Vol. LXIX, No. 8

Northville, Michigan, Friday, August 31, 1928

\$1.50 per Year, in Advance

## SCHOOL TERM TO START WEDNESDAY MORNING AT 8:30

Greatly Increased Enrollment is Expected by Officials

**School Days, School Days.**  
For the children of Northville and vicinity, school days will be resumed Wednesday morning, September 5th.

For the schoolmarm, school will really start on Tuesday, for Supt. Gordon has called a teachers meeting for that date and the instructors will be busy during the entire day getting acquainted with their duties and the routine that is to be followed through the year.

There are to be no radical changes of any kind. The school has been considerably strengthened, a mathematics instructor having been engaged who will give his entire time to the teaching of this one subject. It is believed that far better results can be obtained under this system than having a dozen or so different teachers instruct the children of the various grades in this subject.

But few faculty changes have been made, says Supt. William Gordon. Experienced teachers have been picked for the new vacancies that exist. A greatly increased enrollment is expected. The attendance last year exceeded that of the previous year, and those who are in a position to know state that the increase this year is sure to be considerably more than it was a year ago.

### POSTOFFICE TO CLOSE MONDAY, LABOR DAY

Postmaster Frank Neal announces that there will be no delivery of mail, except special delivery letters, on Labor Day. This will apply to parcel post also. All sections of the main postoffice and carrier stations will be closed to the public Monday, except from 8:30 to 10:30 a.m. There will be a general collection of mail throughout the city, beginning at 4:00 p.m. that day.

Mr. and Mrs. E. C. Langfield have gone north for a few days. They will spend the time at Glenn lake.

Another concert was given in Milford Wednesday night by the Northville band. Milford residents are greatly pleased with the community school band. In fact, those who have heard it prefer the local organization to other bands that have been providing some of the concerts for Milford residents during the summer.

Mrs. George McVey and daughter of Detroit, have been visitors at the home of Mrs. William Saiford.

### BLUE-RACER SWINGS EDITOR'S VOTE TO HOOVER

Rev. Karl Keefer of Hastings, is a friend of the snake family, which he says has been most malignant, being a friend of the farmer by destroying rodents and other animals and insects that ruin his crops.

Rev. Keefer, being a minister of the gospel, naturally has no fear of reptiles, either imaginary or real and has succeeded in collecting a number of them for exhibition purposes, which he keeps in a big box. Recently he took his pets down to the town newspaper office and placed them in a window so that passersby could have a look at them also. The junior editor was out of the office at the time, but arrived later and took up his duties at the office typewriter without noticing the box in the window.

A few minutes later his hair rose up like a bum at a free lunch counter, when a seven-foot blue racer curled up on the back of his chair and began tickling him under the chin in a playful manner, with its tail.

What the editor said at the time was not given out for publication, but we have it from reliable authority he is not going to vote for Al Smith.

The usual grandstand admission will remain.

The Northville Association is following the example of the Ionia fair and its grandstand will be the only place where a charge is made.

President Nelson Schrader says the association is going to limit this year to make the fair an outstanding one in the state and he believes that from all indications that the effort will prove a success.

The grandstand is almost in readiness. The big new cattle barn is about completed. Other buildings on the grounds are being put in shape and by the time September 18 arrives Northville will be ready for the biggest and best fair the place has ever had.

### EXCHANGE CLUB RUNS "SUNSHINE SPECIAL FOR TOTS"

Over 100 Youngsters Taken Out to Walled Lake for Day of Fun

Thursday morning the "Sunshine Special" of the Exchange Club left Northville with 100 little children from the William H. Maybury Sanatorium for Walled Lake where the tots enjoyed a day of real pleasure, swimming, rowing, boats sliding down the toboggans and having all the pleasures Walled Lake offers.

The concession owners at Walled Lake did everything in their power to make the day a happy one for the children. There was no gouging of the little sick children as there was at the state owned park at Island lake. Some time ago when the Rotary club took a hundred of so of children from the same institution, they went to Island lake where the concession owners thought it great sport to extract the nickles and dimes from the little crippled, sick children. But over at Walled Lake, where it is privately owned, even the bathing beach, the owners did all within their power to make the event a success, and everything was free, even for the attendants who accompanied the children.

The youngsters left at 9:00 o'clock and even though the day was a threatening one, they had a good time.

Mr. and Mrs. Roy Crowe have returned to their home in Plymouth after a pleasant vacation. Unfortunately Mr. Crowe was confined to his home by a severe cold a few days after returning home, but he is now back to his duties.

Mr. and Mrs. Clyde McDermott and Mrs. Elizabeth McDermott of West Point Park, were guests at a dinner given by Mr. and Mrs. W. P. Seely in honor of their daughter's birthday at their home on Randolph street Sunday August 26th.

Little Betty Cushman of Lansing has been the guest of Eleanor Eaton for a few days.

Miss Helen Wyers of Reedsburg, is a guest of Miss Margaret Safford for a few days.

Construction of the steel frame for the new Edison building was completed during the present week.

Conrad Langfield left Tuesday for a week's trip in northern Michigan where he expects to join his father and mother Mr. and Mrs. Edward Langfield.

