

# THE NORTHVILLE RECORD

VOL. LVIII - NO. 32

NORTHVILLE, MICH., FRIDAY, FEBRUARY 17, 1928

\$1.50 PER YEAR, IN ADVANCE.

## PLAYGROUND IS QUESTION SOON TO BE SETTLED

School Board Officials Say That Action Must Come Soon

That the school district will take some action in the near future relative to securing additional playground for the Northville schools has become evident from recent declarations of school board officials.

President Ernest Miller states that immediate action is almost a necessity as high state officials are demanding some action as soon as possible. "We have been told that we are violating a state law by permitting present conditions to exist. We fully realize that the playgrounds are not large enough for the children, and that they should have more room," he states.

It is known that the school board has in mind the purchase of property to the west of the school between Main and Cady streets, in order to secure a part of the property it is stated that condemnation proceedings are necessary because the owners of the property will not sell it under any circumstances, according to one of the school board members. An adjoining piece of property can be secured without court action, it is said.

While the school board plans to add to the west side of the school property, there is much agitation about how the purchase of land between the present school site and the city property on Main street.

There are three houses in this block, and it is pointed out that by the purchase of this strip of land between the school and the city property, it would make one of the finest civic centers that could possibly be secured anywhere. It would not only do that but it would provide a much larger playground than could be secured by purchasing property to the west, stated one business man recently.

It is also suggested that the street running along side of the school property, could be closed. The sidewalk could be left for the use of pedestrians.

It is known that recent traffic count was taken on this street, and except for the cars that brought students to and from the schools, there were only three machines that used the street one day, and five the next. One of these was a delivery wagon that simply turned off from Main street and went down to Rogers on Cady without stopping.

If the school board should purchase the land to the east, and close the street, except for foot travel, there is a stretch of land over 100 feet wide that runs between Main street and Cady that would be added to the school property without a cent of cost. Then it would be very easy matter to beautify the section between the city park and the school. The houses on Main street need not be torn down. They are in good condition and could be used for school purposes. The kindergarten grades, the domestic science department and possibly other classes could be put in these buildings until the time came for new structures, he stated.

It is known that Don Yerkes, Sr., is strongly backing the idea of having the school district take over the land to the east of the school but what will become of the question remains to be seen. School board officials are inclined to let the taxpayers of the district pass upon it at the annual meeting, which will be held in June this year.

## STRONGLY URGE ORGANIZATION OF THE BUSINESS MEN

Believe that a Chamber of Commerce Should be Formed Now

Indications are pretty sure that Northville during the coming year will organize a chamber of commerce. The matter has been agitated more or less over a period of a number of years and from sentiment recently expressed about town it would not be surprising if some definite action would be taken in the near future.

Frank E. Hills, well known real estate dealer, declares that in his mind it is one of the greatest needs of Northville.

At a recent meeting of the Rotary club R. A. Brooks, John McCull, Ed Keeney, and a number of others stated they believed the organization of a chamber of commerce or a body of similar purpose was one of the greatest needs of Northville.

They pointed out that the luncheon clubs were not organizations of a nature to carry on the work of a chamber of commerce, but that both the Exchange and Rotary could be of great assistance to a business men's organization.

There are many things that come up right along that should be taken before a chamber of commerce for consideration" stated Mr. McCull, recently. "The luncheon clubs are not organized for the purpose of promoting the development of a community, but as the district president of the Rotary club recently stated when he said, the clubs can do a lot to help. He declared that every member of the Exchange and Rotary should belong to a chamber of commerce and that if the town did not have one, it should be organized at once."

Mr. Brooks stated that in his travels about the state he finds that in many of the communities many of the vexing problems are solved by a business men's organization.

The prospects are that some definite action will be taken before many weeks.

## CITY CARRIER SERVICE TO START SOON

Postmaster Frank Neal states that the shipment of city carrier routing cases has been heard from and the department at Washington says they will arrive this week or the first of next so that carrier service can be commenced the first of March. It will no doubt be ready before that time but the service should begin only at the first of a month. Nearly every house in the village is now equipped with mail boxes and patrons are asking their correspondents and publishers to place their street and house numbers on their mail addressed to Northville. The postmaster says that is going to be a big problem to get people to use their street address which is necessary to the prompt delivery of mail.

## BONDED DEBT OF NORTHVILLE MUCH UNDER PLYMOUTH'S

Neighboring Town is Trying to Raise its Rates on Water

While many local residents believe that Northville is deeply in debt for public improvements, here is some information that puts an entirely different light on the subject. The data has been secured as the result of agitation in Plymouth to raise the water rates in that town so that the water users will pay for the bonded indebtedness incurred in putting in the water system.

The bonded indebtedness of Plymouth for its water system alone exceeds \$100,000.

The total bonded indebtedness of Northville for everything, its street lights, sewer system, village hall and its portion of paving along the trunk like streets paved by the county (not including the new paving) is barely \$20,000.00.

Northville already has laid aside in a sinking fund considerably over \$40,000.00 to take care of these bonds when they fall due.

It can readily be seen that the bonded indebtedness of Plymouth for its water works almost equals the total bonded indebtedness of Northville except for the new paving put down last fall. This amounts to something like \$150,000.

A comparison of these figures shows how much a more favorable position Northville is from the standpoint of the taxpayers than is its nearby neighbor, Plymouth.

The following portion of an article taken from a recent issue of the Plymouth Mail relative to the indebtedness on the water system is of more than ordinary interest in Northville, where there is not one cent of bonded indebtedness against its water department.

The present bonded indebtedness of the Plymouth water works department is \$180,000.

The village has to pay over \$14,000.00 on these bonds every year as principal and interest. The operating expenses of the plant far exceed the receipts, and it is therefore imperative that something be done to solve this situation.

With this idea in view, the village commission has been getting information from various cities and villages as to the operation of water systems in other places.

In the village of Westerville, Ohio, a town about the size of Plymouth, up until a few years ago all water and sewer main extensions were financed

## Chemical Company Combines With Dot Products Company

### Amalgamation Brings Big Factory To Northville Operations Start Soon

An announcement was made Monday by Edward C. Langfield and Conrad Langfield, vice-president and general manager, that the work that can be accomplished by the combine, although Conrad Langfield will remain active as vice-president and general manager, the majority of his time will be given over to the Solvite company, of which he still remains president.

The new building which Edward Langfield is building for the company will have a floor space of 8,000 square feet and will adjoin the old building on the south side. The two-story building will give the company about 7,000 square feet of floor space for laboratory, which at present is badly needed, as the one the company is now using is much too small. Both branches of the company will be increased, and the payroll will be tripled when the new company is in operation.

The new building which Edward Langfield is building for the company will have a floor space of 8,000 square feet and will adjoin the old building on the south side. **TIRED MEN DO NOT  
KILL DECLARES DR.  
ROBERT HASKELL**

Training School Head Says  
Idleness is Chief Cause  
of Crime

Dr. Robert H. Haskell, for many years superintendent of the hospital for criminal insane at Ypsilanti and now superintendent of the Wayne County Training school at Northville, has been asked how society can protect itself against the Adolph Hettlings and Hickmans of this world.

The school of which Dr. Haskell is the head is doing as much as any agency in the state to stop the supply of criminals at the source by educating high-grade moron children in cooperation and self-control. Here 450 "problem" children, some of them with dangerous tendencies, are being trained in such a way as to make them social assets rather than social liabilities. "Society can best guard itself against child killers by an extension of the social agencies already existing for the early recognition of unbalanced mentality," he said. "There is no short

cut to safety. It does no good to get angry and hysterical. What we must do is to proceed as rapidly as we can in an amplification of the machinery devised for recognizing and correcting abnormal impulses in Hotellings and Hickmans, who are now in process of formation.

Dr. Haskell, while not disposed to pass specifically on a criminal whose mentality he has not examined, has no hesitancy in saying that the crime at Flint was probably due to abnormal behaviour patterns fixed in early childhood.

"Incipient germs that may lead to just such crimes as that in Los Angeles and in Flint are being noted, recorded, and to some extent corrected in the special classes in our public schools," he said. "The psychiatrists, attached to our criminal courts, are uncovering still more cases of mental illness."

The trouble is that the public as a whole, when it is aroused by a shocking and terrible crime, will regret that the state has not a capital punishment law through which violent vengeance may be taken. This same public, however, rejects as too severe the recommendations made by doctors in what it considers minor offenses.

The truth is that the punitive idea which affects all our legislation on crime is not only barbarous and old-fashioned, but also is futile.

"I am inclined to agree with Gov. Smith of New York when he recommends that, instead of sentencing wrongdoers to this or that prison or institution we turn them over to a group of psychiatrists for study over a term of months or years." At the end of this time these psychiatrists would be in a position to recommend

Hotelling, apparently had what is known as split personality. He was a Dr. Jekyll and Mr. Hyde in real life. Behavior patterns laid down in early childhood probably fixed him in certain peculiarities. But it is impossible to go into details without a complete knowledge of his sex life and family background. Scores of factors must be considered before judgment can be passed.

Germany many years ago had a case that attracted world-wide attention. A loved and respected teacher in one of the larger cities was found to have been responsible, not merely for the one murder for which he had been arrested but for several more. It was stated by the psychiatrists that he had probably been insane in one of his two personalities, for a long time, probably for years. Looking over his writings in the course of their investigations, these psychiatrists came across many sentences that they concluded should have given them a clue to his mental condition. Similarly, in the case of Hotelling, it is probable that an examination of his past acts would disclose many clues that might have been brought to the attention of the proper persons would have given some indication of his "steam" under which he was suffering.

