

WILLOUGHBY IS WEDDED TO GIRL FROM SOUTHLAND

Plymouth Business Man
is Married to Former
School Teacher

The following from the Shreveport, La., Times, relative to the marriage of Robert Willoughby of this place, and Miss Maxine Geddes of that city, Tuesday, June 25:

"One of the most delightful features of the nuptial program was the processional hymn, 'The Voice that Breathed O'er Eden,' given by the Mendelssohn Choral Club, of which the bride is an active member. At the opening strains of Lohengrin's wedding march, the bride entered with her father, Dr. Paul W. Geddes, who gave permission for the nuptials of Miss Maxine Geddes and Mr. Robert Willoughby of Plymouth Michigan, which was celebrated at 5:00 o'clock Tuesday afternoon at St. Mark's Episcopal

church. A large concourse of friends were assembled to witness the ceremony which was performed by Rev. James M. Owens.

The stately edifice was beautifully decorated for the occasion, with pink radiance roses and myriads of ferns and palms as a background.

A beautiful program of nuptial music preceded the ceremony with Dr. Dunster presiding at the organ who played "Hymn of Love" by Dvorak, and during the ceremony "Liebestraum" by Liszt. He was assisted by Mrs. E. Weldon Jones, who sang "All for You" by Brown.

"One of the most delightful features of the nuptial program was

the processional hymn, 'The Voice that Breathed O'er Eden,' given by the Mendelssohn Choral Club, of which the bride is an active member.

At the opening strains of Lohengrin's wedding march, the bride entered with her father, Dr.

Paul W. Geddes, who gave permission for the nuptials of Miss Maxine Geddes and Mr. Robert Willoughby of Plymouth Michigan, which was celebrated at 5:00 o'clock Tuesday afternoon at St. Mark's Episcopal

church. A long blue-shaded bow, extending down the back, gave a charming color note, a horse hair hat with feather trim, completing the costume.

Miss Margaret Geddes attended her sister as maid-of-honor. She wore a gown of pink chenille lace, a shade deeper than that of the bride, made in similar fashion, with lace cocktail jacket and blue hat and shoes as accessories. Mrs. Lyle

Rhinehart of Detroit, as matron of honor, was dressed in a similar costume.

The bridesmaids, Misses

Knox, William, and Miss Cecilia Eller, were gowned alike in pink

lace frocks, with cocktail jackets, hats and shoes to match. They all carried arm bouquets of pink

radiance roses and blue delphinium.

Mr. Lyle Rhinehart of Detroit, officiated as best man, with Messrs. John Kennedy, John B. Hutchinson Jr., Lionel Hawkins, and Paul W. Geddes, Jr., acting as hosts, wearing blue coats and white flannel trousers.

Immediately following the ceremony a reception was held in the home of the bride's parents, Dr. and Mrs. Geddes, in Wilkinson Street. Dr. and Mrs. Geddes were assisted by the bride's party and their sister, Mrs. R. W. Snyder, of Battle Creek, in receiving their guests. Mrs. Geddes wore a beautiful costume of pink georgette, with orchid hat trimmed in deeper purple, and wore a corsage of lavender flowers. Mrs. Snyder wore a blue georgette with hat and shoes of beige, her corsage being of pink flowers.

The house was filled with pink roses and garden flowers. The dining room was overlaid with a beautiful cloth of lace, and satin, was centered with a three-tiered wedding cake, damask embossed in pink.

Individual cakes, decorated with pink roses and ices molded in form of pink roses, were served.

Mrs. W. E. Brown presided in the dining room, and was assisted in the courtesies by Miss Mary Virginia Saunders, Miss Minnie Davis, Miss Veva Kent, and Miss Sylvia Eiles.

The bride's gifts to her maids were choicers of seed pearls and a hand made of honor, and the gold ear rings. The groom presented his attendants with cigarette lighters.

Mr. and Mrs. Willoughby left the same evening for New Orleans where they take a boat to New York making their way leisurely down the St. Lawrence river and Great Lakes. "Alpicoula" were due to be at home to their friends after August 1st. The bride traveled in an ensemble of shades of blue with hat, shoes, and gloves in matching colors.

Other guests included Mrs.