### EXPECT RECORD VOTE AT PRIMARY ELECTION SEPT. 4

Northville Run Over With Candidates Shows Interest

Tuesday September 4, the day after Labor day, is primary election day in Northville, and the rest of Michigan. For the week past the community has been run over and trampled down deep into the fertile soil of western Wayne county by the hordes of candidates from Detroit and elsewhere seeking Northville votes.

At one time Monday there were seven various contestants in town at the same time.

State Senator Otto Stoll finally located a place called Northville on the map of his district and he too rolled into town the first of the week.

The contest for the Republican nomination for state senator is a rather hot one. George L. McEachern, hussling Detroit automobile sales company president seems to have been the most active in this part of the district.

There has been more than usual interest in the fair because of the fact that it is going to be a free fair. The midway, all the exhibits, the pony show, the livestock display—all of these features will be free—no gate charge of any kind.

The usual grandstand admission will remain.

The Northville Association is following the example of the Ionia fair and its grandstand will be the only place where a charge is made.

President Nelson Schrader says the association is going to limit this year to make the fair an outstanding one in the state and he believes that from all indications that the effort will prove a success.

The grandstand is almost in readiness.

The big new cattle barn is about completed. Other buildings on the grounds are being put in shape and by the time September 18 arrives Northville will be ready for the biggest and best fair the place has ever had.

Chief Assistant Sheriff has exceedingly strong support throughout the country and the backing that has been given his candidacy in the last few days by Henry Ford will have much to do with the result. His opponent, Steward Nichols, has a good following in Northville due to the fact that he is a former resident of this community and many of his old school mates are out to help him. He is also connected with the prosecutor's office as an assistant.

The battle for the Republican nomination for sheriff seems to lie between Fra. Wilson and John Cowan. However Joe Blythe, has some worthwhile support. It is believed that Ira Wilson will carry this section of Wayne county where he used to live and has many warm friends. What the outcome in Detroit will be no one has been willing to predict.

Lawrence Johnson ought to win the Republican renomination for the state legislature from this district. He is backed solidly in both Northville and Plymouth. However Dr. Fisher of Dearborn is putting up an aggressive campaign and due to the fact that there is another candidate from Redford, the result is difficult to forecast. Representative Johnson in previous years has always had strong support in both Dearborn and Redford and it is possible that he may be able to hold some of his previous strength in both places. If he does, he will be an easy winner.

There are many other offices to be filled this fall and the candidates for the various places are as thick as weeds at some of the street entrances to Northville.

Township Clerk Elmer Smith is looking for a record vote at both of the Northville precincts. Considerably more than 200 new registrations have been received a very large part of them being Stinson employees.

### RAY RICHARDSON TO BUILD HOME IN HILLCREST MANOR

Through a transaction closed during the early part of the present week, Ray Richardson became the owner of two big lots in Hillcrest Manor on West Main street and Hillcrest road. It is the plan of Mr. and Mrs. Richardson to build a new home for themselves either this fall or next spring.

The location selected by Mr. Richardson is an ideal one. The new home which he plans to build will face the south. The location of the two lots lend themselves to some beautiful landscaping ideas, with a winding drive running from Main street to the garage which will be a part of the home Mr. Richardson has in mind.

Mr. and Mrs. Ray Van Valkenburg have left on a motor trip through Northern Michigan and Wisconsin. They expect to be gone about two weeks. On their return home, it is their plan to come down the west coast of Lake Michigan through Wisconsin, stopping in Chicago for a day or so.

**HOME COMING AT  
WALLED LAKE ON  
SATURDAY, SEPT. 3**  
General Invitation Extended  
to Everyone to be  
Present

Saturday, September 3rd, is the date which has been fixed for the annual home coming at Walled Lake. The event will take place in the Methodist church and it is expected that a large number of the former residents of that vicinity will return to greet their many friends. A general invitation is extended to everyone to be present and enjoy the day.

The forenoon program will take the form of memorial service, and in the afternoon there will be a general good time. A dinner will be served in the church by the ladies, where visitors who do not care to take their lunch may purchase a good meal.

George Gulien of Detroit, will deliver an address. The home coming is an annual event and has always been a very successful event.

Kindness effects more than severity.

**TAXES**

Tax the people, tax with care,  
To help the multi-millionaire.  
Tax the farmer, tax his sow,  
Tax the dog, and tax his howl.  
Tax his hen, and tax her egg,  
And let the bloomin' mudsill beg  
Tax his hoss, and tax his squeal.  
Tax his boots run down at heel;  
Tax his horses, tax his lands.  
Tax the blisters on his hands.  
Tax his plowland, tax his clothes.  
Tax the rae that swipes his nose.  
Tax his house, and tax his bed.  
Tax the bald spot on his head.  
Tax the ox, and tax his gas.  
Tax the road that he must pass,  
And make him travel o'er the grass.  
Tax his cow, and tax the calf.  
Tax him if he dares to laugh.  
Tell him, but a common man,  
So tax the cuss, just all you can.  
Tax the lab'rin' but be discreet.  
Tax him for walking on the street.  
Tax his bread, and tax his meat.  
Tax the shoes clean off his feet.  
Tax the payroll, tax the sale.  
Tax all his hard-earned paper, kale.  
Tax his pipe, and tax his smoke.  
Teach him government is no joke.  
Tax their coffins, tax their shrouds.  
Tax their souls beyond the clouds.  
Tax all business, tax the shop.  
Tax their incomes, tax their stocks.  
Tax the living, tax the dead.  
Tax the unborn before they're fed.  
Tax the water, tax the air.  
Tax the sunlight, if you dare.  
Tax them all and tax them well.  
But close your eyes, so you can't see  
The coupon-clipper go tax free.