However, it is in the routine of our courts that society has the best chance to protect itself against statal violence. The repetition of relatively unimportant crimes over and over again offers a sufficient cue to any skilled psychiatrist. The multiplication of

whatever confinement was necessary, and in what type of institution, to realize is that modern factory methods, with their highly specialized processes and their great emphasis upon production, are responsible for a large increase in the cases of mental aberration. The old-time factory, while perhaps it took actually more hours of a workman's day, was varied enough in its activity to prevent monotony. The very fact that the work was more exhausting was not at all bad. Men leaving work exhausted physically have not much time for the degenerative pleasures so much in vogue today. Our great modern problem is to learn what to do with the extra leisure that the perfection of machines is giving to men and women physically untrained in finding clean and wholesome pleasures.

The world, in other words, has not yet caught up with its advances in industry. Until we are caught up we can expect more and more cases of maladjustment, breaking out occasionally in crimes such as these. The weaker personalities naturally succumb first to the influences for corruption so actively at work in our civilization. Intelligence tests and other forms of mental scrutiny of school children are turning up an amazing number of twisted psychologies. The clinics in such places as the Recorder's Court, are also disclosing an equally amazing number in the adult population.

Hotelling, apparently had what is known as split personality. He was a Dr. Jekyll and Mr. Hyde in real life. Behavior patterns laid down in early childhood probably fixed him in certain peculiarities. But it is impossible to go into details without a complete knowledge of his sex life and family background. Scores of factors must be considered before judgment can be passed.

**FARMINGTON UNITES  
WITH TOWNSHIP IN  
BUYING APPARATUS**  
Expect Co-operation to Improve Fire Equipment And Personnel

Serious consideration of new equipment for the city's fire department was begun last Monday night, at the regular meeting of the City Commission. That Farmington Township also is considering further steps to add to its fire-protecting capacity was indicated during a discussion of the various kinds of apparatus.

Supervisor Isaac Bond, who was present to report on the Grand River widening movement, stated that a number of township citizens had been discussing additional equipment for fighting fires, and the possibilities of developing a township fire department.

During the discussion, the possibility of the city and township uniting to provide for protection was broached. It was suggested that the city and township together might be able to provide a much more efficient apparatus and department personnel than could either one alone. The possi-

bility of maintaining a man on duty at all times through such co-operation, was also discussed.

Commissioner Harrison Johnson suggested that the city's needs might call for a truck which would utilize the water in the city mains, while the township might be best served by a chemical truck. Commissioner Carl Hogue then suggested that the township and city could unite and purchase one chemical and one truck of each type, and arrange to have the chemical truck respond immediately to all alarms with the hose-truck, following to all city fires, and also to township fires where water was available.

It was pointed out that this arrangement would fully protect both township and city against the possibility of more than one fire at a time, and also against a fire of unusual size. It was also stated that with good roads in all directions, it would be possible for the trucks kept in the city hall to reach any part of the township in not more than twelve minutes.

The majority of those present appeared to favor co-operation, and it is expected that the subject will be thoroughly discussed at the coming joint meeting of the city commission and township board. Farmington Enter-

**Church Notices**

**Lutheran**  
Sunday school and Bible class at 10:30 a. m.  
English services at 11:00 o'clock.  
Box social and Valentine party this evening at the parish house. Come and bring your friends.

**Baptist**  
Morning service at 10:30. Sermon by the pastor.

B. V. P. U. meeting at 6:30. Topic "Honoring the Home."  
The young people will have a debate.  
Evening service at 7:30. Sermon by the pastor.

On Tuesday night, February 21st, Rev. H. H. Savage of the First Baptist church of Pontiac, will speak on "The Way to Victory."

**Presbyterian**  
Sunday morning worship at 10:30. Sermon by the pastor. A consecration that will give God a new opportunity.

Sunday school at noon. Lesson: "Two Miracles of Power." Y. P. S. C. E. at 6:30 p. m. Topic: "Are the teachings of Jesus up-to-date?"

Evening service at 7:30. Sermon theme: "What Christ is to the Believer."

The Westminster Guild will meet on Monday evening with Miss Theima Salow.

Mid-week service Wednesday evening at 7:30. Studies: "The Life of Christ."

**Methodist**  
We are in the period of time again when our Lord should be uppermost in all our thoughts as the season of Lent, closing with the Easter is upon us. These are moments of self-examination and self-denial—Christ is the only solution for the soul's needs—and the needs are numerous. I have seen business men almost at the point of breaking. Workmen struggling on with hardly sufficient provision for the family. But listen to them "Hope in God; for I shall yet praise Him who in health of my countenance and my God." This old church has such a message for such hearts. Come next Sabbath, at 10:30. Listen to our young people, thirty strong, led by our regular choir who will give the special anthem.

The church school at 12 noon, led by Floyd Salow, superintendent and his assistant, Floyd Lanning. The young people will meet at 6:30. The pastor will preach again at 7:30 with our young volunteers and choir leading the music. Prayer service at 7:30 every Wednesday.

**STATE CONSERVATION  
DEPT. EXEMPTS  
26 NORTHERN LAKES**

Wall-Eyed Pike May be Caught in These Lakes—After April 30.

Twenty-six inland lakes in which northern and wall-eyed pike predominate, have been exempted from the closing order of the Conservation Commission in November, closing lakes of the state to all fishing from April 1 to June 15th, according to George R. Hogarth, acting director, department of conservation.

Walleyes may be caught with hook and line after April 30 in the following lakes, the opening date approximating the time when this variety of fish have finished spawning: Gogebic lake, Sunday lake and Cisco Chain in Ontonagon and Gogebic counties; Schlatter lake, Keweenaw county, the two Pickerel lakes and Lake Michigan in Marquette county; AuTrain lake, Alger county; North Manistique and Muscalonge lakes, Luce county; McDonald, Gulliver and Indian lakes in Schoolcraft county; Lake George, Little Lake George, Hay and Mun lakes in Chippewa county; Manistique, Whitefish and Pike lakes in Mackinac county; Lake Charlevoix, Charlevoix county; East Twin lake in Montmorency county; Otsego lake, Otsego county; Houghton and Lake St. Helen in Roscommon county.

Trot-and-pike fishermen and resort business men alike will approve of the new ruling of the department, which allows pike fishing May 1st, as it will relieve congestion in streams and save many trout that would otherwise be caught, while pike enthusiasts will be allowed to follow their favored sport and the resorter who depends on a fair amount of his annual business from the latter group will not be deprived of his usual profit.

The original closing order prohibiting all fishing from inland lakes from April 1st to June 15th, was made with

a view of protecting bass and other fish than pike during their spawning season.

Lakes that are known to be fairly well stocked with bass and other fish that do not spawn until late, were not included in the exempting order, but the department is investigating others in the state to determine which are and which are not pike lakes.

**INSTRUCTIONS FOR PLAYING  
THE FASCINATING GAME  
KNOWN AS BILLIARDS**

(By Chrysanthemum)

In the intricate game of billiards, it is quite necessary to have an opponent of course you can play alone, but there would be no fun beating yourself.

There are four cushions on a billiard table, and there are 3 balls, one red and two white, and I suppose if there were more balls used in this game they probably would be black or green or what have you.

The players use a cue to strike the balls with, no cue has nothing to do with hair of a Chinaman, a cue is a "stick".

The object of the game is to make the ball that you hit with your cue come in contact with the red one and the other white one.

However this is simple, in fact it is more than simple, it is very simple.

You just take your cue in hand, you don't use your feet only to stand on, and chalk up, this is very important, for as you know chalk is very inexpensive and might as well be used, because that is what they put it there for, after chalking you pose nicely before you shoot. Now you know this pose stuff does not really mean anything, but you must pose no matter what to do.

After you are all done posing, you look around and find that your opponent has already won the game, so you pay the man and go home. Of course you don't have to go home because I don't care where you go, but anyhow I have told you how to play billiards and that clears me.

**WOMAN'S CLUB NOTES.**

Dramatic day was thoroughly enjoyed by the members and their guests Mrs. Milo Chapman had charge of the music for the day. Miss Graves, a whistler, and Miss Williston, her accompanist, both of Royal Oak, gave several very beautiful selections. The purity and sweetness of Miss Graves' tones delighted her listeners.

Rev. William Richards gave an inspiring patriotic address. He told us of the coronation of Edward VII, and contrasted the English throne with our presidential chair. "He said, 'Our republic was born in the very heart of Cornwall.' He spoke of Washington as our uncrowned king, the Father of our Country, and of Lincoln as the peasant prince, the Saviour of our Country."

Miss Ida Rose Cavell, accompanied by Mrs. J. B. Thibam, sang "Just as Wearyin' for You" and "Mighty Like a Rose"; these selections well displayed her lovely voice and charming personality.

A clever little playlet, "Wanted," a Cook was presented under the direction of Mrs. Ida Hendry with the following cast: The lady, who wanted a cook, Mrs. W. Safford, the "green" Irish girl, Mrs. Hendryx, the Norwegian girl, Mrs. Chase, the colored girl, Mrs. Hendry, the German girl, Mrs. McCully, the English suffragette, Mrs. Madeline Cochran, and the Chinese girl, Miss Hamilton.

