. Fifty people were present and partook of a sumptuous pot-luck dinner. Music was furnished by a number present and a good time was enjoyed.

Children should be taught to eat the crusts of bread and rolls for the sake of their teeth. They should be cautioned, too, to chew their food thoroughly.

Randolph, when his daughter, Mrs. Belle Long, became the wife of Mr. John Timham, in the presence of a few intimate friends. Rev. Thrasher was the officiating clergyman, while Miss Edna Thrasher acted as ring bearer. Mr. and Mrs. Timham will reside for the winter in Alpena, where Mr. Timham has an excellent position.

HERB IS A MAN WHO IS MAKING A FORTUNE GROWING TREES ON HIGH PRICED CITY LAND

Not all the great opportunities for making money are in the real estate field. Most people would be inclined to laugh if they were told that the tree nursery business held a prospect of soaring values and fortunes grown like Jack's beanstalk!

Vel Clarence Aldrich, proprietor of the Aldrich Nursery, of Grand River Avenue, Farmington, once had such an opportunity. "And if his acquaintances and friends had only

known of Mr. Aldrich's faith, his strong confidence in his judgment, but then

didn't much to his credit, they

wouldn't have been so surprised to learn that he had made a fortune growing trees.

The trees at that time were priced at about \$1.25 for the 12 to 18-inch size. So

Mr. Aldrich needed about \$1.250.

His friends couldn't see why

he invested in trees that might never multi-

ply in value, especially when they were

beginning to hear stories about big

profits made in real estate—the new

industry of America."

Mr. Aldrich told his friends they were

making a big mistake, but they shook

their heads. And Mr. Aldrich didn't

get his coat.

Last week, 10 Koster trees imported

at a price of \$5.00 per tree. Mr. Aldrich wanted to buy them, but he was sold for \$250.

Mr. Aldrich believes in real estate—he

owns a considerable portion of himself

on Grand River—but he doubts if

even real estate pays better than 5,000

per cent in 15 years, and he can't

help thinking about the Koster trees.

The \$1.25 he tried to borrow fifteen

years ago would have grown to \$62,000

today if.

Shakespeare said that "men might

find tongues in trees" now, Mr.

Aldrich proves that there might also

have been found fortunes there if one

had faith. Farmington Enterprise.

Farm tenants for the most part, are

young men. Tenants farming in 1920

averaged 39 years of age with 11 years

Northville Masons most pleasantly entertained members of Kiwanis Lodge of Detroit, Wednesday afternoon and evening. An extra large number of Detroit members came out to Northville. Work was started in the afternoon and continued through the evening. Dinner was served at 8:30. The Kiwanis degree team exemplified the work. The local lodge members demonstrated their ability to show the visitors a most pleasant time. The attendance was much larger than had been expected but the committee in charge was able to take care of the visitors in a most satisfactory way.

In one of the best baseball games ever played in Northville, the local club, Sunday afternoon, beat the Kennedy Clothes team of Detroit by a score of two to one. The battery for the visitors was, Krookstein and Kotkosi. The latter was star center fielder of the University of Michigan team a few years ago. German, Sr. and Hunter comprised the battery of the Northville team. The visitors got six hits while the Northville boys made 14. The Detroit amateurs and the victory of the local team over the Kennedy outfit was one of the big surprises in baseball land.

## NOV. TO VOTE ON ANOTHER PROPOSED SCHOOL SITE NOV. 4

Reject Robert Hunt Offer  
by Just One Vote Will  
Build Soon

Now residents by one vote last Friday evening rejected the proposed school site offered by Robert Hunt. As a result of this election, there will be another one held on Friday evening, November 10, to vote upon a site that has been proposed by Gus Gitre on the Walled Lake road. This site is directly across the road from the present school but is considerably larger than the present site.

There has been some objection raised to two proposals that have been made from the south side of Grand River but there are a number of voters who greatly favor a site that has been offered by Harry Rice. His price is said to be less than \$500 per acre, and there will be no grading necessary on the location.

It is the purpose of the school officials to keep on offering different locations until one suitable to the majority of the voters has been selected. Now proposed to build one of the most modern schools in this section of the state as soon as a site has been selected.

**CHEVROLET PLANS BETTER  
PARTS SERVICE FOR ENTIRE  
COMMUNITY TO HOLD MEETING**

With a view to further broadening its parts and service facilities throughout the United States and to outline the Chevrolet service program for the ensuing year, the Chevrolet Motor Company has invited leading field officials of its parts and service division to Detroit for a three day meeting opening Monday, October 31st.

