WASHINGTON THE GREATEST MAN OF ALL SAYS SPEAKER

Rofarians Hear One of Best Talks by One of Its Own Members

Members of the Northville Rotary club, Monday, had the pleasure of hearing one of the best talks ever delivered before that organization—and the address was made by Frank Harmon, one of Northville's best loved citizens. His subject was "George Washington," and no speaker ever paid a higher tribute or made a better address about The Father of Our Country than did Mr. Harmon.

For twenty minutes the club members and their guests listened with keenest interest in the remarks of the speaker. He showed an unlimited knowledge of the life and career of Washington, and one of the things that made his address of more than ordinary interest was the fact that Mr. Harmon has personally visited the scenes of most of the activities of Washington's career. Then, too, he touched upon many interesting facts pertaining to the Washington family not generally known.

"Many great men were produced during our Revolutionary period—Washington, Jefferson, Hamilton and Franklin. Of course, it is my firm belief that Washington is by far the peer of any of our presidents. There was at time when I regarded Lincoln as possibly the greatest president of all times, but I believe Washington preceles even him," said Mr. Harmon.

"For six years after the close of the Revolution our country was practicaly without a government. Washington and others who were trying to frame some suitable form of government had to deal with a lot of troublesome incidents. But there seems to be more of them now than there were then. I mean those who found fault with everything."

"In every problem that confronted him he seemed to use the rules of judgment—and then he possessed that wonderful faculty of being able to use the minds of the great men of the day, even though they belonged to different factions or groups."

"There is no question but what Washington was the greatest man this nation ever produced."

CAPT. HALDEMAN WILL SELL PLANES FOR STINSON CORP.

Famed Flyer Has Joined Forces With East Growing Concern

An announcement has just been made by President Edward Stinson of the Stinson Aircraft corporation that Capt. George W. Haldeiman, who with Ruth Elder, flew 2,574 miles to a world record for the longest flight over water in the "Stinson-Delphine, American Girl," has joined the ranks of the Stinson Aircraft corporation. He will specialize on the sale of airplanes.

He is now in Florida with a Stinson-Detroit plane, which he flew from Wheeling, West Virginia with E. W. Stifel as passenger.

Captain Haldeiman is 29 years old and has been flying 10 years. He was born at McPherson, Kansas, and was educated in the public schools there.

When 18, he tried to enlist in the Army Signal Corps, with provision that he be placed in the aeronautic branch. He failed and returned to his job as a bank clerk in Kansas City, Missouri.

The next year, just before the United States entered the World War, Haldeiman joined the Army. He was sent to the ground school at Austin, Texas, and qualified as a pilot.

Like Chamberlain, Bertrand, Stinson and Acosta, his proficiency in the air kept him from going over seas. He was assigned to West Point Field, Mississippi, as an instructor, and was then sent to various other fields as instructor and test-pilot. Haldeiman resigned from active service in the Army in July, 1919, with the grade of Lieutenant in the Air Service Reserve, in which he has remained.

His family had moved from Kansas to Lakeland, Florida, and Haldeiman went into commercial aviation, organizing the InterCity Airline with Lakeland as his headquarters. For three years he carried passengers and gave exhibitions in Florida. In 1921 he started a flying school.

In 1923 he made a nation-wide tour of the United States. He gave exhibitions and carried passengers and also furnished flying instructions. His outstanding flight was that made in the Stinson monoplane, "American Girl," when he and Ruth Elder took off from New York October 14th. On this take off, he set a new world record by loading his plane with 3,850 pounds. The plane itself weighed 2,000 pounds, so that Haldeiman carried almost twice the weight of the plane into the air.

Haldeiman and Miss Elder remained in the air for 35 hours and finally were forced to land because of a broken oil line, near the Azores, but the landing at sea was not made until a new world record of the longest non-stop flight over water had been made.

POSTMASTER NEAL IS ADVISED OF SHIPMENT

Postmaster Neal has received word of the shipment of the new routing casing for the city carrier service for Northville, and the equipment is daily expected. Soon as it arrives the service will be put in effect, which now seems likely to be March 1, 2 or 3. Of the exact time the public will be duly notified.

Switzerland has just placed in service its first Pullman train.

NEARLY HUNDRED ATTEND FATHER AND SON BANQUET

Presbyterian Church Event Proves a Most Pleasant One

Ninety-six fathers and sons were present at the banquet last week Thursday evening by the men's class of the First Presbyterian church, the event proving one of the most successful of its kind ever held in Northville. The attendance was far greater than had been anticipated.

To Ray Van Valkenburgh, who directs the men's class of the church and who had charge of plans for the banquet goes much credit for the very satisfactory details that were worked out.

William Gordon, superintendent of schools, gave an address telling of the scenes of most of the activities of Washington's career. Then, too, he touched upon many interesting facts pertaining to the Washington family not generally known.

"Many great men were produced during our Revolutionary period—Washington, Jefferson, Hamilton and Franklin. Of course, it is my firm belief that Washington is by far the peer of any of our presidents. There was at time when I regarded Lincoln as possibly the greatest president of all times, but I believe Washington preceles even him," said Mr. Harmon.

I mean those who found fault with everything."

"In every problem that confronted him he seemed to use the rules of judgment—and then he possessed that wonderful faculty of being able to use the minds of the great men of the day, even though they belonged to different factions or groups."

"There is no question but what Washington was the greatest man this nation ever produced."

WOMAN'S CLUB NOTES

Friday, February 16th our vice president, Mrs. D. B. Burn presided, as our president, Mrs. Lapham is enjoying a vacation trip to Florida.