On Friday, February 17th we are to have two papers: "The Formal Gown Drama," Mrs. W. H. Stark and "The Movies and What They Have Done for China," Mrs. A. B. VanAken. The current events committee ask that we respond to roll call with items of interest about the theatre or the movies

**TOP NOTCHERS.**

The result of the annual country bowling tournament held at the Northville alleys are as follows:

	Five Men
Woodrow Wilson Rec.	2943
The Gardens	2815
Imperial Five	2793
The Palace	2756
Pontiac Specials	2755
Levies & Young	2742
Northwest Rec.	2726
Cook's Drugs	2725
The Radons	2724
Doubles	
Wheat and Schoff	1235
Hicks and Schatzler	1207
Goodrow and Rosenk	1191
Norris and Hildemann	1186
Gilbie and Mills	1180
Wickam and Dutch	1177
Bluth and Bauer	1173
Williams and Toman	1172
Dye and Keppeler	1158

Over 200 bowlers took part and \$703 in prize money was paid out.

The nearer your dish closet is to your sink, the fewer steps needed to get the dishes away after they are washed. An ideal way is to have the dish closet in the connecting wall between the dining room and kitchen, adjacent to the sink on the kitchen side. Clean dishes are taken out in the dining room, and used ones are passed through the closet to be washed and put away without an unnecessary step.

# THE ORANGE AND BLACK

Northville, Michigan.

Published in the interests of the Northville Schools.

**PAY YOUR TAXES!**

Lives of students all remind me,  
Honest toil he's not a chance;  
Every day there is now behind me,  
Bigger patches on my pants.  
On my jeans, once new and glossy,  
Now are spots of many hues.  
All because my classmates linger  
In the payment of their dues.

Come now folks be gentle with me,  
Pay your taxes one and all.  
Or when the winter winds are blowing,  
I shall have no pants at all.

This is the verse that every class  
and club treasurer now has on his lips  
trying to collect the dues. Some  
students haven't paid their dues for  
the first semester yet.

In most cases the dues are below  
fifty cents a semester. This is not  
bad and any student should be able to  
pay it.

It is probably forgetfulness more  
than anything else that makes the  
treasurer's job so hard. Let's all try  
to pay our dues this week and make  
the treasurer's job a delight instead of  
a dread.

**SHORTHAND CLASS STARTS NEW CLUB**

The shorthand class has started  
"Shorthand Club," which greatly adds  
to the interest in the subject. The  
purpose is to instruct in practical  
knowledge and conduct in business  
work. The club holds a meeting every  
two weeks on Wednesday during short-  
hand class period. The entire class  
participates in the meeting, and a new  
chairman and secretary are elected.

**MORTGAGE SALE**

WHEREAS, Default has been made  
in the payment of the money secured  
by a mortgage dated the 23rd day of  
May, 1924, executed by the Bell Furnace & Manufacturing Company, a  
Michigan corporation, to the American  
Bell & Foundry Company, a Michigan  
corporation, which said mortgage was  
recorded in the office of the register  
of deeds of the County of Wayne, in  
Book 1307 of mortgages, on page 448  
on the 16th day of July, 1924, at 1:45  
o'clock P.M.

AND WHEREAS, the said mortgage  
has been duly assigned by the Ameri-  
can Bell & Foundry Company, a  
Michigan corporation, to Frank S.  
Harmon, Frank S. Neal and Charles  
S. Filkins, Trustees, by assignment  
bearing date the 20th day of August,  
1924, and recorded in the  
office of the register of deeds of the  
said County of Wayne on the 24th  
day of January, in the year 1924, at  
12:15 o'clock P.M. in Liber 177 of  
assignments of mortgages, on page  
499, and the same is now owned by  
them.

AND WHEREAS, the amount claimed  
to be due on said mortgage at the  
date of this notice is the sum of  
Twenty Thousand Nine Hundred and  
Ninety-Five Dollars, of principal and  
interest, and the further sum of  
Thirty-Five Dollars as an attorney  
fee required for in said mortgage,  
and which is the whole amount  
claimed to be unpaid on said mort-  
gage, and no suit or proceedings hav-  
ing been instituted at law to recover  
the debt now remaining secured by  
said mortgage, or any part thereof,  
whereby the power of sale contained  
in said mortgage has become operative.

Now therefore, notice is hereby  
given that by virtue of the said power  
of sale, and in pursuance of the  
statute in such case made and pro-  
vided, the said mortgage will be fore-  
closed by a sale of the premises  
thereto described, at public auction,  
the highest bidder, at the Southernly  
or Congress Street entrance to the  
Wayne County Building, Detroit, that  
being the place where the Circuit  
Court for the County of Wayne is  
held, on Saturday the 21st day of  
April in the year 1928, at 12 o'clock  
noon eastern standard time of that  
day, which said premises are de-  
scribed in said mortgage as follows:

A parcel of land in the southeast  
corner of Section 3 T 1 S R 8 E Village  
of Northville, Wayne County, Mich-  
igan, is described as follows: Beginning  
at a point, said point being  
South 88 degrees 18 minutes west along  
the east and west 1/4 line of said Sec-  
tion 3 812.60 feet, and thence south  
9 degrees 40 minutes east 305.50 feet  
from the East 1/4 corner of said Sec-  
tion 3, T 1 S, R 8 E, thence N. 45  
degrees 07 minutes W. 20.90 feet to a  
point, thence south 44 degrees 33  
minutes west 141.40 feet to a point,  
thence north 88 degrees 00 minutes 30  
seconds west 177.90 feet along Cady  
Street, to a point, thence south 0 de-  
grees 14 minutes 30 seconds east  
170.56 feet to a point, thence north  
7 degrees 28 minutes west 197.00 feet  
to a point, thence north 59 degrees  
38 minutes east 172.00 feet to a point,  
thence north 42 degrees 09 minutes  
30 seconds west 72.90 feet to a point,  
thence north 27 degrees 43 minutes  
30 seconds east 39.80 feet to a point,  
thence north 45 degrees 00 minutes  
30 seconds east 24.50 feet to a point,  
thence north 15 degrees 45 minutes  
west 86.80 feet to a point of beginning.  
Reserving the right of a driveway  
between the building now used as a  
foundry, on said property and those  
to the east, belonging to the Simpson  
Scale & Electric Company, and to the  
southeast, belonging to William Scott,  
for use in common, with grants for  
free ingress and egress to said prop-  
erty. Also all machinery, tools, pat-  
terns and trasks that were on hand  
at time of purchase, same to be kept  
in usable condition.

told of the natives of Africa how the  
woman do all the hard work and the  
men sometimes do a little hunting.  
He showed pictures of the huts they  
lived in, and what was used in trans-  
portation the camel, on account of its  
large hoofs, is able to go a long time  
without water. He also told of one of  
his expeditions where he was among  
many wild animals, but killed none  
only when in self defense. He closed  
his program showing a picture of the  
native, he used on his last expedition.

**CARNIVAL PLANS ARE****PROGRESSING ARRANGE-****MENT COMMITTEE APPOINTED**

Plans for a carnival are progressing  
rapidly, but as yet the date for it has  
not been definitely set.

A committee of Ted Cavell, chair-  
man; Ruth Sessions, Geraldine Huff,  
Ed Wood, Margaret Safford, and  
Marie Schloof has been appointed to  
arrange the carnival.

Each class and club will have several  
booths or concessions. The High-  
school building for one night will be  
a big playground.

**I.M.B. CLUB TO HOLD BAKE SALE**

The I.M.B. Club having decided to  
have a page in the Annual devoted to  
their pictures and on account of their  
activities during the year, are holding  
a bake sale Saturday night at 6:00, in  
the Palace Market. Plan to buy your  
baked goods from them. We promise  
you the best.

**FRESHMAN CLASS**

The Freshman class held a party in  
the gym, Tuesday evening, with the  
assistance of Miss Briggs. The mem-  
bers of the entertainment committee  
each gave a stunt and then the class  
played games. At a quarter of nine  
three girls, Eleanor Westfall, Hazel  
Cordukes and Margaret Norton, came  
down with three big trays loaded with  
delicious eats. A buffet luncheon was  
served to about twenty-five pupils.

Mr. Stalker was a guest of the occa-  
sion.

**SIXTH GRADE NOTES**

The girls in Section two won the  
sewing contest over the girls in section  
one. The losing section has to give a  
talentine party to the other.

The sixth grade received a letter  
from their last year's teacher, Mrs.  
Stark, formerly Miss Stewart. She  
now lives in Oxford, Michigan. The  
sixth grade spent the language period  
Friday answering the letter.

Four teams have been organized  
from the fifth and sixth grade girls.  
The captains of the teams are: Mar-  
jorie Campbell, team No. 1; Eleanor  
Groveson, No. 2; Catherine Bon-  
zavanic, No. 3; Donald Ferguson, No.  
4. Boys' basket ball Team V played  
team II and the former won; team I  
played team V and the latter won.

**BOY SCOUTS GO ON HIKE**

Fifteen Boy Scouts were present at  
the hike Saturday, February 11. They  
went into the woods about a half mile  
back of East Lawn Sanatorium and  
amused themselves tracking small ani-  
mals, such as field mice. They cooked  
their own dinner, and then a vigorous  
tug-of-war fight was started. It had  
to say which side came out the victor.  
They arrived home at 4:00 o'clock.