R. W. Sibley, of Battle Creek and Mr. and Mrs. Lyle Ryerson of

Studebaker's world leadership in eight-cylinder sales provides the

World's Leading Value
in the new
Dictator Eight
ONE HUNDRED AND FIFTEEN (115) INCH WHEELBASE

The new Dictator Straight Eight now provides the supple smoothness of Studebaker straight eight power, in a motor car of genuine beauty and generous size... and at a price which only the world's largest builder of eights could achieve. No other car provides so fully every fine car quality at so low a price—as its specifications prove to engineer or layman.

115-inch wheelbase.

Straight Eight motor of 221 cubic inch piston displacement. Abundant power, marvelous flexibility and smoothness plus economy which rivals the thriftest of sixes.

Oil filter, gasoline filter and crankcase-ventilating system insure maximum engine efficiency.

Fuel pump insures constant adequate flow of gasoline, regardless of speed or grade.

Thermodynamically controlled cooling system retards flow of water until motor has reached precisely correct temperature for highest operating efficiency.

Double-drop frame of new compound flange design—far costlier but sturdier, safer and permitting graceful lowness of body lines.

Hydraulic shock absorbers, front and rear.

Genuine moheir upholstery.

\$1185
at the factory

Full-pension, full-ventilated bodies of steel over hardwood foundation—the accepted fine car coachcraft.

One-piece steel core safety steering wheel. Fully adjustable steering wheel and front seat.

Amplified-action 4-wheel brakes which stop the Dictator Eight in half the distance accepted as standard.

Tarnish-proof chromium plating of all exterior brightwork.

Coincidental lock to ignition and steering assures Dictator Eight owners lowest theft insurance rates.

Non-shatterable safety windshield.

The Dictator Eight may be driven 40 miles per hour the day it is delivered—the result of advanced engineering, precision workmanship and careful inspection.

52 Studebaker Models—\$860 to \$2575 at the factory

Mr. ERNEST GUENTHER

Indorsements, without number prove that Konjola, the new and different medicine conquers the obstinate cases; those that have held on for years, with bulldog-like tenacity. Read what Mr. Ernest Guenther, P. F. D., No. 5, Ann Arbor says of this master medicine:

"I cannot find words to express

my gratitude and surprise for what

Konjola did in relieving me from the agonies of kidney and stomach trouble and neuritis. I was nervous, irritable and despondent. No

one of the many 'medicines' and treatments I tried did me a particle of good. And then I heard of

Konjola, the master medicine of them all. Konjola went to work at once, and improvement began in a few days. In two weeks I was a well man again thanks to this glorious medicine."

Thus Konjola works quickly and thoroughly, bringing lasting relief no matter what else has failed.

Konjola is sold in Northville at

the Northville Drug Company and by

all the best druggists in all towns

throughout this entire section—

EDWARD N. HINES TELLS OF WAYNE ROAD PROGRESS

Public is Already Bene-
fitting from Work Done
This Year

With the present construction season but 60 days old, the public is already beginning to benefit from the activities of the Wayne County Road Commission in widening old roads. Edward N. Hines, road commissioner, says:

"The Plymouth road from Telegraph to Ann Arbor road, a distance of seven miles, has been completely widened to 40 feet of concrete, making a continuous 40-foot concrete road from Grand River avenue in Detroit to the Ann Arbor road, a distance of approximately 14 miles."

A new 60-foot clear roadway bridge with sidewalks is being con-

structed just east of Rouge Park, and when completed will remove a bane neck at that point. Mr. Hines said:

Grand River avenue west of Berg road, in the former village of Redford, to the county line has been completed and after the usual curving period will be opened to traffic.

Grand River avenue is 204-foot superhighway at this point, with two 40-foot concrete roadways. The north half and a portion of the south 40-ft. concrete was completed last year. From Berg road west to Five Points seven large buildings and two gasoline stations were moved. There are still a couple of hold-outs on right-of-way which are expected to clear up shortly. The old pavement will be torn up and the space reserved for rapid transit or future widening is to be planned with trees and landscaped.

The widening of River road (or the Dixie highway) south four miles from Elizabeth Park has been completed. This is an old concrete road constructed in 1911 and 1912 16 feet wide. The addition of two 12-foot strips of concrete making it a 40-foot road, is much appreciated by the large number of travelers on this important highway. Mr. Hines pointed out.

