## LAUDS STINSON IN MEMORIAL TO HARRY BROOKS

Rev. William Richards Tells  
of Visit to Place  
Brooks Died

Eddie Stinson has shown the world the great possibilities of navigation in the air. In my judgment he is the most cautious and one of the greatest aviators of all time. His many flights from city to city, his victory in the reliability tests, supports all the claims that have been made as to the possibilities of successful air navigation," declared Rev. William Richards in his Sunday morning sermon.

The service at the First Methodist church was sort of a memorial to Harry Brooks, the young aviator who lost his life off the coast of Florida.

Rev. Richards had just returned from that state. He visited the place where Brooks was lost in the sea. He talked with many who witnessed the disappearance of the young Ford flyer in the ocean and it gave him a sermon theme. The church was packed, and the pastor's reference to the remarkable career of President Stinson of the Stinson Aircraft corporation was of more than ordinary interest because of the fact that every one in Northville knows Eddie Stinson and of his long, successful career as an air pilot.

The world still waits for the successful accomplishment of a flight from European coast to the United States. While our nation has three times successfully made the crossing, the feat has not yet been accomplished from the other side. Lindbergh, Schles and Chamberlain have demonstrated the fact that a flight over the ocean is possible, but with the commencement with everything we are enjoying today, it has brought great sacrifice. With every experiment there is a loss and how often anything new is condemned," stated the pastor.

"I was extremely interested in an address by Clarence Chamberlain, the man who has the honor of making the longest flight from America over the Atlantic and into Germany. I sat at a barbecue with him a few days ago in Washington. He stated that in the next five years the airplane would be out of the experimental stage and in ten years it will be in commercial use throughout the world. Chamberlain stated that he had come to Washington from Pittsburgh in a three-cylinder plane that had a three cylinder engine. The trip between the two cities was made in two and a half hours and of nine gallons of gasoline, the distance between the two places being several hundred miles.

"Harry Brooks—a lad of our own church—carried with him to his final resting place, the honor of flying the greatest distance in a two-cylinder plane covering over 900 miles in one of these flyers of the air."

"The town of Titusville where he made his first stop, I have visited many times. Here the propeller was broken and the residents for many days had no display.

"From Titusville, he followed the beautiful Indian river with its banks of waving palms and lovely homes of Spanish design and tropical vegetation, motored along that river a few days ago with the mayor of Scottsmoor and C J Ferguson. They took me to the place where Harry Brooks was lost.

"They showed me where he had dined along the coast, smiling and waving at people. He was flying but 25 or 30 feet above ground, but he had remained on the coast he probably never would have been lost."

"They suddenly saw his plane turn out to sea, and then dropped like a pelican diving for a fish. There was no boat large enough to weather the rough sea. The plane was blown out away from the land—and the young man lost to the world."

"As the mayor and I stood there on the shore line, the sea was peaceful, the sky was opaque, checkered with gray. It was what the sailors called a mackerel sky. The sun was about to set—the sunset was glorious."

"Yet what was sunset to us was sunrise to others. Emblem of their great resurrection when the sea shall give up her dead and the corruptible bodies that sleep in her shall rise in the likeness of His glorious body to the mighty working, whereby He is able to subdue all things unto Himself."

**ONE DELIVERY TO  
OUTSIDE SECTION  
JUST AT PRESENT**

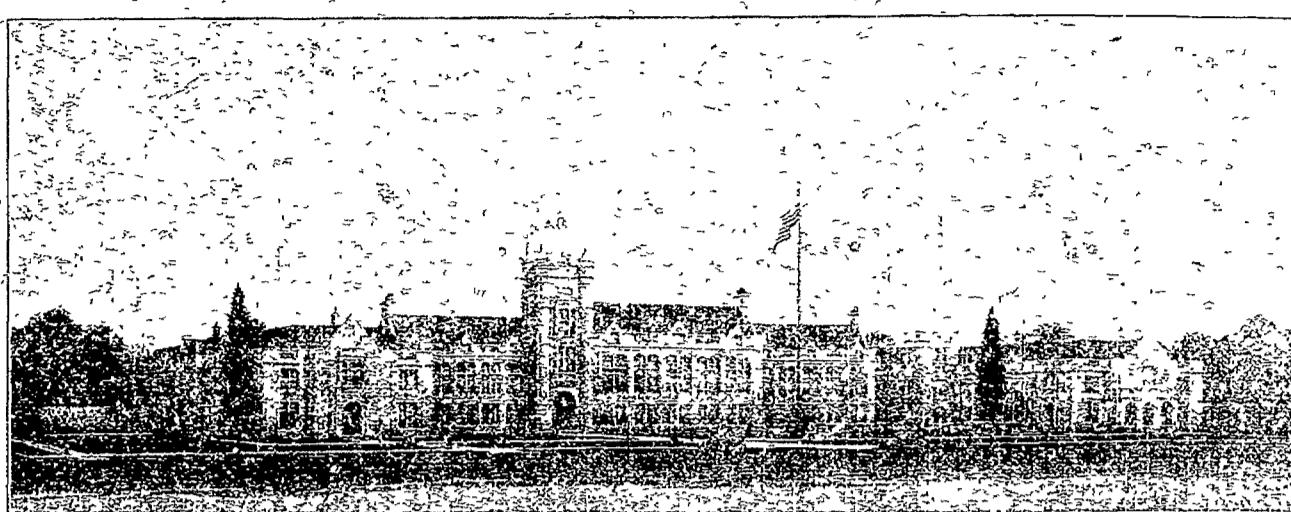

New Carriers Will Make  
Two Trips as Soon as  
Work Is Arranged

Until the city delivery carriers get their real systematized and more familiar with their delivery routing, not much more than one delivery per day to the outlying district can be made. Two deliveries, it is expected, will be made later on. It will take some time for the carriers to get real efficient with their labors, and in this matter the public can confer a great favor by having all their mail addressed to their street and number.

The carriers may know where everybody lives, and really they do in nearly every case, but that does not meet their requirements for speedy delivery. All mail is sorted by streets and numbers. Otherwise it would take two weeks to make a delivery. "Errors will occur and delays will be made, but the public is inclined to be very patient and helpful," says the Postmaster.

The new commission in the neighboring city is planning extensive improvements for the village during the present year. "It's paving program, as recently outlined, is about twice that done by Northville last year." Mr. Henderson is one of the best known residents of this part of Wayne county, and he has an exceedingly large number of friends who wish him well in his new official position.

## FORDSON'S NEW \$2,500,000 HIGH SCHOOL IS DEDICATED

Courtesy Fordson, Independent

Fordson, one of Northville's neighboring communities, has just dedicated its new \$2,500,000 high school building, one of the finest and most complete in America. The plans for the structure were prepared after a study had been made of some of the world's most elaborate and modern structures.

Some of the members of the Northville school board attended the dedication last week. They state that the structure far exceeds anything of the kind they have ever seen. The playground to the rear of the building is keeping with the general character of the entire project and it is as completely equipped as any playground in the country.

## STINSON PUTS NEW LOW PRICED PLANE ON MARKET

Starts Production of Three  
Passenger Craft to  
Meet Demand

Announcement has been made by officials of the Stinson Aircraft Corporation that production will be started soon on a new type threeplace cabin monoplane. For some time past Eddie Stinson has been working out the details of the new plane, and he has now developed it to a point where it can be placed in production at an early date.

The plane will be powered with a seven cylinder motor of 120 horsepower, and it will carry 45 gallons of gasoline, which will enable the plane to run about 600 miles without refueling. It will have a span of 41 feet and a length of 26 feet, permitting a landing even on some of the wider airfields.

The plane will have all the features of the larger monoplanes including a hydraulic landing gear, hydraulic tail wheel, brakes, self starter and dual controls.