**PICTURE ABOUT AFRICA****GIVEN IN HIGH SCHOOL**

O. Deny, a representative of the  
Smithsonian Institute, gave a lecture  
on "The Wild Game Life of Africa,"  
in the high school auditorium, last  
Friday afternoon, February 10th. He  
also showed and explained many inter-  
esting slides that he had taken, while  
on an expedition through Africa. He  
showed pictures of the coast line and  
harbors, and told of small boats that  
carry coconut oil to different parts of  
the world. He then told about the  
towns and cities, and how the streets  
were very narrow and dirty. He also

**ELECTION NOTICE**

A regular village election shall be  
held in the several voting precincts of  
the Village of Northville on March  
12th, the second Monday of March,  
1928, at which time there shall be  
elected a president for two years, a  
treasurer for two years, two com-  
missioners for four years; one clerk  
for two years; one assessor for two  
years.

**REGISTRATION**

Voters may register at the city hall,  
Saturday, February 25th, and Sunday,  
March 3rd, between the hours of  
9:00 o'clock in the forenoon and 8:30  
in the afternoon, village time.

See, § 5. Registration of qualified  
electors shall be had as follows:

(a) Appearance in person before  
the Board of Registration on the day  
affixed for that purpose;

(b) Filing with the Village Clerk  
at any time before the meeting of the  
Board, for presentation by him to said  
Board, an affidavit of the person de-  
siring registration setting forth  
writing the qualifications by virtue of  
which the right to vote is asserted;

(c) The Board of Registration may,

at its own motion, register any person  
who, to the knowledge of the members  
thereof, possesses the requisite qualifi-  
cations.

The Board of Registration shall, at  
each meeting, carefully revise the regis-  
try of voters by striking therefrom  
the names of all persons who have  
ceased to possess the requisite qualifi-  
cations. The Board may, in its dis-  
cretion, refuse to accept any affidavit  
filed with the Village Clerk, in which  
event if such person shall not appear  
in person before the Board, the Board  
shall make known its reasons for such  
refusal to the Board of Election In-  
spectors; and if such person shall offer  
to vote, the Board of Election  
Inspectors shall determine his or her  
right to registration, and if found ex-  
titled, shall be registered accordingly  
and permitted to vote. The Board of  
Registration shall, at the close of each  
registration, endorse on the register its  
certificate of the number of registered  
voters, and shall also set forth the  
number of such voters which are male  
and the number which are female. In  
all particulars not here specially  
provided, the Board, in making and  
completing any such registration, shall  
proceed in the same manner and con-  
form to the same rules, as nearly as  
may be, as are provided by the general  
law for registering electors in town-  
ships.

What's coming to Novi? Just a  
supper at the Baptist church, Tuesday  
evening, February 21st, at 6 o'clock.  
A real George Washington meal of hot  
griddle cakes, sausage, coffee, dough-  
nuts and fruit, at a price that won't  
be just 40 cents.

The Novi Ladies' Bridge club met  
with Mrs. Ed Halstead on Thursday,  
February 9th. The first prize was won  
by Mrs. Loren Leavenworth and the  
consolation by Mrs. Henry Stillwell.  
Refreshments were served by the  
hostess and a jolly time was had by all.

The play "The Womanless Wedding"  
given by the Bethany Baptist people  
of Pontiac last Friday evening was a  
decided success so far as novelty and  
merriment created and ability on their

part was concerned. It was an even-  
ing to be remembered especially by the  
children present.

Mrs. Clyde Pratt went to the Ses-  
sions hospital at Northville, Wednes-  
day morning for an operation.

At the Sunday morning service of  
the Baptist church an action was taken  
in harmony with the Federal council  
of churches in Detroit, in regard to  
sending a protest to our congressmen  
relative to the big navy program which  
is now pending in congress. An  
almost unanimous vote was taken  
disapproving the program.

Mrs. Henry Stillwell was hostess of  
the Novi 500 club at her home Tuesday  
evening of last week. Prizes were won  
by Mrs. B. H. Leavenworth and John  
Phelps, and consolation by Mrs. Ed  
Halstead and Rob Thompson. The  
guests were pleasantly surprised with  
an exceptionally fine luncheon of  
chicken salad, home made rolls, coffee  
and cake.

Each class and club will have several  
booths or concessions. The High-  
school building for one night will be  
a big playground.

**CARNIVAL PLANS ARE****PROGRESSING ARRANGE-****MENT COMMITTEE APPOINTED**

Plans for a carnival are progressing  
rapidly, but as yet the date for it has  
not been definitely set.

A committee of Ted Cavell, chair-

**OBITUARY—URANA VRADENBURG**

Urana Vradenburg, daughter of Oria  
and Catherine Vradenburg was born in  
Novi township, February 3rd, 1894, and  
departed this life February 12th, 1928,  
aged 34 years and 9 days.

At the age of 20 years, she was  
united in marriage to Daniel Shirih.  
To this union four children were born,  
two of whom died in infancy, and  
Albert, of Novi, and Aaron S. of Bear  
Lake.

The early part of her married life  
was spent in Lyons township.

In 1878 she moved to Bear Lake,  
Manistee county, where she lived until  
1923, when she came to Novi to the  
home of her grandson, Fred Shirih.

Two years ago she went to the home  
of her neice, Mrs. Mary Stevens, in  
Wixom where she passed away.

In her early life she accepted the  
Universalist church, to which belief  
she always adhered.

Most of her young life she enjoyed  
good health, and was helpless only  
about two weeks.

Her husband passed away in 1897.  
Besides her two sons, she leaves four  
grand-children and a number of nephews  
and nieces.

The funeral was held from the  
Stevens home Tuesday afternoon, Rev  
R. O. Thompson of Novi officiating  
Interment in Novi cemetery.

Mr. and Mrs. Wm. Hazen, Jr. are  
driving a new Essex coach.

The cottage prayer meeting was held  
last week at the F. C. Rice home.

Mr. and Mrs. McCrum of Flint were  
Saturday visitors at G. P. Gaffney's.

Mrs. Mae King of Mt. Clemens vis-  
ited her late daughter Wednesday night.

Mrs. Ray Leonard and son, Arthur,  
visited at her sister's home, Mrs. Grace  
Shinn, Sunday.

Mr. and Mrs. W. D. Flint motored  
to Ypsilanti Sunday afternoon to visit  
Mrs. Flint's mother.

Mrs. Jud Chapman and daughter,  
Mrs. Deya, left last Thursday for a  
motor trip to Florida.

Mrs. Ward L. Dorrillard received a  
telegram from Coldwater of the death  
of an uncle, Tuesday.

## THE NORTHVILLE RECORD

Circulated in one of the most prosperous sections of Southern Michigan  
Telephone 200.

NORTHVILLE, MICHIGAN, FRIDAY, FEBRUARY 17, 1928

**WHY IS IT?** Columbus spent \$2,150 to discover unworthy dimes are paragons of excellence. Love is said to be blind. Oculists and opticians find it extremely difficult to fit him with spectacles.

Knowing folks say that the victims of these sentimental contagions need some new interest to divert their minds. The baby cries for the moon, but if you give him a powerful new-born, the moon ceases to be essential to his happiness.

Similarly many young people recovered from their attacks of cold love when they got interested in some athletic sport or obtained a new job that occupied their entire attention. It is claimed that young people can't help falling in love. But it is well not to swim any deep rivers before you have learned how to keep afloat.

## THE CRAFTSMAN

From the very earliest times machines of some sort have been in use. It took craftsmen to make and use machines then; it takes craftsmen to do it now. The hand and brain and the eye have functioned together since man came upon the earth. The "hand-made" age is still with us, only it has been refined and purified and advanced to such an extent that it stands on a much higher plane than when man used wooden plows and primitive potter's wheels. We value the things of the past because of their associations, and those of the present because they are best. The craftsman is still with us—Henry Ford.

## MISFITS ON THE FARM

Possibly because in the early days so large a percentage of our population engaged in farming, the idea persisted that anybody can be a farmer, regardless of ability or training.

The truth is that today it requires knowledge and good judgment to be a successful farmer, just as it does to be a successful manufacturer.

The former is in a way a manufacturer. He takes the soil and the seed as his raw materials, and through labor converts them into products which must be sold on the market, just as a manufacturer's products must be sold.

This is even more difficult than that of the manufacturer, because he must plan farther ahead and is unable to foresee what market conditions will be when his crop must be sold. To avoid loss he must make his plan with a reasonable margin of safety.

Like the manufacturer, he must produce these commodities which may be expected to bring a price which will allow a profit over cost of production. If he cannot do this he had better product nothing. In other words, he should change his vocation.

To be successful the farmer, like the manufacturer, must read and think and plan. The farmer who will not do these things is doomed to failure. He is a misfit on the farm and should get a job where he will have someone to do the reading and thinking and planning for him.

## WAY OF THE CROSS

In every man's life pilgrimage, however humble, there are holy places, where he is made to feel his kinship with the Divine, where the heavens bend low over his head and angels come and minister unto him. These are the places of sacrifice, the meeting ground of mortal and immortal, the tents of trial wherein are waged the great spiritual combats of man's life. Here are the tears and agonies and bloody sweat of Gethsemane. Happy is the man who, looking back can say of himself, "Here, too, was the victory." —Michael Monahan

**INFATUATIONS**

Under the smooth and polite surface of the modern community, hot emotions are seething, and many of them threaten dangerous explosions.

