\$1.50 PER YEAR IN ADVANCE

## MASONS WILL HEAR NOTED LODGEMAN

Going to Ann Arbor Monday to Attend Newton Lecture

Many members of the Northville Masonic lodges are planning to go to Ann Arbor Monday evening at 8:30 o'clock to hear the noted Masonic speaker, Rev. Joseph F. Newton, rector of St. Paul's Memorial Church, Overbrook, Philadelphia, in a special address to members of the fraternity.

Rev. Newton is widely known throughout this country and England through his lectures, magazine articles, sermons and Masonic publications. He served four years as minister of the City Temple, London, England and six years as minister of the church of the Divine Paternity, New York.

Rev. Newton served as Grand Chaplain of the Grand Lodge of Masons of Iowa and is the author of a number of the most sought after masonic books. Grand Master of Masons of Michigan Rose O' Bonsteel will make a short address at the meeting.

Post Grand Master Frank T. Lodge, Chairman of the Grand Lodge Service Commission; and other members of the Commission are expected to be present.

This Masonic Rally is the first of twelve to be held in the State under the auspices of the Grand Lodge Service Commission. The Rally will be held in the Masonic Temple, Ann Arbor, and Golden Rule Lodge, No. 159, F. & A. M., Fraternity Lodge, No. 262, F. & A. M. and Ann Arbor Lodge, No. 544, F. & A. M. will be hosts.

It is probable that an exceptionally large number will go from Northville and vicinity to the local Masons have heard of the famous speaker and many have expressed a desire to hear him talk.

## ROTARIANS TOLD PUBLIC SERVICE IS A CLUB DUTY

Attorney Fred Cochran is Speaker at Monday's Meeting

Fred Cochran, in speaking before members of the Northville Rotary club, Monday, stated that he firmly believed that any organized group of men, even though their number should not be large, could do most effective work for a community if they combined their efforts in worthwhile causes.

He talked briefly of community service and individual members pointed out several of the things that have been accomplished in Northville by the Rotarians.

We raised money for the crippled children and we secured funds from the county road commission for the widening of Plymouth avenue between the Seven Mile road and Main street. The club fixed up Fairbrooks Springer and it conducted a successful yard and garden contest.

There were other things we can do, and I think we should set about to accomplish them, he said.

Suggestions by various members of the club as to what could be done for Northville included the improvement of the Ford pond, which during the present summer has been rather an annoying place because of the odor from the stagnant water.

Recently the pond was drained and this trouble was eliminated for the present. However, it was decided that an effort would be made to get in touch with Mr. Ford and see if he could not in some way improve the condition existing there.

## TRUCK DRIVER IS KILLED BY TRAIN

Fading to hear the shouting warning, Fred Shurbert, 65 years old, Walled Lake, was killed instantly last Saturday morning when he drove his gravel truck onto the Grand Trunk tracks in front of a speeding passenger train on the New Hudson-Walled Lake road, one and one half miles east of the Grand River road.

Shurbert was thrown clear of the truck and dashed against a toolshed while his truck was dragged down the tracks. He had loaded his truck and stopped to give a watchman a ticket for his load just 24 feet from where he was hit. The watchman shouted but Shurbert failed to hear.

Coroner Farmer, Under-sheriff Frank Greenan and Deputies Fred MacFarlane, Albert Eustis, and K. L. Philpot plan to question George N. Walker, Richmond conductor, and H. Gering, also of Richmond, the engineer before deciding upon the holding of an inquest. The engine was not damaged, and no one on the train was hurt.

The big dairy barns on the South stock farm had a narrow escape from destruction by fire Tuesday afternoon, when flames were discovered on the second floor of the various railroad corporations operating in this territory and the started a mystery, but before it proper funding on other related work should be carried on vigorously and continuously.

We believe that all narrow, light

## Visit The FAIR Today and Tomorrow

## MORE AUTOS HERE THAN IN FIVE STATES

Edward Hines Points to Traffic Growth as Reason for Mill Tax

Despite the "isolated" progress made during the past year, we are not holding our own with automobile registrations and traffic congestion is becoming more and more serious all the time," said Edward Hines, who is president of the Seven Mile Road Association, the Seven Mile road being the main artery of the town. "McNeil has made his case and I am in full agreement with the Trotters. The Trotters have ruled that there was no sufficient cause to sustain the complaint that McNeil could be held liable for the accident.

"The accident which happened some days ago by Wayne county officials involved an accident on the Seven Mile road which resulted in the death of Paul Detmers of Wayne, was released from jail last Friday morning by the Livonia township commissioners. They heard the evidence presented by the attorney for the Commonwealth bearing on the case. The commissioners ruled that there was no sufficient cause to sustain the complaint that McNeil could be held liable for the accident.

Michigan's best fair-fair and above anything like it in the state even though not the largest. The neatest and cleanest and best arranged grounds, the best painted buildings and a poultry show that ranks superior to any ever held in the country.

That is the verdict of the thousands who have visited Northville this week to see the NEW Northville fair. Never before in the history of the Northville-Wayne County Fair association has anything like this been attempted before. The whole affair is a community enterprise that Northville can well be proud of.

The attendance of witnesses showed

that the accident was an unavoidable one for which Mr. McNeil was

in no way to blame.

One year's increase in Wayne

county's registration would require for parking space alone both sides of a street 36 miles long. One year's increase would make a progression 265 miles long and yet we only added 61 miles of new concrete road and widened approximately 50 miles of old road.

In addition it is proposed to turn Woodward avenue from the Six Mile road to Base Line road over to our Board to widen from 100 to 200 feet.

If this plan is carried out, we recommend a one mill tax for the purpose of continuing the road program in Wayne county and to secure the superhighway width of 264 feet on Woodward avenue from Six Mile to Base Line road.

We believe that the fundamental duty of the County Road Commission should be carried out of whatever is required to widen the existing mileage of a width of less than twenty feet of concrete to our new ultimate minimum width of forty feet of concrete.

In establishing a minimum width of forty feet of concrete, we do not mean to infer that it is necessary to make the first improvement of a highway in every way to build the concrete road forty feet wide.

Many local service roads have been built and will be built to an original width of twenty feet. They are designed, however, so that additional width may be added from time to time as traffic demands warrant in this manner many sections of the county are adequately served on twenty-foot concrete roads.

A 40-foot concrete roadway has four times the traffic capacity of a 20-foot road, besides being safer in every particular due to a measure to the fact that volume of traffic is never equal in both directions.

We believe that it is desirable annually to add some additional mileage of new county road.

We believe in the soundness of the principles of the Covert Act, whereby the owners of sixty-six per cent of the frontage may petition for its improvement.

LUTHER D. BECKLEY  
Civil Engineer  
Detroit, Michigan  
August 29, 1928

The Northville Record.

Gentlemen:

I am prompted by the editorial in your last week's issue to urge you to take more trips to neighboring communities. I am sure that your observations would help to awaken these communities the responsibilities which they owe to the public at large.

I also wish to compliment you for the progressive and uplifting influence which your paper radiates to those who scan its lines.

Please extend my subscription a check for same is enclosed. Please send me six copies of the August 23rd issue with bill for same.