Mrs. W. H. Stark gave a short paper—"The Formal Chinese Drama," and Mrs. A. B. VanAken one on "The Movies and What They Have Done for China."

Mrs. L. A. Babbitt gave a very interesting talk about the Chinese theatre they attended when in Havana, Cuba. Mrs. Harpon read an article about Eva La Galéne. The members responded to roll call with items of interest about the theatre and the movies.

GIRL IS KILLED WHEN HIT BY AUTO ON PLYMOUTH RD.

Steps from in Back of Bus in Front of Oncoming Automobile

Mrs. Isabell Hendershot, 19 years of age, daughter of Mr. and Mrs. Arthur Hendershot, 420 Plymouth avenue, was almost instantly killed Monday evening shortly after 7:00 o'clock, when she stepped from the back of a bus that had just left from Detroit at Northville, directly into the path of a automobile driven by Sterling Eaton, son of Mr. and Mrs. Elton R. Eaton of Northville.

The bus had stopped at the corner near the home of the young lady to let her alight. The car driven by the young man was headed south on Plymouth avenue. As the young lady started across the street she apparently did not see the approaching car, and the driver in an effort to avoid hitting her swung his machine to the gutter on the west side of the road, colliding with a tree.

The left front end of the car caught the tree, turning the automobile over on its side. One of the unusual features of the accident is the fact that not a single window in the car was broken in the accident. Miss Margaret Draper was in the car with the young man, but neither of them were injured.

A coroner's inquest was held in the city hall, Tuesday afternoon, and after hearing the evidence the jury returned a verdict that the accident was entirely unavoidable.

At the inquest Harold E. Slater, a brother-in-law; Mrs. Slater's sister, Euphie Brendt, Werne Simone, Miss Margaret Draper and the driver, told practically a similar story about the details of the accident as far as they knew. Mrs. Holcomb, Sparling and Snow, who were called by the young man at the time were also witnesses.

Miss Hendershot was born in Homer Michigan, January 18, 1909, and from there moved to Fort Wayne with her parents, where she attended school. Later the family moved to Detroit and for the past few years she had been employed in the office of the D. J. Healy store.

She was an active worker in the Redeemer Presbyterian church in Detroit, and gave much of her time to this organization. She had a wide circle of friends both within the church and among her associates. Although Mr. and Mrs. Hendershot have made their home in Northville since last October, coming from Detroit, the daughter had continued to live in Detroit, but each week had come to Northville to visit with her parents. She was highly respected by all who knew her.

Besides her parents and sister, a brother, five years of age, survives.

The funeral was held from the home, Thursday forenoon at 10:00 o'clock. Dr. Bradford of the Redeemer Presbyterian church of Detroit, conducting the services. The body was placed in the mausoleum at Rural Hill cemetery, and will be taken to Homer for burial.

SEVEN MILE BUS SKIDS—FOUR ARE HURT IN WRECK

Hits Truck Loaded with Lumber at Turn Near Ridge Crossing

Slipping on the icy paving at the turn on the Seven Mile road, at Ridge road, the bus leaving Northville wednesday at 11:00 o'clock skidswiped a truck loaded with lumber, that was headed towards Northville. The rear end of the bus was torn completely off, and four of the passengers were injured.

Wellington Roberts, city engineer of Northville and one of the city's best known residents, was probably the most seriously injured in the accident.

He was cut and severely crushed.

Jack Blackburn represented the boys on the program, and his talk was not only appropriate to the occasion, but timely as well.

William Gordon, superintendent of schools, gave an address telling of the soot of relation that ought to exist between a father and son.

Carl Bryan sang two solos that greatly pleased the big crowd, and a short program of community singing was conducted by Nelson Schrader.

Mr. Schrader has a way of putting "pep" into any kind of a meeting, and he succeeded exceptionally well with the fathers and sons.

An excellent dinner was served by the ladies of the church.

EXCHANGE CLUB HAS PEP SESSION WEDNESDAY NOON

Detroit Visitor Lauds Spirit of the Northville Exchangites

Members of the Exchange Club at the Wednesday meeting enjoyed thirty minutes of one of the "peppies" sessions held in recent weeks. Nelson Sommer, who is now directing the ringing of the organization, succeeding exceptionally well in putting "pep" into the session.

It was a day unique in regular program, and as result most of the session was given over to its chief leader President M. J. Murphy.

A brief but most interesting talk was made by Rev. William Richards, on George Washington.

Andrew McIntyre, a guest with Constance Langford, told of his pleasure in attending meetings of the Northville club.

"Of course you know I am from Detroit and I attend most of the meetings of the club. But I have never in my life attended one of more good fellowship and more community spirit than right here."

HERMAN SCHULZ DIES IN ANY ARBOR HOSPITAL AFTER ILLNESS OF MONTHS

After many years of ill health, Herman Schulz passed away in the Ann Arbor hospital, February 17, 1928.

He was born in Wulberg, Germany, on July 7, 1883, and died at the age of 45 years. He was first married to Anna Rau in 1905, who preceded him in death. Two children were born to this union, Arthur and Elsie. He was married the second time to Emma Sherwood, who survives, with two children, Howard and Blanche, and one sister, Mrs. Day LaFond, and Barney Schulz a brother.

At the inquest Harold E. Slater, a brother-in-law; Mrs. Slater's sister, Euphie Brendt, Werne Simone, Miss Margaret Draper and the driver, told practically a similar story about the details of the accident as far as they knew. Mrs. Holcomb, Sparling and Snow, who were called by the young man at the time were also witnesses.