## THE WORKING MAN

It was somewhat late in the spring when work was started to make the so-called "working man's interests" more prominent. Al Smith's speech of acceptance contained all the reasons why Herbert Hoover should be elected president. It is not necessary to read anything else to find out why one should vote the straight Republican ticket this fall outside of Al's acceptance. If there were voters in doubt as to what to do, they no longer have reasons to hesitate.

But why "Al Smith's" interest in the working man? What can he offer the Democratic party other than his assertions that if he is elected president of the United States, that he will open the immigration doors of America and flood this country with the hungry hordes of Europe that have for the past decade been trying to get into the United States.

What chance would the American working man have to make even a dollar-a-day for himself if Al Smith, in the millions of foreign laborers he has shown such a dear concern about? It would be exceedingly doubtful if the workers of Northville or any other industrial or semi-industrial center would be able to make even a dollar-a-day in competition with the cheap labor that Al Smith offers loose or America.

Of course we all realize that what Al says about the wet dog dev question is more or less broken because every one knows that a president is chosen when it comes to making the country dry or wet. That question is settled by the states and not by the president and how Al would go about is to change some of their dry state he has not yet offered to explain.

But what he does is to say that the people in each state have different problems. On the part of that kind of a dog does not seem to say and it is not up to the people of each state to do what they do if it is not president.

No, right this side of America, all Northville is not the same. The majority of the people here are immigrants and come here and take the job of every American citizen in the world. The respective banks here could tell.

If there is any difference Al Smith holds in his stand is broken. It is his stand on the certain immigration question. Whether yet or day there are a working man in the United States who should vote for Al Smith.

## IT'S WORTH WHILE

Hate you driven out the Fisher road lately? No, just take your car and drive down to Fairbush Springs. Of course you remember what it looked like a year ago? Just to refresh your memory around the springs big logs refuse that had been dug out of the hole, decayed vegetation, tin cans, broken telephone poles limbs that had been blown off the beautiful big trees that circle the springs in fact, you could find anything that should not have been there.

## JUDGE

## George M. Read

is a candidate on the Republican ticket to succeed himself as Judge of Probate. He was appointed by Governor Green in June, 1927, to fill vacancy caused by the death of Judge Edgar O. Durfee. In announcing Judge Read's appointment, Governor Green said:

"The Juvenile Court (division of the Probate Court) of Wayne County, under Judge Henry S. Hubert, has achieved nation-wide fame. It is necessary for Judge Hubert to become presiding Judge of Probate, owing to the fact that he is longest in term of service."

"George M. Read, who has been connected with the Probate Court as register of the Juvenile Division for 18 years, has had a large part in assisting Judge Hubert with this important work. Because of his experience and eminent fitness I shall tender him the appointment."

## A GOOD SELECTION

Commenting on the appointment of Judge Read, the Detroit Free Press said editorially:

"Judge Read is thoroughly familiar with the work and traditions of the Juvenile Division of the Probate Court. He is the one person in a position to continue without much confusion a work that calls for much intelligence, sympathetic care and for the exercise of almost infinite discretion."

The Detroit News said:

"There is no one else so well qualified by temperament and experience as Judge Read."

In the unofficial primary of the Detroit Bar Association, held on August 6, 1928, Judge Read received 444 votes, more than twice the number cast for all other candidates for that office.

Judge Read's name appears on the ballot for the full term (four years) and to fill vacancy two months.

his party in Michigan, has renounced King Alfred of Democracy and declares that he is going to vote for Hoover. Alva doesn't like his King's liquor ideas. He further declares that Al has denounced the Democratic platform and has written one of his own, and this is so disgraceful to Alva that he refuses to drink it or vote for it.

## ALL GOOD REASONS

Al Smith's speech of acceptance contained all the reasons why Herbert Hoover should be elected president. It is not necessary to read anything else to find out why one should vote the straight Republican ticket this fall outside of Al's acceptance. If there were voters in doubt as to what to do, they no longer have reasons to hesitate.

## Giving New Life to an Old Religion

Paul fought against God for a number of years. Then he made a right about face and fought vigorously for God.

During his powerful mind and untiring energy he spread the thought of God among people in widely scattered centers.

As a missionary he founded societies of believers in the great cities and suffered punishments such as few men ever endure.

Have we any beliefs we dare fight for? Will we risk home, health, citizenship, nativity and life itself for the God who made us?

## FORMER RESIDENT DIES IN MINNEAPOLIS

Word was received in Northville, Tuesday, of the death of B. L. Simmons, formerly of this place. Mr. Simmons, aged 70 years, was raised in Northville and attended the local schools. He left Northville a number of years ago and went to Minneapolis, where he has been treasurer of the Neigh Jinks Company.