Every section of the country, including all of the largest cities, will be represented in the party that will devote three days to an intensive discussion of the problems that confront this division of the industry. The meeting will be the first of its kind ever held by the company, and will mark another step in the Chevrolet program to increase the efficiency of its nationwide service organization.

The keynote of the session will be delivered by R. H. Grant, vice president of the Chevrolet Motor Company in charge of sales. J. P. Little, manager of the parts and service division of the company, will be in direct charge of the convention.

Among those who will attend are the regional parts and service managers, zone parts and service managers, material supervisors from all major supply depots, and officials from the various Chevrolet factories throughout the country.

One of the three days will be devoted to an inspection tour of the General Motors Proving Grounds at Milford where Chevrolet cars are undergoing tests night and day.

MOTHER OF SUPERVISOR OF  
FARMINGTON TOWNSHIP IS  
DEAD AFTER LONG ILLNESS

Mrs. Maria Bond, mother of Supervisor Isaac Bond of Farmington township, passed away Sunday, October 10, at the home of her daughter, Mrs. Walter French of North Farmington, following an illness of five months.

Maria Otre was born in Chicago, Illinois September 9, 1874. She came to Michigan with her parents at the age of 14 years. In 1894 she was united in marriage to John Stephen Bond, who died five years ago.

Mrs. Bond was a member of Farmington Chapter, No. 239, O.E.S. She is survived by three children, Isaac Bond and Mrs. Myrtle French of Farmington, and Fred M. Bond of South Bend, Washington, ten grandchildren and one great grandchild.

The funeral was held at the home of her son, Isaac Bond, Wednesday, October 18th, at 2:30 o'clock. Interment in North Farmington cemetery. Farmington Enterprise.

One-half of the oranges, lemons and grapefruit grown in the United States are packed and marketed by co-operative associations.

## ORGAN RECITAL SUNDAY AT THE LUTHERAN CHURCH

Northville Residents Invited  
to Hear Noted Player  
Sunday Evening

A fare treat is in store for all who will avail themselves of the opportunity of hearing Mr. Rauschelbach, an organist, next Sunday evening at the Lutheran church. Mr. Rauschelbach is a pupil of William Middel-schulte, Chicago, and of Charles Galloway, St. Louis. During the summer of 1925 he made a ten thousand mile concert tour and played over radio stations XFCQ, KRSO, WLK, KFOA, KLX, KMO, KNK, KOA, WCCO, WCK, WJR and many others.

Rev. Riess, who secured Mr. Rauschelbach for this recital, has received testimonial from Missoula, Wisconsin, Minnesota, Oregon, New Mexico, Nebraska, Kansas, Indiana, Illinois, Washington and Michigan, all of them speaking highly of Mr. Rauschelbach's musical abilities and accomplishments.

The recital will begin at 8:00 p.m.

The public is cordially invited. There will be no admission charges, a collection will be taken to pay expenses.

## THE ORANGE AND BLACK

Northville, Michigan.

Published in the interests of the Northville Schools.

### SENIORS HOLD HALLOWEEN BALL

"Ananda's symphony of orange and black," the dancers swinging gracefully to the enhancing strains of Jean Goldkette's dance orchestra, the warm glow of orange lights all indicate that the Senior's Hallofelen ball was in full sway. The gymnasium was decorated with loops of orange and black paper from which hung (at the perilous height) jack o' lanterns, wicked witches and terrible cats.

The orchestra was inclosed in a "Lover" of autumn leaves, across the front of which ran a small picket fence.

Dancing ceased at twelve o'clock and everyone went away declaring they had a very enjoyable evening.

### EDITORIAL

"WHY DON'T WE HAVE AN ASSEMBLY PROGRAM?" seems to be a general plea these days. The question is one which is rather difficult to answer, and one which is natural enough. Everyone seems to be awaiting a program with expectancy, but the fact remains that no one has asked definitely for one. Nobody has volunteered to take the responsibility of one, and it is up to the students to do so.

Perhaps you remind yourself that it is in the hands of the student council to appoint an assembly program committee, but if you make no effort to remind them of it, can you expect any action? If you really want an assembly program go and see your alderman, that is what he is for, to get your wants and needs before the Council.