WHITE TO CONDUCT ALTERATION SALE

In order to clean out a large portion of his stock that must be moved before extensive alterations are started on his store, Harold White of the White dry goods store this week is announcing a big alteration sale. A new front is to be put in and a new floor laid and other repairs made immediately.

It is for the purpose of reducing his stock as much as possible before the repair work starts that he is conducting this special sale. A big ad in this week's issue gives you a little idea as to the many special bargains being offered.

HAD SUNSHINE ALL WAY SOUTH WRITES JOHN KALBFLEISCH

Prominent Northville Resident is Enjoying Winter in Southland

Col. John Kalbfleisch, 70, is swimming, fishing, reading the top of a letter just received from John Kalbfleisch, who has arrived at St. Petersburg, Florida, with Mrs. Kalbfleisch to spend the remainder of the winter.

This well-known Northville couple drove to Florida—but his letter tells the story of his trip.

"We arrived in St. Petersburg just six days after we left Northville. It was just over 1355 miles. We had good roads and sunshine all the way, and we enjoyed the mountains so much. When we left Northville it was near 70 in the shade.

I have joined the bowling club here and I bowl a little every day. I have met so many Detroit here whom I know that it has just seemed like home. One old friend gave me such a welcome that I was quite embarrassed, because it happened right on the main street corner.

"I cannot tell you how glad I was to receive the Record, forwarded by my daughter, Mrs. Barker. There is one thing I miss very much and that is the fine fellowship of the Exchange club men. They are a lot of real fellows."

"We were fortunate in getting into this fine hotel, which has a wonderful grapefruit grove in connection with it. We have taken some real drives out here and the roads everywhere are just fine, and think we will stay here another month, then we expect to go to Orlando Miami, Daytona Beach and Jacksonville. By that time I think we will be ready to go home."

MRS. MARGARET MCBRIDE DIES AFTER ILLNESS OF MANY MONTHS DURATION

After an illness of several weeks, Mrs. Margaret McBride passed away early Saturday morning at her home, 120-122 East Main street. Mrs. McBride came to Northville to reside together with her sister, Miss Agnes Brightyne, in 1921. Previous to that time she had been a frequent visitor here. She was a member of the Presbyterian church and the King's Daughters.

Funeral services were held from Schrader Bros. Chapel on Monday morning, and burial was made in Glenwood Cemetery at Flint.

Together with the sister mentioned, a sister, Mrs. William Franklin of Saginaw, and a brother, William Ballantine of Detroit, were left to mourn her departure. The late Mrs. C. A. Poosford was also a sister.

The route traveled by an American-Swedish call is of particular interest because of the unusual number of nations through which it passes and its various modes of travel, jumping the Atlantic to Great Britain by means of the radio-telephone link; the call will be added to the list of foreign nations now available to American citizens and residence-telephones.

**THREE ORIGINAL
BANK OFFICERS
HOLD OLD PLACES**

Recent Bank Election Recalls Organization of Lapham Bank.

The recent election of Frank S. Harmon, Frank S. Neal and E. H. Lapham, as directors of the Lapham State Savings Bank recalls the fact that these three are the only surviving directors elected at the time the bank was organized in 1907. During all the intervening years these three have remained in the positions originally elected to.

The following article taken from the issue of March 15th, 1907, Northville Record pertaining to the organization of this bank is of especial interest in view of the recent re-election of these three to the positions they were elected to at the time the bank was organized:

A new state savings bank was organized here Saturday, with a cash capital of \$25,000. The town has a population now of more than 2,000 and with a good territory to draw from, it was thought thus, was a good

opening for a second bank.

The capital was quickly subscribed and a number who wanted stock were unable to secure it.

The new bank has taken the name of the Lapham State Savings Bank in honor of the late J. S. Lapham, who was Northville's first banker and who had much to do with the developing and building up of the town from its pioneer days to the time of his death some twelve years ago, when the son, W. G. Lapham, who inherited the business, sold out to the Northville State Savings bank and retired from business.

E. H. Lapham, who will be the cashier and manager of the new bank, is a nephew of the late J. S. Lapham and for fourteen years was the manager of the Lapham & Co. bank, leaving there two years ago to accept a position with the Union Trust Co. in Detroit, which position he leaves to take charge of the bank here.

The stockholders held their organization meeting Saturday afternoon and elected the following board of directors: F. S. Harmon, Asa B. Smith, Chas. Verkes, E. H. Lapham, F. S. Neal, F. C. Terrell and R. Christensen.

Frank S. Harmon was elected president, Asa B. Smith, vice-president; Charles Verkes, second vice-president; Edward H. Lapham, treasurer.

The stockholders are among the most prosperous farmers and business men of this section and the new bank will start off under very flattering conditions. The president of the bank is also president of the American Bell & Foundry Co., one of the biggest factories here, and is president of the village, the school board and is con-

nected with nearly every industry in the village and is recognized as one of the best business men in Michigan.

Mr. Lapham is recognized as a banker of exceptional qualifications. He leaves the Union Trust with regret on his part as well as on the part of the managers of that institution.

Mr. Lapham, however, desired to make Northville his home and the fact that he owned his home and that Mrs. Lapham's parents lived here also induced Mr. Lapham to take advantage of what looked like a good opening.

Mr. Lapham believes that with its increased business, additional factories and the general prosperity condition of the state there is room for two banks here. The new bank expects to be ready for business about April 1st.

BILLY SUNDAY IS

**HITTING THE DEVIL
HARD IN ST. LOUIS**

Noted Evangelist Has Been Stirring Things Up in Missouri City

Billy Sunday, world-famed evangelist, has just closed one of his remarkably successful revival campaigns in St. Louis, Missouri. The papers of that city carried many columns each day about his meetings. Sunday put his arch enemy, the devil, on the witness stand at one of his last meetings:

"Sit down, devil, what is your name?"