He leaves to mourn his death a widow and two children, all of Minneapolis, and a son-in-law, Mrs. Ole Simmons, of Northville. Plans for burial are not known as yet, but possibilities are that the remains will be brought to Northville for interment.

Use a thermometer in the meat when cooking rib roasts of beef or leg of lamb. Then you do not have to guess whether the meat is well done or rare or medium. When the temperature at the center of a rib roast or beef is between 130 degrees F. and 150 degrees F., the meat is rare; between 150 and 170 degrees F., it is medium, and it is well done at 180 degrees F. Lamb is usually liked best when cooked to a temperature of 175 and 182 degrees F.

**MISS SARAH VARBECK  
BECOMES THE BRIDE OF  
WILLIAM E. HAWLEY**

A very pleasant wedding took place Tuesday, August 21st, at 8:00 p.m. in the Joseph Varbeck home on Powers road, near Seven Mile road, where Miss Sarah A. Varbeck and William E. Hawley of Howell, were united in holy wedlock by Rev. Lucia M. Stroh, pastor of the Congregational church in Salem.

To the strains of the wedding march played by Miss Viola Krimm, the bride gowned in pink and carrying a showy bouquet of pink roses and pink satin streamers, her sister, Miss Henrietta Varbeck, also dressed in pink georgette; the groom and his attendant, Cleo Varbeck, took their places under a large pink wedding bell, hung in the center of a pink and white crepe paper cupola edged with green festoons, and the impressive ring ceremony was performed.

A well appointed wedding supper was then served in the dining room, which was decorated with two large wedding bells and streamers, all in white, above the table on which was a large four tiered cake, topped with a tiny bridal couple.

The guests were: Mr. and Mrs. Joseph Varbeck, bride's parents; Mr. and Mrs. Wm. Hawley of Howell, groom's parents; Mr. and Mrs. J.W. Varbeck, Miss Nellie Varbeck, Mr. and Mrs. D. Ramage and daughter, Marie, Mrs. William Garell and sons, Robert and Bill, George Wolgast, Masters Hartman and Jack Hawley, Miss Wilhelma Hawley, Mr. and Mrs. Alfred Hawley, Erwin Bohlinger, and Barney Alverson.

The happy couple started housekeeping in the new home on Powers road.

Mr. and Mrs. George Hicks, Jr., and Mr. and Mrs. Earl Stanbro drove up to Big Star lake Saturday where they remained over Sunday.

## Let's Give Ira Wilson A Record Vote

He is really Northville's candidate for the Republican nomination for Sheriff. He has always been our friend and now is a good time to show him that we are his friends.

## He Has Made Good

Voters can give him their ballot knowing that they are assisting a candidate who deserves election. His record in the brief time he has filled the office has been one of accomplishments.

He is a member of Northville Commandery, No. 39, and we feel that he is entitled to our support because of his record as a citizen and as an official.

## I Am Your Candidate

If you nominate and elect me to the state legislature, I will constantly be at your service. I will not waste my time backing "special" legislation that someone is trying to put over. I will work for and support bills that will be of a benefit to you. This district WAS NOT represented in the last session of the legislature. I am your candidate and if I go to Lansing I will be your representative in the senate.

**GOVERNORS OF MICHIGAN**

**HENRY P. BALDWIN**

The present state capitol building at Lansing stands out as one of the chief accomplishments of the administration of Henry P. Baldwin, who was governor of Michigan from 1869 to 1873.

Left an orphan when 12 years old he secured work as a clerk in a store where he worked a number of years.

It was in 1837 when he moved from Rhode Island, his native state, to Detroit. Establishing a mercantile house, he successfully conducted it during his entire life. Active in church affairs and all matters which might be of public interest, he accomplished much good in Detroit. He gave the lot on which St. John's Episcopal church was erected in Detroit, and was one of the original movers in the establishment of St. Luke's hospital in that city.

He was elected to the state senate from Detroit in 1860, and won the governorship in 1869, serving two terms. During his administration considerable was done towards the betterment of penal, charitable and reformatory institutions in this state.

The school for dependent children at Coldwater was established, and the first steps towards the building of the Eastern Asylum for the Insane and the State House of Correction were taken during his term as governor. Appropriations for the present capitol were made during his administration, and contracts let for the erection of the buildings.

**SEASONABLE SNIPS**

A lot of snips on Christmas day are used as a sign of a lucky New Year.

When the Puritans were in power the old Christmas day was kept as a solemn fast.

One kiss for each berry was the original mistletoe ritual. A berry being removed as a kiss was taken.

In the golden time the Yule log was always laid aside before it was burnt out so that the next Christmas day the new Yule log might be lighted from the charred remains of its predecessor.

Swedish and Danish housewives make a big cake in the form of a boar for Christmas. It is known as the Yule log. Through the day this strange cake stands in the center of the room unbroken. Some allow it to be left there until spring. It is regarded as a luck bringer.

**OBSERVATIONS**

Be stubborn if you want to. Find a fellow who cuts his head seldom hatches out much.

These days it is useless to look to mother for pies like mother used to make. Mother is longing for them too.

Of course, you can't tell. But the chances are the fellow who is a regular around the office is a yes man at home.

Add tables. Once upon a time a girl in a bathing beauty contest passed before the judges and didn't place her hand on her hip.