This plane will find many uses, and officials of the company have already had numerous inquiries pertaining to it. There is no question but what it will find as ready a market as the larger monoplane produced by the local plant.

Products of the Stinson factory are regarded as among the best planes made in any country.

## CHEMICAL COMPANY TO EXPAND MORE DURING THE SUMMER MONTHS

In a brief talk to members of the Exchange club Wednesday noon Herbert Brown, now president of the Northville Chemical company, made public the fact that plans are now under way to enlarge even more on the building now occupied by the factory. It is the intention of officials of the company to conduct regular advertising campaigns that will put Northville on the map more than ever.

Mr. Brown stated that he was handling the sales and distribution end of the work around the country and that Conrad Langford, vice-president of the company, was in charge of the production. They expect not only an expansion of their floor space but a large increase in size of their pay roll. This will bring new families to Northville. He added:

## PLYMOUTH NAMES JOHN HENDERSON MAYOR FOR YEAR

Commission Select Well  
Known Citizen for High  
Position

Plymouth's city commission Monday evening elected John W. Henderson of the Detroit Creamery company, as mayor for the ensuing year. Under the system of government in Plymouth, the commission selects one of its own members to act as mayor, and Mr. Henderson had the support of his associates for the place.

The new commission in the neighboring city is planning extensive improvements for the village during the present year. "It's paving program, as recently outlined, is about twice that done by Northville last year."

Mr. Henderson is one of the best known residents of this part of Wayne county, and he has an exceedingly large number of friends who wish him well in his new official position.

## FAIRBROOK DUMP TO BE MADE INTO CITY BEAUTY SPOT

The Officials Take Action—  
Rotary Club Pledges Its  
Assistance

Here is news—good NEWS! Fairbrook spring and surrounding grounds are going to be improved this spring.

That fact developed at Monday's meeting of the Rotary club when it was announced by City Commissioner Ray Van Valkenburgh that Mayor Charles Fulkum had requested him as chairman of the committee having supervision over this matter to take immediate steps to have the place beautified.

Right on top of that announcement came the assertion of President Don Yerkes Sr., of the Rotary club that that organization would do all within its power to co-operate and assist the city in its plans.

"Possibly we can aid the city in getting out without additional cost by members of the Rotary club donating some of their services to the work of beautifying these grounds," stated President Yerkes.

"But that is not all. G. M. Chiofalo of the Rok-Ray Gardens, announced that he would donate to the village several hundred Iris roots to be used at the place. He stated that those he would give to the city were of his best varieties. Mr. Chiofalo has statewide reputation as a grower of high class Irisroots.

Mr. Chiofalo informed the Record that he was glad to see some effort being made to make beautiful some of the many places that can be so wonderfully improved, and that he was ready, possibly later to do even more than his original offer indicated.

President Yerkes appointed a committee consisting of E. C. Langfield, Wellington Roberts and Elton R. Eaton as chairman, to co-operate with the club presidents to co-operate with proper city officials in carrying out the necessary work at the park.

Not only that but the committee was appointed with instructions from the club presidents to co-operate with all proper officials in cleaning up and improving other places about town that needed improving.

One of the things to be done immediately will be the removal of the old shed now standing on the city grounds just east of the village cemetery. That will be taken down it is understood in the very near future.

There is another spot on North Center street than an effort will be made to have cleaned up in some way.

Ray Van Valkenburgh was in charge of Monday's meeting, and the session was turned over to a general discussion of numerous subjects, and out of it all grew a decision to do something towards helping to make Northville even more attractive than it is.

## DECLARES SCOUT WORK GOOD THING FOR SCHOOL BOYS

School Faculty Member  
Tells of Advantages in  
Club Address

Exchangeites were fortunate in meeting as their speaker Wednesday noon the director of local Boy Scout activities, R. H. Ammerman of the Northville high school, who gave a short talk on the moral and physical building programs that are put through in the Scout organization. He illustrated the various practical teachings such as first aid, woodcraft and signaling. These trainings will help to make the young lad of today better citizens when they reach the voting age, says Mr. Ammerman.

He explained that through the cooperation of parents and the school that Northville could have one of the finest Scout movements in the country. To the present time the Scout activities in the village have been more or less irregular, and it is his hope that the organization can be put on a sound basis. He further stated that all youths of today should at some time, or other become connected with the Scout troop, and absorb a few of the principles that apply so well to all ranks of life.

The Auxiliary of the Presbyterian church will meet Tuesday evening with Mrs. L. Eaton. Mrs. Ray Baker will drive on Tuesday April 6th at 2:00

## HE LIKES RECORD BEST OF ANY

"I enjoy the Record and think it is the best weekly newspaper I have ever seen. You will find enclosed my check for another year. See to it that I get every issue."

Louis A. Seal of the Wayne Highway Realty Company of Wayne, makes the above assertion in a letter received yesterday by the

Record.

It is letters of this nature which make the workers around a newspaper office feel as though their efforts were worth while, although

## WORLD'S RECORD TO BE BROKEN BY STINSON FRIDAY

Northville Manufacturer to  
Create Mark for Others  
to Shoot at

By the time this issue of the Northville Record has been delivered, Eddie Stinson will not only have broken the world's flying endurance record, but he will have created a new record that aviators will be years in trying to break.

Anyone who knows the flying ability of Eddie Stinson and the ship that he sails, knows that with the favorable conditions prevailing at present off Jacksonville, Florida, he will make the record with perfect ease.

The record would have been shattered a few weeks ago on Lake St. Clair if weather conditions had not forced him down. A snow storm that set off the dirigible left him below and a heavy steel forced him out of the air at that time.

But none of these conditions prevail in Indianapolis and it is for that reason everyone in Northville now, that Eddie will not only stay in the air for 92 hours and 30 minutes but many hours longer. He left the ground Wednesday morning at 7:30 o'clock and Thursday afternoon was still flying.

**BOOTHSTOCK FARM  
TO SELL AYRSHIRES  
AT PUBLIC AUCTION**

**Country's Biggest Dairy  
Farm of Kind Going  
Out of Business**

On Friday, April 13th, out at the Boothstock farm, the greatest auction sale of Ayrshire cattle that has ever taken place in the United States, will be conducted.

Information given to the Record this week by Roy Booth of the farm pertaining to the sale, will be a surprise to the people in this part of the state. It is just a little less than a year ago when by the purchase of an entire Ayrshire herd in Ohio, the consolidation with the Boothstock farm, made the Northville Ayrshire farm the largest in the United States, in fact, some dairy journals stated it was the largest in the world.

Mr. Booth advises that he will give out for publication in the near future his plans pertaining to the future of the big stock farm out on the Seven Mile road but this will not be revealed in the public until after the big sale has taken place.

James G. Watson of Brandon, Vermont, one of the leading cattle auctioneers in the country, is coming to conduct the sale. Mr. Bradford probably has sold millions of dollars worth of high class cattle, and he is regarded as one of the world's best authorities on Ayrshires.

He is bringing with him to the sale according to a letter Mr. Watson sent the Record, E. M. Granger Jr. of Thompsonville, Conn. who has officiated at most of the large Ayrshire sales in the country, and who has already made a reputation as one of the outstanding Ayrshire auctioneers.

This sale will doubtless bring hundreds of buyers to Northville from all over America.

## THE FINISH

Team No 6 of the House League has won the series of contests that have been taking place in recent weeks. Team No 8 was in second place; the first, second, third and fourth teams tied and the fifth team landed in fifth place. Following is the individual standing on March 27th:

## ONE CONTEST IS ONLY FEATURE OF MONDAY ELECTION

Little Interest Apparently  
in Questions to be  
Decided

Monday is election day. Northville residents are going to vote for their preference for a presidential nominee. A bond issue of \$300,000 for the county to provide funds for the erection of an addition to Elsie Hospital, and numerous township offices. In view of the fact that there is but one ticket in the field and only one sticker contest, there is apparently but little interest in the election.