Many men and women become possessed by irrational infatuations for persons of the opposite sex. Girls fall violently in love with vicious men, won by the sweet and mannerly ways such fellows know how to assume in their company. And men will get infatuated with girls who will never give loyal devotion to any husband.

And if their friends argue with these

WANTED

## Announcement

I wish to announce that I am a candidate for the office of Village Treasurer, and would greatly appreciate the votes of my fellow citizens. If elected I will serve to the best of my ability.

C. HAROLD BLOOM

## Local News

Mr. and Mrs. Harry Clark left Tuesday for Miami, Florida.

The Fleur-de-lis 500 club met with Mrs. Pearl Baldwin Monday evening.

The Wing street Bridge club was entertained at the home of Mrs. Adelpha Brooks Tuesday.

Mr. and Mrs. John Shear and family of New Hudson spent Sunday with Mrs. Lillian Belford.

Mrs. L. Belford and Mrs. Mary Wadsworth attended a birthday party in honor of Elsie Green in Plymouth Island reefs.

Mr. and Mrs. Pingree Hazen and two daughter, Adrienne and Lorraine of Novi visited Mrs. Hazen's sister, Mrs. Vallecourt in Detroit Sunday.

Born Tuesday, February 14th, at the Sessions hospital, in Northville, a son, Mr. and Mrs. Floyd Simons. Mr. and Mrs. Simons formerly resided here.

Mr. and Mrs. John Litsenberger were guests of Mr. and Mrs. Ralph Simons in Armada, Sunday. Mr. and Mrs. Simons are now nicely located in the home which they recently purchased and remodeled.

Many types of oil burners designed especially for home-heating purposes have been placed on the market within the last few years. The new method of heating appeals to many home owners because of the relief from uncertainties of the coal supply, from furnace attendance, dirt, etc.

Oil burners are applied to all types of heating plants commonly used for home heating, with varying degrees of success.

Investigations of different types of oil burners by the U. S. Department of Agriculture indicate that they are suited to the requirements of many home owners on account of their convenience and ease of heat control.

If to obtain these advantages, the prospective purchaser is willing to pay the cost of change, and possibly an increased cost of operating. Before deciding whether a change to oil burning is desirable, there should be a thorough understanding of the operating characteristics of different types of oil burners, and of installation and operation costs.

Department Circular 402 tells all about the subject and may be had free upon request.

The question is asked as to how long a person can live without food? The kids of Northville on returning from school will say that they can't live until supper time unless they get some at once.

T. R. Carrington deputy collector of internal revenue will spend two days in Northville assisting taxpayers with their income tax returns. On Saturday February 18th, he will be located at Northville State Savings bank, and on Wednesday February 29th at Lapeer State Savings bank. There will be no charge for information or service.

## Carest Thou not if we Perish?

This cry for help has sprung from the heart of anguished souls by the millions in this old earth of ours.

Mothers and fathers and children have voiced this cry again and again as they observed approaching disaster or trouble that they could not explain.

Business men facing situations that send the cold chills down their spine have let this utterance escape their lips.

A vicious storm on Galilee—seasoned sailors afraid. Jesus, their leader, a sleep in the stern of the boat—a piercing, wailing cry for help—**THEN A GREAT CALM**.

Jesus Christ is master of the forces of the world. What is mystery to us is plain to Him. Faith and trust in Him are our support.

## Local News

C. B. Turnbull is at home with the mumps.

Miss Margaret Draper spent Sunday at her home in Detroit.

Steve Armstrong is confined to his home with the mumps.

Clifford Casterline returned late Sunday night from Salt Lake City.

Mrs. Dorothy Sweizer is confined to her home with the mumps.

Warner Neal entertained twenty of his young friends at a valentine party last Monday night.

The Lake club were very pleasantly entertained at a luncheon at the home of Mrs. S. W. Knapp, last Wednesday.

Helen Hammond is again able to resume her duties at the Stinson Aircraft Corporation, after several week's illness.

Mrs. William Verkes was hostess to a lovely bridge luncheon on Saturday, February 11th. Thirty-two ladies were present.

Mr. and Mrs. F. S. Neal and son, Warner, were dinner guests of Mrs. John Ziegler and son of Wayne, Saturday evening.

Mr. and Mrs. M. N. Johnson left Tuesday for Daytona Beach, Florida, where they will meet Mrs. Johnson's sister, and from there will go on to Miami for a few weeks.

Mr. and Mrs. Willard Ohliger were dinner guests on Saturday night of Mr. and Mrs. John Gill of Detroit. Later in the evening they attended the performances of the Village Players.

Students of the Northville school in the manual training classes are to hold an exhibit February 21-22-23 in Ware's hardware store. The display will contain samples of elementary and advanced woodwork, the latter consists of furniture, construction and cabinets.

Conrad Langfield has gone to Chicago, where he will place advertising for the Solvite Company, of which he is president. He will place his annual contract for Solvite advertising in such a way that it will be brought before the people in all of the larger cities in the United States.

The W. R. C. will hold its regular meeting Wednesday, February 22nd. After the regular business meeting there will be a program in honor of Washington's birthday. We hope every member will be present and be prepared to help with something in memory of Washington.

The editor of the Record wishes to correct an error that appeared in the issue of February 10th: In speaking of Anthony Trupis as lawyer and adviser of the Oakland and Wayne Transit company, we wish to state that Mr. Trupis is only their representative and has not as yet received his law degree as he is still a student in the Detroit College of Law.

Notice was received here Tuesday of the death of Naval Withee at Great Lakes, Ill., at the age of 83 years. Mr. Withee lived here some fifty or sixty years ago, and was uncle of Mrs. Spencer Clark of this place and of Milt Withee of Birmingham and George Withee, Mrs. John Emery and Will Nichols of Detroit.

Contract has been let by E. C. and Conrad Langfield for the alteration and decoration of the building which will be remembered by many as the old city hall. The exterior of the building will have the exclusive appearance of a studio which will be of an artistic design. The interior will be furnished off into two large private offices with a large reception room adjoining the two. Occupants of the new building have as yet been unannounced.

A lovely bowl of spring flowers and crystal candle sticks holding tall white tapers graced the table in the spacious home of Mrs. E. P. Knowles, where members of the Northville Woman's Club and the Woman's Union of the Presbyterian church gathered Monday afternoon, the occasion being the birth of Mrs. S. E. Parsons, one of the charter members of the Woman's Club. Tea was served to about fifty ladies. Mrs. Georgia Verkes and Mrs. Wm. Verkes presiding at the tea table.

Leo Lawrence was in Detroit Tuesday on business.

Mrs. Charles Murphy is confined to her home by illness.

L. L. Ball has returned from a few weeks spent in Florida.

Mrs. B. H. Crouch has been confined to her bed for the last few days.

Mrs. Wm. Mara attended a bridge luncheon at the Yacht Club in Detroit Tuesday of this week.

Mrs. James Heehey returned Tuesday from a few days' visit at the home of her son, Bill, at Marlette.

Members of the American Legion entertained the Legion Auxiliary Tuesday evening at the Library building.

Mrs. R. E. Atchison entertained a number of her friends at a bridge luncheon on Tuesday of last week.

The Baptist Ladies' Aid society will hold a bake sale Saturday morning, February 25th, at Palace Meat Market.

The King's Daughters will hold their regular evening meeting on Tuesday, February 21st, at the home of Mrs. Mary Stewart.

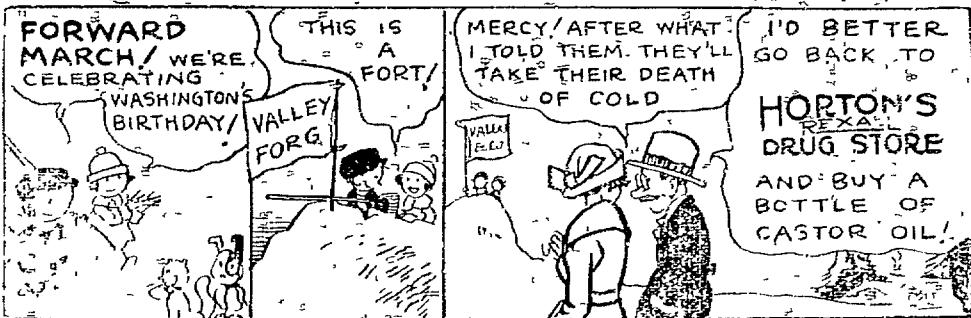

The Methodist Ladies' Aid society met at the number of fifty met at the home of Fred Greer, north of town on Tuesday afternoon of this week.

Miss Caroline Roberts received first prize at the Plymouth Odd Fellows' valentine masquerade Tuesday night, the prize being a beautiful scarf.

The community school band has been making fast progress in the last few weeks in preparing for the concert they will put on in the near future.

The baby clinic sponsored by the Northville Woman's Club will be held Tuesday afternoon, February 28th, at two o'clock at the High school. It is urged that all mothers having children of pre-school age attend these meetings as there will be a doctor and nurse from Detroit there who will examine all children brought to them and advise as to their needs. For any further information call Mrs. E. L. Mills Phone 156.