The government wants more college men to take up aviation or aviation to take up more college men. It doesn't make any difference. Exchange.

**FOR THE STYLIST**

If you comb your style too much it becomes bald.

Thought without style is an uncut diamond, style without thought is a fake diamond.

Search for fair thoughts rather than bright words; it is the thought that brightens the word.

An excessively pointed epigram is like a pencil too elaborately sharpened; the point breaks.

And have you ever noticed that even a child will observe how the home looks? If your home is well furnished it adds that much more to the general satisfaction of the child.

**VILLAGE ENRICHED  
BY FINES—TUESDAY  
PROFITABLE DAY**

Chief Safford and Judge Ely Raise \$76 for the Taxpayers

Sixty-six good American dollars were collected Tuesday forenoon for the taxpayers of Northville by Judge Carl Ely from transgressors against the village ordinances.

From the "sunny lands" of Greece came two of the contributors. They had been arrested by Chief William Safford for disturbing the peace and quiet of Northville on a Sunday afternoon.

Out of their savings came \$17.50 each for the good time they had. Then two fellows with age enough to know better were sealed a good round fine for being intoxicated on elderberry juice.

"We never knew before that it would go to a man's head" explained one as he dug deep in his pocket for cash.

A speeder—and he was some speeder, said the chief, was found guilty on his own plea.

All in all Tuesday was a very profitable day for Northville in Judge Ely's court.

One taxpayer who stood outside gazing in declared that if Chief Safford was turned loose he could doubtless dig up enough money through police court fines to run the entire city government of Northville and let Mayor Fullens rebate all the tax money.

What was probably the first "fire exchange" in the United States was held this year at the State Fair grounds in South Dakota, when livestock owners brought in their boars, rams and bulls for trade or sale. To cover incidental expenses there was a charge of 25 cents for each boar and ram and 50 cents for each bull. The exchange aroused considerable interest and favorable comment, and created an opportunity for comparison and discussion of the merits of the various animals.

### The Call of the Farm

Give me a plowing team  
And a sharp share throwing  
Black soil up from the seam.  
When a brisk wind's blowing,  
Scent of the furrow moist  
That the good plow lays  
Straight; and I will rejoice  
In the sun-glad days.

Give me the sweet, gold wheat  
And a sickle singing,  
A flashing reel; and the beat  
Of a knotted flinging  
Bundles, sohd and long;  
As the white clouds fly,  
Venturing full-sailed ships  
In the blue, bright sky.

Give me the lark's song, now,  
And the deer night after,  
Feel of hoe and the plow,  
And the free farm laughter!  
Give me a love that's true,  
And a home made bright  
With courage to dream and do  
And to live life right!

### CHENOT ENDORSED BY MANY LEADERS AMONG LAWYERS

Chief Assistant to Prosecutor Has Strong Backing in Detroit

While James E. Chenot is continuing to discharge his duties as chief assistant prosecuting attorney, a volunteer executive committee composed of public-spirited citizens of Detroit and Wayne County has taken active charge of his campaign for the office of prosecuting attorney. Public officials, business men, attorneys, clergymen and others of influence in their communities have aligned themselves with the Chenot candidacy, basing their efforts on his behalf on their conviction that in his seven years as assistant prosecutor Mr. Chenot has given to the people that he is well qualified to serve them as the chief law enforcement officer in the

Brown and Fred Austin. E. Yinger, mayor of Fordson. Among the members of the Chenot Rudolph Tenorovitz, mayor of Ham-

tramick.

Friends of Mr. Chenot are emphasizing the fact that he has represented the people in no less than 1,200 criminal cases before juries. It is their belief that this experience backed by sound legal training, sets him forth as the logical candidate. In this day when the subject of crime prevention remains uppermost in the minds of the great majority of good citizens, they point to Chenot's record as a prosecutor of notorious criminals. He sent Morris Greenson to prison after the "cocktail bandit" had successfully escaped conviction over a period of eight years. He brought about the conviction and imprisonment of Jesse Bunker, who had openly boasted that he would never land behind prison walls, despite a crimson career of kidnapping.

It is no boast of mine that I have sent these, and other gangsters to prison," Mr. Chenot has told audiences recently. "Depriving a fellowman of his liberty is not a pleasant duty. But so long as we have among us the type of brute who sets himself up as a law unto himself, and takes human life as an incidental part of his daily work, then the speedy conviction and imprisonment of these creatures becomes a duty of prime importance. It was my lot as an assistant prosecutor to represent the people in the trials of several hundred of these underworld terrorists. My record in those cases and in all other proceedings is submitted to the electorate for their careful examination in the belief that it affords a better basis for judgment and comparison than the usual batch of pre-election promises and campaign hokum."

George L. McBath For Senator Making an Active Campaign

George L. McBath, candidate for the Republican nomination for state senator from this district, has just made his final tour of the district and states that he believes that he has an excellent chance to win the place he is seeking. He is the only candidate for the nomination who has put up an active fight to get the votes of this place, and as a result many of his backers here believe that he will win the nomination.