Willard Ely is unopposed for supervisor, and Elmer Smith has a clear field for township clerk. The same is true of Fred K. Hedge, candidate for re-election as township treasurer and all the other candidates except Joseph Montgomery for highway commissioner.

Lewis Balko is making an energetic campaign for the place, and will run on stickers. Montgomery defeated Balko by seven votes in the Republican caucuses and Balko thinks the vote was sufficiently close enough for him to make a run on stickers.

The township will vote on whether to enter into a contract with the Detroit Edison company for the lighting of the Seven Mile road from Ridge road to Plymouth road. The highway is 12½ miles long, all the way from Detroit to the state line except for this short section in Northville township, and there seems to be a general sentiment that the running price of the highway should be sighted.

## KILGOUR TO MOVE INTO NEW STORE ABOUT MAY FIRST

Will be Located in Place  
Vacated by Smith and  
Lovewell

An arrangement is made this week of another important change on Main street high-class place Kilgour's Store, located in the 8th street block at 123 East Main street is going to move to the place made vacant by the dissolution of the Lovewell Smith Realty firm at 199 Main street.

"There is plenty of room in the new location and the rent will be much cheaper than now when I am at present located. By getting into a location where the overhead is not so high, I will be able to give

**SESSIONS TAKES ASSESSMENT OF VILLAGE EARLY**

Complies with New Charter and is Doing the Work Much Earlier

Charles Sessions has started taking the village assessment as provided under the new charter. He hopes to complete the work within the next six or eight weeks, but it is possible that he may not be able to complete the task in that length of time.

"I am not finding many changes. I guess there have been eight or nine houses built since last year, but that isn't many. I know the city officials are keeping their budget down just as close as possible, and an effort will be made to keep the taxes down to the lowest possible point this year. There is practically no raise in assessments anywhere, and not a whole lot being added to the rolls," stated Mr. Sessions yesterday.

Northville, like most other places about here, did not experience any building boom last year, but prospects are that during the next twelve months the community will see much more building than for several years past.

## OUR PROGRAM FOR 1928

The organization of a chamber of commerce.

Enlarging and beautifying the public school grounds, with proper playground facilities for the smaller children.

The landscaping of Fairbrook springs and the creation of a small park out of the semi-public dump.

Making more attractive the various entrances to the village.

The dedication of several public alleyways back of some of the business streets.

Turn our vacant lots into vegetable or flower gardens.

Make Northville not only the flower city, but the cleanest city in all Michigan.

Erect a big sign, "Stinson-Northville Airport" readable from the air at the local airport.

Passage of an air-tight anti-peddling ordinance.

An economical, progressive administration of village affairs.

## TO MRS. HENRY FORD

Thousands of people last week witnessed what was probably one of the most beautiful displays of flowers ever arranged in Michigan. A very large portion of the population of Northville spent a part of some one day at the North American Flower Show in convention hall—and everyone from here marveled at the beauty of the show.

Probably the most beautiful display of all was the wonderful rose gardens arranged by Mrs. Henry Ford. The garden was a duplicate as near as could be made of the one at her home at Dearborn.

No man can be in the opportunity of visiting the beautiful grounds and gardens that we like to read about, and we want Mrs. Ford to know that we appreciate the effort and the care of securing a duplicate of the exhibition garden of our city. If we can't do it ourselves, let us have it arranged.

While Mrs. Ford's garden was given, she doubtless the source of the display there were hundred of other beautiful exhibits, and those who planned and carried them in the way entitled to world of credit, their accomplishment.

## THE MISCHIEFMAKERS

News department I am learning every information that come of the old Michigan bootlegging, the influence of straddling Arthur V. Stimers, are urging Cleveland, Ohio to appoint Vice Grand Marshal editor to the vicinity created in the United States Senate by the death of Senator.

Knowing Governor Green and something of the kind of men that have been appointed to the United States Senate under similar circumstances in past years, voters of Michigan can feel assured that the Jack-Ass from Grand Rapids will not be appointed. There are plenty of good men in Michigan, men like Hon. Joseph Foidrey, who would be glad to have the honor of serving even a few months in the United States Senate—and the selection of someone of this caliber would be a credit to Michigan.

Reports from Lansing state, that the big Jack-Ass thinks he has got the nomination all sewed up, and that he should go to Washington right now by special appointment. Isn't such a frame of mind sufficient proof that he is entirely unfit for public service of any kind?

The next regular meeting of Forget Me-Not Hive, No. 169, will be held on Monday evening April 2nd. The officers are requested to be present for practice.

While the ground is still freezing at night is a good time to make an application of bone-meal to the lawn. Bone-meal is slow acting, and unless it is put out very early, not much benefit may be had from it the first year.

## Local News

Mrs. H. Blowers is confined to her home by illness.

A. T. Stewart of Dearborn was calling on his many old friends in town last week.

Ralph Carr of Dearborn was a guest of the Northville Rotarians Monday. He is county agricultural agent.

The spread of mumps about town continues. There are probably twenty-five or thirty cases, according to doctors.

The school children of South Lyon were taken to Detroit last week to visit the North American Flower show at convention hall.

Mr. and Mrs. A. E. Nielsen and family of Chicago, are spending a few days at the home of Mr. Nielsen's parents, Mr. and Mrs. Chris Nielsen.

A. H. Withey returned to his residence in Sparta last week after spending the winter months at the home of his daughter, Mrs. Glen Richardson.

Mrs. James Heeney and Miss Ruth Gillis entertained the Fleur-de-lis 500 club at a six o'clock dinner at the home of Mrs. Heeney, last Monday evening.

Miss Lucille Lanning, accompanied by her mother, Mrs. May Lanning, left on Sunday by train for a pleasure trip to New Orleans, Mobile and other southern cities.

Mr. and Mrs. Ralph Simons of Armona, spent the week-end with Mr. and Mrs. John Litsenberger. Mr. and Mrs. Bruce Osgood of Detroit, were also callers there Sunday night.

Mr. and Mrs. James Sterling and daughter, Bernice of Mt. Pleasant Mich., and Robert Campbell of Sudsbury, Ontario, were guests over Sunday at the home of Mr. and Mrs. Harold White.

Irving Ulrich has started a new milk route in Plymouth. He is rapidly picking up an excellent trade over there, as well as in Northville. Mr. Ulrich conducts one of the most sanitary and up-to-date creameries in the state.

E. L. Fowler who has been working at the McCordie & Wilson plumbing shop for the past month, plans to return to his home in Remus at the end of the present week. This shop has been exceedingly busy during the past few days.

Monday evening Northville Rotarians will entertain their ladies at a special entertainment to be given at the Presbyterian church dinner room. The program is being prepared by Edna Keene, who is chairman of the entertainment committee.

Chief of Police William Safford has recovered the Chrysler automobile stolen from Northville a few weeks ago. The car belonging to an employee of the Meadowbrook Golf club was badly damaged and shot full of holes. Apparently it had been used in a hold-up's way.

Mrs. D. E. Martin of 122 Rogers street had as weekend guest, George Beard of the University of Michigan. Mr. and Mrs. Oliver Tackett of Edinburgh Drive, Rosedale Park. Mrs. Elizabeth Riley of Detroit. Misses Julia May and Ann McGuire of Detroit and daughter Ethel of Hubbardston, Michigan.

Northville and vicinity Monday night experienced a typical March change in weather. For several days spring-like conditions had prevailed. The rain that had fallen during the day changed to snow during the evening and by midnight a regular blizzard prevailed. It was one of the hardest wind storms of the year although no damage was reported.