Two crews are engaged in widening Telegraph road by the addition of a new 10-foot strip of concrete to the old 20-foot concrete road. Nine miles is completed to date and by late fall the split road through out its 10-mile length from Grand River Avenue to West road will be 30 feet wide and from West road to Main a 20-mile long 40-foot road. Next year is to see completion of the widening to the ultimate in ultimate width of 40 feet of concrete.

Armenia road off Airport Creek on the north is completed and the remaining 10 miles of concrete has

FOR APPOINTMENT
NORTHVILLE, MICHIGAN

During recent storms off the coast of South Africa hundreds of whales were washed ashore near Kommetjie, Cape Peninsula, and died on the beach. The photograph shows citizens watching workers cutting up the whales so they could be buried in trenches.

been completed on the Seven Mile Ford road. The Outer Drive crosses practically all main highways in the Northville road five and a half miles. An additional 11 feet of concrete is being laid, bringing this road to the ultimate width of 40 feet of concrete.

One strip of 36-foot concrete road has been completed and opened to traffic on the Outer Drive between Six and Seven Mile roads, just east of VanDyke.

Three other sections of the Outer Drive are under construction and rapid progress is being made in building and developing this great circumferential boulevard.

By late fall over 13½ miles of the Outer Drive will be completed in all cultivated areas stirred into a loose dust mulch. If the rain beats it down smooth soil after which the Outer Drive is patterned to work. Baked soil means impaired

growth and browned lower leaves. In working with plants there is bound to be a disappointment but in the perfect days of June, one can no help but feel that the results are worth the effort.

Water everything thoroughly when rains stay away. Don't just sprinkle the plants, nor drown them with a forceful stream. Let the water run quietly on the ground, or spray gently for hours. Avoid wetting foliage in hot sun. Sprinkling or spraying is best for the finely divided particles of water are tempered by the air. Where trees or shrubs are remote from water supply, keep cultivating around them or else mulch with peat or hay.

Let no plant ripen seeds unless they are planted for some purpose, useful or ornamental, and remove all parts which are in a state of decay.

Mrs. P. A. Hauer and son Nelson, returned Tuesday from a visit to points in Minnesota, where they

Flowering shrubs may be pruned when through blooming. Most of them need little if any shaping; they do that pretty well themselves. But it is a good thing to take off dead flowers.

Keep the dead flowers picked off of flowering plants, unless you are trying for seed. Much energy is drained from the plant in maturing seed.

In using a nicotine solution for spraying aphids remember that the insects congregate on the under side of the leaves and direct your spray accordingly.

Water in plentitude after flowering. They seem to need more water than ever at this time.

Complete every garden operation successfully.

One-sixth of all the telephone lines in the United States, nearly 12,000,000 miles, is in use in the territory of the New York Telephone Company.

Dependable Motor Oils—

POLARINE and ISO-VIS

You can depend on either of these two motor oils to lubricate your car as it needs to be lubricated. They are both sturdy, rich oils.

Because they are sturdy they will hold up under the trying conditions of country driving.

Because they are rich they will keep a cushioning film over every bearing surface.

Iso-Vis, the most sensational advance in motor oil, maintains a constant body—wears and wears and WEARS, lubricating at highest efficiency all the time. Many motorists run 1000 miles and more without draining the crankcase.

Polarine needs no introduction—for 20 years this dependable motor oil has been giving satisfactory service in millions of cars. If you want dependable lubrication for the least money, buy Polarine and drain the crankcase every 500 miles.

Polarine and Iso-Vis are made in different grades—use the grade made for your car.

ALASKA'S FUTURE BRIGHT DECLARES FORMER RESIDENT

L. C. WOODMAN WRITES
ARTICLE FOR RECORD
ABOUT TERRITORY

L. C. Woodman, a resident of Northville many years ago, who is well known among the older citizens of the community, now living at Washougal, Washington, has written the following article for the benefit of the Northville Record readers about Alaska and its wonderful possibilities:

OUR ALASKAN NEIGHBOR
If the student of American history is in quest of a deliciously bitter or unconscious humor, let him turn to the pages of the Congressional Record of the 37th Congress and there find the speeches against the proposed purchase of Alaska. What makes the humor the more compelling is the fact that the utterances rang with the honest convictions of the men of the present-day. These words seem bizarre if not tame, now. They came from men imbued with the spirit of economy, convinced as they were that "the people's money was about to be squandered on a bowl-shaped wilderness of glaciers, icy waters and snowy wastes."