**PRISON NEAR HERE  
REGARDED AS ONE  
OF WORLD'S BEST**

New Unit at Detroit House of Correction Farm is Near Finish

Three miles to the southwest of Northville, there is being completed what is generally regarded as one of the most ideal prison units ever constructed. Something over a million dollars is being expended in the improvement.

The new women's unit of the De-

troit House of Correction, to be completed this month, will be an expression of the changing methods of handling persons who have erred.

Under the old methods, the sole aim of a prison was to punish, today those dealing with crime endeavor to claim as good citizens those who come into their hands.

The new unit at the House of Correction, is perhaps the most advanced penological experiment in America. Here the purely penal and punitive will be reduced to the minimum. Intelligent rehabilitation will be attempted instead.

Twelve buildings now are nearing completion; a superintendent's cottage is yet to be constructed. Eight of the

new buildings are cottages; in addition there are an administration building, power house, canning factory and combined laundry and sewing building. Work was begun 18 months ago; the cost will be \$1,300,000.

The cottages are the outstanding feature, providing for a type of segregation never before carried out to such a fine degree.

Heretofore prison inmates have been segregated according to many artificial standards that had little to do with their criminal tendencies; by race, religion, etc., or social status. These will be disregarded in the Detroit experiment; in fact, even crime and length of sentence will not constitute important considerations.

Prisoners at the new farm will be segregated according to character, personality, aptitude for reclamation. These are hazy terms and their applications will be difficult. Trained psychiatrists will study individual cases and then endeavor to place the woman according to her rehabilitation possibilities.

The main purpose of our work is to get these people back into society, explained Mrs. K. H. Campbell, member of the Board of Commissioners, and that cannot be done by any sort of segregation not based on criminal tendencies. It will be hard to define these tendencies, but we hope to get near enough to the cause in each case to permit grouping with similar cases.

Each inmate received at the farm will be interviewed by a social worker before being "dressed in," Mrs. Campbell added. She then will be examined by a physician and a trained psychiatrist. After that, she will be observed for three weeks to determine in what group she should be placed. At the end of this period she will be assigned to a cottage occupied by others of similar type.

Each cottage will house a diversified personnel, Mrs. Campbell said, yet all will be amenable to similar treatment. Some of the women will be old, others young, some may be there for murder, others for shoplifting, let us say, and some for such comparatively inconsequential infractions as speeding. Yet they will be together and logically so.

"It is a mistaken idea that all murderers for instance have to be kept together. Or that young prisoners must be kept from older criminals. There always must be intelligent discrimination, for the youth fit bandit often is potentially much more dangerous than the man who found his friend faithless and killed him.

The same with women. Some of them committed crimes of passion, or were cangles or drunks, or used dope. Probably most of them never again would come in contact with the law. Some young forger or pickpocket on the other hand may be instinctively criminal and thus a permanent menace to society.

This idea of varying responsibility always has been followed in courts, where different prisoners rarely draw the same sentence for identical crimes. Pardon boards proceed on the same basis, releasing murderers and bandits according to the justification in each case and turning down those guilty of lesser offenses.

"We are just extending this principle to segregation by sorting out women offenders according to their varying reclamation possibilities."

The time probably will come when all prisoners will be sentenced not for a definite term as at present, but until such time as they are able to take their place in society again.

The new type of segregation will be carried out through utilization of the cottage system. There are eight of these buildings and each will hold 44 women. They are of English style with red slate roofs and painted cement walls. Each building is self-contained, having its own dining room, kitchen, recreation room and playground. The cottages are divided into two groups, each building as the corner of a large quadrangle formed by the intervening walls.

The walls are not put there to prevent the escape of inmates, however, but merely to isolate the inmates of each cottage. In fact, as explained by Peter J. Monaghan, another member of the board, the commission has endeavored to get away from the lock and bolt idea as much as possible here.

For this reason there are no bars on the windows, although the metal casements would make escape in that way extremely difficult. As at the men's farm, across the road, there will be no show of armed guards. The inmates will not be so much confined as encouraged to improve themselves and to keep busy.

One activity will be canning vegetables grown on the 1,228 acres of the two farms. Last year, although greatly handicapped by lack of equipment, 160,000 cans were put up. This year the total will be more than 400,000. Last year's work includes 300 gallons of maple syrup, 500 gallons of sorghum (made from cane raised on the farm), 10,000 cans of strawberries, and an unbelievable amount of sauerkraut.

"Even more valuable than the pro-

duct are the indirect benefits of keeping prisoners busy," Edward Denniston, superintendent, explained. "Idleness for anyone is bad enough, but for prisoners it is disastrous. Work here is the best preventive for riots, sickness, perversion and insanity."

House of Correction products are made under the trade name of De-Ho Co and marketed if there is a surplus above the consumption needs each year. In addition, inmates improve the farm, and do some constructive work. Just now some 50 of them are making cement blocks for the new unit, work that will save the city several thousand dollars.

The new factory buildings are so constructed that additions may be made later. Beneath the canning factory is a root cellar and next to it is a large laundry.

There also is a sewing room for making rugs, garments, and other-needed articles. Needle work will be encouraged in connection with occupational therapy treatments.

The reformation progress of each prisoner will be determined by frequent examinations and constant observation, Denniston said. One of the most important indications, he explained, is found in the kind of associates a woman picks.

"Some of the better class inmates feel keenly their humiliation and will not associate with other prisoners," Denniston said. "Nowhere is a person better known by the company he keeps than in prison."

There are now seven "lifers" at the House of Correction; all men. Despite the absence of armed guards the percentage of escapes is only .04 percent, Denniston said. There are about 400 men and nearly 100 women there at present.

The House of Correction farm is 23 miles from the Detroit City Hall. It was purchased by the city in 1920 and has been expanded and improved constantly since that time. With the opening of the women's unit it will rank as one of the largest and most advanced institutions of its kind in the country.

Will Clay is driving a new Pontiac couple.

Mrs. H. S. Munn left Sunday for Kalamazoo.

Rev. Robert Horn of Ann Arbor was a guest in the Ray Penell home, Sunday.

Mr. and Mrs. R. W. Kehrl were Plymouth shoppers Saturday afternoon.

Mrs. Alvin Dudley is house guest of the Herman Schroeder home on Fishery road.

Mr. and Mrs. Freeman Lincoln of near Saline spent Sunday in the C. Payne home.

Mrs. O. Dudley of Redford called Friday afternoon on her parents, Mr. and Mrs. W. Kehrl.

Mrs. Howard Whipple and Mrs. Jas. Dickie of South Lyon were Saturday callers of the latter's parents.

Herman Schroeder and family motored to Stockbridge early last week to

visit the August Musolf family.

Mr. and Mrs. Levern Lewis were Sunday dinner guests of his parents, C. W. Lewis and wife, in Rushzon.

Mrs. Marvin of Northville, who had been ill last week, is at present staying with her daughter, Mrs. C. Payne.

Mrs. W. A. Kathler returned Thursday evening from a several days' visit with her niece, Mrs. Clyde Gibson, in Detroit.

H. Defer and family of Grosse Pointe were visitors of both the Louis and Herman Schroeder families on Fishery road, Sunday.

Herman Schroeder and family and Mrs. Alvin Dudley were recent dinner guests in the Albert Schroeder home on Seven Mile road.

Remember Tuesday of next week, February 21st, for the second annual "Father and Son" banquet in town hall. Tickets 75¢.

Mrs. Sarah Stanbro, who is spending some time at the Norman Miller home, near Plymouth, was a caller at the C. Stanbro home one day last week.

Warren Perkins and family of near Plymouth are now living in the home

of his grandmother, Mrs. Amelia Perkins during her stay in the east.

Mr. and Mrs. Merrill Reewick and Meredith of South Lyon and the Misses Ruth and Dorothy Foreman of Detroit spent Sunday with their parents, Mr. and Mrs. G. C. Foreman.

Mr. and Mrs. Frank Buers motored to Detroit Saturday afternoon to visit the latter's mother, Mrs. S. A. Knowles, who is spending the winter months with her daughter, Mrs. Geo Maher.

Mr. and Mrs. Howard Nolar of Ferndale, accompanied by Mrs. Laura Smith were Sunday guests of Mr. and Mrs. Frank Rydor.

Mrs. Smith attended the Federated church Sunday.

The local fire department was called out Friday evening to a fire in the kitchen of the Phillip Sweet home on Pontiac road, caused by a lamp exploding.

The fire was confined to the kitchen.

Mrs. James Boyle returned home Saturday evening from a three weeks' auto trip to Florida, where she visited her parents, Mr. and Mrs. Martin Potts, who are spending the winter there. She reports a wonderful trip.

Miss Elizabeth Halliday and James Tat of Detroit spent Monday evening at the George Roberts home, where they met her father, Rev. J. J. Halliday and her sister, Ruth of Delaware, Ohio, who had come to attend the funeral of F. Whitaker.

A valentine party was enjoyed by the pupils of both Miss Anderson's and Mr. Phillips' rooms Tuesday, at Salem school.

Guests in the primary room were Mrs. E. Geraghty and John, Mrs. Minnie Bradley, Mrs. Bryant, Mrs. Ruth Garnett and Laurel.

The T. T. A. Thayer school held a valentine and boy "social" in Whipple hall on Fishery road, Friday evening, which was considering the weather, well attended, especially the youngsters who enjoyed themselves hugely, playing games and then followed the eats at the close of the social.

The fish supper given last Thursday evening by the men of the Congregational church in the town hall was a most agreeable affair.