"I am your candidate. If nominated and elected I am going to Lansing to serve your interests and not that of the Liquor Dealers' Association or of any other organization that has only selfish purposes back of its existence. There are enough problems in Highland Park, Plymouth, Redford, Northville and other communities in this district to keep a senator busy, and you can rest assured if I am successful I am going over to the state legislature to see to it that your interests are protected," stated Mr. McBath.

"My opponent, Senator Harold Stoll, says he worked for wet measures in the legislature during the last session, and that if he goes back he will do so again. You know and I know that the Michigan state legislature is dry. How and what can a senator do for you who is opposing the wishes of the men he must constantly seek assistance from? Can you or Senator Stoll point to one single thing he accomplished for Wayne County during the time he

One of the largest crowds to attend a game this season was on hand at DeHoCo park, Sunday, August 26th, and saw DeHoCo down West Point by the score of 7 to 1.

The Farmers took a lking to the offerings of Goers, West Point hurler, and pounded out 11 runs in 7 runs. Hammond, Desefano, Demiston hit for extra bases, while the rest of the DeHoCo team, except Henrich, got singles. However, Henrich won his story by the masterful way he handled the opposition. He allowed but six scattered hits, of which Edwards got two. H. Wolfe came through with a timely single, scoring Jayska with the only run West Point counted.

First base proved a busy place, Demiston having eight putouts and Hodges seven. Jayska, at third, for DeHoCo, also had a busy time handling four assists and four putouts without a bubble.

HIGH STREET FIRST**

**Excavation Made Between  
Main and Cady—To  
Rush Improvement.**

Northville's second paving program is under way. A big steam shovel Tuesday forenoon started the excavation of Wing street between Main and Cady street for the concrete base that is to be put down. By the end of the present week a good portion of the excavation for the paving, except for the streets to be widened, will have been complete.

It is the plan of village officials to push the paving as fast as possible. They hope to have it entirely completed by the first of October.

High street, West street, Lundein avenue, will be paved first. Later Rogers and Center streets will be widened. The earth taken from the streets that are to be paved is being used to fill up some of the unsightly dump holes about town.

**LOCAL ENGINEER  
MADE SURVEY FOR  
STRAITS BRIDGE**

Wellington Roberts Knows  
Much About Project  
Now Up

Wellington Roberts, well known civil engineer of this section, is greatly interested in the proposal of the state to build a bridge across the Straits of Mackinaw. A number of years ago he made a survey for the same purpose and his recommendation at that time was against the project. It was a private organization that had Mr. Roberts make the survey.

Recently the state administrative board directed Highway Commissioner Frank F. Rogers to make a similar survey with the idea of finding out whether it would be feasible to build an eight mile bridge across the straits. It will probably be a year or so before the survey is made and what the highway commissioner will recommend remains to be seen.

The water in some places is over 90 feet deep and the bridge would have to be something like eight miles long. Because of the hundreds of millions that such a project would require, it is exceedingly doubtful if the state will ever attempt the project.

Watch your posture while at various household tasks. Keep your back straight and bend from the hips. Do not slouch in a chair while sitting at work. Sit well back in your chair. If your hobbies sink tubs and other surfaces where you work a great deal are not at the right height and cause you to stoop over see whether they could not be raised. It is possible to have plumbing fixtures raised when necessary to save fatigue.

Northville Rotarians Monday were told briefly by Sup't. W. H. Gordon of the Northville public schools or his visit to numerous interesting places in and around New York city and of his attendance at a Rotary club meeting in New York during the summer. He has been in the east attending summer school.

He told of an address made by Paul Harris, one of the founders of Rotary, made before the New York club, in which Harris outlined the efforts of the Rotary organization to secure world peace.

Because of the spread of Rotarism throughout the world, the founder believes that one of the greatest objects of Rotary should be the spreading of a belief in world peace. "War is unnecessary," he quoted Mr. Harris as saying. "Rotary is making an effort to point out how useless and wasteful war is." The idea seems to be spreading rapidly throughout the world and we believe that some day our object will be accomplished."

### HIS APPRECIATION SHOWN BY CHECK

"It was just 41 years ago this date that Mrs. Harmon and myself were serenaded, but it was in a different way," F. S. Harmon told members of the Northville School Community band Saturday evening as the youngsters stopped in front of his home to play for a brief time.

He was greatly appreciative of the brief concert that the band played for him and to show his appreciation he made the band a fairly good sized financial contribution.

The money goes into the general band fund from which music and other needed supplies are purchased.

Following the serenade in front of Mr. Harmon's home, the band went down town and played its regular Saturday evening concert in front of the Horton drug store. A big crowd heard the concert and was pleased with the playing of the youngsters.

California grape growers last season thought that a new disease had suddenly made its appearance on their vineyards, and considerable excitement prevailed until the Department of Agriculture specialists correctly diagnosed the trouble as injury by lightning which had struck the trellis wires about 200 feet along a wire.

### How to Build Up Muscles

By J. J. Toedt, Wilson Ave., Y., Chicago

#### Article 11

*THE BRIDGE*

Position—Lying on back, feet flexed with heels near seat, arms folded across chest.

Twenty fourth Exercise—Raise body up forming a bridge, resting on shoulders or top of head and feet.