"My name is the devil."

"Any other name?"

"The serpent."

"Any other?"

"Yes, roaring lion."

"Any other?"

"The father of lies."

"You've got several aliases, haven't you?"

"Yes."

"You sometimes appear in the guise of a college professor, don't you?"

"Yes."

"You sometimes appear in the guise of a preacher without reverence for God, don't you?"

"Yes."

"Sometimes, you appear in the guise of an editor, don't you?"

"Yes."

"Sometimes you appear in the false guise of a high-seeker, don't you?"

"Yes."

"You are a regular Sherlock Holmes, or otherwise, aren't you?"

"Yes."

"Have you any special grudge against the tabernacle and revival?"

"Yes. It's putting me out of business. We have no place to close up the saloons

MORTGAGE SALE

WHEREAS, default has been made in the payment of the money secured by a mortgage dated the 20th day of August, 1923, executed "by" William Scott and Anna Scott, his wife, of Scott and Wayne County, Michigan, to the American Bell & Foundry Company, a Michigan corporation, of the same place, which said mortgage was recorded in the office of the register of deeds of the County of Wayne, in Liber 1331 of Mortgages, on page 508, on the 22nd day of September, in the year 1924, at 11:15 o'clock A.M.

AND WHEREAS, the said mortgage has been duly assigned by the said American Bell & Foundry Company, a Michigan corporation, to Frank S. Harmon, Frank S. Neal and Charles S. Filkins, Trustees, by instrument bearing the date of the 20th day of August, in the year 1923 and recorded in the office of the register of deeds of the said County of Wayne, on the 24th day of January, in the year 1928, at 12:15 o'clock P.M., in Liber 177 of assignments of mortgages, on page 500, and the same is now owned by them.

AND WHEREAS the amount claimed to be due on said mortgage at the date of this note is the sum of \$2,871.60 of principal and interest; and the further sum of Thirty dollars as an attorney fee, stipulated for in said mortgage, and which is the whole amount claimed to be unpaid on said mortgage, and no suit or proceeding having been instituted at law to recover the debt, now remaining secured by said mortgage, or any part thereof whereby the power of sale contained in said mortgage has become operative.

Now, therefore, notice is hereby given, that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described, at public auction, to the highest bidder, at the Southerly or Congress Street entrance to the Wayne County Building, in the City of Detroit, that being the place where the Circuit Court for the County of Wayne is held, on Saturday, the 21st day of April in the year 1928, at 12 o'clock noon eastern standard time of that day, which said premises are described in said mortgage as follows:

to wit: A parcel of land in the southeast $\frac{1}{4}$ of Section 3, T. 1, S. R. 82, village of Northville, County of Wayne, State of Michigan, described as follows: Beginning at a point said point being S. 88 degrees 18 minutes W. along E. & W. $\frac{1}{4}$ line of said Section 3, 812.50 feet and S. 9 degrees 40 minutes E. 305.50 feet and S. 15 degrees 45 minutes E. 86.80 feet from the E. $\frac{1}{4}$ corner of said Section 3, as above described, thence S. 44 degrees 57 minutes E. 100.00 feet to a point; thence S. 58 degrees 38 minutes W. 64.00 feet to a point; thence W. 49 degrees 09 minutes 50 seconds N. 72.50 feet; thence N. 27 degrees 43 minutes 43 seconds 39.30 feet to a point; thence N. 45 degrees 50 minutes 30 seconds E. 24.50 feet to point of beginning.

Also, the use of alley between buildings on above described property and Foundry building opposite, and to Cady Street, is hereby granted by party of first part to be used in common by each for ingress and egress.

SOPHOMORES HOLD

SPECIAL CLASS MEETING
A special meeting of the Sophomores was called last Friday afternoon in Mr. Cohn's room. Plans for the assembly which they are to manage on March 9th was disclosed but are to be kept secret until the appointed time.

JUNIOR CLASS PLANS

The Junior class is having a candy sale this week in the halls of the High school for the purpose of raising money for their page in the Annual.

The Juniors are also asking the people of Northville to save their papers and they will collect them on Saturday.

SOPHOMORES HOLD

CLASS MEETING
The Sophomores held a class meeting in the Science room last Wednesday, February 15th. They decided to accept the invitation of managing the assembly program for March 9th.

Pians for a party were then suggested but a definite date has not yet been set.

Getting the class pictures in the Annual was also discussed. In order to do this, every Sophomore must pay his class dues.

CAMP FIRE

The Camp Fire girls held a meeting under the direction of Mrs. Stalter, in her room, last Wednesday, February 15th. They are going to make a calendar with all proposed events entered upon some convenient date.

GRADE NOTES

The pupils of the second grade have finished all the combinations in addition. The contest of states and capitals is not quite finished but it is expected that it will be finished this week.

The C class in spelling has just started the fourth grade work.

A Few Days In Sunny California

Quite some change to go from a cold airport. It's a pretty safe statement to make that more aircrafts are manufactured by the Stinson Aircraft Corporation in Northville in one month than are produced in all the factories on the Pacific coast in a year's time. In spite of the fact that California has perfect flying weather all of the year there are more aircrafts in use around Northville right now than can be seen flying around Los Angeles.