Then again you cannot expect anything you do not work for and support. If the student body's (with a few exceptions) actions at foot ball games, its refusal to support the team and the general lack of enthusiasm it is any indication of, its (student body's) repugnance to any assembly program arranged by the students would be exceedingly dull and boring.

Let's see some of the pop and spirit that made the football team come back so fine after being defeated. Get together, make your desires known, go see your teachers and get them back of you! Be alive!

### MUpsilon SIGMA CLUB HOLDS PARTY

The Alpha Sigma club held a party in the high school Wednesday evening, October 19th at 7:30. The evening was spent first in initiating new members and later in playing games and dancing. About 30 girls' friends were present, and after which the girls drove off.

### SPRING CLUB MEETING

THURSDAY, OCTOBER 27  
The Society of Friends met in the high school Thursday October 27th, for its regular Friday meeting. Tom Woodbury was accepted as a member after giving a five minute speech. His topic was "A Description of Modern Industry." The annual election will be held Thursday evening November 3rd, for all late members.

A meeting will be held at Mrs. Danner's home in Detroit November 10th.

### THIS THREW HIM OUT THE WINDOW

"They threw him out the window.  
The window, the window,  
They threw him out the window.  
On Friday afternoon."

A most pitiful tragedy was enacted last Friday afternoon when Bruce Ogilvie set a heavy chair upon the head of "Julius Caesar," a manager's page.

"Julius" escaped during the first part of the class period, thereby causing much excitement. Bruce, whose chair was, permissibly tilted on two legs, saw "Julius" and became frightened. His chair came down striking the defenseless turtle a glancing blow, which sent him reeling. In a moment "Julius" recovered and charged at Bruce again. The heartless boy struck the poor turtle again. This time it was so seriously injured that there was no hope for his recovery, so they threw him out the window.

The window, the window!  
They threw him out the window.  
On Friday afternoon."

### SCHOOL CLOSED

THURSDAY NIGHT  
School closed last night for the rest of the week. The teachers are to go to Detroit for their annual meeting. There was a general meeting yesterday and today, and tomorrow there are special meetings.

### NORTHLVILLE HIGH

SWAMPS DEARBORN  
Northville won against Dearborn last Friday with a score of 36 to 0. It could hardly be called football because it consisted mainly of passing and punting. Throughout the game there was much tumbling made by Dearborn, and Northville was always very clever to take advantage of these breaks.

The game started off with Northville kicking to Dearborn, and defending the last goal. Dearborn fumbled and Northville recovered it, but didn't go far and both teams tried bucking the line during the first quarter and ending 12-to-0.

Northville played a good game while he was in, but was put out of the game at the beginning of the second quarter because of arguing with the official.

On that next play, Thompson made a touchdown. One of the things that helped out the Northville runners was good interference. The ball ended with the score of 12 to 0.

Quarterback Thompson made a sensational 80-yard run in the third quarter, and then again made a touchdown during the same period when he caught a punt and made the second touchdown in the third. After some passing and then punting by Dearborn, the third quarter ended 24-to-0.

Northville kicked off to Dearborn, starting with three fumbles and the ball was recovered by Northville. Thereupon, Northville made the fourth quarter.

The student council plan for fire drill was also discussed. It was decided that all students on the second floor should use the back stairs while those downstairs should leave the building by the front doors.

After failing over absences, the meeting adjourned.

At a meeting of the high school teachers Monday afternoon Mr. Zimmerman announced the high school mixer held on Wednesday evening.

The teachers planned to dress in Halloween costume.

## NORTHVILLE GIRL WEDS WILL LIVE IN DOWN EAST STATE

### Miss Mildred Ely Becomes the Bride of Preston

Miss Mildred Ely, daughter of Mr. and Mrs. W. A. Ely, was married last Saturday at 11:00 o'clock at the home of her parents, to Preston Bray of Glenn Cove, New York, by the Rev. William Richards, pastor of the First Methodist church.

Only immediate relatives and a small circle of friends were present. However, a wide circle of friends wish the bride every happiness. She was born in Northville and, with the exception of a few years spent in California, this has been her home. The bride is a graduate of the State Normal college at Ypsilanti, and for the past two years has been an instructor in the schools at Fordson.

The groom is a graduate of the University of Michigan, and the two met while students at the nearby educational institutions. They have left for New York state where they will make their future home.