Lying on back, arms folded across chest, knees bent with heels close to your seat. You have seen pictures of wrestlers doing the bridge with their bodies raised off the mat and supported by the feet and head. This is the exercise: "You are lying on your back, arms folded across chest, feet close to your seat, now push your body up so that it rests on your upper back and your lower back forming a perfect arch."

Now on each attempt to raise, try to go upward and backward a little farther until you are resting on top of your head, your feet on the floor helping in forming the perfect bridge.

Now rest a little while. Then take your bath and put down a coarse towel, or just a robe down will do. You can also add the padding of the muscles and strengthen and massaging of the fleshy and fatty parts.

*PENDULUM*

Position—Lying on back, hands resting under legs, legs raised, heels together.

Twenty fifth Exercise—Lean legs over to left and right, swinging like a pendulum.

Place hands under legs, arms straight. Now raise legs and hold them there. Do not raise the back. Now lean both legs over toward the left as far as you can without falling over, then lean to the right. Continue this, like the swinging of a pendulum, left and right. Sixteen or more counts.

A very simple and practical method of trapping roaches in large numbers is to take several tin cans with vertical sides about 3 inches in height, greasing the bottom and sides with rancid butter and placing the cans where the pests are most numerous. The roaches will be trapped in the cans because of their inability to climb up the greased sides, and may be destroyed by shaking out into the fire or boiling water.

MY POLICY

I have entered the contest for the office of Prosecuting Attorney as a Republican who is not affiliated with the present political machine, which I charge to be solely self-serving in its motives and neither Republican nor Democratic.

In stating my views of this office, I would first recognize that it should be a law office and not a school for experience and that the appropriation for this office is sufficient to provide one assistant of matured age and experience as counsel for the public on public questions other than crimes.

I believe that every individual who steps into the Prosecutor's office, regardless of his or her conduct, is entitled to common courtesy.

In the criminal work of the office, I believe that equal results might be obtained if each member of the office were assigned a certain branch of the work of the office and held responsible for the same.

To commit myself on the ever important subject of the liquor law, I believe that the law should be enforced in the same spirit - SRX. Attekaian and enforced in the same spirit as any other criminal law.

Mr. Smith is a native of Oakland County and a son of former Supervisor Delbert J. Smith of South Lyon. He was born on a farm in Lyon Township, graduated from the South Lyon High School and subsequently attended the University of Michigan for six years, where he graduated from both the literary college and the law school. Upon graduation from the law school in 1922 he was admitted to the Oakland County bar and began the practice of law in the office of James H. Lynch, where he was located until he accepted the appointment of First Assistant Prosecuting Attorney.

LET US SHOW OUR APPRECIATION OF WHAT HE HAS DONE FOR US BY GIVING HIM A BIG VOTE IN THE COMING PRIMARY ELECTION.

The young couple have taken a residence in Plymouth and start the new undertaking with the best wishes of their many friends in Northville and Plymouth. Mr. Travis is employed in the Ford garage at Northville.

**TOWN PROGRESS TALKS**

Trading out of town will jeopardize the prosperity of our town, and we are skating on thin ice when we do it. Just one person trading away from home makes little difference, but when many take their dollars elsewhere to spend, we are bound to lose the money, which is a serious matter. Money is the lifeblood of a community. A town with little money cannot long remain healthy and happy. What we do is a lively, happy town and we can keep ours that way by protecting our home business men, who buy a part round each other and keep the dollars traveling in our village. Let's all try to stay home where our dollars help more types.

**ADDRESS PARCELS ONE SIDE ONLY**

Postmaster Frank Neal calls the attention of the public, or at least to the practice of some mailers of placing the name and address of the addressee, together with the sender's return card on two or more sides of parcels in the apparent belief that this is desirable.

The practice does far more harm than good, since it results in confusion and delay in ascertaining whether proper postage has been prepaid, the parcels sometimes being rated with postage due before it is discovered that the postage stamps are affixed to some other side.

Furthermore, when parcels bearing an address on more than one side are sent as special handling, special delivery, insured, or C.O.D. mail, and the endorsements showing that such special services are to be accorded the parcels are not placed on all the sides bearing the address, the endorsements are liable to be overlooked, and the parcels do not receive the special treatment intended.

It is believed that mailers will be glad to have their attention called to the matter, since it is to the mutual advantage of themselves and the postal service.

Sauer Kraut has become such a popular article of diet in this country that we now produce about 16,000,000 gallons each year, the value of this amounting to over three million dollars. Sauer Kraut has the same chemical composition as cabbage, the principal difference being that the added salt and acid resulting from fermentation largely replace the sugar of the cabbage. These changes make sauer kraut much more palatable than cabbage to many people and do not detract materially from its food value.

Use the pressure canner for all sour acid vegetables. Send for Farmers Bulletin 1471-F before beginning to do any canning.

**Try These**

**Apricot Marshmallow Ice Cream**  
Drain one can apricots, put through food chopper. Combine with the juice of one lemon, add a dash of salt and one-half cup of sugar. Cook five minutes. Drop in 10 marshmallows, cut in pieces, when cold fold in 1 cup cream whipped. Place in mold and pack in ice and salt.