Sincerely yours,

L. D. Beckley.

St. Vincent's church was the scene of the wedding of Miss Anne Rose O'Donnell of Newark, N. J., and Harry Holly, son of Mrs. V. C. Smith of Detroit, on August 27th. Palms, sunflowers and lilies of the valley were used to decorate the church. The bride was attired in a gown of fuchsia and orchid chiffon with matching picture hat. She carried pink tea roses and lilies of the valley. The maid of honor, Miss Florence Hart, of Bayonne, N. J., wore a lace of cravat and large lace having chartreuse velvet trimming. She returned and he gradually declined until his death.

He was 53 years of age. Born in Canada, he came to Michigan when a young man and lived here continuously since. A widow and one son survive.

The foregoing should be carried on without interruption. Therefore, our recommendation that a one mill tax be levied on each \$1,000 of the equalized assessed valuation of the county for county road purposes for 1930.

# This Week

By Arthur Brisbane

The Warship Question  
Cheaper Cars Coming?  
Standard and Shell  
Diamonds from Sugar

Ramsay McDonald arrives soon to take over command at sea. He probably comes prepared to ratify officials' a program already agreed upon substantially. He would not want to return with nothing after Snowden's triumphant round-trip to The Hague.

The British, well informed by their separate air department, care little about surface ships for any future war. They know that ships will cut no figure.

But they have 50,000 miles of sea coast to patrol in their empire. Their cruisers are really floating forts or police stations, boarding houses for marines that can be landed when needed, then moved on to settle the next troubled spot.

If the President would establish a separate air department, appointing a head engineer with others under him, all controlled by Engineer Hoover, to develop new ideas. Uncle Sam might not spend his life copying Germany, Italy and Britain. And we would not worry about warships.

Alfred P. Sloan, president of General Motors, told stockholders he bought "a substantial interest" in Opel, great German automobile concern, to develop German manufacture of automobiles rather than synchronize it with organization and methods entirely American.

This country depends largely on export of manufactured articles. It is, therefore, interesting to hear from Mr. Sloan that in Europe, his company, in 1923, sold \$1,000,000 worth of units, sold more automobiles than any European concern manufactured.

Mr. Sloan's plans for Europeans the kind of car they want at a price they can afford. Not so rich as we, they do not demand so much luxury.

Mr. Sloan, Mr. Ford and others in this country may need to produce a cheaper car than any now offered.

General Wood, head of Sears, Roebuck, plans a car for \$250. Henry Ford years ago showed the writer a small, powerful engine, made for a car to sell at \$250. He probably has kept the plans for that product.

Professor Hinsley of McPherson college told scientists at Michigan oils that genuine diamonds of superb color can be made by subjecting ordinary table sugar to a pressure of ten tons to the square inch. He has produced such diamonds in his laboratory.

In another laboratory, the beneficent Mr. Smith is about to prove that he can produce for Ireland enough money to buy all the diamonds in South Africa by subjecting ordinary table sugar to a terrific pressure of two cents or one cent pound.

Standard and other oil stocks have been going up since the British invasion by "Shui." The 24,754,967 shares of Standard Oil of New Jersey are worth about two billion dollars now.

That is just one fragment of old Standard Oil built up by Mr. Ickes, teller and chopper of pieces by a rampaging government because it was supposed to be worth "nearly" a billion altogether.

What old Standard is really worth, now nobody knows. Including oil in the ground, ten billions probably would be a reasonable price.

Mellon, needing \$500,000,000 for Uncle Sam's use, invited subscriptions to treasury certificates. He was offered \$1,486,000 almost a billion more than needed.

He did not pay 9 per cent for the Federal reserve 6 per cent discount rate either.

Mr. Mellon could have bought the \$500,000,000 of certificates himself, and saved on income tax. But he avoids all business connected with government. And besides, he knows how to invest more profitably.

In his government Mussolini held eight posts. Now the powerful Italian resigns seven of his cabinet offices, remaining premier and minister of interior only.

The king announced the changes by royal decree. Mussolini told him what to announce.

The years are passing. Mussolini knows it and seeks to build a government machine that will survive.

The Italian question is: "After Mussolini, what?"

Twenty-eight European nations are working at a plan called "The United States of Europe Plan." Germany says she will join, but not if there is an anti-American pact.

That's another hint to President Hoover and others responsible to make this country strong enough to take care of itself.

The circus is now a jest. John Ringling having bought all of any size. The "What Is It" sacred white elephant, Siamese twins, lady bareback rider will soon come out on the ticker in stock quotations, as they do in real life, on the sawdust.

Highway sign painters and their customers make the country hideous. Illinois has a plan to fight that evil. Trees and shrubs will be planted along forgotten highways, beginning with places where offensive signs are already located. Other states might adopt the idea not patented.

NORTHLVILLE, MICHIGAN, FRIDAY, SEPTEMBER 26, 1924

### A GOOD EDITORIAL

The sermon of Rev. William Richards a few Sundays ago pertaining to the youthful pupils of the Northville public schools was a very good editorial.

The children in laughing groups on their way to school the first day, and the cordial greetings they all gave him stirred Rev. William Richards to speak about the child life of Northville. The text of the morning was from the ancient account of Jacob and Benjamin and had to do with the statement that "His life was bound up in the lad's life." When the life of a child is launched on the tide of time and eternity parents have some responsibility which they cannot dodge, evade or side step."

Proper attention may be given to their physical welfare, some to their education and very little to their social requirements. The state compels attention to the education but when it comes to character building many folks adopt a do as you please attitude and expect good citizens. Rev. Wm. Richards pointed out that children will copy the vices of the parents rather than the virtues and that it was a poor time to find out their mistake when the harvest begins to come in.

Parents must lead their children not force them. They must have what they want copied.

### EXCHANGE WEEK

Just at the present time Michigan weekly newspapers are conducting what is generally termed an exchange week among the papers. In looking over the many newspapers that are just now coming to the Record office we are impressed by the subjects that seem to hold most general interest in the various sections of the state.

We note from papers coming down from the Thumb section that the highest state tax Michigan has ever been called upon to pay is occupying the minds of the editors, as well as consolidations of potato shipping interests. From papers that trickle down from the Upper Peninsula it is learned that the forest fires of the present year have been exceedingly severe and that thousands of acres of land have been swept over.

The sheriff of Hillsdale county each week writes a letter to the newspapers telling what he has done. His report of the activities of his office provides the readers of the Hillsdale county newspapers with considerable data about his office as well as propaganda for the sheriff.

Over in western Michigan bus and truck crashes as well as automobile accidents seem to be the general topic of editorial discussion for the week.

That part of the state has recently experienced numerous serious accidents and the editors are urging greater precaution on the part of auto and bus drivers.

A study of the papers of the state seems to impress one with the immense size and of varying interests of the great community after

### WHAT GAMBLING DOES

Gambling has wrecked more business in Michigan and more lives than possibly any one other thing. Even those of occupying high positions in the financial world are not immune to its sting.

For nearly ten years George H. James enjoyed such an excellent reputation as manager of the Conference Credit Commercial State Bank branch at Fort street and Military avenue in Detroit that his employees felt it unnecessary to keep more than a superficial check on his operations.

A study of the papers of the state seems to impress one with the immense size and of varying interests of the great community after

Friday James was sentenced to prison for embezzeling large sums from the institution that held him in such high regard.