Seward's folly has, in the last octogenarian's opinion, been buried at the proponents of the measure. William H. Seward, then a young, aspiring statesman, was with a few loyal friends, to go for the purchase, and in March 1867 Alaska became an integral part of our nation for the sum of \$7,200,000, an acre of \$50.00 per square mile. In empire, it is vast; it could cover 23 of our western states, and the rest one-third that of Lake Superior. It was in 1841 that Vilus Beaufort discovered the land, formerly called Russisch America, now Alaska. Being detached from Russia, it was the reason for its sales besides its geographical position. Russia needed the money to pay her debts, and she can offer very little else.

Now what happened? The American states to whom the land was given, had no such trade along the coast, which extended from India and China eastward to Australia and New Zealand. The only port of entry was Sitka, which is now the chief port of Alaska. The city of Sitka is situated on a small island in the Gulf of Alaska, and is the chief port of entry for all vessels bound for Alaska. It is a small town, with a population of about 1,000 inhabitants, and is the chief port of entry for all vessels bound for Alaska.

The first vessel to enter the port of Sitka was the "North Star," a whaling ship, which arrived in 1847. The ship was owned by the North Star Company, which was formed in 1846, and was the first company to engage in the whaling industry in the Gulf of Alaska. The "North Star" was followed by the "North Star II," which arrived in 1848. The "North Star II" was followed by the "North Star III," which arrived in 1849. The "North Star III" was followed by the "North Star IV," which arrived in 1850. The "North Star IV" was followed by the "North Star V," which arrived in 1851. WEST POINT PARK

The eighth game of the Inter-County League between the city of Hamtramck and West Point Park ball teams was played on the Hamtramck diamond last Sunday. The first six innings neither side scored and then Hamtramck won 3-0. The final score was 6 to 0 in favor of Hamtramck. The next game will be played with Plymouth on June 30th on the Plymouth diamond.

Mr. and Mrs. Emerson Ault are in Northville and they report a fine time.

A number of ladies attended the electric cooking demonstration given by the Detroit Edison company in Northville for three days last week. Quite a number of the neighbors and friends have exchanged to Ann Arbor to see Mrs. George Gunn, who has been undergoing operation last Wednesday. It is to be hoped she will have a speedy recovery and return to her family as soon as possible.

Mr. Clarence Smith and two daughters, who are members of church here regularly, are about to move to Detroit. We are sorry to lose such good, faithful attendants, but wish them happiness wherever they go.

Children's Day was observed in our church last Sunday morning. The program was the best we have had.

Our young people can sing beautifully.

The church was decorated and made very pleasant with flowers and ferns. The committee deserves credit for the enjoyable entertainment.

Doris Stemer, one of our highly respected young men, was recently married to Wimberd Barnhart of Northville at the Baptist parsonage in Keweenaw, wishing happiness.

Mr. and Mrs. Melvin Owen of Detroit were guests Saturday of the former's uncle, Gilbert Owen.

Mrs. Oswald Coulter and two children of Detroit were former guests of Mrs. John McPherson Tuesday.

Mrs. Ethel Middlewood was the week-end guest at the Martha Cook house in Ann Arbor. Her daughter, Esther, was one of the U of M graduates to receive her diploma last week Monday.

Mrs. Isaac Bond, Mr. and Mrs. Charles Wilson and two sons, Edwin and Glen, visited their mother and grandmother, Mrs. C. Wolfe, Friday. The strawberry festival given by the Bible class was not very largely attended Saturday evening, many being away for their vacation. The committee reported they would just break even, however. Those who did attend had a pleasant and enjoyable evening. There was a great plenty of ice cream, strawberry shortcake and hot coffee.