Had the pleasure while away to meet an old newspaper associate, Henry Briggs, now managing editor of the Los Angeles Record. Mr. Briggs was formerly managing editor of the Kalamazoo Telegraph-Press at the same time the writer was managing editor of the Kalamazoo Gazette. Mr. Briggs later went to Cleveland, Ohio, where he was editor of the Cleveland Press and from there he went to Los Angeles. The Los Angeles Record is one of the outstanding papers of the Pacific coast. Fortunately for the people of California, it is one of the few publications of that state that is published entirely in the interests of its readers. Its publishers have no extensive real estate holdings and are interested in no other projects of an exploiting nature, and as a result the paper is conducted with a freedom of purpose that reacts to the benefit of the state. Mr. Briggs has for years been regarded as one of the leading newspaper editors of the country.

MORTGAGE SALE

WHEREAS Default has been made in the payment of the money secured by a mortgage dated the 23rd day of May, 1924, executed by the Bell Furnace & Manufacturing Company, a Michigan corporation, to the American Bell & Foundry Company, a Michigan corporation, which said mortgage was recorded in the office of the register of deeds of the County of Wayne, number 1307 of mortgages, on page 44, on the 15th day of July, 1924, at 1:45 o'clock P.M.

AND WHEREAS the said mortgage has been duly assigned by the American Bell & Foundry Company, a Michigan corporation, to Frank S. Harmon, Frank S. Neal and Charles S. Filkins, Trustees by assignment bearing date the 20th day of August, in the year 1924, and recorded in the office of the register of deeds of the said County of Wayne, on the 24th day of January, in the year 1928, at 12:15 o'clock P.M., in number 177 of assignments of mortgages, on page 499, and the same is now owned by them.

AND WHEREAS the amount claimed to be due on said mortgage at the date of this notice is the sum of Fourteen Thousand Nine Hundred and Ninety-Five Dollars of principal and interest, and the further sum of Thirty-Five Dollars as an attorney fee stipulated for in said mortgage, and which is the whole amount claimed to be unpaid on said mortgage, and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage, or any part thereof. Whereby the power of sale contained in said mortgage has become operative.

Now therefore, notice is hereby given, that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described, at public auction to the highest bidder, at the Southerly or Congress Street entrance to the Wayne County Building, Detroit, that being the place where the Circuit Court for the County of Wayne is held, on Saturday the 21st day of April in the year 1928, at 12 o'clock noon eastern standard time of that day, which said premises are described in said mortgage as follows, to wit:

A parcel of land in the southeast $\frac{1}{4}$ of Section 3 T. 1 S. R. 8 E. Village of Northville, Wayne County, Michigan, is described as follows: Beginning at a point, said point being South 88 degrees 18 minutes west along the east and west line of said Section 3 81260 feet, and thence south 9 degrees 40 minutes east 30550 feet from the East $\frac{1}{4}$ corner of said Section 3, T. 1 S. R. 8 E. thence N. 45 degrees 07 minutes W. 20900 feet, to a point, thence south 44 degrees 33 minutes west 14140 feet to a point, thence north 88 degrees 00 minutes 30 seconds west 17790 feet along Cady Street, to a point, thence south 0 degrees 14 minutes, 30 seconds, east 16470 feet to a point, thence North 88 degrees 15 minutes 30 seconds east 2940 feet to a point, thence south 0 degrees 26 minutes 30 seconds east 22308 feet to a point, thence North 88 degrees 25 minutes 30 seconds east 17056 feet to a point, thence north 7 degrees 28 minutes west 19700 feet to a point, thence north 58 degrees 38 minutes east 17200 feet to a point, thence north 49 degrees 09 minutes 30 seconds west 7290 feet to a point, thence north 27 degrees 43 minutes 30 seconds east 3930 feet to a point, thence north 45 degrees 00 minutes 30 seconds east 2450 feet to a point, thence north 15 degrees 43 minutes west 8680 feet to point of beginning. Reserving the right of a driveway between the building now used as a foundry on said property and those to the east belonging to the Stimpson Scale & Electric Company, and to the southeast belonging to William Scott, for use in common with grantee for free ingress and egress to said properties. Also all machinery, tools, patterns and flasks that were on hand at time of purchase, same to be kept in usable condition.

lines of the Great Lakes, thank fortune for that

"Terrific Storm Sweeps State" read an eight column headline in one California newspaper. Another said, "Thousands of Dollars Damage Done by Storm." What a joke! Happened to be there when this "terrific storm" swept the coast. It was nothing more than a gentle April shower back here. Thirty dollar a week head writers on California newspapers do more to offset the beneficial advertising carried by the various chambers of commerce than all the earthquakes the state ever had. In fact, from a general size up, many of the big city dailies of California are out of step with the trend of things on the coast.

The "Imperial Valley"—without question is the most fertile garden spot of the world. This vast expanse is right now furnishing the green vegetables, strawberries and tomatoes so much enjoyed in the east. Saw over 100 carloads of lettuce leave one shipping point in a day. Crops are raised in the Imperial valley during the winter and early spring. The summer months find the residents of that section over on the coast or back east. Practically nothing is produced for the market during summer months, and cauliflower season ends. Sixty thousand people live there now. Some day it will be the home of a million.

The Southern Pacific is cutting its running time from Chicago to Los Angeles to 61 hours. Not so many years ago it took considerable over 70 hours to make the same trip by the fastest trains. The S.P. is a wonderful railroad giving about as perfect service as can be found anywhere in the country.

If any one knows of any reason why some sections of the west were put on the map by the Creator, especially some parts of Texas and New Mexico, please write.