And the story behind James' ruin in the opinion of officers of the probate department of the Recorder's court who Wednesday submitted a report on James to Judge Frank Murphy, is a story that has much to do with the green felt tables out at "Lefty" Clark's.

Precisely, the significant part of the probate department's report reads, as follows: "While he does not admit it, James probably lost most of the money he embezzled to Lefty Clark and others of his ilk."

During his ten-year management of the bank branch, James increased its deposits from \$400,000 to \$1,100,000 by astutely taking advantage of the growth of the industrial district in which the branch is located. His reputation with high officials in and out of his organization increased steadily year after year. In time he was rated as the finest branch manager in his institution.

Then a sudden change came over him. He became irregular in his hours, began drinking heavily and so conducted himself that his dismissal last June was unavoidable. But it was not until after he had been discharged that the shortages charged against him, which have been fixed at about \$27,000, were discovered.

He fled to Canada, but his escape was short-lived. Two months ago he surrendered to the Detroit police. For a time he denied the charge but finally, on August 31st, he changed his plea to guilty.

Meanwhile several prominent business executives who have known him for years and who point to the fact that he never before was in trouble have pleaded with Judge Murphy to exercise leniency.

James is 39 years old. He is married, but has no children.

### COMMUNITY TRIUMPH

By the time this editorial is read the Northville Wayne County Fair for the year 1929 will be almost over. The directors and officials of the association have already started work on the 1930 fair. They are doing this because they know that it is absolutely essential to work a long way in advance.

Early predictions that the 1929 fair would be a success have been borne out. It is without question the best fair Northville has ever had. It is a triumph of community activity. Everyone in Northville helped to make it a success. The community was aided by many influential friends, such as William H. Maybury Capt Edward Denison, Dr. Robert H. Haskell, Phil Greenan and others. To them, not only the fair association, but the entire community extends its sincerest appreciation.

They have shown their interests in Northville and its future in "more ways than one and we are all deeply grateful.

The fact that Northville year and year out can stage a fair that is a credit to the state demonstrates one thing clearly—that the community can work together on big things. And that is what counts in community life.

## Etiquette~

By James Lewis Hayes

Folks, you must meet Aunt Dulcie-Crutch  
Who talks on etiquette and such!

Ahem! Dear friends, to say it plain,  
Bad manners give me such a pain!

Now, please don't be offended,

Who wants to know their etiquette  
And how their littles should be et-

You do? Now ain't that splendid!

Don't dent the easelene with your teeth  
When eating peas. Look underneath

Each waffe ere you eat it.

When spilling things it's always best  
To have the gravy match your vest.

Don't talk; just eat and beat it!

Don't cool your coffee in your plate,  
That's what your saucer's for. But wait!

Don't blow it—fan it gently.

I don't know no more etiquette,

But, when in doubt how things are et,

Just watch your host intently.

## WEST POINT PARK

(Delayed in mail and too late last week.)  
 Dr. and Mrs. Miller were out from Detroit Friday, calling on friends in this district. Mrs. Miller was one of the friends who took them to Farmington to spend the afternoon.  
 Dr. and Mrs. Fred George have returned home after spending part of the vacation at the Howard Middlewood school attending Normal school at Wisconsin. His mother, Mrs. George Middlewood has gone to Cairo, where she will teach school this year. George and Homer Middlewood will attend Cass High in Detroit.

William McIntosh reports a very short crop of tomatoes and other garden crops. Cucumbers and vines are dried up for the want of rain; vegetables are scarce and high. Fruit is not what it ought to be. There are prospects of a good crop of grapes this year, also peaches.

Mrs. John Morris is spending a few days in Ohio with her aunts.

The Community Club met in Community hall, Wednesday, A. P. Luckman was helped and joined. The following officers were elected: President, Mrs. Zelma Wolfe; Vice-President, Mrs. Rose Dunn; Secretary, Mrs. Zephallen; Treasurer, Mrs. Madeline Cochran. The members adjourned to meet with the Cooper in October.

Thursday evening Charles Wilson motion pictures of all the ball players in the game with the Plymouth team, which were just like life. Also showed pictures of Community hall and the cooks who served the chicken supper. Johnson was pleased with the pictures shown.

The Parent-Teacher meeting was held Wednesday evening with a good attendance. After the business meeting program was presented of songs and instrumental music. June Alli gave two pleasant readings; Maurice and Kenneth Wolfe sang two songs that were appreciated.

Mrs. G. Wolfe and son Harry and family appreciate the kindness of Gordon Grove friends in preparing the delicious supper that was ready for them on their return from their fishing trip at Houghton Lake. Such kindred is not forgotten.

Great changes have developed in real estate. The brick block owned by George Gullen has been traded for a farm, and other changes are expected. West Point Park is now looking for a great boom.

The Pedro party Saturday evening was largely attended and enjoyed by all taking part. Prices were won by Mrs. Heller and Mrs. Fabel. Mr. Bratton and George Gunn. A pot-luck supper was served by the ladies. Mr. and Mrs. Bright Ash acted as hosts. On September 23rd will be the next party, when Mr. and Mrs. Charlie Taylor will be in charge of Illinois at Ohio State, Purdue at Indiana, Wisconsin at Minnesota, Washington at Chicago, Notre Dame at Northwestern.

Revitzer says  
 "When it comes to  
 Shoes It's better to  
 Say, I'm glad I did"  
 Than I wish I had.  
 and what

Revitzer says so

Well, anyhow, now's a good time to begin treating your feet as if they belonged to you. If they feel cross and discouraged you can brighten up their lives considerably by giving them a comfortable rest in a pair made-to-order-and-guaranteed-to-do-so shoes.

## VETERANS GIVEN ROYAL WELCOME IN NEW ENGLAND

Frank Perrin Back from Great Encampment at Portland, Me.

(Delayed in mail and too late last week.)  
 Frank Perrin, veteran life and drum corps leader of Michigan, is back from the National encampment of the Grand Army of the Republic held at Portland, Maine, enthusiastic over what he terms "was one of the greatest meetings ever held by the survivors of the Civil War."

Portland outdid itself in showing us a good time. One of the big monilaries of that city gave

a special banquet for the Michigan life and drummers, and I tell you we had a good time.

### Local News

A new electric sign has been placed in front of the public library.

St. Paul's Lutheran bids all a hearty welcome.

Mrs Tom Woodbury and daughter Betty, are visiting relatives in Chicago.

There will be a baby clinic at the village hall on the afternoon of September 25th, at 2:30 o'clock.

Mrs Henry Vandenberg of Pontiac is caring for her daughter, Mrs.

Frank Heintz of Northville.

Mr. and Mrs. LeRoy Stewart have

returned to Northville after a week

spent at the Soo and other northern

points.

Mrs George Hills and daughter

J., on Sunday, September 15, both

mother and babe are doing nicely.

Mrs John McCully was a visitor

with friends in Detroit Monday

afternoon.

The Home Missionary society of

the First Methodist church will

meet Tuesday afternoon at 2:30 at

the parsonage.

The library will be closed Saturday afternoon on account of the fair. It will be open Saturday evening at the usual time.

Budd Allen was taken to the Uni-

versity of Michigan hospital last

Sunday night for an emergency

operation for appendicitis.