Mrs. Clayton Nogar and son, Thorleif, and Mrs. E. E. Nogar were in Northville for a short time Monday afternoon. They were driving to their home in Dundee from Brighton, where they had been for a brief visit. Mrs. Nogar, nee Gertrude Brown, was a former Northville girl, and has many friends who reside here. She states that twice on the trip she had to be pulled out of the mud.

At the Methodist Episcopal parsonage by Rev. William Richards, Kenneth Wyers was united in marriage to Della Vahl Gordon. Both young people were from Milford. Their witnesses were James Horley and Miss Ruth Honey of Plymouth. The ring service united the happy pair who will make their home in Milford. Kenneth was a Sunday school boy in one of the pastor's parishes in the Thumb of Michigan.

Miss Leila Roberts has resigned as president of the Northville Epworth League. She has served as president for the last four years, and during that time has given much of her time to the organization. As a result of her efforts, the Epworth League has greatly prospered. She has also held two other offices in the League, as well as being a district officer. The members greatly regret that she finds it necessary to give up the work she has done so well.

George Hottinger, formerly located in Walker's billiard parlor, announced the first of the week that he was opening a new barber shop in the Elly building on North Center street. The shop will be known as the Center Street Barber shop, and will be one of the finest equipped places of its kind in the village. Mr. Hottinger announced that he intended to take his son in the business with him, and that they will be open for business about April second.

After a brief illness of scarlet fever, Laura Mable Bezore, the twelve year old daughter of Mr. and Mrs. Leo Bezore of Novi, died at her home Sunday, March 18th. Funeral services were held at the Schrader undertaking parlors in Northville. Besides her parents she leaves to mourn their loss two brothers, Leon and Roy, and a host of relatives and friends. The girl was a very likeable child and will not easily be missed by her relatives but her friends as well.

Robert Austin was a visitor in Northville over the week-end.

Mrs. Clifford Casterline entertained her bridge club at a six o'clock dinner, Monday evening.

Mr. and Mrs. F. S. Neal attended the North American Flower show in Detroit Saturday afternoon.

**THESE TWO PLAN  
TO KEEP GOING  
AFTER THEIR MAIL**

Charles Dubuar and Sara Knapp not Going to Change Old Habits.

For something over half a century or thereabouts two of Northville's well known citizens have each week day wended their way to the local post office to "see if there is any mail." They first started going to the Northville postoffice when there were lads, and all during their successful years in business the practice was continued.

As years advanced and they released some of their business activities, even then they continued to go to the post office after the mail.

A few days ago free city delivery was started. The next morning both of these estimable citizens appeared at the postoffice to see Postmaster Neal.

"I want to keep my boy, Frank. You know I have come to the postoffice so many years for my mail. I don't want to change now," was the almost identical assertion of both.

So you will see Mr. Dubuar and Mr. Knapp each forenoon and afternoon going to the postoffice after the mail.

Habit is a funny thing.

Make orange gelatin sometimes for dessert using fresh oranges. Put one envelope or ounce of gelatin into one-half cup of cold water to soften for about 2 minutes. Squeeze as many oranges as you need to make 2½ cups of strained juice and add the juice of half a lemon to intensify the flavor. Put one cup of water to heat with three-fourths of a cup of sugar or less, depending on the acidity of the fruit. When the syrup is boiling, take it from the fire and pour it over softened gelatin into a pan until the gelatin is entirely dissolved and mix with the orange and lemon juice. The latter are not necessary. Strain into a large custard dish and cover with a layer of custard with it or pile in a wedge of cream.

These sugarless conditions, matching the character of the birds, are not only more sanitary but also more economical than parading with hens particularly when the eggs are to be sold. Besides the incubating has the distinct advantage of hatching a few or even a dozen chicks at a time, and in the use of the cooing hens to solve the problem of reproduction.

The bird's nest may be easily removed by pulling a deep hole with a sterilizer, cover with a layer of soft earth, plant the roots a couple of feet or more apart in the low.

Do not let the bird's nest need several days of incubating. Prepare a deep hole with sterilizer, cover with a layer of soft earth, plant the roots a couple of feet or more apart in the low.

Individual young trees or shrubs that are to be moved. Dig the tree in the location before you dig up the root or trunk, and be careful to have the hole both wide and deep enough to accommodate the plant.

At the time of unavoidable days to repair the lawn mower or any other garden tools, paint fences, trellises, plant stakes, build benches and other garden furniture and fittings.

It will be too late to do any dormant spraying. Prepare a timely sulphur solution and spray thoroughly at once.

Clean your apples and pears and spray them at the right time. First, when the cluster buds show pink and are separate later when one of the petals have fallen and the end of the apples closes.

A smile warms the heart, but a flower warms both heart and soul.

**Using-Up the Radiator Space**

Till late often rooms in houses which derive their heat from other sources than radiators are turned off the heat is too great? In such cases radiator space is effectively used by a simple bookcase made of shelves constructed above and at the sides of the radiator.

There are separately a few days when all radiators in a house or apartment need to be turned off to maintain the proper temperature and the one least used may be easily turned to use. Even if the heat is excessive, then there will not be any danger due to the heat of the

**MAIL SERVICE IS WORKING OUT TO NEAR PERFECTION**

**New Carriers are Rapidly Working Out the Two Routes**

Northville's free mail service is under way. For over a week now local residents have been receiving their mail delivered direct to their homes—and in such a short space of time the carriers have worked out their routes most satisfactorily.

It would naturally be supposed that it would take weeks for the service to get down anywhere near perfection, but the new carriers have been able to do this in a brief space of a few days to take out the little kinks that at first caused so much bother.

By the end of another week Northville's mail service will be working as perfectly as though it had been in operation for years.

Do not burn the garden rubbish pile—it and other similar waste materials

one of the largest mounds of a town of its size in the country.

**BOTTOM GOES OUT OF GRAVEL ROADS NOVI ROAD CLOSED**

**Usual Spring Condition Prevails off of Paved Highways**

With the coming of warm weather paved highways in this section dropped out of sight and, as usual, every spring the Novi road was impassable.

Those wishing to travel over to Grand River were forced to go on the Seven Mile road to Farmington. The South Lyon road was closed during the early part of the week, and a similar condition prevailed on most heavily traveled gravel roads.

The Novi road broke up Sunday and machines that tried to get through Monday had to be pulled out.

A Detroit creamery truck went through the road just opposite the Northville-Stanton airport and blocked that road for several days.

The greatest inconvenience to the traveling public was on the Novi road, and its condition will probably hasten the decision of the state highway department to take some action with it as soon as possible.

To prolong the blooming season of the annuals, start some seeds indoors now.

Because so many of my friends have urged me to run for township highway commissioner on stickers, I have decided to do so.

This is how to vote by stickers—I will have some one at each precinct with stickers. My name will be printed on them. Take one and paste it over the name of Joseph Montgomery.

After you have done that be SURE and put a cross in front of my name. It will NOT count unless you do so.

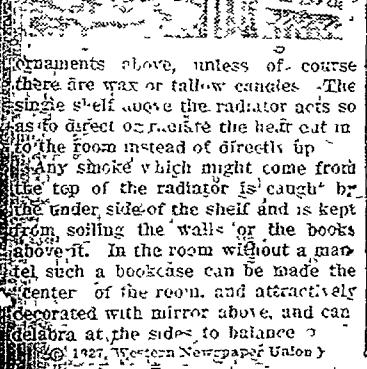

Mark it just like this:

Any smoke which might come from the top of the radiator is caught by the under side of the shelf and is kept from soiling the walls or the books above it. In the room without a mantel such a bookcase can be made in the center of the room and attractively decorated with mirror above, and candleabra at the sides to balance.