**Pistachio Ice Cream**

Scald 1 pint of rich milk and stir into it 1½ tablespoons cornstarch or arrowroot mixed with ½ cup sugar. Stir constantly until slightly thickened. Then stir occasionally for about 15 minutes. Beat 3 eggs, yolks, add ¼ cup sugar and beat again and stir into the hot mixture. Cool, strain and add 1 pint of thick cream, ½ tablespoon vanilla, ½ teaspoon almond extract and green vegetable coloring to make delicate green.

**Sour Cream Ice Cream**

Add ½ cup sugar to 1½ cups strained canned apricots. Let stand in ice box several hours. Add 1 quart thick sour cream and freeze. This is convenient in summer when cream often soures quickly.

**Georgia Peach Ice Cream**

Three and one-half cups evaporated milk, ½ cup water, 2 cups sugar, 2 eggs, 4 cups peach pulp, 1 tablespoon lemon juice, ½ teaspoon vanilla, ½ teaspoon almond extract, ½ teaspoon salt.

Peel and slice enough peaches to make the required amount of pulp. Add 1 cup of sugar and the lemon juice and let stand 20 minutes. Mash through a sieve. Dilute half of the milk with the water and bring to the scalding point. Add slowly the beaten yolks of eggs and the second cup of sugar. Stir and bring to the boiling point. Remove from the fire and add the rest of the milk, the egg whites beaten stiff, the flavoring and the salt. When cold combine with the fruit and freeze.

**Frozen Melon Dessert**

Two cantaloupes, 1 teaspoon salt, 1 teaspoon paprika, 3 tablespoons powdered sugar, ½ cup ground cinnamon, 1½ cups ground nutmeg, 1 cup whipping cream, 1 cup finely chopped preserved fruit.

Scoop out cantaloupe rind, mix, add salt, paprika, sugar and nutmeg, set on ice to ripen.

hours. Chop melon fine or put through potato ricer. Whip cream and add with the ginger. Freeze.

**FORMER GOVERNOR HEADS WOODWORTH POLITICAL CLUB**

Candidate Has Strong Backing in This Part of Michigan

The Huron County Tribune, one of the leading weekly newspapers of Michigan, a few days ago sent out a report of a meeting held in Bad Axe pertaining to the organization of a Fred L. Woodworth for lieutenant governor in his old home town.

It is interesting to note that former Governor Albert E. Sleeper heads the club and that practically all of the active Republican leaders of Huron county are members of the organization.

According to reports from various parts of the state this pretty generally believed, that Mr. Woodworth will be an easy-winner in the Republican contest for lieutenant governor.

He is especially strong in Wayne county he has lived for several years past. His opponent, Luren Dickinson

of Eaton county, has during his entire official life, been a bitter enemy of Wayne county and its interests. Friends of Mr. Woodworth point to his absolute fairness during his long and successful political career.

That he will receive a big vote throughout this section there is no much question.

When members of the school band were through playing Saturday night, they were given a treat of ice cream by Ralph Horton of the Horton drug store and by Mr. Stevens of the Red Front Grocery.

# STUDEBAKER President Eight

**30,000 miles  
in  
26,326  
minutes!**

## Greatest endurance record in history of transportation

**B**EWEEN July 21 and August 9, four Studebaker President Eights—all fully equipped, regular factory production cars—triumphed over the severest test ever given any automobile. This 30,000 mile run—a record distance achieved in record time—was conducted under the close and constant supervision of the American Automobile Association which certified each car to be a strictly stock model. In fact, all four motors and chassis were selected, not by Studebaker, but by A. A. A. officials who picked them at random from the assembly-line at the Studebaker factory. If not chosen for this test, these regular factory Presidents would have gone out to dealers and you might have bought one of them at any Studebaker showroom.

**Average 68 miles per hour**

All four Studebakers—two President Eight roadsters and two President Eight sedans—completed 30,000 miles each at better than mile-a-minute speed.

Both roadsters completed 30,000 miles in less than 27,000 minutes, averaging better than 68 miles per hour for 19 days and 18 nights of continuous driving.

The two sedans averaged 63.99 and 64.15 miles per hour respectively for this tremendous distance.

The fastest thousand miles of each roadster was the thirtieth—71.67 and 69.65 miles per hour! Studebaker Presidents improve with use.

**Engines sealed**

Of 6 seals placed on the engines of these roadsters

by American Automobile Association officials, not a single seal was broken during the 66,000 miles of running. These official seals were placed on the manifold, engine head and carburetor of each car.

Studebaker's new and exclusive ball bearing spring shackles went through the entire 120,000 miles of running without a single adjustment, without the addition of any lubricant, and were functioning perfectly at the end of the run.

**What it proves**

The Studebaker President's new record of 30,000 miles in 26,326 minutes is a feat unapproached in the history of transportation. It proves beyond doubt or question that The President Eight is an expression of engineering genius without peer in the automotive world. It is evidence of the inexhaustible resources of Studebaker performance—of high quality materials, precision manufacture, skilled workmanship and rigid inspections.

**Why be satisfied with less?**

You can pay more than Studebaker prices, but in no other car at any price can you buy more stamina or more finely balanced performance than in Studebaker's President Eight. And back of every One-Profit Studebaker is 76 years of manufacturing integrity.

Don't wait until November 6 to select your President—DO IT NOW!