Mrs Ray Gould of Nashville is

the guest of Mr. and Mrs. Joseph

McNeil of the Trossachs during the

fair.

Rev Miller of Algoma was a

guest at the Rotary club meeting

Monday. He spoke at the Presby-

terian church on Sunday.

Edward Mullis, president of the

Rotary club, and Edward H. Lap-

ham attended the inter-city meet-

ing of Rotary clubs held Monday

night at London, Ontario.

The confirmation class for chil-

dren will again be resumed in the

near future. Please watch next

week's edition for further particu-

lars.

The Auxiliary of the Presbyterian

church meets September 24th with

Frances Larson on Dunlop Street.

Workmen have been busy this

week placing equipment for the talk-

ing pictures that are to be shown at the Penniman-Allen theatre.

There was no meeting of the Exchange club this week on account of the fair, practically all of the Exchange members being active in fair work.

Mr. and Mrs. Muller of Connecticut and Miss Hicks and Miss Pinney of Providence, Rhode Island have been guests of the Eaton family of Eaton Drive, for the past week.

At Monday night's meeting of the village commission it was decided to place a light on the curve that has been built from the end of Main street to Plymouth avenue.

The addition of new street has been twofold light since the paving was opened.

Sup. William H. Gordon who has charge of next Monday's meeting of the Rotary Club has secured Mr.

Heaveren of Detroit to speak at next Monday's meeting of the Rotary Club. He will tell just how a Rotary boy scout should go about to back a Boy Scout troop.

Mr. and Mrs. Elmer Kator were

surprised one evening last week when several of their Detroit friends

came out to help them celebrate their 35th wedding anniversary.

The evening was spent in playing bridge and visiting. The visitors provided an excellent dinner for the occasion, as well as leaving many useful gifts.

Wellington Roberts, who under-

went an operation for goitre at the Deaconess Evangelical hospital in Detroit, is getting along fairly well.

He will probably be able to see friends during the early part of the week. Mr. Roberts has not been in the best of health for some time, and it is believed that the operation will relieve him of his trouble.

when we repair your shoes

Like new? Yes, and better materials than usually found in new shoes. We guarantee our workmanship also and give you a finished job that rivals the appearance of new. Bring us your shoes the next time.

**SUPERIOR SHOE REPAIRING  
DRY CLEANING COMPANY**  
H. H. TURNHAM, Proprietor

the three summer months and also to Rockport, New York, the old home, months by illness, this being the

most "boycant" during the last seven weeks has created a drought

that has not been equalled in severity since that of 1924.

As a result of the late season crops have suffered greater declines in condition than in any recent year, according to the September report issued by Herbert E. Powell, Commiss

ion of Agriculture, and Verne H. Church, Agricultural Statistician.

Mr. and Mrs. A. M. Whitehead

and Mr. and Mrs. A. K. Dolph have

returned from a very delightful

automobile trip to Niagara Falls and

various cities of New York state.

They left here on Monday, September 9, Mrs. Nelle Barker and James Thomas of Detroit driving out to

Northville to take the local residents

on the eastern trip. Following their

visit to Niagara Falls, they went on

to Rockport, New York, the old home,

months by illness, this being the

first time she has been able to leave her home during the present year.

**Summing It Up**

They conquer who believe they can.

He has not learned the lesson of life who does not each sur-

mount a fear.

## ROAD WIDENING CHIEF AIM OF RD. BOARD OFFICIALS

Edward Hines Says Now  
is the Time to Act for  
Public Protection

There is no time like the present, "applies to road widening, with more force than any other activity," stated County Road Commissioner Edward N. Hines, yesterday.

When the adjoining land consists of raw acreage or farm land, additional width of right-of-way may

be acquired by dedication or at a relatively small cost.

As real estate, industrial or other activities draw near, the cost of acreage rises, and after the first development is made, usually subdivisions, the cost of widening is immediately multiplied several times, and when a row of buildings occupies the line of the highway, another multiplication has been made.

The existence of the Master Plan brings about a genuine co-operation in the development of the outer territory, so that it is guided and controlled in an organized manner in the interest of future freedom and safety of transportation.

What development, without plan and ordered in keeping with personal opinion, can ultimately do for any community may easily be appreciated by anyone who will take the time to travel that section of Detroit that lies between Woodward and Trumbull avenue, Vernor highway and Forest avenues. Here is a large section of the city without any jogged or jagged ended

in motion and expediting traffic.

The separation at the crossing of Michigan avenue and Southfield road, both 204-foot wide superhighways in Wayne County, Mich., is an example of what can be accomplished in the construction of such grade separations.

It is also the forerunner of thousands of such separations that will ultimately be constructed well over the nation for it was built to fill a demand and not to create one. It is, in itself, proof of the need.

The location is ideal for such a project and, in addition, is quite unique from the fact that a grade separation with the Michigan Central railroad, is also involved, and it was necessary to move the channel of the River Rouge 300 feet to the south.

The magnitude of the whole project may be sensed from the acreage of land required, states Mr. Hines.

A total of 1,615.67 square yards of concrete is our total for the period surpassing our best previous record by nearly a half million square yards.

This yardage approximates 155 miles of 18-foot concrete roadway.

However, as our standards of width are greater than 18 feet, the actual mileage totaled 61 miles of new concrete road and 30 miles of old concrete widened.

The ultimate minimum width of our roads is set at 40 feet and the widening of our old concrete roads mileage is one of our major activities.

The exceptionally large yardage of concrete built this year is due in no considerable measure to the activities of the State Highway Department and the Federal Aid Road maintenance crews built or widened

Grand River 204-foot superhighway, Michigan 204-foot superhighway, the Dix-Yorkland road, widening of Plymouth and Telegraph road, acquiring for over 300,000 square yards.

Extremely impressive properties we also have on our bridge railroad grade separation and roadside de-

velopment plans.

The grade separation project between Michigan 204-foot superhighway and Southfield 204-foot superhighway is now open to traffic. Mr. Hines stated.

This grade separation is a progressive forward movement in modern land transportation engineering. It is true that the ancient bridged ravines and gullies are in such a manner that one highway crossed over another, but in most instances of such construction the

only purpose was to keep the upper highway at a grade and thus avoid dangerous inclines. Crossing another highway was merely incidental.

It is also true that since the early days of railways it has been common practice to carry heavy traffic highways over or under the steam

road tracks and thus avoid grade crossings.

It is next, however, to take the regular highways crossing at grade, separate the grades, so that one highway passes under the other.

It provides means of turning from one into the other, doing this for the purpose of keeping the two-way traffic on both highways constantly in motion and expediting traffic.

The separation at the crossing of Michigan avenue and Southfield road, both 204-foot wide superhighways in Wayne County, Mich., is an example of what can be accomplished in the construction of such grade separations.

It is also the forerunner of thousands of such separations that will ultimately be constructed well over the nation for it was built to fill a demand and not to create one. It is, in itself, proof of the need.

The location is ideal for such a project and, in addition, is quite unique from the fact that a grade separation with the Michigan Central railroad, is also involved, and it was necessary to move the channel of the River Rouge 300 feet to the south.

The magnitude of the whole project may be sensed from the acreage of land required, states Mr. Hines.