The tables looked very attractive with red bands of crepe paper along the edge of white table cloths and red valentine paper baskets, in keeping with the valentine season.

A pleasing feature was the music rendered during the supper hour by Mr. Dudley and Meredith Kähler saxophones with Mrs. Spears at the piano.

The splendid menu was enjoyed by guests from Northville, South Lyon and Plymouth and local friends.

Frank Whitaker Passed Away

Frank Whitaker passed away at St. Joseph's hospital, Ann Arbor, Saturday evening, after a short illness.

He had been in poor health for some time but his condition was not thought to be serious and his sudden death came as a shock to the community.

He is survived by his widow, Cora, who has been seriously ill for many weeks.

Oliver, one grandson and a brother, Henry of this place, besides a host of other close relatives and friends.

His funeral was held from the Shrader funeral parlor in Plymouth Tuesday afternoon at 2:00 o'clock. Rev. J. J. Halliday of Delaware, Ohio officiating and Rev. A. J. Parker of Salem Federated church assisting. Miss Ruth Halliday rendered two very impressive solos.

ESTABLISHED 1859

**LARGE SECTION  
IS GIVEN TO NEW  
CATHOLIC CHURCH**

Farmington Parish Has  
Much Territory To Draw  
Members From

Parish boundaries, established recently for Our Lady of Sorrows church in Farmington, give to the new Catholic church a large area in that section. The boundaries extend eastward as far as Berg road, northward as far as Orchard Lake road, westward through Novi, and include a large territory to the south and southeast as far as Middle Belt and Six Mile roads. Rev. E. J. O'Mahoney, pastor of the church, has announced.

The parish limits worked out since the church was established in Farmington, have recently been confirmed by the higher church authorities. Enrollment in the two church societies and the extent of the territory included, indicates that the church serving that section will undoubtedly have a large membership in the near future.

The official boundaries of the church are announced by Rev. E. J. O'Mahoney, pastor, as follows:

Southern boundary of parish—Six Mile road to Middle Belt, thence northward to Seven Mile road, eastward to Telegraph road, northward to Eight Mile road, eastward to Berg road, north to West Maple road, west to the Orchard Lake, around Orchard Lake, to Walled Lake on the Walled Lake road, southward through Novi to South Lyon, thence diagonally to Middle Belt and Six Mile roads.

The enrollment of the Holy Name society, the men's organization, is announced as 58, and of the Ladies' Altar society as 68, by Rev. O'Mahoney.

The kitchen is not the place for H. H. Savage fitting shoes. It is better and in the modern dances on the parlor floor long run cheaper to buy and wear working shoes that are sensible and comfortable. The gain in health and efficiency makes the practice popular.

**RICHARD BARTHELMESS  
SALLY PHILLIPS HEAD  
FINE PICTURES THIS WEEK**

Richard Barthelmess has given another fine characterization to the screen in First National's "The Noose," which is coming to the Pennington-Allen theatre. He rises to dramatic heights attained by few screen players in this virile story of the underworld, adapted from Willard Mack's sensational stage play of that name.

Barthelmess portrays a youth caught in the maelstrom of the underworld and tossed about as a bit of wreckage on a stormy sea. His work in the rôle is exceptional and has created favorable comment wherever the picture has been presented.

"The Noose" was directed with skill by John Francis Dillon, and the story sustains interest throughout. There are many dramatic moments, and a pretty romance lightens the plot.

When scenes for the basketball game was taken in the "High School Hero," Sally Phillips, the intriguing feminine interest in the production was taken back to her school days.

All the interiors were made at Hollywood high school with the school students as atmosphere. It was only one year ago that Sally was a student there and an interested spectator in the school's athletics. To her it was only a get-together of her old gang—not a motion picture. The only difference was that she was a school girl no longer but one of the most promising and charming younger players on the screen.

Sally's three sheiks who lose their hearts to her are played by Nick Stautz, David Rollins and John Darrow. Day and Butler directed, which is coming to the Pennington-Allen theatre, Sunday, February 19th.

It is claimed that the American Home is breaking down. It is surely in danger of doing so if they dance long run cheaper to buy and wear working shoes that are sensible and comfortable. The gain in health and efficiency makes the practice popular.

**PUBLIC LETTER BOX**

I would like to make a few suggestions concerning as one of the good Rotarians has paved the way. I doubt if the old building is worth moving again. Why not tear it down, and use the lumber as needed. I for one would be willing to help in this good work or in any other way to improve the spot where my dear ones are buried, and not have such a deserted looking place.

EVA BOVEE  
GERMAN WINS.

The bowling match of 40 games for a prize of \$100 has been completed between Wm. Stremich of Plymouth and Harry German, Sr., was won by our local bowler, German. Twenty games were rolled at Plymouth and the same amount at Northville. At the finish 133 pins were the difference of bowlers. The pin spotters averaged over 185 pins to a game.

Combine harvesters have been used on the grain sorghum only in recent years. A study of 75 fields where the combine was used showed that this method of harvesting was more wasteful than other methods, but the work was accomplished with less labor. Harvesting losses could be greatly reduced by adjusting the machines properly.

The Dawn Kafir, which was developed by the United States Field Station at Amerillo, Texas, proved to be the variety best adapted for harvesting with the combine, because of its short uniform stature, which tended to decrease harvesting losses.

**MORTGAGE SALE**

WHEREAS, default has been made in the payment of the money made by a mortgage dated the 20th day of August, 1924, executed by William Scott and Anna Scott, his wife, of Northville, Wayne County, Michigan, to the American Bell & Foundry Company, a Michigan corporation, of the same place, which said mortgage was recorded in the office of the register of deeds of the County of Wayne, under 1331 of mortgages, on page 508, on the 22nd day of September, in the year 1924, at 11:15 o'clock A.M.

AND WHEREAS, the said mortgage has been duly assigned by the said American Bell & Foundry Company, a Michigan corporation, to Frank S. Harmon, Frank S. Neal and Charles S. Filkins, Trustees, by assignment bearing the date of the 20th day of August in the year 1924, and recorded in the office of the register of deeds of the said County of Wayne, on the 24th day of January, in the year 1928, at 12:15 o'clock P.M., in Liber 177 of assignments of mortgages, on page 500, and the same is now owned by them.

AND WHEREAS, the amount claimed to be due on said mortgage at the date of this notice is the sum of \$2,871.00 of principal and interest, and the further sum of Thirty dollars as attorney fee stipulated for in said mortgage, and which is the whole amount claimed to be unpaid on said mortgage, and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage, or any part thereof whereby the power of sale contained in said mortgage has become operative. Now therefore, notice is hereby given, that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises theron described, at public auction, to the highest bidder, at the Southern or Congress Street entrance to the Wayne County Building, in the City of Detroit, that being the place where the Circuit Court for the County of Wayne is held, on Saturday, the 21st day of April in the year 1928, at 12 o'clock noon eastern standard time or that day, which said premises are described in said mortgage as follows, to wit:

A parcel of land in the southeast 1/4 of Section 3, T. 1, S. R. 8E, village of Northville, County of Wayne, State of Michigan, described as follows: Beginning at a point said point being S 88 degrees 18 minutes W, along E. & W. line of said Section 3, 812.60 feet and S 9 degrees 40 minutes E, 305.50 feet and S 15 degrees 45 minutes E.

Persons have sufficient confidence in their own veracity to believe all sent Postmaster General Newall a ball of twine, 18 inches long and 5 feet in circumference, and weighing 23½ pounds.

It takes a wasp to make a lazy man bounds. The twine had been salvaged to do a move on himself. All it has to do is to back up against him and push.

**GOVT IDEA IN FARM PROBLEM OF KILLING CORN BORER**

Destruction of European Pest Varies In Different Section of Country

With a view of aiding farmers in the areas now infested by the corn-borer, or likely soon to be infested, the United States Department of Agriculture has published a summary of the available information bearing on the problems, giving particular attention to the lessons learned and desirable practices indicated in the 1927 campaign against this insect. This is available for distribution as Farmers' Bulletin 1562-E, "Farm Practices Under Corn-borer Conditions," and may be obtained upon application to the department at Washington.

The farmers' problems vary with the degree of infestation, and with the farming practices which are the rule in the different localities. In some parts of the territory the advent of the borer will not require great changes in the systems of culture. For example, where the acreages of corn per farm is relatively small, or where a large proportion is put into silos or shredded, the problem of borer control is simplified, and the principal precaution is the cutting of stalks close to the ground so that the borers will be killed either by the knives of the cutting machines or by the acid formed in the silos.

At the opposite extreme are the areas where much of the corn is hogged down, leaving most of the stalks many broken down and scattered in every direction, making it difficult either to break or cut all of them loose for raking or burning, or to plow them under. In some areas, such as northwestern Ohio, the soil is not suitable for deep spring plowing of corn stubble or stalk ground because a poor seed bed usually results and is followed by a reduced yield of grain.

In much of this area, too, the small grains, wheat, barley and oats are relatively unprofitable, and corn is the main crop. Here the usual practice is to follow the corn with double disking of the ground for small grain.

Experience last year indicated that if the borer was to be controlled under such circumstances, the stalk breeding, raking and burning would require more than four hours man-labor and nearly 45 horse hours per acre, which on the feed lot, the stalk remainders must be disposed of as completely as if they were left in the fields. This practice probably will have to be modified and most of the corn shredded or put in silos.