From Northville, are you? Well, must you know an old friend of mine. His name is John Larkie. He is a mighty fine fellow, and while I haven't heard anything about him in years I know he is just making good at whatever he is doing. That is what Walter E. Jacobson, 5126 West Pico street, Los Angeles, has to say about Northville's former superintendent of schools, now a resident of Ypsilanti. Mr. Jacobson is one of the high grade, real estate men of California, and has had much to do with the development of that section of Los Angeles, where he is operating. Just happened to meet him through an old Kalamazoo friend.

Carrie Benton, with Mrs. Benton, put in California for a few weeks, has not been able to wait for spring to come to do a little plowing. The other day, he skipped out from Los Angeles up near Redlands, where his boy has a ranch. Work came back that he had mounted one of the tractors and was showing the natives how to do some real Michigan plowing. Of course it is spring out there all the time. Mr. Benton's son is doing very nicely out on the coast.

Besides her husband she leaves a son, Don VanSickle of Salem, a grandson and granddaughter, and many friends to mourn her passing.

When the King of Spain is in England one of his favorite pastimes is to mount a bus-top incognito and ride about the town.

The buds of water lilies growing in St. Louis park are strong enough to hold a weight of a man standing on a single pad.

be a bigger one next year. There are practically no cattle on the western ranges. That's why you are paying Northville meat markets such high prices for steaks and roast beef. You are going to pay more from the way things look.

California is certainly smiling this winter—with the biggest crop of tourists it has ever had.

If Burbank has a population of 25,000 as some claim it has, then Northville has a population of 75,000, and we have by actual count something under 4,000. That's judging the two towns by the number of business places and residences, not by the number of passengers in the automobiles that pass through the places.

A lot of southern California towns would be better off if an earthquake would take place just under some of the so-called newspapers that are published in them. How under the sun some of these fellows dare brand the things they print and send out as newspapers is more than can be guessed.

Wonderful highways rapid traveling buses and exceptionally good electric car service gives to California a commuting transportation service hard to excel anywhere.

MRS. ALBERT BULLOCK,
EXPIRES AT HER HOME IN
VILLAGE OF SOUTH LYON

The following from the South Lyon Herald is of interest to many Northville residents:

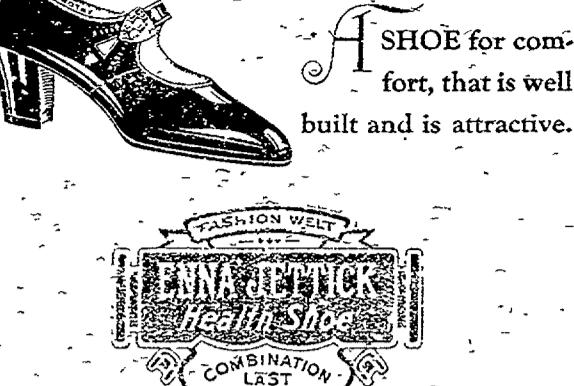

After a long illness, Mrs. Albert E. Bullock died at her home in this town Saturday evening, February 11th, at the age of 58 years.

Funeral services in charge of Rev. T. C. Hackenburg, pastor of First Presbyterian Church, were held at 2:00 o'clock at the residence, and burial took place in Northville cemetery.

Nora Le Reed was born near Lansing Michigan, August 14th, 1869. In young womanhood she was married to Fred VanSickle of Northville and to them were born two children. The husband and daughter passed to the great beyond number of years ago. On December 5th 1919, she was married to Albert E. Bullock of South Lyon.

The deceased was a good wife and mother. Gifted with a great sense of humor she was able to cheer many a soul. During past months of illness and at times intense suffering she has patiently and beautifully expressed her confidence in Christ and the future rest.

Besides her husband she leaves a son, Don VanSickle of Salem, a grandson and granddaughter, and many friends to mourn her passing.

They plan to make their future home in Northville. Both young people have many friends here who wish them well.

The furnace fire should receive attention at regular intervals, not simply when the temperature becomes too cold or too hot. No definite rule can be given that will apply to all heating systems, but the essential rule in fuel-economy is a careful study of the system—one having the kind of fuel used, the management of drafts and dampers. A fire should not be shaken down more than three times a day. Generally twice will be sufficient in the morning and in the late afternoon. Take care not to shake too much. Never leave ashes under the grate in the ash pit. In mild weather an accumulation of ashes may remain in the grate to prevent the fire from becoming too hot, but in cold weather they must be removed so that a bright fire will result.

Ceremonies may differ, but true politeness is ever the same.

ABOUT NORTHVILLE

Mrs. Frederick Lendum Relates Details of Much Interest

Some interesting details of the early history of Northville and Plymouth townships is contained in the splendid remark made recently by Mrs. Frederick Lendum of Plymouth at the dedication of the Mayflower hotel in that place.

Because of the fact that many of the families mentioned in her talk played an important part in the development of Northville and vicinity, a portion or her talk is reprinted below:

"These newspapers, yellow with age, carry us back in imagination to the time when journalism in the U. S. was in its infancy. It may not be out of place at this time to go back in thought to the Atlantic coast where the first newspapers and periodicals were published."

"About the year 1825, there is a breaking of many bonds ties between England. The young and adventurous have heard of the opening up of much land in this vast northwest territory. The government is offering land at \$2.00 per acre. Free schools are promised, and that long procession of emigrants begins. The journey is slow and filled with dangers and difficulties.