A total of 1,615.67 square yards of concrete is our total for the period surpassing our best previous record by nearly a half million square yards.

such a manner that one highway crossed over another, but in most instances of such construction the

## HIGH PRICES FOR POTATOES INTEND BY CROP REPORT

Verne Church Says There  
Is a Shortage All  
Over Country

With the harvest season of the late potato crop at hand, both growers and consumers are interested in the production and outlook.

"From the acreage lost

July 1st looked for a crop of 19 million bushels." Since that time drought conditions have developed in nearly all of the late producing states east of the Rocky Mountains, except Maine.

"On September 1st,

reports from the thousands of government crop reporters indicated that a loss of 30 million bushels had been sustained since July 1st, which reduced the estimate of 349 million bushels.

The decline during August alone was 24 millions of which Michigan suffered to the extent of five and one-half millions; Wisconsin,

Illinois, and one-half millions; New York, three millions; Pennsylvania, three and one-half millions, and Minnesota, two and one-half millions.

"The only state with an appreciable gain was Maine, the estimate being increased by two and one-half millions."

Commenting upon this situation, Verne H. Church, agricultural sec-

retary, says, "There is also two 28-foot clear concrete roadways, two 22-foot openings for future roadways, and

including sidewalks, 15-foot num-

ber, 15-foot clear, 13-foot num-

ber, 13-foot clear, 10-foot num-

ber, 10-foot clear,

## WEST POINT PARK

The yearly business meeting of the church was held in Community hall about forty being present. Dinner was served in the dining room. Mrs. Loud will be the speaker to meet with the women of the church, and she will be entertained by Mrs. C. Wolfe.

The house belonging to Mr. Hemsthal is almost completed, and he and Mrs. Hemsthal will soon be residents of our town.

Mr. and Mrs. Gillespie have moved from Detroit into the house vacated by Albert Bennett, who moved with his family to Northville last week.

Evelyn House is occupied in West Point Park, and people looking for one. We expect some good houses to be built very soon.

There was a frost Thursday night, but could do much damage as everything is dried up.

Next Sunday Mrs. Loud will speak in the church here on her experience in Asia for thirty-two years. She will tell all about the women's lives in that far away country.

Mr. and Mrs. Thomas DeVevey, moved to Leopold, Indiana, and spent the last of the week with the latter's brother.

West Point Park people are anxious for warm dry weather during the fair at Northville. Many people here have not seen one of the others and have looked forward to see a good rural fair.

Mrs. Ernest Ash and her daughters were Detroit visitors Friday.

Mr. and Mrs. Mansfield and daughter, Mrs. Strasberger, returned home from their trip. They stood the journey and enjoyed

themselves, but glad to be at home again.

Mrs. Earl Wolfe had a bad scare on Monday evening when she got in her car to find a man had passed session. Fortunately Mr. Wolfe was right behind her. The man would not make an explanation, but went away after being chastised for his boldness.

William McIntosh left Thursday for a few days in Pennsylvania.

Mr. and Mrs. George Gunn took a motor trip recently to Flint.

Little Jack Gun is visiting his grandmother, Mrs. Dawett, in Reedford.

A committee from West Point Park went to Northville Friday evening in the interest of the Parent-Teachers association, and were accompanied by four teachers from Person school. Lunch was served after the business session. The officers from here report a pleasant evening.

Mrs. Evelyn Rose visited our church Sunday morning with her daughter, Mrs. Albert Owen, and family.

Mrs. Dorothy Beech accompanied Mr. and Mrs. William Sherman and family to Findlay, Ohio, when they took Mr. Sherman's father, who had been visiting here, to his home in that place.

Housewarming in our district four of our teachers rented an apartment in Northville—Misses Edwards, Schrank, Holer, and Warner.

The first class met at the school.

Mr. Martin Addis, Thruway, has a large number of students. After the business meeting games were played and a picnic followed.

The next meeting will be held at Mrs. Horner's.

The ball game between the city of Hamtramck and West Point Park was fought out on the diamond here. The home team led the game from start to finish. Score 4 to 5 in favor of our team. Carl Giers pitched. Himesiek was the catcher for our team. A very large crowd was present to see the game. The same teams will play at Hamtramck on September 22nd. Both teams are putting forth every effort to win the championship and cup that the governor of the state has offered the winner.

To give a "tooth" to a new galvanized iron surface that is to be painted—that is, to roughen the surface slightly so that the paint will take hold—a strong water solution of copper sulphate (blue stone) ammonium chloride (sal ammoniac) or ammonium phosphate can be used. Chemists of the U. S. Department of Agriculture, "Acids are often used for this purpose, but may injure the surface. Sometimes a special undercoat of thin, elastic, flat varnish containing silica or a siliceous material in suspension, is applied to galvanized-iron surfaces before painting. Galvanized-iron surfaces that have been exposed to the weather for a year or more need no special preparation, except for the removal of any rust."

Beef meat is better cooked without water. In case there is not very much fat, get an extra piece of meat and skewer it to the top. Place the meat in a very hot oven to sear on the outside. Then reduce the temperature and cook slowly until done.

SQUARE DEAL MILLER, JR.

DONATES BASEBALL TROPHY

Keener rivalry in Saturday's baseball game at the Northville Fair is expected as the result of an announcement by Square Deal Miller, Junior, Detroit Jeweler, that he will contribute a magnificent trophy to the winning team. An ardent exponent of baseball, Miller has done much to stimulate the development of amateur league ball in Detroit and adjacent suburbs and many successful sandlot clubs were personally financed by him. The trophy which comes as a voluntary gift is being exhibited in the window of Schrader's Furniture Store.

OFFICIAL PROCEEDINGS OF THE VILLAGE COMMISSION

A regular meeting of the Village Commission was held in the Village Hall, Monday, September 18, 1928. Present—Mayor Filkins, Commissioners Langfield, Schultz, Tewksbury, Van Valkenburgh, Walker.

Absent—None.

The meeting was called to order at 8:00 p.m.

The finance committee audited the following bills:

Howard Cole, overseer \$ 80.00

Edith Peck, bookkeeper 50.00

Edith Peck, stamps for 3.00

Wm. Walk, nightwatchman 36.25

Mrs. Slater of Detroit, Sundae at the home of Spencer Clark 61.20

The Misses Porter of Blissfield, were guests of their uncle, M. A. Porter, a few days this week.

Mrs. Emma Burner of Bear Hollow, has been the guest of her brother, Will H. White, and family this week.

Mr. and Mrs. Ernest Miller spent last Thursday and Friday in Detroit, the guests of Mr. Miller's mother.

E. K. Burnham and B. G. Ellingson have requested their work at the U. S. fish station after a thirty-day vacation.

F. S. Hirshorn and George Huebschmann skipped off to Buffalo and Niagara Falls, Saturday night, and stayed until Wednesday.

Pat Terrell has left the Van Aken & Rydell grocery to attend business college.

Poor weather has not been fair weather all fall week this year, either.

Perrin's martial band always

turns up on the streets here now every Saturday evening.

Konjola Put an End To All Of My Ailments

"My One Regret About New Medicine Is That I Did Not Take It Sooner."

Carried.

On motion Commission adjourned.

SHERIFF AMBLER, Village Clerk.