# Who wants to go back to the “good old days” anyhow?

**G**REAT-GREAT-GRANDMOTHER carded her own wool, spun her own thread, wove her own jeans, and made the whole family's clothes. She built her own fire, fed the chickens, tended the garden, milked the cow, baked her bread, canned her own fruits and vegetables, took care of the house, worked twelve to sixteen hours a day—and still found time to raise a family!

Great-great-granddaughter finds that the genius of American industry and distribution has most of the hard, back-breaking toil, that grandmother endured with fine resignation, already done for her.

Who wants to go back to the “good old days” anyhow?

The advertisements, more than any other thing, have increased our standards of living, by bringing us news of new things, new ways of doing things, new things to want . . .

And then by the vast competition of modern business have made them easier to get, more economical to buy. Read the advertisements in the Record. They will tell you how, and where to save money, how to gratify your desire for the highest possible standard of living—at the lowest cost.

Advertising shows you how to save money by spending it wisely.

Advertising is an invaluable help in the vital matter of getting most for your money.

GROUND IS NEEDED  
Declares Northville is Acting Wisely in Plan to Expand Grounds**

The following interesting letter from Margaret E. Weiler, former local instructor, now teaching in one of the schools of Flint, will be of more than ordinary interest to Northville residents:

Dear Editor:  
Enclosed find one dollar and fifty cents for my Record. I like the paper very much and look forward to it each week. This is my ninth year away from Northville, and I find many changes have taken place since then. I taught in Northville nine years, and made many dear friends during that time. I am glad Northville is doing more for their schools. The school must keep pace with a city or village at all times because the schools of today make the men and women of tomorrow. I am enjoying my work as a mathematics teacher in the Whittier Junior High School. We have a lovely new building and have seventeen hundred pupils in our building.

Kindly send my paper to 908 S. Kennelworth during the next 12 weeks - I usually go home every week-end, but roads are getting bad now.

Sincerely,  
MARGARET E. WEILER

**AIRPLANE OPENS UP RICH COUNTRY STATES VISITOR**

Canadian Mine Official Lauds Performance of the Stinson

A Stinson airplane was the second plane to be used in Northern Canada by J. H. Neal of Toronto, Wednesday evening at the regular meeting of the Range Club. He declared that the Stinson planes that were in use are still flying and that no one has yet beaten the same satisfaction as his.

In a brief talk, Mr. Neal made before the club he said that nothing has done so much to develop Northern Canada as the airplanes that are flying there today. These ships flying between Sioux Lookout and the Red Rockford area have been the greatest factor in developing this land that the country has known. He says that through the advantages offered by the air lines in that vicinity that the country has advanced five years, and that future advancement will be more rapid. Last year \$1,000,000 worth of gold was taken from Northern Canada, and this was possible only after an air line had been established to carry prospectors, engineers and supplies into that country. The trip that the Stinson plane made in little over an hour takes six days by dog team, which is the only possible mode of travel.

Mr. Neal believes that in time Northern Canada will have many air lines into the gold and mineral fields.

MAKES APPEAL TO  
SAVE FORT WAYNE

Former Legion Commander  
Says Congress Should  
Pass Bill

So frequently has Col. Gus Gansser of Big City Past Department commander of the American Legion appeared in Northville at Legion meetings as a luncheon club speaker that the recent appeal written by him in the American Legion Weekly Review to save old Fort Wayne is of more than ordinary local interest.

Col. Gansser, good old "Co" Gansser, Irving T. and Carl Bryan were in the same field on the battlefield this morning. Armistice was declared. His sister's article follows:

The ideals of all wars of which we are so anxious to preserve Fort Wayne to Detroit and Michigan as an historical monument and public park. Congressman Clarence J. McLeod has introduced H. R. 12001 in Congress, pronouncing for making Fort Wayne a park. The bill is in the House. Congressman Frank James is chairman of the committee on military affairs. American Legion Legioneers are urged to press James, urging favor on the McLeod Bill as a state has received very Congress in the way of his recognition in war are gone. Here is a unity to save a historic Legion action will

be taken. American were France and Europe at the \$1,000 per month. The General Powers were making their historic battle at Cambrai and preparing of the Chateau Thierry. Many divisions were coming from the Russian front to help this victory in the field before the Americans could effectively enter into the European battle front.

Americans had spent a whole year in preparation for their participation in this greatest war drama of the ages. Personal work is needed. The ships that brought Yankee fighting units also brought back the crippled and disabled, as never before. But veterans of the army and navy have become used to the singularity of modern chemistry and mechanical art has been invoked to create, so that casualty list grew. All the whole amount claimed to be unpaid on said mortgagors, a big opportunity lost.

As early as March, 1918, the ships that brought the Legion on the map the debt now remaining secured by the power of sale contained

the Legion membership in the South. Now therefore, notice is hereby given, that by virtue of the said power being recruited for service in April, in the year 1928, at 12 o'clock noon, eastern standard time, of that day, which said premises are described in said mortgage as follows:

There has been considerable talk in Northville about the organization of a chamber of commerce. Up to the present time there hasn't been much success. Plymouth recently staged a very successful membership contest for its chamber of commerce, and now comes word that South Lyon business at a recent meeting found a chamber of commerce so beneficial that the organization will be continued, and at the first meeting of the newly elected

board of directors, L. E. Lorenzen was elected president, T. P. Hall, vice president, T. J. Smith, treasurer, and H. J. Smith, secretary.

At the recent election held by the general board the following men were elected directors: R. J. Smith, L. E. Lorenzen, D. P. Hall, J. B. Comiskey, F. F. Phillips, W. A. Kalmbach, L. W. Stanfor, J. E. Biederstadt and H. J. Smith.

of Interest

The following review of work that has been accomplished in Plymouth by the retiring administration during the past year will be of more than usual interest in Northville. The report made by Henry J. Fisher, retiring president of the village commission deals considerably with the water problem of that place.

He points out that by the recent big raise made in water rates the yearly deficit of \$15,000 will be gone away with. He also declares that steps have been taken to stop the tremendous loss from leakage at the reservoir.

It follows:

There were 3,612 feet of water mains built at a total cost of \$10,996.42.

The cost of maintaining our water mains during this period was \$448.72.

There was \$2,223.35 spent for storm sewers in the Hough subdivision out of this budget for 3,443 feet of sewers which were completed last April.

Nine hundred dollars was paid on a storm sewer on Arthur street which had been built previous to this year.

One hundred and eighty-six feet of 12-inch storm sewer built on Penniman avenue from Garfield avenue west cost \$498.61.

A 12-inch storm sewer built on South Harvey street for a distance of 230 feet costs \$40.26.

Six hundred six dollars and seven cents was spent for capital outlay on storm sewers.

There were 2,726 feet of storm sewers put in on Penniman avenue, Arthur street and Garfield avenue at a cost of \$8,883.74. The sizes of these sewers were from 12 inches to 42 inches. These were laid out and inspected under the manager's direction, which saved the village two and a half percent of the above cost which would have been paid to Hoad, Decker, Shoecraft & Drury in addition.

There were 3,582 feet of 8-inch sanitary sewers completed this year of the 1926 sanitary sewer program. All of 1927 sanitary sewer program consisting of 3,632 4 feet of eight-inch sanitary sewers with 11,587 feet of house connections were completed this year.

In addition there was a large number of house connections made to the 1925 and 1926 sewer programs. Lead pipe water connections were put into every lot on Ann Arbor street, from Main street to Mill street and also on Penniman avenue from Harvey street to Moreland avenue.