The Federated church lovingly appeals to all members of the church and congregation to rally to the services on Sunday. A hearty welcome will al-

ways be accorded to visitors in our midst.

The feeding of heavy cattle is more hazardous than the feeding of calves and yearlings. This is due to the fact that cuts of beef from heavy cattle are more limited in demand than beef from handy-weight steers, with the result that the price of heavy cattle is much more sensitive to changes in the market supply.

**SPORTING EDITOR GOES TO COURT TO BATTLE MR. NEAL**

Hires all the Lawyers in Ford Building He Writes to His Friends

By W. Casteline Elington (Northville's Greatest Sporting Editor, Ford Building, Detroit, Michigan, Oct. 26.—Have been down here all day today consulting with some of the best lawyers in America. Sorry now that I didn't study for the law instead of learning the technique of running a gas station and writing for the newspapers. At least I could be sitting at some big desk with a lot of books stuck up around the room instead of pumping Red Indian Indians tanks.

My mission down to Detroit hasn't amounted to much. You remember when the Northville Record sent me over to Chicago and I went broke over there. I met Frank Neal and he gave me \$55. You remember, I said clearly at the time, that he gave it to me.

Now he has turned the amount over to a firm of lawyers to collect. He says it was merely an advance. I can't even go in the postoffice any more. Just what he meant by an advance is more than I can figure out.

But you can bet your last cent on me that Frank will never get that five. I have hired more lawyers than I ever saw. Of course the whole thing is embarrassing to me because the Northville Record now says the suit about the fight was all the raspberry, and the paper won't even give a red cent for that high class writing I did for it. The next time I go anywhere, to write up a fight if will be under contract. No paper is going to get my talents for nothing.

These lawyers are funny fellows. I never saw one before today, except Fred Cochran, if you ever saw him, you have seen them all. They all look just alike.

Bets that are too small to go around them, no vests, and a walk that makes you think they are trying to imitate Lincoln. Lincoln stood in the doorway of the Ford building today, watching them go in and out. One fellow told me that those leather jodgers they used to call brief cases are simplified in getting flat bottles in and out of the building so as not to attract so much attention. But what they want or bottles in Detroit is more than I can understand.

Heard a lot of talk about Detroit politics today. It seems most of the folks down here are afraid of the hoodoo. Johnny Smith's friends have been peddling lots of folks have been killed off by drinking the poison, and to get back at the mayor everybody is trying to vote. They think the mayor is willing to have everybody pinstined because he is so friendly to the plain peddlers.

Being a sportin' editor I don't want to get mixed up in politics. You know politics is a rotten game—worse than prize fighting. You can't kill folks, prize fighters but you can in politics and nobody cares.

Don't know just where to live my man with Frank Neal. Am a little afraid to bring my lawyers out from Detroit to Northville, for fear the court of our home city might be

against honorable men who follow the right game. That remains to be seen. Then our greatest judge out at Northville is in the gas business, too, and he might take advantage of conditions and throw his support to Frank Neal. There is a lot to be gained by objections in court, and if I should bring my lawyers out to Northville, and they would lose all of the objections, it would be like that long count when Dempsey didn't knock Tunney out. I never thought Neal would ask me for that money, but now that he has it's going to be tough out in the courts, even though I have to appeal to the national boxing commission to get justice in the matter. My lawyers told me that the boxing commission was higher than everything else, and even if some carb-stone gas peddler had beat me, I could take the matter right up with the boxing commission and get justice.

There has been lots to write about but until I can get my financial affairs straightened out I am going to keep what I know to myself.

P.S.—Just got a tip that if I can get Harry German, Nels Schrader, Dayt Bunn, John Walker and Con Langfield in the jury that they will return a verdict in my favor. They are all fixed to fix the postmaster at the first chance they get. It doesn't make any difference to them whether there is justice in it or not. Neither does it to me.

**NOTICE OF SPECIAL ELECTION**

Tuesday, November 1st, 1927. Notice is hereby given that a Special Election for the Township of Northville will be held in the Village of Northville, in the Village of Northville, on Tuesday, November 1st, 1927, for the purpose of submitting to the electors the following propositions:

**1st—Bonding Proposition—Municipal**

For the purpose of authorizing the Board of Supervisors of Wayne County to borrow two million dollars for the acquisition of land in Wayne County for purchase or condemnation for airport purposes and to issue negotiable bonds of the county of Wayne therefor and to raise annually by tax the amount necessary to pay the interest thereon and to pay the principal thereof when due.