PUT EUROPE ON 24-HOUR SERVICE

Transatlantic telephone service was put on a 24-hour basis beginning September 10. This was done to meet the requirements of a constantly increasing demand. For the past year the daily service period has been from 6:30 a.m. to 10 p.m. New York time.

This enlargement of the service has been facilitated by the recent opening of the short-wave radio transmuting center of the American Telephone & Telegraph Company at Lawrenceville, N. J.

Two short-wave transmitters are now in operation there, providing, with the original long wave circuit, a total of three radio telephone channels across the Atlantic.

Heretofore, due to the difference in time between points linked to the overseas, telephone, a maximum of six hours between Michigan and middle Europe and nine hours between California and the same old world territory, the service has not been available everywhere throughout the business day.

The 24-hour service will remove that drawback.

It is expected, also, that it will make the use of the service more convenient, although it cannot eliminate the handicap imposed by the rotation of the earth, in consequence of which the businessmen in San Francisco are reading their morning paper long after those in Vienna have gone home to supper.

The Angora goat not only provides mohair for the upholstery of the parlor furniture and other things, but in parts of the East, the Middle West, the Ozarks and the Pacific Coast states it is utilized to clear brush from farm and pasture lands.

On some range areas where

Angora goats have brought better returns than were obtained with other livestock.

MR. JAMES IVALS

I tried a score or more of medicines in a vain effort to escape from the clutches of indigestion, constipation and weak kidneys," said Mr. James Ivals, 207 North Second street, Niles, Mich. "I had no appetite and what I did eat caused gas and bloating. Constipation saturated my system with poisons and impurities, and in this the kidneys helped."

"I heard and read so much about Konjola that I felt it must have merit and worth of a fair trial. How glad I am now. In three weeks the constipation was relieved and the kidneys strengthened and the poisons were eliminated. My appetite and digestion improved rapidly. Konjola put an end to all my ailments, and that is why I take pleasure in recommending it to others. My one regret about this new medicine is that I did not take sooner."

Konjola is sold in Niles, Mich., at the Northville Drug Company, and by all the best druggists in all towns throughout this entire section. Advt.

the chinch bug is only one-sixth of an inch long, but it is one of the worst pests of grain and grass crops in the country. Control of this pest, says the U. S. Department of Agriculture, must depend chiefly on three things: Burning the bugs in their winter quarters; growing crops on which they don't feed; killing them by the use of barriers, sprays or dusts.

Spraying and dusting to be effective against the chinch bug, are expensive and are recommended only in cases of emergency.

The chinch bug will not feed on legumes or any truck crops except sweet corn.

officers and to discuss certain plans. The new officers are as follows: President, Mr. Guelick, principal of Wayne high school; secretary and treasurer, Mr. Amerman, principal of Northville high school.

Mr. Roosevelt high school in Ypsilanti has returned from the session. This is to take effect at the close of the football season.

Plans had to be made to have the Suburban League consist of eight schools, so the following schools have been invited to join: Plymouth, Belleville and Livonia.

Plans for the basket ball season and the decision of these schools will be known after the November meeting.

## LAST WEEK'S FEATURE NOTE

### A PORTRAYAL OF FACTS

The Journalism staff wishes to explain that all articles which appear in the Orange and Black section of the Record are written by the members of the class whose names appear on this page.

Last week there was a misunderstanding in regard to a certain article which was written simply for a feature story, and should be judged for its value as a composition rather than a portrayal of facts.

### GEOGRAPHY CLASS SEES LANTERN SLIDES

The high school geography class who have been studying mines and different kinds of rocks in all parts of the world, were shown lantern slides illustrating all the things studied last Friday.

The pictures showed mines at work in diamond, silver, gold copper and lead mines in various countries.

Slides of marble and granite quarries in the New England states were among those shown.

### HIGH SCHOOL CLASSES ARE ORGANIZED

The three upper classes called meetings Tuesday for the election of officers which resulted as follows: Sophomore—President, Marvin Tibble; vice president, Herbert Berendt; secretary, Jane Lawrence; treasurer, Donald Robinson; alderman, Bernice Clark.

Junior—President, Margaret Norton; vice president, Miriam Richards; secretary, and treasurer, Frances Springer; alderman, Ted Cavell; class advisor, Mr. Jacobson. Senior—President, Charles LeFeve; vice president, Leona Mumford; secretary and treasurer, Dave Menzinger; class advisor, Miss Baumbridge and Miss Arnet.

### THIRD GRADER WRITES STORY

The following story was written by Lindsey McCandlish of Miss Brooks' third grade. It is one of the best of his class:

**The Dingus' Duck**  
Once upon a time a bluejay was flying over a house. He flew down, down, down in a ditch. He rolled a large chinquapin off a window sill. Then he flew off to look for the crop. He found her in a tree in the room. In told her the joke. The crow and the bluejay took the crop and said, "Let us take it to Little Miss Nuttnatch's nest and surprise her." All went on all night. When Little Miss Nut-

### JOURNALISM CLASS IS ORGANIZED

The high school journalism class is composed of only eight students, but these students are doing their best to make the school paper worth reading. The following staff and their duties were appointed:

Miss Parks—Faculty Advisor.

Alex Johnson—Editor.

Helen Stratton—Assistant editor.

George Greene—Sport Editor.

Jane Lawrence—Feature Editor.

Clementine Thigpen—Bernice Clark.

Charles Münzinger—Evelyn Davis—Reporter.

### HOME ECONOMICS CLASS CANS TOMATOES

Miss Jarvis' eighth grade home economics class canned half a bushel of tomatoes, Wednesday morning.

The cooking classes of other years had never canned anything, so Miss Jarvis, the new home economics teacher decided that canning would be a good project for the class. She purchased cans and half a bushel of tomatoes.

On Wednesday morning the class started to can, and at the end of the class period eleven quarts of tomatoes had been canned without any misfortunes. Hence the "tomatoe" smell in the halls.

### CHEMISTRY CLUB MEETS IN MISS ARNET'S ROOM

Monday night, at 7:30 o'clock a meeting of the chemistry class was held in Miss Arnet's room. At this time a club consisting of the members of the class was organized by the instructor. It is to be known as the Chemistry Club.

The purpose of this organization is to learn more about science and to hear reports on different scientific subjects which cannot be given during class hours. It was decided to hold a meeting every two weeks.

Robert Coleburn was elected chairman for the next meeting, at which time a short program will be given. The program will be as follows:

An exhibition of eating fire—Robert Coleburn.

A Report on Hydrogen—Ryan Ely.

A Report on Why Hydrogen and Helium are Used in Airships.

### FIRST GAME OF SEASON TO BE PLAYED AT MILFORD

Townspies and students turn up your vocal cords and fill the Fords with gas, so that you will be able to go and support the Northville high football team at Milford. The game will start at 4:00 o'clock on Friday, September 20th, and should be a very interesting game.

Mr. Stephen intends to take the entire squad so that he can find out what material he has out for football this year.

So, don't forget to support the team on Friday, September 20th.

### LATIN CLASS DOES

PICTURE WRITING Pre-historic caveman's method of writing is being studied by Miss Noble's eighth grade Latin class. They seemed to be quite enthused in the study of his home and ways of living.

The people of that time dwelt in caves and spent most of their time fighting wild animals.