There will be a lady speaker from Almee Semple McPherson's society at West Point Park church, next Sunday morning. Mrs. McPherson is a wonderful woman and is honored in her own home town Los Angeles. It was there that your correspondent heard her speak when in the west. Don't fail to hear her. West Point Park's houses on Seven Mile road are all being inci-

sed.

Mr. and Mrs. Earl Wolfe, Mr. and Mrs. Charles Taylor, Mr. and Mrs. Harry Wolfe and Mr. and Mrs. Hann stem, as part of last week at Houghton lake.

Mrs. Pease, formerly of this place but recently residing at Seven Mile and Beech road died very suddenly Thursday. The family have our sympathy.

Mrs. George Gunn who underwent an operation last Monday is reported as doing well. Her two little girls, Carol and Betty, are staying with Mr. and Mrs. Earl Wolfe and her sons, Robert and Jack are with their grandmother, Mrs. Dawson.

Mr. and Mrs. M. E. Ault and Mr. and Mrs. Marvin Addis were weekend guests at the home of Mr. and Mrs. Thomas Stevick at Akron. Ohio.

Mr. and Mrs. William Ash and family were visitors Tuesday evening.

Mr. Fred Ash is on Zeeb's avenue.

West Point Park ball team is having their half of hard luck. Two of the best players are laid up, Harry Gathorne with pneumonia and Roy Wolfrom with a broken finger.

ANNOUNCEMENT

Dr. Wilbur Johnston wishes to announce that during his absence from Northville from July 1 to August 1 that his offices in the Peninsular Allen theatre will be open for the care of his patients. Dr. R. C. Kistler, well known Detroit doctor, will be in charge and will answer all calls coming to Dr. Johnston while he is away on his vacation.

Don't put hot foods in the refrigerator. Cool them first to room temperature. Don't use ice to cool things as the tops of carrots, the outside leaves of lettuce or paper on packages from the market. Don't waste ice storing vegetables for a short time if you are going to use them immediately. Opening and shutting the door frequently raises the temperature of the air in the refrigerator, so that more ice is required to cool it.

WHEN

Buying shoes for the family consult us. We can fit them all and we carry a stock large enough to please them all.

Scene of Kinloch Mine Disaster

The picture shows rescue-work in progress at the Kinloch mine at Parrisus, Pa. after a blast had killed 21 and injured many others. All but six of the entombed men have been accounted for, having made their escape through a little used mine door.

Of the nearly 2,500,000 telephones in the territory of the New York Telephone Company at the close of 1928, more than 1,700,000 were in the Greater New York City area.

NOVI

Glen and Mr. and Mrs. Phil Taylor moved to Novi, Sunday, to visit Mr. and Mrs. Arthur Swick.

Considerable excitement was aroused Monday evening when a Detroit Laundry truck collided with a Silver Springs cold drink truck on the Walled Lake road just north of this village. No one was seriously hurt.

SPRAY NOW!

Assure yourself of a good crop of fruit and berries. Your shrubbery should also be sprayed to insure healthy growth.