2nd—Sinking Fund—To Purchase Site

## O-PER

**BROMIDROSIS**—Do you have it? You are no exception to a host of others who have it and do not know it. The term means odor of perspiration, which is variable in amount with different individuals. One per cent of the perspiration is solid matter, which plus warmth, plus moisture, where perspiration is confined as in the arm pits, causes decomposition with odor. Prevent this decomposition and you prevent odors. Odor of perspiration does not mean filth or uncleanliness.

A Detroit store lady has lost two positions during this year on account of **BROMIDROSIS**; she procured samples from us at the Michigan State Fair recently and assures us she is free from odors and is having no difficulty to hold her position. This lady is one of many who are enjoying the products.

Few are aware of the odors which are being thrown off their person and it fails to some kind friend to tell them. The use of O-PER eliminates the necessity of embarrassment.

*Use O-PER  
for Baby too*

**USES OF O-PER**—Deodorant—Controls all body odors with our guarantee squarely behind the statement.

**FEET**—No case of **BROMIDROSIS** of the feet is too bad to be promptly and effectively controlled, with the chafing between the toes.

**SANITARY NAPKINS**—Absolutely and positively the only agent really satisfactory in conjunction with local application. Put on Kotex.

**AFTER SHAVING**—a most agreeable application.

There is no product on the world's market which has such a wide range of usefulness—absolutely free from irritating qualities as is evidenced by its wonderful adaptability to use on the skin of a new born babe and thereafter.

The writer of this copy asks that you take nothing for granted—that you believe not a word until you have verified every statement by a practical application of the product. We mean the success on this product shall rest on its merits instead of the kind of advertising which they say will make a fortune.

## Local News

Mr. and Mrs. W. Covell spent Monday in Lansing, visiting relatives.

Mrs. Charles A. Bowen of Detroit, is a guest at the home of Postmaster and Mrs. F. S. Neal.

Mrs. William Mara and little son Billie, spent Thursday in Detroit, where Mrs. Mara attended a bridge luncheon.

The many friends of James W. Kator of Chelsea, were pleased to see him here a few days this week. He spent a couple of days visiting with old friends.

Shoes kept in a warm, damp and dark place are almost certain to mildew. Mildew probably will not seriously harm the shoes, unless it is allowed to remain too long—but it may change their color. When first detected, the mildew should be washed off with soap and warm water, or simply wipe off with a moist cloth and the leather well dried. It is better to prevent mildew by keeping shoes in a well-ventilated, dry, light place.

To control the river is to control the mountain. This ancient proverb was a guiding principle in the Japanese policy of erosion control and torrent regulation as long ago as 1683. Since that time reforestation has been applied extensively throughout Japan as a factor of prime importance in the protection of the tremendously valuable rice fields of the empire and in insuring the permanency and utility of the waterpower resources.

Dairymen being forced to slaughter should be banded and the men must be the same number as beef animals. Cows bearing milk should be crowded. The best rations to food would depend upon the condition of the cows and the feeds available. Corn is one of the best fattening feeds and if fed with a Jerome hay or some concentrate rich in protein such as cotton seed meal or linseed oil meal, dry dairy cows should fatten.

If news the farmer yell to clean his wheat says the United States Department of Agriculture. Not only does the clean grain command a higher average price than the same grain before cleaning, but the dockage obtained has no feeding value that is roughly comparable to oats in composition. During 1926, dockage sold locally at country points at an average price of about \$16 per ton.

Shall we advise you about plants?

Says Betty Butterfly.

Shall we advise you as to the bulbs to be planted this month and as to how growing tender plants should be covered?

You will get dependable bulbs and plants, courteous treatment and be charged moderately here.

Say it with flowers.

**A Word  
About Price**

Price is only relative, and the quality of any piece of furniture you buy in this store makes the price low.

Just how "low" a price a furniture merchant wants to put on his goods depends a whole lot on whether he cares or not if the customer ever comes to his store the second time.

We want you to come here the second and the third time—and we want you to be so well satisfied that you will recommend us to your friends. That's why we buy and sell only furniture that we know you will **ALWAYS** be pleased with.

When you're shopping around for your furniture include this store. We will get your business if you look around and then come here and make comparisons.