Changing the contract with the Detroit Edison company for pumping of water at the spring from a flat rate of an energy contract caused a saving to the village of at least one thousand dollars per year. Repairing the water reservoir, which holds 1,750,000 gallons of water by closing the cracks properly as is being done now will save a large amount of money. The estimated amount of water saved in one month

**PRESIDENTIAL PRIMARY  
ELECTION**

Notice is hereby given that a Presidential Primary Election will be held on

**MONDAY, APRIL 2, A. D. 1928** at the place of holding the Annual Township Election in the Township of Northville, County of Wayne State of Michigan, due legal notice of which place of holding said Annual Township Election has been given.

At which election the qualified voters of the several political parties shall have the opportunity on separate ballots provided for that purpose to express their preference for the office of President of the United States.

The name of any candidate for the office of President of the United States shall be printed on the official primary ballot solely upon the petition of their political supporters in Michigan, which petition shall be signed by not less than five thousand of the qualified voters of such political party and said petition shall be filed with the Secretary of State on or before twelve o'clock noon, March first, nineteen hundred and twenty-eight.

Separate Ballots for Each Political Party are to be provided. The Candidate receiving the highest number of votes in this state at said election shall be declared to be the candidate and the choice of such political party for this state.

The polls of said Primary Election hereinabove designated will be open at 7 o'clock a. m. and will remain open until 5 o'clock p. m. of said day of election, unless the Board of Primary Election Inspectors shall in their discretion adjourn the polls at 12 o'clock noon, for one hour.

Dated February 20, 1928.  
ERNEST MILLER,  
Township Clerk.

after the reservoir is repaired will pay for the total cost of repairing it. The 450,000-gallon water tank should be connected automatically with the booster pumps so that the water in the tank with float on the line and keep the water pressure between certain limits at all times. This has been the plan of the commission.

The change made in the water department by making it self-sustaining will save the village a deficit of about \$15,000 per year without working an injustice to anyone. The \$45,000 includes the depreciation as well as the retirement of water bonds which the water department should justly stand.

The village has been buying good road gravel for \$1.00 per cubic yard all winter. When the manager came here in the spring the village was paying \$1.75 per cubic yard.

Through the efforts of the manager all the cinders that have been put on the roads since last fall were put on at a great saving to the village, as only the cost of hauling them was paid for.

**WINDOW PEEPER  
GETS FINE OF \$25  
FOR HIS OFFENSE**

Newcomer to Town Caught by Chief Wm. Safford. Pleads Guilty

George Douglas, who came to Northville a short time ago from the Thumb district, isn't going to do any more window peeping in Northville.

The young fellow started out to have a lot of fun for himself and to create a lot of annoyance to local residents by going from house to house looking into the windows during the evenings.

Several reports were received by Chief William Safford, and finally during the later part of last week, he trailed up some of the calls he received from up the neighborhood of Dunlap street and caught Douglas as he was hurrying away from one house.

He was taken before Judge E. R. Perrin the next day and given a fine of \$25 or 70 days in the Detroit House of Correction. He paid the fine and promised no longer to bother local residents by peeping into their homes.

When company stays too long just treat them like members of the family and they'll soon beat it.

Livestock shippers should take pains to protect animals from injuries that will cripple them while they are on the way to market. At one of the large markets two scales are provided for weighing crippled hogs.

Last year 30,545 animals with a total weight of nearly 7,000,000 pounds were weighed over these scales.

Four firms purchased these animals at a discount of from \$2 to \$4.50 per cwt.

The shippers can be calculated easily, and much of it might have been avoided by proper care in loading.

One of the big windows in the front of Colens store was broken Thursday night or early this morning.

The Northville Telephone Company has placed phone No. 701 in the new grocery store of VanAken and Ryder.

Mrs. Daniel Shaffer and grand-daughter, Ethel, returned Tuesday from a visit of several days with Mr. Shaffer's son at Holly.

A little son arrived Monday, March 21, at the home of Mr. and Mrs. W. J. Krueger, who live on the Leatharter place north of town.

Fred Vansickle has taken the place of A. B. VanAken as agent for the Standard Oil Company here. Mr. VanAken will resign to go into the grocery business.

The new grocery firm of VanAken and Ryder is now in running order with Steve Safford as head clerk.

The store presents a very neat and business-like appearance. The firm will no doubt receive its share of the patronage.

Spencer Hammond was instantly killed Wednesday at the Novi crossing, when a fram rushing through at almost lightning speed, struck him. He had been a resident of Novi for nearly all of his life. He had been married, but a few months, and was highly respected in the community.

Many Northville people will be interested in the following from the Carleton Times regarding a former resident of this vicinity. Our local ball pitcher, Harry S. German, has signed a contract with the Toledo League club for this season at a salary of \$250 a month and expenses. He will be obliged to play but 2 games a week.

Misses Viola McCulligan and Dottie Hayfield gave a bunch party at the home of the former Wednesday evening, entertaining forty of their young friends of 11 to 15 yrs. of age. The first prize was won by Arthur Wolfe who obtained it by playing a tie with Willie Hinman, and the consolation went to Harold Tibbets of Novi. It is needless to say the youngsters had a delightful time.

**Important  
Announcement  
to every owner of a  
Model T Ford**

ON MAY 25, 1927, when Henry Ford first announced his plans for making a new car, he announced also that he would continue to make parts for the Model T Ford. He said:

"The Model T Ford car was a pioneer. It blazed the way for the motor industry and started the movement for good roads everywhere. It broke down the barriers of distance in rural sections, brought people in these sections closer together, and placed education within the reach of everyone. We are still proud of the Model T Ford. If we were not, we would not have continued to make it so long."

For twenty years, the Model T Ford led the automobile industry and it still serves more people than any other automobile. Over one-third of all the automobiles in use today are Model T Fords—an indication of the sturdy worth of the car and its value to people in all walks of life the world over.

The Ford Motor Company will continue to make replacement parts for these cars "until the last Model T is off the road." That is a part of Ford service. That is what Henry Ford meant when he said: "We believe that when a man buys one of our cars we should keep it running for him as long as we can and at the lowest up-keep cost."

Because of this policy a considerable part of the Ford manufacturing plants is given over to the making of parts for the Model T Ford. These replacement parts are made of the same material and in the same way as those from which your car was originally assembled.

Make it a point, therefore, to see the nearest Ford dealer and have him look over your Model T Ford. You may find that a very small expenditure will enable you to get thousands of miles of additional service, and at the same time protect the money you have invested in your car.

Northville this week lost by removal one of its excellent families and Mrs. George R. Ogilvie having moved to Clifton Springs, New York, where he will have charge of one of the largest certified dairies in the Rochester district. He will have supervision over the consolidated properties of the Lehr Dairy company and the Phillips & Hicks Dairy company.

The two companies have been purchased by Kenneth B Coulter of Clifton Springs, New York, in addition to considerable other farm property in that section.

The Rochester paper in speaking of Mr. Ogilvie says:

"Mr. Ogilvie is no stranger to this section. He has been a successful breeder of purebred Holstein and Guernsey cattle and was the first president of the Monroe, Ontario and Wayne Holstein club, and has been active in the campaign to eradicate bovine tuberculosis."

The family came to Michigan from New York and for some time he was in charge of the dairy business conducted here by Mr. Angier. The oldest son, a graduate of the Northville

**TOO BAD, BUT IT'S  
TRUE—PEDDLER  
TRIMS HOUSEWIVES**

**A Number of Northville  
Ladies Fall for Gent  
from Big City**

Does it pay to buy from peddlers?

A number of Northville ladies have come to the conclusion that it does not.

NOT

The other day a gent came to town

high school last year, is now a freshman at the University of Rochester. The family left here Monday.