The first travelers make the entire journey over land as far as Buffalo, New York, and the Sarah Ann Cochrane Chapter, D. A. R. desire to pay special tribute to Keziah Starkweather, and all

The Erie canal is to be opened in the fall of that memorable year of 1825, and the first pioneers look forward with eager anticipation of this wonder-

"Can you not picture the parting of these young families as they break away from loved ones in the comfortable homes of the east? Some of them carry a choice bit of silver or china from the old home. Others a rare piece of furniture sometimes with sacred associations. But the profession continues their eyes turned westward, to face the future with that dauntless courage that characterizes all their acts." Arriving at Buffalo, the weary pilgrims take a slow sailing vessel to Detroit. But Detroit is only a small town (1200) at this time, and holds no inducements for our eastern adventurers. Through mud and clay, rain and slush the travelers continue

the Baker and Gates' Wm. Starkweather arrived at a point where now stands this beautiful town of Plymouth, on March 11th, 1822. A rude bark hut was first built to afford a temporary protection, but in the fall of that year a log house, the first in the townships of Canton, Northville and Plymouth was built by Wm. Starkweather where now stands the Hotel Mayflower.

Other New England families, lured by the great expanse of cheap land and the promise of free schools, soon joined the first arrivals. Among them the Fralick brothers, Westfalls, Stowes, Bentons of Plymouth who became the first postmaster, the Tibbits and Markhams, Tafts, Utley and Wm. Bertow, and Timothy Lyon among the 1825-1827 list. Many of you have heard of these pioneer families; their descendants are our most respected citizens.

We, who are surrounded by all the comforts which science and the inventions of the 20th century can produce, can hardly imagine the hardships which our forefathers endured. Leaving comfortable homes in the east, they came to this northwest territory to clear the land till the soil and establish homes that their children and children's might enjoy an even greater heritage than had been theirs.

We are honoring William and Keziah Starkweather, grandparents of Mrs. Mary Hillmer, and we feel that in honoring them, we are honoring all our early settlers who helped to establish this great Commonwealth."

"Hold high the torch! You did not light its glow; I was given it from other hands, you know. Its only yours to keep it burning bright. Yours to pass on when you no more need the light. For there are other feet that you must guide, And other forms go marching by your side."

Their eyes are watching every tear and smile, And efforts that you think are not worth while May sometimes be the very help they need.

Actions to which their souls would give most heed;

So that, in turn, they'll lift high the torch and say, I watched my Mother carry it thus way."

Mr. President,

On behalf of the Women's Club of Plymouth, and the Sarah Ann Cochrane Chapter, D. A. R. we have the honor to present to the Hotel Mayflower Association, the bronze tablet

which has been placed on the northeast corner of this hotel.

We trust that this hotel may become like a social center of the entire community, that the traveler who tarries here for a time may find a homelike atmosphere and a friendly hospitality—and above all we trust that this hotel, like the good ship Mayflower, may never have a blot on her escutcheon."

PLYMOUTH WATER COSTS TWICE ITS PRESENT INCOME

Village Faced with Necessity of Doubling its Present Water Rate

Interesting data published in the Plymouth Mail recently, pertaining to the cost of operating the water department of that city, reveals the fact that it is running something like \$12,000 behind each year, and that unless the rates are raised, the taxpayers are faced with the necessity of paying for the deficit out of the general fund.

Following is the table showing the expenses of the Plymouth water department:

Pumping Expenses	\$43.37
Operating supplies	143.37
Repairs	176.29
Power	800.00
Operating labor	480.00
Transmission and Distribution Expense	
Labor and Supplies	310.67
Maintenance	
Mains	564.81
Reservoir and tank	200.00
Services	1755.65
Meters	800.00

Hydrants	150.33
General and Administrative Expenses	
Office Salaries	\$1,500.00
Office supplies	10.00
Postage and printing	100.00
Interest on bonds	\$ 9,000.00
Uncollectable accounts	60.00
Sundry	50.00
Depreciation	5000.00
1-3% retirement of bonds	6000.00

Average cost, \$ 1685 per 1,000 gallons.

There was some discussion following its reading, but the statement seemed to meet with the general approval of those present. The total income from the water department last year was \$15,744.01. It is the difference between this sum and \$28,201.12 or \$12,457.11, which must be provided for to put the water system on a self-sustaining basis. The only way that this can be done is to raise the water rates to the consumer.

**BUSINESS CHANGE
OF 1906 RECALLED
BY OLD CLIPPING**

Articles Taken from Record
Tell of Coming of
Schrader Bros.

Because of the fact that Nelson C. Schrader and M. A. Porter over a period of many years have been so active in behalf of Northville and its development, articles taken from the issue of March 15th, 1907, are of more than especial interest just at this time.

The article pertains to the retirement of M. A. Porter from business and the purchase of Nelson Schrader and his brother of the business conducted by Mr. Porter.

The following article from the Record about Mr. Porter was published sometime like two months before the other one, which tells of the transfer of the business to the Schraders.

"After a busy business life here for twenty-six years in the furniture and undertaking line M. A. Porter is to retire January 1st to accept a fine position with Peninsular Telephone Co. as assistant to the general manager. The position carries with it a generous salary and as the work is along that which is particularly to Mr. Porter's liking, the position is a very desirable one."

"Mr. Porter has sold his undertaking and furniture business to Schrader Brothers of Plymouth, and one of the firm will move to Northville to take charge of the store which they have leased for a term of years."

"Mr. Porter retains his interest in the telephone business and will continue to manage that end of it while looking after the interest of the Peninsular company."

"The Peninsular company is the one which recently took over the Northville company and controls many of

the independents of the state. It is capitalized at \$2,000,000 one-half of which is paid in."

"Mr. Porter thoroughly understands the telephone business and will prove a valuable man for the new company. Northville will be glad to know that he is still to remain a resident of this village where he has been so successfully engaged in business and been one of our enterprising citizens for more than a quarter of a century. Our people will wish him well in his new undertaking."