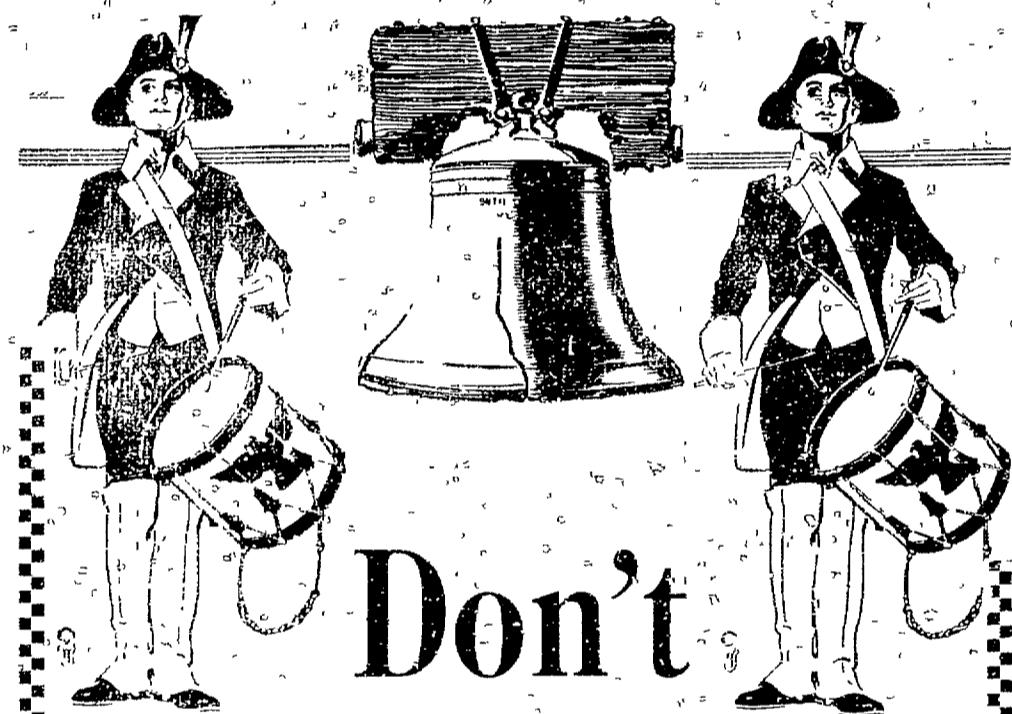

USE ARLECO

It can be used on everything, including your flowers.

REFOREST POOR LAND

Land too poor or steep for cultivation and often badly washed or eroded, is a bane to its owner. There are at least 40,000 acres of such land in the South that might be turned into an asset, says the Forest Service of the U. S. Department of Agriculture, by planting it with southern pine longleaf slash. Only of short-term, early sowing seems to be the most satisfactory. For growing saplings, planting stockin nursery beds, good fresh seed, a sandy or loamy seed-bed, plenty of water; protection from, British during 1928

McCully Health Shoes Are Smartly Styled

If you are having trouble with your feet, try a pair of McCully Health Shoes. You'll feel their comfort at once. They gently but firmly support the arch. Their special design allows plenty of room for the toes while a snug, close fit at the heel is assured. Brown kid, black kid or patent leather—the styles are smart—it's a pleasure to choose them.

John McCully
Shoes Exclusively

Eighty-five miles of telephone wire. There was a gain of 78 per cent in office building or twelve stories. Britain during 1923.

Church Notices

Baptist
Sunday morning service, 10:30. Sermon, "With what measure ye mete it shall be measured to you again." Sunday school at 11:45. B.Y.P.U. meeting, 6:30. Topic, "Heroes for Christ." Evening service, 7:30. Sermon by the pastor. Church prayer meeting, Wednesday night, 7:30.

Presbyterian
Sunday morning worship, 10:30. Sermon by the pastor. "Not the Highest Diploma and Yet in the Game."

Sunday school at noon. Lesson, "Prophets and Kings of Judah's Decline."

Announcing
CERTIFIED MATERIAL
BACKED BY A
\$1000 BOND

THE DAY of cheap, unknown building materials is passing. Architects and builders everywhere are turning to known material—guaranteed material—**CERTIFIED MATERIAL**.

That is why every load of our material is checked—then certified and guaranteed by a \$1000 Surety Bond to be exactly as described on delivery ticket or invoice—even as to correct count, grade, weight, size or measure.

This bond is a "buying safeguard" placed behind us by a nationally known Surety Company with assets of over \$44,000,000—and as such is a genuine

tribute to the material we handle.

Although we have always delivered lumber and building materials as represented—here is an added protection—the strongest that can be obtained. **CERTIFIED MATERIAL** has established a new standard of safety in the building industry.

The Certificate of Quality which is issued for every building in which **Certified Material** is used will prove an invaluable aid in securing a worthwhile appraisal and is documentary evidence of permanency that none can dispute.

When building or remodeling investigate CERTIFIED MATERIAL. Homes built of CERTIFIED MATERIAL will be financed on equitable terms.

COOL FURNITURE

During the warm days of summertime there is quite so delightful as light, airy furniture you can use on the porch or out on the lawn.

Our store is filled with furnishings you can use in the home as well as outdoors.

Just Come in

It is a pleasure to have you come in our store and see what we have, even though you do not buy. We like to have you see our goods and compare prices.

We are still continuing our plan of a special bargain in the window each week. All you have got to do is to watch the windows—it means real money to you.