Their form of writing was drawing crude pictures with sharp stones to imitate the object of their thoughts.

The students who seemed most

hatched came home and saw egg she started to work. She sat on it for many days till at last it fell apart and out of it came the queerest little thing. It walked up the edge of the nest and away it went.

It walked and walked till at last it came to an arid plain. It climbed on a wing and took a seat. When it awoke it heard loud song. It looked way down and saw the news on the wing down, down, down, and SPLASH! It was in a pond. He swam by on the sand, and there

the little duckling duck lives.

### PARENTS TEACHERS HAVE A PARTY IN GYMNASIUM

Fathers, mothers, and teachers of Northville students all met together for a party at the first Parents-Teachers meeting of the year, held in the gymnasium, last Thursday evening.

Mayor Wilkins welcomed the new teachers to Northville. Mrs. Joseph McLaughlin, president of the association, also spoke. She encouraged the friendly spirit of parents in involving their children's teachers in their homes. "Nothing can do more toward making a child feel as if his teacher is his friend," she said.

Mrs. Beaver, chairman of the entertainment committee, led the games, including simple games and the more strenuous ball games.

The slogan of the club is "We want one hundred per cent membership in our school this year."

The officers urge the fathers, as well as the mothers, to join the club.

### DRAMATIC CLUB ELECTS OFFICERS

The Dramatic club elected the officers for the year on Tuesday, September 10th. President, Catherine Stalter; vice president, Elmer Perrin; secretary, and treasurer, Anne Richards; business manager, Edna Marins.

The election was followed by a discussion of the events for the year, which will consist of several plays.

### JOURNALISM CLASS IS ORGANIZED

The high school journalism class is composed of only eight students, but these students are doing their best to make the school paper worth reading. The following staff and their duties were appointed:

Miss Parks—Faculty Advisor.

Alex Johnson—Editor.

Helen Stratton—Assistant editor.

George Greene—Sport Editor.

Jane Lawrence—Feature Editor.

Clementine Thigpen—Bernice Clark.

Charles Münzinger—Evelyn Davis—Reporter.

### HOME ECONOMICS CLASS CANS TOMATOES

Miss Jarvis' eighth grade home economics class canned half a bushel of tomatoes, Wednesday morning.

The cooking classes of other years had never canned anything, so Miss Jarvis, the new home economics teacher decided that canning would be a good project for the class. She purchased cans and half a bushel of tomatoes.

On Wednesday morning the class started to can, and at the end of the class period eleven quarts of tomatoes had been canned without any misfortunes. Hence the "tomatoe" smell in the halls.

### CHEMISTRY CLUB MEETS IN MISS ARNET'S ROOM

Monday night, at 7:30 o'clock a meeting of the chemistry class was held in Miss Arnet's room. At this time a club consisting of the members of the class was organized by the instructor. It is to be known as the Chemistry Club.

The purpose of this organization is to learn more about science and to hear reports on different scientific subjects which cannot be given during class hours. It was decided to hold a meeting every two weeks.

Robert Coleburn was elected chairman for the next meeting, at which time a short program will be given. The program will be as follows:

An exhibition of eating fire—Robert Coleburn.

A Report on Hydrogen—Ryan Ely.

A Report on Why Hydrogen and Helium are Used in Airships.

### FIRST GAME OF SEASON TO BE PLAYED AT MILFORD

Townspies and students turn up your vocal cords and fill the Fords with gas, so that you will be able to go and support the Northville high football team at Milford. The game will start at 4:00 o'clock on Friday, September 20th, and should be a very interesting game.

Mr. Stephen intends to take

the entire squad so that he can find

out what material he has out for

football this year.

So, don't forget to support the

team on Friday, September 20th.

### LATIN CLASS DOES

PICTURE WRITING Pre-historic caveman's method of writing is being studied by Miss Noble's eighth grade Latin class.

They seemed to be quite enthused in

the study of his home and ways of

living.

The people of that time dwelt in

caves and spent most of their time

fighting wild animals.

Their form of writing was draw-

ing crude pictures with sharp stones

to imitate the object of their

thoughts.

The students who seemed most

adapted to the caveman style of writing were Ethel Mariner, Merle Fraser and Averi Crommer, whose drawings were considered the best.

### EDITORIAL

Now that Northville high school is well started on another year, the students, athletes and clubs, etc.,

should realize the importance

of a well-planned schedule.

**Salem Events**

Mr. and Mrs. Albert Groth arrived Sunday morning the dedication service of the new Lutheran "Hope" Church, corner West Chicago Boulevard and Stoepel avenue, Detroit.

Mr. and Mrs. C. V. Showerman and family of South Lyon were Friday evening callers at the Dale Buttermore home.  
Harold Benjamin and Knowles Buer were Detroit visitors, Sunday afternoon.  
Mr. and Mrs. W. H. Tousey and Mr. and Mrs. Julius Tait attended the fair at Jackson, Wednesday.  
Mr. and Mrs. Frank Buer visited relatives in Detroit, Sunday.

**Men's Furnishings**

A large and complete line of Men's Furnishings for all occasions.

See our line and let us show you the large assortment of Shoes we carry—we can fit the entire family.

WE SAVE YOU MONEY

**STARK  
BROTHERS**

You can now have

**Dustless Pocahontas  
COAL**

All the old inconvenience of dust settling all over your basement can be eliminated by ordering this new process treated coal that eliminates all dust. We are still selling the famous D. L. & W. Anthracite and Corlew Soft Coal, lump and egg.

We also have a full line

GLOBE POULTRY AND LAMB DAIRY FEEDS

Joe Groth and family of South Lyon, were Sunday afternoon visitors of his parents, Albert Groth and wife.

Mr. and Mrs. Frank Wilson entertained the latter's parents, Mr. and Mrs. Frank Galpin of Whitmore Lake, Sunday.

Mrs. Frank Buer spent Tuesday with Mrs. Edith Birch in Plymouth.

The Excelsior class of the Congregational church were very pleasantly entertained in the cozy Chas. Franklin home, Friday evening.

After the regular meeting games were enjoyed and dainty refreshments were served by the hostess.

Mrs. Charles Dailey in Salem Inn was Thursday afternoon hostess to the Congregational Ladies Auxiliary society for the September meeting, after which a splendid supper was served to a goodly crowd.

Mr. and Mrs. Ed. Payne and conference daughters and Mrs. Edith Buer, of Petersburgh, were Sunday dinner guests of Charles Payne and wife.

Other guests were Miss Bevila Hale and Joe Purrott of Mrs. Bert Richardson.

Mrs. Edith Burdenai and nieces, E. and A. Payne of Petersburgh, were Sunday afternoon callers at the Congregational parsonage.

Mr. and Mrs. Charles Mankin and children, wife Sunday dinner guests of their daughter and husband, Mr. and Mrs. Nolan, in Northville.

Miss Irma Kehr spent Saturday with her sister, Mrs. O. Dudley, in Redford.

Mr. and Mrs. Harry Birch of Detroit, were Saturday guests in the Vern Kahler home.

Mrs. C. W. Payne and Mrs. C. W. Lewis motored to Ann Arbor, Saturday morning.

Miss Ruth Wyson of Detroit, was a weekend guest in the R. E. Pennington home.