The meat markets of Northville were well supplied with fresh fish of all kinds. And every market in town had a very liberal supply on hand—fish but a few hours out of the big lakes.

The Detroit gent was driving a delivery wagon. He called from house to house,

"I've got some nice fish, just caught.

If you buy them from me, it will save you money," he said.

Surprising, but a lot of ladies bought.

They paid the regular retail price, notwithstanding the peddler's assertion

that the fish were being sold dirt cheap.

But what happened?

When the hubbies came home from work, a lot of wives wanted the fish cleaned.

Find what did the hubbies find?

Well, to make the story short and to the point, Northville housewives bought a load of spoiled fish, paying out many good dollars that no one just at this time can afford to throw away.

The moral of the fish story has been taught at home. Mrs. Wife could take them back to the market if they were not good and get her money back.

The puzzle—try and find the peddler to get your money back from him.

Do not prune shrubs at this time which bloom on last year's wood.

**LOCAL ATTORNEY  
DISCUSSES PAVING,  
COSTS, BENEFITS**

Fred J. Cochran Speaks Before Exchange Club of Farmington

In an address before members of the Exchange Club at Farmington last week Attorney Fred J. Cochran of this place, told the business men of the neighboring community of the benefits of paving and gave to the people there much information about the subject.

Farmington is contemplating a paving program this year, than was carried on by Northville last year. Farmington is going to do more than twice as much paving during the coming summer than Northville did.

Following is a portion of a report of the Farmington meeting that appeared in the Enterprise:

The paving of streets in a town like Northville or Farmington costs six dollars per running foot of each foot of the road and assessments may be spread over a period of ten years. It was explained to members of the Farmington Exchange Club, Wednesday night at the weekly luncheon meeting, by Fred J. Cochran of Northville, that Cochran's remarks on Northville's experiences aroused much interest and enthusiasm among members of the club for a paving program in Farmington.

The cost of six dollars per running foot, or \$360 for a 50-foot lot, for example, included, Mr. Cochran said, the construction of a new storm sewer, setting of curbs, laying a six-inch concrete base and a two-inch asphalt surface.

In advising on the preparation and carrying out of a paving program, Mr. Cochran said that the leaders of the movement in Northville found, of course, a number of objectors. The provision for ten years in which to pay for the paving instead of the more usual six years, eliminated many of the objectors, Mr. Cochran said, and when the time for decision came, there were only three or four who protested.

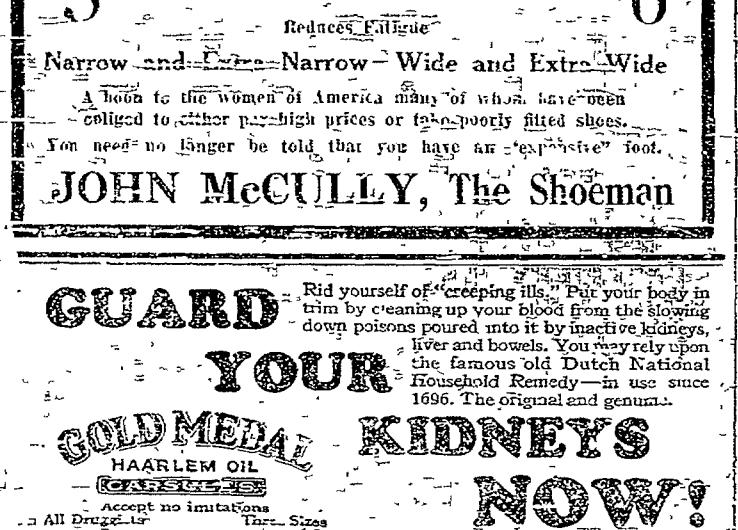

Mr. Cochran said that those in Northville who opposed the paving program had become its ardent supporters, and we already have more petitions for additional paving than

Washes, Carries Coal, Woman Gains 18 Pounds

"If you expect to attract to your town the kind of people you want to have," Mr. Cochran said, "you must make them the things they will want. It is no longer possible to take people out into an open field and point out that the city hall will be here, and the school will be there, because they won't believe it."

Mr. Cochran advised in regard to the bonds, and strongly urged the advantage of getting large companies to bid on the work. Making a job big enough to interest the big companies, however, because it takes \$100,000 worth of publicity to properly start up the work. If you have big companies they will do the job for you.

can hardly keep track of them."

"Mr. Cochran said that the entire village of Northville, since riding over the new paved streets, are very much pleased. "We have concrete paving on our main streets and asphalt on our residential streets. Asphalt is quieter and raises no dust," Mr. Cochran said.

The Northville man offered any aid that he or others can in that town might give, and advised that Farmington adopt a paving program the year if it wished to grow. He was brought to the Exchange Club meeting by Howard Warner.

**SCHOOL TROUBLE  
IN FARMINGTON  
CAUSE OF BREAK**

Superintendent and One Member of Board Resign as Result

Farmington right now is experiencing one of the first school disputes it has had in many years. As a result of the differences, the superintendent has already resigned, and it is said that one or two members of the board are threatening the same thing.

The Farmington Enterprise, in speaking of the clash says:

Superintendent of Schools, Arthur Leonard has resigned, and School Trustee, Fred L. Cook, has declared

that he will quit the board at the end

of the school district year in the first

disturbance occurring in the Farmington school system in years.

Superintendent Leonard, for seven years head of the Farmington schools, will leave on July 1st.

Mr. Cook desired it is understood to resign from the board at once, but other members persuaded him to remain until July, when the annual election of the board of education occurs.

Mr. Cook's term does not end until July 1929.

Though he has not filed a written resignation, Mr. Cook has indicated

that he will not change his determination to resign as a trustee.

It is understood that differences regarding salaries favored by a number of board members led to the up-hill battle.

According to the Enterprise, Mr. Cook reported abandonment, planned for next year, of the school year system and other changes including it is said elimination of the opportunity room at the

school. Board members admitted a resolution has been passed against the continuation of the school nurse's position after the present year.

Mr. Cook, asked regarding the reasons for his resignation, said that he could not bring himself to be in accord with certain policies of the board, and that in that circumstance, he believed it best that he resign.

While the policies of the board described as an "economy program" by some, are said to be responsible for the development in the school situation, it is hinted that other factors also had their effect.

Members of the board are reluctant to discuss the matter, in view of the many conflicting reports.

President N. H. Power of the board stated merely, that Superintendent Leonard's resignation had been filed and had been accepted.

It is believed that members of the board will be elected then, from present indication.

The terms of President N. H. Power and Trustee Floyd H. Nichols expire this year and with the resignation of Mr. Cook, if it is filed, three places will be open to the voters to fill.

The recent happenings in the school district affairs have centered the

tension already on the election to be held in July, inasmuch as the majority

of the board will be elected then, from

present indication.

The terms of President N. H. Power and Trustee Floyd H. Nichols expire this year and with the resignation of Mr. Cook, if it is filed, three places will be open to the voters to fill.

Board meetings has been quiet, and there has been outward sign of dissension prior to the filing of the resignation of Mr. Leonard.

**HOW ONE OF NOVI RELATIVES OF P. T. BARNUM SAW SHOW**

Albert Shirliff Who Lives Over North, Recalls Circus Visit

Outside the big tent the Barker with the loud voice—the Barker is a success without one—was speaking at great length about the tattooed lady.

"And she dances, she dances," he confided to his audience.

Several feet from the Barker stood a small boy, whose countenance reflected his burning desire to have a glimpse of what 50 years ago was about all the people knew about moving pictures. The boy fingered a few loose coins in his pocket.

Should he spend a dime to gratify his curiosity, he wasn't sure that he might see it as guest of the manager.