Where corn land can be plowed either in the spring or fall, low cutting, deep and thorough plowing that covers the stubble, and wise disposal of the stalks as roughage will keep infestation down to a degree where it is not likely to require serious modifications of existing methods.

In some way, however, farmers must adopt one or another of the three optional methods of control outlined in a previous Farmers' Bulletin No. 1545-F.

(1) Feeding corn to livestock direct from the field, or as silage, or as finely cut or finely shredded material; (2) Plowing under cleanly, or (3) Burning

completely.

The actual damage to the corn crop in the eastern corn belt of the United States has been limited to such small acreages, the states states that no pronounced shift from corn to other crops has occurred. In the Canadian areas, where the infestation and damage have been heavy, there will be of special interest to local

booths. The American Products Co. will sell the soft drinks. Based upon the theory that the elevation from the eyes to the highest point of the head is almost exactly the same in all persons, regardless of height, a mirror has been installed in a store in Portland, Oregon, with a scale so placed that the figure at the point where one's eyes are reflected give one's height.

Many a man's financial goose has been cooked in a Jack pot.

Mr. Brown, chairman of the retail sugar beets and tobacco. In some florists' exhibits, reports twenty localities over half the corn has been harvested in 200 square feet each already displaced by these crops. Whether booked, "This becomes more interesting."

Ohio and Michigan farmers should plant wheat, one recalls that the national shift production will depend mainly on two things: (1) The advantage of eighteen retail exhibitors booked. There

corn over other crops either as a feed or as a crop for sale, and (2) The American exhibitors with contracts calling for over \$15,000. There is not

offset in this case that much of the stalk clearing can be done during the late fall and winter and not in the rush season of spring.

The space for garden exhibits is already filled and includes, among the entries Breitmeyer's Nurseries, Fetter's Flowers, Berry-Gibson, Myron Boyl, Robert Plum, Bessmer & Rabe, A. J. Stahelin, Buford Bros., Henry Dreher, Bassett & Anstachia, William Baxter, V. J. De Petris, Edmund Guenther, Westcroft Gardens, Pontiac Nursery Co. and Cassell's Flowers.

Mrs. Henry Ford will have a replica of her rose garden in Dearborn, which will occupy 17,500 square feet.

Henry Stockmans, who planned the layout of the national flower show held in the same building last year, will also supervise the plans this year for the North American flower show.

The admission fee will be 50 cents for adults, and 25 cents for children.

There will be 50,000 advance trade tickets available at 30 cents, and 100,000 school children's tickets at 10 cents each.

Concessions have been let to the Shakespeare Study Club to dispense candy and ice cream. The Woman's Exchange will operate the tea gardens.

The Woman's Auxiliary of the Detroit Florists' club will operate the flower

show.

The department believes that Farmers' Bulletin No. 1562-E, should prove of value to all farmers in regions infested or likely soon to be infested by the corn-borer. It may be had by writing to the Department of Agriculture, Washington, D. C.

Earth has been used for building dwellings and other structures for many centuries. One method of use, superior to others and which was known and used by the Romans, is being revived for modern buildings.

The method consists of ramming slightly moist earth, without the addition of straw or other material, between movable forms and is known by its French name, "bise de terre," which means "rammed earth." Rammed earth is a reliable building material when properly handled and is admirable adapted to building on farms especially if suitable earth is at hand. Where it is difficult to obtain other building materials such as are commonly used for farm structures, earth may be a successful substitute because it is already on the building site. Suitable soil consists of a mixture of clay and sand. Earth that falls into clods when dug will likely prove unsuitable. Earth of the proper kind, tamped hard in form, like those used for concrete construction will make very desirable walls possessing excellent insulating qualities. Such walls have been known to stand for a hundred years or more. Instructions for "rammed earth" construction can be obtained from the U. S. Department of Agriculture.

This way to make a town grow is to make it so attractive and full of advantages that people want to live there.

NORTH AMERICAN FLOWER SHOW TO BE HELD IN DETROIT MARCH 17 TO 25

The North American Flower Show will be held in Convention Hall, March 17th to 25th. This event in Detroit has created much interest in Michigan, and damage have been heavy, there will be of special interest to local

booths. The American Products Co. will sell the soft drinks.

Tickets can be purchased from Cornelius Potter in Northville for 30 cents providing orders for the same are placed now.

Many a man's financial goose has been cooked in a Jack pot.

Based upon the theory that the elevation from the eyes to the highest point of the head is almost exactly the same in all persons, regardless of height, a mirror has been installed in a store in Portland, Oregon, with a scale so placed that the figure at the point where one's eyes are reflected give one's height.

When you button into a suit of Peninsula's, you forget them. There's no narrow collar to ride your Adam's Apple. It's cut to generous proportions and lock-stitched to hold its shape, will not bind after washing. They're knit on spring-needle machines and attached with sturdy lock-stitch seams. They don't creep or crawl. No bulging waist—the facing on the front opening is cut to exact measure and sewed with three lock-stitch seams. It won't shrink. Buttons can't go.

**Waterford News**

Mrs. Ada Watson attended the zone B meeting at Beech, Saturday.

The Misses Edith and Marjorie Pack were Detroit shoppers Saturday.

Mr. and Mrs. Edward Watson were guests of Mr. and Mrs. Walter Klein-Schmidt, at Phoenix.

The Waterford Community club will meet next week Thursday with Miss Jeannette Lang as hostess.

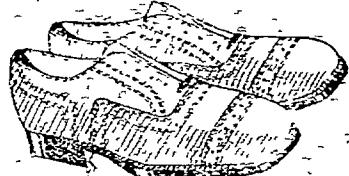

Mr. and Mrs. Claude Gotts and Mr. and Mrs. Leo Young of Ypsilanti were Sunday afternoon callers at the home of Mr. and Mrs. Arthur Gotts.

Mr. and Mrs. Lewis Cameron and little Harold Young of Plymouth were Sunday dinner guests of Mr. and Mrs. Edward Watson, after which they met over to Willow and called on the Ed-

ward Cook family.

The Waterford Community club was pleasantly entertained by Mrs. Ella Waterman last week Thursday evening. Mr. and Mrs. Howard Bowering were presented with many useful and appropriate gifts. Progressive pedro was the entertainment of the evening.

Fresh coffee stains may often be removed from tablecloths and other white goods by pouring boiling water on them from a height of 2 to 3 feet. Stretch the part stained over a bowl which will catch the water. The last traces of the stain can usually be removed by washing with soap and water. If the stains are on wool or silk material, sponge with cold or lukewarm water. If a grease spot from the cream remains after the spot has been dried, remove it by using one of the grease solvents such as gasoline, carbon tetrachloride, chloroform, ether, naptha or benzol. Old stains often require the use of special chemicals.

Northville State Savings Bank

**BONDED DEBT OF**

(Continued from first page)  
by general bond issues. At that time, however, the council there adopted a new policy, and now all water and sewer main extensions, together with laterals, fire hydrants, curb boxes, etc., are paid for by assessments against the benefited property, for which special assessment bonds are issued. Water and sewer extensions are made only upon petition of property owners who agree to pay cost thereof.

In the City of Flint, on streets where there are not enough prospective consumers to make the investment in a water extension self-sustaining, the property owners are required to deposit the cost of making the installation, a contract is given which provides that at any time within three years the annual gross revenue from the main equals 10 per cent of the cost of installation, the city rebates the amount of money deposited. If at the end of three years the extension is paying less than the 10 per cent, a rebate of the amount on which the revenue will show a 10 per cent earning, and the difference between the amount rebated and the cost of amount deposited, is retained by the department.

It is very obvious from the above that these two places are not operating their water system at a loss. They have adopted a good business policy, the same as would be done by an individual or a private company if they were operating the water system."

**Local News**

The Baptist Ladies Aid will meet with Mrs. R. B. Thompson on Dunlap street, Wednesday afternoon at 2:30.

The members of Forget-Me-Not Hive No. 169, will hold a public pedro party in Forestell hall on Monday evening, February 20th, at 8:00 o'clock.

A cordial invitation is extended to all. The High school will present a free moving picture to Northville people on Thursday night at 7:30 in the High school auditorium. The picture is being shown through the courtesy of the Michigan Bell Telephone company.

Twenty clowns from the Shrine circus entertained over 100 children at the Wm H. Maybury children's hospital Wednesday noon. It was a real treat for the kids to watch them and to play with the balloons that they clowns gave them.

Oriental Chapter, No. 77, Order Eastern Star will hold their annual ball Wednesday evening, February 22d, in the High school gymnasium. A large attendance is expected as many invitations have been sent out to people not belonging to the order.

"Efficient housekeeping," says one of the extension agents of the U. S. Department of Agriculture, "is not necessarily good home making, but usually the two are found in the same home. As better working equipment is installed in homes, the housekeeper finds more time and energy left for interests other than the daily routine duties."

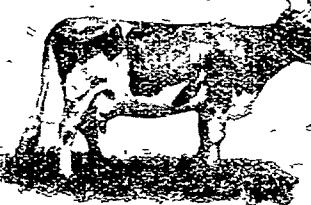

The married women look so young in their store dresses now, that the truant officers will be coming around soon to see why they are not in school.

Bandits reported to be getting big hauls, but the best one will come when they are hauled in some city's patrol wagon to the nearest jail.