Mr. and Mrs. C. W. Payne are showing a wonderful collection of pictures taken during their wonderful motor trip in August through parts of Ohio, Pennsylvania and New York. They visited Pittsburgh, Gettysburg, Watkins Glen, and Niagara Falls. They were accompanied by Mr. and Mrs. Lawrence Miller and son, Donald, of Howell.

**Salem Congregational Church**  
Rev. Lucia M. Stroh, Minister  
Prayer meeting, Thursday evening  
at 7:45. Special study from the Book of Acts.

Sunday service, 10:30 a.m. Bible school, 11:45 a.m.

Special singing by the Junior class next Sunday.

A simple remedy for a scorch stain is to moisten the stain with water and place in the sun. For more serious cases, a piece of cloth moistened with hydrogen peroxide may be placed over the stain, covered with a dry cloth, and the spot ironed with a medium hot iron. If the hydrogen peroxide soaks through, replace the upper cloth. Be careful to see that the hydrogen peroxide does not touch the iron as it will raise it to rust very rapidly. Rinse the garment thus treated before ironing.

**Salem Supply Co.**

Mr. and Mrs. C. W. Payne are showing a wonderful collection of pictures taken during their wonderful motor trip in August through parts of Ohio, Pennsylvania and New York. They visited Pittsburgh, Gettysburg, Watkins Glen, and Niagara Falls. They were accompanied by Mr. and Mrs. Lawrence Miller and son, Donald, of Howell.

**Gothic Leader Interred**

Under Calabrian River

Wild regions have their buried treasure stories. Cosenza, chief city of Calabria, has one of the oldest and best, according to a writer in the Washington Star. It is of Cosenza that Alaric, first Gothic leader to conquer Rome, was buried along with priceless treasures captured in Roman lands with the fishes of the dying empire. Alaric and his barbarian hosts marched south to conquer Africa and the grain which abounded there. In Calabria Alaric died of the fever. His followers buried his treasure with him in the fashion of the day; but they made sure that the dead chieftain's repose would not be disturbed, either by avenging enemies or covetous treasure hunters. They diverted the course of the River Bisento and buried Alaric far below the river bed. Then they restored the river to its channel. For security's sake they put to death every one of the prisoners who had helped bury Alaric and marched on. The grave has never been discovered; though Alaric died 1,500 years ago. Legend has it that the grave is near the confluence of the Crati and the Bisento Rivers at Cosenza. When I saw this spot it was mostly dry gravel bed with a narrow stream at which the village women washed their clothes. During the rainy season it is a large river. Its secret holds the same fascination for Calabria that the Nemi galleys hold for Romans.

**Seventeenth of March**

Once "Noah's Ark Day"

Long before the Irish caught us that March 17 was St. Patrick's day, this date was celebrated in England for a very curious reason in the Middle Ages. It was regarded as the anniversary of the day when Noah entered the ark. Noah's day was specially made the occasion for the performance of the mystery play that dramatized with considerable freedom the Biblical record of the flood. In this Noah's wife was always the principal comic character, being depicted as the typical shrew.

The quarrels between Noah and his helpers created great amusement for the spectators. When the ark is ready the lady stoutly refuses to go in unless she may take some of her friends along. The patriarch, however, will not stand much nonsense, and when the time for embarkation comes he dispatches his three sons to bring their mother aboard. They find her with her gossips in a tavern and after much rough play and broad comedy they seize her and drag her to the ark. Arrived there she breaks out as a worse termagant than ever: shrieking with rage, and sets about beating her husband, much to the diversion of the spectators of merry England.

**Science Finds Another**

"Birthplace of Mankind"

The traditional site of the Garden of Eden as the birthplace of man is now thought to have been definitely abandoned. According to Dr. G. G. McCarty, paleontologist, man in his present form appeared about 1,000,000 years ago, probably in Mesopotamia. These people should not necessarily be "rested," but for relaxations in diversion and recreation. Unless our play actually gives us relaxation there is no benefit. American life at present is so arranged that play is not relaxation, but hard work, says Dr. Lyman H. Smith in Hygiene Magazine.

A still earlier type of man lived about 1,250,000 years ago, when the climate was uniformly mild. He managed to "survive" the successive ice ages, during which the glaciers descended from the north and covered a large part of the earth. During the fourth ice age early man was driven into caves to live and became a nomad.

According to Dr. Ernest Amrein, a Swiss geologist, man began to develop into his present form only about 12,000 years ago. It was about this time that the glaciers receded from the Scandinavian peninsula. It is thought that the polar ice caps also melted in another short period of 12,000 years, leaving the earth in a climate of permanent spring.

**Method is It**

At the former party one woman said to make smoking easier. She was soon in smoke, puffing with a smile, looking rather cool, tightly drawn up her eyes.

One of the guests found the sight more than his curiosity could stand, and asked another dinner the meaning of the phenomenon.

"With pleasure you soon him before?" exclaimed his fellow guest. "That's not right— I thought everybody knew that."

"But I still don't understand," said the other.

"Well," exclaimed the knowing one, "she's got an artificial sort of clip. He tells people he can make any cigar just by smoking it, and so he never has to buy any."

**Ants' Skyscrapers**

Compare with the structures built by the termites and the great skyscrapers of our cities are in a similar achievement. Man, who is five or six feet tall, has built or planned to build to a height of 1,08 feet. The termite, only three sixteenths of an inch from end to end, designs apartments rising 20 feet into the air.

Therefore man's buildings are only about one seventh as high as the dwellings of the ant, relatively—that is considering the great difference in their respective sizes. The cubic space in an ant hill will contain a million times more inhabitants than the largest human habitation.—Pritchard Magazine.

**Highest Capital**

In Piz. Polvira, is the loftiest capital in the world for it stands on a mountain top 12,470 feet above sea level. This is 2,000 feet higher than Quito, in Ecuador, and 3,000 feet higher than Mexico City. Its reservoir is 1,000 feet high, is the far-distant Jura, which stands at an altitude of 11,500 feet. The mean temperature of La Piz. is 50 degrees Fahrenheit. But the cold air is unrelieved by breeze, comfort, as the folk say, nothing to burn there being neither coal nor trees in the meseta mountainous regions around the city.

**Plant Heart Beat Doubled**

Plants have no beating pulse that propels the sap upward and such pulsations as have been recorded are due to the trembling of improperly adjusted instruments and not to the beating of the plant, experiments recently performed by several American and European plant physiologists indicate. The findings are directly in conflict with those of Sir Jagadis Chunder Bose, who announced some time ago the "beating heart" theory in regard to plants.—Popular Mechanics Magazine.

**Camp Meetings Protected**

Back in 1838 the General Court of Massachusetts gave protection to camp meetings by creating what was known as "The camp meeting mile." Within that distance of a "field meeting for religious purposes" it was decreed unlawful to hawk or peddle goods, to sell goods in tent or other structure, and to take care of horses for pay, unless the officers of the religious meeting gave their consent.—Detroit News.

**Kiss, by Mail**

The use of crosses for kisses owes its origin to the time when few could write and made their signatures by a cross. The letter was sold as a kiss symbol only.

**Absolutely Sanitary and Why not?**

Our products are produced and handled with only the most modern and sanitary equipment.

We are pleased to show you the modernness of our dairy and invite your inspection.