"Mr. Porter was President of the village in 1896-7, and was a factor in obtaining for the village the fine system of the water works which without question is one of the very best on earth. He was one of the organizers of the Northville Telephone company some ten years ago which has since grown to be one of the largest local companies in the state."

"The subject of our sketch in this week's paper is the firm of Schrader Brothers of Plymouth, who, in December last purchased the furniture and undertaking business of M. A. Porter of this place, taking possession January 1st. From that time up to the present they have put forth every effort to make the business a profitable one, not only to themselves but to their patrons as well. The store has been remodeled, papered and painted.

"They now have one of the best assortments of up-to-date furniture that has ever been seen in Northville and the people of this place have no excuse to go elsewhere to trade.

"On the first floor will be found a large number of bedroom suites, sideboards, buffets, bookcases, china cabinets, carpets, etc., while on the second floor is filled with chairs, dining tables, couches, iron bedsteads, cots and floor matting.

"The casket room is also situated on this floor and is tastily fitted up for the purpose."

"Among the many unique attractions is a large curtain stretcher, a sample

of which is on exhibition in the window of the store. This is something that Northville people have long felt the need of but have been denied."

"Nelson C. Schrader has charge of the Northville store, and his genial and pleasant manner will win him many customers and hosts of friends."

"Everyone will agree that in the intervening 21 years much has happened in Northville."

WOMAN'S CLUB SPONSORS**BABY CLINIC TO BE HELD ON**

NEXT TUESDAY IN CITY HALL

The first of a series of baby clinics will be held Tuesday, February 28th, in the city hall. A previous announcement gave the high school as the location of the clinic, but because the city hall offered more commodious accommodations, members of the Woman's Club believe that greater work can be accomplished there.

Fine results are evidence of the good work done in clinics about the state and local mothers who find it possible should take advantage of this free physical examination for their children. The work of the clinic will start at 2:00 o'clock Tuesday afternoon. People having no means of transportation will be furnished with rides to and from the clinic, if they will phone 156.

It is the intention of the Woman's Club to continue these meetings over a period of weeks; a clinic to be held the last Tuesday of each month.

INTENSIVE SALES
SCHOOL FOR MEN**

Every Dealer to be Competent to Handle Any Problem That Arises

Of unusual interest to the millions of Chevrolet owners in the United States was the announcement made today by the Chevrolet Motor company that nearly 4,000 men heads of dealers' service departments are being called in to attend specially conducted service schools.

These schools, designed to place the service facilities of the company on a higher plane than ever before, are being held during February and March for the service personnel of the Chevrolet dealer establishments throughout the country.

The service managers are being summoned to the 45 zone headquarters, located at key centers, where the schools are being conducted. Here, under resident instructors, they are given a course in every phase of shop management.

Among the principal subjects covered are shop arrangement, equipment, and special tools; appearance and maintenance; shop personnel; training of

service personnel; operating costs; specialization of mechanics, and the keeping of detailed and exact records.

Upon completion of the course, the service managers are competent to go back to their own establishments prepared to conduct their end of the dealer's business upon the high standards evolved by factory officials from the most approved methods known.

This means that Chevrolet owners everywhere may expect uniform efficient service and courteous attention from the service departments of the wide spread Chevrolet dealer organization.

The monthly church night was held at Salem Federated church on Friday, February 17th. A popular fish supper was served in the basement, and the tables had to be laid three or four times in order to cater for the large number of people present. Later in the evening a musical play was presented by the young people and friends of the church, and some time before the play commenced the church was packed to the doors, many additional seats having to be brought in. The music for the evening was kindly contributed by the newly formed Salem orchestra, who were given a warm-hearted reception. Great credit is due to the young people and their friends to the orchestra, and to members of the Ladies Aid for providing such an enjoyable and successful evening for the February church night gathering.

NORTHLVILLE IS INTERESTED IN DEARBORN REGULATIONS OF AUTOMOBILE TRAFFIC

The following regulations have been given out by Chief Fred E. Faustman of Dearborn, as a reminder on the correct procedure in making turns at intersections that are controlled by automatic signals. These regulations are identical with those in force in Detroit. They might be of interest to Northville residents.

1. To make a right turn: When approaching a signal it is permissible to make a right-hand turn against the red light, providing the operator comes to a complete stop at the crosswalk before entering the intersection and with due regard to the safety of pedestrians.

2. To make a left turn: If an operator desires to make a left turn he must wait until the signal light turns "green," then proceed to the center of the intersection where he must wait until the opposite line of traffic traveling on the green is cleared, then he can continue his left turn. The motorist waiting to make such a left turn is not required to wait until the red stop light halting traffic on the cross-street changes to green; he can do so without danger of collision, provided that an operator may make a left hand turn into a one-way street against the stop signal if the operator

comes to a complete stop before entering the intersection.

3. All stops at any intersection would be made at the crosswalk line; this rule will be rigidly enforced.

4. Motorists are being instructed to keep off the car tracks when waiting in the center of an intersection to make a turn.

Knock It Out!

Are you a slave? Harold Lang was. He had a steady position with good wages, yet he was far from independent. He knew that if he lost his job it would be only a matter of days until he would be "hard-pressed." Why? Because he had lived up practically all he earned. How foolish. Every day his friends were losing their jobs through circumstances or injury. He had been lucky so far, but he knew that some day he would get a few hard knocks in life. So will you. Everybody does.

SAVE! Don't be a slave. The day you sign your name on a savings account is the beginning of independence—from debt, from worry, and obligation to the rest of the world. Knock the second letter out of slave, and make it save.