Guest of the management! Well, why not? Wasn't this stupendous, awe-inspiring World's Greatest Show the property of a relative—the great and only P. T. Barnum? And more than that wasn't P. T. himself standing near the entrance to the big tent?

A relative? How did that relationship go now? Oh yes, the boy's mother's mother was a daughter of a brother of P. T.

The boy turned his back somewhat reluctantly on the tattooed lady and walked toward the owner of the circus.

What, some 55 years ago today had impressed itself on the mind of the boy as a great event in his life was about to take place. He was to meet P. T. Barnum and he paused for a moment to contemplate the effort he

made to bring about this meeting.

"Three months before he had left Barnum is coming to town," the town being Detroit, and then little more than a town, and from that time the lad deemed himself as many boyish expenditures as possible that he might make the trip to Detroit from his home on a farm near Novi. Early that morning, long before the summer sun had shone itself, he was up and on his way. It had been quite a journey by horse and buggy—but it seemed to be worth it.

"Padron me, Mr. Barnum," said the boy, "may I speak to you?"

"Sure thing," said the circus man. "What's on your mind?"

"Do you know the Brandenburgs?" asked the boy.

"Bet I do," said Mr. Barnum. "I know all of them, and I understand there are a number out in Oakland county relatives of mine. For instance, there is Delos Brandenburg."

"He's my uncle," said the boy. "I'm Albert Shirliff."

"I know the Shirliffs," said Mr. Barnum. "I have some cousins there."

"My mother is your cousin," said Albert. "I have heard her talk about you and I came down today to see your circus."

"Well, now, isn't that fine," said Mr. Barnum. "One of my relatives come to see the circus. We're a great circus here and I want you to see it all. Take in the big show, and stay for the aftershow. See the sideshows. That midway is my own idea. My friends are a great thing with the American public. Run along now and don't miss anything."

"Well, now, thought Albert Shirliff, that was just what he had come for to see everything—and with a hurried though gracious thanks, he lost no time in making his way to the entrance to

the big tent.

"Ticket," demanded a husky individual with a red coat and cap to match.

"Quite right," said the man in the red coat and cap to match, "Barnum is right, it's the greatest show on earth."

Adults, 50 cents; children, 25 cents."

Albert turned to look for Mr. Barnum. The latter was gone and the band started to play on, the music inside the tent. Albert drew forth a treasured quarter—and was on the inside of a small boy's heaven.

It was a great afternoon for Albert. In the afternoon he still thinks of as he sits in the window of his farm home in Novi township, watching the sun go down on the day and the years.

He saw the big aftershow and then started at one end of the midway in quest of Mr. Barnum and the "restriction" or not permitting himself to pass a sideshow so long as his small cash reserve held out.

He saw the fat lady, the living skeleton, the snake charmer, Jo-Jo, the Dog-faced Boy, The Wild Man of Borneo, took, figuratively speaking, his last dime. He missed out on seeing the tattooed lady do that dance where she wriggled like a boat at sea in a storm.

"Do you really think Barnum ever made that crack? There's one born every minute?" a friend once asked Mr. Shirliff in afteryears.

"I do, and agree with him," said Mr. Shirliff, "and sometimes they are relatives."

claimed to be due on said mortgage at the date of this notice is the sum of \$2,871.60 of principal and interest, and the further sum of Thirty dollars as an attorney fee stipulated for in said mortgage, and which is the whole amount claimed to be unpaid on said mortgage, and no sum of proceeding having been instituted at law to recover the debt now remaining secured on said mortgage, or any part thereof whereby the power of sale contained in said mortgage has become operative.

**PLANS COMPLETE  
FOR J-HOP TONIGHT  
AT HIGH SCHOOL**

Junior Class Has Worked  
Out Excellent Program  
for Evening

The annual J-Hop will be given tonight in the high school gymnasium from 9:00 until 1:00 o'clock. All plans have been completed by the committee, and today the high school is in a bustle with the big event only a few hours away.

Jean Goldbergs' Ringers under the direction of John Burns will furnish the music. It is a seven-piece orchestra, featuring a trio of singers who are sure to "pop" things up. The grand march at 11:00 o'clock will be led by Rudolph Weyant, president of the Juniors class, and Miss Edna Martin, a Sophomore. Miss Josephine Hayes' class editor, will be the official cicerone. It is estimated that five

hundred dancers and spectators will fill the gymnasium tonight.

Plans for decorations will not be let out by the committee, and the doors swing open for the big party tonight.

Refreshments and novelties will be other features of the dance. Tickets are on sale at \$2.00 per couple.

scenes and emotional moments; while Roland, in the masculine lead; Armand Hall, as a Creole fashion-plate; and others, indulge in the gentle art of fencing, with brilliancy and prowess. There is also some exciting broadsword play with slave-running pirates in the early sequences.

Noah Beery plays the part of a husky and belligerent slave-runner, a typical corsair.

Reynold Turner is a funny Negro body-servant. The scenes are exquisite and dramatic by turns, and throughout there is a vein of romance that is inseparable from New Orleans more than a hundred years ago.

**COLLEEN TOOK MUD BATHS DURING FILMING**

Colleen Moore took six partial mud baths during the filming of her newest starring picture, "Naughty But Nice," which will be shown at the Penniman-Allen theatre April 3rd, but not for beauty's sake.

Six times she stood in the middle of a dirt road while Donald Reed, who plays the chief male role in her support, whizzed past in a flashy roadster. Six times the right front and rear wheels of the big car hit a mud puddle and hurled muddy water into her face and over her new and expensive clothes.

The sixth application suited Director Webb, and the scene was given the official stamp of approval. How, in the story, Colleen gained revenge for the mud-bath is an interesting part of the plot.

John McCormick produced "Naughty But Nice" for First National release. Other supporting players in this story of a girl's finishing school include Claude Gillingwater, Hallam Cooley, Kathryn McGuire, Edythe Chapman and Clarissa Selwynn.

**BURR MCINTOSH STARS IN COMING ATTRACTION**

Aside from being an actor on both stage and screen, an art photographer of international reputation, an author and a lecturer, there is virtually nothing that Burr McIntosh can do. McIntosh, a "veteran" actor of many years experience plays a prominent role in "Sailors' Wives," First National's production of the Wagner drama now showing at the Penniman-Allen theatre April 5. Marjorie Astor and Lloyd Hughes are featured.

McIntosh has toured the country several times on the lecture platform and has been featured behind the footlights in "David Harum," "Way Down East," and other plays. He has interspersed all this with occasional film work, and is now devoting all of his attention to the screen—all of it, that is except for the portion he devotes to photography.

The cast of "Sailors' Wives" includes Eddie Lowe, Olive Tell, Ruth Dwyer, Glynne Whitman, Jack Mower and others. Henry Hobart produced the story for First National Pictures and Joseph Henabery directed.

**KEN MAYNARD IS A GRADUATE ENGINEER**

Although Ken Maynard, the popular

western star is a graduate civil engineer he has never practiced his profession. He joined a circus right after getting his degree and became their star stunt and trick rider until his entry into motion pictures. His latest feature, "The Wagon Show," a story of circus life is now playing at the Penniman-Allen theatre, April 7.

Ken Maynard, star of "The Wagon Show," his latest western now playing

at the Penniman-Allen theatre, is one of the few cowboys in motion pictures who did not come direct from the range. He secured his early training riding range on his father's ranch in Texas but the daring and trick riding which has won him world renown fame were learned in the various circuses he was with prior to entering pictures.

In "The Wagon Show," Ken Maynard's latest starring western, Ken

performs several of the daring stunts that won him the plaudits of the crowds when he was a member of Ringling Bros. circus.

Though the weather is still cold, clean out the bird houses so that they may be ready for occupancy when the birds arrive. Put up more bird houses if you can. These need not be expensive.
